Chief Executive Thinks He Can Lower Taxes In Cut On Armaments; U. S. Spends Huge Sum

BY RICHARD L. TURNER
Associated Press Staff Writer.
WASHINGTON, July 23 (AP)—

With American expenditures for military purposes exceeding those of any nation in the world, President Hoover today announced a general program for curtailing these outlays to the lowest point that will produce an adequate national defense.

An important result, the chief executive hopes, will be a reduction in taxes. The estimated military disbursements of the next four years are regarded as the greatest obstacle in the way of a cut in the federal tax schedules.

Wants Sea Cut.
Through a new international agreement on naval armaments, Mr. Hoover hopes to reduce the cost of maintaining American sea forces. He plans to establish a commission of leading army officers to consider the general staff to determine where savings can be made.

Mr. Hoover regards the present program as particularly propitious for the sake of the Kellogg-Kellogg treaty, which becomes effective tomorrow. He believes he has had an agreement bearing upon American relations with the Kellogg-Kellogg treaty, which becomes effective tomorrow. He believes he has had an agreement bearing upon American relations with the Kellogg-Kellogg treaty, which becomes effective tomorrow.

Reporters Ask Questions.
The president's views were made today in extensive comment on the situation made in reply to a question of newspaper correspondents at the semi-weekly press conference.

Repeating his remarks with a statement outlining the situation, Mr. Hoover declared that expenditures for armaments, Page 8

Hoeman Dead, Enemy Is Near Death As Aftermath Of Mysterious Shooting In Border City

TEXARKANA, July 23 (AP)—J. R. Brown, Texarkana, Texas, policeman, was shot to death tonight in a mysterious shooting in the border city.

Witnesses said Reynolds drove up to Brown's car. The officer refused to get out.

Explanation Lacking.
The only explanation police could give for the shooting was the fact that Reynolds had been arrested Sunday on a drunkenness charge.

Battle within 25 feet of the border. Reynolds killed his neighbor, Millard T. Goodwin, Sunday, 1927. Reynolds was released on a plea of self defense.

Testimony Opens For Leahy Today

BORGETOWN, July 23 (AP)—Testimony in the insanity trial of J. J. Leahy, condemned slayer of J. A. Reynolds, aged 46, today began, was completed late today in district court here.

The court's entire afternoon session was consumed in the selection of jurors to sit with eight alibi jurors. Submission of testimony will begin tomorrow.

Work of the grain judging team was held Tuesday morning at the Texas Tech laboratories. This group is composed of Arville Elliott, O. B. Haight and George Rallsback.

QUAKE IS REPORTED
LONDON, July 23 (AP)—An exchange telegraph dispatch from Copenhagen relating a Reykjavik report said that at 5:45 p. m. (1:45 E. S. T.) the whole southwest of Iceland was shaken by a severe earthquake. No other details were given.

'Yes, We Have No Dead Mexicans,' Is City's Reply To Water Supply Rumor

IMAGINATION is a wonderful talent—providing, of course, it is not allowed to run rampant. At least that is the way Lubbock city officials felt yesterday when confronted with a persistent rumor that "a dead Mexican" had been found in one of the city's reservoirs.

Two Mexicans Are Slain In Rum War Along Rio Grande

Three Are Wounded, Eight Captured As Guards Near El Paso Revenge Slaying Of Mate Saturday

EL PASO, July 23 (AP)—Answering a bullet challenge of Mexican smugglers in the rum war along the Rio Grande, Uncle Sam's Border guards today listed two dead, three wounded and eight captured from the enemies' ranks in a smashing blow at a desperate rum running ring in which several El Paso business men are declared to be implicated.

The death of a brother officer, Ivan E. Scott, who was slain in an ambush laid by the smugglers last Saturday, was avenged by four Border patrolmen of the immigration service last night when they surprised a score of rum runners and in a pitched battle killed two men and wounded three others.

Five Are Captured.
Five of the smugglers were captured by the officers seizing a truck loaded with liquor and three expensive motor cars.

Following up their victory, the Border guards today captured another truck load of liquor, destined for Denver, and arrested three Mexicans.

H. C. Horsley, chief of the Border patrol, announced that evidence had been obtained implicating several El Paso business men in the operation of the rum ring. He said arrests probably would be made soon.

Smugglers In Retreat.
With blazing guns, the four Border patrolmen fought off the band of smugglers who dared a crossing of the river last night and forced them to retreat into Mexico with their dead and wounded.

Taking a position behind a high fence near the river bank, the officers exchanged half an hour.

An ambulance from Juarez, the Mexican city opposite here, made three trips to the scene of the battle on the Mexican side. At Liberty hospital, that none of the wounded were held at Juarez it was reported.

Eaton Takes Team Of Club Boys To Hereford

County Agent D. F. Eaton, accompanied by the Lubbock county judging team, left Tuesday afternoon for Hereford where they will judge Guernsey cattle today in practice for the coming contest to be held at the Short Course at College Station.

Four boys made the trip with Mr. Eaton, James Potts, Jack Stalcup, Fred Elliott and A. C. Pounds, and they expected to return this afternoon.

A workup of the grain judging team was held Tuesday morning at the Texas Tech laboratories. This group is composed of Arville Elliott, O. B. Haight and George Rallsback.

Two Jailed Here As Officers Raid

Striking suddenly last night about 11:30 o'clock, officers of the sheriff and police departments swooped down on a filling station about a mile and one-half north of College avenue, making two arrests and confiscating 7 one-half gallon jars and one pint bottle of whiskey, together with several empty jars and pint flasks.

Two Jailed Here As Officers Raid

The two men were lodged in the Lubbock county jail last night and charged with violating the national prohibition laws will be filed today.

One Man Makes Break.
At the time of the raid one of the men had a full pint in his hands. Officers stepped in on him at one door and the man went out the other carrying the liquor with him and three officers fast on his heels. After a short chase he was overtaken, brought back to the station and cuffed to the other. Search of the premises brought to light the additional evidence.

Assistant District Attorney Burton Burks, Deputy Sheriff O. B. Conley and Will Ernest, Motorcycle Patrolmen J. D. Johnson and Stanley White, of the police force, made the arrests.

ONE PERMIT ISSUED
Only one small building permit was issued Tuesday to bring the month's valuations to \$102,470.30 and that of the year to \$2,375,511.30. This was granted Ches Hubbard for the construction of a frame and stucco garage at 1815 Avenue K at a cost of \$550. R. W. Walker is the contractor.

GAINESVILLE, July 23 (AP)—Gradually increasing its flow until a production of 350 barrels an hour was registered, the Kewanee Oil and Gas company's No. 6 R. J. Timmis, in the Bulcher field, 25 miles northwest of here, today was termed by oil men as Duke county's first "legitimate gusher." The well, in the E. T. Railroad company survey, topped sand at 1,418 feet and was drilled to 1,466 feet.

Changes Are Made.

My Word! Lady Astor Is Having An Awful Time!

