12-Block Planning Target

\$2,800 Study For Downtown Face-Lifting

A \$2,800 planning project for physical face-lifting of Colorado City's downtown business area will seek practicability as well as innovation.

That's the agreement between City Council, who has approved contract for the planning, and the consulting engineering firm of Parkhill, Smith & Cooper of Lubbock.

The Lubbock firm will complete the planning by Feb. 15.

Council voted Thursday night in a special City Hall session to hire the firm for the planning recommended by the community's Operation Pride steering committee.

Pride leaders, City Manager J. A. Sadler Jr. and council have been considering a downtown planning project for several months.

Decision to hire Parkhill,

Smith and Cooper came after specific recommendation by the Pride group headed by Dr. Billy B. Bridgford. With him at the special session were Drew Ballard, Rev. Weems Dykes, and Mrs. Dennis Wright, also members of the Pride steering group.

The Lubbock engineers, by the Feb. 15 completion date, will have proposals relating to these areas of improvement:

1. Traffic patterns and suggested parking, both on-street and off-street.

2. Relocation of curb and gutters, designated sidewalk areas and mini-parks at the sidewalk areas.

3. Beautification with mini-park areas and shrubs, flowers and other improvements.

4. Two architectural draw-

ings showing the proposed face-lifting improvement for the 200 block of Walnut and 100 block of East Second for an overall look at the plan's appearance.

5. Architectural drawings for two or three actual building fronts, incorporating suggested improvements conforming to the proposed overall face-lifting plan.

6. Side view of the individual

building projects relating to elevation of sidewalks, streets, curbs and gutters.

Bennett Reaves of Lubbock, engineer with Parkhill, Smith and Cooper, told the council and committee Thursday the city would be furnished 25 copies of the plan.

He also emphasized that during the planning work, his firm would confer with representatives of the City Council, Chamber of Commerce and related interest in an effort to relate the plan to actual needs and desires of the community.

Both city officials and the Pride committee headed by Bridgford also made this a major factor in the planning. They want a plan which "we can chin."

"Every effort will be made to develop suggestions that will be within our means," Sadler said, "and that we can formulate and carry to completion with unnecessary burden on anyone."

"Anybody can come with a big plan of improvements, but the important point is to scale our plan to our own particular needs... and within the scope of our ability to pay for it," the city manager explained.

Sadler praised Bridgford's Operation Pride group for initiating interest toward a downtown project and then moving the project toward City Council action's Thursday night.

4-H Gold Stars To Stubblefield, Banks

A couple of Colorado High seniors as busy outside the classroom as inside, are Mitchell County's 4-H Club Gold Star boy and girl for 1969.

David Stubblefield and Linda Banks received the awards Saturday at the county's 4-H achievement banquet in Colorado High cafeteria.

In all, 62 awards of achievement were presented to boys and girls from all areas of Mitchell County.

Highlight, of course, was the Gold Star presentation to Stubblefield, president of Colorado High Student Council and son of Mr. and Mrs. C. N.

Stubblefield, and Miss Banks, head cheer leader at Colorado High and daughter of Mr. and Mrs. Emmett Banks Jr.

County Judge Elmer Martin handed the No. 1 awards to the pair.

Miss Banks, 17, has earned a variety of 4-H awards through the years. She won the dress review pin in 1966 and represented her county in district dress competition. She received the clothing award in 1963, food and nutrition award in 1964, home improvement award in 1967.

In school, the senior not only is head cheer leader but has been elected most deserving

girl of her freshman, sophomore and junior classes. Additional extra curricular achievement includes the Order of the Rainbow for Girls.

Stubblefield, 17, is chairman of Mitchell County 4-H Council and co-chairman of Lone Wolf 4-H Club. His projects include beef cattle and junior leadership.

Last year he received the leadership pin, participated in the Texas Farm Bureau citizenship seminar on campus of Baylor University, attended electric camp at Cloudcroft, N. M., and leadership camp in Levelland.

In addition to being the top

student officer of his high school, he is active in other campus pursuits including Colorado High Wolf Band.

Three adults were recognized for special Spur Clip awards for being outstanding friends of 4-H Club.

County Agent Bobby Lemons cited Charles C. Thompson, head of City National Bank, for his support of 4-H Club projects and activities plus his long-time assistance to 4-H members by providing beef cattle for deserving youths to feed and also by privately helping with financing of work projects.

