REVOLVER DUEL BRINGS CLIMAX TO FUSS OVER CUSTODY

(By Associated Press)
MAUD, Okla., Feb. 5.—An argument over a woman prisoner, culminating in a revolver duel in the city hall of this boom oil town today, resulted in the death of Grady Maloy, patrolman, and the probable fatal injury of Melvin Corbin, night chief of police.

The woman, known only as "Anna," was arrested for drunkenness by Maloy during the night, and the argument arose over the advisability of releasing her after two men had been up and down for her. Corbin declared the woman was too intoxicated to be released, witnesses said, and Maloy insisted she should be turned over to him.

Carlsbad Highway Body Will Session

The Carlsbad Highway association, organized at Paducah last fall to aid in the national designation of a highway from St. Louis to El Paso, meeting at Oklahoma City, Tuesday, Feb. 5, to discuss the proposed route.

J. E. Watkins and Tom A. White are the local members of the association and it is thought that they will be successful in their efforts to have the highway designated.

FLU KNOWS NO RANK OR TITLE

THOUSANDS ARE ILL OF EPIDEMIC RAGING IN EUROPE

LONDON, Feb. 5 (P).—Thousands are ill in Europe today as a result of an epidemic of influenza from which few localities were spared.

In Paris the victims included President Doumergue, Premier Raymond Poincaré and his ministers, Aristide Briand and Georges Leygues. Their cases were mild, but there was a more serious aspect to the epidemic of influenza, which in London had complicated a prior heart and kidney ailment.

Here's Another Use For Them, Girls

"Roller skates" have long been humorously cited as a convenient article for any college girl to keep around but only recently have ingenious girls at the Tech evolved the idea of using them in making "long hops" across the wide open spaces of the college campus.

Distance between buildings on the campus is so great that students are rushed to make different buildings in time for classes in the short interval allowed between periods.

TOWNS ALONG ROUTE FAIL TO REPORT FLIER

PLUCKY CAPTAIN WAS DUE TO PASS OVER PLAINS COUNTRY

(By Associated Press)
NEW YORK, Feb. 5.—Curtiss and Roosevelt flying fields were waiting at 1 o'clock this afternoon for Captain Frank M. Hawks who left Los Angeles late yesterday on an attempted non-stop transcontinental hop which he hoped would be a record breaker.

The last definite word from the aviator, who had planned to reach his goal before noon, came last evening from Tucson, Ariz.

He was sighted there at 9:08 p. m. Pacific coast time, flying high over the desert, and was reported to have been probably run into bad weather after leaving El Paso, Texas, and that he would find flying conditions unfavorable until he reached Pittsburgh.

PLANE AVERAGES 145 MILES AN HOUR

LOS ANGELES, Feb. 5 (P).—The seldom realized project of aviator Captain Frank M. Hawks today of making a non-stop flight from Los Angeles to New York, was the goal today of Captain Frank M. Hawks of Houston, Texas, who hopes to shatter the transcontinental record in a flight from Los Angeles to New York.

Flying an improved model Lockheed ship, similar in design to the Yankee Doodle, Hawks averaged 145 miles an hour in the first leg of his flight which took him over Tucson, Ariz., where he was sighted at 9:08 Pacific time, last night. The plane was flying high and the

PARIS, Feb. 5 (P).—Marshal Foch was able to get some sleep last night after an attack of indigestion had disturbed his earlier hours, his physicians, Drs. Daveniere and Heitz-Boyer, said today. The attack left the marshal tired and with an increased temperature, they said.

JUVENILE NIGHT CLUB IS RAIDED

BAKERSFIELD, Calif., Feb. 5 (P).—Thirty-five boys and girls of high school age, some of prominent families today, were sent before the grand jury as a result of a raid on a "Juvenile Night Club."

Promiscuous Boozes And Ob- scenity Described

Superior Judge Owen and Probation Officer Johnson said liquor was being sold at the "club," that the walls of the building bore writing and drawings "indiscreetly obscene" and "that the meeting place of the young people at the Union Street Club 'cloaked many actions which would not have found sanction from the parents.'"

Al Cole, adult, is held responsible for maintaining the club.

ON NON-STOP HOP

Captain Frank M. Hawks, veteran Texas pilot, chose a route that lay across the South Plains country for his attempted non-stop flight from Los Angeles to New York, started late yesterday. Captain Hawks was to pass over the South Plains and then turn northeast so as to go over Chidress. He hopes to establish a new transcontinental non-stop record.

Living and Loving

Committing suicide for spite is

even worse than marrying for spite, which is to me the last word in folly. You see when you're dead it's so sort of final. If you were sure you would return in the spirit to the scene of your troubles and grief—if you're that kind of a person—over the one you wished to make feel that there would be some satisfaction in it. But, you have no assurance that such will be the case, and so, it seems to me the whole point is lost.

And then, wouldn't it be a shock, if I did kill myself because the one you loved married another, and you came back and expected him to feel bad, and you heard him say that that was just what he would expect of you, and that is the real reason he married the other girl—you never did have any sense, anyhow.

So, on all counts, I am glad the girl who wrote the following letter did not put an end to her existence. And I am willing to wager that she will be glad, too, when Mr. Right Man comes along and she loves him more than she ever did the chap who let her think she was the one girl and then sent her his wedding invitation instead of a diamond.

Dear Virginia Lee: I am 21 and my life is simply wrecked. I loved a young man passionately and I thought that he loved me, too. We have been keeping company steadily since I was 15; in fact, we were practically engaged. Then suddenly I received the invitation announcing his wedding. At first I was so stunned that I couldn't realize then desperately I thought of drowning myself to make him regret to wound him cruelly as he did me. But my friends persuaded me that it would be of no avail, and so I have settled down and fully prepared myself to lead the life of a lonely spinster.

"Mrs. Lee, tell me, do you know of any way I could possibly win him back? This is the only great love of my life. I beg of you to please print this as a warning to other girls not to be fooled by young men appearing to care for them."

"DESERVED"—It won't do any good, dear, because they'll all think their particular boy friends would not do such a thing. And instead of sympathizing with you I'm going to congratulate you on your escape. Do you suppose he's going through life deceiving his wife as he deceived you? He'll be punished enough, don't worry, and the girl has drawn no prize. What satisfaction would there be in winning him back? Rather be a spinster, as you threaten, even a lone one. Try to be brave, chin up and eyes to the front, and I am sure in time you will be happy.

BATON ROUGE, La., Feb. 5 (AP)—Successful in ousting Dr. Oscar Dowling as president of the Louisiana board of health, Governor Huey P. Long has appointed a successor to Dr. V. K. Irion, state conservation commissioner.

The superstition that it is unlucky to be married in May originated with the ancient Greeks.

"Dirty ring around the washtubs" is a dangerous sign

IT MEANS the clothes aren't snowy white. It means there's dirt in them. It means scum forms when you put soap in the water. And that means you're using hard water. Scum always forms in hard water.

What to do? Soften the water with MeLo and it is a wonderful cleaner, with or without soap. No dirty ring forms. The clothes wash snowy white. Delightful suds. And you use only 1/2 or 3/4 the amount of soap ordinarily used in hard water. Get rid of that dirty ring! Get rid of it by buying and using MeLo. Get MeLo at your grocer's or write:

TECH SUMMER SESSION NOT AFFECTED BY HOUSE ACTION

The summer school of Texas technological college will not be affected by the failure last Saturday of the house appropriations committee to vote full appropriations for the school, Dr. Paul W. Smith, president of the institution, stated last night. He said that appropriations for the summer school are already been voted, and that in opinion Tech will not have suffered when the final action is taken on the appropriations.

