## With Light Vote

# Incumbents Returned To Office

Limited numbers of voters turned out Saturday for the uncontested elections held for city and school.

Russell Strain, election judge for city contest, reported a total of 40 votes cast, one of which was absentee.

Final returns, in the race for city councilmen reported

by Strain, show incumbents Joe Hall receiving 38 votes; Jimmy Jenkins, 37; Vernon Nixon, 37.

Write-in votes gave Wayne Cole, 1, and Owen Norfleet 1 vote for the posts.

Polls in the Olton Independent School Board election were almost as quiet.

Mrs. Sue Cannon, official

judge, declared three incumbents re-elected.

A total of 61 votes were cast, sixteen by absentee ballots. The final tally registered a vote of confidence for Uil Gunter, 61, Royce Collins, 61, and Elmo Bryant, 59.

Eldon Franks was named County Trustee at large.

## Is Wednesday

Garden shrubs, plants, vines and bulbs will be on sale Wednesday, Apr. 12, by members of Olton Garden Club.

The plant sale, which will be held at Don's Super Market, will include both annual and perennial plants from local gardens. Some dahlias and cannas will be available, according to Mrs. Callie Walker, spokesman for the group.

## Bookmobile Slates Stops

Area stops of the High Plains Bookmobile are announced by Lorene Sooter, Bookmobile librarian. The library will stop in Hart Camp, Fieldton and Olton, Friday and Saturday, April 14 and 15.

The Bookmobile will be in Hart Camp and Fieldton Friday from 1:45 to 2:30 and 2:45 to 3:30 p. m., respectively. The Olton stop will be Saturday from 9:15 to 11:45 a. m.

## Mrs. McKenzie's Rites Slated

Funeral services will be conducted at 10 a. m. Friday in Main Street Church of Christ for Mrs. A. C. McKenzie, Milton Caraway, minister, will officiate. Parsons Funeral Home is in charge of arrangements. Interment will be in Corpus Christi.

Mrs. McKenzie was found dead at her home Wednesday afternoon. She had been a resident of Olton about 15 years. Survivors include a daughter, Mrs. Connie Konsarek, and eight grandchildren.

## Supreme Court Changes Voter Requirements

The decision of the United States Supreme Court in Dunn v. Blumstein has invalidated state laws which require more than 30 days residency in the state or locality in order to be eligible to vote.

The Texas law has now been enjoined by a federal court in the case of Whatley v. Bullock which was decided on March 31, 1972.

Persons who have resided in the state and locality for 30 days and have been registered for 30 days prior to the election in which they wish to vote are now eligible to vote in state and local elections. Persons entering the state may register to vote immediately upon their arrival.

## Kenneth Palmer Manager Of Don's Super Market

Ch. Kenneth Palmer has been named manager of Don's Super Market and assumed duties here for week. He has 25 years experience as a grocer and prior to that worked after-school in a grocery store.

Palmer and his wife, Wilma, moved here with their seven-year-old son, Jim last week. They lived the past two years in Sweetwater, moving there from Mrs. Palmer's hometown, Burk Burnett.

The Palmers have three married children, all living in Washington. Twin sons, David and Dale, are in the U. S. Air Force. Their daughter, Carol, is married to a serviceman, Rick Vincent. They are the parents of a little daughter, Jennifer.

# Grinding Crash Claims 10 Lives, 17-Year-Old Olton Youth Victim

Ten persons lost their lives in a grinding head-on collision east of Dimmitt Saturday night, as police officers pursued one of the vehicles.

Four of the persons killed in the crash were from Hart and one was the grandson of a Hart couple. Another was from Olton and the others were all from Dimmitt.

Those involved from Hart include Tony Guia, 17; driver, Nicholas Arrizola Jr., 18; Zolla Luna Olivarez, 13; and son John-

ny, 16-months old.

Raymond McLain, Nazareth, was the grandson of Mr. and Mrs. E. I. "Tump" McLain.

The Olton youth was Brigido Soles Sanchez, 17.

The Dimmitt youths were Johnny Raper, 17; Robert Lewis Caddell, 17, driver; Michael David George, 20; and Jeffrey Eugene Glenn, 17.

A report stated that the eastbound car driven by Guia, was being pursued by three Castro County sheriffs' cars,

two Dimmitt police cars and a Texas Department of Public Safety vehicle when the crash occurred just east of Dimmitt city limits.

The events leading up to the wild, 110-mile-an-hour chase through Dimmitt was a call to the Dimmitt police to come to the Tam-Anne Gin located 11 miles west of Dimmitt on Texas 86 to quiet a reported fight.

The fight apparently involved one of the victims in the wreck and another's father.

Deputy Sheriff Rex Cowart, arriving at the scene shortly after the call, was told that the person involved in the fight had driven toward Dimmitt.

Cowart then radioed Sheriff Cartwright and another deputy, Granville Martin, who started toward the gin.

But about three miles west of Dimmitt, they met the car which Cowart had described and gave chase.

Cartwright said he and Martin clocked the fleeing car at speeds up to 110 miles per hour during the ensuing chase, which carried the officers and the car through a Dimmitt police road block and on through town.

The car narrowly missed striking cars stopped at the Broadway Street stoplight, but managed to avoid collisions until reaching the eastern city limits.

There, the fleeing car swerved into the oncoming lane and struck the Caddell youth's automobile head on. The impact of the speeding car drove Caddell's car, which was traveling about 50 miles an hour, 86 feet backward, with the two cars coming to rest "welded together almost firewall to firewall."

Officers, tow-truck drivers and members of the Dimmitt Volunteer Fire Department worked about 30 minutes to remove the victims from the wreckage of the cars.

All bodies were taken to Dennis Funeral Home in Dimmitt.

## Price Demands Retraction Of Beef Industry 'Slander'

Representative Bob Price (R. of Texas) today demanded that Giant Foods run a public retraction of what he called a "bald-faced slander of the beef industry." Price said Giant Foods President Joseph Dan-sanky, along with his consumer advisor Esther Peterson, had

run huge ads urging a boycott of beef because of high prices.

Price pointed out that in many wholesale markets beef carcass prices are lower this month than they were last August when the freeze was slapped on. "It is obvious that the price increases quoted in the

Giant Foods advertisements were tacked on by Giant, and could not have come from beef producers who are getting slightly lower prices now than last August, or last month," Price declared.

The Texas lawmaker said Mrs. Peterson, who worked as a consumer advocate in former Democratic administrations, has a history of conducting vendettas against the beef industry, and brought out that she had urged a similar boycott of beef in 1966.

