PRESIDENT APPROVES HOME MORTGAGE BILL

Washington, June 13.—President Roosevelt Tuesday signed the bill providing for a \$2,000,000 refinancing of small home mortgages to put them on a lower interest rate.

The administration hopes to have the new law in active operation within a month.

It permits holders of mortgages on homes valued at \$20,000 or less to exchange these for government bonds bearing an interest rate of 5 per cent.

A loan of eighty per cent of the value of the homes, with \$14,000 as the maximum, is provided.

A three-year moratorium on interest payment is permitted.

Loans for back taxes are allowed. If the holders of mortgages can not exchange them for government paper, the law permits a cash loan to the home owner, up to 40 per cent of the value of the mortgage and bearing six per cent interest.

Fifteen years is allowed for all repayments.

A home owners loan corporation is created to administer the act.

The present home loan bank board will supervise the gigantic refinancing project at the start.

Early announcement is expected of the offices throughout the country where the mortgage holders may apply for relief.

In signing the home mortgage refinancing bill Pres. Roosevelt asked creditors to abstain from foreclosing proceedings until the legislation is in operation.

Class Of 1918 Enjoy Party

Mrs. L. W. Rhodes, assisted by Mrs. Howard Spikes, honored Mrs. Ray Franklin of Sinton, Texas, with a class party at her home on June 10, at 8 p. m.

Each member recalled "high spots" occurring in his or her life since the completion of Loraine high school in 1918, which proved to be very interesting.

Class lollers, purple and gold, were carried out in a salad course followed by ice cream and cake served at the social hour.

The following members of the class were present: Messrs. Geo. H. Mahon and B. L. Templeton, of Colorado; Ottis Muns, Loraine; Marion Mahon, Roscoe; Mesdames Ray N. Franklin, Sinton; Geo. H. Mahon, Colorado; Jim Rhodes, Howard Spikes, L. W. Rhodes, and Marshall Bruce, Loraine.

As substitute church reporter we send the following in honor of our reporter Mrs. R. E. Bennett. Mrs. Bennett has been church reporter for many years, and deserves more words of love and sympathy than can be given her.

"When with our loved ones we're parted never to meet here again,

Anguished of soul, broken hearted, seems that we can't bear the pain;

Till we remember that Jesus promised us life over there.

Death is the door to release us from earthly sorrow and care;

"Some day with loved one's translated,

Having new glorified forms, Out of the world that has hated, Into heaven's rapture and beauty.

Ever with angels to sing, Knowing but one pleasant duty, Praise of our Savior and King," Denton.

Champion Man Shot Thursday

Joe Jenkins, 35, a resident of the Champion community, is in the Sweetwater Sanitarium with a bullet wound through the chest and W. P. Brookes, of Sweetwater, is being held in the Nolan County jail as results of a shooting at 407 West Ave. C, Sweetwater, at 10:30 a. m. Thursday.

While the condition of Mr. Jenkins was described as serious, his attending physician thought the wounded man had a good chance to recover.

An argument over a small sum of money, reported to have been asked by Mr. Brookes on a debt, was said to have led to the difficulty.

The shooting occurred at the Sayles Garage. Jenkins was reported to have just entered his car when he was shot. The bullet was a .32 caliber, fired from a 765 Mauser automatic revolver. It entered low in the left shoulder and came out the back of the right shoulder. Jenkins was shot only once.

Brookes went to the sheriff's office from the scene of the shooting and handed the gun to a deputy.

"I've had a little trouble down here and I want to give up," he was quoted as saying.

He was placed in jail and a charge of assault with intent to furtive was filed. Bond was set at \$1,000 by Justice Brashear.

Mr. Brookes, who is about 60 years of age, is a former carpenter and contractor and more recently operated a small store on Lamar street in Sweetwater. Jenkins, who is single, formerly lived in Sweetwater. He makes his home with his mother, Mrs. Rhoda Jenkins, in the Champion community.

BANK DEPOSIT INSURANCE BILL MAY REVOLUTIONIZE BANKING IN U. S. A.

Washington.—The house Tuesday adopted the compromise Glass-Steagall bank reform-insurance deposit bill, sending it to the senate where quick acceptance of the conference agreement also was expected.

A single banking system under national regulation appeared in the making Tuesday as the Glass-Steagall bank reform bill, aided by the delay in congressional adjournment, moved toward the law books.

It was a conference agreement reached Monday after weeks of deadlock, which indicated probable eventual extinction of the 48 separate state banking systems, for in reaching a solution of deposit insurance deadlock, the agents of the house and senate provided that after 1936, no banks which are not members of the federal reserve system may benefit by the deposit insuring pool which the bill will create.

