Graduation For Seniors Friday Night

Exercises for Grade School Pupils Held Tonight at 8:15

Friday night will bring to a close another yeor of school activities of the Perryton Schools. Commencement exercises will be Friday, May 25, 8:15 p. m., high school auditorium, with Roger A. Burgess, superintendent, presiding, and Binford Arney, Amarillo attorney and civic leader, addressing the graduates.

The Eighth graders or Junior high school students, will have their graduation exercises tonight Thursday, at 8:15, with Rev. Leon Berry, pastor of Perryton Christian Church, giving the address. E. D. Kelley, junior high school principal, will preside and Supt. Burgess will present the diplomas.

On Sunday evening, May 19, the Senior Class had their graduation sermon and services at the school auditorium, with Rev. S. R. McClung, pastor of the Baptist Church, giving the message.

Final examinations in the Perryton schools were held Monday and Tuesday, and students did not report at school on Wednesday and Thursday, or Friday morning. They

Brunk's Show Here Monday

Perryton and the community will have entertainment deluxe next week when the famous Brunk's Comedians, who are making their 8th annual tour, will come to this city starting Monday, May 27 and continuing for one week.

Brunk's Waikiki Novelty Boys have made a hit with Perryton people at every appearance they have made here in the past. Also Miss June Alyce Brunk, tap dancer and one of the leading characters in the opening play, "The Delayed Honeymoon," is also a favorite with the public. Miss Brunk is 13 years old and completed her schooling in Perryton this spring.

The feature each night will be preceded by 45 minutes of musical entertainment.

Brunk's Comedians are brought to Perryton each year through the auspices of the Perryton Fire Department.

Fiery Tornado? No, Lightning

This picture, made from a boat on Lake Maggoire, Switzerland, was intended to show continuous lightning. But the boat rocked, so the stroke was drawn out along a sort of circular time axis, according to Dr. Karl B. Gallochron, well known lightning expert.

Named Best All-Around Students

Miss Wilma Holland and Willis Neal Lilly were selected by popular vote of the student body of the Perryton High School as best all-around girl and best all-around boy for 1940. Few students can qualify for this singular honor.

A nominating committee each year selects boys and girls in high school who are eligible and then the students elect the boy and girl of their choice. Both students named this year are juniors in high school.

Requirements set up by the Ranger Staff for nominations to Best All Around Boy and Girl are: Students must have a "B" average for first semester of the year, be a good citizen, must have participated in both athletics and in literary activities, must have held an office in some class or club during his Perryton school enrollment, and must have been enrolled in Perryton for one year prior to the date of his nomination.

Besides meeting all the above requirements, Wilma, daughter of Mr. and Mrs. R. H. Holland, has the honor of having a perfect attendance record for her entire school life, never missing a day of school since she enrolled in the first grade. Only one other high school student has a life time perfect attendance record and that is Elton Symons, sophomore, son of Mr. and Mrs. George Symons.

Wilma is a native of Perryton and has received her schooling here. This year, she also earned a three-way certificate, which is awarded on scholarship and attendance. Among her school activities this year was a leading part in the operetta. She lettered in basketball was one of the pep squad leaders, and a member of the glee club.

Willis Neal Lilly, son of Sam Lilly, is making his home with his grandmother, Mrs. Ida S. Lilly. He was born here and has the distinction of celebrating his birthday at the same time Perryton does—August 22. His school days have all been in the Perryton schools.

In addition to scholastic work, Willis Neal has made a name for himself in football and basketball, being one of the outstanding players in both. His cooperation and efforts played an important part in the Rangers winning the Regional Championship in football this year. He has taken an active interest in all school activities, particularly in dramatics and Hi-Y work.

Willis Neal has also been awarded the American Legion and American Legion Auxiliary Citizenship Certificate for the best citizen among the Junior boys. Many things are considered in making this award, and any boy or girl selected should feel proud.

Lions Club Will Close for Summer

The Perryton branch of Lions International discontinue meetings May 28 and will remain inactive until September 3. A ballot was taken at the Tuesday luncheon in the Hotel Perryton on the issue.

A. P. Spicer, president, said that adjournment during the summer months was made because many members would be unable to attend because of business.

The organization voted to contribute $5.00 to the Red Cross Fund being raised here for the relief of war refugees in Europe. The National Chapter has asked Ochiltree County Chapter to raise $220 of the ten million dollar goal.

Douglass Is Candidate for State Senator

Curtis Douglass, popular Panhandle attorney and former District Judge, is a candidate for the state senate. Yesterday he announced his platform would be based on a fair deal in attempting to "better the welfare of Texas with action instead of promises."

"It is the duty of the Legislature to cooperate with the administration in power," he said. "If there is a failure on the part of the administration to chart the proper course then the Legislature should lead the way. The mandate of the people should never be ignored. Legislators should live up to their campaign promises. A do nothing policy leads to ruin."

CURTIS DOUGLASS

Douglass ran second to senator Small and was eliminated by a few hundred votes in 1936.

The candidate said, "I still believe no state lawmaker should represent corporations, interests and clients whose interests are contrary to the general welfare and still pretend to serve the people who eletced him. I am a firm believer that every lawmaker should be required to file his inventory of property, under oath when he is elected and another inventory at the end of each succeeding year, showing his people all resources of revenue obtained and from whom received. This would give the voter a check on all incomes of their public servants."

Discusses Pensions

On pension matters, Douglass stated, "It is the mandate of the

Name P. T. A. Chairmen for Coming Year

At a called meeting of the executive board of the Perryton Parent-Teacher Association on Tuesday afternoon, May 21, held in the office of Supt. Roger A. Burgess, Mrs. R. H. Holland, president, selected her committee chairmen. Activities of the Association for the coming year were discussed and partial plans made.

Mrs. Holland announced the appointment of the following chairmen: Mrs. K. H. Crisp, program; C. H. Williams, finance; Mrs. F. B. Sumpter, publicity; Mrs. Arvle Hale, membership; Mrs. Harlan Hawk, social; Mrs. Truman Murray, magazine; Mrs. O. E. Burk, publication; Mrs. C. B. Rogers, hospitality; Mrs. Quentin Williams, study; Mrs. O. A. Schuster, room representative; Mrs. Clifford Beck, health; Mrs. G. M. Parker, safety; Mrs. Charley Kent, humane; Mrs. R. T. Correll, character education;

Moisture For Week Crowds Inch Mark

Rainfall during the past week in this vicinity totaled .82 of an inch in three seperate showers bringing the total precipitation for the month to 1.35 inches

On Friday night .57 was recorded in Perryton with some parts of the northwest portion of the county reported to have received from an inch and one-half to two inches. This rain extended southward to Wolf Creek.

Jack Allen, keeper of the government rainfall gauge, stated that .17 of an inch was recorded in Perryton Sunday. The shower was confined to Perryton and immediate vicinity extending no farther than the Oklahoma state line.

Last night .08 was reported to have fallen.

Wheat prospects are looking good to the northwest and west, but crops in the east part of the county are suffering from the lack of moisture.

"This Work Pays Your Community" Week Opened With Kick-Off Dinner

One hundred and two persons were present Monday evening in the Masonic banquet room to partake of the WPA's 14-cent "kick-off" dinner and program which was presided over by Judge Dave Shanks.

The menu typical of meals served by the WPA projects or school lunches consisted of meat loaf with tomatoe sauce, spring potatoes, cabbage and carrot salad, harvard beets, plumbs, butter, rolls and iced tea. It was prepared by the workers in the WPA Sewing Room, who are Mrs. Mittie Suiter, Mrs. Mattie Nash, Mrs. Myrtle Williams, Mrs. May Elmore, Mrs. Maude Miller, Mrs. Alice Turner, Mrs. Grace Chick, Mrs. Ruth Estes and Mrs. Mary Dillingham, supervised by Mrs. A. K. Wooten, superintendent.

On arriving the guests found places at banquet tables, which were brightly decorated with garden flowers. Following the direction of Judge Shanks, they marched by the serving table where their plates were filled by the hostesses. Later plates of food were passed and after everyone could eat no more, there was still plenty of food. The 14-cent cost of the ticket was ample to provide the meal.

The program, which was designed to acquaint the public with the WPA work, was: "Professional and Service Projects and Their Workings," Miss Irene Knight, division worker of the Old Age Assistance program; group singing, led by

Memorial Services Are Announced

Memorial Day programs will be held at the Blue Mound, Bethany, and Ochiltree cemeteries on next Thursday, May 30. The Blue Mound service will be 10:00 o'clock in the morning and the service at the Ochiltree cemetery will start at 2:30 p. m. The Bethany program is at 2:00 p. m.

Rev. Leon Berry, pastor of the First Christian Church of this city, will be speaker at the Blue Mound service.

W. C. Bryan, president of the Bethany Cemetery Association, announces that a general clean-up is being made at the Bethany cemetery today. Oscar C. Flowers, Ochiltree county attorney, will deliver the Memorial Day address.

The services at the Ochiltree cemetery will be sponsored by the Pierce Johnson Post of The American Legion. Rev. P. E. Yarborough, pastor of the First Methodist Church of Perryton and Chaplain of the Perryton Legion Post, will have charge of the devotional service. Dan Archer will speak.

Special music at the Ochiltree service will be rendered by a brass sextet from the Perryton high school band under the direction of Director Herbert Lindsey.

The graves of veterans of the World War and all other wars will be decorated by The American Legion Auxiliary.

Ochiltree County People Are Asked To Aid The Innocent Victims of the European War

The American Red Cross is making an appeal to the American people for additional funds to help in a small way the refugees and sufferers of the war raging in France and Belgium. Ochiltree County Chapter of the Red Cross has only a quota of $220. When our citizens stop and realize how fortunate we are to be Americans, they will subscribe that sum.

Our community is in the midst of peace! It is enjoying security. Our people are calmly relaxing at home or in the movies. Our children are safe. Lights shine on the streets and in the house and we are free to go where we please. But "somewhere in Europe" there is another town. Homes are burned, families broken, children hungry and cold. Give thanks for your safety and contribute to help relieve the suffering of these innocent people.

Funds are needed immediately. Make your contribution today with I. R. Buchanan, county chairman, Red Cross; Miles Edwards, treasurer, at First National Bank, or Miss Myrtle Conley, secretary, at Herald office. All Red Cross funds are used for emergency relief and to alleviate suffering.

Contributers

To date only about one-third of Ochiltree County quota has been subscribed. The following have given donations:

Miss Nellie Perry	$ 5.00
H. A. Finch	5.00
R. T. Shindler	2.00
Lions Club	5.00
A. P. Spicer	2.50
I. R. Buchanan	2.00
H. J. Boisdorf	3.00
A. L. Swink	1.00
A. E. Devers	1.00
J. H. Neufeld	5.00
W. B. LaMaster	10.00
J. F. Klapp	1.00

Buffalo Club Here Sunday

The Buffalo Boosters will invade Perryton next Sunday afternoon at the Fairgrounds when they meet the local baseball club. The game has been called at 2:30, according to local managers Sam Hergert and Bill Cayler. The two teams are well matched and to all indications plenty of action will keynote the clash.

The Buffalo Boosters have broken even on the first two games of their season having defeated Protection, Kansas, and lost to Camargo, Okla. Protection was defeated by a large margin 11-2 and Camargo won a scant victory.

Bill Dickson is expected to handle the mound for the Boosters and will probably have Lefty Blair and Glen Muir to contend with for the local team.

Perryton's lineup will probably include Hergert, Neighbors, Devers, Richardson, Brown, Pruitt, Muir, Hart, Fox and Blair.

It is expected that the lighting system now being built at the Fair grounds will be completed by June 1, and managers of the local club are planning to solicit surrounding towns for a night game schedule for the coming season. The Perryton Club has opened play this year with two wins. Sneed Camp was beaten 19-2 and in a game last Sunday at Woodward, the Oklahomans were bested 11-1.

JUST HERE and THERE

When Secretary of Agriculture Wallace announced Monday in Washington a 1940 wheat loan program averaging about 64 cents a bushel to producers, it meant that wheat farmers of this area will receive about 83 cents a bushel for No. 1 wheat, regardless of the market price at harvest time.

Loans made in the Perryton area in 1939 on No. 1 wheat were at the rate of 63 cents per bushel. Local grain men have been advised that the 1940 loan basis for this section will advance one cent, bringing the loan to 64 cents per bushel.

To this 64 cents must be added the parity payment of 19 cents

Poppies Will Be Worn Here For War Dead

"Every resident of Perryton and surrounding territory who digs into his pocket to buy a poppy Saturday will be doing his or her bit toward partially repaying the thousands of brave men who fill the hospitals of the land—victims of the last great war," Mrs. J. W. Herrell, poppy chairman of the Pierce Johnson Post of the American Legion Auxiliary, said this week after all preparations were completed for the drive.

The Poppy Committee assisting Mrs. Herrell are Mrs. H. E. Shotwell and Mrs. Robert Barlow. Members of the Auxiliary will be assisted by the Girl Scouts in soliciting sales. Mrs. Herring Lance will direct the Girl Scouts.

The poppy is the emblem of tribute to the men who surrendered their lives in the nation's service and are made by the hands of disabled veterans, comrades of the

County Acreage Will Remain Same

Texas will receive a larger share of the National wheat acreage allotment in 1941, according to reports received here this week. "Since the increase for the State as a whole is relatively small, amounting to less than 2 per cent, the allotment for Ochiltree County will probably be about the same as for this year and farmers in the county can expect to plant about the same acreage for 1941 that was planted for 1940 harvest to comply with the Farm Program," E. W. Thomas, county agent, said Wednesday.

Out of the 62,000,000-acre national wheat allotment for 1941 announced by Secretary Wallace, Texas received 4,253,335 acres, an increase of 73,202 acres over the 1940 allotment of 4,180,133 acres. The national allotment is the same as it was for 1940.

At the same time, it was an-

Gas Pressure Increasing at Norris Well

Reports from the Norris well in the southeast part of Ochiltree county are that the gas pressure is increasing as the water pressure decreases. The casing is bottomed at 5020, according to the drillers. A cement plug was installed below this point at 5200 ft.

The hole is being cemented off a few feet at a time and swabbed to clear the formation of any water which may have been forced in. As the water diminishes, the gas increases. The bottom cement plug now extends above 5100 ft. according to reports.

An additional 10 ft. of cement was put in the well Tuesday. This must set for three days, then swabbing will be resumed. The operators say that this process will be repeated until a thorough test of this particular horizon is made.

B. E. Walter who is in charge of the operation states that he believes he has a chance of bringing in at least a good big gas well by this operation, and there is possibility of an oiler.

Miss Esther Spangler came in Monday from Tacoma, Wash., for a months visit with her grandmother, Mrs. H. K. Smith, and other relatives. This is Esthers first visit in Perryton since the family moved to Tacoma three years ago.

County Land Is Released

From 174 farms in Ochiltree County that are protected by Federal Crop Insurance, seven have had total losses and 35 have reported partial losses, and the land has been released to be planted to grain sorghums or to be summer fallowed.

Earl Waide, county crop insurance supervisor, reported this week that 4,062 acres of wheat has been released and farmers have been paid 6,041 bushels of wheat with 1,201 bushels having been approved for payment in the State Office. Payment has not been made as yet.

Wheat in the west and north part of the county is in very good condition. In the east the majority of the crops are badly damaged and unless rain is received soon, a very light yield will be produced in this section, Waide said.

Students Receive Certificates for Citizenship, 3-Way And Perfect Attendance at close of School, May 24

Students of the Perryton Schools, who qualified for certificates in Perfect Attendance, 3-Way and Citizenship, were named at the chapel program last Thursday morning. One hundred and thirteen students had perfect attendance records. Roger A. Burgess, superintendent, presided during the chapel hour.

The pupils receiving the various honors were announced by the principals, O. A. Bush, high school, E. D. Keiley, junior high, and R. L. Duke, grades. The certificates will be given to the pupils when they receive their report cards on Friday, May 24.

The Perfect Attendance Certificates are given to students in all grades who have been neither tardy nor absent during the year. The 3-Way is awarded on scholastic work and attendance.

The Citizenship Certificates are given each year by the Pierce Johnson Post of The American Legion and the American Legion Auxiliary to the boy and girl in each grade, judged the best all-around citizen. In addition to the certificates, the Legion and Auxiliary award an Americanism trophy in junior and senior high school to the best citizen, selected by the faculty. Trophy winners have not been announced.

