THE JUNCTION EAGLE

Volume 46 | Junction, Kimble County, Texas, Thursday, April 25, 1929 | Number 2

PARENT-TEACHERS HEAR REPORT OF DELEGATE TO DISTRICT MEETING

Nearly thirty members of the Parent-Teachers Association were present Monday afternoon at the regular meeting held in the high school building. Elder J. S. Newman, pastor of the Church of Christ, delivered the invocation, and after the reading of the minutes by Miss Austin Durst, the association entered into the business of the afternoon. The president, Mrs. W. P. Riley, who has just returned from the annual meeting of the Sixth District at Sweetwater, presided with her usual ease and dignity, and revealed the fact that the fires of enthusiasm for the work of the association were burning more brightly as a result of the great meeting at Sweetwater.

This being the time for the election of officers, the nominating committee submitted the following names who were elected by acclamation:

Mrs. George R. Pepper, president.

Mrs. S. A. McDonald, 1st vice president.

Mrs. Frank Cowsert, 2nd vice president.

Mrs. C. W. Atchison, 3rd vice president.

Mrs. Willie Ragland, secretary.

Mrs. Minnie Barnes, treasurer.

Miss Austin Durst, corresponding secretary.

Mrs. Lester Hodges, reporter.

The book committee reported that Mrs. John B. Wilson had donated five books to the library. The school library is sorely in need of books and all donations are appreciated.

Mrs. Roy Blackburn reported that the concrete walks at the rear of the school building had been completed with the exception of a slab near the music room. The association furnished the material and the V-A boys did the work.

Some dissatisfaction was voiced over the selection of judges for the district meeting of the Interscholastic League at Kerrville last week. It was the consensus of opinion that more experienced judges should be selected for the literary contests. A protest will be mailed the proper authorities by the association.

The members of the association voted to support Dr. H. E. Luehrs in his efforts as health officer to clean up the town. Much good work has been done the past few weeks and the women are anxious to make Junction one of the cleanest little cities in all West Texas. Prizes have been offered to stimulate interest in a more beautiful city. Elsewhere in this issue the prizes are listed.

At each meeting the room having the greatest number of mothers present is awarded a book, and this week the book goes to the eighth grade.

Mrs. W. P. Riley made a comprehensive report of her attendance upon the meeting of Sixth District at Sweetwater. Space does not permit giving her entire report, but among many other good things she stated that parenthood is a responsibility and that parents should be trained for it as for any other profession. The elemental needs of food, clothing and shelter are administered to even savages. The child today must be nurtured and protected along mental, moral and spiritual lines as well as the purely physical. This is the great function of the home. The mother alone can not build the character of a child. It is the opportunity and privilege of guiding aright through the dangerous period of adolescence and youth that fathers are urged to grasp.

The boy problem must be solved at home. Solve it for your own boy, and then for the community's boy. Remove bad

(Continued on page 4)

Heart o' Texas Press Association In Brady

Mr. Marvin Hunter, Jr., owner of the London Graphic, and Mr. and Mrs. Edgar McLendon of the Junction Eagle joined nearly one hundred men and women in the Heart o' Texas Press Association in Brady last Saturday. Harry Schwenker, main boss of the Brady Standard, ably assisted by the wide-awake Brady Chamber of Commerce looked carefully after the entertainment and instruction of the editors and their wives.

Mr. Schwenker entertained a few of the golf enthusiasts early Saturday morning on the Brady golf course before the rank and file of the working class of newspaper men and women arrived. However, they were at the First Christian Church in time for the opening program. The committee had planned a fine program that was carried out on time and with dispatch. Timely subjects affecting the craft were discussed by capable men.

The luncheon by the Chamber of Commerce in Fellowship Hall of the First Christian Church convinced the visitors that McCulloch grows fine turkeys. A most interesting program by local talent was rendered at the luncheon. At the conclusion of the afternoon session another program was given at the country club to those not interested in playing golf. Three dances by Misses Betty Brannum, Drusilla Davidson and Elizabeth Ballou were enjoyed.

Several distinguished visitors were present for the sessions. Our friend J. D. Motley, Secretary of the Ballinger Chamber of Commerce extended an invitation for the association to meet in Ballinger next September. The invitation was accepted.

GRADUATING EXERCISES ROOSEVELT THIS WEEK

A successful session of the Roosevelt School closes this week with the graduating exercises tonight (Thursday). Elder J. S. Newman of Junction will address the class. The following compose the graduating class which is the first to hold formal exercises in several years: Mamie Walker, Melba Walton, Dora Ann Camp, Max Camp and Burleson Parker. The teachers this term are Mrs. Thelma Thiers and Miss Ethel Roberts.

On Friday a barbecue will be served at 12 o'clock and a play given at night. The name of the play is "Poor Father." This promises to bring forth much applause from those who avail themselves of the opportunity to be present. The teachers and pupils extend a cordial invitation to everyone to be present at all the exercises.

JUNCTION SCHOOLS WILL CLOSE THURSDAY, MAY 24

It is only four weeks until the local schools will close for the school year. The commencement sermon will be preached by the Rev. G. W. Crabb, pastor of the Junction Baptist Church, May 19. The seventh grade exercises will be held on Wednesday, May 22, and the high school graduating exercises on Thursday, May 24 Mr. E. L. Allison, the new superintendent of the Junction schools will deliver the address to the class.

Other exercises for the close of the schools will be announced later.

WEATHER REPORT

The weather has been unusually cool the past few mornings. There has been no frost but fire has been very acceptable early in the mornings. Last Saturday morning a good rain fell in Junction. It was not general over the county, but 1¼ inches fell in Junction which added to the .79 of an inch received earlier in the month makes a total of 2.04 inches during April. More rain is needed but the county is in good condition.

LITTLE THEATRE READY FOR 2ND PERFORMANCE FRIDAY EVENING 8 P. M.

Junction Little Theater is ready for its production of "Snow White and The Seven Dwarfs," to be given Friday evening, April 26, at the auditorium of the Schreiner High School.

This is the same play that opened the Dallas Children's Little Theater last October. The Junction presentation is being costumed and having wigs and properties furnished by the same concern that outfitted the Dallas production and the local producers believe they are offering Junction a performance that will in every particular compare favorably with the successful metropolitan presentation of the same play.

Mrs. E. D. Porter, of San Angelo, who made the clever posters for the play, will be in charge of the make-ups of the performers. Cecil Craven and Howard Blackburn are aiding with the staging and lighting of the play and Mrs. Olney Patterson will assist with the directing.

In order to meet the heavy expense of production an admission of 25 and 50 cents is being charged, but Mrs. Hardeman wishes it understood that no part whatever, or any per cent of the receipts, will go to any individual. It is the purpose of the Junction Little Theater to operate on a self-supporting basis, if that is possible, though most similar organizations are largely supported by those interested in furthering the development of dramatic and allied arts. If the receipts of Snow White exceed the cost of production, the surplus will go into the account of the Junction Little Theater to be used for further dramatic productions and for the study of contemporary drama and for the gathering together of a small library badly needed for the work in hand. It is the ultimate object of the Junction Little Theater to own its own home and an adequate equipment for its productions. The house would then be used for a club house for the members as well as a dramatic studio. The Little Theater intends joining the local Chamber of Commerce and doing its part in all civic movements.

Friday evening's performance of Snow White will begin promptly at eight o'clock. Misses Mary Hubert, Vivian James, Mildred Hodges and Kaleta Taylor will act as ushers.

Alton Childres Buys A. P. Boyett Plant

Mr. Alton Childres is now manager of the Quick Service Tailors, having bought Mr. A. P. Boyett's interest in this popular plant. He has been here several days and is now in charge of the plant. The firm name is now Childres & Cardray, Mr. Cordray having bought an interest in the plant several weeks ago.

Mr. Childres is an experienced tailor and an expert cleaner. He has had ten years experience in some of the best shops in Texas and has had the opportunity to learn the business. He owned a plant at Eden until a few months ago. Since selling his Eden business he has been connected with the Elite Cleaners, Palestine, Texas.

His wife will join him in Junction at an early date. They come here believing in the future of this growing little city. Junction welcomes them as citizens.

CONCRETE BLOCKS

Messrs. Bissett & Baker now have their new equipment for making concrete blocks and the plant is running regularly. They have purchased one of the most modern mixers on the market and ask the people interested in fireproof building material to see them.

JUNCTION C. OF C. PAYS LONDON FRIENDLY CALL BAND FURNISHES MUSIC

More than twenty cars of Junction people, accompanied by the Kimble County Band, went to London Tuesday for a social and friendly call with our neighbors and friends. After arriving at London the band gave a short concert on the streets and then visited for a few minutes before going to the community hall where a banquet was served and a program rendered. Preceding the banquet the band rendered a few numbers and Mr. Edgar Furr announced that the refreshments were ready. Barbecue, pickles, bread, chili stew, coffee and ice water were in abundance. Several baskets full were gathered up after everyone had eaten all they wanted.

Mr. Furr called the house to order after the banquet and after a brief talk introduced Judge Weaver H. Baker as master of ceremonies. Judge Baker made a brief talk and then called upon all the Junction people who were in the hall a few of whom made short talks assuring the London people that we were making a friendly call to cement ties of friendship more closely. Mr. Emil A. Loeffler counted the Junction people present and found that there were sixty-four in the hall. When reminded by Conrad T. Holekamp that many were on the outside of the building, Mr. Loeffler remarked that if they were not inside taking part in the meeting that they did not deserve to be counted. Our friend, Mr. Bourland of San Antonio, accompanied the Junction delegation to London and made a good speech on the beauty, development and opportunities of the Hill Country. After a talk by Judge J. B. Randolph in which he assured the London community of his interest and co-operation in everything for the development of that community. Judge Baker closed the program with a brief talk complimenting the London people for the progress being made by them.

Mr. Furr called upon the band for another number before dismissing the crowd. In behalf of the London people he expressed his appreciation of the friendly visit by our people. The meeting was great and enjoyed by both the London and Junction people. London appreciated the good band music and Junction is proud of the boys who give of their time and money that Kimble County might have a band.

Tex Hamer Wins His First Big Boxing Bout

Tex Hamer, son of Mr. and Mrs. Alex J. Hamer of Junction, made his boxing debut at the Arena in Philadelphia last week by defeating Al Mason of Boston in the first round. Mr. Hamer has been training for several months under the direction of Phil Glassman who brought Lew Tedler and Bennie Glass to the front. He was captain of the University of Pennsylvania 1923 football team and star fullback. After leaving college Mr. Hamer joined the Frankford Yellow Jackets in the National Professional League and was considered one of the best fullbacks in the pro ranks. He weighs around 195 pounds.

His many Junction friends are watching with interest his successes in athletic contests. The fact that he won his first big bout in the first round shows that he has ability.

Mr. C. R. Landon of San Antonio, who has been interested in the extermination of predatory animals for many years, was in Junction last week seeing the stockmen of Kimble County about an appropriation of $85,000 that will be asked for in the special session of the Texas Legislature.

Junction V. A. Boys Return From A. & M.