The matter will next come up before the free conference committee composed of members of both the house and senate.

Dean James M. Gordon of Tech yesterday said plans for the summer school were progressing rapidly. Twelve weeks in duration, the school will use the regular faculty with a number of noted educators in addition. The first term will be from June 3 to July 13, and the second term from July 15 to August 23.

The annual trip to Carlsbad, N.M., under the direction of faculty members will again be scheduled on the summer's program, with about 100 students expected to go, Dean Smith said yesterday. The summer catalog will be given to the students in the near future.

Man To 'Bear Down' On Booze Peddlers

AUSTIN, Feb. 4 (AP)—The Martin bill to "bear down" on bootleggers and bring about less harsh treatment of the small buyer of intoxicants has been passed by the senate. The bill would permit prosecution for the sale of liquor in any county to which that liquor was transported.

Under the present law a person who sells liquor under protection in one county is out of danger, Senator Martin said. "He may and often does deliver the intoxicants to a resident of another county who then goes back to his own county. The bootleggers care little how much life and property is endangered by the buyer."

Easterwood Seeks Flight Approval

ROME, Feb. 5 (AP)—Colonel William F. Easterwood of Dallas, Tex., and Lieutenant Commander Beiler, United States air-attaché, have conferred with General Falbo, under-secretary for aviation. The general gave Easterwood assurance that the government would sponsor during the coming summer, a non-stop flight from Rome to New York and Dallas in competition for the \$25,000 prize Easterwood has offered. The Texan is to see Premier Mussolini Wednesday.

In every city she passed through, she said in explaining that the "devil" had been unsuccessful, newspapers carried great headlines announcing her disappearance.

Banker Sought In Georgia Is Found

MACON, Ga., Feb. 4 (AP)—George E. Patterson, executive vice-president of the Big Fourth National Bank of Macon, which closed Nov. 26, 1928, has surrendered here and given bond of \$25,000, to answer a charge of "misapplication of money, funds and credits" of the institution. The sum involved was about \$50,000.

Patterson was recognized as one of the leading bankers in Georgia.

Portuguese River Claims 26 Bodies

LISBON, Portugal, Feb. 5 (AP)—The waters of the Douro River near Oporto held the bodies of twenty-six members of the crew of the German cargo steamer Delster today.

The steamer was driven on the rocks during a gale, a huge hole in her side causing her to founder immediately. The crew assembled on the top deck but enormous waves hurled twenty of them into the water before they could fit on life preservers. Six others held to the ship as it sank. Rescue boats did not find a trace of any of the men when they reached the scene.

IMPEACHMENT MOVE STARTS

OHIO STATE TREASURER COMES UNDER QUIZ OF LEGISLATURE

(By Associated Press)
COLUMBUS, Ohio, Feb. 5.—Impeachment proceedings have been started in the legislature against Bert B. Buckley, state treasurer, convicted in federal court of attempted bribery and conspiracy to violate the prohibition laws.

Governor Myers Y. Cooper initiated the action last night after Buckley had refused to accede to the governor's demand that he resign.

The house unanimously adopted a resolution calling for investigation of Buckley's conviction.

Buckley, the first state official to face impeachment in Ohio is free on \$10,000 bond pending argument Monday on his appeal from the federal court conviction. He faces a maximum sentence in the federal penitentiary of 25 years and a fine of \$27,000.

Chief officer Harry Manning says:

"Reach for a Lucky instead of a sweet."

"WHEN I climbed aboard the 'America' after those cold, strenuous hours getting the men off the freighter 'Florida,' there was nothing I wanted so much as a Lucky—'By George,' it tasted wonderful! A Lucky is always refreshing. My tense nerves relaxed, my aching throat was soothed and the whole thrilling adventure just seemed a part of the day's work. As time goes by, and as I look back to that memorable night, I'll always remember the wonderful taste of that welcome Lucky. As I went around to visit the men we'd rescued, I found many of them enjoying Luckies, too. We really couldn't wait to get back to our ship and 'Luckies.' As an actual fact in returning to the 'America' I noticed one of our men* rowing with one hand and lighting a 'Lucky' with the other. There's no flavor to equal toasted tobaccos, and I always prefer Lucky Strikes. There's wisdom in the saying: 'Reach for a Lucky instead of a sweet.' It helps a man to keep physically fit and we who follow the sea must always be prepared for any emergency."

*The man mentioned by Chief Officer Manning was Boatswain's Mate Aloys A. Wilson.

EARLY DATE TO HURT NET PLAY

MAY 8 IS TIME SET FOR
SECOND ROUND IN
COMPETITION

PARIS, Feb. 5.—The date set for the completion of the second round stands as the only serious threat to the United States in its path to the Interzone final of the 1929 Davis Cup competition. It was decided yesterday when the draw was made that the round must be concluded before May 8 when the tennis season has barely opened in Canada, the first opponent of the United States.

It seems almost impossible for the authorities to arrange a schedule for a match between the United States and the dominion and one between the winner and Japan at so early a date.

Scott-Heaney Go May Be Next Bout

LONDON, Feb. 5.—Phil Scott's financial backer today offered to post side-stakes of 2,000 pounds sterling for a fight for the "world" heavyweight title between Scott and Emanuel.

Scott considers himself the most likely contender for the heavyweight title by virtue of two decisions over Heaney. The Australian as Tunney's last challenger is considered the logical claimant of the world title itself, according to British fight followers, now that Tunney has retired.

BUSINESS COLLEGE FIVE LOOM AS CITY CAGE TITLISTS

HAND ARMORY TEAM LACING IN MONDAY GO

RUNNER-UPS OF FIRST
HALF NOW CLEARLY
OUT OF HONORS

The Business College five of the City League continued their march toward the championship of the city basketball league last night at the high school gymnasium by handing the National Guard saggers their third straight defeat since the second half of the season started. The score was 32 to 22.

Playing a slightly ragged game, both teams were considerably off form, the contest being marred by frequent personal fouls.

Grabbing the lead early in the game, the College five, led by Kelley, Bryant and Kerr, held the upper hand throughout. The Armory five, minus the services of their center and scoring ace, "Bulldog" Hale, used Baker, a new recruit, to advantage, trailing behind with the small end of a 16 to 10 score at the half, the Soldiers came back stronger in the second half to threaten the lead of the Bookkeepers.

The Business College team pulled away in the final stages of the game to take a comfortable lead. Kelley, Bryant and Miser figuring in the rally. Cecil Kelley with 16 points carried off scoring honors for both teams and Kerr, his teammate, came next with 8. Adkinson and Reavell with 6 points each led the Armory scoring. The all-around play of Curtis Allen, Army guard, was the feature of the contest.

The score: Business College F. G. F. T. P. K. Kelley 8 0 16 B. Bryant 3 1 6 C. Kelley 4 0 8 M. Miser 1 0 2 K. Kerr 4 0 8 R. Reavell 3 0 6 A. Adkinson 3 0 6 W. Wright 0 0 0 B. Balestine 0 0 0 Totals 19 2 32

National Guard F. G. F. T. P. A. Adkinson 3 0 6 R. Reavell 3 0 6 B. Balestine 0 0 0 A. Allen 1 1 3 R. Roberts 0 0 2 Totals 8 6 22

Business College girls met a strong comeback on the part of the Bell Telephone sextette in the second half of the opening contest, barely nailing out the switchboard crew 17 to 16.

