WATER LEVELS SHOW DECLINE

Annual measurements of water levels in almost 900 observation wells in the High Plains Underground Water Conservation District has revealed an average decline of 4.26 feet in Lamb County.

Throughout the district, the average decline was 3.84 feet.

Spokesmen for the water district predicted a record year for well drilling permits, "especially is we do not get some rain real soon."

Falling Wire Hits Girl During Walk To School

Lupe Rodriguez, 14-year-old daughter of Mr. and Mrs. Leo Rodriguez, was described in good condition at Community Hospital here Wednesday afternoon after she suffered severe electrical shock and burns from a falling high line wire early in the day.

The seventh grade student was on her way to school here when she was apparently hit by the 12,000 voltage wire after it broke from a pole and fell.

The child was struck about 8:10 a.m. as she walked on the school yard just south of the entrance to H. P. Webb Elementary School.

The line broke where it was attached to a pole standing just inside the curb a few yards south of the school entrance.

Walking with the girl was her sister, Noelia, 12, who was unharmed.

An 11 year-old brother, Leonardo, sixth grade student, was walking a few paces behind the injured child and witnessed the accident.

"The line just broke and it fell and it hit her," Leonardo told a reporter Wednesday.

First person to reach the injured girl was Police Chief Emmett Burrows.

Burrows said he was on his way to his post at the Eighth Street stoplight directly in front of the school when he was told of the incident.

Burrows daily assists children crossing the street at the stop light for the opening and closing of school.

"She was lying on her face, bleeding from the nose and mouth when I reached her," Burrows said, "and I turned her over off the wire." The child apparently had fallen on top of the wire.

She was unconscious at the time Burrows reached her, but was reported to have regained consciousness in a Parsons Funeral Home on the way to Community Hospital here.

LUPE RODRIGUEZ

Ralph Glover, Southwestern Public Service manager, in Olton, said that the voltage in the wire at the time it hit the girl would have been approximately 7,200.

He said that when the wire touched the ground, it would have automatically shut off briefly, then flicked on and off again twice until it was off permanently.

According to Glover, it would have taken approximately 60 seconds from the time the wire touched the ground until it shut off completely. Approximately three seconds of this time, the wire would have been live.

He noted that since the girl fell on top of the wire, some of the voltage apparently went into the ground. Had the wire fallen on top of the girl, the entire voltage would have gone through the girl into the ground during the time the wire was live, he added.

Glover also said it was fortunate that the girl was not touching anyone at the time she was hit and that none of the other children touched her immediately after her fall to the ground.

The injured girl's father works on a farm here for Homer Worley.

Turner Buys Stone Studio

Mrs. Marshall Stone, owner of Stone Studio in Olton, announced the sale of the business this week to Bill Turner, publisher of The Olton Enterprise and The Hart Beat.

The studio will begin operation Monday under the name of Enterprise Studio. It will be located temporarily in The Olton Enterprise newspaper building.

Mrs. Stone, who started her photo studio here in 1959, will work part time in the new studio. Turner has a master's degree in photography from the State University of Iowa and has announced he will now do portraits, weddings and special occasions by appointment with the studio.

While the studio is located in the present newspaper building the same telephone number will be used for both businesses.

Baseball Meet

Olton Baseball Association is asking parents and anyone willing to help with the baseball program to meet at the Little League Park Thursday March 25 at 9 a.m.

Trustees Taking Superintendent Bids

Olton School trustees voted unanimously at a special meeting Wednesday to begin accepting applications from outside the system to fill the post of Supt. Johnny Clark Jr., who resigned a week ago.

Clark will become superintendent at Hereford in early summer.

The Olton board's ruling meant that it had completed its consideration of personnel within the system. There were no local applications for the post.

At its meeting a week ago, the board heard Clark's resignation and then agreed to consider personnel already in the system before it accepted outside applications.

No other meetings are planned until April 5, date of the next regular school board session.