Some of the members of the Vocational Agriculture class of the Schreiner High School competed in the Smith-Hughes contest at A. & M. College April 22. It is said that 1700 V. A. boys took part in this contest and there was very strong competition.

Wilbur Jeter, Raymond James, and Oliver Linn Vierling competed in the goat judging contest and made a very creditable showing, having won fourth place. Teams scoring higher were Del Rio, San Angelo and Rocksprings. Wilbur Jeter made an excellent showing, having won fifth place in the individual scoring.

Wilbur Jeter, Sloan Davis and Harrell Ramsey competed in the dairy judging contest. There were one hundred three teams in this contest and the Junction boys did not win one of the five highest scores but made good records.

Only the five highest scoring teams were announced the night of the contest, but the rating of all teams entered in the various contests will be mailed to each Vocational Agriculture teacher within the next few days.

More of the Junction boys had intended to make the trip but unavoidable things came up which prevented their doing so. This is a very fine trip for the boys and all who went stated that they got their money's worth and more. They are already planning what contests they will enter next year.

Dean Kyle made the statement at a meeting in the A. & M. assembly hall that this was by far the largest group of F. F. T. members that had ever been assembled at any one place in the United States. He said that in his opinion there would be well over the 2000 mark at the next annual contest to be held there, and that the Future Farmers organization would likely be the greatest organization ever formed in the United States.

Mrs. Chas. Montgomery Now Owns Baker Dairy

Mrs. Chas. Montgomery has purchased the Baker Dairy and will assume the management on May 1. The equipment will be moved to her present location in the north part of the city. She is arranging and planning her equipment so as to meet the requirements of the state sanitary regulations. She has concrete floors, running water and other equipment to meet the requirements of the State.

Two years ago Mrs. Montgomery bought a small dairy and has made good. With the purchase of the Baker Dairy she will have one of the best dairies in this section of Texas. She has sold all inferior cows and now has only such cows as will give three gallons or more of milk each day. She is prepared to deliver milk and cream twice daily. She will make special deliveries to wholesale centers, but makes only two deliveries daily in the residence section.

Mrs. Montgomery appreciates the patronage given her during her two years in the dairy business in Junction, and since she has enlarged her facilities she asks the continued patronage of the people and promises to render even better service. She asks that you place your bottle out each morning or afternoon that you desire milk and she will do the rest.

Mr. D. L. Bourland of San Antonio was a Junction visitor Tuesday. He has been making this territory for the G. A. Duerler Manufacturing Co. for nearly thirty years. He is one of the best known and most pleasing salesman that makes this territory. He is always welcome to Junction.

Mr. and Mrs. J. R. O'Bryan are planning to move into their new home in West Junction this week.

P.-T. A. COMMITTEE IS INTERESTED IN YARD BEAUTIFUL CONTEST

The P. T. A. committee on the yard beautiful contest urges everyone interested in a more beautiful Junction to enter the contest at once. While there is yet some work to be done on removing rubbish and debris from some homes in Junction, a good work has been done and many are now ready to begin, or have already begun to beautify their premises.

To stimulate interest in beautifying the homes and business section the association is offering several prizes for beautiful yards and improvements about the homes, business houses and public buildings. The Chamber of Commerce and City Council are co-operating with the Parent-Teachers' Association in this worthy movement.

The following prizes have been offered.

For the most beautiful yard, first, $10; second, $5; third, $2.50.

For the yard showing the most improvement this year, first, $10; second, $5.

For the most beautiful public building yard (this includes hotels, churches, schools, utilities, bank, court-yard, etc.), $5.

For the premises showing the greatest permanent improvement (this includes the building and painting of garages, outhouses, fences, etc., also the laying of sidewalks, or repairing of houses and general outside appearance), $5.

The committee states that in the yard beautiful contest no yard or public building will be considered unless the sidewalk is well kept.

With the new water system there will be an abundance of water. There is a minimum charge of $2.00 for the first 2,000 gallons of water used. Each thousand gallons will cost only 25 cents after the first 2,000 gallons. Anyone using 4,000 gallons of water will pay only $2.50. The water is very cheap after the first 2,000 gallons.

This low rate is made to encourage people to beautify their places. The mayor states that there is an abundance of water and is very anxious to encourage the people to beautify the premises.

It is not too late to enter the contest and everyone who enters will have the satisfaction of having a beautiful yard whether she wins a prize or not. Help make Junction beautiful.

GOSPEL MEETING NEAR ROOSEVELT MAY 18TH

Mr. and Mrs. T. W. Couey were in town Tuesday and stated that the Church of Christ would begin a meeting at the second crossing above Roosevelt on Saturday, May 18, which would continue for two weeks. Elder Alva Johnson of Turkey, Texas, will do the preaching.

Mr. Couey states that Elder Johnson is a forceful preacher and will bring good gospel messages. A cordial invitation is extended to everyone to attend the services. It is announced that there will be plenty of camping space for everybody who wants to come and camp during the meeting.

SHOW AT BODARC

Mrs. Eloise Emery and Miss Natalee Lowry are working with the patrons of the Bodarc School planning a big carnival and stunt show for Saturday night, April 27. A popularity contest promises much merriment on this occasion. The teachers, pupils and patrons of the Bodarc School have given this entertainment considerable time and thought and promise all who come a great time.

The show deserves your patronage as the money received will be expended for books for the Bobarc School.

Mr. Remschel of Kerrville is doing quite a lot of finishing work on the Ridenhower ranch home.

The Stephen Bros. have just finished remodeling Felix Watson's ranch home.

Mr. Coke Stevenson has returned to his duties in Austin.

Mrs. Jim Ragland and family spent the week-end with her daughter, Mrs. Joe Watson.

MORE SERVICE— LESS OVERHEAD

According to an exhaustive survey which has just been completed by the Bureau of the Census, small, isolated power plants are rapidly decreasing in number throughout the United States.

Their place is being taken by large interconnecting systems serving wide areas and vast numbers of people.

There were 2,028 less electric enterprises at the end of 1927 than at the end of 1922. During the same period of time the number of power houses decreased 19 per cent, though their total capacity increased 80 per cent.

Eighty-five per cent more electricity was generated in 1927 than in 1922, and the number of customers was 71 per cent greater.

This trend is explained by the Census as being "due to the centralization of ownership and control and the absorbtion of independent generating stations accompanying the extension of transmission lines" in the case of commercial systems, and "to the abandonment of municipal generating stations and the acquisition of municipal distribution lines by commercial systems" in the case of municipal plants.

The electrification of rural communities and farm electrification are dependent on the extension of interconnected electric systems. Small plants with their lack of facilities, their high comparative costs of operation and their general inefficiency, are failures from the standpoint of either economics or service.

Large central stations or interconnected systems give constantly improving service at a low price. They offer the unrivaled facilities afforded by their size. And what has been done in the great cities in the past, is now being done for the small town and the farm.

There are now only about 800 grizzly bears left in the United States.

An ostrich's foot has only two toes.

The world's oldest republic is Andorra.

The antarctic continent is larger than Europe.

Snake bites kill more than $1,000,000 worth of cattle in Texas each year.

America's first golf course was established at White Sulphur Springs, in West Virginia.

A tortoise can live to be 350 years old, but no elephant was ever known to live beyond 130 years.

POULTRY COLUMN

(by F. W. Kazmeier)

How Much Feed

A baby chick cannot be expected to eat very much, still if you observe them closely you will find that they spend about half their time at the mash hopper and drinking vessel. The Missouri State College found a baby chick ate about 1-5 of an ounce of feed daily the first 14 days. They do not eat very much. The little they do eat, however, must be easily digested, pure, fresh, well balanced and rich in protein. Beware of coarse, inferior grades and poorly balanced rations. The best is none too good for your baby chicks.

Best Chicks

The average grain ration is rich in fats; the average growing chick for best results, requires a ration rich in protein, therefore it is absolutely necessary to feed them a good mash properly balanced. To feed growing chicks grain alone is sure to retard their growth and may stunt their development. The idea of growing chicks on corn or maize alone is indeed poor business and show little good business judgment. In the Southwest thousands of chicks are stunted and kept from developing properly because too many people think you can grow good chicks on grain alone. We repeat, it cannot be done.

Pullets On Range

If you have not already done so, when the cockerels are about 10 weeks old, separate them from the pullets, place them in a fattening battery or coops for a week or ten days, then convert them into cash or broilers. Cockerels, except those saved back for breeding purposes, soon will eat their heads off. The first time you can dispose of them at a profit, it is good business not to pass up the opportunity. Selling the cockerels will give the pullets more needed room. By all means give all the pullets free range, provide plenty of feed hoppers and keep them full of a good growing mash. If possible, move the pullet houses onto some new ground, where they can find plenty of green food and shade. An alfalfa pasture, an orchard, woodlot or even bermuda pasture with shade is an ideal place upon which to grow the pullets.

Fresh Air

Investigate the pullet house or roosting coop at night. Is it properly ventilated? Are sufficient roosts in the house? Do not let the pullets roost on the floor. Get them on the perches as early as possible. Make double sure they have plenty of fresh air.

Hot nights crowded and dirty roosting houses for the pullets cause summer colds, diseases, stunted growth and general flock depreciation. Make sure the house is properly ventilated. They simply must have plenty of fresh air at all times, especially on hot sultry nights.

BLOOD-THIRSTY FLEAS

The pestiferous flea made himself unusually troublesome in 1928, thereby stimulating interest in his destruction. Because fleas require blood to enable them to reproduce, infestations are usually connected with the sleeping places of dogs, cats, hogs or chickens. Such places should be sprayed with creosote oil by means of a force pump. If handled carefully, creosote oil may be used in basements and outbuildings, though it stains considerably. If fleas are found breeding under rugs or in the cracks of flocrs, the rugs should be hung up in the sun and thoroughly beaten, and the floors wiped up with gasoline. Five pounds of flaked naphthalene, scattered over the floor of a closed room and left for 8 or 10 hours, will kill the fleas in it. Infested cats or dogs should be dusted with powdered derris root or fresh pyrethrum powder.

The snow-topped mountains of the Moon at the African equator emerge from a cloak of mist only for a few hours three or four times a year.

Several years ago a live tiger caught in Northern Manchuria brought $100; now it will bring over $2,000.

A giant sequoia tree named after General Sherman contains the most wood of any of the big trees, being 286 feet high and thirty-six feet in diameter.

MAY ANNIVERSARIES OF DISTINGUISHED MASONS

John Cabell Breckinridge, fourteenth Vice President of the United States and an Active Member of the Southern Supreme Council, died at Lexington, Ky., May 17. 1875.

Garret Augustus Hobart, twenty-fourth Vice President of the United States, became a charter members of Melita Commandery No. 13, K. T., Paterson, N. J., May 10, 1876.

Abd-El-Kader, Mohammedan Freemason and recipient of the French Grand Cross, Legion of Honour, died at Damascus, May 26, 1883.

Joseph B. Foraker, American statesman, became a member of Walnut Hills Lodge No. 483, Cincinnati, Ohio, May 19, 1885. His death occurred May 10, 1917.

