

FIERCE APRIL WIND SWEEPS THE COUNTRY

LAST NIGHT'S WIND DID MUCH DAMAGE

MANY WIRES DOWN

COMMUNICATION WITH MANY NORTHERN CITIES IS IMPOSSIBLE

LAKE TRAFFIC IN DANGER

Wind is Accompanied With Wet Snow and the Lakes are Threatened by the Gale Until Navigation is Stopped--Damage Done in Fort Worth is Slight

(By Associated Press.)

CHICAGO, Ill., April 3.—The city is almost entirely cut off from telegraphic communication with the outside world, as a result of the storm early today. The high northeast gale with a heavy fall of wet snow caused the wires to go down. The temperature is near freezing. Danger signals are displayed on the lake and the vessel men are warned not to venture out.

Last night's wind was one of the most destructive that has visited the entire country in many months. West, south, north and east suffered, the gale in some places attaining a speed of sixty miles per hour, while elsewhere it was only a stiff breeze.

The weather map this morning showed that the wires were down from Bismarck, N. D., Detroit, Mich., Huron, Mich., Marquette, Mich., and Pittsburgh, Pa.

A glance at the "velocity column" on the map shows that high winds were general nearly everywhere, the various speeds recorded being as follows:

Ahliens, 36 miles per hour; Cairo, Ill., 35; Chicago, 45; El Paso, 32; Fort Smith, Ark., 42; Fort Worth, 40; Little Rock, 34; Memphis, Tenn., 35; Oklahoma, Okla., 44; and St. Louis, 35.

DAMAGE IN FORT WORTH

Though the whirling dust yesterday and last evening made the streets almost bare of pedestrians, the damage was slight until late at night, when the gale increased. Three unfinished houses in Rosen Heights addition to North Fort Worth, were blown from their foundations and three tents along Marine creek were blown down, but their occupants were unhurt.

In the city, the big sign of the Texas Printing Company went before the gale, and a number of other signs were torn from their fastenings.

OFFICIAL FORECAST

The official summary of weather conditions for the day is as follows: The greater portion of the country has been under the influence of a typical spring storm for the past forty hours or more; the center has moved slowly; yesterday it was in Iowa; this morning it is in western Indiana and eastern Missouri. It is well defined and a severe storm, with its area of influence covering all of the Mississippi valley and thence eastward to the Atlantic. No rain occurred in Texas, but heavy winds prevailed during the past twenty-four hours throughout the state. The result of the storm's movement: Showers falling in Illinois and eastern Iowa and Missouri; killing frost occurred in north Texas, New Mexico and Arizona.

WEATHER RECORD

Following is the weather record for the last twenty-four hours--minimum and maximum temperature, wind in miles per hour at 3 p. m., and rainfall in inches:

Station	Min.	Max.	Wind	Rain
Amario	32	82	8	.12
Cairo	76	86	0	
Chicago	32	78	48	.24
Dodge City	30	58	8	.32
El Paso	30	58	19	0
Fort Smith	30	58	26	7
Fort Worth	38	82	28	0
Houston	38	72	16	0
Little Rock	36	84	20	0
Memphis	36	82	20	0
Nashville	62	80	20	0
Oklahoma	38	84	34	.04
Palestine	58	82	24	0
St. Louis	46	86	24	.18
Salt Lake City	34	44	16	0
San Antonio	36	86	12	0
Shreveport	38	82	26	0

BOOKER WASHINGTON TALKS ON PROBLEM

TRENTON, N. J., April 3.—A large audience assembled last night under the auspices of the Contemporary Club to hear an address by Booker T. Washington on the race problem and its solution.

"The negro," said Mr. Washington, "must work out his own political and social salvation. Freedom for him must not be a conquest from the white man, it must be a conquest, peaceful conquest. A negro's greatest fault is lack of progress. The Russian seeks freedom without

ROOSEVELT'S PICTURES AS A REWARD OF MERIT

GLOUCESTER CITY, N. J., April 3.—George Cunningham of this city, who recently became the father of triplets, all boys, has received a letter from President Roosevelt, congratulating him. The letter reads: "Washington, D. C., March 31, 1903. "Mr. George Cunningham: My Dear Sir—I congratulate you and Mrs. Cunningham. That is the kind of American citizenship which I believe in. I send you three photographs of myself for the three new Cunningham boys and my compliments to Mrs. Cunningham.

"With my best wishes, "THEODORE ROOSEVELT, President."

The letter was written as the result of a communication from the family physician of the Cunninghams, who informed the president of the birth of the triplets.

dynamite, the Irishman with his rebellion, but the negro has ever gained his victory by his midnight prayers and his faith in God."

CHILDREN KILLED ON WAY TO PRAYER

CHICAGO, Ill., April 3.—Walter Krueger, 8 years old, was instantly killed and his 10-year-old sister, Ella, who was leading him by the hand, probably was fatally injured by a rapidly moving Twenty-fourth street last night.

The children were on their way to a prayer service at the Burr mission chapel. Following the accident Herbert Sanford and G. W. Lindblad, the motorman and conductor, were guarded by the police from a clamorous crowd which demanded that they be lynched. Afterward both men were released.

SOCIETY WOMAN IS IN A SANITARIUM

NEW YORK, April 3.—Without announcement Mrs. Pierre Lorillard left the city about three weeks ago, says the American, and except for her intimate family her whereabouts was unknown. It has been learned, however, that Mrs. Lorillard is in a sanitarium in Deerfield, Mass., whither she went because of serious nervous illness. It is announced that during her stay at the place Mrs. Lorillard has shown great improvement.

Mrs. Lorillard is quoted as saying in a message to the American: "It is true that I have been obliged to close my town house and let all social and business engagements go for the present. It is also true that I shall remain here for some time to come—just how long I cannot say."

CANADIAN-ALASKA STAFF IS AT WORK

NEW YORK, April 3.—The Canadian-Alaska staff has quietly settled down to work, says a London dispatch to the Tribune. Minister Sifton and Under Secretary Joseph Pope have been closely occupied with preliminary consultations in which their counsels and officials of the American office took part. Their secretary, A. P. Collier, says a strong staff of men will be engaged for the next three months in working up the Canadian case for presentation to the Alaska commission. There will be a thorough investigation of the records of the foreign office bearing upon the Anglo-Russian treaty of 1825, and no pains will be spared to establish the Canadian case.

KING EDWARD IS PORTUGAL'S GUEST

LONDON, April 3.—The British royal yacht Victoria and Albert, with King Edward aboard, arrived in the Tagus from Lisbon and forth was saluted by the warships and boats. The yacht steamed up the estuary, followed by the escorting British and Portuguese cruisers and anchored opposite the Black Horse squadron, where an immense crowd had assembled. Another royal salute was fired as King Carlos embarked at the arsenal on board the royal galley, which was built for the marriage of Don Maria and Carlos IV. The galley is beautifully decorated with elaborate carvings, is thirty-six feet long and was manned by eighty men, who pulled forty oars. The warships manned sides and yards and the sailors cheered as the state galley, followed by a number of other galleys, proceeded to the Victoria and Albert.

The interview between their majesties on board the Victoria and Albert lasted an hour and a half, after which a procession was formed and the two kings went ashore. The historic galley occupied by the kings led the way. It was followed by a flotilla of various craft. Their majesties' progress was accompanied by salvoes of artillery and the sailors of the warships again manned the sides. On landing King Edward and King Carlos were greeted with tremendous enthusiasm.

LISTEN TO VIEWS OF DEMOCRATIC SPEAKERS

DES MOINES, Iowa, April 3.—The Jefferson banquet at the Savoy hotel last night was attended by fully 300 Iowa democrats, most of whom represented the silver branch of the party in the state. The principal speakers were Adlai Stevenson and William J. Bryan.

STEVENSON'S SPEECH Mr. Stevenson was the first speaker. He spoke in part as follows: "We are almost upon the threshold of another presidential contest. The main issues of the struggle can even now be clearly defined. The party in power will stand as in the past, for a high protective tariff; will oppose all attempts to lighten the burdens of enormous tariff taxation. It will stand for the trusts. The unlawful combinations of capital which today threaten the destruction of legitimate business enterprise will find its only defenders in the republican party. The extravagant appropriations by the recent congress will find justification, and will pave the way for great extravagance yet to follow. Controlling all departments of the government, no honest effort has been made to make good the pledges of their last national platform. With large surplus in the treasury drawn from the channels of trade by unnecessary taxation, no reduction of the tariff will be permitted. It will stand for foreign conquest.

"In unrelenting hostility to all this, the democratic party, true to all teachings of Jefferson, will favor the abolition of all unnecessary and unjust taxes; will demand a reduction to the minimum of the cost of every needed article of consumption. It will stand in reality, as well as in its platform, the antagonist of trusts. Believing that wherever there is a wrong there must be a remedy, it will favor such legislation as will seek to curb the spirit of monopoly and place an effectual check upon unlawful combinations of capital which are obstacles to legitimate business enterprises and investment. Believing with Jefferson in an economical administration of the government, it will oppose unnecessary and extravagant appropriations of the public money. Confident that the experience of a century has demonstrated the wisdom of avoiding 'foreign complications and entanglements,' it will oppose imperialism, 'the spirit of empire.' In a word, it will be the high aim of the party of Jefferson and Jackson to supplant dangerous experiments, reckless extravagance and corruption, with economical and constitutional methods of administration in all departments of the government.

"Is it too much to believe that with these issues in the forefront there will be no divided councils in the democratic party? Whatever differences may exist upon questions of less moment, there can be none upon the political issues indicated. In the approaching struggle for political supremacy, appeal will be made more earnestly than ever before to democracy to present an unbroken front."

BRYAN ON DEMOCRACY Responding to the toast, "Democracy," Mr. Bryan spoke in part as follows: "Harmony, like happiness, is not secured by seeking for it; it comes as the reward of right doing. The mere mention of harmony suggests differences that need reconciliation, and the vociferous talk about harmony among those who disturb it, left the party and lent their influence to the enemy, naturally recalls the issues that created the disturbance and naturally suggests the inquiry whether the prodigals have repented or demand repentance of the party.

"The difference which existed on the money question still exists, for while the republicans are boasting that the money question is settled, money is tight in the great financial centers and the financiers of this country are resorting to extraordinary methods to get enough money into circulation to carry on business.

"On the trust question the same amount of cleavage appears. The men who threatened a panic if silver was restored now threaten a panic if the trusts are disturbed, and the trust magnates are casting about for democratic candidates so much like a republican that the trust can rest easy, no matter which candidate is elected.

REORGANIZATION "Reorganization means retreat, and retreat means demoralization and disaster. From the low standpoint of experience, retreat could not be justified. The party pulled nearly a million more votes in support of the Chicago and Kansas City platforms than were polled by Mr. Cleveland, even before his political crimes were exposed. What would be the result to day if the standard were put in the hands of men known to be unfaithful to democratic principles, or even in the hands of those who are known to be faithful?

