

mack's tracks -by dave

Say, we almost had a real ring-tailed booger this past weekend! Had the snow fallen a little longer, things would've been in a real mess.

There are those we know who think it is a mess now, but we can Thank the Lord that it all quit when it did.

We got really tickled at Bill Sladek Sunday morning. His family was literally trapped in their home as the winds had drifted snow coming from across the Little League Park on their front porch resulting in a pile that went from the bottom of the porch to the top and all right in front of their front door. As you can imagine in a storm like this one was, the back yard was almost clear, at least around the back door.

So, the Sladeks could get out of the house and when last seen the boys were digging out the front end of the home.

There were plenty of cars and pickups stranded in drifts all over town, but this time the area surrounding the city park was worst hit. The north end had its drifting problems and the Stowers home was all drifted in but by using the alleys they were all able to get around Sunday morning.

And speaking of drifts, we hoarawed Jack and Gisela Davis Sunday for building their home where they have. They get all the "benefit" of snow blowing down from the north and the result this time was snow piled up to a depth of about eight feet all across their yard. Their car's shelter was almost buried and Jack reported you could walk out of their backyard fence on the snow and it is a six foot fence. Oh well, think of the way it will make the grass grow this spring!

We couldn't believe that Amarillo wouldn't "buy" the idea that we had a blizzard going on up here Saturday. We called several times to report road conditions and asked that they announce our roads were blocked and all traffic was stopped here. They just wouldn't believe it we reckon, mostly for they didn't have any snow to speak of.

However, for those who had to get out Saturday, they really believed it!

We had to admire Eugene Wilson and Arvil Griffin and the others over at Southwestern Public Service Company and the men we don't know with the Rita Blanca Electric Cooperative at Dalhart.

As many in the country know, the power lines were out most of Saturday but these men worked in most adverse conditions to restore power where they could.

We know we wouldn't have thought much of the idea of crawling up one of those poles on a bright sunny day, let alone when the wind was doing its best to blow you off and the snow hitting and stinging your face like a lash.

There are others who worked to make like a little more bearable during the storm also. Wayland Brown and all the Texas Highway Department crew were out from 3:30 a.m. Saturday until after midnight working on roads.

Leland Lewis took time to help get one man to Doctor Harlow's office Saturday afternoon when conventional vehicles couldn't make it down Purnell Street.

Members of the Stratford CB Club took 4-wheel drive vehicles out to rescue stranded motorists at the risk of their own safety, and just many more.

We'd like to pass out bouquets to them all, they worked hard and long for all of us.

We were visiting with Mayor Wall the other day and she reports the city crews have been quite busy of late, with all the snow to move off the streets and exchanging the new trash containers.

As soon as they get the opportunity they will empty all the old barrels sitting around, but the weather just hasn't been to where this could be done. We agree, for there is more cost in keeping the snow off the streets than a bunch of barrels to be emptied. We dread to think what it is going to cost to repair all our streets when this winter is over anyway. The parking lot at our office is typical in that a fella can get lost in a couple of the holes

SUNDAY MORNING SCENES--As Stratford began to dig out early Sunday morning James McClelland (Top Left Photo) came by to help out John Wilson as John dug his car out of his garage but required chains and much pulling to get it through the drifts in the street. Top Right Photo, the view of the intersection of Spruce and North Fifth shows two

vehicles completely under drifts which came across the area. Bottom Left Photo is the Bill Sladek home with the drifted up front door and Bottom Right Photo shows those who enjoyed the snow the most, the kids. These youngsters were found digging tunnels in the snow by the Lundberg residence and the boys playing on the big drift with their sled.

Explorer Post Explained To Lions

Bill Riffe explained the workings of the new Explorer Scout post in Stratford to members of the Stratford Lions Club, sponsors of the post, and told how they could help with the new program.

The Explorer Post is for both boys and girls 16 years old and older and they are asking for program ideas, Riffe pointed out.

All members present at the meeting Monday night filled out questionnaires concerning their hobbies and contacts that may provide suitable programs for the group.

In a brief business session the Lions Club Pancake Supper, slated for Friday, February 9, was discussed and the several committee chairmen were named.

Gary Lundberg is serving as general chairman for the event with Joy Smith and Dave McReynolds in charge of preparing the bacon; Joe Walsh is in charge of the pancakes, Phillip Bain is in charge of dishwashing with members of Boy Scout Troop 38 to help serve the tables. Tickets for the event are now available.