Price said that if Giant Foods and Mrs. Peterson have a "shred of decency and public responsibility" they will give equal space and publicity to their retraction as they did to their self-serving indictment of the beef industry in the face of the facts.

## New Amarillo Art Center To Be Opened Saturday

A free chili supper Saturday, April 8 from 5 to 8 p. m. will open the 2.2-million-dollar Amarillo Art Center.

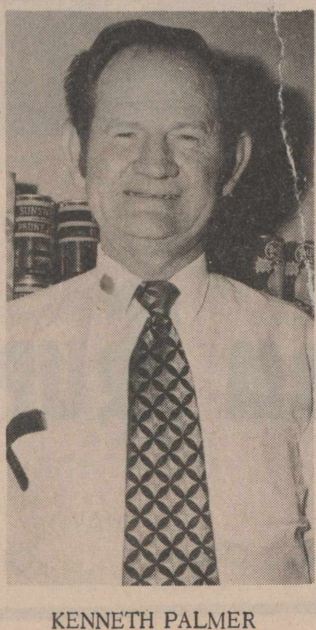

The chili, prepared by C. V. Wood Jr., international chili

cooking champion for 1971-72, will be served in the lobby of the art complex, near 22nd and S. Van Buren St.

Following the free supper Saturday, the Art Center will be open from 1 to 5 p. m. Sunday to display two art collections: an 87-piece grouping of Texas art from 1900 to the present and a faculty art show by teachers from Amarillo College and West Texas State University.

Beginning Tuesday, April 11 the collections will be displayed from 10 a. m. to 6 p. m. Tuesday through Friday, from 10 a. m. to 2 p. m. Saturday and from 1 p. m. to 5 p. m. Sunday.

Thomas P. Matthews, director of the Center, said that admission is free and that guided tours will be provided.

## Bert Herring Employed As Night Officer Here

BERT HERRING

Duties of Police Patrolman in the city of Olton were assumed last Saturday by Bert Herring.

Prior to his move to Olton, Herring was in Tulsa, Okla., in advance flight training for commercial pilot's license.

Herring, who is 29, is a native Oklahoman. His wife, Elizabeth, was reared in Amarillo. They attend Presbyterian Church.

When questioned about his new work the youthful officer stated that he was enthusiastic about it. "I am impressed with the fine people and young people that I have met thus far.... I'm here to see that laws are obeyed."

## Agriculture Not To Blame For Soaring Food Prices

Farmers and ranchers are concerned about statements in the national news media that food prices are too high, according to Texas Farm Bureau President J. T. Woodson.

"We in agriculture are afraid that these inflammatory statements might result in popular demand for price controls on raw farm products," the farm leader said. "If this happens, and we are saddled with controls, the consumer will really have something to worry about."

"Prices for agricultural products are not likely to get out of hand," Woodson said. "We will respond to any price increase by producing more. The consumer is protected by the competitive enterprise system in agriculture."

"If, on the other hand, price ceilings are imposed on us," Woodson said, "producers will be forced out of agriculture in droves, and the consumer will pay higher prices for his food. The only way we have survived higher production and living costs up to now is through increases in efficiency."

"Only just now are certain segments of our agricultural industry-- livestock, for example-- beginning to receive decent prices," the farm leader said.

"Egg producers are actually selling eggs at or below cost of production. Imagine what it would do to the poultry industry to put a freeze on their current prices."

The farm leader said that farmers and ranchers appreciate some of the statements made in defense of agriculture in recent days. He referred to statements made by President Nixon, Agriculture Secretary Earl Butz, and Treasury Secretary John Connally.

"These men are in a position to know the true situation in agriculture," Woodson said. "We thank them for telling it like it is."

President Nixon said in a recent press conference that it is a mistake to blame farmers for the food price increase because they receive only one-third of what consumers pay for food.

"The other two-thirds goes to the middleman," Nixon said, adding that the spread has widened and is too great.

"The public is being fed a lot of malarky about meat prices," Secretary Butz said in defense of farmers and cattlemen. He added that a food price investigation--now planned by the Price Commission--was

long overdue. He said farmers were being blamed unjustly for rising retail food costs, especially for meat, to cover up sharp increases in what he called "hard costs" of processing and distribution.

Woodson said that U. S. Department of Agriculture statistics prove that the farmer's gain in efficiency has helped keep food costs in check. He cited the following facts released by USDA:

--The American farmer produces over 20 percent more on seven percent fewer acres than he did in the period 1957-59.

--In 1970, one U. S. farm worker supplied food and fiber for 47 persons. He supplied 23 persons in the 1957-59 period.

--Retail food prices rose less than three-fourths as much as all other consumer goods in the past decade. Retail food was up some 27 percent while the overall Consumer Price Index was up over 39 percent.

--Food expenditures take a declining share of consumer income. Twenty-five years ago, the percent of income spent on food was 24.6. In 1970, the percentage was down to 16.6.

## Editorials

An all-out nationwide effort in behalf of the farmers is being planned by the National Federation of Grain Cooperatives and Fritz Richards, manager of Olton Grain Co-Op is asking the Olton area farmers and businessmen to help in this effort.

Although it is being initiated by the Co-Ops of the nation, it can help every farmer in the United States as well as all small farm-oriented communities, if it has the "punch" that it needs.

In order for the government to know what the farmers would like to have, they have to be told. That's where you come in. If you

like what the statement to the President says and you wish to voice your opinion, come by the Olton Grain Co-Op and put your signature on the page that will be taken to the President and the Secretary of Agriculture.

All farmers, their wives and all businessmen are urged to read the statement printed below and if you are in agreement come and sign the statement.

After all, what working persons wouldn't like a "fair and equal return for his labor and investment"?

### TO THE PRESIDENT OF THE UNITED STATES:

Your Administration has demonstrated a keen awareness of agriculture's great contribution to the American economy, and has sought to enhance that contribution. The Congress has been willing unflinchingly to debate the problems of agriculture, and has displayed increasing concern over the economic plight of the American farmer. We commend both your Administration and the Congress for this attitude and your concern.

It is time, though, for a great effort to be made to bring the farmer into the mainstream of the American economy, a position he has not enjoyed except for a few very brief intervals in the past half-century. Government programs of the past have been helpful but all of them have been, and are, of a temporary nature, thereby, leaving the farmer in a quandary about the future.

Farming is a long-term venture, requiring long-term planning and long-term financing and indebtedness. Today's farmers are businessmen, but they are the only businessmen in America whose commodity prices are subjected to sharp peaks and valleys, caused by uncontrollable events, "scare" propaganda or other acts which the farmer can neither foresee nor govern.

