AMERICANS RACE INTO BELGIUM

Reds Push Germans Across Danube

Soviets On Bulgarian Frontier

By W. W. KIRCHER
LONDON—(AP)—The Red Army hurled the Germans across the Danube River on a 65-mile frontier with a winding 150-mile front extending inland from the black sea coast to the big river port of Giurgiu, Moscow announced Saturday night.

In a Balkan disaster surpassing that suffered by the Axis at Stalingrad, the Germans and former pro-Axis Romanians lost 418,600 men killed or captured between Aug. 20 and Aug. 31, a special Moscow communique announced. Of those captured in that period, 97,100 were Germans.

The Romanian campaign casualties brought to 1,200,486 the number of Axis troops killed or captured in the over-all summer campaign begun in the east on June 23, on the basis of Moscow announcements.

North Bank Clear
Gen. Rodion Y. Malinovsky's Second Ukrainian Army captured 70 towns and villages in clearing the north bank of the Danube between Oltinita and Fetesti, the communique said.

Further east, beyond the curving Danube, Gen. Fyodor I. Tolbukhin's Third Ukrainian Army captured 60

As this map pictures, Russians plunge 35 miles south of Bucharest to the Danube River border of Bulgaria in pursuit of fleeing Nazis. Other Red Army troops start moving from the Romanian capital west to Hungary and Yugoslavia for a junction with Marshal Tito's partisans. (NEA Telemap.)

Finland Plans Russian Peace As Nazis Leave

LONDON—(P)—Premier Hanttila Hackzell of Finland told the nation Saturday night peace must be made with Russia and that the Germans had decided to withdraw from Finland.

He said he did not know what Russia's peace terms would be, but that Moscow "has not asked unconditional surrender."

Speaking on the radio after a meeting of the Finnish parliament, Hackzell declared:

"The military and political situation made it necessary for us to try to find a solution. In April the situation was not so bad, but as a result of the Soviet offensive in June our forces had to be withdrawn."

38 Nip Planes Destroyed In Raid On Davao

GENERAL HEADQUARTERS, SOUTHWEST PACIFIC—(P)—The pre-invasion air war on the Philippines flamed into heavy action for the first time as a strong force of Liberators wiped out 38 Japanese planes with a 110-ton assault on Davao Friday, while other bombers blasted Palau, Philippines defense base, with 137 tons.

Headquarters reported the attacks Saturday.

The attackers destroyed 26 enemy fighters and 11 bombers on the ground at Davao, capital city of Mindanao Island.

"In the first heavy bombing strike on the Philippines since 1942, our heavy units hit enemy airbases in the Davao area with over 100 tons of fragmentation bombs," the communique said.

"Damage at airfields was extensive and large fires were left burning."

Allies Agree On All Terms For Armistice

By JOHN M. HIGHTOWER
WASHINGTON—(AP)—Allied leaders now consider it probable that Germany will fall apart piecemeal, army by army, rather than stop fighting in a single surrender, it was learned Saturday.

Armistice terms have been fully agreed on by Russia, the United States and Britain and are ready for use in either case. Starting with unconditional surrender, they provide in effect that the defeated Reich must become a prisoner nation for an indefinite period of strict military occupation.

The fate of the country after that period—there has been consideration of placing it on trial for several years—its relation to the rest of Europe and its place in an organized world may provide one of the principal topics for President Roosevelt and Prime Minister Churchill in the imminent conference.

State of Political Chaos
The problem is complicated by the fact that if Germany is defeated piecemeal it will end up in a state of political chaos out of which the Allies will have to build a new structure of government virtually from the ground up.

Final decisions are expected, however, on the place of British forces in the closing stages of war against Japan.

Under the circumstances it seems likely that the British will have the assignment of reconquering the Singapore-Dutch Indies area. There is a sphere of primary British interest just as the Philippines-Formosa section is one of American concern.

Americans Drive Toward Lyons As Germans Retreat

ROME—(P)—Hard-driving American Seventh Army troops drove on Lyon Saturday after capturing the Rhone Valley town of Vienne, 14 miles to the South.

Earlier Lt. Gen. Alexander M. Patch's Americans had thrust quickly through the village of Beauregard, 30 miles South of Lyon.

Today's war map pictures the Yanks nearing the German border after driving through Verdun. British forces move up from Amiens to smash the rocket coast. American soldiers crossed the Belgium border with a thrust at Sedan. (NEA Telemap.)

Large Crowd Is Expected For World Champion Roping Here Labor Day

By JOHN FLEMISTER
The air will be filled with traditional western shouts of "yippee" and the thud of horses' feet Monday at the Midland rodeo grounds when the world championship calf roping starts at 3 p.m.

A Chamber of Commerce poll showed most business concerns and offices would be closed all day Monday, giving employees an opportunity to see the thrilling contests.

As ticket sales for the event opened Saturday at the Scharbauer Hotel there was a rush of business, Percy Bridgewater, ticket chairman, reported. The tickets will be on sale at the Scharbauer Monday morning for the benefit of those who do not want to wait in line at the ticket booths at the rodeo grounds.

Cadets To See Show
Rodeo officials have roped off 450 seats in the grandstand for cadets from Midland Army Air Field following a report from Major Russell Brown on the sale of tickets there.

Frank Reeves of the Fort Worth Star-Telegram well known to ranchers, farmers and rodeo fans of Texas, will be present to cover and photograph the event for his newspaper.

Roy Parks and Leonard Proctor are supplying the calves for the roping events.

Clyde Burks of Comanche, Okla., contestant in the main roping event, and Toots Mansfield helped to select the calves.

Race Horses Arrive Here
Troy Port of Lovington, N. M., will complete against Burk in the 12-calf main event, arrived in Midland Saturday. James Kenney and Sonny Edwards, contestants in the 8-calf contest, notified members of the

Weather
Partly Cloudy.

Armored Forces Plunge Almost To German Frontier

By AUSTIN BEALMEAR
SHAFF—(AP)—Two American columns rolled swiftly into Belgium Saturday, capturing the seven-way road hub of Tournai within 46 miles of the capital of Brussels, and other U. S. armored forces to the southeast rolled almost to the German frontier in a weekend of sensational gains virtually ending the Battle of France.

Tournai, five miles inside the little country, was taken quickly as flimsy enemy resistance was brushed aside and the Yanks sped on toward the famous Flanders battlefields.

As the Germans fled Brussels, the war thundered nearer to the Reich and already the din of battle may be echoing in the Saar, for the Germans said strong American forces had knifed through Nazi-annexed Lorraine to within 11 miles of the border.

Belgians Cheer Yanks
Laughing, cheering Belgians, emerging from four years of Nazi captivity, met the forces of Lt. Gen. Courtney H. Hodges' First Army as they streamed along the roads.

Most of the Germans had pulled out hastily Friday night, and the resistance the enemy put up was scattered quickly.

(Swedish railway officials said Berlin had advised the Belgian Frontier was closed. Another report from Sweden said all German civilians were being evacuated from districts West of the Rhine, and a German Transocean Agency reporter said numerous villages "within range of the Maginot Line" were being emptied of civilians.

(Radio Atlantic, a clandestine German-language station whose location has never been disclosed, said American tanks had crossed the Reich border at two places and the German civilian population was in mass flight along jammed highways as in the days when France fell. It also said Americans had crossed into Belgium and Luxembourg.)

The Germans were reported clearing out of Belgium, Holland and Luxembourg after flooding the Northern lowlands in a forlorn hope of stemming the Allied tide—and the Belgian capital of Brussels was no more than 65 miles in front of the onrushing British Second Army.

Abandoning Robots
Pilots raking the enemy line of retreat reported that the 15th German Army was abandoning the robot bomb row along the Channel Coast.

Dispatches from Lt. Gen. George S. Patton's Third Army driving on the Siegfried Line to the East of Verdun said American patrols were up to the Moselle River and a bag of 1,200 prisoners indicated resistance was rising.

The Germans declared that these forces had lunged to the area of Thionville, on the Moselle just 11 miles short of the Reich border and well into Lorraine, which the enemy considers part of greater Germany since its annexation after the fall of France.

The same German broadcast said one armored column of this force had reached Lungwy, two miles south of the border of the tiny duchy of Luxembourg.

It was considered possible that American patrols already had speared into Luxembourg, and there was no news from Sedan, where it was believed advanced elements had crossed into Belgium on the Road to Prussia.

Refugees Leaving Alsace-Lorraine
BASEL, SWITZERLAND—(P)—A long stream of refugees is trekking across the Rhine from Alsace-Lorraine in front of the advancing armies of Gen. Dwight D. Eisenhower.

Photo above shows town of Reims, France, with its famous cathedral, recently in the path of onrushing Allied armies. In World War I, town was under almost continuous bombardment by Germans for four years. The cathedral, one of the world's most precious masterpieces of Gothic architecture, was smashed to a skeleton shell by artillery fire and aerial bombs. Restoration, financed by the French government and John D. Rockefeller Jr., started immediately after the war, was not completed until 1937, when church was once more opened for worship.

War Bulletins

NEW YORK—(AP)—A British radio French-language broadcast reported by the OWI said Marshal Tito's Partisan troops had entered Belgrade.

PARIS—(AP)—Some German flying bombs landed in the Seine Basin area, causing some damage and casualties.

CAIRO—(AP)—Leftist forces in Greece, united in the liberation front, finally joined the Greek government-in-exile after many months of differences.

LONDON—(AP)—Russian troops have completely cleared the enemy from a 65-mile stretch on the north bank of the Danube Southeast of Bucharest and opposite Bulgaria.

Senator Norris Dies At Home Late Saturday

McCOOK, NEBR.—(P)—Former Senator George W. Norris, 83, one of the nation's foremost liberals and a veteran of 40 years in Congress, died at his home Saturday afternoon.

Norris, "father" of the Tennessee Valley Authority and author of the "Lame Duck" amendment, had not regained full consciousness since suffering a cerebral hemorrhage at his home Aug. 29. He was partially paralyzed by the hemorrhage.

Youth Prays And Then Summons Aid For Injured Dad

HARLAN, IOWA—(P)—Eight-year-old Jimmy Kilcoin knelt beside his injured father and prayed that his life be spared; then rushed to a nearby farm to summon aid to the scene of an accident.

The father, Philip Kilcoin, 38, died Friday night, a few hours after the accident, but not until he had told his wife and four other children, ranging in age from 4 to 10, about Jimmy's prayer.

No Time For Dancing

Newspaper accounts of the celebrations which followed the news that Paris was liberated set us to wondering what American reaction will be when the fighting ceases in Europe and later in the Far East. Anyone who remembers that it was a day of jubilation. But we venture to predict that the Armistice Day will find us in a different mood.

Armistice Day in 1918, for all the undertone of sorrow and all the lives lost, was somewhat like a football victory at the annual homecoming game. There were bands and noisemakers and confetti and dancing in the streets. But we are likely to view the next Armistice Day as one that marks the passing of a crisis in a serious illness and the beginning of a long convalescence.

On Nov. 11, 1918, the fight was won and peace had come to stay. Only the very cynical or the very far-seeing doubted that. Kings had lost their thrones; we embraced a world made safe for democracy. The war to end war was itself ended.

Today we can already see the tremendous job that lies beyond peace. We can see it in Italy, where fighting continues, long-submerged parties and old rivalries have been reborn as the country struggles painfully toward stable government. We shall shortly see France tackle her hard problem of clearing out the decayed remnants of the Third Republic and founding a new, united Fourth.

The Balkans will have to bind up the reopened wounds of ageless, endless quarrels. Then China must resolve her unhappy internal situation. And these are only political problems. Such problems as food, health and currency, equally or more important, must be worked on at the same time.

Our armies in France have begun to capture the young, first-line, Nazi-nurtured cream of Hitler's forces. Interviews with these arrogant prisoners, ignorant of all culture save Hitler's, emphasize the staggering job of de- and re-educating that must be done in Germany. There is an equally difficult task of the same sort ahead of us in Japan.

It is well that we know how sick the world has been, and how contagious that sickness can be. Perhaps knowing will enable us to help nurse the world to real health this time—even though the magnitude of the task leaves no time or inclination for dancing in the streets next Armistice Day.

Strikes Aren't 'Propaganda'

Frank P. Fenton, A. F. of L. director of organization and one of six labor leaders touring the French front, is quoted as saying that the soldiers over there are starting to understand that "this strike talk is purely propaganda."

Fenton displayed a short-sighted attitude. We must know that Americans, including the millions in the armed forces and in organized labor, realize that labor's wartime accomplishments immeasurably outweigh its faults. But he must also know that these same Americans are aware that there have been many strikes—strikes that cost needed tools of war and perhaps lives, many of them for trivial reasons.

These strikes are facts, not propaganda. And to call them propaganda or try to shift the blame onto management and the American press does not fool anybody.

When labor leaders feel labor so strong and mighty that they will not tolerate a word of criticism, they are courting the same come-uppance which once caught up with business leaders who entertained the same attitude.

—BUY WAR BONDS AND SAVINGS STAMPS—

Normalcy

War has quietly taken away that comfortable feeling of the permanence and solidity of ordinary customs and events. Probably few people noted the feeling when it was present or consciously missed it when it went.

We certainly hadn't until we read that New York fashion designers are already planning to go back to Paris, and that preparations are underway for the world premiere of a Hollywood picture in France this winter. Suddenly it all comes back to us.

—BUY WAR BONDS AND SAVINGS STAMPS—

Waki

The Japs have a new war slogan, selected in a national competition. And from our very rudimentary knowledge of Japanese, we should say it's a good one—at least from the American standpoint.

The slogan, or college yell is, "Iki" Waki, Konki, Sookekki."

Ickv as the Japs' propaganda line, wackv as their ideas of conquest, and conked out as they rapidly are becoming, it seems to sum up the situation pretty well. We aren't sure about "Sookekki," which is probably among the items yet in store for the little buck-toothed men.

(Actually, the slogan means, "Spirit, harmony, stamina, total action," in case anyone is interested.)

Students And Teachers Will Go To Classes In Schools Here Tuesday

Students and teachers of Midland schools will get down to work at 9 a.m. Tuesday as the 1944-45 term opens. Attendance is expected to show an increase over last year, as the annual school census taken during the summer revealed an increase in the number of scholars.

Schools are being opened this year only after school officials spent the summer locating enough teachers, and after they were located, finding places for them to live. Midland citizens came to the rescue of the officials, and the teachers, after the officials sounded a plea for living quarters for the teachers, and enough temporary quarters were found to house the instructors who have arrived.

Officials pointed out, however, that all of the teachers have not yet arrived, and that there is an acute need for permanent quarters for the teachers.

The schools will open this year with 19 new instructors in the school system.

Seven of the new instructors will be at the high school. Ruth Alexander comes to Midland from Jacksonville, where she taught at Long Morris College. Thelma Butler taught at the Masonic Home last year. Mary Kenner comes from the Corsicana schools. Katis McCluney was an instructor at Baylor University. Mrs. W. T. Magee is a graduate of Texas State Teachers' College at Denton. Lucy Moore comes to Midland from the Coleman schools.

