Strike Wave Greets New Labor Law

Permian Basin OIL & GAS LOG

James C. Watson, Oil Editor

SO&GC TO DIG WILDCAT TO 6,700 FEET IN F-M AREA

Stanolind Oil & Gas Company is to drill a wildcat to 6,700 feet, to test for production in the Clear Fork of the Permian, on the edge of the Fuhrman-Mascho field, in Central-South Andrews County.

The project will be Stanolind No. 1-AC University, located 660 feet from north and east lines of southwest quarter of section 6, block 9, University survey.

It was originally started to go to around 4,800 feet to test for production in the San Andres-Permian. It has apparently failed to log any signs of production in that zone, and is now making hole below 5,238 feet, in the middle Permian

GAINES WEST DISCOVERY TO TREAT WITH 10,000 GALLONS

Honolulu Oil Corporation has filed a notice of intention to treat its No. 1 White & Shelton, West Gaines County wildcat discovery, with 10,000 gallons of acid at 6,953-73 feet, in the Clear Fork-Permian.

This prospector, located 660 feet from north and east lines of section 404, block G, CCSD&RGNG survey, has been operated on a "tight" basis for several weeks.

In the report of the condition of the well, before treating with acid, which Honolulu filed with the Railroad Commission, it was stated that it had tested at the rate of 170 barrels of oil per day, prior to the start of injection of the 10,000 gallon acid shot.

The official report reveals that the well drilled to total depth of 7,003 feet. It had some water at that point. The hole was plugged back with gravel to 6,980 feet; with a wood limit plug to 6,978 feet, and with steel wool to 6,973 feet.

Operator stated that the big shot of acid was to be pumped in slowly, under a packer set at 6,953 feet. The 7-inch casing is cemented at 6,930 feet.

SUN WILL ACIDIZE COKE ELLENBURGER PROSPECT

Sun Oil Company No. 2 Allen Jameson, one-half mile north of the discovery well for flowing production from the crinoidal zone of the Pennsylvanian, in the Jameson area of Northwest Coke County, 3,300 feet from south and 1,980 feet from west lines of section 253, block 1-A, H&TC survey, recovered only small quantities of free oil, along with wash water, in an extended period of swabbing an open hole at 7,085-7,110 feet, in the Ellenburger.

Operator was preparing to treat that horizon with 5,000 gallons of acid, and then make further swabbing tests, to try to develop some sort of production, before drilling deeper.

DOLLAR HIDE EXPLORATION DRILLING IN SILURIAN

Union Oil Company of California No. 3 Cowden, Silurian exploration on the southeast side of the Dollar Hide field, in Southeast Andrews County, 1,980 feet from north and 660 feet from east lines of section 7, block A-55, psl survey, had reached 7,822 feet in the top of the Silurian, and was making more hole.

This project is expected to find some sort of oil production in the Fusselman zone, which should come in by the time 300 feet more hole is made.

PURE-HUMBLE 1 COWDEN STILL DRILLING IN LIME

The Pure Oil Company and Humble Oil & Refining Company No. 1 Cowden, wildcat on the northwest side of the Dollar Hide field, and 1,980 feet from west and 660 feet from south lines of section 24, block A-52, psl survey, had reached 8,012 feet, in lime, and was drilling ahead.

This project has shown for possible production in the lower Permian, and for flowing oil in the Devonian. It is drilling on down to explore the Silurian and into the Ellenburger.

COMPLETION AT CROCKETT DISCOVERY DELAYED

Cities Service Oil Company, The Plymouth Oil Company and Humble No. 1-B Owens, West Crockett

Tomlinson Trial Is Begun In San Angelo

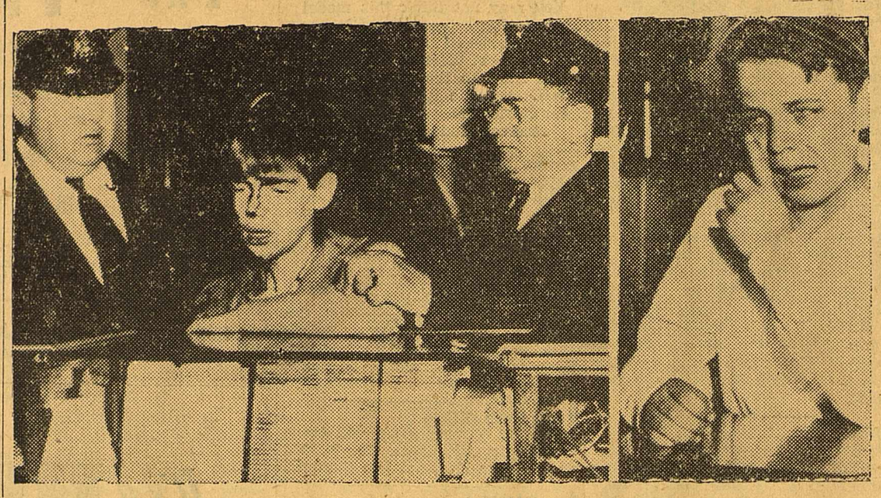

SAN ANGELO — (AP) — Testimony in the trial of Wylie R. Tomplison, Jr., 32, Menard ranchman, charged with shooting to death Harold B. Opp in a downtown hotel lobby here Nov. 22, may get underway Tuesday.

Six jurors were chosen Monday. At the arraignment Tomlinson entered a plea of innocent.

In 1934, Opp, 64-year-old ranchman and oil operator, and Special Ranger L. E. Trimble, were indicted in the fatal shooting of W. R. Tomlinson, Sr., in Menard County. Trimble was acquitted of the charges and the indictment against Opp dismissed in 1942 after the Court of Criminal Appeals reversed and remanded his conviction and sentence to 30 years in the penitentiary.

Mathes room coolers immediate installation on models from $59.50 to $99.95. Wemple's, next to post office, phone 1000. (Adv.)

Youthful Gunman Caught

(NEA Telephoto)

In a shooting battle with the Roxbury, Mass., police, Edward Bancroft, age 15, left, came out second best after he ran out of bullets and a policeman sneaked up and slugged him with the butt of a riot gun. William Ronan, age 15, right, was used by Bancroft as a shield to prevent the police from firing at him.

Texas Will Fight Legally To Hold Coastal Rights

AUSTIN—(AP)—A last-ditch legal fight to save for the state a part of the public domain it reserved by treaty when it entered the union more than 100 years ago was planned here Tuesday by Attorney General Price Daniel.

Backing him up were Gov. Beauford H. Jester and Land Commissioner Bascom Giles, who joined in saying no matter what the United States Supreme Court held in the California sidelands case, Texas' position was stronger because of the terms of the treaty of annexation.

Giles said even if he were alone in the thought, "I for one would favor seceding before giving up these valuable lands."

Daniel said he would advise the state school land board to continue leasing land Texas claims 10 and one-half miles into the gulf for benefit of the public schools. Some estimates place the possible revenue from such leases as high as $150,000,000.

Daniel said he was prepared to fight any federal move to file any suit against Texas similar to the one which it finally won Monday in the Supreme Court.

May Building Permits Drop From April High

AUSTIN—(AP)—A four per cent drop in building permits for May compared with April was reported Tuesday by the University of Texas bureau of business research.

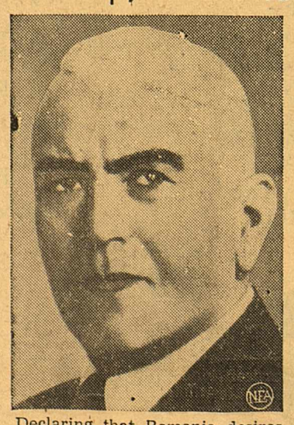

The May total of $20,415,981 was still four per cent above the same month in 1946.

The bureau set back its seasonably adjusted index 20 per cent to 288.9, a reverse to the usually expected April-to-May gain in permits.

Houston was first in the dollar-value of permits with a total of $5,249,821. Dallas dropped to second with $3,143,356; Fort Worth had $2,300,088; Austin, $1,413,750; Lubbock $1,154,487; and El Paso, $1,070, 890.

Greatest per cent gains for the month were in Brownwood, Coleman, El Paso, Seguin, and Texas City.

