Former Munday Girl To Be Princess In Annual Rose Bowl Parade At Pasadena

Residents of Munday will have more than usual interest in this year's annual Rose Bowl parade, since a former Munday girl will grace one of the floats.

Miss Virginia Pruitt, daughter of Mr. and Mrs. Everett Pruitt of Whittier, Calif., will be princess from "Calhi," one of the seven high schools in Whittier, officials of the Rose Bowl Float Association, have announced.

The Whittier float, designed by Paul Rodriguez, a three-time winner in float design at the parade, will be titled "June in January," and will depict all four seasons of the year.

Miss Pruitt is the granddaughter of Mr. and Mrs. S. E. Stevenson, formerly of Goree, and the late Mr. and Mrs. G. L. Pruitt of Munday. She is the grandniece

of Dr. and Mrs. A. A. Smith and Mrs. Effie Alexander.

She is a green-eyed blonde five feet, two inches in height. She stated her preferences to an interviewer as: food, shrimp and steak; hobby, collecting shrunken heads and matchbook covers; pastime, sleeping; color, any shade of green; singers, Sinatra and Johnny Mathis; actor, Jeff Chandler; actress, Kim Novak; and sports, football and track. She is publicity chairman for her school and is in the top five per cent of her class academically.

For the next three weeks, coeds participating in the parade will be busy making appearances as a group. They will wear ice green sweaters and skirts, their official attire. Functions planned to fete the young ladies will include a dinner to be given at the Hacienda Country Club. The girls will be given complimentary gowns for the Pasadena parade.

Gowns for the "June in January" float were designed to be made of shades of Magenta-to-violet organza which was flown from New York, since it was not available in California.

Duncan Named To New Post In West Texas C. C.

Ralph E. Duncan, member of the WTCC Staff since 1951, has been named Manager of the Member Relations Department of the West Texas Chamber by Executive Vice President Fred H. Husbands. This position has been vacant for the past 12 months.

Duncan, with 25 years of experience in chamber work, has been Manager of the Community Services Department of the West Texas Chamber since joining its staff in September, 1951.

His work, primarily devoted to the problems of local chambers, has resulted in an excellent relationship with local chamber managers and their business leadership for the West Texas Chamber.

During this period, Husbands pointed out, much of Duncan's time has also been spent in the regional chamber's member relations work with considerable success.

While no appointment will be made for a successor to Duncan in the Chamber's Community Services Department for several months, Husbands stated that the major activities of the department will be carried on until a successor can be chosen.

Increased emphasis on work of the Member Relations Department involved in handling "Report to Members" meetings in more than 116 West Texas cities affiliated with the WTCC require the services of at least one staff man on a full time basis and Duncan was the logical choice, said Husbands.

341 Pay Fines For Violation Of State Game Laws

Game law violators paid fines and court costs amounting to \$8,304 for violations during the month of October, according to Capt. E. M. Sprott, director of law enforcement of the Game and Fish Commission.

Of the 341 arrests, 102 paid fines for failure to buy their new fishing license, and 47 thought they could get by hunting without licenses. Season jumpers accounted for 37 arrests.

Wardens also made it hard on persons shooting from automobiles, and wrote tickets for 27 for this offense. Despite heavy arrests in recent months of "telephoners," another person was arrested for using an electrical device for catching fish.

Church of Christ In Munday Plans For \$70,000 Building Program To Start Soon

The elders of the church of Christ in Munday have announced plans for the construction of a new auditorium to be located just to the north and parallel to the present auditorium. The present auditorium will be converted into classroom facilities. The entire program will cost \$70,000.

When completed the church plant will consist of a spacious

auditorium designed to seat 600 persons, plus approximately 25 classrooms. The facilities will be air conditioned throughout.

The financing of the program will be handled through the sale of 6% church bonds. The bonds pay 6% interest every six months and may be set up to retire at any time during a 15-year period. Because of the high rate of interest paid, and the type of investment, these bonds are excellent financial investments.

The Security Plan of Church Financing of Fort Worth will be handling this phase of the building program in co-operation with the First National Bank of Munday. Sale of the bonds should begin on or around the sixteenth of January.

Actual construction on the new auditorium is scheduled to begin on February the first. The Glen Paden Construction Company of Cleburne, Texas will construct the new facilities. This company builds church buildings exclusively, completing 150 to 200 buildings a year.

Former Munday Resident Dies In Car Accident

A Spearman grandfather and former Munday resident and his 18-year-old grandson were killed instantly last Thursday morning in what a Texas Highway Patrolman called a "freak accident" six miles west of Chillicothe.

Dead were James Garfield Reneau, 78-year-old retired farmer, and Harold Gene Bangs, Spearman high school senior and football star. The car which Bangs was driving met a large diesel truck, and the Bangs car collided with the truck tractor's rear wheels, skidded to the right and stopped without turning over. The car was ripped open from the collision, and both men were thrown to the ground.

The bodies were taken to Whitehouse, where funeral services were held Saturday.

