FOR CAR REGISTRATION Deadline Moves Closer

The director of the Texas Department of Public Safety reminded motorists today that only five weeks remain before enforcement begins on the 1967 vehicle inspection stickers.

Col. Homer Garrison, Jr., DPS Director, said that the law allows for no extension of the April 15 deadline and urged drivers to have their vehicles inspected before the last minute lines begin forming.

Garrison pointed out that some two and one-quarter million vehicles in Texas remain to be inspected in order to comply with state law. This amounts to approximately 14 vehicles per working day for each of the 5,500 official inspection stations.

"Undoubtedly," Garrison stated, "many motorists will wait until the last day, and it may be very difficult to find an inspection station that is not swamped with late-comers.

"In order to secure an orderly flow of the remaining uninspected vehicles through the inspection stations we would urge each motorist to have the inspection attended to as soon as possible. This can easily be taken care of during a routine visit to an authorized neighborhood inspection station."

C-CA Group Holds First Meeting

Olton Chamber of Commerce president Walter Struve appointed committee leaders during his first meeting as president with the C-CA board Tuesday morning.

During the meeting, Struve called for a review of the organization to see what could be done to make the C-CA stronger.

He urged that directors contact other businessmen and interested individuals to attend the monthly meetings of the group. Struve said by attending the meetings, persons might offer suggestions for improvements in the C-CA work, and might also become more well acquainted with the way the organization is set up.

Struve also said a membership drive was needed by the C-CA. Currently the chamber has 40 business members, along with 32 individual members.

Approximately 50 other businesses in Olton are not members of the chamber.

Struve also suggested the possibility of a lower membership fee for individuals to allow employees of C-CA members to become members of the organization.

Committee chairmen named at the meeting include Ray Schultz, membership; Ralph Glover, industrial; Mike Wall, retail; Wayne Moore, legislative; Garland DePrang, agriculture; Lester Thompson, highway and transportation; Jesse Stovall, civic activity; and Harold Jordan, work program.

Each committee chairman will pick two other persons to serve on a committee for the coming year.

EDITORIALS

High Ideals Of Scouting

Seek the highest ideals of character, conduct, patriotism, service. Find fulfillment in the arts, the home, the world outside. Dare to do the improbable and dream the impossible.

This was the challange that Juliette Gordon Low, founder of Girl Scouting in the United States, gave to her original band of twelve girls 55 years ago.

Times change and the joyful world of the young has moved from madcap to mod cap. But the values and goals Mrs. Low established for Girl Scouts endure. Today, more than 3 million girls, ages seven through 17, participate in the March 12 birthday of Girl Scouts of the U. S. A. and in the way of life envisioned by Mrs. Low.

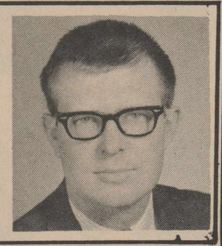

Now, as always, Girl Scouts set the pace for their generation, moving with ease from the timely to the timeless -- from frugging to farming, surfing to serving.

Mrs. Low would be amazed and proud of her Girl Scout family, 55 years later. But all of us who have seen the family grow are just plain proud.

Happy Birthday, Girl Scouts. Long may you glow!

OBSERVATIONS OF A NEWCOMER

By MIKE WALL

No Remarks

Well, the wife won't be making remarks about West Texas weather in her column today.

She took time out from her newspaper chores last week to have a baby, hence her column will not appear.

Like all babies born in newspaper families, he came on press day, Thursday.

He seemed to have escaped my bad habit of being late for everything by appearing two months early.

We named the new arrival Patrick Lawrence, which is almost bigger than he is.

Our No. 1 son, David, didn't quite know what was going on, but I think he was beginning to wonder why he was staying with Grandmother Wall for several days without his mother.

After being in the newspaper business for a while, I of course am completely unaffected.

You will never hear me gushing around about how pretty the baby was. Patrick was of course the best looking baby I've ever seen (aside from David), but that is a completely unprejudiced view.

I just objectively studied other babies, compared them and decided he was just naturally the finest.

But you will never catch me doing any of this "proud father" type bragging. Much.

Two youngsters were walking home from Sunday school after having been taught a lesson about the devil. One of the boys said to the other, "What do you think about all that devil stuff?"

The other boy thoughtfully replied, "Well, you know how Santa Claus turned out. It's probably just your dad."

TEN YEARS AGO IN OLTON

Sherman Food will observe its 7th anniversary this week. Basil Sherman, owner, has been in business for himself since 1950.

Mayor G. H. Bley became a candidate for re-election in the April 2nd council election.

Texas Public School Week has come to a successful conclusion in the Olton schools as records indicate that a greater number of parents and interested citizens participated in school visitation than in previous years.

Saturday, March 16 has been set as "Slave Day" by the OHS junior class with 26 class members offering their services for hire.

FIVE YEARS AGO IN OLTON

Plans were under way this week for the annual Science Fair, scheduled Friday. Students will visit during the day and exhibits will be open to the public from 4 to 10 p.m.

John McKee of Dallas, regional civic and governmental affairs manager for Ford Motor Company , will address the annual Chamber of Commerce and Agriculture Banquet here tonight at 7:30 in the school cafeteria.

Four candidates filed in the city council race just before deadline Saturday. Clovis Poteet, C. C. Gallaway, Bob Gullett and Howard Buchenau will seek a place on the council.

TAX MAN SAM SEZ:

Businessmen can find most of the answers to their income tax return problems in Internal Revenue's "Tax Guide for Small Business." The 1967 edition costs 50¢ and is available at any Internal Revenue Service office. It explains in simple language the tax consequences of buying, operating, selling or otherwise disposing of a business. The check list on what federal taxes you may owe and what date they are due can help you keep your tax business operating smoothly.

CLAIMING DEPENDENTS

It pays to read your tax instructions carefully before claiming a dependent. You can't pro-rate a dependent. For a child born during the year you may claim the full $600 exemption if the other dependency tests are met. You can also claim a dependent who died during the year. Read the instructions again before deciding whether to claim or not to claim a dependent you supported but who might be questionable.

Ask Amy

BY AMY ADAMS

POP LIKES "YOUNG STUFF"

Dear Amy:

I am 22 years old and happily married. My problem is my father-in-law who is 45 years old. This man has a little more feeling toward me than just what our relationship calls for . . . and he has told me so!

I don't dare be alone with him for fear he might get fresh with me. He has made passes more than once, and I've told my husband and mother-in-law all about him.

Although I try to keep away from him, he manages to keep close to me whenever we go to visit them. If it weren't for our two children, I would be able to avoid seeing him.