The majority of farmers today are skirting outright financial disaster every year. Their indebtedness is increasing yearly. In the past five years, the national farm real estate debt has risen 39%. In terms of dollars, farmers' total indebtedness in this period has increased from \$37.5 billion to \$65.5 billion. Meantime, farm prices have declined. In the past 25 years, the parity ratio has dropped from 108% to an average of 70% in 1971. This has seriously weakened the financial position of farmers. We are rapidly approaching a complete erosion of our entire agriculture community.

If this trend is to be reversed and we are to regain and maintain a healthy agriculture where young men can be attracted for a career, we must provide economic stability for our farming industry. To accomplish this, we respectfully submit the following recommendations:

1. See that temporary measures are taken to immediately bolster and stabilize grain prices.

2. Set to work promptly the necessary planning for a permanent program for agriculture so that an end can be put to the chronic gyrations of grain prices. If grain prices domestically are to be stabilized at a level which puts the farmer on a par with all other American business, the influence of world prices must be removed from our domestic pricing.

3. The consumers of America must recognize the vital need for farmers to be a healthy segment of the U. S. economy because, only through the high degree of efficiency of the farmer, is the American consumer able to enjoy the limitless benefits of today's American agriculture. Consumers must know that if agriculture deteriorates, the living standard of all of America deteriorates. An informational program to acquaint consumers with the status of agriculture, with the benefits of a healthy agriculture, must be mounted and continued at a high level throughout this transitional period while the agricultural economy is being stabilized. This program can, and should, be the bridge bringing the farmer into the mainstream of American society.

We farmers have supported, and will continue to support all those things that have built a great America. We only ask an opportunity to share equally in the protection and benefits of our American society. We shall be most grateful for your sincere consideration of the above statement.

## Too Much Television For Kids?

Recently there has been an outcry against children watching too much television.

One reason for the protest is that children sit quietly by the TV hour after hour and don't run, jump, climb or throw enough.

"In a sense, these children suffering from TV addiction simply don't get the proper exercise that helps large muscles develop," said Texas Agricultural Extension Service family life specialist Dorothy Taylor.

Miss Taylor said that muscle-developing activities are essential to a child's development.

"Parents can do much to provide children with a variety of activities that will help a child grow and develop," she said. "It's been said that a child will naturally develop his muscles. This is true -- up to a point. It's still true that every

parent who cares for his child wants the youngster to develop in the best way possible. A parent can stimulate and encourage the child to try new and different activities to aid muscle development."

The specialist told the story of a mother who visited a kindergarten and became very upset because four-year-old children were using REAL saws to saw soft wood.

"After the mother's initial flurry of words," Miss Taylor said, "the teacher explained why the children's use of the saw just might be a worthwhile activity. Children learn many things from using wood. They like to cut wood and are capable of learning how to use a saw carefully."

The specialist said that real tools are far better than some plastic tools that don't do anything except look like the real tool.

"But possibly the most important reason for the child's using the saw is that it helps him develop his large muscles and his large-muscle skills. He also learns how to control his muscles and use them in activities."

As a child develops his large muscles, he also gains confidence in his ability to deal with his environment. He gains confidence in himself as well.

Some activities that help a child develop his large muscles include: throwing balls through a hoop, throwing bean bags at a target, pounding nails, swinging in a swing, balancing by walking on low boards, climbing a rope ladder, climbing a tree or jungle gym and running -- sometimes barefoot -- on sand or grass.

"Each parent can praise his child as he acquires new skills and new coordination," Miss Taylor pointed out.

### THE FRAUD OF SOCIAL SECURITY — JOHN J. SYNON

There are these things that bug me whenever I think of them: The public-school systems; Social Security; the welfare rackets; and forced racial integration. There are others, to be sure, that turn me on but these four trigger me most easily.

Take that second one, Social Security. It is, I tell you, a deception that will crack asunder one day and folks will wonder where their money went.

What gets to me most pointedly is the crass chicanery the government practises on we poor slaves who pay in the dough.

Most think of Social Security — because the government has taught us so to think — as an insurance policy, or retirement fund.

It is neither. It is, in fact, a flat-rate tax on income and has no meaningful relationship to a program of insurance. (An insured person receives actuarial benefits in relation to the amount he has paid in and you don't get that sort of return — as we shall see, below — from Social Security.)

And if you are living in a rose-colored world that has you thinking your Social-security taxes (plus your employer's contribution) are being set aside in a well-protected trust fund, you can forget that, too.

There is no such fund. As fast as you and your employer pay it in, it goes back out in payments to those who have already "qualified". There is nothing in your account but dubious paper, "credits" geared to an inflating dollar.

Truth is, 90 per cent of those who are paying in their money, today, are simply financing benefits for others — not for themselves.

And that, to quote an entrepreneur of another day, that is only the beginning.

As time passes, today's young people will learn they are scheduled to pay grossly more into this "fund" than they themselves presently are scheduled to receive for their efforts. That is so because today's generation keeps voting itself benefits to be paid by those who will come after.

It is truly a shell game, each generation to vote itself greater benefits than it has earned.

Some day this inverted pyramid must tumble. On whom? It

depends. But tumble it will. Moreover, tomorrow's taxpayers (our children) have no say in the present matter. They are to be liable because we said pay — pay us. And they, with that precedent, and when their time comes, probably will do likewise towards their children.

To illustrate, there is a bill now pending in congress that would increase benefits to \$1,300 per month for a couple retiring 29 years from now. Under this bill, the retiring gentleman would have paid in \$30,905. He and his wife would draw out \$213,919.

You listening, Junior? There is another element in this bogus affair that may be of interest — that is, if your temples are gray and you are still mining your 16 tons a day.

If you began paying in when Social Security was inaugurated, in 1937, forget your accrued benefits from that year through 1950. They have been wiped out.