LONDON, July 23 (AP)—Lady Astor, Virginia-born member of the House of Commons, tonight was told by the presiding officer in the House of Commons that he would be glad "if the Honorable Lady would keep quiet."

In discussion of the question of the removal of extravagant boards of guardians Lady Astor had mentioned the word "corruption" in connection with Westham guardians. Three members immediately pressed her to name a single instance and on receiving only a general answer asked her to withdraw the allegation. She declined to do so and Jack Jones said it was perhaps she came from a country where they knew something about corruption that Lady Astor was so glib about it.

In the heat of the excitement Mr. Jones went so far as to call his feminine opponent a "dirty liar," but on the urging of fellow members he withdrew these words, although with the remark "but they are quite biblical."

Texas Endurance Pair Determined To Take Laurels

Houston Birdmen Say They Will Defeat Missourians; Robin Aviators Continue To Sail Along

ST. LOUIS, Mo., July 23 (AP)—Dale "Red" Jackson and Forest O'Brien, having flown their "St. Louis Robin" longer than man has ever before remained in the air in sustained flight, continued to cruise high above Lambert-St. Louis field tonight, their eleventh night in the air. They had set a new world's endurance record at 3:00:02 p. m. when they had been up 247 hours, 43 minutes and 32 seconds. At 9:17 p. m. they passed their 254th hour aloft.

Apparently less excited than were the thousands who gathered on the field below them for the greatest demonstration since Col. Charles A. Lindbergh returned home after his epic New York-to-Paris flight, Jackson and O'Brien settled down to the grind of testing their endurance in cramped quarters against that of the motor of their airplane.

Is Stock Model.
Their plane is a stock model Curtiss-Robin monoplane powered by a new Challenger motor. Major William E. Robertson, president of the Curtiss-Robinson Airplane Manufacturing company, which is sponsoring the flight, has ordered the fliers to remain in sight of the field now that their barograph probably has run down.

Notice that some mechanical difficulties had begun to arise was given today when the fliers dropped a note requesting rags with which to wipe oil from the windshield. They wrote that the push rods were spraying oil over the windshield, annoying them considerably. It was a leaky oil line that forced a sister plane, the "Missouri Robin" to land yesterday after having been up over 117 hours. No further mention was made of the trouble tonight.

Correlation Needed.
"One major thing which every community chamber of commerce should undertake," said Dr. Horn, is to grasp the old in one hand and the new in the other and bring the two together in harmonious correlation."

We should take the pioneer virtues and bring them up to date," he continued. "We should build our civilization upon them. As long as a man lives in the future, he is young. When he lives in the present, he is middle-aged, and when he lives in the past, he is growing old. Let us strive to emulate the 'farsightedness of the pioneer.'"

G. S. Dowell, secretary of the O'Donnell Chamber of Commerce, was toastmaster of the occasion.

J. P. Aylor in a brief talk outlined the work of the O'Donnell Chamber of Commerce in visiting rural communities within its trade territory and related the subsequent cementing of good will between the towns in the O'Donnell area.

CLEBURNE, July 23 (AP)—Suggestions of an "anti-Tammany democrat" coalition with Texas republicans at the November election next year were struck at tonight in an address here by Sen. Thomas B. Love, "anti-Tammany" candidate for the democratic gubernatorial nomination.

The senator, who said "This is not the opening speech of my campaign," declared "we are regular loyal democrats" and "are not compelled to form coalitions outside the democratic party in order to elect officials standing for the things we stand for."

He asserted that the "anti-Tammany" democrats comprise "an overwhelming majority of all the voters of the state."

Auditor's Report Shows County To Be In Good Shape

Surplus On Hand Will Run Business Of People For Balance Of Year, Boyd's Figures Indicate

THE LAST REPORT OF County Auditor J. Y. Boyd, rendered before County Commissioners court Monday, revealed that Lubbock county at this time is in excellent financial condition and that a surplus is on hand sufficient to run the entire length of the year until the receipt of the next tax money in January, according to officials.

Outstanding indebtedness of the county totals approximately \$350,000 in bonds for courthouse and jail, road construction, parks and a small debt for machinery. The county is in a position to take care of payments on this indebtedness and still have a balance, whereas other counties of the state at this time of the year usually are forced to borrow funds for running expenses.

Machinery Purchased.
The report shows a small balance for some road funds but these are explained by the purchase of necessary machinery.

The report follows:

STRUVE CHILD DIES

Funeral Services Will Be Said At Abernathy

Funeral services will be held at the family residence today for Benjamin Franklin Struve, 6 son of Mr. and Mrs. B. F. Struve, of Abernathy, at 3 o'clock with the Rev. Michael, pastor of the First Methodist church of Abernathy, officiating. Arrangements will be in charge of Rix-Sanders of Lubbock.

The child died at his home Tuesday afternoon at 1 o'clock after an illness of two years.

Survivors are the parents, three brothers, Arthur, Marvin and Victor, and two sisters, Anna Maana and Nuoma.

BROTHERS RETURNS
Oscar Brothers, deputy United States marshal, returned to Lubbock Tuesday from Oklahoma City where he had been to transfer Mr. W. Donahoe to the United Marshal there. Donahoe had been held in the Lubbock county jail after his arrest recently at Post on charges of using the mails to defraud.

On his return Mr. Brothers visited his son, Arlie, in Fritch.

Violence stalks Lone Star State

Ten Killed, Others Injured Or Wounded In Series Of Sudden Deaths; Bullets Leave Tragic Trail

(By Associated Press)
Ten Texas died by violence yesterday and several others were wounded or injured seriously.

In a sabbing at Fort Worth Mrs. Willie Malley, 21, was killed and her husband wounded fatally. He died several hours after he was found lying in the yard of his home.

Worker Electrocuted.
Foy Alexander, a power company employee, was electrocuted at Crystal City when he lost his balance while working on a transformer house and fell across a live wire.

The body of Wade McDonald, 16-year-old Trinidad youth, was found by his father in the Trinity river near Mansfield. He had been missing since last night when he went in search of companions who had gone fishing.

Falls Off Truck.
Richard Williams, 34, Fort Worth, was killed near Sioux Falls, S. D., when he fell from a truck while in search of work.

John Skloss, 96, Kosciusko, Tex., was injured fatally near Corpus Christi when his automobile crashed into a parked truck.

Maurice Castle, 21, son of the sheriff of Waller county, was killed.

DISCUSS FAIR PLANS

Hockley County Men Are In Lubbock On Tuesday

C. A. Luck and W. D. Cope, of Levelland, were visitors in Lubbock Tuesday here on business interests connected with the Hockley county fair association.

The two men were conferring with officials of the Panhandle-South Plains Fair association relative to the handling and promotion of a fair.

A meeting of the Hockley county association was to have been held last night at Levelland, at which time dates for the fair were to have been set and work started toward organization.

Mr. Cope, secretary of the association, stated that Hockley county is planning to bring an exhibit to the South Plains fair.