Ever since the bank crisis which ushered in the Roosevelt regime, the administration has tended towards affecting a squeeze that would bring all banks into the reserve system, if not into the national chain which is under direct supervision of the treasury.

The idea is that state banks could not withstand the competition of institutions offering full insurance on deposits when they themselves could not obtain it. General admission into the reserve system still would leave them outside the national banking organization but many officials believed the final unification would follow.

Between January of next year and the beginning of 1936, state banks will share fully in the insurance pool so long as they can show the required soundness. From January 1, 1934, until July 1 of the same year insurance would only cover deposits up to \$2,500. After that date 100 per cent insurance is to be given all sums up to \$10,000; with a scale graduated down to 50 per cent insurance for amounts exceeding \$50,000.

Other provisions of the bill: National banks will have power to establish branches in states which permit their own banks to branch.

The federal reserve board will have power to prevent use of its credit in speculation.

National banks will have to divorce security companies within one year.

Private banks will have to surrender either investment or deposit business.

Payment of interest on demand deposits will be forbidden and interest on time deposits will be

Will Loan Money To Boys

Four H. Club members and Vocational Agriculture students may borrow money from the Regional Agricultural Corporation of San Angelo to purchase lambs and calves to feed, according to a letter received by the county farm agent from J. C. Deal Manager of the San Angelo Board of City Development.

Mr. Deal's letter is as follows: I have just had a conference with the official of the Regional Agricultural Corporation here in San Angelo and I am authorized to inform you that the Corporation will loan any 4-H club boy or vocational student that you recommend, the full amount of money for the purchase of a calf or lamb to fatten for the stock show; the loan to be paid when the animals are sold. The loan will be made for the purchase price only; feed must be furnished by the boy.

It appears to me that this is an opportunity to get more of your boys interested in feeding. I will be glad to assist you in any way that I can in getting the application through.

FOUR COUNTY BEEF CATTLE SHOW TO BE ORGANIZED

Plans for a four county Commercial Beef Cattle Show will be perfected at a meeting of county agents, chamber of commerce secretaries and vocational agriculture teachers at Sweetwater Thursday June 22nd. Mitchell, Nolan, Fisher and Jones counties are the counties to be included in the district.

The show will be held late in May or early in June of next year and entries will be open to commercial fed cattle only. No nurse cows will be allowed. By having the show after all other shows are over it is thought that a better market will be obtained as there usually a scarcity of fat cattle at this period of the year.

Each of the four counties is planning to have a county show a day or two before the district. Most of the boys are planning to feed calves produced in their home county and thereby advertise the local cattle for commercial feeding.

R. E. Bennett Buried Tuesday

Funeral services for Robert Edgar Bennett, 63, were held in the Methodist tabernacle at four o'clock Tuesday afternoon with Rev. A. C. Hardin, pastor of the local Baptist Church, and Rev. N. E. McGuire of San Angelo, a former pastor, in charge. Interment was made in the Loraine cemetery with Kiker Funeral Home of Colorado in charge.

Death came to Mr. Bennett about five o'clock Monday afternoon following an illness of some two months in which he had not been well for several months and went to Temple a short time ago for an examination, where his condition was found to be serious.

Mr. Bennett was an honored citizen of the community, he and his wife having moved here in 1913. He has acquired quite a bit of property and for several years has been a director of the First State Bank. His business dealings have always been honest and straightforward, and his wealth is not counted alone in property for he had many warm friends.

Robert Edgar Bennett was born August 14, 1870, in Robertson County, Texas, the son of Mr. and Mrs. Robert Bennett. He was married to Miss Lillie E. Jackson in 1906 at Midland, Texas. Dr. Burkett performed the marriage ceremony, he being pastor at Midland at that time.

In 1914 Mr. Bennett joined the Baptist Church in Loraine and has been an active member since that time. In 1920 he joined the Masonic Lodge in Loraine, where his membership remained until his death.

No children ever came into the home so Hal Bennett, a nephew, was taken into the home at the age of 13 years and remained until he was 33. He found Mr. and Mrs. Bennett to be as compassionate as a father and mother and his devotion to the home was equal to that of any son.

Mr. Bennett was a devoted member of the church, a wonderful husband and a father to his nephew, Hal. His business affairs were characterized by honesty and straightforwardness. He loved work for work's sake, or for the pleasure he got out of it.

Besides his widow he is survived by his nephew Hal Bennett, and one brother Charles E. Bennett of Granbury, Texas.

LORAIN STREETS

Under the new national industrial recovery act it may be possible for Loraine to finance a paving program through the Texas rehabilitation and relief commission. Under the terms of the act it may be possible that paving projects will be included and if so we see no reason why Loraine should not get some of

the money and pave some streets that are badly in need of paving.