There is so much of it and it is all so dishonest. Let me illustrate again:

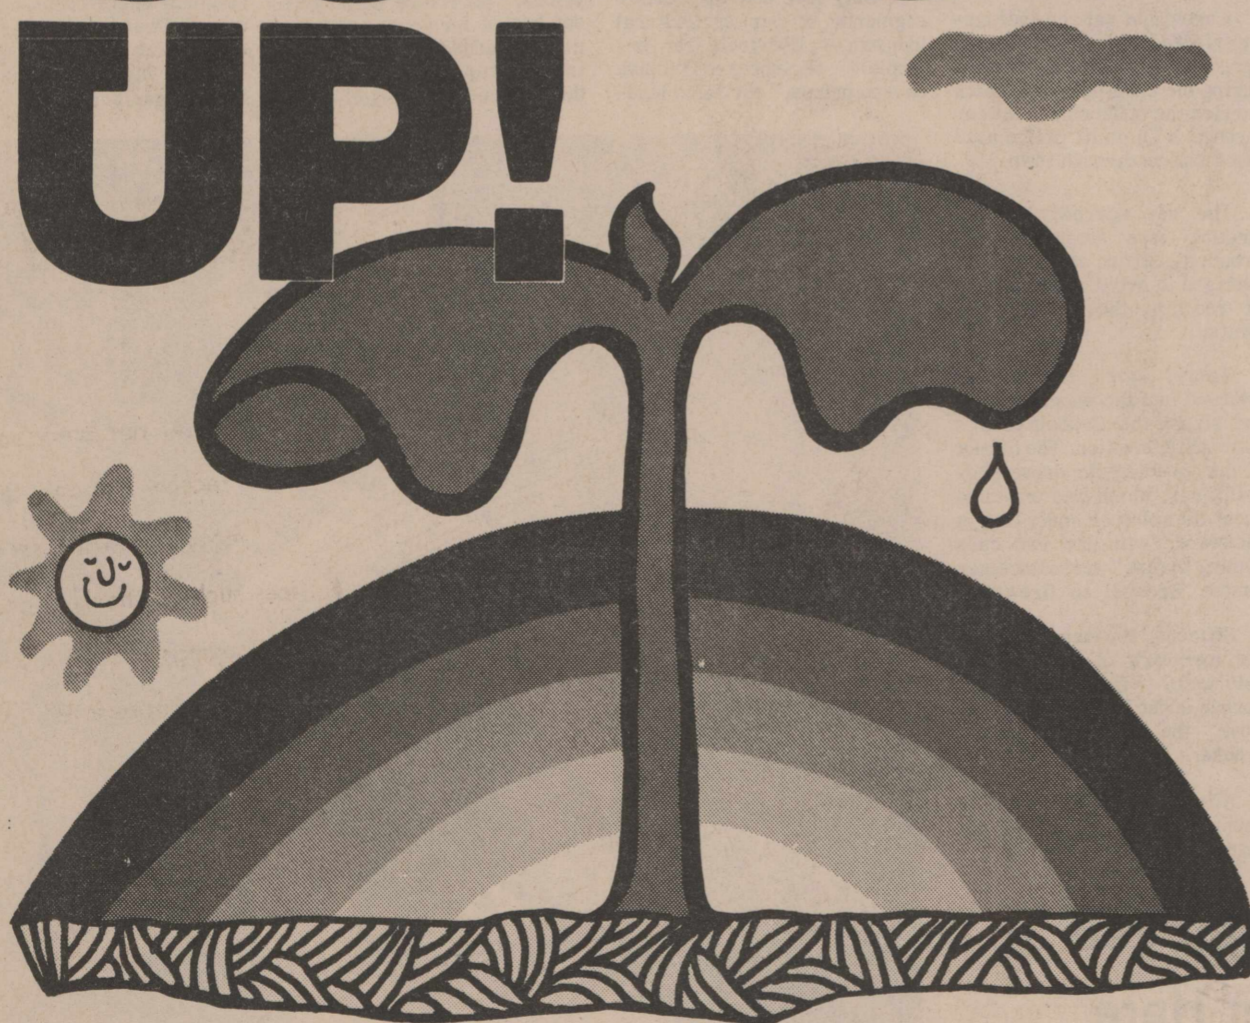

Suppose, for a moment, we were living in a stable world; suppose that you remained single; suppose that this is your first year of employment. Further, that the rate of taxation (\$400) you will pay in Social Security taxes this year (plus the additional \$400 your employer will contribute) will not again increase, not in any of the 40 years of your employable life.

In 40 years, that annual sum (\$800), compounded at a most conservative four per cent would total almost \$80,000.

That is the sum you would have in your private account after 40 years, if we lived in a stable world and if you were saving \$800 a year through a bank, say, or an insurance company. And it would be yours to do with as you pleased. It may be you would be pleased to invest it at an assured five per cent, or \$4,000 per annum. And that is easy enough. If so, you could leave the untouched balance (\$80,000) to your heirs.

Compare that with the Social Security annual maximum benefit, at today's schedule, for a single person (\$3,545 and no \$80,000 in the bank) and you will see why my bile rises whenever I get on this subject. And that's enough of that.

# COTTON UP!

It's a happy spring with Terraclor Super-X soil fungicide

Happy days are here for sure when your cotton makes a stand. Seedling rot . . . damping off . . . sore shin . . . Rhizoctonia . . . Pythium . . . Fusarium . . . they're all controlled by Terraclor Super-X soil fungicide.

No need to let these killers cloud your rainbow. For even when the weather's wet and cold, Terraclor Super-X gives your seedlings a fighting chance for a profitable stand.

Terraclor Super-X is applied in the furrow as you plant. Cotton seed, emerging roots and stems

are protected. Killer fungi are held off to help you get a vigorous, healthy stand.

Terraclor Super-X is available in granular, liquid, or dust forms. Most popular is the granule form impregnated with DiSyston® soil systemic insecticide. Once over as you plant takes care of both the fungi and early season insects.

## Oltonites' Granddaughter Wed In Double Ring Ceremony

Wedding vows were solemnized Saturday in the First Baptist Church of Halfway for Miss Yvonne Dale Emberton and Carroll Buck Fuller, both of Newport News, Va.

Parents of the couple are Mr. and Mrs. Clyde Emberton of Halfway and Mr. and Mrs. H. E. Fuller of Newport News, Mr. and Mrs. Roy McAfee are the bride's maternal grandparents.

The Rev. Robert Field, pastor, officiated the double ring ceremony before an altar decorated with Easter lilies, votive candles and garlands of greenery. Ray Fargason, organist, presented nuptial selections and accompanied Jack King, soloist.

Presented in marriage by her father, the bride wore a formal length gown of deep ivory Alencon lace and imported net. The contour bodice of re-embroidered lace on net was fashioned with a high banded collar accented with a Dior bow and short sleeves showing a natural scalloped edge. The Empire silhouette featured a flowing A-line skirt of imported net over peau de soie. Her chapel train was enhanced with appliques of re-embroidered lace lavished with seed pearls. Matching medallions adorned the entire skirt and hemline.

