

Hart Day Plans Begun

Help! Help! Help!

This is the cry of the Hart Day committee as plans are made for annual festivities which are scheduled Aug. 13

and 14. The initial meeting was held last Tuesday night with 15 persons in attendance. Mrs. Max Marble was selected as chairman; Mrs. L.C. McLain as

secretary-treasurer.

A bicentennial theme is being planned with the theme topic to be announced next week. All persons in the area are urged to

begin making plans for parade entries, booths, exhibits and their time in order to make this a successful Hart Day.

Traditionally the Lions Club will kick off the two-day event at 6 p.m. Friday with the cooking of charcoal hamburgers. Booths and exhibits are set to open at the same time.

Miss Hart Day competition has been changed to Friday night in order that the queen

can reign all day Saturday and be honored as Miss Hart Day 1976.

Saturday night, the street dance will climax the celebration which will feature games for all ages, contests, receptions, food and plenty of visitation.

Various committees and activities will be announced next week.

GARY JACKSON

KERRY GEORGE

Kerry George, Gary Jackson Attending Boys State

Kerry George and Gary Jackson are attending the 36th annual American Legion Boys State sponsored by the Department of Safety. The affair is held on the campus of the University of Texas.

Delegates are assigned to one of two political parties, the Nationalist or Federalist. Each citizen then functions, as a member of his party, in precinct, county and state conventions and votes in its primary.

Boys State helps develop civic leadership and pride in American citizenship. This program arouses a keen interest in the detailed study of our government.

Civic workshops stress the importance of maintaining our

form of government and brings better understanding of our national traditions and beliefs to more than 28,000 young men who are participating this year.

In Boys State, The American Legion provides the type of program where the young citizen has the opportunity to learn for himself that his government is just what he makes it. The boy "learns to do by doing."

One of the highlights of Boys State will be a visit of the Capitol with "elected officials" given an opportunity to serve his respective office for a day.

'The Americans' To Sing June 12

Hart Volunteer Fire Department is sponsoring an appearance of "The Americans," talented young musical group, Saturday, June 12 at 8 p.m. in the elementary gym.

Admission is \$2 with proceeds going to the indebtedness of the new fire truck.

The public is invited.

Music Program To Be Presented

An invitation is extended to the public to attend special musical worship services Sunday evening at 7 p.m. in First United Methodist Church.

MRS. GENE HUNTSINGER
BRIAN & RANDALL

Cook Of The Week

A recipe for lasagne which she has been asked to share is just one of the three tempting recipes shared by our Cook of the Week, Mrs. Gene Huntsinger.

Daisy says the cake is a family favorite, a different pound cake which requires no frosting. The carrots offer a new taste with the addition of Old English cheese.

Growing up near Moody, Daisy and Gene met when they were in high school. He was reared at nearby Lorena. They came to Hereford in 1966 and moved to Hart in September when their new home was completed. Gene had been commuting from Hereford to work after being appointed as vice-president of Farmers State Bank in February.