We understand from accounts of the new act that 30 per cent of the cost of any project accepted for financing will be taken care of by the reconstruction finance corporation and will not have to be repaid. The remaining 70 per cent however will have to be repaid but will be extended over a period of years at a very low rate of interest.

We believe it would be a wise thing for the City Council to investigate the matter and see what can be done about it. Such an enterprise at this time would mean a great deal for our town as a great portion of the amount would be spent for labor. In fact Loraine would almost get back enough in trade while construction was under way to repay the loan. It would be a good business

proposition and it would give jobs to people who are actually in need of work and at present can find nothing to do.
Let's pave the streets, if possible.Current Comment
From Washington

The hottest potato at the date of the present writing is veterans' compensation, and no one cares to hold it very long. Even commenting upon it is by no means easy. A soldier from Pennsylvania makes a good showing when he says:

"If the Government will give a job that will enable me to earn a living I will with joy renounce my claim to a cent of compensation."

The case for the opposition is summed up in the following, attributed to a statesman who has the reputation of knowing what he is talking about:

"Either we will have to impose a gross income tax or a general sales tax. The people who are fighting for the veterans are not for the sales tax, and the only other way I know is to levy a gross income tax. We have all the luxury taxes now the country will stand for and we can't get any more money by increasing net income tax rates."

Congress inclines to liberality, but has been informed by the President that it must back up its generosity with new taxes to raise funds. With the veterans as one millstone and the taxpayers as the other Congress is getting a pretty thorough grinding.

Indiana voted for the repeal of the Eighteenth Amendment. The wets are entitled to claim they have done well to line up ten states in the short time at their command. On the other hand, almost everyone will recall the old song about forty-nine blue bottles hanging on the wall, one bottle being removed as each stanza was sung. The chorus was strong at the beginning, but there was some gasping for breath before the song was ended. Repeal has made a start that attracts notice, yet the race goes not to the swift, but to those who endure to the end.

Letter from a Father to his Daughter:

My dear Daughter:
You ask me if your husband should keep his present position at an "adjusted" salary; but you forgot to tell me what he would do if he didn't. You and he couldn't very well come here just now. Your brother Sheridan's salary has just been "reconsidered." So he moved into his old room at home and brought his wife.

Your sister Eloise telegraphed the next day that Wilfred had been offered a contract that was an insult. So your mother is airing out her room. Wilfred never could endure insults. Your sister Frances, who you will recall, has been a private secretary, wrote last week that if anybody thinks she is going to drop to the level of a common typist, they are mistaken. We expect her any day.

What with these and the younger children, I imagine that as long as Rupert's salary is merely being adjusted, he had better stay. An adjustment is nothing like a reduction.

My own business is coming a long fine. It was sold on the court House steps last Friday, but there were no bidders. So the sheriff let me keep it. That makes the best month I've had since the upturn.

Your Dad.

they counted to the "blowing off" point. His many friends of Stanton are congratulating him on the good news.

ON TEXAS FARMS
By W. H. Darrow, Extension
Service Editor

It is said that surplus milk has been poured on the ground on many a Palo Pinto county farm this spring, and that perfectly good butter made well-nigh worthless by low prices has been made into soap on some farms. These practices have sopped on 800 farms where the home demonstration agent reports the housewives successfully making cheese out of surplus milk.

Modern sanitary pit toilets costing from \$1.15 to \$3 plus materials out of old houses have been built by farmers in Limestone county demonstrations supervised by the county agent in cooperation with the State Department of Health.

Good farming often leads to good husbandry. Randall Gartmann, a Coke county 4-H club boy, last year raised 7050 pounds of maize per acre on five acres. He fed some of this in combination with other feeds to a beef calf which gained 660 pounds in 256 days at a cost of 2.48 cents per pound of gain.

Cutting beds with tile sub-irrigation systems installed have been made by 15 women and eight 4-H club girls in Eastland county to provide places where ornamental cuttings may be rooted in quantity for distributing in the county-wide movement to beautify farm yards. The tile were made at a cost of less than one cent per foot by R. F. C. labor.

McLennan county farmers pooled 50,000 pounds of wool and sold late in May to the highest bidder for more than 20 cents per pound average, each clip sold on its own merit. Cost of selling through the association was 10 cents per hundred pounds of wool.

Demonstrations spread because they speak for themselves. Last November H. F. Wagoner of Gonzales county sowed alfalfa. He let livestock graze it during the winter and this spring cut 1 1/2 tons of fine pea-green hay to the acre. When a little field meeting was held the county agent found plenty of volunteer alfalfa demonstrators.