Breaking Of Kellogg Peace Pact Is Forecast As China Claims Russians Have Already Opened Hostile Drive

WASHINGTON, July 23 (AP)—The Kellogg-Briand treaty renouncing war will become binding upon four adhering nations tomorrow when the instrument of ratification of Japan is deposited at the State department and President Hoover formally proclaims the treaty at a solemn White House ceremony.

Former President Coolidge, former Secretary Kellogg and a distinguished gathering of diplomats will attend.

Already Helps Some.
The treaty, under which the nations renounce war as an instrument of national policy, has already played a large part in world affairs. The United States had adopted it as the cornerstone for future naval reduction discussions. The pact has played a large part in preserving peace in the troubles between China and the Soviet over the Chinese Eastern railway.

Japan threatened cold water on the war spectre by refusing to allow transportation of Chinese troops and munitions on the South Manchuria railway.

Negotiations Possible.
Russia maintained its position that the railway must be restored to the status quo before discussions could begin, but was not expressly opposed to negotiation.

Japan threw additional cold water on the war spectre by refusing to allow transportation of Chinese troops and munitions on the South Manchuria railway.

Bishop Cannon And Dr. E. L. Crawford Declare Crime Commissioner's Note Is "Premature"

(By Associated Press) WASHINGTON, July 23.—Bishop James Cannon Jr. and Dr. E. L. Crawford, speaking for the Board of Temperance and Social Service of the Methodist Episcopal Church, South, have described as "hazy and puzzling" certain views expressed by Chairman Wickersham of the Hoover Law Enforcement commission in his recent letter to the governors' conference.

The announcement approved Wickersham's suggestion that the states share the burden of enforcing the dry laws, but characterized as "defeatist" the chairman's statement that "national and state laws might be modified so as to become reasonably enforceable."

"Here we have had uncertainty," the statement said, "and not only possible but actual present defeatism flatly declared, for certainly the natural interpretation of Mr. Wickersham's language is that national and state laws are not reasonably enforceable and require modification before they can be reasonably enforced."

This statement seems to be premature, the announcement added.

The Woman's Day
By Allene Sumner
Allene Sumner

The summer toll of mountains and ocean and desert is upon us. Day after day the papers tell of lives lost in the quest of pleasure. Here are five mountaineers dashed to a pulp in a hidden crevasse where they were hurried to death when one of the five slipped. Even in this land, which is supposed to blossom like the rose everywhere, there are hundred-mile stretches of dry sand where the hiker or even motorist may die for water. And this summer, too, they are finding the bones of those who set forth for adventure and joy along these untrod ways, knapsack on backs.

NOT REALLY GHASTLY
Canoes and small boats are overturning, motors go dead and craft are piled upon rocks and reefs, drowning takes its toll, the motor speeding through the cool night air takes others, until the total is pretty ghastly.

But ghastly as it is, it is not altogether discouraging. A nation which has the urge for play, even heady, reckless play, is a vital, healthy nation. In many countries the quest for bread alone takes so much out of a man and woman that there is no playtime for them.

IS THERE A DIFFERENCE?
One reads of the five who fell down the mountain in the same paper which tells of the endurance testers still zooming aloft, only coming down long enough to read fan mail or be fed crisply browned fried chickens by their wives.

It is hard to see sufficiently beyond the outer fact of an endurance test to realize that it has much more meaning, too, than the mere quest of fun, an adventure, which sends others down mountain cracks.

Even being the mere son of a former president seems to be fame enough to continue getting a young man's picture in the paper just because he is seen walking with his girl. To wit, young John Coolidge's picture with Florence Trumbull. Here's hoping that his fame endures.

Art Goebel, With Woolaroc Plane, To Visit Lubbock Soon; Equipment To Be Same As In Famous Contest

Winner Of Dole Derby Will Be Here On Tour Which Carries Him To Leading Cities Of Southwest

Art Goebel Will Bring Ship Here

COL. ARTHUR C. GOEBEL

The "Woolaroc," giant plane that helped make flying history when it won the Dole prize by beating the group of other planes which started from Oakland, California, over the ocean to Honolulu, will have one final flight before going into a museum and will visit some 50 or 60 cities in the midwest, according to an announcement from the Phillips Petroleum company, sponsors of the flight. The plane will land in Lubbock at 5:30 o'clock the afternoon of August 1, spend the night here and leave August 2 at 8:30 a. m.

At the controls of the plane will be Col. Arthur C. Goebel, pilot in the historic race across the ocean. The plane comes to Lubbock upon invitations sent by City Secretary W. H. Rodgers, City Manager Gus McCleary, officials of the Lubbock chamber of commerce and others. The chamber of commerce, in cooperation with local officials of the Phillips Petroleum company, is planning several features of entertainment for the famous flier while he is visiting in the city.

Will Look The Same
The original radio equipment and instruments used in flying this ship from Oakland to Honolulu are being reinstated and the plane will have the exact appearance that it had when it took off for Hawaii, on August 17, two years ago. It will have the same engine, a Wright Whirlwind J-5.

Between fifty and sixty towns will be visited between July 31 and August 12 on a set schedule, which will be followed with railroad accuracy. Col. Goebel and Frank Phillips, his backer, both express regret in announcing the flight that all interested cities could not be included in the itinerary because of lack of adequate landing facilities. The "Woolaroc" being large, and having been built for long distance over-ocean flying, can only be accommodated by large flying fields that are in the best of condition.

Cities To Be Visited
The large cities which will be visited after the ceremony, for it's one thing for a girl to marry a president's son, and another to marry merely a nice boy.

Other cities which will be visited include Tulsa and Oklahoma City, Oklahoma; Amarillo and Lubbock, Texas; Topeka and Wichita, Kansas; Kansas City, St. Joseph, Springfield, Joplin and St. Louis, Mo.; Omaha, Nebraska; Des Moines, Sioux City, Waterloo, Iowa City, Mason City and Davenport, Iowa; Minneapolis, St. Paul and Rochester, Minnesota.

Post Encampment Of Baptists Gets Slaton's Support

Large Crowds Attend Fifth Annual Session; Speakers Of Note Address Services Every Evening

(Special To The Avalanche) SLATON, July 23.—The fifth annual session of the Post Baptist encampment, which opened last Monday at Two Draw Lake, near Post, is attracting many Slaton people. The encampment, which is one of the largest in Texas, will close Sunday night, according to Rev. B. G. Holloway, pastor of the First Baptist church here.

Dr. J. D. Sandefer, president of Simmons university, Abilene, spoke Monday night. Dr. Elmer Ridgeway, pastor of the First Baptist church, San Angelo, is the speaker for each night until Saturday, at which time H. Duncan, head of the Lubbock public schools, will speak at 8:30 p. m.

Other Speakers Listed
Other prominent speakers include Dr. E. M. Davis, of Howard college, Brownwood; Dr. T. L. Bloom, state Baptist convention secretary, Dallas; and W. R. White, pastor of the First Baptist church, Lubbock. He is also president of the encampment this year.