Alexander G. Cochran, Grand Chamberlain of the Southern Supreme Council, received the Thirty-second Degree in Missouri Consistory No. 1, St. Louis, May 22, 1903. His death occurred in that city, May 1. 1928.

On May 21, 1907, the Masonic apron of Gen. William Shepard, an officer of the American Revolution, was presented to Mt Moriah Lodge at Westfield, Mass.

Rev. cHenry Warren Rugg, Masonic writer, lecturer and editor, and twenty-first Grand Master of the Grand Encampment, K. T., U. S. A., became Grand Master of Rhode Island in May, 1910.

Warren G. Harding, twenty-ninth President of the United States, was presented with a gold life-membership card by Albert Pike Lodge No. 36, May 4, 1921. On May 11, 1921, he received a similar card from Kallipolis Grotto, M. O. V. P. E. R., and on May 28, 1923, he received a gold badge of membership from Chapter No. 3, National Sojourners, all Masonic bodies of Washington, D. C., and the White House being the scene of the presentations.

20,000 SCHOOL LAND BUYERS GET NOTICES

Austin, April 22.—Twenty thousand notices to purchasers of State school land who have failed to pay interest on approximately 8,000,000 acres were mailed today, Land Commissioner J. T. Robison announced.

The commissioner said that failure to pay the amount due November 1 would result in forfeiture of the property. The land then will be placed on the open market for sale September 1.

Delinquent payments represent almost one-half of the two purchases of tracts once owned by the State.

KNOW TEXAS

Most of the Texas honey crop comes from cotton blossoms and the millions of acres of cotton put Texas in second place in honey production, excelled only by California.

Two Texas counties—Brazoria and Matagorda—furnish most of the world's sulphur.

In addition to the public schools and state supported higher institutions of learning, there are in Texas more than 100 educational institutions of university, college and sub-college rank supported by churches, private individuals and endowments.

Brewster—with an area of 3,798,400 acres—is the largest Texas county.

PROOF

He was a cautious young man and a firm believer in eugenics, but when he met the doctor's lovely daughter he fell in love with her, and finally threw discretion to the winds and asked her to marry him.

She accepted him and he was in the seventh heaven all evening.

Next morning, however, his natural caution returned, and he called upon her father.

"Oh, doctor," he said, "your—your daughter has promised to marry me. I—I—I wanted to know—that is to say, I—came to ask if there is any er—insanity in your family."

The doctor looked at him gravely over his glasses, "There must be," he said.

The quickest way to make yourself really miserable is to start wondering why you aren't happier.

ANGELO PARTIES GET 110 POUND CATFISH

A catfish that weighed 110 pounds, another that weighed 60 and about a dozen that would weigh from eight to twelve pounds were landed on the banks of the Pecos River Monday by San Angelo men. They were caught near the high bridge close to Sanderson. The largest one was caught on a bank hook and the 60-pounder was landed with a rod and reel.

Mr. Brooks, of the West Texas Utilities ice department, saw the fish when the men came through here and had them iced. They were all alive, Mr. Brooks said.

The fish that weighed 110 pounds was longer than the running board of a car and had a mouth that would swallow a dog.—Devils River News.

NEWS NOTES

The gubernatorial boom for 1930 is getting a good start. Senator E. G. Senter announced his candidacy in February and his slogan is court reform. The retiring mayor of Houston, Holcomb, announced his candidacy last week. Friends of Mike Hogg, son of Governor Hogg, are grooming him to run, and he does not seem averse to the idea. Robert Lee Bobbett of Laredo is being mentioned as a probable candidate. Of course Tom Love and Barry Miller of Dallas are anxious to run. Many others are wanting their friends to solicit them to make the race. If the Governor's salary is raised to $10,000 a year, the inducement will be great and many will likely enter the primaries.

The Feast of Passover, which embraces the emancipation of the Jewish people from Egyptian bondage, will be observed by the Jewish people all over the world beginning with sunset on Wednesday of this week. This holiday is of seven days' duration, but only the first and last days are traditionally set aside as holy.

A decision on the right of Secretary Mellon to hold office has been deferred again by the Senate Judiciary Committee, after it had received an opinion written by Attorney General Mitchell for President Hoover upholding Mr. Mellon. The propriety of his serving had been questioned on the basis of an old statute forbidding the Secretary of the Treasury to be interested in trade or commerce.

School Notes

SCHOOL NOTES

Monday of this week the High School had two visitors, Ruby Johnson and Buzz Motley. Buzz was greeting old friends and wishing that he were with us again.

Mr. Bierschwale took the Agriculture boys to College Station last week. We are sure that the boys will reap great benefits from their trip.

The Senior Class is glad to report that Jack King, who was operated on last week, is improving. We miss him and hope that he will be back soon.

Mrs. John B. Wilson donated the "Leather Stocking Tales" to the library, and we wish to thank her for them.

The following is a list of the pupils who made no grade below B during the past six weeks. These pupils are given the special privilege of reading in the library for pleasure during study periods. Other pupils are not allowed to read during school hours, but of course may take library books home at night.

Eighth grade, Harry Ethel Hubbell, Marie Davis, Vernelle Tinsley, Viola Wahl, Sarah Schneider, Emma Hensley and Ralph Meador. ninth grade, Ella Simon, Carleton Wright, Lorena Couey and. Lucille Motley; tenth grade, Mary Hubert; and eleventh grade, Nevada Blackburn.

Mrs. Felps says she is taking great numbers of book reports from her English pupils. The pupils are spending their time reading the new books which the Parent-Teachers' Association has recently placed in the library.

The Junction school made a fine showing at the Interscholastic League District Meet held at Kerrville April 19-20. Junction was well represented in both track and literary events. The holiday Friday made it possible for many who were not contestants to attend the meet.

The following account shows the winners from Junction and their respective places in track and literary events.

Literary events—Senior girls' declamation, third place, Nevada Blackburn. Junior girls' declamation, second place, Madelle Lowry. Senior boys' declamation, first place, Carleton Wright, and second place, Herbert Newman. Essay writing, second place, Elsie St. Clair.

Track events—One mile race, first place, Russell Lavelle. Javelin throw, third place, Frank Hubbell. Shot put, third place, Fred Beasley. Chinning the bar, first place, Hugh Lee Smith. Four hundred-forty yard relay—second place, Junior boys' relay team.

San Saba Men Pay $75.00 For Yearling

Seventy-five dollars is a big price for a yearling, and especially a large herd, say 250 head, even if they are White Faced and D-Horned. In fact it is the highest price ever paid for a like number of cattle, so far as known to any cattle man the News reporter can find, in the history of Texas.

Charlie Gill and Huts Owen bought 250 head of yearlings from the Sloan Sisters this week, at the above price per head. The buy is for July delivery. These are native Sloan ranch cattle and a beautiful bunch they are.—San Saba News.

For repair work, battery service, road service, call Powell Motor Company. 1c

Air Plane Collision Snuffs Out 6 Lives

Six persons were killed near San Diego, California, Sunday when a passenger carrying plane of the Maddux Air Line was struck in midair by an army pursuit plane which was flying overhead and suddenly lost altitude.

The crash came at an elevation of 2,000 feet a few minutes after the Maddux plane had started from San Diego for Phoenix, Ariz.

All occupants of both planes were killed.

J. E. Bishop, a ground eye-witness, said that both planes fell suddenly, due to an atmospheric condition, but the army plane came down with greater speed, striking the Maddux machine on the right wing.

The army plane then fell clear of the passenger machine and Lieut. Howard Keefer, at the controls, jumped. His parchute caught on the wing of his descending plane and he dangled there until he struck the ground and was dead when reached.

The large Maddux plane fell like a wounded bird, carrying to death Horace H. Murphy, pilot; L. D. Pratt, relief pilot, and three passengers, A. D. Duarjardo, his daughter, Amelia, 18, and Miss Cecelia Kelly.

THE WHITE KITCHEN

With the signs of spring on every hand the Junction people are busy preparing and making everything in readiness for the coming tourist season. As an example of this the White Kitchen under the supervision of Mrs. A. M. Kraus has been opened to the public for the coming season and she announces that she is ready to prepare anything that the tourist or the home people might desire in the line of excellently prepared foods. Mrs. Kraus has modernized her place of business and is at present busy in placing a new floor in the kitchen of her establishment. All visitors are welcome at all times to inspect the place and see for themselves what a sanitary and modern up to date place she really has.

JUNCTION GOLF COURSE

Junction golfers have the spring fever early this year or at least one on approaching the golf links along in the cool of the evening might be prone to think. This is a sure sign that spring has arrived in all her glory and the people are taking advantage of it by playing a high standard of golf. One who has witnessed the playing of the home town people from the start and who will now take a view of the form of these same men will find that there is no similarity in the two. The golf of the people as a whole has greatly improved and with consistent practice the town will soon have some excellent golfers.

Junction, year-round playground

BRADY REDUCES LIGHT RATES TO 10C PER KW

The Brady Water & Light Works announces a reduction in lighting rate to 10c per kilowatt, which is, in effect, a reduction of 33 1-3% over the old rates. The minimum will remain at $1.50 per month, but the consumer will be enabled to use 15 kilowatts at this price, instead of 10 kilowatts as formerly. The new rates will be of particular benefit to the small consumers, and will not affect the large consumers, or those who already are on quantity rates or power rates. The reduction will mean a loss in revenue to the municipal plant of approximately $600 to $800 per month right at present, but this loss, it is anticipated, will be overcome by increase in consumption.

In announcing the reduction, the municipal plant states that continued growth of Brady, together with the installation of more efficient generating machinery, and the desire to keep the city of Brady in the forefront of progressive cities of West Texas, with the lowest water rates and purest water, with paved streets, splendid schools, elegant churches and a citizenship ever ready to back any worthwhile enterprise and assure it success, has induced the city council to complete the list of advantages by providing, as well, one of the lowest electric rates to be had anywhere in Texas.—Brady Standard.

CARD OF THANKS

We wish to express our sincere thanks to those who so generously gave to us in the recent loss of our household goods by fire.

Mr. and Mrs. G. G. Reid.

THE METHODIST CHURCH

Sunday School Day will be observed Sunday morning. A splendid program has been prepared with special music, readings and a play revealing the work done by the Sunday Schools of today. The program will be a continuation of the regular Sunday School service. Plan to attend both services.

The Golden Hour, 8 p. m., will be an inspiring and interesting service. There will be several musical numbers, a quartet, duet, a reading and message by the pastor.

Midweek meeting Wednesday 8 p. m. Don't miss this helpful service.

You are cordially invited to attend all services of the church.

CATCHES 22-POUND FISH ON THE LLANO RIVER

A thirty-eight-inch catfish weighing 22 pounds was landed by Julian Jarrel last week on the Lorene Earwood ranch on the Llano River.

Mrs. Earwood has sold her fishing and hunting rights to Fort Worth parties who may convert a part of the ranch into a club.

About 17 percent of Russia's people live in towns.

Age No Barrier To School Enrollment

Chicago.—For the second time within a week a woman past the allotted three score and ten has shown the world that education knows no age limit.