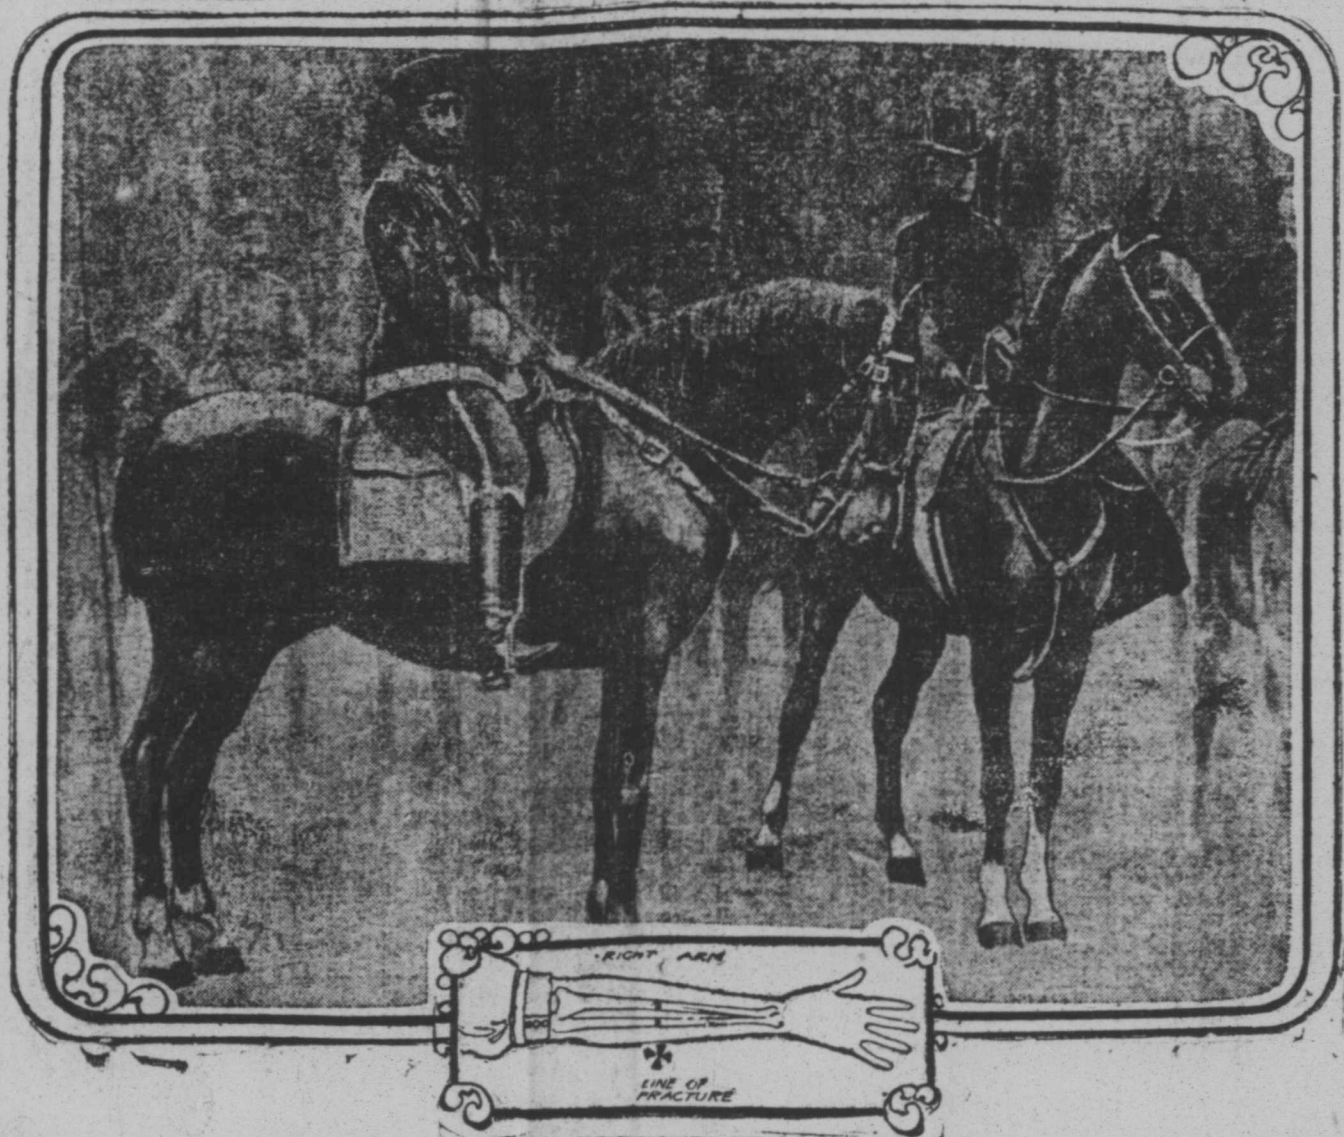

"To say that a right principle must be dropped because the party has suffered defeat in support of the principle is as ridiculous as it is cowardly. The democratic party has been defeated more often on the tariff issue than any other issue; still that is the issue that the reorganizers would make the paramount one.

"While circumstances determine the emphasis that should be placed upon particular issues, no party can afford to abandon a righteous position once taken for fear that to maintain it would be unpopular."

Mr. Bryan referred to the stand taken last fall by Governor Cummins of Iowa, and said that the governor, advocating tariff reform, acted as a democrat to a greater degree than did those who had bolted from the party in the last two national campaigns. There were a number of other speakers on the program.

COMMITTEE ORGANIZED The banquet proper was announced as

Emperor and Empress of Germany

This picture is reproduced from a recent photograph of the German emperor and empress riding in the Grunewald forest, where the empress was thrown from her horse and had her arm broken.

YOAKUM TALKS OF SOUTHWEST

FRISCO PRESIDENT TELLS OF RECENT TRIP

CONDITIONS WHOLLY NEW

Says That Increased Facilities Must Be Had by All Railroads in Order to Handle the Business Which Has Never Before Been Equalled in the Country

(By Associated Press.)

NEW YORK, April 3.—In the course of an interview had with him in this city President B. F. Yoakum, of the St. Louis and San Francisco Railroad Company, said:

"I have been busy myself with a southwestern inspection tour for a fortnight past. What I saw was prosperity—on every hand prosperity expanding. Thousands and thousands of acres of new lands were preparing for cultivation, while manufacturing industries are starting in all sections, with merchants, farmers, stockmen and mechanics prosperous—only the railroad people unhappy, owing to their inability to move with promptness the extraordinary business offerings, while the splendid prospects of the wheat crop facing them for movement in a few months add more grief to the present over-taxed capacity of the roads.

RAILROAD GROWING "Every railway in the southwest is purchasing additional equipment and building new tracks and establishing new facilities endeavoring to catch up with increasing tonnage. New York impresses me as the only place where hard times and panicky conditions prevail.

FACILITIES NECESSARY "Concerning the talk of the over issue of food securities the facts are that this country has reached a state of development that seems entirely new conditions compared with what we have ever had before. And increased facilities in every line of business are as essential to enable the railroads to take care of increased business as was the necessity to construct the railroads originally."

a gathering of democrats, without regard to the differences of opinion as to party policy, but during the afternoon a meeting of Kansas City platform adherents was held, at which an organization was formed and a central committee created for the purpose of placing in the next Iowa platform the principles of the Kansas City platform. Mr. Bryan attended the meeting and endorsed the movement.

"The Democracy of America does not want 'harmony,' he told those present. "It wants the triumph of democratic principles."

GLEN FALLS WOMAN IS DEAD AT RITE OLD AGE

(By Associated Press.) GLEN FALLS, N. Y., April 3.—The oldest resident of this place, Mrs. Mary Maloney, is dead here in her one hundred and first year. She was born in County Mayo, Ireland, August 8, 1802. She emigrated to Canada when 25, but had lived in northern New York for seventy years. She never rode on the railway train, but last summer was induced to take a trolley ride to Lake George.

NEGRO MURDERER SAYS SUFFRAGE IS NOT FOR THE NEGRO

WAKAHACHE, Texas, April 3.—In the district court this morning the death sentence was assessed against Broder Smith, a negro wife murderer. The crime was committed on the night of Feb. 21. Three days later the grand jury returned a bill of indictment against Smith. Only one day was needed to try the case and the jury was out about two hours. The court has not yet passed sentence on the convicted man.

The case of Clarence Curry, a young white man charged with murder, was called for trial this morning.

VENZUELAN ARRIVE IN SEARCH FOR MONEY

NEW YORK, April 3.—Representatives of French financiers have arrived in Caracas, according to a Herald dispatch from that city, and are making active efforts to secure a Venezuelan loan for the conversion of the Venezuelan debt.

"There is only one solution to the negro question. The nation must recede from the position taken by it on the matter of negro suffrage. The nation must remit to the state control of the suffrage issue. This may be a great concession,

but it is a concession of sound common sense. "By reducing the question of suffrage to a sensible basis you will touch the tender spot of the southerner. I am one myself and I know it will reach my heart. "You soon must tell the negro he cannot have all that he expects; you will have to tell him this at the cost of a race war among ourselves."

MONTEREY, Mexico, April 3.—During the celebration here Thursday of the victory of General Diaz' republican troops over the French at Puebla on April 2, 1867, after the disbanding of a grand parade on the Saragossa plaza, a mob of about 15,000 citizens who are partisans of Francisco Reyes, who is one of the opposing candidates of General Bernardo Reyes, late minister of war in President Diaz' cabinet, marched in a body to the residence of Governor Reyes and began to heap abuse upon the governor, greeting him with a shower of stones and yells of "Death to Reyes," etc.

The celebration of Diaz' victory began at 6 a. m., when the national flag had been unfurled above the public buildings and the various military bands gathered on the Saragossa plaza, where is situated the residence of Governor Reyes, and marched through the streets, playing, to their respective barracks.

At 10 a. m. there was a band concert on the Saragossa plaza and just after the termination of the concert difficulties took place between the partisans of the various candidates for governor, which led to the formation of a large mob.

The governor in the meantime called upon the police by telephone for protection and a squad immediately responded and began the work of dispersing the mob. A pitched battle ensued, in which stones, sticks and pistols played a prominent part. A large number of shots were exchanged between the police and the riotous mob and when the mob had been dispersed it was found that two policemen and three citizens had been killed and a large number of persons more or less seriously wounded.

ST. PIERRE, Miquelon, April 3.—With 1,200 passengers each, consisting chiefly of crews for the fishing fleet here, the owners and their families, the French steamers Burgundy and Notre Dame De Salut sailed from St. Malo, France, on March 17 for here. They are now a week overdue and great anxiety is felt here and in French ports.

A committee of ship owners has interviewed the governor, requesting that he try to induce the mint of wires, cables the Paris to send out cruisers in search of the overdue vessels.

THE SYSTEM NOW RUN INTO THE GROUND

NEW YORK, April 3.—An interesting series of demonstrations has been given at Alexandra palace of the electrical transmission of signals and speech through the ground without the use of wires, cables the London representative of the Tribune.

The inventor, a young Swedish electrician, trained in the United States and a Devonshire electrician, were present with Sir Girard Smith and other experts. The experiments were conducted without the pretence that a perforated system of installation had been worked out, and the practicality of dispensing with wires and masts and using earth currents of electricity for commercial, military and naval purposes was illustrated. A characteristic feature of the system was the peculiar combination of high potential discharges and low tension currents.

TURKISH TROUBLE ON THE INCREASE

APRIL FOOLS DAY JOKE HAS A FATAL ENDING

NEW YORK, April 3.—An April Fool's Day prank has resulted fatally here, George Wallace, aged 14, dying from a blow on the jaw inflicted by a man who had been tormented by jokers.

