## Baker Wins First Football Contest, Calling Shots on 8 Games

High school football games in the area provided morning quarterbacks ample topic for discussion at the same time getting the big Slatonite guessing as to a rousing start.

For the first week was Joe H. Baker, 845 S. 15th St., called the shots on eight out of ten of the listed contests. Baker's \$5 first award money plus being in line for the grand prize of tickets to the Cotton Bowl game.

Don Hennington and Don Nelson, both of 900 S. 15th, picked up a number of winning tickets, each picking a different game, but Billie Vern, 15th and 10th place honors via correct scores predicted by \$5, third prize. The contest will be placed on the Slatonite for the season.

**COLLEGE GAMES ADDED**  
The current week contest is spiced with three Southwest Conference teams added and the local forecasters seem decidedly biased in two of these, favoring Maryland over SMU, and Texas University over Oregon; opinion on the Tech-W.T.S.C. tilt this weekend appears almost evenly divided.

High school pairings should pose plenty of interesting situations. Slaton meets Tahoka, at (Continued on Back Page)

Missing the opportunity for fun and dollars? The old cash already is being distributed to weekly winning Slatonite Football Guessing contest, and you, too, may win \$5, \$3, \$2 or even tickets to the Cotton Bowl if you mail your entry before the Tuesday noon deadline each week.

Fill out the coupon found on the full-page advertisement by your paper and cooperating merchants on another Slatonite, have it signed by any of the sponsoring merchants and get it in the hands of the Slatonite.

Same feature is added to the contest this week — that of "breaker" game. Should a tie result in number of winners, two or more contestants, the nearest score predicted on the Dulhart game will break the tie. If further elimination, total winning scores on all games listed will be used.

Results will be posted on a big board each Monday noon at the Slatonite offices, and carried the same week in a front page story. Next week the name may be yours!

### Wins Garnered By 7th, 8th Graders

First Slaton football victories were chalked up Tuesday night at Abernathy when both the 7th and 8th grade teams took the measure of their opponents for conclusive wins.

The 7th grade representatives came home with an 8-6 win, and the 8th grade group romped for a 30-0 victory.

Both local teams are to play on home soil next Tuesday afternoon. (Continued on Back Page)

## Proposed Amendment Is Opposed By League

### Maxey Is Member of Legislative Committee Emphasizing Dangers

The prime importance of voter understanding of the proposed constitutional amendments to be voted upon at the November 6 elections was emphasized last weekend in Austin where the Legislative Committee of the Texas Municipal League organization convened.

J. J. Maxey, Slaton city secretary, is a member of this legislative committee, and was the only person attending the September conclave from the large West Texas area. The committee has scheduled two sessions prior to the Fort Worth convention of the League on October 7-9.

Proposed amendment No. 14 (last of the amendments up for vote) drew fire from the League, with vigorous resolutions drawn and endorsed to inform the public for ultimate defeat of this "Trial de Novo" Amendment.

Briefly, the trial de novo proposal provides for trials de novo on all appeals — from actions, rulings or decisions of administrative or executive agencies of the government.

The League resolution states in part: "It is the unanimous conviction of the delegates...

### Rural Accident Toll Heavy For Lubbock County

The Highway Patrol investigated 28 rural accidents in Lubbock County during the month of August according to Sergeant O. C. Guthrie, Patrol Supervisor of this area.

These wrecks accounted for thirteen persons killed, twenty-one injured and an estimated property damage of \$15,235.00.

The rural traffic accident summary for Lubbock County from January through August of 1962 shows a total of 213 crashes. As a result of these crashes there were 27 persons killed and 204 persons injured. The estimated property damage amounted to \$153,363.00.

The veteran patrol supervisor stated, "With fall and winter approaching, now is the time to have vehicles checked in preparation for the cold winter ahead."

The Vehicle Inspection Program in Texas has proved itself to be a valuable tool in reducing accidents on Texas streets and highways. All vehicles registered in Texas must be inspected. (Continued on Back Page)

### Tahoka Is Next

With a season-opener win and a last week tie under their belts, the Tahoka Bulldogs may well be another tough opponent for the Slaton Tigers this Friday night in the opening home game here.

Smarting from their second defeat, last week at hands of an inspired Idalou eleven, the Slaton aggregation is letting bygones be bygones, slanting every effort toward entering the win column. And this just might be the week that they get the job done.

Injuries at center position may compound the job for the locals, with Teddy Hatchett suffering a sprained ankle in last week's encounter, and Jim Bob Chrisman, 205 lb. center, suffering a similar injury in Monday practice.

Coach Bingham has had the Slaton group polishing up on all phases of the game; and many observers of past games prophesy that a little finesse on the fundamentals may well spell victory for the Tigers.

### TB Tests Will Be Given in Schools

Administration of Tuberculosis tests in Slaton and area schools has been planned for early October, according to plans formulated last week at a meeting of directors of the Lubbock County Tuberculosis Association in Lubbock, with Mrs. Grace Dodson, Slaton school nurse, and Thomas C. Martin, West Ward principal, attending.

This is the second year that the Heaf tests have been scheduled for local use. Likely the same grades will be afforded the tests as in the past. Mrs. Dodson states. Last year the tests were given to pupils of Evans and Stephen F. Austin schools, the 1st grade in West Ward, the 6th grade in Junior High and the 9th grade in High school.

The local Medical Auxiliary (wives of Slaton physicians) has pledged its assistance again this year in aiding in test giving, and the doctors will read the tests within a 48-hour period after test completion.

Plans also were made at the county meet for extensive sale of Christmas Seals, the sole method of financing the tests that are free to the students.

## Sunday Polio Innoculation Was Deferred in Last Minute Move

### Program Postponed, Not Cancelled Is Belief of Local Organization

Calming a rapidfire sequence of events last week-end, the widely advertised "Stop Polio Sunday" was canceled for Slaton by local campaign officials late Saturday night.

Saturday evening radio broadcasts revealed to the nation that the U.S. Public Health Service had just recommended that Type III of the Sabin oral vaccine be discontinued among adults except in emergency cases. Though Sunday was to be the day for second vaccine doses here, the Type III vaccine was slated for use.

Hurried telephone conference between campaign workers, local physicians and the sponsoring Lions Club officers resulted in postponement of program resumption here.

Bill Ware has clarified the local situation by stating that "the anti-polio Sabin vaccine program will definitely be carried out here, but at a future date in conjunction with efforts of Lubbock and other area towns. There is nothing to prevent use of the Type II vaccine, and we will await further developments regarding the one in question. Though we believed any danger non-existent for all practical purposes, we knew that the Saturday and Sunday publicity would probably cut attendance at the Sunday inoculation at least 20%, and any anti-polio effort should have at least 80% acceptance to be of any community-wide benefit".

The action of the government health service came on heels of Canadian withdrawal of use of the oral vaccine until further study. Revelation was made that 26 polio cases had been studied following administration of oral vaccine doses and it was determined that 11 of these involved adults who had taken the Type II vaccine. Actually, during the nine months that this vaccine has been in general use in the nation, more than 40 million doses have been administered, and "some purely coincidental cases of polio can be expected to have occurred", according to the surgeon general.

Local officials hazard belief that the local program will be resumed within a matter of weeks. Forty-five hundred area residents availed themselves of the first dosage in Slaton in early August.

Local officials hazard belief that the local program will be resumed within a matter of weeks. Forty-five hundred area residents availed themselves of the first dosage in Slaton in early August.

### Students Given Opportunity To Attend the Fair

Tentative plans are for the Slaton Public Schools to dismiss early Monday afternoon so that students can attend the South Plains Fair in Lubbock. Monday has been designated as Slaton Day at the annual exposition.

Fair boosters will be in Slaton this Friday to extoll the features of the '62 program that includes expanded agricultural and livestock exhibits, household exhibits, merchant displays, promise of a new carnival, and several performances of the 1962 edition of Ice Capades in the Fair Park Coliseum.

The fair will be inaugurated with a kickoff parade through downtown Lubbock at 10 a.m., Monday, with bands from area schools marching in competition for \$600 in prizes.

Farm, livestock and household exhibits will share some \$32,000 in award money. Fair officials state.

## Open Weather Is Desired For Cotton Development

It could be that the weatherman is cooperating with area farmers who now say "enough" to the moisture situation, hoping for hot, dry days for maturing of the late crops.

Showers and rains of the past three weeks have hampered the crops around Slaton, last moisture falling Sunday. Since that time the weather has warmed, and some cotton pullers are seen in scattered fields.

Survey conducted today reveals that less than 100 bales have been ginned in the Slaton trade area, with the cotton harvest now expected to seriously get underway in about a month. A late freeze, preceded by open weather, could well permit a bumper yield for the area.

Grades have been under average for the early cotton brought in, as the open bolls near the ground have been inferior and combined with trash to cause most grading to be strict low middlin. Upgrading is anticipated as the top bolls develop. Much of the local cotton crop will be defoliated, probably in the second or third week in October, agricultural officials predict.

Despite publicity given by the Texas Employment Commission that Lubbock County will be short some 1,000 cotton pullers

### Chamber Alert For Local Improvements

Chamber of Commerce members Monday night discussed methods of making Slaton more attractive for new residents and small industry, with it being a near ideal location for family pointed out that Slaton provides living, near to local or area employment.

Discussion was held on the recent farmer-merchant fete, gratification expressed for the aid of the participating merchants and workers, and appreciation extended the many farmers attending the big annual visit. "Rough spots" were analyzed in anticipation of even a better program in future years.

## Idalou Stadium Dedicated With Victory over Tigers

Despite an aerial attack that gave the Idalou Wildcat stadium semblance of Reese Air Base, the Slaton Tigers were unable Friday night to garner enough points to reach the win column, losing to tune of 31-14.

Slaton attempted 25 passes, completing 9 for aerial net gain of 94 yards. Penalties, interceptions and incompleteness stymied the repeated pass attempts of Tefertiller to Ronnie Jones, Bruce Pember and Gregg Nowlin.