Ties Up With Tito

Declaring that Romania desires "to create a full political . . . co-operation" with pro-Soviet Yugoslavia, Dr. Petru Groza, prime minister of Romania, reportedly reached an agreement with Marshal Tito during a three-day "friendship" visit to Belgrade, Yugo capital.

Soviet-Operated Oil Tankers Built For U. S. Few Years Ago

WASHINGTON — (AP) — Chairman Weichel (R-Ohio) said Tuesday the House Merchant Marine Committee has learned Soviet-operated tankers carrying oil from this country to Russia were built for the U. S. government only a few years ago.

One of them, he said, sailed from California less than two weeks ago with 123,895 barrels of gasoline and 12,500 barrels of oil and two others left earlier this month with 113,000 barrels of oil.

Three more, Weichel told a reporter, are loading in California ports and may depart before export controls are restored on petroleum products effective June 30.

The Commerce Department, announcing reimposition of the controls Monday night, explained:

"Export control is necessary if the limited domestic supply is to be protected and U. S. petroleum exports are to be used most effectively in the interest of world recovery." The controls were lifted soon after V-J day. They apply to all nations except Canada.

The government's authority to control exports runs out next Monday midnight, but an extension bill is pending in Congress.

Driver Injured, Three Autos Destroyed When Butane Tank Explodes

PERRYTON, TEXAS—(AP)—A 20-year-old truck driver Tuesday was reported in a critical condition after a butane gasoline truck caught fire and exploded here Monday, destroying three automobiles and two trucks and damaging a nearby lumber yard.

The driver, Charles J. Huntoon, was attempting to extinguish the fire when the explosion occurred.

Final Rites Wednesday For Donald A. Sillers

DALLAS —(AP)— Funeral services for Donald A. Sillers, 52, president of the Peerless Manufacturing Co. and prominent figure in southwestern petroleum activities, will be held here at 2 p. m. Wednesday.

Sillers died Monday following a brief illness.

Sillers was responsible for many technical developments in the natural gas industry. He developed the gas slide rule, specific gravity meter and gravity balances, as well as many advances in the design of gas cleaners, gas and oil separators, automatic traps and regulators.

Bevin Proposes Three Nations Call Conference

LONDON—(AP)—Foreign Secretary Ernest Bevin, an authoritative source said Tuesday, is expected to propose to the French and Russian foreign ministers in Paris Friday the three nations sponsor an all-European conference on the American Aid-to-Europe plan.

A foreign office spokesman said Bevin would confer later in the day with William L. Clayton, U. S. undersecretary of state, and it was understood they would discuss this proposal.

Clayton, who arrived in England, met Bevin at No. 10 Downing Street, where he conferred for 90 minutes with Prime Minister Attlee and other top British leaders.

The conference was said to be primarily concerned with "certain aspects" of the American loan to Britain, but the foreign office spokesman disclosed there was also "a general discussion of European economic problems."

Foreign Trade Council Urges Wool Bill Veto

NEW YORK — (AP) — The National Foreign Trade Council Tuesday urged President Truman to veto the Congress-approved bill providing import fees and quotas on wool and woolen products.

In a telegram the council described passage of the bill as "a grave setback to the United States foreign economic probram" and said a veto would "reassure all friendly nations that the United States does not intend to increase barriers affecting international trade."

Russia Denies British Hungary Clarification

LONDON —(AP)— An authoritative British source Tuesday reported Russia, for the second time in two weeks, had rejected a British request for "clarification" of the situation in Hungary.

A foreign office spokesman submitted to Soviet Foreign Minister V. M. Molotov in Moscow on June 17, but said he could not disclose its contents.

MILL CRUSHINGS DROP

AUSTIN — (AP) — A 71 per cent plunge in May cottonseed crushings at Texas mills, compared with April figures, was reported by the University of Texas Bureau of Business Research Tuesday. The usual April-to-May decrease is 54 per cent. Crushings totaled 6,602 tons.

Standard Oil, Indiana, Can Not Meet Demands; To Allocate All Gasoline For Next Three Months

CHICAGO —(AP)— Standard Oil Company (Indiana) Tuesday announced "in the interest of fair treatment to all its customers" it was putting into effect an allocation system for distribuion of its available gasoline supply for June, July and August.

During the period, the company said, the total supplies it can make available will approximately equal the total quantity delivered in the corresponding period last year.

"These supplies will be equitably distributed among its customers," the company said in a statement.

Standard said its gasoline sales recently have been about 15 per cent higher than last year and agents and dealers would, in turn, have to limit deliveries to their customers.

Standard officials said the allocation plan was adopted only because the company could not meet all demands even after using all available pipeline capacity and running refineries at full capacity for many months.

Two More Unions In Walkouts

By The Associated Press

An outbreak of strikes involving coal mining, shipbuilding, and livestock handling Tuesday marked the birth of the new Taft-Hartley labor law.

A wave of wildcat strikes began sweeping through the coal fields soon after the Senate overrode President Truman's veto of the labor bill. Tuesday, an estimated 123,000 coal miners were idle in seven states, closing several hundred mines.

In Illinois where the great majority of the state's 23,000 United Mine Workers quit work, Hugh White, state UMW president, said the demonstration was in protest against the new law.

Some 1,700 progressive mine workers also remained idle in Illinois. Reports of idle coal diggers in other states included: Pennsylvania, 33,175; West Virginia, 26,700; Alabama, 17,500; Kentucky, up to 15,000; Ohio, 3,473; and Indiana, 3,000.

Just Before Vacation

The coal mining walkouts were in advance of 10-day vacations set to start Friday midnight, just three days before expiration of the government's contract with the UMW Union. One mine company spokesman said earlier it was unlikely a new contract would be signed by July 8, when the vacation period ends and "some confusion" in the coal fields was expected then. The government, which seized the mines last year to end a coal strike, will turn the mines back to their owners July 1.

At Omaha, Neb., a strike of Union Stockyards Company employes virtually shut down the huge livestock handling firm.

Some 245 members of the CIO United Packinghouse Workers walked out, and later workers in nearby packing houses began "refusing to handle livestock coming from our yards."

A union official at New York, meanwhile, reported approximately 4,000 members of the CIO Industrial Union of Marine and Ship Building Workers left their jobs at the federal shipbuilding and drydock company at Kearney, N. J. He added that 40,000 Bethlehem Ship Yards workers would not report for work in four East Coast ports Tuesday morning.

Foremen Want Test

In Detroit, Robert Keys, president of the Independent Foreman's Association of America, said despite the new law, a five weeks strike of 3,800 Ford Motor Company foremen would continue. He said an early test would be made of the constitutionality of the law and the union "will continue to fight it out with employers everywhere." The new bill restricts union representation of foremen.

A spokesman for the coal industry told a reporter the work stoppage appears to be "a clear violation" of the new labor law. He expressed fear it would grow into a nationwide shutdown.

Under the new labor law, Truman could appoint a board of inquiry immediately to look into the situation.

At the United Mine Workers' headquarters, there was no comment on the situation from John L. Lewis or his mine union associates.

Contracts Awarded To Rebuild In Texas City

TEXAS CITY —(AP)— Reconstruction contracts totaling more than $6,000,000 for part of the Monsanto Chemical Company plant which was destroyed in the April Texas City disaster have been awarded to Houston and Chicago firms, it was announced here Tuesday.

J. R. Mares, general manager of Monsanto's Texas division, said a minimum of 1,500 men would be employed on the reconstruction program.

Shortly after the April disaster, Monsanto officials estimated damages to their Texas City installations as being in excess of $20,000,000.

Mares said rebuilding of the remainder of the plant will be started when work on the initial contracts is substantially completed and the plant again is in operation.

Weather

Partly cloudy with a few widely scattered thundershowers Tuesday afternoon, night and Wednesday. No important temperature changes. Maximum temperature in Midland Monday was 94 degrees, minimum 76 degrees. Minimum Tuesday morning was 69 degrees.

Moisture Ranging From Sprinkles To Cloudbursts Soaks Midland Territory

Scattered rains ranging from light sprinkles to full-grown cloudbursts fell over the Permian Basin Monday afternoon and night, with virtually every section of West Texas receiving spotted showers.

Heaviest precipitation reported was at Rankin, where according to information reaching here, a deluge estimated at up to 10 inches resulted in flooded draws and a near-drowning of three men who attempted rescue of water-bound inhabitants of one section of the town.

Continental Airlines pilots reported rain was general throughout this part of the state, with some moisture recorded in every direction from Midland.