DISTRICT TITLE AT STAKE

Vital Games On Tap For Elks, Elkettes

Stratford's Elks dropped their first District IAA game this week to the Dalhart Wolves but Dalhart was kind enough to also down Spearman Lynx Friday night and the Elks find themselves still atop the ladder in district competition.

As this issue goes to press Tuesday both the Elks and Elkettes will be on the road to Spearman where the girls' division race will be decided when the league-leading Lynxettes, sporting a perfect 5-0 district record will entertain the Elkettes, who have a 4-1 record. If the Lynxettes win the contest it will virtually assure them a shoo-in for another District IAA crown. If the Elkettes win it will knot the district play and provided both teams go through the remainder of the regular district games undefeated they will go into a sudden death playoff for the title.

The Elks remained one game ahead of Spearman and Dalhart as this issue goes to press and they will be meeting Spearman's Lynx at Spearman Tuesday. If the Elks can down Spearman and go on undefeated the remainder of the regular season they will have the district crown tied up.

However, the Dalhart Wolves are coming on strong and at this point seem to be the spoiler in anybody's title hopes this year.

This past week Dalhart upset the Stratford Elks 42-34 at Dalhart but the Elks bounced back on Friday night to down Phillips Blackhawks here by the tune of 82-49.

The Elkettes won both their contests this week to stay only

Games Rescheduled

The Stratford Freshman Tourney, which was delayed by snow earlier this year, has been rescheduled for Saturday night with the finals in that event to begin at 6:30 p.m.

There will be two games with the Stratford 9th Girls vs Dumas beginning at 6:30 p.m. then the Stratford 9th Boys vs Spearman with the game beginning at 7:30 p.m.

one game behind the favored Lynxettes as they bounced Dalhart's girls 63-45 then took Phillips 52-40 to stay 5-1 in district action and 20-2 for the season with both the defeats coming at the hand of Spearman.

Only two weeks remain in the season with district games concluding on February 9 when the Stratford teams entertain Dalhart here.

As this issue goes to press the Stratford boys and girls will be playing Spearman (Tuesday night, there) then Friday night the Elks will meet Boys Ranch here and the following Tuesday (Feb. 6) hit the road to Panhandle where both boys and girls play then back home with the final district game with Dalhart.

Recapping this past week of action, all district games, the Elks fell to the Dalhart Wolves Tuesday on the road 42-34.

The Wolves lead early 8-4 but the game was knotted at 16-16 at the half. The Elks were colder than last Saturday's blizzard throughout the contest and never found the range of the bucket and trailed 26-24 at the end of the third stanza. Trailing by five points midway in the fourth the Wolves went into a stalling game and pulled out to an eight point advantage as the Elks fought back desperately but lost 42-34.

Jerry Pool and Jack Schriber shared high points for the Elks with 10 each while Reynolds hit for 14 for the Wolves to take high honors in the game.

Friday night it was a different set of Elks that took on the Phillips Blackhawks turning in their most awesome offense and one of their better defensive efforts of the year.

The Elks took charge to lead 13-6 at the end of the first stanza as Jerry Pool hit for nine of the Elks' 13 points. The Elks continued to lead in the second rolling up a 35-18 halftime score and hitting for 22 points while only allowing 12 for the Blackhawks, six of them on the field goals and the rest from the charity line.

In the third quarter the Elks

hit for 18 while allowing 13 to pull out in front 53-31 and Coach Sam Britte emptied the bench with nearly seven minutes left in the game and the bench hit for 29 points while giving up 18 to give the Elks an 82-49 victory.

Jerry Pool was high scorer in the game with 17 points followed by Gary Pool with 14 and Mike Hughes got 12. Rankin was high for Phillips with 11 points.

In girl's action this week the Elkettes downed Dalhart 63-45

ROADS BLOCKED ALL DAY --

First Real Blizzard Hits Area Saturday

Everyone knew it had been too good to last, the luck this area has had with snow thus far this winter and Friday night it came to an end as the area received from 4-6 inches of new snow accompanied by winds that blew 50 mph and at times in excess of 70 mph all day Saturday.

The snowfall began after midnight Friday and by about 3:30 a.m. Saturday Wayland Brown's Highway Department began working with snow machines to clear the roads. About 6:30 a.m. the wind began to blow and the snow began to drift.

By daylight visibility in Stratford proper was down to less than a block and out in the country it was zero.