Only three students won all three certificates. They were Beverly Hale of the first grade, Zona Mabel Donley and Grace Payne of the second grade, and Paul Tucker of the fifth grade.

Citizenship Award

The local American Legion and American Legion Auxiliary, cooperating with the school faculty, have awarded for several years a certificate to a boy and a girl in each grade of the Perryton schools. Teachers and classmates select the students who are the best citizens in their respective grades. Many things are taken into consideration in making these selections.

The following were selected this year as best citizens:

First Grade: 1A—Earl Olmstead, Mary Lou Reid; 1B—Beverly Hale, Curtis Leicht.

Second Grade: 2A—Grace Payne, Don Rogers; 2B—Zona Mabel Donley, Verlin Hartman.

Third Grade: Shirley Bess Hearn, Bobby Hawkins; 3B—Rozelle Vaughan, Bill Stephenson.

Fourth Grade: 4A—Colleen Milledge, Lloyd Dean Slaughter; 4B—Richard Cunningham, Mavis Hardy.

Fifth Grade: 5A—Earline Ragan, Paul Tucker; 5B—Betty Lu Buchanan, Merl Cudd.

Sixth Grade: Donald Seymour, Shannon Daniels.

Seventh Grade: Gale Rogers, Dorothy Jean Crisp.

Eighth Grade: Kenneth LaMaster, Susie Yadon.

Sophomore: Billy Herndon, Louise Flowers.

Junior: Willis Neal Lilly, Willie Rae McCartor.

Senior: Clyde Flowers, Hazel Cook.

Perfect Attendance

One hundred and thirteen students in the Perryton schools have an enviable record in attendance this year, having been neither absent nor tardy the entire year. The following had perfect attendance:

First Grade: Robert Dunlavy, Beverly Hale, Patsy Miller, Duanne Mounts, LaQuita Overton, Jolene Wright.

Second Grade: Roberta Clark, Zona Mabel Donley, Donald Graves, Verlin Hartman, Harry Helfenbein, Jim Henry, Marianna McGibbon, Grace Payne, Marvin Smith.

Third Grade: Billy Dragoun, Dor-

There's Nothing Daffy in This Edition of Dodgers

BY ART BRONSON

IT has been 20 long years since the Brooklyn Dodgers rewarded Flatbush fans with a National League pennant and at long last the most faithful baseball followers in the world have visions of another flag winner.

The turbulent surge of the no-longer-daffy Dodgers is one of the brighter stories of modern baseball and it started when Larry MacPhail took over as head man at Ebbets Field in 1938.

The man who introduced night baseball in Cincinnati and proved its value as a gate attraction, was like a shot in the arm for the faltering Flatbushers.

* * *

THE club finished seventh in 1938, but MacPhail was building. The Dodgers wound up a roaring third last year, but Larry, the Red, was still building. This year's club had six new faces on it.

Much of the credit, however, goes to Leo Durocher, the Brooklyn manager who has instilled a hustling spirit into the club that has been lacking for years.

The combination of MacPhail's genius in the front office and Durocher's direction on the field is half the battle, but the Dodgers have the necessary talent to keep them scrapping for the lead.

Larry MacPhail

In the first place, Brooklyn undeniably has the slickest infield in the Nations' League. Dolph Camilli is a brilliant fielder at first and packs plenty of punch. There's a potential home run in his bat every time he steps to the plate.

* * *

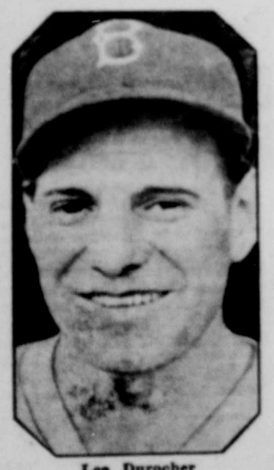
PETE COSCARART is coming along beautifully at second, and along with Pee Wee Reese at short, makes a great keystone combination. When Reese isn't in the short field there's Durocher, himself, to handle the chores, and he's above reproach.

Cookie Lavagetto completes the inner defense at third, and there are few complaints over his work.

Joe Vosmik, bought from Boston; Roy Cullenbine, erstwhile free agent from Detroit, and Dixie Walker patrol the outfield, with such splendid performers as Ernie Koy and Jimmy Ripple in reserve.

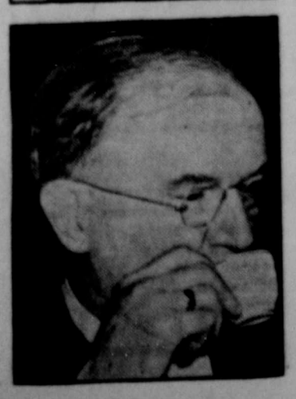
Babe Phelps is a whale of a catcher and the pitching staff appears capable of holding up all along the route, with Whitlow Wyatt, Luke Hamlin, Hugh Casey, Fred Fitzsimmons and Tex Carleton of no-hit fame, providing five starting hurlers.

No, sir—there's nothing daffy about the Dodgers this trip.



Leo Durocher

Teacup Technique of the Candidates



They ought to get on well with the ladies, the three presidential candidates shown here, judging from their teacup technique. The three, Postmaster General James A. Farley, top and left; Senator Robert A. Taft, top, right, and Senator Burton K. Wheeler, left, were photographed at a dinner in New York City. Farley and Taft, uncompromising opponents on the platform, seem to be getting along extraordinarily well here. Senator Wheeler, although more thoughtful, appears to be enjoying himself no less.

Nazarenes Start Two Weeks Meeting

The Nazarene Church opened a two weeks revival here on Monday evening, with Rev. Leona Forbes of Higgins as speaker, assisted by Rev. S. R. Brannon, Perryton Pastor. The music for the services will be in charge of Miss Hallie Brannon. The meeting started May 20 and will close Sunday evening, June 2.

Rev. Brannon announces that there will be services each evening at 8:15. Sunday services will be at the regular time. Everyone is invited to any and all services.

Paid $75.00 In Service Club

Leland Rifenberg was named president of the Community Service Club at the weekly election Saturday and qualified to receive the attached salary of $75.00. The selection was made at the first ballot taken.

Officials of the club announce that three salaries will be available for an election providing the person named at the first election disqualifies for $25. In that case a second election will be held for $75.00. If no one is elected at the second ballot another will be held for $25.

The Community Service Club is operated on the basis of ten cent dues per member weekly and is sponsored by the American Legion. All profits are used for charity work locally.

Urge Farmers to Plant Good Milo

E. W. Thomas, county agent, calls to the attention of Ochiltree farmers who expect to grow milo this year the desirability of planting State certified milo seed only, for the reason that common milo seed is likely to be affected by root rot or wilt.

This disease has become very prevalent in the grain sorghum producing areas the past few years, and many failures which were attributed to drought have been caused by rot or wilt, Thomas pointed out.

The Texas Experiment Station has developed and distributed a wilt resistance variety of milo and this is the only variety being sold by Texas certified seed growers at this time. Since only one pound of milo seed per acre is required, the additional cost to the farmer for the certified seed over the ordinary variety is negligible and the grower can well afford to pay the small difference to assure planting the disease resistant seed.

Indications point to a considerable increase in grain sorghums planted this year above last year's acreage.

Mr. and Mrs. F. B. Sumpter and Miles spent the week-end with his brother T. W. Sumpter and family of Laverne, Okla.

Christian Science

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ Scientist, on Sunday, May 26.

The Golden Text is: "My soul longeth, yea, even fainteth for the courts of the Lord: my heart and my flesh crieth out for the living God" (Psalms 84:2).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I will walk before the Lord in the land of the living" (Psalms 116:9).

The Lesson-Sermon also includes the following passage from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Life is the law of Soul, even the law of the spirit of Truth, and Soul is never without its representative. Man's individual being can no more die nor disappear in unconsciousness than can Soul, for both are immortal" (page 427).

INTERNATIONAL SUNDAY SCHOOL LESSON

Covenants Fundamental in Life

The International Uniform Sunday School Lesson for May 26
Text: Jeremiah 31:31-37

* * *

IT is the fact that so much in the religious history of ancient Israel is universal in appeal that makes the Old Testament a living book, a book of significance at all times. You realize this in this lesson of the New Covenant which is not merely an incident in the life of the Jewish people.

Covenants, in some form or other, implied or specific, have had a fundamental place in human life. They underlie all that is honest and sacred in human relationships. Business could not be transacted without men covenanting with one another to fulfill certain obligations. Specific covenants have played a large part in the religious life of the race.

One thinks of the Covenanters in Scotland and of their representatives and descendants who came to this country. One has in mind the Compact, or Covenant, in the cabin of the Mayflower, and the place that the Covenant has had in the organization of Congregational and other churches in this country. The Covenant has been the bond of Christian fellowship.

* * *

BUT this Covenant in modern churches is very definitely related to the Covenant in the life of ancient Israel. This was a Covenant not only between man and man, but a Covenant between God and people. The Old Covenant, in contrast with what is here called by Jeremiah the New Covenant, was the Covenant with the people in bondage in Egypt—the Covenant that found its expression in the leadership and laws of Moses.

But the Covenant went back even beyond that, for we have the story in Genesis of a very definite Covenant made between God and Abraham, looking forward to the building up of a great race of which the faithful Abraham was to be the head.

This Old Covenant, in Jeremiah's thought, had been abrogated not by God, but by the people themselves. Through their unfaithfulness, they had forfeited the privileges of the Covenant.

* * *

WERE they then hopelessly estranged from God? Was there no recovery for a people who had backslidden and lapsed through idolatry into moral decadence and defeat? Not so, says Jeremiah. This stern prophet, even in his sternness, is the prophet of a righteous and merciful God. He says that God will make a New Covenant with the people that it is possible for people with the law of God in their inward parts and in their hearts to enter into an alliance with God. He sees a great day of religious revival, in which all men shall turn in sincerity to God. It will not be necessary for man to teach his neighbor, for all shall know God from the least even unto the greatest. All these blessings of the New Covenant are to be based upon an experience of forgiveness and restoration.

Who is this God who thus covenants with man? It is the God of the whole earth, the God who "giveth us the sun by day and the moon and stars by night. It is the God whose presence and power are manifest in the whole universe. "Jehovah of hosts is His name."

3:30 p. m. Service

The Y. P. S. is planning to have a picnic at the new state park on Sunday evening at seven and is inviting the congregation.

The Bible Class is beginning the study of the New Testament books. Come.

Everybody is cordially invited to come and attend our services.

Mrs. Burl Teague returned to her home in Pampa Sunday after a weeks visit in the home of her parents, Mr. and Mrs. A. N. Dowers. Mr. Teague joined her Saturday night.

Mr. and Mrs. Max Mitchell and Frances of Borger were week-end guests in the S. P. Whippo home.

Greeting Cards for every occasion at Stewart Printing Co.

June Alyse Brunk Perryton Student

Miss June Alyse Brunk, thirteen year old daughter of Mr. and Mrs. Glenn Brunk, will receive her diploma from the eighth grade of the Perryton Schools, Thursday evening, May 23, when the Junior High School Commencement program is held.

Miss Brunk has had a very colorful life during her seven year of

June Alyse Brunk

public schools. As her parents operate a traveling show, she enrolls in school wherever they happen to be and usually spends one week in each school. This is her first time to attend the Perryton School but it makes 275 schools she has attended.

She says: "I find it harder to keep up with my high school work by making so many changes as

My ...will always be on the side of ...plain people, of whom I am a

...am a firm believer in the prin... of adequate National De...; but believe that war is the ...remedy we should use in any ...national difficulty. I am a Vet...of the World War and most all ...men feel the same way that I ... this subject. I firmly believe ...we would have already been in ...present war had it not been for ...influence of our ex-service ... organizations who are con...ly fighting for peace. As a vet... my vote on the subject of ...ng our mother's sons out to be ...n fodder will always be very ...ous and considered. I will al...oppose war unless it becomes ...tely conclusive that there is ...her way out.

...endorse the work of the Dies Committee. I think there is no place in this country for any "ism" except "Americanism." I accept the program of our ex-service men's organizations on this subject.

"I endorse the program of the American Federation of Labor. I oppose the C. I. O. and its sitdown strikes. The National Labor Relations Board must be reformed to promote fair labor decisions. Industrial justice and harmony must be secured.

"Something should be done to wipe out the injustices of our Old Age Pension system. As it is now, we pay as much taxes in Texas for Federal Aid to old age pensioners as they do in other states. However, the people in Washington do not give our old people the Full Federal allotment of $15.00 per month, because the State of Texas has not raised the money to pay another $15.00. I contend that if we are taxed now by the Federal government to pay this $15.00 Federal Aid, the old people of Texas should be getting their $15.00 Federal money now. I pledge you that I will cooperate with the State Administration of Texas in getting justice on this subject by supporting Federal legislation to do away with this unjust discrimination. Pension payments by the Federal government should be uniform in all of the states. As a Congressman, I could do nothing about the state's half of the pension, but I could do something about the Federal half, and I would.

"I favor common sense economy in government. All expenditures should be reduced and the budget should be balanced as soon as possible as President Roosevelt recommended to this present Congress. Not even a government can live beyond its income very long without bankruptcy.

"I oppose the Cole Bill to provide Federal regulation of the oil industry and any other participation by the Federal government in private business; and I believe the worker and farmer can both be adequately protected within the great outlines of our Constitution without such government ownership or control of private enterprise. I shall always support progressive legislation to that end."

Goodyear Makes New Market Tire

Timed for introduction at the beginning of the year's four-month peak period in tire buying, Goodyear Tire & Rubber Co., today announces its new All-American tire, made in popular sizes to cover 70 per cent of the current market of automobiles in service.

Described as full size, bearing a lifetime guarantee without time or mileage limit, the tire is made in 6.00-16, 5.25-17/5.50-17 and 4.75-19 5.00-19. Its addition to the line makes a most complete grouping of tire and tube merchandising units, literally made to measure values to fit any car or truck, whether for a seven-year-old used automobile or a smart new deluxe car, a single truck or a fleet of high-speed transports, Harold Hawk, local Goodyear dealer, said.

"Affording an opportunity for the man who doesn't want to invest as much in tires, but yet enabling him to get products built by a recognized manufacturer, the All-American supplements the company's line of Double Eagle, G-3, Marathon and Pathfinder tires, providing one for every price range, to meet every driving need," said Mr. Hawk.

Economies in manufacturing processes make the new tire possible at a net low price, Mr. Hawk stated. The same materials are used as are employed in the manufacture of all Goodyear passenger car tires, and the carcass is made with low-stretch Supertwist cord, which has a higher tensile strength than did even the quality tires of two years ago. Double cord breaker of high-tensile cord has been included to give greater protection against bruises.

Tread design is new and known as the multiple-rib, which assures long, even wear, easy steering and resistance to side slip. Tread compounds are of time-tested reputation for withstanding abrasion.

• Blue Mound

School closed Thursday with a program, basket dinner and full day of enjoyment. A large crowd attended.

Mrs. L. V. Noe and Fred Clark were callers in the Pattison home Friday evening.

Miss Winnie Morris, Cecil Sagar and Kenneth Beckwith left Saturday morning for a trip to New Orleans, going by bus with the seniors and juniors of the Balko school. Kenneth Munger drove the bus. Mrs. Munger and the Balko teachers accompanied them.

Mr. and Mrs. Lewis Rorabaugh and Maxine and Mrs. Emma Bull are visiting with their son, Doyle Rorabaugh in Siloam Springs, Ark.

Mr. and Mrs. Horace Skeen and Miss Kitty Skeen called Sunday afternoon in the Patterson home.

Mr. and Mrs. A. E. Pittman visited Sunday afternoon with Mr. and Mrs. C. E. Sharpe.

Mrs. Gertrude Tallman, Perryton, visited Sunday with her mother, Mrs. Horace Skeen.

Mr. and Mrs. Howard Barnett and son, Jerry Lynn, Mr. and Mrs. Kenneth Trosper, E. J. Trosper and H. E. Pattison were business visitors in Amarillo Wednesday.—Mrs. H. E. Pattison, reporter.

Memorial Day services will be held in the Blue Mound Church Thursday, May 30, beginning at 10 a. m.

Wins Scholarship North Bend School

Miss Phyllis Brodie, daughter of Mr. and Mrs. John Brodie, formerly of Perryton, is one of the two seniors in the North Bend, Oregon High School to be awarded a scholarship. Miss Brodie's award is for the University of Oregon and she plans on entering school there in the fall.

