Along The Waterfront

The basin in Little Bay has been paying off in a big way this week, with fishermen lined up around the banks like pickets on a fence. There has been an unusually large run of sheepshead, lots of trout, and some nice reds.

The strings are reminiscent of the Rockport Yacht Basin years ago, when it was known as the Fish Bowl of the Texas Coast.

Sixth Annual Variety Show to Be Nov. 16-17

The Sixth Annual Variety Show of the Aransas County High School Curtain Club will be presented in the High School auditorium on November 16-17, with "Calendar Girl" chosen as the theme.

Mrs. Jack Horton is director of the extravaganza, in which the months of the year will be presented in songs, skits, and dances, with the entire show centered around a picture frame holding girls dressed to represent the various months.

Modern, feature and ballroom dancing will form part of the program, with many of the numbers being choreographed by individual students. Among the dancers are Betty Armintrout, Tamara Camell, Pat Elder, Virginia Holland, N. F. Jackson, Jr., Sue Johnson and Suzanne Keith.

Novelties will include an Indian dance, square dance, Easter Parade, Peter Cottontail, a scarecrow dance, goblin dance, and Irish jig.

Mrs. J. Allen Frye is directing the chorus.

Scenery is being prepared by Niki Dick, Sue Eller, Nan Jackson, N. F. Jackson, Jr., Pam Landgraf, Jimmy Lukehart, Johnnie McHugh and Tommy Thompson.

The following girls have been chosen as Calendar Girls to represent each month:

C. of G. Directors Investigate Sports Car Events for Here

"Trader Jack" Lozier, Corpus Christi TV personality, and other members of the Corpus Christi Region of the Sports Car Club of America met with directors of the Chamber of Commerce last night to ask their cooperation in obtaining use of the Aransas County Airport for sports car events.

Jim Kautz, chairman of the tourist promotion committee of the chamber, introduced Lozier, who gave a lucid and interesting account of the purposes of the club, and of the benefits that would accrue to this area through staging of gymkhanas, drivers' schools, auto crosses and sports car races.

Pointing out that the club emphasized careful driving, safety, and the fun of driving, Lozier said that approximately 60% of its members were professional men, and that the rest of the membership was made up of business men and other responsible citizens.

"Rockport," he said, "is more suitable to such events than anywhere else in this region, and seems to be a point to which people are glad to come. We are looking for a place to operate, and we feel that we could derive natural benefits from such events. I would provide us with a spot where we can pursue our sport, and we will draw lots of people to Rockport, to the benefit of the community."

Lozier said that for the larger events such as auto crosses, people would attend from all over Texas, and for regional races they might be expected from other states as well.

Regional races would probably be held two or three times a year, (continued on page 8)

Friday Night Is Last Game Of Football Season

Friday night, when the Pirates attempt to ride the Ingleside Mustangs, is the last game of the football season, and Coach Dave Segler says they will enter the game with one starter sidelined because of injury.

Bob Johnson was hurt Monday in practice.

Coach Segler says that the main Ingleside scoring threats are power runner Glen McDonald, plus 215 pound fullback, Alfred Goff who plows through up the middle. "They have an agile, 175 pound average line," he said. They move well and have a good defensive game that we must crack to win. "We'll use basic football all the way through on offense and defense."

Mathis beat Ingleside 20 to 0 last Friday.

AERIAL SPRAYING DEMONSTRATION SET IN ARANSAS

An aerial chemical spraying demonstration on brushland in Aransas County is scheduled for early today, using various combinations of chemicals at different levels.

The demonstration will get under way shortly after 7 a.m. on property under lease to C. N. Sawyer, just east of the intersection of Farm Roads 881 and 1069. The work is expected to continue until about 10 a.m. today.

Dr. Robert A. Darrow and Bob Haas of the range and forestry department at Texas A&M College, will be on hand for the educational program presented in conjunction with the chemical spraying operation.

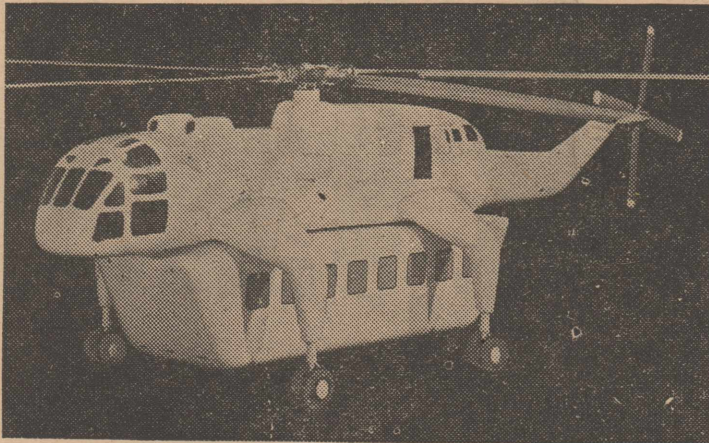

JUNIOR VARSITY PLAYS INGLESIDE HERE TONIGHT

The Junior Pirate varsity will play Ingleside's Junior Varsity here tonight at 7 p.m., and people who have seen both teams in action say that it ought to be a good game.