Trailing behind four points at the half, the Bell girls got their long range guns in action before the game was over and were going when the final whistle sounded.

Ellison scored 14 of the 17 points registered by the winners to carry off high point honors. Merle Luck was high point scorer for the Bell girls with 9.

WORLD BILLIARD TITLE INSECURE

NEW YORK, Feb. 5.—The world's 182 balliards crown rested a trifle insecurely on Edouard Hoernemans' head today.

The Belgian made an inauspicious start in defense of the game's most coveted title last night when he bowed to Kinsey Matsuyama, the Japanese, 49 to 22 in 16 minutes.

It was the first match in the championship round-robin tournament in which Hoernemans stakes his crown against the assaults not only of Matsuyama but also of Welker Cochran and Young Jake Schaefer, of the United States, Eric Hagenlacher, of Germany, and Felix Grange, of France.

DEAN OF WRESTLING COACHES

BY JACK SORDS
Sports Cartoonist-Writer for Central Press and Journal

Be Gallagher, director of athletics and head wrestling coach at the Oklahoma A. and M. college, is the Knute Rockne of the mat game. Like the Notre Dame coach in football, Gallagher has had a habit over a long period of years of producing winning teams.

He took charge of wrestling at the college in 1914 and lost only to Texas university that year. Then followed a string of victories that was not broken until 1921, when both Nebraska and Iowa State pinned his boys to the mat. Since 1921 the Aggies have won 44 consecutive dual meets, piling up 1,041-3 points to their opponents 214-1-2.

All in all his teams have engaged in over 100 matches with only three defeats chalked up against them. Out of this came three national championships, four Missouri Valley championships, and five Southwest conference championships.

Six Gallagher-coached men were on the 1924 and 1928 Olympic teams.

Rockne Didn't Leave
Before Sam Williams was appointed to succeed Jack Wiley as the head football coach at Ohio State the citizenry of Columbus was sent into raptures by the report that Knute Rockne was being lined up to take the job.

At about the same time the good people of Seattle were enchanted by semi-official information that the Notre Dame wizard had not been installed when he was offered the head man's job at the University of Washington.

Alumni of Notre Dame hastened to inform the misguided townspeople that they were all wrong and that they were in pursuit of a dream. Mr. Rockne was under a long-term contract from which he would not be released.

The failure of Columbus's effort to get him several years ago proved that. Furthermore, in addition, Mr. Rockne would not leave Notre Dame.

And Mr. Rockne already has sounded the spring football call at the University of Notre Dame. He will be seen in all the places that the wandering N. D. squad appears.

But He Was Going To
But, at one time late last fall and before the alert newspapermen found out about it, there was not only a probability but a strong possibility that Rockne would manage a change that would transfer him to Ohio State.

The newspapermen found out about it. One Columbus paper printed the story that Rockne was the new coach and the works were jammed.

When Rockne was approached by the agents of Ohio State he called their attention to the fact that he was not at liberty to talk business. There was the matter of a contract that had several years to run.

He did not dismiss the subject entirely, however. He had an idea that he might get a release from the contract. But there could be no mention or even a hint of another offer. He would have to sell the idea that he ought to be allowed to resign.

PONIES KICK OVER STEERS' TITLE HOPES

UPSET PREDICTIONS BY
NOSING OUT TEXAS
UNIVERSITY

DALLAS, Feb. 5.—Texas university's heretofore slim chance to win the Southwest conference basketball championship was thinner today.

Southern Methodist university, stalling to ably that the Orange was put off its stride, nosed out Texas 33 to 32 here last night in a game so rough that six scalds, three from each side, went out for personal fouls.

Even considering the stalling, though, the Longhorns might have won had Looney, center, not fouled Brooks 15 seconds before the sun.

The Mustang sank his free fry and the game was ended before the ball got back in the play.

Texas now would have to win every game remaining on its schedule, including two with Arkansas, to wrest the title from the Razorbacks, four time champs.

MEHLHORN IS AGAIN WINNER

CARRIES AWAY FIRST
HONORS IN HOT
SPRINGS TILT

HOT SPRINGS, Ark., Feb. 5.—Trailing by a score of more of golf's outstanding luminaries, "Wild Bill" Mehlhorn trooped out of Hot Springs last night with the major portion of the \$5,000 prize money in the annual South-Central open tournament tucked away in his pocket.

The victory yesterday after an 18 hole playoff with Bobby Cruikshank and Horton Smith, was Mehlhorn's third major win in a few weeks.

Mehlhorn had little trouble in distancing his two rivals, finishing two under par 72 to lead Smith by two strokes and Wee Rabby by six, after the three had tied at 290 strokes at the end of the 72-hole play.

Mehlhorn's remarkable winter record including a world's record 7 in the El Paso Open and a 277 in the Texas Open at San Antonio.

The Pensacola open was the immediate objective today of the trailing golfers.

RALLS FATTENS LONG STRING OF TRIUMPHS

FIGHTS LAST
NIGHT

CHICAGO, Feb. 4.—Ralls Jackrabbits added another to their long string of victories here tonight by downing the Idalou Wildcats 28 to 17 in a fast basketball game.

The Rabbits jumped into the lead at the outset of the game and held the upper hand throughout, leading the Wildcats 13 to 9 at the end of the first half. "Flashy" Walker was again high scorer for Ralls, accounting for 12 points and Easter of Idalou came next with eight.

After the main event, the Ralls reserves defeated the Idalou reserves to the tune of 32 to 24.

Ralls will meet the Leveaux quintet here tomorrow night in a county championship contest. Following their crucial tilt with the Lubbock Westerners at Lubbock Thursday night, the Jackrabbits will go to Floydada to enter the invitation tournament held at that city Friday and Saturday. Approximately 24 teams are expected to compete.

BOTH GAMES PROMIS
TO BE THRILLERS
FROM START

Tech Matadors vs. Canyon Buffaloes on the college basketball court tonight will furnish an idea background for a whirlwind battle of the baskets. Primed for the invasion of Coach S. D. Burton, Thundering Herd, the Tech basketballers are on edge for what promises to be a thriller from start to finish.

Coming tonight for the first of two game series, the West Tech Teachers present the most dangerous threat the locals will meet this season. Although practically counted out or the T. I. A. A. race to Floydada to enter the invitation tournament held at that city Friday and Saturday. Approximately 24 teams are expected to compete.

The Buffs have a decided edge over the Tech basketball teams all time, having won the majority of their games with the Matadors. A fast improving Tech quintet figured this year, however, to have an outside chance to divide the Lubbock series with the herd.

Highly pleased with the performance of his pupils against the Buffs last week, Coach Payne willingly sent the same starting combination into the game tonight, took the floor against the Brownwood team. Pace and Hodges, forwards, Fincher at center, Walke and Vinant at guards should be able to give the Buffs plenty to think about.

HOCKLEY ASKS DESIGNATION

BUSINESS MEN HERE IN INTEREST OF AID FOR HIGHWAY

In an effort to secure designation on the highway to Levelland directly west of Lubbock, committees of Lubbock and Hockley counties met in joint session last night. Plans were discussed to inaugurate a movement to get the road in shape to be designated.