She is the granddaughter of Mr. and Mrs. G. T. Leatherman, 202 NW Ninth street, and spent last summer in their home.

• Boyd

It rained two nights last week and on Friday afternoon it really poured for two hours. Some crops are washed under. We have plenty of hoppers to devour all that comes through the ground, it seems.

C. A. Trimmell and Bob Albin had the flu last week.

Ed and Joe Claybrook vaccinated their horses last week to prevent sleeping sickness.

Loyd Cowan lost a good horse by lightning Friday.

Ed Niece came up from Booker Thursday to work but the rains delayed the field work so he returned to Booker Friday afternoon.

George and Bill Hilderbrand attended the big day in Bethany Friday.

Mr. and Mrs. Joe Claybrook and children called in the Ed Claybrook home Saturday afternoon.

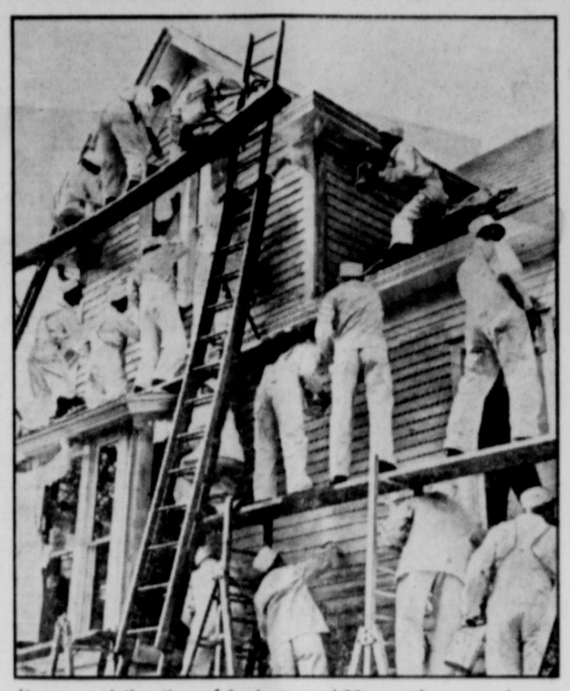
Frank Davenport has his crop to replant.

Mrs. J. T. Claybrook and Mrs. Ella Carter have each just completed a quilt top which contained more than 2,800 pieces to the top. That requires more patience than some younger ladies possess.

Ed Claybrook and George Kruse were in Perryton Saturday.

The incisors, or gnawing teeth of beavers continue to grow as long as they live to take care of the wear on them. The molars and other teeth do not grow.

Paint Pushers—4 Minutes Per House



It was a painting time of 8 minutes and 30 seconds set on a house in Memphis, Tenn., that brought out this crowd of workmen in Omaha. And you see only a few of them. One hundred ten painters covered this nine-room house in four minutes, 14 seconds, thereby clinching the record.

Cut Worms Work Havoc to Gardens

Along this time of year cut worms work havoc with spring gardens.

What makes most gardeners so mad is that the worms apparently work for spite. Instead of eating the plants they have cut down, they move on to others.

Cut worms like tomatoes best of all but they will work on almost anything.

Several thicknesses of newspaper, when wrapped around the tomato plant stems will foil the worms to some extent, or at east make them work for what they get.

For real satisfaction in cut worm control—and a gardener who has lost a row of his pet tomatoes wants all the satisfaction he can get—Cameron Siddall, entomologist of the Texas A. and M. Extension Service, recommends a poison mash.

The formula for the mash is 3 ounces of white arsenic or Paris Green, 5 pounds of coarse wheat bran, ½ pint of molasses, and enough water to make the mixture sticky.

He says to 'strow' it along the row late in the evening so that the worms can get a dose of it that night.

A dairy cow is an expensive water heater. The oil burning type is much cheaper.

Attend A. & M. Meet

R. C. Allen, county surveyor, left Saturday for College Station where he will attend a Short Course conducted by Bascom Giles, state land commissioner. The chief engineer from the Land Department and several instructors of A. & M. will assist with the school which will last several days.

Mrs. Allen and daughter, Miss Winona, and Mr. Allen's nephew, Jack Harris Allen, accompanied him. Jack will go on to Austin to enroll in the Texas University for summer school.

Oil companies made an average profit of slightly over two per cent yearly on their investment for the 17 years from 1921-37 inclusive.

In 1938 the total tax on Texas oil averaged 9.3 cents per barrel.

MOLINE WHEATLAND DISC PLOWS

The GREAT LAND AND MONEY SAVERS

Cut your plowing costs in half with the original M-M big disc Wheatland plow—because of its wide cut and light draft in comparison with any moldboard plow. The Moline does a better job of plowing, from 3 to 9 inches deep. It scours well and is remarkably free from clogging with its big 26-inch discs, spaced 10 inches apart. The plowing job compares favorably with a moldboard plowed field that has been nicely harrowed.

Prepares an ideal seed bed for small grain—BECAUSE it mixes trash and stubble with the soil in such a way that there are no air pockets, and there is good capillary action between subsoil and seed bed.

The Moline Wheatland disc plow is strong, sturdy and rigid, built entirely of strong steel bar angles and castings. Farmers say it "can't wear out or give." Other important points also make it the outstanding plow of its kind on the market today.

Come in and get free literature and complete facts. Let us show you how it cuts your plowing bill. The Moline Wheatland is also ideal for summer fallowing . . . gets the weeds and moves all the ground.

PLOWING AND SEEDING IN ONE OPERATION

Equipped with a Monitor seeding attachment shown above. Your Moline Wheatland plow does the plowing, seeding and harrowing in one trip over the field. . . . A big saving where grain prices are low. This once-over outfit prepares a good seed bed, does an excellent job of drilling or broadcasting, and all in a shorter time and at less expense. Stop in and get all the facts.

PIERCE JOHNSON UNIT NO. 254
THE AMERICAN LEGION AUXILIARY

WHO ARE THEY?

Who are these men? What's their racket? Wotta they got to offer? Are they great industrialists, politicians, scientists, artists? Why should I give 'em my money?

These men are vets. Their aim is to salvage that part of their lives that's left them after a great war. They are trying to help themselves and their large community of wounded fellow soldiers. No, they aren't great. They aren't famous. They are men from common walks of life who, in the first flush of their youth, found themselves fighting for a cause. But they might have been great. They might have invented a motor car, an electric light; they might have been governor, senator, president; they might have got that culture for cancer, written that great novel, painted that great picture. Might have been. Instead they fought great battles. They're still fighting . . . fighting so people won't say, "Why should I give 'em my money?" They don't want money given them. They want to earn it. And they make tiny flowers — poppies to sell. They want you to buy them . . . as straight merchandise . . . so that they can help themselves with better medical care and facilities. So that they can let us enjoy our healthy bodies and normal lives without the burden of the memories that the last war has cast into their lives. You will remember, of course.

Casualties Come Again for France

The story that is old to France but this time may be more terrible than ever before is told in this picture rushed from the Western Front. A rescue squad carries the first casualties after a disastrous Nazi air raid over Nancy and other important French cities.

War Boosts Fish Business in Quebec

Europe's war, necessitating increased food imports, is bringing prosperity back to the fishing industry of Quebec. Seat of the fishing industry is picturesque Perce, on the south shore of Gaspe peninsula. Daily, boats like that below come in with their catch of cod, salmon and lobster, unload them in old-fashioned carts for the trip to the drying racks. Insert shows a fisherman hauling a big cod out of a net trap.

Shirley Retires at Old Age of 11

It's a happy Shirley Temple, shown here with her father, George Temple of Hollywod. Shirley has "retired" from pictures, has nothing to do but go to school until she's at least 16. Then she hopes to become a "full-fledged" actor. The child star has a fortune estimated at $3,000,000.

Charmingly "At Home"

informal "at home" costumes catch and hold the fash- ht these days. These two outfits are especially be- all types of figures. Patricia Plunkett, left, New York models a multi-colored print dinner dress with shirt- bodice and a full skirt. It is as suitable for a country as it is for home wear. The gray and white polka dot , are teamed up with a frothy white Swiss organdy e cumberbund is of yellow silk.

Malaria Control Needed

AUSTIN, Texas—"A marked saving in human lives and improved health conditions may be obtained in large measure through a positive program for the control of malaria," Dr. Geo. W. Cox, State Health Officer, states.

"Malaria is transmitted to humans," he said, "by the bite of the Anopheles mosquito. This mosquito acquires the malaria parasites by biting a person who has these parasites in his blood. She (it is the female mosquito which transmits the disease) then bites a well person. The parasites enter the blood, grow and multiply there. Poisons are formed and carried in the blood stream to all parts of the body. The person bitten by the carrier mosquito begins to shiver with chills, burn with fever, and to have a headache.

"Prevention of malaria should start with the protection of humans from the bite of an infected mosquito and continue through to the elimination of the mosquito.

"The protection of humans may be accomplished by screening all houses to prevent the entrance of mosquitoes. A 16-mesh wire screen should be placed over all openings. Be sure that all chimneys, cracks, and other openings are covered.

"The malaria mosquito breeds in still water and the pools and grassy edges of running water, as well as in many places where water is allowed to collect and stand. The female mosquito then lays her eggs on the surface of the water, where they float and in a few days hatch into 'wiggle-tails.' These live in the water and in time turn into mosquitoes. These changes must take place in the water and require from twelve to fourteen days in summer to complete the cycle.

"In order to prevent the malaria mosquito from breeding, destroy their shelters by removing all brush and weeds; and drain or otherwise control their breeding places in water by spraying the surface with oil or putting top-feeding minnows in waters where oil or drainage cannot be used," Dr. Cox advised.

"Consult your local health officer or sanitarium about methods of control in your community. The State Department of Health has available free literature on malaria control measures, also."

Amarillo Office Asks for Recruits

After having been closed for the past two months, except for two small quotas, the Army Recruiting Office at Amarillo announces that the new expansion program for the army is now underway. Enlistments are being received in Amarillo.

Sgt. R. A. Jackson, DEML RS, in charge of the Amarillo recruiting office, states, "Several hundred selected young men from the Panhandle will have the opportunity of receiving training in the modern army being brought into being in the interest of our National Defense. Recruiting is now open with accepted applicants being forwarded at once, all expenses paid by the Government."

Perryton golfers who were in Hooker, Okla., Sunday for the one-day golf tournament were J. O. Young, L. D. Garrison, W. E. Foglesong, Garland Redfern, W. E. Perry, M. M. Cudd, F. H. Cox, Curley Keysburg and Bernard Leslie. Ask them who brought home trophies.

GLASS for your home or car at Daley Glass Shop. 18-tf-c

Battle of Guns—For Army Approval

The guns Melvin M. Johnson, Jr., left, Boston, and Lon Cornell are firing have plunged the army and Congress into a charp controversy. Johnson is holding the Johnson semi-automatic rifle which he invented and which he claims is superior to the new Garand rifle the army adopted. Senator Elmer Thomas, Oklahoma, chairman of the Senate Military Appropriations Sub-committee, has asked a test of the two guns to settle the matter.

Trail Drivers Will Meet in Dalhart

DALHART—Col. Jack M. Potter of Clayton and Santa Fe, N. M., 76-year-old former Texas Trail driver has already been to Dalhart to help arrange for the annual convention of the Trail Drivers of the Southwest of which he is president.

Several years ago the Trail Drivers met in Dalhart on the dates of the Annual XIT Roundup, which is to honor the men and women of the Old West, particularly those who worked for the XIT, and voted to hold thereafter their convention on XIT dates in Dalhart. The Fifth Annual XIT Roundup will be next August 5-6.

Last year at the XIT Roundup the Texas-Oklahoma-New Mexico Cowboy Association was formed, and will hold an annual meeting known as the TNO Roundup. O. D. Atkinson, Dalhart, who once punched cows with the late Will Rogers, is president and it also will meet each year in Dalhart on XIT dates.

A fourth special attraction in connection with the XIT event next August 5-6 is the Coronado Cavalcade which will form the night shows. In prior years the XIT organization has staged its own pageant, reviewing the colorful history of the Old West, particularly as it revolved around the three-million acre XIT spread of the 1880's.

This brilliant Coronado Cavalcade is the show developed by the U. S. Coronado Commission as a part of the 1940 Southwestern celebration Commemorating the 400th anniversary of Coronado's adventuresome search for gold across the Llano Estacado.

On this historic journey Coronado is said to have twice crossed Texas soil that later became XIT land. On his return he reportedly camped at Buffalo Springs, 32 miles north of Dalhart, where today still stands the No. 1 division headquarters of the XIT, established there in July 1885.

Mr. and Mrs. C. W. Claybaugh, Liberal, Kansas, Myrtie Mae Conley and Arch Talley were Sunday dinner guests of Mr. and Mrs. J. C. Barton and Denny of Lipscomb County.

Raymond Overbey visited from Friday night until Sunday evening with his parents in Childress.

The Gulf Coast area of Texas has 33 oil refineries with a capacity of 1,047,950 barrels of crude daily, or more than any other entire state.

Nazi Flag Flies At Michigan 'U'

There was near-riot on the campus of the University of Michigan when the Nazi swastika suddenly was seen on the flagpole just before a student peace rally. A university employe is shown, top, pulling it down while students, below parade with their peace banners.

Mr. and Mrs. A. C. Nies and Mr. and Mrs. Fred Nies were in Florence, Colo., from Saturday until Monday visiting with their son and brother, Walter Nies. Walter is employed with the Florence Hardware Co.

Four-fifths of all the oil produced in Texas is also refined in Texas, making petroleum refining the state's largest manufacturing industry.

Taxes paid by Texas oil producers now average 9.8 cents per barrel, the highest average oil tax paid in any oil state.

Band School This Summer

Plans are in progress for the establishment of a band school to be held this summer in the band room, Herbert Lindsey, band master, said here Monday. The school will start June 3 and continue four weeks. Daily classes will be held Monday to Friday from 8:30 to noon and instruction will be offered in all band instruments for beginners, junior band, and senior band. Instructions will also be given in marching fundamentals and twirling.

In announcing the school Lindsey said that he is anxious to have a large class of beginners because it is always difficult for a director to organize a beginner's class during the first busy days of the school year.

Those interested in getting their children in the band should see Herbert Lindsey before June 3. Registration for the school will be Saturday, June 1. Tuition is very reasonable.

Ball Club Defeats Woodward

The Perryton Baseball Club opened up in the eighth inning Sunday at Woodward to defeat the Oklahomans 11-1 in a whirlwind finish.

The Woodward club made the initial score of the game with Baer crossing the home plate, but was unable to follow up the advantage or proceed further during the remainder of the game.

The Perryton nine started a drive in the seventh inning with Muir and Fox scoring and climaxed a strong offensive in the eighth with Devers, Richardson, Brown, Muir, Hart and Fox adding runs. In the ninth Pruitt, Hart and Fox each rang up three more.

The lineup follows:

Perryton	AB	R	H
Neighbors, ss	4	0	2
Devers, lf	6	1	2
Richardson, 1st	5	1	3
Brown, cf	5	1	1
Pruitt, rf	5	1	1
Muir, p	5	2	2
Hart, 2nd	5	2	2
Fox, 3rd	5	3	2
Blair, c	4	0	2

Woodward	AB	R	H
Elmore, 3rd	4	0	1
Fletcher, ss	4	0	3
Carter, rf	2	0	0
Brice, p	2	0	0
Curtis, cf	3	0	0
Elliott, lf	4	0	0
Wilson, 1st	4	0	0
Neighbor, 2nd	4	0	0
Baer, c	4	1	1

Mr. and Mrs. T. R. Murray returned Monday from Carlsbad Caverns and other New Mexico points where they have been spending a week's vacation.

George Ayers of Canadian was a Perryton visitor Saturday and Sunday.

Who Is Overtaxed?

Recently a high Federal official came forth with an astonishing statement to the effect that commecial motor vehicles are paying too much for the use of public highways—while the private user is not paying enough. That opinion, which goes counter to the facts produced by outstanding surveys of trucking taxes, was based on the assumption that home owners, farmers and others who pay general taxes should pay 60 per cent of all highway taxes—while those who use the roads should pay but 40 per cent.

Commenting on this, John J. Pelley of the Association of American Railroads, observed: "I don't think the taxpayers of the country will accept any such conclusion as correct . . . . The question of whether trucking companies pay their share of the cost of the roads they use is one to be determined by a careful study of the facts in each state.

