New Ben Franklin Store Opening Wednesday

Around Muleshoe

Word was received at press time that Ray Link, 52, died at 3:55 p.m. (MDT) Friday at Cannon Air Force Base in Clovis. Services are pending at this time with Ellis Funeral Home.

A meeting of the Board of Trustees of the Muleshoe Independent School District is scheduled for 8 p.m. Monday, June 11 at the School Administration Building.

Routine business will be transacted. Informational and financial reports will be given along with the tax collection report.

The Bailey County Commissioners Court will meet in regular session at their regular meeting place in the courthouse Monday, June 11.

The meeting will begin at 10 a.m. and continue until all business is concluded, with the following items on the agenda: approve the minutes of the previous meeting, meet with representatives of Bailey County Child Welfare Board.

Also payment of routine county bills, review treasurer's report for May, Review departmental reports, consider authorizing notice for bids for a new motor grader for Precinct III, and miscellaneous items.

It was reported to the Journal that the Out To Lunch Bunch weekly luncheon will resume on Aug. 23.

Frank Joseph Jesko was recently named to the President's Honor Roll at the Amarillo Campus of Texas State Technical Institute according to Ron DeSpain, campus president. Membership to the President's Honor Roll is attained by maintaining a 4.0 grade average.

Jesko is majoring in Industrial Instrumentation Technology and is the son of Mr. and Mrs. Pete Jesko.

Jennyslippers will meet at noon Tuesday, June 12 at the library.

Sales Tax Rebate Check Increases

State Comptroller Bob Bullock last week sent checks totaling \$72 million in local sales tax payments to the 988 local tax cities and four transit authorities, including the first check for collections of the new Fort Worth Transit tax. Bullock said the city checks totaled \$52 million of the \$72 million.

"So far this year, we've sent these cities a little over \$400 million, which is more than 13 percent better than what they had received at this time last year," Bullock said.

Muleshoe's payment for this period was \$11,092.52 as compared to the \$8,232.17 for this same period last year. Payments to date in 1984 are \$100,750.02 as compared to \$101,962.55 to date in 1983, reflecting a minus of 1.19 percent.

Morton received \$2,440.48 for this period as compared to \$1,604.83 for this same period in 1983. Payments to date in 1984 are \$23,361.13 as compared to \$20,850.06 in 1983 reflecting a 12.04 percent increase.

NEW BEN FRANKLIN STORE TO OPEN—Muleshoe's newest store, the Ben Franklin Store, on West American Blvd. has scheduled their opening for Wednesday, June 13. Jerry and Kay Hailey, managers of the new store, will be on hand to welcome Muleshoe's shoppers to the large, new store in town. They will be having grand opening specials late in the week.

Olympic Torch Bearer To Be Through Muleshoe

The historic 1984 Olympic Torch Relay is scheduled to enter Texas on June 13, 1984 and pass through Dallas, Fort Worth and Lubbock as the Olympic Flame makes its way to Los Angeles to start the Games of the XXIII Olympiad.

According to a release this week, the Olympic Torch will be passing through Muleshoe on Sunday, June 17, probably about noon.

Texas is one of 32 states and the District of Columbia included in the 82-day Olympic Torch Relay route, according to Phil Bode, media relations manager in Austin for AT&T Commun-

ications, the official sponsor of the relay.

Earlier in the day, the Los Angeles Olympic Organizing Committee (LAOOC), announced the official cross-country route which will cover more than 8,700 miles.

The coast-to-coast Relay began in New York on the morning of May 8 and ends July 28 when the final torchbearer lights the Olympic cauldron in the Los Angeles Memorial Coliseum, signaling the opening of the Games.

"We're pleased that Texas will be one of the 32 states that will have the opportunity to host the 1984 Olympic Torch Relay," said Bode. "AT&T and the Los Angeles Committee will be working with local groups and governments to develop activities and celebrations to mark the passing of the flame through our area."

By tradition, the sacred flame that will be relayed across the country will be kindled in a ceremony that dates back to 776 B.C. in which the sun's rays are reflected over Mount Olympus.

From that point, this year's Olympic Torch Relay becomes an exercise that has challenged 20th-century technological and human capabilities.

The 82-day odyssey will be the result of thousands of hours of planning and scheduling; participation of thousands of volunteers; the use of state-of-the-art AT&T computers and programming techniques, and the collective expertise of major American corporations that are supporting the event.

"Nothing like it has ever been attempted," said Bode. "It's a first in Olympic history and a first for everyone involved in its design and execution."

More than 2,000 individual torchbearers will carry the flame as a part of a fundraising program to benefit athletic programs for the major youth clubs and the Special Olympics. Any

person or group can sponsor a runner to carry the torch for one kilometer for a cost of \$3,000, with more than 85 percent of that money going back to the sponsor's community.

A cadre of more than 200 experienced runners selected from AT&T and the former Bell System will accompany or carry the torch for the entire 14,000 kilometers of the route. The Relay will cross mountains and deserts and encounter the problems of crowded urban streets, unforeseen detours and a myriad of weather conditions.

To support and supply the Relay runners, AT&T and the LAOOC have tapped the resource of some of the country's leading organizations.

The Telephone Pioneers of America -- the world's largest volunteer service organization -- has meticulously mapped out every inch of the Relay route. Members will drive caravan vehicles, coordinate the runners' schedules, shuttle supplies and act as route marshalls through every city and town along the Relay.

The support/supply caravan of 34 vehicles will consist of 26 GMC motor homes, trailers and trucks that will house and feed the cadre of runners and technical personnel, as well as a fleet of security and shuttle cars provided by Buick. ARA Services will cater and serve more than 150 meals each day, in addition to nutritious snacks, and provide housekeeping services for 82 days. Other sponsors include United Airlines, which will transport both the flame and the cadre torchbearers, and Levi Strauss and Converse, which will outfit all Relay participants.

"AT&T is proud to underwrite and execute an event that will leave a multi-million-dollar legacy for youth athletic programs as well as bring the 1984 Olympics to the people of Texas via the Olympic Torch Relay," concluded Bode.

Irrigators Are Urged To Conserve On Water

As new tools and technology come along, there is always the question, "Will it work for me?" To answer this question, nothing beats actual hands-on testing.

In an effort to provide irrigators with hands-on water conservation information and introduce producers to the new tools which are available to help them with their farm management decisions, the USDA-Soil Conservation Service and the High Plains Underground Water Conservation District No. 1 are conducting community field days. During these days out in the field, SCS and Water District personnel demonstrate state-of-the-art water conservation techniques and equipment. The best water conservation techniques and equipment are displayed on a producers farm in local communities and local landowners and/or operators are invited to come by and see these techniques and the equipment in operation. Soil Conservation Service and Water District personnel are on hand during these demonstration days to explain the advantages of improved irrigation technology and answer producers questions about the use of these new technologies.

Mobile field water conservation labs which are used to test irrigation application efficiencies are on-site and personnel are there to explain the use of all the equipment in these mobile labs. Additionally, soil moisture monitoring equipment including gypsum blocks and conductance meters, tensiometers, and neutron moisture probes are available for inspection and hands-on demonstration. SCS and Water District personnel have information on and can explain the procedures for conducting pump plant energy use efficiency tests. Results of previous pump plant efficiency tests and information on improvements attained in these previous tests can be discussed by Water District and SCS personnel.

Thus far, water conservation information days have been performed on

farms near Levelland, outside of Floydada, north of Dalou and west of Spade. The SCS and Water District plan to continue these local community field days throughout the growing season. If there has not been a water conservation information day in your area thus far, watch your newspaper or listen to your local radio station for details of the field demonstration day to be held in your area.

July 4th Plans Celebration

Plans Underway

Plans are currently being made for another great July 4th celebration here in Muleshoe. The Freedom Parade, which is one of the main events of the day, is now being organized, and entry forms for the parade are available at the Chamber of Commerce office in City Hall. Forms were mailed out last week to over 200 area clubs and organizations as well.

The theme for this year's parade is "Let Freedom Ring". Cash prizes will be provided to the top three float entries in the parade. There will be awards to the top riding clubs in the parade as well.

Other entries are also being encouraged, including antique automobiles, cars and carrying club officers, sweethearts and other dignitaries, walking entries and any other that might wish to participate.

Some of the other events scheduled for the day include the kid's activities which are being sponsored by Alpha Zeta Pi, booths at the Civic Center, A Karate Demonstration, the World's Championship Muleshoe Pitching Contest, Entertainment and Fireworks in the New City Park, and the 4-H Barbecue Supper.

"Merchants are also reminded of the traditional sidewalk sale, which is scheduled to be held on Saturday, June 30. All area merchants are being encouraged to participate in this year's sidewalk sale," said John Gulley, manager of the Muleshoe Chamber of Commerce.

Stegemoeller

Attends School

For Bankers

Troy Stegemoeller, cashier at Muleshoe State Bank, was among 1,189 bankers taking part in the 35 annual two-week session of the School of Banking of the South at Louisiana State University.

Classes got underway May 21 and continued through June 2, providing graduate level study of all aspects of banking economics and related subjects.