Pushed by high winds the wet snow drifted and had east to west county roads impassable in a matter of hours.

Despite the efforts of the highway maintenance men the roads began to snowpack and by 9:30 a.m. all major highways out of Stratford were closed.

"It wasn't a matter of road conditions itself," Brown pointed out. "It was the fact that nobody could see with the snow propelled by winds over 60 mph."

The road blocks at the intersection of Highways 54 and 287 in Stratford were manned by highway crews until about 11 p.m. Saturday night when the winds finally began to calm.

Sunday morning dawned bright, clear and cold, but no wind! Cattlemen began to get out as quickly as they could get vehicles out of drifts and began the hunt for drifted herds.

The blowing snow was hard on cattle. At one time Saturday afternoon, small bunches of cattle were drifting down Highway 287 and into town. No telling how many were hit by cars and trains during the day Saturday and that night.

Sunday the cattleroundup began.

Sheriff Clois Vaughn reported his department was kept busy trying to get people out of cars that had gotten into snowbanks. Despite the roadblocks in Stratford several big trucks made a run south toward Dumas after noon and got only as far as the Coldwater draw just south of town. At this point one of them jackknifed and when highway crews found time to help there were four large rigs plus several autos jammed into a giant tangle of drifted snow, trucks and autos.

The Gruver Highway (State Highway 15) was a nightmare as drifts crossed it at almost every telephone pole. Several employees of Stratford Feed Yards became stranded just east of town when they were unable to negotiate drifts.

To complicate matters even more, Southwestern Public Service and Rita Blanca Rural Cooperative's power lines began to short during the early morning hours knocking out power to the huge feedlot and many rural areas.

Eugene Wilson, local office manager of SWPS Co., blamed the high winds for their power failure.

"The winds got the lines to swinging and they got into each other shorting out power," said Wilson.

Crews were out to work on the effort to restore power despite the blizzard conditions and had all the SWPS area restored by late Saturday afternoon.

Dr. Claude Harlow was needed in an emergency situation Saturday afternoon as T.G. Sirmons suffered a severe illness. Dr. Harlow could not make it only five blocks from his home to the clinic and Leland Lewis of the highway department finally got the doctor and made his way across the city park and other vacant fields to get the doctor and patient together.

Sheriff Vaughn told The Star late Saturday that if the storm had kept up much longer they were going to get out the new

emergency tracked vehicles the county recently secured. The big tracked vehicles can hold up to 10 people comfortably and are able to make speeds of up to 30 mph in the snow.

Late Saturday word was received of two stranded vehicles up in the Texhoma area. Communications were cut off with Texhoma so two 4-wheel drive vehicles left Stratford headed to help the pair. Later word was gotten to Texhoma about the rescue mission and a county maintainer from Commissioner

Dale Hamilton was sent to aid the members of the Stratford CB Club who were on the way. These folks were gotten to safety later Saturday night.

Estimates to cattle deaths were still hard to nail down this week as ranchers and stockmen were still trying to untangle the mixed herds of loose animals that roamed southward.

From all reports, Stratford was on the extreme edge of the storm system. The blizzard conditions quit just eight miles southwest of Dalhart and south of Dumas but extended eastward all the way to Wichita, Kansas, and up into most of eastern Colorado.

Rita Blanca Announce Contest Winners

Barry Green of Dalhart and Crystal Brian of Dumas were winners of the ninth annual Government in Action Youth Tour speaking contest sponsored by Rita Blanca Electric Cooperative.

The contest, held at offices of the cooperative Saturday, had as its theme "This I Believe" and speeches were on this theme. In addition, a written quiz on rural electric cooperatives, counted 40% of the total score of the contest.

They will take all-expense paid trips to Washington, D.C. in June, along with winners of similar contests from throughout Texas. The trip will begin June 8 from Waxahachie, Texas, and will conclude on January 19.

Alternate winner, who would make the trip in the event neither of the winners could go, was Janie Christie, also of Dumas. Green is the son of Mr. and Mrs. Keith Green of Dalhart. He is a junior in Dalhart High School and is drum major with the Golden Wolf Band, and is also active in speech activities at Dalhart High. He is president of the Junior Class member of Future Teachers of America, and the Spanish Club. He is a contestant in persuasive speaking in UIL contests this

year. Barry is also a member of the band council and is president of the United Methodist Youth Fellowship. He is a member of the Dallam county 4-H club.

