SNYDER SPOTLIGHT

By WACIL McNAIR

Snyder might be described as a modern city in several respects, among them its architecture in post-war residential construction.

There has been comment in numerous journals of our day, some of them international in coverage, about the disappearance, or fading of the once popular porch. Practically everyone agrees that this condition is a symptom of modernism.

The porch, as everyone should know, was an integral part of the dwelling in earlier days, especially in the "Old South" and the Southwest. And there was a time when a porch was not referred to by that name in these two sections of the country. In his big book of words, Webster notes that in the Southern part of the United States a porch was the same as a veranda, and that a veranda was synonymous with piazza and gallery.

• • •

Many man hours, and woman hours, too, have been spent "on the gallery," especially on Sunday afternoons. A gallery is also described as a place for an audience, and the big, shaded porches, or galleries, of old fashioned houses could qualify under that definition as well. Those who sat on such galleries were the audience to the comings and goings in the towns and villages and up and down the highways. The gallery was the place to catch a cooling breeze in the summertime, with opportunity to watch the world go by.

• • •

Nowadays the cooling breeze is inside the house proper, and the world goes by on a TV channel instead of a highway. Our modern houses are piped with air conditioning and central heating, making the gallery, if there is one at all, a place of discomfort on a hot or cold day. But it makes a Sunday afternoon nap seem more luxurious, and that cooling breeze follows you from room to room if you have any chores to do around the house. We predict that this symptom of modernism is here to stay.

Area cotton farmers are upset over proposals to shift some acreage allotments under a plan that would leave West Texas with fewer acres while regions to the east would get increases. Other phases of the farm program are getting a measure of attention also. At a meeting of cotton men in Colorado City last Monday night, the subject of flexible price supports came in for attention. When asked his opinion, Nolan Von Roeder, the Snyder Chamber of Commerce president, who also knows a thing or two about cotton, quipped: "It's like giving a rubber crutch to a man with a broken leg."

RUSSIANS SEEK ASYLUM—Nine Russian seamen who forsook their homeland to seek asylum in the United States are shown as they arrived in Seattle, Wash., after a flight from Formosa. They were among 20 crewmen on a Soviet tanker seized by the Nationalist Chinese last year. The nine asked to come to the United States rather than be sent back to Russia.

Bulganin Letter Praises Ike's Disarmament Plan

★ ★ ★

Molotov To Tell His Plans

By RICHARD K. O'MALLEY

MOSCOW, Oct. 22 (AP)—V. M. Molotov said tonight he will announce "in Geneva and from Geneva" whether he plans to quit his job as Soviet Foreign minister.

Molotov leaves Tuesday for the four-power foreign ministers' conference which opens in Geneva Thursday. Western diplomats here have speculated about his future as foreign minister ever since he confessed an "ideological error" in the magazine Communist Oct. 8.

Affable and smiling at a gala Kremlin reception for visiting Burmese Premier U Nu, Molotov was asked by this correspondent whether he intended to resign.

"I will give the answer to that question in Geneva and from Geneva," Molotov replied.

He was reluctant to discuss his plans in further detail.

In his confession in the magazine Communist, Molotov said he had erred "dangerously" in a major speech last Feb. 8 when he suggested the Soviet Union was not yet a full-scale Socialist nation. The speech was made at the same Supreme Soviet session at which Georgi M. Malenkov confessed errors and resigned as premier.

Molotov's confession led to immediate speculation about his future. The speculation was heightened by Molotov's absence from recent top-level conferences in the Crimea at which the Soviet line for the Geneva conference was believed discussed. The Crimean conference was attended by Soviet Premier Bulganin, Communist party boss Nikita Khrushchev, foreign trade expert A. I. Mikoyan, Defense Minister Georgi hukov and military, political and trade aides.

Molotov, a veteran Soviet diplomat, has been associated with the hard Soviet foreign policy of the cold war era. Some Western diplomats considered his self-criticism discredited him and the policies he stood for. Others put little stock in talk that he would quit on the ground that confessions of error —self criticisms — are highly regarded in the Soviet Union.

Molotov, at 65 the last of the old Bolsheviks, has had his ups and downs in the Communist hierarchy. He has been active in Soviet government affairs since the days of the Revolution. Among his top jobs was that of Soviet Premier from 1930 to 1941.

He served as foreign minister from 1939 to 1949, but resigned after publicly humiliating himself by delivering a long address on self-criticism "regardless of rank." Andrei Y. Vishinsky succeeded him.

SAYS SHE KNOWS SLAYERS—Sheriff James Hixon of Brookville, Ind., said Gloria Vasquez, 19, above, told him she "knew who the fellows was" in the killing of three boys in Chicago. Police said she had gone to a Catholic priest to confess an auto theft.

Premier Craves More Discussion

By RICHARD K. O'MALLEY

MOSCOW, Oct. 22 (AP) — Soviet Premier Nikolai Bulganin published tonight a letter to President Eisenhower hailing him for his position on the disarmament problem. Bulganin, however, pushed the Soviet plan for control post guarantees against attack as a step toward settling the problem.

The Premier's letter was made public as the Big Four foreign ministers prepared to convene for their "acid test" conference at Geneva Thursday.

It said that agreement on the Soviet control post proposal would have "a great significance for furthering the settling of the problem of disarmament." Bulganin made no mention in the letter of Eisenhower's "open sky" proposal for reciprocal aerial inspection.

This was the second major Soviet development of the day.

In the other, Foreign Minister V. M. Molotov announced he would say "in Geneva and from Geneva" whether he planned to quit his job. Molotov goes to Geneva under the shadow of a confession of serious error in interpreting Red doctrine.

Bulganin said he was awaiting Eisenhower's recovery so disarmament proposals could be discussed. This made disarmament loom large as the principal topic for discussion at Geneva.

The United States agrees it is important to avoid the possibility of surprise attack by either side in this atomic age, but still awaits a clearcut reply to the President's "open sky" proposal. Bulganin's letter may mean Geneva will bring the answer to the President's latest suggestion that the Soviet plan for control-post ground inspection could be included as a starter in a disarmament plan although the West considers it inadequate by itself.

Bulganin's letter expressed happiness that President Eisenhower attached "such great significance" to the disarmament question.