Up To Inch Here

The precipitation was spotted, however. In Midland it was estimated as a mounting from .75 to one inch. At the Gulf Oil Company tank farm just East of the city, moisture was gauged at .64 inches. One-fourth inch was reported at Stanton, and spotted showers and rains were reported in the Garden City area. But on the Jay Floyd ranch between Midland and Garden City, as much as 4 inches fell on parts of the ranch.

Roy Parks reported 1½ inches on his ranch between Midland and Odessa. On the McWhorter ranch west of Andrews, parts of the ranch received as much as an inch of moisture, while other parts of the ranch remained dry.

Glenn Brunson reported 1 1/2 to 3 inches rain on his Glasscock County ranch.

Odessa received 1½ inches, McCamey 4 inches.

Though extremely heavy rains fell in various parts of this section of the state no extensive damage was reported Tuesday. Farming areas apparently escaped the heaviest downpours.

Midwestern Streams On Rampage For Third Time In Month; More Large Scale Evacuations Made

OMAHA—(AP)—New flood crests Tuesday rolled down Midwestern streams, forcing large scale evacuation of low lying areas and heaping destruction on some sections for the third time in a month.

Behind the flood waters, residents of Nebraska, Iowa and Missouri repaired damages and cleared away debris, while ahead of the floods others moved to higher ground.

At Cambridge, in Southwest Nebraska, where 13 persons were drowned in Sunday's flash flood, the search continued for four bodies. Nine already have been recovered. Two drownings near Miller, Neb., and a tornado death near Oxford, left Nebraska with a weekend toll of 16.

Dam Goes Out

From Alma, Neb., farther East on the Republican River, came a report the Republican River bridge at the site of the Harlan County dam went out and dikes broke, necessitating weeks of delay in construction of one of Southwest Nebraska's principal flood control structures.

At Kansas City, Mo., Col. William E. Potter, district Army engineer, estimated 63 levees along the Missouri and its tributaries between Rulo, Neb., and St. Louis would be breached as the high water moved downstream, bringing flooding to 100,000 acres not previously inundated. Seven other levees protecting 6,200 acres were threatened, he added.

Rail and highway traffic in all three states was disrupted.

Iowa braced against a new series of floods—the third in as many weeks.

Committee Decides No Military Training Bill For This Session

WASHINGTON—(AP)—The House Armed Services Committee Tuesday decided to continue hearings on universal training legislation.

Despite the committee's action, however, there is an understanding among members that no bill will be approved this year.

The committee has held three hearings and has questioned members of the President's special commission which recommended a universal training for American youths. It will hear other members Friday before recessing until July 7.

SMALL TORNADO HITS FARM NEAR ANSON

ANSON—(AP)—A small barn on a farm owned by Mrs. Tom Hudson was demolished by a tornado which Tuesday swept through the Oak Grove community, a checkup showed Tuesday. The storm also damaged a barn and a garage and killed some chickens on the Cliff Herndon farm in the Pleasant Hill community. No persons were injured.

ARKANSAS APOLOGIZES

GALVESTON — (AP) — A formal apology from Arkansas has been received by Texas City for the action of a revenue department employe in charging the Texans an intransit fee of $3 for driving their $7,000 gift fire engine across that state en route home from Lansing, Mich.

Rankin Inundated By Flash Flood

The city of Rankin practically was inundated early Tuesday when flood waters from a cloudburst in the Rankin-Texon area about midnight Monday turned an ordinarily dry creek which winds through the city into a raging torrent. The water was reported eight and 10 feet deep at some points.

The Midland Police Department received an emergency request to bring a boat to Rankin about 2:30 a. m. Tuesday when it was feared two men had drowned and others marooned in the flash flood. Police Chief Jack Ellington, Fireman Doyle Fitzgerald and A. L. Barr went to Rankin with a boat immediately after receiving the call. They returned about 8:30 a. m. Tuesday.

The two missing men later were found clinging to a telephone pole in the middle of the stream. They had been there more than two hours. The two, Grimm Taylor and Henderson Scarborough, with Bob Schlagel, had started out in a boat for the West Texas Utilities plant in the South part of the city. The boat capsized in midstream. Schlagel swam to shore and called for help.

About five miles east of Rankin, three cars of a 20-car Santa Fe freight train were washed into a draw from a trestle which the train was attempting to cross. Five other cars were overturned, Ellington reported.

Chief Ellington said all draws in that section were flooded and that hundreds of sheep drowned.

Republicans Ask More Funds For NLR Board

WASHINGTON—(AP)—Senate Republicans Tuesday planned a big boost in National Labor Relations Board funds to help administer the new union curb law Congress put on the books over President Truman's veto.

Senator Taft (R-Ohio), chairman of the Senate Labor Committee, told reporters "one of the first things we must do" is provide more money for the NLRB.

POLAND WILLING TO TAKE PART IN MARSHALL'S PLAN

WASHINGTON — (AP) — Poland Tuesday announced its willingness to participate in Secretary of State Marshall's proposal that European nations work out a joint economic recovery program with American aid.

Polish Ambassador Jozef Winiewicz told reporters of this development after calling on Robert Lovett, special assistant to Marshall.

Legislation Is Sought To Offset High Court's Tidal Lands Decision

WASHINGTON — (AP) — Coastal state congressmen Tuesday began a campaign for prompt enactment of legislation giving the states clear title to rich oil and mineral deposits lying off their shores.

After a quick look at the Supreme Court decision holding the federal government owns the off-shore lands between low water mark and the three-mile limit, Representative Poulson (R-Calif) announced he will introduce such a bill immediately.

Predicting it eventually will "pass over the President's veto," Poulson asserted "there is still time in this session of Congress to make a good start."

The court's 6-2 decision Monday dealt specifically with lands off the California Coast but seemed broad enough to apply everywhere.

Fort Stockton Farm Sells For $500,000

FORT STOCKTON—Sale of the huge Webb Farms near here to a corporation for more than $500,000 was announced Monday. Clay Wilson of McAllen will manage the farms.

The farms consist of 9,907 acres and begin about five miles west of Fort Stockton. The tract was owned by Dr. Robert D. Webb of Minden, La.

Wilson said the purchasing corporation was only recently organized and given a state charter. It is made up of S. H. Collier, Mercedes banker; W. H. Harrison, Dallas; Judge J. C. Looney, Edinburg, and Wilson.

Improvement plans call for an overhead irrigation system and a $35,000 dehydrating plant for alfalfa.

Drastic Tax Measure Adopted By France

PARIS —(AP)— Premier Paul Ramadier's drastic tax bill—which will raise prices of such items as bread, milk and cigarettes—was adopted Tuesday by the French National Assembly.

The vote was 302 to 241, 51 members abstaining.

The measure, which includes administration economies and the suppression of state subsidies, is designed to raise 136,000,000,000 francs ($2,142,000,000).

A series of strikers protesting the measure broke out in scattered parts of France. About 150,000 coal miners walked out in the nationalized northern coal fields. At Marseille the labor federation ordered a two-hour demonstration strike which threatened to tie up the nation's largest port.

Magnavox Radio - Phonographs, wide choice cabinet designs and finishes, terms. Wemple's next to post office, phone 1000. (Adv.)

• LATE NEWS FLASHES •

DETROIT — (AP) — The striking Foreman's Association of America Tuesday asked the CIO United Auto Workers to respect picket lines around the Ford Motor Co., a request which, if agreed to, would idle an estimated 85,000 production workers.

HOUSTON —(AP)— Forrest Garling, Harlingen farmer, Tuesday received $1825.40 for the nation's first bale of cotton of 1947. The bale, flown here from Harlingen, weighed 512 pounds, and sold for $1.07½ cents per pound plus the traditional bonus.

Galveston — (AP) — Patricia Fairchild, 14, daughter of Mr. and Mrs. James Fairchild, Dallas, was killed by lightning Tuesday while coming ashore from a swim in Galveston beach.

WASHINGTON — (AP) — Rep. Smith (D-Va) Co-Author of the Smith-Connally War Labor Disputes Act, proposed in the House Tuesday the plant-seizure provisions of the law, which expire June 30, be extended one year.

FORT WORTH — (AP) — Nine B-29 Super Forts of the 8th Air Force which plan to make a one-stop flight from Japan to Washington on Aug. 1, Air Force Day, left Fort Worth Army Air Field for the 10,000 mile flight to Yokota Airdrome near Tokyo.