As it happens, two states have made such official studies—Missouri and Illinois. According to the Missouri study, the taxpayers are subsidizing the commercial truckers to the tune of from $231 to $615 per truck per year. And according to the Illinois study, the subsidy runs as high as $996 per truck per year.

It is going to be hard for anyone to laugh off surveys such as these. Certainly, sweeping generalized statements, unbacked by factual data, won't satisfy the thinking citizen who must pay constantly mounting taxes to build the most costly types of highways and bridges required to carry virtually railroad-car-size commercial motor equipment which causes infinitely more wear and damage to road surfaces than do private cars and farm traffic.

It is an interesting commentary on all this that the railroads contribute over $35,000,000 a year to construction and maintenance of highways through payment of taxes on their property. That is $8,000,000 more than the total taxes, fees and other charges of all sorts paid for all purposes by motor trucking companies which haul freight on tax-maintained highways. If the truckers are overtaxed, most of the unprejudiced economists who have studied the question belong in mental institutions.

Census Figures Down in Many Towns For This District; Perryton Under

The population of Perryton as shown by a preliminary count of the returns of the sixteenth census, taken as of April 1, 1940, is 2,321 as compared with 2,824 ten years ago. All towns in this area with the exception of Borger, Canadian, Gruver, Matador, and Roaring Springs, were considerably lower than the last census reports.

"While all figures are preliminary and subject to correction, they are believed to be substantially correct," Lee Carroll Smyers, census supervisor of District 23, said.

Town	County	Population 1930	1940

Dispelling the Fog

By CHARLES MICHELSON
Director of Publicity, Democratic National Committee

It being part of the regular procedure in campaign years for the opposition party to assail the administration in power, we must look forward to some months of ill-tempered criticism of every act or policy the Democratic government undertakes.

Theoretically politics adjourns at the ocean's edge—and that is the simplest sort of sense at such a time as this—but, because of the adherence of the G. O. P. machine to the doctrine that it must never be admitted that a Democratic President or Congress can ever be right, even our foreign policy is attacked. Fortunately most of the people—Democrats and Republicans alike—understand the situation and pay little attention to this form of guerrilla assault. The country, at large, realizes that President Roosevelt's handling of the difficult problems arising from the European War would be assailed by some individuals for political purposes, no matter what he did. We would have the same sort of barrage if he were isolationist, or interventionalist, or anything between the two extremes.

This was illustrated by District Attorney Dewey in two of his speeches in his foray for delegates to his party's convention.

In Wisconsin, for example, he said:

"I am convinced that the only way this country can remain genuinely neutral is for the Government to give all its attention to procuring domestic recovery and to keep its hands wholly out of the European war and out of any negotiations that may take place between warring nations, now or at any other day."

Wisconsin vs. New York

In New York City, on the other hand, he told the Republican Women's National Republican Club that:

"We in America cannot escape being affected by these tragedies. Nor can we remain unmoved by the agony through which millions of men, women and little children are passing daily, both in Europe and Asia. For their sake—for our own sake—we must search for the moment when we might without entanglement, use our good offices to effect a genuine peace."

Naturally—in Wisconsin—he attributed the President's course to political interest and charged him with emphasizing concern for the war situation to distract attention from our home problems. "That is a principal reason," he declared, "why we must elect a Republican administration which will give its whole attention to restoring prosperity and will keep completely out of the affairs of Europe."

It would be unfair to assume that the Republican leaders indorsed the Dewey sentiments expressed in the West. For example, over his own signature, Frank Knox, Republican nominee for Vice President in 1936, had this to say:

"Let us face the grim realities. German success, uninterrupted success thus far, has put fear in our hearts. We see the greatest military power in Europe on the verge of securing command of the sea in European waters. We unerringly sense what this means for us. It ought to make us realize that the more we aid the allies by supplies, credit and acquiescence in blockade measures, that we ourselves would apply to neutrals if we were belligerent, the less will be the danger of our having to become a belligerent."

Looking to the Future

It is the administration's job to keep us out of war. Moreover, it is the administration's job to look ahead and make our situation secure in the event that the unpredictable future should bring the calamity to this hemisphere. Events have justified every step that has been taken. The President foresaw that the European war was imminent when extreme isolationists in Congress were insisting that there would be no war. The forbidding of our shipping from commerce in the war zones saved unnumbered American lives and prevented the sinking of nobody knows how many American ships. The program for naval expansion and the improvement of our defenses are not a preparation for war, but the simplest insurance that we shall be immune from that danger, however runs the course of the great European struggle. No dictator, striving for world domination, is going to tackle us—if he knows that we are ready to protect our shores—and the rest of the Western hemisphere.

Though the Roosevelt policies have been assailed by various important figures in the minority party, not one of them has come forward with a definite program to supersede the administration's processes. None of them has told us what the Republicans would offer in the foreign relations field, should they ever come to power.

While Col. Knox was assailing the Dewey isolationist position in the West, Congressman George Holden Tinkham went after him for his contrary views in the East. Said the Massachusetts Representative: "Mr. Dewey publicly indorsed the internationalist policies of President Roosevelt. * * * Such a statement is a repudiation of the efforts of the Republicans in Congress to combat the various attempts of the Roosevelt administration to undermine American neutrality."

So it is evident that no matter what the President says or does he cannot please the minority party's spokesmen.

Roosevelt's Policies

However, as previously suggested, the American people have through long experience learned that the mouthings of his political opponents are not important in a situation like that which confronts the world today. It is his function, through his Secretary of State, to conduct our foreign relations and a vast majority of our citizens agree with his sentiments as well as his processes in that direction. He could not declare war if he wanted to. That power reides exclusively in Congress.

He told the story in his recent speech before the Pan American Scientific Congress, when he said:

"I am a pacifist. You my fellow citizens of twenty-one American republics are pacifists. But, I believe, that by overwhelming majorities you and I, in the long run and if it be necessary, will act together to protect and defend by every means our science, our culture, our freedom and our civilization."

Grow Beards for Roles in Entrada at Pampa, June 13-15

Pampa men who will assume roles in the Coronado Entrada to be staged in Pampa at the Top O' Texas Fiesta, June 13, 14 and 15 won't have to wear false whiskes when they don the specially-made costumes. Two hundred Pampa men began growing whiskers in Mach; 200 others began letting their hair grow long in the Coronado fashion. The man with both long hair and whiskers in the center hopes to play the role of an Indian. Left to right, Johnny Wells, chairman of the Coronado whiskers club; Ed (Bull Burch, former football star; Lawrence Stacup, Earl Isley, L. B. Schlemeyer and Floyd Looper. The $100,000 Entrada will be produced on a stage long as a football field and 40 feet high. The cast will contain 1000.

Many Workers Aid Chapter

The War Relief Production Committee of the Ochiltree Chapter of the American Red Cross report the work of garment making and knitting, which this Chapter was asked to do by the National Red Cross, well under way. Mrs. Rose Mitchell is chairman, Mrs. Henry Richardson, in charge of the knitting, and Mrs. Clarence Neufeld, the sewing.

The materials and yarn are furnished by the local chapter. The yarn is on hand, dress materials and patterns which are being purchased through the local stores will be ready for distribution in a few days. More workers are needed, if you can sew or knit please volunteer your services to this committee.

The quota for this Chapter which is to be completed by June 15, is: 5 men's sweaters, these are being made by Mrs. Cromwell Rogers, Mrs. Irvin Hergert, Miss Bette Bryan, Mrs. W. E. Warner and Mrs. Henry Richarson; 5 ladies' sweaters, being made by Mrs. Quentin Williams, Mrs. M. P. Exline, Mrs. W. L. Philyaw, Miss Helen May and Mrs. B. F. Frass; 10 children's sweaters, being knit by Mrs. G. W. Acker, Mrs. Seldon Caradine, Mrs. Glen McGibbon, Mrs. Dan Archer, Mrs. Horace Lackey, Mrs. J. W. Frass, Mrs. W. E. Warner. Yarn for several other sweaters still on hand.

The garment quota consists of 5 woman's dresses; 10 children's dresses and 5 layettes. Volunteers for this work are: The Perryton Home Demonstration Club, Ladies in the Sewing Room; Mrs. Fred Mannen, Mrs. Otis Shearer and Mrs. Harriet P. Thornton.

The Junior Red Cross have been asked for special work this summer and a room will be assigned to them in the school building where they can meet for work and instructions. Miss Lida Beasley is Junior Red Cross chairman.

Bush Honored by Teachers and Students

O. A. Bush, principal of the Perryton high school, was surprised Tuesday morning by members of the school faculty and high school students, when he was presented a beautiful gold wrist watch. The presentation was made by Neil McGarraugh, president of the student body, assisted by Maxine May.

A special chapel of the high school was called by Supt. Roger A. Burgess and the watch given by teachers and students to Mr. Bush in appreciation of his years of work and service in the Perryton school. He has resigned here and has accepted the superintendency of the Gruver schools. The gold band, matching the watch, was the gift of R. B. Yoakley.

Approximately 30,000 Texans are employed by Texas oil refiners. The annual payroll for these refinery plant and office workers is approximately 50 million dollars a year.

Nine accidents out of every ten can be prevented.

Safety and courtesy are Traffic Twins . . . Carelessness and failure are also Twins.

It is remarked that boys have always fought and always will. They often develop scruples against such fighting when they see a bigger boy.

Passing the library of Northwestern University, the Lamar Library of the University of Texas the past year became the thirteenth largest college library in the United States. It has a total of more than 620,000 volumes.

Cash sales of poultry and eggs brought Oklahoma producers $11,075,000 in 1938.

How About Boys In Back Room?

When Ona, Jersey cow on a Conneaut, Ohio, farm, wants a drink, it's all very simple. She pumps the water herself. When her owner discovered Ona was a rugged individualist of the old school, he stanchioned her next to the pump. She raises and lowers the handle with her nose until her water bucket is full. Then she continues to pump as the bucket overflows, sends water down a trough to her pals in the barn.

"Ag" Association Endorses Wells

Deck Wells, candidate for Congressman from the 18th District, was endorsed in the following resolution passed by the Collingsworth County Agricultural Association at their meeting on May 21.

Resolution

The Collingsworth County Agricultural Association does hereby wish to bring to the attention of the Agricultural Associations over the Panhandle that Deskins Wells, secretary of the Collingsworth County Agricultural Association is a candidate for post as Congressman from the 18th Congressional District, and

Deskins Wells, during the 15 years he has served as editor of The Wellington Leader, has worked continually and effectively for the farmers and ranchers not only of Collingsworth County but of the entire Panhandle, supporting those measures which are designed to benefit the agricultural section, and opposing those that would prove a detriment; and

He has worked faithfully with the Collingsworth County Agricultural Association since its organization two years ago, and is now serving a second term as sceretary-treasurer of the body, and has been instrumental in the building up of the Association here; and

The need for the agricultural interests of the Panhandle to unite behind a man who already knows the problems of the farmer and rancher is apparent; and

His interest in this work has proven sincere; now therefore

BE IT RESOLVED, that the Collingsworth County Agricultural Association go on record as supporting Deskins Wells in his race for Congress, and that the Association invites the other Associations of the Panhandle to investigate his record and to likewise go on record supporting him.

B. G. GLENN, President

Farmers Filling Out Plan Sheets

It is estimated by the County Agent that 90 per cent of the farmers in Ochiltree County who have signed applications for parity payments have filled out farm plan sheets covering their individual farms with the assistance of employees of the county ACA office. Others will fill out farm plan sheets as they sign their application for payment.

These farm plan sheets show the approximate amount of soil conserving payment and soil building allowance which may be earned on each farm and the producer indicates on the farm plan sheet the practices he expects to carry out to earn the soil building allowance. The soil building allowance on the average farm is approximately $9.00 for each 100 acres in cultivation plus 10c per acre of native pasture.

A special provision for 1940 provided for a minimum allowance of $20.00 soil building payments per farm. This minimum would therefore apply in Ochiltree County to all farms with 217 acres or less in cultivation. Approximately 200 farms in the county are affected by the minimum payment.

Most of the farmers in the county are taking advantage of the soil building allowance by carrying out the following practices: contour or pit cultivation on summer fallow land; seeding small grains on contour; contour or pit cultivation of stubble land after harvest and planting feed crops in rows on contour.

CARD OF THANKS

To everyone who helped in any way to make the "Kick-Off" dinner a success, I extend my deepest appreciation. To the Masons and Eastern Star Chapter, for the use of their building and equipment, and Mrs. W. L. Philyaw, who directed the serving, special thanks is extended.

Mrs. A. K. Wooten.

Dr. Powell, Eye, Ear, Nose and Throat specialist, will be at Dr. Kengle's office, Tuesday, May 28.
21-1t-c

Mr. and Mrs. O. E. Carter, Mr. and Mrs. Carl Carter and children and Fred Carter of Goltry, Okla., were dinner guests Friday with Mr. and Mrs. Oliver Carter.

Mr. and Mrs. Art Sword and son, Leonard Willis, of Wichita, Kans., are spending the week in Perryton visiting friends.

To Play With All-Stars

Clyde Flowers and Jimmy Palmer of the Perryton Rangers are among the 22 boys selected for an all-star football team to play in Wichita Falls on September 2, according to information received today by Coach Otis E. Burk from Goober Keyes, Lubbock high school coach.

Coach Keyes stated that the players on this all-tar team are being elected from high school football players over the entire state of Texas. The Wichita Falls Shrine is sponsoring the game and the proceeds will be used by the Shrine in its work for crippled children in Texas.

Transportation and expenses of the players will be taken care of by the Wichita Falls Shrine. Players will undergo a week's training perceding the game, with college coaches in charge. All members of this all-star team will be given some award for participating in this game.

Coach Burk stated that Flowers and Palmer have accepted the invitation to be a member of this squad and help in this worth while project. Flowers will have the position of fullback and Palmer, tackle. Both boys are completing their high school work this year, and will receive their diplomas Friday night.

Fred Carter, Goltry, Okla. brother of O. E. and J. O. Carter, visited last week in their homes.

Mrs. J. O. Carter spent last week visiting with her mother, Mrs. J. W. Wilson, near Goltry, Okla.

Beach Togs — Cool and Colorful

Typical of 1940's gay beach togs are the two outfits above. The girl wears a flattering, ultra-wide cartwheel sports hat of matching straw with a similar band, a play suit of printed cotton. Her companion wears a tan beach or general summer sports hat of chain braid straw with a slightly greenish cast. The band is a printed green scarf.

World Outlook W. M. S. Theme Thursday, May 16

The Methodist Missionary society met in the church Thursday for the monthly social and World Outlook program. Mrs. C. B. Rogers was in charge.

The program: hymn, "Take Time To Be Holy"; prayer, Mrs. W. E. McMillen; hymn, "Are Ye Able"; lesson topic, "A Christian in Deed and in Truth," the life story of Mrs. Luke Johnson, given by Mrs. Clarence Zirkle and Mrs. Max Boyer; meditation and closing prayer, Mrs. J. H. Neufeld. The retiring president, Mrs. Roger A. Burgess was presented with a gift.

The hostesses, Mrs. E. W. Thomas Mrs. T. V. Elzey, Mrs. H. A. Finch and Mrs. Burgess, served dainty refreshments to those on the program and Mesdames P. E. Yarborough, W. C. Herndon, H. C. Sanford, Clifford Beck, H. W. Ragan, S. E. Price, Louis Jacquot, D. D. Shanks, Chas. R. Garrett, O. A. Bush, Quentin Williams, E. B. McNett, M. L. Brillhart, H. F. Cox, Otis Shearer, D. D. Taliaferro, Harve Wilson, E. W. Witt, Roy Bell, Cecil Witt, J. W. Richardson, Roy Orrill, F. C. Spencer, Jack Allen and Miss Nellie Perry.

Mrs. Christopher Honored at Party

Leading the social events of the week-end was the attractive breakfast party given by Mrs. Glen Mcgibbon in the Hotel Perryton Friday morning as a compliment to Mrs. Ray Christopher, who is visiting here from Brownfield.

The delightful two course meal was followed by games of progressive contract. Score prizes were won by Mrs. W. R. Cayler, high, and Mrs. Ray Weir, second high. The honoree was presented with a lovely gift.

