THE DUBLIN PROGRESS

J. S. DALEY, EDITOR AND PROP.

Entered at the post-office at Dublin, Texas as second class mail matter.

LARGEST CITY CIRCULATION.

LARGEST COUNTY CIRCULATION

Office, Ground floor Traweek Building

FRIDAY MORNING, SEPT. 28, 1894.

OUR NEXT GOVERNOR.

THOMAS L. NUGENT.

OUR TICKET.

For Governor,
T. L. NUGENT,
of Tarrant County.

For Lieutenant Governor,
MARION MARTIN,
of Navarro County.

For Attorney General,
R. V. BELL,
of Cooke County.

For State Treasurer,
GEN. H. E. McCULLOUGH,
of Guadaloupe County.

For Comptroller,
E. O. MEITZEN,
of Lavaca County.

For Land Commissioner,
S. C. GRANBERRY,
of Travis County.

For Supt. Public Instrection,
E. P. ALSBURY,
of Harris County.

For Judge Crim. Court of Appeals,
E. L. DOHONEY,
of Lamar County.

For Chief Justice Supreme Court,
THOS. J. RUSSEL,
of Jefferson County.

The democrats of the 10th Iowa district haye endorsed J. C. Baker the populist nominee for Congress.

The republicans of North Carolina, at their late state convention endorsed the entire populist state ticket.

The Seguin Record, formerly a democratic organ has abandoned that mongrel outfit and cast its lot with the party of the people.

The democrats of the 9th Indiana Congressional district met at Frankfort lately and endorsed the populist nominee A. G. Burkhart.

The democrats of the 9th district of Iowa have endorsed Gen. Weaver for Congress and several prominent democrats are stumping the district for him.

The PROGRESS feels glad to note that the Green County News is now a populist paper, after having advocated the falacies of democracy for several years. We welcome it to the ranks of reform workers.

The populists seem to be united as one man on Judge Nugent. All hands, including Judge Nugent's opponents, admit that he is a man of the highest integrity and re spectability.—[Hico Courrier.

Hon Ed. Campbell, a prominent democrat of Fairfield, Iowa, in a recent speech declared, that, "The democratic party of Iowa needs no Moses to lead it out of the wilderness. What we need is a Gabriel and resurrection. We're dead.

Judge Bell in his speech at the court house the other night, said the tariff bill was not what the democrats wanted. Well, if they can't get what they want when they have undisputed control of both houses and the executive, why retain them in power longer? Turn them out for incompetency.—[Weatherford Leader.

NO LONGER MONEY!

THE SILVER DOLLAR IS NOW WITHOUT AUTHORITY OF LAW.

They Cannot be Coined or Paid Out by the Government.

Silver Dollars are Being Withdrawn From Circulation as Rapidly as Possible.

The Mercury makes the assertion and can back it up with proof that the silver dollar is no longer recognized by law as money, and that Mr. Carlisle is gathering them into the treasury with the ultimate object of taking them out of circulation entirely. At the rate the secretary has been taking in silver dollars for the past six months, it will not be a year longer until silver dollars will be as scarce as gold dollars. On December 1, 1893, the secretary of the treasury reported the amount of silver coined up to that date at $419,332,550. In his report for July, 1894, he states that there are silver dollars in the treasury amounting to $368,796,668. This leaves $50,538,882 silver dollars in circulation. Of this amount much has been melted up in the arts, lost, destroyed by fires and sent by foreigners, especially the Chinese, to the old countries. At least a million dollars have thus disappeared. This cuts the circulation down to about forty-nine millions. The repeal of the purchasing clause of the Sherman law left the silver dollar stranded on a desert island. The act of 1873 dropped the silver dollar out of the mintage. It was partially restored by the Bland-Allison act of 1886. This law was totally repealed by the Sherman law of 1890, so the only law in existence after the repeal of the Bland-Allison act, in which the silver dollar was recognized, was the Sherman law.

Now comes the special session and repeals the act requiring the secretary to purchase silver. As upon the purchase of silver rested the secretary's authority to issue treasury notes and also to coin silver dollars for their redemption, if he desired to use his option in the law, and redeem the notes in silver, it follows that this last and only authority of law for coining silver dollars was removed by the repeal of the purchasing clause of the Sherman law. This conclusion must be admitted as correct. As there was given no authority by law to coin silver dollars in the repealing clause of the Sherman law and there has been no law passed since authorizing the coinage of silver dollars, the only conclusion left is that the silver dollar was, by the repeal of the purchasing clause of the Sherman law, left in precisely the same condition that resulted from the passage of the law of 1873 dropping the silver dollar from the mintage laws. There is, then, no law at this time authorizing the coinage of the silver dollar, nor is there a law recognizing it as money.

In proof that the secretary of the treasury so recognizes the existence of these conditions, and that he is gradually withdrawing the silver dollar from circulation, it is only necessary to note his treatment of the silver dollar as shown by his monthly reports.

In the report of the secretary of the treasury for December, 1893, he gives the silver dollars then in the treasury at $361,463,188. His report for the next month following, January, 1894, shows that the treasury contained $363,597,657 in silver dollars, an increase and consequent withdrawal of silver dollars from circulation during January, 1894, of $2,133,869. His report for Feb., 1894, shows a withdrawal of silver dollars for that month of $1,189,154. His report for March, 1894, shows another monthly withdrawal of about one million. His report for April, '94 shows another million withdrawn from circulation during the month of April, 1894. His report for May shows another million withdrawn during that month. In still another report for June last he claims to have $368,141,831 silver

dollars. million during being the tre is anot withdra over si: Thus it Carlisle ing silv since h fice at million clearly recogni has no a natur retired The a certa sued, v lation the sec as fast monthl since J. comply quest o Duri gress th calling treasur redeem and th silver request In re circula date, i graph "Gol tion of of not ant tre San Fr of trea sums b sistant He t the sen "In olution gold co officer ver de therefo was no all the at that the pr to the treasur ver cer issued 1890." ALLIANCE DEMANDS.

The following demands were adopted by the National Alliance, at Memphis, Tenn., Nov. 17, 1892.

Finance.—We demand a national currency, safe, sound and flexible, issued by the government only, a full legal tender for all debts, public and private, and that without the use of private corporations; a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent, to be provided as set forth in the sub-treasury plan of the Farmers Alliance, or some better system; also, by payments in discharge of its obligations for public improvements.

(a) We demand the free and unlimited coinage of silver and gold at the ratio of 16 to 1.

(b) We demand that the amount of circulating medium be increased to at least $50 per capita, exclusive of legal reserves.

(c) We demand a graduated income tax.

(d) That our national legislation shall be so framed in the future as not to build up one industry at the expense of another.

(e) We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all national and state revenues shall be limited to the necessary expense of the government, economically and honestly administered.

(f) We demand that postal savings banks be established by the government for the safe deposits of the earnings of the people and to facilitate exchange.

Land.—The land, including all the natural resources of wealth, is the heritage of all the people, and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All lands now held by railroads and other corporations in excess of their actual needs, and lands now owned by aliens, should be reclaimed by the government and held for actual settlers only.

Transportation.—Transportation being a means of exchange and public necessity, the government should own and operate the railroads in the interests of the people.

(a) The telegraph and the telephone, like the post office system, being a necessity for the transmission of intelligence, should be owned and operated by the government, in the interests of the people.

Let each Alliance send a good representation to our county meeting on the second of next month. The times demand that we wake up nda be doing.

County Alliance.

Erath County Farmers Alliance will meet with Fairview Alliance at Hog Springs, six or eight miles northeast of Stephenville on October 2nd, 1894, at 2 o'clock p. m. Credentials of delegates should be sent to brother C. J. Davis at Stephenville by September 25th.

A. Q. JORDAN, Pres.
I. PIPES, SECRETARY.

Send the PROGRESS to your friends until after election. It will only cost ten cents.

Farmers should buy their Nails, Locks, Hinges, Grain Scoops and all hardware and groceries from the Cash House. E. W. Harris, Oldham Building, Dublin. 14

Brattons for lowest price buggies.

For a lame back or for a pain in the side or chest, try saturating a piece of flannel with Chamberlain's Pain Balm and binding it onto the affected parts. This treatment will cure any ordinary case in one or two days. Pain Balm also cures rheumatism. 50 cent bottles for sale by S. S. Davis, Dublin.

The largest stock of carpets ever received in Western Texas now at Higginbotham Bros.

Just received at Higginbotham Bros., one car load of Moline and one car load of Mitchell Wagons.

Just received at Higginbotham Bros., one car load of Moline and one car load of Mitchell Wagons.

Just received at Higginbotham Bros., one car load of Moline and one car load of Mitchell Wagons.

To arrive in a few days at Higginbotham Bros., a car load of Glidden Wire.

We have in transit seven car loads of furniture which has been bought at the factory at bed rock prices, and will arrive in a few days. HIGGINBOTHAM BROS.

Buggies, harness, saddles, bridles, etc., at Higginbotham Bros. Fine stock.

Buy your school books at Dublin Drug Co. where your order can be filled complete. 13-tf

Wine for sacramental purposes will be furnished free by the Dublin Drug Co. to all churches. The pastor of the church must call in person or send a written order for it.

There is no seventy ways about it, you can buy more for one dollar at the One Cent Store than any where else in Texas. 15-2t

What is it that Higginbotham Bros. don't sell except drugs? Nothing.

Higgingbotham Bros. will buy your cotton or any thing else in the way of produce that you have and pay you the highest market price.

Dry goods and grocery department of Higginbotham Bros. is the most complete of any in Erath county. Don't take our word for this but come and see for yourself. Prices guaranteed.

Do you need, carpets, matting, window shades or glass. Get it at Dublin Music Co. 14-3t

Presents with every bill of books at Dublin Drug Co. 13-tf

The best 50 and 75 cent corsets in Dublin at the One Cent Store.

Free! Free!!

School satchells with every bill of books at Dublin Drug Co. 13-tf

Squaring the Circle.

According to The Engineers' Gazette, the oldest mathematical book in the world, which dates some 4,000 years back and was written in Egypt, contains a rule for squaring the circle. The rule given is to shorten the diameter by a ninth, and on the line so obtained to construct a square. And this, though far from being exact, is near enough for most practical purposes. Mathematicians have long been convinced that the solution was impossible, but it is only a few years since they were able to demonstrate this. A German professor named Landmann published in 1882 a demonstration, which was accepted by the scientific world as satisfactory.—Philadelphia Press.

NATIONAL CHARACTERISTICS.

How the Country Marks the Man—The Hurrying American.

The American is recognizable from whatever part of our country he may have come, not only because he is imbued with the American spirit which crops out and betrays him, but also from his American physique—the elongated head, the fine and transparent skin, the quick glancing eye, the mobility and flexibility of body, the changing features, the genuine lanky, the nervousness of his movements. But if the four present types of Americans from the north, south, east and west are brought together their likenesses are not so apparent.

There yet remain differences due to climatic influences and the topography of that particular section of country from which he came, environments that declare for him what manner of man he is. Never could I persuade the old darky woman of the south, the "auntie" whom everybody knows, that I was a southerner. "Ah, boss," she used to say, "you's come a long way north of hyer."

The Yankee is recognizable everywhere; there's no mistaking him. The figure of Uncle Sam is the traditional Yankee. Here in New England the people grow tall and lank, and their temperament becomes vital and nervous. I believe the New England people are becoming nervous and dyspeptic, although born in a rugged, picturesque country that is reputed to and should produce a rugged, characteristic race. They eat little and hurriedly; they sleep little; they have a burned out look that bespeaks nervous strain and malnutrition. They worry and they tremble. The women lose their rotundity, and the men strive, and both grow thin.

The southerner comes among us from the land of flowers and ease and with the grace of one accustomed to repose and leisure. But before the Indian summer is over and the birds are flown the feeling that he must hurry begins to possess him, and by the ides of March he is on the run with the rest.

The foreigner comes to us from the rational living, slow going countries of the old world. At first he is astonished to see us get up from the table and leave him to take his dessert alone. He preaches moderation, but the wild race of the people and the climate will not let him have it.

And the German of today, whose grandfathers landed here 200 years ago, is no longer a German in appearance. The country has trade marked him. In spite of the lymphatic, phlegmatic temperament of his ancestors, who were thickset, broad shouldered, beer loving and sausage eating, he has the refinement of figure and the vital temperament of the Yankee. "He is the European," as somebody has said, "with a drop of nervous fluid added."

Gladstone's longevity may be due in part to this act of his life—that he never cuts a string from a bundle, but he takes time to untie the knot. What are we born and living for? Is it to hurry? For money? For dyspepsia? For a pain in the side, the virtues of which we recite every morning at table? For the bauble of a reputation? Or is it rather for happiness and usefulness, so that some one at least may say of us when we are gone that he has been happier and better because we have lived?—Boston Medical and Surgical Journal.

Two Blind Men and a Dog.

While strolling in Sixth avenue the other day I paused to note an interesting incident of that busy street, when I heard just behind me the jolly voice of a man:

"It always does me good to meet you, old man."

"Thanks—how's trade? You're getting some new wrinkles in yours, eh?"

The last speaker was slowly passing his hand over the face of the other man. He held a long staff in the other hand, and the man who was being examined had a string attached to a small dog. Both men were blind.

"Oh, I have nothing to complain about," said the man with the dog, though the latter didn't appear to take such a cheerful view of affairs. He sniffed dolefully, and his tail was wholly destitute of wag. Did you ever notice that a blind man's dog never manifests any particular interest in mundane things? They gradually acquire a moody temperament and affect a gloomy view of life. All the time these two sightless men laughed and chatted the dog sat looking at them in the most melancholy and morose manner.—New York Herald.

Yellow Fever.

There is a marked peculiarity about yellow fever which distinguishes it from most epidemics. It is essentially a disease of a hot climate, and it takes a certain amount and duration of heat to awaken it to life. It is said that it can never prevail where Indian corn will not ripen.

SWIFT SPECIFIC CO., Atlanta, Ga.

The stone building on the corner of Grafton and Elm streets, formerly occupied by the Dublin saloon, is becoming a public nuisance and should receive attention from the authorities. The owners should be made to do something with it in the way of repairing and cleaning up or preventing it being used as an outhouse by stragglers. If no one has a sufficient title to it to be interested in it that much the city has a perfect right, and not only that but a duty to do it.

Up to 5 o'clock yesterday the alliance cotton yard had received 1619 bales and the Dublin yard 690 bales, making a total of 2309. The alliance yard received about 200 bales yesterday and the other 60 or 70. The price for cotton on the market yesterday at this place was from 5¼ to 5-65, very little going as low as 5¼.

Deputy sheriff J. W. Fulkerson came in yesterday evening from Stephenville to serve a number of citations, writs etc., among which was a citation for our townsman and oil mill man, G. H. Connell, to appear in the Superior court in a suit brought against him as one of the parties in the reported oil mill combine.

A bevy of serenaders, consisting of four or five young ladies and gentlemen, made the breezes resonant with sweet strains of melody last Saturday night. The parties who were fortunate enough to have a visit from them have tied up Towser with hopes of another call.

The remains of the old city and fire hall is becoming an eyesore and should be removed immediately. The city should not encourage property holders to let such rattle traps remain standing, and it should not do so itself.

The Ft. Worth and Rio Grande is having a well boared near the water tank to supply water for their engines. The company think they can save something by using water from a private well in preference to the water works.

A joint speaking between Judge T. B. King and Mr. J. H. McMillan, candidates for county judge was arranged for this place last Thursday evening but by agreement of the parties it was postponed to some future date.

W. G. Keeler left Thursday for Cleburne where he will likely locate. He has been for some time employed in the oil mill at this place but the work did not agree with his health.

J. H. McMillan, formerly in the busines of photography in Dublin is in the city. He is now employed and has been for some time past with a New York piano and organ Co., with state headquarters at Waco.

Joe Chilton with wife and little child left yesterday for Palestine where they will make their future home. They leave a large circle of friends who regret their going.

A team belonging to Ed Johnson ran away last Friday evening making things lively on Patrick street until they struck an electric light post. No one was hurt.

W. C. Hutchingson was in Dublin a few hours yesterday and the day before, en route to his home at Hico, after a prolonged absence in north Texas.

Mr. E. A. Hamilton is just opening up a stock of groceries in the J. B. Green old stand. Mr. Green is also interested in the business.

Jno. Moore, who was sent to the insane assylum at Terrell last fall, returned to his home last Friday, having been dismissed as cured.

Mrs. Green Harrison is on a visit to friends in Hamilton.

Grand Jurors Oct. Term '94.

Will Young, Dublin; Math Robuson, Duffau; Mack Mauldin, Huckabay; J. A. Duckett, Bluff Dale; R. M. Alexander, Spring Creek; Ed. Williams, Morgan Mills; D. Butcher, Chalk Mt. Thos. Hamilton, Coal Mines; Conda Toliver, Stephenville; J. J. Warren, Pecan Grove; Jim Mc Gee, Armstrong; A. R. Landers, Lipan; Bill Howard, near Moccasin Rock; James Guthrie, Berlin; H. F. Whitacre, Lingleville; W. R. Jay, Round Hole Branch.

Found in a Cistern.

Wednesday morning of last week a little child was found in a cistern at Cisco, having from all appearances been there for about thirty hours. It was tied up in a meal sack and was floating on the water. A string was tied around its neck and it is presumed that it was choked to death and then thrown in the cistern. The latest reports give no clue to the murderer. A searching party is on the lookout and every effort will be made to capture the guilty party.

THEY CAN'T ESCAPE.

The liver when active is the watch-dog of the system—the destroyer of germs and impurities. The truth is: ninety-nine out of every hundred diseases begin with a sluggish liver. A slight cold or chill may amount to something serious. If you correct the liver you'll cure the cold. Dr. Pierce's Pleasant Pellets rouse the liver to vigorous action. After dinner, if you're bilious, take one of these tiny, sugar-coated Pellets. Take them when you have wind or pain in stomach, giddiness, fullness, loss of appetite, or when you suffer from costiveness, indigestion, sick or bilious headaches.

The makers take the *risk* of their benefiting you. If they're not satisfactory, your money is refunded. Can you ask more?

HIGHLAND.

Cotton picking and corn gathering the order of the day. Health good, nothing strange having occurred since our last writing. Not much time to entertain candidates or talk politics. The farmers have wry faces any way, having to crowd business through so they have their wives and children in the cotton field gathering the fleecy staple, and when done they only get from 5¼ to 5¾ cents per pound. That is why they look so wry. Cheer up brothers, there is a better day coming; it is always darkest just before the dawn.

We had a musical entertainment at Mr. Frazier's Monday night, led by a blind preacher from Longview, Texas. He is quite a musician. No deaths to report. Those weddings referred to in our last came off as per announcement. Mr. James Van to Miss Ada Hudson, at the residence of Rev. J. H. Humphreys at 5 p. m. Thursday, Rev. Humphreys officiating. Also Miss Abbie Humphreys, daughter of Rev. Humphreys, was married the same day at 8 p. m. to Mr. Billie Spicer, Rev. J. Northcutt tying the nuptial knot.

J. Z. Miller has the finest line of ladies' children's and misses' cloaks in the city. Call and get his prices before buying.

Douthit Leggit & Co. do the best work and they use the best material and sell the Bain wagon.

Waukegan barbed wire runs 1820 feet to the hundred pounds. Cheapest wire on earth. Higginbotham Bros. have it.

The best and cheapest harness and saddles at Douthit Legget & Co.

Farmers, patronize the Alliance Cotton Yard. H. H. Andrews, weigher. tf

The projected military company that was spoken of some two or three months ago found an early grave, in fact it "died a bornin."

Out On Bond.

W. M. Cox, who was arrested for the murder of an Italian and shooting another at Thurber recently, gave bond in the sum of $2,500 Tuesday of last week and was released from the Stephenville jail.

Government Ownership Of Railroads.

Many honest and otherwise well informed persons believe that public ownership of railways is not only impracticable but a new and untried theory. We want to disabuse their minds of this error. Public ownership of railroads is as old as the invention of railroads. If any one will take the pains to look it up they will find in the American revission of the Encyclopedia Britannica, Vol. III, pages 1303-6, that the following governments own and operate their railroads:

Austria, 2,000 miles; Baden, 820 miles; Bavaria, 2,896 miles; Belgium, about 2,000 miles; Some 181 miles of railway is oned by Ceylon; Chili, 670; China owns and operates all of her railways.

The United States of Columbia owned 281 miles in 1890. Denmark about 1,000; France, 2,000, mostly leased to companies. The German empire owns and operates about 21,000 miles. England and Wales, 14,034 miles; Scotland, 3118 miles; Ireland, 2,791 miles; Hess, 220 miles. A large per cent of the railroads of Italy belong to the government and are leased out.

Japan owns 603 miles; The colony of Natal, 305; The Netherlands, 1,000; New South Wales, 2,182; New Zeland, in 1890, 672; Norway has 929. Portugal owns about half of her railway system. Oldenburg owns 222 miles; Peru 1,625 miles. Roumania owned in 1880, 1,095 miles. Poland and Caucasia own 5,065 miles; Sweeden, 1,645. Victoria owns all of her railroad lines, 2,341 miles. Some 1,137 miles of road in Finland is owned by Russia. About one-tenth of the roads in that empire are owned by the government. Servia also has a few lines of road owned by the state. Brazil owns and operates 2,091 miles. South Australia owns all of her railroads.

How's This?

We offer one hundred dollard reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co.,
Proprietors, Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75c. per bottle Sold by all druggists. Testimonials free.

Sold by Druggists; price 75c. per bottle.

2,228,672

These figures represent the number of bottles of Dr. King's New Discovery for Consumption, coughs and colds, which was sold in the United States from March, '91 to March, '92. Two million, two hundred and twenty-eight thousand six hundred and seventy-two bottles sold in one year, and each and every bottle was sold on a positive guarantee that money would be refunded if satisfactory results did not follow its use. The secret of its success is plain. It never disappoints and can always be depended on as the very best remedy for coughs, colds, etc. Price 50c. and $1 at the Dublin Drug Co. 6

A Good Thing to Keep at Hand.

From the Troy (Kansas) Chief.

Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symtoms that usually preceed that ailment, such as sickness at the stomach, diarrhœa, etc., we become scary. We have found Chamberlain's Colic, Cholera and diarrhœa Remedy, the very thing to straighten one out in such cases, and always keep it about. We are not writing this for a paid testimonial, but to let our readers know what is a good thing to keep handy in the house. For sale by S. S. Davis, Dublin.

The best buggies carriages and carts. Bain wagons, and the best harness and saddles. The best leather, best work. DOUTHIT LEGGET & Co.

Buy your flour where you can get something fresh. We buy from one to two car loads every week. HIGGINBOTHAM BROS.

Go to Douthit Legget & Co. for Bain wagons, finest buggies carriages and road carts.

JONES: "Where do you do your trading?"

SMITH: "Where I can get the best bargains, of course. That's Higginbotham Bros."

We buy in larger quantities and we will under sell any competitor. We sell the Bain wagon. DOUTHIT LEGGET & Co.

Our stock of undertaking goods is superior to any thing in the county. We have one of the finest hearses in the west. We are prepared to fill any orders on short notice. HIGGINBOTHAM BROS.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Items for Your Profit.

Wall paper from 10c to 50c a role 2 bolts in a role at Dublin Music Co.

DOUTHIT, LEGGETT & CO.,

FOR YOUR TRADE.

POLITICAL HASH.

SERVED HOT AND COLD TO SUIT OUR READERS.

What Is Being Said and Done Here, There and Everywhere.

The Populist have always charged that the leaders of both old parties were controlled by the money power of the country, and that upon matters affecting the interests of banks, corporations and trusts the representatives of those parties would be found voting together. Since the democratic party has had control of affairs the truthfulness of these charges has been demonstrated. On the question for the demonetization of silver a majority of both parties voted to strike down silver. The democratic party has fostered the interests of trusts the same as the republican party. It has acceded to the demands of bankers as did the republican party. It has sided with railroad corporations as did the republican party. In Oregon the democrats voted with the republicans against the Populists, and in Alabama the strong republican counties (negroes) gave the democratic candidate for governor the largest majority.

And now comes the chairman of the republican state committee of Wisconsin who explains the whole situation and lets the political cat out of the bag. He says:

"The present unsettled social and economic conditions make it necessary that the Populists should be driven out of public life. The Populists are a dangerous menace to law and order and good government. * * * I had rather see a decent democrat in the house than an indecent Populist, and so far as their principles are concerned they are all indecent however agreeable may be their personality.

"On the great vital questions where the honor and dignity of the American people are concerned we will always find the democrats voting with the republicans for the common good. The democrats have the same feeling so far as the republicans are concerned. They dislike our financial and economic systems, but they know we are sound on all the great questions of the day. So far as I can control it there will be no alliance between the republicans and the Populists in the hope of defeating the democrats. From what I hear the gentlemen who are managing the democratic congressional campaign entertain the same aversion to those unholy alliances, and I am glad of it. If this program is faithfully carried out by both sides we shall soon see the last of a Populistic representation in the house."

* * *

The country is wondering now what the democrats made their Chicago platform for. While their declaration on the silver question was a straddle, it was interpreted in the west and south to mean the repeal of the Sherman law with a law providing for free coinage. Instead of that the party demonetized free silver. The platform declared explicitly in favor of repealing the state bank tax. When the question came up the party voted it down. The platform declared in favor of local self government. That principle was never so ruthlessly violated as when Cleveland sent United States troops to Chicago against the protests of both the mayor of the city and the governor of the state. The platform declares its hostility to trusts, yet it is known to all that the party conceded to the exactions of the sugar, coal, iron and other trusts in the formation of the tariff bill.

The platform declared its devotion to the interests of the people, yet their petitions have been ignored and the demands of corporations and banks been acceded to as they never were before in the history of the country. With professions of economy still ringing in the ears of the people they have voted themselves extra pay in the way of mileage and clerk hire that ought to shame the devil. The cries of the workingmen have gone unheeded. The distressed condition of the country has been ignored. It seemed to have been the sole object of the present congress to look after and foster the interests of Wall street, the trusts and corporations. If the people do not repudiate the action of this congress, then indeed are we nearing that stage of paralysis that foreshadows a nation of aristocrats on the one hand and venal slaves on the other.

* * *

In a constitutional convention recently held in Albany, New York, J. J. T. Brooks, vice president of the Pennsylvania railroad company appealed to that body to embody a provision in the constitution prohibiting public officials from receiving passes from railroad companies. He claimed that he was unnecessarily annoyed by by requests for passes for representatives, senators and even Judges of the supreme Court and their friends, and, if he did not comply the interests of the company were jeopardized by the introduction of hostile bills by the parties refused. He asked for a "constitutional provision on this subject, and one broad enough to make it a misdemeanor for any person elected or appointed to any position in the service of the public to ask or receive for himself or any other person free transportation."

Here is another "straw" which shows that the railroad companies are oblized to look to the government for protection from that very corruption which is urged as one of the obstacles in the way of government ownership. The fact is that whenever a railroad corporation becomes so corrupt, or the object of abuse by public officials or its own officers as to be unable to sustain itself, the only alternative is to resort to the government to aid and assist in purifying its management.

By the National Reform Press Association

DEMOCRATIC PRAYER.

NO. XII.

Most adorable and ever to be reverenced Grover: Thou who art always great, whether trampling tadpoles on Hog Island, catching bass at Buzzard's Bay, or making congress tremble in its boots at Washington. We come to thee once more to thank thee for all thou hast done for our party and for the people. Our most esteemed political father, thou dost all things well, and we are willing that thou shalt be glorified therein

If congress is stubborn, thou takest it by the nape of the neck and the seat of the pants and shakeths it until its free silver teeth rattle in its head. That is right. Make them squirm. Did they not vote for thee? Did they not nominate thee? Did they not stump the country and advise everybody to vote for thee? Verily they did. Now, most adorable Cleveland, make 'em toe the mark. Make 'em pass resolutions praising thy administration. Hold their noses to the political grindstone while the Populists and the republicans ride on their backs. Give 'em the gold cure until they puke up every "time honored principle" they ever knew. Take their shaggy locks in the right and left hand of thy wrath and bump their heads together until they promise to kiss thy big toe. Most worthy master, we commend to thy especial care the southern congressmen who advised everybody to vote for thee, who swore by Adam's off ox that thou wast the right stuff, who shared the swag, and now are trying to repudiate thee and profane thy great name. Our worshipful master, don't let them do it. Drive 'em away from thy pie counter. Follow them home and defeat their renomination. Sit down on them with the importance of thy political weight. Mash the everlastin' stuffin out of them forever and forever. As to us poor common people who voted for thee, take no thought whatsoever.

Thou knowest our uprisings and our downsittings. Thou canst tell it by the patch on our pants.

It is glory enough for us to see thee rule with an iron rod. We are but the mud sills of society. Put thy feet on us and mash us into the earth.

We fear thy name and thy mighty power.

We shall never ask thee for anything that will bring displeasure to thy fatness.

Coxey and Browne tried that and, lo! they did languish in jail.

They rose up in the morning and went forth with a banner the size of a Columbian postage stamp.

They bearded the lion in his den.

They stepped on the grass.

They offended thy fatness and the servants of thy fatness.

And the servants of thy fatness swooped down upon them and gathered them in.

They smote them hip and thigh.

So be it, most gracious master, in all thine enemies.

What business has a poor man to want that which he has not?

If he is not satisfied let him get off the earth.

There are too many of them here anyhow.

We thank thee, most gracious master, that they are being starved out and shot and killed.

It will make more room for thy fatness.

Now take us into thy care. Put us in the seat of thy pants and sit down on us whensoever thou wilt. Tie us in a knot and throw us to the dogs, but we will continue to praise thy name forever and forever.—Amen.