Former Faculty Members
Those on the faculty of the high school who were here last term are:

G. B. Rush, principal; Lillian Briggs, Emma John Blake, Ruth Carden, Merl Cornelius, Mozelle Dement, Frances Farnham Lyla Flesher, Grace Hine, Harlan Howell, Minnie Jackson, Theresa Klapproth, Eunice Latimer, John I. Mashburn, Helene Miley, Mary B. Philipps, Helen Stewart, Margaret Stuart and Josephine Weaver.

Four new instructors will be at the Junior High. A. G. Black taught at Grandfalls last year. Mrs. Dorothy Orth is a graduate of the University of Texas. Sybil Rutherford taught at Stephenville last term, and Ova B. Webb comes to Midland from the Stinnett schools.

Junior High teachers who taught here last year are: B. E. McCollum, principal; Pauline Ballew, Lida Beasley, Irene Dunham, Crysta

NO MORE CROWDED HOTELS
WASHINGTON —(AP)— Senator Downey (D-Calif.) said Saturday that the War and Navy Departments have agreed to refrain from acquiring hotels or blocks of hotel rooms in congested production areas without prior consultation with a presidential committee.

Europe's wettest place is Crk-vie, on the Gulf of Cattaro, which gets 183 inches of rainfall annually.

Hitler's Dream Fast Becoming Bad Nightmare

By KIRKE L. SIMPSON
Associated Press War Analyst

Hitler's dream of world conquest was fast shivering into a hopeless fight to hold the Reich, this first weekend of a fateful September in Europe.

Utter chaos marked the German rout in France. There were credible intimations of Nazi retreat also from Italy, the Balkan Peninsula, Denmark and Norway which could mean that everywhere but in the East from the Carpathians to East Prussia, German and Austrian armies were being called back to defend their own frontiers.

And by every sign the retreat order again had come too late as it did at Stalingrad, in Africa, in Sicily and in Northern Russia and the lost Baltic states. The inner walls of Nazidom's citadel, all that is left of the boasted fortress Europe, were quaking if not already breached in the West and rumbling with symptoms of impending internal explosions as well as actual revolt in Slovakia.

Spokesmen Are Stumped
The portents for Germany everywhere were so sinister that Nazi radio spokesmen hardly sought to conceal them from home front hearers. They pointed in only one direction, due East, to claim a negative victory. Between East Prussia and the Carpathians, they said, the vast Russian steam roller had been stemmed.

Whether that was true or not events in Poland seemed apt to disclose within the next week. It might furnish a clue to the desperate expedients to which German leadership, with or without Hitler approval, is preparing to resort to evade paying the full price for the nation's war crimes.

It will be recalled that in the wake of the army effort in Germany that narrowly failed to eliminate Hitler and his own top-flight military advisers, the new Nazi regime he set up scrapped the German home-front manpower barrel to reinforce the Eastern front against the Russians. It was done in the face of a warning by General Dittmar, spokesman of the German military high command, that the crisis for Germany lay in the West, not in the East.

No Semblance of Plan
That military judgment has now been well proved by events. It is in the West, not the East, that Germany's own frontiers are most closely threatened if not already crossed by American forces.

The German flight from France has gone at a pace leaving no doubt

World's Championship Calf Roping Labor Day Program

Band Concert—MAAF Band.
Introductions.

Matched Roping: First half (six calves each)—Clyde Burk vs. Troy Fort.

Quarter-Mile Matched Horse Race: \$500 purse—"Yankee Doodle," owned by Jap Holman; "into Joe," owned by Roy Adams.

Matched Roping: Second half (four calves each)—James Kenney vs. Sonny Edwards.

Matched Roping: Second half (six calves each)—Clyde Burk vs. Troy Fort.

Quarter-Mile Matched Horse Race: \$500 purse—"Bounding Main," owned by Dr. William Bloss; "Black Boden," owned by Jim Bain.

Jackpot Calf Roping—Open to all cowboys.
Roping Horse Race: 350 yards—Open to all roping horse and ridden by roper.

OVER MILLION BRITISH WAR CASUALTIES

LONDON —(AP)—Five years of war have cost the British Empire at least 1,091,628 casualties in dead, missing, wounded, prisoners of war and internees, it was announced Saturday.

The figure includes 925,963 casualties in the armed forces, 33,573 in the Merchant Marine and 132,092 civilian air raid victims. The total will increase when lists of additional casualties for merchant seamen and civilians up to July 31 are completed.

that it lacks any semblance of plan or purpose.

It seems incredible that such a total military misconception of the realities of the war in the West or even the ruthless fanaticism of Hitler and his Nazi leaders and crew could account for the German debacle in France.

UT Research Bureau Reports Butter Low

AUSTIN, TEX. —(AP)—The production of American cheese and ice cream in Texas rose well above the 1943 figure, but creamery butter output continued to fall, the University of Texas Bureau of Business Research reported Saturday.

Cheese production was estimated at 2,076,000 pounds which is 16.5 per cent above July a year ago, although 6.8 per cent below the output of June this year. Ice Cream totaled 2,200,000 gallons, 15.2 per cent above July 1943.

MAAF PROP WASH

Virtuoso Of The Piano

From the ranks of Midland Army Air Field's future bombardiers—a virtuoso of the piano. Hailing from the smallest state in the Union, Cadet Raphael J. Amato started his colorful career at the age of five, with bangs and a "tucked-in" smile and a Lord Fauntleroy suit, he made his debut in the city of Providence, Rhode Island.

Starting as a child prodigy at five, it was only natural for the future bombardier to receive a "teacher of music degree" from Providence College of Music at the mere age of thirteen. (The average age of a student receiving such a degree is twenty.) This accomplishment was, indeed, a just reflection on the teaching and guidance of the late Dr. Wassili Leps, former director of the Providence Symphony Orchestra.

With East Providence High School as Cadet Amato's next step, and with the oboe, clarinet, and glockenspiel each bowing to his abilities in sequence, appointment as director of the high school band was inevitable.

In 1939, at the world famous Princess Hotel in Bermuda "Ralph," as he is affectionately called by his friends, in the company of Carlo Davis Orchestra, was entertaining music-loving world vacationers. From there his aptly displayed talents were demanded for the exclusive Cape Cod society. From 1940 until August of 1943, the 243rd Coastal Artillery Band was the recipient of his ability. Since then he has been a cadet.

House of David

There has been an inquiry as to whether the Army Air Forces has accepted the entire personnel of the "House of David," so I will attempt to clear up this problem.

On August 26, a group of men (cadets) were seen marching along the road next to the post hospital and dental clinic. Most of these men (cadets) looked as though they hadn't used a razor for ages and they all looked a bit exhausted as they carried large barracks bags secured from an unknown departure point. They were members of the bombardier base's next graduating class and were returning from the base combat camp where they had spent a few days living with "mother nature" in the raw, under the Texas sun and moon.

This combat range program is set up to acquaint the cadets with the existing conditions of living in a pup tent and operating under simulated field circumstances which, no doubt, many of them will come into contact with when they graduate and get to see the "real thing" where it counts most. Besides living in pup tents, the cadets had to learn and apply the proper technique of camouflage to their tents and surroundings. Outstanding features of the camp were: Eating out of mess kits, having gas released in their area while still asleep and the (get yourself lost) enjoyable hike during the first night in camp.

Among the highlights of this outing was the expert camouflage jobs accomplished by Cadets Leonard "Playboy" Ott and Marvin "Sunny" Carlson, who couldn't find their tent for forty-five minutes the first time they left it. Cadet Sidney "Flash" Marks stated that he was going to catch up with plenty of lost "sack" time, but he never had the chance. Before he could even "bat an eye" his name was posted as "sergeant of the guard" for a twelve-hour shift beginning at midnight of the second day out on the range.

Upon taking the census, we find that everyone enjoyed the short stay on the range, even though they didn't have quite all the conveniences of home. Even Cadet Thomas "Hook" Pacer, former squadron, was quite pleased. It is rumored that he hasn't "done a stitch of work since he arrived here" (not counting his regular training periods), so the officers were careful to see that his name was put on a few detail rosters.

"They won't ever find me again," was "Hook's" only comment.

Absent-Minded

The bombardier training is really starting to get the better of some of the cadets. You have all heard many jokes pertaining to the "Absent-minded Professor," no doubt, but we have one to equal any of those.

On August 28, Cadet David Trombley decided to leave the barracks and walk down to PX area. It was raining at the time, so he threw his raincoat on, adjusted his gas mask, and was on his way. He had no sooner left the barracks when he noticed that everyone who looked at him seemed to be smiling. Finally, after progressing to the end of the block, he decided to see what the joke was and started his investigation by looking at his shoes and working up. Seeing that only his bare legs were showing, Cadet Trombley pulled back his raincoat, and to his surprise and embarrassment, he had forgotten to put his trousers on.

Departed and Returned

Pvt. Sam Avruty, formerly of the third Platoon, returned after a year's absence—back to the Third Platoon. Private Avruty left Midland Army Air Field to attend an ASTP course and, following a short stay at Camp Maxey, Texas, he was stationed at Nashville, Tenn., Gulfport, Miss., and Lowry Field, Colo., in quick succession. Now that he has settled down for a spell, his future wife decided that she'd be his present wife, and indications point

to an early wedding before Private Avruty is on the move again.

Not A Frank Buck Tale

Oh, yes! We mustn't forget the little range friends—the snakes, spiders and flies. Ask Cadets Howard Jackson and Harry Petro what they think of waking up to stare, eye-to-eye, at a rattlesnake. This particular snake had been killed and was placed near the Jackson-Petro tent as a joke. Hearing Cadet Petro yell and watching him run, fully half a mile before coming to a halt, brought forth quite a laugh. Harry insists the snake's jaws closely resembled those of a crocodile ready to strike.

It was quite a common occurrence to see luggage, blankets, mess kits and canteen strewn about with some cadet insisting his private abode was being invaded by a tarantula the size of his fist.

Cadets Ralph Hammen and Maurice Johnson's tent seemed to be right in the middle of a wildlife thoroughfare. As for constant companions they had grasshoppers as big as your thumb, a prairie dog, a jackrabbit, two ant hills, a small snake and the usual assortment of spiders.

Little pests that never were missed were the flies at mealtime. Their sense of time was, in many cases, much more accurate than that of the cadets. Many of the cadets had their own private flies with whom a bargain was made—"I feed you; you keep these other jokers away."

Fathers, Ahoy!

The Future Fathers' Club of Bombsight Maintenance welcomed Pvt. Don Reilly, Pfc. Jim Powell, Pvt. Emerson Gerber, Pvt. Emerson Ward, Pfc. Same Wilson, Pvt. Earl Hines and Pvt. Frank Felton into their ever-growing organization.

Sardine a la Cadets

We thought Flight Lieutenant Cadet Ralph Hambrecht was kidding when he told us last week, "You boys are soon going to be imitating a can of sardines." It was long afterward that we found out what he was referring to.

On August 27, cadet class 44-13 participated in a moving job, transferring their belongings from the main cadet area to their new homes, across from the flight line. After having occupied three barracks, with slightly crowded conditions, the boys were now herded into the two barracks and put on their own.

The cadets were making the best of the situation and having quite a joke out of it. The beds are spaced so closely together that during the first night Cadet Randolph "Trigger" Madden rolled over once and found himself in Cadet "Chowhound" LaMatte's bunk. The most fun of all comes right after reveille and PT (physical training) when everyone makes a mad dash to get to the showers or washing bowls first and to shower with the water bouncing off the cadets who were lucky enough to get there first.

Lone Navy Search Plane Sinks Jap Cargo Vessel

WASHINGTON — (AP) — A lone Navy search plane attacking a Japanese convoy off Iwo Jima in the Volcano Islands sank one enemy cargo vessel and strafed and damaged another Thursday.

The Navy, announcing the attack in a Pacific Fleet release, said the convoy also included three sampans, small craft used by the Japanese for coastal movements of supplies.

Another search plane operating alone, the Navy said, destroyed a sampan near Julluit Atoll on the same day.

Gun emplacements and other defense installations on Pagan Island in the Marianas group were blasted by rocket fire, bombs and strafing planes Wednesday and Thursday.

Marco Polo was buried in the Church of St. Lorenzo in Venice.

Some Fawn, Eh?

A fawn lost at the edge of a woods near Trapper Lake, Wis., was adopted and fed by Lady, an English setter, whose owner named the founding Bambli. She is pictured snacking at canine cafeteria.

Fortieth Bombardier Class Wins Wings At MAAF Ceremony

"In the final analysis the bombardier is the pay-off man of the Army Air Forces combat team. The success of the mission depends upon where the bombs drop and the man that determines that is the 'King of the Greenhouse,' the bombardier."

So said Captain James P. Sfarinas, a bombardier with 54 missions in the Southwest Pacific, addressing the 40th class to win their bombardier wings and commissions as second lieutenants and flight officers at the Midland Army Air Field, Saturday morning who further told the new officers that their training was the best in the world.

"Bombardiers returning from combat to the Instructor's School at Midland are continually amazed to find the very latest training methods and equipment are in use. Sometimes we haven't even heard of some of the brand-new instruments and methods. The increasing zeal of the AAF Training Command in devising more efficient equipment and instruction methods are paying off now and you new graduates will take the last word in bombardment technique into combat," he said.

"But don't think that this graduation completes your training. You will go from here to staging areas where you will join a bomber crew and practice with them. The AAF never stops training its men; new methods necessitate their instruction and new instruments need practice for familiarization. Even in New Guinea we had training sessions several times each week," explained the young bomber of the Japanese at Rabaul, Wewak, Salamaua, the Admiralties, Finschhafen, Hollandia and Truk.

Capt. Sfarinas, who wears the Distinguished Flying Cross, and the Air Medal with an Oak Leaf Cluster, was introduced by Lt. Col. Howard E. Watkins, director of training and acting commanding officer. Col. Watkins welcomed the many parents, wives and friends of the graduates and stated that this was an experience in the military careers of the new officers in which all should be proud to share.

Retrial Of Dr. Newton Set For September 25

PLAINVIEW — (AP) — Retrial of Dr. W. R. Newton of Cameron, charged with assault with intent to murder in the shooting of Dr. Roy Hunt, Littlefield physician, May 21, 1943, was set here Saturday for Sept. 25.

The shooting incident occurred only a few months before Dr. Hunt and his wife were found slain in their bed at their Littlefield home, Oct. 26, 1943.

Jim Thomas, 50-year-old paroled convict, Wednesday night was convicted of a murder charge in Dr. Hunt's death and given the death penalty by a district court jury here. District Judge C. D. Russell Saturday tentatively set Sept. 7 as the date for hearing a motion for a new trial for Thomas.

The practice of selling art by auction in England dates from the 17th century.

ard E. Watkins, director of training and acting commanding officer. Col. Watkins welcomed the many parents, wives and friends of the graduates and stated that this was an experience in the military careers of the new officers in which all should be proud to share.

The wings were presented by Lt. Col. Harry E. Phelps, commandant of cadets, and Lt. Col. Watkins presented the letters of appointment as officers to the graduates. Major Carl W. Allen, secretary of the cadet school, administered the oath of office. Chaplain Patrick J. Toomey gave the invocation, and the benediction was by Chaplain Bannen Y. Swope.

