PARIS TROUBLE HOLDS UP LOCARNO PACT'S FULFILLMENT

GERMAN ENTRY DECISION PUT OFF BY LEAGUE

FRENCH CABINET CRISIS DELAYS CHIEF ITEM AT GENEVA

By United News
 GENEVA, March 8.—"With the entrance of Germany into the League of Nations assured, its members regret more than ever the absence of some other nations, especially the United States," said former Premier Augusto Da Costa of Portugal, upon his assumption of the presidency of the assembly Monday.

Congratulating the members of the league on the "dawn of a new era within the organization," an agree from the Locarno spirit, the speaker made no reference to the fact that a short distance away the German delegates awaited action on their admission to the league and the council.

Nor did he refer to the fact that the French political crisis may hold up solution for an indefinite time of the most serious dispute the league has yet seen—an internal fight over enlargement of the council seats.

The hope of settlement of the French crisis dominated the league session Monday. Routine work must be followed by the league until President Doumergue, in Paris, has chosen his cabinet. The German delegates have been informed that with a deadlock apparent on the matter of the admission of Spain and Brazil to the council, and with France unrepresented by any authorized foreign minister or delegate, the delay in seating a Berlin representative may be extended until the end of the week or longer.

The entire time table of the league has been upset by the crash of Briand's government.

The German delegates challenge the right of those statesmen who met at Locarno, to create any permanent seat in the council of the League of Nations until Germany has been admitted. Second, they refuse to pledge themselves in advance not to veto either the Spanish or Brazilian claims once the German council seat is awarded. Thus they are blocking any solution other than their own.

After Giraffes

Because the children of Washington continually asked the keepers at the national zoo, "Where are the giraffes?" Dr. William M. Martin, superintendent of the zoo, will shortly lead a hunting expedition into the wilds of Africa in search of this elusive animal and many other wild beasts. Above is a recent portrait of Doctor Mann.

BRIAND WILL BE REINSTATED, IS FRENCH REPORT

DEPOSED PREMIER IS EXPECTED TO TAKE JOB BACK

PARIS, March 8.—Aristide Briand who completely dominates the French political situation, is expected Tuesday to accept the invitation of President Doumergue to form a new cabinet.

If Briand consents to resume his post as premier, he is very likely to incline toward the left wing in his cabinet selections, choosing Joseph Caillaux as minister of finance, Anatole De Monzie as minister of public works and Raoul Peret as minister of justice.

Briand conferred with Doumergue all day and into the evening and at the end of these sessions still insisted that he would not again accept the task of forming a government. Nevertheless, the pressure of public opinion and Briand's own personal desire to get back to Geneva at the earliest possible moment are believed very likely to break down his opposition within the next 24 hours.

On the last occasion when he became premier—the novelty of the experience of assuming this high honor wore off years ago—Briand had readjusted refused to accept the call. But the solicitation of his friends finally prevailed. The crisis now is no less pressing and Briand is again expected by his friends to retrieve the helm.

THEY WANT REFERENCES AT LEAVENWORTH PEN

By United News
 FT. LEAVENWORTH, Kan., March 8.—It is more difficult to get into the federal penitentiary here than it is to get out.

Ask N. P. West, real estate operator of Chicago, who was convicted of using the mails to defraud. West presented himself at the prison gates Monday to begin serving a two year sentence. The authorities wouldn't let him in. He didn't have the proper papers, they said.

West was in Kansas City, only a short distance from the prison when he learned that an appeal in his case having failed he would have to surrender himself to the authorities in Chicago. It seemed foolish to him to travel all the way to Chicago only to be brought immediately back. He decided to go to the prison alone.

MUSCLE SHOALS LEASE, VOTED, HITS NEW SNAG

SENATE MAKES CHANGES IN HOUSE BILL; MAY CAUSE CONFERENCE

By United News
 WASHINGTON, March 8.—Congress has voted for private operation of the giant government plant at Muscle Shoals and a joint congressional commission will soon begin an attempt to negotiate a lease for the project. These leases will cover the manufacturer rates for fertilizer in peace and explosives in war contingencies and the development of electric power.

This commission will have until April 26 to negotiate a lease or leases, when it will report back to congress under its eponymous resolution adopted by the senate Monday, 51 to 26.

Congress must pass finally on any lease for the project.

Headless of the warnings of its leaders, the senate made changes in the resolutions as adopted by the house and so the measure will have to go to conference.

The changes were as follows:

1. Extension of time for negotiating leases from April 1 to April 26.
2. A provision for equitable distribution among communities and states of the power developed at Muscle Shoals.
3. An amendment allowing the commission to bring back recommendations for more than one lease.

Because of the difference in the resolution adopted by the house and senate, there will be a delay of a few days before the commission can get to work. It is to be composed of three senators and three members of the house, four republicans and two democrats. If the house refuses to accept the senate amendments the resolution will have to go to conference.

RUNAWAY GIRL LOCKED FIVE DAYS IN BOX CAR

By United News
 ALPINE, Texas, March 8.—Locked in a box car five days without food or water, Miss Dolores Cedillo, 21, of El Paso was found unconscious when the car was unlocked here, Southern Pacific railroad officials state.

Miss Cedillo told the station agent, after she had been revived, that she was running away from an orphanage. She said she got in the car in El Paso Sunday a week ago. The car was locked but left in the El Paso yards until Tuesday. It arrived here Thursday and when employees of the railroad went to empty the car they found Miss Cedillo in the car unconscious.

MINERS MISSING IN W. VIRGINIA BLAST, ONE DEAD

TWENTY NINE ARE STILL ENTOMBED, AFTER 48 ARE SAVED

By United Press
 BECKLEY, W. Va., March 8.—Twenty nine men are known entombed in Eccles Mine No. 5, where an explosion which caused one death and spread havoc at 6:30 Monday night. The fate of the missing miners is not known and is believed to depend upon their distance from the center of the explosion when the blast came.

One man was taken out dead from mine No. 6, which is above mine No. 5, and 38 others are taken out alive, leaving one man of the No. 5 crew behind and unaccounted for. It was announced at the mine office that the rescued men were suffering from the effects of the poisonous gas that spread from No. 5 and some were taken to hospitals.

At 11:30 p. m. mine officials said that it might be several hours before the rescue crew could reach the imprisoned men. It was hoped that the rescue might be effected before daylight. A federal mine rescue crew was at this time on the way from Gary, W. Va., and was expected within the next two hours.

As far as could be determined at the surface the explosion had caused no fire in the mine shafts.

THREE DIE AS TRAIN HITS AUTO AT EL PASO

EL PASO, Texas, March 8.—Three were killed and one injured when a westbound Texas & Pacific passenger train struck an automobile near here today.

Miss Irene Taylor and Mrs. Frances Harden of El Paso and J. H. Carlson, Ft. Bliss soldier were killed in the accident. The driver of the car, Clarence Johannsen, also a soldier, received serious injuries but is expected to recover.

COOPERATION, PLEA OF BENSON TO BUS MEN

Urging such close co-operation between bus line owners, "that a passenger can ride from New York to San Francisco on one ticket by a system of transfers" with prearranged schedules and direct connections, and good terminals, Judge George Benson last night addressed a gathering of about 25 Texas bus line owners at a banquet at the Merrill hotel. He declared that it was by such service that the railroads had now attained their power, and that unless such service were given, the smaller bus lines faced not only crowding out by larger lines, but burdensome legislation, which could be avoided by a popular demand following satisfactory service to patrons. "You bus owners have the biggest business in Texas," he said "but you need co-operation to develop it."

TAMMANY MAYOR MAY SPEAK IN TEXAS

By United News
 NEW YORK, March 8.—Mayor: Jas J. Walker next week will make another swing through the south to "sell Tammany Hall" to other states, he announced Monday.

Several Texas cities have invited the mayor to "speak and he may visit that state.

GRAND JURY TO PROBE "LITTLE JUAREZ" RUMOR

By United News
 BROWNWOOD, Texas, March 8.—A grand jury was ordered empaneled here today by Judge J. O. Woodward of the thirty fifth district court to investigate reports of a "Little Juarez" in Brownwood.

ARCHER ROAD BOND REHEARING DENIED

By United News
 WASHINGTON, March 8.—The United States supreme court today denied a re-hearing of the Texas road districting law or Archer County bond case, in which a recent decision held the law unconstitutional and invalidated approximately \$75,000,000 in outstanding bonds.

Dan Moody, attorney general of Texas, asked for the re-hearing. Legal representatives of a number of states, including Missouri, Kansas and Oklahoma sought to join in the request, their states having passed similar laws under which millions of dollars in bonds have been issued. The supreme court denied the requests of the other states to join.

URGENT VETERANS TO MORE ACTIVE CITIZENSHIP

Taking issue with the often repeated statement that the world war "ruined" the men who participated in it, Dr. V. V. Clark, C. L. Harvey and H. E. Pharr last night in the Leader building basement declared to Lubbock legionnaires that war veterans were better men for their experiences.

"In spite of much that was said," the speakers said, "the men came out broader and more fitted for responsible citizenship."

These assertions were made in the course of a plea to all the legion men to put their shoulders to the wheel of community and national advance.

At last night's meeting the Allen brothers post discussed the formation of a baseball team and the staging of a minstrel show.

ROBBER CLAWED BY SANTONE CHILDREN

By United News
 SAN ANTONIO, Texas, March 8.—When Mrs. Aesne Goll awoke Monday morning and found a burglar leaning over her bed, she emitted screams that awoke her three children, who drove the intruder away after biting, hitting and clawing him in a "free for all."

The Goll house was found to be ransacked and money and clothing taken.

PLAINS DOCTORS TO MEET HERE TONIGHT

Members of the Lubbock County Medical Society will hold a banquet at the Tech cafe this evening at 7:30 o'clock, according to an announcement made by Dr. Allen T. Stewart, of the West Texas Hospital.