Crystal is the daughter of Mr. and Mrs. Jack W. Brian, who live at Middlewell southwest of Dumas. She is a Junior in Dumas High School, where she is a member of the choir, drama club, Future Teachers of America and on the staff of the Demon's Tale, high school newspaper. She is the Rotary Club sweetheart and a member of the Middlewell 4-H club.

Janie is the daughter of Mr. and Mrs. Charles Christie of Dumas and is also a junior in Dumas High School. She is a member of the choir and speech and drama clubs. She is past worthy advisor of Rainbow girls.

Winners will present their speeches at the annual meeting of the Cooperative which will be held on February 14 at Lake Rita Blanca Coliseum in Dalhart.

Winners in 1972 were Scott Johnson of Dalhart and Sue McMahon of Channing. They will report on last year's trip at the annual co-op meeting.

VICTIMS OF STORM---There were about 25 head of cattle dead by the right-of-way about three miles north of Stratford in this group following the Saturday blizzard. The animals had taken to the tracks to get out of the storm only to be hit by a train. Several more were reported found in other parts of the county and several were hit by autos and trucks on area highways as they drifted with the blowing snow.

Junior High Teams Lose At Texhoma

The 7th Grade boys and girls were the only Stratford teams seeing action this past weekend as the 7th Boys and Girls participated in the 8th Grade Tourney at Texhoma.

For some reason the Stratford 8th Grade boys and girls were not invited to participate but the 7th took on the 8th but were defeated in their first games and eliminated from the tourney.

The 7th Girls dropped their game to Boise City 8th Girls 28-14 after seeing the game knotted at 4-4 at the end of the first and trailing 15-8 at the half the 7th girls then trailed 22-10 at the end of the third and lost 28-14.

Patti Dietrich was high for Stratford hitting for 12 of the team's 14 points with Brenda Hawkins hitting the other two scores. Thrall was high for Boise City with 15 points.

In the 7th Boys contest they

met Yarborough's 8th Grade boys and lost 30-24 trailing 12-2 14-12, 24-14 and 30-24 for the final. Donovan Ferguson was high for Stratford with 12 points. (The scorebook couldn't be located this is the only information available as this issue is being printed).

Junior high action will get underway again Thursday when 7-8-9 grade boys entertain Boys Ranch here. As Boys Ranchers play in Stratford the 7-8-9 grade girls will be on the road to Dumas in games there. The boys' games in Stratford will begin at 5 p.m. while games in Dumas will begin at 4 p.m.

The Junior High action ends the following week (Feb. 8) when the 7-8-9 grade boys play Dalhart here and the 7-8-9 grade girls play there.

"Thou wilt shew me the path of life:

PSALM 16-11

HERE IS THE PATH

Putting forth a *Real* effort

A child's first attempts at printing require deep concentration and great effort. However, with patience and practice he becomes more adept and lettering is easier. Then he is ready for the next step, learning to write.