Shh! It's Secret

You may not think this model is wearing a hearing aid in her ear, but she is! The new device is made of flesh-tinted plastic and fits into the ear cavity itself. A lucite tube behind the ear carries the sound from a tiny receiver hidden in her hair.

LOSES WALLET

Earl M. Kirkpatrick reported to police Monday the loss of his wallet in the business district. The wallet was lost sometime Saturday and it contained among papers his Army discharge papers.

WIRING CAUSES FIRE

A fire caused by wiring at the residence of W. H. Rhodes, 510 West Tennessee Street in Midland, Tuesday morning did no damage, firemen reported.

TO SANTA FE

Mrs. N. A. Lancaster will leave Wednesday for Santa Fe, N. M., where she will spend the Summer.

TO CANADA

Mrs. A. Fasken and her mother, Mrs. Margaret Murray, left Tuesday for Toronto, Canada, where they will visit relatives.

SLOANS RETURN

Mr. and Mrs. Tom Sloan and children returned Monday from a vacation trip to Rockport.

A new triumph in plastics. It's Glostex, the new, sensational plastic coated material developed especially for automobile seat covers. They are available in blue, brown red and green. Only Glostex offers these amazing features: tailored for style and comfort, simply installed, resists spots and repels water, resistant to acids, oils and grease, easily sponge-cleaned, seams securely bound with contrasting heavy piping. Waterproof and wears like iron. Exclusive streamlined designs in lovely colors and completely covers all surfaces exposed to wear. It has a smooth surface and saves wear on clothing due to it's smooth surface. They are available for immediate delivery.
Come in and see the Velon Plastic Seat Cover material. These seat covers will not stain or deteriorate from exposure to sun or rain. Grease, Candy, and ice cream spots can readily be removed with a damp cloth. Velon, will outwear all other conventional upholstery materials. We also have a nice supply of Foam Rubber cushions for your automobile.

PROOF

Chiropractic is a definite, specific method of locating and correcting the basic, spinal cause of disease. Chiropractors set free nature's forces and she begins at once to make repairs. In due time the case gets well as illustrated by the following case histories:

Case No. 11,601, woman, age 40, complained of low back pain that extended down both legs. She was also nervous, had headaches occasionally, and her neck hurt. Being unacquainted with Chiropractic methods, she was agreeably surprised when a spinal adjustment in the neck cleared up all her troubles.

DR. C. L. BRADY
Palmer Graduate

Case No. 11,544, woman, age 52, had severe headaches, was quite nervous, felt dizzy, and was a restless sleeper. She also had stomach trouble, pains in the chest, and hurting between the shoulders. She said she simply had no energy at all, yet under Chiropractic care the woman was soon feeling like a different person.

Case No. 10,229, woman, age 20, had backache for a long time and it appeared to be getting worse. She was nervous and had headaches. She worried easily and had rheumatic pains in legs and arms. After going to the chiropractor a few weeks, the case reports feeling better in every respect.

Case No. 10,810, man, age 42, had pain in the lower back that extended around to the front. He was tired all the time, had stomach trouble and faulty elimination. After going to the chiropractor for a short time, however, all his symptoms cleared up.

Midland Student Is Selected To Attend UCLA Radio School

Miss Mary Fern Bray, senior at the University of Texas, left by plane Sunday for Hollywood, Calif., to attend the National Broadcasting Company's summer school at U. C. L. A.

Miss Bray will take courses in directing, announcing and radio acting.

She is one of the 100 students selected from the United States to attend the school and is the only student chosen from the state of Texas.

At the University, she is under the direction of T. D. Richworth.

A cubic inch of aluminum weighs about a tenth of a pound.

Home Mission Program Held By Presbyterian Women's Auxiliary

The Women's Auxiliary of the First Presbyterian Church met at 3 p. m. Monday at the church for the regular inspirational meeting.

The president, Mrs. Richard Peters, conducted a brief business meeting and turned the program over to Mrs. J. B. Richards, who was in charge of the program on Home Missions.

A play, "The House of Hope" was presented by Mrs. Merrell Patton and Sarah Lew Link. Mrs. Richards told a story of home missions called, "Your Young Men Shall See Visions." A report on the home missions of the Synod of Texas and the Presbytery of El Paso was given by Mrs. J. M. Devereux.

Announcement was made of the fifth Monday meeting of the Council Women which will be held at the Presbyterian Church with the Presbyterian women as hostesses. Members are requested to bring books to be donated to the Negro Library.

Refreshments were served to the 29 women present at the Monday meeting by the hostess, Mrs. Tom Sealy, Mrs. J. B. Wilkinson and Mrs. Murray Fasken.

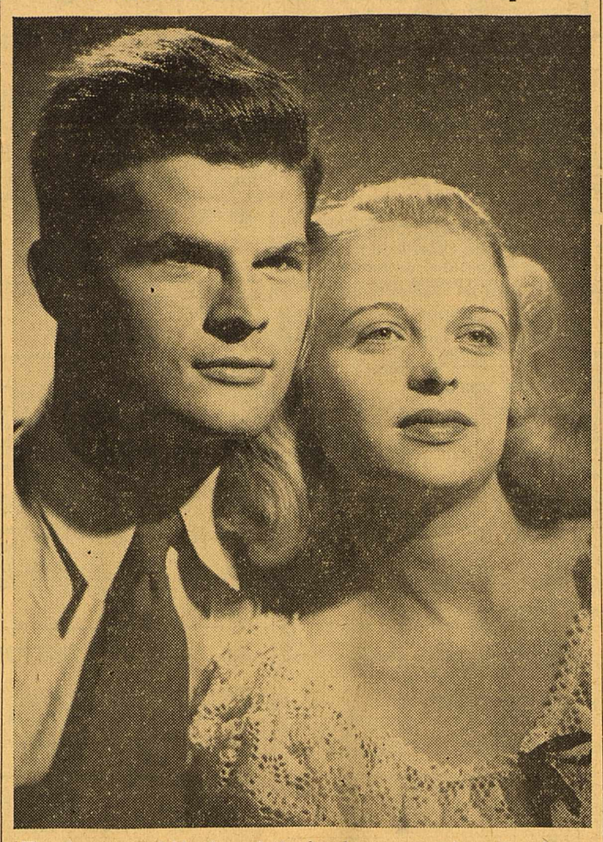

MARRIAGE LICENSES

Marriage licenses issued here Monday afternoon included one to Simon H. Reyes and Dominga Costilla; and one to Charles L. Snure and Mary Frances Barnard.

Love Interest -- "Kiss And Tell" Style

The dreamy-eyed blonde and the handsome young brunette, above, appear to be a happy married couple—and they will be Thursday and Friday nights when they portray the roles of Mildred Pringle and Lenny Archer in the Community Theater's production of "Kiss and Tell". The blonde is Mariana Mosely, a newcomer to Midland and the niece of Mrs. Clint Dunagan. The brunette is Bill Taylor, visitor to Midland and nephew of the Nelson Puetts. Mariana will play the part of a painfully young and secretly married woman and Bill will carry the role of Lenny, the brother of Corliss. Tickets and reservations are now available at Wemple's Music Store.

Twenty-Two Midland Boys Attend Camp For Baptist Youth

The Baptist Youth Camp opened in the Big Spring City Park Monday with 327 boys from the district registering.

Of this number, 22 registered from the Midland First Baptist Church.

The theme for the program of the Royal Ambassador Camp is "Builders of a New World". The Rev. Fred McPherson, pastor of the Calvary Baptist Church and Royal Ambassador Leader for the district, is the director.

Boys registered from Midland include Phillip Roberts, Ralph Powell, Dwain Hunter, Steven Thorsen, E. P. Birkhead, Ronald Sanders, Glen Pine, Joe Pogue, Charles Lawhon, Lanny Story, James Upham, Jay Leggett, Loren Roberts, Bill Erskine, Ray Leggett, Y. E. Brown, Charles Sutton, Johnny Murray, Kenneth Wright, Waldo Leggett, Stan Coker, Roger Lawhon.

Counselors attending with the boys are Glenn Murray, Mrs. E. R. Powell and Mrs. Scotty Lawhon.

Midland girls in charge of the camp bank are Barbara Brown, Nadine Clements and Edith Rae Collings.