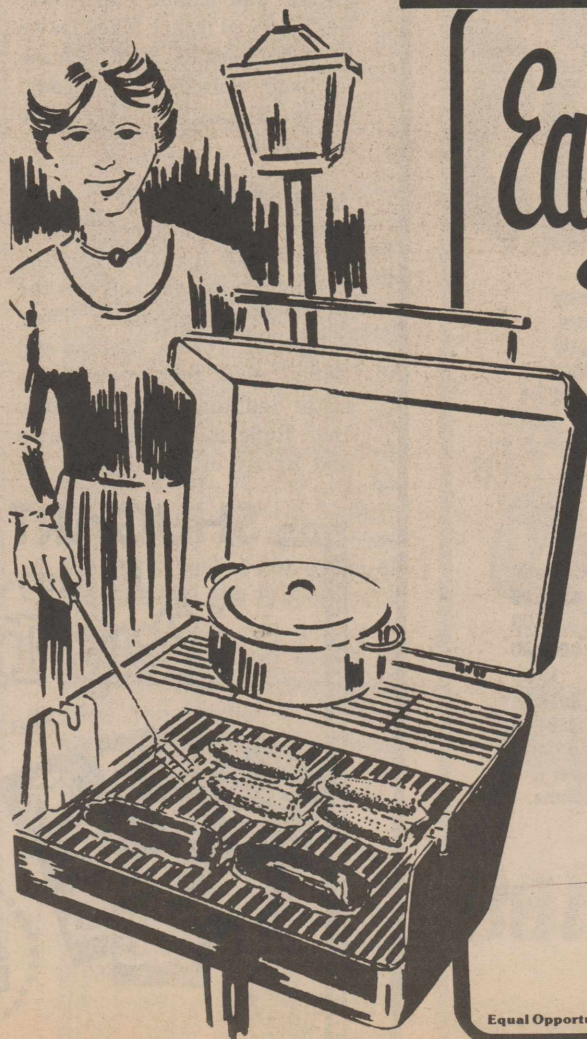

Daisy taught chemistry at Hereford High School, a vocation which she describes "it was so much fun." She received her bachelor's degree from Mary Hardin Baylor and her master's from West Texas State University.

The Huntsingers are parents of two young sons; Randall, four, and Brian, one. They are members of First United Methodist Church where Daisy teaches the young married couples' Sunday School class.

Daisy is a member of Delta Kappa Gamma, an organization for women in education. Her membership was transferred from the chapter at Hereford to the Castro County chapter in Dimmitt. She is a new member

of Chi Psi, Beta Sigma Phi sorority.

Possessor of a "green thumb," Daisy likes plants and the Huntsinger home boasts a number of pretty hanging basket plants. She likes to cook and sew and enjoys knitting.

A tempting offer on a gas grill.

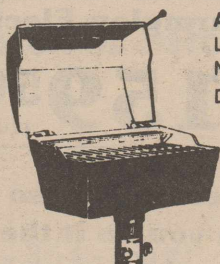

Right now, we're making you a tempting offer on gas grills with twin burners! Independently controlled twin burners never use more gas than you need. For big meals, use both burners. For smaller meals, save gas and money by using one burner and half the grill. A gas grill adds a new dimension to family meals and entertaining. It eliminates the fuss and bother of cooking outside while it keeps the flavor and the fun. And, because you take cooking heat out of the house and the burden off your air conditioning, you save energy, too.

MRS. BILLY CHLOICE SHOFNER

Mr. Shofner - Miss Brooks Recite Twin Ring Vows

Candlelight wedding vows were recited Saturday evening in First Baptist Church by Miss Sharon Lometa Brooks and Billy Chloice Shofner of Lamesa.

The Rev. Joe Cariker, pastor, directed the double ring ceremony before an altar set with a basket of yellow gladioli flanked by white candelabras holding yellow tapers and entwined with greenery. Votive candles and flowers were placed in the sanctuary windows.

Parents of the couple are Mr. and Mrs. Paul Brooks and Mr. and Mrs. Clebern Shofner of Lamesa.

Mrs. Weldon Davis, organist, and Mrs. Carl Rambo, pianist, presented traditional nuptial selections and accompanied Mr. and Mrs. Preston Upshaw as they sang "Whither Thou Goest" and "The Wedding Song." Weldon Davis sang "The Lord's Prayer."

Given in marriage by her father, the bride wore a formal gown of white sheer organza over duicette fashioned with a moulded bodice, featuring a Queen Anne neckline outlined with touches of Venice lace. Lace Heuriettes accented the Camelot sleeves, which were caught at the wrists with deep lace cuffs. From the lifted waistline, the skirt swept to graceful fullness.

A Camelot headpiece, trimmed in matching Venice lace, held her veil of illusion which was edged with matching lace and drifted beyond the dress to form a chapel length train. She carried a bouquet of yellow roses surrounded by white daisies atop a white Bible given to her by her maternal grandmother, Mrs. J.W. Welty of Plainview.

Keeping traditions, her gown was "something new," she "borrowed" a strand of pearls from her mother and for "something old" carried a pink silk handkerchief, imported from China, which belonged to her Grandmother Welty. She wore pearl earrings, a gift from the groom; the traditional blue garter, made for her by an aunt, Mrs. B.C. Snell of Ackerly and carried in her shoes pennies coined in the years of her own and the bridegroom's birth.