I've tried most everything to keep him in line without hurting my mother-in-law any more than I already have.

In such a case as this, I hope you can give me some sort of advice on what to do.

Young Stuff

Dear Young Stuff:

Your father-in-law is a revolting devil. 'Words' won't change him, but I wager a good sharp hat pin will. Visit as seldom as necessary, stay with the crowd, but be armed and ready to go into action when he does.

* * *

Dear Amy:

This friend of mine has been telling me about a little 6 year old girl who lives next door to her, and that her parents treat her like dirt. They keep her locked up in a room which contains no bed. So she has to sleep on the floor with straw, rags, etc. The police have been contacted but will not do anything.

Could you help so we could find a way to get her out of that house. My friend also told me that when the little thing comes over, she smells so terrible because she goes to the bathroom in that room, too.

A couple of times she sneaked out of there and came next door and my friend fed her because she was starved.

Please Help

Dear Help:

For heaven's sake, contact the Juvenile Authorities immediately before it's too late. "Parents" you call them! They are criminals! Legal action should be instituted against them.

* * *

Dear Amy:

I have been going with a fellow for 4½ years. This past year he went to Viet Nam and we wrote the whole year he was gone. He has been sending me all kinds of gifts for the "future" (as my mother puts it), but I'm not sure if I want a future with him. I know it's terrible to think this way, but I'm not positive about getting married.

J. M.

Dear J.M.:

Why go with a fellow for 4½ years if you don't want a future with him? Until you make up your mind, it would be unkind to keep the gifts. Send them back and be honest with the guy. If his absence hasn't made your heart grow fonder, then your heart is waiting for another.

* * *

Dear Amy:

I'm asking your advice because I never see my family to ask them. My husband and I have been married four years and all this time we have lived near his family. The last time I saw any of my family was three years ago. My husband's family is not very friendly toward me. When I go over there, I feel like I'm in the way because they make me feel this way.

I have asked my husband to move. He uses the excuse we have too many bills, but I know we don't have that many.

An Outsider

Dear Outsider:

"Moving" is not the answer to your problem. They are "your" family now also, and I'm inclined to think that you have made little effort to accept them. Until you are friendlier, you will not be truly content, nor will your husband.

There is no reason not to visit your parents, is there? By all means, if you are suffering homesickness pangs, make arrangements to see them soon . . . and more often.

Members present were Mmes. Bodkin, Roberson, Bob Burgess, W. B. Dickenson, Jr., Owen Jones, Forrest Latimer, Elmer McGill, Leo Smith, Fred Thompson, Dwayne Wilks, Grady Sharp, Jess Parker and Don Spain.

The next meeting will be at 7:30 p. m. March 16, at the clubhouse at which time a film on "Cancer In Women" will be shown. Interested persons are invited to attend.

Kick-Off Breakfast Held For Red Cross Fund Drive

The Lamb County Chapter of the American Red Cross launched its month-long campaign for funds with a kick-off breakfast held in Littlefield, Friday March 3.

Chairman of the Lamb County chapter, Wm. O. "Bill" Weige, Littlefield said Olton's quota is $1100.

Other quotas are Sudan, $700; Amherst, $600; Earth, $700; Springlake, $500; Spade, $300; Hart Camp, $125; Pleasant Valley, $150; Fieldton, $100; and Littlefield, $4225.

The total for the county is $8500, which is an increase of about $700 over last year.

According to Mrs. Haberer, the increase " has been necessitated by greatly increased demands for service to the military establishment by both the National Red Cross and its chapters, and by heavy expenditures for disaster relief operations in the last two years."

"If the Red Cross here is to contribute its fair share to the nationwide and world wide programs of the organization, and continue to provide its services to military, and first aid programs in Lamb County," continued Mrs. Haberer, "our fund requirements must be met. We urge the residents of Lamb County to respond generously to our appeal."

TIME MARCHES ON--Legislators had time on their hands and their minds as House State Affairs Committee conducted the longest hearing of this Legislative session on the bill to outlaw daylight saving time in Texas.

Committee heard witnesses for nearly seven hours, until after 2 a. m., arguing both sides of the proposed act by Reps. Will Smith of Beaumont and Ralph Wayne of Plainview.

Federal Uniform Time Act of 1966 will place all states on daylight saving time from May to October unless a state's special legislation exempts it.

Lining up in favor of the bill were restaurant and theater owners and the farm bureau.

Opposing it were radio and television stations, investment bankers and some newspapers.

STATE KINDERGARTEN--Sen. Don Kennard of Fort Worth is sponsoring a bill to provide free public education for five-year-olds, with the state sharing the expense with local school districts on a 50-50 basis.

Kennard said the program would cost $34,500,000 for the first two years and that 50 per cent of the five-year-olds would attend classes next year, 60 per cent the second year and as many as 80 per cent by 1970-71.

"A kindergarten program established under rules set up by the Texas Education Agency, is the most vital step Texas should take in improving our school system.", the senator said. "There is abundant evidence that six years is too late an age to start children in school."

SWPS To Make Survey

Olton customers of the Southwestern Public Service Company will receive a "Prosperity Through You" prospect card in their next electric statement. "Prosperity Through You" is a program launched by the electric company in an effort to attract new industries to the communities which the company serves.

Ralph Glover, local manager for Southwestern Public Service Company, requests that if local people have any industrial prospects or even the slightest rumor that an industry is interested in this area that the information be placed on the prospect card and that it be mailed or brought to the local chamber of commerce office or to their home town Public Service office.

All of the tips provided by the program, which is designed to help local citizens realize their importance in industrial and community development, will be followed up by the chamber of commerce with the assistance of Southwestern Public Service Company.

OLTON LADS, LASSIES AND MOMS MODEL FASHIONS IN THE ANNUAL BYKOTA STUDY CLUB STYLE SHOW

Annual Bykota Style Show Presented Here Saturday

The Bykota Study Club presented its annual spring style show here Saturday night to a crowd of approximately 100.

The show, featuring fashions from Gabriel's of Plainview, was presented at the school cafeteria, with Mrs. Bud Hogan as narrator, assisted by Frank Gabriel, co-owner of Gabriel's.

The stage was decorated to resemble an ocean liner, the USS Bykota. Mrs. Hogan asked the audience to pretend along with her, that they had been on an ocean cruise and just docked in time to see a style show of fashions for the coming year.

Children's fashions were modeled by children of Mr. and Mrs. Jim Brown, Mr. and Mrs. Max Malone, Mr. and Mrs. Bud Hogan, Mr. and Mrs. James Martin, Mr. and Mrs. Landon Smith, Mr. and Mrs. Billy Smith Jr., Mr. and Mrs. Andy Stroebel, Mr. and Mrs. Bobby Copeland, Mr. and Mrs. Joe Hall, and Mr. and Mrs. Dan Quigley.