No Pinkerton, marshal, militiaman or any one else has been convicted for the hundreds of murders they have committed while in the service of corporations. Women and children have been killed in their homes and yards, women and men have been killed walking the streets, bombs have been thrown into their houses while the family were asleep and women and children killed by them, and in no instance save one has ever one of them been arrested and tried, and in the case tried the corporations defended the accused who were acquitted because they could not be identified as the ones who did the murder. These murders were committed by men in the service of millionaires, who are democrats and republicans, and who give thousands to the campaign funds of both old parties. Will some of their party speakers tell the people why none of these murderers have been punished? Why is not Cal Brice Carnegie, Vanderbilts, Goulds, Sage, Frick and others as much guilty of murder when they hire men, arm them, and men, women and children are killed by them, as Parsons, the anarchist, was who was hung for approving of a crime not knowing it was to be done and not being present when it was committed. Have the rich corporations or individual the right to kill and slay any more than the poor worker? If both kill had ought not both be punished? Where does the Pinkerton company get their authority to hire and arm men to fight for corporations—uniform them and number them so that even their names are lost? When one of them is arrested, as many of his comrades as are necessary are on hand to swear he is innocent. They are assassins hired to kill—and to kill without fear of punishment.

Americans, to this condition has the old parties who are owned by the corporations brought you. How long will you support parties who allow bands of assassins in times of trouble to kill at will? Vote them out!

"Am I my brother's keeper?" spake Cain, but his excuse was overruled, and despairing, he cried, "My punishment is greater than I can bear." The plutocrats of to-day say to their brothers of earth, "Say! we are not your keepers. You be d—d," and as God rules the nation their punishment is coming.

THE SILVER QUESTION.

The silver question is very simple. This question of ratios and dollars of the same intrinsic value is one of Wall and Lombard street's modern inventions. There is not enough gold and silver mined in the world each year to furnish money sufficient to keep pace with the increase of population and business. There is not gold and silver enough in the United States to do this if not one dollar went abroad. Now how can we check the fall in the price on anything? Why, by increasing the demand, of course. But when we strike silver down as money we don't increase the demand for it, but decrease it. If we want to increase that demand we want to increase its uses. In other words let governments say to every man who has silver, I will coin it into dollars of 412½ grains each free of charge and silver at once is placed on a parity with gold. No man can show that as long as this or any other government had free coinage of silver that it was not worth as much as gold. Suppose that the government should say to the mine owners I will pay $10 a ton for hard coal and $5 for soft coal. Don't you know that everybody else would have to pay that price as long as the government continued to buy? Free coinage means that legal and the commercial value of the silver dollar shall be the same. And this will be true so long as the product of silver does not amount to more than we need to coin each year for money to keep pace with the business of the country. It is true that the mine owners will profit by this, but not more so than will the wheat and cotton growers, and other producers in the land. Besides this objection can be urged with equal propriety against gold, because free coinage increases the value of gold. If the government should make those prices on hard and soft coal does anyone suppose that those prices would change—thus changing the ratio? That is, would it be likely that soft coal would only bring $3 while hard coal would bring $11?

Voters should remember that gold will leave this country as long as cotton is below eight cents per pound and wheat below $1 per bushel. The money exploiters will, under old party management keep the United States treasury busy selling gold bonds to get gold for them as long as they hold power.

The fight between the tweedle-dee and tweedle-dum tariff parties has ended for the present. It is now in order for the liars to come home and speak for the free silver they would not vote for.

Gen. Warner makes the assertion that there are more daily papers in this country owned by foreigners than there are in England. At this rate England will be making our school books, and George the Third will take the place of George W. shington.

Men who produce all wealth have a right to what they create, and all laws, customs or means that deprive them of the use of the products of their labor must be ab lished before before full justice is done to the laborer.

TOM WATSON AGAIN.

Democracy's Future Is Doomed to Failure.

[People's Party Paper.]

The democratic party is bound to die, not the principles of it. No, because principles never die, but the party is going to die. Why? It has gone into the republican camp and there can't be two republican parties. Here is the philosophy of human nature. It is as old as the rocks; as old as the mountains and the seas. In every government there will always be two parties, one to represent the grasping, the ambitious, the concentrated wealth class privileges, vested advantage. Whatever name you give it there will always be some party to represent those principles, class privileges, class legislation. To-day the republican party represents that policy; to-day the democratic party has gone away from its principles, and it stands for the same identical principles the republican party stands for.

The republican party stands for class interests, concentrated wealth, special privileges; those special exemptions which make an aristocracy. Don't they do it? Can't you see it in the republicans? (cries of "That is right.") Can't you see it in the democrats too? It is six of one and half a dozen of the other.

The how? In every country there has always been another party, the party which represents the great laboring people; the party that represents the great producing people, the party which stands for the great middle class; the party which stands for equal rights to all men and special privileges to none. Where is that party to-day; it is the People's party and you will find it no where else. Then which party will you join; which party will you work with? They say the democratic party has not done all that it promised but you must not turn them out because a few men have gone wrong. That would be a good argument if their arithmetic was sound. If only a few democratic leaders had gone wrong we would not be holding the party responsible for those few. But where are the leaders who have not gone wrong? It is the few who didn't go wrong; it is the many who did go wrong. The majority of your party went against the people. You know they said that Sodom could have been saved by the finding of five pure men in the city. They could not be found nor can you find the five spotless leaders in the democratic party who have stood ever and always by their principles and with the people. Therefore, what? Sodom must go. It is bound to go.

They say we will elect new men. What new men are we going to elect? Give us their names. They have indorsed every one of them so far. They indorsed those who voted for free silver; they indorsed those who voted against it. They indorsed those who voted for the sugar bounty; they indorsed those who voted against it. They indorsed those who voted for the income tax; they indorsed those who voted against it. Nothing they can't swallow. They are the out-indorsingest crowd I ever struck. Who have they turned out of the church? Nobody. Why? Because you can't turn them out. You don't know where the majority is. The majority in one church is for free silver; the majority in another is against it, and you dare not take a vote. You just indorse everything and go right ahead. In some of the districts in Georgia they indorsed the congressmen who fight Cleveland and turn around and indorse Mr. Cleveland. Why you can't find them; you can't draw a bead on them. It is like shooting a duck dapper, you can never draw your aim. The time you think you have got him spotted he dives and comes up at another place and you have got to do it over again. Now in the democratic meeting house, if the preacher takes a free silver text the house is for free silver; if he takes a gold bug text they are for the single gold standard; if he lines out an income tax hymn they all sing it; if he lines out a high tariff hymn they all sing that; if he prays for monopoly they all say amen; if he pronounces the benediction in favor of national banks they all bow their heads and go away happy; if the benediction is against national banks they clap their hands and cry "Hozannah" Just put a democratic tag on it and it don't make any difference what sort of a dog it is.

Now that congress has adjourned and gone home there ought to be some restoration of confidence throughout the country—a sort of feeling of easiness that the nation was not wiped entirely off the face of the earth.

It is a question of more money to enable the people to pay their debts by peaceable methods, or liquidation by forcible methods. The people will not submit to enforced debt slavery. Put that in your pipe and smoke it.

As long as cotton is below eight cents per pound and wheat below one dollar per bushel, gold will be exported to Europe. Whenever cotton and wheat goes above those prices gold will come to America. The first step to raise the prices is to establish the free coinage of silver at 16 to 1.

THE HIGHEST AWARD.

Royal Baking Powder in Strength and Value 20 Per Cent. Above its Nearest Competitor.

The Royal Baking Powder has the enviable record of having received the highest award for articles of its class—greatest strength, purest ingredients, most perfectly combined—wherever exhibited in competition with others. In the exhibitions of former years, at the Centennial, at Paris, Vienna and at the various State and Industrial fairs, where it has been exhibited, judges have invariably awarded the Royal Baking Powder the highest honors.

At the recent World's Fair the examinations for the baking powder awards were made by the experts of the chemical division of the Agricultural Department of Washington. The official report of the tests of the baking powders which were made by this department for the specific purpose of ascertaining which was the best, and which has been made public, shows the leavening strength of the Royal to be 160 cubic inches of carbonic gas per ounce of power. Of the cream of tartar baking powders exhibited at the Fair, the next highest in strength thus tested contained but 133 cubic inches of leavening gas. The other powders gave an average of 111. The Royal, therefore was found of 20 per cent. greater leavening strength than its nearest competitor, and 44 per cent. above the average of all the other tests. Its superiority in other respects, however, in the quality of the food it makes as to fineness, delicacy and wholesomeness, could not be measured by figures.

It is these high qualities, known and appreciated by the women of the country for so many years, that have caused the sales of the Royal baking Powder, as shown by statistics, to exceed the sales of all other baking powders combined.

Was Buried Alive.

Jules Carle of Junea, Alaska, is one of the few men who are able to tell how it feels to be buried alive from experience. He was living at the time at New Westminster, B. C. One morning he had gone into a restaurant and ordered his breakfast, when all of a sudden he fell dead. At least, that is what the doctors said of him, though he was conscious of what was passing around him all the time. He was laid out for burial and his friends kept the usual vigil over him, he was put into the coffin and borne to the cemetery, all the time realizing the terrible fate that was about to overtake him, but unable by word or sign to do anything to prevent it. He was lowered into the grave, but happily as the first clod rattled on his coffin he began to feel the blood pulsating at his heart and his powers returning to him. He found that he could move his hands and began to hammer on the coffin lid and call for help. The startled pallbearers stopped shoveling dirt into the grave, while the majority of those gathered at the grave side fled away as for their lives. He called again and one courageous friend jumped into the grave, and unfastening the coffin lid, Carle was taken out, feeling as well as he ever did in his life. He ran about exercising his benumbed limbs, while the people thought that they had witnessed a miracle.

An Experiment.

According to a recent pamphlet by an Italian doctor a sure way of restoring life in cases of syncope is to hold the patient's tongue firmly. After two other doctors had worked for an hour without result over a young man who was apparently drowned, he thrust a spoon into the patient's mouth, seized the tongue, and worked it violently until the patient gave signs of life.

An empty pocket is not always a good excuse.

Inaction sometimes amounts to cowardly action.

The best record is one that has never been broken.

There are people who say they would like to do good who don't smile once a week.

Gentlemen Robbers.

The police of Paris have recently discovered a very extraordinary organization in that city. It is a band of robbers, of which all the members stood well in society. The proceeds of their rascality were all turned into a common treasury, from which each member of the gang was allowed $500 a month. It appers that two of the members of the gang got into a quarrel at their headquarters, which grew so violent that the neighbors called in the police, who arrested the men. One of them, named Charton, was so angry and excited that he made a confession, and revealed the names of his accomplices, who were all taken into custody. The leader of the gang was one Corbeau, the son of a prominent official of the government. He was arrested just as he was about to step in his carriage for a ride. He said that it was well he was arrested as he was just going to kill Charton, whom he considered to dull to be useful in the business.

A Brave Girl.

Miss Eva Thompson, cashier in a large establishment in Fort Scott, Kan., refused at the muzzle of a revolver to open the safe of her employer so that a robber could help himself to the cash. The door of the safe was closed, but not locked, and the young woman stepped toward it and grasped the combination. He thought she was in the act of opening the safe, but in fact she was locking it. She turned the combination while he stood over her, pistol in hand, and then, standing erect and undaunted by him, she exclaimed: "Now shoot." The man pocketed his pistol, uttered an oath and fled. It is not stated just what profane words he used, but he doubtless joined emphatically in the condemnation of the "sweating system," and of the employment of female cashiers to take the places and stand in the way of gentlemen who are in need of funds.

Bitten by a Spider.

Mr. J. W. Culpepper of East Macon, Ga., had recently a very narrow escape from death from a cause which, at the time, he considered very trivial. He was at work in his garden, when a large black spider, one of the biggest he ever saw, sprang upon his hand and bit him. He paid little attention to the bite and went on with his work as usual. Presently his hand began to swell and give him pain, and he went to the druggist with it, who put arnica on it. This gave him little relief, and soon he had to be sent home in a carriage, while a doctor was summoned. The patient presently became unconscious and for several days his life was in doubt, but it is now said that he is recovering.

Occasionally we meet a drunken man who claims to have sense, but a sober man soon gets over the notion.

Manners make the man and then give him away.

Hall's Catarrh Cure
Is taken internally. Price, 75c.

People who dodge the bill collector will never evade the devil.

"Hanson's Magic Corn Salve."
Warranted to cure or money refunded. Ask your druggist for it. Price 15 cents.

The devil never chases people he can't catch.

Karl's Clover Root Tea,
The great Blood purifier, gives freshness and clearness to the complexion and cures Constipation. 25c., 50c., $1.

Our earthly troubles are twin evils; they never come singly.

If the Baby is Cutting Teeth.
Be sure and use that old and well-tried remedy, MRS. WINSLOW'S SOOTHING SYRUP for Children Teething.

No one can serve God and please the devil at the same time.

MANY persons are broken down from overwork or household cares. Brown's Iron Bitters rebuilds the system, aids digestion, removes excess of bile, and cures malaria. A splendid tonic for women and children.

No one can tell what turn a crank is going to take.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A PICTURE.

WE behold the entrance of an office building on State street, Chicago. Before it stands a stalwart, coarsely-dressed man, evidently a miner. His bronzed, good-natured face is lighted with contentment, as if the world had at last rewarded him for his hard work. He intently regards a sign upon the wall at the foot of the stairs. The sign contains these words: "Portraits and landscapes painted. Room 39."

Whatever his intention, he seems half-ashamed of it, for he takes a hurried look up and down the street, and hesitates again before his resolve is taken, and his lumbering boots go heavily up the stairs. In a little room on the top floor sits a shabby man, the physical opposite of the first. The well-worn books upon the shelves, and the bulging portfolios of "studies," all about show that he, too, has been digging after treasure, but of another kind, and his face gives evidence that he has found it.

His wide, shadowy eyes see more than they rest upon, and his high brow teems with fancies far above the groveling horde about him. He is thin, weak and miserably poor. Strive as he may with his unbusine slike nature, he can but keep himself half-fed.

The day is bitterly cold, and he pauses often in his work to beat together his blue fingers, almost as numb and lifeless as the little, rusty, unused stove in the corner. How unequally the goods of this world are divided!

Perhaps he was ruminating somewhat to this effect when the clump-clumping of the boots followed by a vigorous bombardment at his door, interrupted him. He rises and opens the door, starting, half with fear, half with pleasure at the stalwart figure before him.

"Good mornin', sir, says the miner, still speaking with the accent he had picked up in the California mines.

"Good morning; come in," the other replies, holding the door hospitably open.

"Can I look at the pictures?"

"Certainly."

The visitor steps over the threshold, and by the time the artist has closed the door and seated himself at his work, he has gone round the room, has looked at them, and plainly failed to find something he had hoped to see. He stands now and watches the artist laying the colors on the canvas.

"Ah," he says. "I don't care much for pictures. They don't look like outdoors. They don't look like the place I want to see. Now, could ye paint a picture just as I'd describe it to ye, so it'd look like the very place?"

"I am afraid not. Words are not readily transmitted into form and color. The usual terms of description are too indefinite, capable of too many and too varied interpretations; too liable to distortion through the transforming influences of the painter's own imagination to render success probable."

"No, no; I don't mean anything like that. Just make it the way I'll tell ye. Try, and I'll help ye to strike it.

HE DASHES AND DABS AND SLAPS AND SPATTERS.

Try it, stranger. I'll stand the damages, and if ye'll make't look like the place, I'll pay ye well for it."

The inducements are irresistible to the hungry Bohemian, so he puts a fresh canvas on the easel, and seats himself, palette in hand, to make the attempt. The other shuts his eyes for a moment in retrospection, and then says:

"Well, there's a river runnin' right through the middle of the picture, that is what I want to see. Not a big river. Just a kind of overgrown creek. But that an't much of a description, is it?" And he scratched his head and tries again.

"Well, this river is about forty feet wide on the average. Just paint it about that wide, right across the middle there, will ye? kinder windin' around like this."

But the other doesn't paint it. Instead he says:

"There is nothing tangible in that: the water itself is of little consequence in a picture. We only see it as it contrasts with other things, as the objects upon its banks or the skies overhead. Tell me what its surroundings are, and I will try."

"Well, across on the other side is a row of hills that stand right up against the sky. Just make a row of hills there, will ye?"

The artist can do that. He was born among the hills, and now he recalls a certain group of them in every detail. First, laying in a summer sky for background, he sketches in their forms in flat color.

"No," says the other, "not like that. Big hills, with rocks cropping out next to the river—"

"Wait," says the artist, and he dashes and dabs and slaps and spatters the mingling tints and shades of color all about with a speed that is bewildering.

The gold-digger in his anxiety, bends over him closer and closer, as though he would look through the canvas for the scene he longs for.

"No," he says. "No, 'taint like it. Try the turn of the river and some land on this side."

Even as he speaks the form and color of the sky and hills are rippling there, and at a sweep the painter describes the line of the nearer shore, and then the foreground seems to unroll across the canvas.

"That is like the turn o' the river! Try a stone wall down there t'ward the left. Is that a stone wall?"

"It will be."

"It looks to me like a streak of brown paint."

"It is like a stone wall I have in my mind," the artist replied. "But just here it was tumbling down, and the loose stones were scattered about, half-hidden in the grass, like this; and here the cattle and the sheep came through, and had worn a little crooked path down to the water."

"Yes, that's it. That's just what I want, but I don't get it yet. I don't seem to see it for the paint."

"You look too closely. Stand back a little."

"Well, by the eternal! It is like it, stranger! It is like it to a dot! How could ye hit it so close?" he asks in amazement. "But ye left out a house here on this side," he continues, "a little house with a that hed roof, and a tall oak tree bending over it."

The painter starts at this. It is his turn for amazement now. What a wild hope thrills him for a moment! What is this—Pshaw! What a foolish fancy! A thousand homes would answer that description; and he goes on with his work. He paints the little house where he and his brother Tom were born where they spent their childhood together—the little house from which Tom, his brave, big brother, his hero, grown desperate over the hard lot of their widowed mother, had gone away with a bold front to seek his fortune—their fortunes.

He paints the little house from which their mother, broken-hearted for want of tidings of her absent boy, had been borne to her grave—the house, no longer home, from which he had wandered, a weak, forlorn, helpless little lad, out into the big world alone—all alone, vainly wishing that he might find Tom.

"Now you strike it, stranger! That's it. It's the very place! How much do you want for it? Name your price."

"I can't part with it," said the artist.

"But ye must, I tell ye, ye must! Don't trifle with me, stranger. I ordered that picture, and it's mine. Ye won't go back on that. But go on. There's a winder on this side, an' a door here——that's all. I can fairly see two mischievous youngsters a-hidin' behind that wall, and mother standin' in the door a callin'. Say, stranger, could ye just put a woman in the door there, shadin' her eyes with her hand, like this?—a little, tired, anxious-lookin' woman, with the kindest face, the dearest face Could ye, stranger?"

"No, the space is too small. I couldn't do it so that you could see the face."

"Paint me her face, will ye, stranger, will ye? See here." And he goes down into his capacious pockets and heaps a great pile of golden coin upon the table.

"Don't tell me you can't do it stranger. Ye thought ye couldn't do this but ye have. I'll try and tell ye how she looked. I can see her face yet, but it's kind of misty. If I could see one suthin' like it I could tell ye how it were different." And he takes an eager, impatient turn about the room.

"No, 'tan't like those, none of 'em," he says; "these gay ones is all well enough, but an't ye got no plain lookin' little women, with home faces, with mother faces—han't ye stranger?"

The painter dare not speak. He dare not look into the questioner's face, lest he should lose the dear hope still growing in his heart. Instead, for answer, he rises, and, going to a corner of the room, lifts a faded curtain—draped as it might be over a shrine—and reveals upon a low easel the worn face of his saint, his mother. The gold seeker with a quick, spasmodic catching of his breath, is on his knees before it, clutching the frame in both big, sunburnt hands, as if he feared this might be an illusory, fading vision.

His eyes are fixed upon the face, and for a time he does not move or speak. Whip-cords gather and knot themselves under the brown skin of his temples, and scalding tears well up in his eyes, and overflowing the rugged uplands of his cheeks in briny rivulets, lose themselves in the wilderness of his shaggy beard, that quakes and quavers like a stretch of standing corn in a storm. Then he presses his face against the cold canvas, kissing it over and over again, and giving great convulsive sobs.

"Oh, mother," he moans, "after all I was too late!"

The shabby little figure is down beside him, hanging about his neck, and crying:

"Tom! Tom! Brother! Don't you know me?"

The brawny giant, never turning his eyes from his mother's face, gathers the other in his strong arms, with an embrace like a grizzly bear, and murmurs between his sobs:

"Oh, Willie, Willie!"

FREE FOR TWENTY-ONE YEARS

An Escaped Negro Convict Betrayed and Sent Back to Jail.

On May 18, 1873, Monroe Marshall, a colored convict, made a daring escape from the Fulton county chain gang, says the Atlanta Constitution. A few days ago, after twenty-one years of uninterrupted freedom, he was captured and carried back to the convict camp in shackles. Twenty-one years ago when he made his escape, he was young, strong and robust—strong enough to overpower two guards and give the bloodhounds a futile chase for many miles. He was carried back old and decrepit—almost too weak to stand up under the weight of his shackles. In 1873 Marshall was given a sentence in the county chain gang, convicted upon the charge of assault and battery. He had provoked a fight with another negro and was arrested and sentenced. He remained three months in the chain gang, when, on account of good conduct, the foreman made him a trusty. One morning, while the rest of the convicts were at breakfast, Marshall made a break for liberty. Two guards seized him, but he pushed them easily aside and made for the woods. Several shots were vainly fired at the fleeing man. Then the dogs were put on his track and gave him a good race. But the negro reached the river in good time to swim across and escape. The chase was given up and the guards returned to camp. Years passed, other convicts came and went, Marshall was lost sight of and his escape had passed from memory.

The other day a negro visited the convict camps and volunteered the information that he knew the whereabouts of an escape. He was questioned closely concerning the man who he said had escaped and as to how he learned the fact. He said that the man was named Monroe Marshall and lived on Decatur street. Some time before he had told several other negroes how he escaped from the chain gang twenty-one years ago. His sense of security caused him to tell all about his flight. The negro making the report said that he was one of the men who heard Marshall's tale. None of the officers at the camp knew of the escape and were not inclined to believe the fellow. But the books for the year 1873 were examined and the name Monroe Marshall was recorded there as having escaped an never recaptured. One of the gang guards came into Atlanta. Marshall was pointed out to him and the arrest was made. At first the man denied that he was ever in the chain gang and insisted that he had always lived in Fulton county. But the guard was inexorable, and the ex-convict acknowledged that many years ago he had escaped. Then he gave a full account of his struggle with the guards and his run from the dogs. He left Georgia the year of his escape and made his way to Texas, where he remained for ten years, coming back to Atlanta after that time. The negro who reported him, he says, did it to satisfy an old grudge.

SOUNDS VERY SHOCKING.

But, All Things Considered, the Affair Was Not Beyond Remedy.

The story the young man told the reporter was about a runaway match between two young society people of Brooklyn and a divorce which had been kept secret. The story, as the reporter found it to be is as follows:

Eddie Hubbell has just passed his tenth birthday. Jessie Lyng is almost 9 years old. When the time came for June brides a little playmate gave a party. A mock marriage was proposed and Eddie and Jessie were selected as bridegroom and bride. In her white dress and with an improvised orange wreath Jessie made as pretty a bride as a boy could ask.

Then Charlie—the awful Charlie—showed his hand. He was probably a cast off suitor. He bit his lips, in lieu of a mustache. He bided his time. Eddie wrote this note, and Charlie saw it:

"Dear Jessie—I love you. Do you love me? Do you want to ride on my veloc? Your friend,

EDDIE HUBBELL."

Then Charlie wrote a letter and took it to Jessie. He didn't show her what was in it and promised her any kind of candy she wanted if she'd sign it. She did.

Jessie's father is a lawyer. He has lots of big red seals. And the letter that came and caused the trouble had, first, one of these awful legal seals; then the printed word "divorce." It continued:

"Dear Eddie—We do not love you and we will not ride on your veloc.

JESSIE."

Eddie was heart-broken when he showed this to his father, who is an editor.

Mrs. Hubbell showed the note to Mrs. Lyng. And there was a reconciliation. But just think how fin de siecle even little tots are.

Merely a Matter of Taste.

They were talking about the wonders of this wonderful land.

"I wish you could see our town of Pokerville, professor," said the younger of the two men. "It is a most interesting town—only twenty years old and with 50,000 inhabitants."

"Ah—yes—very interesting, no doubt," replied the professor, dryly. "But, strange as it may seem, I should prefer myself a town 50,000 years old and with only twenty inhabitants."—Boston Budget.

May—What did you think of Mr. Newpreach's sermon? Stella—Couldn't have been better timed. I had just finished looking at the last bonnet in the house when he said amen.

Killing Elephants.

A writer in a paper in Central Africa from Tete says that at the rate at which elephants of all sizes are at present being killed off in south and central Africa there is little doubt that in a few years they will be practically exterminated in those regions. From Tete and Zumbo alone the traders annually send 3000 hunters to the countries north of the Zambesi, who shoot indiscriminately, regardless of an elephant's age or the size of his tusks. The writer recommends all the powers having territories in Africa to form a union and prohibit the exportation of tusks under ten pounds in weight.

First Time in Forty Years.

The shutting down of the Central copper mine in Kewaunee county, Michigan, closes a forty-year term of continuous operation. During this time the mine has returned to its stockholders $27,000,000 in dividends on an investment of $100,000. The vein had been worked by some prehistoric race, and it was the traces they left of their work that led to the discovery of the mine in 1854. The shutdown is due to the utter exhaustion of the vein. Four hundred men are thrown out of employment.

Headed True.

A physician who died lately in Glasgow, Scotland, left his entire fortune to his wife, who had endeared herself to him three months after their marriage "to a peaceful and quiet life." A peculiar and eminently Scotch manifestation of gratitude.

There is no mortgage over the home of the blessed.

"Hail to the Chief!"

This is half the title of an old song. The balance is, "Who in triumph advances." The public, the press and the medical profession chant this refrain as especially applicable to Hostetter's Stomach Bitters, chief among American remedies and preventatives for malaria, constipation, dyspepsia, liver complaint, nervousness, unquiet sleep, rheumatic twinges and the troubles incident to advanced age. It is also universally recognized as a reliable tonic and appetizer. As a family medicine particularly suitable to emergencies it has no equal. The nervous, the feeble seek its aid, and the happiest results follow. The convalescent, the aged and the infirm derive infinite benefit from its use. Against the influences of impure air, bad water, unaccustomed food, overwork and exposure it is a genuine preventative.

It seems that some weary people will never take a rest.

If your Back Aches, or you are all worn out, good for nothing, it is general debility. Brown's Iron Bitters will cure you, make you strong, cleanse your liver, and give a good appetite—tones the nerves.

Every condition in life has its misfortunes; old maids are too thin, and old married women are too fat.

IT'S A MILLSTONE

About a young man's neck to be a sufferer from nervous exhaustion, nervous debility, impaired memory, low spirits, irritable temper, and the thousand and one derangements of mind and body that result from, unnatural, pernicious habits, contracted through ignorance. Such habits result in loss of manly power, wreck the constitution and sometimes produce softening of the brain, epilepsy, paralysis, and even dread insanity.

To reach, re-claim and restore such unfortunates to health and happiness, is the aim of the publishers of a book written in plain but chaste language, on the nature, symptoms and curability, by home treatment, of such diseases. This book will be sent sealed, in plain envelope, on receipt of ten cents in stamps, for postage. Address, World's Dispensary Medical Association, 663 Main St., Buffalo, N. Y.

CONSUMPTION

Nicaragua Canal Scheme.

The extremely ridiculous and inconsistent attitude in which the plutocratic press often finds itself is nicely illustrated in the following from a recent issue of the Manufacturer's Record, of Baltimore.

The Record goes on to say in an exhaustive article regarding the Nicaragua canal, advocating an early realization of the scheme, that it is impracticable and unconstitutional for the government to have the canal built and own it, but the following few lines show how they would have it done.

"Ownership by a private corporation, unsustained by government credit, is feasible theoretically, but practically it has been found impossible to secure in this country the needed funds under such an arrangement. This reduces us, then to ownership by a private corporation guaranteed by the United States. It has been proposed that the government should guarantee the bonds of the Maritime Canal Company of Nicaragua, a corporation chartered by a special act of Congress, which owns the concessions for the canal. The government would be secured against loss or missappropriation of funds by acquiring, in consideration of this guarantee, at least 70 per cent of the company's stock and would in addition appoint a considerable majority of the board of directors. Thus the canal would be owned by a private corporation which was practically controlled by the government."

Thus it will be seen that the Record proposes that the United States should *loan the money to the capitalists* for the purpose of building the canal, and take for its security 70 per cent of the canal built with its own money. If the canal proves a *paying* investment the government *may* get its money back, but the capitalists will own the property. If on the contrary it proves unprofitable the government will not get its money back, but will have the property.

Politics makes strange bedfellows, but the beauties of incosistency will be forcibly emphasized if Texas sends Hon. Horace Chilton to the U. S. Senate unless he modifies his views on silver. He has been bold in his advocacy of free silver at the ratio of 16 to 1 and the Dallas convention emphatically knocked out that crankism. The News is for Mr. Chilton and it believes he can consistently modify his views to suit the state platform. He would not in Congress champion a theory or a principle in opposition to the expressed will of his state.

This is for Horace, not others to say. He must do his own crawfishing.—[Dallas News.

During the month of July there were seven dailies and seventeen weekly populist papers started at various places, and yet the demorep. press continues to tell how rapidly the populist party is dying out. At that rate we say let'er die.

We would call the attention of our readers to the article in this issue on the retirement of the silver dollar. This is an irrefutable argument against the assumed friendly attitude of the democratic party towards the resumption of silver coinage.

Governor Waite of Colorado was renominated for Gov. without any opposition. He has received more abuse from the plutocratic press than any other Governor in the U. S. on account of his refusal to call out the state militia to protect railroad property during the Denver labor troubles.

