

Rousing Welcome Looms For Ike In Philippines

By MARVIN L. ARROWSMITH
ANCHORAGE, Alaska (AP)—President Eisenhower took off today for a three-day visit to the Philippines—still determined to go on this weekend to riot-plagued Japan.

The President, pleased by a warm reception in Alaska, left Elmendorf Air Force Base aboard his jet airliner. He scheduled a refueling stop at Wake Island 7½ hours later and arrival at Clark Field near Manila at about 3:45 p.m. Philippine Time—2:45 a.m. EST Tuesday.

Prospects were for a rousing welcome for Eisenhower in Manila, where he was stationed as an Army officer in 1933-39.

But there was a risk of danger—the possibility of physical harm to the 69-year-old President—on his scheduled arrival in Tokyo. In the Japanese capital, left-wing mobs, now perhaps controlled by Communists, still are intent on trying to prevent or wreck the projected Eisenhower visit.

The President arrived in sunny Anchorage, biggest city in the new 49th state Sunday morning after a 3,700-mile nonstop flight from Washington.

He said he had rejected advice that he abandon or postpone his visit to Tokyo.

He is going ahead, he said, because the visit "represents an important phase of a program whose paramount objective was, and is, to improve the climate of international understanding."

Alluding then to the hate-propaganda campaign in Tokyo, the President added, "We should not permit unpleasant incidents and sporadic terrorism, inspired by misled or hostile agents, to dim for us the concrete and gratifying results. They have been to the great good of the entire world."

At Anchorage Eisenhower was met by his press secretary, James C. Hagerty, who later was besieged by a screaming Tokyo mob from which he narrowly escaped.

Others turned out on a tour through the city of about 47,000 population.

"There were 'Welcome Ike' signs distributed by the Republican Women's Club. And from the crowd came shouts of 'Yeah Ike' and 'Welcome Mr. President'."

At the airport, Alaska's Democratic Gov. William A. Egan told the President the prayers of the

state no longer an arctic frontier but a bridge to Asia and a demonstration of "what free men and women can accomplish."

The President, in a chipper mood, is accompanied on his tour

by his son and daughter-in-law, Army Lt. Col. and Mrs. John Eisenhower. The President's wife is recovering in a Washington hospital from asthmatic bronchitis.

The President patted two small Eskimo girls on the head a moment before they handed bouquets of red roses to the pretty wife of his son. She was clad in a beige suit and a small white hat.

In downtown Anchorage the President spent about half an hour touring a wildlife exhibit. With a grin, he told there of how as a boy he trapped muskrats for \$1.50 a week.

"But I only got a couple of muskrats a year," he recalled.

In his statement on departure from Washington, Eisenhower said he had decided to go ahead with the Tokyo visit "so that I can continue to learn more about the immediate problems and purposes of our friends, and to continue to promote a better understanding of America abroad—which, particularly in the circumstances of the moment—is a compelling responsibility on me as president of the United States."

"If the trip now ahead of me were concerned principally with the support of a regime or a treaty or a disputed policy; if it were intended merely to bolster a particular program, or to achieve a limited objective, such a journey would have no real justification. But this trip is not so concerned, nor so intended."

What Eisenhower did not say in so many words was that cancellation of his Tokyo visit would risk worldwide loss of prestige for the United States. It also would hand the Communists a huge propaganda victory.

Say Leftists Waver

By RENE-GEORGES INAGAKI
TOKYO (AP)—Some leftist groups appeared today to be backing away from massive airport demonstrations on the day President Eisenhower arrives in Tokyo.

But the hard-core Communist party leadership was reported still threatening violence.

The headquarters of the Red-tinted Sobyo labor federation said most members felt they should not demonstrate at the airport itself next Sunday. A decision was expected Tuesday.

Even the Communist wing of the Zengakuren student federation said it would refrain from such acts of violence as it staged against White House press secretary James C. Hagerty last Friday.

Japanese security officials went ahead with plans to mobilize 25,000 police to protect Eisenhower should mob action develop when he arrives June 19.

A Tokyo official expressed confidence the force would be able to cope with any mob action, but added: "No amount of security can guarantee there will be no incident from an individual terrorist."

Police announced unprecedented security measures. The car that will carry Eisenhower and Emperor Hirohito on the 11-mile trip from the airport to the palace will be accompanied by 13 trucks loaded with 600 policemen, 32 motorcycle police plus 6 sidecar motorcycles, 4 radio cars and patrol cars.

Takeshi Usami, director of the imperial household, announced the two chiefs of state will make the trip in a closed limousine rather than an open car. Though U.S. officials had expressed preference for an open car, this security arrangement presumably won Hagerty's approval.

Foot police will be spread all along the route, with orders to take strong action against any attempt to molest the President. Mobile units also will patrol along the

route, and guards will be increased at the U.S. Embassy.

A dress rehearsal of the security measures was held Sunday.

Police sources said the Communist party had seized control of the campaign against the Eisenhower visit and the U.S.-Japan Mutual Security Treaty.

This was reported to have upset the leadership of the Socialist party, which was already concerned over mounting public disfavor with the anti-Eisenhower agitation.

The leftists say the treaty will make Japan liable to attack since it permits the United States to maintain military bases. They want Japan to sever a so-called neutral course in foreign affairs.

Tokyo police disclosed they were planning to arrest leaders of the mob which set upon the automobile in which Hagerty, presidential appointments secretary Thomas Stephens and U.S. Ambassador Douglas MacArthur II were riding last Friday.

The committee offered no explanation for the cut, but noted that the amount approved is 500 million more than was appropriated for the present year and said more than two billion in expended balances was available.

The military phase of the program, which finances fighting equipment, training, supplies and services for friendly nations, was limited by the committee to \$1,600,000,000 of the two billion requested.

The committee offered no explanation for the cut, but noted that the amount approved is 500 million more than was appropriated for the present year and said more than two billion in expended balances was available.

House Panel Trims Ike's Foreign Aid Fund Request

By WILLIAM F. ARBOGAST
WASHINGTON (AP)—The House Appropriations Committee today cut 70% million dollars from President Eisenhower's original foreign aid requests, including 400 million from military assistance.