Teen fashions were shown by Misses Sherri Moss, Cherie Thompson, Carol Hicks, Martha Reynolds, Shirley Johnson, Jan Amerson, Eva Axtell, Cissy Smith, Connie Hall and Messrs. Stacy Pendergrass and Randy Reynolds.

Other models included Mmes. Basil Johns, Jim Brown, Max Malone, Bobby Copeland, Gene Reynolds, James Martin, J. P. Nafzger, Andy Stroebel and Bill Smith.

Door prizes were given to Mmes. Ronnie Parsons, P. A. Nafzger, Truitt Sides, J. W. Axtell, and Mrs. Arthur Couch.

Winner of the $100 wardrobe was Mrs. Albert Jeffrey.

Entertainment of the evening was presented by a trio, made up of Jo Ellen Spain, Rita Graham and Janie Jones.

A. G. OPINIONS-- Proposed Medical Assistance Act of 1967 would authorize medical care benefits to inmates of state mental hospitals, under new state-federal "Medicaid" program, says Atty. Gen. Crawford C. Martin. However, inmates will remain ineligible for old age assistance benefits.

In Other Opinions, Martin concluded that:

* A prisoner who received a suspended sentence under the old criminal code may not have his sentence reduced or terminated under provision of the new code.

* A bill to provide benefits to survivors of firemen and law enforcement officers killed in line of duty cannot be made retroactive.

* It is not within the discretion of a trial court to stay an order of the Department of Public Safety suspending a driver's license or motor vehicle registration.

COLLEGE BIDS REJECTED-- After extensive hearings, the Higher Education Coordinating Board again declined to give its blessing to creation of four-year colleges in Midland-Odessa, Texarkana and San Antonio.

Midland-Odessa and Texarkana groups want to elevate existing junior colleges to senior college rank. San Antonio legislators propose a new institution to be built "from the ground up."

Board said all such proposals must await the statewide master plan for higher education, expected to be completed by the spring of 1968.

COTTON TALKS
FROM PLAINS COTTON GROWERS, INC.

At a directors meeting Feb. 23, Plains Cotton Growers President J. D. Smith of Littlefield appointed a four-man committee to look into the rising flood of textile imports to the U. S. and consider the effects on markets for U. S. cotton in general and cotton grown on the Texas High Plains in particular.

He placed PCG Vice President Don Anderson of Crosbyton, Board Chairman Roy Forkner of Lubbock, E. O. Willingham, Morton, and J. W. Borders of Whitharral on the committee.

The action came as a result of a letter received by Smith from Sadler Love, secretary-treasurer of the American Textile Manufacturers Institute headquartered in Charlotte, N. C.

Love's letter pointed out that U. S. imports of textiles made of cottoon and man-made fibers have reached the "staggering equivalent of more than 1,400,000 bales of cotton," and represent cotton that is not grown by American farmers and yarn, cloth and garments that are not made by American employees.

He requested that PCG adopt a resolution which would stress the interest of the cotton producer in sensible limitations on textile imports and call upon the federal government to impose and enforce such limitations. He also asked that copies of the resolution, if adopted, be sent to congressmen, senators, the Secretary of Agriculture and the governor.

The 1966 textile imports amount to a 37.4 per cent increase over 1965.

Perhaps of even greater significance is the fact that 162,000 bales, or 57 per cent of this one-year increase, is in the form of yarn, and came almost entirely from countries that produced the cotton from which the yarn was made.

This of course means a reduction of that same amount in the consumption of American cotton by domestic mills.

Some observers feel that this is the great remaining difficulty in cotton's domestic market, and that it threatens to cancel out the cotton gains being made under the current cotton program and those that are expected under the new Cotton Research and Promotion Act.

The National Cotton Council, at its annual meeting recently in San Francisco decided to "support appropriate action to provide reasonable protections against excessive imports of textile products, including apparel."

As the PCG Board discussed the matter, Vice President Don Anderson of Crosbyton expressed concern that a strong effort to restrict or shut off imports from some foreign countries might have an adverse effect on High Plains cotton, much of which goes into export markets.

He said he felt the subject was deserving of additional study before official action was taken, and suggested the possibility that textile import quotas for the various countries might in some way be correlated with the amount of U. S. cotton they bought.

Forkner commented that he believed the bulk of textile imports was coming to the U. S. from countries which were net exporters of raw cotton. But he agreed with Anderson that no action should te taken without first looking at all the pertinent facts.

The motion which led to the appointment of the committee read: "That the PCG president appoint a committee to work with ATMI toward the development of specific proposals for action by the appropriate agencies of the federal government which will accomplish the textile import limitations sought by ATMI without in any way jeopardizing export markets for U. S. cotton, and that the committee present to the PCG Board or Executive Committee for approval any proposal or proposals agreed upon."

There was unanimous approval of the motion.

"The role of the cotton producer organization in the improvement of High Plains cotton is that of getting things done through organized action that either cannot be done at all or cannot be done as effectively through individual action."

Those were the words of Donald A. Johnson, executive vice president of Plains Cotton Growers, Inc., when he spoke recently at a cotton quality meeting sponsored in Lubbock by the Texas Agricultural Extension Service.

He went on to say "A cotton producer organization such as Plains Cotton Growers is charged with looking after producer interests on all fronts, and some of the ways we can meet this responsibility are: By attempting to keep adequate and balanced funds going into research and development for the various things which affect cotton quality;

"By supplying some of these funds, particularly for new projects which might not otherwise be funded;

"By helping to educate our membership to the advantages of adopting new varieties, cultural practices, ginning standards and marketing methods as they are developed by the specialists;

"By playing watch-dog over federal and state legislation, which if left to the wiles of urban legislators could very well make unprofitable even the production of the Highest quality cotton

Easter Seal Letters Are Out

Easter Seal Appeal letters are being delivered this week in Lamb County, according to Joe Montgomery, Easter Seal representative for the Easter Seal Society for Crippled Children and Adults of Texas.