Mr. Reneau, who was a brother of the late John B. Reneau of Munday, was born in Albany, Ky., and lived in Munday in the early 1900's. He was a nephew of Dr. J. B. Reneau of Munday, and was well known by J. E. Marvin and Raymond Reeves.

He is survived by two sons, James Reneau of Spearman, and John Reneau of Savoy; one daughter, Mrs. Jimmy Bellows of Savoy, and one sister, Mrs. Ollie Swindell of Merkle.

ELECTION LAWS NEED REVISION

Nearly 70 million voters cast ballots in the general election just concluded. What most people do not know is that but for our archaic voting laws the turnout of voters last November could have approached the 80 million mark. Between 5 to 10 million disenfranchised citizens were deprived of the right to vote for president because they had moved recently and could not meet the residency requirements in the states to which they had moved.

We have become a mobile nation, not only for pleasure but of necessity. Countless thousands of persons employed by larger corporations have to change residences as they are transferred or promoted. When this happens shortly before a presidential election under our present laws they automatically lose the right to vote for president.

The irony of the situation is expressed with feeling by one victim of disenfranchisement who was recently promoted and transferred by a major oil company. He writes, "We were being exhortated on all sides to get out and vote. When Arthur Godfrey told my wife (via radio) 'to get off your duff and vote' she wrote him immediately saying she would be glad to but the states would not let her. She committed a terrible crime — she moved! . . ."

There should never be another election in which millions of American citizens lose the right to vote for president because they move from one state to another. The first order of business of state legislatures should be to modernize our election registration procedure.

"MIGHTY MIDGET"

The Amarillo News in a recent editorial said, "Our U. S. A. has only seven per cent of the world's people. It has less than half the land area of Russia, not counting satellites. China, India and Russia all exceed it in population. America is second rate as to population and area. But she is a mighty midget."

The reason the News said the latter is found in the fact that although the United States has only 7 per cent of the world's people, they produce a third of the world's goods and services and over half the world's energy output.

The electric utility industry has been a work horse behind the production of power to run the nation's industrial machine and to electrify its homes. Today with a maximum production of

It is the record of free enterprise that entitles the U. S. A. to the title of "Mighty Midget."

DULUTH, MINN., PUBLICITY: "Luxuries, powers, indulgence had made the once-tough Roman people soft. To stay popular, their emperors gave them more and more of the ease they craved—free bread, free circuses, easier living."

"So the Romans softened up themselves for the ambitious, hard-working barbarians. And in 410 A.D. the greatest nation the world had ever seen was invaded and destroyed. The Roman emperors promised the people handouts—but they turned out to be anything but free!"

BOONVILLE, IND., ENQUIRER: "A disappointing vote was recorded in the United Nations the other day. The vote was taken on a charge by the Cuban government coupled with a demand for a U.N. debate, that the United States was planning aggression against Cuba."

The United Nations could become a major problem for the United States if and when the communists intimidate and buffalo enough of the new member-nations to have their own private propaganda show. This latest vote should be a warning to the major democracies of what might happen if we go too fast in the effort to force freedom and democracy on peoples who are not ready for these responsibilities."

CARLSBAD, N. M., CURRENT-ARGUS: "There's nothing like good, old fashioned competition. The poultry industry has come up with a new plan to widen its market. In a test in Ithaca, New York, frankfurters made of chicken—they called the 'bird dogs'—captured 15 per cent of normal hot dog sales."

HAGERSTOWN, MD., HERALD: "Much that churchmen and churches do and say is subject to controversy, but there is one project in which Roman Catholics, Orthodox churchmen, and 17 Protestant denominations are engaged which can only evoke approval, if not ardent admiration."

"It is known as the Heifer Project and it consists in sending great quantities of highbred livestock for the help of needy countries, and the enrichments of local herds."

Chips From The Carpenter's Workbench

By JAMES HALLMARK

The truth has a definite ring to it! If we will listen closely enough we can distinguish it from the inconsistencies of a confused religious world. Long before I became a member of the church of Christ, I suspected that what they taught was true. The assurance with which they appealed to the word of God for justification for their religious beliefs greatly impressed me. Unfortunately there were those who had more zeal than knowledge and some unpleasant impressions were made. But, in spite of this, I still could detect the pure sound of the truth.

Although we may not be "pricked" in our hearts as were the Jews on the day of Pentecost (Acts 2:37), most honest persons will be disturbed to some degree when the truth is presented. This I know to be true, "For the word of God is quick, and powerful, and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discernor of

the thoughts and intents of the heart." (Heb. 4:12).