The encampment is fostered mainly by four Baptist associations, Lubbock, Brownfield, Staked Plains and Lamesa, which include about twenty counties of the Plains region. Rev. J. H. Agee, Southland, is moderator of the Lubbock association, which has eight churches with pastors doing full time work, four half time and 15 one-fourth time. There are 22 Sunday schools in the association, and the churches have a combined membership of 6,000 reports by officials state.

RULING IS UPHELD

Mexican Supreme Court Is Heard In Land Wrangle

MEXICO CITY, July 23.—The Mexican supreme court today upheld the ruling of the district court, Vera Cruz, expelling a group of Americans to whom the Tuxpan municipal government had given land belonging to the British owned Agula Oil company. The municipality contended El Agula was not on the land.

The court's ruling did not deny the law permitting municipalities to provide for cultivation of unused land was constitutional, but found merely the Vera Cruz legislature had not passed legislation limiting the time and manner of cultivation.

PLENTY OF SPUDS

PITTSBURG, July 23.—The high potato crop of Camp county established a new record with the loss of the 1929 season. Ninety cars were shipped from the county, 87 being loaded at Pittsburg and 12 at Newsum. Prices to buyers varied from \$1.25 to \$2.70 hundred pounds.

Conflicting Reports On Plans For Tariff Bill Heard As Senators Of Republican Party Study Question

(By Associated Press) WASHINGTON, July 23.—Conflicting expectations are being formed on the basis of scraps of information emerging from the closed room where the republicans of the Senate Finance committee have established themselves for the task of rewriting the House tariff bill.

On the one hand, inferences are drawn which lead some observers to believe their bill is to be as general as that passed by the House in the scope of its upward revision of tariff rates while, on the other hand, indications are cited to support predictions that the proposed increases will be considerably modified.

Smoot Request Cited
In the latter category is classed the request of Chairman Smoot to the tariff commission for a list of imported commodities which enter American trade in such relatively small quantities that they amount to less than ten per cent of total consumption. Some republican committee men believe that if domestic producers have more than 90 per cent of the American market for any commodity, they do not need protection against imports. Many of the increases voted by the house are described as affecting such commodities.

While that is taken as a sign that the committee men are seriously considering an extensive modification of the House rates, an opposite interpretation is placed on the statement of Senator Shortridge of California, one of the members engaged on the task.

Help America First
"The republican party," he said, "proposes to enact a tariff law which shall have due and first regard for American men, women and children—on the farm, in the mines, in mill or factory—for the producer and consumer alike—who without adequate tariff protection, will be forced into competition with poorly paid, cheap labor of other and less prosperous countries."

Senator La Follette of Wisconsin, a member of the republican independent group which is organizing in opposition to general tariff revision, meanwhile, has called upon President Hoover to express his views on the House bill.

"After dictating the terms of the farm bill and condemning the debtors plan in unmeasured terms," he said, "the president can not with very good grace remain neutral and silent on the tariff."

TECH REGENTS MEET

Routine Matters Discussed By Trio Here Tuesday

Three members of the Board of Regents of Texas Technological college, Clifford B. Jones, of Spur, chairman, R. A. Underwood, Plainview, and Henry T. Kimbro, Lubbock, were in session here Tuesday.

Nothing of general importance was up for consideration though matters pertaining to the college were the subject of discussion. Chairman Jones stated.

STOCK SHIPPED OUT

Nine Cars Sent To Market From Plainview Recently

(Special To The Avalanche) PLAINVIEW, July 23.—Reports from railroad freight offices show that nine cars of livestock were shipped from Plainview in the last week. Gunter and Beck sent two cars of hogs to Los Angeles; G. B. Middleton shipped three cars of cattle to Kansas City.

Walt Clark sent three cars of sheep to Stambaugh, Ia., and Armour and company received two carloads of hogs from here to be shipped to Fort Worth.

Bankers Seeking Regional Clearing Houses Over State

GALVESTON, July 23.—Establishment of regional clearing houses as a means of strengthening the position of rural banks will be one of the objectives for this year of the Texas Bankers association, A. A. Horne, recently elected president, announced today.

The small banker is doomed to disappear unless he adopts improved banking practices, Mr. Horne, who believes regional clearing houses would result in this improvement, said.

Progressive bankers in centrally located cities would undertake the organization of clearing houses to serve five or more counties, and an examiner would be assigned to the district, under Mr. Horne's plan, which has received the support of James Shaw, State Commissioner of Banking.

Ash Syndicate Test Well's Bit Sinks Deeper

(Special To The Avalanche) TAHOKA, July 23.—Drilling is being continued on the Ash Syndicate oil test on the northwest quarter of section 5, certificate 63, block 1, L. & S. V. R. R. Co. survey, four miles west of here, though the well has been completed to the contract depth of 3,500 feet. The bit now is at 4,000 feet. The Ash Syndicate is owned, principally, by Geo. McCamery, of Fort Worth, discoverer of several West Texas oil fields.

Showings of both oil and gas have been found in the well but were said not to be in paying quantities. This is the fourth oil test that has been drilled west of Tahoka, and the second to be drilled on the T-Bar ranch. The depth to which the well will be drilled has not been announced.

Cupid Takes To Airplanes!

BEAUMONT, July 23.—Cupid is taking to the air. An airplane stopped at the local airport a few days ago en route from Lake Charles, La., to San Antonio, with Mr. and Mrs. Gene Bailey, of San Antonio, who had been married in the Louisiana city.

Mr. Bailey is announcer with a broadcasting company at San Antonio. Trips to Louisiana by automobile to foil the Texas three-days notice marriage law are not unusual, but this is the first case on record here where a plane has been used for the purpose.

TAHOKA WILL PAVE

New Project To Be Begun Soon, Official Says

(Special To The Avalanche) TAHOKA, July 23.—Members of the Tahoka city council have announced that the unpaved parkway portion of Sweet street, on the west side of the public square, will be paved and contract to be let at an early date. Plans are also being discussed to resurface with asphalt all the twenty blocks of brick paving.

Delay Asked For Rate Scale Change

KANSAS CITY, July 23.—Judge Albert L. Reeves of the Federal district court, today asked the Interstate Commerce Commission to delay putting into effect until October 1, its order changing the basis of division of joint freight rates between the southwestern and western trunk line railroads.

The order, made June 10 by the commission, was to be effective August 1. A petition for an injunction to prevent the order from going into effect was filed yesterday in the federal court here by railroads in the southwestern division.

The petition alleged the new basis of dividing freight revenues on joint hauls would give western trunk line division railroads an advantage of more than \$2,000,000 a year over the southwestern railroads.

Rural Schools In County Are Given More State Cash

Growth Of System Rewarded By \$16,762 In Aid From State; \$3,000 More Than Last Year's Total

Following a communication from the state department of education at Austin, Miss Mae Murfee, county superintendent of education, Tuesday announced that Lubbock county has received \$16,762 as rural aid for 1929-30 school year, representing an increase of \$3,000 over that of last year.

Increase in this year's allotment has been based upon increased scholastics and good condition of school buildings, it was said.

Scholastics Increase. A total of 10,195 scholastics was recorded by the 1929 enumeration in the county. Lubbock alone showed an increase of 1,000 scholastics over last year's record.