Doctors from all towns within a radius of 50 miles of Lubbock are invited and urged to attend, and local as well as out-of-town members are requested to telephone Dr. Stewart, phone 480, to reserve the number of plates desired.

MEXICAN EX-ARMY OFFICER, RELEASED IN CHICAGO

By United News
 DETROIT, Mich., March 8.—Rafael Trejo, of Chicago, a former Mexican army officer who was detained by federal authorities here recently on extradition proceedings brought by the Mexican government, which charged forgery, late today was released from custody following an examination before United States Commissioner J. Stanley Hurd.

COLD HELPS AND HINDERS CITY'S ICE JAM BATTLE

By United News
 FRANKLIN, Pa., March 8.—Cold weather Monday halted attempts to dislodge the ice gorge extending 18 miles south of here and at the same time lessened the danger of more floods.

While dynamite blasting has been discontinued because the ice froze in after it was loosened, the use of thermite a heat generating chemical, will be continued.

ASK OFFICER TO QUIT AFTER PRO LAW CHARGE

By United News
 SAN ANTONIO, Texas, March 8.—Citizens are circulating a petition here for the resignation of Frank H. Haines, president of the board of education, as the result of Haines having been arrested at a restaurant recently on the charge of possessing intoxicating liquor.

GETS SEPARATION AND \$5,000 ALIMONY PER YEAR

By United News
 NEW YORK, March 8.—Mrs. Elsie Hinman Duis today was awarded a separation from Robert B. Duis Jr., son of a former vice president of the American Tobacco Co., by Justice Prosekauer. She was given \$5000 a year alimony.

OFFICIALS 2 STATES TALK OF RED RIVER BRIDGE

By United News
 AUSTIN, Texas, March 8.—Oklahoma road building experts including Roy Johnson, highway commissioner, conferred today with the Texas highway commission on matters involving maintenance of free interstate bridges crossing the Red river and improved federal highways connecting Texas and Oklahoma.

MEXICAN CONSUL GUARDED IN SANTONE

SAN ANTONIO, Texas, March 8.—The headquarters here of A. P. Carrillo, Mexican consul-general, was being guarded by Mexican government agents, following two threats received by mail as a result of the statement made by Rev. Arthur J. Drossner, bishop of the Catholic diocese of San Antonio.

FAMOUS OLD HOTEL BREVOORT GETS 2 NICE NEW PADLOCKS ON DINING ROOM DOORS NEXT WEEK—FOR BOOZE

By Frank Getty
 United News Staff Correspondent
 NEW YORK, March 8.—When winter twilight comes to Washington Square a week hence, the lights of Gray's Village, twinkling on one by one in the gathering dusk will glint upon two new and shiny padlocks—padlocks which will bar the entrance of the two main dining rooms of the historic old hotel Brevoort.

The windows of these dining rooms, which for more than half a century have cast a cheery gleam, accompanied by murmurs of merriment and the tinkle of glassware, across lower avenue, will be dark for six months as the result of a compromise settlement reached by United States Attorney Emory C. Buckner and Attorney for Raymond Orteig, the genial proprietor of the famous French hostelry.

Shopping where artists, writers, the conscientious and the literati and just plain folks who knew their

PRESSING 14TH AMENDMENT TOO FAR, SUPREME COURT JUSTICE ON 85TH BIRTHDAY WARNS HIS COLLEAGUES

By United News
 WASHINGTON, March 8.—Ignoring the popular belief that age makes for conservatism, Oliver Wendell Holmes Monday observed his eighty-fifth birthday by vigorously upbraiding his colleagues of the United States supreme court for what he termed too strict interpretation of the constitution.

Holmes, the oldest of supreme court justices in years of service, dissented from a decision of the court's majority holding unconstitutional the Pennsylvania law prohibiting the use of shoddy in making certain articles of bedding. Holmes was supported by Harlan F. Stone, the youngest on the bench, and Louis D. Brandeis.

"We are pressing the fourteenth amendment too far," declared the justice who reached his majority before the north and south were getting their second wind in the civil war.

The fourteenth amendment safeguards the rights of citizens from the seizure of property without "due process of law." Holmes contended that this provision was being stretched too far in limiting the power of states. The octogenarian liberally pointed out that last onday he dissented similarly in opposing a decision holding the Wisconsin inheritance tax provision invalid on the same grounds.

Holmes presented his dissent vigorously. Nor was there anything in his appearance to suggest that he had long passed three score and ten.

He walked to his seat with a firm step. His large white mustaches which in the new nineties would have been described as of the "walrus type" added to indicate that this son of the famous New England poet had fought in a war which was vogue history to most in the room—or that he had been wounded three times in that war—once when a bullet pierced his neck in the bloody struggle at Antietam.

WESTERN ROADS ASK FREIGHT RATE BOOST

By United News
 CHICAGO, March 8.—An immediate increase in railroad freight rates is the demand of the attorneys of the western railway companies who Monday submitted a brief to the I. C. C. asserting that present earnings are inadequate to pay a fair return on investments.

SWEETHEART SLAYER IS CALM AT TRIAL

By United News
 PHILADELPHIA, March 8.—David L. Marshall, the chiropractor who has confessed killing and then dismembering the body of his milliner sweetheart was taken back to his cell at the completion of the first day of his trial Monday, apparently as calm and unruffled as in the days when he enjoyed prosperity in his profession.

Eight men remain to be selected as jurors when court reconvenes Tuesday morning. Four were chosen from 31 takersman after seven women in the panel had been excused on a agreement of opposing lawyers.

CONGRESSIONAL RECORD

HOUSE
 Considered bills for the District of Columbia.
 Agricultural committee, continuing consideration of farm relief bills, heard another attack of the plan submitted by eleven western states.

SENATE
 Passed the concurrent resolution for a congressional commission to negotiate leases for Muscle Shoals with amendments that require it to go back to the house.

Judiciary committee held a preliminary hearing on bills for modification of the Volstead act, withholding its decision as to a full hearing.

Senator La Follette presented to senate a petition from the Milwaukee common council asking modification of the Volstead act to permit the manufacture and sale of beer and wine.

CHINESE WARSHIPS BOMBARD TIENTSIN

TIENTSIN, March 8.—Chinese warships in Taku bay outside of Tientsin, exchanged a continuous bombardment Monday with the forts on shore. Reports say that the warships were attempting to land forces to aid in the fight against General Feng Yu Haiang.

Chief of Police May Address P. T. A. Council

Chief of Police T. E. May made the principal address at a meeting of the P. T. A. council that was held at the central ward school yesterday afternoon. He discussed the delinquencies among the young people and the truancy problem and declared that many children remain at home because of lack of suitable clothing, and that there is a broad field in which the members of the P. T. A. might direct much of their efforts to the solution of one of the biggest problems that have confronted the schools of the city.

Mrs. E. M. Smith, president of the junior high P. T. A., who presided over the meeting, assured Chief May that the members are in hearty accord with his ambitions to have more of the children of Lubbock in school.

Reports of the year's work of each P. T. A. unit in Lubbock was given by chairmen of the various committees, the council being composed of the president and one representative of each P. T. A. and the principal of each school in the city.

The need of a cafeteria for the junior high school was discussed and it is believed that an approach to securing it before the opening of the next term has been made.

The matter of selecting uniforms for the girls of the high school was given consideration due to the fact that members believe that the girls, using too extravagant views in selecting school clothing.

SOROSIS STUDIES WOMAN'S CHANGING IDEALS
The Sorosis club will meet at the home of Mrs. O. B. Hewitt this afternoon. The topic for study will be "The Changing Ideals of Women." (1) toward education; (2) toward dress; (3) toward methods of housekeeping, and (4) toward morals. Each member of the club is requested to be present at the meeting and to be prepared to discuss any phase of the subject.

MISS MCGEE WILL ADDRESS TWENTIETH CENTURY CLUB
The Twentieth Century club will meet at 3 o'clock at the Methodist church with Mrs. H. T. Kimbro as leader. The study will be "Eminent Europeans" and the following members will appear on the program: Mesdames G. C. Wolfrath, Rozcoe Wilson, H. D. Woods, J. C. Street, Jessie Summers, W. R. Spencer and A. W. McKee. Miss Flora McGee will address the club.

MRS. PIERCE LEADS ATHLETIC CLUB PROGRAM
The Athletes club at the meeting this afternoon will study recent southern novels under the leadership of Mrs. R. Q. Pierce with Mesdames Raymond, George, John LeMond, Ed Almsworth, Paul Barrier and Miss Cornelia McAfee as assistants.

MISS JOHNSON HONOREE AT PARTY TODAY
Misses Alice and Virgie Johnson will entertain Tuesday afternoon honoring Miss Mary Alice Johnson, bride-elect, at their home, 1919 Main.

TWENTY-FOUR FORTY-TWO CLUB WILL MEET FRIDAY
Mesdames R. D. Benson and R. W. Blair will be hostesses to the Twenty-four Forty-two Club at three o'clock Friday afternoon at the home of Mrs. Benson.

PERSONALS
Mrs. K. L. Riggs is suffering from influenza at her home at 1801 13th street. Her baby, Marilyn, is suffering from a slight attack of pneumonia.

Mr. and Mrs. Kenneth Kimbro returned to Lubbock Monday after a two-weeks wedding trip in South Texas.

Mr. and Mrs. Martin Hart are visiting at the Fat Stock Show in Ft. Worth this week.

Mrs. I. C. Enoch and children will leave today for several weeks visit with Mrs. Enoch's people in Jackson, Miss.

Women Enjoy Lovely Golfing Weather In Park

A large number of Lubbock's women were to be seen on the links of the Municipal Golf association, and from the enthusiasm shown over the Scottish game they are enjoying the newly reclaimed links as much as the men folk.