It may tickle the fancy of the editor of the Comanche Chief to have his readers and the public generally look upon him as a "bad man from the head waters of Bitter creek," and a "holy terror" to all of his political opponents. The occasional challenge for that portion of the general public who *dont like his style*, to call at his office, either singly or in squads, and "get satisfaction," does not add dignity to the profession. It's all right to protect ones self but an invitation for an attack when none is threatened is but to act the role of a bravado. We hope Sammy will cool off soon, deposit his Winchester with a friend, spike his gatlin gun, and bury his bowie and hatchet.

Mr. Herbert Spencer is reported as having recently written these words to a correspondent in this country. "In the United States, as here and elsewnere, the movement toward dissolution of existing social forms and reorganization on a socialistic basis I believe to be irresistible. We have bad times before us, and you have still more dreadful times before you—civil war, immense bloodshed, and eventually military despotism of the severest type."

The first chapter of military despotism feared by Mr. Spencer was acted by Cleveland in his intervention with federal troops in the interest of monopoly during the recent great strike. It remains with the American people whether they will retire forever the administration that has taken this first step towards plutocratic military despotism while it is within their power to do so with the ballot, or whether they prefer to meekly submit and finally be forced to protect themselves with the Winchester and bayonet.

From

High Government Authority.

No authority of greater experience on food products exists than Dr. Henry A. Mott, of New York. Dr. Mott's wide experience as Government Chemist for the Indian Department, gave him exceptional opportunities to acquaint himself with the qualities and constituent parts of baking powders. He understands thoroughly the comparative value of every brand in the market, and has from time to time expressed his opinion thereof. On a recent careful re-examination and analysis he finds

Dr. Price's Cream Baking Powder

superior to all others in strength, purity, and efficiency. Dr. Mott writes:—

"New York, March 20th, 1894.

I find Dr. Price's Cream Baking Powder to be superior to all others, for the following reasons:—

1st. It liberates the greatest amount of leavening gas and is consequently more efficient.

2nd. The ingredients used in its preparation are of the purest character.

3rd. Its keeping qualities are excellent.

4th. On account of the purity of the materials and their relative proportions, Dr. Price's Cream Baking Powder must be considered the *acme of perfection* as regards wholesomeness and efficiency, and I say this having in mind certificates I have given several years ago respecting two other baking powders.

The reasons for the change in my opinion are based on the above facts and the new method adopted to prevent your baking powder from caking and deteriorating in strength.

HENRY A. MOTT, Ph. D., L. L. D."

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The most specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

The Omaha Bee, one of the leading republican dailies of the northwest has the following to say of Hon. Silas A. Holcomb, populist candidate for Governor of Nebraska who will in all probability be elected. The Bee says. "With Silas A. Holcomb, of Broken Bow, as their candidate for governor, the populists will enter upon the campaign this fall unhampered and unhandicapped. Judge Holcomb is undoubtedly the strongest man in the populist party who could be given that place of honor. He has been elevated by his party to the bench of the district in which he resides, and during his incumbency has reflected nothing but credit upon that tribunal. He was chosen by the populist state convention last year to ask the suffrage of the voters for the position of judge of the supreme court of Nebraska, and although defeated he made a campaign that left only favorable impressions throughout the entire state."

At that time the Bee spoke as follows of Judge Holcomb's candidacy:

"In nominating Silas A. Holcomb the populists have placed at the head of their ticket a man whose record, as far as we can learn is unsullied and whose career has been free from all disreputable entanglement with corporations or boodlers. It must be a source of gratification to citizens of Nebraska, regardless of party, that the populists have chosen a man as their candidate for the supreme bench who, if elected, will hot disgrace the state and lower that high tribunal in the popular respect by incompetency and lack of integrity.

We can say no less of him now, when he stands as a candidate for the gubernatorial chair. The people of Nebraska, without regard to party lines, may well rejoice that the man who has been selected as the populist standard bearer will if elected governor, enter upon the duties of that office with both the intention and the ability of performing them, free from corporate dictation, as the best interests of the state may demand.

The finances of the state of Kan. are today in better condition than it has been for years. The public schools are flourshing and the teachers are regularly and well paid. The state officers, none of them, are asked to wait for their pay, and the state takes up its vouchers on demand. We are sorry to say that under democratic misrule and extravagance, the best state financially, and especially as applies to permanent school fund, of any in the United States, has today in its treasury not a dollar that really belongs to the state and its vouchers are being hawked about and sold at a big discount.

It would be well for Texas to try a dose of populism.

WAIT UNTIL I ARRIVE! Car Load en route.

J. R. St. CLAIR'S
FALL ANNOUNCEMENT!

To tell the People that I have a Large and almost Entirely New Stock would be putting it Light. In the Spring I never went to Market. I bought light and Sold My Stock Down Very Low. I have Just Returned from the Eastern Markets where I have bought a Larger Stock than I have ever had before Now

TO BE CONVINCED!

of this fact you will only have to take a peep in my store. While I have the largest stock of goods that I have ever had. I also have the largest corps of clerks to wait on the trade that I have ever had and hardly believe it neccessary to tell you my style of doing business. However some may not know, therefore I say, as I have many times before, that I sell from

JANUARY TO JANUARY FOR SPOT CASH!

and no deviation. If you can find a man that I have sold on time I will make you a nice present, so if you want to spend your money with a Cash Man give me a call. To give you the price on all my goods would take forty pages, therefore I give you only

A FEW PRICES!

GENTS FURNISHING GOODS.

I have in this line to start with not less than $1,000 worth of shirts.

White shirts from 50c up.

First-class unlaundried shirts for 50c.

Ladies and misses cashmere mittens and gloves.

Nice line of facinators.

Dress buttons, I have a very fine assortment, worth from 10c to 40c per dozen, selling the entire lot at 10c per dozen.

Also big lot of same worth from 10c to 15c, closing at 5c per dozen.

Big lot of very fine rushing worth from 15c to 35c per yd, entire lot going at 10c a yd.

Complete line infants' cashmere shirts.

Misses hoods, etc., large stock.

Big stock, both in split and single zephyrs, all colors, at 5c per oz.

Saxony yarn, per hank 5c.

STAPLES.

Good cassimere jeans, usually sold for 50c, my price 33⅓c.

Good nine ounce jeans, usually sold at 35c, my price 25c.

Good line of Kerseys for boys pants.

Indigo prints for 3c a yard.

Big stock of good standard prints, usually sold from 6c to 8⅓c, my price 5c.

Thirty inch wide cotton flannel, usually sold for 7c, my price 5c.

Good hickory shirting 8⅓c, have some cheaper if you want shoddy goods.

Big stock of new bright fall style ginghams, usually sold at 8⅓c, my price 5c.

Good twilled flannel, usually sold for 35c, my price 25c.

Good twilled flannel at the low price of 15c.

Linsy at 10c a yard.

Bleached domestic 5c.

Waterproof goods ordinarily sold for 50c, my price 25c. This is the lowest price ever made on this class of goods.

My goods are all cheap, so when anyone prices you cheap don't forget that I will sell you as cheap or cheaper.

LADIES DRESS GOODS.

I have this line full and complete from the cheapest to the highest.

Tricots, double width, all wool both ways, usually sold for 50c, I can sell them for 33⅓c.

Some double width goods for only 15c per yd.

Nice lot of plaid worsteds and fancy repelants, something entirely new and something that has never been sold in the city before.

For those who want fine dress goods, I have them

In dress patterns, fancy new style wool goods, also in silk, all colors and satins and moire silk, with full lines of trimming to match, I have a grand stock.

Line of new style dress goods at from 8⅓c to 15c, the best thing for the money ever offered.

To see my magnificent line means to buy.

I forgot to mention that I have a complete line in all the latest colors of all wool surges. They are beautiful.

If you are going to buy dress goods don't fail to see my stock.

CLOTHING.

Now, all that anyone can say about clothing is that they have them, and that I have and the latest styles and at prices as low as anyone can sell them.

I have an especially nice line of men's black clothing, all I ask is a trial and I can sell you.

Also have a big line of youths' and boys' clothing, boys' suits as cheap as 75c. Come and look for yourself.

HATS! HATS!

Men's hats! Youths' hats!! Hats for everybody.

Boys' hats and caps in the very newest styles, cheaper than ever. Don't take my word for it, but come and see for yourself.

Have in stock a lot of John B. Stetson hats, worth from $4 to $6, closing them out at $2.50 to $4. These are the best hats in the world, but I am going to quit handling them, hence this low price.

Large stock cow boys' broad brimed hats worth $4 to $5, selling out at $1.50 to $2. Don't fail to see them.

SHOES! SHOES!

Ladies button shoes for 85c.

Complete line of misses' and boys' shoes.

Men's calf boots for $1.50 a pair.

Men's work shoes from 75c to $1.50 a pair.

In fact I have a complete line of shoes and can fit anything that wears 'em.

If you want to buy shoes give me a look and you will buy from me.

MILLINERY GOODS!

My Milliner, Mrs. Conley, has just returned from the east, where she has bought an elegant line of

LADIES' HATS and CAPS,

All new styles, and the White Hats for young ladies are especially pretty. On our opening day we sold most of our Pattern Hats but have a few yet at special bargains. Caps as low as 25 cents. Ladies Hats, ready trimmed as low as 50 cents. Don't buy a hat till you see them.

Now such things as yard wide domestic, cheap calicoes, cotton checks and a few other staple things I hardly ever price in my adds. for the reason that some fellow who wants to sell you will price you at almost anything in order to get your bill. Now if anyone prices you these goods low, don't get excited, for I will meet any prices made by any legitimate business man.

Dublin Progress

J. S. DALEY, Publisher.

DUBLIN, - - - - - - TEXAS.

TEXAS NEWS BRIEFS

Items of General Interest Carefully Selected From Many Sources.

Mrs. Hedwig Radetsky, a German woman with two living husbands, went to jail recently at San Antonio, charged with bigamy. Julius Radetsky, husband No. 1, preferred the charges. He married the woman three years ago in Mason and they have two children. Several months ago they separated. Joseph Frotlich a girlhood lover of the woman back in the fatherland, crossed the Atlantic and he and Mrs. Radetsky secured a license and were married. Adam Radetsky then proceeded to make trouble and the twice wedded and never widowed bride is in jail in default of bail.

Col. M. P. Kelley, general manager of the Georgetown and Granger and Trinity, Cameron and Western railways, went to Austin recently to make arrangements for the preparation of profiles and their necessary data to submit to the railroad commission along with an application to issue bonds upon the property. Purchasers have been found for the proposed issue and work will begin shortly. The Twenty-fourth legislature will be petitioned to authorize the consolidation of both roads under one charter.

Recently at Sulphur Springs Mrs. Albert Litchenstein was very severely burned. A stick of stove wood fell out of the stove. The back part of her clothing caught fire and rapidly blazed up, burning her from the hips to the neck. Her hands and arms were burned, also. Her husband was at his store at the time. Two neighbors, Messrs Rogers and Colquitt, heard her screams, ran to her, and succeeded in putting out the fire, not, however, until she was badly if not fatally burned.

Edward Gray, a young man who recently went to Waco, was engaged in placing furniture which he had just delivered on the stage in the Garland opera house, in that city. While arranging a heavy article to make room for other pieces he fell through the elevator trap and descended thirty feet headforemost, striking the pavement in the archway below with awful force. Copious hemorrhages followed from the mouth and surgeons regard the injury as fatal.

Tom Waggoner, one of the cattle men of Wichita county, who owns a large part of the unplowed land of that county, tried his hand at farming this year on some of the land that for years he said would not raise anything but grass, and he harvested 31,000 bushels of wheat, 37,000 bushels of oats and 12,000 bushels of corn. This crop was between Red and Wichita rivers. He shipped seventy cars of fat beeves at good figures.

Lewis Jobe, son of a farmer living near Sulphur Springs, was thrown from a young horse one night recently into a pile of bois d'arc fence posts, receiving several painful bruises and cuts. His father followed the horse and in attempting to catch it was violently kicked in the chest. Three ribs on the left side were broken, also the sternum bone. The elder Jobe is considered in a very serious condition.

The late grand jury of Refugio county indicted Needham Coward and his two sons and the two Straight boys for the theft of cattle. They were arrested about a month ago at Rockport. One Henderson was indicted for stealing hogs. All six of them are from Calhoun county. The alleged thefts were committed along the coast of this county by means of small coasting vessels.

At San Angelo recently Peyton Keerse, aged about 21, while alone, his parents having gone to church, had an epileptic fit, overturning the lamp. He was frightfully burned. On recovering consciousness the young man, although fatally burned, drew several buckets of water from the well and extinguished the flames. He died a few days afterward in great agony.

At San Antonio as Mr. J. F. Crosse entered his home the other night he came upon a negro man who was in the act of committing burglary. He called upon the negro to surrender. The intruder replied by drawing a revolver and shooting Crosse through the neck. The negro then escaped. The wound is not dangerous.

J. E. Jackson's gin, situated six miles south of Ladonia, was destroyed by fire the other night, valued at $4000; no insurance. There were also twenty-six bales of cotton, $300 of agricultural implements, $100 of harness, three wagons and one horse destoryed. Origin of the fire unknown.

At Houston recently an affray between Saloonkeeper James Calvery and his bar tender, James T. Ellerman, the former was shot in the knee with his own pistol. He gave bond in $500.

A justice of the peace at Whitney, Hill county, recently tried two women on Sunday and sent them to the county poor farm. They now sue before the district court for their liberty, holding that they have been unlawfully restrained.

The pay car on the Houston and Texas Central went over the road a few days ago and the boys paid their board bills and "smiled."

The present freight rates between all Texas and all Colorado points was continued by the late freight agents meeting at Fort Worth.

A CYCLONE'S WORK.

IT SWEEPS THROUGH LITTLE ROCK, ARK.

The State Penitentiary, Lunatic Asylum and a Large Number of Business Houses Wrecked—Many Persons Killed and Seriously Injured.

LITTLE ROCK, Ark., Oct. 3.—A terrible cyclone swept over the business portion of this city at 7:30 o'clock last night, carrying death and destruction in its path. Shortly after dark a heavy storm came from the west, accompanied by vived flashes of lightning and heavy crashes of thunder. The skies suddenly cleared and the storm was thought to be over, when suddenly a heavy gale from the southwest appeared, and for three minutes the city was in the throes of death and destruction. The wind was terrific in the extreme. Trees, telegraph and electric light poles were uprooted and carried a distance of 200 yards. The roofs of about thirty of the largest buildings in the city were torn from the houses and hurled against buildings on the opposite side of the streets, leaving the occupants and property within to the mercy of the drenching rain which began to fall in torrents shortly afterwards. When the cyclone had ceased it was discovered that the residence portion of the city had entirely escaped, but Main street to Third, Markham street from Center to Cumberland, and Second from Center to Cumberland were almost total wrecks. This territory covers the principal business portion of the town. The Western Union telegraph office is located in the center of this district. This building was wrecked beyond recognition, the operators who were at work at the keys having narrowly escaped. The loss of property alone will amount to at least $1,000,000. At the penitentiary the office and one of the main buildings were torn away and lodged on several frame cottages in the neighborhood, completely demolishing several. A stampede took place among the convicts, but Superintendent McConnell and his assistants soon succeeded in quieting them down. Fortunately only about 125 convicts were inside the walls. The other 450 were taken to Sunnyside plantation some days ago. At the insane asylum was found the greatest wreck. The roofs of the main buildings were completely demolished and several wards caved in, completely destroying everything inside. The male ward is a total wreck. Several insane patients made their escape, but were recaptured. Two men violently insane were captured near the union depot shortly after midnight. It is not known how many inmates are killed or injured, as many are supposed to be buried in the ruins. Confusion is too great there to learn anything at present. It is impossible to give the list of killed and wounded.

Hurricane Off New England.

BOSTON, Mass., Oct. 1.—The coast of southern New England was visited by a fierce gale yesterday, which caused an unusually high tide, but which, having been anticipated for several days, did only slight damage to shipping. The hurricane from the south has slowly crept northward until yesterday the storm center was about 150 miles south of Fire island light house. The wind blew forty-five miles an hour off Block island yesterday morning and some rain fell, but the precipitation was light. The harbor is filled with south-bound vessels, which are waiting for the storm center to pass out of their course. No serious disaster has been reported.

Constable Murdered.

TACOMA, Wash., Oct. 2.—The country about Puyallup is greatly excited over the cold-blooded murder of Constable John Frye. Two hundred citizens, fully armed, surrounded the two tramps who committed the murder in the thick woods near McMillin. The fugitives opened fire and Deputy Sheriff Moore was shot through the side and is not expected to live. Every avenue of escape is guarded.

Killed in a Mine.

SCRANTON, Pa., Sept. 29.—Two miners and two laborers were killed in the northwest colliery of Simpson & Watkins Thursday afternoon. Their remains lie beneath a fall of rock. They are Wm. R. Mitchell, who leaves a wife and seven children; John J. Fanning, Andrew Clapkowskey and George Parney, single. Without warning the roof of the gangway fell in.

It Was Not Cocaine.

CHICAGO, Ill., Oct. 2.—The verdict of the coroner's jury yesterday in the inquest on the body of Miss Belle White who died in Dr. Sophia Saunta's facial massage institute, was that the deceased came to her death through functional heart disease, not by the electric sponge or the cocaine used in the wrinkle cure.

Paid the Prizes.

HOUSTON, Tex., Sept. 28.—Houston has finally redeemed her pledge in paying the prizes awarded the exhibitors at the recent meeting of the state horticulturalists held in this city. Checks were sent out yesterday morning paying all the obligations in full.

Whitecap Hanging.

LOUISVILLE, Ky., Oct. 2.—A special from Marion, Ky., says: News was received here yesterday of a terrible crime committed by a mob of whitecaps in the northern part of this county early in the morning. Berry Rice, a farmer, was taken from his house and deliberately hanged. The cause of the crime is said to have been that several barns and houses have been fired in that vicinity and that hogs, horses and cows have been stolen. William Goode and Berry Rich have been suspected as the guilty parties. Goode has left the community. Mrs. Rich, the wife of the mob's victim, says the mob came to her home about 4 o'clock yesterday morning. Some one called for Rich, telling him that Goode was up the road waiting for him. Rich dressed and went with the men and did not return. After daylight the family commenced the search and found his body hanging from a tree in the woods. No one knows who constituted the mob.

An Irate Husband.

CHICAGO, Ill., Sept. 29.—Samuel G. Hubbard, a lawyer, whose home is in Dorchester, Mass., shot and wounded his wife and her companion, Frank Gorsuch, Wednesday night. Hubbard is 59 years old, while his wife is but 32. They separated and Mrs. Hubbard went to live with her father on Evanston avenue. Gorsuch, who is 19 years of age, is said to have been paying Mrs. Hubbard considerable attention of late, much to the disapproval of Mr. Hubbard, who was intently endeavoring to bring about a reconciliation with his wife. meeting Frank Gorsuch walking with his wife, and stopping them at the corner of Evanston avenue and Addison streets, entered into conversation with his wife. What was said is not known, but suddenly two shots rang out, a woman's scream was heard and Mrs. Hubbard and Gorsuch were lying on the pavement, each pierced by a bullet. Hubbard, who made no effort to escape, was put under arrest while ambulances were summoned and Gorsuch was taken to the hospital, while Mrs. Hubbard was taken to the home of her father, 568 Evanston avenue. It is thought both will recover. Hubbard refused to make a statement when seen at the station. All that Gorsuch would say was that he was escorting Mrs. Hubbard from the home of her sister to the home of her father when they were met by her husband and the shooting took place. As to the cause for it he was non-committal. A friend of both parties said the trouble grew out of the domestic relations of Mr. and Mrs. Hubbard. Her refusal to live with him longer had worked upon his mind until he lost control of himself and had fired the shots.

A Very Sad Affair.

ST. LOUIS, Mo., Oct. 1.—John Cunningham, sexton of St. Peter's Episcopal church, and S. F. Beckell, the organist, are dying, both from the administration of some violent poison in a lunch of which both partook in the church. There is no clew to the perpetrator of the murder, as it is believed to be, nor is there any explanation of the mystery. Beckwell was in the church to practice upon the organ for the Sabbath service and according to the fragmentary story told by him, he and Cunningham partook of a lunch which the latter procured, just how or where is not yet known. George Thompson, colored, ex-sexton of the church, removed to make place for Cunningham, is under arrest, but the evidence to connect him with the the affair is very slight. Singularly enough yesterday was to have been Beckwell's last service, he having resigned.

Five Killed.

WOODSTOCK, Ill., Oct. 1.—At 8:30 o'clock yesterday morning a freight train bound for Chicago was wrecked on the Chicago and Northwestern railway at Grover's crossing, about a mile west of this city. When the wrecking crew reached the spot the voice of a man was heard calling for help. His hand protruded from beneath the debris. This wrecked car was loaded with green planks and the lumber was removed as rapidly as possible, the result being the discovery of two dead bodies, one man badly injured and a boy seriously bruised and shaken up. The dead are: Bert Little, Freeport, Ill.; Tyler Davis, Mount Morris; unknown boy, Lincoln, Neb.; unknown boy, residence unknown; unknown man, said to be known as "Milwaukee Eddie." Two other persons were seriously injured.

A Drunk Husband.

ST. LOUIS, Mo., Sept. 28.—John Schneider, a laborer, came home in an intoxicated condition late Wednesday night and, finding his wife had not kept supper for him, he picked up a lighted lamp and threw it at her. It broke in pieces on her head and the oil that drenched the unfortunate woman's head and shoulders took fire, burning her in a horrible manner. Mrs. Schneider died yesterday morning at the city hospital, where she had been taken. The husband was also burned about the face and hands, but not fatally.

The Chinese Are Mad.

SHANGHAI, Oct. 2.—Dispatches received here from Tien Tsin says private advices have reached the latter city from Pekin warning foreigners not to go to the capital. The roads and waterways from Ung Chow to Pekin are alive with soldiers, who are hostile to Europeans. Several British residents at Pekin have been assaulted, including Mr. Tours, interpreter of the British legation, and others who were journeying south.

Killed a Prisoner.

ANTONITO, Col., Sept. 29.—Geronimo Valdese, a liquor dealer, arrested by Sheriff Garcia for creating a disturbance, was shot and killed by the latter, whom he attacked in the jail in an attempt to escape. Garcia has been exonerated.

AN OFFICIAL SURVEY

BEING MADE OF THE BEACH AT GALVESTON.

A Man Killed by a Freight Train in Upshur County—Bound Over on a Charge of Slander—Killing in Calhoun County About a Line of Fence.

GALVESTON, Tex., Oct. 3.—A party has been organized by Major A. M. Miller, corps of engineers, who has charge of the government improvement works at Galveston, to make a survey of the beach at the east end of the island. The party will under the immediate supervision of Civil Engineer E. M. Hartick, who is also assistant engineer to Major Miller. The survey was provided an appropriation for the purpose of the survey which is to determine the extent of the erosion caused by the construction of the jetties. The force is now at work on the beach and will also be pushed on the water as soon as the weather permits. It connot be estimated how much time will be required to do the work, as the water work will have to be done while the gulf is calm and smooth. From this survey will be determined the amount of erosion up to date and a project will be based on the result to counteract the effect so far produced and prevent further encroachment.

Killed by a Train.

RODGERS, Tex., Oct. 1.—At an early hour yesterday morning the dead body of N. Chapman, a farmer who lives near the Santa Fe railroad crossing, was found. The skull was crushed and the body otherwise badly mangled. The buggy was demolished and he must have met his death by being struck by an engine in attempting to cross the track. He was a victim of a former railroad accident, in which he sustained the loss of a leg, and for which he obtained a judgment for $9000.

Just 150 Years Old.

SAN ANTONIO, Tex., Sept. 29.—A Mexican named Francisco Rodriguez died at Ingram, Keer county, yesterday. His intimate friends and family assert most positively that he was 150 years old. He has been married five times, the first ceremony being performed 109 years age. He had three grown sons in the war of 1812. Two of his daughters were with him when he died, and they are almost 100 years old. They have a record of the dates of all their father's marriages.

A Calhoun County Killing.

PORT LAVACCA, Tex., Oct. 3.—In a difficulty yesterday morning between L. J. Foster, an old and wealthy cattleman of this county, and J. R. Sims, foreman of an adjoining ranch, Foster was shot and killed by some one in his pasture. Trouble has existed for some time over a dividing line fence, and an attempt to remove the same caused the shooting.

Accidentally Shot.

FLORESVILLE, Tex., Oct. 1.—Young Peter Lorenz was accidentally and fatally shot Saturday evening at Lorenz, seven miles west of Stockdale. He went to shake up some blankets on a bed, not knowing there was a pistol in the blankets. The pistol was a 44-caliber. The ball entered the groin on the right side and came out of his side on the left.

Killed by a Train.

BIG SANDY, Tex., Oct. 3.—An unknown man was knocked off the track and instantly killed by a Texas and Pacific freight train going east yesterday evening about four miles east of this place. A coroner's inquest developed the fact that the act was intentional on his part. He was a foreigner, a tinner by trade, and came from Longview.

Train Robbery Fiasco.

GALVESTON, Tex., Sept. 28.—The additional particulars of the attempted hold-up of the Santa Fe train south of Temple on Wednesday morning have been received at the general offices here. Efforts are being made to locate the robbers, but so far the officers say they have secured no satisfactory clew to lead them to hope for an early capture.

Supreme Court.

AUSTIN, Tex., Oct. 2.—The supreme court met yesterday morning, with Associate Justices Brown and Denman present. Chief Justice Gaines is expected to be present at the next sitting. There are twenty cases and fifty applications for writs of error on the docket. No orders were made.

A Charge of Slander.

TERRELL, Tex., Oct. 3.—C. P. Kearney filed a complaint yesterday against Bird Cork, about 18 years of age, charging him with slandering his daughter, Mrs. Anna Segar. Cork was arraigned before the mayor's court yesterday and bound over to the county court in the sum of $500.

Fatal Boiler Explosion.

CALVERT, Tex., Sept. 29.—The boiler attached to the gin of Harrison Wilder exploded. A negro was allowed to drain the water off and in pumping in a cold stream the boiler exploded, instantly killing the owner and fatally wounding two negro boys.

Cotton Gin Victim.

KEMP, Tex., Sept. 27.—A man by the name of Woods, lately from Colin county, had his hand sawed and mangled in a gin at Tolora on Monday. Amputation above the wrist was necessary.

A Dallas Killing.

DALLAS, Tex., Oct. 2.—In front of his barroom, 307 Juliette street, in Stringtown, last night about 11 o'clock, Bernard Flannery was shot and almost instantly killed by Dennis Derritt, a negro. After the shooting, Derritt waited till an officer arrived and was then taken to the county jail. The shotgun with which the killing was done was in his hand when he was arrested, and it is now in the possession of the authorities. Immediately upon his arrival at the jail the negro was seen, and this is his story: "I was going home from the shop. I had intended to go hunting and had carried my gun to the shop, so I took it along with me home. There was a big ball going on in Stringtown and I stopped in to see how the thing was going on. A boy I knew left the hall and went down the street to the saloon. I followed him with my gun in my hand. When he went into the saloon I set my gun against the outside of the building and followed him. There were two white men in the saloon. The boy bought a bottle of beer and I asked him to give me a drink. The barkeeper called me a ——————— and said he did not allow anybody to beg drinks in there. I told him I knew the boy and was not begging. He cursed me and abused me and I started out of the door. Just before I got to the door he followed me up and hit me over the head with his fist. I told him I had not done anything, and he ought not to treat me that way. He drew a six-shooter and I dodged around the corner of the house and ran. The man was close behind me with the pistol in his hand. When I got in front of the saloon he was gaining on me and was so close to me that I could reach out and catch him. Then he laid the six-shooter right in my face and it snapped. Just as he was pulling down again I thought of my shotgun leaning against the wall, and I picked it up and shot him. Then I stood still and waited for the police to come, and when they did come I gave up. I don't know the man's name, and God knows I had no idea of getting into any such a scrape. I am sorry I ever stopped at that dance. I am a barber by trade and my shop is on Pearl street between Elm and Pacific avenue. I have been in Dallas for years and never got in any trouble before."

They Died Game.

PARIS, Tex., Sept. 29.—Tom Moore and Eugene Fulks paid the penalty of their crimes upon the gallows yesterday afternoon. They died game. Perhaps men never met death so bravely as they. Both had been nervy all along and both were game to the last. Both were convicted of murder in the Indian Territory. Being led to the scaffold they were asked if they had anything to say. Moore's voice was inaudible to those below. He told Marshal Williams that he could tell him many things, but it would do no good. After thanking the marshal and attendants he asked that he be given a decent burial. Fulks spoke clearly and distinctly. He said: "I was jobbed into this. Misstatements were made and I die for them." Turning to Moore, he said: "Tom, old boy, I don't know what country we are going to meet in next, but if we get separated you'll know my tracks; I'll be barefoot." While the noose was being adjusted he looked up at a window of the jail and, seeing a former fellow-prisoner, exclaimed: "Good-bye, Charlie. By God, it's tough to die this way, but I reckon its fair." After the black cap was on and the knot adjusted, he remarked to Deputy Oglesby: "This damned thing is choking me; don't let it do that till I drop." They were placed in position and the trap sprung by Deputy Marshal Oglesby at 2:05 p. m. At 2:19½ they were pronounced dead. Four minutes later they were cut down. Both their necks were broken by the fall.

Kicked to Death.

CEDAR BAYOU, Tex., Oct. 1.—Saturday George Baker and his father were hauling wood, and in so doing they had to cross the bayou in this, Harris, county, in a flatboat with their team. In attempting to cross alone young Baker's team became fractious and attempted to get out of the boat before it was landed. It is supposed that one of the horses kicked him while he was trying to unhitch the traces, or festening the flatboat. At any rate, when the father arrived at the place a few minutes later, he was found lying on the bank of the bayou dead. The only visible mark on the body was a bruise on the chin, and it is thought that the blow dislocated his neck, and death must have been instantaneous. He was buried in the Masonic cemetery, whither he was followed by hundreds of friends.

State University.