A week ago Mrs. Alice Garrett, 81 years old, qualified to become a high school freshman, being among the girl graduates in the Senn school elementary course class. Wednesday Mrs. Etta Adair, 71, of San Diego, California, held a bachelor of philosophy degree from the University of Chicago, given her at Tuesday convocation.

Mrs. Garrett is mother of Grace Garrett, well known writer. She was graduated from school 63 years ago, and even taught a few years before marriage. She explained her return to school by saying that she wanted to "write" something really worth while," and that the only way to do it was to brush up on her education.

Mrs. Garrett, who is a mother, grandmother and great grandmother, keeps fit by daily exercises. She rises early and said she doesn't have to diet and that she can "eat all the sweets she wants."

Speaking at the commencement exercises, the 81-year-old woman said: "Solomon declared that when we find how little we know, it is the beginning of wisdom. I agree. I wish to fit myself for higher and greater accomplishments."

Mrs. Adair has been going to school, off and on, for 41 years. She plans to rest a year and then seek her master's degree.

CHURCH OF CHRIST

If not providentially hindered next Lord's day will be our last day to have worship in the old house. We will appreciate a good turnout at this last service. Bible classes will meet at 10 a. m. Preaching at 11 a. m., and at 8 p. m. We hope to begin the work of removing the old church house and make room for the residence on the corner lot so that the new church can be erected on the corner lot.

J. S. Newman, Minister.

THE WHITE KITCHEN

Mexican dishes are to be a special at the White Kitchen this week. These dishes including chilli, tamales and enchiladaes, are prepared by Mrs. A. M. Kraus, the proprietor. For a delightful meal visit the White Kitchen. 2c

MEMBER TEXAS PRESS ASSOCIATION

"NEWCARITIS"

"Newcaritis" has succeeded spring fever as an annual malady, according to H. I. Phillips, humorist. Analyzing its symptoms and effects in The American Magazine, he confesses that he is now suffering from newcaritis in its most virulent form.

"And I'm growing weaker every hour," he adds. "Few men are immune. The fellow without a car feels that gnawing urge to get one; the man who has a car longs to trade it in for something bigger and better; the plutocrat with a covey of benzine rickshaws feels the impulse to add to his collection a few models with more filigree work on the panels.

"As early as the January automobile show I first feel the craving to possess a car that has never been rained on. But as much as the new models tempt me I push the idea away with a resolute 'Nothing doing!' The old car is like new. The engine is a marvel, there isn't a scratch on the body and the tires are good for another ten thousand miles.'

"About the first of February after gazing into the salesroom windows a few hundred times, I say to myself, 'I don't see how they can turn out such beautiful cars for the money.' By Washington's birthday I have probably received thirty or forty circulars giving pictures of 1929 models and bearing an urgent invitation to 'allow Mr. Ketchum to give you a demonstration.'

"I begin to reflect how wonderful the makers improve their models every year and to realize that my car needs new fenders and its motor thoroughly overhauled. Then, around the middle of March I weaken and allow Mr. Ketchum to call and give me a demonstration. When this is over I am pretty well sunk. Not much more is needed to pull me under and by April the last urge comes when several of my neighbors pass the house in glistening new sedans and look condescendingly on my last year's car standing at the curb. That settles it. I go to the telephone and call Mr. Ketchum.

"It is a curious thing how a brand-new car will thrill a man. Even if he has his last car only one summer, there will be a certain zest in trying out a smarter model. There seems to be no sentiment in the ownership of an old boat. Back in the buggy days, men became so fond of horses that they hated to see them sold and I have known people to wax sentimental over the sale of a bicycle that had been in the family a long time. But I have yet to observe a fellow shed any tears when he has to turn in a last year's automobile for a this year's model.

"The minute a man lets his car go without washing after a muddy spell, fails to get peeved when he finds a hub cap rusty and shows no emotion at the discovery that someone has struck a match on the door, he is practically in the market for a new car.

"Well, the automobile makers of this country plan to turn out 7,000,000 cars this year and they won't expect to sell them to people who have never had an automobile before. There must be at least 3,500,000 others like me. The man who drives the old teakettle designed by Rube Goldberg and synchronized by the American Can Company and boasts, 'I've had it seven years now and I just can't wear it out,' has almost disappeared from American life.

"Newcaritis is responsible."

Little Gems

The happiness of a man in this life does not consist in the absence but in the mastery of his passions.—Tennyson.

The cynic is one who knows the price of everything and the value of nothing.—Oscar Wilde.

Snobbery is the pride of those who are not sure of their position.—Braley.

There are whole worlds of facts waiting to be discovered by inference.—Woodrow Wilson.

Laws are not made for the good.—Socrates.

Some people are so painfully good that they would rather be right than pleasant.—Ball.

There is but one straight road to success, and that is merit. The man who is successful is the man who is useful.—Cochran.

The world is a looking-glass, and gives back to every man the reflection of his own face. Frown at it and it in turn will look squrly upon you; laugh at it and with it, and it is a jolly, kind companion.—Thackery.

It may make a difference to all eternity whether we do right or wrong today.—Clarke.

Truth is such a precious article; let us all economize in its use.—Mark Twain.

Work is going forward rapidly on the ice cream plant and it will not be long until the people in this section will be able to buy their ice cream products at home.

Protest Is Voiced By P-T Association

Feeling that more experienced judges should be selected to judge the literary events in the District Interscholastic League of this district, the Parent-Teachers Association passed the following resolution at the last regular meeting:

"We believe that the contestants who entered the declamation and literary contests at Kerrville during the district meet which was held on April 19, 1929, were justly entitled to more experienced judges. We believe these judges should be men and women of sufficient age and training so that no question of ability or competency could be raised.

We further believe that the selection of school boys (all of whom were from Kerrville) was contrary to the rules and regulations governing the district interscholastic meet, and unfair to contestants from other counties.

Therefore, Be it resolved, That we, the Parent-Teachers' Association of Junction, enter a protest against the selection of school boys as was done at the recent district meet, which was held in Kerrville on April 19, 1929.

Respectfully submitted,
COMMITTEE.

WEST TEXAS UTILITIES CO.

Industrial Recognition

Lower Living Costs	The bid of the small cities and towns for industrial recognition is being accepted.	No Fatiguing Congestion
Lower Labor Costs	Far-sighted manufacturers are quitting the congested cities and removing their plants and factories to the unhurried, uncongested atmosphere of the small cities and towns.	Cheaper Land
Lower Taxes	Widespread distribution of electric power and the development of fast freight have given West Texas cities and towns an industrial status comparable with metropolitan cities.	Close to Raw Materials
Better Shipping Facilities	Lower living costs and therefore lower labor costs, lower taxes, cheaper land, ample room for expansion and closer proximity to raw materials and markets, all have paved the way for industry's realization of the distinct advantages of small town factory sites.	Close to Markets
Permanent Conservative Labor	As its contribution to the advantages offered, this company has 70,000 horsepower of electric power available, three great generating stations and 10 auxiliary plants, insuring uninterrupted service 24 hours a day, 365 days a year.	

West Texas Utilities Company

Plans Underway For Official Census Of The United States

Plans are now under way for the official census which will be taken next year. Texas will be divided into twenty-nine districts with some central city designated as headquarters. This new plan takes the place of the old custom of having each congressional district as a census district.

Members of Congress from Texas as well as the Bureau of Census at Washington, are already swamped with applications of persons desiring appointment either as supervisor or enumerator. Texas members are writing the applicants that appointees, in all probability, will be designated by R. B. Creager, Republican National Committeeman for Texas, and the Republican organization in that state. The number of the enumerators for Texas has not been decided, but the average throughout the country is one for every two thousand people and in rural sections one for every twelve hundred or thirteen hundred.

Brownwood will be headquarters for district twelve which includes Kimble County. The districts of the State, together with the headquarter city, as tentatively adopted, follows:

1. Brooks, Cameron, Duval, Hidalgo, Jim Hogg, Jim Wells, Kenedy, Kleberg, Nueces, Starr, Webb, Willacy and Zapata; headquarters, Brownsville.

2. Bandera, Blanco, Dimmit, Edwards, Frio, Gillespie, Kendall, Kerr, Kinney, La Salle, McMullen, Maverick, Medina, Real, Uvalde, Val Verde and Zavalla; headquarters Uvalde.

3. Bexar and Atascosa; headquarters, San Antonio.

4. Aransas, Bee, Brazoria, Calhoun, Fort Bend, Goliad, Jackson, Live Oak, Matagorda, Refugio, San Patricio, Victoria and Wharton; headquarters, Victoria.

5. Caldwell, Comal, DeWitt, Gonzales, Guadalupe, Hays, Karnes and Wilson; headquarters, Luling.

6. Austin, Colorado, Fayette, Lavaca, Waller and Washington; headquarters, Eagle Lake.

7. Harris and Montgomery; headquarters, Houston.

8. Chambers, Galveston, Jefferson and Liberty; headquarters, Galveston.

9. Angelina, Hardin, Jasper, Newton, Orange, Polk, Sabine, San Augustine, San Jacinto and Tyler; headquarters, Lufkin.

10. Anderson, Brazos, Houston, Grimes, Leon, Madison, Robertson, Trinity and Walker; headquarters, Palestine.

11. Bastrop, Burleson, Lee, Milam, Travis and Williamson; headquarters, Austin.

12. Brown, Burnet, Coleman, Concho, Kimble, Lampasas, Llano, McCullough, Mason, Menard, Mills, Runnels, San Saba; headquarters, Brownwood.

13. Andrews, Coke, Crane, Ector, Glasscock, Howard, Irion, Loving, Martin, Midland, Mitchell, Nolan, Reagan, Schleicher, Sterling, Sutton, Tom Green, Upton, Ward, Winkler; headquarters, San Angelo.

14. Brewster, Culberson, El Paso, Jeff Davis, Hudspeth, Pecos, Presidio, Reeves, Terrell; headquarters, El Paso.

15. Borden, Cochran, Crossby, Dawson, Dickens, Fisher, Garza, Gaines, Haskell, Hockley, Kent, Lubbock, Lynn, Scurry, Stonewall, Terry Yoakum; headquarters, Lubbock.

16. Armstrong, Carson, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Potter, Randall, Roberts, Sherman, Wheeler; headquarters, Amarillo.

17. Callahan, Eastland, Jones, Palo Pinto, Parker, Shakleford, Stephens, Taylor, Throckmorton; headquarters, Abilene.

18. Archer, Baylor, Clay, Jack, Wichita, Wilbarger, Young; headquarters, Wichita Falls.

19. Cook, Fannin, Grayson, Montague; headquarters, Sherman.

20. Denton, Tarrant, Wise, headquarters, Fort Worth.

21. Collin and Dallas; headquarters, Dallas.

22. Bosque, Comanche, Coryell, Erath, Hamilton, Hill, Hood, Johnson, Somervell; headquarters, Cleburne.

23. Bell, Falls, McLennan; headquarters, Waco.

24. Ellis, Freestone, Limestone, Navarro; headquarters, Corsicana.

25. Henderson, Hunt, Kaufman, Rains, Rockwall, Van Zandt; headquarters, Greenville.

26. Camp, Delta, Franklin, Hopkins, Lamar, Morris, Red River, Titus; headquarters, Paris.

27. Bowie, Cass, Gregg, Harrison, Marion, Upshur, Good; headquarters, Marshall.

28. Cherokee, Nacogdoches, Panola, Rusk, Shelby, Smith, headquarters, Tyler.

29. Bailey, Briscoe, Castro, Childress, Cottle, Floyd, Hale, Hall, Hardeman, King, Knox, Lamb, Motley, Parmer, Swisher; headquarters, Plainview.