These boys have worked hard all season, with little recognition, and deserve a good turn out.

DIRECTORS OF C of C THANK BARBECUE HELPERS

Directors of the Chamber of Commerce, at their regular meeting Tuesday night, expressed appreciation to all those who made the annual Emergency Corps barbecue such a success, and were especially grateful to Hinton's for the use of their barbecue pit when bad weather made it impossible to use the Lions Pit on the waterfront.

FROGLIKE—Resembling a frog straddling a bus, this is a model of the proposed British Westland helicopter. Designed to provide a three-way lift, the odd whirlybird can be used as an aerial crane, short-haul transport or carrier for utility pods.

Book Fair to Be Held at Rockport Elementary Nov. 12-18

The Rockport Elementary School will stage a Book Fair next week, Nov. 12-18, and all those interested in children and good books are invited to visit the school during its celebration of National Book Week.

Approximately 200 new books will be on display in the school library during this time, and students will choose one they wish their parents to purchase for the school library at this time. A gift book plate will be available to the donor to commemorate the gift. Plates "In Memory Of" will also be available for those who wish to honor a friend or a loved one.

These plates have been designed and created by Mrs. N. F. Jackson.

Two contests will be added incentives for promotion of this contest. A book character contest for the student body will be held at the November Parent-Teacher Association meeting on Wednesday, Nov. 15. The one presenting the most realistic characterization from a famous book will be awarded a book of his or her choice for the library, to bear the name of the winner.

The second contest is for friends and parents who visited the fair. The room with the greatest representation will receive a gift book for the library in their name.

Mrs. Schultz, school librarian, says: "Thanksgiving, 1961 style, can (continued on page 8)

County Officials Attend Engineers' Meeting In Corpus

County Judge John D. Wendell, Commissioner Jack Sparks, County Surveyor Thomas Griffith, and Jack Sanders attended a three-hour hearing Wednesday before representatives of the Corps of Engineers in Corpus Christi, at which a tri-county request was made for hurricane and flood protection.

Lt. Col. James S. Maxwell, who presided, told representatives of the counties that if it determined hurricane protection is needed, the project will be reported favorably for Congressional action.

Approximately 150 persons attended the meeting, including officials from three counties; from San Patricio, Nueces and Aransas; and from the State Highway Department, and the State Board of Water Engineers, which was represented by its chief engineer, John Vanderlip, of Austin.

Mayor Ben F. McDonald, of Corpus Christi, presented a detailed brochure to the engineers.

The report, prepared by consulting geologist and oceanographer, Dr. Armstrong Price of Corpus Christi, who was formerly a professor in the Department of Oceanography at Texas A&M College, suggested strengthening dunes along Mustang and St. Joseph's islands; protecting the bluffs of Corpus Christi Bay in Nueces and San Patricio counties, and shorelines and low areas along Oso Creek, Flour Bluff and in the Corpus Christi Beach area.

Price's report stated that the barrier islands would provide a 100-mile-long protective levee against an eleven foot storm surge in Aransas, Copano, and Corpus Christi Bays.

One of the key factors governing the project, Maxwell said, would be whether the annual benefits received would exceed annual costs. Unless this is true, the engineer stated, "the project cannot be favorably recommended to Congress."

If a Federally financed project is undertaken, Judge Wendell said that local interests would be expected to pay 30% of the initial cost.

Committee Seeks Conservation Dist.

County-Wide Organization to Be Sought At Next Meeting of Legislature to Deal With Water, Sewage and Drainage Problems

The newly formed Aransas County Area Development Committee, appointed as an advisory board to the Commissioners' Court, lost little time in recommending formation of a county-wide reclamation and conservation district.

In opening the meeting, Chairman James H. Sorenson, Jr., pointed out to the committee and to those assembled to listen, that one of the first concerns of the committee should be development of an adequate fresh water supply,

together with a suitable disposal system for sewage, and proper drainage.

"Another obvious must," he said, "is a suitable protection of our area from rising tides, but this matter, I am advised, is under study by the Corps of Engineers, as well as by other interested members of the community."

"It is my concept that our function and responsibility as a board is the studying of problems, the planning, advising and assisting of our public officials."