However, there are those who teach differently than we do, and yet maintain that they teach the truth. Common-sense demands that we recognize the fact that someone is in error. Most members of the church of Christ are anxious to discuss the word of God with their friends and neighbors because the Bible teaches the Christian to "be ready always to give an answer to every man that asketh you a reason of the hope that is in you with meekness and fear." (I Peter 3:15). We are of the conviction that every Christian "should earnestly contend for the faith which was once delivered unto the saints" (Jude 3). It is not being narrow minded, or bigoted to feel that you are right, and be ready to defend what you believe. "Knowing therefore the terror of the Lord, we persuade men;" (II Cor. 5:11). Are willing to let some of our members discuss the Bible with you? Just call on us. We would be greatly honored.

The statistics linking smoking to cancer and heart disease are piling up so fast it is getting tougher and tougher to rationalize the habit. Resolve to impress those statistics on the minds of the teenagers in your family.

When driving, consider that every other car is being driven by a madman, and when walking trust motorists only as far as you can see them. Motor vehicle deaths stand far above accidental deaths of all other types.

Resolve to take full advantage of every advancement in medical science aimed at benefitting you and the family, but always on competent medical advice. Start by getting the youngsters and yourself immunized against polio if you haven’t already done it.

Promise to obey local and state laws pertaining to health protection. For example, if your town has a dog leash law, adhere to it. It is a public protective device and you are the public.

Last but vitally important, give an occasional thought to such awesome problems as water conservation, pollution abatement, juvenile delinquency, and the number of elderly people in our society. Lend your support as a responsible citizen to community efforts to solve them.

Mrs. Stanley Wardlaw visited her son and family, Mr. and Mrs. Dorsey Wardlaw and children, in Fort Worth over the week end.

Mr. and Mrs. J. A. Hill, Jr. and children, Pat, Paula and Penny, spent Christmas with Mr. and Mrs. E. V. Shackelford in Anson.

Visiting in the home of Mr. and Mrs. Frank Hendrix during the Christmas holidays were their children, Major and Mrs. Alfred F. Hendrix, Donna DeWayne and Kathy, of Austin, Mr. and Mrs. Kenneth Hendrix and Timothy of Benjamin and Mr. and Mrs. Wilfred Welch, Cindy, Rose and Jan of Wichita Falls.

Drive carefully. The life you save may be your own!

Weekly Health LETTER

Issued by the State Health Department

Short on resolutions for the new year beginning Sunday? Here’s a list designed especially for you and your family by the Texas State Department of Health:

Promise to give your body at least as good care as you give your car. Periodic examinations are the best way yet devised to detect bodily disorders while they can still be treated successfully, so let your doctor look you over thoroughly once a year whether you’re ailing or not. Make it twice yearly if you’re middle-aged.

Dental troubles won’t kill you, but sometimes they can make you wish you were dead. So check in once yearly with your dentist, too.

If you are putting on weight, resolve to start passing up the candied yams, boiled potatoes and the cream-filled tidbits which almost invariably spell extra pounds and perhaps an early grave.

Too much weight contributes

Knox Prairie Philosopher Differs With Neighbor Who Finds Outlook For New Year On The Gloomy Side

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek sounds an optimistic note for the new year, this letter this week reveals. This may be cause for worry.

Dear editor:
With a new year at hand, I stopped by a neighbor's house to wish him a happy new year and borrow a pipe wrench, but he didn't seem in the mood for either one.

I said he'd been reading the papers lately during the holidays and watching television and had about come to the conclusion the world's not going to make it.

"Russia is arming to the teeth," he said, "China is joining up with the Communists, France is having all kinds of trouble, the Middle East is always having trouble, there's all kinds of trouble in Africa, Germany is divided in half, the United States is running short of gold and half our missiles won't fly, looks like people are always at each other's throats and I don't see much hope for the world."

I didn't argue with him, but all this proves is that reading the newspapers only once in a while will ruin a man. You've got to read em every day for years to understand that things are normal. You drop in on the world, so to speak, for a few days at a time in between long sessions of plowing and naturally you're in no mood for being wished a happy new year or asked to lend a pipe wrench.

Out of years of reading about the world, I'd like to point out that its present shape is not much different from what it was last year, the year before, last decade, the decade before, and

on back to the time Caesar was writing Latin books for school children. The world has always been in trouble, one way or another, the same as you and me.

The prospects for 1961 are no worse than, and just as good as, the prospects were for 1960, 1959, or any other year on back since calendars were invented.

I don't know any more about what's going to happen in 1961 than the experts who thought they knew what was going to happen in 1960, but whatever happens, I aim to find it interesting. I can get along without that pipe wrench, but unfortunately here comes my neighbor with it now.

Yours faithfully,
J. A.

Dollars And Sense

By Mrs. S. C. Kinsey, Knox County H. D. Agent

In the months ahead: Coin-the-slot dry cleaning machines are undergoing stepped-up tests in several areas in the country. In some instances they will be placed along side washing machines. It may sound good, but you'll have to do your own pressing.

Frozen bread may bring down bread prices. Government researchers say that bread could be reduced two cents a loaf with volume distribution. Big reason for saving would be elimination of daily delivery.

Don't worry about cranberries being marked for Christmas dinner. Our information is that shelves have all been cleared off and new crop is safe and edible.
