OFFICIAL SEES FRISCO CASE AS LEADER

SOUTHWESTERN LINES MAY APPLY FOR A GENERAL SCHEDULE

CHICAGO, Dec. 26.—Possibility that southwestern railroad companies might file applications with the Interstate Commerce Commission for a two-cent rate between competitive points on the Frisco system was announced today by G. J. McGuire secretary of the Western Passenger Association. New rates go into effect on the Frisco Feb. 1. While no notice has been given that southwestern railroads would seek a general two-cent rate, McGuire said it seemed the "logical thing that railroads should meet their competitor's rates."

Aged Negro Burns To Death In Cabin
PLAINVIEW, Dec. 26.—The body of Bob Petty, 67, negro employe, was found today in the debris of the burned cabin on the compress docks, damaged by fire last night. Firemen had put out a fire, believed caused by an overheated stove, not knowing the cabin was occupied. Petty's body was found behind a bunk, where it was believed he was suffocated.

Fire Does Large Damage In Corsicana
CORSCICANA, Dec. 26.—Fire last night destroyed or seriously damaged half a block of buildings here. Loss was estimated at approximately \$100,000. Originating in the ceiling of the Jolesch Shoe company building, according to Keith, the flames quickly swept down a row of buildings fronting on Beaton street, the main business thoroughfare of the city.

CONGESTION OF JAILS SHOWN

ASSOCIATION BLAMES DRY LAW FOR U. S. COURT CONDITIONS

WASHINGTON, Dec. 26.—Upon the dry laws the Association Against the Prohibition Amendment today heaped the blame for all federal court congestion and for the entire increase in the number of federal prisoners since 1920. A statistical pamphlet released by the association estimated the number of prohibition prisoners now in federal, state and county penal institutions at 50,000. It contended that the prohibition amendment did not give a measure of the crime problem for "only a small proportion of those convicted are given felony sentences." It termed "an example of misinformation" an assertion made last year by President Hoover that only a small proportion of felony cases could be attributed to the Eighteenth Amendment.

MISSOURI SCHOOL BOYS FOUND TO BE PLAYING WITH NUGGETS OF GOLD

HOLLISTER, Mo., Dec. 26.—School boys near here have been playing marbles with gold nuggets. Authorities believe the nuggets were found near the home of Jake Fleagle, western bandit, who was shot to death at Brandon, Mo., several months ago. The boys refused to divulge the location of their cache. Clyde Chapman, a railroad station agent here, said his son was one of those who found the nuggets. A test proved the nuggets were gold.

ICE IS BROUGHT FROM TROPICS

WASHINGTON, Dec. 26.—And now they're importing ice from the tropics. It is a product of carbon dioxide gas found in wells of the Tampico, Mexico, oil fields, flowing to the surface at a pressure of 1,000 pounds to the square inch. A New York concern has erected a factory which utilizes the gas into "sub-zero" ice. It has a capacity of 40,000 pounds a day. Vessels with insulated chambers of cork board a foot thick will bring the ice to the United States. The bulletin of the navy department's bureau of engineering called attention to this new accomplishment of science and industry today, saying: "This paradox of bringing ice from the tropics to the north is a triumph of science."

TWO HUNDRED DEAD IN CHRISTMAS TRAGEDIES

THIRTEEN OF DEATH LIST ARE IN TEXAS; MOTOR CAR ACCIDENTS CLAIM MAJORITY OF LIVES
(By The Associated Press)
Two hundred or more deaths marred Christmas joy yesterday as accidents took a heavy toll from coast to coast. Fires, drownings, hunting tragedies and poisonous liquor cost lives, but automobiles, running in many sections on slippery roads, were the greatest agent of destruction, causing more than two-thirds of the deaths.

Col. Julian Goodman, (below), well-known Boston lawyer, military figure and widely-known advocate of prohibition repeal, has been appointed national executive commander of the Crusaders, an anti-prohibition organization.

BETTER PRICE ON COTTON IS PREDICTED

NEW YORK EXCHANGE'S HEAD SAYS SOUTH MUST CUT LAND
BY PHILIP B. WELD, President of The New York Cotton Exchange
NEW YORK, Dec. 26.—During the year now closing, cotton in common with almost all basic raw materials, has undergone one of the greatest price declines in point of percentage of fall, on record.

At the beginning of the year, the average price of middling grade seven-eighths staple at ten southern markets was close to 17.00 cents per pound. At this writing, it is slightly under 9.00 cents. Here is a shrinkage of about 47 per cent. At the present level, cotton is selling lower than at any time since the year following the outbreak of the World War 15 years ago. The present price is equal to only about 50 per cent of the average price of the past four years. It is far below the average cost of production.

TWO HELD FOR DEATH

Senator Norris Is Asked To Join Move For Third Party; Success Predicted

NEW YORK, Dec. 26.—Senator George W. Norris had an invitation today from John Dewey, chairman of The League For Independent Political Action, to join the Republicans and lead a third political party. In a letter to the senator from Nebraska, Dewey, formerly professor of philosophy at Columbia university, told him he was not a true Republican as charged by Robert H. Lucas, executive director of the Republican national committee, and that the time was ripe for his leadership of a new political group.

LEAGUE'S YEAR FINDS LITTLE PROGRESS

FEW REASONS FOR GOOD FEELINGS GIVEN IN WORLD AFFAIRS
By FLAUTUS I. LIPSEY, JR., GENEVA, Dec. 26.—The year 1930 has brought to League of Nations supporters many heartaches and some substantial reasons for rejoicing. The end of the year, observers at Geneva generally agree, finds the international situation more troubled than at any time since the Locarno treaty was signed. Yet indications are not lacking that these 12 months embody a record of progress for the ideal of peaceful international cooperation.

WITHDRAWAL MARKET OF PRAIRIE CAUSES CONFERENCE

Old Santa Pays His Annual Visit To Lubbock; Unfortunates Remembered

There was a Santa Claus. More generous, more good natured, more loving and with a greater array of gifts than ever before, as was attested by the smiling and happy faces throughout the City of Lubbock Thursday. The bewhiskered old saint who slips noiselessly through the night, flashing down chimneys to fill the dreams of sleeping children, was unusually thoughtful of his little friends. He was thoughtful in his distribution of thousands of tiny toys for hours of play, but even more thoughtful was he in the matter of warm clothing and nourishing food.