As representative, Montgomery serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as treasurer of the Easter Seal Appeal in Lamb County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

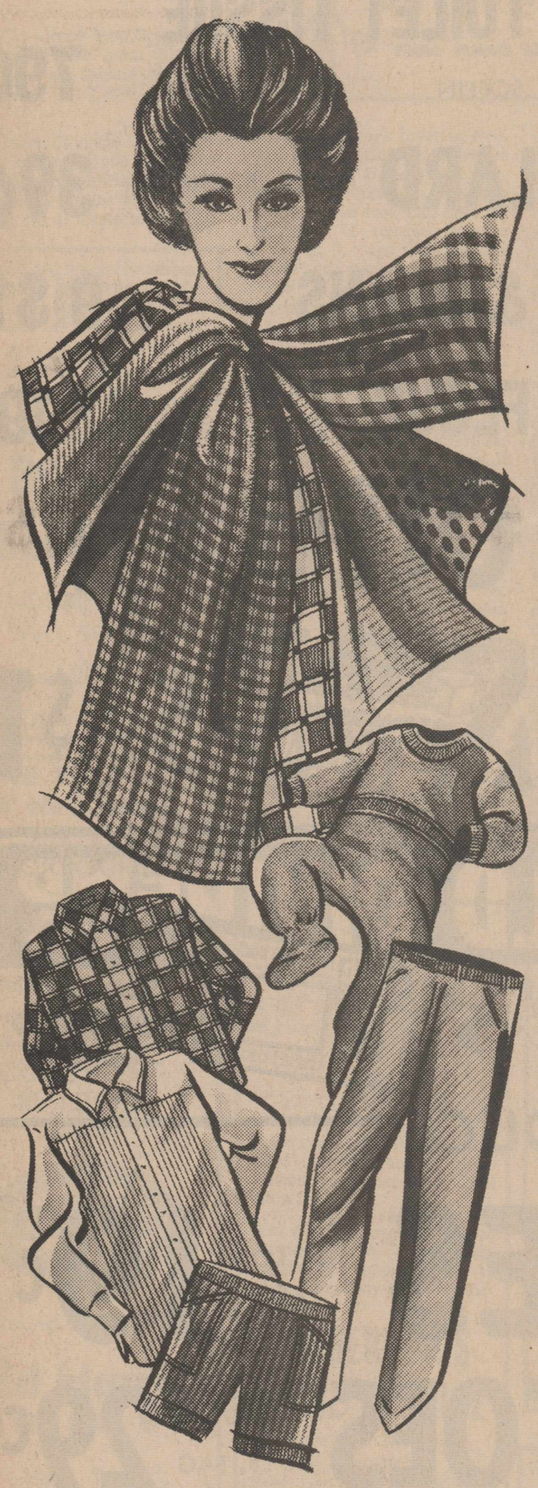

The Society also provides for research into the causes and cures of crippling conditions, finances public education programs, and provides scholarships for training of professional personnel to staff rehabilitation centers.

During 1966, the Texas Easter Seal Society provided treatment and services to 11,045 children and 4,986 adults who were in need of rehabilitation services. These services are available to any disabled person who can benefit from help provided by the Easter Seal Society, Montgomery added.

The Easter Seal campaign will run through Easter Sunday, March 26.

The track team won a second place trophy for Olton in the Idalou track meet last Saturday. Those boys that were qualified to go are as follows: Jim Smith, Jerry Harris, Dale DeBerry, MacArthur Thomas, Stacy Pendergrass, Mike Crowder, Ronnie Yandell, Lannie McClain, Danny Dial, Ottis Patterson, Steve Spain, R. L. Copeland, Charles A. McClain, Sam Fletcher, Benny Akin, Kenneth Johnson, Steve Burleson, Eddie Hooper, Joe Hernandez, Sal Sanchez, and Gene Warren.

Coaches Don Beck, Ray Kauffman, Gerry Taylor and Tommy Lester have been in charge of the track events and they have helped these boys gain strength in their specific fields, so that our school may be well represented in the up coming track events.

See results below

Dale DeBerry, in the 220 around the curve, set a new record and Charles A. McClain set a new record in the 330 I hurdles because this is a new event in the track meets. Olton did not have anyone to place in the 880, 440, or shot put.

If the students of the year 2000 were asked what their favorite dinner was, you might receive answers such as rice-flour products, whale steaks, or mutton chops made from petroleum products.

Yes, this is the food of the future.

Does it sound appetizing?

Most would say no because we are used to the food of today such as steaks, hamburgers, and chicken. We have taken this opportunity to ask a few students what their favorite dinner is at our school cafeteria. We hope that, after looking into the future, everyone will appreciate our food a little more.

Steve Andrews: I think that when we have chicken, that's the best. But I also like the fish. The hamburgers are pretty good, too. Oh, I don't know what's the best. They're all pretty good.

Vicki Spurlin: In my opinion the best dinner we have at the lunch room is hot dogs. Although we may not like the food the women serve us, we should realize that they have a job to do and that they must do it on an economical basis.

Betty Long: The best dinner that we have is bound to be, by far, the chicken dinner that we have every Wednesday.

Connie Brown: I think the best dinner at the lunchroom is turkey and all the trimmings.

Joe Schultz: In my opinion, the meals at the lunchroom, as a whole, are all good. Sometimes we have a dinner which is not very good, but this only happens about once a week and sometimes not even that often. The meals I like best are the chicken and roast beef. This is usually the best meal we have in the lunchroom and usually fills a person up. At the price we pay I don't think there is much wrong with what we have.

"Life in the Philippines" was the program presented by Emma Porio at a regular FHA meeting Monday night.

Regular business concerning the stock show was discussed. It was decided that each girl in FHA was required to make a cake.

President, Linda Graham selected a committee to decide how the '67-'68 FHA officers were to be elected.

The area convention is March 18 and Cindy Jones, junior representative, and Linda Graham, senior representative will attend the convention to represent the Olton FHA chapters.

WHO'S WHO

Kathy: Do you feel lightheaded?

Donnie Fancher: Who said the best one always wins??!!

Betty Long: Are you sure it is every Wednesday??!!

Lannie McClain: What's this about snowball and the flakes??

Gary Parkey: You better stop showing off your ignorance!!

Linda Graham: Nothing like "forgetfulness"!!

Jerri Cross: You think you've got things bad!!!

Connie Kendall: How come you like to visit at Tech so well!!!!

Sue Church: You aren't by any chance, waiting for something, are you??!!

Glenda: Isn't it about time we gave up!!!

Happy Birthday, Kathline!! Sweet Sixteen!!

Ronnie Y. !!????!!!!

David Hamilton: Don't listen to one particular Junior girl anymore - OK!??!

Jerri and Paulette: Having trouble with margins lately??!!

ALL FOR FUN

"Now remember, relaxation is very important," the analyst was saying. "What do you do for relaxation?"

"I kill flies with a bow and arrow," Stevie Collins said.

"Isn't that sort of messy?"

"Nawww," said Stevie. "I only aim at their legs."

"Why do you call me an angel, dear?" said Mrs. Scott.

"Because," Mr. Scott answered, "you are always up in the air, you are continually harping on something, and you never have a thing to wear."

