TULIA WINS IN PANHANDLE MEET

NORMAL TAKES SECOND AND HEREFORD COMES THIRD

Edmundson, of Tulia, Individual Star; Brooks of Normal for Second Place.

In the first annual track and field meet of the Panhandle Athletic Association held in Canyon last Friday and Saturday, Tulia high school was the winner of the meet, winning 55 points, the Normal second with 25 points, and Hereford college third with 10 points. Silverton high school entered only one man in one race and he was unable to win a point.

The meet started Friday afternoon at four o'clock and lasted until the crowd was driven in by a rain. Saturday morning the meet was renewed and was finished by noon.

The following is a summary of the events:

100 yard dash—Dreman, Tulia first; Moore, Hereford, second; Burrows, Normal, third. Time, 10 2-5.

12 lb shot put—Brooks, Normal, first; Edmundson, Tulia, second; Edwards, Tulia, third. Distance, 33 feet 11 1-2 in.

120 yd. hurdles—Scott, Tulia, first; McLaughlin, Normal, second; Burgess, Tulia, third. Time, 20 1-2.

12 lb. hammer throw—Edmundson, Tulia, first; Brooks, Normal, second; Edwards, Tulia, third. Distance, 92 feet 8 in.

Broad jump—Dreman, Tulia, first; Edmundson, Tulia, second; Scott, Tulia, third. Distance, 20 feet 10 in.

Discus throw—Brooks, Normal, first; Scott, Tulia, second; Edmundson, Tulia, third. Distance 80 feet 10 in.

440 yard run—Moore, Hereford, first; Brooks, Normal, second; Carter, Hereford, third.

High jump—Edmundson, Tulia, first; Scott, Tulia, second; McLaughlin, Normal, third. Distance, 5 feet 4 in.

880 yard run—Burgess, Tulia, first; Brooks, Normal, second; Carter, Hereford, third. Time, 2:30.

Pole vault—Edmundson, Tulia, first; Scott, Tulia, second; Lair, Normal, third. Distance, 8 feet 6 inches.

Tulia 55, Normal 25, Hereford college 10 points.

INDIVIDUAL HONORS.

Edmundson, of Tulia, was the winner of the individual honors, winning in all 22 points. For his achievement he will be awarded a gold medal by the association.

Brooks of the Normal was the second highest, winning 19 points, and a silver medal.

Scott, of Tulia, came third, winning 12 points and a bronze medal.

MEETING NEXT YEAR.

At the meeting of the representatives Friday night at the Normal building, it was decided to make Canyon the permanent meeting place for the meet on account of the excellent advantages of the Normal grounds. Tulia's representatives were instructed to get the meet if possible, and J. G. Miller received several telegrams from Tulia business men asking that the meet be given them for next year. In speaking of this movement, Mr. Miller said: "We thank Tulia for the courtesy shown in asking for the meet, but when the association was organized on March 4th, it was the understanding of all present that the Normal ground would be the permanent meeting place of the association."

The same officers were re-elected who superintended the meet, namely:—Sam Houston, Tulia, president; Ollie Thomas, Hereford, vice-president; J. G. Miller, Canyon, Sec'y-Treas.

The receipts of the meet were $75.60. Money not used to defray the actual expenses of the meet will be given to the out-of-town teams for their expenses on the trip.

NORMAL DEFEATS SILVERTON.

Takes Game from Visiting Team by Score of 13 to 1, Saturday During Meet.

One of the most interesting features of the track meet was the baseball game Saturday between the Normal and a team representing Silverton. Although the contest was one-sided, several individual brilliant plays were pulled off and in the final wind-up the score card showed 13 to 1 in Canyon's favor.

The Silverton lads would have received the calcimine whitewash had it not been for a little wildness on the part of the slab artist for the teachers in the first of the eighth session. L. Fogeson drew one of the few singles and took the second station on Samon's liner. In endeavoring to catch Fogeson asleep off the second perch, Black threw wild and the pill was again in the diamond just in time to nail Samon at the third bag while Fogeson crossed the plate.

L. Fogeson pitched a pretty game for the visitors, but Black was able to set more on the bench in one-two-three order than his opponent who yielded a good bunch of costly hits to the teachers. Ballard scored three runs during the game, the first on a beautiful three-bagger down third-base line in the first inning. Conner also did effective work with the stick. Every man on the local team hit heavily and took vengence out on this team for the severe drubbings given them in other games this season.

Below is a summary of the runs by innings:

C.	1	2	1	0	1	2	3	3	x	13
S.	0	0	0	0	0	0	0	1	0	1

In Federal Court.

W. O. Bennett was in Amarillo last week as a juror in the session of the Federal court. Mr. Bennett went armed with a seemingly undisputable excuse, as he was the only registered man left at the City Pharmacy, but the judge kindly instructed him that prescriptions could be taken to the other drug store during his absence, as Mr. Bennett looked to him like a good juror. Mr. Bennett says it was a hard week's work but he was glad he was called upon to serve once in his life.

Family Poisoned.