Sponsored by 15 southern state bankers associations in cooperation with the Division of Continuing Education at LSU, the banking school requires attendance on campus for three years, with extensive home study assignments between sessions.

The faculty consists of 125 bankers, business and professional leaders and educators from all parts of the U.S.

Robert S. Gaddis, Director of the School, said "The sweeping changes now taking place in the delivery of

Con't Page 8, Col. 5

Eighteen Employees Boost To Economy

Another big, big boost to the Muleshoe area takes place this week when the Grand Opening of Muleshoe's new Ben Franklin Store at 2104 West American Blvd. will be held at 9 a.m. on Wednesday, June 13.

Jerry and Kay Hailey announced the Grand Opening Sale will feature many values with free gifts for everyone. Once open, the store will be open Monday through Saturday and store hours will be 9 a.m. to 8 p.m.

The Haileys, who are moving here from Kilgore, have 26 years experience in general merchandise stores, and have worked very carefully to offer a selection of merchandise, which will be changing according to the needs of the community, says Hailey.

"We are here to serve the community," he stated, "services will be continued to be offered in whatever the community desires. We plan to carry in our store what you need, what the community needs."

"Our assortment of merchandise will be expanding as soon as we find out what people are looking for."

To meet the needs of Muleshoe's shoppers, the new Ben Franklin will feature a complete line of household necessities, decorative home accents and coordinated kitchen and bath accessories.

For the grand opening, the store plans a tab advertisement, newspaper ads and remote radio broadcasts. A total of eighteen employees, all local persons, will be on hand to offer service and help to the shopper. The 18 employees are also expected to add to the overall economy, and the wide range of merchandise is expected to be adequate to serve the needs of almost everyone.

A full line of housewares will be offered, including cookware, kitchen utensils, plastics and a small kitchen appliance section which will be expanded in the fall.

The Hailey's said there will be a large selection of health and beauty products, nationally known brands competitively priced. They pointed out cuddly toys for infants, dolls, trucks and games for all ages can be found in the Toy department.

Women's and children's clothing is expected to appeal to the modern shopper's fashion sense and budget needs. To be included in the women's section will be designer jeans by Lee, Levis, Wrangler and Jordache. A women's fashion apparel department will be added in the fall.

Color-coordinated fabric sections, along with full notions for all sewing needs is being set up in a large part of the store, opposite the large area devoted to craft supplies, including the largest selection of yarn in town.

An added inducement will be all types of craft classes which will be started at the store in the near future. Some of the crafts to be taught will be flower arranging, macrame, calligraphy, art classes, crocheting and knitting, plus others as

Cont. Page 8, Col. 2

Area Students

Awarded

Scholarships

Three scholarships were awarded to area graduating seniors by Bailey County Electric Cooperative Association. These three scholarships were made available through the Cooperative by the First National Bank of Muleshoe.

Those receiving this year's \$400.00 scholarships were: Belinda McBee from Morton High School and the daughter of Mr. and Mrs. D.M. McBee; Lori Nell Carlisle from Three Way High School, daughter of Mr. and Mrs. Nelson Carlisle of Goodland; and Maria Anna Ybarra from Muleshoe High School, daughter of Mr. and Mrs. Jesse Ybarra of Muleshoe.

These scholarships may be used in any college or university of the student's choosing. They are paid in four checks, \$100.00 each semester for the first four semesters the students are in college. The scholarships can be used only if the student is enrolled in college, trade school or technical training institutes.

These scholarships were presented to the recipients at their respective school's awards assemblies and graduation exercises.

PICKUP TRUCK BURNS—Members of the Muleshoe Fire Department were summoned to a butane fire early Tuesday afternoon at the Bailey County Propane Co. north of Muleshoe on Highway 214. A late model pickup received heavy fire damage, but was the only damage at the propane plant.

FIRST WHEAT--Morris Killough who farms 10 miles south of Muleshoe brought in the first load of wheat at the Farmers Co-op Elevator Thursday. It was reported to the Journal that this was the third load to be brought into Muleshoe.

Nursing Home News

By Joyce Stancell

Activities of the week were, Starting May 31st Sharon Williams came for a Devo. Fri morning. She is teaching the book of Proverbs. Thurs. afternoon Mrs. Shipp, Mr. Ruthardt, Mr. Embry came to play Skip-Bo and 42 with the residents. Fri. morning Ruth Hall came to read to the residents. We enjoyed her reading the history of the schools in Bailey County. Fri. afternoon Members of the Assembly of God Church came to have a Devo. with the residents. Refreshments of ice cream and cake were served. Sat. morning J.C. Shanks came to shave and cut the mens hair. Sun. morning E.B. Wilson came for Bible Study. Sun. afternoon Calvary Bapt. Church came to sing to the residents.

Remember our Sr. Citizens Visitors Day. June 14th. Please let us know ahead of time if you would like a tray for the fee of \$2.50.

O.Z. Frank's sister Helen is here visiting.

Ernest Kerr was visited Tues. by his wife Ruby Lee, his mother-in-law Goldie Baker, his grandson Jeff.

Betty and Joyce Terrill spent the day with their parents & grandparents, Mr. and Mrs. Bill Lancaster, Friday & Wed.

Marie Engram was visited by Gil Lamb, Lenny Engram of Farwell, Nelda Merriott, Susie Vela and Maud Kersey this week.

Jewell Glenn was visited by her daughter and brother-in-law Tues. Her husband has been down visiting too.

The auxiliary ladies came Tues. to shampoo and set the ladies hair and give manicures. They also stayed and played Skip-Bo.

Claudia Cannon was visited several times this week by her husband.

Cleo and Stanley visited Alma Henley Wed. Also Bro. Huggins visited.

Lewis Scoggin took Emmett Dean out for the afternoon Wed.

Residents having a June Birthday are Rose Sebring June 11, 1906, Ethel Whisenhunt, June 28, 1896. Come join us as we help celebrate their birthdays. Thurs. June 28, at 2:30 p.m.

Lynn Bratcher had a lot of visitors this week. Among them were Charles Bratcher, Roy & Melba Bratcher, his granddaughter, Bro. Huggins from the Trinity Bapt. Church.

Cleo Bellar was visited by her husband Mack Bellar and her daughter-in-law.

Remember our Sr. Citizens Visitors Day Thurs. June 14th. Please let us know ahead of time if you wish to order a tray.

BIBLE VERSE

"A woman that feareth the Lord, she shall be praised."

1. Who is the author of this verse?
2. Who was his father?
3. What does the word "feareth" mean?
4. Where may this verse be found?

Answers to Bible Verse

1. It is thought to be Solomon.
2. David.
3. In the Biblical sense, it means have reverence for or solicitude toward.
4. Proverbs 31:30.

Sudan News

By Evelyn Ruchie

Mr. and Mrs. Roy Don Dudgeon are in the process of moving from Merkel to Dimmitt where he will be coaching at the High School there. They will be going to school at Commerce for the next six weeks.

Mr. and Mrs. Marvin Tollett were in Spade Sunday for dinner with their son, Mr. and Mrs. Burch Tollett. Last Wednesday evening they accompanied Hugh Vincent, his sister, Dora Haislip of Portales, N.M., and Patty Bausman to Amarillo to meet their cousins, Mr. and Mrs. Nelson Averill, Mrs. Ceina Hobson and Bernice Kennedy all of Boise, Idaho who were on a tour. On Sunday the Tolletts were in Roswell, N.M. and attended church and visited with Mr. and Mrs. Jack Menoud and also Mrs. Ida Seskey and Mrs. Florence Menefee. They were at the cemetery in Hagerman, N.M. for Memorial Day.

Mrs. Kathleen Goodwin returned to her home in Hillsville, Va. after having been here for some time with her sister, Mr. and Mrs. Bob Drake.

Holiday visitors with Mr. and Mrs. D.W. Williamson were sisters and brothers including Mr. and Mrs. Swann Pettit of Hale Center; Mr. and Mrs. Hugh Pettit and Mr. and Mrs. Clay Pettit of Abernathy, Mr. and Mrs. R.V. Pratt of Ralls and Mr. and Mrs. D.H. Horton of Newhall, California.

Mr. and Mrs. Jimmy Nichols and Brandi visited during the weekend with her parents, Mr. and Mrs. Dewayne Powell and family.

Good Advice
It's better to become bent from hard work than to become crooked from avoiding it.
-Record, Columbia, S.C.

Summer Camp For Diabetic Children

Summer camp is a place where children go for fun, sun, arts and crafts, and playing other tricks on each other and their counselors. Children with diabetes can have a camping experience at Camp Butman, near Merkel, Texas, July 29-August 7.

The camp is sponsored by the West Texas District Rotary Clubs. It is under the direction of the Texas Tech University Health Sciences Center TTUHSC Departments of Pediatrics, Nutrition and Social Work, and the Texas Tech University Department of Physical Education.