GOVERNORS THAT HAVE BEEN IMPEACHED

The governor of Oklahoma was impeached a few days ago by the legislature and charges have been brought against the governor of Louisiana. In 1862 the first impeachment trial was held and the governor of Kansas was acquitted. Since that time, according to press reports, other governors have been before the bar as follows:

Florida: Harrison Reed, 1868, charges dropped.

North Carolina: William W. Holden, 1870, removed.

Arkansas: Powel Clayton, 1871, charges dropped.

Nebraska: David Butler, 1871, removed.

Louisiana: Henry C. Warmouth, 1872, charges dropped.

Mississippi: Adelbert Ames, 1876, resigned.

New York: William Sulzer, 1913, removed.

Texas: James E. Ferguson, 1917, removed.

Oklahoma: J. C. Walton, 1923, removed.

Oklahoma: Henry S. Johnson, 1929, removed.

Louisiana: Hugh P. Long, 1929. —Exchange.

FEEDS FOR POULTRY

For feeding poultry, the right kind of protein is generally obtained from milk, skim milk, buttermilk, whey, fresh meat, meat scraps, fish scraps, tankage, or alfalfa leaf meal feeds. Very little of it is found in the common farm feeds, and for this reason when home-grown grains are used, it is necessary to purchase small amounts of the high protein feeds to supplement the home-grown grains. Milk of any kind is the most popular protein feed for poultry.

Medicinal remedies have thus far proved of no value in curing infectious abortion of cattle, and cattle raisers must rely on excluding the disease form healthy herds and suppressing it in herds already infected, says the U. S. Department of Agriculture. The disease can be detected in animals by two different blood tests. Farmers' Bulletin 1536-F, procurable from the Department of Agriculture, contains practical information on this problem.

HJR No. 7

A JOINT RESOLUTION

proposing an amendment to Section 5 of Article 4 of the Constitution of the State of Texas fixing the salary of the Governor; providing for its submission to the voters of the State of Texas as required by the Constitution, and making appropriation therefor.

Be It Resolved by the Legislature of the State of Texas:

Section 1. That Section 5 of Article 4 of the Constitution of the State of Texas be so amended as to hereafter read as follows:

"Section 5. The Governor shall, at stated times, receive as compensation for his services an annual salary of Ten Thousand Dollars and no more, and shall have the use and occupation of the Governor's Mansion, fixtures and furniture; provided that this amendment shall not become effective until the third Tuesday in January, 1931."

Section 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on July 16, 1929, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words: "For the amendment to the Constitution of the State of Texas fixing the salary of the Governor." And those voters opposing said proposed amendment shall write or have printed on their ballots the words: "Against the amendment to the Constitution of the State of Texas fixing the salary of the Governor."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for amendments thereto.

Section 4. The sum of Five Thousand ($5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated to pay the expense of such publication and election.

Approved March 19, 1929.

(A Correct Copy).

JANE Y. McCALLUM,
52-4c Secretary of State.

A hen will brood from 10 to 15 chickens successfully early in the season and from 15 to 20 in warm weather, depending on her size.

MEETING COUNTY SCHOOL TRUSTEES 1 P. M., MAY 1

The public will please take notice that the County Board of School Trustees will meet at the Court House in Junction for the purpose of appointing School District Trustees to fill vacancies for the various school districts of the county.

Each school district in the county failing to hold an election for District Trustees will please have a representative present to recommend or suggest who are qualified and will serve as trustees for said schools.

Please remember that you can not have a school without trustees and that the Board can not make said appointments without knowing who will serve or suit the people.

The County Board may not meet again for quite a while, so do not neglect to come to the meeting.

Respectfully submitted,

J. B. Randolph,
1-2c Secy. Co. School Board.

Visit our Special Spring Showing now being held

As new and different now as it was when introduced

Recall the scene. A New Oakland All-American Six. Making its bow to the public. And now you see it here . . . there . . . everywhere you go. Other cars have appeared in bewildering succession. But the distinction of the All-American continues . . . unaffected. It's as new and refreshingly different today as it was when introduced. Like a good friend . . . it grows on you . . . impressing you more favorably with every passing week. The better you know it the more you will respect the New Oakland All-American Six.

Prices $1145 to $1375, f. o. b. Pontiac, Michigan, plus delivery charges. Spring covers and Lovejoy Hydraulic Shock Absorbers included in list prices. Bumpers and rear fender guards extra. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values.

Oakland-Pontiac delivered prices include only reasonable charges for delivery and financing.

CUT IN EDUCATORS' SALARY PROTESTED

Austin.—A plea against lowering salaries of professors at the University of Texas by President H. Y. Benedict opened a hearing on the school's appropriation budget for the biennium ending Aug. 31, 1931, before the House Appropriations Committee.

The entire day was required to complete study of the University's request for appropriations and with its completion the education budgets were disposed of by the committee.

The university asks $1,809,481 and $1,818,481 for salaries during the two years, while the Board of Control recommends $1,254,665 for each year. For all of the university's divisions, not including the medical branch but including the division of extension, economic geology, school of engineering and interscholastic league, total appropriation of $2,667,216 and $2,696,216 is requested while $1,571,415 is recommended for both years by the board.

President Benedict said that continued reduction of professors' salaries would "wreck the university."

HJR No. 8

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas providing for a Supreme Court of nine members, and for continuous session of that Court.—

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Sections 2 and 3 of Article 5 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Article 5, Section 2. The Supreme Court shall consist of a Chief Justice and eight Associate Justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; in other matters, until otherwise provided by Law, the jurisdiction of the Court shall be exercised under such regulations and orders as the Court by a majority vote may prescribe. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this State and unless he shall have attained the age of thirty years, and shall have been a practicing lawyer or a judge of a court, or such lawyer and judge together, at least seven years. Said Chief Justice and Associate Justices shall be elected by the qualified voters of the State at a general election, shall hold their offices six years, or until their successors are elected and qualified, and shall receive such compensation as may be provided by law. In the case of a vacancy in the office of Chief Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for State officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the State. The Judges of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. When this amendment takes effect, the Governor shall immediately appoint six additional Associate Justices of the Supreme Court for terms of office so that the terms of two of such appointed Associate Justices shall expire with the term of office of each of the present members of the Supreme Court, and, upon the qualification of such new Justices, the Commission of Appeals of the State of Texas shall terminate."

"Article V, Section 3. The Supreme Court shall have appellate jurisdiction only except as herein specified, which shall be co-extensive with the limits of the State. Its appellate jurisdiction shall extend to questions of law arising in cases of which the Courts of Civil Appeals have appellate jurisdiction under such restrictions and regulations as the Legislature may prescribe. Until otherwise provided by law, the appellate jurisdiction of the Supreme Court shall extend to questions of law arising in the cases in the Courts of Civil Appeals in which the Judges of any Court of Civil Appeals may disagree or where the several Courts of Civil Appeals may hold differently on the same question of law, or where a Statute of the State is held void, and shall extend to such other questions as may be within the Court's Appellate Jurisdiction under the Statutes of the State in force when this amendment takes effect. The Supreme Court and the Justices thereof shall have power to issue writs of habeas corpus, as may be prescribed by Law, and under such regulations as may be prescribed by Law, the said Court and the Justices thereof may issue the writs of mandamus, procedendo, certiorari and such other writs, as may be necessary to enforce its jurisdiction. The Legislature may confer original jurisdiction on the Supreme Court to issue writs of quo warranto and mandamus in such cases as may be specified, except as against the Governor of the State.

The Supreme Court shall have power, upon affidavit or otherwise as by the Court may be determined, to ascertain such matters of fact as may be necessary to the proper exercise of its jurisdiction. The Supreme Court shall be open at all times and shall sit at the State Capitol for the transaction of business at such time, as may be designated by the Court.

The Supreme Court shall appoint a clerk, who shall give bond in such manner as is now or may hereafter, be required by law, and he may hold his office for four years and shall be subject to removal by said Court, for good cause entered of record on the Minutes of said Court who shall receive such compensation as the Legislature may provide."

Sec. 2. Said proposed Constitutional amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on Tuesday, July 16, 1929, at which election each voter opposing said proposed amendment shall scratch off of the ballot with a pen or pencil the following words printed on said ballot: "For the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court," and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot: "Against the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." If it appears from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitution and Laws of this State.

Sec. 4. The sum of Five Thousand ($5,000.00) Dollars, or so much thereof as may be necessary is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

Approved February 19, 1929.

(A Correct Copy)

JANE Y. McCALLUM,
Secretary of State.

BOLD GANG RUN DOWN

(Mrs. M. N. Harrison gave us a copy of the Kimble County Citizen this week in which is given some interesting news that happened thirty-two years ago. Some of our old timers will remember this incident).

On last Saturday night, or rather Sunday morning, Sheriff Jones and posse, deputy John Turman, T. C. Taylor, T. W. Frasier, J. S. Gardner, Oscar Latta and Bob Own, deputy sheriff from Sutton County, surprised the four men recently engaged in theft of cattle from Peter Paterson's pasture, killing two and capturing one seriously wounded. The fourth man made his escape in the dark, very likely wounded. The particulars are about as follows:

After recovery of the stolen cattle, mention of which was made in the Citizen last week, sheriff Jones having good reasons to believe that the men had come back this way, returned to Junction and organized a posse, as stated above. After a thorough search of five or six days on North Llano, on last Saturday morning they struck trail of their men on the head of Copperas Creek. Following this until late in the afternoon, they came in sight of four men, but remained quiet until they went into camp just inside of the R. B. Allen pasture. The sheriff and posse kept gurad until near daylight before advancing. Four men who were sleeping on the ground were apprised of the approach of the officer by the barking of a dog in the camp when one of their number came out with a gun in hand. Sheriff Jones demanded their surrender, telling them that resistance was useless as the camp was surrounded. At this the advance sentinel broke to run, firing as he went, and a volley issued from the bed where the three men were lying and as the officers opened up, a general fight ensued. When daylight came it was found that Jim Crane and ——Nite, alias Johnson, had been killed, John Underwood severely wounded and that one man had escaped.

In the camp was found a good supply of arms and amunition. They had in their possession twelve head of horses, one of which was identified as the property of Mr. Gardner, and three belonging to Mr. Paterson. Various camp utensils were identified as having been stolen from sheep camps in the neighborhod.

The wounded man was shot through just below the hips and through the calf of one leg, fracturing the bone. He was brought to town and is now at the jail receiving medical attention. The capture of these men redounds much to the credit of sheriff Jones who hardly took a whole night's sleep from the time he started after the cattle until the men were run down.