Wallace was watching boys who were tying tin cans to the coats of passers-by, when one of the latter accused Wallace of tying a can to his coat tail and struck him on the jaw, fracturing his skull.

William Bagley, aged 17, a plumber's helper, has been arrested, charged with assaulting Wallace. Bagley says the boy threw a brick at him and he retaliated by striking him in the mouth.

but is a concession of sound common sense. "By reducing the question of suffrage to a sensible basis you will touch the tender spot of the southerner. I am one myself and I know it will reach my heart. "You soon must tell the negro he cannot have all that he expects; you will have to tell him this at the cost of a race war among ourselves."

NEWS and
COMMENT

George Eller, the well-known referee, who presided at the fight between Marvin Hart and Jack Bonner at Louisville last night and awarded the decision to Hart on a foul, was one of the few sporting authorities that had nerve enough to publicly announce that Young Corbett in

SETTLEMENT OF THE WAR
 After two weeks' negotiations a peaceful settlement of the Venezuelan controversy has been effected, by which the blockade was raised at once and all property from Venezuela to be returned to it. It is always best if such disturbances can be settled in this manner. The best way to settle any disturbance of the stomach is to take a dose of Hostetter's Stomach Bitters at the very first symptom. It has a toning and stimulating effect upon the entire system, assisting in the different organs in the proper performance of their duties. Good health is the result. It also cures headache, nausea, belching, loss of appetite, indigestion, dyspepsia, flatulency, and malaria, fever and ague. Try a bottle and see for yourself. Your druggist will sup-

Philadelphia brought a number of the old-time boxers together in friendly bouts and also raised the much-mooted question as to whether or not the latter-day boxers are as scientific as their brethren of twenty-odd years ago. Johnny Clark, one of the clever old-timers, takes up the cudgels for the men of his time, and in a letter to Professor Nixey, an old English boxer and a cousin to that wonderful fighter Jim Mac, says Billy Edwards, Arthur Chambers, Harry Gilmore and he (Nixey) could make the present day boxers look like selling-platers. Edwards, old-timers will remember, was the light-weight champion when London prize ring rules were in vogue, and could easily fight as high as 120 pounds, while Chambers, as feather-weight champion, always fought at 116 pounds.

The raising of the weights in the feather and light weight divisions is more apparent when it is known that Gilmore and George Fulames fought for the light-weight championship of Canada at 124 pounds, weight in at the ringside in fighting costume. Later, when Harry was the acknowledged light-weight champion of the then queen's dominions, his backer, Ed Holke, offered to match him against "Spider" Ike Kelt, king of the feather-weights, at 122 or 124 pounds. Harry, on his own behalf, challenged the winner of the Weir-Tommy Warren fight at 120 pounds, which was not accepted. There is no denying the fact that Gilmore in his day was considered the most scientific

"Mac" McCormick's recent benefit in

boxer in the country. This was shown by the easy manner in which he out-pointed men of all weights when on the road with the Edwards-Chambers combination.

ADDITIONAL CITY BRIEFS

A Baptist social will be given at F. C. Outlaw's, corner of Lake street and Central avenue, tonight. All are invited.

The Methodist Episcopal church at Rosen Heights will be located on the corner of Twenty-third street and Pearl avenue.

Mrs. John Creed of North Fort Worth went this morning to the country to visit her daughter, Mrs. Hugh Chapman, who has a new baby boy.

Another well will soon be finished at Rosen Heights, after which pipes will be laid for a more-satisfactory water supply.

Services at Marine Methodist Episcopal church, south. Sunday will be: Sunday school at 9:45 o'clock; preaching at 11; Junior League at 2 p. m.; Senior League at 4, and preaching at 8 p. m.

The Swedish Methodist Episcopal Aid Society held a meeting yesterday at the home of J. A. Anderson and elected the following officers: Mrs. Martinson, president; Mrs. Taylor, secretary; Mrs. Swenson of Glenwood, secretary. About thirty were present and coffee and cake were served.

At the meeting of the Columbus League held last night at 605 Main street, nine new members were initiated as follows: Robert James, Ernest Johnson, William Kirksey, Theo Schroeder, John Anderson, Anna Belikan, Mrs. Mary Green, Mrs. Anna-Boman, Mrs. Olga Emiling.

ELSEWHERE

Magistrate Pool of New York has ideas about draw poker which do not seem to be in harmony with the rules which usually govern the great American game. Half a score men captured in a recent raid, were brought before him, the officers declaring that they had found the prisoners playing poker. "Did you capture the cards?" said the judge. "We did, your honor, and they are poker decks." "How many cards in each deck?" "Fifty-two, the usual number." "Then they are not poker decks. Poker is played with out the sevens. The prisoners are discharged."

In a public address recently Wheeler H. Peckham of New York took ground against skyscraper office buildings, which he condemned as dangerous to health. "How considerate we are," he exclaimed. "We build hospitals for the poor consumptive and then we turn around and build sky-scraping structures where consumption may breed so that we shall not lack for patients." The matter is beginning to attract serious attention in New York city, especially in the lower part of Manhattan island, where the streets are as narrow and crooked as when the Dutch burghers laid them out or their cows traced them across the fields.

GENERAL STOCK NEWS

Two hundred thousand dollars worth of wool has been clipped in the Salt River valley this season. The amount which passed through Phoenix warehouses is 1,200,000 pounds, with about 100,000 pounds more to ship. The price of the wool shipped has ranged from 1 to 15 cents a pound. The wool was soaked this year; in previous years it was baled. The average weight of a sack of wool is 200 pounds.

The ranchers all over Arizona are congratulating themselves on the bright prospects for the coming season. In the northern part of the territory heavy snow fell during the past winter and the high ranges are still covered and will last away out into the summer. The cattle have stood the snows and cold remarkably well. The heavy rains in the southern section have thoroughly soaked the ground and instead of running off in streams and damaging the ranges has had an opportunity of gradually penetrating the earth and will not only replenish the exhausted water supply, but has made the ranges yield an abundant supply of verdure.

Alberto Terrazas, of the wealthy and powerful family of Chihuahua, is in the City of Mexico to remain six months, and will devote his time to establishing a plant of the International Packing Company of that city. A million dollars will be expended on buildings. Other plants will be erected at Torreon and at Chihuahua City. The plans of the buildings will be similar to those of the Chicago stock yards and packing houses.

RICHARD STRAUSS

RHEUMATISM, GOUT

are caused by an unhealthy condition of the kidneys neglected, and can be absolutely

CURED

by taking the only recognized cure for all forms of kidney disease,

WARNER'S SAFE CURE

Dr. C. F. P. Burchmore, No. 878 Huntington Avenue, Boston, Mass., says: "In my work on gynecology I find there is nothing as beneficial as Warner's Safe Cure. It purifies the kidneys and drives out the poison from the system. It gives support to women and cures the various diseases with which they are afflicted. I am a loyal indorser of Safe Cure, because I know it is a great medicine."

IF IN DOUBT MAKE THIS SIMPLE TEST:

Put some morning urine in a glass or bottle, let it stand 24 hours; if then it is cloudy, or has a brick dust sediment, or particles float in it, your kidneys are diseased, and if not attended to at once, your life will be cut off with Bright's disease, diabetes, uric acid poison or other complications.

ANALYSIS FREE

If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N. Y., and our doctors will analyze it and send you a report with advice free of charge to you, together with a valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease. All letters from women, read and answered by a woman doctor. All correspondence in strictest confidence.

Dr. Leo Vogel, of Rogers Park, Ill., says: "I have prescribed Warner's Safe Cure for diseases of the kidneys, liver and bladder, and am well pleased with the results. I find it drives out the disease germs; it induces sleep and sharpens the appetite. In my estimation it is the only absolute cure for diseases of the kidneys and bladder, such as Bright's disease, diabetes, rheumatism, gall-stones, and uric acid poison."

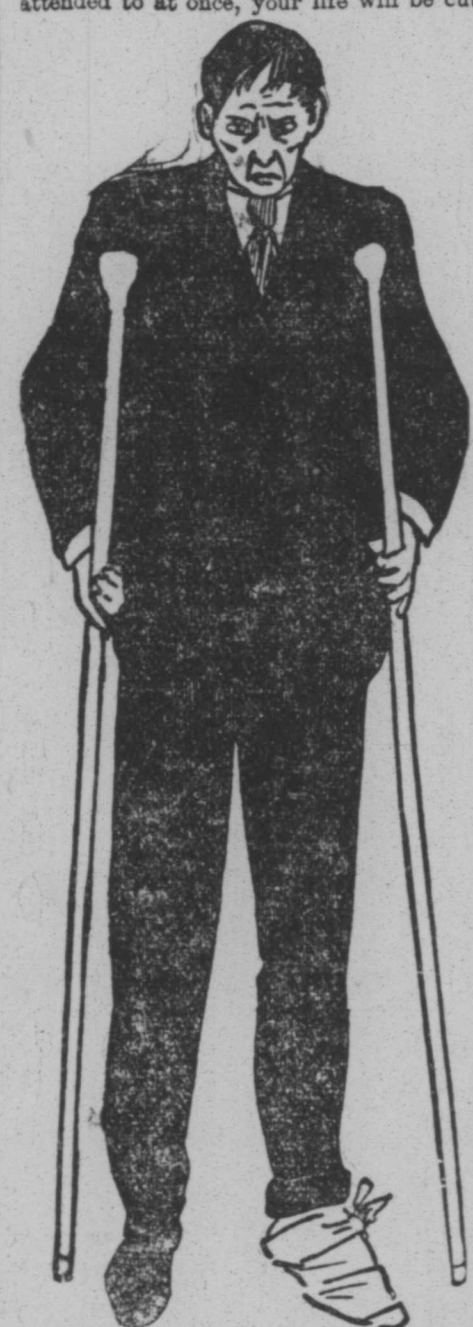

How many a poor fellow suffers untold agony with pains in the back, gout and swelling in his limbs, and does not get at the seat of the trouble, the kidneys! Heal the kidneys so they will perform their work properly and you will have no gout, rheumatism, diabetes, Bright's disease, gall-stones, inflammation of the bladder, eczema, scrofula, or liver complaint, all of which are caused by diseased kidneys. Do not neglect your kidneys if you have any of these complications, but take Warner's Safe Cure, it will cure you. Warner's Safe Cure is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and is pleasant to take; it does not constipate. It kills the disease germs. Warner's Safe Cure has been prescribed and used by leading doctors for over 25 years, and is used in many prominent hospitals exclusively.

Warner's Safe Cure is what you need. You can buy it at any drug store or direct, two regular sizes, 50 cents and \$1 a bottle.

Refuse Substitutes and Imitations
 There is none "just as good" as Warner's. Insist on the genuine, which always cures. Substitutes contain harmful drugs which injure the system.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure.

WARNER'S SAFE PILLS move the bowels gently and

Fancy Electric and Gas Chandeliers

BASE BALL.

The team which is to fight the pennant battle for Fort Worth this season is including in its first practice at Haines' park this afternoon. Those who have arrived in the city are Coombs, third base; Barrett, center field; Reynolds, pitcher; Hubert, left fielder; Pindexter, right fielder; McClelland, first baseman, and Boyer, who also is a candidate for first base. Still another first baseman will arrive early next week, Fiedler of the Cincinnati Saturday and Sunday League.