How To Eat

STANLEY BALDWIN, who used to be prime minister of England, remarked the other day that breakfast is the finest meal of the whole day; and since nothing is more pleasant than talking about meals, we might just as well go into that topic right now.
 "I always enjoy my breakfast," says Mr. Baldwin. "I find it the most pleasant meal of the day. I am getting to be an old man now, but I still come down to breakfast every morning feeling full of great hope, faith and cheer. By lunch time I have lost a great deal of it, and by evening I am nearly giving up all hope for this world or the next."
 All of this, of course, proves nothing except that Mr. Baldwin does very well by himself at the breakfast table; but it does call to mind the fact that most Americans treat their breakfast as a most unpardonable matter. Breakfast ought to be an event; it ought, as it is with Mr. Baldwin, to be an occasion of hope, faith and cheer; but for most of us it is hardly so much as an incident.
 The chief trouble, probably, is that few of us come to the table fully awake. The city man lies abed until the last minute; then he stumbles to his feet, shaves and dresses in a fumbling sort of way, and comes to the dining room trying to get out of the grip of Morpheus. He gulps down his coffee and bolts his food like an automaton, and his breakfast is in him before he really knows that he is eating.
 The farmer knows better. He generally does an hour or so of hard work before he comes to breakfast, so he is not only wide awake but has worked up a good appetite. And then? Well, he leisurely tackles a bowl of oatmeal, some eggs and sausage and fried potatoes, a few griddle cakes, a couple of cups of coffee; and by the time he is through he can face the agricultural depression with a clear conscience.
 Of course, such a breakfast would land the average city man in the hospital in short order. Nevertheless, the farmer has the right idea; and breakfast, to him, is something to be looked forward to—whereas for most of us it is just something to be got through with.
 What would make a good breakfast for the harassed city man? Well, half a dozen things are the most important items. Let him get fully awake before he comes to the table, and let him stop eyeing the clock while he eats. The menu, then, is not so important. If he gives himself more time he will find his appetite improving; and presently his wife, instead of giving him toast and coffee and orange juice, will find him calling for such soul-stirring foods as ham and eggs, or little pig sausage, or corned beef hash. For it is of such things that real breakfasts are made.

Seems Satisfied

FOR several years the outside world has been hearing widespread rumors that Spain has been settling with dissenting with its government. A few days ago these rumors culminated in a revolt, and a great many observers confidently expected the government to fall—and, possibly, the monarchy as well.
 But it begins to look as if these rumors had exaggerated the extent of the popular discontent. The revolt was crushed so quickly that it almost looked farcical. Pending judgment at this distance, of course, is not easy; but it looks as if the Spanish people were much more satisfied with their lot than they have been led to believe—or, at least, the government is unusually able and energetic in stamping out the first sparks of rebellion before they can touch off an inflaming fire.

While there is a lot of Sinclair Lewis stuff that The Plainsman can't appreciate (don't you know that's a blow to Mr. Lewis' family?) this scribe is of the opinion that the Sank Center boy, who made good in the Nobel Prize race, just about hit the mark when he said all American cities are stereotyped.
 If you or I were blindefolded, and dumped unceremoniously in the middle of Tulsa, Dallas, Oklahoma City, Houston, Ft. Worth or any other metropolis of similar size, we wouldn't know where we were—and it wouldn't make any difference. We'd just as well be in one of those towns as another, unless of course we wanted to get a check cashed and didn't know a soul except a rich uncle in Dallas.

IF YOU'VE been to one of the aforementioned centers you've been to all of them. Each has some outstanding skyscrapers, some wonderful parks and some residences which look more like a Carnegie library than a home. They all have too much downtown traffic, too many people clog the sidewalks and everybody is in such a hurry that nobody has time to really live. You spend all your time looking harshly at strangers and standing in line for one reason or another.
 The Plainsman was raised in this man's town. Saw it grow, in fact, from a city smaller than Lubbock is today to its present position as the oil capital of the world. It hunted—and found—rabbits in the sections which are now swanky residential districts. I played marbles on vacant lots now housing buildings of 20 and more stories. I lived in Tulsa when it was a pleasure to live here—but then days, as far as I am concerned, are gone—gone forever.
 You stand in line to get into a show. You can't drive your car to park because there's no place to park. You walk for a mile down canyons of business buildings and never see anybody you know and you take your life in your hands every time you cross the street.
 IF YOU drive too fast you get pinched. If you don't drive fast enough a policeman who should be looking for the numerous big-jackers that abound in these parts, rides up along side your car and gives you some of his business. People push you and shove you. If you stop and step on your heels if you so much as lean down to a comfortable pace. In other words, I don't like it and I don't care who knows it.
 Residence in Tulsa is something like a disease. You get a complex that you never shake and you don't know why. You're proud of the city's unparalleled growth, of the riches which are all in the hands of someone else. You worry your friends and relatives nearly to death showing them the latest picture of the skyline of what O. O. McIntyre and many others prophesy will be to call "Little New York"—but you wouldn't move back to live on anything less than \$25,000 per year, and maybe not at all.
 Every time I visit in Tulsa I appreciate Lubbock more. I appreciate going down the street speaking to people, and being spoken to in return. I appreciate having friends that I can see oftener than once a month and then without raking life and limb. I appreciate doing business with people I can call by their first name and by being served by clerks who are glad to see me even if I don't look like Mr. Vandervoort all dressed up to go to the races.
 The Plainsman wants to see Lubbock grow and prosper. He wants to see continued progress and have everybody get independently wealthy. But he hopes Lubbock is so big, and so cold, he'll never see the day when there will be more of a trial than a pleasure.
 ENOUGH thousand population is enough for The Plainsman. That's enough people to assure the best of everything but not too many to assure comfortable living among your fellow men. I used to hope that Lubbock would be so much bigger than Amarillo that the folks up there would be coming to Lubbock to do their shopping; but now I don't hope any such thing. I don't care if Amarillo's population reaches a million in 1940 as long as there aren't too many folks cramming our own town, that's already good enough for anybody and a darn site too good for some of us.
 When I first moved from Tulsa to Lubbock I was just like all the other young emeralites you ever saw. There weren't enough bright lights for a big town boy like me and I wouldn't be sticking around long. Well, I'm either getting older or more sensible, or both, because I've

Sen. Bingham has disagreeable task in fighting further extension of maternity and infancy legislation.