In other activity at Wednesday's meeting, the board:

1. Voted to go on record as favoring the Texas State Teachers Association plan on teacher pay over the plan offered by Gov. John Connally.

2. Accepted final application

for state funds, involving about \$300,000 in salary and operating funds and \$40,000 in transportation funds which will come from state coffers.

3. Agreed to split about \$180,000 worth of insurance on new buildings between two local agencies, Howard Hall Insurance and Chitwood-Sherman Insurance.

4. Gave Band Director Leslie Ross a vote of confidence and a salary increase from \$6,748 to \$7,000 per year.

5. Approved payment of \$10,667.94 to Architects Brasher and Goyette on the completed portion of the school building program. All that remains to complete the program is acquisition of equipment.

Easter Egg Hunt

Olton Recreation Center's annual Easter Egg Hunt has been scheduled for 1965 by the ORC board of directors.

The event will take place at 2 p.m. Sunday, April 18, one hour later than it was conducted last year.

Teacher Event Monday Night

Olton's annual teacher appreciation banquet is scheduled here Monday night at 7 in the school cafeteria with Dr. North E. West of Plainview as speaker.

Theme of the banquet this year is "We Honor Our Teachers."

Tickets are selling for \$1.50 each and may be purchased at local businesses.

Dr. West, head of the department of psychology at Wayland Baptist College, spoke in Olton in February at a "We the Parents" meeting.

In addition to his teaching duties at Wayland, Dr. West serves as director of research in parapsychology.

He did extensive research and work in parapsychology during the summers of 1962 and 1963 under the foremost authority, Dr. J. B. Rhine at Duke University, Durham, N.C.

He especially worked in laboratory procedures essential to parapsychological research in extrasensory perception, telepathy, clairvoyance and thought transference.

He holds membership in

American Psychological Association and the Southwestern Psychological Association and has been chosen for lifetime membership in the national psychology fraternity, Psi Chi.

It's Icumen....

"Spring, with her golden suns and silver rain, is with us once again."

So Henry Timrod wrote. And many of us must have been thinking in those terms, though in a more prosaic fashion.