Fire is the most serious enemy of trees.

SIX DEATHS PER HOUR IN TEXAS DURING 1928

Austin.—There were six deaths an hour in Texas in 1928, figures from the bureau of vital statistics of the Health Department show. The average daily mortality was 144. Death registration is not complete and when all deaths are made a public record this number will be increased.

According to authorities on preventive medicine, half of these deaths are preventable.

There were more than 1,000 deadths ascribed to diphtheria, typhoid fever, smallpox and malaria, or three due to these four preventable diseases. Every day in 1928 there were more than ten deaths from tuberculosis, nine deaths each day of babies under 2 years old from diarrhea or dysentery. From these six diseases there were more than 8,000 deaths and if the mortality was but 10 per cent, there were 80,000 cases of the six preventable diseases.

Not Easy

A weak but ambitious young man ventured to approach a great merchant and inquire:

"May I ask you the secret of success?"

"There is no easy secret," replied the merchant. "You just jump at your opportunity."

'But how can I tell when my opportunity comes?"

"You can't," snapped the merchant. "You have to keep on jumping."—Wall Street Journal.

ONE PERSON GOES INSANE IN TEXAS DAILY SAYS TEER

Austin.—Claude Teer, new budget member of the Board of Control, told the Appropriations Committee of the House that an appropriation of $150,000 should be made to meet emergencies, to be spent by the board only after approval by the Governor. This would be a businesslike innovation, the committee was told.

Mr. Teer said there is an average of one new insane person in Texas every day and that at least two buildings each year must be added to the State's hospital organization if they are to be kept out of the jails.

The Evolution of Rotary

—By John M. Hankins.

(The following paper was read at the regular Rotary luncheon in Junction by Secertary John M. Hankins, Thursday, April 25).

You all know or should know by this time how Paul Harris, a lonesome lawyer in Chicago, began Rotary by meeting fellow friends each week for lunch, and how from this small beginning another friend was added from time to time until it became a luncheon club.

The first Rotary club was formed by Harris on Februray 23, 1905, and derived its name Rotary by each member in the beginning entertaining the other members in rotation and has grown in 24 years from one club at Chicago to 3118 clubs to date. Goliad, our own Texas town of Mexican war fame in the fight for Texas Independence, is the newest club.

The International part of the name was added in 1912 when the first club outside of the U. S. A. was organized at Winnepeg, Canada, and at about this time London, England, cabled application for affiliation in the International Association.

The membership in rotary is determined by classification. A man does not receive membership in Rotary because of social, financial or political influence. but because he represents a distinct line of work, trade or profession in the community and is or should be the outstanding man of his profession in the community and should also be a man of high moral character and a man who always makes his obligations good whatever they may be to the very best of his ability. A man must devote at least 60 per cent of his time to the classification to which he belongs to be eligible for membership.

Only one man of any classification may become a member except that a firm with 2 or more members may have an associate member with the understanding that the associate members affiliation terminates at the same time the original member terminates his membership. All newspaper men in the community who own or operate a newspaper, giving 60 per cent of their time to it, are eligible to membership provided they can qualify otherwise.

The motto of Rotary is, "He Profits Most Who Serves Best," and if we will give this motto some deep thought and sincerely live up to it we will all be better for trying to do so. And at the same time will become broader minded and more useful citizens in our community.

The emblem of Rotary is a wheel with a hub, spokes and cogs. The hub represents the club, the spokes represent the influence of the club and the cogs represent the individuals who are members of the club.

The code of ethics, as you all know, is a masterpiece and each rotarian, if he does not already have one should get one and have it framed and hung up in his office where he can see it every day and be able to study it and understand its teachings.

It is required by Rotary that we call each fellow member by his nickname or given name so that we may be able to break down any barriers that might keep us from knowing each other better and so becoming real close personal friends.

The attendance is something that cannot be stressed too much as each member owes it to his club to help the club have a good attendance record with International as it gives his club a better standing in his district and with the district officers. It also makes him a better member as it forces him to keep up with the work Rotary is doing it is also necessary as Rotary does not want a drone in the organization as they have no place for them. The business of the club is looked after by the board of directors and all committees usually report to this board.

The principal committees of Rotary are the Aims and Objects; the Vocational Service; the Club Service; the Community Service; the Classification; the Membership Committees.

The Vocational Service, the Club Service and the Community Service Committees cover most of the activities of Rotary and the chairman of these 3 committees together with the President and Secretary compose the Aims and Objects Committee whose duties it is to supervise the activities of the Club. The Principles of Rotary are Acquaintanceship, Fellowship, Friendship, Fair Dealing and Service.

Rotary is a non-sectarian organization and does not take part in politics or religion.

Rotary also stands for International Peace and good will and for the outlawing of war, and is doing all in her power to give results. It is said that the work of our good Danish Doctor friend is having a great influence along this line with his idea of exchanging boys of one nation with another for their summer vacations and having these boys live with a Rotarian and his family while in a foreign country, so that they may be able to get the viewpoint of the other fellow and create a better understanding of these people.

How we Rotarians should live and what we owe to the business world is best understood from our code of ethics which are eleven in number each and every one of us should read and study so that we will understand their teachings. So that each one of us may learn to conduct our business with a feeling of sympathy for humanity, and that our business dealings, ambitions and relations in business will always make us take into consideration our duty to society and the comunity in which we live. And that every responsibility or position we take for our community or business firm may be discharged in such a manner that the community or business may be better for our having served them.

This is a condensed form of Rotary Evolution as I have been able to understand it thus far and I assure you I know very little. As to what Rotary is attempting to do for society and humanity each individual club is asked to take up some special work of major importance and there is quite a lot for us to do. We have boys' work, crippled children's work, and I understand that in this work there is a movement on foot to consolidate our work with the work the Shrine is already doing in either taking over some of the work they want to do or helping them do it as the case may require. The shrine already has quite a number of hospitals over the U. S. for the purpose of helping cripples and they can not begin to take care of the number that are applying to them. It seems that the work is greater than they are able to take care of at this time in spite of the fact that it is a wealthy organization and that they assess each member for this work.

MAGICIANS COMING

SELVIN Europe's famous MAGICIAN

CLARICE OSTELL coming with SELVIN & CO. to the

Texan Theatre

Mon., Tues. and Wed.
April 29, 30, May 1

Many Junction people are attending the festivities in San Antonio this week.

GIFTS FOR GRADUATION

KODAKS—TOILET GOODS—TOILET WATER
PERFUME—FOUNTAIN PENS—PENCILS
PYRALIN TOILET SETS—BRIDGE SETS—CANDY
STATIONERY SETS—BATH SALTS—WATCHES

Commencement is less than a month distant. Think now of gifts for the graduate.

You will find our stock a mine of suggestions for graduation gifts. Something for the girl and the boy—an appropriate gift at a price you want to pay.

Here are a few random suggestions. Come in and look over our stock and you will find other ideas not listed here.

Crockett Co. Officers Get Big Amount Beer

One of the largest quantities of beer captured in Crockett County in many years was discovered by Sheriff W. S. Willis and Tom Casbeer in a vacant house in El Masho last Friday. Approximately 1650 bottles of beer and around 2,000 empty bottles, as well as several big crocks filled with mash, were found in the house and destroyed by the officers.

No arrests were made in connection with the find. All doors and windows to the house were locked and the local officers were unable to find who had possession of the keys.

The huge store of liquor was seen by Sheriff Willis when he peeped through one window from which the blind had fallen. The officers then broke into the house and found the beer stacked around the walls and an ice box filled with cold beer in one corner. More than a half day was spent breaking the bottles, the beer running off in little rivulets for a distance of several hundred yards from the house.

THE SAVING HABIT

Occasionally we hear of some youngster who has acquired a habit of saving his pennies instead of rushing off to buy candy.

That is a good habit, and later in life he will be saving many dollars instead of a few pennies.

Saving comes easy to people who get the habit, and the habit comes easy if it is taught to the youngster when he begins to receive his first pennies.

The boy who learns to save in his young days never wants for funds in his old age.

But the lesson is seldom learned unless his parents are the teachers.

RESOLUTIONS

Whereas, It has pleased our Supreme Master to call our worthy brother, Jim Riddle, from labor here to rest in the Celestial Lodge on high, therefore be it

Resolved, That in the death of our Brother Riddle we lose a worthy member of our lodge, a just and upright Mason, and a good citizen.

Brother Riddle departed this life in the prime of manhood, but was duly and truly prepared for admission into the Celestial Lodge above where our Supreme Grand Master presides, whom he loved and served here on earth.

We sympathize with his widow and other loved ones who mourn his departure. Let us so live and perform our duties here as to insure a joyful reunion with those who have gone before.

Be it further resolved that a copy of these resolutions be spread on the minutes of the lodge and a copy me maied the widow of our deceased brother.

L. D. Jetton,
Ray Ridenhower,
Walter Buck.
Committee.

The price of a Goodyear tire is no more than any other good tire. We put them on for you right here for no extra charge. That is just ONE of the little extra services we give you. Are you taking advantage of it?

INDICT TWO FOR DEATH OF FILLING STATION MAN

Coleman, Texas.—Robert Mason, alias Paul Artiste, and Dennis Dixon were indicted for murder late last Thursday afternoon by the Coleman county grand jury in connection with the fatal shooting of Elgie Leslie, filling station proprietor, March 23.

E. G. Bird, who escaped from the Coleman County jail several weeks ago, was indicted for robbery with firearms. He is still at large.

THE USEFUL FROG

Curious uses are made in South America of the poisonous secretion of the frog, says the Bureau of Biological Survey of the U. S. Department of Agriculture. One is to produce yellow feathers on the Amazon green parrot. The blue or green feathers of the head and neck are plucked out, and the areas rubbed with the back of a living frog, and when the feathers grow out again they are yellow instead of blue or green. The same secretion is used by Indians in Colombia to make poisoned arrows, enough poison being obtained from one animal for 50 arrows. They are used chiefly for shooting monkeys.

STATE LETS CONTRACT FOR 1930 AUTO TAGS

Austin, April 23.—Gopher Stamp and Die Company of St. Paul, Minn., was awarded the contract by the State Board of Control Tuesday for furnishing license plates for motor vehicles to be used in Texas for the year 1930, the total amount of the contract being $109,386. The company's bid, which was the lowest, was 3¼ cents per plate in all classes. W. J. Cooley and Company of Memphis, Tenn., received the contract for 20,000 brass badges for chauffeurs to cost $850.

Colors of plates for passenger cars are orange background with dark blue raised letters and numerals.

Bus plates have blue background and orange letters and numerals.

Passenger car plates ordered number 1,300,000 front and the same number rear costing $93,598.

Two hundred thousand sets of commercial plates were contracted for costing $14,400.

Twenty thousand plates for trailers and tractors cost $720.

Dealers' plates number 12,500 costing $450. Six thousand motorcycle plates cost $216.

KNOW TEXAS

In the early days of Texas, cattle were so cheap they were killed for the hides alone.