It was dated Oct. 20.

The text of the letter:

To His Excellency Dwight D. Eisenhower:

Highly esteemed Mr. President, I thank you for your letter of Oct. 12 on the question of disarmament. I shall wait for the moment when you will be able to state your ideas on this point as you intend to do.

It gladdens me that you are attaching such great significance to these questions and there can be no doubt that all that the governments of our countries can do to stop the armaments race and establish, with this aim, the necessary controls will answer the higher interests and expectations of nations.

With satisfaction I mark your favorable treatment of our proposal concerning control posts having the aim of forestalling surprise attacks of one country against another. I consider that agreement on this question would have a great significance for furthering the settling of the problem of disarmament.

We in Moscow are waiting for the speediest recovery of your health.

With sincere respect,
Nikolai Bulganin
Sochi 20 October.

Although Bulganin hailed President Eisenhower's arms proposals in general, the Soviet Premier did not indicate what direction Soviet policy would take in this respect.

There was no mention of the President's "open spy" proposal for reciptrocal aerial inspection. The Soviet Union, however, already has announced it has not closed the door on that question.

Some Western observers here feel the primary aim of Moscow at the Geneva foreign ministers confernce opening Thursday is some form of disarmament. Diplomats here say if there is any significant progress at Geneva at all, it will concern that question. They see no chance for Moscow to withdraw from its adamant position on the reunification of Germany and do not they believe the United States will give in to Soviet efforts to have Western bases liquidated.

Ike Recovers On Schedule

By DOUGLAS B. CORNELL

DENVER, Oct. 22 (AP)—Dr. Paul Dudley White said today that President Eisenhower is "convalescing well," the healing of his heart has speeded up, and he should be able to leave the hospital on schedule in the week of Nov. 5-12.

The Boston heart specialist, the top consultant on Eisenhower's case, told a news conference that he had "only good news" today.

He pronounced the President "on the road back to good health," but said, "We shall have to wait another two or three months to make sure of the completeness of his recovery."

Asked whether he could envision being able to tell the chief executive at the end of two or three months whether he could run for a second White House term if he wishes, White replied that all the doctors can tell him is "how fit the heart is."

He suggested that the decision would have to be Eisenhower's but that the wishes of his family also might be taken into consideration. It was learned that the doctors are figuring tentatively on letting Eisenhower check out of the hospital about midway of the week of Nov. 5-12, although a definite date has not been set.

White and a team of doctors gave the chief executive a complete medical checkup this morning at Fitzsimons Army Hospital. White presided at a news conference afterward at the Denver White House.

As the doctors see it, it still probably will be Jan. 1 before the chief executive could return to his duties in the White House. When he leaves Denver he probably will fly to Washington, spend a day or two in the White House and then go on to his farm at Gettysburg, Pa.

During the convalescense period there the President should be able to step up conferences with Cabinet members and other administration officials, or even hold a meeting of the full Cabinet.

And possibly he might turn the procedure around and go from Gettysburg to Washington for occasional meetings.

In reponse to a question, White said that Eisenhowers recovery has gone along "almost exactly according to the schedule he outlined on his last previous trip to Denver two weeks ago.

He quoted a letter from Dr. Eugene Lepeschkin, a cardiogram expert at the University of Vermont Medical School, as saying that while electrocardiograms during the first 10 days after the President's Sept. 24 heart seizure indicated that "the healing process appeared delayed, it has now caught up with the time schedule. White said that confirms what he and the other doctors attending the President believe.

Starting tomorrow, White said, Eisenhower will begin taking a few steps. He said the physicians hoped to put him on the scales in a day or two to check on his weight.

Saar Frontier Is Closed For Voting Sunday

By BRACK CURRY

SAARBRUECKEN, Saar, Oct. 22 (AP)—Police shut the frontiers of this rich industrial basin today because officials said they feared gangs of rowdies might come in and try to intimidate voters and vote counters in tomorrow's historic plebiscite.

Promptly at noon, red and white poles were lowered across all roads leading into the Saar, effectively sealing off the 991-Square-mile area. Until midnight Sunday, after the votes on the statute proposing to "Europeanize" the territory have been counted, all incoming traffic from West Germany, France and Luxembourg will be stopped, with certain exceptions, to insure that 664,000 Saarlanders can vote freely.

The voters, steamed up by three months of hot campaigning, will simply mark an X beside yes or no. If the majority vote yes, the Saar will become a supranational and with a population of between 900,000 and a million, in the industrial heart of Europe.

The coal-rich steel-producing valley would continue its close economic ties, including a customs union, with France; and control its own internal government. Foreign relations and defense would pass from France to a neutral high commissioner appointed by the seven-nation Western European Union.

If the voters say no, the status quo will continue. That means close economic tieup with France. It also would mean a customs and currency barrier between the German-speaking Saarlanders and other Germans living just across the eastern frontier.

On the eve of the crucial vote that may give a new boost to European unity—or perhaps bury it—pro-Europeanization and pro-German forces fired off final charges and countercharges. Each side called the other "traitors."

Premier Johannes Hoffmann's pro-Europenization forces asserted the German Homeland League, grouping the three parties seeking the Saar's return to Germany, is betraying both the European idea and West German Chancellor Konrad Adenauer. The Chancellor and the then French Premier Pierre Mendes-France, drafted the statute a year ago.

Schine Ends Army Hitch

FT. Dix, N. J., Oct. 22 (AP)—G. David Schine, whose early Army career led to the much-publicized Army-McCarthy controversy and a stormy televised Senate hearing, completed a two-year service hitch today with little fanfare.

The 28-year-old hotel heir told post officials here he didnt want to be interviewed or have his picture taken but he accepted a reporters offer of a ride to an airstrip at Pemberton near here and from there piloted a private plane to New York.

The former unpaid consultant to Sen. Joseph R. McCarthy (R-Wis) declined to discuss politics or details of his Army life but said there was a "foulup" in his final pay. Schine said he was told he could file a claim with the Veterans Administration for the amount he claims due. He wouldn't say how much was inyolved.

Schine, a personal friend of Roy Cohn, chief counsel of the Senate Permanent Investigations subcommittee when it was headed by McCarthy, became an unpaid consultant to the committee at the age of 25.