Capt. Sfarinas, who wears the Distinguished Flying Cross, and the Air Medal with an Oak Leaf Cluster, was introduced by Lt. Col. Howard E. Watkins, director of training and acting commanding officer. Col. Watkins welcomed the many parents, wives and friends of the graduates and stated that this was an experience in the military careers of the new officers in which all should be proud to share.

WMC Larson Reveals Houston Easiest City In Texas To Convert To Peace

By BRACK CURRY
Associated Press Staff

The biggest industrial and population center of Texas — Houston and Harris County — will be in better shape to weather reconversion and demobilization than any other city in the state engaged in producing war goods, according to Roy E. Larson, statistical expert for the War Manpower Commission area office.

Excepting San Antonio, which has few large war industries, Houston will hold an edge on other Texas cities in tackling postwar employment problems because of its diversified industries, says Larson. Practically all Houston war industries were converted to war use from civilian production. Consequently, the transition to peacetime output should be simpler than in the new industrial plants built since the war started.

Current workers will continue machine tool, shipping, petroleum and compressing industries — all now tied to the war production kit — will pick up their peacetime activities and continue to employ about their current quota of workers, Larson states. Of Houston's normal industrial activities, 60 per cent is identified with the petroleum industry, exclusive of refining.

Metropolitan Houston's wartime population is 601,000 compared with 384,000 in 1940. There are 140,000 persons engaged in essential work in Metropolitan Houston.

From 1,200 to 1,500 of Harris County's 42,000 men in service are being discharged monthly and practically all are going into jobs, states the United States Employment Service.

A joint committee of Economic Development — Chamber of Com-

merce report blueprinting after war employment possibilities in Harris County will be released about Sept. 15.

What about the 3,000 workers employed in Houston's two giant shipyards?

Shipyards will convert fabrication of heavy consumer goods," says Major Roland A. Laird, manager of the industrial department of the Chamber of Commerce. "We are very optimistic that they will be utilized for production of heavy consumer commodities. Our airplane strut plant is elaborately tooled, modern and efficient, and would be splendid for certain types of heavy goods."

The backbone of manufacturing in Houston relates to oil field equipment and services. Reconversion simply means going back to original lines of production to fill an enormous backlog of orders accumulated during the war. Reconversion for these plants will be very, very simple.

LESS SUGAR NEXT YEAR
WASHINGTON — (AP) — The Agriculture Department predicted Saturday last supplies of sugar will be smaller next year. The report held out little hope for elimination of rationing until the war with Japan has been won.

MILLION SPENT ON POLIO
NEW YORK — (AP) — Basil O'Connor, president of National Foundation for Infantile Paralysis, announced Saturday the organization has spent more than \$1,000,000 to combat this year's epidemic, worst since 1916.

Germans Now Fear Conscriped Labor More Than Allies

AT THE SWISS-GERMAN FRONT — (AP) — More than the fear of Allied armies or the propaganda-fueled fear of Russian terror, dread of the revenge of her conscripted foreign labor is the uppermost feeling in Germany Saturday, according to trustworthy informants from Berlin and other parts of the Reich.

Thinking Germans foresaw the danger even two years ago, but now all who work in factories feel it. Foreign workers, encouraged by the Allied blitzkrieg in France, are openly telling Germans they can expect the worst—and that the day is not far off.

Those who have traveled in Germany in the past three weeks have noted a deep feeling of defeatism coupled with fear. The penalty for spreading defeatism is death. So-called "peoples' courts" pass death sentences in day-long, continuous chains. An average of 15 persons have been shot weekly in one small town outside Berlin; 60 have been shot weekly in another. The total runs into thousands and thousands.

Germans Think Six Weeks
Some Germans now believe the war possibly will be over in six weeks. None gives an explanation for such a swift conclusion—the merely think it is ending. Secret weapon talk among Germans and foreigners trusting each other is derisive. They have no faith in such devices.

Heinrich Himmler, commander-in-chief of the German home army, is striving to keep Nazism uppermost in the minds of the people. Signs in official buildings exhort the Germans to "combat your enemy—he who does not say 'Heil Hitler!' is your enemy." The result has brought louder "Heil Hitlers" than ever among under officials.

Hitherto careless, merchants fearing denunciation now are again singing out "Heils" to customers in their village stores. There is a death penalty for failure to do so. Soldiers returning on home leave have shown better morale than the home front. They preach that a lost war is the worst possible fate—"enjoy war, for peace will be dreadful," they say.

Deep discontent is apparent among German labor. Bomb damage and lack of materials for the first time have created serious unemployment in technical trades. Days frequently go by while workers await needed materials.

Compact Peacetime Army With Citizen Reserve Advocated

By WILLIAM F. ARBOGAST
WASHINGTON—(P)—General George C. Marshall's advocacy of a small but efficient post-war professional army backed up by a well-trained citizen reserve won widespread approval on Capitol Hill Saturday and gave impetus to a move for early consideration of peacetime draft legislation.

No dissenting voices challenged the assertion of the chief-of-staff that a large standing army "has no place among the institutions of a modern democratic state," although several lawmakers said they wanted more details on what Marshall has in mind.

Peacetime draft legislation has been before Congress for many months but because of the possible political repercussions it has been shunted aside.

"Reasonable Period" Of Training
Marshall's views, contained in a directive issued as basic policy for officers planning the permanent post-war military organization, assumed that Congress will approve a program which would require every able-bodied American youth to undergo a "reasonable period" of peacetime military training before being placed in a citizen-reserve component.

"It is a sound policy," commented Rep. Kilday (D-Texas), co-author of much current draft legislation. "We don't want to turn this country into a militaristic nation, and that is what General Marshall wants to guard against too."

A compact standing army, the Texas said, should suffice in the post-war period provided it is backed up by a large reservoir of trained reserves.

Citizen-Soldiers Winners
"In the final analysis," he added, "citizen-soldiers have won every war we have fought."

A fellow-Texasan, Rep. Thomason, ranking Democrat on the Military Committee, although he desired more information, said he was "with General Marshall 100 per cent in his advocacy of a small professional army and a large citizen-reserve."

House Republicans joined in commendation of Marshall's suggestion. Agreeing with Marshall that a compact, small professional army was all that was needed for normal times, Chairman Sabath (D-Ill.) of the House Rules Committee said he

New Nazi 'Secret Weapon' Causes Little Concern

By LEWIS HAWKINS
LONDON—(P)—The Germans steered two explosive-packed aircraft against England Friday night in their first known blow at this country with a new freak terror weapon controlled by a pick-a-back pilot plane.

The general opinion was that this was not the highly-advertised "vengeance weapon No. 2," but possibly a substitute.

The Air and Home Security Ministries, identifying the queer machines as probably "lower components of composite aircraft," said they did little damage and caused no casualties.

Aroused No Fears
The new weapon aroused no fears here, and there even was some faint hope that resort to so unwieldy and costly a device might be a tacit admission by the Germans that their "V-2" had failed as a successor to the robot bombs.

The sky monotony first was reported a month ago from France, where a Messerschmitt 109 fighter was seen in flight hooked on top of a twin-engine Junkers 88 bomber which had been stripped of equipment and packed with an estimated 8,000 pounds of explosives.

The two aircraft were rigged to take off together with one man in the single-engine fighter guiding the whole thing until near the target. Then he is supposed to release the unoccupied bomber and let it glide or power-crash against his objective.

GIRAUD SHOT AT HOME
LONDON—(P)—Gen. Henri Giraud, formerly commander of the Fighting French Army, was shot outside his villa near Oran, Algeria, the News Chronicle reported Saturday. It said the bullet broke a few teeth, but did not seriously injure the general.

The oldest Chinese musical scale consists of but five tones: f, g, a, c and d.

was not convinced of the necessity of a peacetime draft law.

"The present war has shown that in an emergency we can raise sufficient manpower without resort to a peacetime draft."

Fifth Army Captures Pisa

ROME—(P)—The American Fifth Army lashed out in a new offensive Saturday, burst across the Arno in a wide front, seized Pisa and stormed dominating heights on the East in concert with a new drive by the famed British Eighth Army through a 20-mile hole in the Gothic Line.

As the whole Italian front flamed into action, the vaunted Gothic Line—which Field Marshal Gen. Albert Kesselring had ordered held for three more weeks to hold open a route of escape through the Brenner Pass—appeared crumbling on both the East and West.

The special announcement of Pisa's fall said Americans had driven four miles beyond to the Serchio river.

65 German Airfields In Allied Possession

LONDON—(P)—British-based Allied heavy bombers broke all records in August, dropping 155,775 tons of destruction on the German army, the Reich and occupied countries, Supreme Headquarters announced Saturday night, disclosing also that the sweep through Northern France had put 65 German air fields in Allied hands.

The recapitulation came as British planes took advantage of the bright moonlight Saturday night and pounced on an almost continuous stream of German vessels leaving French channel ports. The rough sea retarded the ships and made them easy targets for Allied airmen.

The biggest previous month for bomb tonnage was last July, when the U. S. Strategic Air Forces hurled down 73,000 tons and the RAF dropped more than 64,400 tons for a total of 137,400.

Sgt. Kuhar Thinks It Is Time To Retire

FORT NIAGARA, N. Y.—(P)—Staff Sgt. Andrew Kuhar, 59, has applied for retirement after 30 years of army service, during which he never had a pass or furlough. Kuhar explained: "I didn't take any time off because there wasn't any place to go." Kuhar, a bachelor, says he is "fed up with pots and pans."

"I'm going to California and take it easy," he adds.

TEXAS MEETING OIL DEMAND
AUSTIN—(P)—Texas production of oil is "meeting the full demand and more," Railroad Commissioner Ernest O. Thompson said Saturday, commenting on Commission figures that the net increase of Texas crude oil in storage above ground last week was 512,000 barrels.

More than 173,000 sick and wounded patients of the United States and Allied forces were evacuated by military planes in 1943.

3,700 Oil Wells In First Seven Months

DALLAS—(P)—Approximately 3,700 oil wells were completed in the Eleventh Federal Reserve District during the first seven months of 1944 as compared with 2,400 wells during the same period last year, the monthly business review of the Federal Reserve Bank of Dallas said Saturday.

The Eleventh Federal Reserve District includes all of Texas and portions of Louisiana, Oklahoma, New Mexico and Arizona.

Drilling Rigs Better
The expansion of drilling activity, said the report, has been brought about by an improvement in the supply of drilling rigs and equipment, the relaxing of certain government restrictions, increased wildcatting and the recently announced crude price subsidies for settled fields.

The number of wildcat wells for the first seven months of this year was given as 1,002, but 78 per cent of these wells failed to produce oil in paying quantities.

Stocks of above-ground crude oil declined slightly during July and at the end of the month totalled 120,605,000 barrels on Feb. 19 this year. The 1942-43 low was 92,680,000 barrels on Jan. 10, 1942.

Largest Boy Scout Court Of Honor Held In Midland Friday

A life award was presented to Charles O'Dell of Troop 54, and the bronze palm was presented to Louis Hartwell of Troop 51 at the Boy Scout Court of Honor in the district courtroom Friday night. It was the largest court of honor ever held in Midland.

Star awards were received by Herman Hankla of Troop 55, and Charles Spivey of Troop 51.

First class awards went to Bobby Prickett of Troop 51, and Paul Dale Smith and Donald Prager of Troop 85.

Second class awards were received by Delbert Shelburne and Roy Frazier of Troop 151.

The following in Troop 51 earned second class awards: Francis Stickney, Harry Loskamp, Charles Sheppard, James Fitzgerald, Dwight Worley, Duane Fritz, Niles Winter Jr. and Gordon Reigle.

Following are the awards earned by the Scouts:

Troop 54—Charles O'Dell, photography and physical development; Troop 51—Clark McAdams, chemistry; Jim Fitzgerald, reptile study; Bill Hamilton, rabbit raising; Bob English, firemanship; Billy Secor, reptile study and firemanship; Francis Stickney, reptile study and firemanship; Charles Sheppard, firemanship, reptile study and animal industry; Niles Winter Jr., firemanship and reptile study; Marvin Prager, civics, physical development, scholarship and dog care; John Livingston, camping, animal industry, dog care and reptile study; Dwight Worley, dog care, animal husbandry, firemanship and reptile study; Louis Hartwell, handicraft, scholarship, dog care, automobile and athletics; Charles Spivey, firemanship and rabbit raising; Duane Fritz, dog care, firemanship and reptile study; Charles Funk, physical development.

Troop 85

Following are those earning awards in Troop 85:

Paul Dale Smith, personal health, public health, first aid, reptile study, music and woodwork; Berneal Pemberton, reptile study, personal health and pioneering; Bill Young, pioneering; Bill Younger, personal health; Don Hamblett, first aid, reptile study, public health, personal health and first aid; Eugene Hehl, personal health and first aid; Lloyd Henderson, personal health, reptile study, public health and first aid; Charles Ruckman, personal health and reptile study; Joe Birdwell, public health, reptile study, personal health, first aid and pioneering.

Others earning awards in Troop 85 are:

Oscar Cooper, personal health and reptile study; Don Prager, reptile study, pioneering, first aid and public health; Eddie Clarke, cooking, pioneering and reptile study; Richard Clarke, cooking, reptile study and pioneering; Joel Sims, reptile study; Billy Gilmore, reptile study and personal health; Buckey Norton, reptile study and personal health; Maurice Cox, reptile study; Charles Nonrief, personal health and reptile study; Jimmie Greene, cooking; Bob McDonald, cooking; Herman Hankla, personal health, public health, first aid, reptile study and horsemanship.

Tenderfoot awards were earned by Jerry McDonald and Goss Yeager of Troop 153.

Stewart Services To Be Held Sunday

Funeral services will be held at 4 p.m. Sunday at the First Baptist Church for J. P. Stewart, 62, who died Wednesday at his home, Conway home. The services will be conducted by the Rev. Reed, a former pastor of the church. Burial will be at Fairview Cemetery, with the Barrow Funeral Home in charge of arrangements.

He leaves a wife and two sons, Malcolm and Roy C. Stewart; two brothers, R. F. Stewart of Spur, and J. T. Stewart of Roby; one sister, Mrs. J. D. Bradshaw, of Roby.

Ford Suspends 30 Dallas Employees

DETROIT—(P)—The Ford Motor Co. announced Saturday suspension of 30 employees at its Highland Park plant, charging the workers with "inciting and leading a strike."

The work stoppage last week closed the factory for three days, made some 8,500 employees idle and threatened to halt all Ford aircraft production in the area.

Governor Still Unable To Align Texas Democrats

By DAVE CHEAVENS
AUSTIN—(P)—Gov. Coke Stevenson said Saturday he had not been able to get the leaders of Pro-and Anti-Roosevelt Democrats to agree to a compromise proposal which he believed would give the voters a chance to express themselves directly on the Texas' elector dispute.

The governor proposed that the names of the 23 electors nominated by both factions be put on the November election ballot in the Democratic column, plainly labelled Pro-and Anti-Roosevelt.