Moynihan, who has signed to play short, is expected on a late afternoon train today. Captain Con Lucid, who is to play second, also is expected in today. Moynihan played short for Detroit College last year and attracted attention by his fast all-round work.

Pitcher Harry Lockhead and Catcher Hugh McMurray are due to arrive tomorrow morning. Manager Ward has signed a new pitcher—Myers—who was

originally signed by the Dallas club. Manager Gardner of Dallas found that he had too many twirlers, and he was forced to turn several loose. Myers has been picked up for use in the preliminary games, and upon the showing he makes in these games will depend his retention or release.

The players already in the city intended to take their first practice this morning, but the air was too crummy and the wind was blowing a bit too hard, so the "pipe opener" was put off until this afternoon. McClelland worked out yesterday and showed up in good form.

A full team will be here in time for the games Sunday against Emmet Rogers' crack Marlin club.

TO CURE A COLD IN ONE DAY
 Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Enough cash has been collected by the Catholics of North Fort Worth to pay for their lot and a good start toward the church building. Work on the foundation will begin soon.

MARKET CONTINUES STEADY

NORTH FORT WORTH, April 3.—The cattle receipts for today were very light. The quality of stuff offered was common and sold slow on the early market. Well finished steers are quoted at \$4.45, with the half-fed stuff selling at \$3.35 to \$3.75. There is an active demand for good cows and heifers at prices ranging from \$2.50 to \$3.25.

While the northern hog markets are 5 to 10 cents off the Fort Worth market continues steady, with top prices for today at \$7.42 1/2.
The demand for sheep is good with a price of \$4.50 to \$5.50.

REPRESENTATIVE SALES

STEERS—The sale of steers today was very uneven, with prices ranging from \$2.50 to \$3.90. Well fed steers would bring about the same as the prevailing prices \$4@4.50. The sales:

No.	Ave. Price.	No.	Ave. Price.
10,000	862 3.40	4,000	655 \$3.40
10,000	1,065 3.90	8,000	768 3.00
10,000	690 2.75	15,000	806 3.25
10,000	832 3.55		

COWS—The demand for first class cows and heifers is good. Top cows today brought \$3.40. A few canners were offered and sold for \$1.50. The sales:

No.	Ave. Price.	No.	Ave. Price.
10,000	746 \$3.00	3,000	850 \$1.50

STOCK YARD NOTES

Emory Reynolds, who has been wintermaster at the cattle scale house since the opening of the new yards, has resigned to accept a position not so confining. Jack Sharp, who is well known in live stock circles, succeeds Mr. Reynolds.

A. J. Lewis, a regular shipper from Grandview, sold on Wednesday's market seventy-four hogs, averaging 193 pounds, for \$7.50, and twenty-seven pigs, averaging 120 pounds, for \$6.40. Mr. Lewis returned home well pleased with this market.

C. C. Wilson of Pawnee, Okla., topped the hog market yesterday with seventy-nine head, averaging 215 pounds, at \$7.40. Mr. Wilson has heretofore shipped to the northern markets, but will make this his market for all future shipments.

One thousand Texas cattle were received on the St. Louis market yesterday.

From Sherwood, Texas, the sale is reported of 2,500 3 and 4-year-old steers by Fayette Tankersley to Mr. Hale of Greenville, for \$70.00.

The Strahorn-Hutton-Evans Live Stock Commission Company have moved their offices from the Wheat building in the city to North Fort Worth.

M. M. Hargis has accepted a position with the Barse Live Stock Commission Company. Mr. Hargis will be in charge of the office work.

J. H. Sullivan of Temple, Texas, has received a shipment of fine Hereford cattle from Missouri, where they have been for the past two months undergoing inoculation. These cattle are probably the most expensive cattle ever shipped to

the market.

These quotations were furnished by the Watkins Hay and Grain Company:

Prairie hay, \$12.00 per ton; Johnson grass, \$12 per ton; bran, \$1.10 per 100 pounds; corn, 60c per bushel, shelled; oats, 50c per bushel; chops, \$1.15 per 100 pounds; rice bran, \$15 per ton.

These quotations were furnished by Bolar & Redlin:

Eggs, case, \$3.50; butter, 18c per lb., according to grade; chickens, \$4.00 per doz; geese, \$4.80 per doz; turkeys, 12c per pound; ducks, \$2.25 per dozen.

These quotations were furnished by the Evans-Snyder-Buel Commission Company, from special reports received by wire.

GRAIN-PROVISIONS

CHICAGO GRAIN AND PROVISIONS

CHICAGO, Ill., April 3.—The grain and provisions markets today were as follows:

Wheat—Open, High, Low, Close. September 68 1/2, 68 3/4, 68 1/2, 68 3/4. October 67 1/2, 67 3/4, 67 1/2, 67 3/4. November 66 1/2, 66 3/4, 66 1/2, 66 3/4. December 65 1/2, 65 3/4, 65 1/2, 65 3/4.

Corn—Open, High, Low, Close. September 34 1/2, 34 3/4, 34 1/2, 34 3/4. October 33 1/2, 33 3/4, 33 1/2, 33 3/4. November 32 1/2, 32 3/4, 32 1/2, 32 3/4. December 31 1/2, 31 3/4, 31 1/2, 31 3/4.

Oats—Open, High, Low, Close. September 24 1/2, 24 3/4, 24 1/2, 24 3/4. October 23 1/2, 23 3/4, 23 1/2, 23 3/4. November 22 1/2, 22 3/4, 22 1/2, 22 3/4. December 21 1/2, 21 3/4, 21 1/2, 21 3/4.

Provisions—Open, High, Low, Close. Lard 10 1/2, 10 3/4, 10 1/2, 10 3/4. Short ribs 11 1/2, 11 3/4, 11 1/2, 11 3/4. Sides 12 1/2, 12 3/4, 12 1/2, 12 3/4.

Butter—Open, High, Low, Close. Creamery 24 1/2, 24 3/4, 24 1/2, 24 3/4. Packing 23 1/2, 23 3/4, 23 1/2, 23 3/4.

Eggs—Open, High, Low, Close. Fresh 34 1/2, 34 3/4, 34 1/2, 34 3/4. Old 33 1/2, 33 3/4, 33 1/2, 33 3/4.

Flour—Open, High, Low, Close. Superfine 5 1/2, 5 3/4, 5 1/2, 5 3/4. Extra 5 1/4, 5 1/2, 5 1/4, 5 1/2.

Meal—Open, High, Low, Close. Corn 3 1/2, 3 3/4, 3 1/2, 3 3/4. Wheat 4 1/2, 4 3/4, 4 1/2, 4 3/4.

Oil—Open, High, Low, Close. Cottonseed 11 1/2, 11 3/4, 11 1/2, 11 3/4. Lard 10 1/2, 10 3/4, 10 1/2, 10 3/4.

Sugar—Open, High, Low, Close. Cane 11 1/2, 11 3/4, 11 1/2, 11 3/4. Beet 12 1/2, 12 3/4, 12 1/2, 12 3/4.

Beans—Open, High, Low, Close. Navy 13 1/2, 13 3/4, 13 1/2, 13 3/4. Pinto 12 1/2, 12 3/4, 12 1/2, 12 3/4.

Peas—Open, High, Low, Close. Green 11 1/2, 11 3/4, 11 1/2, 11 3/4. Yellow 10 1/2, 10 3/4, 10 1/2, 10 3/4.

Lentils—Open, High, Low, Close. Green 9 1/2, 9 3/4, 9 1/2, 9 3/4. Yellow 8 1/2, 8 3/4, 8 1/2, 8 3/4.

Barley—Open, High, Low, Close. Two row 7 1/2, 7 3/4, 7 1/2, 7 3/4. Six row 6 1/2, 6 3/4, 6 1/2, 6 3/4.

Rye—Open, High, Low, Close. 5 1/2, 5 3/4, 5 1/2, 5 3/4.

Malt—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Starch—Open, High, Low, Close. 4 1/2, 4 3/4, 4 1/2, 4 3/4.

Gum—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Resin—Open, High, Low, Close. 12 1/2, 12 3/4, 12 1/2, 12 3/4.

Solvent—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Alcohol—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Vinyl—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Acetic—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Formic—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Propionic—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Butyric—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Caproic—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Caprylic—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Capric—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

Myristic—Open, High, Low, Close. 11 1/2, 11 3/4, 11 1/2, 11 3/4.

ROOSEVELT SEES WISCONSIN'S CAPITAL

MADISON, Wis., April 3.—The special train carrying President Roosevelt and party arrived here at 4 o'clock this morning. The president met the governor and a committee from the state legislature, and was escorted to the capitol. The president addressed the legislature, convened in joint session, and about an even hundred guests, who had been invited by cards. The president then made a second address to a large crowd not able, through lack of room, to gain admittance at the entrance. Following this he held a reception to the state officers and members of the legislature.

Whether you seek a modest little hat for street wear or the most elaborate creation for dress occasions, you'll find your ideal in this unequalled showing.

Price range in Children's Hats 50c to \$2.50. Ladies' Street and Shirt Waist Hats, price range \$1.00 to \$5.00. Dress Hats from \$2.98 to \$10.00 and \$15.00.

G. Y. SMITH

EIGHTH AND HOUSTON.

A SERIOUS BREAK IN LEEVE TODAY

LAKE PROVIDENCE, La., April 3.—The Hollybrook levee broke about six miles from here this morning at 6 o'clock. The crevasse is five hundred feet wide and it is feared that the break will be still further enlarged.

This levee was a very large one, and hitherto it has been deemed perfectly safe. On account of this crevasse the water will flood the parishes of West Carroll, Madison, Tensas, Concordia and Richland. The break will probably prove to be quite a disastrous one.

HYMELIA CREVASSE IS PRACTICALLY REPAIRED

NEW ORLEANS, April 3.—The work of eroding the Hymelia crevasse is expected to be completed tomorrow and it is generally agreed that the crevasse will be finally closed. The river here is 20.2, a rise of one-tenth the past twenty-four hours. Reports from different Louisiana levees continue favorable.

THE DES MOINES BANQUET

At the Jeffersonian banquet in Des Moines last night, three hundred Iowa Democrats were in attendance.

The principal speakers were Adlai Stevenson and William J. Bryan. Mr. Stevenson's reported speech was an array of general declarations against the trusts, imperialism, high tariff and similar undemocratic doctrines. He failed to refer either to free silver or to Colonel Bryan who sat by his side.

Bryan's speech was almost stubborn in its refusal to support anything but his own ideas of Democracy. "The trust magnates," said he, "are casting about for a Democratic candidate so much like a Republican, the best will be easy, no matter which candidate is selected."

Relative to the present condition of the party he said, "Reorganization means retreat and retreat means demoralization and disaster. The party polled nearly a million more votes in support of the Chicago and Kansas City platforms than were polled by Mr. Cleveland, even before his political crimes were exposed. What would be the result today if the standard were put in hands of men known to be unfaithful to Democratic principles or even in the hands of those who are known to be faithful?"

In the afternoon, at a meeting of the Iowa silver Democrats at which an organization was formed and a central committee appointed, Mr. Bryan said:

"The Democracy of America does not want 'harmony.' It wants the triumph of Democratic principles."