Terry Coleman of Borger of maid of honor. Bridesmaids were Ann Shofner of Lamesa, sister of the groom, Mrs. Alvis Jeffcoat of Big Spring, cousin of the bride, and Neoma Brooks, sister of the bride.

Candles were lighted by Cindy Brooks, niece of the bride, and Sherry Foster of Tucson, Ariz., niece of the groom. Robin Brooks, niece of the bride, was flower girl. Kristi Foster of Tucson, niece

of the groom, was ring bearer.

Feminine attendants wore formal A-line gowns of yellow crepe styled with cape collars fashioned of daisy printed sheer material. They carried round-shaped bouquets of yellow and white daisies with yellow streamers.

Bobby Shofner of Lamesa was his brother's best man. Groomsmen were Marion Snell of Ackerly, Barry Addison of Lamesa and Pat Close of Clarksville. Guests were seated by Thomas Brooks, brother of the bride, Kenneth Foster of Tucson, brother-in-law of the groom, Bobby Cohorn and Billy Wayne Cozart, both of Lamesa.

For her daughter's wedding, Mrs. Brooks chose a floor length dress of beau overlaid with pink eyelet embroidery fashioned with scooped neckline and long sheer sleeves. Her accessories were white. Mrs. Shofner chose a floor length dress of turquoise knit with matching long sleeved jacket. She wore white accessories.

A reception was held in fellowship hall. The bride's table was laid with white net over yellow with the bride's and attendants' bouquets at the center. The traditional three-tiered wedding cake was decorated with yellow and white daisies. Appointments were milk glass and goldware.

Mrs. Thomas Brooks, sister-in-law of the bride, and Cynthia Carlson of Canyon presided at the bride's table, serving cake, punch and yellow mints.

The groom's table was laid with a gold cloth and appointed with china, gold coffee service and goldware. Mrs. Kenneth Foster, sister of the groom, and Mrs. Otis Winborn of Lamesa

served coffee, two-tiered chocolate cake and butterscotch candies.

For a wedding trip to Ruidoso, N.M., the bride chose a yellow pantsuit with white accessories and a yellow rose corsage lifted from the bridal bouquet. The newlyweds will be at home after June 12 at Star Route 2, Lamesa.

The bride is a graduate of Hart High School and West Texas State University where she received a degree in business education. She taught this year in the Hart Independent School System.

Shofner graduated from Klondike High School and earned a BS degree in agriculture from Texas Tech University. He is engaged in farming near Lamesa.

Attending from out of town were Mr. and Mrs. M.L. Snell, Mr. and Mrs. B.C. Snell and Mr. and Mrs. Marion Snell, all of Ackerly; Mr. and Mrs. Jim Brooks, Wilburn and Elgin, Mr. and Mrs. Oscar Brooks and Mr. and Mrs. Stanley Brooks, all of Clovis, N.M.; Mr. and Mrs. Othel Welty, Mrs. Evie Welty and Mr. and Mrs. Charles Couch, all of Plainview; Rubert Welty and Randall Welty, both of Hobbs, N.M.; Gary Anderson, Cynthia Carlson and Terry Coleman, all of Borger; Mr. and Mrs. Roy Etheridge and Mr. and Mrs. Clint McFarland, all of Amarillo and Mr. and Mrs. Ernest Venable of Olton.

Also Mr. and Mrs. Pat Close of Clarksville; Mr. and Mrs. Charles Alford of Lubbock; and Mr. and Mrs. Glen Temmen, Mr. and Mrs. Lobstein and girls, Mr. and Mrs. Reams Shofner, Mr. and Mrs. Chloice Shofner, Mr. and Mrs. Buster

Oral Cancer Is Easily Detected In Early Stage

Oral cancer can be detected easily in its earliest and most curable stage, yet it will kill some 8,000 people this year, according to the American Cancer Society.

There are numerous measures, however, that one can take to guard against developing a malignancy of the mouth, or of detecting it early for effective treatment:

- Avoid irritating the lips and mouth by smoking. Switching from cigarettes to a pipe or cigar may reduce your chances of getting lung cancer, but it has no effect on the incidence of mouth malignancies.

- Have your dentist correct any tooth or denture that irritates your mouth.

