

On The BEAM

By J. W. King, Sr.

Loraine can be justly proud of the Future Farmers of America organization in our school. Few FFA chapters, regardless of the size of the school, excel the local chapter in its achievements. The chapter has won honor after honor and few, if any, chapters in Texas have won more.

All of this reflects the good training local boys have received in the vocational agriculture organization. Raymond Holt, the present teacher, has led his boys to capture many of the honors. Raymond Holt likes to work with boys and in addition to his FFA work is Scoutmaster for the Boy Scouts of America and is doing an excellent job with both. Hats off to Raymond.

While we are passing out compliments we would like to name Supt. Marcum, Coach Morrison, Lynn Hamilton and others who have worked with the Little League baseball team this summer. There's a work that is really worth a lot to the boys of the age groups playing on the teams.

FUTURE FARMERS NEWS

FFA News

A very interesting contest in the FFA that is now in full swing is the State FFA Public Speaking contest. The contestant has to be enrolled in vocational agriculture and a member of the FFA. The contestant is given a time limit of not longer than ten and not under eight minutes. If the contestant fails to make the eight minute mark or exceeds the ten minute mark points will be deducted. A perfect score is given on the different parts of the speech such as material used, effectiveness, and posture, if an error is made a certain amount of points are deducted. The contestant with the least amount of points deducted or with the highest score wins. The first contest that a contestant will be in will be his district contest, competing against boys from that district. The next contest is the area contest held during the area convention, the winner here goes to state for the state contest. Whoever wins at the state contest, Texas is in the tri-regional with Arkansas and Louisiana; the winner from there competes with the winners from the other tri-regions, Hawaii and Alaska for the national FFA public speaker.

This will be the first time that our chapter will be represented in the state public speaking contest. Our speaker, Bobby Haley, will be competing against nine other public speakers from over Texas. We wish him the best of luck.

Several farmers have reported that rabbits have been eating on their cotton. The recommendation for control is 1 ounce strychnine to 1 pound of salt. Precautions should be taken in using this, and other animals and livestock should be prevented from coming in contact with it. Place the bait near where they are entering the field. A safety precaution can be used by boring holes in wood or two by fours and placing bait in them.

When you do not know what to do or which way to turn, smile. This will relax your mind and let the sunshine of happiness into your soul.