Miss Connie Emberton of Dallas was her sister's maid of honor. Bridesmaids were Joanne Carr of Newport News, Va. and Karen Patterson of San Antonio. They wore pink blouses with burgundy formal length skirts, accented with deep ruffles at the hemline. They carried votive candles encircled with greenery and sweetheart roses.

Jolene and Julie Childress of Newport News were flower

### Tenth Birthday Is Observed

Mark Boone, son of Mr. and Mrs. Keith Boone, was honored Sunday with a dinner observing his tenth birthday. The celebration was held in the home of Mark's great grandfather, H. R. Keeter.

The birthday cake formed a white rabbit and was decorated with pink and green jelly beans and pink candles in green holders.

Attending the dinner were the guest of honor, his parents and their daughters, Michelle and Melanie, Mark's grandparents, Mr. and Mrs. Bud Andrew and her father, Mr. Keeter. Guests from Lubbock were the host's daughter and family, Mr. and Mrs. Ted Lawson and Dianne, and Mr. Keeter's son and family, Mr. and Mrs. Glen Keeter, Cheryl, Donna and Steve.

### IN AMARILLO

Mrs. Juanita Thomas, Margaret and Connie spent Saturday in Amarillo where they visited with their son and brother, Max Thomas. The family attended Easter Sunrise Services in Paloduro Amphitheatre.

## Hickman-Bruton Vows Read In Home Ceremony Sunday

Wedding vows were exchanged Sunday, Apr. 2, between Mrs. Vera Bruton and Harvey Hickman of Earth. The quiet ceremony attended by members of the immediate family and intimate friends was held in the home of the bride's granddaughter and husband, Mr. and Mrs. Larry Digby.

The Rev. Ronnie Travis, pastor of Hopewell Baptist Church, officiated the double ring ceremony before an improvised altar of Easter lilies.

Attended by her daughter, Mrs. Gene Ball of Spearman, the bride wore a pale blue costume suit, white accessories and pink orchid corsage. For "something old" she wore earrings having belonged to a deceased sister. Her traditional blue garter was "borrowed" from her granddaughter, Mrs. Digby.

Harvey Hickman, Jr., of Houston, was his father's best man.

For an informal reception held in the home immediately following the ceremony the table was laid with a white linen cloth. It featured an arrangement of pink flowers and candles. The two tiered wedding

cake was topped with pink rosebuds. Crystal and silver appointments were used to serve the cake and pink punch. Presiding at the table were Mrs. Elmer Gray and a granddaughter, Miss Verelene Bodkin of Farmington, N. M.

Others in attendance were Mr. and Mrs. Bruce Bodkin, Clarence and Lou of Farmington; Mrs. Billy Walker of Fort Worth; Gene Ball and Chuck of Spearman; Mr. and Mrs. Ray Culwell and Mrs. Ronnie Travis.

Following a wedding trip to Lake Texoma the couple will be at home in Earth where Hickman is engaged in business.

### Bridesmaids Luncheon Held

A bridesmaids luncheon complimenting Miss Yvonne Emberton, bride-elect of Carroll Buck Fuller, was held in the home of Mrs. James McCoy of Plainview Friday. Co-hostesses were Mmes. Freddy Bell and Lynn Barton.

Special guests were Mrs. Clyde Emberton and Mrs. Roy McAfee, mother and grandmother of the honoree; her sister, Miss Connie Emberton; Mrs. H. E. Fuller of Newport News, Va. mother of the prospective groom; and two of his sisters, Mrs. Ronald Schneider of Lincoln, Neb. and Mrs. Jack Childress of Newport News, Va.

Other guests were Mrs. Charles King of Hale Center, Miss Karen Patterson of San Antonio, Miss Joanne Carr of Newport News, and Miss Carolyn Walker.

The table was laid with cut-work eggshell linen cloth with a centerpiece of pink and burgundy. Sweetheart roses and appointments of China and sterling.

The bridal party made rice bags.

### Allcorns Host Buffet Supper

An informal buffet supper Saturday night was hosted by Mr. and Mrs. R. V. Allcorn, Bryan, Brynea and Brad.

Guests attending were Mr. and Mrs. Joe Allen, Scott and Mark and Pete Torres, all of Roswell, N. M.; Misses Tammi Lawyer of Oklahoma City and Tammy Green; Mr. and Mrs. Jack Allcorn; Mr. and Mrs. Gerald Allcorn, Vic, Kyle and Troy Don; and Mrs. C. S. Silcott.

Calling during the evening were Mr. and Mrs. W. G. Green.

### HOUSE GUESTS

Mrs. J. O. Bledsoe had as houseguests recently her son and family, Mr. and Mrs. Delroy Bledsoe, Debbie, Jim and David of Vernon, and from Sunday, her grandson and family, Mr. and Mrs. H. B. Davis Jr., Brad, Keith and Lonnie.

MRS. DON LOAFMAN

## Cook Of The Week

A newcomer to Olton last December, Mrs. Donald Loafman is our Cook of the Week. She shares recipes which are simple to prepare, yet different.

Janice and Don and their six-year-old daughter, Lee Ann, moved here last December although Don had been working here since last summer. He is manager of the local office of Plainview Production Credit.

A native of Shallowater, Janice moved with her family to Friona when she was only 10. She graduated from Friona High School and remembers playing basketball against Olton High School. A homemaking major, she attended Texas Tech three years.

During Don's military hitch, the young Loafman's lived in Clovis, N.M.; Montgomery, Ala. and Las Vegas, Nev. After his discharge from the Air Force, Don began working for Production Credit.

Janice is an avid bookworm, reading books over again when she can find nothing new. She also enjoys sewing for Lee Ann

but finds sewing for herself a duty rather than privilege.

Just recently Janice got her own motorcycle. "Don's enthusiasm rubbed off on me," she explains. She finds cycling lots of fun and laughs at a neighbor's comment that she has the "distinction of being the only woman in Olton with her own motorcycle."

## Let's put government into hands we can depend on

When scandal rocks our state government, as it has for more than a year, it is time for Texans to take the reins of government and place them once again into the hands of an honest, capable man. This is a time when Texans need a man to believe in. A man like Dolph Briscoe. His successful experience in business and agriculture, his work in government to provide farm-to-market roads and to eliminate the screwworm have

proven him a man Texans can depend on when solutions are needed. His unquestioned reputation for honesty and integrity stand him head-and-shoulders above his opponents. Never has Texas been offered such unacceptable candidates for the office of governor. And never has Texas so urgently needed a man like Dolph Briscoe. May 6, elect Dolph Briscoe governor.