GALVESTON, Tex., Oct. 1.—The commercial department of the state university opened its fourth session to-day. Prof. Thomason delivered the introductory lecture. The indications are that the college will meet with great success this session, as already a large number of students have passed their examination for matriculation. Among them are two ladies, the first to enter the medical college here.

Missing Boys.

BONHAM, Tex., Sept. 28.—The mothers of Barney Dalton, aged 8 years, and Collie Hawkins, aged 11 years, who left the Buckner Orphans' Home near Dallas on the 18th of July, would be gratified to hear from them. Mrs. Dalton lives at Gainesville.

Arm Broken.

COLLINSVILLE, Tex., Oct. 1.—Abe Cox, a prominent farmer of Cooke county, while loading some cotton at a gin had a bale to fall upon him, breaking his left arm just above the wrist.

BLESSINGS OF TARIFF

THE FREE LIST OF THE BILL JUST PASSED.

Horns, Ashes, Bladders, Dried Blood, Bones, Musk, Nux Vomica, Opium, Diamonds, Pearls, Bird Eggs, Furs, Snails and Joss Sticks.

The following is an extract from a Washington letter to the Southern Mercury, and you should read it and learn how the tariff bill throws great chunks of prosperity into the back yards of the people:

I notice by glancing over this tariff or revenue law that acorns are admitted free. This will help out the farmers of Texas. The price of acorns will certainly come down so that every family in the country can have acorns three times a day, including Sunday.

It will also be noticed that ashes are admitted free. Now this is glad tidings for every family where the children have been crying for ashes.

A very necessary article in every family are bladders. Bladders are relieved from taxation. Every one can get all the bladders required now without paying any duty on them. This will enable the farmers to harvest all the wind necessary to last them throughout the year at a very small outlay. Democratic politicians should make a note of this.

Dried blood is also added to the free list. If anyone wants foreign blood to put in his veins he can get it now at a nominal cost.

Bones are also free. There is no tariff on bones. Any person or persons who use bones, and they are a necessity in every family, can get them free of duty.

Musk is also free. Every farmer in Texas can keep himself perfumed with musk with very little expense hereafter.

Nux vomica is also on the free list. This enables the people to throw up what they do not wish to retain on their stomachs at a very limited cost.

Opium is also free. Our Chinese residents can hit the pipe now, and any one who desires can form "the habit" and not be required to pay the government for the privilege.

Diamonds and pearls are also on the free list. These two articles were admitted free for the special benefit of the farmers. The "hayseeds" can procure diamonds for their shirt fronts now without paying a tariff tax. No doubt but that the farmers of Texas will take advantage of this to lay in a supply of diamonds and pearls.

Bird eggs are also free. What a blessing this will prove to the laboring man and farmer. The farmer with a mortgage on his land can now procure a "settin" of foreign bird eggs at rates that will justify him in engaging in the profitable business of producing birds.

Furs are also free. No longer need the farmer's wife go through the winter without a sealskin cloak. Only just think of Nancy Jane taking an airing in the jolt wagon over to the log meetin' house, tricked out in a sealskin cloak. Oh, my!

Joss sticks are also free of duty in this bill. This will enable the Chinese to get all the imported joss sticks they need.

Old junk is clear of duty. This country has been suffering for old junk for a long time.

Salt is free. Salt has been so cheap anyway that no one was so poor as to kick about the price of salt, but English salt producers wanted it free, so it is provided for. This cuts the salary of our laborers down to that of pauper salt workers of England, as salt is brought here as ballast, and, therefore, free of transportation.

Turtles are admitted free. Everybody can have turtle soup from this date free of tax. As the most of the farmers and laboring men are in the soup by legislative enactments, this will enable them to get into turtle soup.

Wool is on the free list. This will cut down the price of wool and further reduce the profits of the farmers and stockraisers.

Snails are placed on the free list. Taxing snails has been a burden on the people for years. The Democratic congress comes to the front and displays its love for the masses by giving them free snails. This justifies the endorsement of the whole party.

Leeches come in free. As we have a well assorted supply of leeches already, native and to the manor born, we can't say much in favor of leeches.

Fish bait is also on the free list. This was done as a special compliment to Grover. He has been fishing with ordinary American bait long enough. He demands imported bait. American bait is unsound. Grover must have English gold standard bait; hence fish bait goes free.

The few articles given above as being admitted to this country free of duty are sufficient to show that the late congress was devoted to the interest of the farmer and the laboring people.

The reader is reminded that the poor man's sugar was transferred to the dutiable list.

This is the bill of which Hon. D. B. Culberson in his Sulphur Springs speech said:

"I say that our new tariff bill is the very best bill that has been passed in forty years. It is better than the Mills bill, and better by long odds than the McKinley law. It has not had a parallel since 1857."

No. colonel, no parallel for fraud, pretense and humbug.

A Suit to Make Votes.

A Dallas News reporter at Bonham, Fannin county, noting the stir about the alleged cotton seed trust, dropped into the office of Judge W. A. Bramlette a few days ago and queried him relative to the suits filed at Waco by Attorney General Culberson to break up the alleged cotton seed trust. The attorney, in answer to questions, referred the reporter to article 2876 of our statutes, which says: "No writ of injunction shall be granted unless the applicant therefor shall present his petition to the judge, verified by his affidavit taken before some officer authorized to administer oaths, and containing a plain and intelligible statement of the grounds for such relief." And also to article 2881, which provides that "if the state be complainant in any petition for injunction, no bond shall be required.

Judge Bramlette said: "Now, while the state is exempt from giving the bond, it is not exempt from making oath to its petition before a writ of injunction shall issue. To protect parties against false and reckless allegations in an injunction suit, the law has wisely provided that the petition must be sworn to before any writ shall issue.

"In the suits filed at Waco no oath appears to the copy of the petition served upon the defendants here," continued Mr. Bramlette, who is an attorney for one of the oil mills of this county, "and it is hardly possible that the attorney general or any of his assistants would have been willing to comply with the statutory requirement of making oath to this petition and facts alleged in it.

"This wholesale issuance of writs by the court at Waco, enjoining corporations and persons all over Texas, and seeking to annul the charters of the state's greatest manufacturing enterprises, upon an unsworn petition filed by the attorney general is rather reckless litigation it seems to me. The case is set for trial November 5, the day before the election."

It will be noted that the cases are set for November 5, day before the election. Why not sooner? If C. A. Culberson did not know that oath had to be made to the petition, he is unfit to be governor. If he did and refused to make it there is nothing in the case; the suit is simply brought for campaign purposes, a piece of costly demagoguery.

What Owsley Says.

Hon. Alvin C. Owsley of Denton, was in Dallas a few days ago, says the News. He was a member of the committee on platform of the last Democratic state convention and signed the minority 16 to 1 report. To a party of friends he was talking about the proceedings in the subcommittee, when the quest on of endorsing Gov. Hogg's administration came up. He said: "Judge Clark said he would go into an anteroom while the endorsing was being done. Jonathan Lane made a speech against any endorsement of Hogg. Judge Storey said something, and then Col. Giddings looked up and said in a queer way: 'As for me, gentlemen, I am in favor of endorsing the administration without recourse.' Being a lawyer, I nearly broke a rib with laughter."

And George could not "stomic" Hogg, so he withdrew. And Giddings the old hypocrite.

Poor Chilton.

GALVESTON, Tex., Sept. 17.—Hon. John Lovejoy, who was in Tyler a few days ago, said to-day to a News man that while there he had a conversation with Horace Chilton relative to where that gentleman stands on the silver question. "Mr. Chilton told me," said Mr. Lovejoy, "that while he had been an advocate of the free and unlimited coinage of silver at the ratio of 16 to 1 he was now prepared to stand squarely and flat-footed on the state Democratic platform adopted at Dallas. So you see Mr. Chilton has come around all right." * * *

Oh, yes, he has come "around all right" just like Hogg, Reagan, George Pendleton, Charley Culberson, Crain and all the rest of the tax-eaters, by stifling principle. Anyone who does not favor the coinage of silver at the American ratio of 16 to 1 is no friend of silver coinage.

What Do You Think of It?

Here is what Attorney General Olney says about organized labor:

"I'll break up every labor union in this country before I am through. I intend to make every strike the basis for locking up and putting in stripes every man who counsels or is in any way connected with such conduct before it is begun."

Of course he is instructed by Cleveland. The Texas Democrats indorsed Cleveland's actions, bond issue and all, and the Democratic candidates are on top of the platform. Down 'em boys, down 'em.

Culberson's Appointments.

In a dispatch to the Dallas News, from Golfad under date of Sept. 29, the following occurs:

"Attorney General Culberson returned to Beeville to-night and will go to San Antonio in the morning, where he will remain until Monday morning, when he will go to Kansas City to fill his next appointment."

We suppose Kansas City, Mo., is meant, as there is no such town or city in Texas. Wonder if Charlie really thinks that the people of Missouri can vote for him for governor?

Yes, Tell It.

Why don't the Democratic speakers tell us about that little bill introduced by Mr. Livingston of Georgia, that provided for issuing $400 per capita? That beat the Pops.—Corsicana Truth.

Yes, why don't they tell it? The Democratic speakers are yelping about the bills the People's party representatives introduced, saying that they aggregate $36,027,870,000, but they don't tell you that their man Livingston of Georgia, introduced one bill calling for the issue of $26,800,000,000 of paper currency.

NEBRASKA NEXT.

DEMOCRATIC PRAYER.

NO. XIII.

Our most adorable political father whose body is occasionally in Washington, and whose heart is always in Wall street; whose name we love and split our throats cheering whenever thy silver tongued servants mention it; whose word is law and whose frown means no pie; whose avordupois weight is 300 but whose political weight is more than that of all thy party; again we bow before thee to acknowledge ourselves indebted to thee for additional humiliation. We come before thee, oh most worshipful Grover, acknowledging our own weakness. We haven't got sense enough to lead a goose to water. But a short time ago we were yelling for free silver, free sugar, free coal, free iron or a free fight. When thou didst knock silver out we cursed thy name. We declared that thou wast not a democrat. We said thou wast a traitor and a rascal. Then when the senate put sugar, coal and iron on the protected list we swored a mighty swear. We behold the glory of the democratic party has gone glimmering. But, most adorable Grover, we sinned against thee. We cover ourself in sackcloth and ashes; it it about all we have left to cover ourselves with. We beg thy Majesty's pardon. We don't know enough to set a goose on a hillside. Kick us for our ignorance. Kick us for our presumption. Kick us for daring to speak evil of thee

Kick us for thinking at all. Kick us for not having any sense.

Kick us for having an opinion of our own.

Kick us to thy heart's content. The more thou kickest us the more we will love thee.

The more thou thumpest us on the head the more we will sing thy praises.

Hast not the Missouri democrats commended thy "patriotism, integrity, ability and courage?"

Have not the Alabama democrats sang thy praises?

Have not the Georgia democrats done likewise?

Have not the Arkansas democrats knelt at the stool of repentence?

Yes, Grover, thou art all right. We are dad bummed fools for not finding it out sooner. Chuck our heads in the mud of thy displeasure.

Sand bag us with thy wrath. Sit down on us with thy greatness.

But let us worship at thy shrine. We don't want any free silver. We don't want any free sugar. We don't want any free coal. We don't want anything free but the whisky we get during the campaign.

We want to protect everything that thou commandest us to.

We sinned when we cussed the republicans for demonetizing silver.

We sinned when we told them protection was a fraud and unconstitutional.

We now want to apologize to them through thee

The republicans have always been right in everything except wanting the offices. On this alone do we differ from them.

But, oh, almighty Cleveland, thy servants which are our bosses have made us lie. They put the words in our mouths. They told us to yell for free silver, and we yelled.

They told us to yell for free sugar, and we yelled.

They told us to yell for free raw material, and we yelled.

They told us to yell against thee, and we yelled.

Now they tell us to yell for thee and we stand on our tip toes and yell.

And why not?

We are machines.

We are political jumping jacks.

We couldn't tell for the life of us what kind of a democrat we are going to be to-morrow, for we don't know which string the bosses will pull.

But we know that we will be a democrat. It is easy to be a democrat. There are so many different kinds. But, most adorable Grover we are sorely pressed by the Populists. They hem us in on every side. They punch us with Jeffersonian doctrines.

They knock us on the head with Jacksonian clubs.

They thrust Calhoun sticks into our flesh.

They put Thomas Benton flies into our political butermilk.

They lariat us with "time honored principles."

They beat us into a jelly with Washington's farewell address and Jackson's messages.

They cover us all over with the democratic record in congress and rub it in on us.

They finish up by piling on top of us a mountain of broken promises of the democratic party and leave us struggling beneath the burden.

Oh, most worshipful master, thou who canst make congress tremble in its boots and stamp platforms into the earth, canst thou not do some hing to save us from these pesky Populists? Surely they are becoming as sands upon the sea shore for numbers. Oh, why didst thou not kill Coxey and use him for fish bait?

Verily he is a Populist breeder. Save us, oh save us from the Populists, and thine shall be the glory, forever —Amen.

WAITE'S HEAD LEVEL.

The Governor of Colorado Is Down On Fusion.

DENVER, Colo.—Gov. Waite has written an open letter to the Populist party of Colorado, in which he strongly opposes fusion with the democrats. In conclusion he says: "I have endeavored to the best of my ability to run the affairs of the state in the interest of the miners and the laboring men, and so far as I could have stepped upon the aristocratic thieves and robbers who have stolen the state poor in previous administrations, and even defrauded the school children of the state of nearly $500,000.

"If we can not after two years, and after carrying the state, succeed again on our platform and with our own men, and without looking for support outside the party organization, then the People's party is premature and the American people are not yet ready for reform."

Waite some day will be honored as he deserves to be. A short time ago he declined an offer by the gamblers of Denver to put $30,000 into the Populist campaign fund if he would let them resume business. That's the kind of a governor to have, even if the plutocrats lie about him.—The Advance.

Over-Production — Another Falsehood.

We have been told that the low price of wheat was not due to the demonetization of silver, but to overproduction That is, we had raised too much food, while several millions of hungry stomachs in this country, and many more across the Atlantic, were clamoring for something to eat, and had not the work to procure the money to buy it. But we have not raised too much. Read the following table:

"The following table gives the receipts of wheat at the four principal spring wheat markets from the beginning of the crop year, Aug. 1, 1893, to date, and for the same time a year ago:

	This Crop. Bu.	Last Crop. Bu.
Minneapolis	48,874,223	64,242,727
Milwaukee	16,164,670	14,732,039
Duluth	27,777,926	37,716,284
Chicago	19,708,103	58,248,814
Total	110,519,952	175,939,344

The following table gives the receipts of wheat at the four principal winter wheat markets from the beginning of the crop movement, July 1, 1893, to date, and for the same time a year ago:

	This Crop. Bu.	Last Crop Bu.
Toledo	418,623	185,591
St. Louis	1,123,717	709,000
Detroit	119,107	148,003
Kansas City	154,000	112,800
Total	1,901,447	1,166,94

From this it appears that, while the population of the United States is greater in 1893-1894, than in 1892-1893, and therefore the wheat crop should be so much greater, it really fell off, so that the spring wheat crop of 1893-1894 fell 69,000,000 bushels below that of the previous year, while the winter wheat crop fell off 151,947 bushels in the same time, or a total shrinkage of 69,731,319 bushels. And the crop of 1894 will be still smaller than that of 1893. The falling off from 1892 to 1893 was equal to our whole average exportation of wheat from the United States. I. D.

How Panics Are Made.

Chauncey M. D pew once said: Fifty men in these United States have it in their power by reason of the wealth which they control, to come together within twenty-four hours and arrive at an understanding by which every wheel of trade and commerce may be stopped from revolving, every avenue of trade blocked and every electric key struck dumb. Those fifty men can paralyze the whole country, for they can control the circulation of the currency, and create panic whenever they will.

In May the Supreme court of the United States decided that it was unconstitutional for a state to fix freight and passenger rates on railroads. Thus the states have chartered railroads who are now the masters of the people by Supreme court decision. Now is the time for the government to build new railroads, thus giving work to the people, and at the same time emancipating them from the tyranny and extortion of the railroads.

WHAT has become of the time-honored principles of the democratic party? They have not been heard of since 1860.

LARGEST COUNTY CIRCULATION

Office, Ground floor Traweek Building

FRIDAY, OCTOBER 5, 1894.

OUR TICKET.

For Governor,
T. L. NUGENT,
of Tarrant County.

For Lieutenant Governor,
MARION MARTIN,
of Navarro County.

For Attorney General,
R. V. BELL,
of Cooke County.

For State Treasurer,
GEN. H. E. McCULLOUGH,
of Guadaloupe County.

For Comptroller,
E. O. MEITZEN,
of Lavaca County.

For Land Commissioner,
S. C. GRANBERRY,
of Travis County.

For Supt. Public Instruction,
E. P. ALSBURY,
of Harris County.

For Judge Crim. Court of Appeals,
E. L. DOHONEY,
of Lamar County.

For Chief Justice Supreme Court,
THOS. J. RUSSEL,
of Jefferson County.

Cyclone Davis is doing grand work for the populists in Kansas.

Talk is cheap but it takes an intel ligent ballot to right the wrongs of monopolistic oppression.

There were twenty-seven new Populist papers started during August. Pretty good showing for a "dead" party.

In Cass county, Michigan, the democrats have endorsed the populist nominee for representative, M. U. B. Dunning.

If you are not satisfied with the present condition of governmental affairs vote to make them better. Your vote is more effective than your curbstone oratory.

We desire to express our appreciation of the efforts of those who are laboring for the PROGRESS, and the many words of commendation coming to us from various points.

When you hear a democrat howling about the populist bills introduced in congress, just refer him to those of his own party and it will knock him clean out of the box the first clatter.

In Nebraska all parties concede the election of Hon. Silas A. Holcomb, Populist nominee for governor. The leading republican paper of the state is openly fighting the regular nominee of that party.

How is the PROGRESS in your neighborhood? Have you told your neighbors about it? No doubt many would subscribe for it if you would ask then. Just try it and see how easy it is to get up a club. Only 10 cents until after election.

There was to have been a big meeting of Ohio republican editors at the republican state headquarters at Columbus, but not a single editor appeared. This does not indicate that the republicans in the land of McKinleyism are overflowing with enthusiasm.

In conversation with an old time democrat recently regarding his present political position, he replied "I have voted the democratic ticket for over thirty years, in fact I never voted any other, but I got so badly fooled the last time that I don't think I shall ever vote it again."

The refrain comes in from all quarters, "them's my sentiments partner, shake."

A prominent democrat from Galveston, in our city the other day, speaking of Mr. Jenkins said "I heard him in our city reply to W. Q. Gresham, and although a democrat I must admit that he completely worsted Mr. Gresham at every turn and were I in his district should certainly vote for him."

This is the impression Mr. Jenkins is making upon the people wherever he appears.

JUST READ THE FIGURES

DEMOCRATIC AND REPUBLICAN HYPOCRACY SHOWN UP.

THIRTEEN THOUSAND BILLS INTRODUCED BY THE OLD LAW MAKERS APPROPRIATING THE PEOPLE'S MONEY.

Schemes Prolific With Visions of Plunder.

From The Chicago Express.

In the Congressional Record of June 23rd, 1894, is to be found a speech which claims to have been delivered by J. Wheeler, a democrat, from the 8th Alabam district. The said speech by the privilege granted by the house, was printed in the Record without being delivered at all. In this undelivered speech he undertakes to review the record of the populist congressmen in the most partial and partisan manner. He left nothing undone to ridicule every act and wilfully distort every fact connected with the populist's record; he gathers together bills introduced by populists in the 52nd and 53rd congresses regardless whether they were introduced by request or not and after wilfully or ignorantly perverting the facts, figures that these bills, when all added together, would call for appropriating $35,000,000,000 which he claims would have to be taxed from the people.

If Mr. Wheeler had taken the pains to inform himself, he would have found that these bills introduced by populists did not call for a single dollar of taxation, but on the other hand proposed a plan for relieving the people of the burdens of taxation that have been heaped upon them by democrats and rebublicans, for the last thirty years.

The populist platform demands that our circulating medium shall be increased to $50.00 per capita. The bills introduced were intended to accomplish this object by the free coinage of silver at the ratio of 16 to 1, and the issue of legal tender greenbacks. The passage of one or two of these bills would have accomplished this and at once done away with the necessity for the passage of the other bills.

Lately quite a number of people have written us for the bills introduced by the populist congressmen. Endeavoring to comply with this request, we applied to the clerk of the house document room at the capitol, and he informed us that the files had been exhausted.

They have been taken out by the democratic and republican congressmen to use on the stump in slandering and ridiculing the populist party.

Failing to find any populist bills on file, I concluded to investigate the files of the bills introduced by the two old parties, and behold I found something rich. The $35,000,000,000 which Mr. Wheeler claims for the populist bills is not in it at all. It is not a drop in the bucket when compared with the amount proposed to be appropriated by the thousands of bills introduced by the democrats and republicans.

During the 52nd and 53rd congresses the democrats and republicans introduced something over 26,000 bills. The record shows that more than one-half of these bills called for appropriations. Without knowing what amount any particular bill called for, we selected the numbers of eight bills now on the calender, and then procured these bills from the document rooms of the house and senate. This was impartially done to ascertain the average appropriation called for by the 13,000 or more bills introduced by democrats and republicans, calling for appropriations.

The following figures show the average on H. R. Bills:

No. 2167, by Stone of Ky., dem.	$ 2,936.00
No. 722, by Enloe of Tenn., dem.	13,378.00
No. 1309, by Pendleton of Tex., dem.	4,780.0
No. 7784, by Hooker of Miss. dem.	19,445.00
No. 397, by McGann of Ill. dem.	4,000,000.00
No. 6715, by Crain of Tex., dem.	60,000.00
No. 1172, by Stallings of Ala., dem.	50,000.00
No. 4728, by Hicks of Penn., rep.	100,000.00
Total of eight bills above.	$4,210,539.00
This gives an average of	$526,317.35
Multiply this amount by 13,000, the number of bills calling for appropriations, and we have	$6,842,125,550.00

Every dollar of this enormous amount would have to be taxed from the people.

We then transferred our investigations to the Senate, and we found it richer and richer. April 17, 1894, we find that John M. Palmer, democratic senator from Illinois, introduced Senate pill No. 1917 which provides as follows:

"That the government shall loan to the people at 2 per cent interest three-fourths the value of all the real estate.

That the government shall loan to the people at 2 per cent interest on one-half the market value of all the wheat, corn, oats, rye, barley, hops, rice, cotton, hemp, jute, tobacco, open kettle sugar, and sugar house molasses, or the drippings from sugar, all kinds of nuts, pinders, castor beans, indigo, olive oil, coffee and all kinds of dried fruit.

That the government shall loan to the people of incorporated cities, towns, and villages at 2 per cent interest for sewerage and other sanitary work, $100 per capita for their voting population.

That the government shall loan to the railroad corporations three-fourths of the value of all their property at the rate of 2 per cent interest in order to cheapen railroad transportation etc.

That the government shall offer a reward of $25,000 for the best plan of sewerage and water supply.

That the government shall purchase all the gold and silver in the United States each year.

That the number of justices of the supreme court of the United States shall be increased to thirteen.

That the government shall have all of this money printed at the bureau of printing and engraving at Washington, D. C., and that it shall be fiat money and a legal tender for all debts both public and private."

When the provisions of this bill are all figured out, it shows that the following amounts would have to be printed and loaned to the people:

Three-fourths of real estate (Statis. Abstract)	$29,658,408,240.00
One-half of all farm products (Agl. Report)	854,698,475.00
One hundred dollars per capita to voters of towns and cities	364,713,400.00
Three-fourths value of all railroad property	7,701,726,780.00
For sewerage and water supply plan (Reward)	25,000.00
Gold and silver mined each year	106,697,000.00
Four more justices of the supreme court	40,000.00
Total	$38,685,908,904.00

This is a pretty snug little sum for one democratic bill, but hold on; we find that Nov. 3, 1893, this Senator John M. Palmer of Illinois, introduced Senate bill No. 1152, which proposes that the government shall appropriate $39,000,000 to deepen the channel of the Mississippi and other rivers.

Going a little further we find that Senator Morgan of Alabama, has introduced the Nicaragua Canal bill calling for $100,000,000.

B. F. Livingston of Georgia, introduced H. R. bill No. 8577 calling for an issue of $40.00 per capita annually, which would be $2,800,000,000 or $28,534,000,000 for ten years.

Mr. Miller of Wisconsin, Feb. 14 1893, introduced H. R. bill No. 10948 calling for about $28,000,000,000.

Then comes the Pacific railroad bil which proposes to re-loan these roads at 2 per cent per annum, $120 000,000, the amount they are now owing the government.

Let us now recapitulate and see how the two old parties compare with the populists when it comes to introducing bills.

Thirteen thousand bills introduced by democrats and republicans during the 52nd and 53rd congresses	$6,842,125,550.00
Senate bill No. 1917 by Jno. M. Palmer of Illinois,	38,685,908,904.00
Nicaragua bill by Morgan of Alabama,	100,000,000.00
H. R. bill No. 8577 by Livingston of Georgia,	28,534,000,000.00
H. R. bill No. 10498 by Miller of Wisconsin,	27,466,000,000.00
Pacific railroad bill	129,000,000.00
Total	$101,748,034,454.00

A great many of the bills introduced by the populists were by request, but Mr. Wheeler did not mention this fact. He also included the 52nd and 53rd congresses. Therefore, in order to be placed on equal footing with the democrats and republicans we are compelled to do likewise; that is, include all bills introduced in the 52, and 53, congresses; also to make no distinction between bills introduced by request and those prepared by democrats and republicans themselves. This is the only way we can be placed on equal footing. Some democrats and republicans will say that the bills we object to were introduced by request. Perhaps this is true to some extent, but they ought to remember that they did not make any distinction in the bills prepared by populists and those introduced by request.

In preparing the above statements we have been as conservative as we could and be consistent with the facts. We have guessed at nothing but have relied upon the records of the government for everything.

J. H. TURNER,
Sec. Nat. P. P. Com.

We would again call the attention of the several chairmen of the county to the importance of attending to the request of state chairman Ashby which appeared in our last issue. There remains but a short time for active operations and much important work needs attention. The enemy is actively at work and unless we "get a move on ourselves" we will be found on Nov. 6, with an empty game sack.

Paste those democratic bills published in this issue in your hat for future use and when you find one of Grover's subjects suffering from an acute attack of cramp colic over those terrible populist bills, just administer a dose of his own medicine and it will fetch him every time.

Its Fame Will Live.

STATUE OF THE REPUBLIC
COURT OF HONOR
WORLD'S COLUMBIAN
EXPOSITION.

The World's Columbian Exposition marked the climax of human achievement. It will live in memory of the crowning glory of modern times. No other development of the closing century can compare with it in practical benefit to mankind.

Who that exhibited is not proud of it? Who that failed to exhibit does not regret the omission? The former are the people of to-day. The latter are relics of the past.

No honor so high as that embodied in an award at the fair. Competition was world-wide, the fruits of ripest experience and noblest endeavors were submitted for examination.

Honest tribunals, composed of eminent scientists, examined and passed upon the claims of exhibitors. Their judgement based on inquiry and justice, proves conclusively the value of any article they commend.

Their approval was stamped on

Dr. Price's Cream Baking Powder

It received the highest award at the fair from a jury headed by the Chief Chemist of the U. S. Department of Agriculture. Dr. Price's was officially commended for highest leavening power, purity, keeping qualities and general excellence.

DUBLIN MUSIC CO.,

DEALERS IN

PIANOS, ORGANS, SEWING MACHINES AND ALL KINDS OF MUSICAL INSTRUMENTS.

We want the people of Erath and Comanche Counties to see our mammoth stock of Furniture, Wall Paper, Carpets, Matting and a full line of Undertakers Goods. People need not pay old war prices any more in Dublin for Furniture or Coffins. Neither should they pay old credit prices for such goods, when they can get the worth of their money at our store. We sell for cash, and don't add credit prices to our goods. We handle nothing but the latest styles of Antique Oak and Antique Elm Bed Room Suits. We sell fine Bed Room Suits from $20.00 up to $75.00. We can suit any one's fancy in this beautiful line of goods. We have no competitors when it comes to low prices. We ask all to call and see our goods before buying your Fall bills. We can save you money, and will treat you kindly and appreciate your trade, so don't neglect your own interest as you should save every dollar in all lines of goods you can while your cotton is being sold so low.

WE WILL SELL

Good Bedsteads for $2.25; Chairs 50c to 75c; Wall Paper 7½c to 15c per bolt; good Matting 20c to 50c per yard; good Carpets 35c to 75c per yard; good all excelsior Mattress, cotton top, $2.50; the best Bed Spring $2.00 to $3.50; fine Oak Rockers $2.00 to $4.00; Center Tables $1.50 to $3.00; Dining Tables $2.00 to $10.00; fine Wardrobes $8.00 to $15.00; Kitchen Safes, heavily varnished, wire or glass fronts, $3.50 to $8.00.

WE CARRY THE BEST LINE OF ROCKER CHAIRS AND SIDEBOARDS AT ROCK BOTTOM PRICES.

Window Shades 25c to $1.00; Curtain Poles 50c; fine Antique Oak Dining Chairs $1.25 to $2.00; good Bureaus $7.00 to $11.00; Washstands $1.50 to $5.00; Shavalve Dressers, with French plate glass mirrors, $12.00 to $18.00.

WE ARE PREPARED TO GIVE TWO YEARS TIME ON PIANOS, ORGANS AND SEWING MACHINES.

Good Machines from $30.00 to $50.00. Good Organs from $75.00 to $150.00.

☞ Call and see our goods, and don't forget to inform your friends that should they need a coffin that we will sell them at reasonable prices. Respectfully,

A BIG SCHEME.

Government Railroad from the Atlantic to the Pacific.