Father calling to daughter, as date awaits: "Dreamboat! Your barnacle is here!"

A Rock-'n'-Roll publisher, appraising a new song for his partner, said, "It had a lovely melody, and the lyrics make sense-- but I favor taking a chance on it anyway."

Martha Reynolds asked if she might buy a new pair of shoes. Her father handed her the money and said, "Be sure to get a decent pair. Something with a good arch support. No more sloppy flats."

"Oh, Daddy," she chuckled, "we don't need arch supports these days. The straps on our stretch pants hold our arches up."

When Robert Frost was asked to explain one of his poems, he replied, "What do you want me to do -- say it over again in worser English?"

Most of us can easily do two things at once; what's all but impossible is to do one thing at once.

Approximately 450 persons registered at the meeting, which was held in the Lubbock High auditorium, with Mrs. Margie Slatten, vice-chairman, presiding.

Invocation was by Mrs. Marie Manly and the welcome was extended by Mrs. Nerinne Stage, lunchroom director of Lubbock public schools.

A sing-song was directed by Mr. and Mrs. Bob Allford. Speaker for the morning session was Judge Ellis, introduced by Mrs. Lois Vieregge.

Miss Kay Schultz presented the school lunch story, followed by the convention report and a business meeting.

The group enjoyed a luncheon at noon with guest speaker, Ruth Holladay presenting a Phyllis Diller Monalogue.

Immediately following lunch, a business meeting was held for the purpose of electing officers.

UNPOLICED HIGHWAYS DANGEROUS

Inadequate police protection for the general public against dangerous drivers in one of the major factors in the losing battle against traffic accidents, says "Texans for Traffic Safety." Public support is needed for more highway patrolmen and local policement to do the job.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

Three pieces of major legislation passed by the House now have landed on the Senate's doorstep.

These include:

* Local option authority for financially - distressed Texas cities to levy a one-per-cent sales tax. (Vote: 85-63)

* A stiff code of ethics for legislators and other state officials and employees. (Vote 140-6)

* Repeal of "emergency purchase" provisions to put teeth in Sunday closing laws. (Vote 132-14)

Before passing the city sales tax bill, sponsored by Rep. John Traeger of Seguin, the House spent nearly three hours of continuous debate and waded through more than 30 amendment attempts.

Advocates predict a majority vote in the Senate, too. But no action is expected across the rotunda until after rules suspension eases with passage of the session's 60 day mark.

Code of ethics bill, by Rep. Jim Nugent of Kerrville, made its third trip through the House. Substantially the same bill has been approved by representatives in two prior sessions but died in the Senate. Same fate is anticipated this time for what advocates term "one of the strictest codes in the United States."

Measure would require lawmakers to disclose personal interest in legislation, force legislators and state officials and employees to reveal substantial interests in private businesses and require identification of relatives on the State payroll.

Surprisingly, the strengthened Sunday closing law, introduced by Rep. Willis J. Whatley of Houston, cleared the House in seven minutes. Only one comment was made. Smooth sailing also is anticipated in the Senate. (what this law will do to tourist spending has never been mentioned.)

TIME OUT--First big break in one of the session's closest-fought contests-- over whether Texas should go on Daylight Saving Time -- came when the Senate state affairs committee approved the exemption bill.

Theatre owners, restaurant operators and farmers backed the bill, by Sen. Joe Christie of El Paso, to continue Texas on Central Standard Time. (After April 1, the new federal Uniform Time Act goes into effect everywhere except where state legislators vote otherwise. Only one state, South Dakota, so far has passed an exemption act.)

Panel was unimpressed with arguments of television broadcasters, railroad and airline spokesmen that the state must stay in time with the rest of the nation.

Same bill, heard in House state affairs committee, was referred to sub-committee and has not yet emerged.

VETERINARY LABORATORY-- Bill to create a Veterinary Medical Diagnostic Laboratory for Texas farmers and ranchers at Texas A&M University has been sent to the Governor for his signature.

Rep. Dick Cory of Victoria and Sen. Bill Patman of Ganado, sponsors of the bill, said the laboratory will be located on property which will be given to the state by the A&M Board of Regents. Purpose of the laboratory is to give speedy and accurate analyses of samples from possibly diseased animals to help local veterinarians diagnose and treat the animals.

MIGRANT LIVING--House Public Health Committee--considering a bill to set up state standards for farm-worker housing-- heard testimony last week from state officials of the insanitary living conditions of the 162,000 migrant farm workers in Texas.

Committee sent the bill along to a sub-committee, after such officials as Col. Egon Tausch of the migrant section of the Texas Good Neighbor Commission gave case studies of migrant conditions and pointed out that cases of infant dysentery often range as high as 30 per cent among the children of farm workers.

FEED LOT BILL MOVES-- A feed lot license bill was approved by the House agriculture committee. Sponsor is Rep. Tom Holmes of Granbury.

It sets standards of sanitation in livestock feeding operations under authority of the Texas Animal Health Commission and fixes these annual licensing fees: $25 for lots that feed under 1,000 head; $100 for 1,000 to 3,000 head; $150 for 3,000 to 10,000 head; and $200 for over 10,000 head. Licenses are optional for lots feeding under 1,000.

Under amendments, the Commission would have to act in 30 days on license applications.

Water Pollution Control Board and Air Control Board regulations would prevail in "Matters falling within their jurisdiction."

Committee also approved a bill to raise fines and penalties (up to $200 per head) for improperly transporting animals from fever tick quarantine areas.

LOCAL OFFICIALS' RAISE-- County auditors and precinct officals would make substantial monetary gains under a pair of bills being sponsored in the House by Reps. Vernon Beckham of Denison and Dick Cory of Victoria.

Beckham's bill would let county commissioners courts pay mileage reimbursement to county auditors for travel in their line of duty. House Committee on Counties referred that measure to a sub-committee for further consideration.

Cory's bill would allow commissioners courts to raise the salaries of justices of the peace and constables up to 20 per cent over what they now earn. Committee favorably reported this one back to the House floor where it now is awaiting action.

LIVESTOCK MARKETS-- Sen. Wayne Connally of Floresville and Rep. Charles Jungmichel of La Grange have introduced legislation to place greater emphasis on encouraging the construction, development and expansion of services and facilities of livestock markets in Texas.

Connally's bill would establish a charter-fee system to govern livestock markets and to create a seven-member Public Livestock Board in the state government to grant charters and supervise the markets where livestock are auctioned.

"We have seen in the last 10 to 15 years a vast improvement in bank facilities and an expansion of their services," the Senator said. "The same results can be obtained by providing the proper basis for establishing and developing livestock markets."