Children with insulin-dependent diabetes mellitus ages 6 through 18 are eligible to apply for camp. Applications should be directed to S. K. Varma, M.D., or M.J. Bourgeois, M.D. of the TTUHSC

Department of Pediatrics, Lubbock, Texas 79430, or phone 806 743-2310. Deadline for application is June 15, and enrollment is limited to 60.

Camp Bump is a 160-acre camp located in Mulberry Canyon in southwest Taylor County. Campers will live in cabins, swim, play volleyball and horseshoes, hike, and go horseback riding.

In addition, they will attend short courses in diabetic control and management taught by medical school faculty. The camp will provide the special medical and dietary accommodations diabetic children require. A pediatrician from the medical school will be in residence at the camp to supervise each child's medical needs.

Round trip bus transportation will be available from Lubbock to

Camp Butman. Reservations are necessary at the time of application.

A registration fee of \$100 is requested to help defray expenses for supplies and equipment. However, this fee should not prevent any child from participating; financial aid is available. For special arrangements, contact the TTUHSC Department of Pediatrics.

JACKPOT WINNER—Mrs. R.C. (Wynelle) Williams of Sudan won \$100.00 worth of groceries per week for one full year (52 weeks) at the United Super Market in Littlefield recently. She was presented 52 \$100.00 certificates.

Iron Fortified-Does It Makes A Difference

Many shoppers automatically reach for the cereals, breads and other products labeled "iron fortified." But is that really the best nutrition decision?

Whether iron-fortified foods actually have an added nutritional benefit is not a simple yes or no question, says Texas A&M University Agricultural Extension Service nutritionist Mary K. Sweeten.

How much iron you need depends on a number of factors including age, sex, weight and how well your body absorbs and conserves iron, she explains.

Because an average of 10 percent of the iron in foods is absorbed for use by the body, the Recommended Dietary Allowance (RDA) for iron is ten times greater than the body actually needs, says Sweeten. For example, women of childbearing age need to absorb only 1.8 milligrams of iron, but the RDA is set at 18 milligrams.

Interaction of iron with other chemicals is one factor that affects absorption, says the nutritionist. The tannins which are naturally present in the iced tea Texans love to drink, for instance, can combine with iron to decrease absorption.

Yet vitamin C from citrus fruit can combine with iron to increase absorption. Iron naturally present in red meats, poultry and fish can also increase the absorption of iron from plants and plant products such as spinach and other green vegetables, so most people can get enough iron from eating a well-balanced diet, she says.

If you do buy fortified foods, check the label both for the type of iron added and the percent of RDA, advises Sweeten.

The chemical form most

frequently used to fortify foods is "reduced iron." This pure form of iron is added as a very fine powder which is easily absorbed by the body. "Reduced iron" is typically indicated just by the word "iron" on ingredient, she says. Iron may also be added in the form of iron salts. Some iron salts, such as ferrous sulfate and ferrous fumarate are similar to "reduced iron" in absorption. But those containing phosphate complexes such as ferric phosphate and ferric pyrophosphate are not as easily absorbed by the body, notes the nutritionist.

Preschool children, women of childbearing age and pregnant women are at greatest risk of developing iron deficiency. Adding iron to some foods can help assure that people get adequate amounts of iron, but can also mean that others may get too much, she cautions.

The Food and Drug Administration has established some product standards for iron. However, many products such as breakfast cereals do not have standards and may contain amounts of iron ranging from a trace to 100 percent of the RDA.

Sweeten advises consumers to consider their individual need for added iron, and use the nutrition label as an important shopping tool when buying fortified foods.

NAMED N.O.M.

Barbara Bush, wife of Vice President George Bush and a mother of five, was named recently as National Outstanding Mother for 1984 by the National Mother's Day Committee.

Enochs News by Mrs. J. D. Bayless

Jim Swanner of Muleshoe was transferred from the hospital in Muleshoe to Highland Hospital where he will under go surgery Tuesday 5th.

Mr. and Mrs. J.D. Bayless were in Littlefield Wednesday afternoon and visited Mr. and Mrs. Andrew Petree at the Littlefield Medical Center where Andrew was a patient he was dismissed Saturday and Mr. and Mrs. Chester Petree visited them Saturday afternoon and Sunday afternoon.

Visiting Mrs. Mamie Adams also other friends were Mr. and Mrs. Cleo McCormick of Clovis, N.M.

Mr. and Mrs. Johnnie Cox of Hico visited friends, Mr. and Mrs. J.D. Bayless, Mrs. Etta Layton, Mr. and Mrs. Jack Austin and the J.E. Laytons Friday.

We wish to welcome Mr. and Mrs. Rick Lee and daughter to Enoch's, they bought the Johnnie Cox's house.

Kristen Nichols of Muleshoe spent Monday till Friday with her grandparents, Mr. and Mrs. Dale Nichols and attended vacation Bible school, at the Baptist Church.

The Hazel family of Lubbock sang at the Baptist Church Sunday morning everyone enjoyed it very much, Mrs. Hazel is a sister of Buford Peterson. Following the services there was a fellowship and dinner in the fellowship Hall of the Church. Mrs. Edward Crume and Mrs. Etta Layton visited another sister, Mrs. Juanita Snow in Muleshoe Thursday and spent the day with her.

Mrs. Ella Hopper of Baytown, visited her cousin, Mrs. Winnie Byars they also visited, Tom Byars and family at Seminole, Mr. and Mrs. Jim Byars at Odessa, The Henry Hardaways at Brownfield and Mr. and Mrs. Glenn Young in Littlefield and attended Church at the Baptist Church Sunday morning to hear the Hazels sing.

Mr. Delbert Roberts of Junction visited her parents, Mr. and Mrs. Tom Bogard the past week.

The Bob Newtons, the J.D. Bayless's and Mrs. Bill Key attended the South Plains College Country Caravan at the Morton Park 8:30 Thursday evening.

Mr. and Mrs. Harold Layton and son Robert of

Dell City spent the weekend with Mrs. Etta Layton, Also Roberts girl friend Stacy from Perryton and Robert are still here.

The rain that fell Saturday night was two tenths Saturday night and two tenths Sunday and Sunday night north of Enoch's and 6 tenths south of Enoch's. Was a good thing for cotton and things coming up.

A Suprise Coffee was given for Mr. and Mrs. Bob Newton 2-4 Sunday at the Three Way Home of E.C. Cottage for their 25 years and their dedication at the Enoch's Farmers Co-op Gin.

There were 17 workers and 41 children enrolled in vacation Bible School last Monday through Friday.

Mrs. Bill Key visited Mr. and Mrs. Kenneth Everett at Muleshoe Sunday Afternoon.

Mr. and Mrs. Scott Sears of Andrews visited her sister, Mr. and Mrs. Jarrol Layton Sunday and were visitors at the Baptist Church.

Mr. and Mrs. Craig Kirby and children of Three Way were supper guests in the home of her parents, the Goldman Strouds Sunday.

RECIPE

By Sarah Anne Sheridan

Fruit Pie
2 pie crusts
1 1/2 oz. can crushed pineapple, drained
1/4 c granulated sugar
1/4 c cornstarch
2 T lemon juice
1/2 t salt
4 c washed, hulled strawberries, sliced
Preheat oven to 425 degrees.

In large bowl, mix pineapple, sugar cornstarch, lemon juice and salt. Add strawberries. Fill crust with mixture. With remaining pie crust, cut rectangles 12 inches long; cut into 1/4-inch strips. Using pastry strips, make design on top. Fold pastry overhang over top edge of pie, press flat; finish edge decoratively.

Bake 50 minutes or until crust is golden and fruit bubbling. Remove to rack and serve warm topped with a whipped topping or ice cream.

Try one of these glazes for your ham. Remember while baking your ham put the glaze on every 10 minutes during the last 30 minutes of roasting.

Honey-Orange Glaze: Mix 1/2 cup honey with 1 cup packed brown sugar and 1/2 cup orange juice. Makes 1 1/2 cups.

Marmalade Glaze: Mix 1 cup honey with 1/2 cup orange marmalade and dash Tabasco. Makes about 1 1/2 cups.

Beneficial Fungi Can Help Produce Better Nursery Plants

By Robert L. Haney
TAES Science Writer

The Texas nursery industry and its customers stand to benefit from more efficient production systems, utilizing mycorrhizal fungi, which more efficiently utilize water and fertilizer for production of nursery crops, according to Dr. Fred Davies, horticulturist with the Texas Agricultural Experiment Station.

"Mycorrhizae are the symbiotic (mutually beneficial) association of helpful fungi with the fine roots of plants," Davies explains.

"The association with mycorrhizal fungi makes plants more efficient in absorbing nutrients and water from the soil. Other benefits are increased disease resistance, better adventitious root formation, enhanced seedling growth, and improved plant establishment in the landscape."

"It has been proven that mycorrhizal nursery crops are more efficient and stress resistant and that they will, consequently, bring a premium price."

"The problems of the nursery industry are not given much thought by the average plant buyer unless they result in inordinately high prices or an inability to get some needed shrubs or bedding plants."

"However, many of our Texas nurserymen were hard hit by last December's killer freeze, which ruined hundreds of thousands of container plants being grown for this year's market."