The highway from Lubbock to Levelland last year was designated by the state highway department on the condition that certain requirements be met. No attempt has been made to meet all of the requirements.

The meeting was called by W. R. Blake, chairman of the committee, who was recently appointed by Chas. F. O'Neal to work for designation on the Levelland highway.

The Levelland visitors included: County Judge D. E. McGee, Judge John H. Doyle, president of the First National bank, J. M. Mabe, formerly county judge of Crosby county, and Sam Combs, insurance.

W. A. Fincher and G. K. Horton of Amarillo were present. Lubbock men present included: Chas. F. O'Neal, W. R. Blake, M. G. Abernathy, Claude Hurlbut.

A general meeting is planned at Levelland February 14, and a committee from Lubbock and Hockley counties will go to Morton February 11 to confer with the commissioners court there regarding the highway.

NICARAGUA REBEL CHIEFTAIN HELD

MANAGUA, Nicaragua, Feb. 5 (P)—

First Lieutenant Herman Henry Hanneken, U. S. M. C., of Missouri, has captured Manuel Maria Jiron, one of the chief leaders of Augustino Sandino's forces and head of the expedition which destroyed American mining property in the Pispis river district last April.

The capture took place in the department of Jinotega where Jiron has been terrorizing coffee plantations. Details of the exploit have not been received.

FIRST YEAR ENDS

Next Season Will Boost Operation 100 Per Cent

DALLAS, Feb. 5 (P)—Texas Air Transport executives and pilots will celebrate the first successful year of the company's operation Wednesday by launching to a program for the coming year designed to increase its operation 100 per cent.

During the first year of operation the company carried 84,000 pounds of air mail, and piled up 5,488 flying hours. This was done without injury to a pilot, passenger, or member of the ground force.

In the coming year the company, reinforced by seven new air passenger liners, hopes to inaugurate a service to go to all corners of the state.

Russia And Black Sea Group At Peace

WARSAW, Feb. 5 (P)—For the first time in the history of the union of Socialist Soviet Republics, Russia and her western neighbors from the Gulf of Finland to the Black Sea are to sit at a council table.

This will take place Feb. 7 in Moscow when representatives of Russia, Poland, Rumania, Estonia, Latvia, and Lithuania are to sign a protocol for enforcement of the Kellogg pact between those countries.

Charge Efforts To Mistreat Prisoners

PHILADELPHIA, Feb. 5 (P)—Two warrants charging assault and conspiracy to abuse prisoners at the county prison were issued yesterday for Charles F. Sorber, former assistant superintendent. A hearing was set for today.

Sorber recently resigned. Among the allegations against him was one that a strong arm squad was employed to administer beatings to newcomers. "Just to show you who is boss here."

Gordon Named To Be Banquet Toastmaster

Dean James M. Gordon of Tech has been asked to be toastmaster of a fellowship banquet by the convention of Presbyterian men in Waco, February 26, at which 600 persons are expected to attend. The principal speaker will be Dr. William C. Covert, Philadelphia, head of the Presbyterian board of education.

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

The bear that came out from the trees just wobbled round a while with ease. It looked real clumsy with its body swinging to and fro. Each Trouble Tot and Tinymite kept very quiet, out of sight. Just what was going to happen next of course they did not know.

Soon Clowny whispered, "Seems to me that he's as tame as he can be. Let's run right out and play with him. Perhaps he'll be real kind." Just then, however, Mister Bear began to jump and roll and tear. And when he reared aloud it made poor Clowny change his mind.

"Oh, no!" he whispered. "Don't run out. I really haven't any doubt that we would all be chewed right up. We're safer where we are. No doubt the bear will soon go 'way, and if he does I hope he'll stay. Whatever place he's heading for I hope it's good and far." By this time Scouty got a hunch, which he explained to all the bunch.

"I have a rope which we can throw across the ground," said he. Then Clowny said, "All right, you stay right here and I'll skip across the way. When I'm behind that big oak tree, you throw the rope to me."

When Mister Bear was turned around wee Clowny sneaked across the ground, and hid behind the monstrous tree across from Scouty's stand. Then Scouty shouted, "Here I go. Be ready now 'cause I will throw the rope right through the air and you can catch it in your hand."

The rope then sailed across the ground and Clowny caught it safe and sound. Just then the bear began to run. He headed toward the rope. In just a moment he fell flat. We've tripped him, and if we are quick we'll tie him tight, I hope."

Thought For Today

For we hear that there are
some which walk among you
orderly, working hard, at all
are busybodies.—II Thes. 3:12.

Civil dissension is a viperous
worm that gnaws the bowels of the
commonwealth.—Shakespeare.

Saving

Every now and then something
happens to prove that the human
race has almost unlimited capacity
for sacrifice and self-sacrifice.

Unfortunately, however, this great
capacity can be put to work for a
destructive purpose quite as easily
as for a constructive one.

During the recent rebellion in Af-
ghanistan when the semi-barbaric
armies were marching on the cap-
ital, it looked as if foreigners living
there were going to be in great
danger. So a group of British army
aviators undertook to remove them to
safety.

A huge military bomber, capable
of carrying two dozen passengers,
and two smaller planes, all of them
to the capital from a base in British
India. In a week they had carried
a great number of foreigners
mostly women and children out of
frenzied Afghanistan to the safety
of British territory.

The feat went almost unnoticed in
the daily press, but it was as thrill-
ing as anything aviators have done
in years.

Atrocious weather made flying
dangerous. To complete the trip the
aviators had to soar high over the
Himalayas, where the least mishap
would mean death. Snow storms and
high winds complicated an already
perilous assignment. The flyers were
themselves to the point of exhaustion
and risked their lives over and
over again.

A story like that makes good
reading. One likes to think of those
young Englishmen accepting such
tasks without thought of their own
safety, ignoring all danger in order
to get a group of helpless women
and children to safety. I prove
once more the courage and unself-
ishness that are inherent in the
human heart.

But there is another way of look-
ing at it. It is not so endearing
the same bravery and loyalty that sent
those flyers over the Himalayas on
their rescue mission would send them
in time of war to dare even
greater risks in order to spread
death and destruction. They would
take their lives in their hands—not
to carry women and children to
safety, but to carry bombs that
would fall on defenseless towns and
blow women and children to bits.

The spirit of the flyers themselves
would be precisely the same. They
would be sustained by exactly the
same combination of faithful cour-
age and willingness to sacrifice
their own lives for the sake of an
intangible ideal. They would go out
to kill with just the same nobility
of purpose that they went out to
save.

That doesn't apply to aviators
alone, of course. It holds good all
along the line. Often, the noblest
emotions are what make war pos-
sible. The navy divers who own the
Congressional Medal of Honor for
their bravery in trying to save the
men on the sunken S-4 would risk
their lives just as gallantly in time
of war, to send other men to the
bottom forever.

Our hearts, it must be, are greater
than our heads. We have within
us the capabilities to bring about
something very close to the brother-
hood of man. But we don't know
how to use them. Until we learn,
there isn't much hope of real pro-
gress.

Germany's Cruiser

Dispatches from Europe indicate
that Germany has launched a new
cruiser that may revolutionize war-
ship construction.