Stevenson drew up a sample ballot from, listing both sets of electors in parallel columns, under the general label of the Democratic Party.

"This is a Party dispute," he said, "and the Party should settle it. We should not make it necessary for any Democrat to vote for any but the Democratic ticket."

The governor said that he had not given up hope of working out a solution to the problem prior to the Sept. 12 State Convention at Dallas, and that he planned to continue conferences not only with faction leaders but with others whom he considered to hold impartial views.

"For three weeks I have had a good deal of hops," the governor said at special press conference. "I am still firm in my belief that the people should be permitted to speak on this question."

Civilian Beef Supply Cut 10% By WFA

WASHINGTON—(P)—Stating that the armed services have been unable to obtain sufficient supplies, the War Food Administration Saturday ordered slaughterers operating under Federal inspection to set aside 50 per cent instead of present 50 per cent of army style beef for the government.

Civilian supplies of the better grades of beef will be proportionately reduced for the time being. However, with cattle marketings expected to increase sharply during the next several weeks, the Government has predicted an abundant supply of lower grades of beef for civilians during the Fall and early Winter.

MAJOR BULLITT VISITED PARIS SATURDAY

PARIS—(P)—William C. Bullitt, former U. S. Ambassador to France and now a Major in the French Army, visited Paris Saturday.

Bullitt is attached to the headquarters staff of the French General De Lattre De Tassigny and landed recently with French troops in Southern France.

Governor Proclaims Nutrition Month

AUSTIN—(P)—Gov. Coke Stevenson Saturday designated September as nutrition month and asked all Texans to "eat wisely, conserve food and share it" in order to have the "health and strength necessary to meet the demands of war."

Stanolox 1-3 McDer Flowed Oil For 10 Hours; Union Area In Andrews To Be Tested For Devonian Production

By JAMES C. WATSON,
Oil Editor

Standard Oil Company of Texas No. 1-3 McDer, section 64, block 11, H&G survey, in North-Central Pecos County, about eight miles southeast of Owego, kicked off, after treating with 500 barrels of mud acid, and flowed 96 barrels of pipe line oil in ten hours before it was shut in to provide more storage.

The oil came through casing perforations at 4,000-60 feet, and at 4,981-86 feet. Flow started after acid load had been swabbed down 3,500 feet from the surface.

When the swab reached that level, the hole unloaded, and started to flow at the rate of 10 barrels per hour. It settled and averaged almost that amount of oil, each 60 minutes as long as it was allowed to produce.

Total depth is at 5,374 feet, in granite. The lower sections have been tested and showed some dry gas.

New Devonian Wildcat

Union Oil Company of California will start by Sept. 8, drilling a wildcat to 8,700 feet, to test for Devonian pay in the Union pool area of Northwest Andrews County.

Location of the exploration is 660 feet from the south and 1,980 feet from the west lines of section 12, block A-31, psi survey. It will be 1,320 feet due west of Union No. 2 Biles, a producer from the regular Union Clear Fork lower Permian pay above 7,500 feet.

The new prospect will drill to the Devonian and will not attempt to complete in the regular Union pay, until the lower zone has been closed.

Closest Devonian production is about ten miles southeast, in Mid-Continent Petroleum Corporation No. 1-7 University, in section 20, block 13, University survey, which is about one and one-half miles south of the Union field.

That well was recently completed for a 24-hour potential of 3,744 barrels of 40-gravity oil from a zone at 8,460-8,600 feet, through perforations in the casing.

About four miles northwest of the new Union prospect, Shell Oil Company, Inc., No. 1 Cox, drilled through Devonian from around 8,550 feet to about 9,150 feet, in going to a total depth of 11,061 feet, and finding granite at that level.

The Devonian zone was tested in No. 1 Cox, but yielded only water, with slight amounts of oil.

Garza Gets Exploration

Kenneth Murchison, Dallas, has filed application with the Railroad Commission to drill No. 1 Post estate, three miles south of Post, in Central-North Garza County, as a wildcat to around 3,100 feet. Digging will be with cable tools, and is to be started by Sept. 15.

The new exploration will be about one mile west of the Garza pool, where there are four small wells from the San Andres line around 2,800 feet.

M. L. Richards, Big Spring, and Grisham-Hunter Corporation, Abilene, have spreads in the region surrounding the new prospect.

S. B. Roberts and others No. 1-B Allison, section 57, block 9, TW-6NW survey, Northwest Sutton County wildcat, was unofficially reported to have reached a total depth of around 5,108 feet, after marking top of the Ellenburger at around 5,080 feet.

That information has not been confirmed. The same source indicated the operators were starting test of the section for possible production.

Shell Oil Company, Inc., No. 1 C. W. Hobbs estate, almost on the west line of Upton County, and 1,349 feet east of the discovery well of the Devonian production in the Crossett field, is a new location for that region.

Outposts Get Some Shows

It will be 665 feet from the northeast and 2,009 feet from the northwest line of section 46, block 35, H&G survey. It is scheduled to drill to around 5,500 feet, with rotary, starting Sept. 5.

Atlantic Refining Company No. 1

Orth To Be OPA Head, Succeeding McCullough

DALLAS—(P)—William A. (Bill) Orth will become Southwest Regional Administrator for the Office of Price Administration about Sept. 16, succeeding Max McCullough, it was announced here and in Washington Saturday.

McCullough will go to Washington as deputy rationing administrator.

Orth, 52, native of Yoakum, has been regional OPA rent executive.

As Regional Administrator, he will head the Regional Headquarters in Dallas as well as the 13 district offices and 750 War Price and Rationing Boards in Texas, Oklahoma, Kansas, Missouri, Arkansas and Louisiana.

The information division of OPA here said Orth "probably" will be succeeded as rent executive by A. A. White, regional rent attorney.

CHEESE CEILING SET SATURDAY BY OPA

WASHINGTON—(P)—The Office of Price Administration Saturday fixed dollars-and-cents price ceilings for packaged portions of blue and Gorgonzola cheese, effective Sept. 7.

The new specific ceilings are the same general level at retail as the "freeze" prices of March, 1942, that have been in effect, OPA said.

in the San Andres lime, had reached 5,875 feet, in the lower Permian lime, and was preparing to take a drillstem test.

This test has previously shown a slight amount of oil and gas from a section slightly above the present level. It is scheduled to go to at least 6,000 feet, unless production is found above that point.

Stanolind No. 1-E University, section 25, block 10, University survey, and another lower Permian exploration in the Emma area, had progressed below 5,478 feet, and was drilling ahead in sandy lime.

Gaines County Wildcats

Shell No. 1 Sparks, section 3, block A-13, psi survey, in Southwestern Gaines County, was digging ahead past 3,880 feet, in lime and shale.

Humble No. 1 Doss, section 9, block A-24, psi survey, about six miles south of Seminole, in South-Central Gaines, had reached 8,513 feet, in lime.

Amerada Petroleum Corporation No. 1 Jones, section 59, block AX, psi survey, two miles west of the Wasson field, in Northwest Gaines County, had penetrated to 6,692 feet, in lime, and was continuing.

Skelly Oil Company No. 1 Hodges, section 446, block D, John H. Gibson survey, about five miles west and slightly north of Plains, in Central-West Yoakum County, had cleaned out and was to start swabbing to the total depth of 5,360 feet in the San Andres lime.

The horizon from around 5,270 feet, to the present bottom, had indicated oil production in cores and on a drillstem test, and the scheduled swabbing is to determine the value of those shows.

This project is contracted to 7,800 feet, to test the lower Permian, and will be continued to that level, unless the section now under investigation develops a commercial oil well of fair proportions.

Honolulu Oil Corporation No. 1 Hertel, section 264, block D, Gibson survey, Northwest Yoakum County wildcat, was bottomed at 5,272 feet, in lime, with a string of 7-inch casing cemented there. The operator is waiting for a cable tool rig to use in drilling out the cement, and to drill ahead into the formation where oil is expected.

Yates Found Flat

Richmond Drilling Company No. 1 Nelson, section 34, block M, EL survey, in Northwest Dawson County, scheduled 5,500-foot exploration, had reached 4,165 feet, and was drilling ahead in anhydrite.

Top of the Yates was picked, from samples, at 3,050 feet, on an elevation of 3,102 feet. That point sits flat on the Yates to the next nearest control point.

Texas No. 1 Tunnell, section 451, block 1, EL survey, in Southeast Lynn County, was at 5,799 feet, in lime, and was cementing off a cavity near the bottom, which had caused the loss of circulation of drilling mud.

Phillips Petroleum Company No. 1-A Bartley, section 1372, block 1, EL survey, in East-Central Lynn County, had reached 5,006 feet, in lime, and was drilling ahead.

Skelly No. 1 Wilson, section 16, block 27, H&G survey, in North-Central Howard County, had made hole under 3,415 feet, in lime.

Getting Deep In Crockett

Phillips No. 1 Schneeman, section 46, block EB, TC survey, in Crockett County, which is being drilled as a "tight" operation, had reached 9,724 feet, and was drilling ahead, in an unrevealed formation.

Warren Petroleum Corporation No. 1 Jones, section 9, block 26, H&G survey, in Northwest Mitchell County, a wildcat between the Westbrook and the Vincent fields, was making hole below 2,942 feet, in lime. This test found top of the lime at 2,016 feet, on an elevation of 2,281 feet, instead of at 2,716 feet, as previously reported, through error.

Found Beaten In Hotel Room

A baffling mystery confronted New York City police after Mrs. Louise Stanley Munn Jr., above, 29, former actress and wife of wealthy and prominent USN Lt. Charles A. Munn Jr., was found severely beaten in a New York hotel. (Photo Copyright by Murray Korman, from NEA Telephoto.)

By JAMES C. WATSON, Oil Editor

MORE PRICE ADJUSTMENTS FOR SWEET CRUDE OIL

—Recent action of crude oil purchasers in putting oil from the Key-stone and Kermit Ellenburger pools in Winkler County, and the Fullerton and Union fields in Andrews, on a gravity basis, and increasing top price by 13 cents to \$1.25 per barrel, is encouraging.

—According to reliable sources, the purchasers are agreeable to paying on the same basis for the other high-gravity sweet-oil in the Permian Basin, and it is likely similar adjustments for such producing areas will be approved by PAW and OPA soon.

THREE TRAINS OF OIL MOVING DAILY FROM RACK

At present approximately 115 carloads of crude oil are being moved to the east coast by railroad each day from the Midland loading rack of Atlantic Pipe Line Company. That movement represents two full trains daily.

—No oil is being sent from Midland to the Pacific Coast refineries. It has been revealed that most of the processing plants in that territory are not equipped to handle the sulphur oil from this region, in a very efficient manner.

—Shipments of high-gravity sweet crude, by tank car, to refineries on the Atlantic seaboard are due to start this week.

GEOLOGISTS HAVE BEEN STUDYING DEVONIAN SIGNS

—Berie E. Hoehn and Joe E. Koenig, of the University of Texas Lands geological office, and R. V. Hollingsworth, operator of the Midland Paleontological Laboratory, spent eight days in the Franklin and Hueco Mountains near El Paso, studying outcrops of the Devonian

formation in that section. The Devonian indications were located in the Franklin Mountains by Dr. L. A. Nelson, professor of geology at the Texas College of Mines.

COMET DRILLING OPENS MIDLAND OFFICE

—West Texas offices for Comet Drilling Company, recently organized at Tyler, are being opened in the Noves building on North Colorado Street.

—This company has two rigs running in this area. It is headed by R. C. (Claude) Johnston, formerly an executive of Delta Drilling Company, at Tyler.

KING COMPANY MOVES TO EASTHAM BUILDING

—Offices of Carl B. King Drilling Company, and associated operations have been moved from the Petroleum Building, to Suite 210 in the Eastham Building, in the 100 block on South Main Street.

—In the new quarters the King organization has seven rooms, instead of three rooms used in the former location, which was all that could be crowded there on account of the crowded condition of that building.

—Space vacated by the King move from the Petroleum Building will be used by Sinclair Prairie Oil Company to expand its offices.

SINCLAIR OFFICIALS VISIT MIDLAND OFFICE

—J. W. Jordan, Tulsa, vice president in charge of production for Sinclair Prairie Oil Company, and Don R. Gearhart, in charge of land, geological, geophysical and scouting operations for the same company for most of Texas, North Louisiana and South Arkansas and for the

(Continued on Page 7)

Outposts To West Eunice And Hobbs Producing Areas Are To Be Drilled

HOBBS, N. M.—The undeveloped strip, separating the West Eunice and the San Simon fields, in South-Central Lea County, is to be tested by Stanolind Oil & Gas Company.

The new development, to be Stanolind No. 1-P State, is 330 feet from the north and 990 feet from the east lines of section 24-21S-34E. It will be a short distance south of the nearest production in the West Eunice area. It will drill to around 4,000 feet.

Stanolind No. 29 H. D. McKinley, 1,980 feet from the north and 660 feet from the west lines of section 5-18S-33E, is a new exploration on the southwest side of the Hobbs field, in East-Central Lea. It is also slated to bore to about 4,000 feet for the Hobbs pay horizon.

Northwest Of Tonto Discovery

The Texas Company No. 2 Baskin, 1,980 feet from the south and east lines of section 22-19S-33E, is to try to find a Tonto field production which was discovered around 3,575 feet, several weeks ago, by the same operator's No. 1 Baskin, which is about one-half mile southeast of the new location.

Barney Cockburn No. 1 Wyatt-State, section 33-17S-33E, lower Permian wildcat, about one mile southwest of the Maljamar field, in West-Central Lea, was reported shutdown at 6,510 feet, making rig repairs.

This project is said to have had between 1,500 feet and 2,000 feet of free oil in the hole, after it had drilled through a section from 6,800 feet to the present bottom. Some oil, reported to have been as much as four barrels per hour, was bailed from the hole, before operations were suspended by a break-down.

Numerous Shows Found

Developments will be watched when testing is resumed, as this wildcat is reported to have had several interesting shows of oil between 4,055 feet, and the total depth, and it is understood that the operator likely will determine the value of the full set of possible producing horizons.

Devonian Oil Company No. 1 Windfohr-State, section 25-11S-35E, Northwest Lea County prospect, six miles northwest of Tatum, was making hole under 4,330 feet in lime, which was topped at 4,310 feet, from samples. Elevation, reported by the operator, is 4,073 feet.

Humble Oil & Refining Company No. 1-O State, section 1-12S-34E, also in the area northwest of Tatum, has been abandoned, after encountering water which had a sulphur odor at 4,994 feet, in lime.

A core from above that level had shown some signs of oil, but the water ruined any possibility of the project making an oil well.

Wildcat Testing

Devonian No. 1 State, section 32-17S-34E, one mile west of the Vacuum field, was swabbing to test after treating with the third injection of acid. The last shot was 4,000 gallons and it was put in the zone at 4,665-4,729 feet, which had swabbed one and one-half barrels hourly, after treating with 1,000 gallons

and 2,000 gallons of acid.

Texas No. 1-AG State, section 29-16S-34E, wildcat development about five miles northwest of the Vacuum area, had started and had reached 1,620 feet, in redbeds, and anhydrite.