After his induction as a draftee on Nov. 4, 1953, the Army claimed McCarthy and his aides had brought improper pressure on the Pentagon to give Schine preferential treatment. The McCarthy camp replied Schine was used as a "hostage" to force the committee to go easy in its inquiry of alleged Communists in the Army.

Harriman Proposes Price Support Hike

DES MOINES, Iowa, Oct. 22 (AP) —Gov. Averell Harriman of New York, called today for 90 per cent price supports for farmers.

Harriman assailed Republican agricultural policies and said the farmer presently is being treated "like some kind of economic delinquent."

The governor, considered a contender for the Democratic presidential nomination, told an Iowa State Democratic dinner in a prepared address:

"Vice President Nixon says the Democrats are turning agriculture into a political football. Well, that's right, if this is what he means — the farmers kick, the Republicans fumble, and the Democrats pick up the ball."

Harriman said price supports stood at 85 per cent under the Republicans and that "now, with an election coming on they are in a panic."

"As long as only the farmer was being hurt, Republicans were pretty quiet," he said.

In calling for price supports of 90 per cent of parity, Harriman matched a figure proposed in a telegram to the Democratic meeting yesterday by Adlai E. Stevenson.

Stevenson, 1952 Democratic presidential candidate, is expected to announce his candidacy for the 1956 nomination next month.

Harriman, declaring present food surpluses were but temporary, made these proposals:

"We ought to extend the soil conservation program to take acreage temporarily out of production. Then it will be available, with soil replenished, for use when we need it — and we will need it badly one of these days.

"The first fundamental thing we should do is to put the farmer back where he was before, by reestablishing 90 per cent price supports. Then we can go on from there."

Noting that the United States is "ready to spend 35 billion dollars a year for our military forces," Harriman said:

"We ought to be ready to invest a fraction of that for the essential weapon of agricultural production."

In declaring surpluses temporary Harriman said:

"Only between 2 and 3 per cent of total production is surplus now, and consumption is rising constantly. Our population is increasing by over two million a year.

"There are eight million families making under $2,000 a year — they and many others do not have an adequate diet, and if we help them increase their productivity and incomes, they will buy more and better food.

"I am convinced — and conservative economists agree —that our total national output can be raised 40 to 50 per cent in 10 years if we pursue the right policies. So we can anticipate that our present surplus problem will disappear."

Solons Spurn Special Plane

MADRID, Spain, Oct. 22 (AP)—Two U.S. senators tonight spurned a special four-engined DC6 plane sent to bring them home from Europe and announced they will travel by regular Air Force services.

The senators, John Stennis (D-Miss) and John L. McClellan D-Ark), are leaving tomorrow with their wives on scheduled Air Force planes for Paris.

There, they said, they intend to catch a regular Military Air Transport Service transportation flying from Germany to the United States.

The Defense Department in Washington announced yesterday that two special planes were being sent to Madrid and Paris at a cost of $20,000 to bring home McClellan and Stennis from Madrid and Sen. Dennis Chavez D-NM) from Paris.

Drive Started For Insurance On Flood Area

By G. MILTON KELLY

WASHINGTON, Oct. 22 (AP)—This year's disastrous New England floods have set off a many sided drive to provide a government-backed program of flood insurance. The losses have been counted in billions of dollars.

Even before President Eisenhower announced in Denver Tuesday that he will present specific recommendations to Congress on the subject, Senate members had started work on potentially rival flood insurance bills. How much of the cost the government would bear is only one of the many problems involved.

The Senate Banking Committee plans to start public hearings next month, in Washington and in flood stricken areas, to explore the need for forms of flood insurance not now obtainable from private insurance companies and how such insurance could be underwritten. The hearings were announced as "a running start" to prepare for others after Congress convenes in January.

The Budget Bureau and the Housing & Home Finance Agency have linked up as coordinators in shaping the administration's flood insurance recommendation.

Senators from both political parties are working on widely differing bills of their own.

The office of Sen. Bush (R-Conn) confirmed that he is drafting a bill which would seek to team up the government and the private insurance industry in a program which might apply to other natural disasters.

Sen. Lehman (D-NY), who will preside at the Banking Committee hearings, has disclosed he is working on a bill to provide insurance against war damage and natural disasters, and to give the Civil Defense Administration the leading role in coordinating disaster relief work.

State Bar To Air Court Criticism

AUSTIN, Oct. 22 (AP)—Directors of the State Bar referred complaints about Atty. Gen. John Ben Shepperd's criticism of the Court of Criminal Appeals to the bar's local grievance committee today.

Shepperd said he welcomed any investigation of the State Bar "of our remarks in the Adame case."

Shepperd last week filed a motion for rehearing in the Court of Criminal Appeals on its Oct. 5 decision that knocked down 104 indictments against Duval County officials and others.

The case directly involved was the conviction of R. L. Adame, former Duval County school superintendent, on a felony theft indictment. The court held the grand jury that indicted Adame was improperly organized.

Shepperd and Dist. Atty. Sam Burris of Alice were sharply critical of the court. Shepperd said Davidson had expressed himself on the Duval County cases prior to taking office on the court.

Davidson replied that he had reached the decision after "open and fair consideration.

"According to newspaper reports, Atty. Gen. Shepperd has publicly cirticized judges of the Texas Court of Criminal Appeals as the result of the recent decision of that court invalidating indictments from Duval County.

"Complaints have been made to the board of directors of the State Bar questioning the ethical properiety of such public criticism.

"The law and rules governing the disciplining of lawyers vest exclusive jurisdiction of the investigation of such complaints in local district grievance committees. Any alleged violation of the canon of ethics by which the lawyers of Texas govern themselves is a matter of concern to the State Bar. The board of directors, therefore, is referring these complaints for consideration to the proper local grievance committee."

Shepperd issued this written comment:

"We welcome the investigation of any committee of the State Bar of our remarks in the Adame case.

"We invite the study of every lawyer to the recent Adame opinion, our motion for rehearing, the history of both grand juries and the entire record in this case.

"We cannot rest until the Duval situation is cleared up. The cancer that choked that county and reached its evil tentacles into other areas must be killed. This is a fight for justice by every citizen in the state, including its lawyers, has a stake in that fight."