 WASHINGTON, Dec. 26.—There is probably no more disagreeable task, says Senator Hiram Bingham of Connecticut, "that a member of law-making body can take upon himself than that of opposing legislation obviously intended to relieve suffering and to prevent disease."
 But Senator Bingham has had disagreeable experiences before. He is the man who was censured by the Senate because he got the secretary of the Connecticut Manufacturers' Association into the secret tariff committee. Now his conception of patriotism and public service has caused him to lead the fight against any further extension of maternity and infancy legislation such as was carried on for 10 years under the Sheppard-Towner act. He finds himself cooperating with some of the more radical patriotic societies which invariably begin shouting about the "bolshhevik menace" to American institutions whenever anyone mentions the maternity act or the Children's Bureau which supervised it.
 The act expired a year and a half ago. It authorized an annual appropriation of about a million dollars, to be paid to states accepting the act and appropriating equivalent sums for health and welfare work among mothers and children.
 The bill to revive this work is sponsored by Senator Wesley Jones of Washington and has strong, active support from many women's organizations. Senator Bingham refers impressively to the fact that in addition to the American Medical Association, the Sentinels of the Republic and the celebrated ladies of the Woman's Patriot are opposed to the measure. The association's reasons are professional, but the other groups contend that such a federal attempt to save the lives of babies and mothers is communistic and hence highly dangerous.
 The senator from Connecticut has even gone back to the days of the Spanish Inquisition in his arguments to the Senate. It all may seem a trifle far-fetched, but Bingham classes inquisitions and head-of-legislation regarding the welfare of bodies and souls, religious legislation, sumptuary legislation . . . which has always failed in the history of the world whenever a great central government has attempted to apply to sumptuary matters laws enacted by it.
 Of course the gist of Bingham's argument is that maternity and infancy hygiene should be left to the states; that in some cases federal subsidies and co-operation are proper and in some cases—just one, for instance—not. He raises the cry of "state's rights," notwithstanding the fact that nearly all the states accepted the maternity act and used the money.
 Bingham was also the vehicle through which the directors of the Woman's Patriot covered several pages of the Congressional Record with a petition designed to demonstrate that the maternity bill "plot" was hatched in Moscow and that Mrs. Florence Kelley, the distinguished social worker who was always a leading proponent of the act, was a Communist. Mrs. Kelley is not a Communist.
 "The scheme was undoubtedly brought to the United States by Alexander Kollontay in 1915 and 1916," writes Miss Mary G. Kilbreth, president of the board, who learned how to fight the imperial women's organizations unsuccessfully in the old anti-suffrage cause.
 Many States Aided
 Miss Grace Abbott, chief of the Children's Bureau, reports on her latest annual report that twenty-eight states had child hygiene bureaus or divisions before the act was passed she says, and the act stimulated creation of them in 19 other states. As a result of aid given through the act 1984 permanent local child-hygiene, prenatal or combined prenatal and child-hygiene consultation centers were established. County health organizations were widely expanded with that aid. State appropriations were greatly increased, first to match the federal funds and later to continue or expand programs when the act lapsed.
 The Jones bill is likely to be buried in the House and not be permitted to come to a vote in that chamber.

Diet and Health

BY LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"
 EDITOR'S NOTE: Four pamphlets and six articles by Dr. Clendenning can now be obtained by sending 25 cents in coin for each pamphlet and 1 cent in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendenning, in care of this paper, or Central Press Association, 1439 East Tenth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Hygiene of Women," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are: "Normal Diet," "List of Books for Mothers," "Bad Weeding," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."
 X-RAY AN AID TO PHYSICIAN IN DIAGNOSIS
 The diagnosis of tuberculosis depends upon a number of technical procedures and must be carried out by your physician.
 What are those procedures? How does your doctor go about coming to a decision?
 There are various kinds of tuberculosis. We consider here tuberculosis of the lungs.
 The one final and decisive sign of tuberculosis is the finding of the germ in the sputum. It would be desirable to make the diagnosis before this stage.
 But I believe that of late, with the many effective surgical methods of treating tuberculosis, the finding of tubercle bacilli in the sputum is not considered as serious as it was fifteen years ago.
 The history of the case is of great importance. There should be a definite and indubitable set of symptoms before the diagnosis is made. Many people have old healed spots of tuberculosis which show as shadows on the X-ray plate, but do not mean active tuberculosis.
 The best sign of activity is fever. This is present usually in the afternoon. The temperature should be taken for a week—four times a day. At in the morning, 12 noon, 4 in the afternoon and 8 at night.
 For a hundred years following the invention of the stethoscope the examination of the chest by looking at the chest was the only method accepted the maternity act and used the money.
 Bingham was also the vehicle through which the directors of the Woman's Patriot covered several pages of the Congressional Record with a petition designed to demonstrate that the maternity bill "plot" was hatched in Moscow and that Mrs. Florence Kelley, the distinguished social worker who was always a leading proponent of the act, was a Communist. Price Smith Sure Of Getting Paper

CROSBYTON, Dec. 26. (Staff Special)—Price Smith, a Crosby county farmer, is sure of having the Crosby Review to read every week for the next year or two.
 When Walter Curry, editor, announced he would accept produce for paper subscriptions he started something. Price fixed up a couple of messes of backbone and spars and brought them to the editor. Mr. Curry moved up his subscription.
 About that time another farmer, Mr. Curry has forgotten just who, for paper subscriptions he started. The editor has sent out a hurried S. O. S. call for names.

NEW YORK, Dec. 26.—The Christmas season in New York finds all of the scattered children of the earth reaching back for some tender memory or some sentimental contact with that which they have left behind.
 "This is the time of year when, if ever, comes perfect proof of old attachments that die hard. There is that about the Yuletide which sends the most adamant dreamer back to some family hearth, either in America or abroad, to relive in reverie the warm associations of the past.
 Across the town drift faint echoes of far-away sleigh-bells; of lamp-lit windows through which came the gay colorings of Christmas tree trappings; of nights when all were snowed in and Uncle Joe drove a merry party up in a sleigh and everyone sat around and drank cider; of ice cold stairways down which crept bare-footed youngsters with eyes the size of saucers and expectations the size of worlds.
 There was pop-corn strung on strings and little candy canes and tiny gauze stockings filled with gum drops.
 There was a vast sense of home and family ties.
 And most of this you leave behind, my friends, when you come to New York.
 Sitting in a top floor apartment, it comes to haunt me as it haunts others.
 It was not without a slight choking at the throat that I just peeped in a drug store window a few moments ago and looked wistfully upon a truck corn-popper that works by electricity. Imagine me peering in an electric doo-funny! Well, that's what you get with the big town.
 And all around me there are other people feeling about the same way. Or so I imagine from flatterings in care of this paper, or Central Press Association, 1439 East Tenth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Hygiene of Women," "Infant Feeding" and "Instructions for the Treatment of Diabetes." Informal Gatherings Of Families And Friends Mark Yuletide Season

Dinners, Teas And Other Affairs Of The Season Introduce Visitors Here

With the exception of informal gatherings of families and friends, this week-end promises to be a quiet one in Lubbock. Christmas Day was a festive one but it was devoted principally to dinners and informal gatherings. Many people came in for the day; some are remaining for the week-end; others have gone to visit elsewhere.