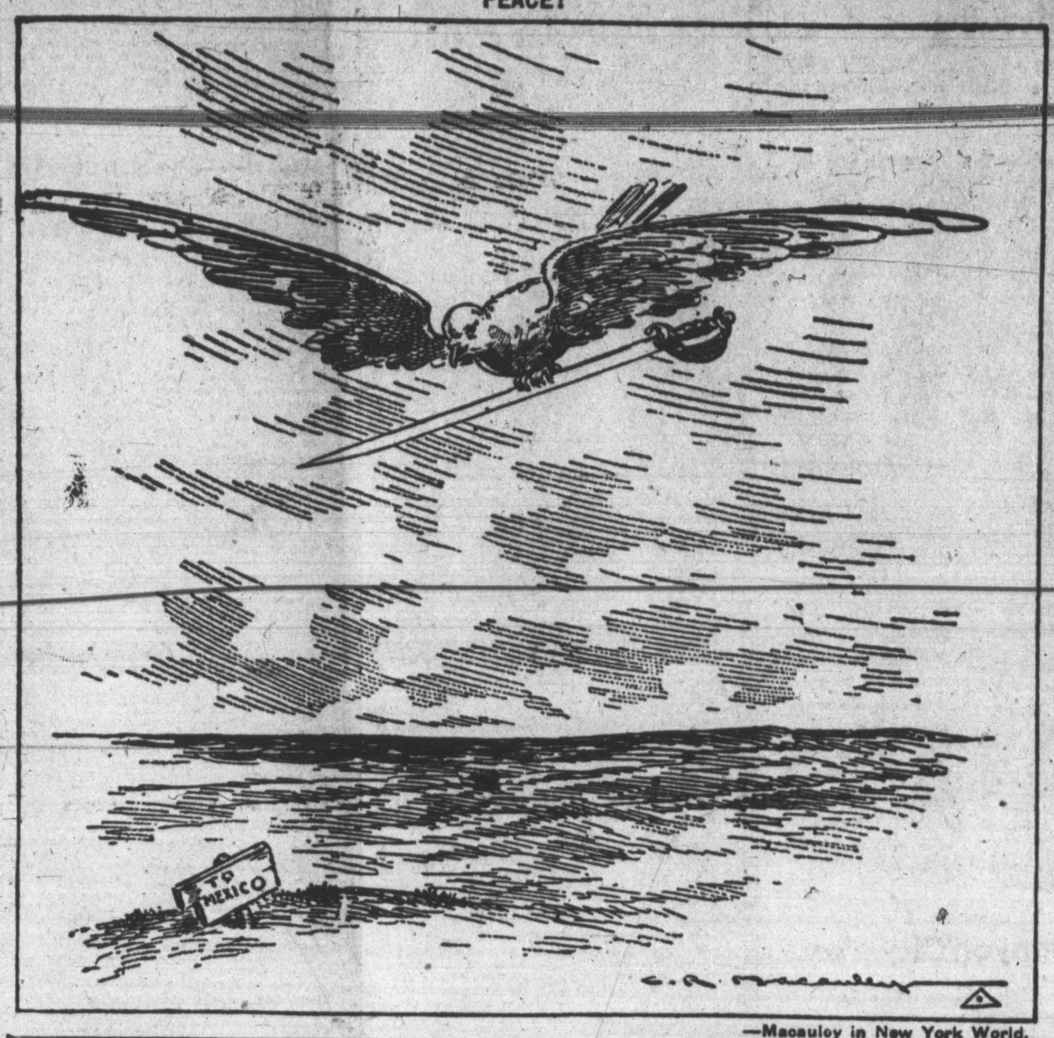

The Jas. Johnson family east of the city were poisoned last week on wild greens that they had gathered. Mr. Johnson has been in serious condition since that time, but the remainder of the family are greatly improved.

Notice of Dissolution.

The firm of Garrison, Davis & Co. has this day mutually dissolved partnership, J. H. Garrison paying all liabilities of said firm. April 14th, 1911, Canyon, Texas.

NEW CHURCH TO COME TO CANYON

LOCAL EPISCOPAL CONGREGATION WILL BE GIVEN BUILDING

Congregation Will Furnish Lot, and Building to be Provided by Waco Man.

The Episcopal congregation of this city are soon to have a new church, the gift of a Waco man who is interested in establishing a church whose congregation is too small to build for themselves. In order to get the building, the congregation must buy a lot. The local people have looked at a great many and hope to decide upon one in a short time.

The building to be provided is a portable structure, and as the congregation grows large enough to build for themselves, it will be moved to some other town. The Waco gentleman has several structures which he used this way.

Bishop Temple and Rev. Weary were in the city Sunday and held services. Two were confirmed at the services.

Schubert Symphony Club.

I take great pleasure in endorsing the high standard of E. H. Purcell's Schubert Symphony Club which appears here May 11. Their program is a varied one and is intended to please and entertain a general audience. This company has delighted Amarillo audiences on several different occasions durthe past few years.

EUGENE W. PETERSON.

Meeting Postponed.

The social meeting of the Methodist Mission society which was to have been held at the Mrs. J. W. Armstrong home last Tuesday was postponed on account of illness in the family until May 5, when the meeting will be held at the Mrs. S. S. Coffee home from 4 to 6. All are cordially invited.

NORMAL GIRLS DEFEAT TULIA.

Takes Both Games from Tulia High School.—Many Fouls Called. Scores: 17 to 9, 14 to 6.

In a couple of very pretty games on the Normal campus Friday and Saturday, the girls' Basketball team of the Normal defeated the Tulia High School 17 to 9 and 14 to 6. The game Friday was rather late as the Tulia team came over in cars and like autos do, broke down, delaying the game for an hour and a half.

The referee was very strictand called many fouls, the most of which were on Canyon since they had not been playing under such stringent rules, but the Tulia basket tossers could not put the ball in the basket on a free toss. In the second game only 6 were thrown out of 21 chances, and no goals were made by the visitors. Reed at center for Tulia put up the best game of all the team for the visitors.

The Normal had only been practicing for a week or so and played a fast, clean game although hampered by so many strict unnecessary fouls.

Stewart, forward, and Thomson, at center, were by far the stars for the teachers, through whose efforts the necessary "pep" was kept up to win the game. Kerr and Starr, the guards, did excellent work, many times sending the ball out of dangerous territory back to where forwards could score. Kirkpatrick, forward, threw several pretty goals and especially assisted Stewart in scoring. Winkelman played a good game at guard on Saturday, Kerr playing with Thompson at center.

C, R. MacAfee Home.

C. R. McAfee returned Monday from Corsicana where he was called last week by the death of his sister. The girl was twenty years of age and would have graduated from high school in a few weeks. She was ill only two days. At the funeral the entire school was dismissed to pay respect to one of their number who was so beloved by the entire community.

We need more farmers.

SENIOR CARNIVAL IS GREAT SUCCESS

ATTRACTIONS PROVE TO BE UNQIUE AND VERY ORIGINAL.

At the Normal Building Friday Night, Senior Class Entertains Large Crowd.

The senior class carnival at the Normal building Friday night was the most unique and original stunt ever pulled off by any organization in Canyon. From beginning to end the event was a great success and also proved to be a big money-making scheme for the class. In all, there were eight attractions, besides a number of refreshment stands, and each one did big business until quite late in the evening. Before each show door there was a trained "barker" who attracted the crowd to "the best show in the world."

On the whole, the carnival was as nearly like a real carnival as could be gotton up by a home aggregation. The city band was called upon, and played genuine carnival music before the entrance of each of the attractions. The seniors received many compliments from the visitors on the originality of their plans, and upon the great success with which each stunt was carried out.

Miss Evans Taken to Dallas.

Miss Evans, of the Normal faculty, who has been seriously ill for the past two weeks, was taken to Dallas on Saturday where she was placed under the care of specialists. Dr. Stewart accompanied her to Dallas and reported that she stood the trip very well. Miss Evans' parents together with a brother and sister were at her bedside last week.