On the whole it can be taken that nothing decisive was done at the meeting. Mr. Stevenson spoke for the old Democratic principles, Mr. Bryan for his favorite doctrine. Such meetings will accomplish little for the Democratic cause. In a state where so much division among Democrats exists as in the case in Iowa, it would seem like the attempt to bring the eastern and western representatives of the party together was unwise and a much different result could not have been expected.

FRANCE'S RELIGIOUS WAR

The persistent murmurings of religious difficulties in France continue.

That there is a strong and even bitter feeling against Catholicism in many parts of the republic, seems evident, and that the feeling has become so high in various localities that representatives of the Catholic religion have seriously considered abandoning their fields for new ones in America.

The charges against the church, especially against the religious schools, are somewhat vague. The idea of parochial schools, however, has become distasteful to a large number of the French people with the result that nuns who have been conducting these schools have been annoyed, interfered with and even insulted.

Bishop Burke of St. Joseph, Mo., who arrived in New York this week, is quoted as saying:

"Not only is the attempt to suppress the religious orders in France a move against the Roman Catholic church, but it is an attempt to de-Christianize the entire country."

The Bishop's view displays considerable warmth of feeling, yet it is likely not wholly without foundation. There was a time when France dethroned the church and set up "Reason" instead.

The feeling against denominational schools has grown into a feeling against denominations, and the result has been that the value of the church

as a necessary institution to the state's welfare has not only been overlooked, but has been persistently ignored.

It would be safe to charge much of this indifference which has given place to intolerance, to a frivolous regard for things religious, something which has been long a characteristic of France as a nation. Regardless of denomination of the dominant church in the state, it is true that in order to perpetuate its existence and retain a healthy moral condition, every community must recognize the church and its importance.

France's difficulties may not result in anything more serious than the emigration of a few hundred of the Catholic church's most zealous subjects.

But the lesson for America remains that in spite of the boasted religious tolerance of this country, the permission of a frivolous regard for the church and things sacred may lead to serious difficulty. A respect for religion, regardless of particular creed, is a sign of healthy morals in any community. Disregard of religion leads to moral and civil decay.

Now that the prevailing sentiment seems to be that to abolish the office of city judge would be beneath the dignity of Fort Worth, it is to be hoped that the same dignity will see that the city's mayor is rewarded for his work on a more proportionate basis. If the city of Fort Worth can afford to maintain a city court at the cost of \$1200 a year for judge alone, it can afford to increase Mayor Powell's salary.

The spring poet also has his troubles. Arthur Stringer, who usually writes warpy musings regarding "naked souls" did a little thing for one of the current magazines some time ago and it has appeared in the April number with a line reading, "Bad Scented April Evenings," instead of "bud-scented," which Mr. Stringer avers he meant. Perhaps the printer was thinking of skunk cabbage.

By peaceful means, workers in the Pullman shops at Chicago have secured an increase in wages which will add about \$700,000 to the monthly pay roll of the shops and will be divided among 8,000 men. Recently at Topeka, Kas., the Rock Island raised the wages of section hands along the line to the number of 2,000, increasing the annual pay roll by \$250,000.

In Monmouth, Illinois, last week, a man and his wife tried to hypnotize each other and the result is that both have been taken to the insane asylum for treatment. Usually in domestic instances of similar nature, but one of the parties goes to the hospital for repairs after the experiment is concluded.

The matter of screens in front of saloon windows will, it is said, be the basis of prosecutions against a number of Fort Worth liquor dealers. A great many people would be satisfied if the front view of a saloon were a solid brick wall and the only entrance to the building at the rear.

Fort Worth's charter amendments have gone the way of all good measures of their kind. Perhaps if they had gone to Austin a little earlier their fate would not have been so untimely.

A valuable calf in New York state yesterday brought \$9000. It was only nine weeks old. Older calves in other states have been sold for even larger sums.

The Fort Worth Horse Show is not far away. Invite your out of town friends to visit the city while it is here.

Plant trees during April.

U. C. V. REUNION

The Texas and Pacific will be the route to New Orleans, and will run a special train, making the quickest time. Arrangements will be made later as to the time of this train. G. P. TURNER, General Passenger Agent.

J. J. ROCHE & CO., Real Estate, Moved from 710 Main street to Wheat Building, Eighth street entrance.

A popular dining saloon in the British metropolis has a sign outside the door conveying information of an alarming character: "This is the best restaurant in London. Our fish cannot be approached."

A SWEET BREATH is a never-failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kinds of remedies, but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like. Kodol digests what you eat and makes the stomach sweet."

AMONG EXCHANGES

Olive oil made from southern peanuts, that cannot be distinguished from the simon-pure article, is on the market. A goober is as good as an olive.—San Antonio Light.

Several of our contemporaries are sneering at the idea of trying to placate Bryan by nominating a candidate that is acceptable to him. But you can just lay it up in your memory as a fact that no candidate will be elected without Bryan's support.—Greenville Banner.

Governor Latham has vetoed the bill repealing the excise tax on lawyers, bankers, dentists and merchants. His reasons for so doing are absolutely conclusive. Among others he holds that it is unjust to select out of a great number of occupations a certain four, which shall become the beneficiaries of the act, while the remainder continue to bear the burden of taxation, that it is inequitable to make fish of one and flesh of another. The Transcript believes all occupation taxes except those required to safeguard the public welfare should be abolished. But it does not believe in discrimination. If one class of workers is to be taxed, all should be. Terrell Transcript.

WASHINGTON DAY BY DAY

"I do not believe that Colorado is so closely wedded to Bryan as Bryan's friends would have the country believe," said Mr. Fred C. Ebbhardt of Denver, who is a guest at the Raleigh. "Undoubtedly the Nebraska has many admirers among Democrats of the state, but, in my opinion their admiration is not so great that they would prefer following him to another defeat than to making a campaign with some prospect of victory under another leader."

"I know scores of Colorado Democrats who are Bryan's sincere well-wishers think it best for his sake, as well as for the sake of the party, that Bryan should step aside and not obstruct his personal life or his views on the next democratic national convention. If Bryan should keep hands off so far as the naming of the candidate and the making of the platform are concerned, and then go out and loyally support the ticket, he would do himself far more good than he could possibly do by attempting to dictate to an unwilling party."

"Bryan is a young man yet, and there will be other presidential elections. If he should help, by standing aside, in the reorganization of the democratic party, and then prove himself a good democrat by supporting the nominees and urging his friends to support him, there might come a time when the democratic party is the search for a standard-bearer, would turn to Bryan. If, on the other hand, Bryan stands in the way of party harmony next year, nothing but disaster can be his lot."

A number of horsemen were seated in the lobby of the Arlington yesterday, and as horsemen seem to have a way of doing, they were talking horse.

"During the winter meet at New Orleans," said William Macey of this city, "a German of my acquaintance was handed a 'hot tip' on a dump-cart beast that had never been inside the money. He lapsed together \$50 and put it down at 100 to 1, and while the horses were at the post he spent, in his mind's eye, every dollar of the \$50,000 he was sure to have within the next five minutes. The 100 to 1 shot finished absolutely last."

"My German friend's indignation knew no bounds. He insisted the jockey was to blame, and rushing out to the paddock, burst up the cupbearer, the horses were at the post, he demanded, fairly bursting with pent-up anger, 'vat detained you?'"

"I have often heard people express wonder," said Mr. T. M. Linton of New York, at the Willard yesterday, "that members of congress from New York city do not attain the prominence that is achieved by representatives of rural districts. To me the explanation is a very simple one. There are too many members of the house from New York city and not enough importance is attached to the office. There are seventeen members from Greater New York and not one man in a hundred in the city could name them. Texas and Kansas each has sixteen members, and any well informed man in either state can name the state's members of congress."

"Machine politics also operate against city congressmen growing great. No man can achieve greatness in congress unless he have individuality, and individuality and machine politics do not go together. The situation is little better with respect to other cities. What Philadelphia member of the house has recently reached commanding place in national affairs? What member from Chicago, Boston, Cincinnati, or St. Louis? In rural districts the member of congress is the biggest man in the community; he is close to and known of the people, and, being an independent man and not the mere creature of a boss, he excites the years that he is kept in congress. Why, in New York a member of congress isn't as big a man as a city alderman."

WILL TALK ON ART AT THE TABERNACLE

Mrs. John Sherwood of Chicago will deliver a series of lectures next week in the Christian Tabernacle, the subjects being: "American Painters and American Art Schools," "Sculpture in America and Illustration as a Fine Art," "Pottery," with illustrations from the potteries of America and Europe; "London and England Illustrated."

Mrs. Sherwood made many friends on her former visits, her familiarity with art matters and her attractive personality combining in an unusual degree in winning and holding friends. She brings with her for these lectures a number of valuable water colors by well known artists. The lectures will begin Tuesday afternoon and will continue through the week till Friday. The lecture on Wednesday will be given at an hour that will not conflict with the Thomas concert.

VICTIMS OF THE GRIP

THE DISEASE REPORTED TO BE EPIDEMIC THIS SPRING

Its Vilitation the Cause of Much Suffering—Many Deaths and the Loss of Thousands of Dollars in Wages—Questions Answered

Health reports show that the present epidemic of grip is the worst that this country has experienced in many years. Not only is the disease widely spread, but it is of unusual severity and has been the cause of much suffering and many deaths. There is scarcely a factory or a workshop which has not been running short-handed on account of the ravages of grip among its employees, and the loss of wages to workmen on account of the disease already amounts to thousands of dollars.

The questions are often asked whether there is any method of home treatment for the grip and whether the after-effects of the disease can be driven from the system. These are answered by the following statement from Mrs. Rosina Hart of Eby, Warrick county, Ind. She says: "I had an attack of grip three years ago, and when it had run its course my health was wrecked. My right lung was almost filled up and it was only with difficulty that I could breathe. There was a constant tingling all over my body, my heart would flutter and sometimes seemed to stop beating for a moment or two. There was a feeling of faintness that came over me at times, and I was so weak that I often feared I would sink down. Nothing helped me and I continued to grow worse. 'Neuralgia and rheumatism set in and for two years I suffered agonies. My medicine gave me any relief until a friend advised me to take Dr. Williams' Pink Pills for Pale People. I did so and after one box found I was improving. I continued taking them for a while and soon was entirely well again. I don't think I ever had better health than I have now and it is all due to Dr. Williams' Pink Pills for Pale People."

Mrs. Hart's statement speaks for itself. The medicine that cured her will cure you. If you have had the grip lose no time in procuring this wonderful remedy and cleanse your system of the germs the disease has left there. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box, or six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenectady, N. Y.

WOMEN AS MUNICIPAL GUARDIANS

The Women's Health Protective Association of this city has not always directed its efforts wisely, and sometimes it has manifested a distorted sense of proportion in planning its work, but it has been of great public service, and its retirement from its chosen field of effort would be in many ways a public misfortune. It is quite certain to be found on the right side of every important question and the industry of its members is tireless. The public official who is, or is believed to be, responsible for the existence or toleration of a nuisance of which the city is the victim, may look forward to a great many unpleasant hours in maintaining an impossible discussion which leads straight back to himself and his official, regardless of whatever the direction in which he may seek to turn it. In such matters women who have "made up their minds" have a tenacity of purpose, peculiar and exclusively their own.—New York Times.

ASKED AND ANSWERED

"Is there any substitute for wisdom?" asked the youth from Ludlow.

"One," replied the Cumminsville sage; "and that is a chunk of silence."

Erysipelas is now classed as a contagious disease.