Leo Thompson, co-owner of M&T Food Service, was recognized for his valuable assistance to Westbrook 4-H Club in helping that club to carry out their successful community-wide horse and pony playdays.

Named for the third Spur Clip was Joe Bell, editor and publisher of Colorado City Record, for support of 4-H Club activities through the news media.

Only one other adult spur had been presented within the county before these three. First was last year to Dink Rees, executive of Lone Wolf Electric Cooperative, Inc. See GOLD STARS Page 7

His Court of Honor will be Monday at First United Methodist Church.

His Court of Honor was announced Saturday by the Buffalo Trail Council, Boy Scouts of America.

The attainment of Eagle rank will climax five years of scouting for the Colorado High sophomore honor student.

After completing Cub ranks, Reynolds became a Webelo and his leaders were Mrs. Larry Kinard and Mrs. O. B. Trulock Jr.

He entered Boy Scouts as a member of Troop 20, sponsored by First United Methodist Church with Charles Stevens as scoutmaster. It was under Stevens he earned the first scouting rank, Tenderfoot.

Second and First Class badges were earned under the leadership of T. L. Rees and rank of Star and Life were with George Lee as scoutmaster.

Now, the Eagle rank -- the prized goal for Boy Scouts -- is being attained under leadership of Scoutmaster B. D. Mason.

Reynolds in 1968 was selected for membership in the elite Order of the Arrow, an honorary camping organization. The

same summer he was inducted as an Ordeal Member.

During the last spring (1969), he became a Brotherhood Member of the Order.

Currently, the scout is a member of both the Lodge and Chapter Indian Dance Teams, member of Lone Star Chapter Ordeal Ceremony Team, and communication chairman for Lone Star Chapter.

Also, during the last summer he worked on the staff at Buffalo Trail Scout Ranch.

Lions Prepare Pancake Menu

Evening Lions members are warming up their kitchen techniques in preparation for their pancake supper Saturday night to raise funds for Texas Lions Camp for Crippled Children.

The supper -- all you can eat for the price of a ticket -- and entertainment will be in Junior High Cafeteria and Auditorium.

It is scheduled this fall to coincide with the statewide observance of November as Texas Lions Camp for Crippled Children Month as proclaimed by Governor Preston Smith.

All funds from the supper will go to the camp at Kerrville

which for 17 years has provided two weeks of summer fun, without any cost to participants, for more than 11,000 blind, deaf, mute and crippled children of Texas.

In recent years, through its rehabilitation program for adult blind, this camp has helped more than 700 Texans to return to the sighted world as productive citizens. This adult training program operates for all the year except for three months of children's summer camp period.

CONVERSATION CORNER

"RICH" used to be considered a rather indelicate word in well-bred circles.

Nobody was rich in the little town where I was born. Of course there were some "well-to-do" families, widows who were referred to as "well-off," and people with fields full of oil wells were sometimes called "wealthy."

But to call a neighbor or acquaintance "rich" even behind his back was held to be sort of vulgar and insulting.

Now in this generation the word rich still isn't used in its original sense very much, though it is used jokingly. "That's rich," we say of something highly amusing.

And we use it to describe sauces, colors, baritones, and fabrics.

Occasionally we apply it to celebrity millionaires and such, but rarely to somebody we really know, lest we hurt their feelings.

WHETHER one is rich or not depends on the point of view, anyhow.

To be rich is one thing; it must be rather nice in many ways and a heck of a lot of troubles in other ways.

To feel rich is more important. Almost anybody can feel rich. It's easy. All it really requires is two things—appreciation and imagination.

It's all right and perfectly acceptable, socially, to be poor. In fact since the high cost of living gets higher every day, to be poor is pretty popular.

Just so long as you don't go around talking and feeling poor all the time.

NO SET of rules explaining how to feel rich instead of poor

could possible apply to everybody. People's sets of values are too different.

But unless it takes a million dollar diamond for you to feel rich, there are a million ways to feel rich any time you feel like feeling rich.

When you find an extra five dollar bill in the back of the billfold, that's feeling rich.

When your children are alive and well and even reasonably good, you can feel rich.

When you can lie late abed upon occasion that's a wonderful way to feel rich.