License Issued.

A pair of wedding license was issued last week by County Clerk M. P. Garner to Fred D. Smith and Nellie A. Lynas, both of Amarillo. The young people were married in Amarillo.

BIG RAINS FALL IN PANHANDLE

CANYON RECEIVES ALMOST TWO INCHES PRECIPITATION

Crops are Growing Fine and Everything Points to Bountiful Harvest this Year.

Sunday night witnessed the biggest rain in the Panhandle since the record-breaking downfall of February. The government bureau of Amarilly reports that the precipitation for April this year surpassed all other records for five years. In Canyon nearly two inches of rain fell during Sunday night, Monday and Tuesday.

The rain started Sunday evening at eight o'clock, and continued slow and steady throughout most of the night. Monday was cloudy, a little more rain falling in the afternoon. The cloudy weather continued through Tuesday when a slow drizzle fell a greater part of the afternoon.

The ground is thoroughly soaked, and water is standing on all of the streets. The farmers are happy, as the wheat and oats were beginning to need rain. All the crops are growing fine now. Nearly every farmer reports that the winter wheat will make a good crop, and that spring wheat and oats are in exceptionally good condition. The farmers are busy now, getting ready for a big row crop.

The prospects for fruit are very fine. In spite of the past few days of cool weather the fruit does not seem to be injured in the least. Truck stuff is growing fine, and promises to be exceptionally good this year.

Junior Program.

The following is the program of the Junior class of the Normal to be given at the home of Miss Ida Rowan next Monday night, May 1st:

Class song—Misses Garrison, Jones, Gorman.

Roll call—Answers with representations of any city or town in Texas.

Junior Acrostic—Miss Gatewood.

Class Quartet—Messrs. Darnell, George, Stafford, Tarlton.

Class Jokes—Mr. McKinley.

Juniors as they were in 1910-11—Mr. Swift, Misses Parcell and Cook.

Juniors in 1920—Misses Burrows and Davis, Mr. Hill.

First State Bank Elects.

The stockholders of the First State bank met in the office of the bank last Tuesday and elected directors for the coming year as follows: Jno. T. Holland, G. S. Ballard, J. P. Winder, R. G. Oldham and T. H. Rowan. The same officers will serve for the coming year as last year, namely: Jno. T. Holland, president; G. S. Ballard, vice-president; J. P. Winder, cashier. The bank was organized just a year ago, and has prospered very greatly.

Will Count Mail.

Beginning with next Monday, May 1st, the postoffice department has sent out orders that every piece of mail handled in postoffices must be counted for thirty days. This will mean a great amount of work, and Postmaster Hunt and his assistants are not anxious for the day to come when the order goes into effect.

Here's Some Clothes Logic Worth Reading.

Every man excels at some one thing. All around men in present day commerce have been displaced by specialists—"one thing" experts.

So it is with these Goldman-Beckman Clothes. Every detail of design is created by an expert with a life time of experience. Every fabric is chosen, inspected, shrunk, cut and tailored by a smoothly running organization of masters at their craft.

Clothes like these are the result of science---coupled with broad experience. In no other way can their style, supremacy and extreme value be obtained.

The simple assertion of clothes quality does not necessarily make the claim a fact---nor would it be wise for you to accept the unsustained assertion. We do not ask you to accept other than proved claims. We are ready with the garments themselves to submit the character of evidence that will convince any unprejudiced man.

So it is as much to your advantage and interest as ours that you view this special exhibit of Spring styles as early as it is possible—while it is most complete.

Why Farmers Should Keep a Bank Account

Their bank bank deposit book affords them a complete record of their cash receipts, while the stubs of their check books are a perfect record of expenses and payments. Paying a laborer, a store account or any other bill with a bank check is much safer than with money; because you avoid the risk of handling the actual cash, and the endorsed check returned by the bank is the best kind of a receipt.

Farmers, try the experiment for one of keeping a bank account and see if it does not pay you. A large number of the best farmers have accounts with us now—we want

The Schuberts are coming.

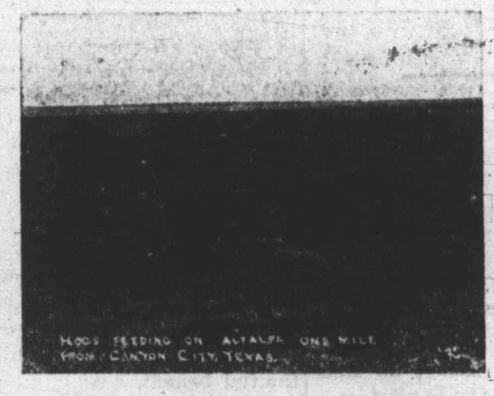

THE LAND OF VARIETY

IN NO OTHER agricultural district between the Great Lakes and the Gulf, from the Atlantic to the Pacific, can a farmer have a greater variety of crops from which to choose, than here in the Panhandle! Winter wheat, spring wheat, oats, millet, cane, Kaffir corn, Milo maize, and even King Cotton, are proven successful producers in this region where altitude and latitude, soil and rainfall are combined to make a gigantic farm, the possibilities of which have only been partially revealed. "Diversification," the slogan of the modern farmer, can nowhere be practiced to a greater extent, nowhere will it yield greater benefits than in Randall and adjoining counties.

Apples, peaches, plums, pears, every variety of berry, any kind of vegetable, melons of the most delicious flavor, are easily produced here, and yield in wonderful quantities.

For stock raising there is no better country or climate. Horses, cattle, hogs and sheep are brought to maturity at much less expense, than they can be raised in the East or North, where the severity of the winters entails a heavy feed bill and much confinement---while here our mild winters require only occasional shelter. The young can come at any month in the year without danger of loss. Poultry and dairying are sure to become great revenue producers, for we have here all the natural advantages which the hen and the cow require in order to give best results.

Pure, sparkling, water, obtained in inexhaustible quantity at a reasonable depth is another of our big assets. Our rich soil, capable of enormous production, of a depth which insures its wearing quality, needs only the plow and planter to convert it into a vast factory of food products which can be kept in operation the year round.

Our people here are from the best classes of citizenship---they are coming from every section of the Union, and "Old-timer" and "Newcomer" alike are imbued with that spirit of progress which is fast pushing the Panhandle into the front rank of agriculture.