ABORTION BILL -- Sen. George Parkhouse of Dallas has introduced a bill to expand the circumstances under which women can get legal abortions in Texas.

Present law allows an abortion only if delivery of the child would endanger the life of the mother. Parkhouse's bill also would allow abortions in the case of rape or incest, if the health of the mother would be impaired by having the baby, or if there is substantial evidence that the child would be born with a serious physical or mental defect.

TEACHING OF SPANISH-- Rep. Ralph Wayne of Plainview has introduced a bill requiring public schools to offer courses in Spanish to students in the second, third and fourth grades.

Wayne's bill, now in the House Education Committee, would require that within five years after passage of the bill, every elementary school in the state begin teaching Spanish to students in at least those three grades.

It also provides that the State Board of Education furnish textbooks and recorded Spanish exercises to the school districts without cost to the students.

COURTS SPEAK--U. S. Supreme Court rejected a challenge of the Texas law which provides penalties up to $1,000 a day for operating slant hole oil wells.

High court wrote no opinion in ruling that it would not hear arguments on the state law dealing with violators of the prohibition against angle drilling across another property owner's or lease holder's boundary.

A total of $304,800 in fines are involved in appeal. But petitioners claimed the state is seeking fines and penalties ranging into millions of dollars in 100 similar cases.

ATTORNEY GENERAL SPEAKS-- A $5,000,000 appropriation for the Institute of Texas Cultures at San Antonio's HemisFair '68 can be spent any time up to February 19, 1999, and may be used for operating expenses, Atty. Gen. Crawford C. Martin held in an official opinion.

In other opinions, Martin concluded:

* Legislature may authorize a grant or loan of state funds to a governmental entity for sewer facilities and water quality control program planning and facilities.

* Board of Registration for Professional Engineers does not have the power to amend rules to permit the licensing of persons with degrees other than engineering.

* McLennan County commissioners court may permit an applicant for a county depository contract to replace a cashier's check (required in bidding) and award the contract to the applicant.

* No exemptions from an inheritance tax on bank accounts in Texas where account belongs to a non-resident citizen can be allowed under the unconstitutional retroactive provision of a 1959 law.

MUSEUM FUND RAISED-- A $200,000 private contribution was turned over to Governor Connally for a museum at Washington State Park near Brenham. This releases $500,000 more previously appropriated by the legislature under a matching arrangement.

Museum plans will begin immediately at the state's first capitol site.

Sponsors hope to completely restore the old city of Washington-on-the-Brazos as it was in 1836.

SHORT SNORTS

Governor Connally has appointed Sherman Birdwell of Austin as chairman of the Governor's Committee on the Status of Women and Mrs. Mary Ann Faust of Beaumont as vice-chariman.

Department of Public Safety is reminding Texas motorists that only six weeks remain before the April 15 deadline on the 1967 vehicle inspection stickers.

House Parks and Wildlife Committee favorably recommended a bill introduced in the House by Rep. Leroy Wieting of Portland authorizing the Parks and Wildlife Department to negotiate with the federal government for the eradication of vegetation in Texas streams and lakes.

Water Development Board withdrew a $15,000,000 bond offering because of an "Unsatisfactory" market.

Lindsey Enderby of Gainesville has been designated chairman of "Opportunities, Unlimited," a career-political education conference set for April 22 on the UT campus. Sen. John Tower and GOP National Chairman Ray C. Bliss are sponsors of the conference.

Sen. V. E. (Red) Berry of San Antonio has proposed constitutional amendments to take Texas either "all wet" or "all dry" for liquor sale.

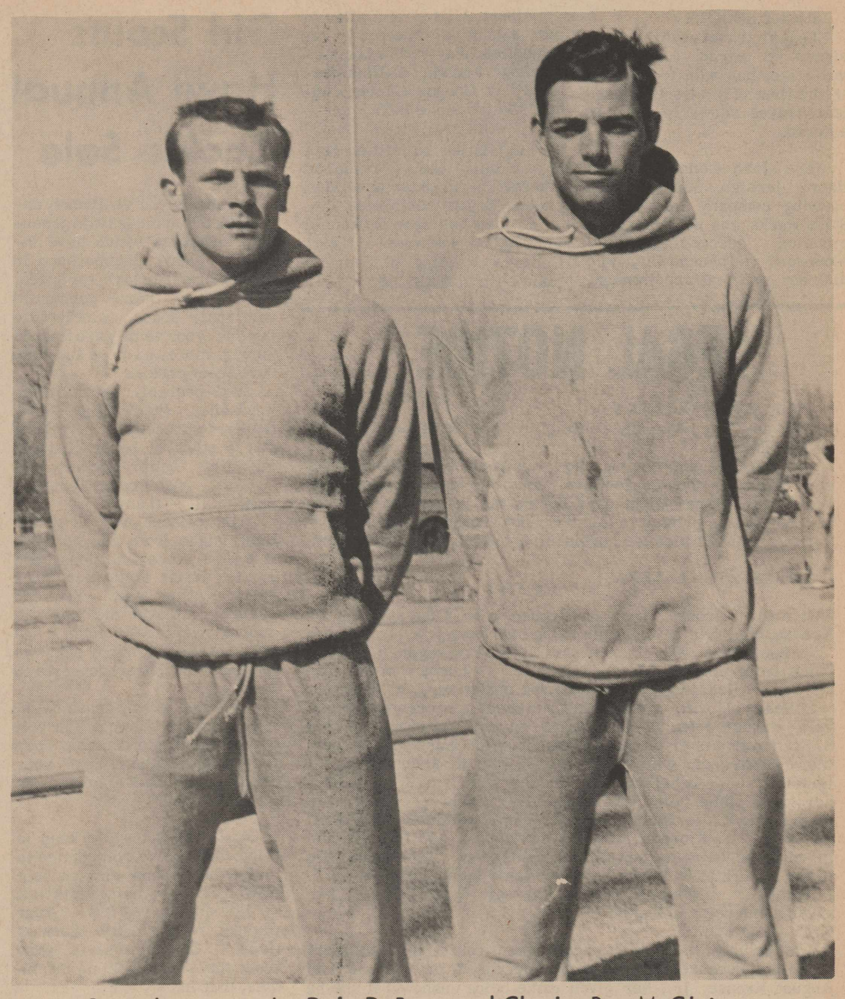

Bills by Rep. Joe Allen of Baytown would ban the use of oyster shell in road construction and restore the old shell dredging line at 1,500 feet from live reefs; Allen also recommends enlarging Parks & Wildlife Commission from three to six members.

Savings Bond Goal Told

The 1967 United States Savings Bond goal for Lamb County is $160,000, according to an announcement made by Mr. C. O. Stone, Chariman of the Lamb County Savings Bonds Committee. January sales in the county totaled $12,206 which represents eight per cent of the 1967 sales goal.