The Tables Are Turned; Three Midland Youths Cash In On Friday, 13th

The jinx is broken about Friday the Thirteenth as far as three Midland boys are concerned.

For it was on that fateful day that they attended a rodeo at Skyline Mountain Park, N. M., and came away loaded down with honors and memories of a wonderful time.

Top winner of the trio was Terry Gayle, who won first place in a stake race, first place in a potato race, first place in a saddling race and first place in a flag race.

Coming in for second honors was Buzzy Bray, who carried off second place honors for a stake race, a flag race and a saddling race.

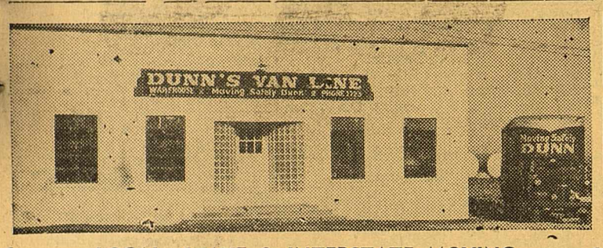

Billy Mims also won second place in the second flag race.

The boys had been attending a YMCA Camp sponsored by an El Paso organization. They returned to Midland Sunday.

RADIO STATIONS

KECK
SOMETHING NEW IS BEING ADDED
Recently the Federal Communications Commission granted K E C K a sister station K E C K-FM. FM means Frequency Modulation, a new system of radio broadcasting that eliminates static, ends fading and gives full beautiful tones to programs never realized in the present system of AM Broadcasting (Amplitude Modulation). This means that the new KECK-FM will give WEST TEXAS listeners the most modern radio facilities possible. If you contemplate buying a new radio make sure it is equipped for FM or it may be obsolete in a short time. Use the station "Most people listen to MOST in West Texas". The news and Music station that is a relief from daytime network drudgery.

LARCENY and OLD CARS
By GENE MAY, THE KRAZY TRADER
(With apologies to a so-called of almost the same name.
From what I've been readin' in t cal scandal sheet I'm beginnin to that we must have a collection of of the silliest people in the co movin' in here with us lately.
What I'm referrin' to is the stupi lers who've been sneakin' around the last few nights and drivin' other peoples' cars. I just don't u stand anyone goin' thru all that ble, not to mention the risk of br down upon themselves the wrath fine ever-alert law enforcement tors.
Now most anybody in this part c country rangin' from Odessa to St can tell you that I've got a couple en old dogie used cars on my lot are really a "steal." Why, one here the other night stole a '33 Ch While he showed purty good judge in the brand, I can't see why he p one of the vintage unless he's i antique business.
Now I've got some real Antiques here at the lot and on some of 'e pay you to drag 'em away, or they cheap you'll feel like they're a "s The only thing you'll have to about is your conscience after y traded with me—I'm getting kind in years and soft hearted.
HERE'S OUR LIST OF BETTER JALOPIES
41 Ford DeLuxe Sedan. Fine St No fringe on the top but new shoes all around.... $12
41 Chevrolet Coupe. Slick as Gran Pa's head..... $12
39 Chevrolet Coupe. Just what hoss Doctor ordered. Saddle b Black color—still has her upp about 15 hands high Yippee! $7
41 Chevrolet Special Town Sedan. other nice little Pony. Gentl gaits forward. A dandy! $11
47 Chevrolet Two Door. Let us b this one for your corral. Y stop the round up when you drive up in this $24
47 Dodge LWB 2-Ton Truck. Som suggested I buy this one myse haul away all this "Bull" I'm shoo I'M insulted! This one has a new bed $28
47 Chevrolet Club Coupe .....$
39 Buick Sedan .....
37 Ford Sedan .....
38 Buick Coupe .....$
44 K7 International 2½ Ton .....$
46 Ford Club Coupe .....$
46 Ford Club Coupe .....$
46 Ford Convertible Coupe .....$
41 Ford (a cream puff) .....$
31 Ford Sedan (runs) .....
40 Dodge Sedan .....
40 Chevrolet Sedan .....$
See me if you want the straight d on a used car. I've got 'em of ev shape, size and description and I'll you if they're good, bad or indiffere That's all I'm going to tell you h Costs too much money. Come on dc and let me show you around this full of "Klunks" I've got!
P. S. We got plenty of '42's, '41's, older ones. I never let sentiment int fere with business except at Christ Time. So, I'll be seeing you for a tra battle down at the lot.

TED SAYS: ★★★★★
Summer Time Is Definitely Here

The heat and dry weather is very bad, but if you do not have sufficient insurance on your automobile and other properties or if your properties should catch fire and burn, that could be worse; so beat the heat by air-conditioning your home and beat the fires and auto wrecks by sufficient insurance and beat the housing shortage by checking properties listed below—
Two bedroom frame, venetian blinds, floor furnace, corner lot, well landscaped, must sacrifice for quick sale, only $5500.00.

Two bedroom frame, ample closet and cabinet space on 60 ft. lot close in, $6500.

Income and home property combination. Large story and a half 7-room house with 12 lots.

Class A grocery store, service station, and garage on Coleman and Brownwood Highway in Cross Plains, Texas. Must sacrifice due to illness.

We make GI, FHA and Conventional loans to buy or build. All of this service is as close as your phone.

ADVERTISEMENT FOR BIDS
FOR REMODELING OF THE MIDLAND AIR TERMINAL
FOR
THE CITY OF MIDLAND, TEXAS
NOTICE TO BIDDERS:

SEALED BIDS, addressed to the Mayor and City Council of Midland, Texas, for the remodeling of Building T-66, Midland Army Air Field No. 1, will be received at the City Hall Council Chamber or the office of the City Secretary, until 8:00 P. M., Central Standard Time, July 8, 1947, and then publicly opened and read.

The work included in this proposal will involve concrete work, plumbing work, sheet metal work, electrical installations, carpentry work, painting work, roofing work, and masonry work.

A Certified or Cashier's Check or a Bidder's Bond executed by some corporate surety authorized to do business in the State of Texas, in the amount of Five Percent (5%) of the lump sum bid, payable without recourse to the City of Midland, Texas, must accompany proposals.

Complete copies of the plans, specifications and contract documents may be obtained by prospective bidder at the office of The Avery-Stanford Company, Rm No. 2, Crawford Hotel, Midland, Texas, upon a deposit of Twenty Dollars ($20.00). This deposit will be refunded to each actual bidder upon return of such documents in good condition within ten (10) days after receipt of bids.

The City of Midland, Texas, reserves the right to accept or reject all or any part of any proposal, to waive technicalities, to make any investigation deemed necessary of a bidder's ability to perform the work covered by the Specifications, and to accept what in the judgement of the Mayor and City Council is the best bid.

The bidder's attention is directed to the fact that bids or proposals shall be submitted only on forms provided therefor in the book of Specifications and Contract Documents. Bids submitted in any other form will be considered irregular and returned to the bidder unopened.

SLIGHT INCREASE IN NATION'S CRUDE OUTPUT

TULSA—(AP)—The nation's crude oil production averaged 5,123,295 barrels daily during the week ended June 21, an increase of 5,405 barrels over the previous week's figure, the oil & gas journal reported.

A Kansas gain of 13,650 barrels daily to 294,150 barrels was largely responsible for the continued upward trend in production, California's output increased 3,900 barrels to 918,700; Oklahoma was up 1,750 to 389,900, and the Eastern area gained 1,100 to 65,600.

Texas production was unchanged at 2,288,950 barrels.

First Inter-Cities Model Plane Contest Successful

Successful was the first inter-cities model airplane contest held Sunday at the Continental Airlines ramp at Midland Airpark.

Midland, San Angelo and Odessa builders participated with 25 gasoline engine-powered planes doing speed and stunt events.

L. M. Henderson of San Angelo was high point maker, winning first place in stunts and third place in Class II speed. Henderson performed wingovers, consecutive loops, outside loops, figure eights, inverted flight, inverted loops and finally brought his plane exactly on a previously designated spot in front of the contest judges.

Bob Hoppe, son of Midland's city manager, won the Midland Chamber of Commerce's prize for the high point Midland model builder by taking first place in the Class I speed event.