If the action is sustained by the House later this week, the aid program would get \$3,384,500,000 of the \$4,173,000,000 Eisenhower requested for the fiscal year starting July 1. In addition, it would have available an estimated 400 million in previous funds which have not been obligated in spending.

While the President actually requested \$4,173,000,000 in new money, Congress limited appropriations to \$4,066,300,000 in a separate bill authorizing continuance of the aid program. The actual money figure is \$701,800,000 below the authorized amount.

The cuts were approved despite a special Eisenhower plea Saturday that the committee reject the proposed reductions in military assistance and defense support funds.

These "can not but jeopardize our own security and the defense of the free world," Eisenhower said in a telegram to House members.

Presumably the Senate, which regularly has been more generous than the House in foreign aid funds, will be asked to restore some of the cuts.

The committee's action was taken on recommendation of subcommittee headed by Rep. Otto E. Passman (D-La.).

Despite these declines, and the release of 120,000 temporary con-

sus workers, the total number of persons on nonfarm payrolls rose by 80,000 in May to 53,100,000. This was 900,000 higher than a year ago and a record for the month.

The expansion of employment reflected chiefly gains in farming, construction and other outdoor work. They brought the employment total to a level 14 million above that of a year ago. Department officials were cheered by a decline of 300,000 in the number of long-term unemployed—those who have been hunting jobs for 15 weeks or longer. This reduced the total of long-term unemployed to about 900,000.

May Employment Gains By Million

WASHINGTON (AP)—A million-man increase in employment in May was reported by the Labor Department today.

The substantial gain, about normal or slightly better for the season, carried the nation's total civilian employment to a record for the month at 57,208,000.

Unemployment fell by about 200,000 to 3,458,000. This also was about an average movement for May.

The unemployment rate—4.9 per cent of the civilian labor force—was a bit better than April's 5 per cent, but not down to the 4.8 per cent of May. The decline in unemployment meant that 951 of every 1,000 men and women who wanted jobs had them. But factory employment declined seasonally by 45,000, mainly because of continued cutbacks in the steel and machinery industries. There were about 150,000 fewer factory jobs than there were a year ago.

RAF Plane Forced Back

NEW YORK (AP)—A Royal Air Force plane loaded with families, British military and diplomatic personnel, returned safely today after developing engine trouble over the Atlantic.

It had been en route to Lyneham, England, near London, carrying 80 persons, including a children's crew.

A spokesman at Mitchell Field on Long Island said the four-engine Bristol Britannia turboprop left there about 3:30 a.m. and returned about five hours later because of fuel difficulties.

The pilot elected to turn around purely as a precautionary measure, the spokesman said. The plane was part of a six-plane airlift that has been operating between Great Britain and the United States since late last week in connection with the current British expedition here.

It had brought over 471 teams, bands, commando units and others.

Community Center Asked

A delegation representing two rural areas met with Scurry County Commissioners this morning and requested that the county establish a community center in the southeast part of the county.

Billy Joe Clifton was spokesman for the group, representing residents of the Fryon and Inadale communities. Others in the group were Mrs. Thea Soules, Mr. C. H. Stahl, Mrs. Buford Light and Mrs. Ernest Schattell.

They told the commissioners court that a piece of property with a water well included probably would be donated to such a project.

Members of the court expressed interest, and indicated that further study of the proposal would be made.

The court authorized issuance of \$75,000 in highway right-of-way warrants, and voted to divide unimproved road and bridge funds among the precincts.

City Council Session Set

Lone Star Gas Company's request for a rate increase is back near the top of the agenda for tonight's meeting of the Snyder City Council.

The session is set for 7:30 p.m. in the city hall.

Also on the agenda is the second reading of an ordinance regulating peddlers in the city. Snyder has and no peddlers ordinance on the books since the "Great River" ordinance prohibiting house-to-house peddling was repealed several weeks ago.

FLEE CHILEAN FLOOD THREAT—Three barefoot children huddle under cover in rain as they await evacuation from Valdivia, Chile, which is threatened with flood resulting from the country's recent earthquakes. Officials feared dams holding swollen Lake Rinihue might break at any moment. Its normal outlet was blocked by landslides. Thousands of residents have fled the city. (AP Wirephoto)

Texas Liberal Demos Reject Olive Branch

By GARTH JONES
AUSTIN (AP)—Liberals today rejected today a compromise proposal on the party loyalty issue worked out by Lyndon Johnson leaders at a secret session Sunday night.

A spokesman for the anti-Johnson labor-liberal faction of the Texas Democratic party said the proposal "does not take care" of the loyalty question.

Creekmore Fath, secretary of the rebellious Democratic of Texas clubs (DOTC), said the loyalists worked out by the loyalist forces are not enough to bind Texas Democrats together to support the Democratic presidential nominee—whichever he is—in November.

The liberals are threatening to hold a rump convention and send a delegation to Los Angeles contesting the regular convention's representatives. The state convention here Tuesday is expected to elect delegates to back Johnson as many ballots as necessary at Los Angeles.

Johnson forces are trying for harmony to strengthen his position as a candidate at the national convention.

The liberals say they will not contest if the convention passes a resolution like the one adopted in 1948. It said: "I am a Democrat and will in the general election support the nominees of the Democratic party for all elective offices, state and national."

"All we are asking is that they adopt the same resolution that was adopted in 1948," Fath asserted.

The official loyalty program reportedly emphasized offering a formal statement of loyalty to the executive committee today and Tuesday.

It also reported underlined a declaration that Texas law requires delegates to the state convention to have already asserted their party loyalty by participating in the Democratic primary and precinct conventions.

The official organization position all along has been that the additional loyalty declarations are not necessary because the committee has demonstrated its party fealty by its actions. The Liberals say they want to be absolutely sure party leaders don't bolt to the GOP as many did in 1952 and 1956.

They want delegates to swear loyalty before they are seated at tomorrow's convention.

This maneuvering came as Texas Democrats squared off for battle on the loyalty pledge issue.

Creekmore Fath, a leader of the liberal group which plans to hold a rump convention Tuesday and send a delegation to contest for Texas' seats at the Los Angeles convention, said he "had heard of no compromise plan."