In 1928 there were about 3,415,157 citrus trees of all kinds in the Lower Rio Grande Valley.

Texas has about 600 miles of street railways.

More than 537,000 Texas homes are served by electricity.

About 450,000 electric irons are used in Texas homes. This is the most widely used electrical appliance.

53 Persons Killed In Texas Accidents

The Texas council of safety, Austin, furnishes the following summary of accidents, their character and results for the weeks April 1-17, 1929:

Causes—	Injured	Killed
Automobile	186	24
Railway train	9	6
Street car	2	3
Other vehicles	22	1
Falls	11	4
Burns	11	4
Drowning	1	3
Firearms	3	3
Explosions	7	2
Other causes	56	3
Total	311	53

Of the above nine were injured and three killed in home accidents and 21 injured and none killed in industrial accidents.

January 1, 1929, to date 3,284 injured and 551 killed in accidents of all kinds and for corresponding period 1829, 1,673 injured and 427 killed.

CONNALLY GETS GOOD COMMITTEE POSITIONS

Washington, D. C.—Seldom has a newly elected Senator emerged from a Democratic caucus with the spoils that Senator Tom Connally of Texas carried with him. The only new minority Senator for this session of Congress, the Texan received a place on four committees, one of them a prized assignment and none to be scorned.

The most desirable of Connally's appointments was that to the Senate Committee on Finance. This committee corresponds in the Senate to the House Committee on Appropriations and also partially to the House Committee on Ways and Means.

Connally was also placed on the Senate Committees on Banking and Currency, Public Buildings and Grounds, and Privileges and Elections. By being given four committee assignments, the new Texan Senator will hold during the coming session one more position than the veteran Senator Morris Sheppard.

Sheppard retained his places on the Committees on Military Affairs and Commerce, and exchanged his assignment on the Education and Labor Committee for a place on the Committee on Manufactures.

It had been expected that Connally would be given a number of good assignments. Very few times in the past has a party placed only one new member in the Senate, but when it does, he gets very much his own way. Should the Democrats gain control of the Senate at any time during the next six years Connally will be in a position to exert strong influence on senatorial affairs.

LARGE CAVERN IS FOUND IN TEXAS

Johnson City, Texas.—Petroleum geologists have discovered what appears to be one of the most extensive caverns in Texas, possibly surpassing the famous Carlbad cavern in New Mexico. Local ranchmen have long known of this cave but few have braved the risk of extensive exploration. it is known as the Buffalo cave, about five miles northwest of Johnson City, some two miles from the new Airline Highway, Fort Worth to San Antonio. The business men and others interested in Johnson City progress will soon begin work on a good antomobile road to the entrance of the great cavern.

J. B. Dickinson, a widely known geologist of Tulsa, Oklahoma, who has surveyed and mapped this entire area, together with other geologists, made a trip into the cavern recently and in conversation with your correspondent had the following to say: "The Buffalo cavern seems to be a most wonderful freak. We made a somewhat hurried investigation with ordinary flashlights and found many interesting situations. We entered on the north side of the Pedernales River about one thousand feet, and came out on the south side, being a direct line of almost a mile. Our meanderings probably covered twice that distance.

"As compared with the Carlsbad cavern, or the famous Kentucky cave, I should say the Buffalo cavern holds greater scientific interest, or I might say, greater curiosity to the ordinary man or woman, who feels he should delve into nature's mysteries. To those so inclined I would say it offers exceptional interest. It may prove to be the most extensive cavern in the United States, when fully explored.

"The character of the limestone, of the Cretaceous age, easily erodes by the action of water, hence the immense opening and numerous large rooms. There appears to be a dozen or more branches, some of them may lead several mlies under the high hills in that locality. It would require men of experience and suitable equipment to undertake a thorough study of the entire underground cavities. Suffice it to say, however, that the Buffalo cavern will prove interesting and instructive to those interested in such phenomena."—San Saba Star.

OFFICIAL ORDER FOR REUNION OF CONFEDERATE VETERANS

San Angelo, Tex, April 9, 1929

29th Annual Reunion Notice U. C. V.—General Order No. 10.

Comrades of the Mountain Remnant Fifth Brigade Texas Division, United Confederate Veterans are hereby directed to meet at our old camp ground in Christoval, Texas, on Wednesday, Thursday and Friday, July 24, 25 and 26, 1929, to again enjoy the hospitality of our good and patriotic friends of this city and vicinity.

All veterans of this Brigade and others, their wives and widows, daughters and sons and and all veterans of other organizations are cordially invited to meet with us. Three days' cooked rations will be served to all who are entitled to receive their meal tickets. Tents, cots and other equipment will be furnished old soldiers, their wives and widows, who must bring their bedding.

As usual, a grand and glorious time is expected by all—especially the few Remnant who may yet under Divine Providence be able to meet with us.

By order of Commander,
(Official) Z. I. WILLIAMS,
Gen. 5th Brig. Tex. Div. U. C. V.
L. BALLOU,
Brig. Adj. & Chief of Staff.

The last judicial avenue by which Harry F. Sinclair might have escaped the sentence of three months imposed on him for refusing to answer questions of a Senate committee, was closed to him today by Supreme Court's refusal of his application for a rehearing. Only a Presidential pardon can disturb the court's ruling that the Senate was acting within its authority in seeking to elicit testimony from the oil man concerning the leasing of the Teapot Dome Naval oil fields, and that Sinclair must serve his 90-day sentence in that case.

CASKET MAKER LAUGHS SO HARD HE'S JAILED

Oakland, Cal.—Edwin Mathison was arrested for disturbing the peace on the complaint of an Oakland theater manager. Mathison's reverbrating laugh, the theater man said, interfered with the enjoyment of other patrons.

"Expain yourself," said Police Judge C. J. Tyrell.

"Well, Judge," began Mathison, "I am a casket maker and when a man in my business gets a chance to laugh——"

"Case dismissed," said Judge Tyrell, "go and laugh some more."

SCREW WORM TRAPS

Fly trapping to reduce screw worms that infest sores of livestock, sometimes causing death and always resulting in various kinds of losses, has been conducted on a systematic scale by about 20 ranchers in Menard County for three years in cooperation with W. R. Nesbit, county agent. A total of 300 traps have been kept baited and periodically emptied by a man employed for the purpose, with results so favorable that the work is continuing this year. Screw worm cases were cut in half last year within the trapped area.

KISSING

Opinions on kissing differ.

First the health experts warned us all against it as a promulgator of colds and more serious illness.

Now science tells us that kissing is an exercise that makes for health by speeding up sluggish hearts and increasing the circulation of the blood and recently a group of chorus girls took part in a scientific kissing test which showed that the stimulus of kissing created a real response from a health standpoint.

We are waiting for the doctors to begin prescribing kisses, and for men and women to walk about with special doctor's certificates entitling them to spoon in public for the sake of health.

Men who haven't done so for years will begin kissing their wives with great ardor—what difference that will make in matrimony and the entire field of domestic relations

And perhaps kissing will be made compulsory in the interests of science and health. What we are afraid of is that once this happens people will begin to lose interest in the time-honored game of kissing.

Hard to Please?

Three women died and finally appeared before the Pearly Gates. To the first one Saint Peter asked:

"Where are you from?"

"Kansas," was the reply.

"Fine," said St. Peter. "Go right in." Then, turning to the second one, he inquired, "And where are you from?"

"Colorado."

"All right—go in."

"Where are you from," he repeated to the third.

"Texas."

"Well," said Saint Peter, slowly, "go in and look around, but I know you won't like it."

With drouth, earthquake and flood added to the disasters of religious wars and famine, the population of Kansu Province has been reduced from 9,000,000 to 7,000,000 within a year. Straw, dried leaves, bark, cotton seed and thistles have become staple articles of food in the famine districts and those who have survived hunger have perished in thousands by the sword wielded by raiding fanatical Mohammedans.

Gillespie County to Vote on Road Bonds

The commissioners court of Gillespie County granted a petition, signed by a large number of the citizens, for an election to be held May 21, 1929, to decide whether or not highways are desired by the people. The bonds will be for $360,000 and will be used, if the election carries, to retire present outstanding bonds to the amount of $140,000, in the county and to secure $5,000 a mile on the extension of Highway No. 20 from Fredericksburg through Harper to the Kimble County line and also to provide $50,000 for the completion of the Llano, Fredericksburg to Kerrville highway, commonly known as the Pecan Belt highway. The remaining amount will be used to purchase right-of ways and other incidental expenses that are usually encountered in the building of good roads

The commissioners court of this county have unanimously endorsed the plan advocated by Judge Herman Usener for the building of these highways. Commissioner Fred Hahn, of this precinct, who took his office after the court had endorsed the plan as a body, last week published a statement endorsing the plan and pledging himself to act in accordance with the plan and the court.—Harper Herald.

Forethought

Jack was a worthless and improvident fellow. One day he said to the local grocer: "I gotta have a sack o' flour; I'm all out and my family is starvin'."

"All right, Jack," said the grocer. "If you need a sack of flour, and have no money to buy it, we'll give you a sack. But see here, Jack, there's a circus coming to town in a few days, and if I give you a sack of flour, are you sure you won't sell it and take your family to the circus?"

"Oh, no," said Jack, "I got the circus money saved up already."

The new $40,000 Baptist Church at Ozona now rapidly nearing completion, will be formally opened at special dedication services to be held in the new structure Sunday, May 5, it was announced this week by the pastor, Rev. M. M. Fulmer.

CAN HORSES SLEEP WHILE STANDING?

Horses have the power of sleeping while standing. Their legs are provided with muscular mechanisms which cause them to lock and permit the animals to rest somewhat as if they were standing on stilts. While a horse is unconscious there is no direct brain control over those muscles in the legs, back, and chest which are essential for the maintenance of an erect posture. The control depends on the reflex actions of the spinal cord. This phenomenon is similar to that of a bird sleeping on a swaying limb. A reflex balance is maintained when consciousness is in abeyance. Horses sleeping while standing occasionally fall down. More often certain muscles in the forelegs relax suddenly and the animals knuckle over on to the fetlocks and then immediately catch themselves. Horses go sometimes for months without ever lying down. It is astonishing how little sleep they require. This is also true of other herbivora, including elephants. An Indian elephant will feed for eighteen or twenty hours and then sleep only one or two. When horses sleep their eyes usually remain open or partly open, and they sleep so lightly that they are awakened by the faintest sound. They seldom lie long in the same position because their great weight cramps their muscles and prevents the under lung from functioning.—The Pathfinder.

Exception to the Rule

The young man was in a state of obvious embarrassment when he called on the father of the girl he had been taking to the theatre.

"Er-ah-sir," he stammered, "that is, your-er-daughter tells me that she-ar-er-loves me."

"Ah!" the parent suggested helpfully, "and you have come to ask me if you can marry her?"

"No, sir," answered the youth blushingly. "I come to ask you to make her behave."

