J. W. KING, SR.

The Beatles from England are claiming they are more popular than Jesus. If you have been observing things the past few years you will know that there are many things that are more popular than the Beatles. I would say that if Jesus has lost any of his popularity, the Beatles are just one tiny cause for it. You can almost be convinced of the truth of John Lennon's boast when you take a look at the attendance at churches on Sundays then go to the lakes throughout the country and view the crowds there. Jesus was not popular with a lot of people when He lived on earth, the same is true now.

The City Council in a called meeting Monday night, let contracts to Thomas Newman of Sweetwater to repair and seal coat the paved streets in the city. The work will be done soon. The Council also voted unanimously to stop the Mexican dances and the Fiesta for a period of one year. Such action was taken because of the trouble at the dance last Saturday night. Personally I have thought for a long time that Mexican citizens of the United States were out of place celebrating the independence of Mexico from Spain. Citizens of this country go out to celebrate the independence of the United States on July 4. Mexican people who cling to the customs of their native country will take much longer to become Americanized.

Some people seem to have little regard for their own safety nor the safety of others when they are driving a car. Especially is this true here in Loraine where people drive to suit themselves without regard to safety. Will some terrible accident have to happen in our city before the City Council takes any action to remedy the situation?

Cotton Insect Report No. 8

BOBBY LEMONS
Co. Agricultural Agent

Situation at a Glance - Boll worms have caused some damage to cotton, especially in areas that had rain last week.

Thrips - Thrips do very little damage to cotton after it reaches the six leaf stage.

Fleahoppers - Fleahoppers counts averaged about 9 - 10 fleahoppers per 100 terminals.

Boll Weevils - Several fields scattered all over the county have weevil damage and producers with 1/3 grown squares are encouraged to check damaged squares for the presence of the white grub. The heaviest boll weevil damage found was 17 per cent South of Loraine. Spot spraying of area where overwinter weevils are increasing could help many producers. Six fields of the sixteen being checked showed some weevil damage.

Boll Worms - Boll worms are increasing in fields with moisture. The average was about 4 per cent damage in most fields. Fields receiving rain and irrigation are having a build up of young worms and eggs. Increasing activities of boll worms have been heavy enough for some producers to spray.

Beneficial Insects - Medium. This report is released to help keep you informed on the cotton insect situation. Any comments on reports of insects will be appreciated.

For control recommendations, please refer to L-508 (Texas Guide for Controlling Insects in the High Plains, Rolling Plains and Trans Pecos areas of Texas)

How young parents can get a head start on the rising cost of college

\$1,508

Fill in the dotted areas

-to see how much "college money" \$750 will buy if you start soon enough

In 17 years, the money you invest in United States Savings Bonds more than doubles.

This means that if you could invest \$750 in Series E Bonds between the day your child is born and his first birthday—less than \$15 a week—you'd have \$1,508 toward his first year of college when he's 18. Do it for four years, and you'd have a substantial start on financing his whole college career.

With the new 4.15% interest rate, E Bonds mature in only 7 years, paying back \$4 for every \$3 you've invested. Then they go on growing for another 10 years under the automatic extension privilege.

So if you start early—and save regularly—Bonds can be the answer to the high cost of college. And while your Bond dollars are working for your child's future, they're helping Uncle Sam, too. Right now, for instance, they'll be backing our men in Vietnam.

What Football Has Done For Me

By Coach Don Bryan

Football has always been a way of life for me. When I started writing this article, however, I suddenly became aware of just how much football has affected my life. I thought for a short while and found that football is my strongest inspiration and motivation in whatever I do. When I am studying and want to quit, I think of how I will be letting the team down if I fall in the classroom. If I am working and I become tired and begin to slacken on my work, I think of myself as being on the field and I ask myself would I let down in a tough situation. In this phase I feel football has given me the will and courage to carry on when things aren't looking bright.

Football has shown me that if I am to succeed, I must be a good competitor. Football has taught me not just to compete,

but to be a good competitor, and to excel in whatever I attempt. In this way I feel football is making me better fit to face the hardships I will meet when I am no longer dependent upon my parents and most important when I am the head of my own family.