Limited by the Versailles treaty
to eight hundred tons, the new
cruiser is being built at a cost of
\$10,000,000. It is said to be far
more powerful than any ship of its
size afloat. It carries 11-inch guns,
and is said to have a new type of
armor far more effective than any-
thing in existence.

It would be interesting if Ger-
many, though improved technical
methods, should be able to develop
a fleet that could rank with those
of her conquerors. Interesting, yet
not surprising, after all. Modern
war is becoming more and more a
matter of technical experts, and
Germany can meet any country in
the world in that field.

THE PLAINSMAN

(By The Substitute)
That Girl on Broadway who hap-
pens to be a Tech student, thinks
that the legislature is very, very
careful how it spends the people's
money—at the wrong time.

Elimination of Tech's request for
summer school funds may be wise
economy for the state. The vener-
able gentlemen who control the
purses and pocketbooks of the peo-
ple down at Austin are supposed to
know their business. Still, just how
and when it has become wise policy
to encumber the state's educational
facilities in order to save a few
thousand dollars for some other
purpose remains a mystery. Most
of the benefited constituency whose
voice in the government is some-
times restricted to moving a blue-
pencil across the ballot.

However, things are not as bad as
they might appear on the surface.
Tech's request for summer school
funds still has a good chance of
eventually finding its way to the
comptroller's office all decorated
with a legislative "ok."

The city commission yesterday af-
ternoon let the contract for con-
struction of a subway at the Broad-
way intersection with the Santa Fe.

That is real news. Absence of
underpass at the crossings here
has been for years one of the most
common faults pointed out in re-
gard to Lubbock's civic progress.
Long slow freight trains not in-
frequently block these crossings for
substantial and irksome periods of
time. Then there is constantly the
fear of accidents which lurks be-
hind any grade crossing.

Aside from these two reasons—
one of which is very taxing to the
patience and the other of which is
very trying on Lubbock's mortality
rate—civic pride alone should cause
Lubbock citizens to be glad that
the commission has at last made a
definite step looking to consum-
mation of the project.

The Man on Avenue Q says "I
told you so" to the few automobile
owners who braved the streets af-
ter February 1 without undergoing
the financial unpleasantness inci-
dental to procuring a 1929 auto-
mobile license.

John Keller, stern and stalwart
representative of the highway de-
partment in this part of the coun-
try, exercised generous considera-
tion for the pocketbooks of Lubbock auto
owners this year.

Surely there can not now be a
complaint after 33 days of grace
that he has begun to enforce the
state highway regulations.

Slaton is having a "smoker" to-
night for the business men and
farmers of that vicinity.
Lubbock is not jealous of Slaton.
Lubbock feels that Slaton has no
cause to be jealous of Lubbock.

There is abundant room for er-
roneous in this vast, thriving, won-
derfully productive country.

Slaton will make a good town
Lubbock will make, perhaps a bet-
ter town. Lubbock congratulates
Slaton on her idea for binding more
closely the farmer and the business-
man.

A wall of water five feet in height
swept down the ordinary dry bed
of the Double Mountain fork of the
Brazos in Garza county one after-
noon last fall and four automobiles
were swept from a concrete span
over the water and quicksand.

Only by a miracle was loss of life
prevented.

The several hundred tourists who
were stranded for days at that
crossing near Justiceburg were
doubtless happy to read in yester-
day's paper that a modern concrete
bridge has been opened for travel
over this stretch.

Distance to Slaton has been re-
duced by approximately three miles
through straightening of the high-
way and routing over the new bridge.

Little by little, the plains country
is securing the type of highways
which she deserves.

Now let's have a successful bond
issue in Lubbock county.

Hotels in one sense may be said
to give the best or the worst ad-
vertisement to any city.

Transients frequently derive their
impressions of a city from the pro-
gressiveness, courtesy and service at-
tached to the industry which is made
their stopping place.

Lubbock is fortunate in having a
modern hotel. Lubbock is doubly
fortunate in having another hotel
very definitely looking in the fu-
ture.

The new hotel will fill a very
definite need in this city.
It will undoubtedly mean that
Lubbock will get more state con-
ventions.

PROHIBITION OF NARCOTICS

Attempting to eradicate the liquor
traffic is not the only kind of na-
tional prohibition presenting un-
solved enforcement problems. Seizure
of a huge quantity of contra-
band narcotics in New York draws
attention upon another trade which
also beckons to smugglers with
promise of enormous profits, has its
hidden labyrinth of distribution
systems and thrives upon the harm-
ful appetites of mankind.

The extent of the illegal traffic in
narcotics in America is very diffi-
cult to estimate. The treasury de-
partment reports that the number
of offenses listed against the anti-
narcotic law increased from 1900
annually in 1913 to 10,000 in 1925.

The attorney general's report for
1928 shows an increase of 317 in
the number of convictions obtained
over the previous year, with a total
of 3,792 criminal prosecutions in-
stituted. Estimates of the number of
addicts in the United States vary
all the way from 200,000 to 4,000,000.

The treasury department declares
the most astute type of international
criminal is attracted into the

to curb the narcotic trade similar
to those used to enforce prohibition.
It has sought and obtained im-

to prevent smuggling. It has built
up an enforcement system within
the country. As with prohibition,
co-operation is sought, and a uni-
form law for enactment by states was
prepared by the World Narcotic De-
fense association a year ago.

The treasury department is opti-

In New
York
By
Swan

NEW YORK, Feb. 4.—Through
those romance-haunted auction
rooms of Manhattan where "col-
lector's items" fall "under the ham-
mer," stalk a strange assortment of
long-dead historic personages.

Thus, it is no novelty to hear the
auctioneer announce that this article
has been sold to "Dumas" and that
to "Napoleon" and the other to
"Shakespeare." Still others fall
to mysterious and anonymous per-
sonages, such as "the Doctor" or
"Colonel Q."

All this seems queer—well, it is.
But the answer is as simple as
the solution of a murder mystery
story once the last page has been
read. Scores of collectors of rare
books and other rarities do not wish
their identities to become known.

They protect their personalities for
a number of reasons. Some do not
wish to be bothered by peddlers of all
sorts of antiquities; others fear
thieves who might be out in search
of some particular items; still others
do not care to be known as col-
lectors and there are some who act
as agents and do not wish their con-
nections to be traced. It is quite
a mysterious business—this collect-
ing of rare things.

At one book auction house most
of the bidders are merely clerks
acting for some person whose
identity may be known to a few
other bidders—but they can't al-
ways be sure. One mysterious and
anonymous collector of rare Dumas
manuscript makes his purchases
under the disguise of "Musketeer."

The most famous of the pseudo-
onyms is, of course, "Dr. R," which
means Dr. Rosenbach, one of the
best known collectors in America.

It was Variety, I believe, that
named them "creep joints." They're
those myriad dance halls which
hure the lonesome hordes of young
folks caught in New York. Wan-
dering aimlessly up and down the
sidewalks of the city they drop up
to a "creep joint," whose electric
signs flash alternately, if cheaply.

The "hostess joints" are particu-
larly alluring to the army of lonely
young men. The hostesses are re-
cruited from the ranks of tens of
thousands of jobless girls, who are
passing attractive—and frequent-
ly quite pretty. Garbed in cheap
finery, they dance away the night
at so much per dance, plus tips
and because they learn that the
tip is mightier than the guarantee,
they grow hard and take to mean
and gold-digging tricks in order to
survive. Hundreds of them are on
the street at this time, and the
hardship which ends in "complete
sell-out." Thousands more are on
their way to petty larceny tricks
by which to increase their incomes.