907,911 Automobiles Registered in Texas

Austin. — Passenger automobiles in Texas passed the 900,000 mark this week as registrations made a comparatively sudden jump after lower license fees became effective with the beginning of the second quarter for 1929 on April 1 and stimulated sales. Saturday there were 907,911 passenger automobiles registered, 133,180 trucks, 3,086 busses, 2,487 motorcycles, 419 tractors, 8,637 trailers and 3,267 dealers, 7,035 chauffeurs, 176,695 transfers and 5,724 duplicate plates registered.

Pennsylvanians want one of the new cruisers to be named Gettysburg. Few names would be more appropriate for a fighting craft.

All the religious sects of the east and west are represented in the Hawaiian islands.

TWO WOMEN CAUGHT CARRYING AMMUNITION

Mexico City.—A novel method of smuggling ammunition was discovered Saturday night when detectives arrested two women as they were boarding a train for Guadalajara, each having 2,000 rifle cartridges sewed inside their corsets. At police headquarters they gave their names as Conception Capilla and Maria Cabrera. They were held pending an investigation. Police believe the ammunition was inteded for rebels operating in the mountainous region of Jalisco.

While the dairy cow should be given all the salt she needs, she should not be forced to eat more than she wants. The best way is to give only a small quantity with the feed, not to exceed one per cent of the grain mixture by weight, and to place salt in boxes where she can lick it at will

We stand behind every Used Car bearing the Red Tag "with an OK that counts"

LOOK at these Outstanding Used Car Values

1 1927 Dodge Coupe, A1 shape; new paint.....$385.00

1 Chevrolet Roadster, 1927 model, new Duco, new tires, thoroughly reconditioned; a bargain at.....$315.00

1 Chevrolet Coupe, worth the money, with an OK, at...$225.00

1 Chevrolet Truck at....$275.00
A good buy

We have a number of other cars at bargains with an OK.

OUR used car department is operated under the famous Chevrolet Red O. K. Tag system. Under this plan, we attach the Chevrolet Red O. K. Tag to the radiator cap of every reconditioned car—showing exactly what vital units of the car have been checked or reconditioned by our expert mechanics.

We believe that no fairer system of used car merchandising has ever been worked out—for it assures the customer honest value.

Due to the great popularity of the new Chevrolet Six, we have on hand at this time a wide selection of "O. K.'d" used cars taken in trade on new cars. Come in and look them over. You are sure to find exactly the car you want at a price that will amaze you. Terms are exceptionally easy.

McDonald Chevrolet Co.

Look for the Red Tag "with an OK that counts"

Junction Trade Notes

Stokes Bros. of Lampasas have purchased a number of clips spring wool at 32c, according to newspaper report. The same source of information states that Walter Thurman of Edwards County purchased from Ray Ridenhower 1700 yearling and 3-year-old mutton goats at $5.50, and 2000 mixed lambs at $6.50.

C. M. Massey of the fertile Llano valley around London is supplying the local market with choice turnip greens, radishes and English peas.

Mr. and Mrs. I. R. Woolley arrived Tuesday from Coleman and are comfortably domiciled for an indefinite time at Price's popular camp on South Llano.

New crop honey, from Nueces Canyon, in tins and glass, extracted and in comb. **Gann Grocery Company.**

Boneless pig feet, in sanitary jars. **Gann Grocery Company.**

Mr. and Mrs. W. W. Buck have with them their interesting daughter, Mrs. J. C. Cherry, and little grandson Jimmie Carroll, of Aransas Pass. They will visit in Junction while Mr. Cherry undergoes convalescence in a Houston hospital.

The few pretty roses growing in Junction yards is sufficient to demonstrate that the valley of the Llanos could be transformed into a rose garden, if we cared to use some of our surplus energy to that purpose.

E. Holekamp went fishing Friday. He had the signs in his favor, had minnows, helgamites, worms and cheese for bait; but no fish for breakfast.

Mrs. Sam Bowers, efficient saleswoman with Gann Grocery Company, has been off duty for a week on account of illness akin to tonsilitis; and during the time Sam has been "on a diet" except when the neighbors brought something in.

The weather is an interesting subject wherever one is. W. B. Adams, old-timer from the head of North Llano, remembers that he has seen frost every month of the year except in July and August. Mr. Adams has lived in the vicinity of the Llanos since 1877. He was living in McCulloch County in June 1876, when frost killed corn and other tender vegetation. Mr. Adams was in Junction Monday buying planting seed from Gann Grocery Company.

Many places of scenic interest in Colorado are not as interesting as Junction and the Llanos, in the opinion of Judge John W. Goodwin of Austin who, with Mrs. Goodwin, spent last week-end in Junction as guest of friends. Judge Goodwin is attorney for the State Banking Department.

Gann Grocery Company
"Everybody's Store"

The polo teams in the county are now practicing for the summer games. The Eagle invites all teams to send in notices of all games so that they may be given publicity in the paper. The management is anxious to co-operate with the teams in giving the proper publicity to all games.

The beautiful new home of Judge and Mrs. Weaver H. Baker is almost completed. They plan to move into it about May 1.

—o—

Messrs. Hilry and John D. Henderson and Max Curtis left last Friday to attend the funeral of Mrs. Robt. Henderson, of Riverside, California.

—o—

More than 100 persons are believed to have drowned when the Japanese steamship Toyu Kuni Maru sank early Tuesday a few minutes after striking rocks off Cape Erino in Southern Hokkaido.

—o—

President Hoover Tuesday announced the appointment of Lawrence M. Judd of Hawaii as Governor of the Hawaiian Islands, succeeding Gov. Wallace R. Farrington, who, he added, wishes to retire.

—o—

Texas has 581 active chambers of commerce, an increase of thirty-five over 1928. Of these 231 have full-time paid secretaries.

THE NEW FORD

Registrations of cars in Texas for the month of March show 4,885 Fords aganist 3,870 for the next nearest low price car.

A new Model A phaeton, driven by Mr. W. A. Bergfield, accompanied by Bob Whiteside, traveled from Houston to San Antonio last Friday making the 232.5 miles in exactly 224 minutes, an average of 62.4 miles per hour.

Model A sales led all other makes in Wayne County, Michigan, in which Detroit is located, during both January and Februray, according to registration figures which have just been completed for the first two months of 1929.

Ford sales were 2755 for February as against 1292 for the next nearest car. The totals for the two months were: Ford, 4,918; next nearest car, 2,264.

In trucks, the Model AA also led. Ford sales in February were 355, and 683 for the two months, as compared with 186 for the next nearest in February and 299 for the two months.

Ford sales led in every State in the Union during January, 1929. The total registrations of new cars in 47 States were 77,076 Model A's as against 30,457 for the next nearest make.

A new high mark in Ford Model A production was established during the week ending March 16; 8,006 cars being manufactured on Thursday, March 14. More than 75% of this was domestic, 6,286. Canadian plants produced 557 for the day and 1,163 were credited to foreign. Just ONE day's output. At that time 128,142 persons were on the Company payroll in Detroit district.

When you are in the market for a new car, see us. A demonstration costs you nothing. We are always glad to show you the wonderful performance of the new Ford. Why not buy a Ford and SAVE the difference?

MRS. RAGSDILL HOSTESS TO EFFICIENCY CLASS

Thursday afternoon Mrs. Howard Ragsdill was hostess to the members of the Efficiency Class of the Methodist Church and a number of friends at her home.

Two interesting and fun provoking contests were enjoyed, after which a business session was held. Mrs. Annie Highsmith was elected class president, Mrs. Joe Ramsey vice president, Mrs. W. M. Taylor secretary and Mrs. H. Lawler treasurer.

At the close of the afternoon sandwiches, potato chips, cake and iced tea were served to the following guests: Mesdames Lucy Motley, Troy Fleming, Clyde Roberts, E. W. Boekhaus, T. Sheppard, G. H. House, Lily Nichols, W. M. Taylor, Milton F. Hill, D. L. Smith, Sanford Roe, Sammie Baker, H. H. Lawler, Thomas Hodges, L. E. Standifer, E. R. Borden, Ovie Buster, Terry Randle, Joe Ramsey, Leo Goben, Frang Bissett, Clay Secrest, A. B. Hodges, J. A. Miller, Annie Highsmith, Buck Frasier and Bob Alexander.

MRS. E. R. BORDEN HOSTESS TO MISSIONARY SOCIETY

Mrs. E. R. Borden entertained the members of the Woman's Missionary Society of the Methodist Church and a number of friends at her home Tuesday afternoon.

The literary program was led by Mrs. Ada Dockery, with "What Christ Has Done for the Womanhood of the World" as the subject. Others taking part in the program were Mesdames Joe Bissett, Milton F. Hill, Lily Nichols, Sanford Roe and A. E. Bissett. Following the program Mrs. Hill gave an interesting and instructive report of the proceedings of the annual conference of the Woman's Missionary Society which convened in San Antonio the first of April and which Mrs. Hill attended as a delegate from the local society.

A social hour was then enjoyed with Mrs. Jack Dalton as honoree. At the close of the afternoon cake and tea were served to Mesdames Sanford Roe, W. M. Taylor, Jack Dalton, Joe Bissett, Walter Tinsley, A. E. Bissett, Lily Nichols, Annie Highsmith, Ada Dockery, Milton F. Hill, Frank Bissett, Porter, W. B. Buster, Joe Ramsey, Lucy Motley, G. H. House, H. H. Lawler, Boekhaus, Clarence McDonald, Georgia Furr, Chris Schraub and George Pepper.

CREWLESS TRAINS

Crewless trains of 33 cars, without a human being on board, are operated under the streets of London to speed the mails from collection boxes to delivery points in the city.

About 23,000 bags of mail are carried daily by these electrically operated and electrically controlled underground lines. Dispatchers, at the various subterranean stations, guide the cars by throwing switches, and automatic safety cut-outs prevent collisions.

LOUISIANA GOVERNOR IMPEACHED BY HOUSE

Baton Rouge, April 24.—Governor Huey P. Long was impeached by the Louisiana House of Representatives today on a third count, charging him with misusing public funds in not accounting for approximately $2,000 of $6,000 appropriated for entertaining the National Conference of Governors at New Orleans last November.

The House also voted impeachment on the charges that the Governor had paid a secretary a year's salary to resign his job at a State institution, that he used State house and mansion funds to pay a chaffeur and mechanic and to buy gasoline and to purchase law books. It rejected charges that the Governor had paid $200 out of State funds for a body guard and to establish a law office in Baton Rouge.

Impeachment also was voted on the charge that Governor Long illegally directed the Highway Commission to pay $4,000 to a contractor for defective highway culverts.

SIX MORE PYRAMIDS UNEARTHED IN MEXICO

Mexico City.—Discovery of six more pyramids at San Juan Teotihuacan, where stand the famous pyramids of the sun and moon and other ancient Indian edifices was announced by the archaeological section of the department of public instruction.

The new pyramids are very small and do not compare in size with those of the sun and moon, which rival the pyramids of Egypt in bulk and architectural design. They were buried under six hills, each 15 feet high, situated in front of the sun and moon pyramids.

Like the larger pyramids they have a central staircase mounting one face. San Juan Techihuacan is about 30 miles from Mexico City.