Football is also giving me many fine attributes, which will add to my personality upon reaching manhood. It has taught me fitness in body and in soul. I have learned to face responsibility. I now realize the importance of putting forth effort into what I attempt. The finest attribute I have attained is dignity. Dignity is a trait which is held by all great men. In this way I feel football is giving me the right preparation to become a better man.

The finest thing football has given me is a chance to attend college on an athletic scholarship. This is an opportunity for which

I am deeply grateful to football. Without this tremendous opportunity I probably would not have been able to attend college. I owe it to football and to my coaches and teammates to try hard and to achieve a degree. After college I plan to be a coach. I will strive to be the best of my knowledge to instill in boys I coach what has been and is being instilled in me by my coaches. If I can accomplish this goal, I feel that all I have learned from football was not in vain or waste.

As young boys become men and girls become women there are difficulties, trials and tasks that confront each of them. In many cases athletics have given these young men and women the determination, ambition and drive to not only meet the challenge of life, but also solve the problems that confront them daily.

Athletics will teach these young people to discipline themselves, accept responsibility and develop leadership in becoming good citizens of this great nation in which we live.

Honored on 50th Anniversary

Mr. and Mrs. Frank Brame celebrated their 50th Wedding Anniversary Saturday night at the home of their son, Loyd Brame. Their three sons, Lanthus and Audrey and wives of Irving and Loyd of Loraine were all present, as were all of their grandchildren, except two. They were joined by other relatives of the couple.

Mrs. Delmar McDaniel served the three-tiered anniversary cake, and Dianne Brame, granddaughter of Irving, served punch. Cindy McDaniel and Nancy Graham registered the guests. They have one great-grandchild.

Two of the guests, Mrs. Moody Richardson and James Bennett were present when the couple were married, in their buggy, on August 13, 1916, in front of the home of the late Mr. and Mrs. J. F. Bennett, north of Loraine, where the Alvie Bennetts

now live. Rev. C. E. Jamison performed the ceremony.

Mrs. Richardson and Mr. Bennett gave an account of the wedding to the guests. Mrs. Richardson recalled the wedding well, even though she was small and stayed on the porch, because this was the first couple she had ever seen get married. Mr. Bennett and his brothers, Alvie and Virgil, now of Sweetwater, and Uncle Tom Bennett were bolder and watched from the yard.

Mrs. Brame, the former Sarah Richardson Coon, was born in Hill County in 1889, and moved to Nolan County, south of Sweetwater, when she was one year old. She moved to Loraine with her parents, the late Mr. and Mrs. George H. Richardson in 1903.

Mr. Brame was born in Paulding, Miss., and moved to Texas in Freestone County when he was three years old. His early years were spent in Hopkins County. His parents died when he was a young man, and he made his home with his sister and husband, the late Mr. and Mrs. J. H. Preston. He moved with them to Glascock County in 1906 and moved to the Loraine area in 1908. The couple have lived 49 years at their present home, two miles northeast of Loraine.

LEAVE ON TRIP

Mr. and Mrs. John White left Wednesday for Calvert, Texas where they will join a son-in-law and daughter, Mr. and Mrs. Darrell Owen and Buckey for a ten day trip to Alabama where they will visit relatives of Mrs. White. In Fort Payne they will visit Mr. and Mrs. Gerald Owen and enroute home they will visit Mrs. White's brother and family Mr. and Mrs. L. D. Oliver in Harbin, Kentucky.

AUSTIN — Heinous, inhuman, unthinkable crimes -- such as those that have left trail of blood across Texas -- must be stopped, say state officials.
 Gov. John Connally and Attorney Gen. Waggoner Carr both have strongly recommended changes in Texas' criminal laws.
 Their proposals are the result of three terrible incidents -- all committed over a period of two

ing a compulsory life sentence for anyone who commits murder, then is found not guilty because of insanity.

Carr concurred -- adding that he plans to appear personally before the Texas House committee on revisions of the code of criminal procedure in January.

Meanwhile, the attorney general has asked the governor to appoint a blue ribbon citizens committee to draft legislation for tougher laws and stronger penalties.