"Lubbock county has not a single one-teacher school, and there is not a school building in the county which is not made of concrete, stone or brick," said Miss Murfee. All transfers of students from one district to another should be made before August 1. Miss Murfee indicated when outlining plans for the coming school session.

VIOLATORS PAY FINES

Seven Citizens Pay Off In Traffic Drive In City

Seven principals were fined in the City corporation court on Monday and Tuesday for violation of the traffic ordinance following a warning by Chief of Police John Lemond against parking automobiles in forbidden zones. "The forbidden parking zones in the city are marked with orange paint," said Chief Lemond. "These zones have been marked, after careful study, to facilitate safer traffic by keeping alleyways open and by presenting no obstructions to pedestrians near street corners."

Don't Hypnotize Young Brides!

MEXICO CITY, July 23. (AP)—A few hours after his marriage David Parra Lopez was in jail here charged with having mortally stabbed Jose Ponte Castro, his best man.

During the dinner at Ponte Castro's home, in celebration of the wedding, the bride complained of toothache. Ponte Castro, a hypnotist, promptly tried his hand at curing her, leaving her in a hypnotic sleep. The groom, who had absented himself from the house temporarily, became enraged upon finding his wife under the hypnotic influence and stabbed the hypnotist. The bride shortly after came to, to find her husband in jail and the best man in the hospital.

Marquette

BUILT BY BUICK BODY BY FISHER
A GUARANTEE OF EXTRA VALUE

"Built by Buick"—only the Marquette in the moderate-price field can offer that priceless recommendation. This remarkable new six provides in every feature the unstinted goodness that has forever established Buick in the public mind as a master builder. Extra quality is everywhere—to provide extraordinary brilliance in performance, untailing dependability in service, and unlimited satisfaction in ownership.

On its staunch and sturdy chassis the Marquette carries closed Bodies by Fisher—the latest expression of the artistry and craftsmanship of the world's greatest body builder. Smart, low-slung lines—the last word in modern good taste. Interior and exterior finishes of pleasantly blending colors. Tailoring and appointments of exceptional quality and completeness. And such value features as a remarkable new non-glare windshield, to be found on no other automobile; adjustable driver's seat; and beautiful new rubberized mohair upholstery, waterproof, dustproof and wearproof—shown for the first time on Marquette.

The great resources and unparalleled facilities of Buick and Fisher have combined to provide a greater measure of extra value than any car of comparable price offers.

At the first opportunity see and drive the Marquette. Check every feature, make every test.

The Marquette is easy to own. Talk to your dealer about it. You will be surprised at how economically you can buy a Marquette on the liberal G. M. A. C. terms.

RUMORS AND RUMORS OF RUMORS
ON the front page of today's paper you will find a more or less humorous story regarding a rumor which insisted that a "dead Mexican" has been found in the city water supply.

The story is humorous only in that it shows how imagination, running rampant, may give birth to a wide-spread belief—without any foundation whatsoever.

City Manager Gus McCleary tells The Morning Avalanche that the wells which supply Lubbock water are so locked and constructed that such a condition is an impossibility.

Further than that, it so happens that the City of Lubbock only recently received from the State Health department a letter of commendation upon its water system and the purity thereof.

Never-the-less, somebody had little to do, started the rumor and before many hours a goodly portion of our citizenry was worrying itself to death—all over nothing.

A city's water supply is an important thing. Bad water can quickly spread illness and disease, and in so doing, may sound the death knell of a municipality's progress.

On the other hand, good water in copious quantities is not only a prime possession of any city but, further, is a necessity to growth.

Lubbock is indeed fortunate to have the water supply which it does have. Amarillo and Abilene for instance, where more or less trouble in securing enough water was encountered for some years, will tell you that—and when anyone, through senseless rumor, strikes at our water system he strikes at the heart's blood of the city.

As long as there are people with nothing to do there will be rumor. What is worse, a considerable portion of that rumor is going to be derogatory to the subject upon which it is based.

But there is no use in our accepting rumor as fact. When the truth can be found out very easily, to help spread a rumor of which we are uncertain is nearly as bad as starting it in the first place.

You may take the word of The Morning Avalanche and the City Manager that Lubbock's water supply is pure and wholesome. And the next time you hear a rumor such as "the dead Mexican" story, call the city water department and ask about it before giving the matter any credence.

You'll find such action not only fair but also insurance against becoming prematurely gray by worrying over something which isn't worthy of worry.

TIME WORKS FOR THE WORLD
There is a pregnant phrase which finding voice during the past year, gives eloquent expression to the mood of the world. The phrase is "liquidation of the war," and unlike many attractive phrases, it does not content itself with making music for the ear but is in very fact, the accepted international policy.

It is heavy with portent. It means not only that the constraining evidence of the late antipathies is to be eliminated, but that whatever remains of mischievous effect must be brought into the general harmony, even if that harmony chances to be born of necessity rather than the millennium. That it has taken so many years for the burning fever of the war to subside is scarcely strange when imagination is permitted to recall the utter stark madness of hysteria enveloping the world with unrestrained hatred. But like most fevers, convalescence accelerates itself as strength returns, and the world has moved most swiftly within the last 18 months.

Everyone admits that many aching problems remain. But time is on the side of sanity and "liquidation of the war." Even those who protest most loudly that this treaty is inviolable that frontier irremovable and that minority hopelessly determined for all time, know better than anyone that their voice dies on the wind. Men here and there are speaking very frankly and now rebukes them. Stresemann in Germany for one when he pronounces the Saar question as involved in the liquidation.

The fact is that the formula for peace is peace, and where there is resentment and discontent based on an illogical decree there can be no peace. Hence, evacuation of the Rhineland, which was impossible yesterday, is being hurriedly discussed today, and minorities who were commanded to silence last week are now to be invited to speak out, if they wish, and tell their complaint.

Time works for the world, and liquidation of the war, at last recognized as essential in all its comprehensive implications, slowly works out the salvation of the people.

THE LAW OF FRIENDSHIP
Emerson defined friendship by attributing to it the characteristics of truth and tenderness. Between friends, each may be sincerely himself, without the protection of sham or affection often assumed in ordinary intercourse. "My friend," said Emerson, "gives me entertainment without requiring me to sleep, or to limp, or make myself." Further, friendship needs tenderness to tide over rough roads and hard fare, which are bound to come. The end of friendship is for aid and comfort through all the relations and passages of life and death. Without truth and tenderness, a friendship cannot survive such experience.

This kind of friendship seems of necessity to be limited to two persons. With the presence of a third, self-consciousness enters in and the fine sincerity of the former relation is lost. It is difficult enough to find two persons whose interests and personalities so complement each other as to make real friendship possible. A third would complicate the situation hopelessly.

Someone will say, what of the clubs and lodges where men grow intimate with each other? Such exist in numbers, it is true; but real friendship as defined by Emerson cannot develop in the midst of a group. The whole of each member's personality could never be grasped by the others.