The decision in the Adame case was based on the appeals court's findings that the 79th District Judge A. S. Broadfoot acting improperly in throwing out one grand jury and appointing a new grand jury commission "of his own choosing" to select the grand jury that eventually returned the 104 indictments.

The decision in effect invaldiated all other indictments returned by that grand jury.

Shepperd and Burris in their motion for rehearing said that if the court's decision is allowed to stand, it will free a man convicted of stealing school funds, knock out the many other indictments, overrule a law of 26 years standing, and reverse the same court's holding on the same question decided only 17 months ago.

Shepperd and Burris are seeking re-indictments. If the court refuses to reconsider its decision in the Adame case, some persons previously indicted will be in the clear because of the statute of limitations, they said.

Hike Reward For Slayers

CHICAGO, Oct. 22 (AP)—Rewards for capture of the slayers of three schoolboys mounted today as a special force of 250 policemen made a 13-square-mile house-to-house canvass for clues.

Officials of Chicago and the surrounding area — stirred by the apparently motiveless murder in triplicate — marshaled extraordinary resources to attack the mystery after five days of investigation showed almost no headway.

The public's help was begged as Mayor Richard J. Daley announced that he will ask the City Council to post $10,000 reward—a sum which would bring the total of rewards offered to $16,500.

In all, some 500 police officers worked to crack the mystery shrouding the deaths of 14-year-old Robert Peterson, and the Schuessler brothers, John, 13, and Anton Jr., 11.

The boys left their homes Sunday afternoon, planning to see a movie or go bowling. Their naked bodies, strangled, beaten and soiled, were found shortly after noon Tuesday in a heap at the bottom of a shallow forest preserve ditch, three miles from their homes.

Lost Parrot Wings In On Radio Beam

BALLINGER, Oct. 22 (AP)—Mrs. Joe Thomas' pet parrot, Billy, ran away last night.

She asked Radio KRUN to help find the bird.

The appeal was broadcast at 7:30 a.m.

Newscaster Rober Holliday said that 30 minutes later Billy walked through an open door of the station's control room and asked: "What you doin'?"

George Says Congress May Clash With Administration

By JACK BELL

WASHINGTON, Oct. 22 (AP)—Sen. George (D-Ga) said today the Democratic - controlled Congress appears headed toward some sharp clashes with the Eisenhower administration, not the least of which may involve methods of cutting taxes.

George, a member of the tax handling Senate Finance Committee, said in an interview he believes budget balancing is "clearly in sight" and the time has come for income tax cuts.

Predicting a "sharp division of opinion" between the Democrats and the Republican administration in this field, he forecasts party fights also over a new highway program, farm price supports, social security expansion and school construction proposals.

As chairman of the Senate Foreign Relations Committee, the Georgia senator said he expects bipartisan support of international policies to continue. He foresaw "no big issues" for Congress to grapple with in that field unless there are unexpected developments.

George, whose refusal to go along helped kill a Democratic proposal for a $10-a-person income tax cut in the last session, said he now is ready to support a reduction for lower and middle income taxpayers.

He said some excise taxes might be adjusted but voiced the opinion there could be no cut in present corporation rates for another year or two.

Observing that he doesn't believe it will be possible to make any substantial reduction in the national debt in the near future, George declared:

"The first thing to do is to reduce taxes. We can afford to do that when a balanced budget is clearly in sight and I believe we are already in sight of that."

Secretary of the Treasury Humphrey said after a visit with President Eisenhower in Denver a week ago he still hopes for a balanced budget by June 30 which would make it possible to recommend tax cuts. The time to cut taxes, would be when possible surplus was in sight, he said.

George predicted the administration will urge an across-the-board tax reduction, giving all taxpayers the same percentage cut in their tax bill.

He said he thinks the Democrats will come up with a proposal to increase income tax exemptions from the present $600 to $700. This would take about five million low income taxpayers off the rolls. It would mean some tax reduction for everybody but the percentage would be progressively smaller on higher incomes.

While the Treasury estimated earlier this year that such a reduction would drop revenues about 2½ billion dollars, George contended that it won't cost anything because it would increase business and boost other tax revenues.

Secretary of Commerce Weeks indicated yesterday the administration would go along with some such plan as the Democrats' offered if "equitable" tax increases could be worked out.

George said he thinks some "temporary amendments' will be approved by Congress to revise the administrations flexible farm price support program. He said the outcome in this "highly controversial area may be "some fixed percentage of price supports not on a flexible basis.

"We cannot continue a program on the same principle on which the Department of Agriculture now is operating, he said.

He added that small farmers are being squeezed out by efforts to cut production to get rid of crop surpluses. He said there must be "more emphasis on distribution and the exportation of surpluses.

WEATHER

SNYDER TEMPERATURES: Friday's high 97, low 54, Saturday's 7:30 a.m. reading 58.

NORTH CENTRAL TEXAS: Clear to partly cloudy and warm Sunday. Considerable cloudiness and turning colder Sunday night. Clearing and colder Monday.

WEST TEXAS: Partly cloudy, colder Sunday night and in Panhandle and South Plains Sunday. Monday fair and cold.

EAST TEXAS: Partly cloudy and warm Sunday. Considerable cloudiness and turning colder Monday and over north portion Sunday night. Moderate southeast winds on coast becoming fresh to locally strong and shifting to northerly Monday.

SOUTH CENTRAL TEXAS: Partly cloudy and warm Sunday. Considerable cleariness and turning colder Monday. Moderate southeast winds on coast becoming fresh to locally strong and shifting to northerly Monday

WINS IN NATIONAL CONTEST—Connie Koonce, 10, daughter of Lindal and Wanda Koonce of Snyder, is shown above receiving a check from Dillard Pope, business manager of the Daily News, for having won a $5 prize in the Junior Treasure Chest contest in the Family Weekly supplement published Sundays in the Daily News. Connie's winning entry appears on page 18 of the Family Weekly in today's paper. Connie's winning entry was a letter to the contest editor about a game played at her last birthday party. The game is called "Teaching the Bird to Talk." (Lee Watson photograph)

Services Set For G. B. Parks

Funeral services will be held at 3 p.m. today at the Twenty - fifth Street Church of Christ for Garland Baze Parks, 35, farmer who lived on the Clairemont Route.