From a hard-boiled hostess, I
learned the other night that a girl
gives them the "make good" in a
creep joint—is expected to turn in
a minimum of eight dance tickets
an hour. This averages up to about
24 a night. The price of "sitting
out," is higher than the price of
dancing, but the "rough boys" are
willing to pay this extra, since it
gives them the company of a pretty
maid and a chance to take to a
corner with a hip flask.

To the "creep joint" hostess, such
a prospect is an "umpty." An
"umpty," if properly wheedled, will
put up \$2.50 for a "roll" of tickets
at 35 cents per ticket. Of this the
girl is supposed to get 25 cents and
the house gets 10 cents. But it
doesn't always work that way.

The "sweet concession" is a racket
which dispenses ginger ale and such
to the boys who bring their own hip
flasks. In some of the "creep joints"
it isn't always ginger ale that's
served.

practice in any way.) You really
should go to a skin specialist and
get a diagnosis and correct treat-
ment.

From the chronicity of your skin
trouble, and the whiteness of the
patches, it may be possible that it is
pooriasis. While pooriasis is a very
difficult disease to cure, it can be
cured, and it is not wholly cured, it
can be controlled points out the
danger of its going on to other parts
of the body. It rarely goes on the
face, for it does not seem to oc-
cur on the exposed surfaces. I'll
tell you a little about the disease.

Definition: Pooriasis is a disease
of the skin, characterized by the
eruption of round or oval, bright-
red, itchy places, covered with more
or less silvery white, thick, adher-
ent scales; by occurring especially
on the extensor surfaces of the el-
bows, knees and extremities and up
on the scalp; by running a chroni-
cous course marked by remissions and
relapses.

It is not known what causes this
disease. Some authorities believe it
is due to some germ or fungus;
others believe it is a disease of the
nervous system, and may be the cause
of rheumatic and gouty tendencies
and feeble states of health are predis-
posing causes, and he also points out
that digestive and nutritional dis-
turbances certainly do cause recur-
rences in those suffering with the
disease, and may be the cause. Ex-
cess starches and sugars seem to be
contributory causes. (Pooriasis pa-

tients are very frequently over-
weight.)

As the disease seldom occurs on
parts that are exposed to the sun-
light, one of the effective treat-
ments, now is with the ultra-violet
ray machine which give off the
concentrated sunlight.

The textbooks list many sub-
stances that are used on the skin to
remove the scales. One of them is
salicylic ointment (5 to 10 per cent
in vaseline), or some other simple
treatment. We have had some re-
ports from our readers who have
tried this salicylic ointment and
found that it removed the scales ef-
fectively.

If you are an overweight, Miss A.,
reduce. Our pamphlet on the sub-
ject gives directions. If you are un-
derweight, build up. The same pam-
phlet gives directions. And you
should see a skin specialist.

Tuberculosis and Childbirth
"Do you think a woman who had
tuberculosis a few years ago, and
who is still 30 pounds underweight,
should bear children? MRS. M."

It is generally believed that child-
birth may cause a re-lighting up of
the tuberculosis condition, unless the
disease has been cured for at least
a year. I believe you should gain
weight, build up. You must ask
your physician for information
on this and the other subjects you
mention.

Yes, it is perfectly justifiable, and
the right thing to do, to ask him for
a consultation with a specialist be-
fore consenting to any serious opera-
tion.

We have an article which goes
into the diet in tuberculosis, from
which we have had many encour-
aging reports.

Editor's Note: Dr. Peters can not
diagnose, nor give personal advice.
Your questions, if of general inter-
est, will be answered in the column.
In turn. Requests for articles must
be accompanied by a fully self-ad-
dressed, stamped envelope and 2
cents in coin for each article. To
cover cost of printing and handling.
For the pamphlet on reducing and
gaining, 10 cents in coin, with fully
self-addressed, stamped envelope,
must be enclosed. Address Dr.

LINDY FLIGHT BOOSTS STOCK

AVIATION SHARES ALL TAKE JUMP AFTER NEWS REPORTS

(By Associated Press)
NEW YORK, Feb. 5 (AP)—Mixed price movements ushered in today's market, with most changes of a fractional character. Airplane shares were in good demand as a result of the widespread publicity given to Lindbergh's Pan-American flight. Wright opening 4 points higher and Curtiss 1 1/4. Chrysler, American Metals, Union Carbide and Victor Talking Machine opened 1 to 2 1/2 points higher. United Pacific and Johns Manville each dropped more than a point and International Nickel opened with a block of 10,000 shares at 65, off 1-8.

Some selling came into the rubber shares as a result of a further downward readjustment of the prices, the second since October. Most of the motors and accessories pointed upward in the early trading. Gabriel Snubber advancing to a new top for the year while Mack Trucks, Packard and Kohler. Hayes Wheel showed early gains of a point or so.

Rails continued to receive good support, with Erie and Canadian Pacific in the forefront of the early advance. Wright Aeronautical quickly extended its initial gain to 6 points, and Curtiss to 5. Borden moved up 3 and Eastman Kodak 2 3/4.

National Cash Register and Mullins Manufacturing fell back more than 2 points each on realizing, and a long list of issues, including U. S. Steel common, General Electric, Savage Arms and Montgomery Ward yielded a point or so.

Foreign exchanges opened steady with cables slightly higher at \$4.87 27-32.

D. A. Davis Winner Of Sales Awards

D. A. Davis, Frigidaire and Delco-Light dealer here, yesterday received two prizes, one of \$215 and the other \$100 in honor of reaching designated quotas in the sale of the two products here. Bill Craig and Monte Bowman both salesmen here, received \$164 and \$150 respectively.

Mr. Davis reports that the Fort Worth district of which Lubbock is a part, led the nation in Frigidaire sales and the world in Delco-Light sales. Together with three salesmen Mr. Davis will go to the Southwestern Regional convention of Frigidaire dealers in Fort Worth tomorrow.

AUSTIN, Feb. 5 (AP)—The Texas Press Association will hold its biennial mid-winter convention here Friday and Saturday. It has been the custom of the newspapermen for some years to meet in Austin during a regular session of the legislature.

LUBBOCK SCHOOL TEACHER ENDORSES ORGATONE

"I've Taken One Bottle Of Orgatone And Feel Like A Different Person" Says Mrs. Freda Schnitzer

Mrs. Freda Schnitzer, of 206 9th St., Lubbock, Texas, who has been a resident here for several years, and a school teacher, made a remarkable statement regarding Orgatone, recently to the Orgatone representative.

"About two years ago," she continued, "I started having indigestion and it has grown steadily worse all the time. I was very nervous, and was severely constipated, and was forced to take strong laxatives most all the time. I had very little appetite and didn't eat much on account of the food souring on my stomach and causing gas to form. I was just in a run-down condition and was so nervous, couldn't sleep at night, and always seemed to be tired and worn out."

"Orgatone was recommended to me by a friend and I saw where it was advertised so highly. I decided to try it. I have just taken one bottle and certainly feel the difference. Nothing I ever tried before taking Orgatone benefited me as Orgatone has. I am getting wonderful results. My indigestion doesn't bother me anymore, and I sleep like a log every night. I have a good appetite and eat anything I want. I am not nervous and restless anymore, and know that Orgatone has done me a world of good. I feel if I hadn't taken it, I would have had a nervous breakdown. I am glad to recommend it to anyone suffering as I did."