William Dallin, vice president of the Atlantic and Pacific Railway construction company, is in the city and will meet a number of the Davenport business men this evening at the rooms of the Business men's association. His scheme is a double track air line railroad from New York to San Francisco. The projectors contemplate making this a government road; a bill is to be introduced in congress next winter to place the enterprise under the supervission of congress and government endorsement of the bonds of the road will be asked. The financial part of the scheme, as outlined by Mr. Dallin, is as follows:

"The line from New York to San Francisco, 2,700 miles will cost $400,000,000. If the road is built by an independent corporation the securities will bear 5 per cent, and are contracted for in Europe at 90 per cent of their face value. With our government's endorsement of the bonds at 3 per cent, for which the syndicate have contracted, we will save not only the 10 per cent of their face value, selling them at par instead of 90 cents, but we shall save annually 2 per cent in interest, making a saving annually of $8,000,000. The interest on the bonds for the first division, from New York to Chicago, being $3,750,000 annually, will be a small sum for our government to guarantee, and will convince the whole nation that the enterprise, from ocean to ocean, will be a complete success."—Davenport, Iowa, Democrat.

The above proposed scheme demands the attention of every laboring man in this country.

The time has come when the great railway building syndicates realize that the demands of the populists for government control of transportation lines is not a wild and vissionary scheme," as hawked about the country by its enemies, but that it is not only feasible but absolutely essential for government endorsement to secure assured success of their enterprises.

Last week we referred to the Nicaragua canal project seeking government aid and now comes this great continental railway deal looking to the same source for the assured success of its pet scheme. These are significant incidents and demand more than a passing notice. The projectors of these enterprises realize the superiority of government endorsement over private corporate credit in the disposal of bonds necessary to the prosecution of their work. They also know that to ask direct government aid would be impracticable by arrousing public antagonism, hence their proposal for government supervission. This is but a strategic play on the part of these corporat representatives to reap a rich harvest from the coffers of Uncle Sam, and should meet with a determined and persistent opposition from the general public.

Every possible means will be resorted to to appease the demands of the people for absolute government ownership, and enable the transportation corporations to hold their present grip on those great franchises. No stronger argument for government ownership could be made and coming from such a source makes it all the more valuable to the advocates of government ownership. This Mr. Dallin admits that if the road is built by a private corporation the securities will bear 5 per cent while with government endorsement they would find ready market at 3 per cent, and instead of bringing only 90 cents on the dollar would bring full value. Thus we have a saving of $40,000,000 on the cost and $8,000,000 annually on interest in favor of government endorsement. If the government can save that vast sum for a private corporation simply by the endorsement of its securities why not build and operate the road in the interest of all the people. That the day is not far distant when this will be done is assured by the trend or public enterprises.

Politics in Business.

Democrats do not contribute to the populist campaign fund and assist in building up populist newspapers by taking your cotton to the Alliance cotton yard. Let the pops run their own machine and shinny on their own side of the fence. The time has come when democrats flatly refuse to pay tribute to such an organized gang of cheap politicians.—[Comanche Chief.

The above illustrates to what extremes party prejudice and political prefferences will carry a man when he allows himself to be dominated by them. That a person should be an earnest advocate and devoted exponent of the doctrines and principles of the political party to which he has sworn allegiance is but to fulflll the duties incumbent upon every true and loyal citizen. But when his desire for the supremacy of his party becomes the dominant element of his nature, the propelling agency of his being to that extent that it infringes upon the legitimate rights of citizenship and totally disregards the established customs of trade and traffic, it is going just a little too far and we should endeavor to ascertain "where we are at."

Democratic Rot.

Many democrats of the ninth congressional district of Iowa are opposed to the endorsement by their party of General Weaver and want to put up a candidate against him. Any democrat who would vote for Weaver should go off and hang himself for very shame. He is not as good as a republican, and when a man reaches this scale of political damnation he might as well throw up the sponge.—[Commanche Chief.

The following from an Iowa papaper gives the facts in the case.

It appears that the little clique of Chase democrats in Gen. Weavers district, with the aid of republican names signed to their petition, will succeed in putting a so-called independent democratic ticket in the field in the interest of the *republican party*. Such a ticket would doubtless secure the votes of a handful of goldbug democrats.

Those traitorous democrats thus try to defeat the fairly and regularly nominated candidate of their party.—[Farmers Tribune.

Wm. O'Briant will do your tin work cheap. Full line of hardware also kept in stock. See him at Fewell & Lewis' old stand, Dublin, Texas. 1t

DIED.

Friday evening, September 28th, Reuben Dean Parker, infant son of Mr. and Mrs. Reuben Porter. Funeral services were held at the family residence in southwest Dublin and the remains were interred in the new cemetery. To the bereaved relatives and friends we extend our sympathies.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For three years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his wife, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are using this valuable remedy."—Mrs. Morgan, 1439 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind. on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

BROKEN DOWN

—by disease is the natural result if you allow your liver to become inactive, your blood impure, and your system run down.

The germs of Consumption, Grip, or Malaria, wait for this time of weakness—this is their opportunity.

If you rouse the liver to activity, so it will throw off these germs, purify the blood so there will be no weak spots; build up *healthy weight* where there is a falling off, you will rest secure from disease, for you'll be *germ-proof*.

Dr. Pierce's Golden Medical Discovery does this as nothing else can. That's the reason it can be *guaranteed*. In convalescence from pneumonia, fevers, or other wasting diseases, it's an appetizing, restorative tonic to build up needed flesh and strength.

For all diseases of the liver or blood if "Discovery" fails to benefit or cure, you have your money back.

No matter how bad your case, Dr. Sage's Remedy will *permanently* cure your Catarrh.

PUBLIC SPEAKING.

EDITOR PROGRESS:—Please publish the following appointments and oblige:

Saturday, Oct. 6, Mocassin Rock, at 8 p. m.

Monday, Oct. 8, Pleasant Hill, at 8 p. m.

Tuesday, October 9, Rush Creek, at 8 p. m.

Wednesday, October 10, Fitzgerald, at 8 p. m.

Thursday, October 11, Little Sundy Creek, 8 p. m.

Friday, October 12, Liberty, at 8 p. m.

Saturday, October 13, Pleasant Ridge, at 8 p. m.

Monday, October 15, Mt. Pisgah, at 8 p. m.

Tuesday, October 16, Halswell, at 8 p. m.

Wednesday, October 17, Bluff Dale, at 8 p. m.

Thursday, October 18, Cedar Point, at 8 p. m.

Friday, October 19, Chalk Mt., at 8 p. m.

Saturday, October 20, Miller's School House, 8 p. m.

Mr. C. George is invited to be present, with whom I will cheerfully divide time.

The ladies are invited to attend.

W. B. WHITACRE.

L. J. Evans was in town Tuesday with a broad smile on his genial countenance, the result of a nice collection for campaign purposes which he forwarded to state chairman Ashby. Mr. Evans is a hustler and if his energy and enthusiasm could be instilled into each precinct there would be a regular land slide for the populists this fall.

The Executive Committee of the Peoples Party of Erath County is hereby called to meet at Stephenville, on Saturday, October 13th, 1894. All People's Party candidates are invited to be present.

W. W. MOORES,
Chrmn. Ex. Com. of P. P.,
Erath Co., Tex.

Hon. J. J. Eager, of Dublin, and Green H. Goodson, of Comanche, met in joint debate at Proctor last Saturday. Mr. Eager annihilated the apostle of Grover, so we learn, it having been admitted even by the few democrats present that Mr. Eager's argument was unanswerable.

Friends of the PROGRESS should not forget to patronize those who are our constant advertisers. By this means you can help us with no cost to yourself.

Wm. O'Briant has placed a new stock of hardware at the Fewell & Lewis old stand. Dont fail to call and see him if you want any thing in that line. He also has a first-class tin shop in connection. It

Experienced Cotton Classer.

I desire a position to class cotton for some Dublin house. Have been seventeen years at the business and can class for any market. Am well acquainted in Gilmore and Spring Creek communities and can give best of references if desired. Addrees J. M. MONTGOMERY,
1t Alexander, Tex.

County Grange Meeting.

Erath county grange will meet in quarterly session next Monday at Comanche.

A Mammoth Kershaw.

A large kershaw now on exhibition at S. S. Davis' drug store was raised on the Leon river a few miles from Dublin, by Corey Peeples. Its weight is 46½ pounds, and it measures 26 inches around the neck and 43 inches around the body.

Tax Collector's Notice.

I will be in Dublin on Thursday and Friday, October 25th and 26th, to collect state and county taxes. Taxpayers will please take notice and try to make it a point to settle while I am in Dublin, in order to save themselves a trip to Stephenville for that purpose.

D. M. RUMPH,
Tax Collector Erath Co.

Items Left from Last Week.

Co. commissioner Brad White went to Stephenville last Saturday in the interest of a road from Dublin to Desdemona. He hopes to soon be able to get it opened up.

Mr. J. A. Wansley, one of Lingleville's prosperous merchants, was in the city yesterday for a few hours.

Death of Jno. Gilbreath.

Further particulars of the death of Jno. Gilbreath are essentially the same as given in our report last week made one hour after the unfortunate accident happened. It appears however that his team did not run away. It is supposed that in attempting to tie on a bale of cotton he lost his balance and fell under the wagon the wheel passing diagonally across his breast breaking his collar bone and causing internal hemorrhage from the effects of which he died in a short time. After recovering from the shock he started after his team and when near Mrs. McCroy's called to her little girl who was picking cotton near the road, for assistance. She summoned her mother at once and upon her arrival found Mr. Gilbreath with his whip in his hand lying on the ground with one leg drawn up under him as though he had sat down and gradually fallen over. There was about 2,000 pounds of cotton on the wagon. The team went up to the Live Oak church and stopped.

Word was dispatched at once for the city recorder to hold an inquest and he left at once in company of Dr. Farmer for the scene of the fearful accident, arriving some three or four hours after death. The verdict of the recorder was that he came to his death from internal hemorrhage caused by the passage of a wagon over his breast. He was buried at 4 o'clock on the next day (Saturday) at the Barbee grave yard, the funeral procession being a very long one. Mr. John Gilbreath was one of our very best citizens, a pioneer of Erath county and an ex-sheriff of the county, having made in his time one of the best, truest and most fearless officers Erath county ever had. He was universally esteemed by every one who knew him. To his bereaved wife, children, relatives and friends the PROGRESS extends its warmest sympathies.

PUBLIC SPEAKING.

Hon. C. H. Jenkins, People's party candidate for congress, will address the people at the following times and places:

Stephenville Monday, October 22, at 1 p. m.

Thurber, Tuesday, October 23, at 8 p. m.

Lingleville, Wednesday, October 24, at 1 p. m.

Dublin, Wednesday, October 24, at 8 p. m.

Hon. C. K. Bell is invited to be present and equal time will be given him. W. W. MOORES,
Co. Chrmn. P. P.

There is no seventy ways about it, you can buy more for one dollar at the One Cent Store than any where else in Texas. 15-2t

Messrs. King and McMillen will hold a joint debate at Union Grove Thursday, Oct. 11, at 7:30 p. m. The committeeman of that district makes an earnest request that the voters in that vicinity turn out and hear the debate.

BROWN CHEMICAL CO., BALTIMORE, MD.

A DEMOCRATIC TRICK.

THEY ARE EXPERTS AT POLITICAL LEGERDAMAIN.

It is the Same Scheme They Played in Alabama and Arkansas—Boasting of the Coinage of Silver now Going on at the Mints.

We invite the attention of our readers to the following piece of Democratic political legerdemain. The clipping is from a little paper in a southwestern county, and we give it, date and all, as we clipped it.

WASHINGTON, Sept. 11.—The Democratic congressional committee had an interesting letter from Texas showing how the Democrats of the Lone Star state meet and overcome the wiles and arguments of their opponents, the Populists. It appears that the Democrats had been considerably embarrassed by the attacks which the Populists had been making on the Democratic record. This is a vital issue in Texas, and the Populists have been losing no opportunity to explain to the people what little regard the Democratic party has for bimetallism. They have reinforced their arguments by calling attention to the fact that there were no silver dollars in circulation in Texas of the date of 1894, and they stated that there had not been any silver dollars coined by the Democratic administration since the repeal of the Sherman act. This kind of warfare worried the Democrats not a little until Mr. William T. Armistead of Jefferson, the chairman of the Democratic county committee, hit upon a plan to circumvent the enemy. He sent $500 to the mint at New Orleans, with the request that that number of silver dollars of the mintage of the present year should be returned to him.

His order was filled and the 500 silver dollars were distributed around among the Democratic leaders of that and adjoining counties, Mr. Armistead of course, being reimbursed for his outlay. Armed with these coins, the Democrats circulated among the Populists and among those who had attended the Populistic meetings and casually requested the exchange of a dollar bill for a silver dollar. This requisite being gladly complied with, the Democrats would suggest that the date of the coin be noted. The effect was instantaneous, and the news spread rapidly that the Democratic administration was still coining silver dollars. The people there are now asking themselves, since the Populists had fooled them on this question, whether they have not also misled them on other matters. The result has been a decided weakening of the Populistic influence and the return of many stragglers to the Democratic fold.

We had given the Democratic leaders credit for more political acumen than they have displayed in letting the above get to the Populists, for it is easy, on e in hand, to circumvent the influence that the exhibition of standard dollars of date 1894 would or might have on the issue.

Let us examine. Come forward, Mr. J. G. Carlisle, and tell us about this new dollar of 1894. In a letter to Congressman Heard he wrote as follows:

Treasury Department, Office of the Secretary, Washington, D. C., Sept. 10—To Hon. John F. Heard, House of Representatives:

DEAR SIR—Referring to our personal interview this morning, I have the honor to say that the mints at New Orleans, Philadelphia and San Francisco are engaged in coining standard silver dollars from bullion purchased under the act of July 14, 1890, commonly known as the Sherman law. During the month of July $430,000 was coined, and during the month of August $728,000. About the same amount of it will be coined during the present month, September, and thereafter such amount will be coined as the secretary may consider advisable under all the circumstances.

The third section of the act of July 14, 1890, provided that the secretary of the treasury should coin each month into standard silver dollars 2,000,000 ounces of the silver bullion purchased under the provisions of that act until the 1st day of July, 1891, and thereafter he should coin of the silver bullion purchased under the provisions of the act as much as might be necessary for the redemption of the treasury notes issued in payment for the bullion, and that any gain or seigniorage arising from such coinage should be accounted for and paid into the treasury. The coinage now going on is done under the authority conferred by this section of the law and the seigniorage derived from it is paid into the public treasury as required by law and used for the ordinary purposes of the government, but the remainder of the coins are held in the treasury in order to provide for the redemption of the treasury notes issued in payment for the bullion.

During the last eleven months 3,970,727 standard silver dollars coined from the bullion purchased under the act of July 14, 1890, have been paid out in the redemption of treasury notes, and the notes so redeemed have been retired and canceled. This process is still going on daily.

Prior to my connection with the department no silver had been paid out for the redemption of such notes and none of such notes had been retired and canceled. Very respectfully yours,

J. G. CARLISLE.

Now notice that he says in the above letter, and repeats it, that the coinage going on is from bullion purchased under the act of July 14, 1890, and that "during the last eleven months 3,970,727 standard silver dollars coined from the bullion purchased under the act of July 14, 1890, have been paid out in the redemption of treasury notes, and the notes so redeemed have been retired and canceled. This process is still going on daily."

This transaction has not increased the circulation one dollar; has given no relief whatever and is neither a satisfaction or answer to the demand of the People's party platform, and the only way Mr. Armistead or his agent could have procured the 500 bright, new dollars of 1894 was for him or his agent to present the proper authority 500 dollars in coin notes issued under the act of July 14, 1890, simply present the coin notes for redemption, which, under the act of July 14, 1890, when so presented by any person, must be redeemed by giving standard silver dollars in exchange. Mr. Carlisle is simply carrying out a Republican-Democratic law. The Democratic thimble-riggers, thaumaturgist and legerdemain performers must come again. The "Populists have fooled nobody," and Populists can't be fooled that way. Hurrah for Nugent and free coinage at 16 to 1.

How Clark Won.

FORT WORTH, Tex., Aug. 2, 1894.—A. C. Kean, Wichita, Tex.—My Dear Sir: You doubtless have realized ere this how very important it is that as many good Democrats as possible attend the convention in the interest of harmony and true Democracy. At the suggestion of a number of friends I have desired to take enough interest in the matter to write to you and other prominent Democrats and ask you not to fail to attend, and that you make it your business to bring as many friends with you as you can. It makes no difference if they are not delegates; their presence and influence will be felt. This is a critical period in the history of the party in this state and will require earnest counsel and unselfish patriotism to preserve the principles of the party and secure complete harmony in the ranks. It is desired that you be at Dallas as early as the 13th, so that we will have an opportunity to consult together and be prepared to act intelligently and in harmony in the premises. Yours very truly,

[Personal.] A. L. MATLOCK.

This is how they won over Reagan, silver and right, and as soon as the platform was adopted Judge Clark telegraphed Cleveland of his indorsement.

Authoritative Utterance.

George Clark, in his late Bastrop speech, thus defines the position of the Democracy on the financial question:

"The discussion of this question now is premature, for any legislation upon this line is impossible before 1898. Mr. Cleveland will remain president until March 4, 1897, and so long as he is president the country need indulge no apprehension that the free and unlimited coinage of silver will be entered upon.

"We stand squarely upon the national Democratic platform of 1892, which, in effect, declares that the free and unlimited coinage of silver is indefinitely postponed. We endorse the action of the convention of 1892 in voting down by an overwhelming majority the proposition of Mr. Patterson to insert the word 'free' before 'coinage' in the platform. We believe the administration of President Cleveland is eminently wise, patriotic and statesmanlike,' and thereby endorse fully his views and actions upon the silver question. We endorse the action of our Democratic congress in 1893 in voting down all propositions for the free and unlimited coinage of silver at any ratio."

Figures Don't Lie.

With Judge Nugent to retain his vote of 1892—108,000—and gain from the farmers and other, who will vote against the Democratic ticket by reason of the endorsement of Cleveland's gold standard ideas, which conservative Democratic papers place at 125,000, he will be the next governor by 15,000 majority and if he beats this gain and commands the 70,000 Republican vote, the possibilities are that he will be governor by 100,000.—Coke County Rustle.

When the old Democratic party sees the above figures you can bet she will tremble in her boots. She had better throw up the sponge.—San Angelo Enterprise.

Kansas Populists.

The Atchison (Kan.) Globe, a Republican paper, says:

"The Populists have not been spending our money. The balance in the state treasury a short time ago was $842,326.23. The total debt of the state is $31,000."

How does the above compare with the common Texas campaign lie, about the Populists having bankrupted Kansas? Try the Populists in Texas once. They can't make things any worse. They will not create million dollar deficiencies.

Indorses Cleveland.

In his Goliad speech C. A. Culberson, when speaking of Cleveland sending troops to Chicago, said:

"As a Democratic citizen of Texas, I accept the platform indorsement of the president in this case."

Now come!

A Protection Party.

The Democratic party has by its own acts denounced free trade and have admitted that this country can not be run without a protective tariff.—Norman (O. T.) Transcript.

Very True.

The single gold standard advocate is a destroyer; he offers nothing to take the place of silver, yet insists upon its demonetization.—Austin Argus.

A Fatal Joke.

Some boys of Mount Clemens, Mich., thought that it would be a good joke to give some of their companions a good scare, and planned with them a raid on an orchard in the vicinity. While some of the jokers were with their victims in the orchard eating fruit, others, personating the owners of the place, rushed in on them and began firing off revolvers. All the shots were fired in the air, but the frightened boys, expecting instant death, fled in terror in every direction. All escaped safely but one, Ferdinand Eichbreck, who in his headlong flight stumbled over a log and into a mill-pond and was drowned. His absence was not discovered till the next day, when his body was recovered from the pond. Proceedings are to be taken against the jokers.

May Be Taken Down.

It seems likely that the Eiffel tower will be taken down. The committee in charge of the competition for the buildings for the Paris exposition of 1900 has just agreed that the architects may discard the tower in their designs.

Big Enterprise.

The Italians have established a waterpower electric plant at Tivoli, and will transmit 2000 horse power eighteen miles across the Campagna to Rome. The streets of Rome will then be lighted with electricity.

Millions for Defence

Against the inroads of that subtle, lurking foe to human health, malaria, had been expended uselessly when Hostetter's Stomach Bitters appeared upon the scene and demonstrated its power as a preventive and curative of the dreaded scourge. When the "gold fever" raged in 1849 in California, malaria was contemporaneous with it at the "diggings," and wrought dreadful havoc among the miners. Then and subsequently on the Isthmus of Panama, and wherever in the tropics malarial disease is most virulent, the Bitters became the recognized safeguard. For the effects of exposure and fatigue, miasma-poisoned air and water, sea sickness and all disorders of the stomach, liver and bowels, the Bitters affords prompt relief. Invalids of all sorts will find it fully adequate to their needs.

It is surprisin the number of affronts people "get over."

Fall Medicine

Is fully as important and as beneficial as Spring Medicine, for at this season there is great danger to health in the varying temperature, cold storms, malarial germs, and the prevalence of fevers and other serious diseases. All these may be avoided if the blood is kept pure, the digestion good, and the bodily health vigorous, by taking Hood's Sarsaparilla.

Hood's Sarsaparilla Cures

"My little boy, fourteen years old, had a terrible scrofula bunch on his neck. A friend of mine said Hood's Sarsaparilla cured his little boy, so I procured a bottle of the medicine and the result has been that the bunch has left his neck. It was so near the throat, that he could not have stood it much longer without relief." Mrs. INA HOOD, 324 Thorndike St., Lowell, Mass.

Hood's Pills are prompt and efficient. 25c.

A Ruddy Glow

on cheek and brow is evidence that the body is getting proper nourishment. When this glow of health is absent assimilation is wrong, and health is letting down.

Scott's Emulsion

taken immediately arrests waste, regardless of the cause. Consumption must yield to treatment that stops waste and builds flesh anew.

Almost as palatable as milk.

Important Questions!

If you could effect a saving of 50 per cent. in the cost of your life insurance and have it placed in one of the Strongest of the Regular Life Insurance Companies, would you not consider the matter?

If you could give your family or estate the protection of $20,000 insurance in a perfect reliable company for the same money you are now paying to secure $10,000, would you not consider the matter?

The Provident Savings Life Insurance Society, of New York,

Supplies what is suggested by the foregoing questions. It furnishes a contract of insurance which, for brevity, conciseness, liberty and cheapness is unexcelled. For further information apply to R. B. PARROTT, General Manager,

MODERN DEMOCRACY.

HAVING A GOOD TIME WHILE THEY CAN.

Some Serious Charges Made by a Republican Paper and Endorsed by a Democratic Journal, Regarding President Cleveland's Deadheadism.

The New York Press, a Republican newspaper, publishes the serious and unpleasant charge that Mr. Cleveland, a Democratic president, continually and habitually permits himself to be indebted to various railroad corporations for free privileges in the way of transportation and provender which would cost a very considerable sum of money were he to pay cash.

For example, it is alleged that whenever the president of the United States purposes to travel by fail from Washington, he applies to the managers of the Pennsylvania railroad who put into commission and dispatch, to the capital the luxurious private car of President Roberts, with a full staff of attendants and a generously furnished larder. The establishment is at Mr. Cleveland's orders as long as he wants to use it. He and his retinue of personal friends are housed and nourished by the railroad company free of all expense to themselves, and the car is hauled free over other and connecting lines, to whatever part of the country the president wishes to visit. This elaborate process of deadheadism is repeated every time Mr. Cleveland travels between Washington and his summer house on the shore of Buzzard's Bay. * * *

If he wants to leave Washington to fish, or to shoot, or to shake off malaria, or to meditate, he seizes a government vessel. If he travels as far as Jersey City by land at the expense of the Pennsylvania railroad, he completes his ourney by water at the expense of the United States treasury. Vessels belonging to the government are ordered hither and thither, solely for his personal convenience. Officers of high rank in the navy are summoned to accommodate and attend him. The full ordinary traveling equipment of the prasident of the United States now consists of a government lighthouse tender, a government derrick, government stores, in we know not what variety, and a captain of the United States navy as a body guard. These facts are known to everybody; they are not denied by anybody; and they constitute an unblushing and outrageous departure from the accepted principles of official propriety.

Whether railroad corporations, as well as the government itself, are the paymasters of Mr. Cleveland's deadheadism we have no means of knowing. Certain it is that his example in the matter of appropriating for selfish and improper purposes the property of the United States is having a widespread and most deplorable influence. Public servants in less exalted offices are asking themselves why they, too, should not benefit by the opportunities. It was only two or three weeks ago that the cutter Fessenden, whose legitimate function is to aid in protecting the government revenues on the lakes, was ordered to Middle Bass to take the solicitor-general of the department of justice and his wife and children upon a summer pleasure cruise. Cases of the kind are continually occurring. On Friday it was announced from Newport that the United States naval vessel Dolphin, the pioneer of the new American navy, with Secretary Herbert and a party of friends on board, had "sailed for West Island, where the secretary will meet Judge Gray and other gentlemen and enjoy a little bass fishing before proceeding further east."

Has the scandal of all this deadhead business become so familiar a fact to the public mind that people are losing the old-fashioned indignation that such performances used to excite? The corrupting example from the White House goes far and fast. The president's salary is $50,000 a year, with perquisites and liberal allowances for household expenses. It would be far better in the future to pay him even $100,000 a year, with rigid stipulations against deadheadism in any form, if the present rate of compensation does not allow him to pay his own way like other citizens of the republic. We do not suggest this for Mr. Cleveland's benefit; there is a constitutional provision which forbids the increase of a president's salary during his term of office. But the precedent which Mr. Cleveland is according his successor is so pernicious, that it may be advisable now to guard against the possible deadheadism of the next term.—New York Sun.

This is not so very much worse than our state officers have been and are doing. Our state officers, draw their salaries regularly, and for months have been and are now riding over the state on free passes, as is believed, making speeches and neglecting the people's business. This cannot be gainsaid; it is a cold fact. They even had their assistants out on passes making speeches in the interest of their superior. Suppose the Democratic ticket should be elected. Does anybody suppose they will favor the people over corporations? If so we beg to inform you that you are deceived.

Correct.

Either be a man or a mouse, a Democrat or a Populist. In view of the platform adopted at Dallas no Texas Democrat worthy of the name can honorably preach free coinage.—Denison Herald.

The Herald is a so-called Democratic paper and is right about it.

He Pulled the Wrong Beard.

Thomas Kerrigan of Jersey City thought he would have some fun with the venerable Rabbi Josephson, and when the gentleman passed quietly along the street he reached out for him and gave his long, white beard a vigorous pull, jerking out a handful of hair. The rabbi gave a cry of pain and Kerrigan's fun came to a sudden termination. A number of citizens, the majority of whom were not Hebrews, saw the dastardly act and made for the offender. He ran away, but was so hotly pursued by the crowd that he took refuge on the roof of a tenement house. This did not serve him and he was soon in the hands of his pursuers, who proposed to pitch him down in the street. Kerrigan wept and begged for his life, and finally his captors decided to hand him over to the officers of the law, and he was taken in the police court and held in $500 to answer for wanton assault.

Caught in His Own Trap.

S. Swanson, a prominent merchant of Chesterton, Ind., has been very much troubled with burglars of late, and to catch them set a spring gun in his store, connected with a fine wire stretched close to the floor near the door. A few weeks ago the trap worked successfully on a burglar, filling his legs with buckshot and leading to his capture. Mr. Swanson was very much elated with the success of his device, and kept it set every night. He is sorry for it now. A few mornings ago he was opening up his place, and as he opened the front door a sudden flash of lightning startled him and he recoiled a step or two. It was far enough to reach the wire, and before he knew it he received the charge of the gun in his own legs. It is thought that he will lose one of them.

Doctored the Melon.

Four young men of Detroit, Mich., played a game of seven-up the other night for a watermelon. Cameron and Indland lost, and went out to make good their loss. They returned with the largest melon they could find. Immediately after eating it Marshall and Hickman were taken violently ill, and a physician worked over them till morning before they were out of danger. Recently the defeated men confessed they dosed the melon with tartar emetic, and Marshal and Hickman begun suit for $200 damages.

Some men would do a great many wonderful things if some little thing was not in the way.

A man who is always full of fun is as great a nuisance as the man who is always full of whisky.

How's This!

We offer $100 reward for any case of catarrh that can not be cured by Hall's Catarrh cure.

That Joyful Feeling

With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old time medicines and the cheap substitutes sometimes offered but never accepted by the well informed.

It must be terrible in this kind of a year to be a duck.

TAKE STEPS

in time, if you are a sufferer from that scourge of humanity known as consumption, and you can be cured. There is the evidence of hundreds of living witnesses to the fact that, in all its early stages, consumption is a curable disease. Not every case, but *a large percentage of cases*, and we believe, *fully 98 per cent.* are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, astnma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their experience.

Want the Gould Millions.

A woman, who has been known for years as Mrs. Sarah Ann Brown, of Rouse's Point, N. Y., has set up the claim that a large share, if not all of the millions left by Jay Gould, belong of right to her daughter, Mrs. B. F. Pierce, the wife of a railroad employe at Rock Springs, Wyo. She, according to the mother's story, is the millionaire's only legitimate child. Mrs. Brown claims to have been married to Gould on May 16, 1863, while he was yet a poor man, and says that he never procured a divorce from her It is said that the marriage certificate is in the hands of Mrs. Brown's lawyer's. She did not live happily with her husband, and they separated in a few months, she returning to her home and assuming her maiden name. She says that she let her husband alone, but that in 1889 she went to see him, and he promised to make provision for her and his daughter, which he failed to do. The daughter claims to have sought an interview with him once, and says that she was put off by somebody that personated him and advised her to go to law. However the matter turns out, it promises to make some trouble for the Goulds.

The great trouble in owning a bicycle is to keep other men off of it.

A real cute woman can abuse a man in telling him she loves him.

Dublin Progress

J. S. DALEY, Publisher.

DUBLIN, - - - - - - TEXAS.