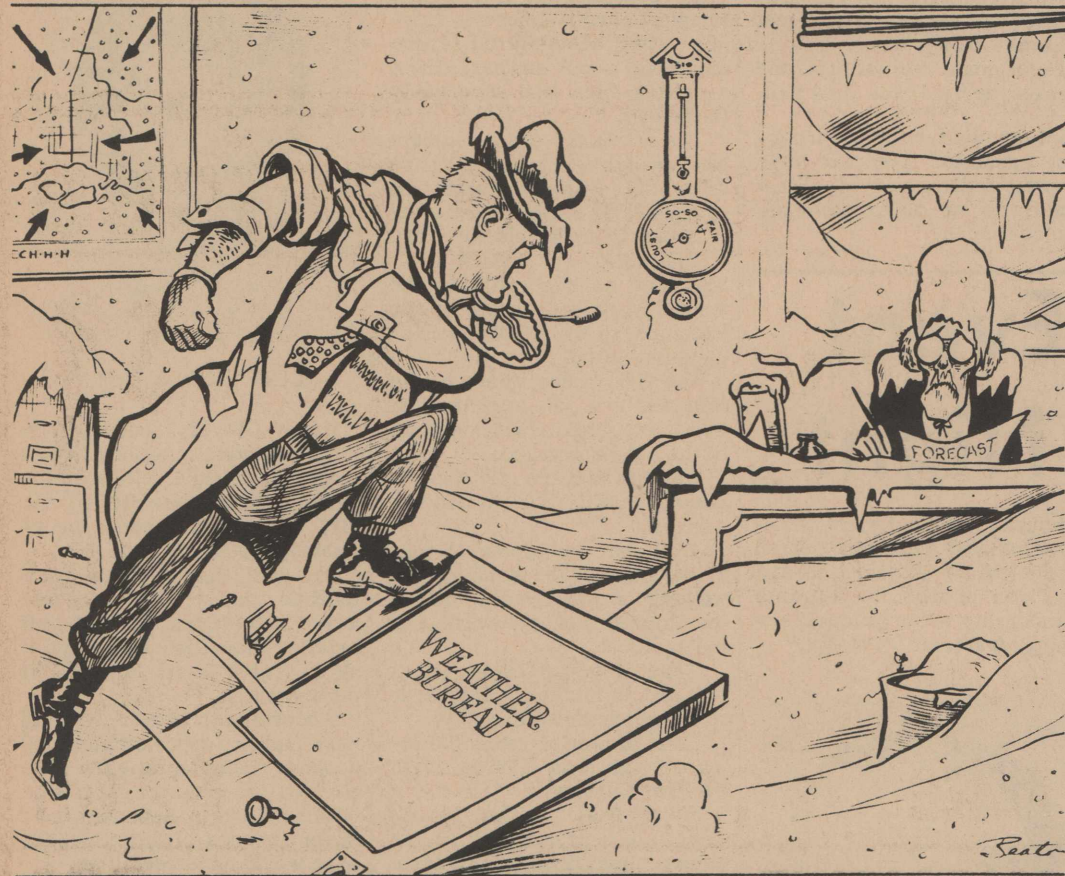

Especially in terms of that 'silver rain' for it has been a long, unusually dry winter. At any rate, spring is with us once again and to inform those who are statistically minded, it will arrive officially at 2:05 p.m. Sunday.

Nature, however, has a way of ignoring the calendar and many a spring in its beginnings has been indistinguishable from the winter that preceded it.

But have patience....the trees will flower, the buds will pop from the earth. It will be time to check out the garden tools and the lawn mower again --- the aphids must be sprayed away, the rose bushes trimmed and tended, the onrushing grass curbed.

But even with all these chores to accomplish at regular intervals, there will be time for golfing, fishing and just plain loafing and enjoying the scents and sounds that are uniquely those of spring.

And later? Well, it won't be long until we'll be able to repeat the words of an unknown poet who wrote seven centuries ago: "Summer is icumen in"

"HASN'T ANYONE TOLD YOU IT'S OFFICIALLY SPRING?"

Ask Amy

BY AMY ADAMS

SHE TAKES EXCEPTION WITH ME

Dear Readers:

The following letter is from a young lady who takes exception with me on the subject of going "steady." Her letter was so excellent in thought, feeling and content that I thought every parent and their offspring would like to read it. It is printed in its entirety.

If you have any comments, pro or con, let me hear from you and you will read them in a future column.

AMY

Dear Amy:

Please let me say something about going steady. I am a 16 year old girl who has been going with the same guy for two years. He is 18. I know so many parents who cringe at the word "steady" that I thought perhaps if they understood what it means to many of us who are going steady, they might be less opposed to it.

My parents had good sense in teaching me right from wrong and my boyfriend had similar upbringing. When we go out, it isn't to neck in the car or to drink beer, as so many parents may suspect their kids of doing. We go for coffee or hot dogs or to a show; and on those evenings when there's barely enough money for gas, we're happy to sit and watch TV.

We aren't "squares," Amy, and we aren't stupid; but we plan to be married when we're finished with school and the service. We don't want to do anything now that might jeopardize our future. Most of our friends are couples like ourselves, and we girls share one small complaint. In the first place, most people seem to be under the impression that we go steady for SECURITY as you can read in most any book. Going steady does not mean a date or dance. It usually means waiting while "lover" overhauls his car or cleans the garage, and 9 times out of 10, the girl, if she has any heart at all, ends up helping. Another thing that probably scares most parents is the thought that the girl would do anything for her guy. True! This is where our next misunderstanding comes up, though. All the guys I know, who are actually serious about their girls, are very, very protective and almost strict when it

comes to clothes and the people with whom we associate. And we don't resent it, either, because the guys are right. Of course, when our parents tell us how to look, we call it nagging.