Results Listed

Here are the results of the contest: Class I speed— first, Hoppe of Midland, 51 1/2 miles per hour; second, Frank Shaw, Odessa, 43 1/2 miles per hour; Class II speed— first and second won by James Ray and J. D. Flanagan of San Angelo, tied with 87 miles per hour, third was Henderson with 72 1/2 miles per hour, fourth by Frank Miller of Midland with 69 1/2 miles per hour, and fifth by F. E. Luce of San Angelo, 66 1/2 miles per hour; stunt—first, Henderson, 156 points, second, Luce of San Angelo, 69 points.

Longhorn League—

Broncs Idle, Sports, Cats Take Contests

By The Associated Press

Big Spring's Broncs picked up ground in the Longhorn League without lifting a bat. Second place Midland took a 12-1 licking Monday night from Sweetwater, while Big Spring's tilt at Odessa was postponed because of rain.

Buddy Hancken's single in the eighth inning scored Davis with the winning run as Ballinger defeated Vernon, 4-3.

Ferrier And Harbert In PGA Final Tuesday

DETROIT—(AP)—Long Jim Ferrier, quiet-spoken blond Australian, and Melvin (Chick) Harbert, sunburned home-bred brunet rode decisive semi-final victories into the 36-hole finals of the week-long National PGA golf championship here Tuesday.

Ferrier, deadly with his iron shots and requiring only 41 putts for the 27 holes, swept into the championship round with a record-equalling 10 and 9 semi-final victory over Art Bell, serious-faced Colma, Calif., pro, in which Ferrier went the 27-holes in 99 strokes, nine shots under par.

Harbert, slamming his ball for amazing distances off the tees, was five under par while eliminating Vic Ghezzi of Kansas City, Kas., the 1941 PGA titlist, 6 and 5.

Including their two qualifying rounds over Plum Hollow's long 6,922-yard test and their parade through five rounds of match play to reach the final round, Ferrier was 22 strokes under par for 169 holes here and Harbert was 16 under for 174.

Sweetwater Beats Tribe By 12 To 1

SWEETWATER — The Sweetwater Sports put their ace, Leroy Jones, to the Midland Indians here Monday night and he sat down the visitors, 12 to 1.

Jones, a lefthander, struck out 15, walked one, and allowed five scattered hits.

Bob Cowsar, the league-leader hitter, busted out his 20th homer of the season.

Ramsdell hit a triple for Midland.

The Indians tallied their one in the first of the ninth.

The box score:

Midland	AB	R	H	O	A
Davis, cf	4	0	0	6	0

Hogue Hurls His First No-Hitter In Dallas Win

By The Associated Press

A round little man pitched his way into Texas League history Monday night, and credited blackeyed peas and mince pie.

Twice before Dallas' Bobby Hogue had come within one hit of a perfect tilt. Monday night he made it against Beaumont. His mates took the game by a 4-0 score.

The chubby righthander said after the game a home-cooked meal, including blackeyed peas and mince pie, furnished the power to turn the trick. If he was joking Beaumont wouldn't laugh.

While Hogue and Dallas stole the spotlight, Fort Worth climbed back into second place in the standings with a 4-1 victory over Shreveport. In other games, Houston defeated Oklahoma City, 6-1, and Tulsa went 10 innings before edging San Antonio, 5-1.

It was the most perfectly pitched no-hit game of nine innings since Galveston Eddie Cole's chore against Tulsa in 1935. Cole didn't allow a man to reach base and only two made the grade against Hogue.

Hogue faced just 28 batters—thanks to some neat fielding by his mates—walked only one and struck out four. A three-run home run by Bob Moyer gave Dallas three runs in the fourth inning.

Major Leagues

Detroit Missing Big Hank's Mace

By The Associated Press

Currently closer to the cellar than they are to the top, loyal Detroit followers couldn't help but ponder whether their clawless Tigers wouldn't be in a higher position today if they still had last year's American League home run king, Hank Greenberg.

With Pat Mullin, their early season sensation, slumping to a below .300 mark, no one on the Tigers can match Greenberg's figures.

The faltering Tigers could put together only two runs on six hits Monday as they went down to their 10th straight defeat when the Boston Red Sox walloped them 8-2 at Fenway Park behind Denny Galehouse, their recent acquisition from the St. Louis Browns.

The New York Yankees kept up their first-place pace-setting by beating Cleveland's Indians 8-5.

Chicago's White Sox won their ninth game out of 10 against Washington's Senators, 10 to 6.

The red hot St. Louis Cardinals pasted the National League's leading Boston Braves 6-2 with Enos Slaughter driving in four runs and Terry Moore extending his hitting streak to nine straight games.

Chicago's Cubs handed Mort Cooper his second defeat in a row as the Giants went down 6-3.

This classic version of the ever-popular saddle is a fashion "must" for your summer wardrobe. Skillfully crafted to official standards of style and wear.

LUCKY STRIKE presents THE MAN WHO KNOWS—
THE TOBACCO BUYER!
"SEASON AFTER SEASON, at auction after auction, I've seen the makers of Lucky Strike buy ripe, fine-tasting leaf... that fine quality tobacco that makes a top-quality smoke."
Brice R Leech
B. R. LEECH, INDEPENDENT TOBACCO BUYER
of Glasgow, Kentucky
(16 YEARS A LUCKY STRIKE SMOKER)

JOHN FALTER
FINE TOBACCO is what counts in a cigarette
BRICE LEECH IS RIGHT!... And like him, scores of other experts ... who really *know* tobacco ... have seen the makers of Lucky Strike buy "ripe, fine-tasting leaf."
After all, that's what you want in a cigarette ... the honest, deep-down enjoyment of fine tobacco.
So remember...
L.S./M.F.T.

Copr., The American Tobacco Company
LUCKY STRIKE MEANS FINE TOBACCO
So Round, So Firm, So Fully Packed—So Free and Easy on the Draw

Blunt Words From Bulgaria

Russian communism expresses itself on world affairs through an interesting gradation of styles. At the top are the pronouncements of Generalissimo Stalin, a serious and sometimes bellicose boss when he is addressing the home folks, but a genial Uncle Joe with an everything's-going-to-be-dandy philosophy when he talks to American interviewers.

Then there are the cold, formal statements of Molotov and Gromyko. They can run international discussions into a dead end or call somebody a liar over such a roundabout route of diplomatic language that the result is disarming, if not downright soothing.

Pravda and Izvestia, according to English translations, are neither dull nor obscure in their comments. Their columns seem to bristle with exaggeration and vituperation. At least one insulting adjective—but usually more—is the standard accompaniment of any mention of a capitalistic belief or practice.

Now we have another style of expression, contributed by Bulgaria's Communist premier, Georgi Dimitrov. Somehow we prefer his style to all the others. He is neither genial, dull nor exaggerated. He just lays it on the line. And while what he says fastens down the Soviet iron curtain even tighter, there is nothing iron-curtainish about the way he says it.

* * *

Bulgaria, he promises, won't become a "jumping-off point for hostile action against our emancipators, the Russian people," or other "Slav and non-Slav democratic nations."

Premier Dimitrov says he isn't going to suppress opposition parties. But they must be a "loyal opposition," which means that they aren't to raise their voices against the plan for communizing Bulgaria completely. The Communist leader says that Bulgaria is going to have "peace and tranquility." But it promises to be a precarious tranquility, for in the next breath he says, "Whoever stands in our way . . . will go behind bars."

Perhaps Premier Dimitrov's words in themselves aren't too surprising. The present heads of the Canadian and Mexican governments might say, in a more democratic and diplomatic manner, substantially the same thing if they felt that their countries might be used as "jumping-off points for hostile action" against the U. S.

* * *

However, there is a possibility that Premier Dimitrov's words might be spoken before long by other puppet leaders in Austria and Western Germany. Soviet expansion is obviously in that direction, and the preparatory work is already started. What is the U. S. going to do about it?

We have a Truman Doctrine, which is not yet in operation. We apparently have an Italian policy and a Hungarian policy, and Austrian and a German policy.

What we don't seem to have is a clear-cut European policy, complete with over-all strategy and detailed tactics. The Russians obviously do have one, and we believe that Dimitrov has expressed some aspects of it frankly. It is going to be difficult to counter that Russian policy, which is bowling along in high gear. That is all the more reason for getting the best heads in Washington together—and getting going.