Harvey E. Yates No. 1 Cities Service-State, section 27-16S-33E, exploration about three miles north-west of the Vacuum producing area, has been abandoned, but not plugged on a total depth of 5,004 feet in lime. Slight oil shows were encountered at 4,537-41 feet.

Neville G. Penrose, Inc., No. 1 Humble-State, section 12-18S-34E, south outpost to the Vacuum pool, has been completed on a bottom of 4,686 feet, in lime. Initial production was 55 barrels of oil per day flowing. The section from 4,212 feet, to the total depth had been treated with 7,000 gallons of acid, in two stages.

Prospector Progresses

Texas No. 2 Swearingen, section 9-20S-34E, prospect in Central Lea, between the North Lynch and the Tonto pools, had progressed past 3,450 feet, and was drilling ahead in lime.

Skelly Oil Company No. 1-X State, section 9-21S-34E, wildcat four miles west of the West Eunice field, which developed sulphur water at the total depth of 4,130 feet, in lime, has been plugged and abandoned.

Jaycee Officials To Attend Chicago Meet

Midland will be well represented at Chicago, Friday, Saturday and Sunday at a meeting of the national board of directors of the Junior Chamber of Commerce.

Clint Dunagan, president of Texas Jaycees, and Taylor Cole, national vice president, plan to attend the sessions.

done. No oil shows were encountered.

Humble No. 1 Federal-Leonard, section 12-26S-37E, lower Ordovician exploration in Southeast Lea County, had reached 11,609 feet, and was boring ahead in sand and green shale.

Continental Oil Company No. 2-B Skaggs, section 23-20S-37E, Ellenburger prospect in the Monument district in East Lea, had reached 9,222 feet, in lime and shale. It is contracted to 11,000 feet, or Ellenburger production, above that horizon.

In Eunice District

Humble No. 1 Federal-Keinath, section 8-21S-38E, deep development about eight miles northeast of Eunice, in East Lea County, had penetrated below 7,011 feet, in lime, and was continuing.

Texas No. 2 Compton, section 17-16S-31E, Northeast Eddy County project between the Robinson and Square Lake fields, had reached 5,512 feet, in gray lime, and was preparing to plug and abandon. It found no oil.

"What else that you buy has Gone Down So Much?"

EVEN the war news would be overshadowed if tomorrow's papers carried the headline "Cost of Living Tumbles 40%." Actually, from the beginning of the last war to the start of this one, the cost of living increased by approximately that amount.

In the past 30 years, while other

things climbed, the average cost of fire insurance has been reduced by more than 40%.

The reason is that fire prevention services maintained voluntarily by leading insurance companies have steadily reduced fire losses. And these savings have been passed along in lowered insurance costs. After fire losses, taxes and other necessary expenses have been paid, but before Federal Income Taxes, less than 2% of the average premium dollar remains.

TUNE IN... LELAND STOWE, World-famous News Analyst Every Saturday Evening on Blue Network. See your newspaper for time and station.

Let us give you the protection of this double-duty Capital Stock company insurance that not only pays if fire strikes, but actually helps keep fires from starting.

The Life of EISENHOWER First Biography of America's Great General

Copyright, 1944, Ann Woodward Miller

By Francis Trevelyan Miller Distributed, NEA Service, Inc.

"ITALIANS! BE PREPARED!"

XXIV SICILY to Eisenhower was but a stepping stone. He began to work harder than ever—there was no let-down. His eyes were now on the mainland of Italy, just across the strait, and the ultimate conquest of Europe. He set about making Sicily a great supply base for the next invasion. Shiploads of men, munitions, and supplies poured in from North Africa. Day and night the Allied bombers raided the Italian coast from the tip of the boot to the outskirts of Rome.

"We're playing in the big leagues now," General Eisenhower exclaimed. "You can't hit a home run by bunting. You have to step up there and take your cut. The time has come to discontinue nibbling at islands and hit the Germans where it hurts. I don't believe in fighting battles to chase someone out of somewhere. Our object is to trap and smash the enemy."

While subduing Sicily, the Allies began an all-out air offensive against the Italian mainland which left that nation reeling. President Roosevelt and Prime Minister Churchill on July 16 sent this message to the Italian people: "The time has now come for you, the Italian people, to consult your own desire for a restoration of national dignity, security, and peace. The time has come for you to decide whether Italians shall die for Mussolini and Hitler—or live for Italy and civilization."

The appeal was punctuated by the roar of Allied planes over Italy, but they did not carry bombs—they bombed Italy with this message in printed leaflets. The following day the

heaviest Allied force ever to raid the Italian mainland smashed at Naples. Three days passed without any apparent reaction in Italy. On July 19 the Allies struck at the Italian capital at Rome. General Eisenhower was demanding his answer. After six more days of terrific bombing, on July 25, 1943, the answer came, and it astounded the world. Mussolini has fallen!

Eisenhower had driven Mussolini from power after 21 years of ruthless dictatorship. An exile of ruthless reaction in Italy. It was revealed that in a dramatic meeting with King Victor Emmanuel in Rome, Mussolini had been voted down by his own Fascist Grand Council through opposition led by his son-in-law, Count Ciano (who, later, upon the demand of his own father-in-law, was put to death before a firing squad in Germany). The fallen dictator was held prisoner in protective custody.

Italy hailed "the end of the painful nightmare that has dominated our lives for the past 20 years." Demonstrations sprang up spontaneously everywhere, and anti-German sentiment ran high as crowds cried for a peace. Thousands of Italian workers stormed the plant of the Fascist "Popolo d'Italia," Mussolini's official newspaper, in Milan and laid it in ruins.

THE fall of Mussolini caused the expectation of surrender to mount high. General Eisenhower granted Italy a reprieve from incessant bombing in order to give the new Sadolet government an opportunity to surrender. Badoglio, for reasons of national pride and lack of military strength, did not take advantage of the opportunity. General Eisenhower put the issue squarely to the Italians on July 31:

"Italians! Tonight we send you a solemn warning. Listen carefully, and tell your friends to listen, for what we say affects the lives of every one of you."

"Six days have passed since the overthrow of Mussolini. In those six days the Italian people have achieved much. But while you were working for your liberation, the Germans, too, were busy. When they first heard the news of Mussolini's downfall, the Germans were stunned. They said to themselves, 'We Germans in Italy are caught like rats in a trap if Badoglio makes peace immediately.' But since then, day by day, they watched the inactivity of the Badoglio government. You know better than we what has happened. There has been no sign of German withdrawal."

"Italians! You know that on July 25 we let up on the aerial bombardment of Italy. We hoped thereby to give Italy a breathing space wherein to unite for peace and freedom. But the Germans, too, have used that breathing space to strengthen their own position, and for that, full and sole responsibility rests with the new government in Rome."

"Italians! We cannot tolerate this, and we issue you this solemn warning: the breathing space has ended. Be prepared!"

Riots approaching revolution broke out in northern Italy. Soldiers joined civilians in demanding the immediate overthrow of Badoglio. They demanded peace.

Underground radio stations broadcast appeals to the people to refuse to co-operate with the Badoglio government and begin organized resistance. Italy was in turmoil. Badoglio had to declare martial law and militarize the railroads and highways and communication lines. In Milan, the Cellari jail was stormed and 200 prisoners of the Fascist government were released.

The whereabouts of Mussolini was a mystery. President Roosevelt issued a warning to all neutral countries to the effect that anyone offering asylum to Hitler or Mussolini or the Japanese war criminals was committing an unfriendly act against the Allies.

NEXT: Italy Surrenders.

McKENNEY ON BRIDGE

By WILLIAM E. McKENNEY America's Card Authority

We like to have a lot of trumps when we play contract, but watch out for the hands in which you and your partner each hold four of a suit, and you have another suit divided five-three. Generally it is better to play the hand at the four-four suit, rather than the five-three.

South played today's hand at six hearts, and he can make seven by ruffing a diamond with the king of hearts, entering dummy with the queen of spades and ruffing another diamond with the ace

TWO BULLFIGHTERS AGAIN EATING; HUNGER STRIKE OFF

MEXICO CITY—(AP)—Two young bullfighters resumed eating Saturday after a 40-hour hunger strike that won them promises of more chances to win laurels. The two young men, Juan Jose Morin and Ricardo Canovas, said they had good records in the provincial bull rings but that they were unable to get engagements in the Mexico City ring which to them is the only place where they can gain fame. While they hungered the

MANPOWER NEEDED TO PRODUCE ENOUGH TIRES

WASHINGTON—(AP)—In his final statement as rubber director, Col. Bradley Dewey predicted Saturday that enough tires, including heavy duty casings, will be available in the fourth quarter of the year to meet essential demands, provided only that increasing manpower is made available.

two young men picketed the bull ring office, encouraged by groups of the many young Mexicans who dream of glory in the bull ring.

SPORTS BOMBER

Telephone operators are no longer the only one's to use the phase Number Please! Though it is doubtful the tone will be quite as sweet, nevertheless, the words will be the same and the P.T. instructors are using it six days a week at Midland Army Air Field.

Under this system, every enlisted man has a P.T. number such as A-14, B-27, C-43, D-55, and so on, and in order to receive credit for physical training, their number is recorded on the instructor's class roster. And just as certain as a telephone call can be completed if the number is not known, so too, credit for physical training cannot be given if one's number is forgotten.

Said Sgt. Clarence Cline of the enlisted men's physical training staff, "A good soldier never forgets his best girl's telephone number, because... also, a good soldier never forgets his P.T. number, because, well..."

The PT numbers are also being used by the cadets as well as the enlisted men, and they are taken by the instructor before the one hour period of physical training workout is started.

Father And Son Around Omaha, Neb., Sgt. "Twirler" Stribling and his father, William F. Stribling, were known as the "Father and Son" match golfers. As a matter of fact, they originated the Father and Son golf combination, which today is as popular as big league baseball.

Sergeant Stribling was taught the game of golf by Andy Blair, who came to this country from Scotland where he had been a maker of golf clubs for years, and at that time was professional at Ralston Country Club on the outskirts of Omaha.

In addition to being good at golf, he shoots in the 70's. Sergeant Stribling is well known for his ability as a deger. He has been bowling for 15 years and participated in American Bowling Congress tournaments in St. Paul, Minn., Columbus, Ohio, Peoria, Ill., and Cleveland, Ohio. He has bowled in seven Nebraska State tournaments. His highest game is 279, and his highest series game total is 721. His wife, Sylvia, is also well known in the bowling circles around Omaha.

SIDE GLANCES

boxers and wrestlers through their daily dozens, some real exhibition fighting will be seen on September 14th.

Lieutenant Borghensani announced late Friday night that he would have fighters on every weight entered in the sports show, with the exception of being short on heavyweights, and says that he will have him before you can say "Jack and Jill."

Record Holder: Meet the soldier who holds the record of 606 sit-ups, and Army form of physical conditioning at Midland Army Air Field.

He is Sgt. Walter E. Spink, of the base physical training department, assigned to the post swimming pool as lifeguard and swimming instructor. Before that he was on the staff of cadet physical training instructors.

Born in Mason City, Iowa, he attended Mason City High School, and it was during this time that Coach Volney Hanson trained him personally to develop him as a half miler to represent the school at their track meets. But before Sergeant Spink could gain the reputation as a champion half mile runner, his parents moved to Coldwater, Mich., where he was graduated from Coldwater High School. While at this school he played varsity football as right tackle weighing 152-pounds, a little light for that position, but the coach used him as a regular member of the team due to his speed in running.

Sergeant Spink engaged in two hobbies before entering the service. The first one was that of collecting data on the sports celebrities and keeping an up-to-date scrapbook on sports clippings from the daily newspapers. His second hobby was that of photography, and he claims that during the years before service he had taken nearly a thousand pictures, developing and enlarging his own prints.

Since entering the Army, Sergeant Spink has been a member of two championship basketball teams. The 814th BTS team that won the championship at Big Spring Army

of hearts. Now he cashes the jack of hearts, leads the three, overtakes in dummy with the ten, and on dummy's two good hearts he discards his queen and ten of clubs.

Six spades can be made only by the double-dummy play of ruffing two diamonds and drawing two hearts and two spades. The club finesse is then taken and West is end-played.

Spindrift and spindrift mean spray blown from sea waves.

Air Field, and then returned to MAAP to cop their championship. In the 1944 basketball season, he was a member of the championship 83rd Air Base.

same operations for Repollo Oil Company in New Mexico, were Midland and Permian Basin visitors last week.

OIL COMPANIES PLAN JOBS FOR VETERANS

An indication of the attitude of the oil companies with regard to providing employment to men and women who return to company service from military leaves of absence, is furnished by a communication received by Levi F. Shiplet, district superintendent in Midland for The Texas Company, from Harry T. Klein, Texasco president.

Of special interest, was the statement with reference to placing of physically handicapped war veterans. "Policy of the company," Klein said, "will be to endeavor in all possible ways to find positions in which the handicapped can work and feel a sense of worthwhile accomplishment."

—Many of our employees," said Klein, "will return with newly acquired skills and with greater educational accomplishments. . . and will have developed greater ability to assume responsibility and to exercise supervision." Such employees, he said, "should be offered an opportunity to use their education and skill to the fullest."

—Each department will endeavor to place its own returning employees, but when an appropriate position is not available in that department or the veteran indicates a preference for work in some other department, the department head will contact other department heads in an effort to place the veteran most advantageously.

—To help department heads in this work the company is setting up an Employee Counsellor Plan to acquaint the employee with the opportunities for educational and vocational training available to him through Federal and other agencies and generally assist him in making a "smooth and constructive transition" from military to civilian life.

—More than 5,000 men and women employees of The Texas Company and domestic subsidiaries are serving with the armed forces.

—Practically all other oil development and producing companies and operators are planning to have plans for all their returned service people.

—Numerous companies already have definite plans to shorten some working shifts, and taking up the slack last will be accomplished by putting their former employees who return from service back on the payrolls.

—If all business and industry could and would re-absorb all their returned service people as well as the petroleum industry will, likely there would be no great unemployment problem in connection with re-conversion.

Sixty-five yards of nylon, enough to make approximately 250 pairs of women's stockings, are required to make one standard 24-foot parachute.

Ranches for Sale 64
FOR SALE—3200 acre ranch, 1280 acres deeded land, 650 acres under irrigation, in river bottom; 350 acres in cultivation. One F30 Farmall and two Ford tractors with implements. Located in Ward County, P. O. Box 1104, Midland, Texas. Phone 2151-M after 7 p. m. Owner, Fern E. Davis. (151-6)

Tourney Play Nears Quarter Finals At Midland Country Club

Five more matches were played Friday and Saturday in Midland Country Club's handicap golf tourney. Play in the quarter finals will get underway Monday. The remainder of the second round matches will be played Sunday.

Bill Simpson went into the quarter finals by defeating Herb Fox 2 up. Steve Hazlip defeated Capt. Clarence Norsworthy 3 and 2 to win a place in the quarter finals. Charlie Green won from Bo Cummings 3 and 1. F. D. Breedlove went into the quarter finals by defeating Wright Cowden 1 up. O. C. Harper won his match from Capt. W. P. Beckers 3 and 2.