"It's a little early in the day but they have not given me any proposal," Fath said.

He is often the spokesman for the Democrats of Texas, clubs DOTC, headed by national committeewoman Mrs. R. D. Randolph of Houston, a Johnson foe.

Tornadoes Inflict Damage In Northeast Texas Areas

By The Associated Press
Tornadoes and violent thunderstorms smashed into Northeast Texas Sunday night causing an estimated \$400,000 damage but no deaths or injuries were reported.

Hardest hit by tornadoes was Sulphur Springs, about 75 miles northeast of Dallas, where a twisted ripped roofs from buildings, snapped power lines and ripped trees from the ground.

R. D. Jenkins said several of his children were "sucked out of our house when the twister hit but they were not injured."

He said a friend who was visiting him helped him "round up" his children.

Two funnel clouds were reported—but not confirmed—in North Dallas Sunday evening as a squall line moved through the area. Winds gusting at 41 miles per hour overturned three boats in White Rock Lake but all persons in the boats reached shore.

More than a dozen persons received injuries in traffic accidents on rain-slick streets in Dallas. Thunderstorms dumped 42 inch of rain in Dallas. Rain fell in the city early Monday.

An unconfirmed tornado was also reported in the Texas Panhandle but no damage was discovered.

A Strong winds ripped a porch off a home near Abilene and hurled the porch 50 feet. Boats were torn from their moorings and a house, barn and some farm equipment was damaged near the city. Abilene got about 50 inch of rain.

Scattered showers and thunderstorms continued to fall in Texas Monday morning. The rains extended from Waco east and north east to College Station.

WEATHER

SNYDER TEMPERATURES High Sunday 94 degrees, low 62 degrees. High today 73 degrees, low 50 degrees. High Sunday 96 degrees, low 64 degrees.

North Central Texas — Partly cloudy through Tuesday. Scattered thunderstorms mainly in south this afternoon and early tonight. No important temperature change.

East Texas — Partly cloudy through Tuesday. Scattered showers and thunderstorms this afternoon and mainly in south tonight and Tuesday. No major change in temperature.

South Central Texas — Partly cloudy and warm through Tuesday with steady showers mostly afternoon and evening thunderstorms.

Northwest Texas — Partly cloudy through Tuesday. A few thunderstorms likely this afternoon mainly in lower South Plains. No important temperature change.

Parr Conviction Set Aside

WASHINGTON (AP)—The Supreme Court set aside today the first fraud conviction of George Parr known as the "Duke of Dallas County," Tex., and eight other alleged conspirators with him.

Judge Whitaker delivered the 6-3 decision Justice Frankfurter wrote a dissenting opinion in which Justices Harlan and Stewart joined.

Parr, onetime South Texas political boss, and the others were accused of using the mails to defraud the Benavides School District of more than \$220,000 in tax funds.

Parr was sentenced by U.S. District Judge Joe Ingraham in Houston in 1952 years and \$20,000 fine. Lesser sentences were given the others.

The government contended the nine persons defrauded the school district mainly by issuing and cashing checks made out to fictitious persons.

In the Supreme Court's opinion overturning the convictions, Whitaker devoted 22 pages to a review of the case.

He said that the strongest evidence in the federal government's case was that behavior of the defendants "was shown to have been so bad and brazen, which, coupled

with the inability or at least the failure of the state authorities to bring them to justice, doubtless persuaded the government to undertake this prosecution."

Whitaker then added: "But the showing, however convincing, that state crimes of misappropriation, conversion, embezzlement and theft were committed does not establish the federal crime of using the mails to defraud, and, under our wanted legal system, no man, however bad his behavior may be, can be convicted of a crime of which he was not charged, proven and found guilty in accordance with due process."

Adlai Hurriedly Retrieves Hat From Political Ring

CHICAGO (AP)—Adlai E. Stevenson hurriedly retrieved his hat from the presidential race Sunday with this statement: "I am not a candidate."

The Stevenson political hat had been lobbed into the scramble for the Democratic presidential nomination by Eleanor Roosevelt.

Stevenson, twice defeated as Democratic presidential nominee, wired Mrs. Roosevelt and said in part: "I think I have made it clear if my public life, that I will serve my country and my party whenever called upon."

Fronzizi Declares Revolt Collapsed

By SAM SUMMERLIN
BUENOS AIRES, Argentina (AP)—President Arturo Fronzizi's government announced today that a revolt in western Argentina had collapsed a scant six hours or so after it started.

Fronzizi told newsmen the bulk of Argentina's armed forces had rallied to his side within a few hours after the small-scale rebellion last night in San Luis.

The President confidently announced he would leave as planned this afternoon on a month-long tour of Europe.

Before dawn a spokesman for the Interior Ministry said loyal troops had captured Gen. Mauricio Gomez, commander of the 2nd Argentina Army, who reportedly joined the rebels.

The other rebels fled from the strategic sites they captured a few hours earlier in San Luis, including the local radio station, the spokesman said.

Gen. Rodolfo Larcher, the secretary of war, had warned the rebels to surrender by dawn or to face an assault by loyal troops from the surrounding area. He said the rebel force numbered only 300 to 400 men of an anti-aircraft group.

Payola Is On Agenda

WASHINGTON (AP)—Payola and children's programs on television and radio will come in for discussion at the week-long 60th annual convention of the General Federation of Women's Clubs operating tonight.

These problems are among 12 resolutions prepared for their sessions.

Mrs. E. Lee Ozburn of Oklahoma City is unopposed for a two-year term as president of the 500,000-member organization. She moves up from first vice president to replace Chloé Gifford of Lexington, Ky.

Pair Nabbed After Holdup

Evangelist Billy Graham is the witness speaker at a church Friday night at which new officers will be installed.

PECOS (AP)—Highway patrolmen captured two former convicts at a road block today after a gas station holdup during which a Pecos youth was shot twice in the head.

Kenneth Richards Jr., about 19, was taken to El Paso for further surgery after one bullet was removed at the Pecos hospital. He was reported in critical condition but attendants said Richards had a good chance to recover.