Among the events of Christmas Eve was an informal tea given by Miss Louise Jennings in her home at 1717 17th street. Miss Jennings invited a few friends in the occasion to meet her sister, Miss Grace Jennings, who is at home for the holidays, and to meet Miss Roberta Riegel, of Tucson, Ariz., who is the guest of her sister, Miss Zella Riegel.

Parties Announced
Several parties have been planned for the week-end. Mrs. C. B. Powell is entertaining Saturday afternoon complimenting her daughter, Mrs. L. H. Beall. The annual Christmas party for the Sorosis club is to be given this evening at the Glorietta shop. Several Sunday school classes have announced parties.

Among the visitors who were for Christmas Day were F. P. Wilson and Louis Bell Wilson, of Sudan. They were guests of Mr. Wilson's son, S. C. Wilson, and family, 1615 10th street.

Dr. and Mrs. M. C. Overton and Mrs. Overton's mother, Mrs. J. H. Jennings, had as their guests for Christmas Joseph Jennings and daughter Kathleen, and Edgar Jennings, of Plainview. Miss Julia Jennings, of Spur, Robert Overton, of San Antonio, and Dr. M. C. Overton, Jr., of Slaton.

Morgans Hosts
Mr. and Mrs. Sam Morgan, 1506 Avenue G, had a number of local and out-of-town guests for Christmas dinner in their home. Mr. Morgan's parents, Mr. and Mrs. Jeff Morgan, of Comanche, and his sister, Mrs. J. O. Bowden, and Mr. Bowden, and their four children, of Munday, were among the guests.

Others from out of town were Mrs. E. W. Duke, of Muleshoe, Joe Bailey, Duke of Hobbs, N. M. Mr. and Mrs. W. B. Wagner, of Muleshoe, and Mr. and Mrs. Willard Bearden, of Meadow.

The Morgans are visiting with their daughter, Mrs. George Duval, and family, also, and the Bowdens are dividing their visit between the Duvals and the Morgans.

Miss Loree Dennis, a teacher in the Post schools, left Thursday evening for her home after visiting with Mr. and Mrs. W. C. Wood, 2418 22nd street.

Guests in the Paul H. Womack home, 1915 28th street, are Judge and Mrs. Hanson Womack, of McCombs, and Mrs. C. A. Duffey, of Houston.

Mrs. Ford Returns
Mrs. Eva Ford returned this morning from Port Worth where she has been visiting her daughter, Mrs. Guy Witt, and Mr. Witt, who have a 10-day-old daughter, Jennell Pearl.

Mr. and Mrs. Jeff Roberts left this morning for Munday. Mrs. Roberts will take mineral baths here Christmas. Mr. and Mrs. Peach are parents of Mrs. Wilson and Mrs. Thrallkill.

Miss Loree Dennis, a teacher in the Post schools, left Thursday evening for her home after visiting with Mr. and Mrs. W. C. Wood, 2418 22nd street.

Mrs. Ford Returns
Mrs. Eva Ford returned this morning from Port Worth where she has been visiting her daughter, Mrs. Guy Witt, and Mr. Witt, who have a 10-day-old daughter, Jennell Pearl.

Mr. and Mrs. Olin Graves and son, Olin, Jr., and daughter, Frances, of Fort Worth, are visiting with Mrs. Graves' sister, Mrs. Neil H. Wright, and family. Miss Lois Graves, who has been attending Texas Technological college during the fall, remained here for the holidays. She is the daughter of the Olin Graves.

Miss Evelyn Jennings invited a few friends in for supper Thursday evening at the home of Dr. and Mrs. M. C. Overton, 1812 Broadway. Her guests included Dr. and Mrs. A. B. Cunningham; Mr. and Mrs. A. B. McDonald, of South Texas; Miss Ruby Pugh, of Houston; Miss Mayme Alexander; Miss Frances Conley; Miss Margaret Weeks and her mother, Mrs. Charles Weeks; Miss Marian Grant and her mother, Mrs. Donald Grant, of Belton; Mr. and Mrs. S. B. Haynes, and members of the Overton family and their holiday guests.

Miss Grant, who is a member of the faculty at Baylor College in Belton, and her mother are visiting with Mrs. Charles Weeks and her mother during the holidays.

Atkins Return
Mr. and Mrs. H. T. Atkins and their daughter, Sally Lane, have returned from Lampasas where they

spent Christmas. Mrs. Virginia Palmer, of San Angelo, is spending the holidays with his family at 2123 8th street.

Miss Vivian Keaster, who teaches in Lipscomb, is visiting her parents, Mr. and Mrs. J. G. Keaster.

Mr. and Mrs. John Bass, of Clarendon, visited in Lubbock yesterday as the guests of Mr. and Mrs. J. F. Anthony.

G'dap, There Galapagus!

Turtle-back transportation is neither swift nor sure, but Miss Betty Esmond, who here is shown in chariot pose on the back of Galapagos, gets about the beach at Miami, Fla., readily enough. The secret of getting the 200-year-old Galapagos to giddap is to mention turtle soup.

Miss Ethel Donnell Becomes Bride Of Elbert K. Hester In Nuptial Ceremony

Miss Ethel Donnell and Elbert K. Hester, of this city, were married this morning at 9 o'clock at the ranch home of the bride's mother, Mrs. Fannie Donnell, at Ellenville, which is near Graham. Rev. J. O. McCall, pastor of the Presbyterian church at San Saba, and the bride's brother-in-law, officiated with the ring ceremony.

After the ceremony, Mr. and Mrs. Hester left for Shreveport, La., where he has been stationed since September. They are to stop in Dallas, enroute there.

A few friends and relatives of the couple were guests at the wedding. The bride was attended by her sister, Miss Ruth Donnell, and the

groom's attendant was his twin brother, Elmer Hester, of this city. The bride's niece and nephew served as flower girl and ring bearer, respectively.

In Married In Blue
Mrs. Hester chose as her wedding gown a model in midnight blue which she purchased in Germany last summer while travelling abroad with her sister, Miss Ruth Donnell. For her going-away costume, she wore a black crepe suit with burnt orange blouse.