Idalou scored four times in the first half before the Tigers could find paydirt. The first Slaton TD came with 2:12 minutes left in the half, set up by a Tefertiller-Jones pass completion at the Wildcat 5-yard stripe, and Tefertiller, later going over center for the touchdown. Pember converted for the extra point.

The Tiger's only other successful invasion of enemy territory came late in the third stanza with Tefertiller again plunging over center from the 1/2-yard marker. This play was enabled by Co-captain John George intercepting an Idalou pass on the Slaton 32-yard stripe, making a sensational goalward run that was stopped only 1/2 yard from the payoff.

Idalou maintained a vicious grand attack throughout the game, quarterback J. T. Benton and halfback Roger Sage coping the scoring honors, full-

### Cotton Trailers Being Registered

Business is booming at the office of Deputy Tax Collector, Mrs. F. A. Drewry, with registration of cotton trailers now getting into full swing.

Farmers and ginners are reminded that trailers carrying cotton to cause gross weight in excess of 4,000 pounds must be registered. A fee of \$5 is required for the 4,000-10,000 weight class, Mrs. Drewry states.

Trailer operators also are reminded of the caution and signal lights required on all vehicles traveling on a public road.

### Rigid Control Of School Traffic Is Slaton Rule

"Traffic control in vicinity of Slaton schools will be rigidly enforced during the school year — that is the word this week from Police Chief Martin who has been accorded the full cooperation of school officials and the City Commission in instituting effective control measures.

Complaints of drag racing and speeding in vicinity of 20th and Lynn and Crosby streets were received in the opening days of school. Several traffic tickets were issued and at least two cars impounded in this area.

Martin stated late yesterday that the cooperation of the student drivers and the school officials had apparently ironed out difficulties here, and that their continued help is solicited to insure a safe school year in Slaton.

### -WEATHER-

Average daytime temperature for the week ending Tuesday was 88 degrees, and nighttime readings averaging 63 degrees.

Some moisture fell locally Saturday and Sunday, totaling 1.1 inches, much less than the crop-damaging deluges noted in some areas north and west of Lubbock.

Forecast is for partly cloudy weather, slightly warmer, with possibility of evening and nighttime showers.

City rain measurements are supplied the Slatonite by the city water department, and temperatures are courtesy the Pioneer Natural Gas Company.

Day by day thermometer readings, high and low, are:  
Wednesday 88-63  
Thursday 92-66  
Friday 93-66  
Saturday 90-65  
Sunday 92-63  
Monday 82-62  
Tuesday 80-58

# EDITORIALLY SPEAKING

## Observations and Potpourri

Study of aid to foreign countries provides one of the better lessons in geography that we have experienced. You memorize the principalities and areas receiving dollar aid from the American taxpayer, learning their location on the map, you will have a good idea of practically the entire globe. Maybe this study should be initiated in the grades of our schools!

Listed below are foreign aid recipients as reported in the Congressional Record of July 12, Pages 12532-3, listed together with amounts of aid given by the United States since the end of World War II. These may well be minimum amounts, as the sundry means of distributing the dollar compound the task of tabulating all benefits.

In scanning the list, we suggest recognition of the many Socialistic governments listed, also those that are members of the Common Market. Satisfactory economic progress cannot be accepted as the rule in many of these, even with the injection of the American cure-all, the almighty dollar.

### Foreign Aid as of June 30, 1961

### PRAYER

Each day I pray high God to give me strength anew  
To do the task I do not wish to do;  
To love and own the truth and scorn the lie,  
To yield obedience, not asking why;  
To cheer for those who pass me in the race,  
To look a cold world in the face;  
To bear my burdens daily, unafraid,  
To lend a hand to those that need my aid;  
To measure what I am by what I give.  
God, give me strength that I may rightly live.

### THE AMERICAN WAY

The only moral lesson which is suited for a child — the most important lesson for every time of life — is this: "Never hurt anybody." — Rousseau

"How are the roads in this section?"  
"Fine," replied the farmer we addressed. "We've abolished bad roads."  
"And how was that done? Wasn't it a tremendous task?"  
"Not at all. Wherever the going is rough we don't call it a road — we call it a detour".

Then there is our friend across town that bought a dachshund for the children so they could all pet him at once.

Be what your friends think you are; avoid what your enemies say you are, go right ahead and be happy. — Marcus Pomeroy

Don't forget that YOU are part of the people who can be fooled some of the time.

### What Is a Teacher?

What is a teacher? A teacher is many things. . . She's knowledgeable with a smile on her face. . . Democracy with a book in her hand. . . Wisdom with a flick of white chalkdust on her left eyelid.

She comes in all sizes and temperaments. . . Short, tall, skinny, plump. . . Laughing, serious, happy and sad.

She's the future of the nation in a sack dress. . . Love with a college education.

In her everyday work week, she's expected to be, Diplomat, philosopher, politician, fight referee, pediatrician, a police-woman, practical nurse — and quiz program director.

She has little children in her eyes. . . And all her dreams are young dreams.

She's a psychiatrist without a couch. . . Politician without a promise. . . Baby-sitter without the right to raid the icebox.

She makes more money than a dishwasher. . . Or a ditch digger. . . Or a garbage collector.

She makes less money than a woman wrestler. . . Burlesque strip teaser. . . Or the woman blackjack dealers in Nevada.

Her days are filled with school bells. . . Young chatter. . . Chalk dust. . . Waving hands. . . Questions. . . And worried parents.

A teacher is equally adept at: Blowing small noses, teaching fractions, putting on galoshes, finding lost mittens in dark cloakrooms — and making parents feel good at parent-teacher meetings.

She spends four years in college, studying hard, in order to learn how to: Make orange pumpkins at Halloween, umpire baseball games at recess time, tell young boys to throw bubble-gum in the wastebasket.

In addition to knowing all there is to know about reading, writing and arithmetic, not to mention science, biology, history and music, a teacher has to be an authority on: Baseball. . . Grasshoppers. . . Little girls. . . Snakes. . . Young love. . . Little boys. . . and how to live three months of the year without a paycheck.

While grateful parents are spending their evenings watching television, attending cocktail parties, complaining about the high cost of the school system, teachers spend their evenings correcting examination papers. . . Smiling at people at parent-teacher meetings. . . and wishing they had become stenographers.

Teachers can be found after school: Taking aspirin, picking up spitballs, washing the blackboards, rehearsing plays, sewing angel costumes for a Christmas pageant—and just sitting at a desk waiting for strength to get home.

Teachers are expected to: Go to church. . . Keep out of debt. . . Have creative minds (but not disagree with the board of education). . . Stay away from cigarettes, beer and bingo games. . . and give willingly to the United Fund.

A teacher dispenses magic. . . Sells futures. . . Dreams are her stock in trade.

From her small classroom will come the doctors of tomorrow, the men who will go to the moon, the great artists and novelists of the year 2000. . . The industrial tycoons and all the leaders America will need to survive in a puzzled world.

She's the future of the world with a ruler in her hand. . . Progress with a pencil back of her ear.

Underpaid and unappreciated at times, harried and overworked, she gains her pay in secret satisfaction.

Secretly, she will admit, "I have the greatest job of all."

And she has.

Because she holds the history of the world in the palm of her little hand.  
She's a teacher.

—THE NAPLES MO

### Delinquencies Total \$600!

The Dublin City Council, in their regular meeting Tuesday night, voted to take action on delinquent water bills. A resolution that effect appears in this issue of the Progress.

City secretary Ezra Edwards stated that there are approximately 30 delinquent accounts totaling between six and a hundred dollars. Councilmen felt very strongly that should be taken, which will be put into effect October 1.

Patrons who are in arrears will be notified and given 15 days in which to clear the account. Upon failure to do so, the council has instructed the water department to take water meters. A charge of one dollar, in addition to paying account, will be necessary to have the meter reinstalled when water turned on.

—DUBLIN PRO

### Believes Possibility of Smokescreen

Dust stirred up by the fall of leaning towers in Texas but obscured the hitherto cloud that rose so mightily when Estes got underway. The East Texas oil scandals have rather rude in jerking the front page publicity away from in fact a few times not only front page but entire new have been amiss with nothing about the wonder boy who lines screamed "New Slanted Scandals in Texas." Of there are a few of us doubtful souls around who feel the fog thrown up just might have had a reason — like covering up some Estes testimony and such that read some embarrassing corners and named some embarrassing names. Well, one thing about our nearly biggest state, all the way in scandals, coverups, bribes or what have you why shouldn't it? It has a lot more territory for the work without crossing a state line.

—RALLS B

### Municipal Trouble in Olton

The City of Olton — which has had its share of trouble the years — faced a new problem Wednesday.

This one unfolded as District Attorney Jack Young shoe began an investigation Tuesday into alleged mismanagement of City of Olton equipment.

"It involves the use of city equipment by city employees during normal working hours on jobs for which the city did not pay," the district attorney said.

Young said he had received "several complaints" of irregularities, but he added that no formal charges had been filed.

## Tough new '63 Chevrolet Trucks are here

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

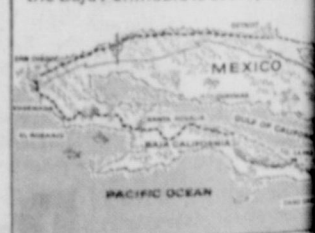

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

See the "New Reliabilities" now at your Chevrolet dealer's!

**DOC CROW CHEVROLET**

120 NORTH NINTH STREET

Round trip from Detroit to the end of the Baja Peninsula is over 8,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the bad begins. Rocks and hard-bumps bang, jab and jerk the trucks from stem to stern. Loose stones make them struggle and stall. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to complete the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

QUALITY TRUCKS COST LESS

# Defoliation Hints Are Given by County Agent

"Do not defoliate too early to harvest quality cotton" is the advice tendered this week by Lee H. McElroy, county agricultural agent.

McElroy, together with Fred C. Elliott, A&M cotton specialist, has outlined pertinent questions and answers that ultimately will be in the minds of many cotton farmers using the practice of defoliation; further information, the agent points out, is readily available in his office at Lubbock.