With the establishment of the West Texas State Normal, controlled by a faculty graduated from the best colleges and universities of the United States, our education facilities are ample.

As a place to make a home, as a place for investments which will yield big dividends and steadily increase in value, there is no section of the country which today can offer the opportunities awaiting you here in the Panhandle. Come and investigate.

We have a choice collection of farms, improved and unimproved, all nicely situated in regard to markets and railroads, which we can offer at prices sura to please you.

PANHANDLE WHEAT.

The greatest recommendation possible for any wheat was given by T. H. Baker, of Amarillo, who visited the city to inspect the Eagle mill. Mr. Baker has been in the bakery business for twenty years and has used flour from wheat raised in every part of the United States. Here is what he says of the Panhandle wheat:

"Panhandle wheat makes the best flour of any wheat I have used. It is hard, grinds well, and from every thousand pounds of flour, I get 100 to 125 pounds more of dough from Panhandle flour than from any other kind I have ever used. I use thousands of pounds of flour every week, and thus you see I soon pay all my employes' wages by using flour that will make more bread."

A stronger recommendation could not be procured for any wheat than the above statement of a practical baker who, as he says is "not in the business for my health, but for the money I can make." Mr. Baker says that he has used every leading brand of flour on the market, and has made a thorough test of each kind, and has never found one that will in any way compare with flour made from Panhandle wheat.

And, by the way, here is a chance to aid home industry. In our city we have a mill which, according to the statement of Mr. Baker, makes the best flour he has ever been able to procure. This mill uses exclusively Panhandle wheat. Will it not pay the citizens of Randall county to buy the produce from this mill which makes the best flour on the market out of home grown wheat, the best wheat raised in the United States?

HARK BACK THE AGES.

The Canyon News recently announced the passing of the fifteenth milestone on the road of its existence and the item serves to recall to our mind the fact we have been a printer, off and on, for fifteen years—and longer. The first issue of that paper was printed and published at Silverton with the title of "The Stayer" and yours truly was on the staff. We afterwards followed its checkered career until about 1902, when it went into the hands of Geo. A. Brandon and was rechristened the News. Verily time do fugit.—G. A. Richardson, in McLean News.

WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Canyon City women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills are for these disorders. Here's proof of their merit in a Canyon City woman's words:

Mrs. E. F. Watts, Houston St., Canyon City Texas, says: "I am ever so much better since I used Doan's Kidney Pills, which I obtained at Thompson's Drug Store. I found them effective in relieving the constant, dull backache and other symptoms of kidney complaint. They also strengthened my back and restored my energy and ambition. Another member of my family joins me in saying that Doan's Kidney Pills are alright."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, Sole Agents for the United States.

Remember the name—Doan's—and take no other.

We wonder what brand Editor White of the Crosbyton Review drinks. It evidently answers his purpose fully. About three months ago he had an editorial of two and one-half columns setting forth the reasons for mak- Crosbyton the capital of the new state he was going to form out of the Panhandle. Last week the front page of his paper was devoted to an architectual plan showing Crosbyton in 1920. The streets in the business section were lined with buildings five and six stories high. The population of the whole of Crosby county is only 1,765. It must be a good brand that will make an editor have such visions.

We used to think that the diplomatic service was an important job, but since Taft is considering Nick Longworth for such a position, it becomes apparent to us that the president does not seem to have any great regard for the office. The most important thing Nick ever did was to become Teddy's son-in-law, and in this particular instance it would have been a shame to spoil two homes.

It looks as though congress was going to take up a revision of the tariff in spite of the protest of the leaders of the democratic party. The tariff is a dangerous thing to trifle with, and it should not be taken up at this session. The presidential election is near in the future, and the party has too good a chance to win to jump into such a deadly peril.

Chickens cause infantile paralysis, cows are blamed for tuberculosis, cats carry everything from diphtheria to poliomyelitis, flies convey typhoid fever, oysters carry leprosy, and yet, if you believe the average optimist, this is a beautiful world.—Ex.

Another month and the Normal will close its regular session.

Everything points to a good crop in Randall county this year.

The senior carnival Saturday night at the Normal was a great success.

In nearly every Sunday edition that came to our exchange table, there was a whole page devoted to arguments set forth by the antis.

When a man is all swelled up it is hard to resist the temptation to give him a poke.

Where was Canyon High School's track team at the Panhandle Athletic Association meet last week?

That "awful" game of forty-two is receiving its share of attention from the press of the Panhandle.

The Normal baseball team is winning laurels, but the little high school bunch can beat them any day.

An ordinrnce was passed last fall requiring all business houses to connect with the sewer. Very few have done so.

The city council ought to dig up that ordinance requiring sidewalks to be built to the Normal and see that it is put into effect.

The government lately bought 500 coffins and had them shipped to Texas. Wonder what the soldier boys think about this move?

If all the Mexican around Canyon now were insurrectos and they should attempt to bombard the town, wonder what the result would be?

Randall county will cast a heavy vote for prohibition on July 22. The News would like to see every vote in the county cast on this side of the question.

"Swat the fly, also swat the cat, for her whiskers bristle with germs. It's a wonder any of us are alive five minutes. The germs are getting thicker'n ever."

Roy Cullum said it was a good rain Sunday night. He ought to know as he was out in most of it. Louis Malone and Grady Oldham were with him to get the full benefit.

Meeting of Order Eastern Star.

Tuesday night was the occasion of an official visit of the Grand Matron of the order of the Eastern Star of Texas, Mrs. Findlater of San Angelo. For this occasion four candidates were held that the work might be exemplified in her presence.

The candidates were introduced and initiated, the work being very nearly perfect. All the officers are very proficient in the work. The address by the Grand Matron which followed was well received and highly appreciated. She complimented the high standard of the initative work in Canyon chapter and said she had seen it excelled in only one other chapter in the state, Dallas chapter No. 1. Considering that there are about four hundred chapters in the state, this chapter fully appreciates the compliment.

After the ceremonies, punch, ice cream and cake were served, and a pleasant social time had.

Among the out of town visitors, besides the Grand Matron, were Mrs. Edwards, Worthy Matron Terro Blanco chapter, Hereford; Mr. Christian, past Worthy Patron Bonita chapter, Amarillo; Mrs. Zimmerman and Mrs. George of Amarillo; Mrs. Hill of Victory chapter, Kansas; Miss Stan of Stephenville; Miss Allie Whittenberg of Ft. Worth, and Mrs. Hill and Henderson of Roscoe, Texas.