## Sign of Good Breeding

Pioneer brand grain sorghum varieties have bred-in yield potential to help farmers get the most from their good management even in the face of adverse weather, insects, or plant disease. Also, the genetic inheritance of every Pioneer hybrid is unique. Each variety is bred to bring out the special traits necessary for maximum performance in the area where it is to be grown.

Your Pioneer dealer has many varieties bred to help farmers on the Plains turn in top yields. Some of these varieties are:

**Pioneer Brand 820:** shows its potential on irrigated land — performs well under stress — excellent standability — MDM resistant — 144-day maturity

**Pioneer Brand 828:** outstanding yielder — stands and threshes well even after freeze or snow — hard grain holds quality — MDM resistant — 144-day maturity

**Pioneer Brand 846:** excellent drought resistance — consistent high yields — MDM resistant — 134-day maturity

**Pioneer Brand 833:** yields along with 820 — excellent thresher — 140-day maturity

**Pioneer Brand 8417:** new yellow endosperm variety — full, open heads — good standability — easy thresher — MDM resistant — 135-day maturity

Days to maturity is an averaged figure, which is affected by weather and other variables.

GOOD YEAR OR BAD YEAR, YOU'RE BETTER OFF WITH PIONEER.

J. HOLLIS YOUNG, Hale Center, planted Pioneer brand 828 last year and made 9640 pounds of grain per acre. Mr. Young liked the way 828 responded to good irrigation and good fertility. He plans to plant Pioneer brand 828 again this year because of the "top yield".

Pioneer is a brand name; numbers identify varieties.

**Scouting Blazes New Trails**

**Demonstrating the new, more relevant, look in Scouting** are Scouts Alan D. Glass, left, and David B. Read of Westfield, N. J. Checking cars for exhaust emissions is only one of many new innovations in Scouting designed to make it more relevant to the needs and interests of today's youth.

Scouting today is a lot more than you think! The Nation's largest youth organization is shedding some of its old image to be more responsive to the concerns of youth. Surveys showed boys wanted more leadership training, more team sports, greater involvement in the decision making process, and planning their own advancement. They also wanted more projects that would lead to careers and job opportunities, and more participation in current social and environmental problems. The exhaust emissions test, conducted by Westfield Scouts, is only one of many opportunities boys now have in today's new Scouting. Headed by Esso engineer and Scout leader, Dr. George P. Gross, the emissions test project was designed to aid motorists. Carbon monoxide and unburned gasoline levels were measured on the

**Sen. Curtis Compares Beef, Cattle Prices With Those Of 20 Years Ago**

HASTINGS, Neb. - Cattle feeders around Hastings were getting a little less for fed steers and heifers back in January of 1952 than they were in mid-February this year, but today's retail beef prices are about twice as high as they were then.

Sen. Carl Curtis of Nebraska recently compared current retail and live cattle prices with those of 20 years ago, getting his information from the Hastings newspaper, and put the following information in the Congressional Record:

Cattle and Retail Beef Prices	Jan. 9, 1952	Feb. 16, 1972
	Prime Cattle	\$39.00 cwt.
Most Choice to Prime	\$33.50-\$38.00	\$34.00 to \$37.00
Swiss Steak	\$0.85 lb.	\$1.69 lb.
Round Steak	.98	\$1.38
Hamburger	.49	.98
Sirloin Steak	.85	\$1.63
Beef Roast	.65	\$1.19
Prime Ribs	.69	\$1.29

## Everything But The Kitchen Sink

BY MOZELLE TROTTER

Ordinarily a baseball game is not over till the last man's out. That's the way it's been since the game was begun more than a century ago. Today the entire season - not just a game - may be over if the player strike is not resolved.

Certainly my "two cents worth" is worth no more literally than a couple of copper coins but that isn't keeping me from climbing on my soap box.

According to reports in the papers, most fans are not going along with the players on the first-ever players' strike.

Most people - including some retired players - think the sport itself will be hurt. The fans, for sure, are the losers.

Seems to me that the pensions are pretty good right

### WEEKEND GUEST

Mr. and Mrs. O. L. Scheller had as house guests last weekend their son and family, Mr. and Mrs. George Scheller, Angela, Deb and Murriss of Hobbs, N. M. and the host's brother and his wife, Mr. and Mrs. George Scheller and their son and family, Mr. and Mrs. Richard Scheller and three sons all of Boise City, Okla. Other dinner guests Sunday were the O. L. Scheller's daughter and family, Mr. and Mrs. Don Lawson, Ricky, Brenda, Pamela and Leonard Ray, and from Denver City their granddaughter and family, Mr. and Mrs. Don Brown, David and Christi.

### RECENT GUESTS

Mr. and Mrs. R. W. Schaefer had as guests during last weekend their son and family, Mr. and Mrs. Leroy Schaefer, Paul, Catherine, Leroy Jr. and Clara Beth of Sandia Park, N. M. From Lubbock were their son Curtis Schaefer, their daughter and family, Mr. and Mrs. Roy Mull and Jace, and a friend, Miss Linda Schaeffer. A daughter and family, Mrs. Martin Stephan, Wanda, Clinton, Jannette and Linda of Lockney; a daughter, Miss Margaret Schaefer of San Antonio, and a granddaughter and family, Mr. and Mrs. Ronald Bouldin and Jenny of Midland, Rebecca Bartling, a granddaughter called Sunday afternoon from Olathe, Kans.

### TO LAKE FALCON

Mr. and Mrs. J. B. James, Linda Renay and Jennifer left Friday for a few days' outing at Lake Falcon.

### VISIT DOWNSTATE

Mr. and Mrs. O. E. Patterson and his mother, Mrs. Fannie Patterson of Slaton went to Nacogdoches last week to be with the O. E. Patterson's son and his wife, Otis and Leslie Patterson. They went to The Big Thicket, and Toledo Bend and Sam Rayburn Lakes, in Houston they visited Mrs. Fannie Patterson's daughter, Mrs. Fannie Ola Lawson, and her daughters and families, Mr. and Mrs. Harold Ellis and children and Mr. and Mrs. Joe Anderson and children.

### FROM AMARILLO

Mr. and Mrs. Royce Bearden and Larry of Amarillo visited during the weekend with Bearden's mother, Mrs. Bill Bearden, and with his wife's parents, Mr. and Mrs. Elbert Hymen.

now - despite the high cost of living! And one player representative surely won little sympathy from me with his statement, "Our players will go home even if they have to make money mowing lawns." Did you ever hear of a fellow who mowed lawns for a living making the salary of a major league ball player?"