If kids get into trouble when they start going steady, don't be too quick to blame it on the fact that they are going together; and don't criticize every young couple. It depends a heck of a lot on the parents, too.

Most sincerely,
165

Dear Amy:

Recently an executive order from top management was received at our plant, and it stated simply that there would be no fraternization. Failure to comply would result in dismissal.

I can understand this order since on many occasions the plant has been involved in the personal lives of the employees because of married employees (of the opposite sex) fraternizing.

My problem is this: I have a good job here and I am serious about one of our office girls. Amy, do I have to give her up to keep my job?

Fraternizing
Dear Fraternizing:
Nope! You can marry her, keep your job and she can give up hers.

Dear Amy:

This is in answer to "Wishing" for I had the same problem. I also had to wait for it to rain so I could see my guy. He was a roofer and couldn't work when it rained. That was the only time he could get away without his wife knowing about it. I used to wait till I thought I would go out of my mind and even went "all the way" just to try to keep him.

I found out after my baby was born you don't throw your life away on trash like that. I got smart . . . too late!

Hereford Building Program Foremost In Clark Future

HEREFORD--- Foremost among the duties of Johnny Clark Jr., superintendent-elect of Hereford schools, will be to step into the driver's seat of a \$2.4 million expansion program when he arrives here in early summer.

The program is now deeply under way from elementary to high school, with plans for a new junior high school accepted only last week.

Clark, who resigned as superintendent at Olton last Thursday, will become the Hereford system's fourth superintendent in a year.

He was signed to a three-

year contract at \$16,000 annually. The 36-year-old Clark, who has been a superintendent 10 years, the last four at Olton, will take over from acting Supt. Don T. Martin.

Martin, a junior high school counselor, was named to the post on an interim basis in January after Supt. Darrell Williams resigned. Williams, here only six months, took a Houston job.

School trustees here narrowed their choices to three applications, all within a 100 mile radius of Hereford. Clark after coming to Hereford for an interview, was the preference.

New Century Hears Talk By Grapho Analyst

How do you cross your "t's"? This can be a matter of some importance, according to Mrs. Roy Hale, grapho analyst from Floydada.

Mrs. Hale spoke recently at a meeting of New Century Study Club in the home of Mrs. Wilton Bodkin.

"I can tell everything there is to know about a person from his handwriting," Mrs. Hale told the club, adding that handwriting varies greatly from time to time, expressing the mental attitude of the writer at the particular time of the writing.

The letter "t" is one of the most significant in studying a person's handwriting, according to Mrs. Hale.

She explained that the crossbar on the letter can be placed at many heights, angles and slants, the vertical line of the letter can vary greatly and even the pressure on the pencil indicates certain characteristics.

Mrs. Hale briefly analyzed each member's handwriting as well as that of one guest, Mrs. Joe Turner.

Mrs. Hale teaches classes in handwriting analysis, does individual analysis and works with ministers and doctors.

Members present at the meeting included Mmes. Bodkin, Bob Burgess, Forrest Latimer, Gilbert Roberson, Ed Thompson, Fred Thompson, Archie Sorley, C. J. Dorris, M. C. Church, Don Spain, A. J. Spain, Johnny Clark Jr., Owen Jones, Ollie Jones, Leo Smith, J. L. Snider, Elmer McGill, C. W. Leathers, Bill Dickenson Jr. and Bill Turner.

New Century Anniversary Brunch Held

New Century Club celebrated the 10th anniversary of the club with a brunch Monday in the home of Mrs. Ed Thompson.

The devotional was brought by Mrs. Forest Latimer.

Roll call was answered with "a fact about Texas."

Mrs. Wilton Bodkin gave a talk reviewing the history of the club.

Mrs. A. J. Spain gave the biography of Suzanna Dickenson, heroine of the Alamo.

Past presidents were introduced by Mrs. Johnny Clark Jr. and Mrs. Wilton Bodkin recognized guests.