The outline follows:  
The true defoliant has not given uniform results. Desiccants have been more effective in preparing cotton for stripping.

1. What is a desiccant?  
A desiccant is a chemical material applied to cotton for the purpose of drying the leaves in preparation for stripper harvest of the open bolls.

2. How do desiccants differ from the action of true defoliants?

Desiccants do not cause all the leaves to fall to the ground. Because of faster action on the tissue of the leaf, it may dry and stick on the stalk.

3. What are the recommended desiccants?  
Pentachlorophenol and Arsenic Acid, usually 75% have been very effective.

4. When should the desiccant be applied?

Cotton should be fully mature 60 to 80% open and preferably 90% open. "Penta" is applied with diesel oil after the dew dries. Arsenic Acid is applied with water and can be applied under conditions of higher humidity than "Penta".

5. What is the cheapest material for use as a desiccant?

Commercial preparations containing about 75% arsenic acid.

6. Is Arsenic Acid poisonous to man and animal?

Yes. It is very poisonous and the SAFETY DIRECTIONS ON THE MANUFACTURER'S LABEL SHOULD BE FOLLOWED. It is also corrosive to equipment. Sprayers should be flushed with water and baking soda solution after spraying. Black pipe is less corrosive than galvanized. Copper, aluminum, etc. is still less corrosive.

7. Is there a safer material to desiccate cotton?

Penta (Pentachlorophenol) is less corrosive and does a satisfactory job with favorable weather (hot and dry), but is more likely to require two applications. A shower before Penta completes its action reduces its effectiveness.

8. What about emulsifiable Penta?

Two emulsifiable "Penta" materials are listed in the Cotton Defoliation Guide, L-145. They

are applied in water. No spreader or sticker need be added because excessive foaming in the sprayer tank will result.

A number of growers have obtained good results with 1 and 1/2 quarts emulsifiable Penta plus 1 pint of Arsenic Acid per acre. This combination seems to tone down the harsh effect on the leaves acid usually produces, causes greater leaf drop and yet still results in final desiccation.

It is not easy to emulsify Penta and the two emulsifiable Pentas are the result of hard work. Results have been good.

9. What about the upper rates of chlorates or the possible use of emulsifiable Penta as an additive?

Growers have gotten good desiccation results with magnesium chlorate and sodium chlorate defoliant formulations make

them perform well as desiccants for stripper harvest.

10. What about the use of 2, 4-D as an additive?

No company has made application for label approval for under the Federal Food, Drug and Cosmetic Act for the use of 2, 4-D as an additive to desiccants and IT IS NOT RECOMMENDED.

2,4-D added to Pentachlorophenol desiccant spray mixture was translocated into the seed of developing bolls and induced typical symptoms in the new growth of seedling cotton. This is reported in Texas Agricultural Experiment Station MP-597, Possible Disadvantages of Using 2,4-D with Pentachlorophenol as a Desiccant for Cotton.

11. How much Arsenic Acid should I use?

Three-fourths to 1 1/2 quarts per acre depending on the size of the cotton.

12. What is Arsenic Acid mixed with?

Water — 8 to 12 gallons per acre for ground spraying and 5 gallons for aerial spraying.

13. How should a ground sprayer be prepared for applying desiccants?

Use a regular cotton sprayer with 3 to 5 cone type X3 or X4 nozzles per row 8 to 10 inches from the cotton; pump pressure 40 to 50 p.s.i.; 50 mesh strainer; tractor speed 3 to 5 miles per hour. Cotton under 24 inches high use 3 nozzles per row, over 24 inches high use 5 nozzles. Get material on all leaves. Under windy conditions, protect the operator and the machine from spray drift. It might be necessary to spray in one direction of travel only.

14. How do you tell when the desiccated leaves are dry enough for stripping?

When leaves near the bottom of the stalk will crumble in the hand and the leaf stems break. Normally, this will be 7 to 8 days after applying. In the mornings these leaves are tough and will not crumble. Higher

Mrs. Ruth Keys and Russell had as their guests this week, her mother, Mrs. Alice Simpson, and her sister, Leo Simpson, who live at 502 Georgia, Amarillo. Mrs. Simpson, 95 years of age, and her daughter, Leo, were on vacation when the surprise visit was made.

grades come with dry harvest. Let cotton dry to 8% moisture. Eat an early dinner, then go to the field with the stripper at about 11:00.

15. How do you tell if a second application is necessary?

Station, they recommend re-treating it more than 4% of the old leaves are still green. The better grades will pay for the second treatment.

16. Can the cotton field be grazed after desiccation?

The answer is no, especially if arsenic acid was used. Also, if the stalks are shredded, the insect situation will be improved.

17. Is there any danger from drift in spraying desiccants?

A wind will drift the desiccants if it is strong enough. Arsenic acid may drift into grazed areas and endanger livestock. Home plantings, vegetables, flowers, shrubs and trees might be damaged by any desiccant.

18. What are possibilities for some of the true defoliants for stripper harvesting?

The organic phosphorus compounds, DEF, Folex, De-Leaf and Fos-Fol can be used on drought-stressed cotton at 2 pints

per acre in 3 to 5 gallons white diesel oil.

19. Does the addition of a vator or spreaders give so increase in leaf kill of desiccation?

Tests have shown that conditions of cool days and nights or plants under moisture stress are unfavorable to desiccation. Addition of spreaders, activators to arsenic acid mixtures does tend to help under the above conditions; however they are not to be used with Penta and diesel. Generally 1 1/2 pints per 100 gallons spray solution is recommended.

20. How much acreage should be sprayed at one time?

Stagger the application. Cover the field at about the same rate you expect to harvest. This helps in avoiding greening up.

The 19th Century saw the first real progress in agriculture — many thousands of years — metal plow, crop rotation, binders, tractors, cotton gin, fertilizers, dawn of power — operators, threshers, etc.

## personal extension phones

RELIEVE THE PRESSURE OF ONE-PHONE HOMES

They bring step-saving convenience, more personal freedom and pleasure to your telephone talk. Often let you do two things at once by taking calls in the room where you are. Economical, too. You can have three extension phones in your home—in the living, sleeping and working areas—for just pennies a day!

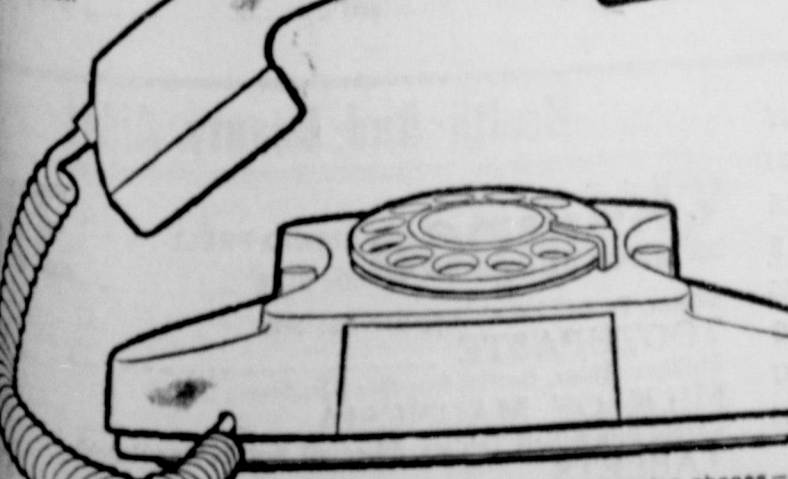

Who needs extension phone service most?

Families that make or receive five or more calls a day.

Families with one or more members active in school, church, civic or club work.

Families with active, popular teenagers or young adults.

Any of these conditions fit your family, the chances are you need extension phone service.

To order your personal extension phones—Princess, wall or table models, in a wide range of colors—call the telephone service man, office, or ask any telephone service man.

## Orderly Fiesta Attracted Large Crowds Locally

Minor law infractions again were the rule in Slaton this weekend, with the police blotter revealing another quiet week.

Chief Eugene Martin was high in praise for the order in which the Mexican Fiesta activities were carried out, noting that some 2,000 Latin Americans attended the fiesta dances Friday, Saturday and Sunday nights at the 3rd St. and Gene intersection, with no accidents or trouble incurred at the activities.

Thefts during the week were confined to a saw stolen from the back seat of the J. E. White car, and hubcaps said taken from a '53 Ford belonging to Jose Estrada.

Arrests since last Thursday included 17 drunks, three disturbance charges, five vagrancies, and three charges of possession by minors.

## Injuries Plague Southland Team; Defeated by Smyer Bobcats 30-0

### Cotton Center To Be Foe This Week

The Southland Eagles suffered their second defeat in as many weeks Friday, bowing to the Smyer Bobcats to tune of 30-0. In the first half, Smyer made

three touchdowns and two extra points, bringing the score to 22-0 but in the last half, the Eagles toughened up their defense and were able to hold Smyer to only one touchdown and the extra point, ending the game with a score of 30-0.

Linebacker Troy Lewis and End Jackie Dunn played outstanding defense for the Southland Eagles.

The Southland Eagles were greatly handicapped in this game, with three of their main players, Rod Callaway, Webster Crawford, and Johnny Haire unable to play because of injuries suffered in the previous game with Bula. All three, however, are expected to play against the Cotton Center Elks next Friday.

Co-captain Robert Mock suffered a head laceration, but will be able to play Friday night. End Larry Wilke sustained a broken wrist and likely will be out of the line-up for the rest of the season.

Probable starters are John Davidson, lb; Doug Williams, lb; Larry Bownds, lg; Bobby Magallanes, c; Danny Scott, rg; Billy Martin, rt; Mike Williams, re; and Randy Martin, lb; Byron Henderson, fb; Victor Christian, rhb; and Billy Gass, qb.

Evans P-TA Has Initial Meeting

The Evans P-TA held its first meeting Monday evening with Mrs. Lois Daye, program chairman, in charge. Greetings were given by Mrs. Jessie Gibbs, followed by poems from Larry Curry and Mrs. Jessie Curry. Eugene Slaughter, the only new member of the Evans faculty and Director of Music, rendered an instrumental solo, "Old Man River". Remarks were made by Principal O. B. Allen, who expressed his gratitude for the presence of a large number of parents and all members of the faculty. The members of the faculty were introduced by Mr. Allen.