An Expert Baker

Says That ELK HORN FLOUR is as Good as any on the Market

Joe Huffman, proprietor of the City Bakery, adds his testimonial to the long list of praises of Canyon people in the following words:

"I am using Elk Horn flour now for all of my baking. It is absolutely the first flour that I have ever been able to procure that you could make good bread of so soon after it has been ground at the mill.

"Elk Horn flour is as good a flour as I have ever been able to procure, and I have used all of the highest patent flour on the market today. I am using this flour in all my baking now, not only because I believe in patronizing home industry, but more because I have never been able to find a better flour.

Hoffman Notes.

A surprise farewell was given Mr. and Mrs. Elmer Crowley Saturday night. All present report a good time. We are sorry to have Mr. and Mrs. Crowley leave us.

Miss Belle Schramm of Pleasantview visited the first of the week in Hoffman.

There will be no Sunday School at Hoffman next Sunday on account of the meeting at Day.

W. S. Melroy spent Sunday day in Amarillo. Mrs. Melroy and son Glen who have been spending a week in that city returned with him.

Elmer Crowley closed a successful term of school here last week.

Ralph Emery is improving and is able to be out again.

Hoffman is rejoicing over the good rain which fell Sunday night.

GASOLINE STOVES

It is time that you were now looking after a gasoline stove for your summer's cooking. A gasoline stove, will not only save you the price of itself in fuel during the summer, but you are also always assured of a quick, hot fire in a few seconds at any time of the day or night, and your house is not heated as in case of a range.

The New Process is the acknowledged leader of gasoline stoves on the market today. Here are its points of superiorty over other stoves sold:

Tank: The tank is solid brass, making it absolutely safe. In addition to this the tank must be removed in order to fill it with gasoline, and thus there is no danger from explosion.

Overflow Pan: This pan catches all overflow from letting vessels boil over. It is easily removed, and quickly cleaned. You don't have to scrub for hours to clean up an overflow.

Oven: In the oven there is an extra large adjustible burner which makes it exceptionally adapted for baking, roasting and baking biscuits. Besides there is a good warming oven on the large stoves.

Burner: This burner is absolutely safe. The oil drips in plain sight from the tank into a wire gauze and passes to the burner in form of gas.

Sub-Burner: If the wind blows the fire out, there is no danger of explosion, as the sub-burner starts at once, and consumes all the gas. In addition to this, there is a tube which catches all water that may be in the gasoline, and makes your gas absolutely pure, insuring good service.

Come and See these Stoves before Buying. The Price is Right.

Commisioners Court.

A special session of the commissioners' court was called last week for the purpose of canvassing the vote on the election of county school trustees. The results of the elections were the same as published in the News a few weeks ago.

An application of A. N. Henson, mayor of Canyon, for an office in the court house was examined and Mr. Henson was given the office now occupied by W. J. Redfearn on the first floor of the building.

Permission was given the trustees of district No. 10 to sell the old school building, the proceeds to be turned into the school funds.

Certain claims against the county were examined and approved. The court examined the delinquent and insolvent tax rolls prepared by R. H. Sanford, tax collector, for the year 1910.

NEW BUSINESS HOUSE TO BE BUILT

B. T. JOHNSON TO BUILD CEMENT BLOCK HOUSE ON WEST SIDE

Up-to-date Structure to be Erected on Lot South of Judge Lair's Fine Building.

B. T. Johnson will lay the foundation next week for a new business house on the west side of the square, just south of the First National bank and the Judge Lair building. The building is to be constructed of cement blocks and will be up-to-date in every respect. Mr. Johnson will only erect one story at present, but is making the building strong enough to add another story at a future date

The building has not been leased as yet, but will be constructed for store purposes. The front of the building will be especially attractive, having the finest show windows of any building in the city.

Wayside News.

A good rain fell Sunday night in and around Wayside, with an occasional drizzle up to Tuesday. Everybody glad for we were needing rain.

Preaching by Rev. Jno. Fisher Sunday morning at Beula. A few remained to dinner. Rev. Chas. Knight preached in the afternoon.

There was a good program which was well carried out at the close of Beula school Friday night. The weather was very threatening up to the time of gathering, notwithstanding there was a large crowd. Songs, recitations and dialogues were rendered by the pupils which showed careful training by the teachers. D. Adams, W. H. Hamblen and Jno. Beavers were sesected as judges by Mr. Richards to award prizes in drawing and writing. Lizzie Evans received the prize in drawing and Silas Evans in writing in the higher grades; Grace Sluder in drawing and Lowe McGehee in in writing in the lower grades.

Prof. A. L. Richards and wife left Saturday morning for Happy to take the train for Denton, their home.

Sunday night a week ago H. R. Stone who has been working for Willis Fisher some time, was riding a horse which pitched into the fence almost demolishing it for qnite a distance. Mr. Stone was cut quite seriously on the leg and hand. His saddle and clothes were considerably damaged. He is unable to work but can get about some on crutches. At present he is visiting with friends in the Fairview community.

Work was begun Tuesday fencing the church, school building and town site. Rain prevented much being done.

Rev. Arthur Coleman and family left for Higgins, Texas the past week.

W. R. Franklin has moved to the Coleman place.

Buryl Forbess left for Tolar, N. M. last week to be gone an indefinite length of time.

HIGH SCHOOL NOTES.

The teachers and pupils enjoyed a half-holiday Friday afternoon.

Members of the Senior Class are practicing on their parts for the commencement exercises. They will have a good program.

Robert Donald who has been absent some days on a visit to a sick relative at Ft. Worth, is back at school again.

The Senior class have received their invitations for the closing exercises and like them fine.

Umbarger, who has been bragging about having such a fast baseball team, has matched a game with the High School team to be played Saturday after next. Umbarger claims they haven't lost a game, but if they wish to keep up this record, they had better call off this one.

The Schuberts are Fine.

In reference to the Schubert company which is to come here on May 11th, Rev. L. A. Webb, pastor of the Methodist church has the following to say:

"I had the Schuberts come to my church when in Ft. Worth and I will say that everybody who attended was delighted with the entertainment. The audience was simply charmed with the concert. The music was exceedingly fine. I am greatly pleased that the Schuberts are coming to Canyon, for I know that every lover of good music, and a clean program will be delighted with this company."

Merry Matrons Have Meeting.

The Merry Matrons met in regular session with Mrs. R. S. Pipkin on last Thursday afternoon.