Potatoes and tomatoes are both members of the nightshade family of plants.

Thirty-Three Seek Berths On Midland Bulldog Grid Team

Thirty-three players have reported so far for the three workouts of Midland High's Bulldogs. Coach Gen. McCollum said Saturday.

W. C. Filler, who hurt a foot Thursday, will be able to participate in the workouts again this week, he told McCollum.

Charles Funk, letterman, has not yet reported, but notified McCollum he would be out for practice in a few days. J. T. McNeal, squadman, also has notified McCollum he will be out for practice when school starts. Others are expected to report after school starts.

First Game Is Sep. 22
With the start of school McCollum will start working out his charges an hour and a half in the afternoon, and another hour and a half at night.

First practices have been devoted, mainly, to conditioning and fundamentals, such as kicking and passing. By the middle of the week the men will be devoting time to scrimmages.

The Bulldogs will have only 13 practice days before their first game of the season, with Pampa, September 22.

FREE FOR ALL WINS AT WASHINGTON PARK

CHICAGO—(P)—Undeclared "Free for All" streaked to his fifth straight victory Saturday to win the \$60,750 Washington Park Futurity by a length.

Lt. Col. Jim Daley, right, Amarillo, Texas, and Lt. Sumner Calish, Boston, Mass., engage in a bout of fisticuffs at a U. S. 9th Air Force fighter base in France for a little relaxation between sorties. Col. Daley, deputy commanding officer of the group, has three planes, four trains, four ships (motor torpedo boats), and 13 other craft to his credit. (NEA Telephoto.)

A fish has no facial expression because it has no facial muscles.

A Little Groundwork For Airmen

Sgt. Max Baer Has Back Injury

DENVER—(P)—Staff Sgt. Max Baer of the Army Air Forces, former World's Heavyweight Boxing Champion, reported at Fort Logan convalescent hospital Saturday for treatment for a back injury.

The hospital did not make public the nature of the injury or say how it was incurred.

Elliott's Fourth Hit Wins For Pirates

PITTSBURGH—(P)—Bob Elliott's fourth hit of the game, a whistling single through the box, scored Jimmy Russell from second base in the ninth inning Saturday and gave the Pirates their second straight win over the Cardinals.

Max Butcher, the fourth pitcher to see action for the Buccos, was credited with the 5-4 victory, while Ted Wilks, the second Cardinal hurler, was charged with the loss.

The score: R H E
St. Louis..... 111 010 000—4 10 1
Pittsburgh..... 012 000 101—5 12 0
Schmidt, Wilks and W. Cooper; Roe, Starr, Rescigno, Butcher and Canelli, Lopez.

SMU Has One Of Hottest Backfields In Southwest Group

By HAROLD V. RATLIFF

DALLAS—(P)—Southern Methodist University is planning on the best backfield in the Southwest Conference this season and it ought to be an interesting experiment when the Mustangs play Texas Nov. 4.

Texas feels that way about its line and the S.M.U.-Longhorn battle should test the old theory that it's better to have a strong line than a backfield, and vice versa.

But, be that as it may, Jimmie Stewart is cooking up offensive trouble for his five Conference foes out on the hilltop and the arrival of a big guy named Ralph Ruthstrom just about makes it unanimous. Ruthstrom played three seasons with Sam Houston State. He weighs 215 pounds and plays either tailback, fullback or wingback. He's fast and rugged. Sounds like a coach's dream, huh?

Veteran Backfield
Ruthstrom adds to a veteran backfield already on hand at S.M.U.—Ivan Cunningham, C. D. Allen, Eugene McClintock, L. B. Cox and passer Wayne Shaw, not to mention Bill Squires, who would have been a letterman had he not received an injury early last season followed by transfer to Texas Christian.

Squires, a great punter, a good passer and a fine runner, is back but it's problematical if he will see much service. He had a knee operation in May and it is not yet known whether the leg will stand up under a season of play.

Shaw also is doubtful. He had a kidney removed a couple of years ago but played last season only to receive a broken leg. The leg is sound again but he may not play this year because an injury to the other kidney would be very dangerous.

But without Squires and Shaw, S.M.U. still would have a fine backfield. Now all Stewart has to worry about is his line. There are only two lettermen there—Eugene Wilson, 180-pound end, and James Meleto, 205-pound guard.

Scouts Busy
The S.M.U. scouts were pretty busy during the off-season, it appears. They turned up a flock of high school performers long on everything except experience and not exactly novices in football.

Pairing with Wilson at end will be Joe Dyer, 175-pounder from Sherman High. At tackles will be Pete Kotlarich, the Galveston star, and Earl Cook, who a couple of seasons ago was an all-state guard at Sunset High (Dallas), then had spring training at Texas A&M. Kotlarich weighs 195, Cook 205.

At guards it will probably be J. O. Rollwage, 190-pound standout at Sunset High last fall, working opposite Meleto.

Center is Fred Godwin, Sunset 180-pounder who had spring training at S.M.U.

Five Squadmen
Stewart has five 1943 squadmen to supplement his lettermen. They are Squires, Jack Elliott, 260-pound tackle; Jimmie Kendrick, 160-pound tackle; Billy Gibbons, 155-pound wingback who hurt his knee in the opening game and never played again last season, and Bob Holloway, 185-pound tackle shifted to end this season.

S.M.U. also has some "pick-ups" from other schools, including Dave McCoy, 200-pound tackle who was a freshman footballer at Rice in 1941; Ronald McWilliams, who played center at San Angelo Junior College; James Bulls, Baylor freshman end in 1941 and before that a regular at Kilgore Junior College; James Barnett, guard at Texas A&M last season, and L.H. Schultze, a center at Hillsboro Junior College. A newcomer to the campus who is creating a buzz is Louis Williams, 155-pound tailback from Waco High. Williams has blossomed into about the best passer on the squad.

Brooklyn Dodgers Win Four Straight

BROOKLYN—(P)—Curt Davis pitched the Dodgers to their fourth straight triumph Saturday, as Brooklyn defeated the New York Giants 8-4. Bill Voiselle, first of five Giant hurlers, was charged with his fifteenth defeat of the year against 17 won.

The score: R H E
New York..... 000 301 000—4 14 2
Brooklyn..... 112 310 000—8 11 0
Voiselle, Brewer, Adams, Fischer, Hansen and Lombardi; Davis and Owen.

Articulate speech is said to be the root of culture.

Frankie Parker Upsets McNeil At Forest Hills

FOREST HILLS, N. Y.—(P)—Sgt. Frankie Parker, ranked in the first ten of American tennis every year since 1933 and considered a championship threat most of those seasons, made his big bid for the title he never has captured when he whipped Lt. Don McNeill of the Navy, 6-4, 3-6, 6-2, in a semi-final tussle Saturday.

McNeill, 1940 champion and seeded second this year, was considered the only serious rival to Ecuador's Pancho Segura in the men's singles division but he was clearly outplayed by Parker. The army air force sergeant, stationed at Muroc Field, Calif., will face the winner of Sunday's clash between Segura and William Trabert of Indianapolis in the title match Monday.

Talbot earned his semi-final bracket Saturday with a decisive 6-4, 6-4, 6-3 decision over Aviation Cadet Bobby Falkenberg of Mercer Field, Calif., the National Junior Champion.

Parker's upset triumph overshadowed the women's semi-finals in which defending champion Pauline Betz of Los Angeles turned in her most decisive victory over her long-standing rival, Louise Brough of Beverly Hills, Calif., and Margaret Osborne of San Francisco rallied to defeat Dorothy Bundy of Santa Monica.

Miss Brough, who extended Miss Betz to three sets in the 1942 and 1943 finals, was a straight set victim, going down 6-2, 6-3, as Miss Betz displayed the finest tennis she has played in the tournament. Miss Osborne, seeded second, had some trouble with her net game at the start but steadied to win, 4-6, 6-4, 6-0.

BROWNIE WINS AT GARDEN STATE PARK

Mrs. Wyatt Webb Guest Of Honor At Stork Shower

Mrs. Wyatt Webb was guest of honor Thursday night at a stork shower given by Mrs. Roy McKee, Mrs. James L. Kendrick, and Mrs. Neal D. Staton at Mrs. McKee's home, 907 W. Michigan. The room was appropriately decorated with pink roses and garden flowers. The pink and blue theme was carried out in the refreshments, which consisted of small cakes decorated with rosebuds and a fruit punch.

Among the guests who attended were: Misses J. C. Montgomery, Henry Brunson, Speck Locklar, Milton Charno, J. L. Sumrall, Joe Youngblood, J. C. Smith, Harold Huffman, Ernest Nance, Dona Dunagan, Kenneth Webb, A. F. McKee, J. Y. Francis.

Raymond Monkress, Guy Brennan, Faye Carson, Frank Smith, J. P. Carson, Pearl Blair, Lester Short, Bernard Hochdors, E. V. Guffey, Johnny Carter, Lige Midkiff, J. O. Vance, S. H. Hudkins, R. R. Gray, Charlie Hout, B. H. Spaw, Ray Treammel, and L. A. Arrington.

Misses Frances Guffey, Marie Bell McKee, Veneta Spurgeon, and Mary Kendrick also attended, while Miss Jimmie Kathryn Kendrick poured the punch and Miss Billie McKee took charge of serving.

Miss Royce Ray McKee was in charge of the guest register.

Library Wants Old Magazines

The Midland County Library is making an appeal for back issues of the better magazines. Since the war, great demands have been made for copies regularly received at the library, and the magazines soon become too ragged to use.

The library will greatly appreciate, therefore, used copies of such periodicals as "American Home," "Better Homes and Gardens," "Woman's Home Companion," "Fortune," "Life," "Collier's," "Saturday Evening Post," "House Beautiful," "House and Garden," "Vogue," "Harper's Bazaar," "Mademoiselle," "The Atlantic Monthly," and "Reader's Digest."

Geological magazines will also be very welcome, as many persons use these magazines for research and reference work.

'Somewhere In Italy' Is Scene Of Reunion Of Texas Brothers

Three brothers who hadn't seen each other in more than two years met recently on the battlefields of Europe. They are Sgt. Doyle Whitefield of Midland, and Lt. Norman and Sgt. Melvin Whitefield of Abilene, Texas. Learning that they were stationed fairly close to one another, the brothers were able to plan a reunion "somewhere in Italy."

While they were together, army photographers took pictures of them to send home to their families—reversing somewhat the usual procedure of families sending group pictures to the boys overseas.

Sgt. Doyle Whitefield is the husband of the former Charline Parrott, who is temporarily making her home with her parents, Mr. and Mrs. Pearl Parrott, 310 S. Pecos. He is in an Ordnance Headquarters, Lieutenant Whitefield is a B-24 pilot, while the third brother, Melvin, is a sergeant in the Quartermaster Corps.

Girl Scouts Pass Swimming Tests At Pagoda Park Pool

Swimming tests were given Thursday to all girl scouts desiring to win swimmer's merit badge. The tests were conducted by Mrs. Thelma Casper, Red Cross swimming instructor, assisted by Mrs. Kenneth Mack and Mrs. R. L. Alkin.

In order to pass the test, each girl had to be able to swim 100 yards, dive well, float, know at least two strokes, know water games, understand safety precautions, tread water, and be able to save herself in water.

Scouts who succeeded in passing the tests were: Mildred O'Donnell, June Hazlip, Rosaline Leggett, Nancy Mack, Mary Alkin, Gloria Anguish, and Peggy Minear.

Pattersons Entertain At Farewell Party For Betty Bayer

Mrs. R. W. Patterson and her daughter, Patsy Ann, entertained at an informal open house in honor of Miss Betty Bayer in their home at 904 W. Louisiana Saturday morning.

The party was a farewell get-together to enable many of Miss Bayer's friends to bid her good-bye before she leaves for Stephens College next week. About 15 young people attended.

Bride Honored At Party; Leaving For San Francisco

Miss Marye Reising, who left Wednesday for San Francisco, to become the bride of Hiller Hess of that city, was guest of honor at a miscellaneous shower given at the home of Mrs. Nellie Feiler, 317 S. Big Spring. The hostesses were Mrs. H. G. Phillips, Mrs. Lige Brothers, Mrs. May Moffett, Miss Mamie Lusk, and Mrs. Feiler.

Miss Moffett presided at the bride's book where each guest gave a recipe for "a happy married life" as they registered.

The decorations followed an autumn motif, with fall flowers used throughout the house. The gifts were brought in a decorated basket, and were displayed to the guests upon opening. Those who were present or who sent gifts were:

Misses J. A. Sewell, J. O. Shannon, Q. M. Sholton, Houston Sikes, H. E. Skipper, A. D. Smith, Ivan Noyes Jr., Frank Smith, Sr., Earl Ray, Lorene Sparks, W. B. Standefer, Coren L. Stephenson, Paul Smith, Ira Cole, Velma Smith, Lavern Ponder, Mildred Myers, Sid Peterson, E. P. Eubanks, Geo. P. Bradbury, Rayne Carroll.

Misses M. L. Gard, L. M. Short, N. L. Beauchamp, Glen Brunson, Caffey, Clyde Hamblen, Ray (Continued on Page 2)

Mrs. F. B. Stickney And Baby Visiting Husband's Parents

Mrs. Franklin B. Stickney and her six-months old daughter, Claudia Kay, arrived here last week to spend a few days visiting her husband's parents, Mr. and Mrs. A. B. Stickney, 707 W. Tennessee.

Just before leaving her home in Lovington, New Mexico, Mrs. Stickney received a cable from her husband, Lt. Franklin B. Stickney, that he has returned to England after participating in the invasion of South France.

Young Mrs. Stickney plans to leave for Lovington at the beginning of the week.

Mrs. McGuire Becomes New Society Editor

Mrs. Marguerite McGuire has joined the staff of The Midland Reporter-Telegram as society editor, succeeding Mrs. Sue Addington, who resigned.

A native of Chicago, Mrs. McGuire served as local correspondent for The Daily Calumet and The Southeast Economist there. She attended Mundelein College for Women, where she majored in journalism, and received her degree from Chicago Teachers College.

Mrs. McGuire is the wife of Capt. Thomas J. McGuire, director of physical training at MAAF.

School Togs Do Double Duty

Jaycees' Rodeo Dance Features Monday Program

The social side of Midland's Lab-or Day program will feature the Junior Chamber of Commerce's rodeo dance.

Advance sales reported at the Chamber of Commerce indicate the floor will be crowded with dancers. The Jaycee committee in charge of the affair is assembling a collection of the most popular dance records of the day for the dancers.

Admission price has been held to a minimum, Russell Howard, chairman of the dance committee, pointed out.

The occasion will be strictly informal, Howard said, and there is no need to "dress up" for the event. The Jaycees dance committee is composed of Howard, John Hill, Morris Pruitt and T. L. Stall.

The dance will start at 9:30 p.m. and continue until midnight.

Visits Daughter

Mrs. C. L. Bradshaw, 508 Holmesley, is entertaining her mother, Mrs. Thomas J. McGuire, director of physical training at MAAF.