Mr. Parks died at 8 a.m. yesterday in Battenfield-Jones Hospital. Ted Norton, minister of the Twenty - fifth Street Church of Christ, will officiate in services. Burial will be in Snyder Cemetery under direction of Bell Funeral Home.

A native of Scurry County, Mr. Parks was born Nov. 30, 1919. He was a veteran of World War II and a member of the Church of Christ.

Pallbearers will be D. M. Pogue, Mozell Roggenstein, Fickas Bell, Zane Payne, Raul Keaton, Pud Rollins, J. T. Stephens, and Jimmy Beck.

Survivors include his wife, Mrs. Norma Parks; a daughter, Mrs. Barbara Ann Newman of Snyder; two sons, Garland Robert Parks and Gray Earl Parks, both of Snyder; his parents, Mr. and Mrs. Gray Parks, Sr., of Snyder; and a brother, Gray A. Parks, Jr., of Snyder.

Strike Threatened

PARIS, Oct. 22 (AP)—French prison guards threaten a modified strike next Tuesday. They say they will refuse to unlock the doors except to free convicts whose terms expire. The guards, who now get less than 30,000 francs — $85.71 a month, want an increase of about 5,000 francs — $14.28.

Heavy Fines

NEW YORK, Oct. 22 (AP)—New York City, in the midst of a vigorous clean-up campaign, has slapped $381 in fines on 37 truck drivers, who spilled dirt along the road en route to a garbage dump.

Workshop Slated Here For Teachers

The eighth annual workshop for the English-language arts teachers of District 7 of the Texas State Teachers Association will convene in Snyder Nov. 5.

The workshop will include about 150 teachers from primary through college level. There are about 25 counties in the district, and colleges included in the district are Hardin-Simmons University, Abilene Christian College, McMurry College, Midwestern University, Ranger Junior College, and Cisco Junior College. In addition there will be consultants from Southern Methodist University, North Texas State College, the State Department of Education, Texas Technological College, and two book firms.

General chairman of the workshop will be Dr. Lloyd Huff, head of the English department at McMurry. Mrs. Elizabeth Beavers of the Snyder High School English department is program chairman: Frank Wilson, director of curriculum for the schools, public relations chairman; and Mrs. Mary Faver, Snyder High School English department, secretary-treasurer.

The program will be under way with registration at 8:30 a.m. Saturday. Main speaker at the 12:30 p.m. luncheon in the high school cafeteria will be Dr. Willis Sutton, superintendent emeritus of the Atlanta, Ga., public schools. During the afternoon, the group will break down into section meetings.

Section leaders will include Mrs. Aline Kendrick of Snyder Junior High for the junior high group and Louise White of the Sweetwater public schools for intermediates. Consultants will include Dr. W. D. Bond of Hardin-Simmons for the college group, Dorothy Davidson of the State Department of Education for the high school group, Laverne Hancock of Texas Tech and Dr. J. M. Brown of North Texas State for junior high, Dr. Edward Pratt of Southern Methodist for intermediates, and Christobel Christopher of DCE Publishing Co. and Eva Lou DeArment of American Book Co., both of Dallas, for the primary group.

In connection with the workshop, all those attending have been invited to bring exhibits of work done at various levels. Those exhibits will be set up in the English department.

Junk Dealer's Wife Claims Found Money

CORSICANA, Oct. 22 (AP)—The widow of a Dallas junk dealer laid claim today to $50,000 that a Corsicana Negro found in the basement of a Dallas home.

Attorneys for Mrs. Elsie Haynes, 65, filed a plea to intervene in a suit that the finder, Jackson Davis, 24, brought against William Felder Jr. of Dallas, Sheriff Bill Decker of Dallas and two of his deputies.

The petition alleges the money belongs to Mrs. Haynes or to the estate of her husband, Harry Haynes.

Davis unearthed the cash while working in the basement of the Dallas home in January. Most of it was taken from him by deputy sheriffs.

A Dallas grand jury is investigating felony theft charges filed against Davis who was freed eight days after his arrest without being required to post bond.

Davis' action seeks recovery of $45,170 the deputies took plus $45,000 in exemplary damages.

His attorney, Matt Dawson, commented on Mrs. Haynes' suit that, "It seems like several other people are trying to lay claim to that money."

Dawson said the main basis for Davis' suit is that court decisions in virtually identical cases have held that "finders are keepers" in cases where ownership of money hasn't been established.

Felder, a cotton man, claims the money was hidden in the basement of his home by his late father.

Mrs. Haynes asserted her belief that the money was removed from another "hiding place" and "planted" in the place where Davis found it. It offers to give Davis a "reasonable amount" for locating the money.

Mrs. Haynes' petition says the couple were married July 27, 1921, and lived together until his death four years ago.

It also states that during those years she and her husband were in business in Dallas and accumulated large sums of money, adding that her husband was a miser and "did not spend or dissipate his money in any way or manner."

At Dallas, Miss Isabelle Abright, a lawyer for Mrs. Haynes, said, "we've been looking for that money every since he died. He made plenty of money and never spent a dime." Miss Abright said she had known her client and Haynes for 20 years.

Auto Dealer Dies

FORT WORTH, Oct. 22 (AP) — Ernest Allen, 60, auto dealer, civic leader and rancher, died last night at his Marietta, Okla. ranch of a heart attack. He had been a Chevrolet dealer here since 1922.

Disarmament Plans Are Dim

UNITED NATIONS, N. Y., Oct. 22 (AP) — Russia's insistence on old positions appeared here today to doom any disarmament agreement at the Geneva Big Four meeting.

Diplomats described the Soviet stand in the Disarmament Commission yesterday as showing clearly the Russians have not moved a step toward agreement with the West on inspection, control and actual disarmament moves after nearly a year of new talks.

One diplomat said the Soviet program set forth in proposals May 10 and repeated at the Big Four summit meeting last July insures a long, indefinite postponement of any step toward disarmament. Under these proposals, the powers would have to agree on a complete program, including atomic weapon prohibition, before even a first step could be accomplished.