"Nurserymen were already contending with increased production costs and greater government regulations, which may curtail water usage of runoff containing undesirable levels of fertilizer salts, fungicides, pesticides and other pollutants."

"On top of this, more and more of them are recognizing a growing need to produce and market more stress-efficient native Texas ornamental

plants, which require lower levels of water and fertility."

"There is an obvious need for more research to be done with Texas nursery plants, to study mycorrhizal benefits and potential ways to utilize mycorrhizal fungi in production methods."

"Some of the California citrus nurseries are already using mycorrhizae. And the forestry industry is using commercial batches of mycorrhizae to increase tree seedling growth and production."

"As indicated earlier, the relationship of these fungi and many higher plants is symbiotic, or mutually beneficial. One of the types of fungi colonizes the fine roots of plants and forms vesicles or arbuscules inside the root which are used for food storage and the transfer of nutrients and water from the fungi to the plant and carbohydrates (sugars) from the plant to the fungi."

"One of the Texas native ornamental plants we've been testing is the Texas Mountain laurel which has potential in the nursery trade. It's an attractive evergreen shrub, with great stress resistance."

"Our research shows that under natural conditions, this plant forms associations with two kinds of mycorrhizal fungi and develops root nodules."

"The fungi enable this plant to more efficiently pick up water and nutrients. The nodules formed with nitrogen-fixing bacteria, enable the mountain laurel to capture and convert nitrogen into a usable form; in effect the plant makes its own nitrogen fertilizer."

"Research by one of our graduate students showed geraniums could be grown with less water, in conjunction with mycorrhizal fungi. These geraniums had greater plant growth, flower development and recovered from water stress more rapidly than geraniums grown without mycorrhizae."

"There is considerable pressure on the ornamental

horticulture industry to produce crops more efficiently, using less water and fertilizer to compensate for expected government regulations on water usage and nursery runoff contamination.

"Add to that, our growing population, our developing water shortages, the continuing push to conserve energy, and the need for more resource efficient plants becomes obvious."

"Manipulating the symbiotic association of mycorrhizal fungi on plant growth could not only result in more efficient management systems for producing ornamental crops but also a more resource efficient plant for the buyer's use," Davies concluded.

Editor's Note: Any questions regarding this column should be addressed to Science Writer, Department of Agricultural Communications, Texas A&M University, College Station, Texas 77843.

TWRI director says limited water supply affecting farmers

COLLEGE STATION — Greater demands for Texas' limited fresh water supplies are causing serious financial problems for farmers, says the new director of the Texas Water Resources Institute (TWRI) at Texas A&M University.

Dr. Wayne Jorday, former director of the Blackland Research Center in Temple, said dwindling supplies as a result of increased demands for water have already affected agriculture and will continue to put hardships on farmers.

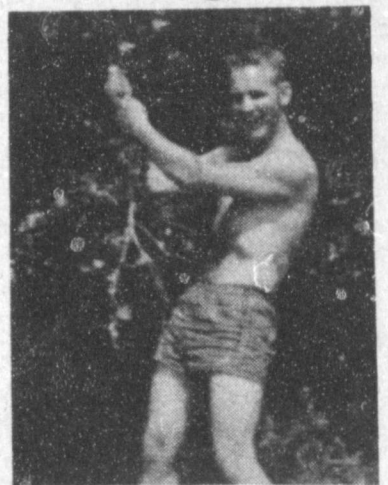

He pointed out as water levels continue to decline, the cost of getting water out of the ground will increase. New designs in both wells and irrigation systems make pumping and distributing water more efficient, he said, which lowers costs and helps keep prices down.

Jorday, director of the institute at Texas A&M University, said there is no question that groundwater in Texas is being consumed faster than it is being replenished.

ALASKA LEADS

Oil-rich Alaska led the nation in per capita income again last year, while Mississippi remained in last place, according to figures released recently by the Commerce Department.

Afternoon Ceremony Unites Miss Hall, Thompson

The marriage of Lawren Lydian Hall and Ralph Wright Thompson, both of Galveston, was solemnized Sunday afternoon, May 27, at Trinity Episcopal Church, Galveston. The Rev. John C. Donovan, rector, and the Rev. Joseph H. Fasel, rector of Saint Andrews-by-the-Sea, Port Isabel, officiated.

The bride is the daughter of Mrs. Robert Joseph Standley of San Antonio and Lawrence Blair Hall of Muleshoe. She is the granddaughter of Edward Quinby Perry of San Antonio and

Plainview and the late Mrs. Perry, and Mrs. Rolland Holland Woods of San Angelo.

The groom is the son of Mrs. Barbara Daughtrey Thompson Kongabel of Houston and Harold Frederick Kongabel of Brazoria. His grandparents are Mr. and Mrs. Harold J. Kongabel of Lago Vista at Austin and the late Mr. and Mrs. Ralph Nicholas Daughtrey of Norfolk, Virginia. Hallye DeArman Jordan of Midland was her cousin's maid of honor, and Mrs.

Perry Baker Hall of Dallas was matron of honor. Bridesmaids included Elizabeth Ann Kongabel, sister of the groom, of San Antonio; Mrs. Donald Sarich of Houston; Constance Rose, Mrs. Jefferson Eugene Riddle and Mrs. Jerry Charles DePriest, all of Galveston.

Harold Frederick Kongabel was his son's best man. Groomsmen were Jeffrey Leigh Thompson of Galveston, brother of the groom; Perry Baker Hall of Dallas, brother of the bride; Donald

Sarich of Houston, William Bryant of Tyler; Michael Sullivan of Portland and David Sullivan of Corpus Christi.

Jason Kongabel, brother of the groom, served as ringbearer. Ushers were cousins of the bride Keith Perry Jordan, Fort Worth and Peter Woods, Socorro, N.M.; Dr. Jerry Charles DePriest and Dr. Jefferson Eugene Riddle, both of Galveston; Lamont Lewis of Austin, and Preston Wilson of San Antonio.

Acolytes were Corbin and

Kuyler Doyle of Dallas and James Edward Rainbolt of Fort Worth.

The bride, given in

Sudan Holds Something Special

by Evelyn Ritchie
Something Special II brought out some new and some old talent last Saturday night.

Teen talent had six different acts. Opening was a flute quartet of Linda Wiseman, Tatia Newson, Lauri Ann Damron, and Kendra Whitten.

This was followed with a solo gospel song by Thea Miathis, Tammi Gore and Sherri Powell gave a beautiful twirling performance and a solo ballet was given by Kevin King. Karen Whitten and Dewayne Griggs brought a flute and T-Bone duet.

The Break dancers, Ronald Williams, Chris Griggs and Elliot King stole the show with their various moves.

Magician Dean Ponton fascinated the youth and older ones alike. The Norwoods were a little loud but they made a few teens happy.

The Anchor Brothers completed Something special II with gospel performances, making a truly special evening for Sudan and area residents.

marriage by her father, chose a chapel length gown of ivory silk satin from the house of Priscilla of Boston. Capitone embroidery in the form of Calla Lillies with clusters of seed pearls at their centers adorned the flowing skirt and short melon sleeves. The dress featured a fitted bodice tiny buttoned to the basque waistline and a deep florentine neckline.

To complement her gown the bride carried long-stemmed calla lillies and wore a heirloom necklace of entwined strands of tiny seed pearls, a gift from her maternal grandmother, Sadye Earle Adams Perry.

She also wore a pin made of concho pearls belonging to her great grandmother Hall.

The bride chose a veil, also from Priscilla, of ivory silk illusion which cascaded from the silk made crown headpiece to her hemline, which was underlined by a double cordon of silk.

Bridal attendants wore chapel length dresses of ivory illusion accented by stained glass colored cummerbunds and carried clutch bouquets of matching colored flowers.

The bride, who attended Muleshoe public schools, St. Mary's Hall in San Antonio, and Sweet Briar College, is a graduate of Lubbock Christian High School and Southern Methodist University where she received a bachelor of business administration degree in finance

and a bachelor of arts degree in English. She is a member of Zeta Tau Alpha.

Thompson is a graduate of Westchester High School, Houston, and the University of Houston where he received a bachelor of science degree in business and marketing. He is a member of Pi Kappa Alpha. A Chartered Life Underwriter, he is associated with Rust, Ewing, Watt and Haney, Inc. of Texas City.

Following the services of Holy Matrimony and Holy Communion, a reception was hosted by Colonel and Mrs. Standley and Mr. and Mrs. Larry B. Hall at Ashton Villa the pre-Civil War museum-mansion's ballroom, patio and lawns.

After a wedding trip to points of interest in Mexico including Mexico, D.F., the couple will make their home in Galveston.

Pre-Nuptial Courtesies

Mr. and Mrs. James Arthur Rainbolt of Fort Worth, Mr. and Mrs. Perry Baker Hall of Dallas, Hallye Jordan of Midland and Keith Perry Jordan of Fort Worth entertained the couple, wedding party and

their out-of-town guests at The Balinese on Friday evening, May 25.