COMPARE Mills'utterances now with those of 1886. A complete sommersault.

JUDGE REAGAN refused to stand on the platform because it was a goldbug declaration.

CULBERSON'S, Hogg's and Reagan's speeches have fallen with a dull, sickening thud.

THE man who objects to corporations rulling the country should abandon the two old parties.

LABOR is the creative power, and without labor nothing was ever made. Therefore all laws should favor labor.

SECURE representation on the election board at each box in your county, or our ticket will be counted out.

THE Populist administration of Kansas has saved the state $1,512,-636.23, in two years. Good enough.

THE first Monday in September is Labor Day. This is well, as the other 364 belong, seemingly, to monopoly.

JUDGE GEORGE CLARK says that the bolters of the Dallas platform can have war, but that he will carry the Democratic flag.

WITH a single gold standard and anti-labor platform how can a Hogg Democrat or a trade unionist vote the Democratic ticket?

HON. THOMAS L. NUGENT is revolutionizing things where he goes. He will be governor by 35,000 majority—with an honest count.

THE Liberals and Tories in England are humbugging the masses there just as the Democratic and Republican leaders are here.

GOV. HOGG says that Judge T. L. Nugent "is a gentleman, a pure man and a scholar." No man can raise his voice against our candidate.

REMEMBER, a vote for the Democratic ticket is a vote for Judge George Clark, the $25,000-a-year railroad attorney for United States senator.

THE Hogg-Clark-Culberson-McDonald-Reagan-Holt war is on. "Let 'em fight, it ain't no skin off of us." But we'll bet on the People's party ticket.

GEORGE WASHINGTON stood first in war, first in peace and first in the hearts of his countrymen, but Roger Q. Mills stand first only in the hearts of the goldbugs.

THE masses of the people in this country have been nibbling at the truth for twenty years, and when the majority agree to swallow it, it will be good-bye monopoly.

THE Democrats and Republicans wanted to appropriate over $101,000,-000,000 in the last two congresses, while the Populists only asked for $35,000,000,000. Compare.

READER, do you believe that a candidate who rides on free passes will favor the people as against the corporations? If you do, you are more credulous than you should be.

HOW CAN the Democrats claim that the pension list has been cut down when the present Democratic congress appropriated $79,000,000 more for pensions than any former congress?

INCREASE our majority and watch the count. The Democrts are great on figures. They counted over 5000 negroes for the ticket in Dallas county, Alabama, that did not vote.

THE meanest man out of hell is he who would count another man's vote different from the way he cast it. He is the president of thieves, robbers and revolutionists, worse than any anarchist.

THE cotton seed trust suits brought by would-be-governor Culberson, without swearing to the petition, is a vote catcher. It is set for trial the day before the election. See? Oh, how smooth.

WHY should the corporationists, the bondholders and the wealthy generally growl over conditions? They are growing richer and richer each day, hence are not concerned about the welfare of the masses.

IF the Clark-Cleveland wing of the Texas Democracy did not capture the convention why did Judge Clark telegraph congratulations to Mr. Cleveland? Clark is strictly the boss. He left the hall when the convention proceeded to indorse Hogg's administration.

WHAT is the use to elect a Democrat to congress? What good can he do? He goes into a party caucus and his hands are tied against the interest of our people. He is like a little boy with a new ax; he chops lots (at home), but does nothing (in congress). Try the Populists once. They can't make matters any worse.

AND Congressman J. W. Baily ran at U. M. Browder, his opponent with an open knife saying "I'll cut your d—n throat," in the opera house at Denison the other night. But Browder stood his ground, and a policeman seated Mr. Bailey. This is nice, before ladies! Browder was cooking him in his argument.

A NEW RULING ON THE WOOL SCHEDULE.

It Has Been Telegraphed to all Collectors of Customs—The Minneapolis is to be Put in Commission—Chili Settles all Damages Assessed Against Her.

WASHINGTON, Oct. 10.—Secretary Carlisle yesterday received from Acting Attorney General Maxwell an opinion in which he holds that the word "wool" as used in the woolen schedule of the new tariff act refers to the hair on sheep only, and that the new and lower duties on goods made of the hair of other animals went into effect on the signing of the act. The opinion further states that the phrase "manufactures of wool" in that paragraph is not applicable to articles of which wool as so defined, although the material is not the material of chief value. Immediately on receipt of this opinion Secretary Carlisle sent the following telegram to all collectors of customs. "The attorney general has rendered an opinion that the word 'wool,' as used in paragraph 272 of the new tariff act, refers to the hair of sheep only, and that the new duties under said schedule K, upon articles made of the hair of other anmals, went immediately into effect when the act took effect. Customs officers will be governed accordingly. Instructions of August 17 remain unchanged. Collector will re-liquidate all entries covering goods classified contrary to above instructions."

Protecting Americans.

WASHINGTON, Oct. 5.—Secretary Herbert has been forehanded in taking steps for the protection of the lives and property of American residents in China, believed now to be endangered by the rebellious and unrestrained troops. The cable advices yesterday, stating that the European powers are moving in that direction, were shown to the secretary, who said that about three weeks ago he had suggested to Admiral Carpenter to confer with the commanders of the foreign ships in Chinese waters and arrange to co-operate with them if possible. The plan was to have one or two ships at each of the treaty ports and other coast towns where foreigners reside to give protection to the citizens. In this way the United States vessels assigned to the station would be adequate.

To Be Put in Commission.

WASHINGTON, Oct. 10.—The secretary of the navy has ordered the Monitor and Miantonomah out of commission. By the men gained by this change the department will be able to put the Minneapolis into commission, for which the Messrs. Cramp report she will be ready by the 15th of the month. She will have a crew of 400 men. The department is now engaged in making up a list of officers and men to be assigned to her. The three officers most prominently mentioned for the command of the Minneapolis are Capts. James O'Kane, H. B. Robeson and B. J. Cronwell. Capt. Cronwell will probably obtain the assignment.

To Select a Route.

WASHINGTON, Oct. 10.—That great project that has excited so much interest at the great ports on the south Atlantic coast to unite Chesapeake bay with the Delaware by a canal and thus supply the most important link in an international waterway route from Florida to Long Island sound, has received an impetus by the appointment of an expert board to select the line of the canal.

Regulations Modified.

WASHINGTON, Oct. 9.—The instructions to the United States consul general at Hamburg to detain for a period of five days all emigrants bound for the United States from east and west Prussia, Posen and Sicillia on account of cholera, have been modified so as to relieve cabin passengers from detention, provided that they can prove they were free from exposure to the disease.

Chance for Stockmen.

WASHINGTON, Oct. 5.—United States Consul at Horden, Switzerland, calls attention to the excellent opportunity afforded American cattle growers by the high price of meat in Swiss markets. Beef cattle sold in September, live weight, at 7 to 8 cents a pound, hogs 8½ to 9½ cents, sheep, dressed weight, 12 to 13 cents, fat calves, live weight, 8 to 12 cents.

Chili Settles.

WASHINGTON, Oct. 10.—The Chilean government, through its minister here, has paid into the state department $245,564.35, the amount of the judgments rendered against Chili by the Chilean claims commission, which closed its work in Washington three months ago. The awards will be paid by the department immediately to the claimants.

Pensions.

WASHINGTON, Oct. 6.—Texas—original: George Austatt, Mason. Reissue: John H. Dawson, Alvin. Survivors of Indian wars: James Cunningham, Newburg, Comanche county; Richard D. Martin, deceased, Dallas. Oklahoma—Increase: Harvey McKee, Guthrie.

Mandamus Case.

WASHINGTON, Oct. 6.—The attorneys in the sugar mandamus cases concluded their arguments yesterday and Judge McComas took the case under advisement.

Supreme Court in Session.

WASHINGTON, Oct. 9.—The fall term of the United States supreme court opened at noon yesterday, all the justices being present and the courtroom crowded with attorneys and spectators. Chief Justice Fuller announced the customary call of the justices for the present would be postponed owing to the absence of Mr. Cleveland. After admitting a large number of applicants to practice before the bar and hearing motions the court adjourned till to-morrow, when business will begin. When the court adjourned last spring there were 714 cases on the docket, and about 100 have been cited during the recess. There is an average of about 100 cases to come in during the term, so that there will be about 914. The average of disposals for each term is 480, and this will leave over 400 undecided at the end of the present term. This has been attained by reason of the relief afforded by the estalishment of the court of appeals, which takes a great burden from the supreme court, which will eventually be able to catch up with the current work and clear the docket at each session. The court work heretofore has been about three years in arrears, but it is believed that within two years the docket will be cleared so that cases will suffer but little delay.

Capt. Howgate in Jail.

WASHINGTON, Oct. 5.—Capt. Howgate, the alleged defaulting ex-chief of the signal service, was brought back here yesterday after an absence of thirteen years. He arrived in charge of a United States marshal and ex-Chief Drummond of the secret service, who effected his capture. He showed little concern, smiling and chatting with the officers as he passed along. He was poorly dressed in rough gray clothes, and his face looked haggard. The party drove to the office of the United States marshal for the District of Columbia, where a deputy and Miss Ida Howgate, daughter of the prisoner, were waiting. He greeted his daughter affectionately, but quietly and without dramatic demonstration. Mrs. Howgate, who lives here, was not present. When the formal papers had been arranged Capt. Howgate was put in the prison van and driven to jail. He said he felt no regret at returning, although he felt intense regret at the first misstep which had brought him so much trouble. Howgate was assigned to cell No. 2 in murderers' row, which is the cell once occupied by Guiteau. This was not an indignity, however, but because the call is very strong and easily watched. The prisoner will not be arraigned for several days. He said he had no statement to make.

Guatemala Notified.

WASHINGTON, Oct. 9. — Minister Ariaga of Guatemala has been officially notified by the state department here that the new tariff law terminates the reciprocity treaty between the United States and Guatemala, and he has transmitted the notification to his government. He has not yet received any directions as to the course Guatemala will pursue. He says, however, that no protest or other steps similar to those taken by Spain, Germany and Brazil is contemplated. "There will not be any discrimination against the United States as a result of the change," said Ariaga. "Guatemala will merely re-establish the old duties against the United States, which will place this country on the same footing with other countries, but it is my personal opinion that the reciprocity treaty was very beneficial to both countries."

Argentine-Brazil Boundary Question.

WASHINGTON, Oct. 8.—President Cleveland is expected to give his decision as arbitrator of the important boundary dispute between Brazil and the Argentine republic soon after his return from Buzzard's Bay. Baron Rio-Branco, special envoy from Brazil, accompanied by a large suite, is now awaiting the decision. The case has been in Mr. Cleveland's hands for eight months, as the articles of arbitration provide that the decision must be made within a year, it is being looked for almost any time. The limit expires Feb. 10, but as Mr. Cleveland will be busy with congress and public affairs soon after his return, he is expected to dispose of the arbitration question before taking up domestic affairs. It is understood that he has made the arbitration his special study during working hours at Buzzard's Bay this summer.

The New Army Musket.

WASHINGTON, Oct. 8.—When the war department decided to abandon the old heavy caliber Springfield rifle and arm the troops with the Krag-Jorgenson small caliber repeating rifle, it was predicted by the adherents of the old arm that the new gun would disappoint its friends in its lack of destructive power. It would, they admitted, have greater range, but the small steel bolt projectile, it was said, would bore a clean hole through a man's body that would not be as fatal as the large wound inflicted by the big lead Springfield bullet. Now all of this prediction has been disproved by experiments made by the medical stiff of the German army, and repeated by our bureau of information.

Hot Springs Reservation.

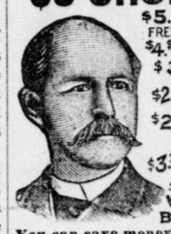

WASHINGTON, Oct. 8.—The report of William J. Little, superintendent of the Hot Springs reservation, in Arkansas, shows the condition of that resort to be excellent. He recommends the sale of 156 lots still owned by the government, and that the proceeds be devoted to improvements about the springs. Two springs have been discovered during the year, but the superintendent does not think that this adds to the volume of water, as it formerly reached the surface in other springs.

POLITICAL HASH.

Served Hot and Cold to Suit Our Readers.

One of the pledges made by the democratic party two years ago was to use rigid economy in the administration of government affairs. Much was said about the "billion-dollar" congress in which the republicans had a majority. The first year of pure undefiled and unfettered democratic rule has just ended. Like all their other pledges this one has been most outrageously ignored. While they claim to have reduced the pension disbursements something like $50,000,000, the total of other appropriations has been increased. Speaking of these expenses Congressman Cannon of Illinois says:

"Mr. Cleveland, by his estimates, asked congress to appropriate for the public service for the coming year, including permanent appropriations, $520,662,840, and congress has appropriated for such service $490,668,369. This, in round numbers, is $30,000,000 less than the President asked for the public service. A large part of this $30,000,000, however, will be appropriated next winter by way of deficiencies. A comparative statement of appropriations made at this congress for the fiscal year ending June 30 next, with appropriations made at the first and second sessions of the last congress (the Fifty-second congress), and at the first and second sessions of the Fifty-first, commonly known as the "Reed congress," shows, and such is the fact, that the appropriations this year are greater by $28,267,858 than were those made by the first session of the Fifty-first or "Reed congress."

There have been many increases in the salaries of democratic officials, especially in the diplomatic and consular service. The salary of the first assistant secretary of state is increased from $3,500 to $4,500. The minister to Belgium is increased from $7,500 to $10,000. The ministers to Switzerland and Portugal, Messrs. Caruth and Broadhead, are increased from $5,000 to $6,500 respectively. The minister to Mexico, who receives an annual salary of $17,500, has the salary of his secretary of legation increased from $1,800 to $2,650. The ministers to Nicaragua and Costa Rica, for the first time, are allowed secretaries of legation at $1,800 each, while the Bureau of American Republics is cut down from $30,000 to $10,000. The auditors of the treasury department are increased from $3,500 to $4,000 each."

* * * *

Capt. J. G. Waters, one of the leading attorneys of the state of Kansas, in an interview says that he is an Abe Lincoln republican. He denounces the Kansas republican party as owned and controlled by the railroads and will not vote for any man on the ticket. Among other things he says: "I am opposed to the railroads running and owning both Supreme courts, and the republican machine in this state. I know one man who dispenses passes for a railroad in this state, that is the uncrowned king, he has dictated to governors, legislatures and the judges of the Supreme court and I am only exercising my right to help give them a black eye this year, for they deserve it. I am no flopper. As I do not want office, I can criticise and here is my criticism. There are now two judges on the Supreme bench, Horton and Johnson, who have taken and used passes ever since they have been on the bench, and they hear and decide cases where these railroads are on one side and a lone widow, orphans and one legged brakeman on the other. This is a crime. It needs for plain speaking to break this custom up. The suitor who has a case against a railroad would never try it before twelve jurymen who each had a pass in his pocket and no honest and upright judge would require it. Nor ought any one to be handicapped by having the entire members of the court of last resort, all armed with passes, finally determine his case. Men are human, the railroads give passes under the head of courtesy to the bench, but it is not for health or philanthropy. They are intended to be sent where they will do the most good."

* * *

The radicalism of to-day becomes the conservatism of to-morrow, and will be used as vigorously against to-morrow's radicalism as the radicalism of the last century is used against the radicalism of to-day. To-day's Utopia is to-morrow's reality. Opposition to the kidnaping of native Africans and selling them into perpetual slavery was the radicalism of the latter part of the eighteenth century, the conservatism of the first half of the nineteenth century, and the philanthropy of to-day. Fifty years ago opposition of African slavery was radicalism. Now it is conservatism. So with opposition to debt slavery and the encroachments of capital. To-day it is called radicalism; to-morrow it will be called conservatism, and future generations will call it patriotism. Let us bear our burdens, prosperity will bless our efforts, and perpetuate our memory.

One of the principles of democratic government (we mean pure democratic government) is that "the people shall rule." That is to say, a majority of the people. It seems, however, to be the purpose of the modern leaders of the democratic party to create majorities where they are needed to keep said leaders in power.

S. P. McIlwain writes the Nonconformist from Alabama concerning the frauds practiced by the democratic wing of the plutocratic party in that state. In Mr. McIlwain's county, Dallas, he gives the following figures giving the actual votes cast and the number counted at some of the precincts:

	Votes Cast.	Official Count.
Summerfield	35	216
Woodlawn	24	150
Martine	77	677
Orrville	27	432
Lexington	45	277
River	20	293
Oldtown	103	289
Pleasant Hill	35	129
Union	29	329
Liberty Hill	20	315
Marion Junitica	25	117
Browns	17	316
Smyleys	7	182
Boykins	30	110
Mitchells	25	400
Selma	719	2,683

Three-fourths of the people in the county are negroes and the reformers had prevailed on them not to register, thus hoping to defeat the boodlers. But the negro votes were counted whether registered or not. And the organs of such law violators call Populists "anarchists."

It seems to be the determined purpose of the bourbon bosses of the south to overthrow the very foundations of free government if necessary to carry out their own selfish plans. If the government is to be saved it is high time that honest people were putting a stop to such abominable methods. It is a blow at every man's liberty.

THE INDUSTRIAL LEGION.

If you want a thorough organization, one in which the work continues right along after the election is over, you should organize an Industrial Legion.

If you want to beat fusion;

If you want to raise money;

If you want a fair ballot and an honest count;

If you want a recruiting station for the People's party;

If you want a drilled army of patriots, do what the national committee says, organize the Industrial Legion in every voting precinct in the land. For full particulars send to

PAUL VAN DERVOOT,
Omaha, Neb.

The Money Power.

The money power has made its home in the nation's capitol, and under the protection of both the republican and democratic leaders, each of which has the power to crush it, it has depreciated the values of all property, multiplied the burdens of all debts, paralyzed the industries of 70,000,000 people, gorged the nation's highways with half-starved citizen beggars and filled the land with portentious murmurings of a coming revolution.

Why Is It Thus?

Here are five timely questions propounded the Union of Minneapolis, Minn.

"Why is it that those who produce food are hungry?"

"Why is it that those who make clothing are ragged?"

"Why is it that those who build houses are homeless?"

"Why is it that those who build carriages go on foot?"

"Why is it that those who produce wealth have none of it?"

THE WORKINGMAN HAS SHAKEN THE TWO OLD PARTIES FOR GOOD.

WHY DON'T THEY?

During Cleveland's first term the democrats had control of the house. Their excuse then for not enacting some measures of relief was that the republican senate was in the way. That it would not permit the passage of such measures as the people needed and demanded. The failure to do anything again put the republicans in power in 1888. Harrison was elected. In 1862 a political "landslide" gave the democrats the house by 148 majority. Again their cry was they had no "chance" to do anything. They cavorted around about how quick they would give the people free silver if they only had the chance. They could hardly keep their shirts on when they talked about the "robber tariff." If they only had "a chance" they would knock out the trusts and throttle the greedy corporations. They fairly foamed at the mouth against the encroachments of capital on the rights of labor. They swore eternal friendship to the men who made their living "in the sweat of their faces."

Then came the election of 1892. The people trusted in the promises of the democratic leaders. They gave the democratic party complete control of every department of government. We held our breath. Now all these mighty promises would be fulfilled. We imagined the trusts quaking before this mighty power. We could see in our imagination the corporations cowering before it. We thought we saw justice putting on a new dress and brightening up her scales. Now labor was to be enthroned and capital taught to know its bounds. But lo, what bitter disappointment!

Justice appears in her same old dirty garb.

She has the same old "loaded" scales.

Cleveland appoints a corporation lawyer to prosecute the corporations and trusts. His cabinet is made up of lawyers, most of whom represent corporations. Then follows the record. The things they said they would do they did not do. The things they said that ought not to be done they did.

Now, they are wringing their hands and pleading for more time—for another "chance."

But the question arises: Why did they not do something when they had the chance?

Why did they not remonetize silver, as they said they would, instead of demonetizing it?

Why did they not give us a real, genuine reform tariff bill as they promised?

Why did they not wipe out the trusts and the national banks?

Why, oh, why, did they not do something to show their regard for the people?

They have lied.

They have deceived the people.

Shall we trust them again?

CAPITAL TIMID.

They tell us capital is timid. Yes, and it has good cause to be. There was a time before the war when capital grew timid. The popular feeling against chattel slavery interfered with the African slave trade. No new vessels were fitted out to steal negroes from their native soil and bring them to this "land of the free" to be sold into perpetual slavery. The eloquence of such men as Sumner, Garrison and Phillips had touched a chord in the public heart that was vibrating all over the land. The popular heart began to see slavery in all its disgusting details. And capital grew timid. It feared to invest in the institution. Many men, foreseeing the coming storm, sold their slaves. Others recognizing the evil gave them their freedom. In the same sense capital is now growing timid. The systems in this country have fastened upon the people a debt that makes them wage slaves. The annual tribute they pay to their creditors (masters) is over two thousand million dollars—a sum that would have bought every black slave at the rate of $500 per head. The plan is to make this debt payable in gold. As this would be impossible the debt would be perpetual. This would mean perpetual industrial slavery. This means that the annual tribute on the industries of the country is to be levied on our children and on our children's children. The popular mind is revolting against it. New Phillipses, Sumners and Garrisons are firing the public heart against this new form of slavery. The masses are moving. And capital that seeks to fasten this condition on our people is "growing timid." Well it might. Let it learn from the past. If the people are not given an opportunity to pay these debts on the basis of equity and justice, they will be repudiated as was the institution of slavery.

A Money War.

Huger drives men mad and the coming winter is likely, if not sure, to witness more suffering and distress, and consequently more disorder and violence than the country has ever yet dreamed of.

We have had some rather strong demonstrations of disregard for property rights during the past few months, which, though feeble and isolated, ought to teach us a lesson in possibilities. But these were only the gentle zephyrs preceding the coming cyclone.

If congress does nothing to give the people work or to feed the hungry multitude, a standing army of 200,000 men can not maintain order or keep the public peace. The President and the governor may cry "peace! peace!" but there will be no peace.

The spirit of spoliation once in activity, and before it can be sated or checked many thousand lives will be sacrificed, and many millions of property forcibly taken from its possessors or destroyed.

England was confronted with a similar condition of the public welfare from 1819 to 1825. The army was doubled and the soldiers kept busy night and day to maintain the public peace, but they failed, and so will any armed force under such conditions.

All England seemed to be wild and anarchy inevitable. In this emergency Lord Castlereaugh, under a suspension of the rules, persuaded parliament to pass a law for the expansion of the currency by an increase of paper money. The effect was magical. In six weeks the mines and factories became again active; labor was everywhere in demand, and the people were fully employed at fair wages and were contented.

It is true relief came to England in this instance partly from the migration of a large per cent of her citizens as well as from the expansion of the currency. But one thing was demonstrated. The remedy of force by military power literally failed.

Will our rulers try the remedy that failed or the one that succeeded and brought peace to a distracted land? We shall see.—Kansas Commoner.

David Hume on Falling Prices.

Falling prices and misery and destruction are inseparable companions. The disasters of the dark ages were caused by decreasing money and falling prices. With the increase of money, labor and industry gain new life.

TEXAS NEWS BRIEFS

Items of General Interest Carefully Selected From Many Sources.

The details of the suicide of Alvin Gregg, a rich farmer and stock raiser living near Sulphur Bluff, Hopkins county, a few days ago, continues to be discussed. He was considered the most practical, matter-of-fact man in this section of country, and his sudden unsoundness of mind has been a mystery to his many friends. He made two efforts at self-destruction. The first attempt was made with strychnine, which by heroic efforts of the attending physician, was unsuccessful. The second time he proceed in the well-planned, deliberate way, which has been characteristic of his life, and calmly walked behind the smokehouse and sent a Winchester ball crashing through his brain, producing instant death.

Gen. Hardeman, superintendent of public buildings and grounds, has put his veto on the practice indulged in by certain departmental attaches of sleeping in the capitol building and there has been quite a removal of bedroom furniture from the upper stories at the state house. This turning of the state capitol into a furnished room house was started by members of the legislature, who have in the past been in the habit of saving on their hotel bills by sleeping in the state house and turning their bedding over to department people to occupy and look after when the legislature adjourns.

A few nights since Anna Dierson, a 15-year-old daughter of Gerhardt Dierson, who lives near Burton, Washington county, left home with Frank Davidson, a young man who lived near by. The couple were assisted by Anna's brother, Herman Dierson. The next morning her mother, Mrs. Minna Dierson, made complaint against Davidson and Herman Dierson for unlawfully enticing Anna Dierson, minor, away from the custody of her parents, and a warrant was issued for their arrest.

At a recent session of the city council of Fort Worth Alderman Frey called attention to the fact that the city was paying over $1200 yearly on its public buildings. He thought the city amply able to carry its own insurance, and moved that policies now outstanding be not renewed. After an animated discussion the matter was referred to the public buildings committee for investigation and report.

The city council of Austin has passed an ordinance levying a tax of $1.92½ on the $100 for all purposes for 1894, which is a reduction of 12 cents over 1893. Mayor McDonald stated to the council that, barring unforeseen accidents, the city's new water and light system would be in operation by December 1, and that the city would be prepared to furnish electric light directly afterward.

H. J. Willis, who was cut in the abdomen while in Greenville a few days since, died at his home near Vansickle. The deceased carried $14,000 life insurance, which leaves his family in good circumstances. W. B. Samuels, a grain dealer of Greenville, who is under a $500 bond charged with the offense, was rearrested and will have an examining trial.

Mr. and Mrs. Mabery of Lawrence, visited their son-in-law, R. L. Hudson at Terrell one day recently. Both families ate cocoanut cake for dinner which contained canned cocoanut. That night they were all taken suddenly and dangerously ill and it was only through the services of a physician that they were relieved. They were poisoned from the tin.

As the excursion train from Goliad was passing Nursery station, near Cuero, at a good rate of speed the other night a young man named Wm. Forehand attempted to get off, and in doing so was thrown headlong to the ground, receiving injuries which may prove fatal. He was brought to Cuero and given medical aid, being unconscious.

William Bigby, who lives at Oak Grove, Tarrant county, recently went to Fort Worth and procured a license to wed Miss Nettie Lewis of that neighborhood, but when he returned he found that while gone for the license she had eloped with a Mr. Thompson over into Johnson county and was married.

Messrs. A. J. Rose, J. H. Connell and W. R. Cavitt, committee appointed to investigate the coast country adjacent to Galveston for the establishment of a sub-experimental station, have completed their investigation and returned to College Station, where they will prepare their report.

A boy named Cromley fell under the wheels of Conductor Green's train at Denison the other night and received injuries necessitating the amputation of both legs.

The Missouri, Kansas and Texas road has finished moving the machinery from Alvarado, Johnson county, to Smithville, Bastrop county, where it has located the main shops. The people of Alvarado are talking of filing a heavy damage suit.

W. N. Coe, treasurer of Dallas county, is short some $13,000. He has been indicted by the grand jury, as have County Commissioners Tom Fisher, N. O. McAdams and W. A. Orr. All candidates for re-election, except Orr, who is a nominee of the Democrats for the legislature.

One night recently at Bryan in the Exchange saloon Tom Wilson assaulted Claude Ward, a one-armed man, who struck Wilson with a soda water bottle, knocking him down and cutting a big gash in his head. Ward was arrested and gave bond.

FRIDAY, OCTOBER 12, 1894.

OUR NEXT GOVERNOR.

THOMAS L. NUGENT.

OUR TICKET.

For Governor,
T. L. NUGENT,
of Tarrant County.

For Lieutenant Governor,
MARION MARTIN,
of Navarro County.

For Attorney General,
R. V. BELL,
of Cooke County.

For State Treasurer,
GEN. H. E. McCULLOUGH,
of Guadaloupe County.

For Comptroller,
E. O. MEITZEN,
of Lavaca County.

For Land Commissioner,
S. C. GRANBERRY,
of Travis County.

For Supt. Public Instruction,
E. P. ALSBURY,
of Harris County.

For Judge Crim. Court of Appeals,
E. L. DOHONEY,
of Lamar County.

For Chief Justice Supreme Court,
THOS. J. RUSSEL,
of Jefferson County.

"As a democratic citizen of Texas, I accept the platform indorsement of the president in sending troops to Chicago."
C. A. CULBERSON.
(Extract from his Goliad speech.)

Hurrah for Georgia!

A vote for principle is never lost.

The cause of reform goes grandly on to victory.

The best way for the laboring man to arbitrate is through the ballot box.

Read the good news from all along the line and tell it to your neighbors.

It does not cost as much to wear out a white man now as it did to wear out a black man before the war.

We congratulate the silver democrats of Georgia upon their repudiation of the gold standard policy of their party.

India pays England $80,000,000 a year for a military protectorate which is not quite one-third what we pay her for meddling in our industrial and financial systems.

The only hope the republicans have of defeating Gov. Waite of Col. is to endorse the democratic ticket. Some terrible bitter pills the old parties are taking this campaign.

When you hear Mr. Bell expatiating upon the glories of the income tax just ask him how he proposes to collect it. No provisions have been made for its collection, hence it is a dead letter.

In many places in Kansas a fusion between the democrats and republicans is openly understood. Any thing to beat the populists is their cry and the two old parties have locked each other in a fond embrace.

The latest reports from Kansas state that the return of Jerry Simpson and John Davis to congress is assured.

The result of the Georgia election is a severe rebuke to the gold standard advocates of democracy. The silver men thought more of principle than party success and had the courage to express their honest convictions at the poles.

Be consistent. If you believe in silver coinage get into the ranks of the peoples party. If you believe in a single gold standard get into the democratic party. Don't make an idiot of your self any longer by shouting for free silver and Cleveland.

Congressman Bailey, democratic nominee for re-election in the fifth district has become so antagonistic that he has publicly threatened to cut the throat of his opponent, Mr. Browder, and is now making his brags about it all over his district. The populists have declined to make any more appointments with him.

When a congressman becomes so much of an outlaw that he publicly threatens to cut the throat of his political opponent and then makes his brags about it in public speeches in every school house in the district in which he is canvassing for reelection, it is time that he be retired from public office and adorned with a prison garb behind iron bars.