The score cards were beautifully hand decorated, being suggestive of Easter. An unusually interesting series of games were enjoyed by all, after which was served a most tempting course of delicacies.

The guests happily expressed their appreciation of their hostess' art of entertaining.

The Schuberts are coming.

Baptist Ladies' Aid Meeting.

The Baptist Ladies' aid met in regular session on last Tuesday, and in spite of the disagreeable weather, a goodly number were present to show their appreciation of Mrs. Cannon's hospitality. After the usual business was disposed of, Mrs. Reeves took charge of the Bible study, and an interesting time was spent reciting the lesson.

The hostess served delicious strawberry shortcake, coffee and whipped cream.

The next meeting will be with Mrs. Reed. REPORTER.

Panhandle Athletic Association.

At the meeting Friday night, it was voted to make the two Hereford teams, the Amarillo high school, Tulia, Silverton and the Normal the charter members of the Panhandle Athletic Association. All other schools wishing to enter the Association must be voted upon.

NORMAL NOTES

Prof. Minter gave another lecture on agriculture Wednesday at chapel which was greatly enjoyed by all.

A picture was taken Tuesday of the Normal faculty and students, and also of the Girls' Basket Ball team.

The Sesame Literary society pins which were ordered some time ago came this week.

Miss Boyd entertained her friend Miss Briscoe of Amarillo Saturday and Sunday.

Mr. Yates, president of the Wayland Baptist college at Plainview, gave a short talk Friday at chapel.

School was dismissed Friday afternoon and Saturday on account of the track meet.

The Basket Ball girls are feeling good over their victories of Friday and Saturday.

Rev. Harder was a welcome visitor at Chapel Friday.

The Senior class has purchased the beautiful picture "Pilgrims Going to Church" to be placed in the auditorium as a memorial of the first class to finish at the normal.

Pleasantview Items.

Wanted: A few days of sunshine. The rain that began Sunday night was fine on crops of wheat, oats and small grain. About 1 1-2 inches fell Sunday night, and it has rained every day since. The ground is too wet to work. Grass will be plentiful in a few days now as it has just started and this soaking will just bring it along in a hurry.

A large herd of cattle passed by here Tuesday going south.

Have you tested your seed? You promised yourself last year that you would.

Mrs. Wilkerson is in Oklahoma where she was called by the sickness and death of her mother.

Pete McElroy moved to the old Dr. Black farm last week.

Mr. Gerdes has converted his two row corn planter into a two row lister by removing the runners and attaching a large shovel in its place. BOOSTER.

Gymnasium Goods Here.

The greater part of the gymnasium outfit for the Normal has arrived in the city, and as soon as the remainder of the order arrives, Prof. J. G. Miller expects to start organized classes in gymnasium work.

Wait for the Schuberts.

COST OF COLLEGE REGATTAS

More Than $10,000 a Year Spent by One University for This Branch of Athletics.

The public has little idea of the amount of money required to send a college crew to the intercollegiate regatta. The University of Pennsylvania spends annually between $10,000 and $11,000 for this one branch of athletics alone. The money invested in equipment is probably three or four times that. One eight is needed every year and a new four is gotten every other year. This is because a boat will receive such rowing that in its second season it is usually strained out of shape, and to stiffen it and bring it back to its original shape would mean adding additional weight in the way of bracing. The four-oared shell is not used as much as an eight and consequently will last longer. Several new sets of oars are also needed every year to replace broken and worn out ones. A coaching launch must be kept up, and in some cases this boat has to meet so many requirements that an expensively run boat is a necessity. Then the expense of the training quarters are added on at the end of the season, and this, coupled with a couple of janitors and rubbers, brings the rowing budget up to formidable proportions without adding the salary of the coach, which is usually the largest item. All this expense the athletic treasury considers a dead loss, as the crew does not bring in one cent, nor is it able, in any way, to help defray its expenses. Some colleges have great difficulty in procuring money enough to support a crew, and in cases like this they depend largely on subscriptions to defray their rowing expenses. Other institutions are fortunate enough to have well-filled athletic treasuries and the money comes easily.—Columbian.

CENSUS MEANS WORK.

Nearly 1,000,000 enumerators are required to take the census of India. The Indian census schedule is printed in 17 different languages, and includes, in addition to the ordinary inquiries, questions concerning religion and caste. Some schedules require careful checking. Devout enumerators occasionally return the village shrines and temples as "occupied houses," the business of the occupant being described as "granting boons and blessings," or "subsistence on contributions from tenants."

The Texas Hog

The dinner bell of the nation rings out the praises of the Texas hog and he is diligently sought after by the consumers of both continents.

No domestic animal has ever made such sacrifices to meet the demands of progress as the hog. He has given half of his life and fifty-six pounds of flesh to meet the market demand for young stock. Certainly the human race has made no such sacrifice for success as this dumb brute. According to the census reports of the Federal department of agriculture the average weight of the hog has decreased from 276 pounds to 218 pounds during the past thirty years and he is now going to the market one year earlier than formerly.

1910 VALUE PER HEAD $7.70.

As a revenue producer he undoubtedly excels any other animal on the globe and enjoys the distinction of being the only animal that can swell a bank account by emptying a swill barrel. The hog is the most prolific of all domestic animals. As a rule the hog is not troubled with competitors, although King Cotton has made an effort to imitate his by-products by putting on the market a compound substitute for lard, but wherever the fat of the hog can supply the market his counterfeit quickly disappears.

The hog has thickly populated the rural districts of Texas and his rapid approach has so alarmed city councils that numerous ordinances have been passed prohibiting him from entering the city limits, but when properly dressed and cooked he quickly wins the favor of both aldermen and citizens.

The Texas swine is the most prosperous of all hogs in the United States. According to the census reports of the Federal department of agriculture on Jan. 1, 1911, the average value of hogs of all ages in Texas was $7.70, which is an increase of 373 per cent since 1870. No state in the Union can compare with us in increase in value per head of hogs. The total value of all hogs of all ages at the present time is approximately $225,000,000. We have shown an increase of 539,000 in number and $17,000,000 in value during the past decade.

Texas is one of the best hog countries on the globe and the animal fattens economically under natural conditions.