A bridesmaids' luncheon was held in the East Parlour of the Hotel Galvez on Saturday, with Mrs. L.B. Hall and her daughter, Mrs. Preston Wilson, the hostesses. The groom and groomsmen enjoyed an early Saturday morning fishing excursion into the Gulf of Mexico aboard the Nina Ruth.

Mr. and Mrs. Harold Fred Kongabel were hosts Saturday evening, May 26, at the couple's rehearsal dinner which was held at the Top Galian Room of the Wentletrap.

Mike Smith New Coach At Sudan

Mr. and Mrs. Mike Smith have recently moved to Sudan where Smith will coach in the Sudan schools. He will be teaching varsity football and track.

Smith grew up in Lubbock and graduated from Texas Tech. He worked one year with Dewayne Sexton at Levelland.

Mrs. Smith is also a Tech graduate and has been assistant Spanish teacher at Tech for the past two years. She has been employed by the Muleshoe School system where she will be teaching Spanish and English in the high school.

Hobby Club

The Muleshoe Hobby Club met Thursday, June 7 in the community room of the Muleshoe State Bank with Ruth Bass as hostess. Mabel Caldwell presided over the business meeting. The hostess gift was drawn by Ola Epperly.

Those present included: Frances Bruns, Mae Provence, Nan Gatlin, Mae Lloyd, Jo Willson, Ola Epperly, Allie Barber, Verna Dement, Blanche Aubrey, Ethel Julian, Vickie Hendricks, Ruth Bass, Mable Caldwell, Sammie Ethridge, Myrtle Chambliss and a visitor, Jean Rockwood.

Lingerie Shower Honors Mrs Lori Davison

Lori Harper Davison was honored with a Lingerie Shower April 20 in the home of Norma Phillips.

Special guests included the honoree, her mother and sister, Mary Harper and Lisa Mills, Jimmy Humphreys, mother of the groom, Sheryl Morris and Jody, Pam Morris and Kyla sisters and nieces of the groom.

Refreshments of vegetables, chips, dips, cake, tea and lemonade were served

from a table decorated with the bride's chosen colors of blue and fresh spring flowers.

Following the opening of gifts, everyone helped with the making of rice bags for the wedding.

Others attending were Shelly Chester, Deanna Swart, Terri Graves, and the hostesses Norma Phillips, Chryl Chumbley, Kelli Flowers and Deanna Humphreys.

ENGAGEMENT ANNOUNCED—Mr. and Mrs. Ines Lozano announce the engagement and approaching marriage of their daughter, Elva to Johnny Rivas, son of Mrs. Maria Rivas of Texico. Vows will be exchanged in a garden ceremony Saturday, June 16 at 5 p.m. Miss Lozano is attending E.N.M.U. in Clovis, N.M. and employed at West Plains Medical Center. Rivas received a degree in Criminal Justice in May and is employed by the city of Clovis.

Sudan Eighth Grade Class Graduates

The eighth grade class of Sudan Junior High held their graduation exercises Thursday, May 17 in the auditorium. The stage was accented with bouquets of the class flower, carnations. Jeanne Winton, pianist, played the processional of 'Largo' followed by the Invocation by Rev. Pitts Davis, pastor of the First United Methodist Church of Sudan. The class song 'Theme from Mahogany' was played by Miss Winton.

Honor student, Kendra Whitten gave an address. She maintained an average of 94.1. Her twin sister and honor student, Karin having maintained a grade point average of 94.1 also, gave the next address. They are the daughters of Mr. and Mrs. Kermit Whitten. Buddy Lowrance, high school principal, introduced the class members with Kenneth Noles, school superintendent, presenting their certificates. Their class colors were blue and silver. Their flower was a carnation and sponsors were Patsy Fisher, Mike Martin and Jana Synatsch.

Ushers were Teena Newman, Star Tennyson, Misti Bartley, George Salinas, Nicky Mathias and Chris Harper.

Class members were: Cheri Ford, Shannon Peck, Anthony Williams, (class officers) Michael Bartley, Eddy Boyles, Rosa Camarillo, Chip DeLoach, Rene Garza, Dawn Gaston, Jimmy Kyle Glasscock, Chris Griggs, Donice Holley, Brad Masten, Lotty Montez, Melissa Nix, Sylvia Ortega, Kathy

Powell, Danette Provence, Carmen Ramos, Cindy Roberts, Eddie Salinas, Johnny Taylor and Karin and Kendra Whitten.

Benediction was given by Rev. Leslie Welch, pastor of the Circle Back Baptist Church.

Christie Phillips

Honored

On Birthday

Christie Phillips was honored Friday on her eighth birthday with a party in the home of her parents, Mr. and Mrs. Dewayne Phillips.

A "Care Bear" theme was carried out in the decorations, tablecloth, cups, napkins, and centerpiece. Large balloons, candy and bubble gum were given guests as favors.

Following the playing of games, cupcakes, ice cream and punch were served.

Attending were Joe Smith, Heather Harrison, Toni Lowrance, Dickie Gipson, Brad Hanna, Heather Houghton, Brooke Baker, Rickie Gipson, Kelli Baker, Tammy Bruggeman, Melissa Kuykendall, the honoree's brother, Michael; her mother, Debbie; and grandmother, Evelyn Ritchie. Tanya Masten also assisted.

The girls stayed for a slumber party and pizza, chips, punch, and ice cream throughout the evening.

Thinking usually means less talking.

This is the time of year cute things look cuter.

Cowbells Present States Top Dad Basket Of Beef

In ceremonies at the State Capitol May 29, Governor Mark White proclaimed June 10-17 "Texas Beef for Father's Day Week." The state's top "Dad" also got an unexpected surprise: Members of the Texas CowBelles presented the Governor with a basket filled with choice tenderloin steaks, along with the hope that he enjoy Father's Day in the traditional Texas way—with a delicious grilled steak.

The Governor accepted the steaks from CowBelle Nora Hutto of Canadian, adding, "Why can't we do this every day?"

The "Texas Beef for Father's Day" promotion is an annual activity of the Texas CowBelles, a non-profit organization with 22 chapters throughout the state. The 900 women who belong to the Texas CowBelles represent almost every facet of the industry, and are dedicated to promoting Texas beef, educating the public on the merits of beef, and fostering a greater understanding among consumers of the beef industry. The "Texas Beef

for Father's Day" promotion has been a traditional event since 1972.

Cooperating with the CowBelles in urging Texas families to treat Dad to beef on Father's Day were the Independent Cattlemen's Association and the Texas Beef Promotion Committee of the Beef Industry Council.

The proclamation signed by the Governor read, in part, "The cattle industry has figured prominently in the development of our state and its colorful history. By sponsoring a 'Texas Beef for Father's Day' week June 10-17, the Texas CowBelles are urging Texans everywhere to give beef certificates for Father's Day. These certificates are purchased at local banks to be redeemed at restaurants, grocery stores, and beef packing houses, and this unique gift will be remembered long after Father's Day has passed."

"The Texas CowBelles and the cattle industry deserve recognition for their active role in encouraging agricultural growth and prosperity throughout Texas."

The importance of beef to the Texas economy is emphasized by figures from the Texas Crop and Livestock Reporting Service. In 1983, Texas lead the nation in number of cattle and calves of all types. Texas was Number One in beef cows that have calved, cattle on feed, number of cattle operations, calf crop, and cash receipts for cattle and calves. Texas was also the top exporter in the nation of hides and skins, an important byproduct of cattle production.

As well as the basket of steaks, the Texas CowBelles presented the Governor with a copy of DEAR JAMES BEARD, a unique book consisting of recipes and special remembrances of James Beard, contributed by 20 of his closest friends in the food industry. A copy of this book was originally presented to Beard in March at a gala event in New York City. The New York Academy of Medicine, which houses the oldest cookbook collection in the world, was the location of the tribute to "The Father of American Cuisine." DEAR JAMES BEARD has been placed in the Academy's collection.

The word "mouse" comes from an old Sanskrit word meaning thief.

WMU of the Trinity Baptist Church met Tuesday, June 5 at the church. The five members present were: Dora Bellar, Maxine Carter, Clara Coffman, Eva Ashford and Wenona Spears.

Mrs. Carter led the prayer and Mark 3:22-30 was read. A discussion was held on the Royal Service Mission in Japan.

Mrs. Ashford dismissed the group with a prayer.

Old-fashioned cooking is still very much in fashion

AUGUST PLANS REVEALED—Mr. and Mrs. Bill Harmon would like to announce the engagement and approaching marriage of their daughter, Beth to Kirk Jackson, son of Mr. and Mrs. Ted Jackson of Seminole. Miss Harmon is a 1983, graduate of Muleshoe High School and is presently employed at West Plains Medical Center. Jackson is a 1980, graduate of Seminole High School and is employed with Texland Petroleum, Inc. in Levelland. Wedding vows will be exchanged at 7:30 p.m. August 10 in the Muleshoe Church of Christ. The couple will make their home in Levelland.