Anne Osborne Is Honored At Gift Tea

Anne Osborne, daughter of Mr. and Mrs. C. M. Osborne of 3716 Austin Avenue, was honored Friday night with a bridal gift tea at the Martha Ann Womens Club. Miss Osborne is the bride-elect of Keith Sibahugh of Prescott, Arizona.

Receiving guests with Miss Osborne were her mother, her aunt, Mrs. A. B. Gray, and Mrs. J. P. Houston.

Mrs. Renal Rosson registered the guests.

Background music was furnished by Mrs. M. M. O'Rear and Kathleen Mott.

The bride-elect's chosen colors of cotton blue and white were carried out in the table arrangements. Hostesses with Mrs. Houston were Mmes. Renal B. Rosson, Robert R. Patterson, R. E. Patterson, S. L. Morris, Wayne Culvahouse, Floyd Payne, E. B. Glass, Nolan von Roeder, Wayland Holt, C. W. Youngblood, Earl Abercrombie, Lester Moore, M. M. O'Rear, Ben Dennis, R. C. Patton, Phillip Fisher, Bennie Pinnell, A. M. Ramsey, Sr., and G. C. Coleman. Approximately 75 guests registered.

Nanette To Wed Soldier

BITBURG, Germany (AP)—Patricia Withers Vandenberg's pretty daughter Nanette Wallace is going to marry the American soldier she eloped to Germany with.

Mrs. Vanderbilt said she had given 19-year-old Nanette permission to wed handsome Wiley M. Lockamy, 23 of Clinton, N. C., but because of Army formalities that must be met, the wedding might not take place for six weeks.

"The wedding will most likely take place in Bitburg, I expect," said Mrs. Vanderbilt.

Nanette left her mother in Cannes, on the French Riviera, two weeks ago and came with Lockamy to Bitburg, where he is stationed. Mrs. Vanderbilt followed them here and finally gave her consent to the marriage. She and her daughter are staying in Luxembourg now.

A BRIDAL GIFT TEA FOR ANNE OSBORNE was held Friday evening in the Martha Ann Womens Club. Pictured above, from left, are Mrs. C. M. Osborne, mother of the bride-elect, Mrs. A. B. Gray, and Miss Osborne.

Vacationists See Scars Of Quake

By ROBERT MOORE
WEST YELLOWSTONE, Mont. (AP)—The thousands of vacationists who tour Yellowstone National Park this summer will view a new attraction—the scars left by last August's death-dealing earthquake.

Many of the scars are plainly visible a mile after mile of patched highway, water-covered roads, closed thoroughfares, huge cracks in the earth, mountains split open, gigantic rock slides.

There also are invisible scars stamped in the hearts of those who lost relatives and friends in the disaster that killed nine persons. Another died later of injuries, and 19 still are missing.

Actually, no one was killed or injured inside the park. The earthquake, comparable in force to that which wrecked San Francisco in 1906, dealt its greatest damage in the park's eastern shadings.

Yellowstone officials and towns like West Yellowstone that depend on summer tourist trade for survival, have wondered whether the earthquake would cause vacationists to bypass the park.

Advance reservations indicate the answer is no. Already, more sightseers than at this time last year are pouring through this small resort community.

In fact, tourists through Yellowstone this summer may exceed the record 1 1/2 million-plus who visited in 1957. R. L. Latimore, manager of reservations and tours for the Yellowstone Park Co., says preparable in force are 19 per cent ahead of last year.

All traffic leading into the park has been restored. Yellowstone appears much as it was before the morning tremor of last Aug. 18.

Most of the geysers scattered throughout the park are normal once more. Old Faithful, still erupts on an average of once every 65 to 67 minutes.

Only one highway—U.S. 287—from West Yellowstone to Ennis, Mont., still is closed, covered by water for five miles. Some 18,000 persons were in the park when the quake hit and hurled millions of tons of rock into the Madison River canyon, trapping between 100 and 150 below a dam.

Places like West Yellowstone became ghost towns for a few days. Rescue units removed the dead and the injured by helicopter. The bodies of those still missing are believed to be in the huge

Mrs. Viola Carmichael is spending this week in Wingate with her daughter and family, Mr. and Mrs. Lee Roy Adams.

Mr. and Mrs. Harley Carmichael and boys of Snyder visited relatives here after returning from a vacation trip to California.

Mr. Leslie Strickland of Amarillo visited recently with his sister, Mrs. J. R. Jones and family. Carolyn Nelson of Winters spent last week with Dalene Lemons. Mr. and Mrs. Arlene Wren of Bell, Texas, are visiting relatives here this week.

New Appliances Eliminate Spring Cleaning Upheaval

Spring has always had its own special sounds—chirping birds, gentle winds, the rhythmic beat of the season's first showers, the universal call of housewives for help with the spring cleaning and the familiar rush of husbands ducking out of sight.

But you have the word of the Appliance Manufacturers Association that this last-named phenomenon is not so violent nor so widespread as it used to be.

The reason, says GAMA, is that today's homemakers have learned new ways of keeping their homes clean, not just in the spring but all year 'round. Equipment unheard of by earlier generations has made scrubbing brushes, boiling tubs, carpet beaters and clothes lines as old-fashioned as sulphur and molasses.

One of the most important of these modern labor-savers, the trade group points out, is home heating. Gas, they say, is the only fuel that burns without producing fly ash, soot and smoke which not only foul the atmosphere but also soil walls, rugs, draperies and furniture.

Vive la Difference
Actually, today's spring cleaning doesn't involve the great upheaval it once did. Cleaning appliances, like the modern vacuum cleaner with its versatile attachments, make it easier to keep homes clean. New fabrics and cleaning compounds help, too.

Slip covers, curtains and other textile furnishings can be washed with very little effort when they're made of fiberglass, nylon, or dacron or other new drip-dry cottons. To help further, there's a soap, soap powder, detergent or

special-duty chemical for everything washable. Today, in most homes an automatic water heater supplies abundant hot water at the turn of a tap, night or day, for every need and it isn't necessary to call off all showers and baths on laundry day.