The invited list included Mesdames Charley Kent, Ray Nelson, George Clennan, G. L. Kengle, Jack Todd, Henry Richardson, Ray Weir, Jake LeMaster, Miles Edwards, Harry Cayler, Carroll Dodd, A. W. Blue, Lester Evans, Max Boyer, Clara Bailey, J. M. Anderson, W. R. Cayler, Seldon Caradine, Cecil Dodd, and the honoree, Mrs. Christopher.

Mrs. Blank Honored At Tuesday Shower

Mrs. R. B. Trayler and her mother, Mrs. G. C. Brillhart were cohostesses Tuesday afternoon when they entertained with a prettily appointed pink and blue shower for Mrs. Dean C. Blank.

The affair was held in the Trayler home, 405 Southwest Second street. Twenty friends called between the hours of three to five o'clock. Each were served with ice cream, pink and blue cakes and punch. A fragrant bouquet of sweet peas was presented Mrs. Blank by the hostesses and individual corsages given each guest.

Delt-a-Deck Met In Sib Jines Home

The Delt-a-Deck bridge club were entertained for their stated meeting Friday, May 17, in the Sibley Jines home with Mrs. Jines the hostess.

High score award was won by Mrs. Ed Lynch, second high by Mrs. Jerry Boston and low by Mrs. W. J. Miller.

Delightful refreshments were enjoyed at the close of the play by Mesdames Crawford Sims, Dean Blank, J. M. Anderson, Claud Allen, Roy Bell, W. L. Herndon, Tom Denman, Charley Kent, George Rupprecht, Miller, Boston and Lynch.

Thursday Club Met With Mrs. Williams

Progressive contract was the happy diversion for the members of the Thursday club when they met May 16 in the home of Mrs. Paul Williams.

Prizes were won by Mrs. W. E. Warner, high, Mrs. Frank Leatherman, second high and Mrs. A. R. Hawkins, floating prize.

Others present and enjoying a delicious refreshment plate were Mrs. Harry Barlow, Mrs. Loren Kaup, Mrs. Gerald Tindle, and Mrs. Ray Bowles.

Double Four Held With Mrs. Sanford

Mrs. H. C. Sanford was the gracious hostess for the Tuesday meeting of the Double Four bridge club in her home, 123 Southwest Fifth Ave.

High score was held by Mrs. A. P. Spicer. Others playing were Mrs. C. E. Woods, Mrs. C. B. Rogers, Mrs. Jack Allen, Mrs. Van W. Stewart, Mrs. H. I. Hudson, Mrs. H. J. Boisdorf and Mrs. A. J. Kelly.

Christian Church to Collect Eggs Sunday

S. P. Whippo, chairman of the egg committee of the Christian Church, issues an invitation for all available eggs to be brought to the church Sunday. The eggs are being collected to be sent to Juliet Fowler Orphan Home in Dallas, and will be shipped Monday.

Office Supplies at Herald office!

Home Ec Department Closes Years Work

The Home Economics department of the Sorosis club completed their years work with a program and social in the home of Mrs. L. T. Tucker Wednesday afternoon. Mrs. O. C. Shearer and Mrs. Roy Bell assisted Mrs. Tucker with the hostess duties.

The program topic, "Mother in the Modern Home" proved very enjoyable. Mrs. Rose Mitchell discussed "The Problem of Keeping Fit and Well Balanced" and Mrs. O. C. Rogers talked on "Most Efficient Uses for Energy of Women in the Home."

Others present for the afternoon were Mesdames Clifford Beck, W. M. Boston, Mark Boehning, J. M. Bull, D. A. Caldwell, R. T. Correll, Frank Cox, T. V. Elzey, W. E. Foglesong, Robert Lawrence, J. C. May, George Rupprecht, and the hostesses.

Send a Birthday Card from the

Mrs. Penn Honored At Sunday Dinner

The T. E. L. class of the Baptist Sunday School surprised their teacher, Mrs. J. W. Penn, Sunday, by accompanying her home from church services and spending the day. Each brought a part of the delicious meal which was enjoyed at one o'clock.

Those present were Mesdames Ecton Lawrence, Ollie Morris, R. H. Gamel, Clyde Cofer, J. M. Griggsby, J. L. Wagnon, J. W. Bennett, T. M. Wright, Harve Holdeman, G. D. Holt, C. E. McLarty, E. R. Jarvis, T. W. Johnson, S. R. McClung, J. D. Wade, Ike Sharpe, J. M. North, R. H. Francis, G. I. Horne, J. J. Long and a visitor, Mrs. Howard Holt.

Miss Richardson Is Club Hostess Friday

The Chi Sigma Phi club was entertained for dinner and bridge in the Hotel Perryton Friday evening with Miss Beth Richardson, the hostess.

A bountiful flower centerpiece adorned the table where covers were laid for Mrs. LaRue Norris, Mrs. Seldon Caradine, Mrs. C. O. Rogers, Mrs. G. W. Acker, Mrs. Max Boyer, Miss Helen Buckland, Mrs. Henry Richardson and the hostess.

In the bridge games which followed the menu, prizes were won by Mrs. Norris, high, and Miss Buckland, second high.

Barnett-Stephens Announce Marriage

The marriage of Miss Pauline Stephens and Mr. Ernie Barnett took place in Woodward County, Okla., on Saturday, May 4. The Baptist pastor of Forgan performed the ceremony in the presence of the parents of both bride and groom.

Mrs. Barnett, daughter of Mr. and Mrs. Grant Harryman, Floris, graduated from the Greeno, Okla., High School this spring. She was a star basketball player and has been an outstanding player during her four years of high school at Greeno.

Mr. Barnett has lived with his parents in Forgan for a number of years. He operates the Forgan Ice Plant and the young people will be at home to their many friends in Forgan.

Celebrate Birthday With Sunday Dinner

Ten of Miss Helen Doerrie's girl friends gathered in her home near Booker Sunday, May 19, to help her celebrate her birthday anniversary. After enjoying a very delicious dinner, the afternoon was spent in Booker and Perryton taking pictures.

Present to wish Miss Helen many more such happy occasions were Misses Virginia Fluitt, Pauline Cates, Ruby Thrasher, Ella and Mary Lee, Pauline Hummer, Nellie Stollings, Frances Bell of Booker and Eula Copeland and Edna Huston, Perryton; her sister, Mrs. Clyde Devers and sons, Roy Earl and Eugene Lee, and Mr. and Mrs. Roy Doerrie.

Mr. and Mrs. L. T. Tucker and Mr. and Mrs. Gene Tucker spent the week-end in Eagle Nest, N. M., fishing. They were joined there by Mr. and Mrs. Marion Tucker and Lee Tucker of Albuquerque, N. M.

Subterranean Kingdom

Santa Fe Railway Photo

This towering mass of limestone is the Giant Dome, world's largest stalagmite, which has been growing an inch each century and is reputed to be as old as the earth. The Dome, which is 62 feet high, is located in the Big Room at Carlsbad Caverns. The Room is nearly a mile long, 625 feet wide and has a ceiling 350 feet high.

Carlsbad Caverns National Park, situated in the foothills of the Guadalupe mountains near Carlsbad, New Mexico, is one of the most amazingly beautiful natural marvels in America. The Caverns, which became a National Park in 1930, were formed in the process of erosion by the gradual solution of underlying beds of limestone, gypsum and rock salt. They are filled with limestone formations of an infinite variety of shapes and sizes, ranging from icicle-like pendant cones of carbonate of lime, called stalactites, to the corresponding mushroom-like deposits of calcareous matter called stalagmites, found on the floors of the caves.

Jim White, a young cowboy, was the first white man to explore the caverns which he found in 1901, when he investigated the source of a dark moving column which appeared to come from the earth. The column proved to be an outrushing swarm of bats. Today the bats, numbering 3,000,000, provide a spectacle of their own as they leave the caves at sunset for a night's foray, to return at dawn and disappear into a portion of the Caverns not open to visitors.

The growing popularity of the Caverns has resulted in the establishment of a new service which enables Santa Fe travelers to make a minimum stop of one day to explore this underground Fairyland which Nature has been carving for 60 million years.

A leisurely tour of five hours permits inspection of the great chambers and time to enjoy a delightful luncheon at the halfway mark deep in the Caves. The trail leads through the Green Lake room, King's Palace, Queen's Chamber, Papoose's Chamber, and finally the Big Room where is found the Giant Dome, which bears a striking resemblance to the Leaning Tower of Pisa. Another majestic formation is the Rock of Ages where visitors halt for a brief talk, followed generally by the singing of the "Rock of Ages."

Gray Couple Wed In Enid Sunday

The marriage of Miss Luella Mounts, daughter of Mr. and Mrs. J. W. Mounts, Gray, Okla., and Mr. Carl Delano, son of Mr. and Mrs. C. E. Delano, Gray, Okla., took place in the home of his brother, Mr. and Mrs. Lester Delano, Enid, Okla., Sunday, May 19.

The Reverend William H. Boan, minister of the Church of Christ, officiated using the beautiful ring ceremony. Mr. and Mrs. Lester Delano attended the couple.

The bride was charmingly gowned in black mesh with white accessories. She carried a bouquet of white roses. She attended the Bethany schools and later took a beauty course in the Venus Beauty college, Wichita, Kansas working there after graduation.

Mr. Delano graduated from Perryton High School and attended Northwestern, Alva, Oklahoma. He is employed in the Booster Station near Gray, Okla., and they will make their home in the Gray community.

Others attending the wedding were Mr. and Mrs. C. E. Delano, Gray; Mr. and Mrs. Desly Tice, Miss Shirley Forney, Cecil Tice, Mrs. Mamie Speer and son, L. W., all of Enid, Okla.

Marriage on Wed. Unites Couple

Mrs. Marion Allen Terry and Mr. Wm. Adams, both of Perryton, were united in marriage Wednesday afternoon, May 22, in the office of Dewey R. Allen, Justice of Peace, in the courthouse.

Mrs. Adams has been in Perryton two months coming here from Amarillo to be supervisor of the Perryton Hospital. Mr. Adams has been here a short time and is connected with the Perryton Wheat Growers Inc.

Guests for Bridge In Cecil Dodd Home

Mrs. Ray Christopher, Brownfield, was the guest of honor Tuesday evening when Mrs. Cecil Dodd had a few friends in for bridge.

Light refreshments were served at the close of the play. Mrs. Jack Todd held high score and both she and Mrs. Christopher received lovely gifts.

Seated for the evening were Mrs. A. W. Blue, Mrs. Jack Todd, Mrs. Henry Richardson, Mrs. Nell Vernon, Mrs. Lester Evans, Mrs. Carroll Dodd, Mrs. Harry Cayler, the honoree and the hostess.

Hergert-Buckland Nuptials Spoken

The marriage of Miss Helen Buckland and Mr. Irvin Hergert was solemnized in Clayton, N. M., Saturday evening, May 18, 7 o'clock.

Both are well konwn here, having made this their home practically all their lives. Mr. Hergert is employed with the State Highway Department and at present is stationed in Dalhart. Mrs. Hergert is office assistant to Dr. G. L. Kengle.

Surprise Teacher With Shower Sunday

Miss Hazelle Scott, teacher of the intermediate class of the Christian Sunday School, was happily surprised at class time Sunday morning when her pupils presented her with a shower of miscellaneous gifts.

Members present and honoring Miss Scott were Donald and Dan Ellis, Darrell and Donnie Seymour, Miles Sumpter, Leland Wilson, Betty Gene Milam, JoLayne Allen, Alverna Records, Shannon Daniels and Lucille Batman.

Miss Ina Topley, Enid, Okla., and Horace Kerfoot, Hunter, Okla., visited from Thursday until Monday in the home of Mr. and Mrs. Joel Nelson. Mr. Kerfoot is a brother of Mrs. Nelson.

J. N. Conley and Frank Reed were in Darrouzett Wednesday afternoon to attend the funeral of Ben Phillthe father of Glenn Phillips. The Masonic Lodge were in charge of the final rites and Mr. Conley was the leader.

Mrs. Ann H. Cartwright, Amarillo, came in Sunday and will be here this week to be with her daughter, Suzanne, who is a senior. Mrs. Cartwright is staying in the home of her sister, Mrs. Harold Hawk.

Mr. and Mrs. Alzo Hibbs announce the birth of a daughter on Friday May 17.

Hospital Notes

Teddy Lewis, son of Mrs. Ollie Lewis, Booker, had his tonsils removed at the Perryton Hospital, Tuesday.

Mrs. Harley Farris, who was injured in a car accident five weeks ago, reentered the hospital for treatment Saturday.

Mrs. J. W. Sims, a patient for several weeks with a broken hip, is much improved.

Miss Rosa Barnes had a tonsil operation Tuesday morning.

Ivan, son of Mr. and Mrs. C. B. Gift, of the Gray community, is a medical patient.

O. E. Carter, a patient in the Shattuck Hospital, underwent an operation Tuesday. Mrs. Carter and son, Carl were with him.

Among the Perryton folks who were in Amarillo Tuesday for the Shrine activites were Mr. and Mrs. Max Boyer, Mr. and Mrs. Earle Glasgow, Mr. and Mrs. Miles Edwards, Mr. and Mrs. L. R. Conner, Mr. and Mrs. W. H. Lance, Mr. and Mrs. J. N. Conley, Mr. and Mrs. A. C. Witt, Mrs. R. P. Hurn, Mr. and Mrs. J. W. Richardson, Mr. and Mrs. Ralph Arnold, Miss Bette Bryan, C. M. Bryan, Drew Ellis, Virby Conley, Carl Ellis, Audie Conley, L. H. Lance, and F. B. Sumpter.

Dr. and Mrs. G. L. Kengle returned home Monday from a trip to Kansas City, Mo., and Council Grove, Kans.

SCOUT NEWS

BOY SCOUTS OF AMERICA

Troop 54 of the Boy Scouts met at 7:30 Tuesday evening at the Methodist Church for the regular troop meeting. Present were as follows, Wolf Patrol: Bill Herndon, P. L., Wayne Lee, A. P. L., and Dick Thomas; Bob White Patrol: Jimmie Denman, P. L.; Eagle Patrol: Junior Pease, A. P. L., and Felix Schumann; Panther Patrol: Darrell Seymour, N. A. Records, Miles Sumpter and Bruce Bauman; and Scoutmaster Leroy Hartman and Assistant Scoutmaster Harold Witt.

The honor patrol for the week is the Panther with 103 points. Wolf Patrol was second with 85 points, with the Eagle Patrol having 42 and Bob White 30. However, the Wolf Patrol is still ahead in the contest with 317 points. Others are Panther 233, Eagle 117 and Bob White Patrol 30.

Plans were discussed for the camp at Lake Marvin this summer. The troop decided to go the third week of camp, beginning June 9. Scoutmaster Hartman will go with the Scouts.—Wayne Lee, Scribe.

The first reported use of Texas oil was in 1543 by survivors of the De Soto expedition, who used a heavy coastal asphalt to repair their ships.

Give Music Apt. Tests

A musical aptitude test was given this week in connection with the closing of school with students from the fourth and fifth grades participating, according to R. L. Duke, grade school principal. The tests were given and designed to reveal natural musical talent and ability.

The tests are standardized by comparing scores made by thousands of school children and were given by R. L. Duke, Miss Faye Pinckley, Herbert Lindsey in cooperation with the fourth and fifth grade teachers.

The following students made unusually high scores from the fourth grade: Barbara June Smith, Johnny Black, Keith Fuller, G. C. Carter, Gayle Eugene Ferguson, Keith Flowers, Wilma Doggett, Marie Pease, James A. Hale, Jimmy Ross, Willis Doyle Wimber, Carroll Cook, DuWayne Walker, John Overton, Carol Trosper, Reta Sarratt, Harold Williams, Morrison Osborne, Barbara Pletcher, Retta Powell, Mavis Hardy, Carlos Monroe Smith.

J. B. Seago, Patricia Ann Henry, Wilma Lee Bowles, Baron Sarratt, Douglas Hawk, Mary Evelyn, Vernon Flowers.

Students from the fifth grade were Henry Pletcher, Betty Sue Morgan, Erle Schwab, Netty McBrillhart, Betty Lu Buchanan, Juanita Estes, Bobby Ray Hamman, J. C. Jones, Lura Lee Groves, Sophia Addington, Kenneth Fuller, Frances Neufeld, Ruby Peterson, Sheldon Wilson, Jack Morgan, Mary Helfenbein, Johnnie Mae Black, Jimmy Dick Key, DuWayne Thurman and Berta Earline Ragan.