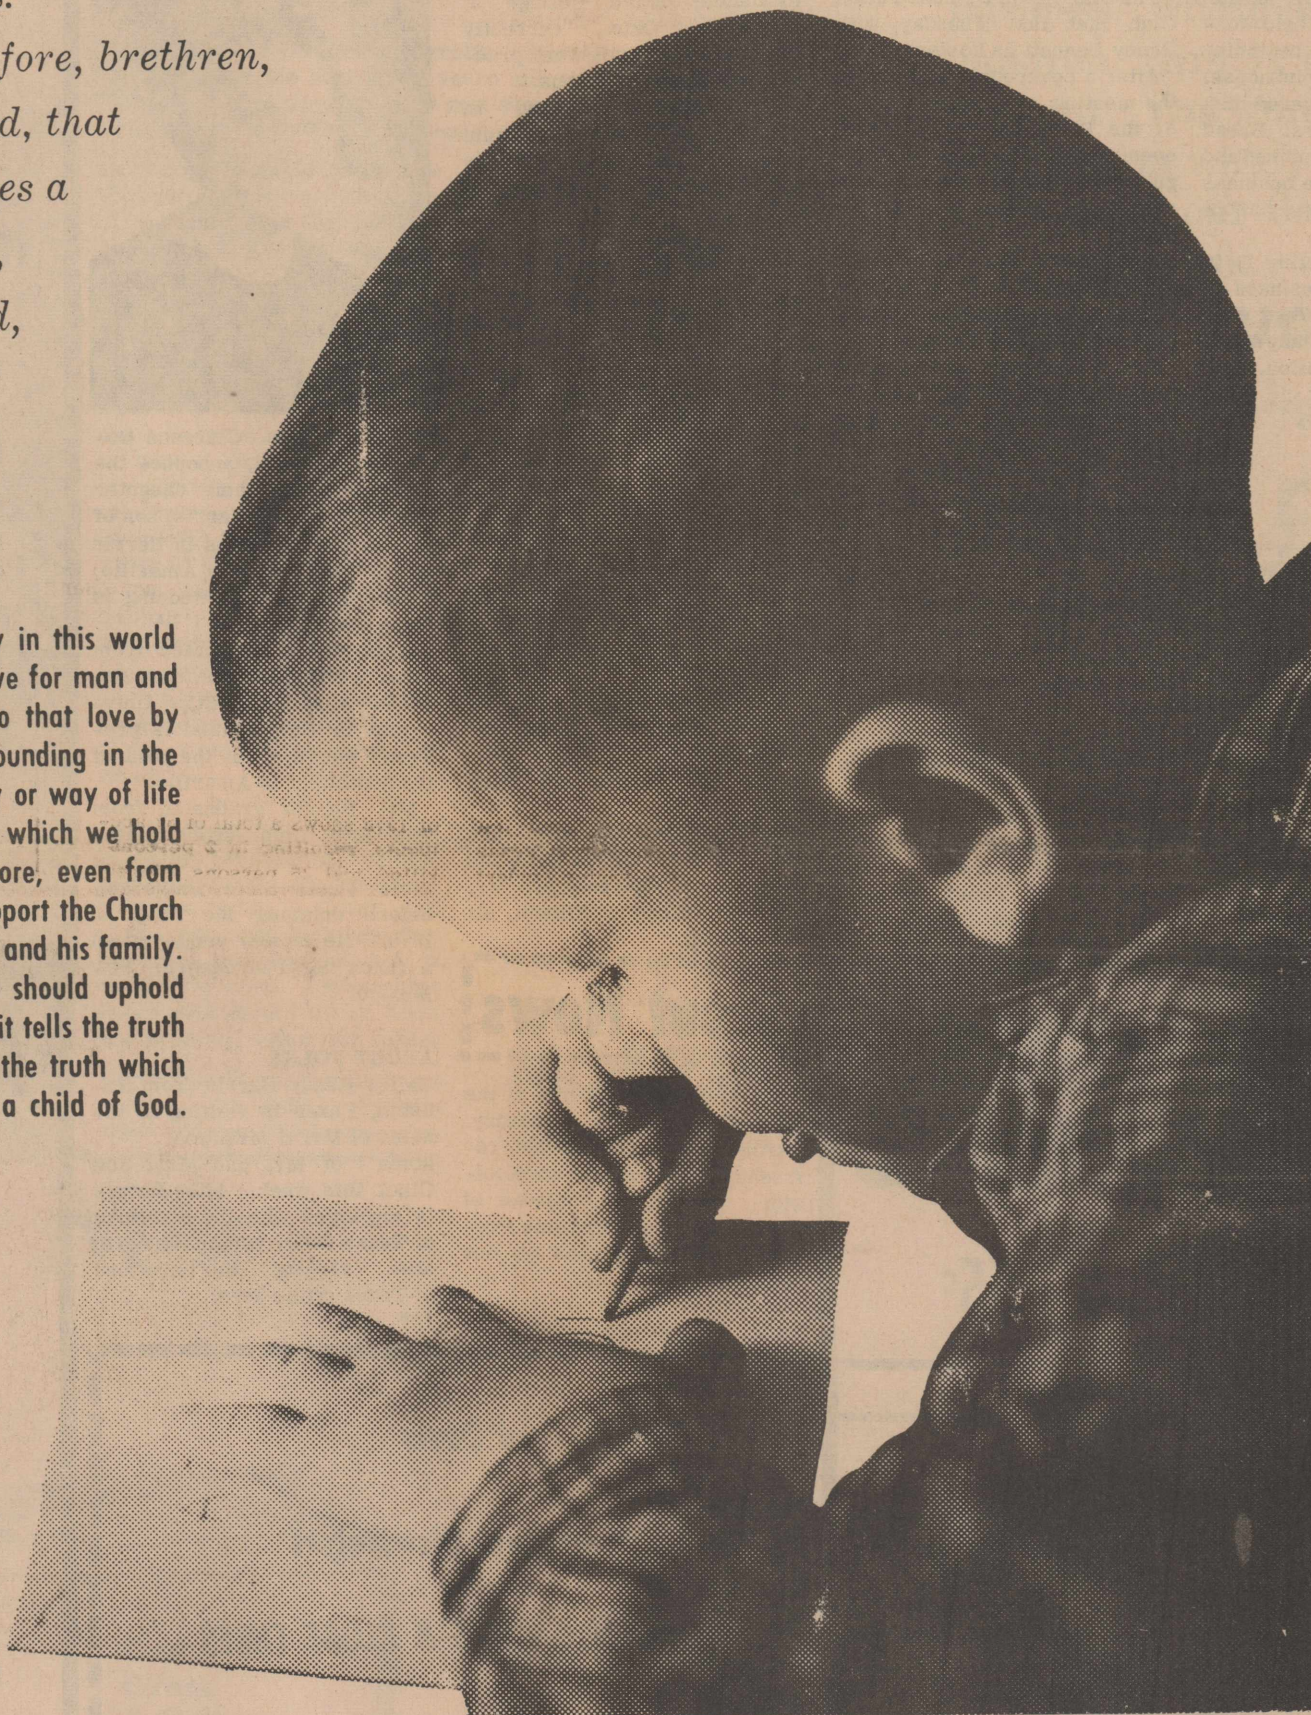

The Lord expects us to put forth an effort to improve ourselves.

*"I beseech you therefore, brethren,
by the mercies of God, that
ye present your bodies a
living sacrifice, holy,
acceptable unto God,
which is your
reasonable service."*

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Strong standing NK 222G

Growers report
1,000 to 1 return

Leon Stoval produced over 1,000 lbs. of grain from every pound of NK 222G he planted. Seeded at the rate of 8 lbs. per acre, Stoval averaged 8,400 lbs. of grain at harvest.

The large yellow endosperm berries build a high test weight. Cattlemen say NK 222G makes top quality feed. Threshes clean with a minimum of dust.

NK 222G stalks are extremely tough. A huge root system resists root lodging. Plants are short and compact to withstand high winds.

America's wheat is making a historic turnaround

1,000 additional, 100-ton covered hoppers are now being completed to give Santa Fe 11,000 of these giant cars to help move export wheat to Russia

Inspectors checking new hoppers at car builder's plant. Santa Fe pioneered the use of these giant 100-ton covered hoppers for moving wheat and other bulk commodities and has the largest fleet in the rail industry.

Trough hatches extending the length of car roof permit loading in about 12 minutes. Cars can be unloaded in less than three minutes.

Cars at dock facilities for transloading wheat to elevator and ship.

The history of wheat on the Santa Fe started back in the 1870's. At that time, the railway sent representatives to Europe with a view in mind of winning settlers to Kansas.