What's more, the owner of any new appliance knows that manufacturers have eliminated seams, cracks and other hard-to-get-at parts. The new ranges are a good example of this. A quick wipe of the top burners with a wrung-out soapy cloth is usually all that's needed for an immaculate appearance at all times, especially if spill-overs are wiped up immediately with a dry cloth or paper towel.

Cleaning Tip
The secret of keeping broilers and ovens perpetually new, is to wash after each use. Many new model ranges are made in such a way that oven racks, sides and bottoms can be slipped out and carried to the sink and scoured as easily as a dish.

A one-time back breaker in the spring was the washing of heavy winter blankets. The modern home manager tosses them into her automatic washing machine, fluff-dries them in her automatic dryer; and in no time at all they are ready to be tucked away in moth-proof bags.

In bygone days it was a practice to rout out heaps of trash accumulated in basements and attics. These dust catchers and fire hazards now can be eliminated before they have a chance to pile up. The modern smokeless odorless disposer does the job daily and takes care of the garbage problems, too.

FLYING SAUCER by Pap'

McCovey Gets Big Hit

Giants Gaining On Bucs; Idle Indians Take Lead

By JACK HAND
Associated Press Sports Writer
Willie McCovey had been riding the bench and was hitting only .244 when he came to the plate Sunday with the bases loaded and San Francisco clinging to a shaky lead over Milwaukee.

WILLIE MCCOVEY of San Francisco Giants

Ron Piche, the second of five Brave pitchers, was the loser. Billy Loes, second of five to work for the Giants, won it.

Rising to the occasion, he slammed a Carl Willey fast ball out of the park for the first grand slammer of his brief major league career.

The Giants went on to win 16-7. The victory moved them within half a game of the first-place Pittsburgh Pirates, who divided two at St. Louis. The Pirates bombed the Cards for 23 hits in a 13-1 first game romp but then lost the second 5-2, despite 10 more hits.

Stan Williams won his fifth for Los Angeles with a four-hit effort against Cincinnati 3-1. Always known as a wild man, Williams walked but one and struck out eight.

Richie Ashburn's 16th-inning single enabled the Chicago Cubs to shade the last-place Philadelphia Phillies 8-7.

Cleveland took over the undisturbed lead in the American League although rained out at New York when first-place Baltimore lost two to Kansas City and 5-3. Detroit moved into fourth place by splitting two with Washington while Boston was downing Chicago 4-1. Washington beat Detroit in the first game 8-3. The Tigers won the second 12-5.

The Giants' game was a wild affair with 31 hits. They set a new National League record and tied the major league mark by playing a nine-inning game in 3 hours 52 minutes. Bob Schmidt had a perfect day for the Giants with two doubles, a single and a walk and Willie Mays had two

doubles and a single among the 18 Giant hits.

Chuck Dressen, Milwaukee manager, started George Brunet, a left-hander brought up Saturday from Louisville. He lasted 3 2/3 innings before the parade started.

Don Demeter's home run off Jay Hook eased the way for Williams at Los Angeles. The only Cincy score was Eddie Kasko's homer in the seventh.

Tony Taylor's throwing error set up the winning run for the Cubs in the 10th inning against the Phils. Ashburn's single drove it home. Mark Freeman was the winner on relief and Humberto Robinson, it rained, his fifth straight, also on relief.

CHAMPS TO SEMIFINALS—Don Russell, left, of Pan American College, Edinburg, Tex., and Reginald Bennett of Lamar Tech, Beaumont, Tex., talk over their success in the National Association of Intercollegiate Athletics tennis tournament. Russell, an Australian, and teammate John Sharpe advanced to the semi-finals in defense of their doubles title. Bennett, an Englishman, reached the semifinals defending his singles championship. Laughs, Waves, Kisses

Darlene Darling Of Blimey Circuit

By GEOFFREY MILLER
LONDON (AP)—The Wimbledon tennis cup is back in Britain—but the Wimbledon women's crown may be going back to the United States.

The British are backing Darlene Hard of Montebello, Calif., to beat their own Christine Truman at Wimbledon late this month.

The chunky American blonde won all her three matches in the Wimbledon Cup against Britain this weekend.

The British girls won 4-3 and regained the cup. But Darlene, 24, had a hand in all three American victories. She defeated Miss Truman, Britain's No. 1, and Ann Haydon, who previously had never lost a Wimbledon Cup singles match.

Darlene also partnered with Karen Hantze, 17, the San Diego starlet playing in her first Wimbledon Cup match, in a fantastic 6-6, 6-0 doubles triumph over Miss Haydon and Angela Mortimer.

The British crowd wild with excitement at seeing their girls win the cup for only the sixth time in 32 attempts, still loved the good-humored Darlene.

She raised her hand above her head in acknowledgement whenever Miss Truman or Miss Haydon unleashed a winning shot against her. She laughed and kissed her racket when one of her shots hit the top of the net and dropped over.

She still smiled when Britain leveled the match at 3-3 and U.S. Captain Janet Hoppes, due to play in the deciding doubles match alongside Dorothy Knodel, collapsed with cramp.

"Are you going to play that doubles?" shouted a British fan. "You're durned tootin' we are," Darlene yelled back.

The Americans lost that doubles and the cup. But Darlene still laughed and waved to the crowd.

PENDER THE VICTOR—Stan Pender raises his arm in victory as he is raised on shoulder of trainer Al Pratte after he was awarded a split decision over Sugar Ray Robinson in their 15-round title fight at Boston, Mass. (AP Wirephoto)

Stan At Odds With Sandman

LOS ANGELES (AP)—Stan Williams has trouble sleeping at night. He had to lie in bed for 10 hours Saturday night, according to the only Cincinnati runner.

He blew down the Cincinnati Reds with a four-hit Sunday and scored his sixth straight victory, 3-1.

"After I win a game," he said, "I like to play it in my mind, going over the good pitches, and the bad ones. Only when you're replaying them, you don't seem to make as many bad ones."

"Last time I won I couldn't get to sleep at all, so I got up and got a soft drink and then tried to do some reading. It was 5:30 in the morning by the time I dropped off and I didn't get up until 3:30 the next afternoon."