The new arrangement at the links has made play a great deal more interesting, as while the hazards have not been made a bit less easier to overcome, the fairways have been smoothed and there was much comment among the ladies about the general improved condition of the links.

Lubbock women were so numerous on the links yesterday as were the men, and the game is attracting equal attention from this side of the family.

LOCAL BRIEFS
J. W. Fitzgerald, of Brownfield, was a business visitor to Lubbock yesterday.

J. H. Goodman, corporation judge, was at his office yesterday after ten days absence because of influenza. Judge Goodman stated that he came on ten pounds lighter as a result of his illness.

Miss Myrtle Murray, district home demonstration agent, will arrive in Lubbock today and will accompany Miss Lela DuBose, county home demonstration agent, to Carlisle this afternoon to attend a meeting of the Carlisle demonstration club.

Monte Brown, former citizen of Lubbock, but who for the past two years has been at Lorenzo, will return to Lubbock to make his home and has announced plans to organize the old Lubbock band, of which he was once director, and to whip that organization in shape to take to Amarillo to the 1926 convention of the West Texas Chamber of Commerce.

A. B. DAVIS GOES TO BIG SPRING FOR C. OF C. MEETING
A. B. Davis, city manager and manager of the board of city development and of the chamber of commerce, went to Big Spring yesterday accompanied by Jed Rix, of the Rix Furniture and Undertaking company, to present some views on the problems of the Big Spring Chamber of Commerce to the board of directors.

The meeting with the directors, which had been arranged by Mr. Rix and prominent business men of Big Spring, was held there yesterday afternoon.

KELL, CHIEF SPEAKER AT WICHITA FALLS SATURDAY
WICHITA FALLS, Texas, March 8.—The Wichita Falls Chamber of Commerce has made big plans for the second annual traveling men's banquet to be given Saturday night, March 13. All traveling men who reside in Wichita Falls are invited to attend. An elaborate program is being arranged. Last year more than 200 traveling men who live in this city attended the banquet. Frank Kell will deliver the principal address.

WICHITA FALLS BUILDS FAST
WICHITA FALLS, Texas, March 8.—March promises to break building permit records of recent months in this city. Permits for the first three days of the month totalled \$126,266. Indications are that several larger permits will be asked for next week.

C. I. A. Student Loan Fund Has No Loss In Six Years

DENTON, Texas, March 8.—Since the establishment in 1916 of the student loan fund at the College of Industrial Arts not one cent has been lost to borrowers. Miss Jessie H. Humphries, dean of the school of liberal arts at the college, is chairman of the committee and has had charge of this work for about six years.

The system is conducted much as that in any loan house or bank. Three faculty members constitute the committee in charge and it transacts all business connected with the fund.

Fifteen sources contribute money for the schooling of young women unable to meet current expenses at C. I. A. Among these are the women's clubs of the state, ex-students, alumni chapters, student loan fund sale, and individual donations.

About seventy-five loans were made last year and there has been an increase during the past twelve months. Interest on the money ranges from three to five per cent, and no time limit for repayment is imposed.

McSHANE HOME BURNS AT EARLY HOUR MONDAY
Fire which is believed to have originated from a defective flue Monday morning at 6:30 o'clock destroyed the home of J. D. McShane at 1618 15th street.

All of the furnishings and household goods were destroyed, members of the McShane family barely succeeding in escaping from the burning building after the fire was discovered.

Total damage amounted to more than \$2500, Mr. McShane said. The building was the property of a Mr. Richardson of Dallas.

Cotton Association Executive Visits Local Officers

J. D. Coughlan, special representative of the Texas Farm Bureau Cotton association, with headquarters in Dallas, spent yesterday in Lubbock conferring with County Agent David F. Eaton, R. E. Overstreet, field man for the Bureau in this district, and J. H. Burroughs, a member of the state board of directors of the association.

Mr. Coughlan stated that he has found interest in the association's method of marketing cotton growing throughout the state and that he is especially encouraged over the patronage given the association in this territory, which he attributes to the faithful work of Messrs. Overstreet and Burroughs being responsible.

Lubbock county is enrolling a larger membership in the association this year than has been the case since the first organization of the Lubbock County Farm Bureau, it was stated here yesterday.

RICHARDSON'S FATHER DANGEROUSLY ILL
H. W. Richardson, financial secretary of the First Methodist church, was called Sunday to the bedside of his father at Sherman, Texas, the latter being reported dangerously ill. Mr. Richardson received the word Saturday, but he was just recovering from a spell of the flu and his physicians would not consent to him making the trip until Sunday night.

No further word has been received from the afflicted, man up to the time of Richardson's departure.

TECH-NICAL TOPICS

W. A. A. HIKING TEAM TAKE 25 MILE STROLL TOMORROW
Francis Smelser, hiking manager, announced yesterday that the W. A. A. hiking team would make a 25 mile hike tomorrow. They will leave College Inn at 8 o'clock, go 12 1/2 miles and return. All girls wishing to make the hike are asked to meet at College Inn and bring money for lunch.

In order to making the hiking team, the girls must make 36 four mile hikes, 4 ten mile hikes, one 25 mile and one 50 mile hike. They must also make a hindrance hike and take the time test. The girls making the team must be able to walk one mile in 14 minutes, five miles in one hour and 30 minutes and 10 miles in three hours with 10 minutes of rest. When a girl has made the team she is awarded a certain number of points. At the close of school letters and sweaters will be awarded to the girls making the required number of points throughout the year. A fifty mile hike will be made about the last of May, which will be the last requirement.

LIBRARY TO RECEIVE THE UNITED STATES DAILY

The first copy of the United States Daily dated March 4 was received by the college library. The paper was founded by a group of over fifty of the prominent people of the nation. The paper will give a complete and comprehensive record of the daily activities of the government of the United States, in all its branches—legislative, judicial and executive. It is published at the national capital every day in the year except Sundays and national holidays. The paper is edited by David Lawrence, a prominent journalist and published by Jay J. Williams.

The publisher sent a special copy to Miss West and asked for her opinion of the paper and her comments on it. The library will be entered for a subscription for the paper and the students will soon have a chance to read the daily acts of the different branches of the government. The paper will carry charts showing the scope of the government of the United States and other important documents. Miss West stated that the paper would be one of the best materials for study for the students in government, as they will get the current happenings from the capital. This newspaper will add greatly to the wealth of current reading matter in the library.

WAGHORNE TO APPEAR ON MUSIC PROGRAM AT CHILDRESS

Prof. Waghorne, head of the department of music, received an invitation to appear on the program of the Texas Federation of Music Clubs which will be held at Childress April 20. He will give an organ number.

He also received a request from the Dallas Music Teachers Association to compose or send in some of his original compositions to be used in their annual May festival. They requested that he send orchestral ensemble numbers particularly. These go to show of the recognition of Prof. Waghorne as an authority on music and as a composer of note. He has calls from many of the neighboring towns asking him to appear at musical meetings and programs.

INQUIRIES RECEIVED ABOUT SUMMER SCHOOL

Several replies have been received from prospective students of the summer school asking for information concerning courses and other details. Over seven hundred circular letters were sent out to school superintendents of the plains and west Texas announcing the summer school. Already replies are coming in. At a convocation held two weeks ago, a questionnaire was sent out among the student body and it was found that over forty-five per cent of the present student body are planning to attend the summer session. With these figures and the inquiries, it is estimated that a large

BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germs.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga. (Adv.)

CAST BE SELECTED FOR OPERETTA TODAY

Prof. Waghorne will begin to select his cast for the operetta, "Aboard the Good Ship Barnacle," today which will be presented by the Choral Club of the college. The operetta was written by Prof. Waghorne and is one of his best compositions. The operetta will be presented to the public some time during the spring term and at the earliest possible date.

"WHO'S THE BOSS" PRESENTED TONIGHT AT SOCK AND BUSKIN MEETING

Otis Koen will present his direction, "Who's the Boss" tonight at a regular meeting of the Sock and Buskin club. It is a one act comedy. The characters of the play are Otis Koen, Albert Schofield, Agnes Brown, Cornelia Ratliff and Francis Ferguson. The play "Between" will be presented at the next meeting Tuesday night.

EDUCATION CLUB ORGANIZED

A group of people met with Dr. Evans and organized an Education Club Monday night, March 8. The officers elected were: Mr. Hobby, president; Mr. Irving, vice president; Zora Mae Logan, secretary; Billy Pearl Eubanks, reporter. The next meeting will be March 22, room 216. All interested are invited.

BLOOD AND SAND FROM EL TORO

Howdy folks. How's tricks? Our column was out yesterday—we weren't in.

One of the biggest boosts a fellow can give another is to tell him that he's doing just fine. Compliments do come sometimes.

The school, we might say parenthetically in answer to a question regarding the progress of the institution, is still "teaching" away the time. And getting closer to the end of the second term each time it "Techs."

Now that the student organization is under way, or rather, at work there are some problems which students might well be interested in. One is the frazzled out question which, everytime it is brought up, takes some new aspect, namely, the honor system.

There are two aspects, it seems, which give entirely different light upon the subject. One is that "we are our brother's keeper." The other, that character is individual, and reporting cheating is "snitching."

It is a consummation devoutly to be wished that some satisfactory conclusion might be reached which would settle the matter for all time; but conditions differ from day to day, as well as from year to year. Like the weather.

G. O. P. TAKES STUMP IN ILLINOIS INVASION

CHICAGO, March 8.—Coolidge republicans have started a peaceful invasion of the west in support of senatorial candidates who are having difficulties convincing their constituents that they were justified in voting for American adherence to the world court.

This is Illinois week. Coolidge cabinet aides and senators are swarming into the state to help Senator Wm. B. McKinley, who is opposed for re-nomination in the April primary by Colonel Frank Smith. Other middle western states will receive attention later.