U. S. Secretary of State Dulles and President Eisenhower's disarmament envoy, Harold E. Stassen, might be able to get the Russians to give at Geneva a more definite answer than they have given here so far on the Eisenhower "open sky" proposals. These would set the disarmament ball rolling by an exchange between Russia and the United States of aerial inspection of defense plants in each other's contries.

Corporal Convicted For Collaboration

SAN FRANCISCO, Oct. 22 (AP) — Cpl. Thomas Bayes, 32, of Flat Lick, Ky., was convicted today by a court-martial of collaborating with the enemy in Korea. He was sentenced to a dishonorable discharge, forfeiture of all pay and five years at hard labor.

Bayes could have received a maximum sentence of life at hard labor.

Bayes, held in a Chinese prisoner of war camp for many months, was acquitted of a second charge of conduct prejudicial to the Army.

The seven-man court-martial board heard several weeks of testimony at the Presidio, and deliberated more than two hours before convicting Bayes. Determination of sentence required about an hour more.

Fight Forming For Meeting With Russians

By JOHN M. HIGHTOWER

GENEVA, Oct. 22 (AP)—Russia and the Western powers will be negotiating at cross purposes when they meet in the Big Four foreign ministers conference here next week. The prospects are for a battle of wits and little real gain for peace.

Secretary of State Dulles, Foreign Secretary Harold Macmillan of Britain and Foreign Minister Antoine Pinay of France are approaching the conference in a mood of public caution and private pessimism.

Russia's record during the past year, though glittering with promises of peace, suggests that Soviet Foreign Minister Molotov most wants is actually a truce in the cold war. He would thus ease internal and foreign pressures on the government of Premier Nikolai Bulganin while preserving an opportunity for Russia later on to try to take over all Germany and dominate Europe.

Dulles, Macmillan and Pinay are seeking a permanent peace, but only a peace which would secure all of Germany for the West and roll back Soviet power to the borders of Russia. They would like to use Russia's apparent need for a truce to kill off finally the momentum of Communist expansion.

The conflict between the two contradictory purposes will begin developing anew at a conference table in Geneva's Palace of Nations Thursday.

It is, in fact, the same conflict that controlled the course of the Big Four summit talks last July. At that time it was largely obscured by a gushing display of East-West good will, but the foreign ministers negotiations will deal much more with harsh realities.

Dulles left Washington yesterday on a flight to Geneva by way of Rome and Paris. His Rome visit was undertaken to strengthen Italian - American relations. In Paris he will confer with Macmillan and Pinay on development of common Western policies for the talks with Molotov.

A solid front of the United States, Britain and France is vital if their purpose of rolling back Soviet power is to have any chance of success. Molotov's greatest potential gain at this time would be to divide the Western allies on some major issue such as German unification or disarmament. He could then exploit the division to promote Rusian aims in Germany.

From the Western side the prospect of ending Communist rule in East Germany is at the moment very dim. It may be brightened if the Western powers can discover enough pressures to force the Russians to consider letting the area go.

Chancellor Konrad Adenauer of West Germany, with this in mind, has urged President Eisenhower and other Western leaders not to let Russia have the benefits of a cold war truce without extracting the price of German unification.

COMMUNITY CHOIR MEETING CALLED

A meeting of all persons interested in joining this year's Community Choir has been called for 7:30 p.m. Tuesday in the high school choir room.

Bob Clinton, school choral director, will direct the choir. He said he is now getting letters out to those who were members of the choir last year.

The Community Choir will present for the third time here Handel's "Messiah" sometime before Christmas. New choruses will be learned this year, Clinton said, and two may be added. Last year the choir sang six choruses of the "Messiah."

The choir is open to any person who likes to sing, Clinton said. All old members, which Clinton said will be the backbone of the choir, are urged to attend. There were about 80 in the choir last year.

Any choir members who do not have books may purchase them for $1 each Tuesday night, Clinton said.

Army Trainee Gets Some Surprise Aid

FORT LEONARD WOOD, Mo., Oct. 22 (AP)—An Army trainee was having trouble anchoring a foot bridge across the Big Piney River in recent night exercises when he spotted a pipe-smoking soldier standing nearby.

"Let's have some help here," he yelled at the soldier and grabbed his sleeve. "Pull on this rope."

"Pull harder," the trainee growled.

"I am," the pipe smoker said.

Then when the bridge was anchored, Brig. Gen. N. A. Costello, assistant division commander, took another puff on his pipe and walked away.

Southern Viet Nam T Vote

SAIGON, South Viet Nam, Oct. 22 (AP)—South Viet Nam takes its first long step toward becoming a republic tomorrow. It votes in a referendum on whether to unseat ex-Emperor Bao Dai as chief of state and designate Premier Ngo Dinh Diem to take his place.

The balloting, for which some five million South Vietnamese are eligible, marks the final break between the pleasure-loving former ruler and the ascetic little Nationalist whose father once served Bao Dai's royal predecessor as court chamberlain.

The outcome is predictable: Diem will get a vote of acclamation and confidence. Bao Dai, last and least imposing of the emperors of Annam whose history stretches back to the 10th Century, will suffer a humiliating rejection at the hands of his former subjects. The big powers — Britain, France and the United States — are expected to recognize Diem as new chief of state, particularly since they have done so in practice the past five months.

The referendum will deepen the cleavage between the Communist North and the South.

World Speaking

WASHINGTON, Oct. 22 (AP) — Speakers before the National Press Club soon will be heard all over the world.

The U.S. Information Agency has announced completion of arrangements to install a direct line from the club to Voice of America studies.

OIL NEWS

Refiners Turning To Heating Fuels

By MAX B. SKELTON

HOUSTON, Oct. 22 (AP)—Oil refiners are preparing for the winter with heavier emphasis on heating fuel.

Light fuel oil being held in storage exceeds year earlier figures by about 15 million barrels.

Storage of gasoline and kerosene is about the same as a year ago but light fuel oil already has exceeded 1954's pre-season peak.

Light fuel stocks did not reach their peak last year until early November. Even then they were 13 million barrels lower than the current level.

Texas and Oklahoma regulatory authorities boosted November allowables this week by about 100,000 barrels a day. Purchasers of crude oil had nominated or requested an increase of 142,027 for the two states.

The increase restores part of the sharp cutback that resulted from a fire which closed the Whiting, Ind., refinery of Standard Oil Co. (Indiana).