Justin Douglas Whiteaker

Mrs. Sherry Whiteaker Clay of Sudan and Carl Douglas Clay of Lexington, Ky. are the parents of a son, Justin Douglas, born Wednesday, May 16 at 9:35 p.m. in Lubbock General Hospital.

The young man weighed nine pounds and 12 ounces. Grandparents are Mr. and Mrs. Wayne Whiteaker of Sudan and Mr. and Mrs. Carl Clay of Kentucky.

Great grandparents are Mr. and Mrs. J.A. "Bud" Graves and Mrs. Vena Whiteaker, all of Sudan.

Kelsey Leigh Jones

Mr. and Mrs. John Jones are the proud parents of a daughter, Kelsey Leigh, born at 12:45 p.m. Monday, June 4 in West Plains Medical Center.

Kelsey Leigh weighed nine pounds and 12 ounces. The couple have two other children Erin, eight, and Katy, six years of age.

Grandparents are Mr. and Mrs. Bob Jones of Muleshoe and Mr. and Mrs. Jimmy Milner of Slaton.

Great grandparent is Jess McCoy of Slaton.

Renda Lee Shay Templin

Mr. and Mrs. Pickard Templin of Sudan are the proud parents of a daughter born at 4:15 a.m. Saturday, June 2 in West Plains Medical Center.

The young lady weighed seven pounds and six ounces and has been named Renda Lee Shay. The couple have two other children, Rendra, seven years of age, and Keevin, three years.

Grandparents are Mr. and Mrs. Henry Scott and Eather Burton, all of Sudan. Great grandparent is Mac Williams of Wellington.

A coward is a man who lets his fears control him.

Family Health Cost And Lifestyle Linked

Many people worry about the cost of a major illness or accident in the family, but often fail to consider what influence they can have on potential medical expenses, says health educator Dr. Mary Ann Heussner.

According to a recent survey by the Health Insurance Association of America, three out of four people believe health care costs are going up at a faster rate than other costs, Heussner reports. But only one in four think they are responsible for the rise in costs, she adds.

"While hospitals and doctors can contribute to medical cost containment, controlling medical costs begin at home," says Heussner, a specialist with the Texas A&M University Agricultural Extension Service home economics program.

Many major illnesses and premature deaths are linked

to lifestyle habits, she explains. Changing these habits can help create a healthier family and control medical expenses.

For example, you can stop smoking, which will not only improve your health but also reduce the respiratory infections experienced by the children and other non-smokers in the family, says the specialist.

You can make sure the family eats a balanced diet which includes foods from the protein group of meat, poultry, fish and eggs; fruits and vegetables; breads and cereals; and dairy products each day. You can also moderate the family's fats and sweets and encourage family members to lose extra pounds if they are overweight.

If you drink alcohol, you can drink in moderation.

You can learn to deal with stress through relaxation, exercise regularly to stay in good condition, and get adequate sleep. Relaxation and exercise activities can be enjoyed by all family members of the family and have the extra advantage of contributing to family togetherness.

When you drive or ride in a car, you can make sure that your young children ride in safety seats, and other family members wear seat belts.

Finally, families should also protect their children with immunizations against childhood diseases, says Heussner. Recent studies show only two-thirds of young children are being immunized against diseases such as polio and measles.

When you do not need to use medical services, says the specialist, use them wisely to get the most for your medical dollar. Get regular check-ups and see your doctor only when you really have a problem. Use emergency rooms only for emergencies.

Then follow your doctor's instructions and take all medication as directed.

nician's of Claude will sponsor a 3-2 Softball Tournament, Mixed League, Saturday, June 16 at Martin Road Complex. Starting time will be 8 a.m. Entry fee is \$75.00 with all proceeds going to Armstrong County E.M.T. Association.

First, second and third place Team Trophies, first and second place Individual Trophies and a MCP Award will be awarded.

Deadline for entering will be 5 p.m. June 12. For more information you may contact Pat Martin, 806-944-5218 or Mike Doole at 383-4637.

Sales Tax...

Cont. From Page 1

cent increase.

Fort Worth's check for \$1.9 million increased total payments to \$14.7 million, up nine percent. El Paso received \$1.1 million, bringing 1984 payments to \$8.9 million, up 17 percent over last year.

Bullock also sent checks to Metropolitan Transit Authorities in Fort Worth, Dallas, Houston and San Antonio. For Worth's first check from the one quarter percent local transit tax in that city was for \$331,306. The Dallas DART check was for \$8 million and the Houston MTA received \$10 million. San Antonio's VIA check was for \$2.7 million.

June payments reflect taxes on sales made in April and reported to the Comptroller by May 20.

City Swimming

Pool Opened

Thursday

Manager Bob Graves said the Muleshoe Swimming Pool opened for the summer months Thursday afternoon, June 7.

Pool hours and admission price is the same as last year he said.

The pool is open on weekdays from 1:30 until 7 p.m., 1:30 until 7 p.m. on Saturdays and 2 until 6 p.m. on Sunday. As in the past the pool will be closed on Friday.

Admission is \$1.50 per person, with season passes costing \$30. Private parties may be booked for two hours at \$24.

Swimming lessons will be starting June 18 or 25, Graves added.

Lifeguards this year are Cristal Taylor, Rhonda Mills and Terry Graves.

Sandra Allison Cox was recently named to the Vice-President's Honor Roll at the Amarillo Campus of Texas Technical Institute, according to Ron DeSpain, Campus President. Membership to the Vice-President's Honor Roll is attained by maintaining a 3.5 grade average.

Ms. Cox is majoring in Interior Design Technology and is the daughter of Mr. and Mrs. Alvin Allison. She is also a graduate of Muleshoe High School.

It is once again time for the annual calendar sales sponsored by the Rotary Club of Muleshoe and the Speech Department of Muleshoe High School. The year's calendar includes the complete school calendar of events, times and places.

More information can be obtained and calendars may be ordered by phoning 272-3748 or 272-5602.

CITY STREETS GET NEW COAT--Workmen from Jake Diehl are busy right now seal-coating many of the streets in Muleshoe. Each year, during the warm months, several of the city streets get new tar and gravel to seal out winter ravages. This year is no different, as the sealcoating process is being carried out in various locations around town.

Elm Leaf Beetles Are Active Now

Elm leaf beetle larvae are now actively feeding on leaves of elm trees, said Spencer Tanksley, Bailey County Extension agent. This insect is a serious pest

of elm trees in West Texas. Feeding from this insect skeletonizes the surface of leaves and premature defoliation of elm trees can occur.

Damage from this pest was severe in 1983. Treating with an insecticide now will help minimize damage to elm trees this year.

The overwintering adult beetles are emerging from houses, sheds and other protected areas where they spent the winter and are now laying eggs on elm trees. The beetles are oval and about one-fourth inch long. They are yellowish to olive-green in coloration with a black stripe along each side of the wing covers.

The female beetles lay eggs on the underside of leaves which hatch into small worms in a few days. These worms are nearly black in coloration and feed on the underside of leaves. They skeletonize the leaves, leaving the veins intact.

To protect the foliage of elm trees from feeding damage, trees may be sprayed with Sevin or Orthene. Mix and apply sprays according to manu-

facturer's directions on the label of the chemical container. Thorough coverage of the trees with the insecticide spray is necessary to obtain satisfactory control of this insect.

To secure additional height and better coverage of the tree, a hoseon sprayer may be tied to a fishing pole or other sturdy object and raised up in the air to spray the tree. Caution should always be exercised when applying insecticides.

Stegemoeller...

Cont. From Page 1

financial services put renewed emphasis on the need for high quality banking education. We are rapidly moving into a new environment which will place a premium on the ability of commercial bankers to be flexible, innovative and creative in serving the financial needs of our communities." Gaddis is President of Commercial National Bank and Trust Company, Laurel, Mississippi.

During their three years at the School of Banking, students receive 180 hours of classroom instruction, 30 hours of reviews, planned evening study, and written final examinations at the end of each session.

Dryland Farming With No-Till A Producer Alternative On Plains

By Robert L. Haney
TAES Science Writer

Dryland farming, combined with improved no-till or low-till technology, may offer the best future alternative to many High Plains farmers, according to Dr. G. B. Thompson, Resident Director of Research at Amarillo, for the Texas Agricultural Experiment Station.

Rapidly rising fuel costs for irrigation and tillage, combined with groundwater depletion, confront agricultural producers of this whole region. Though prices for many farm products have remained relatively stable or even declined, rising production costs have erased profits for many producers.

A dryland crop symposium, held in March at the Research and Extension Center at Amarillo, had as its central theme "Dryland Farming in the 80's."

It was jointly sponsored by the Texas Agricultural Experiment Station; USDA Conservation and Production Research Laboratory at Bushland; Texas Agricultural Extension Service; and the USDA Soil Conservation Service.

As one participant put it, "When the net profit from dryland farming equals or exceeds the net from irrigated farming, then you figure you've arrived at a crossroad. I think some of us have got to the point where irrigation water is just too expensive for us to use in agriculture, certainly in the quantities we've been used to."