WIRELESS DEATHS

A course in X-ray technique is offered for women by Hunter College, New York City. Applicants must be graduates of a recognized training school for nurses, or have one or two years of professional experience in medical, dental, or health work, in addition to completion of three years of high-school work, or its equivalent. The purpose is to train X-ray technique as assistants in doctors' or dentists' offices, or in X-ray laboratories or clinics, and prepare students to take charge of the technical aspects of X-ray work.

CONTINUOUS WRANGLING OF WET AND DRY ELEMENTS IMPEDES CONGRESS IN WORK, HOUSE LEADER DECLARES

WASHINGTON, March 8.—Some of the hardest fighting in the prohibition controversy is being waged around the senate judiciary committee which is trying to decide whether to order the beer hearings sought by the wets.

This committee has taken the request for hearings under advisement. Most committee members are dry and consequently oppose an investigation such as the wets desire. They believe that a general airing of the prohibition enforcement controversy under senate auspices at this time would be unwise and in this they are supported by higher up influences within the republican party. Republican leaders are especially desirous of escaping prohibition complications in the fall elections.

Democrats likewise are reluctant to make a general issue of prohibition this year. Prohibition arguments have become so frequent in the house that majority leader Tilson has attempted to suppress them, declaring that unless there is some check, the house will be unable to transact its business. After learning of the disinclination of the senate committee members,

tion of the senate committee to grant the investigation, Senator Edge, New Jersey, republican, issued a statement warning the committee that refusal would only cause the demand for modification to become more determined.

"Surely no one would contend that prohibition is not an important public problem or that we should not be glad of all constructive information," Edge said. "It might be fairly inferred from the disinclination for hearings so apparent that defenders of the present law who oppose modification don't really want or are fearful of the facts."

"A denial of public hearings in my judgment will make the demand for modification more determined. "It would make little or no difference to me whether the committee granted public hearings or not. The public, however, are denied this privilege and with requests from hundreds to be heard. I am curious as to what possible excuse can be given if their desire is denied."

"We don't want to open the Pandora's box of prohibition," said Senator Harrel, Oklahoma dry republican, in voicing the sentiment of judiciary committee members.

Senator Curaway, Arkansas democrat, said that if hearings were allowed it would be interpreted as a weakening of congress on the Volstead act.

"I just want to tell you before you start," he told the wets, "that Mark Anthony is the only person who ever got anything out of a funeral oration."

The three senators who asked for hearings were Edge, Bruce, of Maryland and Edwards of New Jersey.

From School Teacher To Great Eminence

A young man who was brought up on a farm, qualified for district school teacher, then managed to save enough money to put him thru medical college.

Later, he moved to Buffalo, N. Y., and today the name of this man, Dr. R. V. Pierce, is known throughout the world. His Golden Medical Discovery is the best known blood medicine and tonic. More than fifty million bottles have been sold. If your dealer does not sell the Discovery, in liquid or tablets, you can obtain a pkg. of the tablets by sending 65c to the Dr. Pierce Clinic, in Buffalo, N. Y. Also write for free medical advice.

Why Did We Select This Particular Stove to Sell in Lubbock?

THE WESTERN ELECTRIC RANGE

We have sold practically all well known makes of electric stoves to our Lubbock friends. We have seen these stoves in use—have talked with our customers about their stoves—have inquired as to the cost of operation and about the cooking qualities.

Now Why Shouldn't We Know Which Stove Offers Most?

We compared stoves and by this comparison we made the selection of the Western Electric believing that it:

Delivers Longer Service—Looks Better
Cooks Better

—and the most economical!

A RENEWED PROMISE—Then the Lord said unto Moses, Now shalt thou see what I will do to Pharaoh, for with a strong hand shall he let them go." Ex. 6:1.

REDUCE COTTON-ACREAGE OR FACE DISASTER

Unless the South automatically reduces its 1926 cotton acreage by planting more feed and food crops, disaster faces farmers and business men throughout this section of the country. This was the challenge thrown out by F. F. Sandlin, business man of Venus, Johnson county, in a radio talk Monday night. His subject was, "The Situation Confronting the South as Seen by the Man on Main Street." "Our slogan for 1926 should be, 'Fewer Bales and More Dollars,'" he said. "With the planting of 46 1-2 million acres in cotton and with a normal season, I see no reason why the south cannot produce 20,000,000 bales of cotton. This would have been the 1925 production had it not been for the central Texas drouth, the insects in North Texas and the early frosts in West Texas. We must not forget that foreign countries are producing more and more cotton every year," pointed out Mr. Sandlin. "Such nations as India and China can produce cotton for 7 cents per pound and make more profit than American farmers can at 20 cents per pound, owing to the lower cost of labor and low standards of living. With a normal season and with the 1925 acreage, a 1926 American crop of 20,000,000 bales and 10,000,000 bales produced in foreign countries, together with a 1925 world carryover of 5,000,000 bales, the 1926 crop cannot possibly bring more than from 7 to 12 cents per pound. It costs at least 17 cents per pound to produce cotton in America so it can readily be seen that the more cotton we grow the worse off we are financially." Mr. Sandlin said that the farmers holds the key to remedy the situation but that it is up to every banker and business man to help him by giving hearty cooperation and support. W. E. Tolleson, farmer living near Venus in a radio talk on the same program, said that he has been raising about 300 acres of cotton for 20 years and has had to borrow money to pay his land taxes during some years. "There is money in cotton," he said, "but the time is past when we can buy our feed and food with cotton money profitably. We farmers of the Venus community are reducing our cotton acreage 25 per cent and are going in for diversified farming, raising our own feed, hogs and poultry."

RAILROADS OPTIMISTIC

Despite the pending wage demands by railroad trainmen and the legislature before Congress to force consolidation of the carriers, railroad men are very optimistic regarding the future. There is no reason to believe, they say, that the railroad improvement carried on since the termination of federal control will not continue.

There will always be railroad problems, they declare, but the major ones have been or are being rapidly solved. Railroad executives say there is a better understanding of the cost of service, and an increasing belief that rates are fair.

Railroad men say that a new era is coming in the sale of railroad securities and that financing by sale of stock to shippers and employes is not far off.

YOU CAN LEAD A HORSE TO WATER, BUT—

"Economy in the administration of the government can reduce enormously the cost of it. In other words, the cost of government is out of all proportion to the service it gives and to the actual needs of administration. As we have had frequently occasion to contend, there is no law on the statute books nor can one be framed that can compel a man to work if he refuses to. There is no law that man can devise that can compel capital to work for the government under unjust conditions. It cannot be made to do so even if a constitutional amendment forbids the issuance of tax-exempt securities, for capital will disappear when brutally exploited for revenue purposes. The opposite may be true if Congress can devise a law which can of itself create capital. Up to the present moment it has no greater power to do that than it has to make men good by legislation."

FARM FIRE FIGHTING

Next in importance to buildings on a farm, is their protection from fire. The old-time farmer was repeatedly victimized by fire, for he did not foresee its occurrence, much less guard against it. Alert and keeping pace with the times—by use of the telephone, radio, and regular reading of newspapers and magazines—the present-day farmer is informed of the simple precautions necessary and

the most efficient apparatus available, for the prevention and combating of fire.

The fire protection equipment on the farm should be selected on the basis of its reliability, capacity and ease of operation. Naturally, it should always be kept in places where most liable to be needed; and farm hands, of both sexes, ought to be instructed in its use. Intelligence and preparedness on the part of the farmer can reduce farm fire loss.

EASTER

Although the Easter date is almost a month off, we are all beginning to think about the occasion, and there will be many who, while they have read much about Easter, have forgotten much about it, so in order that you may refresh your minds on things regarding the occasion we are giving some information that may be of interest to you.

Easter, which marks the celebration of the religious festival commemorating the resurrection of Christ, and which will be appropriately commemorated by the Christian denominations of this city, derived its name from the goddess Eostre, who was the goddess of light or spring.

Special devotional services will be conducted in all of the churches of the Christian faith throughout this community, and decorations in keeping with the occasion will be used to beautify and add to the glory of this event. Throughout the entire Christian world, this is one of the most important religious celebrations, and not only will special decorations be used here, but special programs have been arranged by the choirs of the several churches.

Up until the year 325 the exact time for the celebration of this festival had not been settled. In this year, however, the Council of Nice definitely fixed the day for observance of Easter. The time fixed by this religious gathering was that Easter shall be the first Sunday following the full moon which happens after March 21. If the full moon happens on a Sunday, then Easter Day is the Sunday following.

Services in the Catholic, Episcopal and Lutheran churches for the forty days preceding Easter marked the observance of Lent by these denominations in this section.

Notwithstanding the fact that the kiddies of this town associate the Easter Egg with Easter and consequently look forward to this season when they have their fun striking the brilliantly hued eggs one with another, the Easter Egg has no connection with this particular religious festival. The Easter egg antedates the Christian Era by a considerable number of years. The egg was probably associated with the Easter celebration through its significance of a new life or spring. The brightly colored eggs were probably introduced for the benefit of the children. And they derive a great deal of pleasure out of the custom. The kids here are no different from other towns and they have lots of pleasure with their Easter Eggs at Easter time. And the storekeepers as a result derive a pretty good profit for it is the rule that eggs go soaring in price just about this season. And too the dye manufacturers come in for no small share of the profit from the sale of egg dyes. This business has assumed considerable proportions and each year there are all kinds of novelties in egg dying. Easter Egg hunts are now the order of the day. Many have been held here and throughout the county. While some of the eggs for these occasions have been dyed by the Sunday school teachers and others, some of them have been purchased from stores here which have the dyed eggs on sale for such events.