The Donnells have been dividing their time between their home at 2201 Main street, this city, and Ellenville, for several years. Mrs. Hester is a former student in Texas

Technological college, here, of the College of Industrial Arts, the University of Colorado and of Canyon Teachers college at Canyon.

Mr. Hester is a 1930 graduate in engineering at Texas Technological college and he has been with the Austin Bridge company since he completed his college work here. He is the son of Mr. and Mrs. W. T. Hester, 1930 Avenue N. He was accompanied to Ellenville Thursday by his twin brother and by Stewart Galloway, of this city.

PARENTS MAY OVERCOME HAZARDS OF VACATIONS BY PROVIDING PROGRAM
CHRISTMAS holidays bring new problems to us parents. School children are at home. Their presence for ten days often adds to family confusion. After a day or two they may be very restless, not knowing what to do with themselves. Inevitably there is at this time more contention and quarreling.

We want those old enough to be out-of-doors, but when they are out-of-doors, face them if they are safe. When we try to tempt them to take their sleds into the streets or to coast from the sidewalks into the street, when we are wise we bring pressure to bear on our police department to rope off some streets for play and then see to it that our children do not expose their lives to traffic dangers elsewhere.

Let us provide a program for the holidays, indoors, and out—for hiking parties, skating, skiing, coasting where it is safe, and when we come to see our children, even at some personal sacrifice. In the house we can provide informal parties with group games and opportunities for constructive and creative work. We want our children to attract their playmates to our home. We need, therefore, to learn to adapt ourselves to the normal noises incident to such wholesome fun and recreation—no small task.

Our children's health is more endangered at this time. Most eat sweets too freely, with digestive disorders following and increasing number of colds. By proper guidance we can reduce the older ones with colds to keep their distance, not to enter their neighbor's houses then or when they seem at all indisposed. Contagious diseases are readily spread during the holidays and as a rule they are most infectious at the onset. Although it sometimes is a delicate matter, we shall try to keep from our house other children who have colds or slight illness. We can do much to encourage caution in such matters by our neighbors by exercising due vigilance in keeping our children when they have small ailments, from our neighbors' houses.

Picture shows are more dangerous to health during the holidays than at any other time, since more children go then, and from wide areas. Although always a dangerous place for school children, they are peculiarly hazardous at this time. Let the older children know exactly how many shows they are allowed during the entire period, better not make the number large. When they contract contagious there they immediately expose the younger ones at home.

Work out for the older children a definite program of home responsibilities in such a way that they will know when their jobs are finished and be able to plan their play. Encourage them to find some time to read, and surely a period each day for quiet and relaxation for their good and for the comfort of the rest of the family.

School children who have rather rigidly followed a routine of regular sleep will profit by some privilege of staying up a little longer than usual several nights, provided they are allowed to sleep late in the morning. Nevertheless, the family happiness will be most secure if there is not much variation from the regular program.

RUSSIA PLANS
PROHIBITION
FOR NATION

LIQUOR SUPPLY BEING
GRADUALLY REDUCED
BY SOVIET UNION

BY VICTOR EUBANK
Associated Press Staff Correspondent
MOSCOW, Dec. 26 (AP)—The Soviet government, working hand in glove with the anti-alcoholic society, is gradually cutting down Russia's liquor supply.

The rapidly growing prices of vodka tell the story. The powers-that-be are trying to make liquor hard to get with the idea that ultimately the Soviet republic will be without an alcoholic taste. The government apparently is not concerned with the huge monetary loss it will suffer when the comrades give up their sipping. Last year, for instance, Russians spent some \$750,000,000 for vodka, beer and wine.

Two Don't Mix
As one official views the situation: "Sovietism and alcoholism do not go together. We must some day have a liquorless country. When that will be, it is hard to say. Like some of our other ideals, it may be difficult to attain. But some time it will be a reality. We do not intend to enforce prohibition. We hope to succeed by education and by gradually cutting down the supply of alcoholic beverages. We envision a day when there will not even be beer in the republic."
From the standpoint of the foreigner visiting Russia, there is U. S. S. R. the ordinary tourist experiments with a shot of vodka. Once, but not twice. He almost immediately "goes on the wagon." For vodka, to the uninitiated, is drain lighting. It is also bitter and most unappetizing. The beer is also scarce and not good. The wine is a little better, but still far from being a sector of the gods.
At present there are no saloons or cabarets, night clubs or speakeasies in Russia. Mild beer can be had only in state-owned hotels and restaurants and in the various union clubs.

AERIAL BATTLE LOOMS FOR EAST-WEST CONFLICT

BOTH ELEVENS HAVE EXPERTS OF PASSING

ACES IN DEPARTMENT AIMED BY BACKS OF TWO SQUADS

(By The Associated Press)
SAN FRANCISCO, Dec. 26.—With seasoned passers and receivers lining up with both the East and West, fans look forward to brilliant aerial attacks in the annual charity football game here tomorrow.

A half dozen backs with either squad can throw the piskin. Broder of Northwestern and Hart of Colgate for the East, and Kitzmiller of Oregon and Baugh of Kansas, are aces in this department.

On the catching end the East has such sure-fingered men as Frank Baker, (Northwestern), Gantenbein, (Wisconsin), Bates, (Western Maryland), Wheeler, (Michigan), Brockmeyer, (Minnesota), and Bruder. Against these are the Western experts—Long, (S. M. U.), McCallip, (Oregon State), Ebding, and Boyle, (St. Mary's), Mills, (Oklahoma), and Clark, (Stanford).

With these forces to draw from neither team will be light of high powered aerial material at any stage of the game. While coaches have not indicated how much they rely on their passers and receivers, lovers of an open game are looking for frequent resorts to the air for yardage.

IN THE REALM OF ESPERANCE

With Collier Parris
 Journal Sports Editor

Southwest Conference grid-sters bring honor to the conference and to Texas this week when three of them play with the stars of the west against the stars of the east in the annual contest at San Francisco tomorrow. Noble Atkins of Texas Christian University has been named by Coach Dana Rible as starting center. Jake Wilson, all-Southwest star, will start at that position, and Botchey Koch, all-American guard from Baylor, will play his old position tomorrow. Koch was especially honored when he was elected co-captain of the West team this week.

This trio will take a plane Sunday for Dallas and work out with Morley Jennings and his all-stars of the Southwest Conference as they prepare to take on the stars of the Mid-west on New Year's day in the ever-growing Dixie Classic. Coach Bob Zuppke of Illinois, who is drilling the Mid-west stars, rounded up twenty-one of his men yesterday and sent them through a long workout at Dallas. Jennings and the Southwest outfit will start rehearsals today.