The Texas Mule

The bray of the Texas mule is heard around the world, for wherever he goes he lustily sings the praises of his native land. He is the most sturdy farmer and the most successful miner of the animal kingdom. He is the only animal that did not enter Noah's ark. By good conduct he has overcome the prejudices of an illegitimate lineage and has successfully fought his way into the highways of industry with his parents as competitors, until today he drays the nation's commerce. He is a self-made animal. Year by year he has patiently studied new occupations and adapted himself to changed conditions until he is the master of more industrial pursuits than any other animal and he is by far the Commercial King of Beasts. He has arisen from obscure origin to the wealthiest of domestic animals; he is worth $28 per head more than the horse, six times more than the Texas steer and fourteen times more than the hog.

1910 VALUE PER HEAD $108.

During the past ten years the Texas mule has attracted the attention of Uncle Sam by showing the greatest increase in value per head of mules of all states in the Union, having an increase of 118 per cent or $58.48 per head to his credit during the past decade and in doing so he has paid a dumb tribute to the soil and climate of Texas that is far more convincing in its eloquence than all the tongues of our orators or pens of our writers. The whole world marvels at a country that can rear such mules.

We have more than twice as many mules as any other state in the Union. The census reports of the Federal department of agriculture on Jan. 1, 1910, reports 702,000 head of mules and the last estimate of value per head made by the department places the average value of $108, making a total value of all mules of all ages of approximately $75,000,000, which is an increase of a quarter of a million mules in number and $45,000,000 in value, including both increase in value per head and increase in number during the past decade.

The mule raising industry is one of the most inviting pursuits and Texas is undoubtedly the greatest country on the globe for mule raising.

Texas Cattle

The Texas steer fills the larder of the civilized world; provides boots and shoes for the rich and poor of two hemispheres and our dairy products are a factor in the world's trade. No Texas product is so well and favorably known as that of our livestock industry.

1910 VALUE PER HEAD $19.80.

The Texas steer is a close student of the markets and has shown more business instinct than any other animal. From a reckless pioneer of the plains he has forged his way to the mastery of the world's markets and has transformed himself from a wild, unruly beast into a docile thoroughbred and today he is the leader in packing house society and faces the markets of the world as sound commercially as the Bank of England. He once went to market under his own steam, but he not rides in palatial cars and he is as much at home traveling in a tin can on an ocean liner as on the plains and he scales the tariff walls of foreign countries with as much ease as his acestors climbed an ordinary rail fence.

The Texas steer possesses stronger powers of concentration than any other animal. He has but one purpose in life and that is to produce food for man and he displays a tenacity and ability in pursuing his chosen vocation that would be a credit to many members of the human race.

Texas grass—the cheapest of all animal foods—has been his principal diet and from it he has taken pure blood and solid flesh and built up a world reputation as the healthiest of animal foods. With the canopy of heaven for a covering and the natural pastures as a range he can be reared more cheaply in Texas than any other country on the globe.

Texas has twice as many cattle as any other state in the Union. According to the census reports of the Federal department of agriculture, Jan. 1, 1910, there were 8,268,000 head of cattle in Texas and the latest government estimate values them at $19.80 per head. We have made an increase of over 1,000,000 head of cattle and a total increase in value of approximately $38,000,000 during the past decade.

The Texas ranches are being cut into small tracts, but the cattle remain on the farm and increase in number and improve in quality and value.

The Texas Horse

The Texas horse, as a utility animal, excels those of any other state in the Union. He has plowed our fields, fought our battles, and is the most faithful of animal kind. Among all the animals he stands first in war, first in peace and first in the hearts of the people.

1910 VALUE PER HEAD $80.

The horse has contributed more toward the progress of the country than any other animal and our philanthropists, as civilizers, must all take off their hats to this dumb brute. During the past quarter of a century he has given away more than half his occupations to the cause of science and scientific discoverers and inventors are now operating in his remaining territory, but he has more than held his own in value and he is today the unit of power by which all his competitors must measure potential energy. He must not only compete with the inventive genius of man, but the mule—his progeny—has wrested from him some of his most valuable occupations. No animal ever met with such strenuous and untiring competition and while press agents have been predicting his elimination he has become a prime factor in the high cost of living. He came out of the war worth $29.40 and has steadily increased in value until today he is worth $80.

He has carried the pack of the pioneer, pulled the stagecoach in early days, herded the cattle on the plains and while bringing forward the civilization of the country has lifted himself from a broncho to a thoroughbred. He pulls for Texas stronger than any other animal.

According to the census reports of the Federal department of agriculture, dated Jan. 1, 1910, we had 1,369,000 head of horse and the latest estimate given ca value per head was $80, making a total value of $109,520,000 for all horses of all ages. This is an increase of 100,000 in number and $5,000,000 in value during the past dec

The soil and climate of Texas is particularly adapted to horse raising and no country on the globe can equal us in economy and quality of production.

Proposed Amendment To The State Constitution Prohibiting the Manufacture, Sale, Barter and Exchange of Intoxicating Liquors Except for Medical, Scientific and Sacramental Purposes.

HOUSE JOINT RESOLUTION NO. 2.

A resolution proposing to amend the Constitution of the State of Texas, by amending Article 16, Section 20, thereof by striking out and repealing said section, and substituting in lieu thereof a new Section 20, prohibiting the manufacture for purposes of sale, barter or exchange, and the sale, barter and exchange of intoxicating liquors, on and after the second Tuesday in January, A. D. 1912, within this State, except for medical scientific and sacramental purposes, and providing that the Legislature of the State of Texas, shall, at noon on the second Tuesday in January, A. D. 1912, by authority of this section, meet in session in the city of Austin, and pass efficient laws to enforce this section; providing, further, that this section shall not prevent any session of the Legislature from passing any law to enforce the same; and, providing, further, that all laws in force when this amendment is adopted, providing penalties or forfeitures in relation to the manufacture, sale or transportation of intoxicating liquors, shall remain in full force and effect until modified or repealed, fixing the time for the election for the adoption or rejection of said proposed constitutional amendment, directing a proclamation therefor and making certain provisions for said election and the ballots thereof, and method of voting; prescribing certain duties for the Governor of this State, and making an appropriation to defray the expenses of said election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. That Article 16 of the Constitution of the State of Texas be amended by striking out and repealing Section 20 thereof, and substituting in lieu of said Section 20 the following:

Section 20. The manufacture for purposes of sale, barter or exchange and the sale barter and exchange of intoxicating liquors on and after the second Tuesday in January, A. D. 1912, is hereby prohibited within this State, except for medical, scientific and sacramental purposes. The Legislature of the State of Texas shall, at noon, on the second Tuesday in January, A. D. 1912, by authority of this section, meet in session in the city of Austin, and pass efficient laws to enforce this section; but nothing in this section shall prevent any session of the Legislature from passing any law to enforce the same; and all laws in force when this amendment is adopted providing remedies, penalties or forfeitures in relation to the manufacture sale or transportation of intoxicating liquors shall remain in full force and effect until modified or repealed.