The Texas Railroad Commission also ordered the November hike only after emphasizing that national crude stocks are lower than oilmen have estimated as desirable.

Ernest Thompson, senior member of the commission, said crude stocks Oct. 8 were about 255 million barrels. This, he noted, is from 5 to 15 million barrels below industry estimates if practical working levels.

Messena Murray, Oklahoma Conservation director, recommended a 10 per cent November increase that would mean a daily output of 576,000 barrels, Oklahoma's October allowable is 550,000 barrels daily.

Light fuel oil stocks for the week ending Oct. 14 totaled 148,849,000 barrels, compared to a week earlier 145,598,000 and a year earlier 133,253,000.

Oct. 15 heating fuel storage in 1953 was 130,902,000 barrels, cimpared to 120,937.000 in 1952.

Refiners in the week ending Oct. 14 turned out 734,000 barrels more of light oil than in the same week a year earlier. Crude oil processed by refineries exceeded the same 1954 week by 592,000 barrels daily.

Light fuel oil stocks reached a low point of 61,850,000 barrels in April after the winter season. This was 4,078,000 barrels below the low of april, 1954.

Domestic crude production the week ending Oct. 14 averaged 6,713,700 barrels a day, compared to 6,862,600 late last March. A year ago production averaged 6,195,950.

Howard Well To Complete

Humble Oil & Refining Co. was preparing to run a casing test in the section from 7,688 to 7,714 feet, with tool open one hour and 19 minutes. Mud surfaced in 51 minutes, and oil came to the top in 62 minutes. During a one-hour test into tanks, the wildcat lime discovery in North Howard County.

The rank wildcat ran a drillstem preparing to run casing for completion attempt in No. 1 W. D. Anderson, prospective Canyon reef made 13 barrels of 46.7 - gravity oil through a one-inch top and a e-inch bottom hole choke.

Reversed out was a full string of oil. Recovery from below the circulating sub was 270 feet of oil and gas - cut mud. No formation water was found.

Operator was conditioning hole to run casing for completion attempt on last report. The Canyon reef was topped at 7,708 feet, elevation 2,632 feet.

Location is 660 feet from north and east lines of section 15, block 31, T-2-N, T&P survey, three and a half miles northeast of Luther.

Texas Sets Record On Well Completions

AUSTIN, Oct. 22 (AP)—A new Texas record for oil well completions in a single year was set this week as the 1955 total reached 12,180. The old record 12,031 set last year.

The Railroad Commission's report showed 316 oil well completions. The total compares with 9,761 a year ago.

Operators brought in 18 gas wells, raising the year's total to 909 compared with 974. There were 146 dry holes.

Of the 316 new oil wells, only one was drilled by a wildcat operator.

The average daily crude oil allowable as of today was 3,177,073 barrels, up 15,411.

Headlee Area Adds Ellenburger Producer

Another Ellenburger well has been completed in the Headlee (multipay) area of East Ector County.

The well, British-American Oil Producing Co. No. 1-D Roy Parks, Jr., was finaled for a 24-hour flowing potential of 948.24 barrels of 52.3-gravity oil, through a ¼ - inch choke and perforations from 13,252 to 13,264 and 13,284-322 feet after 500 gallons of acid.

Gas - oil ratio was 948-1.

Location is 660 feet from north and east lines of section 29, block 41, T-2-S, T&P survey.

Upton Prospector Is Drilling After Test

The Texas Co. was drilling below 7,324 feet in lime at No. 1-A Shirk, prospective Permian discovery in Southwest Upton County, after a water drillstem test from 7,275 to 7,324 feet.

Tool was open 2½ hours. Recovery was 5,700 feet of salty, sulphur water, with no shows of oil or gas.

Earlier, a drillstem test from 7,090 to 7,196 feet, recovered 540 feet of oil, and no water.

Location is 667 feet from north and 1,980 feet from east lines of section 23, block 2, MK&T survey.

New Projects In Spraberry Area Planned

Two new Clear Fork oilers, and two more projects to test the same zone, have been reported for the Spraberry Trend Area field.

In Northwest Reagan County, J. H. Elder No. 4-A C. L. Proctor was completed for a daily flow of 408 barrels of 39 - gravity oil through 18-64-inch choke, and perforations from 6,342 to 6,348 feet.

Pay was acidized with 500 gallons. Location is in section 34, block 37, T-5-S, T&P survey, seven miles south of Midkiff.

In Northeast Upton County, Amerada Petroleum Corp. finaled No. 1-19 L. B. Elkin for a 24-hour flow of 325.45 barrels of 37.8 - gravity oil, plus two - tenths of one per cent water, with gas - oil ratio of 452-1.

Production was through ¼-inch choke and perforations from 6,543 to 6,558 feet, after 4,000 gallons of acid. Site is in section 19, block 37, T&P survey.

E. E. Fogelson, Midland, will reenter and plug back for Clear Fork tests in No. 2-39 Tippett, former Spraberry producer in Northeast Upton County. Tests will be made above 6,600 feet. Site is 669 feet from south and 660 feet from west lines of section 38, T-5-S, T&P survey.

Cosden Petroleum Corp. will plug back to the Clear Fork in No. 2 Vivian Hanson, old Spraberry well in the Southwest Glasscock County portion of the field. Site is 1,200 feet from north and west lines of section 46, block 36, T-4-S, T&P survey.

South Ector Well Flows Oil On Test

J. P. Wagner Exploration Account, J. M. Huber Corp. and Paul Moss No. 1 Moss, Grayburg prospect 1¼ miles northeast of Penwell in South Ector County, flowed five barrels of oil in three hours on production test.

The flow was gauged through a ¾-inch choke and was from open hole section from 3,760 to 4,042 feet after 20,000 gallons of fracture solution had been used.

Testing continued.

Location is 330 feet from north and east lines of section 44, block 44, T-2-S, T&P survey.

Oil Operator Dies

HOUSTON, Oct. 22 (AP)—Mrs. Mary Fitzpatrick, 76, one-time independent oil operator, died yesterday of a heart attack. In 1915 she became a business associate of Pattillo Higgins, discoverer of the Spindletop Oil Field. She acquired holdings in several counties in southeast Texas.