Too Many Oranges

They're making yeast, molasses, salad oil, powered juice and livestock feed out of oranges now, and there's no telling what next. Let the Department of Agriculture's Dr. L. F. Martin, of the Bureau of Industrial Chemistry, tell you about it:

Dr. Martin is in charge of government research laboratories at New Orleans and Winter Haven, Fla. At these stations and at other orange laboratories in Weslaco, Texas, Los Angeles and Albany, Calif., the government is trying to find new uses and improved methods of handling citrus fruits and their byproducts.

Canners take 40 per cent of all the oranges and 70 per cent of the grapefruit now. But after they get the juice in cans they have left a lot of peel, pulp, skin and seeds that are an awful nuisance. If they're dumped in streams or lakes, they kill off the fish. For a time they were pumped underground through reverse wells. Trouble was that the waste waters seeped through the ground and spouted out as springs a couple counties away, causing all sorts of damage.

Some years ago the idea of grinding up the peel and making it into livestock feed was tried, and it worked. Ninety per cent of all the Florida cannery peel, 70 per cent of all the Texas peel, is now used in cattle and poultry feeds.

Wasted Subtlety

We have never observed that Hollywood's high executives or movie audiences had much of a taste for subtlety. We don't know who first developed the aversion. But it's evident that the average screen play is pretty clear and simple. Virtue is white and vice is black. Virtue triumphs, boy gets girl, and the audience goes hope happy.

But the House Un-American Activities Committee seems to feel that Communist screen writers are sneaking subtle propaganda into their scripts and taking subtle rigs at American institutions.

If that is so we're afraid the comrades are wasting their time. Nobody gets the point of the subversive subtlety except the Un-American Activities Committee.

There is just as much sense in worrying as there is in advising others not to.

Answer to Previous Puzzle

Jesse Jones Sees No Depression In Immediate Future

WASHINGTON—(AP)—Jesse Jones said recently, "I see no possibility of a depression in the near future."

In a statement filed with the House Banking Committee, the former chairman of the Reconstruction Finance Corporation declared, "I do not believe we can talk ourselves into a depression."

"Some reduction in the price of necessities is, of course, highly desirable and would help lower the cost of living," the Texas publisher added.

Jones cited six specific reasons why he thinks business should continue to prosper:

1. "There is urgent necessity of construction work of every character, public and private, throughout the country. There is a shortage in homes to live in and homes for business. There is probably not a city, town, or village in the entire country which is not far behind the war period."

2. "Most public utilities have improvement or expansion programs."

3. "Railroads, highway construction, public schools, hospitals, and civic improvements generally are far behind."

4. "Industry is having to replace outmoded and inefficient buildings and equipment on a substantial scale."

5. "Altogether, there is so very much to be done, which necessarily has been neglected for the past half dozen years, that business should be good for quite some time."

6. Furthermore, our banks and financial institutions are in excellent condition, and there is of course, no lack of credit from private sources for most purposes."

Jones, who as RFC chairman, handled billions of government dollars, outlined his views in a statement asked by Chairman Wolcott (R) of Michigan, whose banking committee in considering legislation to extend RFC's life beyond its June 30 expiration date.

Suggesting that the RFC should be kept in existence, the Texan added, however, it should "revert to its original purpose of domestic emergency lending."

"The RFC," Jones wrote, has been a factor in assuring credit at reasonable rates and terms, and, if continued, will serve a good purpose as a stand-by."

"I suggest for your consideration that the corporation not be used as a convenience to appropriate or allocate money for purposes other than its regular business. I have in mind the payment of subsidies, which should be treated independently by Congress; and allocations for other purposes than regular RFC functions."

As for RFC's past, Jones said it was "largely responsible for our recovery" from the depression of the 30's, and I feel a minimum of errors has been made, and it is doubtful if as good a job could be done again."

Notwithstanding the bright economic future he painted, he added that "I recognize that there are some clouds on the horizon, international-wise, that could affect our economy."

OUR 1947 RURAL PROGRAM

23,000 telephones in Texas

There's lots doing these days in Southwestern Bell's rural territory. We plan to connect 23,000 telephones in rural areas in Texas this year, and construction work is moving ahead.

The job of bringing good telephone service to thousands of farms in our 250 exchanges is a big undertaking. It begins with a survey of each exchange to determine the kind and amount of construction required. Then farmers are interviewed, detailed plans drawn up, materials ordered, and when they arrive, the lines built and telephones installed.

The purpose of this planning, organizing, and building is dependable, up-to-date rural telephone service. It's the kind of telephone service American farmers need, and it's the kind of telephone service we plan to make available, sooner or later, to every farmer in our territory who wants it.

Duplex for Rent---But for Robins Only

"Roomy duplex to let, southern exposure, nice view, don't mind children." Above Elaine Boyles, of Cleveland, Ohio, inspects the nest two robin couples built together a few weeks ago above the door to her home. The youngsters of the vacated suite grew up and flew away with Mom and Pop. And when those three blue eggs in the other nest hatch soon, there may be another vacancy.

McKENNEY ON BRIDGE

By WILLIAM E. McKENNEY
America's Card Authority

I just had a letter from Clare H. "Corky" Smith of Pittsburgh with an invitation to go to the Pennsylvania State Tournament in Pittsburgh Nov. 14-16. Tournaments are booked so far ahead these days that the invitations come in early.

Corky also sent me an interesting hand that came up in the Western Pennsylvania Tournament in Pittsburgh last March. In this hand declarer made the mistake of trying to grap an extra trick when he saw he was in a good contract. Taking advantage of the declarer's mistake, Corky made a shift for which he is certainly to be complimented.

Smith (East), who believes in opening the majors, led a heart against the three no trump contract. Dummy's queen won the trick, and the ten of clubs was led.

This of course was wrong. Declarer could see that most of the pairs in the room were going to be in four spades, which would not be made. They would lose three diamonds and a club, even if the spades broke. Therefore, North should have cashed his nine tricks and been satisfied. But he decided to try to sneak through an extra trick.

Smith won the ten of clubs with the ace, and thought for a while. He knew that declarer had the ace and king of hearts because his partner had not gone up with either honor. He knew also that the entire spade suit was good, and declarer must have at least the king of clubs—otherwise, why would he have led the ten of clubs? He must have wanted to establish a quick club trick, and from the bidding, North might have a five-card club suit.

Smith decided that diamonds offered the only possibility of any tricks for him and his partner, so he led the diamond king. Though West only could give him the three-spot, Smith knew that the deuce was missing, and he continued with a diamond. West won, and the result was that East and West cashed five diamond tricks.

This is not a difficult hand to reason out, nevertheless many plays of this type are missed by those who play automatically, without taking time for reasoning.

World's Deepest Well Stopped At 17,823

FORT COBB, OKLA.—(AP)—The world's deepest man-made hole, a wildcat oil well five miles north of here in Caddo county, stood at 17,823 feet total depth and was being drilled no deeper.

The hole was drilled by the Superior Oil Company of California, which has declined to release any information on the test other than its total depth. It is the No. 51-11 weller.

The previous depth record was held by the Pacific Western Oil Company's National Royalties No. 1 well at 16,668 feet in the Lost Hills West of Bawersfield, Calif. Third deepest is the Phillips Petroleum Co. well in Brazos County, Texas, at 16,655 feet.

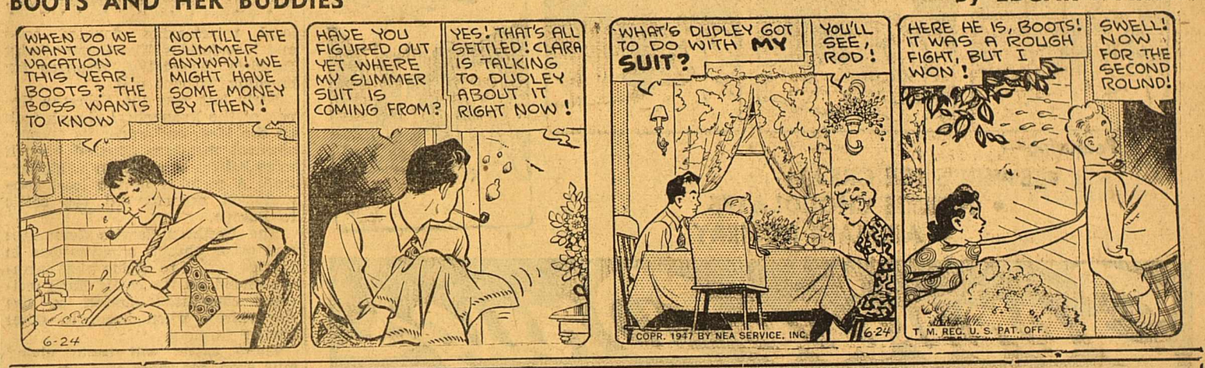

Most commercially grown orchids take five or more years to grow from seed.