Refreshments of baked apple, ham squares, assorted fruit plate, melba toast and coffee were served by Mrs. Thompson.

Guests present were Mmes. Major James, Lester Thompson, Frank Struve, Glen Exter, J. C. Brown, E. C. Jones, Bill Kelly, Delmer Givens and Robert Meinecke.

OLTON AUTO SUPPLY KEEPS UP-TO-DATE STOCK

Everyday brings something new in the auto parts supply business, and Olton Auto Supply tries to keep in step with times with an up-to-date stock.

"Of course we don't have everything everyone calls for, because the parts business is just too varied," says Harold Jordan, manager, "But if we don't have it, we can usually get it in pretty short order."

Olton Auto Supply, owned by G. W. Locke, is one of Olton's older businesses.

It has rapidly expanded its inventory in the past few years to keep in step with new things which come along almost daily. Jordan has been the manager of the business since July, 1961. He is assisted by Roy Salas.

The business is Olton's headquarters for auto parts and accessories and it carries a full line of irrigation supplies, including ignition parts, Delco and Willard batteries, Fram and AC oil filters and other items needed to keep irrigation motors going.

In addition to Delco, the firm carries Auto Lite and Shurhit ignition parts, AC, Auto Lite and Champion spark plugs and Thompson hard parts.

"We have just about everything needed to rebuild an engine," says Jordan.

The business also has all sorts of hand tools, made by Proto, Huskey and Industro.

If you're in need of any sort of parts or accessories for your car or pickup, call on Olton Auto Supply. The folks there are anxious to serve you.

Jackie Burkhalter Named To Attend Texas Boys State

Jackie Burkhalter, 17-year-old son of Mr. and Mrs. Jack Burkhalter, will represent Olton at the 1965 session of Texas Boys State, it was announced Tuesday.

Burkhalter, a junior at Olton High, was selected by the Olton Lions Club at its regular meeting Tuesday noon. The club sponsors the trip annually for an Olton youth.

Texas Boys State, an annual workshop in the organization and operation of state and local governments, will be in session from June 5 to June 12, 1965, at the University of Texas, Austin.

Two outstanding youths of the Texas Boys State will go to the Boys Nation in July in Washington, D. C., where they will study federal government organization and structure.

During the Boys State sessions, the Olton youth will participate in the organization of political parties, campaigns, elections and the enactment and enforcement of laws within a mythical state.

The sessions are designed to give youngsters an opportunity to learn the functions of government, as well as enable them to see the importance of the role a good citizen has in discharging his citizenship responsibilities.

Sesame Meet Set

There is a "new look" for sesame this year, as sesame meeting time approaches for Olton area farmers. BACO, a new direct combine harvest variety was successfully field tested in 1964, and limited seed supplies for commercial production are available for 1965.

To hear the latest word on both combine Baco sesame and the binder varieties Margo and Oro, area farmers are invited to attend a special sesame meeting and free steak supper in Olton, Thursday, March 25, at 7:30 p.m. The meeting will be held at Hammill's Restaurant in Olton.

No. 1 quality sesame seed from the 1964 harvest sold for an average price of \$11.09 per hundred pounds. Sesame has averaged area farmers more than \$11. per hundred pounds for three consecutive years.

"Sesame seed consumption and imports of sesame seed into the United States have increased each year," commented Robert L. Parker, executive vice-president of Texas Sesame Growers, Inc., "and we believe this trend will continue."

Farmers can again plant sesame on diverted acres, while collecting half their feed grain for wheat diversion payment.

Last year this same program resulted in payments to farmers of \$20 to \$30 per acre or more, in addition to the sale of the sesame crop. Sesame can also be planted on non-allotment land, without restrictions.

The sesame self-feeding combine attachment, developed by Texas Sesame Growers, Inc., harvested most of the crop of shocked sesame. This is the combine attachment which makes the sesame combine harvest a one-man operation. Manufacture of additional self-feeding combine attachments to speed the sesame harvest is planned for this year.