WILL EDIT WOMAN'S NEWSPAPER

FRANCES DICKINSON M.D.

(Copyright, 1903, by W. R. Hearst.)

Club women of Chicago propose to start a daily afternoon newspaper, which will be run in the interest of women. Mrs. Dr. Frances Dickinson, whose picture here appears, will be the editor.

AMUSEMENTS

HOYT COMEDY COMPANY

The Hoyt comedy company is playing to large houses at Greenwald's nightly. Last night the bill was an amusing comedy, "Two Married Women," and today the company will present "London Lady." The illustrated scenes between the acts are proving popular features of the show.

THE KNOWLES, HYPNOTISTS

Elmer E. Knowles and his wife, A. Beatrice Knowles, will open a six nights' engagement at Greenwald's opera-house, commencing Monday night, April 6, in an exposition of hypnotism and thought transference. They introduce a number of features never before attempted by other hypnotists, which makes possible a number of tableaux, which should be extremely ludicrous. On Monday afternoon at 4 o'clock Mr. Knowles will make his daring blindfold carriage drive. The prices are 10, 20 and 30 cents. Ladies free Monday night, under usual custom.

ANOTHER BOOST FOR ART

Miss Ethel Barrymore has not lost her diamonds, nobody has attempted to destroy any of her gowns with acids, she has not become engaged to a crown prince, nor has she been thrown out of a carriage, but she is steadily ennobling her art just the same. While playing an engagement in Cleveland Miss Barrymore was the guest of Senator Hanna, at whose mansion daily receptions were given in her honor. At each of these functions Miss Barrymore prepared the dinner, the piece de resistance being pigeon en casserole.

The particulars have been duly disseminated by the gentlemanly press agent, and we are pleased to say that the talented lady's Cleveland engagement was a record-breaker. Long may she be permitted to go on patiently and nobly achieving. At the same time we would respectfully remind her that if she has any idea of going permanently from the stage to the kitchen she will make no mistake in consulting our "want" columns.—Chicago Record-Herald.

THE GEM OF MARIE'S COLLECTION

Now that the collection of engravings, articles of vertu and antique jewels of Peter Marie are on sale there will be a lively rush by the public to buy mementoes of this interesting man. There is an element of pathos in the Marie treasures being put up at auction. Of all the wonders of his East Thirty-seventh street house only his famous miniatures of living women of fashion will be reserved. The destiny of these portraits is vague. Said one of Mrs. Marie's friends when she heard of the auction: "There is one thing that I must have. Every time I dined in Mr. Marie's I was haunted by the beauty of a miniature of Nell Gwynne, framed in a basket of flowers. The basket is traced in hundreds of rose diamonds, and the hearts of the blossoms are rubies. The workmanship is wonderful. This was Mr. Marie's pet art object, and that is why I am so eager to have it."—New York Press.

COLLEGES WILL DEBATE THE STRIKE QUESTION

PHILADELPHIA, Pa., April 3.—A debate between representatives of the University of Virginia and the University of Pennsylvania takes place tonight in Houston hall and considerable interest is manifested. Pennsylvania will support the affirmative and Virginia the negative side of the question. "Resolved, That in the settlement of disputes concerning wages and hours of work employers are justified in refusing to make agreements with labor unions of which a majority of their employees are members."

A Day of Better Food

In New York they have been trying to photograph the germs in a cubic inch of air—

In Washington they are trying to exterminate the house fly because they have found it to be a collector of germs—

The time is near when all food will come sealed—the meat from the butcher; the bread from the baker; the milk from the dairy—all will be protected from the germs of the air

This movement towards more healthful food was inaugurated by Uneeda Biscuit—soda crackers made in the cleanest of bakeries and put in an airtight package which brings them to the home with all the flavor and goodness and freshness perfectly preserved. Uneeda Biscuit in the In-er-seal Package, restored the soda cracker to its proper place as a wholesome, nutritious, economical food. Try a package.

Uneeda Biscuit

NATIONAL BISCUIT COMPANY

GROWING BETTER

Each following season marks noted improvements in this store. Our aim is to make this the one satisfactory shoe store of this entire country.

First of all only good shoes.

Second, every foot perfectly fitted.

Third, unsatisfactory pairs always made good—but we don't sell any but good shoes, if we know it. Sometimes, though, a bad pair creeps into the stock and we feel just as much obliged to make it good as if we sold a new pair.

The \$2.00, \$2.50 and \$3.00 line of New Spring Oxfords we are showing are the best ever at the price.

Daily Short Story

A Love Story

BY HARRIET MONROE
COPYRIGHT BY W. R. HEARST ALL BRITAIN RIGHTS RESERVED

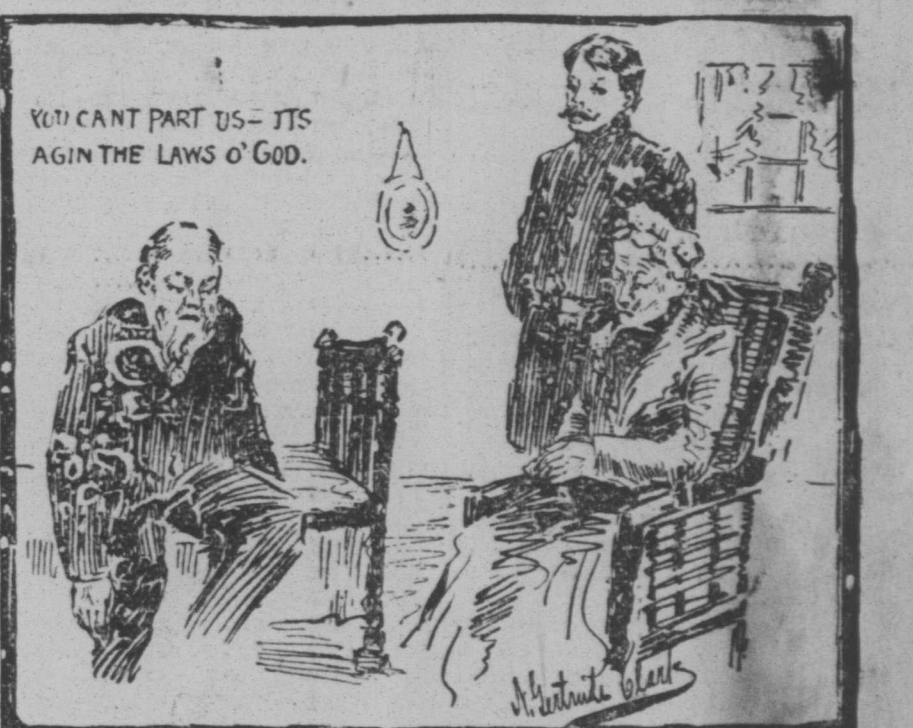

Tobias Hatch and his wife were old. He had passed the three score years and ten allotted to man, and she stood near the line, and the half century or more of heavy and ceaseless labor which both could look back upon made them seem older than they were. They were old, and they had lived together forty years. They were old and very poor. For Tobias, in his days of strength, had been only a common laborer, and now, that rheumatism cramped him and the blood was gone out of his body he could no longer earn even a dollar now and then. The children whom they had loved and who might have provided for their old age had died one by one—two boys in infancy, another when grown to manhood, by falling from a scaffolding, a girl

he said, "I guess they can find some way to take care of two old fellows like us 'thout tearin' us apart."

"I'd rather die," said the woman, desolately. "I'd rather take poison right here an' now. You can't part us—it's agin the law o' God. Wy, he's me an' I'm him; we've grown together for forty years."

"Well, I don't see there's anything to be done," said the officer, ruefully. But in spite of long experience with said cases he had still a soft corner in his heart. "How much can you live on?" he asked after a pause.

"We can live just nice and easy on \$2 a week," said the woman, hopefully. And the man added: "We'll go anywhere together, but ez fur bein' separated, we just can't."

from fever, and the last child, the son of their dearest love, by the smashing of a locomotive on which he was freeman.

But in spite of age and hard luck and the lack of children or any friends who could take care of them the Hatches were happy because they were together. For a time Matilda took in washing and Tobias helped her, and sometimes they earned as much as \$3 a week and could afford a bit of meat every two or three days. And even when this resource failed them and they had to ask aid of the county they cheerfully consoled each other.

"Well, Matilda," said the thin voice of Tobias, "we ain't got nothin' else after all these years, but you've got me an' I've got you, an' I guess we'll stay together a while yet."

And Matilda agreed. "I ain't goin' to leave you, Tobias, so long's you're as pretty's ye are now."

Tobias chuckled. "I'll grow a heap prettier fore I get through if that'll keep ye by me."

But all of a sudden their content was changed to woe—the county purposed sending them to the poorhouse, where Tobias would be tenderly cared for in the men's ward and Matilda in that of the women.

"Do ye want to part us?" cried the wife of forty years, trembling with horror.

"There's no other way," said the county's officer; "there's no place for men and women together."

"Then we can't go—that's all!" and the old woman buried her face in her dress and wept softly.

Tobias, from his seat beside her, put his hand on her hair. "Cheer up, Tildy,"

PREDICTS CHANGE TO UNION DEPOT

FOUR RAILROADS MAY USE UNION DEPOT AND FREIGHT OFFICE

New Time Card, Effective April 5, on the Houston and Texas Central—Important Rumors Concerning Rock Island and Santa Fe

The next announcement of importance anticipated in local railroad circles, is that the Rock Island and Frisco trains will use the Union depot instead of the Texas and Pacific passenger station as at present, and that the freight offices of the Frisco and Houston and Texas Central railroads will be consolidated with the present Rock Island freight department. These roads, all of whose interests are now known to be closely related, either by purchase or traffic arrangements would then be centralized with another line with which the Rock Island is also said to be affiliated, the Santa Fe.

The Union depot is owned jointly by the Santa Fe and the Houston and Texas Central, and is now used by those roads. The building cost in the neighborhood of \$75,000, and for convenience and general appearance is an unusually well proportioned structure. It is estimated that the Rock Island and the Frisco are paying at least \$1,500 per month for depot privileges at the Texas and Pacific station, and it is said this item of expense, which would be reduced by the three roads using the Union depot is one of the factors prompting the contemplated change. Again, it would afford more convenient connections for patrons of the four systems so closely allied.

The Union depot is located at Fifteenth and Jones streets. The street car company, it is claimed, will put in a track on Seventh street to Jones, and thence to the depot, in which event the accommodations would be satisfactory in that respect.

NEW TIME CARD ON H. & T. C. RAILROAD

Colonel W. R. Smith, city passenger and ticket agent for the Houston and Texas Central railroad, is in receipt of the official notice of the new time card on that road, in effect Sunday, April 5. The alterations, including also changes in number of the trains, and the time of arrival and departure, where changes have been made, are such as afford connection with Rock Island trains entering and departing at Fort Worth. The new card follows:

No. 42, the through passenger train, will be changed to No. 82, and will depart for the south at the usual time, 8:50 a. m.

No. 44, a through passenger train, will be changed to No. 84, and will leave for the south at 7:30 p. m. instead of at 6:50, as heretofore.

No. 54, a mixed local train, will be changed to No. 94, and will leave for the south at 1:05 p. m., the same as at present.

No. 41 will be changed to No. 81, and will arrive from the south at 8:10 p. m., instead of at 5:10 p. m., as at present.