"This Dryland Crop Symposium was prompted by the fact that there are already twice as many farmers on dryland as on irrigated land in the Panhandle," Thompson said.

"Previous crop symposiums have mostly been aimed at producers of irrigated crops but as irrigation water falls and fuel bills rise, many irrigated farms will revert to dryland."

"Subjects discussed at this symposium covered most aspects of dryland farming with special emphasis on soil water management and control of erosion."

"Past research has shown that 1 inch of stored soilwater produces 350 pounds per acre of sorghum grain or 2½ bushels of wheat, at Bushland."

"Runoff from storms at Bushland averages 1½ inches per year but may be as high as 6.1 inches per year. Practical methods of conserving this water were presented."

"The value of crop mulches for conserving soil water and

for erosion control was discussed, along with fertilization, wheat varieties, sorghum production, weed control, alternative crops, reduced tillage, insect control, managing cattle, and economics of dryland farming."

The history of dryland research, as a cooperative effort between USDA-ARS and the State Agricultural Experiment Stations dating back to the beginning of this century, was reviewed by Dr. B. A. Stewart, Laboratory Director and Soil Scientist, USDA-ARS, Conservation and Production Research Laboratory, Bushland.

Stewart's realistic assessment of dryland farming in this region of marginal rainfall was that it's high risk but that use of a variety of conservation methods can cut those risks.

"In the long term, I am optimistic that we will see continued and even more significant increases in improved germplasm of dryland crops such as wheat, grain sorghum, and sunflower. These gains, coupled with improved cultural and engineering practices will allow us to use our precipitation more effectively for crop production."

"I am very optimistic about the potential for increasing yields under dryland conditions. Even though our average of 16 to 22 inches of rainfall is marginal, it is enough to support a viable agriculture—if the rainfall is efficiently used."

"The first priority should

be to stop, or at least greatly minimize, runoff. Then, emphasis should be on systems that will cut down on evaporation losses, and conservation tillage and no-till systems appear very promising."

"The final priority is to select crops that fit best with the rainfall patterns. These practices, coupled with the use of new varieties that are constantly improved for efficient water use, will lead to continued yield increases, under dryland conditions."

"The risk for dryland agriculture will always be high in this area, but we are rapidly gaining the background information and computer capabilities needed to make reasonable assessments of these risks," Stewart concluded.

Editor's Note: Any questions regarding this column should be addressed to Science Writer, Department of Agricultural Communications, Texas A&M University, College Station, Texas 77843.

TRU-TEST COLOR CONSULTANT

Dear Bonnie:

Why do the beautiful towels in dusty tones, such as Ashes Of Roses, Mauve or Mallard Green appear so inviting in the store display but look dirty or dull when I try to fit them into my newly repainted bathroom?

Signed,
Ann M.

Dear Ann:

The new towels aren't dirty, your walls are too clean.

When choosing a color scheme for small spaces, one usually desires a fresh tinted (color lighted with white) bright colors. However, colors that have been shaded (grey added to reduce reflection) will create a shadow effect when placed next to its contrast in value. For a less jarring contrast, paint your walls with the highly popular Country shades found in Tru-Test Paint's American colors color card. You will love the new "old" look this muted color scheme produces.

Texas Tech Advertising Team Wins First Place

A proposed advertising campaign developed by 15 students in the Texas Tech University mass Communications Department has been judged the best nationally in the annual American Advertising Federation Competition.

The Texas Tech team won first place over 14 other regional contest winners during the national competition Saturday (June 2) in Denver.

In the competition teams developed an advertising campaign based on the actual needs of a national company for a product line. This year 130 college and university teams developed advertising strategies for the TRS-80 computer of Tandy/Radio Shack.

Five members of the winning team will present their proposal to national advertising professionals Aug. 20 during the annual Advertising Age Creative Workshop in New York City. The Texas Tech oral presentations in the national competition were made by Michelle Jackson of Lubbock, Kimber Smith of Amarillo and Tracey Evans of Arlington. They were assisted by Kim Buechley of Fort Worth and David McClure of Uncasville, Conn., on the audio-visual presentation and by Christine Isaac of Muleshoe and Mike Klein of Lubbock.

Team members researched the computer's advertising needs, then developed a creative strategy, a sales promotion and a coordinated media plan. They then organized their objectives, strategies and tactics into a 49-page book of plans, a 12-page creative supplement and a

20-minute audio-video presentation.

James L. Marra, faculty adviser, said the team effort succeeded because of the interesting personality of the presentation, the high quality audio-visuals and the comprehensive, well targeted plans book.

The parents of team members who made the presentation in Denver are: Jackson, Jim Bob Jackson, 8432 Wayne, and Joyce Jackson, 2811 35th, Lubbock; Smith, Mrs. Aubrey Smith, 2801 Parker, Amarillo; Evans, Mr. and Mrs. James Evans, 3011 Yellowstone, Arlington; Buechley, Mr. and Mrs. John Buechley, 1712 Versailles, Fort Worth; McClure, Mr. and Mrs. Charles McClure, 105 Polly's Lane, Uncasville, Conn.; Isaac, Mr. and Mrs. Charles Isaac, 706 W. 20th, Muleshoe; and Klein, Mr. and Mrs. Elgin Klein, 4401 27th St., Lubbock.

Other team members, their parents and addresses are: Peggy Knutson, Mr. and Mrs. Herb Knutson, 2808 Robin, Plano; Rose DeAngelo, Mr. and Mrs. Ed DeAngelo, 805 Charter Oak, Arlington; Gregg Carson, Mr. and Mrs. James Carson, 3908 Driskill, Fort Worth; Robert Sparkman, Mr. and Mrs. Bobby Sparkman, 3609 Plaza Park, Garland; Greg Ward, Mr. and Mrs. Jim Ward, 223 Fir, Hereford; Beverly Blair, Jim Clark, 7979 Westheimer, Houston; Nancy Feichter, Mrs. Jeneane Feichter, 7353 La Bolsa, Dallas; and Shannon Spinning, Sara Spinning, 8472 Valley View, and Richard Spinning, both of Buena Park, Calif.

FFA AWARD WINNERS—FFA Awards presented during the FFA banquet recently were: Brent Kirkland, Star Greenhand; Gordon Martin, Star Chapter Farmer; Lea Bartley, Beef Award; David Harper, Scholarship Award; Dale Johnson, Soil Conservation Award; Charlie Fisher, Swine Award; and Randall Damron, Leadership Award.

Mrs. S.G. Long was in Littlefield Friday shopping.

Mr. and Mrs. Rayford Masten was in Muleshoe Friday on business.

Mr. and Mrs. Bill Dupler spent the week end in Monahans visiting their daughter the Bobby Sinclair.

Mr. and Mrs. S.G. Long and Mrs. Bulah Toombs visited Mrs. H.W. Garvin Saturday evening.

The farmers in the community have been busy planting. The cotton in the community is very pretty. The community received light showers Sunday.

Mr. and Mrs. A.G. Taylor from Muleshoe visited his daughter the Joe Sowders Thursday afternoon.

Mrs. H.W. Garvin was a dinner guest in the home of her brother Mr. and Mrs. George Tyson Sunday.

The Hazel family brought Messages in song at the Three Way Baptist church Sunday evening.

Mr. and Mrs. Bill Dolle and Darla were in Littlefield Sunday evening and had supper with his brother the J.T. Dolles.

Lamb Consumption in Texas Climbing

AUSTIN--Times are changing. Population shifts have brought people from all over the country into Texas, carrying with them tastes for a variety of cuisines. For many this means eating lamb.

According to Mark Schnabel, Dallas-based marketing representative of the American Lamb Council, wholesale lamb sales have increased 500 and 300 percent respectively in Houston and Dallas in the past 10 years. And State Sen. Bill Simms, San Angelo, executive secretary of the Texas Sheep and Goat Raisers Association, reports that 1,000 carcasses of Texas lamb are sold in-state every week, about a "1,000 percent increase" since 1974.

Simms says of the rise in carcass sales, "We see a real change in the pattern of lamb consumption, mainly because of the people who are coming to Texas."

In years past few native Texans would look at a plate of lamb, which they called mutton. Though the state ranked first in sheep and lamb production and still does, its citizens stood at the bottom of the consumption ladder. Today most lamb is still eaten in the Northeast, 65 percent, according to the lamb council. Texas Department of Agriculture (TDA) marketing specialist Cowboy Hines says Texans historically have consumed one percent of the lamb crop, but this too may be changing.

"With more demand for lamb, availability at the supermarket has increased," said Hines. "People who don't ordinarily eat lamb are more likely to try it when they see the variety of cuts being marketed."

Spring is the time formerly associated with eating lamb, thus the label "spring lamb." A spokeswoman for the Tom Thumb supermarket chain said that sales nearly double in Dallas area stores around Easter when tradition persuades even some non-lamb eaters to dig in.

The phrase "spring lamb" is actually a misnomer. Most lamb being marketed now was born in the fall. The spring crop, born between mid-January and April, will start to market in the summer. At any given time lamb being sold will range from 4 1/2 to 12 months, the age when it officially stops being lamb. While the average market age is 5 to 7 months, most Texas

lamb are sold at 8 months or older.