Genuine Orgatone is not a so-called secret or patent remedy but a new scientific treatment containing no alcohol or other false stimulating drugs and is sold in Lubbock, exclusively by the Bowen's Drug Store, under the personal direction of a special Orgatone representative.

COTTON TREND IS DOWNWARD

OPENING SLUMP MADE IN MARKET ON CABLE NEWS

(By Associated Press)
NEW ORLEANS, Feb. 5 (AP)—Lower Liverpool cables than expected caused an opening slump of 4 to 6 points in the cotton market and although a moderate demand developed after the start and rallied prices 4 points from the initial low, the improvement met renewed selling by ring traders.

March sold down to 18.90, May to 18.85 and July to 18.97, or 7 to 9 points under yesterday's close. The decline attracted some trade support and towards the end of the first hour the market rallied 1 to 3 points from the lows.

The market continued to improve under fair trade buying on scale. Opening 3-8c off to 1-4c, cotton subsequently scored a material advance all around. Wheat and oats likewise showed firmness, with wheat starting at 1-4c decline to an equal gain, and then rising after a slight general sag. Provisions were easy.

At noon the market was steady and prices were 1 to 2 points under the highs.

NEW YORK MARKET STEADY AT DECLINE

NEW YORK, Feb. 5 (AP)—The cotton market opened steady at a decline of 3 to 7 points. Active months sold about 6 to 7 points net lower in the early trading under further March liquidation combined with liquidation and some local selling in later deliveries.

May sold off to 19.58 and new October contracts to 19.97.

March declined to 19.32 and July to 19.24 but trade buying absorbed offerings at these figures. The market was quieter late in the morning, with prices working back to about yesterday's closing quotations. At midday there appeared to be a fairly good demand at about 19.85 for May and around 19.30 for July.

NEW PRODUCER IN LEA COUNTY

SKELLY-JOYNER NO. 1 COMES IN MAKING 1000 BARRELS

ROSWELL, N. M., Feb. 5.—Oil interest in southeastern New Mexico shifted this week from the Skelly-Joyner well to the Marland Oil company's Lockhart No. 1, which encountered more oil and gas last week and which seems certain to make a producer.

There was nothing new from the Skelly Oil company's Joyner No. 1, section 26-25-36, Lea county which came in last week for 1000 barrels from a depth of 3331 feet. Skelly Oil company's officials today described as wholly untrue published reports here that the well was making 2500 barrels.

Immediately after the pay was encountered in three feet of soft dominite, the well was shut in because of lack of storage facilities, and nothing has been done with the test since that time.

Late yesterday at a depth of 3822 feet the Marland Oil company's Lockhart No. 1, located in the NW 1-4 section 31-21-36, Lea county, encountered more oil and gas. The well was making 500,000 feet more gas and was spraying from 75 to 100 barrels of oil daily, according to reports direct from the well today.

CORN STRONGER, COLD PREDICTIONS

CHICAGO, Feb. 5 (AP)—Corn developed strength today. There were indications of another cold wave. Opening 3-8c off to 1-4c, corn subsequently scored a material advance all around. Wheat and oats likewise showed firmness, with wheat starting at 1-4c decline to an equal gain, and then rising after a slight general sag. Provisions were easy.

LEGION PLANNING LADIES' PROGRAM

Between seventy-five and one hundred attended the meeting last night of the Allen Brothers Post of the American Legion in the basement of the Temple Ellis building. Several new members and visitors were present.

J. W. Gamel and B. Sherrod both visitors, and Ogt Williams, new members, made short talks. A. Bailey of the Legion responded. Warren P. Knox acted as master of ceremonies. It was voted to have a Ladies' night Friday night, February 22, at which time a big banquet is to be given.

Trees Transplanted To Denver Station

In an effort to beautify premises at the new Denver railway station in this city, officials of the road have transplanted trees from the Denver demonstration farm located east of Plainview to the site on Avenue G here. The trees will be set out around the station. Between fifty and seventy-five will be placed, according to present plans.

M. B. Oates, agricultural agent of the road, and W. D. McCoy, right-of-way and tax agent, are in charge of the work.

SCARS OF HURRICANE STILL REMAIN

HOOVER WILL FIND ABUNDANT TRACES OF DEVASTATION WROUGHT IN FLORIDA

(By Associated Press)
MIAMI BEACH, Fla., Feb. 5.—President-elect Hoover will find on his visit to the Okeechobee district next week plenty of evidences of the devastation created in that section by the 1928 hurricane.

Roads which were washed out then still are in bad shape and the going may be had for the cavalcade of automobiles which will be placed at the disposal of the president-elect and his party by the state.

No doubt much of the country through which Mr. Hoover will pass will take him back to his early engineering days. It is boggy in places, in others only fields of saw grass are to be found, and some portions are sandy.

One of the plans now under consideration for alleviating the existing dangerous condition to the south of Lake Okeechobee is a drainage and navigation canal running from the lake into the Caloosahatchee river with the improvement of that river down to the present head of navigation above Port Myers.

The president-elect will make a personal survey of the whole problem and will supplement this with statistics so that he will be able to formulate a complete picture of what improvements must be made. The problem of reclamation of a large section of the Everglades also will enter into the equation.

The next president has a rather clear slate for the remainder of this week at his Florida home and he is expected to put in several afternoons on the fishing grounds off Miami. He had only a single caller on the list for today, Mrs. Bertha D. Baur of Chicago, Republican national committeewoman for Illinois.

IS TWENTY-FIRST City Ranking In State Population Is Given

Lubbock ranks twenty-first in population when considered with all of the cities in the state, according to a survey of the Newspaper Feature Bureau operating in 1285 American cities. The city's population is given at 22,281, with 25,000 including suburbs, as compared with 4,080 in 1920. Cities with larger populations than Lubbock in Texas include Abilene, Amarillo, Austin, Beaumont, Brownsville, Corsicana, Corpus Christi, Dallas, El Paso, Fort Worth, Galveston, Houston, Laredo, Port Arthur, San Angelo, San Antonio, Sherman, Texarkana, Waco and Wichita Falls.

INFLUENZA

(Continued from page 1)

ing from the malady. Hospitals in Paris were taxed to capacity with influenza patients. Berlin's public works and department stores reported heavy sick lists. This was the case too in London. In Prague, Czechoslovakia, the epidemic was on the wane after striking low more than one in every five. Although there have been deaths most centers reported that mortality had been comparatively low.

The epidemic was accompanied today by continuation of the bitterly cold weather which has gripped Europe and Asia from the Yellow sea to the British Isles.

Some parts of central and south-eastern Europe particularly were suffering. Several deaths were reported from the Balkans, Constantinople and south Russia. At Belgrade, Yugoslavia, the temperature reached 25 degrees below zero, and a passenger train which left the city Sunday for Zagazur was buried under 20 feet of snow. Another avalanche buried a rescue train while two other trains were unreported.

At Prague, Czechoslovakia, the lowest temperature in 157 years was recorded. The whole country was covered with a blanket of snow and relief expeditions were organized for a number of villages. Famine-stricken wolves attacked isolated towns.