- Eat a balanced diet. Mouth cancer is sometimes preceded by unhealthy mucous membranes in one's mouth caused by dietary insufficiencies. Keep your mouth clean by daily brushing of your teeth.

- Avoid the repeated use of white spot on the lips or in the mouth, which lasts longer than two weeks should be seen by a physician.

Since small irritation are very common in the mouth, many people overlook them and delay showing them to a dentist or physician. Cancerous lesions will not go away or get better without treatment.

Mouth cancers, like other malignancies, are diagnosed by biopsy -- the removal of a tiny piece of tissue for microscopic examination. Sometimes the dentist first examines a simple scraping of cells from the

abnormal area before removing the actual tissue.

Oral cancer is treated either by surgery or radiation or both. Modern methods of surgery remove early oral cancers so that normal facial contours can be preserved or restored.

Irene's Ideas

By Irene Keating

This week I'd like to share some vacation tips and trends in housing. This is an area of interest to us all as housing is one of our necessities.

Prospective home buyers may find it easier to secure a home loan and at a lower interest rate than previously. The government has reported that deposits received by federally insured savings and loan associations exceeded withdrawals by over 3 billion dollars in March. The result may be lower interest rates and more money available for home loans.

Here's what one manufacturer (Westinghouse) is experimenting with for houses of the next decade: a water system that recycles dirty water for reuse in the home; a bed with built-in devices in the headboard that remove dust and pollen from the air and silently wait a light breeze over the sleeper; a "people washer" that first bathes you with soapy water, then rinse water, then dries you with gentle waves of hot air; new security devices that can detect intruders by sensing footsteps, or that signal when a window or door is opened.

The best vacation can leave unpleasant memories if a burglar visits the house during your absence. Use these safe guards:

1. Don't leave notes announce-

ing your travel plans. Cancel newspaper, milk, laundry and other regularly scheduled services by telephone.

2. Ask the post office to hold your mail until you return. A neighbor may be willing to remove hand-distributed circulars left on the doorstep.

3. Notify the police of your vacation plans. Ask them to check the house periodically. Tell the authorities if you leave a house key with a friend.

4. Make sure window and door locks work properly. Door chains must be short enough so they cannot be unhooked from the outside. If a door has a cylinder-type lock, the bolt should reach far enough into the slot so a thin knife or file won't pry the lock open.

5. Leave one or two lights burning at night. Many stores sell automatic timers and electric-eye devices that will turn lights on and off for you.

6. An overgrown lawn is a tip-off that the house may be empty. Arrange to have the grass cut while you are out of town.

GARDENING STILL - Mrs. Mabel Aven, 84, has not let birthdays keep her from tending the flowers and vegetables that help make the Aven yard pretty. She is shown by the grapevines which she says will not furnish her with grapes since birds have discovered their fruit.

ENERGY SAVING TIP

Don't waste energy when you're working in the yard with gasoline-powered equipment. Turn the equipment off whenever you take a break, even for a few minutes. Idling the engine wastes gas.

CALLIE BERMUDAGRASS HIGHLIGHTED—Callie bermudagrass has been an outstanding performer in trials in Mississippi, according to a Mississippi agricultural scientist who spoke at the recent Texas Animal Agriculture Conference at Texas A&M University. The grass was selected at Mississippi State University in 1966 and is now being planted in 35 states and territories and 11 foreign countries. It has larger stolons, wider leaves and taller growth than the famed Coastal and other bermuda varieties and hybrids commonly used for forage. Growth rates of 2.5 to 6 inches per day have been reported.

ENERGY SAVING TIP

Save energy in your home workshop. Buy power tools with the lowest horsepower adequate for the work you normally want to do. Using more powerful tools than you really need can waste energy.

ENERGY SAVING TIP

A good way to save gasoline is simply to relax. Tense, aggressive drivers generally are chronic lane-changers and must shift constantly between the accelerator and the brake. Steady driving patterns can save 20% or more in gasoline.

TIE MOBILE HOMES

Mobile homes are more susceptible to damage by high winds than other types of housing. Mobile homes should be tied down at all times. When a tornado approaches, leave for more substantial shelter.

FINANCIAL LOSS

Good preventative medicine for reducing personal financial loss due to tornadoes is to contact an insurance agent or company representative. It's best to have all questions answered before losses occur.