Charles E. Dorais, athletic director at the University of Detroit and a member of the rules committee of the football coaches' association, made a statement to the Associated Press yesterday that speaks the sentiments of fans from one end of the country to the other. America may need a good five cent car of a nickel miniature golf course, but Professor Dorais says that what football needs is a five-year period without rule changes.

This department heartily agrees with Mr. Dorais when he says that a period of stabilization would help the spectators catch up with the game, and we might also add that it would help lots of other people along the sidelines. "Each year," Dorais says, "we are attempting some change in the rules and the changes come so often that a vast portion of the populace that crams its way into stadia throughout the country can't keep up with the game."

"Much of the game is lost to the average crowd because of the many intricate changes that have been made during the past few years. I am heartily in favor of letting the rules alone for, say five years, until the public catches up, and then if the game needs any improvement alterations can be made and followers of the game won't be at a loss to understand them. This is no time for experiments," he declares. "I believe we have struck the proper balance between offense and defense, and the game is good enough now to let alone."

It all started when someone asked Dorais what he thought of the proposed elimination of the point after touchdown, widening the end zones and other alterations in the present rules. We have not heard all of the arguments on the side which proposes such changes, but in our modest opinion it would be taking a lot from the game to do away with the point after touchdown. Too many victories depend upon this extra point. There would be too many tie games, too many dissatisfied fans, and too much heating over figures. It would detract too much from the interest in close games.

KNUTE ROCKNE BELIEVES SPIRIT IS THE BIG THING IN COLLEGE AND HIGH SCHOOL ATHLETICS; GIVES INTERVIEW

ROCHESTER, Minn., Dec. 26.—Spirit is the big thing in college and high school football, Knute Rockne of Notre Dame, told a 17-year-old Rochester High school journalist student.

Ted Tollefson, the student, met Rockne, who is here and going on an examination at the Mayo clinic, at a high school banquet and asked for an interview. The coach, who quiesced and took Ted to luncheon. The interview, in part, as made

points, or a collection of single points gained by the ability to convert the point after touchdown. If there was any change made, it appears to us that more than one point should be given when a team succeeds in making the extra point. And when a team is good enough to kick for the point, pass over the line for it, or play from scrimmage for it, they certainly deserve the addition to the total score. After all, the ball is on the 3-yard line, and many teams have failed to put over touchdowns from the 3-yard line, even in four tries, and for the extra point there is only one down. We think the end zones are wide enough at present, too, and that everything is going nicely.

BY TED TOLLEFSON

"Spirit is the big thing in college and high school football," Knute Rockne, coach of Notre Dame, told me in an interview.

"Professional football is a game of individual skill, while intercollegiate and academic football is primarily a game in which spirit counts," Mr. Rockne said. "They make a lot of fun out of it—the light writers for humorous magazines and sometimes newspaper readers—but after all spirit is the big thing in football."

Have Never Played

"Mr. Rockne told me most of those people who pose so much fun at school sports never played football or any other game. The reason professional baseball attracts more people than amateur baseball unlike football is because baseball is a more hazardous game. The wizard of Notre Dame declared:

"A player in baseball has his certain task before him and naturally all the players are good in their chosen work, while in football there is so much attention given to individual skill as there is in cooperation and team work," he said.

Mr. Rockne believes the greatest football game of the year was the charity game between Notre Dame, All-Stars and the New York Giants,

Last Grid Game To Be Heard Saturday

NEW YORK, Dec. 26.—The year's last football game will be broadcast from coast to coast tomorrow afternoon.

It is the annual contest between stars of the East and West, played at San Francisco for the Shriner's hospital fund. The broadcast, by WABC and Stations, opens at 4 p. m. (east) and continues until approximately 7:15. The station list will include all available units of the CBS chain. The announcer will be Ernie Smith,

COACHES CALL TWO TEAMS TOGETHER

MID-WEST TEAM IS IN DALLAS; ZUPPKE HAS BIG BOYS

(By The Associated Press)
DALLAS, Dec. 26.—Workouts were in order here today for the Mid-west and Southwest football stars matched in the Dixie classic, a charity contest, on New Year's Day.

The Mid-west players, save for one man, arrived yesterday and were drilled in offensive plays by Robert Zuppke, coach at the University of Illinois.

Thomsen, Jennings to Coach

Arrival of the Southwest representatives was set for today with a workout under direction of Coaches Morley Jennings of Baylor university and Fred Thomsen of Arkansas university in prospect shortly after they train.

Zuppke expressed satisfaction at the showing of his pupils and forecast an interesting game. He used two full teams, one averaging 185 pounds.

Donald Ridler, tackle from Michigan State college, was absent, having missed the train which brought the other 21 Mid-west players to Dallas, but it was said he would follow soon.

The French authorities are said to have accepted their invitation and will send over three great runners. . . These are Jules Ladouegue, the miler; Sera Martin, half-miler, and probably Guillemot. . . You may remember Guillemot as the man who made Nurmil eat dust in the 5000-meters at the Antwerp Olympic. . . Ladouegue cut 11-5 seconds off the world record this summer in the 1500 meters. . . making it 3:49-1-5. . . Ray Conger is getting ready to defend against the "furriners". . . Ray is a post-graduate student now at Teachers' College in New York.

WOLGAST TO FACE GENARO TONIGHT

NEW YORK, Dec. 26.—Midget Wolgast, scrappy kid from Philadelphia, will have precedent on his side when he tries in Madison Square Garden tonight to clinch his claim to the flyweight championship in a fifteen round duel with Frankie Genaro, once considered the greatest of the little fellows.

Wolgast, by reason of his conquest of all rivals in an elimination tournament last summer is the New York State athletic commission's nominee for the 112 pound crown. Genaro, a shabby little Italian veteran, is recognized almost everywhere but in New York state and Pennsylvania by the national boxing association as the flyweight champion of the world. Twice previously inter-commission rulers have met to decide a generally recognized champion and both times the New York state entry won the honors.

BAN JOHNSON, FORMER PRESIDENT OF AMERICAN LEAGUE, WINNING OUT IN ILLNESS; STILL INTERESTED IN GAME

(By Associated Press)
ST. LOUIS, Dec. 26.—Ban Johnson, former president of the American league, apparently won another victory—this time against Old Man Disease.

After 13 weeks in bed, the former czar of baseball was considered "out of the woods" in his fight against diabetes which aggravated a foot infection and threatened for a time to result in the loss of one leg.