Officers for the year are: President, Mrs. Viola Jackson; Vice President, Mrs. Muriel Taylor; Secretary, Mrs. Jessie Gibbs; Assistant Secretary, Mrs. H. V. Rainwater; Treasurer, Edwin Taylor.

After the meeting the faculty members were guests of the parents at a very lovely banquet.

## Freshmen Engage Abernathy Today

Playing their initial game of the season, the Freshman charges of Coach Laceywell will engage with Abernathy this Thursday on Slaton soil. Game time is 6 p.m., and local fans are invited to support and view the efforts of the home team.

Though average in weight and speed, the local boys all have had 7th or 8th grade football competition experience.

Probable starters are John Davidson, lb; Doug Williams, lb; Larry Bownds, lg; Bobby Magallanes, c; Danny Scott, rg; Billy Martin, rt; Mike Williams, re; and Randy Martin, lb; Byron Henderson, fb; Victor Christian, rhb; and Billy Gass, qb.

A gigantic red sphere will house the Man in Space Show at the State Fair of Texas in Dallas, October 6 through 21. The nation's first traveling space exhibit will include films of John Glenn's historic space flight, a mockup of the type vehicle scientists believe will carry man to the moon, a Moonscape, a detailed model showing current plans for maintaining life and exploration on the moon, models of the Atlas and several other space vehicles and other space-age exhibits.

## K-C Council Will Hold Barbeque Slaton Bicycles Safety Checked

Plans for their annual barbeque on Sunday, October 7, were formulated by the Knights of Columbus, Slaton Council No. 2571, at the regular session of that body Monday evening in St. Joseph Hall.

Members also voted to sponsor Supreme Knight Luke E. Hart's Columbus Day Address on Radio Station KCAS at 1 p.m. on October 12. They will also participate in the novena for the success of the Ecumenical Council and hold a Corporate Communion for that purpose on October 7. It was also decided to repair the screens on the St. Joseph School building. Special guest was the Rev.

More than 150 bicycles were given safety checks Saturday through joint activity of the Slaton police department and the Junior Chamber of Commerce.

Bike owners availing themselves of the free inspection were given reflector tape for their vehicles, together with cards certifying the safety check. File cards also were prepared giving description of the wheels, together with owner's name, and these have been placed on file at the police department for aid in later recovery of lost or stolen bicycles.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Texas' new sales tax was one year old on September 1. First year's income averaged \$870,000 a week, or a total for the first 12 months of approximately \$149,000,000.

Robert S. Calvert, State Comptroller, says "I think the general public has accepted it quite well."

Despite years of pro and con

arguments in the legislature and by political candidates, concerning the sales tax, the first year's operation was generally harmonious.

One of the exceptions is a court ruling that Calvert cannot collect the 2 per cent tax on total receipts from sales of less than 25 cents. This ruling is on appeal.

Another court has ruled that natural gas and electricity used in laundry and dry cleaning businesses should not come under the sales tax. This too is on appeal.

Calvert says that even though the collections for the first year are some \$10,000,000 to \$12,000,000 shy of the expected \$160,000,000 he was pleased with the success of the first year's program. "We ended with a cash balance of \$21,851,594.00 in the general fund, anyway," he pointed out, "but we were back in the red within a few days."

Reason was that the very next day \$40,000,000 went into the Teachers' retirement fund — and the state's main bank account went into the red again. This time to the tune of \$19,459,359.00.

He indicated that audits of the various businesses responsible for collection of the tax would be in full swing before long. Then auditors would help clarify a lot of misconceptions.

## TEXTBOOK CONTROVERSY

Texas State Teachers Association has broken its silence on the textbook controversy to warn that the next session of the legislature may bring attempts to put the burden of school book purchases back on the individual parent.

Some school leaders regard the attacks on textbooks as essentially an attack on the public school system, says TSTA.

Texas furnishes textbooks at a cost of less than \$4 a year for each child. If parents bought the books, the cost would be approximately \$30 for each child.

## NEW AUTO STICKERS

Col. Homer Garrison Jr., director of the Texas Department of Public Safety, says the new car inspection stickers released this week are of a new type.

Garrison described them as "dry-mount decals which we believe will adhere regardless of weather conditions."

More than 5,000,000 vehicles will need safety inspections between now and April 15, 1963.

## DRY TIMES

The U.S. Department of Agriculture and the Weather Bureau hailed the rains which finally came to some sections of Texas last week.

Scorched pastures in East Texas, the Northern Blackland and Low Plains counties got a drink, and some greenness was seen again.

But the range situation is described as "critical" throughout South Texas, the Edwards Plateau and the Trans-Pecos regions, where it remains very dry.

## POLIO FIGHTERS

There are signs that polio epidemic is abating. Only three new cases of paralytic polio were reported last week. They were in Cameron, Harris and Lubbock Counties.

Anti-polio treatments continue to be applied on a mass scale, with the opening of schools, in an effort to completely wipe out this scourge.

However, there have been 193 cases in Texas this year. During the first eight months of last year there were only 50 cases.

**WILSON SAYS NO**  
Published reports that Atty. Gen. Will Wilson would run in

1964 for the Railroad Commission, against Commissioner Ben Ramsey, were scotched.

The man who should know — Wilson himself — said he plans to open a law office in Austin. He said he had no future political plans, and that he positively will not be a candidate for railroad commissioner.

## MORE MACHINES

If you don't like the way your new highway is built, there's nobody you can blame it on.

A machine probably figured it out.

State Highway Department has added a computer to work out problems of highway design, hydraulics, earth work, land measurement and traffic signalization.

The gadget can read and interpret 8,000 cards a minute from a tape.

Things were simpler in Austin when people ran the government.

## EXPERT SPEAKS

Austin MacCormick of New York, the expert on penitentiaries whose recommendations led to reform of the Texas Prison System a decade ago, came to Texas to take a look at the Texas Youth Council's reorganization.

He headed for New York full of praise for improvements at Gatesville and Gainesville State Schools.

MacCormick particularly praised the new Mountain View School at Gatesville, where the toughest boys are separated from the first offenders. He said it was not an "Alcatraz," but a place where the boys with more problems can be given special attention. At the same time, their influence is removed from the younger boys.

But the expert warned that Texas needs a place for boys who are dependent and neglected, but not yet delinquent, to save them from becoming delinquent.

Too many boys who belong in foster homes are being committed to schools for delinquents, giving them an undeserved stigma, MacCormick said.

He particularly urged the establishment of a State home for Negro boys in this category.

## SEED LAB

A third official seed testing laboratory has been established in Texas.

John C. White, Agriculture Commissioner, reports that the State Department of Agriculture and Stephen F. Austin College jointly have set up a new laboratory on the college campus in Nacogdoches.

Other laboratories for testing seeds to determine purity and germination time are operating at the Agriculture Department's main office in Austin and at Lubbock.

More than 60,000 samples of seed are tested yearly by White's agency, as a means of assuring Texas planters that they are getting what they pay for when they buy seeds.

Tags on the bags show the content in weed seed and the percentage of the seeds which germinate.

## TREASURY AUDIT

Although one part of the state treasurer's office in the Capitol has bars on the entrances, the state does not keep its \$2,500,000,000 annual income there.

Jesse James, State Treasurer, has sent an audit to Gov. Price Daniel showing that the state's money is on deposit in 1,619 separate accounts in 840 banks.

Capitol vault contains only petty cash and time warrants held by the treasurer.

## LAW OVERHAUL

A State Bar of Texas committee is recommending to the 1963 legislative session the first full-scale revision of criminal

court procedure in Texas history.

If the Legislature proves receptive, the state's criminal law, as well as procedure, may undergo extensive legislative scrutiny as a result of scandals which have shaken the state this year.

## STILL UNDER FIRE

Five top state officials are still under fire from Giles E. Miller, Dallas attorney, who seeks to stop payment of their salaries.

Miller says he will appeal an adverse state court decision in his effort to compel more equal legislative redistricting in Texas.

## DEMO FUND-RAISER

Clyde Johnson, executive director of the State Democratic Executive Committee, has announced the appointment of Marvin Watson of Daingerfield to head the party's fund-raising dinners in El Paso on September 17.

Watson is a member of the SDEC.

## SHORT SNORTS

State Parks Board has approved working drawings of an amphitheater planned for Palo Duro Canyon State Park.

Legislators looking to the work of the next session say prospects are favorable that the 1963 Legislature will ratify the proposed constitutional amendment to eliminate the poll tax as a requirement for voting.

A tour by Texas insurance officials, to study other state's automobile coverage plans, may pay off in helping Texas draw up a new plan soon, says the State Insurance Board.

A 1960 opinion by Attorney General Will Wilson that taxing agencies cannot seize a family car for delinquent taxes, on the ground that the car is part of the homestead, has been reaffirmed by his office.

Texas collected \$9,056,161 in cigarette, liquor and wine taxes during August, reports Jesse James, State Treasurer.

Attorney General Will Wilson has announced the resignation of two of his top staff aides. Both Henry G. Braswell, head of the escheat division, and Houghton Brownlee Jr., executive assistant, will enter private practice of law.

Texas residents should check financial statements of insurance companies not licensed in Texas before buying from them, William Harrison, Texas Insurance Commissioner, has warned.

Predictions are that Sen. Charles F. Herring of Austin probably will be chairman of the important Senate Finance Committee next year if Sen. Preston Smith, the Democratic nominee wins the Lieutenant Governor's race in November.

The much "shaken up" State Insurance Department is now experiencing a case of nerves for different reasons. Sonic booms from supersonic jets have generated pressure waves which have blasted out several glass panes in the modernistic new building near the Capitol.

As of now, not considering the possibility of some Republican victories in House races next November, there will be 59 members of the lower branch of the 58th Legislature which convenes in regular session next January.