Matchmate Ensembles Guarantee Well-Dressed Title On A Budget

By EPSIE KINARD, NEA Staff Writer

NEW YORK—"Double or nothing clothes" is what high school and college girls have dubbed tricky new ensembles with which they can ring in so many changes that classmates can be fooled into thinking that limited wardrobes are quite super-sized.

As an example of sporty togs in the suit with the detachable cape, shown center, in a Claire McCordell model of wool tweed in black and red plaid. As you see it, the nifty little outfit is good for dressy service for any day. But when it rains, a girl can reverse the cape—it's lined with water-proofed red airplane cloth—and wear it as a toss-on wrap to repel showers. But that's not the only surprise. The junior miss can team up the jacket of this plaid suit with a pair of matching slacks and produce still another outfit.

From to vary a wardrobe, note the knee britches—they're black, red and white plaid wool tweed—and natural colored rabbit's hair shirt, shown right, which are half of a "double or nothing" outfit. The other half of these McCordell-designed togs are skirt and bolero "separates" of plaid tweed, intended for mixing and matching.

Dresses that boast the same kind of versatility are jumpers with now-you-see-them, now-you-don't blouses. When you see the blouse, as you do in the red and black polka dotted number, worn with the black wool jumper, shown left, the dress is ready for classrooms or for trips to the city. Without the blouse, the sleeveless jumper, dressed up with gala accessories, is a safe bet for a girl to wear to a campus tea or dance.

Spotters Report

Spotters' Group IV was in charge of the surgical dressing meeting at the USO Friday. Workers who reported were Misses A. C. Colburn, J. G. Surak, A. M. Baird, D. G. Wasson, C. E. Daggett, Jack Reed, L. R. Kondrich, J. R. Witherby, D. T. Beattie, J. J. Chopp, E. C. Hyland, H. E. Watkins, and E. J. Ben-jamin. Mrs. S. J. Silverman and Mrs. J. F. Welch acted as supervisors.

Pastor Of First Baptist Church Marks Second Anniversary

The Rev. Vernon Yearby will observe his second anniversary as pastor of the First Baptist Church Sunday. Since arriving in Midland, in 1942, Mr. Yearby has worked unceasingly to develop and enlarge the church. Under his leadership more than 300 persons have become members, the Sunday school has added five departments, bringing the total number of groups to 12, and the church has purchased a modern, new home for the associate pastor and his family.

Mr. Yearby is active in Baptist work throughout the state and is a member of the executive board of the Texas Baptist General Convention. He and Mrs. Yearby make their home in the parsonage near the church. They have two daughters, Rozanne and Harriett.

Mrs. Dan W. Finlayson Returns To Midland

Mrs. Dan W. Finlayson, the former Evelyn Hudkins, has returned to Midland from Alexandria, La., to remain with her parents, Mr. and Mrs. S. H. Hudkins, while Lt. Finlayson is overseas.

Midland Students Start Trips To Colleges In Many Sections Of Nation

By MARGUERITE McGUIRE

In spite of many wartime changes, including accelerated courses which make college pretty much an all year round affair, the annual fall exodus to the nation's universities has begun, and many Midland households are feeling this week the excitement of getting Jane or Bill off to school. Upper class students are kept busy answering the questions of eager freshmen on the "do's and don'ts" of the colleges of their choice, and all feel the exhilaration of that comes of starting in a new year, and for many, a new type of life.

One of the farthest-traveling of students will be Miss Nancy LaForce, who will leave Sept. 10 for Mills College in San Francisco. She will enter the junior class there, having attended Stephens College in Missouri for her first two years.

Henry Busse And Band Entertain At Service Club

About 4,000 people went to sleep Friday night filled with the rhythm of swing and sway in their hearts after dancing to the scintillating tunes played by Henry Busse and his orchestra at the Post Service Club at Midland Army Air Field.

Arriving at the bombardier base about 6 p.m. from Roswell, N. M., Busse and his musical aggregation tuned up their instruments and entertained the enlisted men, cadets and their guests, till 9:30 p.m. at which time the club was cleared while the band took a breather, before getting underway with dancing music for the officers' dance party which started at 10 p.m.

Major Russell B. Brown, special services officer, and Capt. Mancel Hall, officer club officer, made the arrangements for the appearance of Busse. Young ladies from both Midland and Odessa were special guests of the military personnel.

Club Brightly Decorated

The Service Club was brightly decorated in musical design atmosphere, adding luster and gaiety for the thrilled dancers. During the first half of the dance program, the front of the huge stage was a mill-ing ground for the lovers of music, and Busse was kept very busy greeting and shaking hands with the soldiers and their guests. As an added attraction, tables had been placed outside the club where the dancers could sit and enjoy the musical strains.

Yes, Busse and his band came and now are some of the memories of Friday night will remain in the hearts of the thousands who say, heard and danced to his popular music. And so with "Hot Lips" his theme song, Busse is now winging his way on a tour of music and dancing far distant from Midland Army Air Field.

Library Books

New books added to the Midland County Library:

Baldwin, Change of Heart; Beard, Basic History of the United States; Beck, Final Score; Binns, Timber Beast; Bradley, Alice Bradley Menu-Cook-Book; Brand, Fighting Four; Carr, Till Death Do Us Part; Cave, Clouds and Weather Phenomena; Coffey, Livestock Management; Costain, Fide With Me; Donald, Quebec Patchwork; Pitt, Clues to Christmas; Hunt, MacArthur and the War Against Japan; Huxley, Time Must Have A Stop; Hyde, Russia Then And Always; Kufman, Letters of Alexander Woodcock; Klaw, Camp Follower; Knight, Dr. Christian's Office; Lardon, Anna and the King of Siam; Lieber, You The Jury; Mangham, Earth's Green Mantle; Mayorga, Best One-Act Plays of 1943; Morris, Love Calls a Tune; Nye, Wild Horse Story; Palmer, It Can Be Done This Time; Pennell, History of Rome; Hank, Porter Papa Was a Preacher; Robertson, Oasis.

Easy-Does-It Is Campus Queen's Advice To New College Students

JANE HUTCHINSON: Smart.

By ALICIA HART
NEA Staff Writer

Excited about the four college years that lie in wait for you? Want to be popular and win all sort of honors?

Well, any sympathetic graduate who has seen promising careers spoiled by eager beaver mistakes can give you counsel. One recent Smith College grad whom Jane Hutchinson of New York City, winner of Vogue's Prix de Paris, an award which will give her a year's job on that magazine, an insight into the publishing business and, if conditions permit, a six-months' stay in Paris—warns you not to try to win friends, make contacts, develop faculty crushes or crash societies too hastily.

Jane's advice is to take it easy; to watch and wait until you know what it's all about. By taking the long view—and while you're taking it Jane warns not to dress too conspicuously, either you'll be more apt to work up to friends, contacts and cherished bids which will be worth the patient effort.

Capt. And Mrs. Queener Return To Midland

Captain and Mrs. L. R. Queener have returned to Midland from Miami Beach, Fla. Capt. Queener has been assigned to duty at Midland Army Air Field.

Mrs. Queener is the former Doris Jane Preston.

'JOSEPH THE PROVIDER' DONATED TO LIBRARY BY WEDNESDAY CLUB

The fourth and final book of Thomas Mann's "Joseph" series has been donated to the Midland County Library by the Women's Wednesday Club in memory of Mrs. George D. Elliott, a charter member of the club. This volume is entitled "Joseph the Provider" and completes the tetralogy of "Joseph and His Brothers," "Young Joseph," and "Joseph in Egypt." The series is considered by many authorities as the greatest creative work of the twentieth century, and this final volume is said to be the best of the four books. Readers may now find all four on the shelves of the County Library.

Rev. Pickering's Son Receives Degree At Texas Christian

The Rev. John E. Pickering, Jr., son of Rev. and Mrs. John E. Pickering, of the First Christian Church received his Bachelor of Arts degree last week at Texas Christian University in Fort Worth.

A graduate of Midland High School, he attended Johnson Bible College in Knoxville, Tenn., and T. C. U., where he majored in Bible. He is now minister of the First Christian Church in Howe, Texas, and is taking post-graduate work at T. C. U.

Mrs. Roland Gray Is Hostess To Belmont Bible Class Friday

The Belmont Bible Class met Friday morning in the home of Mrs. Roland Gray, 600 North A Street. Miss Bertie Sexton, president, was in charge of the meeting which was opened with a prayer by Mrs. H. M. Reagle.

The regular business was postponed in favor of a book review by Mrs. Earl Chapman. Mrs. Chapman gave a stimulating talk on Perry Burgess' book, "Who Walk Alone."

Mrs. W. G. Attaway gave the closing prayer.

Members who attended were: Mrs. Gerald Wakefield, Mrs. W. P. Collins, Mrs. R. Chanslor, Mrs. B. M. Hays, Mrs. A. B. Stickney, Mr. W. L. Sutton, Mrs. Harvey Kiser, Mrs. Maude Newnam, Mrs. Wright, and Mrs. Simpson.

Three Marriage Licenses Issued

A sudden boom in marriage licenses was recorded Friday afternoon with three licenses issued at the office of County Clerk Susie G. Noble.

Licenses were issued to Calvin C. Daugherty and Gwendolyn Love; Sumner Arrutzky and Rose Geller; and Lonnie H. Cordwell and Pearl M. Moreland.

Make This Barcel Recipe To Lose Ungainly Fat

If you are overweight, perhaps due to over-indulgence in food and not due to any glandular disturbance, why not try this inexpensive home recipe to help bring back alluring curves and graceful slenderness.

Here is a recipe that can be used inexpensively at home. Just get from your druggist 4 ozs. of liquid BARCEL CONCENTRATE. Add enough grapefruit juice to make a pint. Then just take 2 tablespoonsful twice a day. Wonderful results may be obtained quickly.

Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take and pleasant. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

SUNDAY SCHOOL OF CHRISTIAN CHURCH HAS ANNUAL PICNIC

The annual picnic of the First Christian Church Sunday School was held Friday night on the church lawn. Each family supplied a covered dish, while the men of the families were responsible for the lemonade.

R. Z. Dallas, superintendent of the Sunday School, was assisted by I. E. Hood, general chairman, and Guy Brenneman in arranging the picnic.

The food committee, under the leadership of Mrs. B. W. Reer, consisted of Mrs. Hood, Mrs. B. L. Hoffer, Mrs. Clinton Myrick, Mrs. J. Roy Jones, and Mrs. S. W. Estes.

Calvin Daughtry Wed In Simple Ceremony

Seaman 1/c Calvin C. Daughtry was married Saturday to Miss Gwen Lowe of Tahoka, Texas, in a simple ceremony performed by the Rev. A. W. Smith, pastor of the Calvary Baptist Church. Seaman Daughtry, who is home on a 21-day leave is the son of Mr. and Mrs. Clem Daughtry, 410 S. Fort Worth.

The bride's mother was here for the ceremony and visited in the home of Mr. and Mrs. Daughtry.

Mrs. Irma Mancell Entertains Parents

When Mrs. Irma Mancell returned from Wichita Falls, Texas, Wednesday, she was accompanied by her parents, Mr. and Mrs. Harry Doherty, of that city.

Mr. and Mrs. Doherty will spend a few days here visiting with Mrs. Mancell, who is owner of the Book Stall.

CPL. TURNER ARRIVES TO SPEND FURLOUGH VISITING MOTHER

Cpl. Norman D. Turner arrived Saturday to spend his 15-day furlough visiting his mother, Mrs. J. E. Turner, 506 1/2 S. Pecos. He is stationed at Fort Warren, Cheyenne, Wyoming, where he is a member of Headquarters Detachment of the 1st Regiment.

A graduate of Midland High School, Corporal Turner attended the University of Kentucky, where he received his degree in engineering. After graduating from college, he was employed by the Atlantic Refining Co., until he entered the Army.

Veteran Flier Is Visitor Here

Capt. Pat Neff Howard, brother of I. J. Howard, is visiting in Midland and Stanton on a 30 day leave. He has flown 28 missions; been awarded the distinguished flying cross, the air medal and three oak leaf clusters. His group has received a Presidential citation.

Texas Women Seek More Appointments

DALLAS—(P)—A meeting of women who wish to urge the governor and state officials to name more women on state boards and commissions has been called in Austin Sept. 7 by Dr. Mattie Lloyd Wooten, dean of women at Denton's Texas State College for Women.

Expected to lead the conference in the House of Representatives is District Judge Sarah T. Hughes of Dallas.

Visits Brother

Mrs. Delbert Eversole and her two-year old daughter, Donna, returned last week from Camp Howze, near Gainesville, Texas, where they spent a few days visiting Mrs. Eversole's brother, Prc. William Donnar. The Eversoles live at 801 S. Weatherford.

A WAC Dental Technician Lends a Helping Hand

Pfc. Mary K. Melton of McCrory, Arkansas, a dental technician of the Women's Army Corps, helps First Lt. Irving S. Kasdan treat the teeth of Pvt. George Bubnikovich at Halloran General Hospital. Bubnikovich served at an Ordnance base depot in North Africa. Wacs are assigned to 239 types of Army duties.

WAC Needs Medical Technicians For Work In Army Hospitals

Pfc. Mary K. Melton of McCrory, Arkansas, was not content to stay at home and let her two brothers represent the family in the armed forces—especially after a tragic day in May, 1943. On that day, word came that her fiancé had been killed in action.

Miss Melton felt she had to do something. A few weeks later, she donned the uniform of the Women's Army Corps. She requested training as a dental technician, and was sent to school to receive training. She is now assigned to Halloran General Hospital, Staten Island, New York, where she serves as an assistant to First Lt. Irving S. Kasdan, a dental officer.

Private Melton now has the satisfaction of knowing that she is contributing one of the most vital services a woman can perform in this war. Her work is among the men who have been wounded in combat and have been returned to this country for treatment in army hospitals. She is in direct contact with the men who have given so much, and she sees every day the need for skilled technicians to help care for them.

More Women Needed
The Army now is making a special effort to recruit competent young women for training as technicians in all fields of medicine. In order to qualify for such training at least a high school education, and other requirements for enlisting in the Women's Army Corps, are necessary. Women who have had previous experience as technicians are, of course, especially urged to enlist in this work, although previous training is not necessary.

Women who qualify for work of this type are given a four months course at an army school, under the guidance of medical officers, after which they are assigned to army hospitals.

On Monday afternoon, Sgt. Joanna D. Lavery and Pvt. Theopila E. Philip of the Women's Army Corps will be at the USO to discuss the corps with women interested in joining. One requisite for enlistment in most branches, other than the medical technician field, is at least two years of high school or their educational equivalent. Sergeant Lavery and Private Philip will outline the other requirements for enlistment and will give information concerning types of work open to WACs to anyone desiring further knowledge.

Pvt. Rush Registered At Truax Field

Pvt. James C. Rush has been enrolled in the technical school for training of radio mechanics at Truax Field, Madison, Wis. He will receive a complete course in aircraft radio mechanics.

Private Rush was employed by the Trinity Drilling Company before entering the Army.