In 70 innings this season, Williams has walked only 35 and struck out 66, a big improvement over past seasons.

"The big difference is my curve ball," he said, "I'm getting it over better and I'm throwing it faster, so it breaks sharper."

"Joe Becker (Dodger pitching coach) has been working on it with me four years, but it's only in the last games that it's really come around."

"I was always worried about Stan's curve," said Dodger Manager Walter Alton. "I felt if he could get the damn thing over he'd be a helluva pitcher."

"And the fact that he's getting it over better and I'm throwing it faster, so it breaks sharper."

"Joe Becker (Dodger pitching coach) has been working on it with me four years, but it's only in the last games that it's really come around."

STUDENT HAIR STYLING AT JESSIE'S BEAUTY COLLEGE—The above styles were set and combed by three of the student beauty operators at Jessie's Beauty College located at 2207 Avenue S. On left Nelda Davis models the ever-popular "Bubble" as set by Wayland Gray of Roton. In center Linda Roland models an extreme version of the "Gentle Tress" done by Barbara Shoemaker. On right, Diane Johnson shows a day old wave done by Beth Cochran.

Jessie's Beauty College Set Hair Style Show On June 26

Jessie's Beauty College, 2207 Avenue S, is one year old this month and is looking forward to a big Hair Style Show this month with approximately 25 students from the college planning to enter. The show, to be held in the high school cafeteria June 26th at 2 p.m., will be sponsored by the Snyder Kiwanis Club. The Kiwanis Club sponsored a style show when the first class graduated from the school in November and it was a huge success. Mrs. Jessie Hampton, owner of the school with her husband, stated that this show should easily outdo the other one. Graduates from Jessie's Beauty College are employed throughout the area with a great number of them being located in Snyder. The great demand for operators in this area is what prompted Mr. and Mrs. Hampton to open the school last June. Since opening, the college has attracted pupils from all sections and not all of them are women. Men are beginning to filter into the school and are doing an outstanding job in the beauty line. Student hair stylists from Jess-

Sen. Johnson Urges Review Of Policies

DALLAS (AP)—Sen Lyndon Johnson Sunday called for a review of United States policies with Latin American countries.

"Our attitudes, our policies need to be reviewed. Our relationship with these countries of Latin America needs to be studied in the light of today's conditions," Johnson said in his weekly radio talk.

He said "our relations with Cuba are at the lowest ebb in history." "This is symbolic of a situation that benefits no one. It contains a threat to the future of all of us. It is a trend that must be reversed," Johnson said in his weekly radio talk.

"Can we safely assume—as we have in the past—that because our country and that the nations of Latin America share common interests, share common problems that they would continue to look to us for leadership? Are we safe in assuming that the people of these nations will continue in the ranks of free men? Can we assume that these people will spurn the bribes of the Kremlin and the evil that we call communism?" Johnson said.

"Can we safely assume—as we have in the past—that because our country and that the nations of Latin America share common interests, share common problems that they would continue to look to us for leadership? Are we safe in assuming that the people of these nations will continue in the ranks of free men? Can we assume that these people will spurn the bribes of the Kremlin and the evil that we call communism?" Johnson said.

"During recent days our nation has demonstrated these qualities of friendship toward a neighbor in trouble, toward the people of Chile," he said. He commended government action which sped aid to earthquake-stricken Chile.

Sitins Are Red-Inspired HST Asserts

ATLANTA (AP)—Former President Harry Truman said on television Sunday that Southern sit-ins by Negroes appeared to be Communist inspired.

Negro leaders called the statement irresponsible and unfounded. Truman said he didn't believe the students were Communists. "I say it was pushed on by a Communist program," he said.

The Student Nonviolent Coordinating Committee, an independent organization, said it deeply regretted "the continuing and unfounded allegations of Communist direction of the sit-in movement made by Truman."

"The sit-in movement is an attempt to secure for all Americans the rights guaranteed to them in the Constitution and to realize in the United States the goals of a free, democratic and responsible society," the group asserted. "Social change by nature, creates tensions. Irresponsible charges of Communist influences increase rather than diminish these tensions and incorrectly credit the Communists with movements toward social justice."

Earth Tremors Still Plague South Chile

SANTIAGO, Chile (AP)—Earth-tremors continued to plague quake-battered Valdivia, in southern Chile, over the weekend. Six earth shocks were reported Sunday. The strongest, late in the afternoon, demolished several houses already damaged by earlier quakes.

Torrential rains and high winds forced suspension of evacuation from Valdivia of women and children, being removed because of the danger of floods.

Light Turnout Seen In South Carolina

COLUMBIA, S.C. (AP)—Democratic leaders anticipate a light turnout in Tuesday's primary. The only statewide contest pits Columbia attorney R. Beverley Hebert against incumbent Strom Thurmond for the U.S. Senate nomination.

The state's six congressmen are unopposed in this Democratic primary. The primary means election to office. Some 580,000 persons are eligible to vote. Party leaders expect about half to turn out.

Millions of comets fly through the cosmos, but most are too faint to be seen from the earth, reports the National Geographic Society. Chinese astronomers recorded observations of comets as early as 2369 B.C.

FINA SUPER SERVICE STATION on the Big Spring Highway is ready, able and willing to give your car the super service it deserves in this hot weather. Besides the Fina gasoline and oil they carry a complete line of automobile accessories with the know-how it takes to install them on your car.

Super Quality Service Aim Of Big Fina Station Here

Super service and super quality are the aims of A. K. Smith's Fina Super Service Station located on the Big Spring Highway at Thirty-fifth Street. The super service takes in all the services you can imagine could be gotten at a service station done better than you could get them elsewhere according to Smith.

Their service department is staffed by competent mechanics who can turn out an expert job on your motor tune-up. And this summer weather makes your car need a tune-up just a little more often with the extra miles it goes over for pleasure as well as business. Fina Super Service includes a pickup and delivery service on that automobile that needs washing, greasing or polishing. A Super Shine and a super clean car is what you get from the Fina folks and it's as easy as reaching for the phone. Why sweat in the hot summer to clean your car when

Routine Reversed For This Golfer

NASHVILLE, Tenn. (AP)—A professional golfer usually waves goodbye to his wife and family and heads for the course. But today things are different at the home of Harold Eller, pro at the Old Hickory course. Mrs. Eller and daughters Judy and Beverly, Mrs. Robert Boner, are away camping in the state women's tournament. Sons Rich and Mike are playing in schoolboy events.