Through their efforts, the Mennonites emigrated from Russia in 1874 and brought with them a few sacks of wheat—red wheat—that thrived and transformed the Midwest and parts of the Southwest into the breadbasket of the world.

Today, one of the cities not far from the center of the wheat belt on the Santa Fe, carries the name of Moscow, Kansas.

Now, the same type of wheat brought to America by the Mennonites from Russia is going back.

It is part of the 400 million bushels of wheat being sold to the Soviet Union. Santa Fe's giant hopper cars are moving it. The company that helped bring wheat to this country is now moving it out, 100 years later.

From Moscow and all across Kansas, Oklahoma and Texas to Moscow and the vast areas of Russia. Quite a historic turnaround.

Moving huge volumes of wheat requires coordination and cooperation

"Export movements require the greatest teamwork between railroads, port authorities and exporters in the scheduling of railroad shipments to coordinate with the movement of sea-going vessels. The current wheat export program puts this teamwork to the test, and the Santa Fe is prepared to work closely with its customers to handle this transportation challenge successfully."

that have come as a result of the freezing snow and crud. As a fella told me one day there is just no such thing as "a pretty snow."

But, we can be thankful we haven't had the wind all winter long. If we had we'd all look like a bunch of Eskimos we imagine.

The weather has been fair, despite the weekend, but the last snow will keep stockmen busy doctoring and separating cattle for a number of days to come we imagine. We hope not too many were lost, they have lost enough already. Commodity prices Tuesday noon showed wheat selling locally for \$2.43 per bushel, grain sorghum at \$2.80 per cwt and corn at \$1.75 per bushel.