"When a man like General Alger, a brave soldier, a good citizen, says that he dare not enter the senatorial fight because it means the expenditure of a quarter of a million dollars, it is time for this great state to call a halt and see what it is that has made this condition possible. This is no fairy story, for I am the man to whom General Alger made that statement.—[Mayor Pingree of Detroit.

The Corsicana Truth, in commenting on the Kearby-Abbott debate at Corsicana recently had the following to say. The item shows the esteem in which the Populist candidate for congress, Maj. Kearby, is held in his district:

"You can gain a very correct idea of the result from the following remark made by a leading democrat of this city who said: the democrats of this district were a set of great fools to put such a man as Abbott out against Kearby."

The following from the associated press dispatches in the Ft Worth Gazette gives an idea of the political feeling in the 9th district of Iowa.

Neolia, Iowa:– Gov. McKinley's special car attracted a large concourse of people to the depot and the great statesman from Ohio was listened to with marked attention but when the train pulled out instead of the usual cheers the people were heard in a united chorus to cry "Hurrah for General Weaver".

The reader of the Declaration of Independence at Blaine had the document committed to memory and delivered same without reading from the pages. A narrow minded bigot of old party faith listened attentively for a few moments and then got up indignantly and walked away, remarking that he had "heard enough of that d———d populist rot," and could not see "why politics should be brought into these Fourth of July celebrations anyhow." —Champion, New Whatcom, Wash.

James G. Blaine, in the course of a speech in 1862, holding up one of the original greenbacks, said:

"What is this? A dollar, and it is a good dollar; good for the farmer, the mechanic, the sailor and everybody. What makes it a good dollar? Because every dollars worth of property in the United States is behind it; and the life-blood of every true and loyal citizen is behind it and makes it good."

Mr. Blaine realized money's value depended upon the power of the government to make it good and not upon the "intrinsic value" of the material of which it is made. That is pretty good Populist doctrine at the present time.

DECLARES FOR NUGENT.

A Prominent Democrat of Eastland County an Earnest Supporter of the Populist Candidate.

J. R. Frost, of the law firm of Frost, Hunter & Schmick, of Eastland, was a caller at THE PROGRESS office Tuesday. As politics is the chief topic of discussion these days our conversation soon took a turn in that direction. Mr. Frost informed us at the outset that he was a democrat, not of the Culberson gold standard type however, but a "Nugent democrat." We asked him to explain what he meant by a "Nugent democrat." He replied that he was a free silver advocate and as the nominee of the democratic party had declared for the gold standard policy of Cleveland he could not consistently vote for Culberson. The democratic party had drifted so far from its avowed principles of a few years ago that he saw no difference between it and the republican party on the financial issues and he believed he could support true Jeffersonian democracy better by voting for Nugent than for Culberson.

Mr. Frost has been a life-long democrat but he could no longer vote a ticket that had nothing democratic about it except the name cross the top. He said there was nothing in a name, it was the principles carried out that effected his welfare. A man who continues to vote the democratic ticket simply because it bears the name, is a political slave, and he now proposed to assert his right as an independent voter and cast his ballot for the man who advocates the principles which he believes to be right.

Mr. Frost has lately made an extended tour of several of the adjoining and southern counties and says the silver democrats in every section he visited are coming to Nugent in great numbers. He predicts his election.

The Initiative and Referendum

The initiative means that when a certain percentage of all the voters sign a petition in favor of the enactment of any new law, or repeal of an old one, and file their petition with the proper officer, the proposed law or repeal must be submitted to all the voters at the ballot box at the next election. If the proposal receives a majority of the votes cast it becomes a law, otherwise not. Laws made by the initiative are not presented to the legislature at all.

The referendum means that all bills passed by the legislature must be referred to the voters at the ballot box at the next election, and that no bill can become a law unless it receives a majority of the votes cast. District, town, or county laws are voted upon only by citizens of the locality to which the law applies. Only general laws are referred to all the people of the state. The veto power is taken from the governor and placed in the hands of the people. All laws are printed in full and with each a short statement of the reasons for and against its enactment. A copy of the pamphlet containing these laws and reasons and a sample ballot is delivered to each voter. Making a law is purely a business proposition, the reasons for and against being plainly stated in print by the parties offering and opposing the law, only a little common sense being necessary for a wise vote.

In case of urgency, if enough petitioners can be obtained a special election may be held to enact or repeal a law, but there has never been good reason for this as to a law made by the people. In our own country the only excuse for special sessions has been to correct evil class legislation. When all the people make the law, and the vote of one counts as much as any other, class legislation must cease because no class is strong enough to ovr-rule all other classes at the ballot box. The mechanics and tillers of the soil and laborers in the city will have a power in law-making that must be felt.

The progress of the Swiss under the initiative and referendum is amazing. Their experience proves that "the wisdom of the whole people is greater than that of any part." Their greatest state, Zurich, has made all her laws and appropriations of public money since 1848, in excess of a very small sum, by direct vote of all the people, and they boast they have no beggars nor paupers nor does any man own $1,000,000 worth of property in their state. The city of Zurich has a population of 92,000 and makes all its laws successfully by the initiative and referendum. Their magnificent highways are an example for the whole world, their postal facilities are unequalled and their freedom from financial panics and social disturbances is particularly noticeable. Tramps are unknown. The president gets only $3,000 a year, very few other officials receive more than $1,200 a year, while for local officers $400 is a high salary. The low salaries and close watch over puplic expenditures destroy the great thurst for public office from which we suffer. By the referendum none of these bodies can make a law, raise their wages, or appropriate more than a very small sum for any purpose without an endorsement at the ballot box. We shall be saved from that minority rule of which the repeal of the Sherman silver law is an example. On the vote 193 congressmen voted for the repeal and 94 against it. Of the 12,000,000 votes cast when these men were elected the 193 received a trifle over 3,000,000, while the 9,000,000 were cast for the minority. This is what can be done under our present system.

The initiative and referendum is the only practical plan thus far made by which the majorities do realy govern. It is the only peaceable way to obtain an undisputable expression of the will of the people on any question.

Once a Giant for Silver, etc,

Continued from first page.

But in all the wild, reckless and remorseless brutalities that have marked the footprints of resistless power there is some extenuating circumstances that mitigates the severity of the punishmeut due to the crime. Some have been the products of the fierce passions of war, some have come from the antipathy that separates alien races, some from the superstitions of opposing religions. But the crime that is sought to be perpetrated on more than fifty millions of people comes neither from the camp of a conqueror, the hand of a foreigner, nor the alter of an idolator. But it comes from those in whose veins runs the blood of common ancestry, who were born under the same skies, speak the same language, reared in the same institutions, and nurtured in the same religious faith. It comes from the cold, phlegmatic, marble heart of avarice—avarice that seeks to paralyze labor, increase the burden of debt and fill the land with destitution and suffering to gratify the lust for gold—avarice surrounded with every comfort that wealth can command, and rich enough to satisfy every want save that which refuses to be satisfied without the suffocation and strangulation of all the labor in the land. With a forehead that refuses to be ashamed it demands of congress an act that will paralyze all the forces of production, shut out labor from all employment, increase the burden of taxation, and send desolation and suffering into all the homes of the poor. In this hour, frought with peril to the whole country, I appeal to the unpurchased representatives of the American people to meet this bold and insolent demand like men. Let us stand in the breach and call the battle on, and never leave the field until the people's money shall be restored to the mints on equal terms with gold as it was two years ago.

RICHMOND.

Judge Nugent at Stephenville.

Hon. T. L. Nugent will speak at Stephenville on Monday, Oct. 22, the first day of district court. Every body is respectfully invited to attend the meeting and hear the people's champion.

Nearly 6000 Bales Up to Date.

Yesterday evening at 3 o'clock r reporter made the rounds of e cotton yards and found the re- ipts to foot up 5657 bales, of hich the Alliance yard has 4175 d the Dublin yard 1482.

Perhaps some of our readers uld like to know in what respect amberlain's Cough Remedy is tter than any other. We will l you. When this remedy is ta- n as soon as a cold has been con- cted, and before it has become ttled in the system, it will coun- act the effect of the cold and eatly lessen its severity, and it is e only remedy that will do this. acts in perfect harmony with na- re and aids nature in relieving e lungs, opening the secretions, quifying the mucus and causing expulsion from the air cells of e lungs and restoring the system a strong and healthy condition, o other remedy in the market sesses these remarkable proper- s. No other will cure a cold so ickly. For sale by S. S. Davis.

16 Boils at Once

ood's Sarsaparilla Purifies the Blood and Restores Health.

Mr. F. W. Stowell
Wilmot, S. Dak.

C. I. Hood & Co., Lowell, Mass.:
"About four years ago my wife was troubled with salt rheum. Although we tried nearly everything it got worse instead of better and spread over both of her hands so that she could hardly use them. Finally she commenced to use Hood's Sarsaparilla and when she had taken two bottles her hands were entirely healed and she has not since been troubled. In December, last, my neck was covered with boils of a

Scrofulous Nature.

There were sixteen of them at once and as soon as they healed others would break out. My neck finally became covered with ridges and scars. I then commenced taking Hood's Sarsaparilla, and after taking four bottles the boils had all healed and the scars disappeared. I recommended Hood's Sarsaparilla to all suffering from any disorder of the blood." F. W. STOWELL, Wilmot, South Dakota.

Hood's Sarsaparilla Cures

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.

Mrs. G. F. Stanley, wife of the genial foreman of our job department, arrived in Dublin Sunday evening from Sherman. Frank looks ten years younger than he did a week ago and is now the happiest man in the city. The PROGRESS extends to her a cordial welcome among us.

A mammoth stalk of corn has been on exhibition at Wheeless' blacksmith shop for a week or more past. It measures in heigth sixteen feet, eleven feet and three inches to the first ear and measured in circumference seven inches. It was raised near town by Capt. J. E. McCain.

Caught in a Gin Saw.

Jack Leslie of this place had both his hands badly cut in a gin belonging to his brother, at Comanche last Saturday night. Dr. Rodgers of that place dressed the wounds and they are now healing nicely.

Dr. A. J. Gray and Mr. J. D. Gray, of Gorman, spent last Sunday in the city, guests of Col. A. C. King and visiting with Prof. C. J. Gray.

S. M. Head, of Gilmore, passed through the city Saturday last on his way to San Angelo to visit a sister whom he had not seen in sixteen years. He was a caller at the PROGRESS office and increased our subscription list by the addition of his name.

Money to Loan.

Loans at three (3) per cent. per annum on approved real estate security—no loans taken on unproductive property--for particulars addres THE DEBENTURE CO.,

20-3m Chicago, Ills.

Lawyer A. C. King, R. B. Spencer, lawyer W. T. Daniel and J. S. Daley visited Stephenville Monday.

Ladies long opera chains and bracelets with lock and key—all the craze now—at Nimmo's. 29tf

See Keyser's low prices on lumber and shingles at Alexander.

Smothered to Death.

Friday evening of last week a little four year old son of J. Ross, living near Sidney, in Comanche county was smothered to death in a cotton bin. While playing in the cotton he burrowed a hole in it, into which he crawled head foremost. The cotton caved in on him and when found, about twenty minutes after last seen he was dead, but only covered with about a foot and a half under the cotton. He was burried on Saturday.

Capt. Wm. Chilton of Decatur is in the city visiting with his son, Sandy Chilton and his family. He will remain for two or three weeks.

Managing Agent in Every County.

To manage and appoint sub-agents. $75 a month and expenses. Kneeland Mfg. Co., Chicago.

Dr. R. A. Ross has just returned from a short visit to his son-in-law, Jim Pruett at Hillsboro. He reports Jim as actively engaged in the carpenter business.

Rev. A. J. Tant is attending the Baptist general convention, now in session at Earshall. Rev. A. H. Norris will fill his position at the church here Sunday.

Mr. Jno. P. Works of Brownwood has accepted a position with the National Citation Co. of this city to canvass the state of Texas for them. He went on the road Monday.

See Keyser's low prices on lumber and shingles at Alexander.

Mr. J. R. Atkinson one of the prominent and most successful farmers in Erath county says of the PROGRESS, "I would not exchange it for any county paper I ever saw, no matter what the politics."

We are just in receipt of a communication from the headquarters of the Ft. Worth & Rio Grande stating that W. H. Hurst of Brownwood, has been appointed Traveling Freight and Passenger Agent, and B. T. Booze of Ft Worth as Gen. Freight and Passenger Agt.

"I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of croup where I know the life of a little one was saved by the use of Chamberlain's Cough Remedy."—J. J. LaGrange, druggist, Avoca, Neb. 50 cent bottles for sale by S. S. Davis.

J. I. Minter, candidate for county clerk and B. F. Allison, candidate for assessor, were pleasant callers on the PROGRESS Tuesday. They are both excellent gentlemen well qualified for the respective positions to which they aspire and if elected will guard well the interests of the citizens of Erath.

AGUE CAKE.

Enlargement of the Spleen Caused by Chronic Catarrh.

People who hava been much afflicted wiih malaria or fever and ague are very liable to have a fullness or enlargement of the left side just under the ribs. This is commonly called in malarious districts ague cake. This fullness is due to enlargement of the spleen, caused by the malaria. The enlarged spleen presses against the heart above, causing palpitation of the heart and shortness of breath. It also presses against the stomach and bowels, causing disturbed indigestion, bloating, constipation, gurgling in left side, and a formation of great quantities of gas.

As long as there is a particle of the malarial poisonleft in the system, not only will the ague cake continue to disturb the function of the other organs, but the other organs tends to perpetuate the poison in the system.

It seems to be a settled fact that Pe-ru-na is the most reliable, if not the only, remedy that can be relied on to cleanse the system in cases of chronic malaria. It never fails to bring relief to these disagreeable symptoms, and if a regular course of Pe-ru-na is taken it does not fail to permanently cure.

In order to furnish the public a complete knowledge of the effect of Pe-ru-na in old cases of chronic malaria The Pe-ru-na Drug Manufacturing Company of Columbus, Ohio, have published an illustrated pamphlet on chronic malaria, which will be sent free to any address.

Attention Baptists.

The minutes of the Comanche Baptist Association, twentieth annual session, recently held with Unity Church, are now mailed to the several church clerks. If you do not receive them in time for your regular meeting in October, have your church clerk to write me immediately, at Comanche, and I will endeavor to supply you.

J. H. WHISENANT,
Clerk of Ass'n.

Assignment of Docket.

Notice is hereby given that the Criminal Docket of the District Court of Erath County will not be taken up until on Monday of the third week, the same being the 5th day of November, A. D. 1894.

J. J. BENNETT,
District Clerk.

Club Meeting.

The Peoples Party Club of Mt. Airy community, three miles from Dublin, is hereby called to meet at Mt. Airy on Saturday evening before the third Sunday in this month, the 20th inst. Everybody is invited. J. C. ANSLEY, Ch.

Tax Collector's Notice.

I will be in Dublin on Thursday and Friday, October 25th and 26th, to collect state and county taxes. Taxpayers will please take notice and try to make it a point to settle while I am in Dublin, in order to save themselves a trip to Stephenville for that purpose.

D. M. RUMPH.
Tax Collector Erath Co.

A CALL.

By appointment and in obedience to an order of the Erath County Alliance, we, the undersigned committee, do hereby call a mass meeting of the citizens and cotton growers of Erath county, to convene in Stephenvile on Saturday, October 20th, 1894, at 1 o'clock p. m., to consider the cotton seed trust, and to further consider the propriety of holding and demanding better prices for our cotton seed.

GEO. CLARK.
A. M. FINNELL.
A. HOUSTON.
C. J. DAVIS,
Chm. Ex. Com.
J. D. MARTIN,
Secretary.

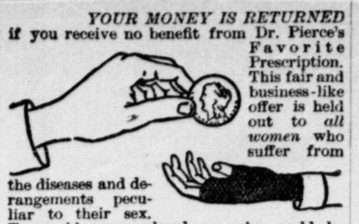

Capt. H. A. Smith and J. B. Herndon made a trip to Grandbury this week on court business.

The Horses.

The big Reynolds Show which will exhibit here on October 20th have a beautiful collection of horses and ponies. Especial attention is called to the drove of ponies, some of which are very little larger than dogs. The little colts born this spring will be a source of wonder and delight to the little ones. The horses are mostly dapple gray and are magnificent specimens. Be sure and see the parade. Remember the date. It

"During my term of service in the army I contracted chronic diarrhoea," says A. E. Bending, of Halsey, Oregon. "Since then I have used a great amount of medicine, but when I found any that would give me relief they would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and will say it is the only remedy that gave me permanent relief and no bad results follow." For sale by S. S. Davis.

YOUR MONEY IS RETURNED
if you receive no benefit from Dr. Pierce's Favorite Prescription. This fair and business-like offer is held out to *all women* who suffer from

the diseases and derangements peculiar to their sex.
To weakly womanhood no prize could be more secure, nor the benefit more lasting, than that to be derived from the purchase of a bottle of this famous "Prescription." Its success in curing all the functional derangements, painful disorders, and chronic weaknesses of women, warrants its makers in *guaranteeing* it, What this medicine has done for thousands of delicate women, it will do for *you*. At the two critical periods in woman's life, the change from girlhood to womanhood, and, later, the "change of life," it's an invaluable tonic and a soothing nervine, which can produce only good results. It cures cases of nervous prostration, insomnia, or inability to sleep, and many nervous disorders due to derangement of the functions.

PUBLIC SPEAKING.

THE DOCTORS AGREE
ON THE DALLAS DEMOCRATIC PLATFORM.

It is a Single Gold Standard Document, Simple and Straight, and is so Recognized the World Over, and Culberson Need not Deny It.

The Populists have contended from the first that the Dallas Democratic platform is a single gold standard document, and against silver at any ratio, and we now present the evidence, the highest in the land—all Democrats:

The Dallas News, in commenting on Mr. Culberson's Goliad speech, says:

Mr. Culberson certainly gets off the Democratic platform when he declares for free and unlimited coinage of silver at the ratio of 16 to 1. Gov. Hogg, who favored this doctrine, acknowledged that he and others lost this issue and proceeded to eat his crow in public. Commissioner Reagan withdrew because of his decisive defeat on the silver question. The question when put to the convention was in express words "those in favor of silver at a ratio of 16 to 1 vote aye." A majority voted against it and made the indorsement of Mr. Cleveland's views and policies on the money question clear and emphatic. If the leading candidate of the party is at liberty to disregard the party creed in this item and in this way then in what and upon whom is any portion of it binding? If a candidate of a party can ignore one of its most important and positive expressions, then why did Governor Hogg find it necessary to consume any crow? Why did Judge Reagan declare that he could not stand as a candidate upon a platform which Mr. Culberson souses in a turbid mess of unlimited free silver foolishness? * * * It is known throughout the political world that the Dallas convention refused emphatically to adopt the doctrine which Mr. Culberson has deliberately concluded to preach. * * * Such recklessness might well challenge comparison with that which would presume to cross a bottomless chasm, traversed by a raging cataract on the unsteadfast footing of a spear.

Judge George Clark of Waco, in his late Bastrop speech, thus defines the position of the Democracy on the financial question:

"The discussion of this question now is premature, for any legislation upon this line is impossible before 1898. Mr. Cleveland will remain president until 1897, and so long as he is president the country need indulge no apprehension that the free and unlimited coinage of silver will be entered upon.

"We stand squarely upon the national Democratic platform of 1892, which, in effect, declares that the free and unlimited coinage of silver is indefinitely postponed. We indorse the action of the convention of 1892 in voting down by an overwhelming majority the proposition of Mr. Patterson to insert the word 'free' before 'coinage' in the platform. We believe the administration of President Cleveland is eminently wise, patriotic and statesmanlike,' and thereby endorse fully his views and actions upon the silver question. We endorse the action of our Democratic congress in 1893 in voting down all propositions for the free and unlimited coinage of silver at any ratio."

It will be remembered that immediately upon the adoption of the platform by the Dallas convention, Judge Clark sent a telegram to Grover Cleveland, congratulating him upon his indorsement and the indorsement of his financial views by the Texas Democracy as follows:

DALLAS, Sex., Aug. 16.—President Grover Cleveland, Washington, D. C.: The Democracy of Texas have repudiated free silver and stand by you and the national Democratic platform. [signed.] GEORGE CLARK.

Speaking of Gov. Hogg's speech at Rockdale and what J. J. Faulk said about stopping him and R. Q. Mills from making speeches, Judge Clark said to a Dallas News reporter:

"I did not hear the speech, but am told by those who did that it savored of anything but harmony. My information is that he announced the war as on, and that they would meet us at Philippi in 1896. I am also informed that the governor congratulated his hearers that no bolter was nominated on the ticket, and that he and his fellow free silver lunatics intended to have our scalps. If my information is correct I am glad I did not hear the speech, and most heartily sympathize with any Democrat who did. * * * This conspiracy against the Democratic party has been incubating ever since the Dallas convention, and it may be well that it has culminated so soon. Foiled in their purpose to commit the party authoritatively to the heresy of debased money they began as soon as they got over their dazed condition to beat about in order to find some getting out place. They have at last determined and the determination seems to be general with them, to defy both platforms, national and state, to denounce all Democrats who stand squarely for the declared principles of the party as bolters and heretics and they insist that we must not speak to the people because we are talking heresy. I need hardly say that this phase of the canvass is most remarkable. Bolters from their own platforms, they denounce us as bolters. With punic faith they submitted their contention to the party in convention assembled and when the party decided against them on a fair test they claim that the decision is in their favor. If they want war, they can have it, but they must hunt up another flag. We love the old Democratic flag and we intend to take care of it. It is our flag, and no Populist can fight under it. We have gone to the limit in the harmony business. We have asked for peace and got war, it seems. If the wreck must come we intend to preserve the principles of true Democracy in this state, no matter who gets hurt."

But here is what Hon. H. D. McDonald of Paris said in an interview with a Dallas News reporter anent Culberson's Goliad utterances:

"His speech is all right except on silver, and there it is all wrong. It is not only wrong in the sense of being illogical and fallacious, but it is out of harmony with the platform upon which he was nominated. * * *

"He has no right in the face of the enemy to distract the councils of his party and infect discord in the campaign because his party happened to think more of him than it did of his views. * * * To assert that the financial plank of the Dallas platform means the free and unlimited coinage of silver or that it is susceptible of that construction is foolishness. Mr. Culberson, speaking of the action of the convention in adopting this plank, says: 'It was determined to adopt a declaration upon which all agreed, leaving Democrats free to entertain and advocate their own individual views upon the subjects of disagreement without conflict with the party platform.' Is that so? If 'all agreed' on this, what meant that two days' wrangle in the platform committee resulting in two reports and the adoption of the majority report containing the present plank by the slender majority of 36?

"After so many years of debauchery of public sentiment in this country by the silver kings of the west and the time-serving politicians of the south it was a refreshing spectacle to see the Texas Democracy place itself on record as it did at Dallas in favor of honest money and against the free and unlimited silver coinage lunacy, and I for one, am not willing that its brave and patriotic action shall be belittled or misconstrued without entering my protest. Whatever may be said by politicians who think more about catching votes than they do about defending party action it is absolutely certain that the national Democracy and the Texas Democracy are opposed to the free and unlimited coinage of silver at any ratio under existing conditions. So that Judge Nugent was right when he said in his opening speech at Grand View that 'there is now but one free silver party,' and that is the Populists.

"With the low price of silver, its tendency to constant and violent fluctuation, and in the absence of international agreement it is folly to talk about free and unlimited coinage at a ratio of 16 to 1, much less to expect to see it done by the government. It insn't any use to mince matters on this subject: THERE IS NO SUBSTANTIAL DIFFERENCE OF OPINION BETWEEN THE DEMOCRATIC AND THE REPUBLICAN PARTIES ON THIS QUESTION. I mean the majority of the brains and conscience of those parties. And this is the very highest evidence that the position is the sound and correct one. When the only two really great parties—two of the greatest that ever existed—meet upon common ground on a financial question that is purely one of business we may feel assured that they have it down about right. As long as present conditions continue the Democrats will not bring about free and unlimited coinage, and the Democrat who insists upon it might as well join the Populists, for that is the only party pledged to the immediate enactment of such a measure."

In reply to the question whether he would make any speeches, he said: "I hardly think I shall. I want peace in our political family and it would be rather unseemly, not to say embarrassing, for me to go on the stump and put in one-half my time begging votes for the ticket and the other half in combatting its views in opposition to the platform upon which it was nominated."

Yes, Judge Nugent, as he always is, was right when he said. "There is now but one free coinage silver party; the People's party." The Democracy of Texas is pledged to the single gold standard. Ask Gov. Hogg, C. A. Culberson, Hon. John H. Reagan and all the bolting Democrats when they come around if they indorse the financial plank of the Dallas platform. Make them speak out.

Now let us see what Hon. John H. Reagan said in his late Fort Worth speech: 'The refusal of the conventions to recommend the ratio of 16 to 1 has produced a good deal of discontent among Democrats. And this discontent is intensified by the mistaken belief entertained by them and encouraged by the advocates of a gold standard that the action taken was a declaration against silver as money. My own views was so pronounced in favor of such legislation as would restore the parity of these metals at the ratio of 16 to 1 that I withdrew my name from before the convention as a candidate for the office of governor, because of its failure to adopt a clear and explicit declaration in favor of the free and unlimited coinage of silver at the ration of 16 of silver to 1 of gold." * * *

This is the finishing sentence of our proof, the keystone in the arch of our argument, that the Dallas Democratic platform is a single gold standard document. There are thousands of men who will vote the People's party ticket, who are as good Democrats as ever breathed, because the so-called Democratic state ticket and every congressional candidate has bolted the national and state platforms. They want thoroughbreds, men that are true and brave enough to stand by their platform utterances, hence will vote the People's party ticket.

The broth of dissatisfaction is rapidly brewing in the Democratic soup kettle.—Seguin (Tex.) Record.

Hood's Is the Best
Sarsaparilla, because it purifies, vitalizes and enriches the blood, and therefore gives strength to resist bad effects from Colds, Catarrh, Rheumatism, Pneumonia, Malaria, the Grip, etc. Take it now and avoid the danger of serious illness. It may save you many dollars in doctors' bills. Be sure to get Hood's and only Hood's.

Hood's Sarsaparilla Cures

"I can truly recommend Hood's Sarsaparilla as an excellent medicine. I have taken four bottles and I am better than I have been for two years past. I was all run down, my limbs swelled and my blood was in a very bad condition. Now I am free from neuralgia and better in every way." MRS. H. COBLEIGH, Hume, N. Y.

Hood's Pills cure all liver ills, billiousness, jaundice, indigestion, sick headache. 25c.

He Resigned to Soon.

While M. Pierre Vaux, a member of the French chamber of deputies from Dijon, was running for the office he made out and placed in the hands of the committee of his party a formal resignation of his seat, leaving the date blank, and telling them that they could fill it out and hand it in whenever they found that he was not living up to his professions. The two factions of his party at home have gotten into a quarrel, and M. Vaux was accused of betraying his trust, so the committee has sent his resignation to the president of the chamber. M. Vaux does not like it at all, and protests that it is not valid. It remains to be seen whether the chamber will hold him to it. If they do, it will be a precedent which may lead toward making tenure of office very uncertain in France. There are not a few constituencies in this country, notably one in Colorado just now, that would like to have such a string to their members in congress

Peculiar Reptile.

S. P. Jeffords of Waycross, Ga., tells of a peculiar reptile which he encountered in that section some four or five years ago. It was a jet-black snake something like six feet in length and had two horns, each about three inches in length, and so situated upon the head that they pointed toward each other. From observations made of the monstrosity as it was rapidly disappearing, Mr. Jeffords thinks that it possessed the power of moving the horns at will.

The meaner a man is, as a rule, the more he thinks of himself.

Don't Offer a Reward

For your lost appetite. All know that it is a valuable piece of personal property, but why go to the expense when Hostetter's Stomach Bitters will restore it to you. A course of that unparalleled tonic and corrective not only induces a return of the relish for food, but confers upon the stomach the power to gratify appetite without unpleasant sensations afterward. For the purpose of quickening digestion, arousing a dormant liver or kidneys, and establishing a regularity of the bowels, no medicine can exceed this genial family cordial, in which the pure alcoholic principle is modified by blending with it botanic elements of the highest efficacy. Avoid the fiery unalloyed stimulants of commerce as a means of overcoming inactivity of any of the organs above mentioned, and use, instead, the Bitters. This professionally sanctioned medicine remedies malarial and rheumatic ailments.

In theory, a man is glad to die, in order to get to heaven.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The great Blood purifier, gives freshness and clearness to the Complexion and cures Constipation. 25c.,50c.,$1.

Men and women never agree on the best way to "raise" children.

MALARIA cured and eradicated from the system by Brown's Iron Bitters, which enriches the blood, tones the nerves, aids digestion. Acts like a charm on persons in general ill health, giving new energy and strength.

There is nothing more serious than what some people consider a joke.

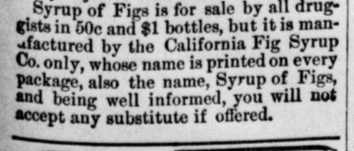

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

COMPARE WITH THEM.

ANSWER THEIR PARADE OF APPROPRIATION FIGURES.

Behold the Array of Bills Calling for Money Introduced by the Democrats, Footing up a Total of Over One Hundred Million Dollars.

"Earl," the Washington correspondent of the Dallas Mercury, furnishes some interesting figures for voters. The Democratic leaders, Hogg, Reagan, Culberson, Mills, Clark, Chilton, and numerous small fry politicians, have howled themselves hoarse telling about the $35,000,000,000 which the Populist representatives offered bills for in two congresses, some of which were introduced by request. But let us read from the record as to what the Democrats have done. "Earl" says:

"I will give you a few figures in the way of answer to the charges of the Democratic orators of the south, who are telling such wonderful tales about the billions of dollars the Populist bills would have appropriated had they all become laws.