Lt. Preston Assigned At Miami, Fla., Base

Lt. James E. Preston, son of Mr. and Mrs. R. B. Preston, who was recently graduated from Officers Candidate School, has been assigned as wing technical officer at 8th Army Communication Headquarters, Miami, Fla.

STATE TAX STAMP REVENUE UP TWO MILLION

AUSTIN—(P)—Revenue from tax stamp sales for the fiscal year ending Aug. 31 reflect an increase of more than two million dollars beyond 1942-43, State Treasurer Jesse James reports.

Total revenue this year was \$7,706,805 as compared with \$6,653,559 for the previous year.

Total revenue from tax stamps on cigarettes, liquor, prescriptions, wine and beer for this fiscal year was \$24,158,104 as compared with \$21,908,677 for the preceding year.

Rental Registration Reveals 1,412 Units

Putting OPA rent control into effect in Midland has given a fairly accurate check on the number of rental units available here.

To date 1,412 units have been registered. This includes single bedrooms, one room apartments, garage apartments and houses.

This figure probably does not represent the full number of rental units in Midland, Bill Baehr, OPA rent control director, said, as there are probably several in Midland who have not yet registered their rental units.

Those who have not registered rental units have until September 10 to do so, Baehr said.

At Odessa 1,706 units have been registered.

Red Cross Notes

Workers reporting to the surgical dressing room in the courthouse Friday were: Mrs. C. A. Mix, supervisor; Mrs. George Kidd, Mrs. P. R. Pattison, Mrs. George Bennett, and Mrs. Leif Olson.

The bowie, or hunting knife, got its name from the Texas frontiersman, James Bowie, one of the Alamo's defenders.

Congratulations To

S/Sgt. and Mrs. J. H. Dence on the birth of a son weighing 6 lbs., 11 oz., born Sept. 2 at the post hospital, MAAF.

OZARKA WATER CO. welcomes these new arrivals. Phone 111 and a bottle of OZARKA will be delivered to you free—adv.

Post Office Clerks Will Ask Questions Concerning Packages

WASHINGTON—(AP)—When you mail overseas Christmas packages during the next month, the Post Office clerk expect to ask you these questions:

1. Is there any written matter or personal correspondence. If so, the P.O. says you should enclose an address slip duplicating the "to and from" on the outside of your package. You are allowed to write simple dedicatory inscription on the fly-leaf of a book, but no long note of letter-like proportions.
2. Is there any fragile articles in the package? You must cushion any breakable object with crushed newspapers or substitute.
3. Is there anything perishable? You cannot mail bonbons, fresh fruit or crumbly cookies.
4. Anything inflammable or liquid? Matches cannot be mailed, nor anything else inflammable the P.O. warns. Not over two ounces of liquid can be shipped and that must be in a completely absorbent wrapping.

The P.O. begs you to tell the truth about what's in the package, if you expect your service man or woman to receive your gift.

GI'S TO EAT TURKEY

WASHINGTON—(AP)—The Army is trying to see to it that every soldier gets turkey on Thanksgiving. Plans to buy and distribute turkey began in June, the quartermaster corps reports and the War Food Administration helped by restricting turkey sales until the army had

Rhoden Promoted At Convalescent Hospital

Floyd O. Rhoden, formerly employed by the Ellis Funeral Home, has been promoted to the rank of technician fifth grade. He is stationed at the Welsh Convalescent Hospital, the Army's new reconditioning center at Daytona Beach, Fla.

Jaycees To Be Guests At Legion's Barbecue

Members of the Midland Junior Chamber of Commerce and their families will be guests of the American Legion at a barbecue September 19 at Cloverdale. An invitation was extended the Jaycees by the Legion at a meeting of Jaycee directors Friday.

The affair will be a combination barbecue and installation of new officers of the Midland Legion post.

OVER ONE MILLION DISCHARGED FROM ARMY

WASHINGTON—(AP)—Principally through discharges, United States Armed Services have lost 1,607,366 officers and enlisted personnel since the war started.

The Navy reported that separations from the naval service—including the Marines and Coast Guard—since Dec. 7, 1941, total 328,366 officers and enlisted personnel.

A chevrotain is a mouse deer, found in India.

what it needed. But the biggest turkey crop in years, it added, assured plenty for everybody.

Off To School They Go In Cottons Smart As Mother's

Big and little sister agree that ice cream's a treat and that they like their plaid gingham dresses best of all for school. The plaids vary, but the styles are identical, with small dainty skirts, fitted bodices, puffed sleeves, and cowl necks and collars.

There's as much style in little girls' clothes for school and play nowadays as in big sister's and mother's clothes, and pert young garments with the same casual yet pretty look found in the best grown-up fashions are first choice with both the younger generation and their mamas, says the fashion director of the Cotton Textile Institute and National Cotton Council.

Over-trimmed, gingerbread styles are as dead as the dodo. Most of these neat young clothes are made of cotton fabrics which have proved as practical as they are pretty from season to season and year to year. In spite of cotton shortages, there's a wide variety of fabrics—gingham, pique, broadcloth, sport denim and print cloths have been allocated for children's wear—to mother's and children's delight.

Kindergarten And Nursery School One of the important style trends in tiny dresses is the simulated jumper dress usually in plaid or checked gingham with white pique sleeves and dickey effect attached to the body of the dress, or of plain or striped chambray with a white blouse effect.

The most popular silhouette for little sisters has a gathered, semi-dainty skirt, simple back-buttoned bodice and square or round neck, although the nautical dress in washable cottons and the princess dress have many admirers. There's an international flavor to tots' clothes today, with Chinese themes—for instance, like one chambray dress with a standing collar and across the pocket. There are Oriental colors, Russian blouse fashions, early American inspiration and Mexican effects.

Tiny wash suits in gingham plaids share honors with one-piece striped and corded chambrays, plaid and checked gingham, floral cottons, and plain color or trimmed with applique.

Sportswear for the sandbox set is more important than ever. Neat leisure jackets combining corduroy sleeves and black with checked fronts, cardigan blazers, and tailored jackets are worn with plaid or pinwale corduroy skirts. Braid-bound jackets and neat corduroy vests over white cotton blouses also show how the same style influences at work on adult fashion are just as important for the really tiny girl.

Grade School And Jr. High Jumpers, pinafores, and suits are at the head of the class with the primary school and younger junior high crowds. Scalloped white insets down the blouse front of a border print with the border used on either side of the blouse and on the pockets is an illustration of the simulated jumper. Navy plaid with a white collar and gilet in big and little sister sizes is another.

Checked gingham with simulated boleros outlined with contrasting binding in big and little sister versions show how one-piece dresses often suggest suits. Striped chambray with rickrack-edged suspender straps and rickrack on the skirt yoke is another suit type. Bright corduroy skirts with contrasting pique blouses are also favorites with the pigtail girls, and peasant embroideries used on vests and in stripes on blouse or skirt.

School fashions cannot be mentioned without a glance at the important new size range for girls going through the transition between little girl and teen. Known as "Pre-Teen," "Debu-Teen," "Teenette," etc., the styles have the sophistication of regular teens, but are proportioned to fit smaller-than-teen figures. The awkward Age in clothes has disappeared. Pinwale corduroy princess dresses, velvet jumpers, plaid gingham shirtmakers, corduroy skirts and cotton blouses are among the styles that these youngsters will wear to school.

Coming Events

SUNDAY: The USO will hold an open house for all service people from 5 p.m. to 9 p.m.

MONDAY: World's Championship Calf Roping will be held at the Midland Fair Grounds, at 3:00 p.m.

The Junior Chamber of Commerce will give a Rodeo Dance in the Crystal Ballroom of the Scharbauer Hotel from 9:30 p.m. to 12 midnight. Tickets are \$1.50 per couple. All local residents and visitors are invited to attend.

The scheduled joint meeting of all circles of the Women's Missionary Union of the First Baptist Church will be postponed until next Monday because of the Labor Day holiday.

The Executive Board of the Auxiliary of the First Presbyterian Church will meet at 2:30 p.m., at the church, followed by the regular business meeting at 3:00 p.m.

The W.S.C.S. of the First Methodist Church will not meet because of the holiday.

TUESDAY: Red Cross surgical dressing room in the courthouse will be open from 9 a.m. to 12 noon.

The William Brewer Chapter of the D.A.R. will meet in the home of Mrs. Hubert Hopper, 1210 W. Missouri, at 2:00 p.m.

\$86,000 worth of smoke

You don't do it with hay, brother!

It costs 86,000 good hard American dollars to lay a smoke screen on a 20-mile beachhead for a single hour.

Worth it?

What would you think if you knew your life depended on reaching that beach without being spotted by the enemy?

You'd be mighty glad that—in this war—everything is being done to give the American soldier the best possible

chance to live and win... money no object.

You wouldn't have it otherwise, would you?

Then remember—you've got to do your part by buying and holding War Bonds. Your dollars are needed to help lay the smoke screen...provide the "softening up" bombardment...flatten the deadly pill-boxes.

That's what your War Bond money does right now.

And in the future it will do still more...both for you and

for your Country. War Bonds are your safest, and smartest, investment. In ten years, they'll bring you back four dollars for every three you put in. And that money will mean purchasing power...for you. It'll mean jobs and a healthier economy in America.

So buy more Bonds than you've been buying. Buy more than you think you can afford.

They help toward a quicker Victory...and a happier peacetime for you.

War Bonds—to have and to hold

Estes Purchases Two Sections From Prater

Two sections of land in Martin County have been purchased by L. M. Estes from W. A. Prater. The two sections adjoin Estes' place on the south.

In addition to buying the land, Estes bought 50 head of cows and calves from W. T. Epley that will be pastured in his newly-bought land, which has had plenty of rain and the grass is good.

Livestock

FORT WORTH.—(P)—Cattle 175; calves 75; nominally steady. Common and medium slaughter steers and yearlings 8.50-12.50; butcher and beef cows 6.75-9.50; good and choice fat calves 12-13.25; stockers and feeders held over for Monday's trade.

Hogs 600; unchanged; good and choice 120-240 pound butcher hogs 14.55. Packing sows and heavier hogs of best grades 13.80.

Sheep 2.600; spring lambs weak to 25 cents or more lower; slaughter ewes about steady; medium and good around 70-pound spring lambs 11.50-13.00; common ewes 3.50.

Cotton

NEW YORK.—(P)—Cotton futures closed unchanged to 5 cents a bale lower Saturday.

New Flame-Thrower Puts Heat on Nazis

Just disclosed by the British is their new "surprise" weapon, the deadly Churchill "Crocodile" tanks pictured above. Equipped as flame-throwers that project their deadly jets a great distance, they played an important role against German beach pillboxes during invasion of Normandy.

Soldiers Meet

Pvt. Mickey Rooney, left, proudly shows off his recently won sharpshooter's medal to an old Hollywood pal—Maj. Clark Gable, now on inactive duty. They're pictured as they met at a Chicago railroad station.

Proper Stocking Of Range Lands Increases Profits

Proper stocking of range land means increased profits, Frank Midkiff, Midland rancher, cooperating with the Martin-Howard Soil Conservation District, reported. Midkiff found that more and heavier lambs could be raised from stocking with 100 ewes per section. Last year he stocked two pastures about the same size, one with 100 ewes per section and one with 150 ewes per section. Surveys made by a Soil Conservation Service range planner showed the two pastures to have the same carrying capacity. This spring the lamb crop from the lighter stocking was 85 per cent compared to 78 per cent for the other.

The big difference, however, was in the weight of the lambs, Midkiff stated. The lambs on the pasture stocked with 100 ewes averaged 60 pounds when sent to market, while the lambs on the other pasture were too light to ship. Midkiff estimated their weight about 45 pounds. On the basis of their market value Midkiff made a clear profit of more than \$70 per hundred ewes on the pasture with the lighter stocking rate. Besides that, there was a saving of more than a third on feed costs, Midkiff said. Proper stocking maintains and

Army Expands Program For Youths

The Army's specialized training reserve program for 17 year old youths is being expanded, and the youths now have the opportunity to receive training in colleges and universities approved by the War Department.

Youths eligible for this program will be trained at government expense. The only costs to the student are for laundry and personal expenses.

Youths wanting more information can get it by contacting Midland Army Air Field or W. P. Thurmon, Postoffice box 696.

improves the better grasses which pay good dividends in increased yields of mutton wool and beef, Midkiff added.

Another Plan Completed
A soil and water conservation plan was completed this week by J. H. Stump, who is farming the Greathouse place north of Midland. C. J. Lowe plans to harvest the perennial sudan seed crop soon. Lowe cut the crop with a row binder this week and will combine the seed. After germination tests have been made, the seed will be available to cooperators with the Soil Conservation District.

J. G. Bennett, on the Saylor farm east of Midland, will plant bur clover on his pasture this fall. He believes the clover will grow in the lake bed, which receives additional water from run-off on the pasture.

Speedo To Be Made In Fort Worth

Arrangements have been completed by Bob Murray, inventor of Speedo, for the manufacture of Speedo equipment in Fort Worth. The equipment manufactured in Fort Worth will be sold to schools, playgrounds and other users of game equipment.

The elevation at which a gun will hit a target is affected by temperature, height of barometer, degree of wear of the gun and other factors.

PAPPY'S NEWSPAPER BEING INVESTIGATED

WASHINGTON.—(P)—The Senate Campaign Expenditures Committee was reported by Chairman Green (D-RI) to be "looking into campaign matters" in Texas which he said involved the anti-New Deal campaign of Senator O'Daniel (D-Texas).

Green refused to elaborate other than to say that the preliminary inquiry relates to campaign contributions received and "the amount of money spent on his paper," known as the "W. Lee O'Daniel News."

"There's nothing to give out," Green told reporters following an executive meeting of the committee.

Liquor Board Asks V-Day Closed Shop

AUSTIN.—(P)—The State Liquor Control Board has asked dealers and distributors of alcoholic beverages to join in the celebration of V-Day—whenever it comes—by closing up shop for 48 hours.

The resolution noted that the board can not dictate hours during which liquor may be sold, beyond the law's provisions.

"There's no normal complaint. The committee has certain responsibilities of its own."

King cobras eat nothing but other snakes.

TEXAS A. AND M. TO BUILD WIND TUNNEL

COLLEGE STATION.—(P)—A contract was awarded by Texas A. and M. College to McCann Construction Co. of Fort Worth for construction of a minimum workable unit of a high speed, variable density wind tunnel at Easterwood Field, the college airport.

T. R. Spence, manager of the A. and M. construction program office, said the tunnel would enable the school to expand its instruction in aeronautical engineering and conduct aerodynamic research, as well as do testing for aircraft manufacturers.

Balm Barr

The New Skin Softening Cosmetic

A new preparation for softening skin...it's lanolin-rich and the best we've seen yet for helping busy hands to stay beautiful. You can use it on your arms and on your face too. Different from anything you've ever used before. You'll simply be crazy about lush, luxurious BALM BARR. 60c for 2oz.

Economy rings the school bell here this week, and a study of these low prices will earn a high mark in savings for you on school supplies and health and beauty aids. Values such as these prove that we have the right answers to your present-day shopping problems—the right quality... the right variety... the right prices on all drug store merchandise.