HOW to feel rich is up to the individual. It does not necessarily cost too much money, inflation or no inflation.

Ever feel rich when the wind howls at night and your house, large or small, is a shelter from the elements?

Ever feel rich when you flip a switch and can hear the sound of music?

Little things can make a normal woman feel rich... nylon next to the skin... cologne behind the ears... a trip to the beauty salon... a talk with a special friend... a new book to read.

Even better are the intangible things that are hers... a son home safe from a war... a young man on the dean's honor list... a smile from a grandchild. These make you feel rich.

WHAT with Thanksgiving just around the corner, the best way to feel rich is just to count your blessings.

"Name them one by one."

Counting blessings takes longer for most of us than counting money.

It's more satisfying, too. You sit around counting money and you're sure to feel poor—unless you're rich as King Midas and even he wasn't satisfied.

To feel rich is to know when and how to count your blessings instead.

SEEN LATELYS included friendly Marian (Mrs. Dee) Bassham happy over having daughter Jean and grandson Tom J. Goss IV with her at the library.

Building Ahead to Make Your Electrical Future Secure

Good electric service. You have a right to expect it. It's our job to see that you get it... now and in the future.

Keeping ahead of the growing electric power uses in the areas we serve is a job that demands carefully scheduled construction of new power facilities costing many millions of dollars.

TWO NEW GENERATING FACILITIES UNDER CONSTRUCTION

Right now, steel is going up for two big power generating units. One is a 375,000 kilowatt addition to the company's Eagle Mountain generating station in Fort Worth. Work on this new unit is scheduled for completion in time to meet summer peak loads in 1971.

The other is a 1,150,000 kilowatt generating station being constructed jointly by Texas Electric Service Company, Dallas Power & Light Company and Texas Power & Light Company in Freestone County. This new plant will burn lignite from nearby deposits for boiler fuel.