Governor Daniel appointed Roy H. Cullen of Houston to the Texas State Historical Survey Committee, to replace Stuart McGregor of Dallas, who resigned. This committee is busy putting markers on buildings and sites which have a meaning in the history of Texas communities.

A committee of the Branch of the American of Civil Engineers pro-

farmers and ranchers quired to get permits Texas Water Comm build small stock po than 200 acre feet c

## Lots of Listening Is Promised Fans Of College Football

College football will receive exceptionally broad radio and TV coverage in Texas this year with broadcasts of 49 Southwest Conference games involving Texas teams, plus live telecast of 14 NCAA games, among the games to be heard and seen.

Five bowl game winners to be heard are Texas, the Cotton Bowl victor over Mississippi; Baylor, the Gotham Bowl champion; Louisiana State, Orange Bowl king; Penn State, the Gator Bowl ruler; and Kansas, winner in the Bluebonnet Bowl. Other bowl participants on the Southwest schedules are Arkansas (Sugar Bowl), Colorado (Orange Bowl), and Rice (Bluebonnet).

## Native West Texan Is Named Soil Scientist at Research Foundation

Dr. Arthur F. Gohlke was named to the position of Soil Scientist at the High Plains Research Foundation, by the board of Trustees at the semi-annual meeting of the board today. Dr. Gohlke will conduct research on specific soil and water projects and also supervise the reasearch at the Foundation with soil and water research. He will join the staff at Midway permanently when he completes some very important basic research projects in radioactive phosphorus and soil and water relationships in the Department of Biochemistry at Michigan State University, Lansing, Michigan.

Dr. Gohlke is a native of the High Plains of Texas. He farmed with his father and brothers at Littlefield, Texas, receiving a bachelor of Science degree from Texas Tech in 1953.

In the spring of 1957, he commenced his graduate program at Texas Tech, receiving his Masters degree in Agronomy in August, 58. He was accepted for graduate work at Purdue University, Lafayette, Indiana, in September, 58, securing his Doctor of Philosophy degree in Soil Chemistry in 1961. He is at present conducting post doctorate research in bio-chemistry at Michigan State University, Lansing, Michigan.

His work in this field of soil and plant relationships will be of great value to the agricultural industry in the High Plains. His studies of the yields of cotton and grain sorghum of irrigated marillo Clay Loam in two moisture levels; cotton insect control activities in Lubbock County together with his scientific studies and publications at Texas Tech, Purdue, and Michigan State.

DR. A. F. GOHLKE

Dr. Gohlke will be very helpful as he starts his activities at the Foundation. The new soil and plant research laboratory given to the High Plains Research Foundation in Amarillo is already equipped for some of the work Dr. Gohlke will be doing in soil and plant research. Other lab equipment needed will be secured to give him the facilities for his studies which will be directed to continue the strengthening of the agricultural and business economy of West Texas.

### CARD OF THANKS

Words cannot express our deep appreciation for the many acts of kindness during the hours of our recent bereavement. To all those whose kind words, food and flowers made the load lighter, we invoke God's richest blessings.

Mrs. Reece Bivens and Bob

## CONTEST -

(Continued from Page 1)

ter a weekend with a Slaton loss and Tahoka battling to a tie with Crosbyton.

Kress is picked to edge Petersburg, though Petersburg emerged at the big end of a 13-6 score with Abernathy, and Kress lost to Turkey, 6-18.

After the humiliating defeat of last week to the Plains Cowboys, Post faces Morton, the team that took Frenship to a 19-6 drubbing Friday. Local opinion is evenly divided between Post and Morton.

Denver City seems solid favorite over Lovington, with the Mustangs turning on the steam last week to clinch their game with Pecos in the first half, coasting for the final two quarters.

The Seminole-Littlefield encounter is signified as a toss-up by local contest entrants. Seminole and Levelland butted heads to a 0-0 tie last week, while Littlefield drew a goose egg against the Brownfield 26-point total. The Levelland-Seminole game turned out to be a test of defensive strength, with Seminole making no penetrations, Levelland chalking one.

Lamesa gets the green light over Andrews, having taken Midland 21-6 in the season opener, and Andrews bowing to Snyder 7-0.

Floydada is favored over Ralls by majority of the Slatonite entries, possibly due to its 28-12 victory over Olton, though Ralls held O'Donnell to a 26-20 win.

Sue Reasoner is one of the many students returning to college this week. She is a student at West Texas State at Canyon. She is the daughter of Mr. and Mrs. Leeman Reasoner.

## Coming Events

(Editor's Note: Club officers or individuals wishing any meeting or event to be announced are invited to call the Slatonite for inclusion of the item in the "Coming Events" calendar. Meeting times or changes in locations or plans are important. The Slatonite will report them as called to our attention.)

Thursday, Sept. 20

Rotary Club, noon at clubhouse.  
L.A. to B. of R.T., 10 a.m., American Legion Hall.

Friday, Sept. 21

Slaton Tigers host Tahoka team at Slaton in first home game.  
Senior Citizens Club, 10 a.m., at clubhouse.

Sunday, Sept. 23

Attend the church of your choice.

Monday, Sept. 24

American Legion Auxiliary, 7:30 p.m.  
Rainbow Girls, 7 p.m., at Masonic Hall.  
City Commission meets at 8 p.m., in the city hall.

Tuesday, Sept. 25

V.F.W., 8 p.m., at the V.F.W. Hall.  
Eastern Star, 7:30 p.m. at Masonic Hall.  
Lions Club, noon at Bruce's Cafe.  
Alcoholics Anonymous, 8 p.m., in basement of the First Christian Church.

Wednesday, Sept. 26

Jaycees, 8 p.m., bank meeting room.  
Home Demonstration Club, 2 p.m.  
Bluebonnet Club, 2:30 p.m.

## Women's League Of Voters Hears Schoolman Speak

Four Slaton women attended the Thursday session of the League of Women Voters, with Janis Henry named to the presidency.

Others elected were Deborah Scott, 1st vice president; Joan Clairborne, 2nd vice president; Nancy McSweeney, 3rd vice president; Peggy Kirksey, 4th vice president; Colette Holt as treasurer; Charmaine Heinrich, secretary; Caron Caldwell, parliamentarian; Jane Tefertiller, sergeant at arms; and Pam Davis as historian.

Installation of officers and initiation of new members will be conducted this Thursday. The girls of both chapters are now planning and preparing their entries for the fair. Some are making toys or clothes, while others plan to enter bake goods and other foods. Considerable interest is evident in this project, with the girls looking forward to copping some of the awards. The FHA chapter also has expressed its anticipation of an outstanding year for the Little Sister group.

CHORALETTES ELECT OFFICERS  
Officers elected by the Slaton Junior High Choralettes to serve during the '62-'63 school term are Linda Guelker, president; Nancy Lucero, vice-president; Ernestine Alvarado, secretary-treasurer; and Gay Bowman, reporter.

All of the officers are in the 8th grade in Slaton Junior High School.  
Mrs. Helen Byrne is director of the group.

## N Chicken-Tokay Dish

Fit for a king — or a queen — "Curry Chicken a la Queen" is a main dish to bedazzle dinner guests. And it's economical enough for a feast just for the family. Diced chicken flavored delicately with curry is served in a creamy celery soup sauce spiced with poppers and ruby-hued Tokay grapes. Juicy Flame Tokays, the finest of the fall grapes, provide crisp texture and distinctive flavor in numerous entrees, salads, fruit cups and desserts. For lunch boxes and between-meal snacks, they are low in calories yet quite filling.

**CURRY CHICKEN A LA QUEEN**  
1 1/2 cups Tokay grapes  
2 cups diced, cooked chicken  
2 tablespoons butter or margarine  
1/2 teaspoon curry powder  
1 can (10 1/2 oz.) cream of celery soup  
1/2 cup water  
1/2 teaspoon salt  
Dash pepper  
1/2 teaspoon lemon juice  
1/2 cup sliced green pepper  
1/2 cup sliced red sweet pepper  
Crisp toast points  
Halve and seed Tokays. Sauté chicken in butter and curry powder until golden. Stir in soup, water, salt, pepper and lemon juice. Simmer 10 minutes to blend flavors. Add green and red peppers and Tokays. Simmer 5 minutes longer. Serve on toast points or in flaky patty shells. Makes 6 to 8 servings.

## FHA Little Sister Officers Named

Little Sister officers were elected Tuesday by the Slaton Future Homemakers of America, with Janis Henry named to the presidency.

Others elected were Deborah Scott, 1st vice president; Joan Clairborne, 2nd vice president; Nancy McSweeney, 3rd vice president; Peggy Kirksey, 4th vice president; Colette Holt as treasurer; Charmaine Heinrich, secretary; Caron Caldwell, parliamentarian; Jane Tefertiller, sergeant at arms; and Pam Davis as historian.

Installation of officers and initiation of new members will be conducted this Thursday. The girls of both chapters are now planning and preparing their entries for the fair. Some are making toys or clothes, while others plan to enter bake goods and other foods. Considerable interest is evident in this project, with the girls looking forward to copping some of the awards. The FHA chapter also has expressed its anticipation of an outstanding year for the Little Sister group.

Niki Sullivan was consolation winner with 226.

## Birthday Party Given Tony Martin

Tony Martin was honored Tuesday of last week with a party on occasion of his ninth birthday.

Cake, punch and ice cream were served at the Buford Martin home to Beverly Bruster, Tyra Biggs, Patsy Gamble, Glenna Jones, Terry Sikes, Don Ann Beard, Teddy Kidd, Don Johnson, Ronald Verner, Tommy Walters, Timmy Hoover and Randy Davis. Also attending were Tony's brothers and sisters.

## Locals Place In Mimosa Tourney

Several Slaton and area golfers participated in the Mimosa Hills golf tournament concluded Sunday, the first tournament ever conducted at the course.

Regulation 54 holes were played. Red Kincer of Slaton shot a 250 in the second flight; Second flight found three area men competing, with J. Gray of Slaton taking low score with a 265, trailed by Jim Sain with 267, and Al Clary of Wilson at 269. Fifth flight included Dr. John Locke and Jack Nowlin both shooting 294. In the sixth flight, Truett Bownds shot 312.