I see by the Taxas papers that even as great a man as Roger Q. Mills has belittled himself by getting down to this condition of peanut politics. Solomon said one of the things that was difficult to solve was the way of a man with a maid, but the actions of a modern Democratic politician is still more incomprehensive and inexcusable.

Mr. Wheeler, who hails from the democracy of Alabama, says the Populist bills introduced in the 52d and 53d congresses would have appropriated $35,000,000,000 if they had become laws. Grant that Wheeler is correct, which is a liberal concession to make to an Alabama congressman, and let us compare contingent appropriations with the old parties.

During the Fifty-second and Fifty-third congresses the Democrats and Republicans of the house introduced over 26,000 bills, and more than half of these bills called for appropriations. Of these bills the Democrats introduced about 13,000 or over. I will take eight of these bills, gathered up in an offhand sort of a way, and not selected on account of their appropriations, and here give them and the amount they appropriate:

H. R. bill No. 2167—By Stone of Kentucky (Dem.)	$9.6
H. R. bill No. 729—By Enloe of Tennessee (Dem.)	13,378
H. R. bill No. 1309—By Pendleton of Texas (Dem.)	4780
H. R. bill No. 7784—By Hooker of Mississippi (Dem.)	19,445
H. R. bill No. 397—By McGann of Illinois (Dem.)	4,000,000
H. R. bill No. 6715—By Crain of Texas (Dem.)	60,000
H. R. bill No. 1172—By Stallings of Alabama (Dem.)	50,000
H. R. bill No. 4736—By Hicks of Pennsylvania (Rep.)	100,000
Total called for by eight bills	$4,210,569

These eight bills obtained in a sort of grab-bag fashion show very liberal appropriations, but they don't amount to a shadow to what I will bring out before I close this letter.

Divide the amount by eight and the average appropriation amounts to $526,317.35. As these bills are only an average, I am justified in multiplying the average appropriation by 13,000, which gives $6,842,125,650. Every dollar of this sum, mind you, would have to be taxed from the people. No provision is made for the issue of currency to meet these appropriations.

But this amount is only a little change compared with the dollars the senate proposed to appropriate.

On April 17, 1894, Senator Palmer of Illinois, a Democrat, introduced senate bill No. 1917, which provides:

"First. That the government shall loan to the people at 2 per cent interest three-fourths of the value of all the real estate.

"Second. That the government shall loan to the people at 2 per cent interest on one-half the market of all the wheat, corn, oats, rye, barley, hops, cotton, hemp, jute, tobacco, open kettle sugar and sugar house molasses, or the drippings from sugar, all kinds of nuts, pinders, castor beans, indigo, olive oil, coffee and all kinds of dried fruit.

"Third. That the government shall loan to the people of incorporate cities, towns and villages at 2 per cent interest for sewerage and other sanitary work $100 per capita for their voting population.

"Fourth. That the government shall loan to the railroad corporations three-fourths of the value of all their property at the rate of 2 per cent interest in order to cheapen railroad transportation, etc.

"Fifth. That the government shall offer a reward of $25,000 for the best plan of sewerage and water supply.

"Sixth. That the government purchase all the gold and silver in the United States each year.

"Seventh. That the number of justices of the supreme court of the United States shall be increased to thirteen.

"Eight. That the government shall have all this money printed at the bureau of printing and engraving at Washington, D. C., and that it shall be fiat money and legal tender for all debts, both public and private."

This bill makes some of the Populist bills ashamed of themselves in the way of appropriation.

It provides for printing and loaning to the people the following amounts:

1. Three-fourths of real estate (see statistical abstract)	$29,658,403,240
2. One-half of all farm products mentioned (Ag. R.)	854,098,478
3. One hundred dollars per capita to voters of towns and cities	364,713,400
4. Three-fourths of the value of all railroad property	7,701,726,780
5. For sewerage and water supply plan (reward)	25,000
6. Gold and silver each year mined	105,679,000
7. Four more justices of supreme court	40,000
Total	$38,685,908,904

It would take all of the Kansas delegation in both houses to beat this bill. But this is not all. On Nov. 8, 1893, Senator Palmer of Illinois, introduced senate bill No. 1152, which provided that the government appropriate $64,000,000 to deepen the channel of the Mississipi river.

Then Senator Morgan of Alabama introduced a Nicaragua canal bill, calling for an appropriation of $100,000,000.

L. F. Livingston, who, under the Alliance cloak, succeeded in breaking into congress, and after he got in went back on the Alliance and came out a full-fledged Cleveland cuckoo, introduced house bill No. 8577, calling for an issue of $40 per capita, which would be $2,800,000 annually, or for ten years $28,554,000,000.

Mr. Miller of Wisconsin, on Feb. 14, 1893, introduced house resolution No. 10,493 calling for the appropriation of $28,000,000,000.

Then the Pacific railroad bill, which proposes to reloan these roads at 2 per cent per annum $120,000,000, the amount they now owe the government.

I think I have gone far enough now to get up a rather startling recapitulation, and one that will cast a dark ecliptic shadow over the bills introduced by the Populists. I sum up as follows:

1. 13,000 bills introduced by the Democrats and Republicans during the 52d and 53d congresses	$ 6,842,125,556
Senate bill No. 1917, by Palmer of Illinois	38,685,908,904
Nicaragua bill, by Morgan of Alabama	100,000,000
H. R. bill No. 8577, by Livingston of Georgia	28,534,000,000
H. R. bill No. 10,493, by Miller of Wisconsin	2",466,000,000
Pacific railroad bill	120,000,000
Total	$101,748,034,454

Many of the bills introduced by the Populists were presented by request, but Mr. Wheeler does not so state in his speech. He also includes Populist bills introduced at both the 52d and 53d congresses; so I have done, but have not included all of the appropriations by a long ways. In fact, I have ignored the regular appropriation bills that passed providing for an appropriation of one billion dollars at the last session. Thus it will be seen that if all the Democratic bills had become laws, other planets would have to be searched to find money to meet the appropriations.

Now compare with them. How does $35,000,000,000, (Populist) compare with $101,748,034,454 (Democ-Rep.) eh? The truth is, we have the Democrats on the run, and will elect our ticket by 35,000 majority in Texas.

Kansas Again.

The Stephenville Journal repeats the lie about the Populist administration of Kansas increasing the state tax from $1 on the $100 in 1891 to $3 this year. By referring to the statement of D. C. Zercher, treasurer of the state central committee, it will be seen that the Populists have reduced the state tax levy $71,324.36 and saved the taxpayers by the reduction of salaries of county officials $244,651. Also it took from the shoulders of the common tax payers $622,854.42 by equalizing railroad assessments with other property. Last year the state tax levy under Populist control was the lowest ever known and there is more money in the state treasury than ever before. In short the Populists have saved the state $1,500,000 over its Republican predecessors. And eastern money lenders who own Kansas securities drawing six per cent. are anxious to renew them at four per cent.—Commanche Pioneer Exponent.

Will Somebody Tell?

Will somebody tell us what is the matter with this country? It is said there is an overproduction of wheat and cotton; that cotton mills are restricted in operation owing to accumulated stocks; that the banks have more idle money than ever before. Yet there are thousands of people in the cotton fields clad in tatters and rags; thousands of farmers and their families, cotton and wheat growers, whose garments show the constant wear of years; thousands of people who scarcely earn enough to live upon the plainest food, and millions who subsist nobody knows how. Only a few are accumulating wealth, while the masses are struggling for the necessaries of life.—Shreveport Caucasian.

Yes, neighbor. It is suffering from a false financial and commercial system, the direct result of Democratic and Republican legislation. There is not enough money, and what there is is controlled by a money trust, to which every national banker belongs.

Of Little Benefit.

E. W. Emory, a member of a firm doing a large clothing business in New York city, says: "There won't be much difference in the cost of men's clothing on account of the new tariff. The abolition of the 40 cents a pound duty on imported cloths will result in the lowering of the price of a summer suit to the extent of $1.32, and $1.66 on heavier fabrics. As for ready-made clothing it looks as though bed-rock prices have already been reached, and I don't see how the 'hand-me-downs' could get any cheaper. In fact, they may take a rise, for the inhuman sweating system is apt to be broken up at no distant day."

Hogg on Nugent.

During his speech at Waco someone asked Gov. Hogg what he thinks of Judge Nugent, and he answered: "He is a gentleman, a pure man and a scholar."

China seems to be like the Democrats. When they get into a fight now-a-days they are annihilated.—New York Tribune.

Money value, and not intrinsic value, is what a dollar must possess.—Indianapolis (Ind.) Nonconformist.

SWEEP THE STABLE.

TURN EVERYONE OF THE RASCALS OUT.

Honest and Capable Men Must Take the Place of Extravagant, Embezzling and Negligent Officials—Must be a Curtailing of Expenses—Grand Juries.

The indictment of public officials all over the country by grand juries shows that the people intend to have honest government or fill up the penitentiaries. It is extravagant embezzling or negligent public officials who make Populists and anarchists. Common honesty is what is needed in public life, and we must have it. The taxpayers can keep on the track and run down dishonest officers, even if they can't reach the national government. Reward honest officials and convict dishonest ones—keep extravagant and dishonest men out of office. These should be cardinal principles in every community. There must be a curtailing of public expenses all along the line, or there must be a tax rebellion. The people cannot stand governmental expenses on the present scale. Let official salaries come down to a wheat and cotton basis, and defeat the men running for office who are not willing to do this.—Dallas Times Herald.

The grand jury of Dallas county indicted W. N. Coe, county treasurer, because he is a defaulter in the sum of $13,000, and also three of the county commissioners' court for being accessories, to-wit: Messrs. Tom Fisher, N. O. McAdams and W. A. Orr, all Democrats, and all candidates for re-election, except Mr. Orr, who is the nominee of the Democrats for the legislature. A few days after, the same grand jury indicted F. C. Callier as secretary and treasurer of the Trinity Cotton Seed Oil Mills as being a party to the Cotton Seed Crushers' association. In the same issue of the Times Herald that the above editorial appeared in, the following was clipped from the local page:

"Mr. Callier's friends are indignant at the action of the grand jury. They say the jury was made up of three old party men and nine Populists, and that the latter allowed their prejudices to get the upper hand, and that they are trying to use the courts to force up the prices of their own products."

Comment is unnecessary. Hurrah for reform from constable to president.

EDITORIAL OPINIONS.

The word "parity" was invented to hide something—the goldbug under the chip.—Beeville (Tex.) Picayune.

In 1892 Democrats insulted and rotten-egged Gen. Weaver. In 1894 Democrats nominated him for congress. What a change.—Comanche Pioneer Exponent.

The cry of pure Democracy comes of that hypocritical cant so characteristic of the slick-tongued demagogue who wants place and power.—Columbia (S. C.) Cotton Plant.

In enumerating "what we done" in their stump speeches neither Crisp, Hoke Smith nor Mills mentioned the repeal of the silver clause of the Sherman bill.—Colgate (I. T.) Independent.

It is the opinion of the Journal that the unqualified indorsement of Cleveland's administration by the state convention will cost the Democratic party 25,000 votes.—LaGrange Journal (Dem.)

If the Democratic leaders of to-day had lived in 1776 they would have shot Washington, hung Patrick Henry and sent Jefferson to jail as an anarchist and calamity howler.—Southern Mercury.

Sometimes successful politicians become so filled with the idea of their own importance they forget that the voters have something to say regarding matters of public interest.—Kansas City Journal.

Paternal, Eh?

J. M. Kane writes the Topeka, (Kan.) Advocate as follows:

To show up some of the paternal legislation that the Republicans have been basking their Demo-Republican pets in, find the following "balance sheet," based on the Sherman-Carlisle bond issue:

THE PEOPLE IN ACCOUNT WITH THE BOND-HOLDERS.

Bonds	$ 50,000,000
Five per cent interest per annum	2,500,000
Ten per cent interest on interest paid in advance	250,000
Ninety per cent bank notes on which the people should have ten per cent interest per annum	4,500,000
But which they are forced to borrow out of the banks at ten per cent	4,500,000
Rebate of tax on bonds and bank notes, ten per cent per annum	1,903,000
Total for one year	$108,650,000

For ten years the $50,000,000 of the Sherman-Carlisle bonds, will cost the people, with interest and exempt from taxation, we have the paternal, infernal extent to which the government has hovered these bunco-bankers under its wings to the tune of $1,086,500,000.

And this is not all. Loaning of deposits come in for much more, but as far as carried out above, at the end of ten years the account will stand:

Cost for gold basis	$1,086,500,000
Tax on bank circulation	5,000,000
Total paternalism	$1,081,500,000

It is said that 6000 years have elapsed since Adam lived. Counting 300 work days in one year and allow Adam $50 for every work day since Adam would have but $90,000,000, had he saved every dollar of it. But Adam would have to work 72,100 years more to obtain $1,081,500,000.

Vote the Republican or Democratic ticket and be a dirty, lousy slave, or vote the Populist ticket and do away with bonds and interest forever.

Do You Wish the Finest Bread and Cake?

It is conceded that the Royal Baking Powder is the purest and strongest of all the baking powders.

The purest baking powder makes the finest, sweetest, most delicious food.

The strongest baking powder makes the lightest food.

That baking powder which is both purest and strongest makes the most digestible and wholesome food.

Why should not every housekeeper avail herself of the baking powder which will give her the best food with the least trouble?

Dr. Haines, of Rush Medical College, Consulting Chemist of the Chicago Board of Health, says: "Royal is not only the purest, but the strongest baking powder with which I am acquainted."

Town Celebrates.

The quaint little Flemish town o Furnes, situated twelve miles from Dunkirk, has just celebrated its annual procession with the fervor of the middle ages. This procession, which in reality is a passion play, enacted by groups, was instituted many centuries ago, in atonement for the sacreligious act of two soldiers, and has since undergone no change. The town becomes for this single day in the year the rendzvous for devotees and pilgrims from all parts of Belgium. The procession consists of forty groups, and the costumes—many of which are provided by the inhabitants of the town, who regard it as a privilege to figure among the actors—are of the richest description. The sacrifice of Abraham, the prophets, St. John leading a lamb, the stable of Bethlebem, with Mary and child, the shepherds, the kings of the East, the flight into Egypt, and all the episodes of the Savior's life, his entry into Jerusalem with the apostles, the last supper, the Garden of Olives, the betrayal by Judas, and the scenes of the crucifixion are the groupes which constitute this panorama of the Passion. Each group is preceded by penitents wearing long robes, with head and face concealed by a cowl, and walking barefooted. As soon as the passion play is over the public houses are besieged and dancing begins in the numerous booths set up for the occasion.

A Percolating Cup.

A London novelty is a patent cup intended to enable the user to dispense altogether with a teapot. This is effected by means of a percolating mouthpiece, either made as a part of the cup itself or separately, in various kinds of metal, fitting any ordinary cup, to the edge of which it is attached by a simple clip, which enables it to be easily removed for the purpose of being cleansed. The percolating cup is used by putting the required quantity of tea or coffee into the cup, pouring on the boiling water, giving a few seconds for perfect infusion, when a pure and refreshing beverage is produced, which can be drunk off or poured through the percolater, thus dispensing with the use of a teapot and the often unpleasant effects of the same on the palate, as well as insuring economy in the use of the tea.

A Wooden Plate.

Prospectors for gold in Mashonaland recently found near the ruins of Zimbaye a wooden plate about thirty inches in circumference carved with the figures of a crocodile, the sun, moon and three stars, and what seems to be intended for signs of the zodiac. The plate has been sent to Cape Town and will be examined by archæologists.

Impudence is sometimes mistaken for liberality.

Every man hates his rival, but some of them successfully conceal it.

A New System.

The government of New South Wales proposes to put an end to the sale of the public lands and to introduce a system of long leases, with guarantees for continuous residence on the part of the lessees, and to gradually subdivide the great pastoral holdings into smaller homestead aliotments.

For Dyspepsia, Indigestion and Stomach disorders use Brown's Iron Bitters—the Best Tonic. It rebuilds the system, cleans the Blood and strengthens the muscles. A splendid medicine for weak and debilitated persons.

How a bride would go on at the funeral if she should become a widow.

"Hanson's Magic Corn Salve."

Warranted to cure or money refunded. Ask your druggist for it. Price 15 cents.

At 18 a man is afraid his mustache will never grow, but at 28 he is afraid it will never stop growing.

If the Baby is Cutting Teeth.

Be sure and use that old and well-tried remedy, MRS. WINSLOW'S SOOTHING SYRUP for Children Teething.

That woman never lived who was satisfied with a man, and the men are equally cranky about a woman.

BUDS, Society buds, young women just entering the doors of society or womanhood, require the wisest care. To be beautiful and charming they must have perfect health, with all it implies—a clear skin, rosy cheeks, bright eyes and good spirits. At this period the young woman is especially sensitive, and many nervous troubles, which continue through life, have their origin at this time. If there be pain, headache, backache, and nervous disturbances, or the general health not good, the judicious use of medicine should be employed. Dr. Pierce's Favorite Prescription is the best restorative tonic and nervine at this time. The best bodily condition results from its use. It's a remedy specially indicated for those delicate weaknesses and derangements that afflict womenkind at one period or another. You'll find that the woman who has faithfully used the "Prescription" is the picture of health, she *looks well* and she *feels well*.

In catarrhal inflammation, in chronic displacements common to women, where there are symptoms of backache, dizziness or fainting, bearing down sensations, disordered stomach, moodiness, fatigue, etc., the trouble is surely dispelled and the sufferer brought back to health and good spirits.

"WOMAN'S ILLS."

MRS. W. R. BATES, of *Dilworth, Trumbull Co., Ohio*, writes:

"A few years ago I took Doctor Pierce's Favorite Prescription, which has been a great benefit to me. I am in excellent health now. I hope that every woman, who is troubled with 'women's ills,' will try the 'Prescription' and be benefited as I have been."

MRS. BATES.

Use ST. JACOBS OIL FOR PAINS RHEUMATIC, NEURALGIC, SCIATIC, And all the World Knows the CURE is SURE.

NO OTHER SOAP DOES ITS WORK SO WELL.

ONE TRIAL WILL PROVE THIS.

SOLD EVERYWHERE

MADE BY THE N.K. FAIRBANK COMPANY, ST. LOUIS.

OVER THE COUNTY.

HIGHLAND.

Health generally good, some sickness on the creeks, especially on Armstrong, chills and fever.

Cotton picking is still the order of the day.

Mr. Wilson Hudson and Miss Jessie Gentry were married at the residence of the bride's parents Thursday evening of last week, Rev. J. H. Humphreys officiating.

"Grandma" Burnett and Miss Lizzie Blackstock left last Thursday on a visit to relatives (Mr. and Mrs. J. P. Rogers) in Hico, and from there to Duffau, visiting other relatives and friends. They returned this week.

VICTOR.

Cotton picking is progressing nicely and the gins are busy most of the time. Smith's gin has turned off sixty-eight bales.

The little daughter of D. C. Smith has been very sick for some days, but is mending now.

Miss Ann Smith, of Mineral Wells is visiting her relatives, J. B. Smith and family this week.

No weddings to report.

LINGLEVILLE.

The people of this section are gathering the fleecy staple just as though it was worth eight or ten cents a pound.

Mr. Snipes, the gin man, has ginned about 600 bales. The crops are generally better than thought some weeks ago.

Not much improvement going on owing to the low price of cotton.

J. E. Wansley has had a neat dwelling erected, near the college, which is occupied by Prof. Arnold.

Our school is in a prosperous condition. Prof. Brown has a commercial class at night.

We were granted the privilege of attending a musical entertainment given by Prof. Brown and Miss Mabel Parks of the high school faculty.

Prof. Higgs has a very sick child; otherwise health in this vicinity is good.

We had the pleasure of witnessing the marriage of W. H. Howard to Miss Mollie Floyd on the 27th. Mr. Howard, as you will remember, was a candidate for sheriff and came down and announced as a candidate for matrimony and was elected by a majority of one.

COWAN.

Cotton picking is a little backward in the Paluxy valley owing to the fact that it has not matured so early as upon the uplands.

The present dry spell is pushing the "top crop" to maturity and giving promise of a fine yield. Nimble fingers are kept busy and aching backs bent "from early morn till dewy eve," and the fleecy staple rushed off to market as fast as gathered, by most farmers, and turned in on account or sold for cash. While a great many men will not be able to pay up all debts most farmers will be in better circumstances at the end of this season than last year.

Health good except a few cases of "slow fever." Miss Matty Smart has been quite low with the fever for about six weeks, but is thought to be improving. Miss Callie Gass is also quite sick, but it is hoped both will recover soon under the skillful treatment of Dr. Gordon.

The good people gathered at Mr. P. J. Smart's and picked out his cotton last week, which he had been forced to neglect on account of the sickness of his daughter. He says he cannot express his feelings towards his neighbors for such an act of kindness.

Chicago Market Letter.

As reported especially for the PROGRESS from the Union Stock Yards, Chicago.

CHICAGO, Oct. 6, '94.

Beef cattle for the past week have had a little shaking up, starting with a decline of 10 cents they sold some lower on a weak and unsteady market for the first three days. Thursday brought lighter receipts and a more active demand, improving again on Friday the buyers cleared up the yards in better shape than it was thought possible.

The call for feeders has been much improved in tone — much more cattle going out, but prices here as yet show no advance.

Western rangers have been in liberal supply the whole week with quite a decline, yet they sold more steadily Thursday and Friday with a slight advance. The Texas trade is light for there is but little doing in that department.

Those sold Friday were:

6 cows weighing	590 lbs.	at	$1.90
22 steers "	952 lbs.	at	2.70
29 calves "	260 lbs.	at	3.25

Fed Texas steers are quotable at $3.00 to $3.50.

The sheep market has had a week of it, yet with the extraordinary run the market is not in such bad shape as one would think.

Western sheep $2.50 to $3.20.
Western lambs $3.50 to $4.05.
Native sheep $3.00 to $3.40.

Don't fail to hear Hon. T. L. Nugent at Stephenville on the 22.

Citation by Publication.

THE STATE OF TEXAS, IN THE DISTRICT COURT, OCTOBER TERM, A. D. 1894.

To the Sheriff or any Constable of Erath County—Greeting:

You are hereby commanded, that by making publication of this citation in some newspaper published in the county of Erath, for four weeks previous to the return day thereof, you summon Lela Smith, whose residence is unknown, to be and appear before the District Court, to be holden in and for the county of Erath, at the court house therof, in Stephenville, on the seventh Monday after the first Monday in September, A. D. 1894. File number being 1590, then and there to answer the petition of G. G. Smith, filed in said court on the 28th day of March, A. D. 1894, against the said Lela Smith, and alleging in substance as follows, to-wit:

That on or about the 14th day of February, 1889, plaintiff was duly married to the defendant in Hopkins county, Texas; and that plaintiff and defendant continued to live together as man and wife until the 3rd day of April, 1893, when the defendant voluntarily left the plaintiff's bed and board with the intention of abandoning this plaintiff, and that defendant has never returned to plaintiff but has refused to do so.

That it has been more than three years since defendant left plaintiff. That plaintiff neither caused, procured nor consented to the separation, and that he, at all times treated the defendant with kindness.

Wherefore plaintiff prays that the defendant be cited to answer his petition, and that he have judgment that the marriage existing between him and defendant be dissolved and for cost of suit, and in duty bound will ever pray.

HEREIN FAIL NOT, but have you then and there before said court this writ, with your return thereon, showing how you have executed the same.

WITNESS, J. J. BENNETT, Clerk of the District Court of Erath county.

Given under my hand and seal of said court, in Stephenville, this the 11th day of September, A. D. 1894.

J. J. BENNETT,
Clerk, District Court, Erath County, Tex.

Direct Legislation.

In this issue we give a short explanation of the initiative and referendum, or direct legislation. This is one of the demands of the People's party, and if thoroughly understood and put in practice would afford the relief from corporate monopoly which the people so much desire. In speaking of the benefits to be derived from its adoption the Loyal American says:

It will simplify laws.
It will control monopoly.
It will purify the ballot.
It will supplant violence.
It will broaden manhood.
It will prevent revolution.
It will make people think.
It will accelerate progress.
It will banish sectionalism.
It will sever party bondage.
It will simplify government.
It will wipe out plutocratic dictation.
It will reduce taxation to a necessity.
It will prevent the bribery of our law makers.
It will establish home rule in all municipalities.
It will restore to the people their natural rights.
It will aid honest representatives in serving the people.
It will give us a government by the people for the people, whose corner stone is equal and exact justice to all.

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. R. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

SHERIFF'S SALE.

STATE OF TEXAS, }
COUNTY OF ERATH. }

By virtue of an alias order of sale to me directed, issued out of the Honorable District Court of Erath County, on the 4th day of October, 1894, on a judgment rendered in said court on May 21, 1894, in a case therein pending, numbered 1552, wherein the following parties were plaintiffs, to-wit: A. A. Chapman, Margaret L. and Grace A. Chapman by their guardian and next friend, John E. Chapman, as such guardian, of Erath County, Texas; the Elgin Live Stock Co., the Elgin City Banking Co., foreign corporations of Illinois; the First National Bank of Elgin, and the Home National Bank of Elgin, Elgin, Ill.; H. F. Hatch, receiver of the American National Bank of Arkansas City, Kan; C. H. and F. A. Larkin, Jno. Newman, Mary A. Balch, C. K. Colver, Maud, Jessie and Blanch Blanchard, Mary A. Turner, C. E. Rosencrans, Jennie B. Dexter, Edward C. Lovell for himself and as administrator of the estate of Lucy Morgan, Charles and Fred Wolff, S. E. Weid, F. E., W. G. and Mary Suttin, N. P. Collins, F. L. Shepherd, John Campbell, Caroline L. Adams, Charlie P. Dean, Jane Ryan, Sylvester McAllister, Floyd S. Ainsworth, John H. Flynn, Charles Miller, Fred Sternberg, John Schroder, Henry Bohnie, George W. Smith, Chas. Samuelson, Mary Marshall, Henry Schlager, Arwin E. Price, George Plumer, Jeannette Sherman, Alfred Henry and Abbie Bosworth and Percy W. Farrington. And the following named parties were defendants, to-wit: M.W. DuBois, John W. DuBois, Susan A. Swan and her husband T. F. Swan, and Mary L. Richards. And which said order commands me to sell as under execution, the following premises, and apply the proceeds thereof as in said order is named, to-wit: The 1,476 acre survey of land in Erath County, Texas, in the name of Daniel Bradley, near Dublin, Texas, and further described as beginning at the N. E. corner of Elijah Henning survey for the S. E. corner of the Bradley survey; thence N. 19 E. 3,800 varas to N. E. corner of Bradley survey; thence N. 71 W. 2,192 varas to its N. W. Corner; thence S. 19 W. 3,800 varas to N. W. corner of E. Henning survey; thence S. 71 E. 2,192 varas to beginning, being the same land described in a trust deed which is recorded in the mortgage records of Erath County, volume "G," beginning on page 16.

Wherefore I have this day levied on said land and endorsed the same on said order of sale this day; and I will, on the first Tuesday in November, A. D. 1894, at the courthouse door of Erath County, at Stephenville, Texas, between 10 o'clock a. m. and 4 o'clock p. m., on said day offer for sale the above described premises at public vendue, for cash, to the highest and best bidder therefor, and I will there make to the purchaser such conveyance as by said order I am authorized, and will apply the proceeds thereof as in said order I am directed.

Witness my hand, at Stephenville, Texas, this the 4th day of October, A. D. 1894.

N. J. SHANDS,
Sheriff Erath County, Texas.
By J. W. FULKERSON, Deputy.

The
World's Tribute to
Dr. Price's Cream
Baking Powder
Highest Honors Awarded
by the World's Columbian Exposition,
Chicago, 1893

World's Fair
HIGHEST MEDAL
awarded to
Dr. Price's Cream Baking Powder

The highest award was given on every claim, comprising superiority in leavening power, keeping properties, purity and excellence. This verdict has been given by the best jury ever assembled for such a purpose, backed by the recommendation of the Chief Chemist of the United States Department of Agriculture, Washington, D. C., who made an elaborate examination and test of all the baking powders. This is pre-eminently the highest authority on such matters in America.

This verdict conclusively settles the question and proves that Dr. Price's Cream Baking Powder is superior in every way to any other brand.

NOTE.—The Chief Chemist rejected the Alum baking powders, stating to the World's Fair jury that he considered them unwholesome.

J. Z. MILLER'S
NEW YORK STORE

JUST FROM NEW YORK
WITH THE LARGEST STOCK OF
Clothing, Dry Goods, Boots, Shoes, Hat
Etc., ever brought to Dublin. Everything is complete. It will pay you to examine prices given and to come and price everything you need in my line not quoted below.

I WILL SELL YOU

Together with a large line of Woolen Dress Goods of all styles, at prices that defy competition. I ha
every color and quality of Eider Down imaginable, at prices that will suit you, and
I will say "without fear of contradiction" that my stock of

CLOTHING

Is Larger than that of all the other merchants of Dublin combine

Good Suits from $2.75 up. And for $5.00 to $7.00 I can give you a suit good enough for anybody—nothing shoddy about them.

All-wool Jeans Pants, $1.00. Good Jeans Pants, 65 cents. Best Heavy Cotton Pants, 75 cents. Cassimere Pants, of all styles, in proportion.

I HAVE A LARGE LINE OF
LADIES AND CHILDREN'S CLOAKS, CAPES, ETC
The very latest styles, which I will sell at One-Half of Fort Worth and Dallas Prices. My line of
LADIES, GENTS' and CHILDREN'S SHOES
Is complete. I will sell good Ladies' Shoes for 75 cents.

OIL RED CALICOES (FIGURED), 25 YARDS FOR $1.00.

Some think that I can't sell goods because I am not in the heart of the city. But it seems to me that after having gone 2,200 miles for cheap goods to suit the people, that they cannot let pass the opportunity of walking one-half block to examine them before buying elsewhere. This is the same J. Z. Miller who sold you cheap goods last fall, and he has the goods and is prepared to sell them cheaper than ever.

COME AND SEE ME
J. Z. MILLER.