UNIT TO BE ADDED TO PERMIAN BASIN PLANT

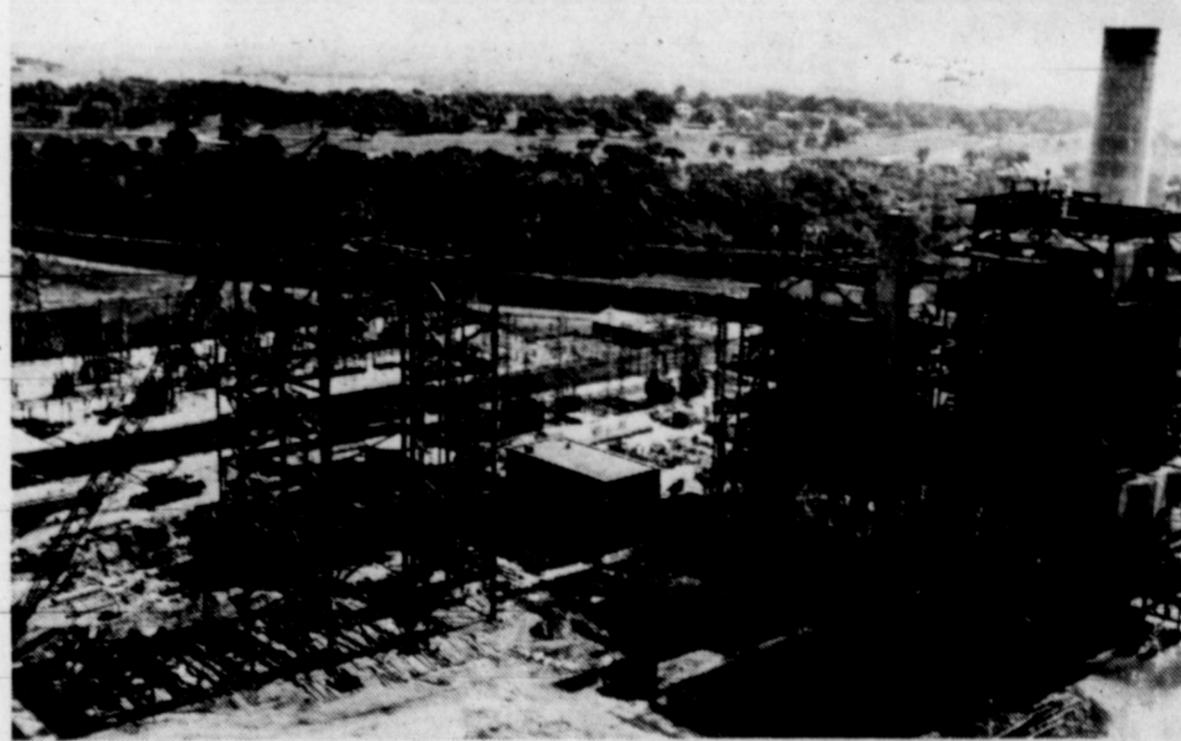

Another project, recently announced, involves construction of an additional generating unit with a capacity in excess of 500,000 kilowatts at the company's Permian Basin power plant near Monahans.

SYSTEM GENERATING CAPABILITY INCREASED BY 20 TIMES

These new projects continue a program of system development that since 1948 has increased the net generating capability of the system by 20 times. During this period, 21 new generating units have been added, the latest being a 375,000 kilowatt unit which went into service at the Graham power plant early in 1969.

PLENTY OF POWER FOR ALL NEEDS

As a result of this program of constantly planning and building ahead, Texas Electric

Service Company has kept the power supply available to its customers well ahead of expanding requirements. Even during the extreme heat of the past summer, when peak demand for electric service reached an all-time high, there was plenty of power for every need, plus a substantial reserve.

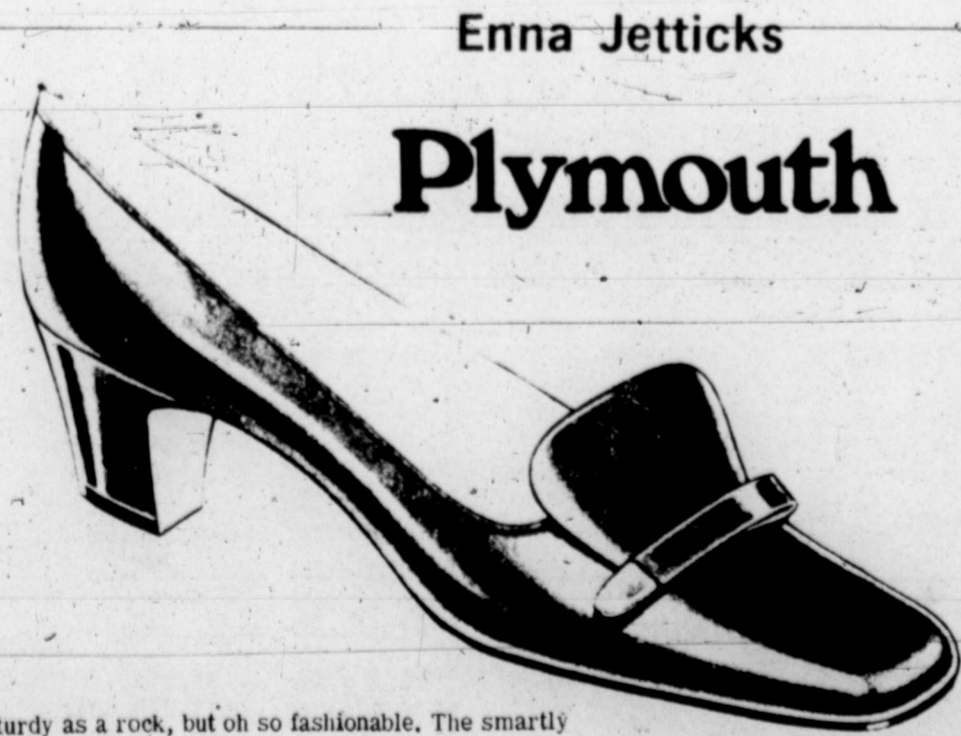

the area served by the company. And strong interconnections with the systems of other companies in Texas make possible the exchange of large blocks of power in any emergency situation.

PLANNING AND CONSTRUCTION PROGRAMS TO CONTINUE

As the area we serve continues to grow, and as the use of electricity increases, Texas Electric Service Company will continue to plan and build ahead to make your electrical future secure. When you want electricity for any purpose, now or in the years to come, we'll be ready to serve you.

TRANSMISSION LINE SYSTEM STRENGTHENED

Development of the company's transmission system has kept pace with the increase in generating capability. A strong network of high voltage transmission lines delivers electric power where and when it is needed in