BROUGHT NEIGHBORS' TOWELS BY MAIL

One of the best illustrations of the "mail order" joke came to our attention recently. A lady living in the small town of Belton, in the center of the textile belt of South Carolina, ordered some nice towels from a mail order house, paying 29 cents for them. They seemed to be a great bargain. The money went from her town and the towels came back. They were all that had been claimed for them. On the band was a stamp, "Made by Blair Mills, Belton, S. C." The lady's next door neighbor ran the mills and she could have bought the towels for \$1.95 a dozen at home. This is merely a clear illustration of the necessity for town builders to look around before sending money away. It is also clear that merchants, having mail order prices beaten to a frazzle, will never get the business of their own neighbors unless they tell them that they have the goods. Advertising to the merchants only warfare against mail order houses.

THE HANDSHAKE

Merle Thorpe in the Nation's Business Magazine writes:

A buyer for a Chicago department store has posted a sign that reads "no handshaking." His contention is that commercial handshaking is an impediment to the serious business of buying.

Soviet Russia has also frowned upon the ancient habit of clasping hands, we are told. The reason in this case is not that it wastes time in business, but that it is unsanitary. Possibly it is in Russia.

Anthropologists say that the habit of grasping hands goes back to the time when men carried spears in their right hands. When a roaming cave-man passed a man that he recognized, he would shift his spear to his left hand and clasp the right hand of the passerby with his own. It was, we are told, an early form of guarantee, a symbol for peace, or a promise that one would not try to kill the other.

It is a custom that should be preserved, for it is still a disarming gesture among men.

Do you run the business or does it run? Or are you giving more attention to the fellow around the corner than to yourself.

Cross word puzzles have given place to pucker-brows and tax returns.

SO THINK WE

We think that while one is forming habits it is strange that we cannot form the habit of going to church as easily as forming the habit of staying away.

We think that most of the ladies realize that they need new hats for Easter, and most of them will see to it that they get it. We think they should have them too.

We think the automobile is becoming about as deadly as the "unloaded" gun, especially at the road crossings.

We think that it was left up to some people that it would be a crime to smile, or at least it seems that they think it is.

We think it will be a long time before the automobiles can successfully combat the locomotives at the road crossings and for that reason we would suggest that the running into them be discontinued.

We think that possibly the reason that many of the men are married now is because they were younger. They have learned better now, but like in many other cases after it was too late.

We think you will hardly find an advertising solicitor who will not tell you that it pays to advertise.

We think that it is very easy to get into possession of an automobile, but it is not so easy to keep it in your possession.

We think that clothes may make the man, but we have never seen that pattern that will make the man pay for them, unless he just was man enough before.

We think if you would help up a little more that we would be able to boost the town just a little better than we do. For instance tell us about what is going on in this city, and subscribe for our paper and you will help us and the town too.

We think the weather prophet who predicted that this would be a severe winter is now telling us what a hot summer we are going to have.

We think that most of the fellows who imagine that they can see the nation trembling on the brink of destruction that it is merely the fact that it is them that is trembling and not the nation at all.

We think this is about the time of the year when most of us wonder how anyone could think

of such a complex form as the income tax forms.

We think that music is a great boon to mankind but it would be much better if some of the musicians could really play.

We think the men of the community should see to it that they notice the boys of the town, and give them a lot of attention. The boys of today will be the men of tomorrow, and we should show an interest in them, and help them to grow into big stalwart fellows, honest and honorable, and a little attention from the men will inspire them to become such.

We think if one lives today as they should live, tomorrow will not be near so hard to face.

IT IS REPORTED

That a car load of soda crackers are to be received by Brownfield merchants. At first thought this would appear that the people of that country are going to have a lot of dry eating, but when you know that there is an abundance of fine water in Terry county, and that there is produced millions of gallons of fine milk and cream every year, and thousands of bushels of good corn, and many, many bushels of fine tomatoes and other vegetables with which to make good soup, there is no reason to feel sorry for Terry county people because there is a car load of crackers going into the capitol of that county.

That as civilization advances children begin to worry at an earlier age. That possibly is caused from the fact that they have a lot more to worry about.

That the entrance to the post-office was swept out Monday morning, but it was not disinfected, and the scars of battle axe have not yet been removed.

That the fruit blossoms on the trees have not yet suffered any ill effects from the cold weather. The pessimist says look out for Easter.

That Plainview is soon to have a colored (negro) church.

That a number of Lubbock school boys were placed in jail for playing hookey at school. We think this is the wrong way to make better citizens out of them.

That O'Donnell recently put over a school bond election by a big majority. These South Plains towns believe in giving the youngsters a chance.

TEXAS

By J. MARVIN NICHOLS

BUILDING AN EMPIRE

1837-1921

NOTE—What could be more interesting than a study of this great State of ours, as it was evolved County by County? This series will present to the reader how the Counties played their part in the erection of Texas—the mighty Empire of the Great Southwest. The story is recounted in the order of their origin with the 25 original municipalities, on down through the 254 counties, including the three remaining unorganized counties of our beloved state.

Austin County, 1837
 Organized 1837; created March 17, 1836.
 One of the original 25 municipalities.
 Bellville, the county seat.

Named for Stephen F. Austin, who has gone down in history as the "Father of Texas." He founded the first large Colony in the State. The history of this Commonwealth cannot be told without his large part of his name.

Bastrop, 1837
 Organized 1837; created March 17, 1836.
 One of the 25 original municipalities.

Bastrop, the county seat. The original name of this municipality was Mina. It was changed to Bastrop in recognition of Baron de Bastrop, a Prussian who figured largely in the founding of Texas. His friendship with Martinez of Mexico did much to protect the land grants of the Moses Austin Colony on the Colorado river.

Brazoria, 1837
 Organized 1837; created March 17, 1836.
 One of the 25 original municipalities.

Angleton, the county seat. In history there is no particular definition for Brazoria, except that it is derived from Brazos, which meant arms or forks. Brazoria municipality was originally called Columbia.

Bexar, 1837
 Organized 1837; created March 17, 1836.
 One of the 25 original municipalities.

San Antonio, the county seat. In 1718, on the present site of San Antonio, there was established a presidio. It was named after the Duke of Bexar, the period of its founding and its erection, and the establishing of a chain of missions, are high points of romance in Texas history. The subsequent history of that region is heroic and tragic. Texas was cradled in this territory.

Colorado, 1837
 Organized 1837; created March 17, 1836.

One of the 25 original municipalities.

Columbus, the county seat. The early explorers and pioneers called the county after the river's name, because, as affected by the red soil, the water is colored.

Goliad, 1837
 Organized 1837; created March 17, 1836.
 One of the 25 original municipalities.

Goliad, the county seat. As early as 1722, a fortress-church was established on the site of La Salle's old fort overlooking the Bay. Before 1829 it was called Bahia. Not long thereafter it was moved to what is now Victoria County. By 1749 the Mission's location was far from the Bay having been moved to the San Antonio river. The Congress of Coahuila and Texas did away with the long Spanish name and called it Goliad.

Gonzales, 1837
 Organized 1837; created March 17, 1836.
 One of the 25 original municipalities.

Gonzales, the county seat. Named after Rafael Gonzales, governor of Coahuila and Texas in 1825. This was in the days of the early planting of Devitt's Colony. Little is known of him, except that he greatly pleased the Texans.

Harris, 1837
 Organized 1837; created March 17, 1836.
 One of the original 25 municipalities.

Houston, the county seat. Named for John R. Harris. Born in East Cayuga, New York, October 1790. Fought in the War of 1812. Moved to Missouri in 1816, where he met Moses Austin. Came to Texas in 1824 and established Harrisburg on a league of land obtained from the Mexican government. Colonizer warrior, town builder, boatman between Harrisburg and New Orleans. Died in New Orleans of yellow fever August 18, 1829, at the age of only 39.

Houston, 1837
 Organized 1837; created March 17, 1836.
 One of the original 25 municipalities.

Crockett, the county seat. Named for General Sam Houston—the central star in the history of the Republic of Texas. In 1822 he came on a mission to the Indian tribes in Texas, and at its conclusion he soon returned to cast his lot with the Texans. He died in 1863. His name will always be a household word in this state.

These quotations are from a letter recently received from a young man who, with his young wife, lives in one of our great American cities.

DAILY LESSONS IN ENGLISH

By W. L. GORDON

WORDS OFTEN MISUSED: Don't say "there were less than ten people OFTEN MISPRONOUNCED: beneath. Th as in "think," and not as in "present." Say "fewer than ten." "Fewer" applies to number, "less" to size. "this," is preferable.

OFTEN MISPELLED: merchandise. S, not z.

SYNONYMS: eager, desirous, ardent, earnest, impatient, impetuous, yearning.

WORD STUDY: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: Reluctant; unwilling; disinclined to yield. "He reluctantly submitted to the demands."

Gong Sounded For Baseball In Lubbock

BOTH MATADOR AND WESTERNER TRAINING STARTED YESTERDAY AFTERNOON WITH LARGE NUMBER OF RECRUITS FOR EACH

Yesterday afternoon was a popular day in the baseball circles of Lubbock—both the high school and the Texas Tech baseball call was made by the coaches and a good response was made with the first appearance. Something like 40 reported to Sled Allen and "Mule" Davis at the Merril Park for the initial workouts; while there was more than 75 recruits out on the Tech diamond.

High School Material Looks Good

A whole lot full of candidates for berths on the Westerner nine were out slinging the apple and chasing down the grounders, running under and misjudging fly balls, stamping their toes, getting into awkward positions in hitting practice, taking in "hard-boiled" advice issued by the Skipper quite frequently—all of which is natural of the first workout. Both Allen and Davis are quite optimistic over the first appearance and are watching with great interest the work of each man. "It is going to be the best man for the position and I don't care to have any partiality for my part," the Skipper said, "we are going to have a ball club, and one that Lubbock will be proud of."

Good Chances for District Flag

"We are going to the district at least" stated the Skipper. "We like we might gather up a nice district here that will grab that district meet" he added. "We have quality any way" commented "Mule" Davis in looking over the crew of recruits, "and there is material there too."