A BOY CAN'T LEARN THE VALUE OF MONEY
TOO SOON

Youth is naturally idealistic. Many a man can remember making youthful remarks about a life work that he would enjoy regardless of income. And boys today still think the same way. It is not until they grow older that they realize the full value of money—and its inescapable necessity. Meantime, start them on a good habit—a savings account and regular deposits!

VETS' BILL IS FAVORED BY SENATE

Washington.—The senate Wednesday adopted an administration compromise on veterans' compensation but democratic leaders were unable to prevent the veterans bloc from voting for a show down vote on the more liberal Steiwer-Cutting amendment.

The administration compromise assured pensions of at least \$15 a month to 50 per cent disabled and needy veterans of the Spanish-American war, the Boxer rebellion and the Philippine insurrection who are over 55 years of age.

Senator Steiwer, Rep., Ore., immediately offered the more liberal substitute sponsored by himself and Senator Cutting, Rep., N. M.

The Cutting-Steiwer amendment would limit to 25 per cent reductions in compensation for service connected disability and would create special boards of review to pass on compensation cases.

PROVISIONS OF NEW STATE DELINQUENT TAX LAW EXPLAINED

Following is an explanation of the new delinquent tax bill recently passed by the Legislature. The bill, which releases penalties and interest, on delinquent taxes is a fusion of the O'Neal bill in the House.

The bill provides that all taxes delinquent to the state; any county and other political subdivisions of the state on February 1, 1933, may be paid at any time prior to July 1, 1934, with interest and penalties which already accrued deducted. If these taxes are paid prior to October 1, 1933, there will be added a penalty of one per cent; if they are paid between January 1, 1934, and March 31, 1934, there will be added a penalty of four per cent; if they are paid between April 1, 1934, and June 30, 1934, there will be added a penalty of six per cent.

The above provisions shall not apply to cities, independent school districts or special school districts unless and until the governing boards thereof pass an ordinance or order adopting the plan.

Delinquent taxes due all self-governing political subdivisions (not including state and county taxes) may be paid in the following manner if this plan is adopted by the governing boards thereof.

The taxpayer who is unable to pay all of his delinquent taxes at one time may, prior to September 30, 1933, make affidavit of such inability to pay and tender the affidavit to the tax collector together with a sum equal to not less than 20 per cent of the taxes due. The collector shall accept this payment and the taxpayer will then be allowed to make four subsequent payments, each to be not less than 20 per cent of the total due. These four payments shall be made on or before June 30, 1935, and December 31, 1935. The first of these payments that made on or before September 30, 1933, shall have added to it a penalty of one per cent. Subsequent payments shall have added to them interest at the rate of six per cent per annum from September 30, 1933.

The failure of the taxpayer to comply with the provisions of the law shall cause the addition to the taxes of all penalties and interest released by the law.

FAILURES 30 PER CENT LESS THAN YEAR AGO

Austin, Texas, June 12.—Only 56 commercial firms went into bankruptcy during the five weeks of May, or 30 per cent less than the number during the corresponding five weeks a year ago, according to weekly reports to the University of Texas Bureau of Business Research. Total liabilities amounting to \$1,044,000 were reported for May, as compared with \$1,516,000 during May, 1932, a decline of 31 per cent. The total book value of the assets of the failing concerns was \$358,000, or only about 34 cents on the dollar; however, during April, only 28 cents on the dollar was available for creditors as the basis of book value of assets. Of the total number of failing concerns, 15 were dry goods and apparel stores, 8 were manufactures, 5 each were drug stores and combination groceries and meat markets, and 4 each were general stores and plumbing or electrical shops.

STRUCK ON THE DOCTOR

You have heard of industrial workers striking for more pay—the "farm block" in politics—farmers strike in Iowa, are I. W. W.'s in the wheat fields of Kansas—the bankers strike in all depressions and the student be durned if you ever heard of a baby strike before—especially in the month of May.

A letter from Dr. J. D. Leonard the other day said in parts: "I have been living in Bronte, Coke County for 30 years on the first day of May 1933 and during this time I have brought 1496 babies into the world. But this May is the first month that I have had no babies."

The drouth and depression must have hit us at the same time. Anyhow my people must have decided to have nothing but the yard fence running around the house."

Doggone Doc. I knew they had boycotted all the newspapers and quit paying taxes—gone off the Gold Standard and was a votin' wet, but I never dreamed of 'em boycottin' the Doctors out of a job. Guess the boys over there is gettin' kinder 'regusted."

But stay in there and pitch Doc. Roosevelt has got us around that durn corner now and may-

beso business will pick up,—Selah. —Robert Lee Observer.