CHINA HAS GENERAL SYMPATHY IN PRESENT ROW WITH RUSSIA

BY CHARLES F. STEWART
Central Press Staff Writer

WASHINGTON, July 23.—Ever since Russia went Bolshevik, any trouble she has serves her right, in the most of the rest of the world's opinion.

Consequently, Washington diplomacy concurs with diplomacy nearly everywhere in sympathizing with the Chinese government's policy of kicking the soviet's representatives out of northern Manchuria.

If the Chinese were to try kicking Japan's representative out of southern Manchuria, it would be a much more questionable proceeding.

Even as between China and Russia, the situation is recognized as amounting to a serious threat against Asiatic peace.

The Russians may be a bit too quietly to being kicked and they may not.

Japan certainly never would submit to it for a minute.

In these times of widespread interests, once a row starts, nobody can guess where or when it will stop.

In short, sympathize though they may with the Chinese republic versus the Russian soviet, international experts here, and elsewhere, are somewhat uneasy.

Theoretically, they enjoyed seeing the Muscovite menace boot, but if the menace is going to act ugly about it, they would almost rather it hadn't happened.

Manchuria is a fine farming region—nearly half Mexico's size—with more than twice Mexico's population—in about the latitude of the northern United States—very valuable.

Map makers always include it as a part of China, but really it is a long time since the Chinese had much to do with running it.

Russia has bossed the northern half; Japan the southern.

Built by Russians years ago, in the czarist period right across the Muscovite sphere of influence, is the Chinese Eastern railroad—a 1,000-mile link connecting the Trans-Siberian system with the Russian city of Vladivostok, on the Pacific.

Besides paying good money on a big investment, it is mighty important to Russia—economically, politically and as a military proposition.

A Japanese line called the Chinese Southern feeds the mikado's area.

Now will there be a fight?

The Chinese must be prepared for one or they would not have gone as far as they have.

The soviet talk a lot about their military strength, but seem slow to prove it. Still, their stake is enormous—not only their railroad, but their only means of communication between European Russia and the Pacific, as well as huge commercial and political interests in northern Manchuria.

An indignity to its official representatives counts with some countries also.

Oh, they have an excuse for fighting if they feel like it.

Anniversary Notes

SETTLEMENT OF DETROIT
Sieur De La Mothe Cadillac, first commandant of the French territory around Lake Michigan, made the first permanent settlement of the site of Detroit on July 24, 1701.

Detroit, however, had been visited by Frenchmen as far back as 1688, but history dates its founding on the day Cadillac arrived and built Fort Pontchartrain and established a small trading station.

In 1760, an English force under Major Rogers drove the Frenchmen out. In 1778, a new fort was built. At this time, Detroit numbered 300 living in rude log cabins.

At the end of the Revolutionary War, Detroit passed into the hands of the Americans.

THIS HAS HAPPENED MOLLY BURNHAM, collegiate heiress, is trying her wings. The day Molly graduated from York college she inherited \$10,000. And the day after her sweetheart, JACK WELLS, left Boston to work in New York.

Molly comes from a little town called Snodgrass in Wisconsin. Her parents were expecting her to return to them immediately after graduation. They expected to announce Molly's engagement, for she had told them all about Jack.

But Molly, when she receives word of her inheritance, resolves not to return to Snodgrass, but to taste sweet freedom and independence.

Meet Miss Corona Remington—And Don't Be Afraid To Chuckle A Bit!

By NEA Service
KNOXVILLE, Tenn., July 23.—Having a name that sounds like a testimonial for two famous typewriters is just "one constant round of fun."

But, add the Knoxville short story and feature writer whose real name is Corona Remington, it also causes a lot of embarrassment.

Her christening never was intended to be anything in the nature of a testimonial for a typewriter or two of them. Her family name was Remington long before typewriters were invented and Corona herself was born before the small portables flooded the market.

Of course, as one might expect, she spends a great part of each day at a typewriter. She's been writing short stories and features ever since she was 13 and has sold in all more than 1000.

And in that her name affords a laugh. One editor wrote her: "The manuscript is acceptable. 'Miss Corona Remington', but we do not wish to use a story signed with so palatial a name of plume."

And even a dignified Boston college professor smiled broadly at the name.

But she doesn't mind. She enjoys wisecracks at her name as much as anybody else. And, anyway, what's in a name? In her case, it's just "one constant round of fun."

GERMANY IS ANXIOUS

Mueller's Illness Causes Grave Concern Of People

HEIDELBERG, Germany, July 23. (AP)—All Germany anxiously watched reports from the Academic hospital here where the political chief of the Reich, Chancellor Hermann Mueller fought for his life to overcome the effects of an operation.

While the operation was pronounced successful and his fever went down the gravity of the situation was not underestimated. The latest bulletin indicated he was resting relatively comfortably and there was some hope that his normally robust constitution might prove equal to the fight.

HIGHWAY PROJECTS UP

Paving And New Bridge To Be Awarded August First

AUSTIN, July 23. (AP)—Two additional highway construction projects for which contracts will be awarded by the State Highway commission, August 1, were announced today.

They include the paving of 214 miles on Highways 3 and 36 in Rossburg, Fort Bend county, and construction of a timber bridge and earth approaches over Spring Creek bridge, Highway 19, Montgomery county.

Estimated cost of the paving project was placed at \$100,000 and that of the bridge at \$22,000.

General Motors Earnings, Better Than Last, Help Set Stocks Running Up In New York

BY CLAUDE A. JAGGER
Associated Press Financial Writer
NEW YORK, July 23.—A brisk rally on the stock market today bumped the heels of yesterday's slump in the face of firmer money rates.

A heavy short interest has developed during the past few days and with favorable earnings statements and important merger developments being rumored, bears were quick to cover their commitments. Trading held around 3,700,000 shares-a-day level and operations appeared to be still prominently professional.

Call Money Holds

Call money held at 7 per cent but time money commanded a flat 8 per cent for the shorter maturities. The outstanding item in the day's news was the General Motors second quarter earnings statement which was equivalent to \$2.01 a share and a 12 per cent advance from the unfavorable showing of \$1.37 per share in the first quarter.

Among the few soft spots, Commercial Solvents was again conspicuous, falling back more than 9 points.

Wheat futures closed about 2 1/2 cents lower. Corn also eased. Cotton lost more than \$1 a bale on bearish weather prospects.

Foreign exchanges moved up abruptly, sterling cables reaching 84.85 13-16 near the year's high and francs reaching a new 1929 high at 351 3/4 cents. The movement was attributed to ratification of French debt agreements and to tourist demands.

Wheat's Dream Is Rudely Shattered

Argentine Crop Undersells Product Here And Hopes For \$2 Per Bushel Fall By The Wayside

BY JOHN F. BOIGHAN
Associated Press Market Editor
CHICAGO, July 23.—(P)—Enthusiasts for \$2.00 a bushel wheat met with hard luck today as reports that Argentina's crop is heavily underselling wheat from North America in Europe turned the market here downward as low as 5 3/4-4 from the day's peak.