Billfold Full Of Money Is Burned

RICHMOND, Va. (AP)—Fred L. Thames burned his billfold, containing \$1,700 and titles to three autos, Sunday. Thames told police he had placed a stack of newspapers in an incubator, but didn't realize his billfold was among the papers. Thames says the billfold burning in time to salvage a number of charred notes.

Drink Limit On Airliners

By DANIEL R. HACKEL
NEWARK, N.J. (AP)—A new rule to limit drinking on airliners is keeping passengers from getting too high in the sky.

Most travelers are accepting the curb on boozing while cruising, a survey at major air terminals showed. But stewardesses say they still have their hands full playing bartender.

The Federal Aviation Agency has begun its first action under the new law against five New Jersey men and two New Yorkers. They are due to go on trial Tuesday in Canada under other charges there for their actions on a flight to Montreal.

The FAA, announcing its action last week, said the travelers brought liquor aboard and put on an in-flight pillow fight. The agency charged them with ignoring safety instructions.

The rule has stirred some controversy in the aviation industry. Airline companies and their crews differ among themselves on whether it goes too far or not far enough.

Talks with passengers and flight crews at two airports serving the New York metropolitan area—Newark and Idlewild—revealed that the only way to keep putting up a squawk is the air customer.

In the first two months of the new rule, one stewardess said, she found it necessary to enforce the regulation about four or five times. All but one passenger accepted the ruling gracefully, and the exception quieted down when she called the captain.

The stewardess, Anne Marie Castonguay, of Woodside, N.Y., also said she had spotted about 10 or 12 flasks on board and asked the passengers to surrender them.

20 Persons Dead In Texas Violence

By The Associated Press
Traffic accidents killed 11 persons in Texas and five persons drowned to boost the violent death total during the weekend to 20.

Able Reyes Jr., 9, died when a car struck a bicycle which he and his father were riding Sunday in San Antonio. The father was injured.

The Associated Press Count started at 6 p.m. Friday and ended midnight Sunday.

Robert Wells, about 15, of Odessa, was fatally shot when he dropped a 22 rifle while climbing a windmill Sunday.

Four persons drowned Sunday and four died in traffic accidents.

Frank Krause, 28, an employee of Central Freight Lines in Houston, died Sunday when his pickup truck overturned near Brenham.

Ralph Thomas, 32, of Lancaster, drowned in a Dallas area lake Sunday while water skiing.

Raymond Smith, 29, of Bay City, was killed and William Gilmore, 24, also of Bay City, was seriously injured Sunday when their car left the highway south of the city.

Cathrine Ann Arnold, 15, drowned Sunday in the bathtub at her parents home in Newark, in Wise County. Relatives believe she fell in.

Jeff Rorie, 11, drowned in Lake Stamford Saturday when he fell from a barrel into the water. The boy was a resident of Dover, Del., and a native of Abilene, Tex., the son of Capt. and Mrs. L. C. Rorie.

Christal Sherill, 39, Georgetown, drowned while skin diving in Lake Travis near Johnson Sunday.

Ben J. Toth, 52, of Ennis, and Miss Clemente Lee Tapp of Waxahachie died Sunday 42 miles south of Lancaster when their car struck a bridge.

Mrs. Dimingia Cuevas, mother of four children, was found fatally stabbed in an automobile at Austin.

Randall Ferguson, 10, a newspaper boy, was killed Saturday night in Waco as he crossed a street to sell a newspaper.

Ag Men To Support LBJ

By JOE BENHAM
SAN ANTONIO, Tex. (AP)—Texas' agriculture commissioner said Sunday that agriculture commissioners from 11 Southern states are backing Sen. Lyndon Johnson, D-Tex., for the Democratic presidential nomination.

John C. White told a press conference the commissioners will work with the National Citizens for Lyndon Johnson organization in Washington with the nomination for the Senate majority leader.

White made the announcement during the convention of the Southern Commissioners of Agriculture.

"Our objective is to create an agriculture for Johnson organization in every state, then proceed to contact every delegate, including those who are committed to Johnson," White said. "Johnson is the man who can carry the farm states."

Joining White in the announcement were commissioners R. C. Bamberg of Alabama, John T. Johnson of West Virginia, L. Y. Ballentine of North Carolina and W. F. Moss of Tennessee.

White said Emerson Beauchamp of Kentucky and P. C. Brinkley of Virginia, who were not present, also would support Johnson.

White said other agriculture commissioners will wait until they confer with party leaders in their support.

Smallest Refinery Is Transported By Truck

WICHITA, Kan. (AP)—A Wichita engineering firm has designed and supervised building of what it believes is the smallest oil refinery on record.

The refinery can be hauled on a 40-foot truck bed, backed up to the nearest well or crude line, and can start processing 200 barrels of oil daily before you have time to say "fill 'er up."

It is called the practical answer to fuel needs in extremely isolated areas where good quality crude is available, and with higher capacity designs, poses interesting manufacturing and marketing possibilities in populous domestic areas more than 300 miles from existing refineries.

As a means of dispersing a vital manufacturing industry in time of war the unit has important defense applications, and in offensive action it could move in with motorized columns to revive output at destroyed plants.

Litwin Engineering Co. designed the unit to solve virtually insurmountable fuel transportation problems faced by a subsidiary of Tennessee Gas Transmission Co. which has a deal with Argentina to explore for and produce oil in Tierra del Fuego.

Tennessee contracted with Williams Bros. of Tulsa for the building of the unit. The Belmas Co. of Houston did most of the fabricating and assembly.

The refinery construction took just over four months, from drawing board to final testing early this month at a Tennessee lease near Cleveland, Tex.

In that test it processed as high as 240 barrels of oil daily. The refinery can produce gasoline, diesel fuel and toppedcrude from 42 gravity, sweet crude.