Age, according to Hines, will not greatly influence the taste of genuine lamb. "There are good eating quality lambs all the way up to 12 months," he said.

Price is an obstacle lamb producers face when trying to introduce their product to a new audience. The choicest cuts cost about the same as the most tender cuts of beef. Gourmets are more likely candidates for such higher priced items as rack of lamb. A number of cuts, however, fit mid-range budgets comfortably. These include shanks, shoulder chops, riblets, neck slices and ground lamb.

Cooks who have never prepared lamb should find this information from TDA home economist Carol Ware helpful:

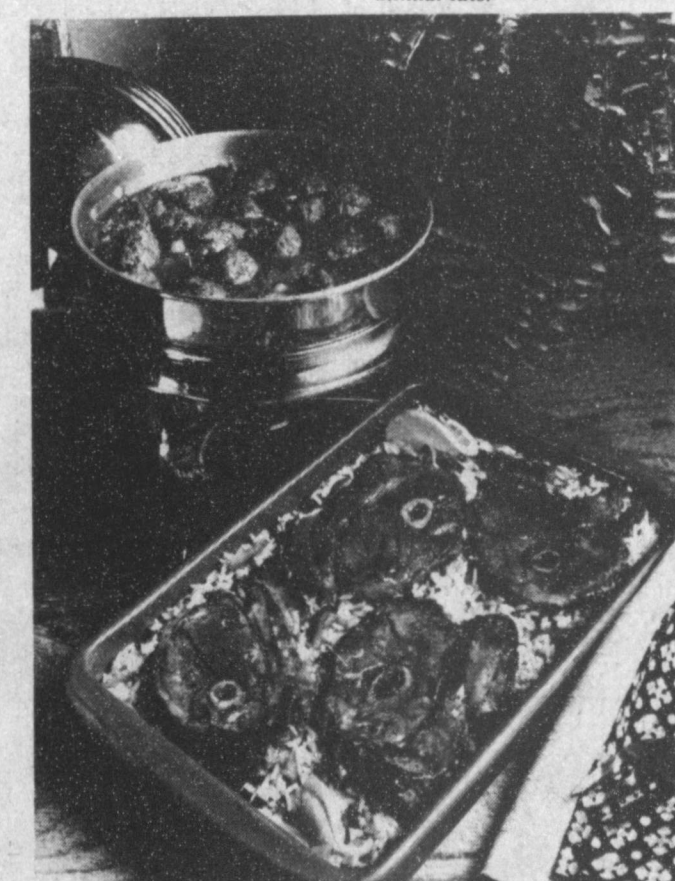

All but the most inexpensive cuts are not fatty, and much of the fat on those can be trimmed away. Improved production and feeding practices have resulted in larger, meatier carcasses with less body fat and less marbling in the tissues. Three ounces of roast leg of lamb trimmed of separable fat equals 158 calories. The same three ounces contains six grams of fat compared with 13.1 in a slice of apple pie and 9.1 in an ounce of cheddar cheese.

High quality lamb has a smooth covering of clear, pinkish-white brittle fat over most of its exterior. A papery material called the fell covers the fat. The fell ordinarily is removed from chops but not from legs where it helps to retain the meat's shape and juiciness.

A temperature no higher than 325 degrees F. is recommended for roasting to keep shrinkage and juice loss to a minimum. Basting is necessary only when the meat is roasting on a spit or when a glaze is being added. Lamb should not be cooked covered if a true roast is desired.

Experimenting will help determine the desired degree of doneness. Some people like lamb rare to medium (140-150 degrees F.), but preferences in the U.S. usually fall closer to well-done, an internal temperature of 160 degrees. Beyond that lamb tends to dry out. A meat thermometer is recommended for accuracy.

If cooking lamb releases an undesirable odor, the heat probably was too high. Lamb fat is classified as "hard" fat, which burns at a lower temperature than other animal fats.

LAMB CONSUMPTION IS on the rise in Texas as newcomers to the state bring their food preferences with them. Sales of wholesale lamb have risen 500 percent in Houston in the past 10 years and 300 percent in Dallas.

STATE U.I.L. COMPETITION—Sudan Students who competed in State U.I.L. competition included: Wade Donnell and Lauri Ann Damron, who placed fifth out of 12 teams, in Debate; and Raymond Espinoza, who placed first in Calculator and Spelling.

Inexpensive lamb riblets are good for barbecuing. Cut from the breast, these little ribs are lean and meaty when trimmed of fat.

To cook lamb chops, turn them every 2 - 3 minutes to retain juiciness. This method is preferable to cooking on one side, then the other.

Mutton, that sheep in lamb's clothing, is sold only to commercial processors and—believe it or not—certain gourmet restaurants. Have no fear that the butcher will substitute a ringer. Mutton is practically unavailable in this country.

Now that you are ready to try lamb or continue your romance with it, here are some recipes from the TDA test kitchen.

ROAST LEG OF LAMB WITH MUSHROOMS

5 lb. leg of lamb
3 T. lemon juice
Pepper to taste
1/2 tsp. ground rosemary
12-14 lg. mushroom caps
1/2 C. butter or margarine
1/4 C. red wine

Combine lemon juice, pepper and ground rosemary. Brush on lamb. Place roast, fat side up, on rack in open roasting pan. Insert thermometer in muscle, being careful not to let it rest against a bone or in fat. Do not cover. Roast in preheated 325-degree F. oven. 30 minutes per pound until thermometer registers desired degree of doneness. About 1 hour before meat is done, brush with remaining lemon juice mixture. Allow leg to stand 15 minutes before slicing. Meanwhile, saute mushrooms in butter. Add wine and heat briefly. Serves 6-7.

TOMATO-SAUCE LAMB MEATBALLS

1 lb. ground lamb
1 lightly beaten egg
1 T. parsley flakes
3/4 tsp. garlic salt
1/3 C. dry bread crumbs
1 med. chopped onion

1/3 C. chopped green pepper
1/2 C. sliced green onion
1 (14 1/2 oz.) can tomatoes

Combine lamb, egg, parsley flakes, garlic salt, bread crumbs and chopped onion. Shape into meatballs. Brown meatballs in skillet. Remove and set aside. Saute green pepper and sliced onion in pan drippings until onion is translucent. Pour off excess fat. Return meat to skillet. Add tomatoes and simmer about 15 minutes until meat is tender and vegetables cooked. Serve over a bed of rice. Serves 4.

BIBLE VERSE

Ye will surely say unto me this proverb, Physician, heal thyself.
1. Who made the above statement?
2. To whom was he speaking?
3. Upon what occasion?
4. Where may this verse be found?
Answers to Bible Verse
1. Jesus.
2. The people, in his hometown of Nazareth.
3. His first visit to Nazareth after inaugurating his ministry.
4. Luke 4:23a.

CHECK LABELS ON FORTIFIED FOODS—If you buy iron-fortified foods, check the nutrition label for the percent of the Recommended Dietary Allowance (RDA) it contains, says Texas A&M University Agricultural Extension Service nutritionist Mary K. Sweeten. Preschool children, women of childbearing age and pregnant women are at greatest risk of developing iron deficiency. Adding iron to some foods can help assure that people get adequate amounts of iron, but can also mean that others may get too much, she cautions. The Food and Drug Administration has established some product standard for iron. However, many products such as breakfast cereals do not have standards and may contain amounts of iron ranging from a trace to 100 percent of the RDA. Sweeten advises consumers to consider their individual need for added iron and use the nutrition label as an important shopping tool when buying fortified foods.

"In 1984, I intend to plant 110 acres of cotton, and I intend to use Burst on every acre!"

Burst® Yield Booster™ is here — and High Plains cotton farming will never be the same again! Burst is a plant bioregulator which promotes increased yields of lint and seed through hormone activity. What kinds of yield increases? We asked Burst user Larry Stokes:

—Larry Stokes
Plainview, TX

"In 1983, I treated cotton with Burst at 1/2 pint per acre at about ten to 15 percent bloom stage. The test plot was treated exactly the same as the rest of the field — watered the same, plowed the same and harvested completely separate from the Burst-treated and ginned completely separate. My Burst-treated cotton yielded approximately 80 pounds more lint per acre than the check plot. The root system of the Burst cotton was noticeably better, and the fruiting of the Burst cotton was somewhat closer together."

And Burst will make a believer out of you, too — just prove it to yourself!

Your Burst Authorized Distributor is ready to show you how to significantly increase your yields through Crop Physiology Management (CPM)™ and the use of Burst Yield Booster!

HERE'S A
REAL
MONEY MACHINE!

You can start your own money machine with the help of our classified pages.

Check your attic, garage, storage areas, for things that you've had a long time and are not being used. Although these items are of no use to you anymore, they are to someone else.

By placing an inexpensive classified ad you can sell those unwanted items fast. Our classified advertising representative can help you write a result-getting ad. Call now and start the machine rolling. It's easy to use the classifieds!