Following Sorenson's remarks, Homer C. Innis, head of the Corpus Christi office of the consulting engineering firm of Lockwood, Andrews and Newman, summarized briefly the Aransas County's problems brought on by increased population in the area.

Pointing out that the decentralization of public industry is becoming of greater moment throughout the country, Innis said that "communities like this, with your existing resources supplemented with adequate fresh water, collection and treatment of waste, drainage, transportation, and complete community utilities can attract components of industry which are divisible."

He said that maximum development of the area depended upon prompt, long-range planning of three basic improvements—water, waste disposal and drainage and later, planning of the supplementary phases of development that he had outlined.

Innis talk was followed by a question and answer period in which W. C. Jackson, president of the First Southwest Company of Dallas, Laddie Janicek, of that company's San Antonio office, and Bryce Hugenin, the company's attorney discussed municipal and governmental financing for projects of this sort.

When this discussion was finished, the committee was in agreement that steps should be taken to implement such planning, and Emory M. Spencer, local oil man and real estate operator offered the following motion:

"That the necessary steps be taken to have the Texas Legislature create a conservation and reclamation district comprising Aransas County, and that all preliminary engineering and financial work be done."

This was passed unanimously by the committee.

Other members of the committee present besides Spencer and Sorenson were: Mrs. Everal West, Mrs. Roberts Johnson, L. E. Casterline, Mayor Herman Johnson, Weldon Cabanis, Floyd Rouquette, and T. D. Picton.

Two members of the Aransas County Water Committee, Harold Picton and Jack Baughman, were also present, as were County Judge John D. Wendell, who appointed both committees, his secretary, Mrs. Guy Barber, and Tommy Griffith, county surveyor.

Mary Ann Barber Chosen DAR Good Citizen at ACHS

Mary Ann Barber, daughter of Mr. and Mrs. Guy Barber, has been chosen as the DAR Good Citizen for Aransas County School.

To gain this coveted honor, the senior girl, who is chosen after election by the students and faculty, must possess to an outstanding degree the qualifications of dependability, service, leadership, and patriotism. She must also have made creditable grades through her high school years and must write a theme on a chosen subject which, this year, was "A Republic, If You Can Keep It."

All local entries are then entered in a state contest, with the winner to be announced in Corpus Christi in March. The state winner will be sent to Washington, D.C., later, to compete for the title of "National Good Citizen."

Miss Barber is making plans to continue school after graduation from ACHS, first going to South Texas Commercial College in Corpus Christi, and from there, she hopes to attend a four-year college.

She is a member of the Greenbackers, Future Teachers of America, the National Honor Society, and the Student Council, and is on the staff of the school paper, The Pirate Log. She also belongs to the Future Homemakers of America, and is either president, or holds office in most of the other organizations mentioned.

NEW OFFICERS ELECTED BY CHURCH WOMEN

Proceeding the meeting on World Community Day, Nov. 3, a business meeting was held at which time the following officers were elected to take office in January:

Mrs. J. D. Donaldson, president; Mrs. Cecil Cole, vice-president; Mrs. J. R. DeForest, secretary and Miss Winona McFall, treasurer. Thus, the three churches of the Council are represented in these officers. (Presbyterian, Methodist, and Episcopal churches.)

The program was conducted by Mrs. W. N. Blevins, assisted by Mrs. E. T. White in a skit about the organizations of the World Council of Churches that are at work in the various Latin American countries.