County Agent, Bill Kimbrough will be in charge of the March 25 meeting. Farmers who plan to attend should make their reservations with Don Spain at Olton Farm Supply in Olton, phone 285-2404.

Jury Awards Machen \$900 In Civil Suit

LITTLEFIELD -- A District Court jury Friday awarded Deryl Machen a judgement of \$900 in his suit against Frank Daughtery, Olton farmer who was charged with firing on a plane dusting crops on the Machen land in August, 1963.

The jury deliberated six hours before returning its verdict.

The group ruled that the spray airplane operator, Harold Harbour of Amarillo, "Willfully released a chemical spray upon the land, property or person" of Daughtery.

But it also found that no damages were to be given to Daughtery, who had filed a counter suit alleging that he had suffered damage to his health and that two quarter horses valued at approximately \$10,000 were also injured by the spray from the plane.

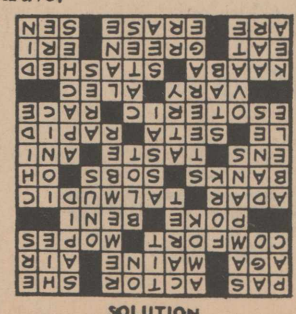

The case went to the jury at 11 a.m. Friday following three days of testimony of a total of 22 witnesses for the two parties.

The jury ruled in its judgment that Machen's cucumber crop was damaged by the fact that no crop dusting was done following the incident.

Career Day Set Friday

Representatives in the business world will be at Olton High School all day Friday March 19 for Career Day.

Two Winners

You guessed it! We goofed in the Shop Olton First series last week, forgetting to put a winner's name in one of the ads.

So this week we're making up for it. There are two winning names in the ads, so why not start looking for your name now. It could be there!

Mr. and Mrs. O. E. Patterson, Mr. and Mrs. Joe Roberts, and Mr. and Mrs. Roy Roberts returned home Sunday from a week fishing trip at Falcon Lake. Fishing was good and the weather hot. While their parents were gone, Carl and Mary Roberts stayed with their aunt Mrs. Martha Rudd; Otis Neal Patterson visited with Larry Johnson; and Beverly Roberts stayed with her sister, Mr. and Mrs. Pete Timmons.

ANOTHER REPORT...

I applied Western Ammonia's liquid phosphate material 7-21-0 on some of my milo acreage at the rate of 200 lbs. per acre combined in a dual application with 130 lbs. of ammonia.

My increase from this type of program was an additional 1300 lbs. per acre over my previous fertilizer program. A very substantial increase of dollars per acre for the dollar invested.

I was very pleased and plan on using a similar program this year.

Harvey Rials, Castro County Farmer

...A REPORT OF SATISFACTION

An important by-product of any company is the man who openly admits when he's satisfied with the service. You will find that Western Ammonia has the know how, equipment and products to give the best satisfaction there is in a fertility program. Western is now offering the new high analysis liquid ammonium polyphosphate 11-37-0 and new 11-20-0-11S in place of lower analysis 7-21-0. You'll find that Western also has a complete line of dry fertilizers.

COMMUNICATIONS Your Tool for Progress

Whatever happened to the Old Oaken Bucket?

One of our towns uses a communications system which automatically keeps the local water tower full from a distant water supply. In another of our towns the water supply lake uses our ELECTRONIC SENTRY® warning unit to notify authorities automatically when the water level reaches a low point. These are additional examples of how we serve in the ever-broadening field of communications. Chevrolet

workpower

"walks" right over bumps and trouble

Independent front suspension takes the "truck" out of truck ride. It smooths rough roads, protects truck, driver and cargo from excessive jolting. And on Chevrolet pickups it's a proved system with millions of miles of user experience behind it. Try it out on one of Chevrolet's great Fleetside or Stepside pickups. It's one of the big reasons that Chevrolet is first choice with pickup users from coast to coast.