SEC. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held throughout the State of Texas on the fourth Saturday in July, being the twenty-second day thereof, A. D. 1911. At said election the vote shall be by official ballot, which shall have printed or written at the top thereof in plain letters the words "Official Ballot."

Said ballot shall have also written or printed thereon the words "For Prohibition," and the words, "Against Prohibition."

All the voters favoring said proposed amendment shall erase the words "Against Prohibition" by making a mark through the same, and those opposing it shall erase the words "For Prohibition." If a majority of the votes cast at said election shall be "For Prohibition" said amendment shall be declared adopted. If a majority of the votes shall be "Against Prohibition" said amendment shall be lost and so declared.

All the provisions of the general election laws as amended and in force at the time said election is held shall govern in all respects as to the qualifications of the electors, the method of holding such election, and in all other respects, as far as such election laws can be made applicable.

SEC. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of this State.

SEC. 4. The sum of five thousand ($5000) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury, not otherwise appropriated to defray the expenses of such proclamation, publication and election.

NEWS FROM HAPPY

BERRY-CARTER NUPTIALS.

A marriage that will be of much interest to Happy and surrounding country is that of Miss Victoria Randolph Carter and Mr. George Berry, solemnized in Amarillo at the Presbyterial Manse last Sunday morning promptly at nine o'clock, by the Rev. Leonard Gill, D. D. Miss Carter who for the past three years has been connected with what is known as Wood's Mercantile Co. is a young lady of rare intellect and charming personality, while the groom is a popular young business man of Sturgis, Kentucky and was for almost two years a resident of Happy. It was during his residence here that this pretty little romance began. Their host of friends wish for them a long life of happiness and prosperity. Mr. and Mrs. Berry returned from Amarillo Monday and will spend a few days here, leaving then for a short trip, after which they will be at home to their friends in Sturgis Ky., after May fifteenth.

The question is being asked: "Why 'Dem Weddin' Bells' couldn't have rung in Happy."

The revival services were transferred Sunday from the Methodist church to the Baptist the latter seeming to be more centrally located. Rev. Gill delivered splendid sermons during the day, all of which were well attended.

Misses Katie Smith, Annie Garrison, D. S. Garrison and Math Grady were guests Sunday of Mrs. A. J. Garrison north of Happy.

There will be no Literary Friday evening owing to the protracted meeting now in progress.

Born to Mr. and Mrs. M. B. McMauigal last Friday morning a girl.

There were services at the Catholic church Monday morning.

Much credit and praise will be due Mrs. Geo. Berry (nee Carter) for her excellent writing entitled "The Western Idyl" to be published in next month's Panhandle Magazine.

J. M. McNaughton left Monday on a business trip to Plainview.

Rev. A. A. Harber of Canyon was the guest Saturday and Sunday of Rev. Guy Parsons, and on Saturday night occupied the pulpit at the Methodist church.

G. W. Walker of Panhandle was a business caller here Tuesday.

Rev. MacMahan of Plainview will be here this week to assist with the revival services at the Baptist church.

J. M. McNaughton is at this time considered the most accommodating man in Happy. As the glorious rain continued to pour down after the services Sunday night, he used his buggy as a "free bus" and took nearly the whole of the congregation to their homes. Many of the country people were forced to remain in town on account of the rain.

On next Sunday afternoon at 3:30 Rev. Gill will preach a special sermon to ladies only, however it was announced that those who had husbands might bring them is they wished.

About Milch Cows.

I receive so many inquiries concerning milch cows, and find that the people are so uninformed with reference to two of the most common troubles of milch cows, I take this method discussing these two common troubles. While I make no claims to being a veterinarian, or even a cow doctor, I have been personally handling milch cows for the last twenty years, and have had to learn something about their ailments, and apply it in a practical way.

My experience with the cow has been that the least medicine you can give, the better for the cow, and they nearly all die when they get sick, especially when you let them get down.

But the two troubles I started in to discuss is milk fever and garget. What is known (to the ordinary man) as milk fever, has killed more fine milch cows than all other ailments taken together.

This is a trouble (until recent years) that baffled the skill of the veterinarians. This is an ailment that has never been fully understood, and no one knows just what causes the trouble, and the treatment is so simple that a great many of the veterinarians will not accept it as a safe remedy. The remedy is pure air pumped into the udder through silver tubes, the tubes are pushed into the ends of the teats and with any kind of simple appliance for a pump, the air forced into the udder until it is widely extended. No medicine, no science needed, just a simple operation, the only thing essential is cleanliness and pure air. The symptoms are so varied that it is a difficult matter to give them in full, but the trouble nearly always comes on the cow from one to 10 days after calving, sometimes before calving, and sometimes during the milking period. It is a trouble almost exclusively confined to heavy milkers, and rarely ever shows up with first calf. Cows that give great quantities of milk and have remained dry quite awhile before freshing, are the ones most susceptable. Usually the cow seems stupid after calving and refuses to eat, and the milk flow stops, her eyes have a glassy appearance. These are the first symptoms. Generally the next symptoms are a weakness or stiffness in the hind legs. They begin to stagger around and finally fall, and are rarely ever able to rise again. They are in great pain from 12 to 36 hours before they die. The entire system seems to be deranged and all the medicine in the country has no more effect on them than water, but with the air treatment, the cow is generally up and alright within two hours and it is the only remedy on earth for them. If you ever have a case of this kind, take my advice and do not allow any other remedy applied.

Very often a cow will take this disease with hard convulsions, she gets down flat and acts like she is dead, others seem to be crazy and turn around and around, eat the dirt or bite at the ground, but there are so many different symptoms it is hard to know when your cow has it, but if she gets sick soon after calving, and is a heavy milker, you can be almost certain that it is this trouble in some form, may be light or may be fatal.

Garget is a form of inflamation of the udder, and when your cows give bloody, or lumpy and stringy milk, it is a form of garget, and if not remedied, will result in the loss of one or more teats. The air treatment is also good for this trouble, and cut out your rich feed, and give one pound of salts. I never give any medicine to a cow except salts.

This is for the public and not an advertisement. You could not hire me to doctor your cow.

Very truly,
H. G. GUINN.—