Snake Bites Should Receive First Aid

AUSTIN, Tex.—A warning about the dangers of snake bite has just been issued by Dr. Geo. W. Cox, State Health Officer. A number of cases of snake bite are reported each year in Texas during the summer and early fall; however, few of them result fatally.

Most of the bites occur on the hands or feet, which indicates that stepping or falling in the immediate vicinity of an unseen snake or picking up objects under similar conditions are the hazards of contracting snake bite. The pain following the injection of poison is most intense. Other symptoms are swelling, giddiness, difficult breathing, hemorrhage, weak pulse, and vomiting.

If one is bitten by a poisonous snake, such as the rattlesnake, the following first aid measures should be carried out:

After making proper incisions at the site of the wound, apply suction and continue for at least half an hour.

Apply a tourniquet above the site of the wound, releasing same every ten or fifteen minutes for about a minute at a time.

Secure the services of a physician at the earliest possible moment.

DO NOT run or get overheated and DO NOT take any alcoholic stimulants, because circulation increased by alcohol or exercise serves to distribute the poison much more rapidly through the body.

DO NOT injure the tissues by injecting permanganate of potash, which is known to be of no value as an antidote.

DO NOT depend upon home remedies or so-called snake-bite cures, but call a physician immediately.

Takes Shower For 90 Hours

No quick dip for pretty Linda Whitney of Chicago, nor private either. When Miss Whitney stepped into this public shower at a coal show in Chicago it was for a 90-hour stretch, 10 hours a day for nine days, except for brief rest periods.

Finds New Power Source in 'U-235'

With this complicated apparatus, a mass spectrometer, Dr. Alfred O. C. Nier, 27, above, University of Minnesota physicist, isolated "U-235," one of the forms of uranium. It explodes with a force 30,000,000 times that of TNT.

Mr. and Mrs. A. C. Witt and Mr. and Mrs. Clarence Neufeld returned Tuesday from a fishing trip to Eagle Nest Lake, N. M.

Oil company production, pipe line and refining workers in Texas now receive 5 per cent more wages than in the boom year of 1929, while working hours have been reduced by approximately one-third.

WANT-ADS GIVE Results at MINIMUM COST

Texas Is Strategically Located In Case of Foreign Invasion

AUSTIN, Texas—Texas has a big stake in the current international situation. Just how much larger is this stake than the average citizen realizes is stressed by Robert Lee Bobbitt, member of the Texas Highway Commission, in an article in the May issue of Texas Parade.

"Texas occupies a long stretch of the southern international boundary of the United States," writes Gen. Bobbitt in "Texas and Military Highways." "Texas also has a long and exposed coastline whose stretches are dotted with refineries and other industries vital to the successful prosecution of any major military maneuver.

A map prepared by the Texas Highway Department depicting the military highway system of Texas shows that the state has 6,180 miles of highways of military importance and 15 Army posts, forts, flying fields and harbor defense points. Located on the Mexican border is Fort Bliss at El Paso, Fort Russell at Marfa, Army airdrome at Dryden, Army airdrome at Midland, Fort Clark at Brackettville, Fort McIntosh at Laredo, Fort Ringgold at Rio Grande and Fort Brown at Brownsville. Fort Crockett at Galveston serves as the headquarters for various strategic harbor defense units.

"Inland military posts of great value include Fort Sam Houston, headquarters for the Eighth Corps Area at San Antonio, Normoyle Quartermaster Depot of San Antonio, Hensley Field at Grand Prairie, the Army Air Corps' training schools at Randolph Field, Kelly Field and Brooks Field and Army target and training ranges at Camp Bullis, Leon Springs and various other points.

"From a military viewpoint, Texas is strategically located. It is bordered upon the south by the Rio Grande, which separates the United States from Mexico and is bordered on the southeast by the shore line of the Gulf of Mexico. The hundreds and thousands of miles of open borders make Texas a buffer state between possible enemy attacks and the remainder of the United States.

"The War Department of the United States has selected Texas for the location of Army training posts, permanent forts, and flying fields—having invested hundreds of millions of dollars in the various military facilities in our state. The Texas Highway Department has had many conferences and much correspondence with the Army authorities in the past relative to the highways as a medium of defense. Thousands of miles of Texas highways are included in the Army's plan for movement of troops, supplies, etc., in case of war, as well as the constant movements in training during peace times.

"In Texas we are confronted with a problem at this very time that has considerable bearing on this subject. U. S. Highway No. 83 extends from the port of Brownsville in the extreme southern point of Texas along the Rio Grande to Laredo, and is the highway gateway between the United States and Mexico. We now have regular federal aid funds set aside for the construction of a portion of this highway. In our design of the proposed project, we are confronted with the problem of whether we shall design and build the road for normal highway traffic, or shall design and build the road for possible military movements. We personally feel that harmonious and cooperative action between the War Department and the Public Roads Administration is expected and should be required by our government. In this particular case, the estimate for constructing the 20-mile section for normal highway traffic is $140,000. The estimate for constructing the project for normal highway traffic, plus anticipated heavy movements, is $360,000.

The added investment of $220,000 on this particular project would be solely for military purposes. In our eagerness to complete the gaps in the Texas highway system as rapidly as possible, we are reluctant to recommend the expenditure of this additional amount from our regular federal aid appropriation since the additional expenditure chargeable only to possible military movements.

"It would therefore follow that apparently the logical procedure would be a specific allocation by the Congress for military roads to be expended in conjunction with, or supplementing, regular federal aid funds or state funds, as the case may be, and under the supervision of the Public Roads Administration and the state highway departments.

"The question might arise in your minds as to why we as a state should be so concerned with the movements of the Army of the United States, and why we should not proceed with our construction in accordance with the dictates of our traffic and permit the Army to look to its own future. We give two reasons for our attitude in this respect. First, the Army of the United States is our Army, organized and planned for our protection as one unit of the United States. We want and need that protection, and any effort that we make to aid and support the Army will in turn aid and support us. Secondly, if we proceed and build a project as illustrated heretofore in accordance with the dictates of normal highway traffic, and within a few months or years it becomes necessary for a heavy troop movement to be executed over this highway, it will be found that serious damage, if not complete destruction, of the original investment will be evidenced. One half of the funds used for the construction of the project would be derived from the taxpayers of Texas. Already we have spent millions of dollars in Federal Aid on these military highways. Some of them were built a number of years ago and are now obsolete. The width of roadway is less than 20 feet. The bridges are too narrow and some are too weak. Portions of these military roads have never been paved. As stated, a conservative estimate of the cost of completely improving the 6180 miles in the military highway system in Texas is $70,000,000. It is a necessary and worthwhile expenditure in the cause of national defense.

Special Stamp For Convention

CHICAGO, Ill.—The Republic of Cuba has designed a special two-cent stamp to commemorate the convention of Lions International which is to be held in Havana July 23-25, 1940. The stamp will be carmine in color, with the Cuban flag placed diagonally as a background, on which is superimposed the Lions emblem at the lower left, and at the right a group of three of the royal palms of Cuba. The stamp, in addition to the standard information, will carry the words, "Convencion, La Habana, 1940."

The stamp will be 32 mm. high by 22 mm. wide, and will be issued in sheets of 100. The printing will be 2,500,000 copies. This issue will be placed on sale at the time of the Convention, July 23-25, and the Cuban postmaster general has ordered a special post office to be installed either at the convention hall or the headquarters hotel during the convention.

More than 5,000 Lions from all parts of the world are expected to attend the Lions Havana convention. Special train, boat and air services have been arranged to accomodate the delegates from the

...artered or Provisional Troops, qualified by experience, which are approved by their Local Council may have the privilege of camping at this high adventure wilderness camp, which in a sense, is serving as a national laboratory for testing adventure programs for older boys within the Movement.

Many different types of hikes and expeditions, varying in length from three days to twelve, are provided to meet the needs of different groups. Each camp site is arranged to provide water, tentage space, cooking facilities and sanitary facilities to accomodate up to 32 Scouts and leaders. Each group is responsible for its own tentage, sleeping and cooking gear and is really on its own.

There's a three day back pack hike of approximately 15 miles, and a three day burro pack trip. An "overnight horseback hike" combines the use of horses and back packing and takes the Scout campers away from the base camp for two days and a night. A trip to the Carson National Forest involves a 75-mile journey over wonderful mountainous drives with an overnight camp in the forest. The attractions of this trip are Eagle Nest Lake, the Red River country, the pueblos at Taos, the Moreno Valley and Cimarron Canyon. Six and twelve-day exploration trips provide a more general experience than those offered by the shorter trips.

The Scout's wilderness camp—known as Philturn Rockymountain Scoutcamp, a combination of the donor's name and the "good turn" of the Scouts—lies in the heart of a country that had a civilization long before the white man came. Ruins in these mountain fastnesses tell the story of how the cliff dwellers bored into chalky cliffs, placing their homes beyond the reach of their enemies' arrows. Pictographs which dot the canyon walls record the history of ancient Indian tribes.

The country is rich in Indian lore. Just west of Philturn the Navajos herded their flocks, wove their blankets and gathered pinon nuts. Aztec villages and their garden-like fields are not far away. Here the fierce Apaches, Comanches and Cheyennes roamed the plains and their ceremonial chants resounded in the canyons.

Near Philturn passes the Santa Fe trail which 100 years ago was the great trade route linking America and Mexico. The ruts made by the huge wagons and the marks of the feet of oxen that followed the trail can still be seen in many places.

In his early twenties, Christopher "Kit" Carson explored throughout the southwest with traders and adventurers. For years he piloted wagon trains carrying merchandise across the plains to Santa Fe. He guarded the same trains on their return journeys, this time carrying furs and minerals. He fought the Indians and later was loved by them. His well-marked grave in the little Taos, N. M. cemetery is visited by thousands of persons annually, among them Philturn campers.

Philturn lies 7,000 feet above sea level and some nearby peaks are 11,000 feet high. In the Scout area lie nine main canyons, flanked on each side by rock palisades, adorned by western pines, Douglas firs, balsams, quaking aspens and cottonwoods. Ranges with deer, wolf, mountain lion, bears, coyotes, fox, beaver, porcupine and countless smaller animals are a part of the unexplored wilderness. Local and migratory birds are plentiful.

Philturn is about two miles from Cimarron, N. M., on the Ute Park Branch of the Santa Fe Railroad. It can also be reached by U. S. Highway 64 out of Raton, a distance of some 38 miles.

Scout parties check in at Five Points Camp, the center of all of Philturn's activities, where one finds a camp lodge and administration buildings. Here fresh food supplies are purchased and additional camping gear may be rented for nominal costs. It is the capital of a wilderness area entrusted to present and future Boy Scouts of the nation, dedicated to their use and they, in turn, will preserve it as one of the nation's great natural preserves.

The first training courses in camping leadership will be held in Philturn May 17, 18 and 19 and will be directed by Dr. Lorne W. Barclay, National Director of Camping and Activities.

Missouri Ave. Club Enjoy Barbecue Supper in Key Home

The present and past members of the Missouri Avenue Home Demonstration club and their families attended a delightful spring chicken barbecue in the home of Mr. and Mrs. J. H. Key, Tuesday evening.

An outdoor living room had been arranged with long tables for serving and benches for everyone to eat in comfort. Beside the chicken, which was indeed a tasty dish, the menu included various vegetables, fruit and vegetable salads, dessert, coffee and hot buns. Even though the weather was cold and disagreeable sixty guests were present and pronounced the barbecue a success and urged that the event be repeated.

Those enjoying the evening were Messrs. and Mesdames J. H. Key, G. M. Cooper, W. B. LaMaster, K. K. Thomas, Ecton Lawrence, John Johnson, E. W. Witt, L. H. Kaup, Jim Putman, Harve Wilson, C. O. Roach, W. W. Blackburn, J. S. Slaughter and Lloyd Dean, W. D. Thompson and Neal W., J. H. Kershaw and Connie, Earl McGarraugh and Melvin, J. R. Thomas and Peggy, A. W. Henry, Patsy and Jim, Geo. Dietrich, Don and Elaine; Mrs. Fred Huston, Edna, John and Micky, Mrs. J. D. Copeland and Eula, Mrs. Richard Slough, Mrs. Hazel Martin, Lena Mae Wilson, Herbert Key, George Budock, Aron Blurton and Bill Slaughter.

New Garments from Hollywood

Attractive for the leisure hours are these two new garments modeled by lovely June Duprez, Hollywood actress. At left is a housecoat of rayon crepe, multicolored, in the elaborate floral leaf and jewel design. It has a club collar, two-color sash, a concealed slide fastener closing and a full, swirling skirt. At right are harem-type lounging pajamas in a paisley print, worn with a shirt-maker blouse in solid color.

4H Members Hold Style Show Sat.

The 4-H club girls held a style show in the county courtroom Saturday afternoon, May 18. Articles were modeled which had been made as club projects.

The girls were grouped in two divisions, those under twelve years of age forming the First and those over twelve making up the Second Division. Fourteen members entered. The winners were: First Division, Shannon Daniels, Texas Rose club, first; LaVern Burger, Waka, second; and Betty Mae Butler, Waka, third; Second Group, Vivian Williams, Busy Bee, first; Ruth Day, Blue Bonnett, Second; and Lois Burger, Waka, third.

Others showing were Margie Taylor, Elsie Littau, Elaine Hardy, Lucille Batman, Betty Jean Jacobs, Ruby Ann Patton, Alverna Records and Lola McGarraugh.

The girls served punch and cookies to their guests. The club sponsors acted as judges. Each girl was given a doll dress pattern. Visitors present were Mrs. J. W. Daniels, Mrs. G. A. Burger, Mrs. E. C. McGarraugh, Mrs. L. H. Littau, Mrs. Kirt Williams, Faye Jean Burger, Mavis Hardy, Lucile Martha Barnes Ruby McGarraugh and Beryl Dodson.

Only the following birds are unprotected by law in Texas: English sparrows, crows, ravens, vultures or buzzards, rice-birds, roadrunners, goshawk, Cooper hawk or blue darter, sharshinned hawk, duck-hawk, Jaybirds, sapsuckers, blackbirds, starling, woodpeckers, butcher birds or shrike and the great horned owl. Canaries and parrots, as domestic pets, are unprotected.

GLASS for your home or car at Daley Glass Shop. 18-tf-c

Game cannot be brought into Texas during the closed season on such game without a permit from the Game, Fish and Oyster Commission.

The nests or eggs of any bird protected by Texas laws cannot be legally destroyed.

Malaria mosquitoes hibernate in sheltered places, but the common northern variety of mosquito does not.

Geologists estimate there is enough oil as yet undiscovered under Texas soil to supply the Texas oil industry for 100 years or more, provided operating costs and tax rates do not curtail development.

I cannot tell a lie

about Conoco Bronz-z-z gasoline mileage . . . because you can get the truth yourself from

YOUR MILE-DIAL . . . FREE

FREE NOW AT ANY CONOCO station, Your Mileage Merchant will instantly install your certified Conoco Mile-Dial—that dares to let your own eyes see all the mileage you get from your Conoco Bronz-z-z gasoline.

CREATED TO KEEP SCORE of gasoline mileage—truly—for every wide-awake consumer, the Mile-Dial fearlessly proves that Conoco Bronz-z-z doesn't depend on your imagination—doesn't need "lucky breaks" to make its mileage showing.

YOU CAN KEEP ON proving your true Bronz-z-z mileage *every which way* . . . in wild city traffic—and way out "in the wilds" . . . on hot days—and on cool days . . . hustling—and loafing . . . climbing—and coasting . . . bucking headwinds—riding tail-winds . . . going 100 miles—or 1000 miles.

THAT'S THE TRUE WAY to check your mileage . . . checking till you're sure you haven't let Bronz-z-z duck the toughest conditions . . . rechecking all you please, by this easy, free, precision Mile-Dial method.

THE MORE ACCURATELY mileage is figured the better for Conoco Bronz-z-z. The more continuously mileage is figured (so as not to "shade" the result by happenstance) the better for Conoco Bronz-z-z. That's why Continental Oil Company invented the Mile-Dial for you. It's yours from Your Mileage Merchant—*free*. He's game to furnish you with this guess-proof way of making up your own mind that Your *Mileage* Merchant strictly means Mileage. See him today for your Conoco Bronz-z-z Mile-Dial—FREE. Continental Oil Company

Instantly installed by Your Mileage Merchant—or by yourself—the Mile-Dial doesn't mar anything.

No memory work, no heavy arithmetic, using the Mile-Dial. Makes it fun for you to be a gas-miser.