Harry Litwin, head of the engineering firm, said the refinery unit's practicality is limited by economics.

"We designed out the labor problem," he said. "The operation is virtually automatic."

Instrumentation is all electric. Water is no problem, since air-cooling is used. Electric motors are interchangeable.

Loaded and ready to move down the road at 40 miles an hour, the unit weighs 15 tons.

Similar but larger units could be successfully operated in any area where 40-gravity crude or higher is available, from wells or crude lines, providing the area is

200 miles or more from a full-scale refinery.

In such cases, the small plants would make up the transportation advantages the edge they must give to big plants with complex cracking and reforming facilities.

The current pilot unit processes crude for about \$2 a barrel. A not much larger 600-barrel unit would run at a dollar per barrel cost, a 1,000-barrel plant, still portable, would boil out products for 75 cents a barrel.

The cost of the 200-barrel unit, which also thrives on distillate and condensate, is no more than that of a couple of equipped 5,000-foot oil wells—about \$100,000.

Piggy-backed to a new site, backed up to a producing well or pipeline, it takes in crude oil on one side and puts out refined products on the other side.

In their dreamy moments, Litwin and his associates envision the ultimate—a refinery parked on a suitable lease, a portable service station out in front, and a big sign: "Gasoline, Cheap!"

The cost of the 200-barrel unit, which also thrives on distillate and condensate, is no more than that of a couple of equipped 5,000-foot oil wells—about \$100,000.

Piggy-backed to a new site, backed up to a producing well or pipeline, it takes in crude oil on one side and puts out refined products on the other side.

Old Glory Is Near 183rd Anniversary

By KARE R. BAUMAN
WASHINGTON (AP)—Old Glory, which now contains 49 stars, is 183 years old Tuesday, but it is still proper to display your flag even if it has fewer stars.

There are only two firm rules the flag should be in reasonably good condition and without a 50th star.

The 50th star for Hawaii will be added officially July 4. Until then it is improper to display the new flag.

The 49th star for Alaska became official July 4, 1959.

Even after the 50-star flag becomes official, most agencies of the federal government will continue to display 48-star and 49-star flags so long as they remain in good condition and until present supplies of unused flags are exhausted.

By act of Congress, the President each year proclaims June 14 as flag day.

This year President Eisenhower said, "It is proper on the birthday of the Stars and Stripes that we should recall the qualities of greatness that our Founding Fathers displayed when, with firm reliance on divine providence, they pledged their lives, their fortunes, and their sacred Honor to bring this nation into being."

He called upon the people to observe Flag Day by flying the colors in their homes and other suitable places, by organizing and taking part in appropriate ceremonies, and by giving grateful thought to the treasured national

heritage which the flag represents.

While Betsy Ross generally is credited with being the maker of the first flag, there is no unanimous agreement on this. Lonelle Aikman of the National Geographic Society, for example, says Francis Kopkinson, a signer of the Declaration of Independence, more likely was the flag's principal designer.

Nevertheless, Betsy's home state of Pennsylvania has made Flag Day a legal holiday, the only state to do so.

The 50-star flag will be flown officially for the first time July 4 over Baltimore's Ft. McHenry where, by the dawn's early light, Francis Scott Key wrote the words for the Star Spangled Banner.

Ft. McHenry is a national monument and Secretary of Interior Fred A. Seaman has been designated by the President to run up the new flag. It will be raised at 12:01 a.m. in ceremonies like those of a year ago when Alaska became the 49th star.

Everything is all right now," said Carl Olsson. "I got big hugs from my wife, three girls and a boy."

Olsson, 58, returned Sunday from Stockholm aboard a commercial plane.

"It certainly was a lot faster than the trip I made," he said. He began his solo hop from Wilmington, N.C., May 26 and arrived in Stockholm June 3 after stops at Bermuda, the Azores, Lisbon and Geneva.

His wife didn't know he was going to make the flight when he left Atlanta and was considerably upset when she learned about it.

Olsson said he originally intended to fly the plane to New York and then ship it by boat. He changed his mind, however, when he found it would cost \$3,500 to ship the plane and about \$300 to fly it.

The native of Eskilstuna, Sweden, wanted the aircraft in Stockholm because he plans to return there with his family in July.

"I have to go back for business reasons," he explained. "I also want my children to be educated in Sweden." He owns Oltronix Corp. in Stockholm.

Olsson came to the United States in 1955 to work as an engineer in the Marietta, Ga., division of Lockheed Aircraft Corp. Later he began the manufacture and sale of electronic instruments in Atlanta.

GIFTED CHILDREN STUDIED—Dr. Leonard Lucito, right, special education authority who lectured last week at the Counseling and Guidance Institute at Texas Tech, shows Jack H. Longbottom, left, Snyder High School guidance counselor, results of tests given gifted children. Preliminary results of Lucito's research indicate that gifted children tend to be more independent in their thought. (Texas Tech Photo.)

Annulment Is Granted

ROME (AP)—An Italian court has granted Ingrid Bergman and Roberto Rossellini an annulment of their Mexican proxy marriage.

Turks Draft Constitution

ANKARA, Turkey (AP)—A committee of 38 military leaders who overthrew strongman Premier Adnan Menderes has drawn up a provisional constitution giving it supreme power in Turkey.

Gen. Cemal Gursel and his military associates said they would remain in authority until a new National Assembly can be elected. No election date was mentioned.

The court's opinion, filed by Judge Orlando Falco, was made public today by one of the attorneys involved in the case.

The ruling paves the way for the Italian film director to marry Sonali Das Gupta, the wife of an Indian movie man who left her husband for Rossellini, bore the Italian a daughter and now is in Italy with him.

Gursel is now provisional president. The constitution promised a show trial of Menderes, former President Celal Bayar and other leaders of the ousted government. It said an investigation committee has been named to determine their responsibility for crimes which may have been committed against the state.

Miss Bergman did not contest Rossellini's suit for the annulment. Now 42, she is married to Swedish impresario Lars Schmidt, and they live outside Paris.

Gen. Cemal Gursel and his military associates said they would remain in authority until a new National Assembly can be elected. No election date was mentioned.