Hitting Practice at Tech

The pitcher's bunch of more than 75, were lead into the batter's box for a hitting practice yesterday afternoon showing some good material for the hitting average of the Bull Fighters. The first week will be the hard one of the coaches, of course, and will handicap them very much in the general trend of training. A great number of the recruits, however, have been warming up their arms and have taken the preliminary workouts.

The Opening Game of Tech March 31

The opening game of the Texas Tech Matadors will be off March 31, with the Daniel Baker Hill Billies. Coach Freeland is now winding up arrangements for a complete schedule for the Matadors and will be released within a few days. Something like 36 games are being cared for by the Bull Fighters giving them a full season.

COMMENTS ON SPORTS

The long reign of William Tilden as national tennis champion seemed to be slipping in New York recently when Rene LaCoete, 22-year-old Frenchman, defeated the American in three straight sets 6-4, 6-6, 6-3, accomplishing the feat for the first time in the past six years. Tilden had beaten the week before by Jean Borotra, another Frenchman, in two straight sets. The American star, however, rallied later and in the deciding match of the international series won from Borotra 6-4, 8-10, 11-12, 6-1, 6-3. For the first time in his indoor game he flashed his real form and his superb physical condition enabled him to close this last match in excellent shape while his opponent, Borotra, almost collapsed.

Harry Greb, an 8 to 5 favorite lost his world's middle-weight championship to Tiger Flowers, the colored fighter from Atlanta, Ga. The new champion, talking about the fight, which was a slapping, hauling, pulling, tugging affair, declares that he prayed all during the battle, taking his favorite text from the 14th Psalm: "Blessed be the Lord; my strength, which teaches my fingers to fight and my hand to war." The consensus of opinion seems to be that the new champion is as good as any body in his class, but that there is no sign on the horizon that a real hitter is near. Those who remember Stanley Ketchell catch the idea: The negro fighter was credited with winning eleven of the fifteen rounds.

The British are busily preparing for the selection of a Walked Cup team, hoping that they will be able to secure a combination that will be strong enough to beat Mackenzie, Gunn, Von Elm, Jones, Sweetser, Guilford, Oumet, and Garner. Well, if they do all we can say is that they are entitled to the bouquets.

Francis Hussey, national sprint champion, recently negotiated 100 yards, indoors, in 9.45 seconds which equals the world's record. At the recent Illinois meet Alderman, of Michigan, ran 300 yards in 31 seconds, a stellar performance, equalling the world's record. At the same gathering Kuck, Kansas athlete, buried the 16-pound shot 50 feet, 6 3/4 inches, another record tied. If you think this reads easy try it in your own back yard. Lee Barnes, who tied for first place in the Olympic pole vault in 1924, smashing the American outdoor record by leaping 13 feet 1 1/2 inches.

On the same day Charley Huff, visiting Norwegian pole vault champion, established a new world's indoor record, clearing the bar at 13 feet 5 1/8 inches. It appears that the youth of today are able to keep the pace set by the athletes of the past, and to better almost any existing record.

HERE AND THERE IN LOCAL SPORTS

"Mule" Davis and Skipper Allen met with the high school boys who are candidates for the high school team this season at the Merril Park for their initial workout—the lot was full of prospective material—there were more out for the great American game than heretofore. It reminded the Skipper of real training camp days and was happy indeed to see the turn out of material from the high school.

Pitchers, infielders, outfielders, utilities, in fact every thing imaginable for a baseball aggregation reported at the Merril Park yesterday afternoon. Sure looks like a fair representation for a district title.

"Mule" we are off for the district at least," commented the old baseball head (Sled Allen) as he gazed upon the lot full of baseball candidates.

"I have got the fever," Skipper said yesterday at the Merril Park, "and I will be in there from now until after our show in the Denver Post Tournament," he said.

Yesterday was a busy day in the baseball world for Lubbock. Both the high school and the Tech had their first official calling. Something like 75 reported for the Matador club and something like 40 for the high school. When the Hubbers get started Lubbock will surely be gone the baseball route.

Hitting practice was the principal workout for the Matadors—there were some pretty heavy hitting batsmen who pushed the apple into the garden too—they will have a hitting club at last.

The baseball field for the Tech, rearrangement of the grounds—a backstop has been constructed and it is the hopes of the athletic department that everything will be in readiness by the time the opening game comes.

Freeland will hold try-out for the Matadors this afternoon for the Fat Stock Show track and field meet which is an annual affair in the Panther City. Freeland has some good material for the cinder path club and is rather optimistic over the chances at Fort Worth.

Something like 25 men are doing daily practice on the track field at the Tech. Seven of this crew will be picked this afternoon to represent the school at Fort Worth.

It looks like the Skipper's Hubbers are in great demand for tournament this season. Sled received a letter from Frank Newhouse of the Rocky Mountain News and Denver Times requesting that they attend their tournament—there are some things about Lubbock and that is the Denver people know that we are existing and have a ball club.

That redheaded, lanky, slender Dillard—the mound ace of the Western looks better to Skipper than he did last season—and some of those other high schools around here can vouch for it that he was plenty right last season.

Frank Wright, that south-paw is coming out of it and showing stuff—has better form and more confidence in himself than he had last season.

Some have mentioned to us this question—"Why isn't it that Lubbock does not have a HUBBER CLUB?" Something similar to the Matador Club? It is a dead cinder that the Hubbers last season advertised Lubbock more than anything else staged for advertisement of this city.

Let's get together and help the Hubbers out this year—let's get us a real live organization behind them so that they can play real ball and get Lubbock sure enough on the map.

Even Shep has gotten worked up to the point that it is high on to time for that arm to get limber—he was out with the Matadors—strutting like a peacock in all of his supremacy.

RUETHER SIGNS UP TAMPA, Fla., March 8.—Dutch Ruether, veteran southpaw pitcher surprised President Griffith of the Washington Senators Monday by sending in his signed contract. Ruether, the last regular to sign has been holding out.

CONSCIENCE AND SLUSH TURNS BACK PRISONER NEW YORK, March 8.—M. J. Conscience, made me turn back," Anna Dumars, 20, a fugitive from the Bedford state reformatory for women, told the authorities when she returned after an hour's liberty. "And besides, the roads were too slushy for walking," she added.

ONE MAN, YOUNG HARVARD GRADUATE HOLDS PASSIAC'S THOUSANDS FOR SEVEN WEEKS IN TEXTILE MILL STRIKE

PASSIAC, N. J., March 8.—As the seventh week of the textile workers strike opens, the situation seems to simmer down to a battle between a handful of mill owners, not too closely bound together, and Albert Weisbord, the strike leader.

Young Weisbord is a born leader not yet 26, the ink of his Harvard L. L. D., sheepskin not quite dry, he understands perfectly the psychology of the crowd, and he can hold a meeting, pickers in the hollow of his hand. He can make them roar with laughter or he can make them march boldly to defy a posse of police with swinging clubs.

They are the sort of people that are easily handled. As a merchant in Passiac—a neutral who is only worried for his profits—said: "Sure they're sheep. They're not bright or they wouldn't work in the mills. But they deserve a wage worthy of an American worker even if they aren't Americans."

Which seems true enough. The majority of the workers are not Americans at all; they have not even taken out their first papers. For the most part they are Italians and Hungarians with considerable scattering of Poles, Letts, Austrians and Estonians. They are not educated, as the merchant said, or they would not work in one of the lowest paid industries. The pay is low. Strike headquarters has proclaimed that the wages run between \$12 and \$22 a week.

The standard of living is commensurate with the wage scale. Large families live in swank quarters, but those quarters are more tolerable than corresponding quarters in New York, even though they are not much cheaper. Many of the families do work in the mills when, by all the laws of health and the present standard of society, they should be at home caring for their broods.

Other than that, they live like the masses elsewhere. They haven't many interests outside of their work and their principal amusement is the movies.

IRISH AVIATORS PLAN AMERICA NON-STOP FLIGHT

SAN DIEGO, Calif., March 8.—A non-stop flight across the Atlantic will be attempted by the Irish Free-State air-force in July, officials at Rockwell Field have been advised from Washington.

New Way to End Dangerous Cough

The most stubborn cough is relieved with the first dose, and is very often broken up entirely in 24 hours by a new method based on the famous Dr. King's New Discovery for Coughs. Here is the method: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but also loosens and removes the phlegm and congestion which are the direct cause of the coughing. So with the cause removed, the severest cough usually disappears quickly. Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

FORD WINS SIX CENTS IN CONDEMNATION SUIT

DEARBORN, Mich., March 8.—Mr. and Mrs. Henry Ford are six cents richer as the result of a condemned land damage award granted them by the Dearborn township commission. A strip of land they once gave the township provisionally was condemned to make way for a street and the Fords claim to the title was appraised at six cents.

CLEAN UP DRIVE IS PLANNED FOR CROSBY CO.

CROSBYTON, March 8.—Plans for a county-wide clean-up campaign to be conducted the latter part of this month or the first part of April in conjunction with the visit to Crosbyton of a state sanitary engineer, are rapidly maturing, following their initiation a week ago at a meeting of the county health board. Among the other means taken to encourage sanitation of premises, pastures throughout the county will be asked to preach sermons on the subject.

PLAINS PAVING AND SCHOOL BONDS APPROVED

AUSTIN, Texas, March 8.—The attorney general's department has approved a \$100,000 street paving bond issue of the city of Slaton, payable serially with 5 1-2 per cent interest. Approval was also given \$85,000 of Floydada independent school district bonds, serials 5 per cent.

BROWNFIELD HOTEL NEARS COMPLETION

BROWNFIELD, March 8.—The two-story fireproof Hotel Brownfield, being constructed by the Parhandle Construction company, and leased by J. C. Bond, is being rushed to completion here. The hotel which is to cost \$50,000, will accommodate, when completed, 35 guests.