Breakfast on the Way!

Follow the fish and heave home the spear! Dorothy Lamour has done it, but can Bob? Frankly, he has more inclination to follow Dorothy, and you won't blame him, when you see this romantic team together in the Paramount Technicolor production, "Typhoon," showing at the Ellis Theatre Sunday and Monday, May 26-27. Lynne Overman and J. Carrol Naish are also featured players in the South Sea romance.

Comedy Co-Stars

She writes books in praise of spinsterhood; he is a doctor who hates all career women. But in Columbia's "The Doctor Takes A Wife," co-stars Loretta Young and Ray Milland are forced to pretend they are married and, eventually, they discover that the title of her book, "Marriage Ain't Measles," is singularly apt! Reginald Gardiner, Gail Patrick, Edmund Gwenn and Georges Metaxa are others in the cast of the Ellis Theatre attraction, Thursday and Friday, May 30-31.

"King of the Lumberjacks"

Dramatic moment from "King Of The Lumberjacks." John Payne, Gloria Dickson and Stanley Fields are the principals in the new film showing at the Ellis Theatre Saturday, May 25.

Demaret Is Already Picked as Favorite in National Open

BY IRVING DIX

NOT in many years has there been a popular favorite for the National Open with as much color as Jimmy Demaret, the 29-year-old Texan who burned up the winter circuit with victories in six big events.

Already established as the man to beat in golfdom's biggest classic in Cleveland in June, Demaret, nevertheless, would rather be a good teacher and greenskeeper than a top-flight playing professional.

In addition to giving lessons at the Brae Burn Country Club of Houston, Demaret studies composition of the grass and mixtures of fertilizers. He gets as much kick out of caring for a blade of grass as he does in banging a drive 275 yards straight down the middle.

• • •

AN all-round athlete, Demaret played football and baseball in high school. He has a temperament that all athletes strive for and few possess. Nothing bothers him. He thrives under pressure.

Extremely gracious and personable, Demaret is one of the most popular men ever to play the game.

Old-timers say he is the closest thing to Walter Hagen they have seen. Demaret resembles The Haig in many ways. There is a great similarity in build—about 5 feet 11, and 184 pounds. He even wears the colorful golfing clothes for which Hagen was noted.

• • •

DEMARET has a sound, compact swing and is one of the longest drivers in golf. He regards concentration and the action of the forearms and hands as the most important thing in anyone's game.

Jimmy Demaret . . . Texas hot shot.

Leading money winner on the winter circuit with more than $7000, Jimmy Demaret, hot as a breeze off his native Texas plains, has captured the fancy of the gallery as well as his fellow pros.

The word is out to watch Jimmy Demaret in Cleveland.

HERALD CLASSIFIED ADS GET RESULTS!

"Typhoon" Is Technicolor Adventure Film at Ellis Sunday and Monday

Torrential rains and the awe-inspiring terror of a tropical hurricane save Dorothy Lamour, Robert Preston and Lynne Overman from cremation on a burning island, and provide the thrilling climax to Paramount's new Technicolor South Sea romance "Typhoon" showing at the Ellis Theatre Sunday and Monday, May 26-27.

Dorothy Lamour, most popular "native" girl in the world, doesn't appear in her much-sung sarong. This time it's a lava-lava, which must be Polynesian for "retrenchment," because this bright cloth is scantier than ever! In fact, Technicolor and Dorothy have produced a new combination, which we're calling "Techniclure."

The hurricane sequence provides the most thrilling nature spectacle ever to be filmed. Rain lashes down like blasting mercury; whole palm trees are uprooted by the maddened wind, and the tidal waves top crests of fifty feet! Only those who have lived through tropical hurricanes will be able to make comparisons.

Hand in hand with the technical perfection of the storm, and of the surging Technicolor is the romance-filled plot. Dorothy, bronzed and alluring, lives with Koko, her trained chimpanzee-companion on an uninhabited South Sea island, far from normal sea lanes. She was the only survivor of a sailing ship, wrecked there ten years before Robert Preston and Lynne Overman arrive with their pearl-diving submarine. They are being pursued by a vengeful Polynesian chief, whom they have inadvertently insulted, and who believes they have stolen his pearls.

Forced to abandon their ship for lack of oil, Robert Preston gets lost, and—lucky dog—found by Dorothy Lamour and Koko. A mutiny against Lynne Overman by J. Carrol Naish and his Kanaka crew, and the arrival of the Chief with his gang of cut-throats, follow in rapid succession.

There's plenty of comic relief supplied by Ko-Ko and Lynne Overman, and there's a constant panorama of South Sea color that will leave you dazzled. This Technicolor romance was directed by Louis King, who previously directed the smash hit, "Bengal Tiger."

"Flight Angels" New Air Picture

"Flight Angels," a film of the skyways with a brand new twist will be presented at the Ellis Theatre Tuesday and Wednesday, May 28-29. The Warner Bros. picture tells the story of airline hostesses, a theme which has never before been shown on th screen. It's power-drive drama from start to finish.

Dennis Morgan, an ace pilot, is grounded when his eyesight starts to fail. He is persuaded to accept a job as teacher in a school for airline hostesses. The climax of the film is reached when Morgan makes a test flight in a new stratosphere plane despite his poor eyesight. It is undoubtedly one of the most exciting scenes ever filmed.

"Flight Angels" has an all-star cast which includes Virginia Bruce and Dennis Morgan.

Little Scenery Used

Very little painted scenery was actually used during the filming of "King of The Lumberjacks," since the film starring John Payne and Gloria Dickson utilized the beauty and rugged grandeur of the North Woods. It is reported that the lumbering scenes are among the best of their type ever viewed on the screen.

The picture will be shown at the Ellis Theatre Saturday, May 25.

Conoco Releases New "Mile Dial"

PONCA CITY, Okla.—A device by which motorists can quickly and accurately measure their gasoline mileage is being introduced today by Continental Oil Company in a nationwide newspaper advertising campaign which includes the Ochiltree County Herald.

The "Mile-Dial" is a simple device which keeps count of the number of gallons of Conoco Bronz-z-z gasoline purchased and the number of miles traveled during the test, and automatically calculates the miles per gallon by a simple turn of the dial.

The dial, which can be obtained free at service stations selling Continental Oil Company products, can be attached to the dash without marring the surface or can be carried in the glove compartment of the car. With it the motorist can make frequent checks of the mileage he obtains from Conoco bronz-z-z gasoline and can at the same time easily accumulate his purchases and miles traveled, so that an average miles-per-gallon over a long period can aslo be determined.

The Mile-Dial was invented by Continental Oil Company engineers, and its mathematical accuracy has been certified by F. A. Bergen, chairman, mechanical engineering department, Washington University.

CARD OF THANKS

To the many friends who remembered me during my hospital stay I expend my deepest thanks. The beautiful flowers, cheerful cards and many other kindnesses did much to help pass the time.

Chevrolet Has Used Car Drive

Whether he knows it or not, the "man in the street" is getting direct and tangible benefits from a current business condition which might at first glance seem remote from his interests—the unusually large volume of Chevrolet car and truck sales this spring.

A. J. Kelly, of the Perryton Motor Co., Chevrolet Dealers, made the point during a statement in which he announced that today is, from the standpoint of the buyer, the most favorable moment for used car purchases in several years. The explanation is found in the fact that Chevrolet dealers, including the local organization, have priced their large stocks of used cars so low as to assure quick sale and keep the channels clear for continuance of new car business throughout the season.

"When new cars and trucks are being sold in large numbers, as they are today, and have been ever since the company's new 1940 models came out, dealers' stocks of used cars invariably increase," he said. "The dealer has his choice between allowing them to accumulate and restrict his future new car volume by limiting the number of trades he can accept, or pricing them for quick movement, after reconditioning, and thus keeping in shape for further trades.

"Our firm has taken the second course. We have been helped by the fact that this year's used car stock is by far the finest we have ever had. It includes a wider variety of makes and models, because owners of other cars have turned in large numbers, to the 1940 Chevrolet. It also includes a larger proportion of very recent models, whose original owners intended, until they saw the 1940 Chevrolet, to drive them the rest of this yar.

"Persons who have been getting along without cars of any sort, or who have been waiting for an opportunity to "Trade-up" to something better than they are now driving, are direct beneficiaries of the Chevrolet dealer's record-breaking new car sales, for they have a chance, today, to select from a wide assortment of used models, and offered at extremely low prices."

Band Traveled 1,376 Miles

With a total membership of 55, the Perryton High School Band has successfully completed another season during which time 1,376 miles traveled by the band under the direction of Herbert Lindsey, bandmaster. The band played at football games and street parades held at Shamrock, Plainview, Liberal, Kansas, and Spearman. Performances were presented between the halfs at football games at White Deer, Wellington, Canadian and Phillips.

Included also in the accomplishments for the year are six or more local parades and five concerts. The concerts were given November 11, Christmas, American Legion Convention and at Plainview only recently. A music week concert was sponsored with the able assistance of O. A. Bush, Mrs. A. P. McCelvey and Miss Faye Pinckley who presented musical numbers from their respective departments.

Trips made during the year included White Deer, Shamrock, Wellington, Canadian, Phillips, Plainview, Liberal, Dalhart and Spearman.

HAIL INSURANCE.....

For over twenty-five years we have protected the wheat growers of Ochiltree County against the destructive damage by hail to their crops, in the oldest, strongest and best known stock companies. (We have never represented a mutual or unreliable company). We have numerous customers who have insured with us consistently through the years, which is evidence of their satisfaction, and which we sincerely appreciate.

The prospects are favorable for a good crop and high prices. We would appreciate your HAIL BUSINESS and believe that you would like our service.

Scouts Observe Founders Birthday

Daniel Carter Beard, author, artist, outdoorsman, a pioneer in working with boys in the great outdoors, known to boyhood the world over simply as "Uncle Dan" Beard, will be 90 years old on June 21st.

His ninetieth milestone will be celebrated by one of the largest single birthday observances ever held anywhere, when more than 70,000 Boy Scouts are expected to gather at the World's Fair, New York, on Boy Scout Day, Saturday, June 22 at which time they will pay their respects to their National Scout Commissioner, who thirty years ago was one of the founders of the Movement in America.

"Uncle Dan" has had an active role in the Boy Scouts of America during its three decades. His prestige, wisdom and experience have been characterized as "pillars" in the structure of the organization." He is an Associate Editor of "Boys' Life" and despite his advanced age he is still active as the author and illustrator of his page in the magazine, delighting new generations of growing boys with his limitless fund of nature stories and helpful hints on living in the out-of-doors.

He was born in Cincinnati, Ohio on June 21, 1850 and lived his early years in that city and in Covington, Ky. spending much of his boyhood in a section of the country where the memory of Daniel Boone's exploits are widely known. His "playground" was the woods, field, forests and streams. Before he grew to manhood he was adept at Scoutcraft and knew how to live the life of the wilderness. At 19 years of age he graduated as a civil engineer and engaged in map-making. His skill as a draftsman was shown early and a chance visit to New York settled his vocation. He had specialized in sketches of animals and some of these attracted the attention of a magazine editor and led to the beginning of his successful career as an illustrator and writer on animals and wildlife and practical handicraft. In 1926 the Boy Scouts of America awarded him its Silver Buffalo "for distinguished service to boyhood" and he received a similar honor, the Silver Wolf, from the British Boy Scouts Association.

His recently published autobiography is titled "Hardly a Man is Now Alive."

DEFENDING AMERICA?

U. S. army troops building pontoon bridge during annual maneuvers in the south.

WASHINGTON.—The war in Europe is driving home the lessons of defense in America.

Not that United States expects to be attacked. Secretary of State Hull expressed the feeling when he said:

"We cannot close our eyes to what is going on elsewhere in the world and delude ourselves with the mere hope that somehow—somehow—all this will pass by.

"In the face of existing conditions, we have no choice but to expand our program of armament construction to a degree necessary to provide fully adequate means of defending the country's security and its rightful interests."

But what is that degree? The question is raising some pretty sharp arguments these days. Some authorities claim, for instance, United States needs a two-ocean navy, others say not; some claim the army should be raised immediately to 330,000 or more, the national guard to 420,000. Others contend it is not so much numbers we need as adequate weapons and defense measures.

One thing is agreed: at present the U. S. army has not enough equipment to place an initial protective force of 425,000 men in the field if mobilization were ordered immediately.

That Congress will supply that equipment is almost certain; a huge defense program is already under way for that matter. The nation will spend probably more than $2,000,000,000 on defense in the next year, aside from anything that may be appropriated as a result of Hitler's newest thrust on the Western Front.

What will be done with this money?

The army will assemble the most modern equipment for 750,000 men, improve airdrome defenses against the new menace of parachute troops and bombs, develop new types of tanks and anti-aircraft guns.

The navy, which will spend almost $1,000,000,000 of the probable $2,000,000,000 appropriated for the next year, may be expected to develop new deck armor in view of the new threat of bombers; will turn out streamlined destroyers, submarines and other craft.

The navy plans a fleet of 742 units, with several 45,000 ton battleships. The navy now has 583 units ready for service, 74 more under construction and 84 units authorized but not started.

Uncle Sam's air arm, in both army and navy, will command huge expenditures. For one thing the war in Europe has already shown a large part of American airplanes need alteration.

The navy now has nearly 2000 planes on hand, 1000 on order and more authorized. The army hopes to reach a similar figure, or more than 3300 planes by July 1, 1941.

Whatever the figure, the country may be expected to increase it if the war turns against the allies.

British Picture Of Nazi Health

This photo, sent from England, illustrates what the British claim is an alarming spread of disease in Nazi Germany. The British caption said: "Undernourishment and—in the case of adults—serious overwork has resulted in grave deterioration of health of the German population. Photo shows a boy being X-rayed."

Texas has more oil refineries than the two next largest refining states combined. The Lone Star State has 141 plants with 1,386,705 barrels daily capacity, while California and Pennsylvania together have only 111 with 1,275,060 barrels capacity.

Half the people in the world are unhappy because they can't afford the things that make the other half miserable.

FSA Is Adopting Medical Program

Medical attention was made more readily available to 3,865 rural families in the five-state area served by Region XII of the Farm Security Administration through a medical care program sponsored by this agency in the last six months of 1939, according to Wilson Cowen, regional director.

This information was received yesterday by Bernard C. Drinkard, FSA rehabilitation supervisor in Lipscomb and Ochiltree Counties.

A survey, covering the period between July 1, and December 31, showed that by states the program made this service available to 5,535 low-income rural people in West Texas; 7,584 in New Mexico; 590 in Southeast Colorado; and 6,409 in Western Kansas, at a cost within their ability to pay.

The Farm Security Administration, it was pointed out, does not assume and responsibility for the operation or administration of the medical care program except in making funds available to low-income borrower-families for participtation in the plan.

Borrower-families pool their own funds and put them in charge of a bonded trustee. For services rendered the physicians submit monthly statements to the trustee. Bills are then reviewed by a committe from the local medical society. If the monthly funds are sufficient, the bills are paid in full; if a balance remains, it is carried forward to the next month or the end of the period, and then used to complete paying bills for months in which funds are inadequate.

Operation of the plan and all administrative functions as to its operation is handled by members of the medical profession.

Each family is given free choice in selecting its doctors from among the participating physicians and each physician is given the same privilege of accepting an individual case or family as is his usual custom.

The medical care program, Cowen explained, was started to meet a definite need in rural areas.

"We discovered that many of our borrower-families were in the needy group of rural people because of financial distress resulting from some past illness in the family," Cowen continued. "Their progress was retarded by ill-health and their reluctance to ask for medical attention for which they could not pay."

"A. A. Glenn, regional FSA health service specialist, observed that the families owing bills to their physicians, who are participants in the plan are less embarrassed in requesting medical attention.

Doctors report that families do not go more often under this plan, but that they do go more quickly, which aids the physician in treating the patient.

The medcal care program usually includes hospitalization in cases of emergency, and many hospitals report that because of the financial status of these patients, most cases would have been on a charity basis had it not been for the inclusion of hospitalization as part of the service.

In the Texas Panhandle, 97 per cent of all producing oil wells are pumpers.

Seeds and Beads Set the Styles

The smart woman varies her "basic" dresses with unusual necklaces, attractive clips and bracelets. Shown above, left, is one unusual creation by Charlotte of Paris, a long rope of turquoise blue beads. The ends of the strands are attached to clips which may be worn as pictured or in any number of ways. At the right are necklace and bracelet of lacquered seeds. They are attractive with the golden beige blouse, worn with a slim black day skirt.