C. E. Young, first president of the Mimosa Hills Club, also copped honors as first club champion, but had to play a sudden death to edge out James Brewer, both shooting 223 in regulation rounds, Young winning on the 56th hole.

Niki Sullivan was consolation winner with 226.

## Accidents -

(Continued from Page 1)  
istered in this state are required to be inspected once a year, he added.

The new motor vehicle inspection year began September 1. However, the only thing new about the inspection this year is the sticker itself. The Sergeant pointed out, that this new sticker is a dry mount decal which we believe will adhere regardless of weather conditions.

Mrs. I. C. Kirk returned Sunday from Coleman and Abilene where she spent a week with her brother who is ill.

## Carpet Care And Selection Subject Wilson H.D. Club

"Selection and Care of Carpets" was the program topic outlined by Mrs. Connie Anderson at the Friday afternoon meeting of the Wilson Home Demonstration Club.

The group met in the home of Mrs. Rueben Sanders, with 10 members and two guests present. Mrs. J. H. Lambright, president, was in charge of the short business session.

In amplifying her discussion on carpets, Mrs. Anderson stated that there is no bargain when buying carpets.

Mrs. Sanders, hostess, served refreshments to Mesdames J. H. Lambright, Gilbert Steinhouser, B. O. Wilke, Curtis Wilke, Curtis Wilke, Floyd Wilson, F. B. Riney, Glen Ward, Neoma Peterson, Mrs. James L. Savell, a new member; Glenda Ward, guest, and to Miss Connie Anderson, County Home Demonstration Agent.

## Old Friends

By J. J. Maxey

We made another error last week when we reported Irvin Reed had paid dues. The dues were for Leroy Blum. Fat had already paid his. Sorry fellows, when we quit mistakes we will get a job at the bank.

Was sorry to miss Patsy last week when she came to hello and pay her dues. They are just recently back from in Germany. Patsy reports that they are really glad to be in the States and will send their address when they get again.

Jerome Burns came by last week and visited a few. Jerome is traveling for the Clyde Taylor Boot Co. in San Antonio.

The Burns' are living at 2709 Guadalupe, San Angelo, Texas. Was talking with Mrs. Ernest Ward a few days ago. She gave me the address of her younger sister who graduated in 1925. Mrs. W. D. Seright (Elizabeth Latimer), class of 1925. Seright is teaching in Lawton, Oklahoma and lives at 1333rd Street in that city.

Wayne Liles reports that he had a letter from Mrs. O'Brien (Juanita Williams), class of 1938. Juanita was stirring up interest in a 25th anniversary reunion for their class. How about it fellows? It would be a good time to have a 25th anniversary when we have the regular reunion in 1963. Juanita lives at 731 Barchester, San Antonio 16, Texas. I believe she is teaching in the college there.

I ran into Tommy Swanner last week end and he was complaining about not getting his news letter. There must be between the Post Office and the bank in Dalhart for the to deposit some of the heavy mail in. Tommy has a big post office now so he will be able to get all of his correspondence. His address is Box 231, Dalhart Texas.

Pauline and I received a post card this week from buddy Sam McMenamy. Sam was fishing up in Canada the Northern and Walleye Pike were really biting. Someone thinks of us while on vacation.

About ten days ago we received a letter from an ex-in distress. Mrs. George Frost (Bonnie Mercer), class of 1932, writes that several years ago some one had stolen several from her home, among which was her 1942 Slaton High Annual. Bonnie has tried to find an annual to replace the was stolen but so far has had no luck. She is willing to pay one \$10.00 for a copy of this annual. Perhaps there is some graduated after 1942 that would like to part with their Frost's address is 4224 Lynn Terrace, Fort Worth 18, Texas.

Levi Self, class of 1936, and his wife the former Judy covek, class of 1937, were Slaton visitors a few days ago. have a furniture and drug business in Petersburg. They are a son, Stanley, that some of our people would like to see since Slaton played Petersburg a couple of weeks ago. Juanita can be justly proud of this boy since he is making record for himself in athletics. The Self's address is Petersburg, Texas.

Had a note from Mrs. Earl Smith (Wilma Crawford) 1932, sending greetings to all of their Slaton friends. vites any of the Slaton exes that might be in Houston to up. Their address is 7520 Magnolia, Houston, Texas. Those paying dues since last week were Bonnie Mercer, Pat Patterson, Roscoe Mercer, Jerome Burns, Patsy Weckwerth and Wilma Crawford Smith.

## Slaton Men Attend Kermit Water Meet

Three members of the Slaton waterworks and sewage department attended the Tuesday night meeting in Kermit of the Permian Basin Waterworks and Sewage Association.

With 102 members present, the program was presented by Lubbock Water Supt. Ralph Campbell who discussed public relations activities.

Attending from Slaton were George Willis, Bobby Lee Moore and Joe Cardenes.

## of Arnold Baroch Highlighted Meeting

"1975 and the Changes to Come", by Arnold B. Baroch, was shown by Mrs. Brown to outline the effects of growing population and technical innovations on jobs, business, living conditions and community life. She quoted from the author, who is Senior Editor of Changing Times, the Kiplinger magazine, telling the changes he saw resulting from the push-button techniques in shopping, housework and the whole design of commercial and home facilities. What impact the future will have upon education, communication, traffic, recreation, health and government is traced in the book with frank acknowledgment of the problems as well as benefits that are likely to occur.

Mrs. John Morris, president, presided at the business session, and hostess for the affair was Mrs. Alex Webb, 855 South 17th Street.

Next meeting of the club will be held October 1st, 8 p.m., in the home of Mrs. John Locke.

## Mrs. August Kitten Is Hostess For Grandmothers Club

Mrs. August Kitten was hostess to members of the Jolly Grandmothers Club Thursday afternoon. Mrs. A. G. Marteney served as co-hostess.

The following officers were elected: Mrs. Marteney, president; Mrs. Kitten, vice president; Mrs. A. B. Henderson, secretary; and Mrs. A. H. Mass, treasurer.

Mrs. Frankie McWhorter, 2005 32nd St., Lubbock will be hostess to the next meeting, October 11.

## Centurette Club Entertained By Mrs. H. Limmer

The Centurians Study Club met Monday, September 17th at the home of Mrs. Hobart Limmer with Mrs. Wayne Banks as co-hostess.

During the business session the club voted to purchase toilet articles and school supplies for the children in the Migrant School. The group ordered new dishes for the clubhouse, their project for last club year.

Mrs. Joe Ross was in charge of the program, "What A Civic Organization Should Be".

Refreshments were served to the following members, Mmes. James Allred, Donald Basinger, Arlie Bownds, D. P. Casey, Harley Castleberry, Tip Culver, Truman Ford, Jack Haliburton, Robert Heaton, Joe Holland, Dwayne Preston, Jerry Don Ross, Pat Taylor, Tommie Tomlin, Ray Wilkins, W. B. Wilks, Randy Sanders, Banks, Limmer, and Tim Bourn.

Mrs. Jack Haire will be hostess for the next meeting, slated for October 1.

## TODD ON DUTY

John E. Todd, Jr., ETRE, stationed aboard the USS Observation Island at Port Canaveral, Florida, has returned to his ship after spending the past two weeks with his parents, Mr. and Mrs. John E. Todd. He is recovering satisfactorily from his injuries and wishes to thank each and everyone who sent cards to him.

Mr. and Mrs. Egonie Gill of Ft. Worth were weekend guests in the home of Mrs. LaWanda Henry and Jan. Mrs. Gill is a daughter of Mrs. Henry.

## Luncheon Opens Bluebonnet Club

Mrs. R. C. Standfer entertained with a luncheon for members of the Bluebonnet Club, Wednesday, September 12. This marked the first fall meeting for the group.

Mrs. M. C. Hodge presided for the business meeting in the absence of the president, Mrs. T. E. McClanahan.

Games were diversion for Mmes. Hodge, Sanner, Stansell, Parks, Teague, Boyd, Wicker, Edmondson, Upham, Patterson, and Standfer. A guest, Mrs. Frank Smith, was also present. The next meeting will be September 26 at 2:30 p.m. in the home of Mrs. R. C. Sanner.

## Lubbock Luncheon For Bride-To-Be

A luncheon was an in-honor affair for Miss Ann Haddock Thursday, September 13, in the home of Mrs. Wayne Henly, 3212 21st St., Lubbock. Mrs. Bode Adams assisted with the hospitality.

The luncheon table was centered with an arrangement of Peace roses.

Guests were Mmes. Ed Haddock of Slaton; M. C. Edmunds of Post; V. G. Cook of Hobbs, New Mexico; W. P. Atkins, Altus Samson, John Porter, Harry Hunter, Herbert Maxwell, and Miss Kay Castleberry.

Wedding vows will be read September 21 for Miss Haddock and Dale Edmunds.

## MRS. TRIMBLE HOSTS REUNION

Lt. Delmer Trimble, USN, has been on leave visiting his mother, Mrs. Eva Trimble. The lieutenant, who was recently stationed at Honolulu, was enroute to the University of Mississippi.

Other children of Mrs. Trimble's who gathered for two day reunion included Mr. and Mrs. Bill Trimble and boys and Mr. and Mrs. Bobby Jack Trimble and Tracy, all of Midland; Mrs. J. H. Trimble and Brad, all of Lubbock; Mr. and Mrs. Joe Lester and family of Amarillo; Mr. and Mrs. Jack Gray and family of Hereford; Mr. and Mrs. Melvin Basinger and family of Post; and Mr. and Mrs. Johnnie Abare, Mrs. Loy Mercer, and Mr. and Mrs. Billy Lytle, all of Slaton.

## Happy Birthday

Week of September 20:

September 20: Tommy Cheak, Majorie Lou Baxley, Mrs. A. M. Hawthorne, Gary Don Brush, Jimmie Lee Splawn, Leland Martin, James Snider, Mrs. W. J. Johnson, and Joe P. Holland, Jr.