FLOYD COUNTY CLUB IN STATE GARDEN CONTEST

FLOYDADA, Texas, March 8.—Seven prizes, ranging from \$15 to \$35 each, offered in the state-wide garden contest, will be sought after by eight Floyd county home demonstration clubs, each of whom has a specially elected demonstrator.

Eugene Adair is Buried Monday; Widow Prostrate

Funeral services for Eugene Adair Sr., general manager of the Plains Motor company, who died here at 5:30 o'clock Sunday morning, were conducted at the family home, 1713 14th street yesterday afternoon at 3:30 o'clock.

Rev. W. A. Bowen, pastor of the First Baptist Church had charge of the services. The large number of friends who called to pay their last respects to the deceased overcrowded the home, where a profusion of floral offerings paid mute testimony of affection of grieved friends and relatives.

Mrs. Adair, who has been under care of physicians since the discovery of her husband's dead body, was unable to be at attendance at the funeral yesterday, and much uneasiness about her condition was expressed by relatives at a late hour last night.

Mrs. Roy Thompson, of Dallas, Misses Lula and Eunice Higgins, of Marlin, sisters of Mrs. Higgins, and her uncle, T. L. Laeques, of Dalhart, were here to attend the funeral services.

GIRL STUDENT WRITES WORDS TO SONG SHE SINGS

DENTON, Texas, March 8.—Miss Jean Pendergrass, junior at the College of Industrial Arts, will appear in voice recital in the C. I. A. auditorium March 11. On her program will be a number containing words composed by Miss Pendergrass set to music by Robert Dana Adams, professor of piano at C. I. A. The song is entitled "From a Medieval Knight to His Lady."

QUICK ARRESTS FOLLOW LATEST CHICAGO HOLDUP

CHICAGO, March 8.—The police net is tightening about the eight bandits who staged the \$50,000 payroll robbery of the International Harvester company, here last week. Victor Musso, was arrested Monday, the arrest of two other suspects is expected momentarily, and two more have arranged to surrender.

BURNS TO DEATH IN SAN ANGELO HOTEL FIRE

SAN ANGELO, Texas, March 8.—J. C. Templeton, Egypt, Texas, was fatally burned in a fire which destroyed the Bristol hotel here Sunday night.

TULSA MAN WANTS 'LUBBOCK OIL' LEASES

C. T. Byrd of Tulsa, Oyla., and who is Oklahoma attorney for the West Continent Oil company of New York city, arrived in Lubbock yesterday to make a survey of the parhandle oil fields and has announced that if a block of acreage can be procured in the territory immediately west of Lubbock or anywhere between Lubbock and Amarillo he will engage interests in Oklahoma to begin immediate development operations.

Mr. Byrd visited the location of the Watson lease yesterday and expressed favorable impressions of that territory and will before leaving late today for Amarillo make a visit to the territory south and east of Lubbock about which so much has been said recently.

Mr. Byrd is armed with a wealth of geological reports on this section, and has declared emphatic confidence in the oil and gas possibilities of the territory surrounding Lubbock.

The securing of leases is expected to be a bit difficult here at this time, but there will be no activity on that part of his company here before a large block of leases has been secured, Mr. Byrd said.

Mr. Byrd is visiting at the home

J. M. McGinty Dies, Alvin; Was Brother of Mrs. G. C. Harris

The following item was clipped from the Alvin Sun, and will be of interest to the many friends of Mrs. G. C. Harris of this city:

"Funeral services for J. M. McGinty, 77, of Alvin, Texas, who died at a local hospital at 6:20 p. m. Saturday, will be held at 3 p. m. Sunday at Alvin with burial there under the direction of the Fogle-West Undertaking company.

"He had been in the orange busi-

ness in Alvin for the last 35 years. "Survivors are his wife, Mrs. Fannie McGinty; five sons, R. F. and J. M. McGinty Jr., of Alvin, B. and Charles F. McGinty of Dallas; three sisters, Mrs. G. C. Harris of Lubbock, Mrs. J. W. Crouch of Smithville and Mrs. J. M. Murphy of Alvin."

"At 23 years of age, plodding boys are at a level with those who were brilliant scholars. At 30 they pass them," says Dr. Cyril Norwood, head master of Harrow.

FOR RENT—Seven room house, hot water, large closets, close in. 1618 17th street. Call at 1514 Ave. K. 127-2p

STOCKS

New York Finance Closed Uneven

Written for the United News NEW YORK, March 8.—Stocks were still under pressure for the better part of the day Monday. This surprised few traders. It has been generally anticipated that the tone would be heavy until last week's situation had worked it way out. Bankers still have the stock they were forced to take on last Thursday and this will not a check against any buying enthusiasm for the immediate future. This block of stocks is not so large that it could not be swallowed in a day or so of real buying but at the present time there is nothing in sight to generate this buying.

There was nothing of more than passing interest in the week end developments to aid in shaping the trend of prices. Announcement of the new \$10,000,000 financing program on the part of the government was received with acclaim and government bonds, including liberty rise in response. The street is especially gratified at the 20 year non-callable feature of the new issue. The supply of high grade investment bonds is steadily shrinking and establishing a block of this size which will remain outstanding for 20 years will be a welcome reservoir of investment.

The factor found no repercussions in the stock market, however. Bears are still confident and show this confidence in their lack of haste in covering. There are still many major short lines outstanding, even after the covering operations toward the close of last week. Were it not for the general feeling that stocks are in supply just above the present levels, this short position might not be so comfortable. In more than one individual case Monday shorts were blasted from their complacency and forced to take in short lines with profits materially reduced.

Specialties such as railway steel springs showed strong rallying powers while General Electric turned against selling and rallied very well. The general trend however was toward lower levels and it was much easier to buy stocks than to sell them.

Meantime the stock market is slowly recovering its equilibrium. Bears have been cautioned against too reckless selling while longs do not need further cautions against reckless buying. The March break is traditional and in some very optimistic quarters the recent upturn, unless is now being referred to as "March break" in tones which suggest that an expected minor recession has occurred and "that's that." This was not the "March break" it was a definite and actual check to over-speculation and was intended to be such. The market had topped of its own weight. Bankers supported the market to check a panic, not because they believed that stocks were all worth the price they had to pay to stop the rout. If enough investors think these stocks were worth that price and conduct their buying in orderly fashion there is very, very little doubt but that bankers will let them have the stocks.

March is traditionally a bad month for stocks and April is a good month. Traders are beginning to anticipate the spring advance which usually comes in April and pool managers and stock salesmen generally, whose business is to generate optimism about buying lines, are predicting a sharp recovery in April. This may come but it will require something better than the present basis to justify the move.

For the last several points of the previous advance the market managers were carrying the market alone. The public had stopped buying stocks. With quite a large proportion of the public taking the short side against the market, it begins to look like the amateur traders who formerly furnished the lamb supply for Wall street is now becoming at least semi-professional.

CITATION BY PUBLICATION THE STATE OF TEXAS, To the Sheriff or any Constable of Lubbock County, Greeting: You are commanded to summon R. S. Perry, and the heirs and legal representatives of R. S. Perry, by making publication of this Citation once in each week or four consecutive weeks previous to the return day hereof, in some newspaper published in your county; to appear at the next regular term of the District Court of Lubbock County, to be held at Lubbock in said Lubbock County, on the 6th day of April, A. D. 1926, then and there to answer a petition filed in said Court on the 26th day of February, A. D. 1926, in a suit numbered on the docket of said Court No. 2447, wherein O. G. Kershner is plaintiff, and R. S. Perry, and the heirs and legal representatives of R. S. Perry, are defendants, and said petition alleging that plaintiff sues defendants in trespass to try title for Lot 4, in Block 1, Dixie Land Addition to the Town of Lubbock, Lubbock County, Texas, and in the alternative sues for foreclosure of vendor's lien on Lot 4, Block 1, Dixie Land Addition to the Town of Lubbock, Lubbock County, Texas, securing the payment of 3 notes each for \$225.00, dated May 5, 1924, due 12, 18 and 24 months after date thereof, signed by R. S. Perry and payable to order of La Verne Kershner and transferred to O. G. Kershner. Wherefore on final hearing plaintiff prays for title and possession of the lot in alternative for foreclosure of the lien on said lot. Herein said Court, but have you before said Court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same. Given under my official signature and seal at office in Lubbock, this 27th day of February, A. D. 1926. LOUIE F. MOORE (Seal) District Clerk, Lubbock County Texas. By Olive, Fluke, deputy 122-4 Tuesday

WHEAT

Closed Lower

Wheat futures were under pressure for the better part of the day Monday. This surprised few traders. It has been generally anticipated that the tone would be heavy until last week's situation had worked it way out. Bankers still have the stock they were forced to take on last Thursday and this will not a check against any buying enthusiasm for the immediate future. This block of stocks is not so large that it could not be swallowed in a day or so of real buying but at the present time there is nothing in sight to generate this buying.

Delegation Tahoka Businessmen Invade Lubbock; Refuse to Make Statements of Purpose of Visit

Yesterday Lubbock was invaded by a young army of Tahoka business men, who after spending most of the day here and making various inquiries into various lines of business left town without making the purpose of their mission known.

It is believed that they were here to meet a delegation of Oklahoma oil men who passed through Lubbock yesterday but when asked about their connection with the Oklahoma men dodged the question by giving a great deal of information about operations that are already under way there and which will be under way within another three weeks.

Tahoka, they claim, has taken the lead over any Plains town of its size in the matter of starting work to develop the oil and gas possibilities of the surrounding territory, pointing to the well that is now down 200 feet on the T Bar ranch location near that city and to a contract which they have entered into Saturday with the Hart Oil corporation to drill a second well on a 10,000 acre lease southeast of Tahoka. The location on this lease, they reported is 10 miles southeast of Tahoka and in territory that has been declared mighty good by able geologists.