Texas is not only the largest producer of natural gas but also the largest consumer. Three-fourths of all the marketed gas production in Texas is consumed within the state by Texas homes and industries.

ONLY SAFE WAY TO BUY YOUR 1940 REFRIGERATOR

Look at the Size! Look at the Name! Look at the Price!

KELVINATOR gives you full 6¼ cubic foot capacity . . . quality backed by America's oldest maker of electric refrigerators . . . and prices that are just as low as you might pay elsewhere for an out-of-date, last year's model.

Look at the features you get in the beautiful Kelvinator illustrated . . . cold storage tray . . . automatic light . . . 84 ice cubes—9 lbs. . . . 2 extra-fast freezing shelves . . . the Polarsphere sealed unit, that uses current less than 20% of the time, and has sufficient capacity to keep 5 refrigerators cold, under average household conditions . . . and many other conveniences.

Come see the complete line of great new 6 and 8 cubic foot Kelvinators. You can save $30 to $60 compared to last year.

Dumas Plans Celebration

DUMAS (Special)—Dumas and Moore County this week is in the throes of preparration of its 6th presentation of the Dumas Rodeo and Old Settlers Reunion to be held here Friday, May 31 and Saturday, June 1.

The Dumas show opens with a 4 mile long parade scheduled to move at 11 a. m. Friday, May 31. In the line of march will be colorful

Twenty-five cars from Dumas, loaded with celebration boosters and the crack Dumas High School 36-piece band, invaded Perryton Tuesday noon with a good program and a hearty invitation to Perryton folks to attend their show. The caravan had luncheon here. Bill Rutherford, Dumas editor, headed the delegation.

riders astride more than $100,000 worth of the finest horse flesh in the Southwest.

Stepping high among them will be the famous blond Palominas of M. Q. and Houston Beauchamp of Moore County and Dud Beauchamp of Matador. These horses are valued from $1,000.00 to $5,000.00 per head.

Best entries in the parade will be awarded cash prizes with pay-offs being made to the best dressed cowboy and cowgirl, No. 1, 2, and 3, band, best pioneer garbed lady, and the most attractive Spanish costume worn by lady. Additional prizes will be awarded for best floats in the parade.

The Dumas Rodeo this year is a Simon-pure amateur affair. Entrance is open to any working cowhand in the Southwest certified as such by any ranch outfit. Professionals are strictly barred.

Approximately $700 in cash prizes will be awarded the winners of the various events. The Rodeo consists of a 3 hour show started at 2 p. m. Friday and Saturday, May 31, June 1. Admission to the rodeo will be 50c.

Judges include Oran Thompson of Stinnett; Fred Armstrong, of Guymon, Okla.; and Walter Wilmeth of Spearman, Texas. Events include calf roping, steer ribbon roping, bronc riding, bulldogging and steer riding.

A huge midway will entertain Dumas visitors at night. Dances will be held on 2 of the largest dance floors ever used in this section. One of these a giant hardwood maple affair is under canvas.

NO. 2 CONTINUED FROM FRONT PAGE

will receive their report cards at 1 p. m. Friday. The buses made their final trip of the year Tuesday.

Junior Graduation

The program for the junior graduation tonight is: Processional, Mrs. A. P. McCelvey; invocation, W. C. Bryan; greetings, John Fogleson, president of class; piano solo, Eulene Wade; "Thoroughbreds," a reading, Jack Parker; clarinet quartet, "I'll Take You Home, Kathleen," Bette Bender, Betty Jean Pugh, Lena Mae Wilson and Neida Beth Dodson; address, Rev. Leon Berry, pastor First Christian Church; announcements of honors, E. D. Kelley, principal of Perryton Junior high school; diplomas and awards, Roger A. Burgess, superintendent of Perryton schools; benediction, W. C. Bryan.

Senior Program

The senior commencement program will be Friday evening at 8:15 p. m., high school auditorium, and is as follows: processional, Mrs. A. P. McCelvey; invocation, Rev. Leon Berry, pastor First Christian Church; "The Old Refrain," Senior Group; presentation of Senior gift, Clinton Hearn, president of Senior Class; brass trio, Charles Ellzey, LeRoy Halsey, Charles Price; commencement address, Binford Arney; announcement of honors, O. A. Bush, principal of Perryton High School; presentation of diplomas, Roger A. Burgess, superintendent of Perryton Public Schools; benediction; recessional, Mrs. A. P. McCelvey.

Senior Graduates

Eighty seniors of the Perryton High School are candidates for graduation at the commencement exercises tomorrow night. They are: James Adams, Gail Allen, Joan Balzer, Virginia Barker, Juanita Beck, Camille Black, Eugene Buchner, Joe Buckhaults, Dorothy Budock, Emma Fae Bull, Clarine Buller, Josephine Carlson, Sidney Carpenter, Carolyn Chase, Letha Corbin, Hazel Cook, Roy Cudd, Alfred Davis, Charles Ellzey, Jake Erskine, Clyde Flowers, Lois Flowers.

Vernon Fronk, Alva Frye, Seville Funk, Audean Gray, Clifford Gyger, Leroy Halsey, Bill Hamman, Clinton Hearn, Vernon Hergert, Avanelle Hill, Lila Jackson, Eloise Johnson, Robert L. Johnson, Jimmie Lea Landrum, Thomas Dale Lee, Ella Lee, Wayne Lee, Helen Lewis.

Patricia Martin, Maxine May, Olaf Mays, James Morgan, Albert Morris, Clarence Morris, Annabelle McCartor, S. R. McClung, Neil McGarraugh, Katherine McLarty, Glen McWilliams, Jim Palmer, George Parker, Eleanor Partridge, Carl Pribble, Charles Price, L. Louise Pugh, Wilford Reheard, Lenora Reimer, Helen Schollenbarger.

Eunice Schroeder, Bob Schuster, Nell Scroggs, Louis Seedig, Suzanne Sellers, Clifton Sharp, Melvin Skinner, H. D. Stone, Sadie Sword, Gloria Erwina Taylor, Lucille Taylor, Byron Tevis, J. L. Wagnon, Elva Walker, Jack Williams, Mack Winter, James Woodworth, Weldon Wright, Mac Yarborough and Lloyd Yates.

Miss Donna Ann Clark, Gruver, is visiting in the home of her aunt, Mrs. A. C. Witt.

Texas has nearly one-fourth of all producing oil wells in the United States.

NO. 4 CONTINUED FROM FRONT PAGE

people that the pensions be paid, that the school teacher's retirement fund be paid, the blind be cared for and all other social security obligations be met. The voters decided all of this in no uncertain terms. I shall favor any reasonable tax bill to procure these funds as long as it does not incur hardships on any particular group or upon those we wish to aid. I do not think it proper for me to announce a cure-all law for any problem, for, after all, I would only be one of 31 senators that would have a voice in the matter.

"I do believe such a problem can be worked out satisfactorily by both the legislative and executive branches of the government to fulfill the mandate of the people, and I will certainly fight for the solution of these problems.

Douglass said he believed that all types and sizes of business should be considered on the passage of any law, that there should be no discriminating laws.

He said he believed that labor should have the rights of bargaining.

He strongly favors that school proportionates be based on the number of students rather than population of districts, he said.

Douglass said he is an advocate of consolidating equalization boards tax assessing and collecting agencies into one, thereby saving thousands of dollars in costs of administrative government and also equalizing school, county and state tax rates. He cited three examples of counties in the Panhandle that employ a gas and oil expert each year to assess taxes for the county. "Then the school employs this expert to set their taxes," Douglass said, "and when this expert has finished duplicating his first list, he has received thousands of dollars in salary for doing the same work."

Sees Economy Ahead

Douglass said he believed in practicing economy, stating: "You can't tell me that we cannot economize, and by that I don't mean to quit spending where the spending is doing good. We are living in a progressive age, and our advanced and modern views demand better schools, better advantages and better living conditions in general. It is not those expenditures going to the progressive and beneficial things I would cut, it is the useless waste and spending that should be discontinued. There are too many duplications, too many overlapping tax eating agencies, too much waste and far too many useless jobs. A real practiced economy, without regard to political favoritism would mean millions of dollars saved, likely rendering new taxes of any kind unnecessary."

Douglass said he believed the state, in cooperation with the federal government, could be induced to establish a natural gas laboratory in the Panhandle of Texas to determine the fullest extent of the many uses of natural gas. Such an experimental station, Douglass said would prove beyond all doubts that new industry could thrive in this area, leading to many manufacturing plants being established in the heart of the largest gas field in the world.

"Give business and industry, both large and small, a fair deal," he said. "The progress, development and welfare of the country depends upon the success of business institutions, and, the people, in turn, rely upon the prosperity of business for their security.

"Plains Only Clients."

"To sum it all up, we must have a new order of things. We must have an order that will mean that our lawmakers must and will look to the interests of the people rather than the interests of a special few. There will be little or no relief in taxes, in pensions, in economy and all the other problems confronting us so long as our legislators continue to serve two masters. 'No man can serve two masters.' That saying is as true today as when written 2,000 years ago.

"The government of Texas must be returned to the people. If common sense, fairness, a willingness to work, and the sacred interests of the people as a whole could be called a platform, such is my platform.

"I shall have only one client while in the Senate and that client will be the citizens of the Panhandle of Texas."

NO. 3— CONTINUED FROM FRONT PAGE

Mrs. E. D. Kelley, welfare; Mrs. Audie Conley, Founder's Day.

The executive board, composed of the officers and the above chairmen, will meet in August to complete plans for the coming year's work, stated Mrs. Holland. The date will be announced later.

The resignation of Mrs. O. A. Bush as treasurer was accepted and Mrs. P. E. Gidley named treasurer. The Bushes are moving to Gruver, where Mr. Bush will be superintendent of schools.

Mr. and Mrs. Arthur Townsend returned Friday night from a visit in Joplin, Mo. They were gone five days.

Billie Maxine McLarty, Follett, visited from Friday until Sunday with her grandmother, Mrs. W. W. McLarty.

The South's best-equipped light-engineering laboratory is located at the University of Texas College of Engineering.

Sanitary conditions around the home make life a little safer.

It is estimated that in 1939 nearly 1,700,000 farm homes in the United States received electric current from central stations.

People are told to take better care of their feet. Also they should take better care of the places those feet go into.

Locker Plant Opens May 25 At Spearman

Saturday, May 25th is the date set for the opening of The Spearman Equity Exchange cooperative locker refrigeration plant at Spearman, Texas. Plans for the opening call for an all-day program which includes talks from refrigeration experts, food conservationists, and cooperative executives of Texas and Oklahoma.

The new plant, a 300 locker unit, is one of the few in the Panhandle of Texas. The construction was sponsored by the Spearman Equity Exchange, but many lockers have been rented by Spearman business men, and local citizens. A few of the lockers are available at this time for rental purposes. The rental at the present is $10.00 per year, which is the cost basis for the plant.

An experienced butcher has been employed by the Equity management, who prepares all beef and other food for storage.

More than 1,000 cooperative locker refrigeration plants have been constructed in Texas, and their success has been attributed to the saving that can be gained by use of the lockers. The capacity of the lockers will allow approximately 300 pounds of storage space, sufficient to store large quantities of beef, poultry and fruit.

Some of the striking examples of savings, according to state operators, can be found in butchering beef for storage, purchasing or raising poultry and butchering at the time the price is low, yet having fried chicken the year round.

Equity cooperative members, the 300 locker owners and the general public are expected at the Saturday meeting. The management is preparing to take care of at least 500 visitors.

NO. 9— CONTINUED FROM FRONT PAGE

per bushel that wheat farmers cooperating with the AAA receive. This assures local wheat farmers of 83 cents per bushel for their No. 1 wheat this harvest.

A number of months ago we advocated that the lake at the Wolf Creek Park be named the Fryer Lake in honor of Mr. and Mrs. J. T. Fryer, one time owners of the Shandy Nook Ranch, the park being located on the home section of this ranch.

We still think that no more fitting name could be chosen for the lake and we urge the officials of the Soil Conservation Service to so name it. Now here's what you good people of this area can do if you really would like to see it called Fryer Lake (and we feel sure that you do). Just write us a letter setting forth your wishes and we will see that they are presented to the proper officials. Or better, just write to Mr. George M. Parker, chief of the Perryton area office of the SCS.

We think no more fitting tribute could be paid than to honor the Fryer's by designating this great recreational place, Lake Fryer. During the many years that the Shady Nook Ranch was owned and operated by them, it was the center of community activities, not only for Ochiltree county but the adjoining counties in Texas and Oklahoma.

Here were held the big picnics, baseball tournaments, foot and horse races, dances and get-togethers of every kind. It would bring back many pleasant memories to us oldsters if we could once more hear folks setting out on an outing say, "We're going down to Fryer's."

"Going down to Fryer's" to a beautiful lake with all its modern appurtenances will be quite different to "Going down to Fryer's" some thirty or forty years ago. Then we had no cars to whisk us down the creek in a few minutes. We went in buggies, wagons or on horse and we went to stay not an hour or so but two or three days.

Back in those days, people didn't get together much and when they did meet up, it usually took several days to get the visit out. We were not so busy, we didn't have much money but it didn't take much money to have a good time. There were no class distinctions, the hired hand was on a par with the big cow man's son. People were rated for what they were, not for how much they made or how much they owned or how fine a car they owed for.

Well, just like a speaker who talks too much, we've strayed away from our subject, but getting back, we're sure depending on a lot of you old timers to put "in a plug" for naming this lake, "Lake Fryer."

NO. 8— CONTINUED FROM FRONT PAGE

nounced that no marketing quota will be proclaimed for wheat this year.

Widespread cooperation with the AAA wheat program has resulted in greater stability for the wheat industry, Charles L. Thomas, Pampa wheat grower and state AAA committeeman, commented in regard to the announcement that the national allotment would remain the same.

Jean Rae Bennett came in Sunday from Wichita, Kans., for a visit with her grandparents, Mr. and Mrs. J. W. Bennett.

Results prove that people read Herald want ads.

Youngest Senior in 1940 Class

L. Louise Pugh, 15 year old Ranger Queen, has the distinction of being the youngest member of the eighty candidates for graduation in the Perryton Schools in 1940. Prominent in school activities during her two year's attendance, she has been a popular member of the Ranger Band, Girls' Glee Club and Basketball team. She is the daughter of Mr. and Mrs. T. O. Pugh of Perryton.

Telegram Received

Mr. Buchanan, chairman of the Ochiltree County Chapter, received a telegram Wednesday from Norman Davis, National Chairman, explaining the urgent need of funds. The telegram was as follows:

"With several million men locked in mortal combat on French and Belgian soil the relief needs of Belgian and French peoples are reaching staggering proportions. Already five million pitiful refugees are clogging every road into central southern France trying to escape bombing and strafing from airplanes. Our representatives in France report thousands dying by roadsides of wounds, fright and hunger. American Red Cross must rush relief of every kind if these innocent people are to be saved. We are expecting millions of dollars in money and supplies but we need more and bigger contributions to carry on. Cannot urge upon you too strongly need for prompt action if we are to befriend these sorely tried victims of brutal warfare. We count upon you to reach and oversubscribe your goal within shortest possible time. Every day's delay means hundreds may die because we have not brought them aid in this their saddest hour."

Mr. and Mrs. Louis Bryan and Joan spent Sunday in the home of Mrs. Bryan's sister, Mr. and Mrs. Clint Ragsdale, Haresty, Okla.

Robert Lawrence; "Local Welfare Work," Mrs. Ida Garrett, county worker for the State Department of Public Welfare; "History of the Sewing Room," Mrs. A. K. Wooten, county superintendent of WPA professional and service projects; quartet selection, Virgil Castle, I. R. Buchanan, Robert Lawrence and A. K. Wooten, with Miss Doris Horan at the piano. The numbers were interspesed with comments from the toastmaster who in his own unique way furnished humor for the evening.

Throughout this week the sewing room will be open to the public and if you have not done so, visit them and see for yourself how the project operates and what is being accomplished.

dead. They gain added significance from the fact that they serve the living.

The men who make the poppies gain from them interesting and helpful employment to fill the bleak hours of illness and convalescence. They gain money to be sent home to needy families.

Everyone who wears a poppy Saturday will be honoring the war dead and aiding the war victims still within reach of human help.