Somehow I can't seem to picture former baseball greats striking. Maybe it's a good thing they're "former" not "present" - I might get disillusioned! I just don't believe they would.

Baseball lost one of those "greats" this week with the death of Gil Hodges. Hodges was not only outstanding in his performance in a baseball uniform - he had the reputation of being a good guy!

And another of the old greats may be fatally ill. Roy Campanella, three times named the Most Valuable Player in the National League, is in an intensive care unit of a New York hospital. Not only great on the baseball diamond, Campy was and is great in courage and determination.

Even though 14 years have passed since an automobile accident left him paralyzed, Campy still receives standing ovations when he attends an Old Timers game or other baseball appearances.

### OVERNIGHT GUESTS

Mr. and Mrs. Don Lawson, Ricky, Brenda, Pamela and Leonard Ray had as Saturday overnight guests Mrs. Lawson's niece and family, Mr. and Mrs. Don Brown, David and Christie of Denver City.

## The U.S. Weather Bureau Report calls for partly cloudy skies, hot and dry.

Back in the days when Mother Nature had control over the weather, there wasn't much you could do.  
Except sit and wait for it to rain.  
But now you can order your own rain.  
Any time you want it.  
With Gifford-Hill's 360 electrically-powered, pivotal sprinkler system.  
We've added several new features that make it even better than last year.  
An automatic end gun control option.

A new collector ring. A new alignment control linkage. A new direct gear drive motor on each section. A new moisture-proof intermediate control panel. And a new weather-proof coating.  
But where we really have it over the competition, including Mother Nature, is water pattern.  
By setting a dial you can apply as much water as you want to any portion of your field.  
And because of our unique sprinkler spacing concept, your crops get the same amount of water at one end of the system as it does at the other.  
No compaction. No puddling.  
No runoff.

So, before you worry too much about weather reports, get a full report on the 360 from a Gifford-Hill representative.  
He'll give you a demonstration.  
That will convince you that the 360 is the most dependable, the most versatile and the safest pivotal sprinkler system on the market.  
We want you to buy the 360. And forecast your own rain.

Whoever he is, wherever he is — I respect this man.  
 Naturally I respect anyone whose presence can bring calmness and peace where there could have been confusion and turmoil.  
 As for me, I'm just a writer. With others I've been writing on behalf of the Church — with conviction and enthusiasm—for many a year. Rarely until now have I written in the first person.  
 But this picture challenges one to identify himself. On this rocky hillside teeming with restless life only one is master, guide, guardian of all.  
 I share with you the common realization: I am not that one. We share too the simple faith that knows: *The Lord is my Shepherd.*

# Open Letter To Americans

## A TROUBLED ECONOMY

The economy of the United States and the rest of the Free-World is experiencing the most crucial economic and monetary crisis of this century. All of these national and international problems can be traced directly to unsound economic theory based upon Monetization of Debt, rather than Monetization of Real Wealth (Raw Materials) to build and develop a solvent national and world economic system.

## EXPLOITATION OF HUMAN RACE

Most of the problems such as war, poverty, depressions, inflation, and social disorders, that confront the people of the world can be traced to these unsound economic policies which have been the result of theory not based upon facts; and the selfish practice of the human race to exploit one another by expecting to buy goods and services below their rightful value.

## ECONOMIC SOLUTIONS ARE POSSIBLE!

A future world peace cannot be built on the same old foundation of economic exploitation. Freedom cannot be won, or given, to human beings that are forced to labor for less than \$.30 cents per day. Neither can we, or any other nation, expect to have a very great amount of world trade with three fourths of the population of the world with a wage level so low that it will not prevent starvation.

## NEW WEALTH - THE KEY

The United States does not have to experience the horrors of inflation, the dangers of depression, or war. It does not have to have unemployment, or build prosperity on debt, or a welfare system. The United States can regain its rightful place among the nations of the world in establishing an equitable world monetary system, and economy, that will bring about the world prosperity that must precede all other efforts in maintaining a permanent peace, and dignity, for all mankind throughout the world.

## COMMON SENSE POLICIES NEEDED

After making an extensive study of the records of the national economy, we have arrived at a formula that can be used to determine in advance our national income, employment, etc., with accuracy, and guide us in preventing the collapse of our nation's economy, and wipe out the dangers of another major world war. A recurrence of such conditions could mean the loss of our present form of government which would make it impossible for the United States to help a struggling world back to a foundation of peace, not to mention caring for itself.

These conditions do not have to happen, or exist. Inflation, depressions and unemployment can be avoided, providing we base our economic premise upon sound common sense economic policies based upon the record of the nation, instead of some Utopian Theory that has never worked, and never will work.

## PRODUCTION TIMES PRICE - INCOME

We must remember that wealth is production. We must also realize that if our production of wealth is properly priced in terms of dollars, we will create the earned income to maintain a solvent economy.

The value of this new wealth is nothing more, and no greater than, the price the nation is willing to pay itself for its New Wealth production. Whenever raw material production, in any form, whether it be agriculture, fossil fuels, minerals from our mines, fishing, or timber from our forests, is brought into being -- "This is the New Wealth that has been added to everything mankind had before." New Wealth can only come from something that was non-existent before, and its real value is nothing more than the price society pays for that new wealth in terms of dollars.

## LOSS OF NATIONAL NEW WEALTH INCOME

Whenever new wealth is underpaid in terms of monetary dollars, then the nation as a whole is forced to substitute excessive debt expansion in lieu of the lost earned income resulting from the underpricing of that New Wealth.

## NATION BANKRUPTING ITSELF

For the past twenty years or more, the nation has been Monetizing Debt Expansion to cover up the shortage or loss of New Wealth resulting from the underpricing, and underpayment, of our raw material production, mostly agriculture! As a result, the nation has been bankrupting itself by mortgaging all of its assets, substituting fiat money, and a fiat economy, thus creating the illusion we have basked in the sunshine of prosperity.

## FANTASTIC DEBT SYSTEM

Unless the nation is willing to pay the horrible price of another depression, and possible collapse of our economic system, it then becomes mandatory that the people who believe in peace and prosperity, under a free democratic society, based upon a private enterprise system, do something immediately, to alert, and challenge the folly of our New Economic Theories which have been responsible for creating the most fantastic debt expansion system the world has ever known.

## UNBEARABLE

The United States must change its policies. This nation must return to economic balance. If not, the price civilization will undoubtedly pay at some future date is almost unbearable to think about.