The delegation that visited Lubbock yesterday was composed of A. M. Sullivan, J. H. Edwards, M. H. Edwards, Horace Hale, Paul Miller and Chas. Smith, all of whom had a great deal to say about developments that are being made in Tahoka with predictions that that city

is to take a place of even greater prominence among plains towns than it has held in the past, despite the fact that Tahoka has been prominent among highly desirable business and home locations on the plains for a number of years.

MEETINGS WILL BE ATTENDED BY MISS DUBOSE

Miss Lela DuBose, county home demonstration agent, is going to have little time for any business of her office this week other than of directing the work of the demonstration clubs in this county.

Yesterday afternoon Miss DuBose went to Posey where she met with the members of a newly organized demonstration club.

Today she will go to Carlsle, New Hope and Union; Wednesday she will go to Shallowater, Hardy and County Line for club meetings; Thursday to Barton and Woodrow and Friday at Monroe, Caldwell and Southwest Ward school.

Miss Myrtle Murray, district home demonstration agent, Miss Margaret Weeks, dean of the school of home economics of the Tech College and Miss McCrery, clothing specialist of the college, will assist Miss DuBose with a part of her work this week.

Mr. and Mrs. C. L. Pardue, of the Electric Bakery, have had work started on a modern seven-room home at the corner of 10th Street and Avenue W.

CITY COMMISSION OFFERS FOR RE-ELECTION

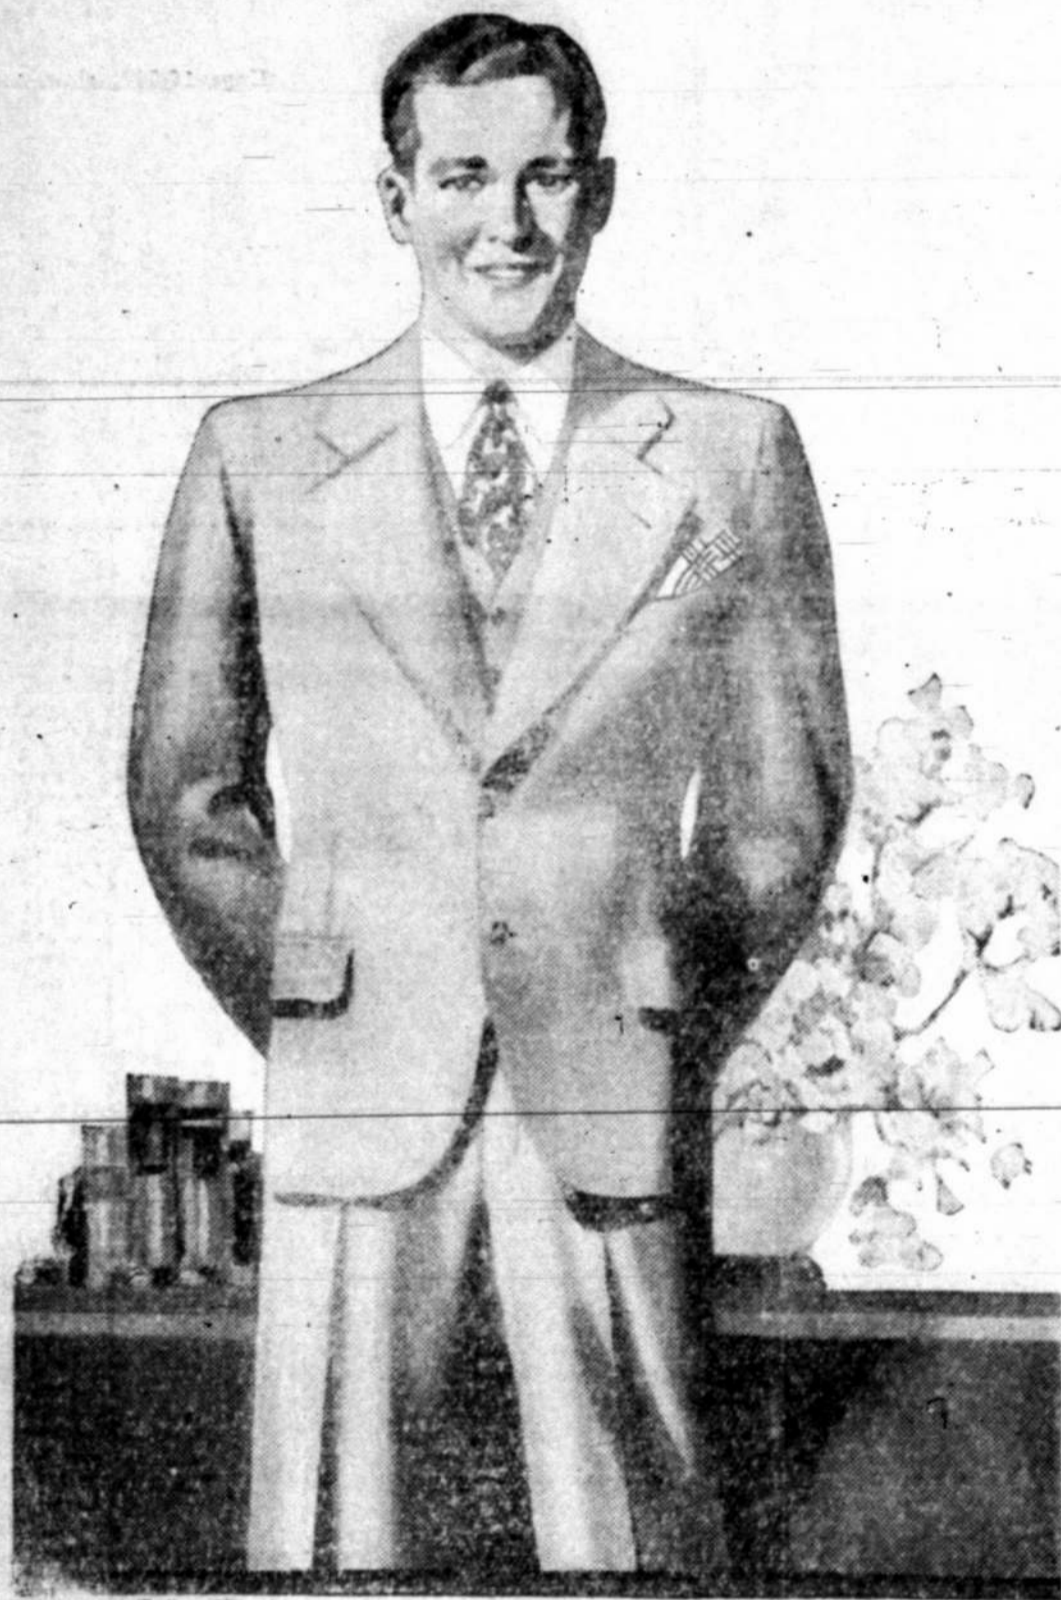

All members of the Lubbock City Commission, including Mayor F. R. Friend have consented to requests of representatives of a citizens committee seeking their continuing in the offices they now hold, and have made it known that they are candidates for re-election.

Restless over the nearness of the April election, Lubbock citizens eager to see the program already launched by the city officials carried on without interruption, were convinced that the best possible approach to their problems was to be made by re-electing the entire board, and it was after they had presented these facts to the four commissioners and Mayor F. R. Friend that they consented to again offer themselves as candidates.

The election will be held on the second Tuesday in April. In addition to Mayor Friend, the commission consists of Walter Posey, public utilities; George C. Wolfarth, fire and police; J. C. Jones, finance, and R. E. Blair, streets and alleys.

WILL INVITE LABOR MEET TO WICHITA FALLS FOR 1927
WICHITA FALLS, Texas, March 8.—The State Federation of Labor, which holds its annual meeting in Houston the latter part of April, will be invited to meet in Wichita Falls in 1927. Scores of delegates from the local labor unions will attend the Houston meeting and various organizations have joined in extending the body the invitation to meet here in 1927.

AN INVESTMENT IN GOOD APPEARANCE

The Charleston

IF Spring makes any difference to your pulse. If a Jordan Playboy "somewhere West of Laramie" lures you. If you are young enough to want smartness in your clothes and old enough to want the smartness distinctive and dignified—then the Charleston should be your choice for Spring. It was tailored for young men who think of styles as you do.

A KUPPENHEIMER SUIT \$49.50

Extra Pants may be had if you wish, also a special group \$35 and \$40

A Super-Selling Sensation—Sensational in Price only—Our 9th Anniversary Sale, so that you can prepare. You have only 8 days more to wait. We began Wednesday, March 17th at 9:30 o'clock.

BARRIER
BROS.

WANT 50 Extra Sale People

Ladies and Gentlemen of experience preferred. We will want extra Shoe salesmen in Men's Shoe Department—Clothing Salesman. Ladies to act as extra Cashiers and bundle wrappers. Salesladies in Dry Goods and Ready-to-Wear Department. Services to begin Monday, March 15th. We need help to arrange and mark down our \$155,000 stock. You will be better prepared to serve the crowds that come on opening day by having a part in the assembling and marking the merchandise in this Great store. Apply at once in person to Mr. Paul Barrier. Please do not phone

WE GIVE AND REDEEM GOLD BOND STAMPS

Tax cut effective NOW!

- Overland Sedan \$595
- Overland Six Sedan \$895
- Willys-Knight "70" Six Sedan \$1495
- Willys-Knight Great Six Sedan \$2295

Prices f. o. b. factory. Right reserved to change prices and specifications without notice.

The new Willys Finance Plan means less money down, smaller monthly payments, and the lowest credit-cost in the industry. Come, get the figures.

Instead of having the public wait until March 28, Willys-Overland makes the tax reduction on automobiles effective immediately... this applies to any Overland or Willys-Knight you buy now.

OVERLAND WILLYS-KNIGHT

KNIGHT-OVERLAND COMPANY

Now—in the great Willys-Overland line—a car for every purse.