Italy saw considerable snow, and Rome recorded the lowest temperature since 1895, 21 degrees. France had clear, sunny weather, although it was bitterly cold; even the Riviera held no charm for its winter visitors. Denmark was ice-bound, and temperatures below freezing prevailed in England the British Isles.

motor humming perfectly. The southern course chosen by the aviator would take him over Plainview and Childress, Texas, Muskogee, Okla., Van Buren, Mo., Parker, Ill., Louisville, Ky., Portsmouth, O., Morgantown, W. Va., and Harrisburg and Reading Pa. It was regarded as unlikely that his ship would be sighted until it neared the goal, as transcontinental pilots usually select high altitudes and favoring winds.

The plane carried 475 gallons of gasoline at the takeoff, made easily after a short run of 2,500 feet.

A new type of motor cowl on Hawks plane is claimed to have increased the speed of the plane from ten to twenty miles an hour. It was reported the ship developed a speed of 180 miles against the wind in its tests.

Kellar Pleaded At Cooperation Given

"Sheriff's departments and constables are cooperating with state highway officers this year better than ever before in the enforcement of the state auto registration laws," John Kellar, weight and measure inspector of the state department, said today.

Five arrests were made yesterday for operating a motor without 1929 license plates. The offenders paid fines of \$1 and costs in Justice of the Peace court here.

Mr. Kellar said that with the cooperation of the other local law enforcement bodies he intended to launch an intensive campaign against the motorists who have not yet bought new license plates. He said there was no excuse for not having registered automobiles by this time, and that he was acquainted with the regulations of other states. Cars from other states will be dealt with in the same manner as the ones from this state, he said.

Fire Hose Thwarts Jail Break Attempt

NACOGDOCHES, Tex., Feb. 5 (P)—Liberal use of a fire hose frustrated an attempt of prisoners in the county jail to escape during an incendiary blaze here last night. White prisoners in the jail fired a pile of bed clothing, but the fire was discovered almost immediately and the hose applied so thoroughly that the top floor of the jail was flooded and the hopes of the prisoners dampened.

"There Is No Substitute For Value"

TESTIMONY WILL BEGIN LATE TODAY IN RICHARDS HEARING

(By Associated Press)
DALLAS, Feb. 5.—Testimony was expected to begin late today in the trial of Ben C. Richards, Jr., former Ku Klux Klan officer and a power in local politics, on a charge of forgery.

The indictment grew out of payment to one "Clyde R. Vest" of a \$2,000 election bet, argument over which culminated in the killing of Orville Mathews, banker and stakeholder, by Ray V. Adams, Bartlett farmer, here last September 1.

Questions asked prospective jurors yesterday concerned affiliation with the Ku Klux Klan and whether they were acquainted with various persons said to be or have been connected with the organization. Richards, nattily dressed, appeared confident while counsel argued over the jury.

A. A. Crabbs, also under indictment, was granted a severance of his case which was continued. Crabbs recently made a statement to District Attorney William McCraw, which was reported to have formed the bulk of the state's case. Richards' counsel presented motions for continuance, for change of venue, and for permission to inspect documents the state expects to present in the trial, all of which were overruled.

Among witnesses summoned, are telegraph employees at Waco, whence was sent a telegram to Mathews concerning payment of the state money to "Vest." "Vest" has never been found, and witnesses at the murder trial of Adams here some time ago, expressed belief, after search of various directories and records at Waco, that no such person ever lived there.

work necessary for the complete underpass, re-inforced concrete walls and abutments, paving, gutter, storm sewers, sidewalks and bridges each side of the Santa Fe tracks. The subway will be 1,200 feet long and 40 feet wide, with a clearance of fourteen feet under the eleven tracks. A double driveway with posts in the middle and sidewalks on each side will be constructed. The city of Lubbock and the Santa Fe Railway company will divide the construction cost.

During the construction of the subway, traffic to the east will be diverted by way of Avenue H.

rival of his amphibian here yesterday, but it was inconsequential. He alighted gracefully on the waters of the bay here, but in climbing the specially made ramp from the water to the platform on the beach he overran the edge of the platform and his plane bogged in the mud. It was necessary to dig the mud from around the wheels, place boards beneath them and pull the machine out with a tractor.

Arrival yesterday was slightly ahead of schedule. Leaving Miami, Fla., at 6:08 a. m., eastern time, Colonel Lindbergh flew first to Havana, stopped there an hour and four minutes for refueling, took off, and landed here at 2:55 p. m. (3:55 E. S. T.), having spent eight hours and 43 minutes in the traversing a 750 mile route.

SNYDER, MATADOR BANQUET TONIGHT

Delegates representing the Lubbock Board of City Development tonight will attend the annual banquet and meetings of two Chambers of Commerce in this section.

T. A. White, manager of the Southwestern Bell Telephone company in Lubbock; Jack Randall, local attorney, and possible others, will go to Snyder tonight where they will attend the annual banquet of the Snyder Chamber of Commerce. Election of officers of the organization and the review of the achievement during the past year are scheduled to feature the banquet program. Short talks will be made by the local delegates.

Dear James M. Gordon, of Tech College, and A. B. Davis, manager of the Lubbock Chamber of Commerce, will attend the annual banquet of the Matador Chamber of Commerce. Both are scheduled for short talks. Following the banquet program, officers for the ensuing year will be elected.

commission. Carnes had been held in the county jail here in default of bond since his arrest in Winnipeg, Manitoba, last September.

Old Age Was Cause Powell said that the Home Mission Board took into consideration the fact that Carnes is now 55 years old and felt that to keep him in prison beyond the age of 60 would be "unnecessary persecution."

While the total alleged shortage of the former treasurer was estimated at nearly \$1,000,000, the twenty indictments against him covered \$529,205.74.

Carnes who had been employed by the board since 1918, being promoted from bookkeeper to treasurer in 1919, disappeared from Atlanta last August. Church officials, fearing he had met with an accident, broadcast the news that he was missing.

The publicity brought forth the fact that he had served prison terms in Missouri and Alabama and the subsequent discovery of his short-age.

H. M. MAXFIELD SAYS SARGON IS JUST WONDERFUL

Thousands of Texas people are now taking the Sargon Treatment with the most astonishing and gratifying results and scores of men and women are daily telling

H. M. MAXFIELD

what it has done for them.

Among the latest to give enthusiastic praise is H. M. Maxfield, of 304 East 15th St., Ft. Worth, who says:

"I wouldn't take any amount of money for the good Sargon did me. About three years ago I became terribly run-down, nervous and anaemic. My liver was out of order and I nearly always was constipated and bilious. Nothing I ate agreed with me. I tried dieting, but that didn't help. Gas pains would shoot through my stomach and up into my chest. I would taste my food and frequently was so weak and sick I could hardly stay on my feet.

"I was so nervous I couldn't sleep and would stay awake half the night. My breath was bad, my tongue coated and I lost weight and strength. I didn't have any energy. I was susceptible to colds, and they were very stubborn and would hang on for weeks.

"I got some Sargon and right from the first dose I began to feel better. I never saw anything like it. My appetite is good and I eat what I want without a sign of distress. I sleep like a tired boy and in the morning I just feel fine. All my nervousness is gone and I am brimful of new strength and energy and I haven't had a cold since I started taking it.

"Sargon Soft Mass Pills are the most wonderful laxative I ever took. They ended my constipation without upsetting my system or making me sick in the least."

Sargon may be obtained in Lubbock at the City Drug Stores and in Slaton at the City Drug Store.