September 21: Mrs. J. C. Jones, John M. Cain, Mrs. O. D. Kenney, Billy Trawick, James Caldwell, Kenneth Rackler, Mrs. M. L. Taylor, Travis Mann, and Ronald Perdue.

September 22: Mrs. Paul Melton, Mrs. J. C. Champion, Tom Swanner, Ricky Brush, Lloyd Kahlich, Bill Kitten, Larry Burk, Mrs. Charles Felty, Webber Teferteller, Mrs. J. I. Drewry, Mrs. Webber B. Williams, Jr., C. B. Martin, Sr., Mrs. L. W. Lewis, Donna Sikes, and Paul Meurer.

September 23: Linda Walker, Mrs. Hack Lasater, Floyd Kitchens, Mrs. Cade Davidson, Walter Lee Denzer, Alfred Martin, W. T. Wyatt, John E. Martin, Buddy Brunson, and Mrs. Bessie Becker.

September 24: Diana Schuette.

## Mrs. S. G. Wilson Entertains Slaton Garden Club

Members and guests of the Slaton Garden Club were entertained recently in the patio garden of Mrs. S. G. Wilson. This opened the club year, with the theme, "Coffee or Tea - Flowers and Me".

A fountain and soft music provided the background for the well landscaped garden study. Mrs. Wilson was assisted in hospitalities by Mrs. Dudley Berry and Mrs. Vasker Browning.

The tea table, covered in pink linen featured the club's flower, the rose.

Roll call was answered by "summer adventures" with Mrs. J. D. Holt recalling a day spent with her grandchildren at "Six Flags Over Texas". Others had traveled to exhibits and culture centers during their summer holiday.

Mrs. W. K. Fry presented the reading of Edgar A. Guest's "Seeds" and also "Betty at the Ball Game".

Mrs. Earl Reasoner presented the poem, "Flowers" and an autumn basket of yellow giant marigolds.

Mrs. August Kitten, president, presided for a short business session at which time a vote was gained for members here to unite with the County Garden Council in Lubbock. This marks Slaton's progress in joining others in developing further culture and knowledge of garden activities. Mrs. Ellis P. Schmid presented \$28.25 from sales of litterbug bags, to be donated to the Girl Scouts. There was a discussion to donate to the Clubhouse silver and other progressive suggestions discussed.

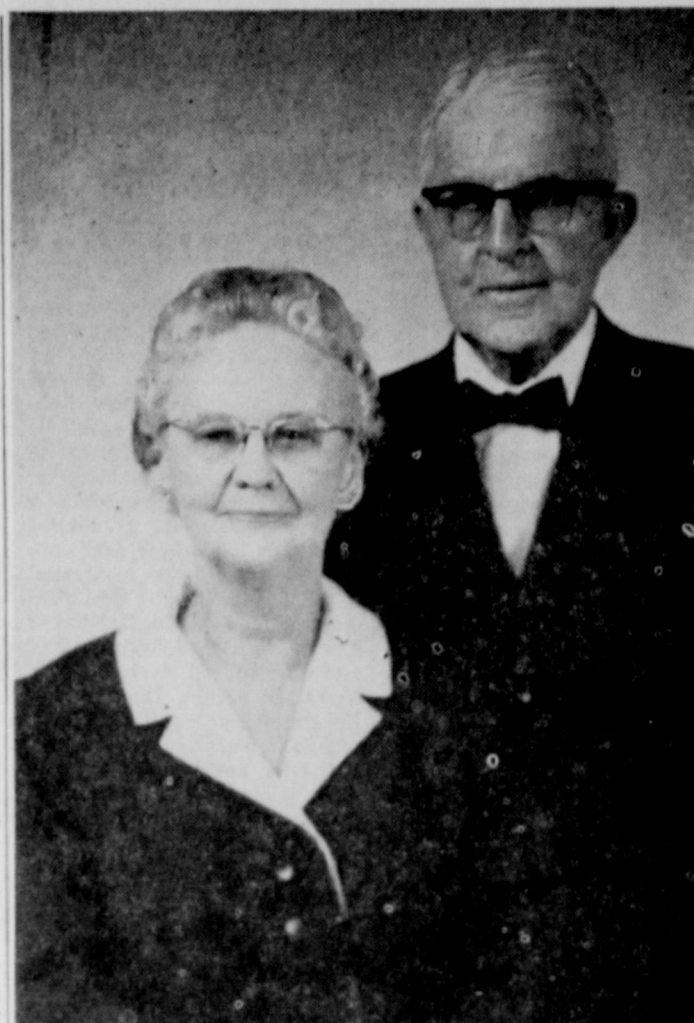

Mrs. Browning distributed the new yearbooks. As chairman, Mrs. Browning was assisted by Mrs. Earl Reasoner and Mrs. Jack Nowlin.

Members attending included Mmes. August Kitten, Vasker Browning, Earl F. Wilson, A.E. Whitehead, H. G. Stokes, Ellis Schmid, Edwin Haddock, F. A. Drewry, B. A. Hanna, O. Z. Ball, Jack Nowlin, Earl Reasoner, Webber Williams, Bob Ayers, Bill Smith, E. R. Legg, Grady Wilson, and J. S. Edwards Jr. Special guests were Mrs. Janet Wilson Ferguson, daughter of the hostess, and Mmes. Lenard Harold, Charles Wood, Wade Thompson, Willford Kitten, and W. K. Fry.

John Steffens, Clifford Kitten, Mrs. W. T. Slaughter, Donald Ray Sikes, David Kahlich, Mrs. Tuney Basinger, L. D. Splawn, Jr., Mrs. Lloyd Jeffreys, and Fred Stephens.

September 25: Mrs. J. C. Hennington, Sarah Sue Williams, Bennie Moeller, Sherron Gene Jones, Roy Murphy, Judy Carolyn Edwards, Harold Wayne Hampton, Kurt Schwertner, and Pamela Bishop.

September 26: W. N. Williams, Elbert Wilson, Billy Love, and Paul Henandez.

Mr. and Mrs. A. E. Whitehead  
...wed 50 years

## A. E. Whiteheads To Mark Their Golden Anniversary

Fifty-year residents of Slaton, Mr. and Mrs. A. E. Whitehead, 625 West Garza, will observe their 50th wedding anniversary with an open house Sunday, September 23, from three until five o'clock at the Slaton Clubhouse, 750 West Garza.

Hostesses will be the couple's daughters, Mrs. Joseph W. Mitchell and Mrs. Louis E. Griffin of Lubbock.

The houseparty will include Mmes. Lila Lenning, Jimmy Wright, W. K. Fry, R. E. McReynolds, Jack Nowlin, Clifford Young, O. D. McClintock, A. L. Robertson, Ty Cobb, Wallace Pellerin, Silas Wilson, Clyde Doherty, Martin Collins, L. S. Griffin, Howard Swanner, Howard Hoffman, Max Arrants, Bill Ball, Phil Brewer, John Jay and Miss Zanna Holland.

The couple was married September 24, 1912, in Lubbock with the Rev. J. P. Word performing the ceremony. Mrs. Whitehead is the former Vallie E. Dickinson, daughter of the late Mr. and Mrs. W. K. Dickinson, who were pioneer residents of Lubbock since 1903.

Mr. Whitehead moved to the South Plains from Hood County in 1900. He was living in Slaton at the time the town was incorporated and the couple has lived in Slaton since their marriage in 1912.

Mr. Whitehead, who is now retired, has held wide-spread interests in farming, ranching, and real estate in Texas and New Mexico.

The couple has five grandchildren.

## Miss Pratt Gives Slaton H.D. Club Nutrition Program

Miss Clara Pratt, county home demonstration agent, presented a program, "Nutrition" to members of the Slaton Home Demonstration Club Wednesday, September 12, at the Slaton Clubhouse.

Mrs. R. H. Tomlin, secretary of the local club, gave her annual report. Mrs. Paul Gilbreath reported on her work as Food Demonstrator.

Members attending were Mmes. Ralph Thorp, Truman Ford, R. H. Tomlin, Harold Culver, Alton Meeks, W. L. Roche, Lee Ham, Wendel Wilkes, Spencer Brewer, Paul Gilbreath, and one new member, Mrs. Ed Tusha.

The next meeting is slated for September 26 at the Clubhouse. "Pictures For the Home" will be the program subject.

## Mrs. Patterson Hostess To The T & L Class

Mrs. Fannie Patterson was hostess to members of the T and L Sunday School Class of the First Baptist Church, Thursday afternoon, September 13.

Mrs. J. R. Robertson opened the meeting with a prayer and Mrs. A. J. Baker presented the devotional.

During a brief business session presided over by Mrs. E. M. Lott, minutes were read from the previous meeting by Mrs. Joe Teague and Mrs. Kate Fancher gave the treasurer's report.

A Bible quiz was held during the social hour with Mrs. I. C. Tucker in charge. Mrs. R. L. Smith headed the song contest. Cards were signed for ill members and those having birthdays.

Refreshments were served to eleven members and one visitor. Mrs. J. R. Robertson, a former member now living in Amarillo.

## V.F.W. Auxiliary Plans Dist. Meet

Mrs. J. Ray Nichols of Lubbock, president of the Veterans of Foreign Wars Auxiliary for District 7, was guest at the Slaton V.F.W. Auxiliary meeting last Thursday at the local Post home. She discussed work to be accomplished by the Auxiliaries, conducted a question and answer period, and assisted in plans for future District meetings.

The Slaton Post and Auxiliary will host the District meeting scheduled here on October 13-14. Three new members were in-

## Cotton Authority Lists Defoliant Cautions in Area

With the growing importance of cotton character and fiber fineness to the spinners and users of raw cotton. Adolph Hanslik, president of the Lubbock Cotton Exchange, has issued an appeal to producers of cotton in this South Plains area. Mr. Hanslik is asking producers, for their own benefit, to exercise caution in the use of defoliants and desiccants prior to harvest this fall. Mr. Hanslik explained that most of the Central Texas crop has suffered from lack of moisture and is therefore poor character cotton. Due to this, the cotton textile mills probably will be in need of cotton of good character and he urges producers in this area to use caution in the use of chemicals that might affect cotton quality.