Wheat closed nervous, 1/8-1/2 lower. Wheat's dream of a \$2 per bushel product here and hopes for a \$2 per bushel fall by the wayside are shattered.

At first wheat showed a notable fresh upward trend but it soon grew apparent that the market was no longer able to command aggressive support.

Low hammer advice from Canada indicative of a possible better in drought conditions were an incentive for selling Winnipeg dispatches from a leading Chicago crop expert however said the probable yield in the Canadian prairie provinces would be only 215,000,000 bushels and perhaps as little as 200,000,000 bushels. He said millions of acres would not pay to harvest. These reports led to a considerable recovery in prices toward the late evening in the face of apparent complete absence of export business from Canada or the United States.

Corn owed its strength to persistent reports of backwardness of corn growth. Oats mainly paralleled the action of wheat.

Breaks in hog values induced something of a drop in the provision market.

PORT WORTH GRAIN

PORT WORTH, July 23.—(P)—Fair demand continued today for all grains except barley which was slow on the Port Worth market. Both exporters and millers were wanting wheat at the demand of around 2 1/2-3¢ from yesterday's value.

Export grains. Exporters bid as follows: basis delivered Texas Gulf ports. No 1 ordinary hard wheat 1.33-1.26 1/4-1/2. No 1 soft red mixed 1.33-1.26 1/4-1/2. No 2 barley 23¢-7¢.

Millings wheat. Mills bid as follows: basis delivered T. C. P. No 1 hard milling 1.25-1.26 1/4-1/2. 13 per cent protein 1.26-1.27 1/4-1/2. 14 per cent 1.27-1.28 1/4-1/2. 15 per cent 1.28-1.29 1/4-1/2. 16 per cent 1.29-1.30 1/4-1/2.

Dealers bids and offers on other grains as follows: basis delivered T. C. P. corn slightly lower. No 2 mixed 1.15-1.16. No 2 white 1.18-1.2. No 2 yellow 1.21-1.22 1/2-1/4.

Oats. No 2 red 57-1.25-58-1.2. Sorghums. No 2 milo per 100 lbs. 1.75-1.80. No 2 kafir 1.65-1.70.

had been treated there.

At the hottest part of the fight, eleven members of the gang in jeans rushed to the aid of the twenty smugglers who first engaged the patrolmen, authorities were told.

The three Mexicans arrested today.

The truck seized last night is owned by a paper company here. The owner said he learned the machine had been stolen by a former employee of the firm who is one of the leaders of the smugglers. The truck was loaded with 150 gallons of whisky in barrels.

From a negro captured during the fight, Hovsey said he had learned a name of the head of the smugglers.

for purely military purposes constitute one-half of the increase in Federal disbursements estimated for the next four years. Under the estimates, he said, America will spend \$300,000,000 upon the military activities of the war and navy departments in the fiscal year 1933 an increase of \$120,000,000 over the fiscal year just closed and of \$23,000,000 over the fiscal year 1932.

The figures estimated for 1933 is, he continued, an increase of \$500,000,000 above the average pre-war expenditure for military purposes. These estimates do not include pensions and compensations to veterans of past wars, an item estimated in itself as \$320,000,000 annually.

Wants People To Know
Mr. Hoover declared that "The American people should understand that current expenditure on strictly military activities of the army and navy constitutes the largest military budget of any nation in the world today and at a time when there is less real danger of extensive disturbance to peace than at any time in more than half a century."

Cotton Declines On Easier Cable Reports Tuesday

Liquidation By Bull Pool, Better Weather Forecast Push Staple Down To Low Level In Exchanges

(By Associated Press)
NEW ORLEANS, July 23.—Cotton declined today on easier cables than due, favorable weather and liquidation by the New York bull pool. After opening 7 points down, the market gradually worked lower under the liquidation and the lowest prices reached after mid-session. Prices showed losses of 29 to 31 points. There was a slight rally of 4 points in the late trading. October which closed yesterday at 19 1/2 closed today at 18 1/2 and December at 18 3/4 to 27 points net lower for the day. The general market closed barely steady at net losses of 24 to 27 points.

Ease Is Continued
Liverpool came in as due to three points worse and first trades here showed losses of 7 points. The market continued to ease. On favorable weather until October, traded at 18 1/2 and December at 19 1/2 or 12 to 15 points below the previous close.

After a rally of 7 points on trade buying, the market turned easier on a forecast for fair weather and the decline was hastened by reports that the bull pool was selling October 18 1/2 and December 19 1/2 to 21 points below the previous close.

Rally Marks Close
There was a rally of 4 points in the late trading and October closed at 18 1/2 and December at 18 3/4 to 27 points net lower for the day.

Port receipts 2,643 for week, 9,252 for year. 8,283,324 last year. 8,221,108 Exports 11,893 for week 20,807, or year, 7,879,529 last year. 7,481,650 Port stocks \$61,525 last year. 682,555 Combined shipboard stock \$8,745 last year. 72,807 Spot sales 3,354 last year. \$174.

New York Looks For Good Weather Report Today

NEW YORK, July 23.—(P)—Cotton declined today, under a report of favorable weather and expectations of a fairly favorable weekly report from the weather bureau tomorrow. October contracts sold off to 18 1/2 and closed at 18 1/2.

The general market closing steady as it had declined to 27 points. The opening was steady at a decline of 7 to 30 points under selling. July was relatively weak, influenced by the circulation of notices representing about 5,000 bales of cotton according to estimates. This may have helped unsettle late month and slight rallies after the close were followed by renewed weakness. The prospect for showers in the Southeast seemed to impress sentiment favorably and the opinion was expressed in some quarters that the crop was probably making fairly normal progress for the month of July.

Buying developed as prices approached the 10-cent level for January contracts, but it was in no great volume and rallies were not fully maintained.

Firefighters Can Fight Ants, Too!

Approximately 100,000 Pests Are Killed Or Drowned As Chief Twitty's Boys Bring Hose Into Play Here

Staging an attack and using the full force of a large size fire hose, firemen of Station No. 2 in this city, Monday afternoon sent thousands of ants to their death by the force of the stream turned upon them.

The ants, 100,000 in number, pushed their way into the driveway of the station, but each time the force of the stream swept the disturbers back in the dusk found the lawn literally covered with red ants, drowned or killed by the power of the stream. The thousands which survived repaired to their habitats near the station.

By Day Monday
Monday was an outing for ants in the vicinity of the city reservoir and fire station. Chief W. E. Twitty and his crew spent much of the afternoon in trying to find relief around the building. Gasoline, fire and water were used as combatant forces.

"Not quite as bad as last year," Chief Twitty reminded, "An employee of the city, operating a street sweeper on Nineteenth street, was unmindful of the impending nuisance. Thousands of the ants, after swarming into the streets, were picked up by the sweeper machine. Immediately the driver was covered by ants and he abandoned the sweeper until he could remove the pests from his clothing."