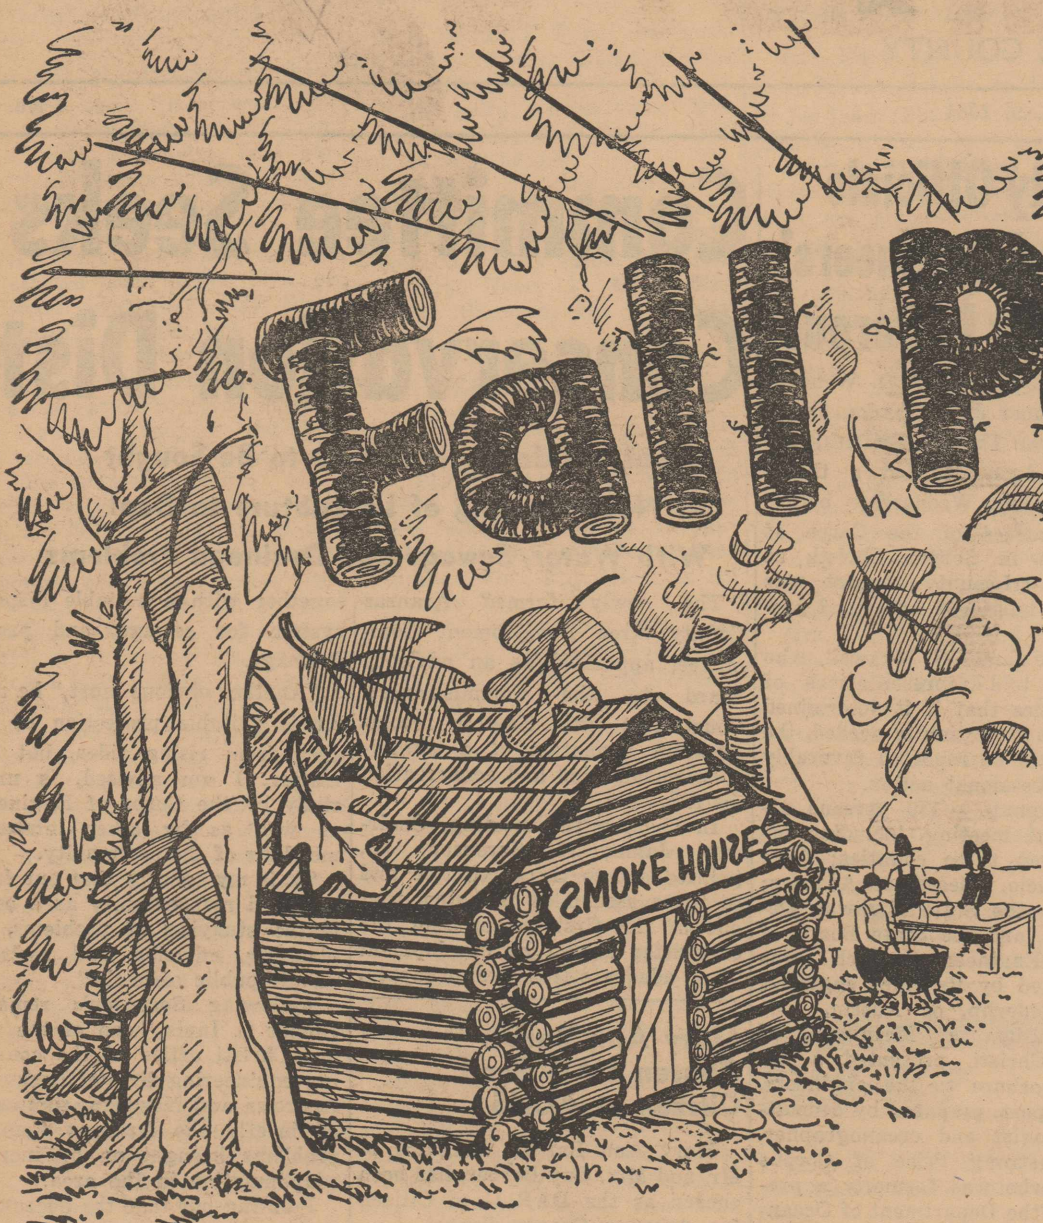

A nice offering of money and school supplies and material for children's clothing was collected. The money will go towards training to help the women in these countries.

At the social in the Parish Hall, following the meeting, spiced tea and cookies were served from a table decorated with a balance scale containing miniature plastic fruit—a very colorful display.

The annual meeting of the United Church Women will be on Dec. 4, at 3 p.m. at the Presbyterian Church at which time the above officers and Committee chairmen will be installed, and annual reports given.

Public Accountants
Beeville, Texas

October 18, 1961

The Honorable Mayor
and City Council
City of Rockport, Texas
Gentlemen:

An examination has been made of the books and records of the City of Rockport, Texas, for the fiscal year, October 1, 1960 to September 30, 1961. We have examined the accounting procedures of the city, and, without making a detailed audit of all transactions, have examined or tested accounting records and other supporting evidences by methods and to the extent we considered appropriate. Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances, and included procedures considered necessary.

General Account
The taxes collected, as well as various other fees, were traced to the depository. The General Account in the First National Bank, Rockport, Texas is made up of three funds: General, Street Maintenance, Street Improvement Bonds Sinking Fund.

Tax Assessor-Collector
Schedules are shown for the 1960 tax roll, delinquent taxes and distribution of collections.

Bonded Debt
The total bonded debt at September 30, 1961 was \$234,000.00. Of this amount \$46,000.00 are tax bonds and \$188,000.00 are revenue bonds. All paid bonds and coupons redeemed during the period were examined. Coupon No. 14, from Bond No. 148 of the Water and Sewer Revenue bonds had not been presented for payment at the close of the year. Bonds in the amount of \$3,000.00 were called and paid ahead of schedule from the Street Improvement Bonds during the year.