Experiment Station tests show that cotton should be a least 60% open under dryland conditions and 80% open in irrigated fields before desiccants are applied. It has been suggested that before producers use desiccants that they ask themselves if they are ready for a killing freeze tomorrow.

Immature fibers last year cost area growers several million dollars. No one can afford to damage a crop that shows promise of good character (high micronaire) with the premature use of defoliants and desiccants.

Initiated into the Auxiliary Friday, bringing the total membership to 22. Mrs. Frances Sargent is president of the group.

## Molded Medley

### With Far East Flavor

All the luscious goodness of favorite foods come to the table in a shimmering salad. This delightful combination of chicken, pineapple and almonds is chilled and molded in a gelatin mixture that boosts the fresh taste of 7-Up with accent of orange juice. Serve Oriental Chicken Salad for a luncheon or supper dish. Even when leftover chicken is used in making this recipe the fresh 7-Up flavor accent helps it taste as new as today.

**Oriental Chicken Salad**  
 2 envelopes unflavored gelatin  
 1/2 cup cold water  
 1 (no. 2 1/2) can pineapple chunks  
 1 (7-ounce) bottle 7-Up  
 3/4 cup orange juice  
 2 cups chopped, cooked chicken  
 1/2 cup slivered almonds  
 Sprinkle gelatin on cold water to soften. Drain liquid from pineapple chunks into a saucepan and heat to boiling. Add softened gelatin and stir until dissolved. Blend in 7-Up and orange juice. Chill until slightly thickened. Fold in pineapple chunks, chicken and almonds. Pour mixture into a lightly oiled 2-quart mold and chill until set. Makes 6 servings.

## Keys Analyzes Art Of "Sir Galahad"

By IRA R. KEYS

Many artists draw abstractly. To paint in abstractness, one must be adept at considering separately the way the picture is to look upon completion and the meaning, feeling, or thought to be conveyed by the finished piece.

George Fredrick Watts was a painter who had, in the considered opinion of many, captivated this state quite well. His productions always portrayed the abstract and spiritual. In one picture it is hope, in another faith, and in still another purity. In each there is some sentiment dominating.

In "Sir Galahad", Watts has given to the world a symbolism of manly purity and power. He has portrayed with his brush what Tennyson expressed in his beautiful poem. Each was upon the "Round Table" and the old English legend of King Arthur and his Knights.

In tradition there lived in England, many centuries ago, King Arthur and many knights. It was their custom to sit around a large circular table when they met for counsel.

The only vacant chair at the table was called Seat Perilous. The dense vegetation in the picture symbolizes the entanglements of the world which surround those who strive for spiritual perfection.

The picture is as a silent sermon which exerts its holy influence on each of us.

Merlin, the magician, had cast a spell over the chair so that anyone who sat there would be lost if he were other than entirely worthy in thought, word, and deed. A prophet had said one would come and that his name would be Galahad. All anxiously waited for his coming.

One day while they were in conference, an old man dressed in white and a young man dressed in a flaming red robe appeared. The old man led the youth to the Seat Perilous.

To ascertain that this was surely Galahad, the Knights went with him to the lake to test him. There was a rock in the lake in which a sword was sticking. The youth easily drew the sword from the rock. This must certainly be him, they knew, for each of them had tried and failed to get the sword. The sword fit perfectly in the young man's scabbard. King Arthur and his Knights welcomed him.

The Holy Grail, the cup Christ had drank from at the Last Supper, was the property of Joseph of Arimathea. It had remained in his family for a long time and finally had been brought to Europe, it was thought. Every Knight was anxious to discover it, as it's whereabouts had become unknown. But only one entirely pure could accomplish the deed, for if a sinful one approached, the Holy Grail would immediately disappear mysteriously.

Sir Galahad prepared to start on the quest. The story of his journey, the hardships, and his ultimate success is a beautiful account of the victory of righteousness.

The picture "Sir Galahad" shows the knight as he stopped to rest, weary from the exertion of his journey. We see him, clad in his black armor, dismounted and standing near his magnificent white horse. His horses head is drooped low and gives evidence of exhaustion. The whole attitude of the man shows utter fatigue, as he stands with one foot forward and his eyes gazing into the distance. Watts quite skillfully represented physical weariness, humility, devotion, and prayer without detracting from the earnest determination to accomplish the holy mission.

## Lutheran Women Elect Officers At Posey Church

Officers for the new year were elected recently by the American Lutheran Church Women of Posey, Mrs. Walter Schroeder being named president.

Other officers chosen were Mrs. Melvin Walter, vice-president; Mrs. Edwin Meyer, secretary; Mrs. F. A. Wittig, treasurer; Mrs. W. J. Johnson, reporter; Mrs. Frank Lester, Department of Stewardship; Mrs. Paul Boyle, Department of Education; Mrs. F. A. Wittig and Mrs. Fred Schroeder on the Sick Committee; and Mrs. Robert Stolle in charge of flowers for the church.

Mrs. Walter Schroeder was hostess to the eleven members present at this last regular meeting. The session was opened with a hymn and prayer, Pastor Wittig giving the Bible study on "Christ Commissions His Witnesses".

Offering for the month went to Parish Education.

Decision was made to have a project for the children of Norway, completing it in time for Christmas.

Announcement was made that Posey will be host to the Upper Caprock Workshop to be held October 26th.

## China Work Shown By Mrs. Tunnell

Out of town guests from Brownfield, Levelland, Lubbock, Shallowater, and Floydada attended the china show presented by Mrs. Harvey Tunnell Saturday afternoon, from two until five o'clock, in the Slaton Clubhouse.

Mrs. Tunnell, president of the South Plains China Guild, reports this as the first one man show for the Slaton area.

Ten tables, draped with white satin, displayed the china.

FHA members, under direction of homemaking teachers, Mrs. Joyce Cheatham and Mrs. Judy Davis, were in charge of the preparation and serving of tea during the afternoon. Those participating in the hospitalities were Areta Privett, Marilyn McSweeney, Jan Scott, Karen Buxkemper, Nan Sage, Belinda Becker, Jannet Hollingsworth, Mary Ruth Green, Thelma Kidd, Sharon Self, Barbara McCook, Kathy Clairborne, Judy Schwartz, Sherilyn Mann, Glenna Payne, Elaine White, Cindy Clark, Rosa Walston, Joan Bednarz, Paula Dunn, Charlotte Vaughn, Diann Kuss, Kathy Brown, Carolyn Means, Robin Davis, Charlene Kitten, Sharon Self, Lundie Roche, Nelda Ray, and Gerry Clark.

Corsages, fashioned of tiny handpainted china dishes, were worn by the girls. Mrs. Tunnell presented the FHA chapter with a handpainted china coffee service.

Mrs. W. I. Scudder has had her daughter, Mrs. Esther Orton of Austin, visiting with her recently.

## Southland News..

Mr. and Mrs. Edgar Moseley visited her mother, Mrs. Daisy Wakefield at Itasca, and also visited Edgar Anderson at Norton.

Eula Lee Cavies of Lubbock, and Mrs. Nora Billingsly visited in the home of Mrs. Sam Martin last week.

Mrs. Sally Dean of Muleshoe visited in the Riley Wood home last week.

Ruby Pritchard and daughter, Sue, former residents of Hackberry, are moving back to live in the Clyde Haire house.

Riley Wood has just returned home after visiting his brother and wife, the W. W. Woods, at Hauley.

Brenda Dabbs, who is attending Texas Tech, was at home this weekend with her parents, Mr. and Mrs. Hurman Dabbs.

Mrs. Alpha Taylor is visiting at the home of her daughter, Mrs. Delbert Alcorn, at Amarillo. She has been ill and will stay there until she gets able to return home.

Mr. and Mrs. Edgar Moseley were in Crosbyton last week on business.

Mr. and Mrs. Hub Taylor, Sharla, Mrs. Sam Martin, and Mrs. Nora Billingsly were guests for the evening meal Wednesday in the home of Mr. and Mrs. Ray Jacie.

Mr. and Mrs. Jack Hargrove visited Sunday afternoon with the Earl Lancasters.

Guests in the Earl Lancaster home last week included Mr. and Mrs. Bill Lancaster and David and Kathy of Temple; Mr. and Mrs. Jack Lancaster, Kevin and Jonathan of Amarillo; Mrs. Velma Smotherman of Claude, and her son, Jimmy Jack, a student at the University of New Mexico; and Mrs. Harlan, who were the sons of Mrs. Edgar Moseley. Mrs. Harlan was unexpectedly in the home of Mr. and Mrs. Hub Taylor, Thursday evening, after a long layover in the pre-industrial Amarillo. Mr. and Mrs. Jack Hargrove visited with the Earl Lancasters. Mrs. Jack was scheduled for a visit to law, Mrs. Slaton, and Mary Edwards.

Three Hostesses Entertain For Miss Ann Haddock

Mrs. Harry Stokes, Jay McSweeney, and Fred England were hostesses for a brunch honoring Miss Ann Haddock recently in the Stokes home.

The serving table covered with an imported cutwork cloth, featured a decorated fresh pineapple banked with fresh fruit.

Twenty guests attended including Mrs. Ed Haddock, mother of the bride-to-be; Mrs. M. C. Edmunds of Post, mother of the prospective groom; and Mrs. Bode Adams of Lubbock.

Miss Haddock and Dale Edmunds will exchange wedding vows September 21.

A silver dish was presented the honoree by the hostess.

Wow-That's really cleanin' the seat covers.

We're just thorough enough in our methods of service to do a GOOD job. We know HOW and we welcome the opportunity to prove it to you—any time.

## TIGER SCHEDULE

### Rules:

Anyone may enter, with exception of employees of the Slatonite or members of their families.

Enter the scores you predict by the teams listed below. Judging will be on basis of number of winners picked. Scores will be considered only in case of tie among contestants, then the nearest predicted score will be named as winner.

Have a cooperating merchant sign your coupon. No purchase is necessary.

Bring or mail the coupon to the Slatonite; you must have it by Tuesday noon of each week. Winners will be announced the following week.