Posses Seek Man Crazy By Wound

PAULS VALLEY, Okla., July 23.—(P)—Suffering from a bullet wound thought not to have been treated since it was inflicted Saturday night in an exchange of shots with a deputy sheriff, Bud King today was reported by the parent in the Arbuckle mountains near here.

A posse of 14 Garvin county officers was on his trail, but had paused temporarily to await arrival of bloodhounds from the penitentiary.

King seriously wounded A. L. Pickett deputy sheriff, after the officer had ordered him to surrender a gun at a dance hall Saturday night. King stepped back drew the weapon and opened fire on Pickett, three shots taking effect. The officer returned the fire before he fled, wounding King in the face. King fled.

Florida Authorities Tell Of Man's Beating Pair To Death In Robbery; Used Hammers

(By Associated Press)
TAVARES, Fla., July 23.—Lake county authorities today announced that H. W. Prescott, of Fisherman's Paradise, Orange county, had confessed to beating to death Mrs. Annie Gillis and Levi Allen, at their filling station at Mohawk on the night of July 6.

Officers said Prescott told them he and C. J. Pike of Winter Garden beat the aged couple to death with hammers during an argument over the payment for some soft drinks.

Former Local Editor Now Governor, Sets Precedent

OKLAHOMA CITY, July 23.—(P)—Setting a precedent, James C. Nance, acting governor of Oklahoma in the absence of Governor W. J. Holloway today revoked a request for the return of W. E. Hanna, prominent Tulsa business man to Lamar county, Texas to face a murder charge.

Nance said he had learned that two grandjuries had failed to return indictments against Hanna, against whom the murder charge finally was lodged by a third, in connection with the death of a child. The child, Nance said he had been informed, was fatally injured by Hanna's motor car, when it jumped from the rear of a wagon onto the path of the machine.

PREPARE FOR TAKEOFF

Men, Machines And Horses Get Ready For Bromley

TACOMA AIR FIELD, TACOMA, Wash. July 23.—(P)—Men, machines and horses worked diligently today preparing the run-way of Pierce county's municipal airport for the take-off of the Tokyo-bound plane, the City of Tacoma, with Lieut. Harold Bromley at the controls.

While men worked steadily to get the field into condition, L. W. Paxton motor expert, made a careful study of the motor of the ship. He was getting it ready for a test flight, which may be made today, with the possibility of the lieutenant taking off tomorrow morning.

"Little Shop Of Romance" Leads To Marriage Altar

Beautiful Girls Of England Lose Jobs And Hearts, Too

By MILTON BRONNER
NEA Service Writer
LONDON, July 23.—"The Little Shop of Romance"

That's what London society calls the tiny place on Old Burlington street, right in the heart of London's most exclusive district. But the owner, a society woman who was a successful artist and actress, rather resents this and points to a business-like sign which reads:

**NELLIE TAYLOR
FLORIST**

She has been in business for over two years now in this quaint shop which looks like one in a tiny English village and she has made it pay well. Society officers from the well-guarded Regentia gilded youths from the exclusive clubs are all in the habit of dropping in for their gardenias or their carnations. But it is almost beginning to look as if they come in to buy a flower and lose their heart.

It's all because Nellie Taylor has always employed as her shop assistants some of the prettiest society girls in London. And they really work. They don't daintily flowered silk overall and they are on the job from 10 until 6. The only trouble is the boss can't keep them.

The story began with pretty Miss Leila Reynolds only daughter of Major P. G. Reynolds of the Third Dragoon Guards. She was just beginning to learn the most effective way of making up bouquets of fresh English flowers, when she served notice she was quitting.

"What's the trouble?" asked the boss.

"There is no trouble. The fact is—I am going to be married."

The fortunate bridegroom was J. D. Payer, one of England's tobacco kings.

Then the boss employed Miss Gladys Samut, only daughter of the late Major H. T. Samut who was killed in action in the first year of the war. Not long ago the boss detected that resigned look in Miss Samut's eyes. She was right. Miss Samut quit and it is expected that her engagement will be announced soon to Lord Tennyson, grandson of the famous poet, Alfred Tennyson.

Nothing daunted the boss has employed two saleswomen instead of one. They are the Misses Valerie and Essex French, granddaughters of the late Sir John French, who became Lord French of Ypres after his immortal battles at Mons and Ypres. They are two of the prettiest girls in London society and were not long ago presented at court.

Wherefore Mayfair is almost

willing to lay a bet that she will be the boss of the shop in a few days. She is a girl who has been in the shop since she was a child and she knows where in society the girls are.

2 OUTSTANDING ADVANTAGES

ALL THE MECHANISM IS ON TOP

THE CABINET IS ALL-STEEL

OF the many advantages of General Electric Refrigerators, two are especially vital—the hermetically sealed, on-top mechanism and the all-steel warp-proof cabinet.

The mechanism in any electric refrigerator has but one purpose—to absorb heat from the food. It must be permitted to radiate that heat rapidly just as heat is conducted away from the engine of your car. As heat naturally rises, it can be radiated from the top of the refrigerator. To place the radiating coils anywhere else cuts down their efficiency and increases the cost of operation.

And now has been added the new all-steel cabinet. Built like a safe, it can't warp—it operates on the least amount of current—its doors always retain their perfect fit which shuts out heat. Available in six sizes at prices surprisingly low. The small family size is but \$215. at the factory. Sold on convenient time payments.

Listen in on the General Electric Hour, broadcast every Saturday evening, 8 to 9, Eastern Standard Time, over the N. B. C. network of 42 stations.

Gerron Opposed To Sale Of Land

Candidate For Land Office Commissioner Attacks Plan Of Selling Lands Back To Oklahoma

(By Associated Press)

AUSTIN, July 23.—Elwin Gerron, member of the legislature from Ellis county and candidate for commissioner of the general land office, is opposed to Texas conveying to Oklahoma any of the area involved in the supreme court decision fixing the 100th meridian as the boundary line. Oklahoma has offered to buy the acreage back.

"In the past an unsound public policy has cost Texas millions of acres of land which are located in Wyoming, Colorado, New Mexico and Oklahoma," Gerron said. "Greer county, Oklahoma, was ripped out of Texas' side, and no one heard cries of 'sell it back to Texas.' Land owners and citizens who

More Proof Given Report Women Are Most Talkative

ALBION Mich., July 23.—Another proof that women are more talkative than men is shown in a report from Albion College. Social conversation of co-eds at the school takes up 10 hours a week. Male conversation averages only 8 1/2 hours. One woman student is said to have used 40 hours a week in conversation. The average male student spends 54 hours in bed, the report states, while the average co-ed spends 56.

MEXICANS FIGHTING

MEXICO CITY, July 23.—In spite of a number of surrenders by rebels in the State of Jalisco recently dispatched to El Universal indicate that there is still some rebel activity in the state.

One dispatch to the paper said that a rebel band headed by Martin Lopez attacked Cajitlan near Guadaluajara and was driven off after a stiff fight. Another dispatch said that three rebels were killed in a skirmish at Barranca. Ramiro Vargas, second in command of the rebels, who operated under orders from Carlos Bouquet were dispersed.