Still Interested

"I owe my life to Phil Ball," said Mr. Johnson to the group of which included Mr. Ball, head of the St. Louis Browns. "He stepped in and took charge of my case and refused to permit amputation of my leg. At one time I myself felt that only a miracle could pull me through. But the miracle happened."

Must Reduce Rubber

Mr. Johnson then unfolded some of his opinions on present day baseball problems, among them the lively ball and night baseball. He said he had written George Reach, manufacturer of the official baseball, that unless the amount of rubber in present day baseball were reduced, the game, in Johnson's opinion, would be seriously impaired.

"I have satisfied myself by examination of the baseballs in use," he related, "that the amount of rubber in them has been greatly increased from that found necessary in other days when scores were low, home runs were fewer, and there was some skill and strategy required to win a baseball contest."

Unless the rubber is reduced, he said, the ball "will continue to result in meaningless home runs and hurt both infield and outfield play." He said he believed the reaction from the long hitting craze will result soon.

Night Games to Go

"Night baseball has created a curiosity interest for the time, especially among women, but in my opinion it is not an interest that is of an educational or permanent nature," he said. "Night baseball is not natural. It cannot be permanent. It will never take hold of the major leagues and I do not believe it will long continue as a life-saver for the minor leagues."

CARUSO WELLS HANDICAP

AQUA CALIENTE, Mexico, Dec. 26.—Caruso, ridden by Jockey Lishman, led the field of ten horses of all ages to the wire yesterday in the \$1500 Christmas handicap, feature of the opening days racing card here. Caruso stepped the six furlongs in 1:12-3-5 with Good and Hot second and Lamplblack third.

CHICAGO PROS DOWN STARS

ERNIE NEVERS' ELEVEN BETTER THAN STARS OF SOUTHWEST

(By The Associated Press)
FORT WORTH, Dec. 26.—Ernie Nevers' Chicago Cardinals, using the Warner double wingback attack, defeated the Southwest conference All-Stars, 20 to 9, here Thursday.

With the big Nevers, Walter Camp's All-American fullback in 1924 and 1926 and selected by Rockne and Warner as the greatest man at that position in all gridiron history, as the triple threat spark plug of the red-tinted Chicagoans' offensive, the All-Stars were hardly a match.

However, the squad representing the southwest gave an excellent account of itself. This was made possible by two veterans of the national football league, of which the Cardinals are members. Mule Wilson and Father Lumpkin appearing in the All-Stars' backfield.

Wilson, one-time Texas A. & M. captain, fullback and star punter, and Lumpkin, Oak Cliff (Dallas) high's one man team of 1926, later an ace of Georgia Tech, have served with the New York Giants and Portsmouth, Ohio, Spartans since leaving college. Home for the holidays, they were recruited by the Texans for service.

Harry Phillips, former University of Texas guard, gave a great performance at that post in the Southwest forward wall. He was constantly brilliant in stopping the Cardinal smashes.

Jake Williams and Phil Handler, Fort Worth boys and former Texas Christian University stars, played the entire game for the Cardinals at end and guard, respectively. Jake is serving his second season with Nevers, while Handler put in his first year with the professionals during the 1930 National league campaign.

The Cardinals' first touchdown came in the second period, when Gene Rose, fleet halfback, who won all-Big Ten honors with Wisconsin, plunged over from the five yard line, after Nevers had carried the ball to scoring position. Ernie placed-kicked for the extra mark.

DAILY MARKETS

Stock Market

WALL STREET REPORT NEW YORK, Dec. 26 (AP)—Speculative activity was at the lowest ebb in weeks during the early trading on the stock market today. Declines of a point or so in Allied Chemical, Westinghouse, American Telephone, American Can and U. S. Steel in the first hour were easily recovered, however, and a number of representative issues rallied above the Wednesday close.

Cotton Market

NEW ORLEANS REPORT NEW ORLEANS, Dec. 26 (AP)—Cotton opened quiet but steady, trading still being restricted by the holiday influence. Liverpool continued closed, and the market here was without any influence from that center. First trades showed gains of one to three points, and the market continued to improve after the start, January trading at 77 and March at 10.95 or three to five points above the previous close.

Lubbock Markets

These prices are furnished by the following Lubbock firms: Poultry—Lubbock Poultry and Egg Company; Dairy Products—Bell Ice Cream Company and Misteltoe Creameries; Grain—E. C. SEVEN KILLED IN OKLAHOMA TRAGEDIES

OKLAHOMA CITY, Dec. 26 (AP)—Seven persons were known to have been killed in Oklahoma Christmas tragedies.

Three died as the result of a grade crossing accident at Ada. They were Rev. Lee Hill, 30; Shelby Willis, 22; and Polk Smith, 35.

An automobile in which they were making a trip downtown after leaving their families at the Christmas dinner table was struck broadside by a Princeton train.

Three persons died in Oklahoma City as results of automobile accidents and a bandit raid.

Mrs. Mary Jolley, 99, and Robert Westbrook, 43, died of injuries received in automobile accidents, and Pruitt Neal, 22, pool hall attendant, was shot to death by one of two men who robbed a pool hall.

K. Durkin, in the pool hall at the time of the holdup, was shot through the chest and was in a critical condition, witnesses said he was shot when, after giving the robbers his money, he told them he had no more.

A proposed trip to a Christmas party ended in tragedy at Tulsa when John B. Schmitz, Jr., 20, was killed when the Schmitz motor car, carrying three other members of the family, overturned after a collision.

SEVEN BURN TO DEATH IN INDIANA FIRE

WHITING, Ind., Dec. 26 (AP)—Seven men died, four of them in sleep, as flames trapped them on the second floor of a rooming house yesterday.

The dead: Joseph Luck, 49; John Loeck, 34; Max Steich, 63; Joseph Beber, 48; Victor McHovec, 33; Thomas Kusevich, 55, and Nick Fleming, 40, all day laborers in steel plants.

COUGARS AND TIDE DRILL FOR CLASH

PASADENA, Calif., Dec. 26 (AP)—After an afternoon and night of rest, the Rose Tournament's football teams, Washington State and Alabama, prepared today for further physical and mental training.

The two teams will meet on the gridiron New Year's Day. Alabama, pride of the south, and Washington State, Pacific Coast champions.

Coach Olin "Babe" Hollibaugh expected today to give his boys a hard workout. He said he felt the team was coming along rapidly and needed only a few more hard sessions. Next week, he said, he will start tapering down on the rigid training.

LOCAL MAN WINS IN PRIZE CONTEST

Announcement was received here today by Walter S. Ruffner, of the West Texas Gas company that he has been named one of the \$100 prize winners in the recently conducted national contest of the Plymouth Motor corporation, based on essays of "Why I Buy A Plymouth."