Up for study are: Stiffer penalties for crimes of violence.

Stiffer penalties for sex crimes. Clarification of laws dealing with carrying arms in public.

More effective methods of confining those who use insanity as a defense for crimes.

Both Connally and Carr made it clear they are firmly opposed to stringent laws regulating the sale of firearms.

DRAFT CALL INCREASES — Texas' draft call for October is the largest since May, 1953, when the Korean war ended.

State quota for October is 2,671, compared to 3,823 at close of the fighting in Korea, according to State Selective Service Director Col. Morris S. Schwartz.

September quota also is up -- from 1,585 to 1,890. National call is for 46,200.

ATTORNEY GENERAL RULES — State Supreme Court chief justice may assign retired appellate court judges to duty on courts of civil appeals in case of vacancy or disqualification, Attorney General Carr has ruled. Assignment would be terminated by return to duty of regular judge.

In other opinions, Carr concluded that:

Alien employees of Texas colleges, their husbands, wives and children, are entitled to resident tuition rates in state institutions of higher education.

Auto certificates of title laws do not permit creation of a joint estate with rights of survivorship out of community property.

Victoria County school superintendent has general supervision over independent school districts of less than 500 scholastics in County.

No credit union may serve as a depository for another credit union.

WATER SPORT RECORDS — The 1966 summer vacation season seems destined to go into the record as setting a new high for water recreational deaths and for establishing an amazing boating-skiing safety mark.

In a two-week study by the Parks and Wildlife Department, it was pointed out that during that period, 14 persons drowned in Texas, but none was a result of boating or skiing. Nine of the deaths were attributed to bath-

FOR LEADERSHIP IN WATER CONSERVATION — Humble Oil & Refining Company was honored by the Izaak Walton League of America at the conservation group's annual convention held recently in Boston. Reynolds T. Harnsberger (left), president of the League, presented the award to H. H. Meier, manager of Humble's Baytown Refinery in Texas, where an advanced system is operated to purify waste water before release to the Houston Ship Channel.

ing accidents, and four were blamed on fishing.

Death toll for the season was increased to 181 and the total for the entire summer of 1965 was 200. So, with a month of vacation time left, the department figures this year's death count will surpass last year's by a substantial margin.

A spokesman for the department said that the new law passed by the last Legislature had cut boating-skiing accidents.

Measures to enforce life-preserver requirement and other phases of the safety law helped cut the accident rate.

COTTON DEADLINE EXTENDED — Cotton farmers in Cameron, Willacy and southern portions of Hidalgo and Starr Counties have been given another 30 days -- until September 30, midnight -- to gather crops under the Pink Bollworm Control Program.

State Agriculture Commissioner John C. White extended the deadline after conferences with the U. S. and Mexican Departments of Agriculture and Pink Bollworm Advisory Committee concerning late and slow harvest.

White pointed out that only 26,858 bales had been ginned in Zone 1 central area by August 7, compared with 177,426 by that

same date last year. Delayed spring plantings due to bad weather and adverse growing prompted the extension.

ELECTION LAW CHANGES — An election law committee, headed by Sen. Tom Creighton of Mineral Wells, has named a subcommittee to meet September 20 and October 13 to study recommendations made to date. Afterwards the full committee will hold public hearings.

Texans will have an opportunity to vote on one election law change in November. Already on the November ballot is a constitutional amendment calling for annual voter registration to replace the poll tax voting requirement.

AFL/CIO is opposing this amendment, seeking instead permanent registration.

Committee's recommendations will be made after the November 8 election.

INTERSTATE SAFETY — A program to make Texas' safest highways -- the interstate system -- even safer has been launched by the Texas Highway Commission.

Commission approved a \$3,-200,000 plan which includes replacement of conventional sign supports and illumination poles with new units incorporating "breakaway" safety features.

New bases and supports already are in place along newer sections of interstate highways in Texas. Program involves putting them in place of conventional equipment on older sections.

Instead of rigid, unyielding hazards, breakaway sign supports and pole bases shear on impact, pivoting up and away from an out-of-control vehicle. The vehicle then rolls to a more controlled stop.