No. 43 will be changed to No. 83, and will arrive from the south at 8:05 a. m., as at present.

No. 53 will be changed to No. 93, and will arrive from the south at 11:50 a. m., as at present.

DALLAS HAS NO CLAIM ON C. R. I. & T.

"I cannot speak for the higher officials of the road," said a local railroad man today, "but I think I am safe in saying that there is absolutely no foundation whatever in the claims which Dallas is putting up regarding the change of Rock Island interests from Fort Worth to that city."

"Dallas is sore," continued the man. "She put up a large bonus in order to get the Rock Island to build from this city to that place, thinking that a southern outlet would be the eventual outcome of it. Now I am positive that the Rock Island contemplates nothing of the sort. The through business of that road will be conducted via this city, thence south from here over the Houston and Texas Central to Houston and Galveston. Trains will be run via Dallas and thence south from that city over the Houston and Texas Central to El Paso, where they will connect with the through service from Fort Worth."

"Though Chicago and Denver cars will be important features of this road whenever the time comes, and you can be assured that it will be via Fort Worth," he continued, "it is not the Rock Island that is to be the main line of the road, but the Houston and Texas Central, which will be the main line of the road, and the city of Beaumont, which for a time indicated the loss of that road to Beaumont, have been adjusted, and it is said that the line will be extended from Houston over the original right and the proposed Alexandria, La., route abandoned."

The National of Mexico is planning a most important celebration on July 4 at Mexico City, at which time it is expected the standard gauge road will have been completed from the border to that city.

The Rock Island track from here to Dallas, now in course of construction, is

as is said to be under contemplation. The reported combination would also give the Rock Island and Santa Fe the shortest line from Memphis to San Francisco. The details of the new connections as given out are as follows:

The Rock Island will have the use of the Santa Fe rails from Puerto, thirty-four miles west of Albuquerque, to San Francisco, besides a connecting line between Amarillo, the present western terminus of the Choctaw, Oklahoma and Gulf, and Rock Island property, and the Santa Fe main line. The Santa Fe will connect with the Rock Island main line at Liberal, Kan., by means of a cut-off from Dodge City on the main line of the Santa Fe. The surveys for these lines have been completed.

The new construction involves building from Dodge City, Kan., to Liberal, Kan.; from Santa Rosa, N. M., to Puerto, N. M., by way of Belen; from Belen to Ballinger, Texas, by way of Portales, and from Amarillo to Tucuman.

The connection from Dodge City to Liberal admits the Santa Fe to the Rock Island's El Paso line. Thence the journey will be on the Rock Island rails to Santa Rosa, where a new track will take both the Santa Fe and Rock Island trains to the Santa Fe main line at Puerto. For the purpose of establishing the connection with Memphis the Rock Island is now building from Amarillo to Tucuman, a point between Santa Rosa and Liberal, on the Rock Island's El Paso line. The connection between San Francisco and Galveston will be made by a line from El Paso to Ballinger by way of Portales, a point on the Pecos Valley line from El Paso to Ballinger by way of between Santa Rosa and Puerto will cross the Rio Grande at Belen and get through Abo pass by means of a tunnel. The line will be about 275 miles long. By means of this line the Santa Fe will avoid the 2,000 feet difference in altitude between La Junta and Albuquerque.

With this new line the Rock Island and Santa Fe will have the shortest line between Chicago and San Francisco by a little less than 200 miles and between Kansas City and San Francisco by about 130 miles.

An informal meeting was held yesterday at the office of W. A. Tuley, general passenger agent for the Frisco, at which time representatives of that road and the Rock Island and the Denver and Rio Grande, which are to be the home week celebration, April 20 to 25. Those present at the meeting were John W. Nourse, chief clerk in the passenger department of the Frisco; W. H. Fifth, general passenger agent and his chief clerk, Frank Jensen, of the Rock Island; and Harry Shilton, chief rate clerk of the Denver. The matter will be taken up with the other roads of the city and the rate determined upon announced very soon.

RAILROADS BRIEFS AND PERSONALS
The difficult existing situation between the International and Great Northern railroad and the city of Beaumont, which for a time indicated the loss of that road to Beaumont, have been adjusted, and it is said that the line will be extended from Houston over the original right and the proposed Alexandria, La., route abandoned.

The National of Mexico is planning a most important celebration on July 4 at Mexico City, at which time it is expected the standard gauge road will have been completed from the border to that city.

The Rock Island track from here to Dallas, now in course of construction, is

DO NOT DOSE THE STOMACH
Cure Catarrh by Nature's Own Method. Every Breath of Hyomei Brings Relief. Nearly every one who has catarrh knows how foolish it is to try and cure it by dosing the stomach. Temporary relief may be given, but a cure seldom comes. Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health-giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete outfit of Hyomei costs but \$1, and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and there is enough Hyomei for more than a month's treatment of catarrh. If one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

Weaver's Pharmacy has sold hundreds of Hyomei outfits, and the more they sell the more convinced they are that they are perfectly safe in guaranteeing to refund the money if Hyomei does not cure. Those who are subject to catarrh or catarrhal colds will do themselves an injustice if they do not purchase a Hyomei outfit at once, so as to be prepared for the sudden changes of the season.

PRESIDENT ROOSEVELT ON MONROE DOCTRINE

(By Associated Press.)

CHICAGO, April 2.—Before an audience of 5,000 in the Auditorium last night, President Roosevelt, amid the cheers of the enthusiastic crowd, delivered an address on the Monroe doctrine. The crowd was so large that many stood outside and cheered when they heard the applause within, even though they did not hear the sound of the president's voice.

Mr. Chairman, Ladies and Gentlemen: Today I wish to speak to you not merely about the Monroe doctrine, but about our entire position in the western hemisphere—a position so peculiar and predominant that out of it has grown the acceptance of the Monroe doctrine as a cardinal feature of our foreign policy, and in particular I wish to point out what has been done during the lifetime of the last congress to make good our position in accordance with this historic policy.

Ever since the time when we definitely extended our boundaries westward to the Pacific and southward to the Gulf, since the time when the old Spanish and Portuguese colonies to the south of us asserted their independence, our nation has realized that because of its primary in strength among the nations of the western hemisphere it has certain duties and responsibilities which oblige it to take a leading part thereon. We hold that our interests in this hemisphere are greater than those of any European power possibly can be, and that our duty to ourselves and to the weaker republics who are our neighbors requires us to see that none of the great military powers from across the sea shall encroach upon the territory of the American republics or acquire control thereof.

ISTHMIAN CANAL

This policy, therefore, not only forbids us to acquiesce in such territorial acquisition, but also causes us to object to the acquisition of a control which would in its effect be equal to territorial aggrandizement. This is why the United States has steadily believed that the construction of the great isthmiian canal, the building of which is to stand as the greatest material feat of the twentieth century—greater than any similar feat in any preceding century—should be done by no foreign nation, but by ourselves. The canal must necessarily go through the territory of one of our smaller sister republics. We have been scrupulously careful to abstain from perpetrating any wrong upon any of these republics in this matter. We do not wish to interfere with their rights in the least, but, while carefully safeguarding them, to build the canal ourselves under provisions which will enable us, if necessary, to police and protect it, and to guarantee its neutrality, we being the sole guarantor. Our intention was steadfast; we desired action taken so that the canal could always be used by us in time of peace and war alike, and in time of war could never be used to our detriment by any nation which was hostile to us. Such action, by the circumstances surrounding it, was necessary for the benefit and not the detriment of the adjacent American republics.

After considerably more than half of a century these objects have been exactly fulfilled by the legislation and treaties of the last two years. Two years ago we were no further advanced toward the construction of the isthmiian canal on our terms than we had been during the preceding eighty years. By the Hay-Pauncefote treaty, ratified in December, 1901, an old treaty with Great Britain, which had been held to stand the way, was abrogated and it was agreed that the canal should be constructed under the auspices of the government of the United States, and that this government should have the exclusive right to regulate and manage it, becoming the sole guarantor of its neutrality.

It was expressly stipulated, furthermore, that this guaranty of neutrality should prevent the United States from taking any measures which it found necessary in order to secure by its own forces the defense of the United States and the maintenance of public order. Immediately following this treaty congress passed a law under which the president was authorized to endeavor to secure a treaty for acquiring the right to finish the construction of, and to operate, the Panama canal, which had already been begun in the territory of Colombia by a French company. The rights of this company were accordingly obtained and a treaty negotiated with the republic of Colombia. This treaty has just been ratified by the senate. It reserves all of Colombia's rights, while guaranteeing all of our own and those of neutral nations, and specifically permits us to take any and all measures for the defense of the canal and for the preservation of our interests whenever in our judgment an agency may arise which calls for action on our part. In other words, these two treaties, and the legislation to carry them out, have resulted in our obtaining exactly the terms we desired: the rights and privileges which we had so long sought in vain. These treaties are among the most important that we have ever negotiated in their effects upon the future welfare of this country, and mark a memorable triumph of American diplomacy—one of those fortunate triumphs, moreover, which redounds to the benefit of the entire world.

VENEZUELAN TROUBLE

About the same time trouble arose in connection with the republic of Venezuela because of certain wrongs alleged to have been committed and debts owed, by this republic to citizens of various foreign powers, notably England, Germany and Italy. After failure to reach an

agreement, these powers began a blockade of the Venezuelan coast and a condition of quasi-war ensued. The concern of our government was, of course, not to interfere needlessly in any quarrel so far as it did not touch our interests or our honor, and not to take the attitude of protecting from coercion any power unless we were willing to espouse the quarrel of that power, but to keep an attitude of watchful vigilance and see that there was no infringement of the Monroe doctrine—no acquisition of territorial rights by a European power at the expense of a weak sister republic—whether this acquisition might take the shape of an outright and avowed seizure of territory or of the exercise of control which would in effect be equivalent to such seizure. This attitude was expressed in the two following published memoranda, the first being the letter addressed by the secretary of state to the German ambassador, the second the conversation with the secretary of state reported by the British ambassador:

"Department of State, Washington, Dec. 16, 1901.—His Excellency Dr. Von Holleben, etc.—Dear Excellency: I inclose a memorandum by way of reply to that which you did me the honor to leave with me on Saturday, and am, as ever, faithfully yours. JOHN HAY."

"Memorandum.—The president in his message of the 3d of December, 1901, used the following language:

"The Monroe doctrine is a declaration that there must be no territorial aggrandizement by any non-American power at the expense of any American power on the American soil. It is in no wise intended as hostile to any nation in the old world."

"The president further said: 'This doctrine has nothing to do with the commercial relations of any American power, save that it in truth allows each of them to form such as it desires. . . . We do not guarantee any state against punishment if it misconducts itself, provided that punishment does not take the form of the acquisition of territory by any non-American power.'"

"His excellency, the German ambassador, on his recent return from Berlin, conveyed personally to the president the assurance of the German emperor that his majesty's government had no purpose or intention to make even the smallest acquisition of territory on the South American continent or the islands adjacent. This voluntary and friendly declaration was afterwards repeated to the secretary of state, and was received by the president, and the people of the United States, in the frank and cordial spirit in which it was offered. In the memorandum of the 11th of December, his excellency, the German ambassador, repeats these assurances as follows: 'We declare especially that under no circumstances do we consider in our proceedings the acquisition or the permanent occupation of Venezuelan territory.'"