Prize winners totalling 1,011 were selected on Christmas eve in Detroit. The announcement received here stated that more than a half million essays from 47 different countries throughout the world competed for the prizes.

Two Calves Stolen From Residence Here

Reminiscent of the days when cattle rustling was prevalent, two Jersey heifer calves were stolen from the home of Henry McKinley, 1909 Avenue C, early Thursday, according to reports received by local officers. Officers stated this morning that livestock theft, with possible exception of missing poultry, is very uncommon in Lubbock county.

One of the missing animals was described as being seven months old while the other was four months.

were entertained at the tree program and that Christmas bags containing candy, apples, nuts, oranges and popcorn balls were distributed to each of these.

Old Santa revealed himself in all his glory on Wednesday morning when several hundred kiddies were entertained at the Lindsey theater by management of the show house and the local Lions club. A long movie program with later distribution of gifts from a brightly lighted tree comprised the morning's activities.

Provision of Christmas did not end with the work of the Lions, A. B. C. and Salvation Army, however. The Downtown Bible Class also figured in the day's giving and many baskets were distributed by this group of men. United Charities also spread Christmas cheer, giving out many garments received in a city-wide drive conducted the first of the week.

Thursday was a Merry Christmas for everyone, hundreds who might have felt the grip of utter despair, today are alive to the fact that their neighbors care and those same neighbors know that the old scripture is true, "It is more blessed to give than to receive."

TREASURY HAS SURPLUS NOW

INCOME TAX PAYMENTS BRING TOTAL OVER TO HEAVY SIDE

WASHINGTON, Dec. 26.—Collection of \$73,637,357 in income tax December 19 shifted the condition of the treasury from a deficit of \$16,740,846 on the preceding day to a surplus of \$47,716,512.

While the surplus is likely to fade away again after the first of the year the deficit which has held sway since last September was wiped out by collection of the last quarter's payment of tax on 1935 incomes, the quarterly financing of the treasury which brought \$425,000,000 from sales of certificates and war debt payments by foreign countries.

Total Is Lower

The last treasury statement for December 19, showed for the month a total of \$440,922,489 had been collected from income taxes as compared with \$471,188,331 in the same number of days last year. For the fiscal year starting last July 1, income tax receipts amounted to \$1,081,418,275 compared with \$1,140,905,471 in the same period of the previous year.

On that date the government had collected from all sources \$1,768,038,456 and had spent \$1,720,518,904. Receipts were approximately \$200,000,000 less than for the same period of the last fiscal year and disbursements \$172,000,000 less.

Total tax collections by the government for the first five months of the present fiscal year amounted to \$857,071,744 compared with \$938,356,842 in the same period the previous year, the internal revenue bureau announced today. Income tax for the period totaled \$612,336,946, a decrease of \$56,285,704 compared with last year, while miscellaneous tax amounted to \$244,734,798, compared with \$329,724,174 last year.

Bride Finds Policemen Come To Her Party

HAMMOND, Ind., Dec. 26. (AP)—It really is surprising, Mrs. J. H. Shekels may have reasoned today, how many policemen can come to a surprise party, like, for instance, the one she arranged for her husband.

It all started when Mr. Shekels came home last night, observed a light in the house, and knowing that his bride was not due back from a visit with her mother for five more days came to the most natural conclusion that all was not well within.

"Burglars," he said to himself and later to the police over a telephone from the house of a neighbor.

A squad of picked officers responded. One man was stationed at each door and window before officer Albert Richman, noted for bravery under fire entered the house cautiously, followed by Shekels on tiptoes.

"I'm surely glad my wife isn't home," he whispered, about

Doctors Know Best How To Treat Colds

Medical writers agree that the important point in the treatment of a cold, or cough, due to a cold, is to relieve the congestion in the nose and throat, thereby preventing serious complications which may follow a neglected cold. To stop this congestion calomel was the accepted and standard remedy until Calotabs, the improved calomel compound tablet was introduced.

Now that science has robbed calomel of its nausea and danger, making it pleasant to take and perfectly safe for general use, over forty million Calotabs are consumed in the U. S. yearly with only the most pleasant and satisfactory

Texas Railroads Losing In Profits

AUSTIN, Dec. 26. (AP)—Operating revenues of Texas railroads decreased \$29,829,177 during the first 10 months of 1936 and operating expenses were decreased \$16,957,507, according to a report issued today by the state railroad commission.

The net revenue from operation was listed at \$12,871,670.

Operating revenues during the first 10 months of 1936 were \$175,986,870 and for the same period in 1935, \$205,816,047. Operating expenses dropped from \$147,154,554 in 1935 to \$131,200,047 in 1936. Freight revenue for the period was reduced from \$165,822,091 in 1935 to \$143,680,582; passenger revenue from \$23,584,178; rail revenue from \$3,234,859 to \$3,642,836; express revenue from \$5,122,451 to \$4,367,020; other revenue from \$7,592,968 to \$6,442,863.

The net operating income was \$24,603,031, a decrease of \$10,420,712 under the first 10 months of 1935.

Patrolman's Wife Keeps Police Busy With Calls

DETROIT, Dec. 26. (AP)—Things were pretty slow around the home of Patrolman Arthur Quist, what with the officer out patrolling his beat, and Mrs. Quist entertaining Pearl Vater, who craved action.

"What we ought to do," said Miss Vater, "is go places and ring doorbells."

So just as a prank, they took

Patrolman Quist's spare patrol box key, and set out to ring—not doorbells, but patrol box phones.

Police operators were kept busy for two hours, answering calls from all over Davison precinct. Invariably they received the reply "Merry Christmas," with a feminine giggle.

Finally a picked detail overhauled Mrs. Quist and Miss Vater, and brought them to the station, under arrest, and very indignant because the police couldn't take a joke. The inspector in charge said he would question them today in an effort to settle the matter amicably.

Sidney Franklin To Fight In Mexico City

MEXICO CITY, Dec. 26. (AP)—Back in the land where he became a torero, Sidney Franklin, of Brooklyn, is billed to fight a bull in the Mexico City ring Sunday. He arrived today and indicated he preferred to be addressed in Spanish.

"Hello, Mr. Franklin," said a reporter who greeted him.

"I am an American, my friend," replied Franklin, "but I am also a torero and speak Spanish."

The Brooklyn youth will step out of the torero class (novice) to receive his doctorate, or title of ace, in performances here. He declined the honor in his Spanish career in order to achieve it in Mexico, where he entered the bull ring several years ago.