A schedule of the bond debt together with maturity schedules of each of the issues are shown.

Waterworks and Sewer System
A schedule of receipts and disbursements is shown for the operation of the Water and Sewer System. The Garbage Department was operated from October 1, 1960 to April 30, 1961 as a part of the Waterworks and Sewer System.

Garbage Account
A schedule of receipts and disbursements is shown from May 1, 1961 to September 30, 1961. In addition a schedule of income and disbursements has been prepared for the whole year which is a recapitulation of the income and disbursements taken from the Water and Sewer operations and the Garbage operations for the last part of the year.

Other
Investments in Certification of Deposits, First National Bank, Rockport, Texas, are held by the Water and Sewer Revenue Interest and Sinking Fund in the amount of \$15,000.00.

An analysis was made of the transfers or loans that have been made between the various funds with the following result.

Due to General Fund from Street Improvement Construction	\$ 13,824.75
Due to General Fund from Water and Sewer Operating Fund	3,000.00
Due to General Fund from Garbage Fund	1,280.70
Total Due to General Fund	\$ 18,105.45
Due to Meter Deposit Fund from Water and Sewer Operating Fund	7,000.00
Total	\$ 25,105.45

The Street Improvement Construction fund has a balance of \$57.87 which was a refund from the State Treasurer which can be used to apply on the \$13,824.75. No other way is seen for balance to be collected. The other amounts can and should be repaid especially the \$7,000.00 that is due to the Meter Deposit Fund.

An Analysis of the Street Improvement Construction Fund without the \$57.87 shows the following as of October 1, 1960.

Expenditures	Receipts
Sale of Bonds and Accrued Interest	\$ 80,053.34
Net Deposit - With State Treasurer	\$ 65,167.49
Right of Way, Legal, Printing and Fiscal Agents Fees	27,627.70
Extra Curb and Gutter	1,082.90
Total	\$ 93,878.09
Difference - Due General Fund	13,824.75
	\$ 93,878.09
	\$ 93,878.09

In our opinion, the accompanying statements of cash receipts and disbursements, together with the related schedules present fairly the cash transactions of the City of Rockport, Texas, which occurred during the fiscal year ended September 30, 1961.

Yours truly,
SEALE, McCARTY & MILLIKIN

CARTOONIST ENTERTAINS SCHOOL BODY

Bob Williams used fluorescent chalk, pastel chalk, and black lightning to produce scenes, comic cartoons, and portrait sketches at a special assembly in the auditorium at 12:30 p.m.

In order to dramatize his skills on the easel, Mr. Williams used background music provided by his wife. He slowly transformed his drawing board into the setting for an African jungle or a western farm, with the help of appropriate poetry and narrative comments.

"Adventure in Chalk" included many animated cartoons and pictures, including "Lady and the Tramp." Sponsors say that Mr. Williams' Norwegian ancestry contributed to his appreciation of color and artistic beauty.

This program was presented by the Student Council.

Steele Talks On American Education Week

Seth Steele, president of the Chamber of Commerce, says that American Education Week, Nov. 5-11, gives the business community of Aransas County the opportunity to again express appreciation for the leadership and dedicated service of school board members, school teachers and administrators.

Since 1953, 39 new classrooms have been constructed, and it was anticipated that these new classrooms would take care of our needs for ten years, but at the present time our schools are terribly overcrowded, as our population growth has exceeded all expectation. This year alone, there is a 14 percent increase in enrollment.

Total enrollment has increased from 862 in 1953 to 1218 at the present time. The number of teachers has jumped from 45 to 59 during this same period.

Our school board members deserve a special commendation for their continual efforts to up grade the quality of instruction. Today 57 of our teachers and administrators have college degrees, of which 25 are master's degrees.

The Aransas County Chamber of Commerce has a continuing interest in education and will work in behalf of better schools this year and every year. Businessmen are being encouraged to visit their schools to see firsthand how well their schools are operating.

The Chamber's Board of Directors extends greetings and best wishes to our local school board, administration and staff, especially during this week, American Education Week. It is our desire to discuss with them any new ways which we may help in educating the youth of Aransas County.

be expressed by your attendance of the Rockport Elementary Book Fair.

"The Pilgrim children were not as fortunate as our children today in their reading matter.

"Certainly, the 1961 children have much to read about. Never have there been such fine books for children.

"With Christmas not too far off, why not present your favorite student with a book for the library? The student will be honored with a gift plate in his name. When processing is completed, the honor student will be the first to check out the book. After he or she has enjoyed it, the book will be placed on the shelves for all the students to read.