The Texas 1967 Savings Bond goal is $181.3 million. E and H sales during the month of January totaled $15,191,696 which is an increase of 18 per cent over January 1966.

"The County Savings Bonds Committee was happy to learn about the new "Freedom Shares" announced by President Johnson on February 21. They will go on sale May 1, 1967. Freedom Shares along with E and H Savings Bonds play an important role this year in supporting our forces in Vietnam and in helping stabilize the Nation's economy," Chariman Stone stated.

Records were set by Dale DeBerry and Charles Ray McClain at the Idalou track meet.

Girl Scouts Have Annual Cookie Sale

Probably you've already determined that those little green-clad creatures which have invaded your neighborhood in droves aren't from outer space.

They're more concerned with inner space, namely filling you, your family and friends up with more and more and more Girl Scout cookies.

And probably with their windsome little girl ways, they've succeeded in selling you a stack of boxes containing mints, butter cookies, etc.

Well, what are you going to do with all of them?

The easiest way is to eat them right from the box; but if you're more ambitious these Scouts have some new suggestions this year. You can change " that's the way the cookie crumbles" from a sad resignation to a happy acknowledgment of better desserts to come.

Crumble them, crush them, roll them or do what you will to turn them into crumbs. Then incorporate them into your choice of these homemade goodies.

And, all the while keep in mind that you've contributed to maintenance and enlargement of Girl Scout camping facilities.

Remember, "It's Great Camps from Little Cookies Grow." Great desserts grow from the same cookies, crumbles, that is.

RECIPES FOR GIRL SCOUT COOKIES, from SOUTHERN BISCUIT COMPANY GENERAL SUGGESTIONS: The Butter Flavored Shorties and Vanilla or Chocolate Cookies can be crushed and mixed with shortening to make wholesome and delicious pastry for pies such as custard, lemon, butterscotch, chocolate cream, etc.

These Girl Scout Cookies may, also, be used to line a mold to be filled with your favorite gelatin desserts.

The cookies are very good if topped with a marshmallow and dot of butter and browned quickly under a broiler.

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q - Where do I report money from a pension?

A - File Schedule B with your Form 1040 to report this income.

Q - We paid sales tax on a color TV as well as a new car last year. Can we add this to the amount shown in the sales tax table?

A- You may add the sales tax paid on the car to the amount shown in the sales tax table but not the tax paid on the television set. Of course, if you can show you actually paid an amount greater than shown by the table, you may deduct this greater amount.

Q - Our son works a paper route. Will he have to file an income tax return?

A - A return is required if he earned $600 or more for the year. He should also file a return to get a refund if his income was less than $600 and income tax was withheld from his pay.

Q- I heard there was some new procedure for taxpayers who are over-withheld because of the new graduated rates. Where can I find out about this?

A- Instructions for claiming additional withholding allowances based on large itemized deductions are explained in Schedule A (Form W-4). Copies have been supplied to employers and are available at local IRS offices.

To reduce withholding under this procedure a taxpayer must have filed a return on 1966 income.

Q - Looking over some of the settlement costs I paid when I bought my house, I noticed an item for county transfer tax and another for revenue stamps. Are these deductible?

A - No, these costs are not deductible when paid in connection with the purchase of a house for personal use but they should be added into the cost basis of your home. If the house was purchased for rental or income producing purposes then these expenses could be deducted as a business expense.

The two main items a homeowner may deduct are real estate taxes and interest paid on mortgage loans.

Q- What's the Social Security tax rate on self-employment income?

A- Net earnings from self-employment are taxed at a rate of 6.15 percent for 1966. This rate goes up to 6.4 percent for 1967 earnings.

Q- Do you have to be 65 to take advantage of retirement income credit?

A - No you don't. If you retire before reaching age 65 under a public retirement system you may be elegible to use this provision of the tax law.

Q - I read in the papers where some taxpayers have gotten their tax refunds already. Are you getting them out faster than last year?

A - The time it takes to process complete, accurate returns is little different from last year. However, taxpayers who file early will find that refunds will be processed faster.

To avoid delays in receiving refunds, be sure to check whether all the information required has been supplied. Missing signatures, W-2 forms, Social Security numbers and supporting forms and schedules will all hold up expected refunds.

Q- Where can I find a good tax man to help me with my return?

A- Local accounting and legal societies will be able to provide a list of qualified tax advisers in this area. If you just have several questions about your return you may be able to get the help you need from your local IRS office.

Q- Can I deduct the Federal tax shown on my monthly phone bill?

A- No. Federal excise taxes are not deductible as an itemized deduction.

Q - I sold shares of stock in a company I have been investing in for years. How do I identify the purchase price of the shares I sold since I bought them at various times at various prices?

A- The principle that applies here when no other price identification can be made is "first-in, first-out." In other words, consider the shares you sold first to be the first ones you bought and use their cost, the next shares you bought to be the second ones you sold and so on.

Q- I received some dividends last year I was not entitled to because they were declared after I sold the stock. I returned the dividend check but I now have a copy of a statement showing the amount as having been paid to me. Should I ignore this statement when I file my Federal tax return?

A- Only report the correct amount of dividends of the error on your return. You should also notify the corporation paying the dividends of the error in their statement so a correction can be made. An explanation of the error should also be attached to your return.

Q- Where do I report dividends from a savings and loan account? Are they dividends or interest?

A- This income is considered interest and should be entered on line 2a of Part II of the 1040 or on line 6a of Form 1040A, if this form is used.

MOVIE REGULATION -- Every incorporated city and town in Texas would be required to set up a "Motion Picture Classification Board" to preview every movie to be shown in that city and classify it as " suitable" or "not suitable" for persons under age 18 by a bill introduced in the House by Rep. Cordell Hull of Fort Worth.

Hull said that cities now have the authority for such regulation, but his bill would make the board mandatory and would provide guidelines for classifying movies. Board would be composed of nine members appointed by the city's governing body for two-year terms.

ANTIQUATED DRIVER LAW

Texas traffic will kill some 3,500 persons in 1967, unless something is done about it, according to "Texans for Traffic Safety." One thing that can be done is to update the driver license law which was written in 1941, as proposed by Governor Connally. The present law contains "loopholes" through which flagrant and dangerous law violators can retain a legal license to drive.

Handicapped Are Helped Through Easter Seals

" Do you know a handicapped person who needs help and isn't getting it?" is the question being asked by Joe Montgomery, who is Lamb County's Easter Seal Representative and the person to contact for services from the Easter Seal Society for Crippled Children and Adults of Texas.