If the people who believe in our Private Enterprise System and who want to retain this form of economic freedom, will not alert themselves, rise up, and do something to preserve that system, WHO WILL! Apathy and complacency will surely win a trouncing victory for Giantism, the Conglomerate Structure, which in the final analyses will end up with government absorbing them.

## A NEW ORGANIZATION

We have just recently formed a new organization called the National Organization for Raw Materials, Inc. "NORM". This organization should have rightfully been called an organization for the restoration of NEW WEALTH through proper and equitable prices for our nation's raw material production.

## DIVIDE AND CONQUER

We realize the nation has more organizations today than the system can afford. We know that the nation is over-organized. WHY? Most organizations spring up to divide and conquer people, split them so wide that each group seems to be working against themselves, rather than for the best interests of the nation as a whole.

## THE PURPOSE OF THIS ORGANIZATION IS RESEARCH, EDUCATION AND PUBLIC INFORMATION.

The National Organization for Raw Materials, Inc. (NORM) has but one purpose in mind. We have but one goal, one ambition, one objective . . . A Sound National Economy that will finance itself through the proper creation of new wealth to sustain the system.

## ECONOMIC BALANCE MUST BE RESTORED

Unless economic balance is restored to our national economy through an equitable pricing system for all raw material production, and the opportunity for common people maintained to own their own farms, ranches, their own independent units of business, the system will fall. Private Enterprise must be retained for the common people of this nation. When the opportunities and incentives are lost for common people to play the game, then the system no longer has any meaning or purpose.

## SOUND BUSINESS PRINCIPLES

Therefore, our overall goal is to retain, protect and strengthen our system of private enterprise, for people, not the GIANTS alone, who would control the economic destiny of the world. It is our soul and purpose to rebuild a strong and solvent national economy based upon sound business principles with Prosperity Unlimited for every segment of society.

## GREATEST UNTOLD STORY IN AMERICA TODAY

We are in dire need of your help. We need financial support to get our story told to the nation. We need financial help so our story, "the greatest untold story in America today" can reach the key figures in government, business, industry, clergy, labor, etc. We have made fantastic inroads already as individuals. Now through the united efforts of a strong and influential organization, we "MUST, and we CAN" get this job accomplished.

## YOU ARE THE KEY TO OUR SUCCESS OR FAILURE

YOU, your friends, your neighbors, who strongly believe in our Free Society, our Independent System of Family Owned Enterprise are the key to our success or failure. We need your HELP NOW. We need your support, both financial, and in people numbers power. We plead with you to send us a contribution immediately so your dollars can go to work protecting your American Heritage.

## TIME IS OUR WORST ENEMY

Please get your check or money order in the mail today. Time is our worst enemy. Time is running out. We need all the support we can muster TODAY. Make your investment which is necessary to insure, as well as assure your economic security, and your own personal pride in knowing that you have invested in a program that is dedicated to the preservation and perpetuation of a free, independent private enterprise economic system, for your children and grandchildren.

## ALL AMERICA MUST BE ALERTED

All America must be alerted to the dangers we face ourselves. Unless this nation restores a solvent economic system based upon the creation of EARNED NEW WEALTH to sustain the system, rather than a bankrupt society struggling for existence under a FIAT MONEY STRUCTURE -- there will be no solutions forthcoming.

## WE NEED YOU - JOIN NORM TODAY

Notice the names of prominent people across the nation who are members of NORM. These great Americans join with me in this urgent appeal for your help. Join with your fellow Americans in a united effort to preserve, protect, strengthen the greatest system of economic enterprise civilization has ever known, the family farms, family owned and operated business enterprises. We owe this to ourselves. It is our responsibility as freedom loving people to invest for the protection and security of our basic rights and freedom. Please don't put it off. Send in your contribution now! Stand up and be counted! Become a part of a program that is designed for you, your way of life, your business, your future and the future security of your children.

Sincerely,  
Arnold E. Paulson  
Executive Vice President

# Editorials

OVER EIGHT MILLION jobs go begging in America today because of the underpricing of raw material production. Eight million families, 32 million people could return to the rural areas if honest prices were paid for agricultural, mining, fishing and the other raw materials. THINK ABOUT IT!

EVERY SEGMENT OF AMERICAN LIFE today is in financial trouble, business, industry, schools, churches, federal, state and local governments. Why? The economy has not generated, or created the Earned New Wealth Income to sustain itself!

OUR ENTIRE NATIONAL ECONOMY today is based upon debt expansion. We are fast approaching the point where the only New Capital for expansion must come from the Interest Profits on Debt.

HOW MUCH LONGER before the American people awaken to a sense of reality -- and take the time to discover how New Wealth is created, where New Wealth comes from?

ECONOMICS has become the flow of money, credit and debt. It's time the nation returns to the natural laws of economics. The nation cannot continue to cheat itself out of its New Wealth Income and cover up the losses with perpetual Debt Expansion. Economics must be the flow of goods and services, not the flow of Debt.

NORM IS DEDICATED to support all groups and programs whose ambition and integrity is designed to establish economic balance within the national economy.

THE HISTORY OF THE AMERICAN Enterprise System has been the envy of the world. The productive capacity and out-put of the United States in reaching a trillion-dollar economy is a story of mystery and fact. The American enterprise system has become the most productive system the world has known, and provided the highest

standard of living for most of its people than any other system in the history of civilization.

TODAY, THIS MIGHTY productive system is facing one of the most serious monetary crisis in its history. The nation is faced with problems such as hungry people, too much food, people living in slums with unemployment, and too many building materials to clear our slums. This just does not make sense.

OUR PROBLEM HAS NOT been one of overproduction, but under consumption resulting from loss of buying power in the market place.

AS AN EXAMPLE: Agriculture alone has been underpaid over \$800 billion over the past 20 years. Over \$75 billion underpayment in 1971. Think of the schools, churches and share of local government this lost income would have supported during this period. Rural America had no problem supporting its public institutions when agricultural prices were at full honest parity, nor our larger towns, cities and Metropolitan areas.

THE NATION is experiencing horrors of inflation in the midst of recession; and the economists are baffled in licking these problems.

THE UNITED STATES has enjoyed the highest level of Gross National Product, highest wage averages in history, but the problems increase. The economists have employed every formula in the book except that of restoring honest prices for raw materials, especially agriculture.

THERE WILL BE NO solutions to our economic dilemma until agricultural and other raw material prices are restored to full 100% of honest parity. If not, the nation will continue to experience the horrors of uncontrolled inflation, poverty for the masses, and unlimited expansion of debt, interest and taxes -- then economic collapse.