Inventor Claims New-Type Plane Can Land At 15 Miles Per Hour

AP Newsfeatures

HAGERSTOWN, MD.—Inventor Willard R.. Custer says he has given a new twist to airplane wings which will make them lift or land a plane in 50 feet of space, at 15 miles per hour or less, on just about any terrain—"and I'm not talking about a helicopter."

"I simply reversed conventional aerodynamics by moving the air over the wings instead of moving the wings through the air," he explains.

Custer says he can do this by "twisting" the wings into two channels with adjustable pitch propellers at the rear.

"Instead of moving the ship down a long runway through the air at high speed to get off the ground," he says, "the rear propellers move the air over the wing at high speed until lift is obtained.

"With an ordinary plane, air pressure is built up beneath it as the wing is forced through the air on a runway. A helicopter gets vertical lift by rotating its overhead fan-like wings at high speed.

"I accomplish the lift by forcing air over the wings much as a wind tunnel operates. I reduce the pressure above the wing by the propeller's sucking action at the rear and let the undisturbed pressure of nearly a ton per square-foot below the wing lift the plane."

Custer's planes—a full-scale ship built in 1943 and one now under construction for test flights this fall—have stubby wings that look something like half barrels flanking its fuselage.

He says tests on working models by the Air Material Command at Wright Field showed the plane had a vertical lift comparable to that of a helicopter.

Claims Low Cost

Custer contends his plane is the answer to bringing aviation within reach of everybody's back yard. He says the plane, which would operate without the expense of long runways, can be built for two passengers for approximately $1,000.

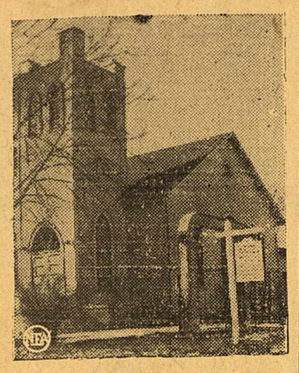

"The crash hazards of blind approaches and landings at high speeds are eliminated," he says. "The channel wing means a plane can sink slowly to earth through the worst weather onto deep snow or any other kind of ground."

Custer got his first patents in 1929, while working as an automobile engineer. He made his first test with a full-scale model at the government field at Beltsville, Md.

The plane being built for a test flight this fall, Custer says, will go fast as any airplane of comparable horsepower and size.

The stink pot terrapin of North America is so called because of an offensive, protective odor which it secretes.

Nebraska Town's Milk Route Reaches Across Ocean To Help Feed Some Of Europe's Hungry Children

Falls City's unique plan to aid Europe's hungry began in this rural Hilltop Church. The sign at right reads: "A friendly church in the heart of a friendly community."

Farmer Reuben Knaup of Falls City, Neb., gets his donation-on-the-hoof ready for shipment in the community's contribution to Europe.

FALLS CITY, NEB. — (NEA) — Hungry children in Central Europe soon will begin getting milk, and some beef, through the co-operative gift of 33 members of the little Zion Evangelical and Reformed Church, near here.

A carload of heifers with calf, carefully selected from the best Holstein and Guernsey and Jersey stock in southeastern Nebraska, has been sent for distribution among worthy Central European farmers, with the agreement that offspring are to be given other farmers to help start top grade dairy herds.

This unique plan for feeding starving European children started in November, 1945, when the Rev. Reinhold M. Jensen, pastor of the Zion church, pleaded from his pulpit for aid to the starving millions of European men, women and children.

Thirty-three men of his congregation undertook to obtain 10 purebred heifers. A "heifer committee" to get contributions consisted of Edward Zimmerman, a successful young dairyman tireless in church activities Henry Koenig, a veteran who served in the South Pacific, and Sterling Kottich, active dairyman and 4-H Club champion.

Soon they had donations of 10 heifers, some from church members' own flocks and some bought for the purpose. Farmers who did not give cattle agreed to care for them, and others paid the feed bills. A local veterinarian donated tests and inoculations. The County Dairy Breeders' Association arranged for breeding without cost.

Early last year the Nebraska Synod of the Evangelical church took up the idea, and under its encouragement members donated enough more heifers to make up a full carload. A member of the local congregation accompanied the cattle to Europe.

The Brethren Service Committee and other church organizations in Europe agreed to decide what farmers should get the cattle. Each recipient committed himself to give the calves, when born, to other worthy farmers.

These cattle will begin giving milk soon, for relief of a few children who need it badly. But this is only a first benefit. Some bull calves born to the Nebraska heifers undoubtedly will be used for beef, but others, bearing the best blood lines of Nebraska's top production herds, will be used to improve the caliber of grade stock in their neighborhoods.

Pecos Rodeo Boosters Invite Midlanders To Their Show July 3-5

Seventeen Pecos citizens, displaying amazing energy in the face of the afternoon heat, zoomed into Midland Monday. They played cowboy records over the loudspeaker of their chartered bus, shook hands with Midland friends, passed out a large number of handbills, and then left town as quietly as possible while hollering at the top of their voices.

When they had gone, everybody in downtown Midland had been assured a friendly welcome at the 18th Annual Pecos Rodeo, July 3-5.

Sponsored by the Pecos Chamber of Commerce, and led by C of C Manager Alton Hughes, the group left Pecos Monday morning and visited Kermit, Wink, Monahans and Odessa before arriving here. From Midland, the boosters went on to Big Spring, Sterling City and into San Angelo for the night. Tuesday, they planned to return to Pecos by way of McCamey and Fort Stockton, announcing the rodeo at every opportunity along the way.

On the trip were Alton Hughes, Joe W. Camp, Jack and Jim Hawkins, Mack Powell, Bill Turpin, Jack Oglesby, Walter Scott, E. W. Beauchamp, Paul Coody, Barney Hubbs, Joe Stafford, F. L. Ackridge, Pood Roberson, Marvin Clark, Sgt. Wright and Henry Allen.

There are about 40 kinds of orchids in every state from Illinois to New England. Some of the most common are lady's slipper, orchis, pogonia, grass pink, coral root, rattlesnake plantain, and twayblade.

TWO-THIRDS OF FARMS IN U. S. USE HORSES

WASHINGTON—(AP)—This may be the atomic age, but Old Dobbin and the mule are still the big source of working power on the farm.

The Census Bureau reported Monday almost two-thirds of all farms entered the postwar period depending wholly or partly on horses and mules for power.

Of the remaining farms, fewer than one in 10 use tractors exclusively. Farms in the North and East had the highest proportion of tractors, those in the South the lowest.

U. S. KOREAN OFFICIAL FLIES TO WASHINGTON

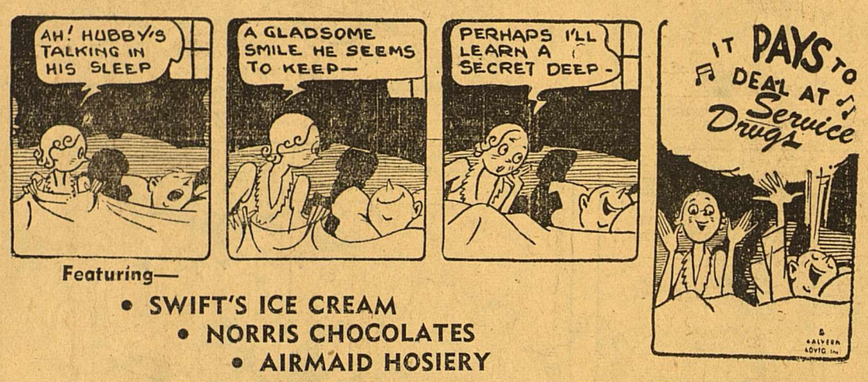

TOKYO—(AP)—Maj. Gen Archer L. Lerch, U. S. military governor of South Korea, is scheduled to leave by plane Monday night for Washington to confer with government officials on Korean matters. He conferred here with members of General MacArthur's staff.