The Easter Seal Society offers rehabilitation services to help disabled persons and their families to find and make the most effective use of resources which will be helpful to them in developing their abilities and living more purposeful lives, Joe Montgomery said.

This is accomplished through direct treatments, services, education, research, and cooperative efforts with all other health agencies, private, state and federal. The Easter Seal Society does not duplicate services, but strives to fill all unmet needs of the disabled, he added.

The Easter Seal Society is carrying out its thirty-seventh annual Easter Seal Appeal to finance a program of rehabilitation services for crippled children and adults. The Texas Easter Seal Society helps support 23 treatment facilities where children and adults are treated regardless of ability to pay. Physical therapy and speech and hearing programs are offered to help the disabled make their lives fuller, despite their handicaps.

Joe Montgomery urged every person in Lamb County to increase their support of the Texas Easter Seal Society and its program of services to the crippled children and adults.

He added that anyone who could benefit from rehabilitation services should contact him at the Security State Bank in Littlefield to request services for the Easter Seal Society.

LIQUOR-BY-JIGGER-- A bill to legalize sale of liquor by the drink in Texas was introduced this week.

Reps. John Field and Dick McKissack, both of Dallas, are House authors. Sen. Joe Christie of El Paso is the Senate sponsor.

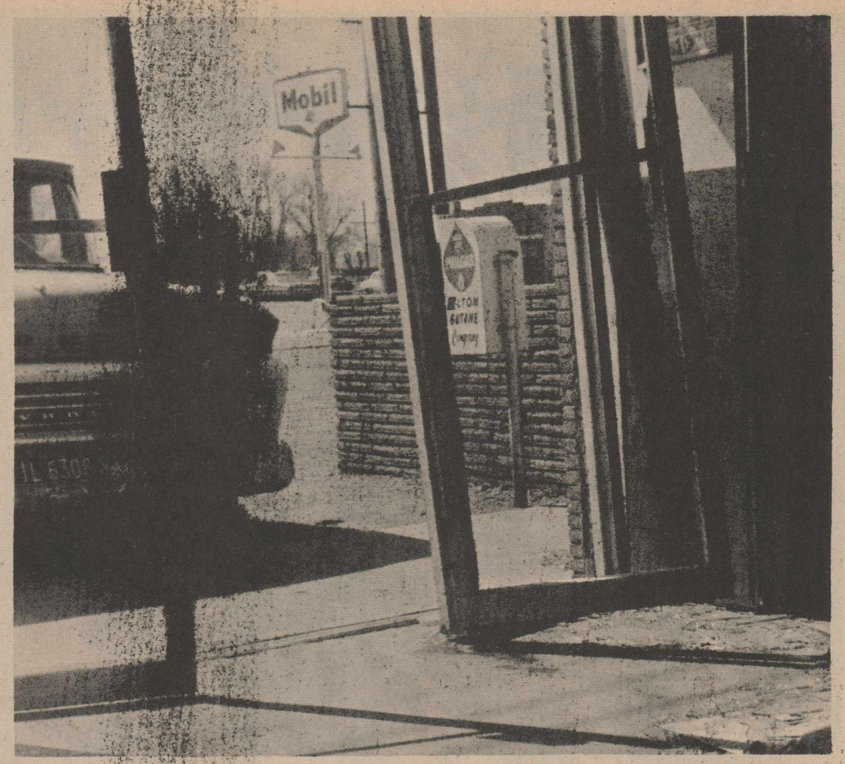

Highlights of the bill are:

* Open saloons (banned by constitution) are defined as places devoted exclusively to sale of liquor for on-premise consumption. Bill would legalize mixed-drink permits for qualified hotels, private clubs, restaurants and lodges -- businesses or organizations NOT engaged exclusively in the business of selling liquor.

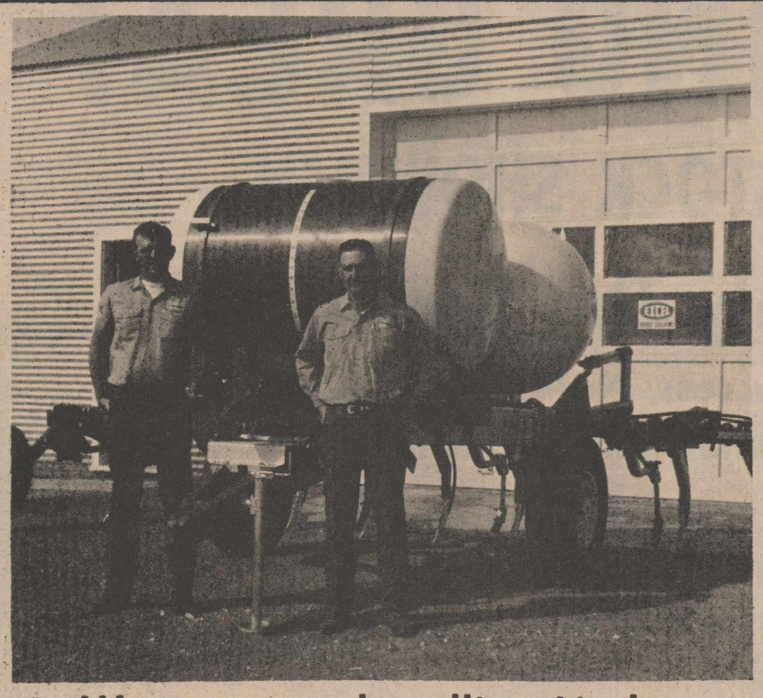

* Measure would authorize mixed drink sales in some 122 counties where on-premise consumption of beer and wine and package store sales already are permitted. Provision is made for local elections in these areas on specific issue of mixed drinks. Failure of election would not affect status of other alcoholic beverages. In other areas, affirmative vote would be required for mixed drinks.

* Drinks would be subject to five-cents-an-ounce tax, plus two per cent sales tax. Retail drink permits would cost $1,000 at state level. Cities and counties could assess fees of $500 each. Beverage servers would pay an annual fee of $12. Private clubs in wet areas must operate under the same regulations as retail drink establishments and pay the permit fee. Those in dry areas will pay a special registration fee and a 10 per cent gross receipts tax.

* Texas Liquor Control Board would administer permits and enforce the law.

"DRIVE IN AND SAVE" instead of Jesse's Super Save may have been more appropriate name for the grocery last Thursday after a pick-up driven by Clyde Vaughn had a brake failure and went right on into the glass doors at the store. Luckily, no one was near the door when the accident occurred.

We are now handling Lindsey-Funk's Hybrid Sorghum and Funk's-G-Corn seed. Come in and book your seed now and save $1.20 per hundred.