"In the said memorandum of the 11th of December, the German government informs that of the United States that it has certain just claims for money and damages which it wrongfully withheld from German subjects by the government of Venezuela, and that it proposes to take certain coercive measures described in the memorandum to enforce the payment of these just claims."

"The president of the United States, appreciating the courtesy of the German government in making him acquainted with the terms of the said memorandum, and regarding himself as called upon to enter into the consideration of the claims in question, believes that no measures will be taken in this matter by the agents of the German government which are not in accordance with the well-known purpose, above set forth, of his majesty, the German emperor."

SIR MICHAEL HERBERT TO THE MARQUIS OF LANSOWNE

"Washington, Nov. 13, 1902. 'I communicated to Mr. Hay this morning the substance of your lordship's telegram of the 11th instant."

"His excellency stated in reply, that the United States government, although they regretted that European powers should use force against Central and South American countries, could not object to their taking steps to obtain redress for injuries suffered by their subjects, provided that no acquisition of territory was contemplated."

Both powers assured us in explicit terms that there was not the slightest intention on their part to violate the principles of the Monroe doctrine, and this assurance was kept with an honorable good faith which merits full acknowledgment on our part. At the same time, the existence of hostilities in a region so near our own borders was fraught with such possibilities of danger in the future that it was obviously no less our duty to ourselves than our duty to humanity to endeavor to put an end to that. Accordingly, by an offer of good service in a spirit of frank friendliness to all the parties concerned, a spirit in which they quickly and cordially responded, we secured a resumption of peace—the contending parties agreeing that the matters which they could not settle among themselves should be referred to The Hague tribunal for settlement. The United States had most fortunately already been able to set an example to other nations by utilizing the great possibilities for good contained in The Hague tribunal, a question at issue between ourselves and the republic of Mexico being the first submitted to this international court of arbitration.

The terms which we were secured as those under which the isthmiian canal is to be built, and the course of events in the Venezuela matter, have shown us merely the ever growing influence of the United States in the Western Hemisphere, but also, I think I may safely say, have exemplified the firm purpose of the United States that its growth and influence and power shall redound not to the harm but to the benefit of our sister republics whose strength is less. Our growth, therefore, is beneficial to human kind in general. We do not intend to assume any position which can give just offense to our neighbors. Our adherence to the rule of human right is not merely profession. The history of our dealings with Cuba shows that our strength is less to performance.

NOT INTERNATIONAL LAW

The Monroe doctrine is not international law, and though I think one day it may become such, this is not necessary as long as it remains a cardinal feature of our foreign policy and as long as we possess both the will and the strength to make it effective. This last point, my fellow citizens, is all important, and is one which as a people we can never afford to forget. I believe in the Monroe doctrine with all my heart and soul; I am convinced that the immense majority of our fellow countrymen so believe in it; but I would infinitely prefer to see us abandon it than to see us put it forward and bluster about it, and yet fail to build up the efficient fighting strength which in the last resort can alone make it respected by any strong foreign power whose interest it may ever happen to be to violate it.

Boasting and blustering are as objectionable among nations as among individuals, and the public men of a great nation owe it to their sense of national self-respect to speak courteously of foreign powers, just as a brave and self-respecting man treats all around him courteously. But though to boast is bad, and causelessly to insult another, worse; yet worse than all is it to be guilty of boasting, even without insult, and when called to the proof to be unable to make such boasting good. There is a homely old adage which runs: 'Speak softly and carry a big stick; you will go far.' If the American nation will speak softly, and yet build, and keep at a pitch of the highest training, a thoroughly efficient navy, the Monroe doctrine will go far. I ask you to think over this. If you do, you will come to the conclusion that it is mere plain common sense, so obviously sound that only the blind can fail to see its truth and only the weakest and most irresolute can fail to desire to put it into force."

NAVY GROWTH

Well, in the last two years I am happy to say we have taken long strides in advance as regards our navy. The last congress, in addition to smaller vessels, provided nine of those formidable fighting ships upon which the real efficiency of any navy in war ultimately depends. It provided, moreover, for the necessary addition of officers and enlisted men to make the ships worth having. Meanwhile the navy department has seen to it that our ships have been constantly exercised at sea, with the great guns, and in maneuvers, so that their efficiency as fighting units, both individually and when acting together, has been steadily improved. Remember that all of this is necessary. A warship is a huge bit of mechanism, well-nigh as delicate and complicated as it is formidable. It takes years to build it. It takes years to teach the officers and men how to handle it to good advantage. It is an absolute impossibility to improvise a navy at the outset of war. No recent war between any two nations has lasted as long as it takes to build a battleship; and it is just as impossible to improvise the officers or the crews as to improvise the navy."

To lay up a battleship and only send it afloat at the outset of a war, with a raw crew and untried officers, would be not merely a folly but a crime, for it would invite both disaster and disgrace. The navy which so quickly decided in our favor the war in 1898 had been built and made efficient during the preceding fifteen years. The ships that triumphed off Manila and Santiago had been built under previous administrations with money appropriated by previous congresses. The officers and the men did their duty so well because they had already been trained to it by long sea service. All honor to the gallant officers and gallant men who actually did the fighting; but remember, too, to honor the public men, the shipwrights, and steel workers, the owners of the shipyards and armor plants, to whose united foresight and exertion we owe it that in 1898 we had craft so good, guns so excellent, and American seamen of so high a type in the conning towers, in the gun turrets, and in the engine rooms. It is too late to prepare for war when war has come; and if we only prepare sufficiently no war will ever come. We wish a powerful and efficient navy, not for purposes of war, but as the surest guaranty of peace. If we have such a navy—if we keep on building it up—we may rest assured that there is but the smallest chance that trouble will ever come to this nation; and we may likewise rest assured that no foreign power will ever quarrel with us about the Monroe doctrine."

LABOR MEN ARE ROUSED BY BILL

CAPTAIN WILLIS OF JOINT LABOR BOARD IS HERE

Measure as Passed Puts Labor Unions in Same Class as Trusts, and Friends of Organized Unions See Grave Danger in Permitting it to Remain at Its Present Status

Captain Ed B. Willis, a member of the joint labor board at Austin arrived in this city this morning and will address the labor organizations of the city in the county courtroom this evening at 8:30 o'clock.

ANTI-TRUST LEGISLATION

The meeting will be of vital interest to those affected by labor questions, the purpose being a discussion regarding the recent passage of the anti-trust law by the Texas legislature, virtually shutting out labor organizations from the state of Texas.

WILL GIVE HIS PRIZE
TO CAUSE OF SCIENCE

PARIS, April 3.—The figure states that Dr. Emil Baux, the proprietor of the Pasteur Institute, intends to donate the Ostris prize of \$20,000, which has just been awarded him, to the Pasteur Institute. This prize was given by T. Daniel Ostris, a wealthy Parisian, to be awarded to the person that the Institute of France considered the most worthy to be thus rewarded. The Institute of France chose Dr. Baux as the recipient.

NEGRO WOMAN GOES
TO THE PENITENTIARY

ROANOKE, Va., April 3.—After a trial at Abingdon, which lasted ten days, Ella Gray (colored) was given sixteen years in the penitentiary for killing Charles Chester, a white man, Jan. 25, last. Chester was found dead in the Gray woman's yard. The woman claimed that Chester criminally assaulted her and that she shot and killed him.

DUE NOTICE IS SERVED

Due notice is served on the public generally that De Witt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. De Witt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine De Witt's Witch Hazel Salve are never disappointed, because it cures.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

OPEN ALL NIGHT

PROF. McGEE WHIPS 25 SCHOOL BOYS

PRINCIPAL OF THE EIGHTH WARD
SCHOOL COMPLETES BIG TASK
IMPOSED BY ALL-FOOLS' DAY
PUNISHED — FOURTEEN GIRLS ALSO
PUNISHED FOR PARTICIPATION

Professor J. Sampson McGee, principal of the Eighth ward school, whipped twenty-five boys in rapid succession yesterday and he whipped each and every one of the youthful offenders in a thoroughgoing manner that was calculated to leave its impress upon them.

The boys were lined up in the Eighth ward schoolhouse, and then one by one were ushered into the whipping apartment, wherefrom, for a period of several hours there emanated the steady swish and impact of the light bamboo, broken only by the heavy breathing of the tolling principal and the ejaculations of the boys. It was music of a most unpleasant kind for the culprits in the hall who awaited similar ordeals.

When the task was done Principal McGee sighed heavily and tottered into a chair for a rest, with the fervent hope that the boys of his school would never, never again cut up as they did on All-Fools' day.

It was the biggest day of the whipping in the history of the Fort Worth public schools.

GIRLS IN IT, TOO

Fourteen girls also engaged the attention of the principal, but after a consultation with other school authorities it was decided that the punishment allotted to them should consist of remaining in school after hours for seven days.

Such a conspiracy as led up to the whipping has not before been formed in a Fort Worth school. Just which leader among the boys was the originator of it has not been learned, but it is evident that there was a regular plan in existence, which was to be put into effect at a preconcerted signal. It is further evident that the clasp of the school bell after the morning recess was the agreed-upon signal.

THE PLOT

When recess was over the girls and boys lined up on the school grounds and when the bell calling them into the school for the resumption of study rang out a big shout went up and twenty-five boys and fourteen girls were seen to leave the benches and dart off in all directions away from the school, while the assembled teachers and principal looked on in dismay. The girls and boys shouted "April Fool!" as they ran, thus showing that it was simply an All-Fool's day prank.

The school principal set off at once to round up and capture as many of the pupils as possible, and after three hours work he had most of them back in school. Then followed a consultation with Superintendent Hogg as to what punishment should be devised. The whipping for the boys and the keeping of the girls after regular school hours were decided upon.

"Fool" as they ran, thus showing that it was simply an All-Fool's day prank.

The school principal set off at once to round up and capture as many of the pupils as possible, and after three hours work he had most of them back in school. Then followed a consultation with Superintendent Hogg as to what punishment should be devised. The whipping for the boys and the keeping of the girls after regular school hours were decided upon.

PUNISHMENT METED OUT

This program in regard to the boys was carried out yesterday and the girls are being kept in every evening. The episode is the talk of the Eighth ward.

Mr. Skidmore of Robertson & Skidmore, grocers, at Hemphill and Magnolia streets, said yesterday that he suspected the boys and girls were up to some mischief on April Fools' day. "They came into the store and bought enough lunch to last them for several days," he said. "I thought they were going out on a camping expedition."

It is understood that the culprits did form a sort of picnic party and they disposed of the lunch in hand.

LIBRARY BOOK FUND

Additional subscriptions to the library book fund are being received by the general committee daily. The work outlined for the subcommittees is being done in a most thorough and successful manner. The following subscriptions are reported to date:

HOTELS

J. W. Eicknell, chairman; Delaware, North and Metropolitan hotels, one each.

REAL ESTATE MEN

W. M. McVeigh, one.

PACKING HOUSES

Armour & Co., \$10 cash donation.

QUEENWARE AND CROCKERY

H. Gernsbacher, The Arcade, one each.

Germans who use retort coke ovens get out far products worth 28 per cent as much as the coke, and save nearly all the 40 per cent of the volatile elements of the coal which are lost in the open "bee-hive" ovens used in America.

One Bottle of Burnett's Vanilla Extract is better than three of the doubtful kind. Though costing a few cents more per bottle, its purity and great strength make it the most economical brand.