Pure Finishes Deep Project

MIDLAND, Oct. 22 (AP)—The Pure Oil Co. completed today its Windham deep project in the Amacker-Timmett Field area of West Upton County, after finding three commercial oil bearing formations in the well.

The well, 40 miles south of Midland, was completed from the Ellenburger, deepest of the other zones, the Devonian and Strawn limes.

The field, which is a multi-pay area, already had Ellenberger and Devonian production, but the Strawn gas distillate production found by pure is a new pay for the area.

The well was completed for a 24-hour flowing potential of 753 barrels of high gravity crude. The daily rate was based on an actual 13-hour flow of 408 barrels of 52 gravity oil through a 27.64 choke.

Dallas Man Nabbed,

A Dallas man wanted here on a misdemeanor charge of swindle by worthless check turned himself in at the Dallas County sheriff's office this weekend.

Howard Gibbons, sheriff's deputy, went to Dallas yesterday to return the man, Cleo Young, according to office deputy Lowell Holt.

Six Counties Get Wildcat Ventures

Wildcat locations have been staked in six West Texas counties.

Ultra Oil Co. and O. B. Stephens of Abilene will drill a 6,800-foot Cambrian wildcat in South Nolan County, five miles northwest of Blackwell and one and one-quarter miles east of the two-well South Green (Ellenburger) field.

Drillsite is 660 feet from south and east lines of section 108, block 1-A, H&TC survey.

In West Ward County, Argo Oil Corp. of San Antonio and others have spotted a 5,500-foot Delaware sand project one and one - half miles west of the West Quito (Delaware) field.

Location is 467 feet from southwest and southeast lines of section 226, block 34, H&TC survey and seven miles northeast of Barstow.

Paul Page of Eldorado No. 1 E. J. Bishop is a new prospector in Runnels County, two miles southwest of the Pace (Fry sand) field. It is to be drilled to 5,300 feet for a test of the Ellenburger. Site is 5,700 feet from northeast and 7,200 feet from northwest lines of league 499, John Early survey.

Rhodes Drilling Co. of Abilene is to drill a 4,200-foot wildcat in East Runnels County, eight miles southeast of Winters; No. 1 Alvin Benson is 330 feet from north and 1,871.6 feet from west lines of section 357, Thomas R. Webb survey.

J. W. King, Jr., of Abilene No. 1 T. F. Conger is to be drilled to 5,800 feet in Southeast Coke County, one and one-half miles west of Tennyson.

It is 3,010 feet south and 1,743 feet west of the most northerly northeast corner of J. W. Johnson survey No. 1.

Smith & Blakey of Lubbock will drill a shallow wildcat in Scurry County as No. 1 W. T. Steel. It will be drilled to 3,000 feet with cable tools.

Location is 330 feet from south and east lines of southwest quarter of section 455, block 97, H&TC survey and one and one-half miles west of Dermott.

Two Failures Are Plugged

Failures in Tom Green and Ector counties have been plugged and abandoned.

Union Oil Co. of California and Ray Smith Drilling Co. No. 2 W. I. Marshcall, three - quarters of a mile northwest outpost to the Devil's Couthouse (Swastika) field in North Tom Green County has been abandoned at 3,934 feet.

Location was 1,650.5 feet from north and 1,115.3 feet from west lines of section 11, W. M. Bullock survey.

In Central Ector County, Vem Oil Co. (formerly Cities Production Corp.) No. 1-Q Cowden has been quit at 13,773 feet after unsuccessful tests of the San Andres to 4,200 feet.

It was an old dry hole at 13,773 feet originally drilled by Cities Service in 1953.

Radio Sales Up

WASHINGTON, Oct. 22 (AP)—The number of radios, excluding automobile sets, sent to dealers during the first seven months of 1955 was nearly 13 per cent greater than in the corresponding part of 1954, the Radio-Electronics-Televisions Mfrs. Assn. reported.

From January through July, 2,991,307 sets moved into the hands of dealers compared with 2,662,346 radios in the first seven months of 1954.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals

BATTENFIELD - JONES

Admissions: Mrs. E. R. Schwartz, 2812 Avenue G; Miss Patsy Jeton, Box 984.

Dismissals: Mrs. G. M. McCollum and baby, 900 Twenty-eighth Street; Mrs. H. H. Moss, 2301 Avenue N; Mrs. W. S. Bates, Arah Route; Joe Paty, Hermleigh.

COGDELL MEMORIAL

Admissions: Mrs. Morris Hattaway, Route 3; Mrs. Houston Upton, 705 Twenty-ninth Street; Mrs. Juan Hernandez, Route 2; Mrs. Eva Garcia, Snyder; George Pittman, 1412 Avenue S; Mrs. E. E. Shuler, 1204 Twenty-first Street; Felesia Flores, Snyder; Roy L. Ford, 501 Twenty-ninth Street.

Dismissals: Mrs. F. M. Haney, 2205 Twenty-first Street; Mrs. Gail Nails, Snyder.

400 Guests Attend Car Showing Here

Some 400 guests visited the Pollard Motor Co. Friday to inspect new 1956 Chrysler and Plymouth automobiles, which went on display for the first time in Snyder on that date.

From 8:30 p.m. to 9 p.m. a string band headed by Wink Lewis entertained with western and hillbilly music. Winners of prizes were Mrs. James George, 3726 Highland Drive, a $25 defense bond; Frank Taylor, 2701 Avenue X, 15 silver dollars; Mrs. R. P. Ware, 508 Thirty - third Street, 10 silver dollars, and William E. Ammons, route two, five silver dollars.

UCLA is booming Hardiman Cureton, of Duarte, Calif., as an All-America guard candidate. He played 239 minutes in 1954.

Atomic Power

TORONTO, Oct. 22 (AP)—A British nuclear expert says it is possible Canada will be producing atomic-generated power on a competitive cost basis with steam-generated power by 1962. W. L. Owen of the United Kingdom Atomic Energy Authority made the statement in a news conference with Dr. Richard L. Hearn, chairman of the Ontario Hydro Commission.

In Fair Condition

Mrs. R. L. von Roeder, 600 Thirty-fourth Street, a medical patient in Sweetwater General Hospital, was reported yesterday to be in fair condition.

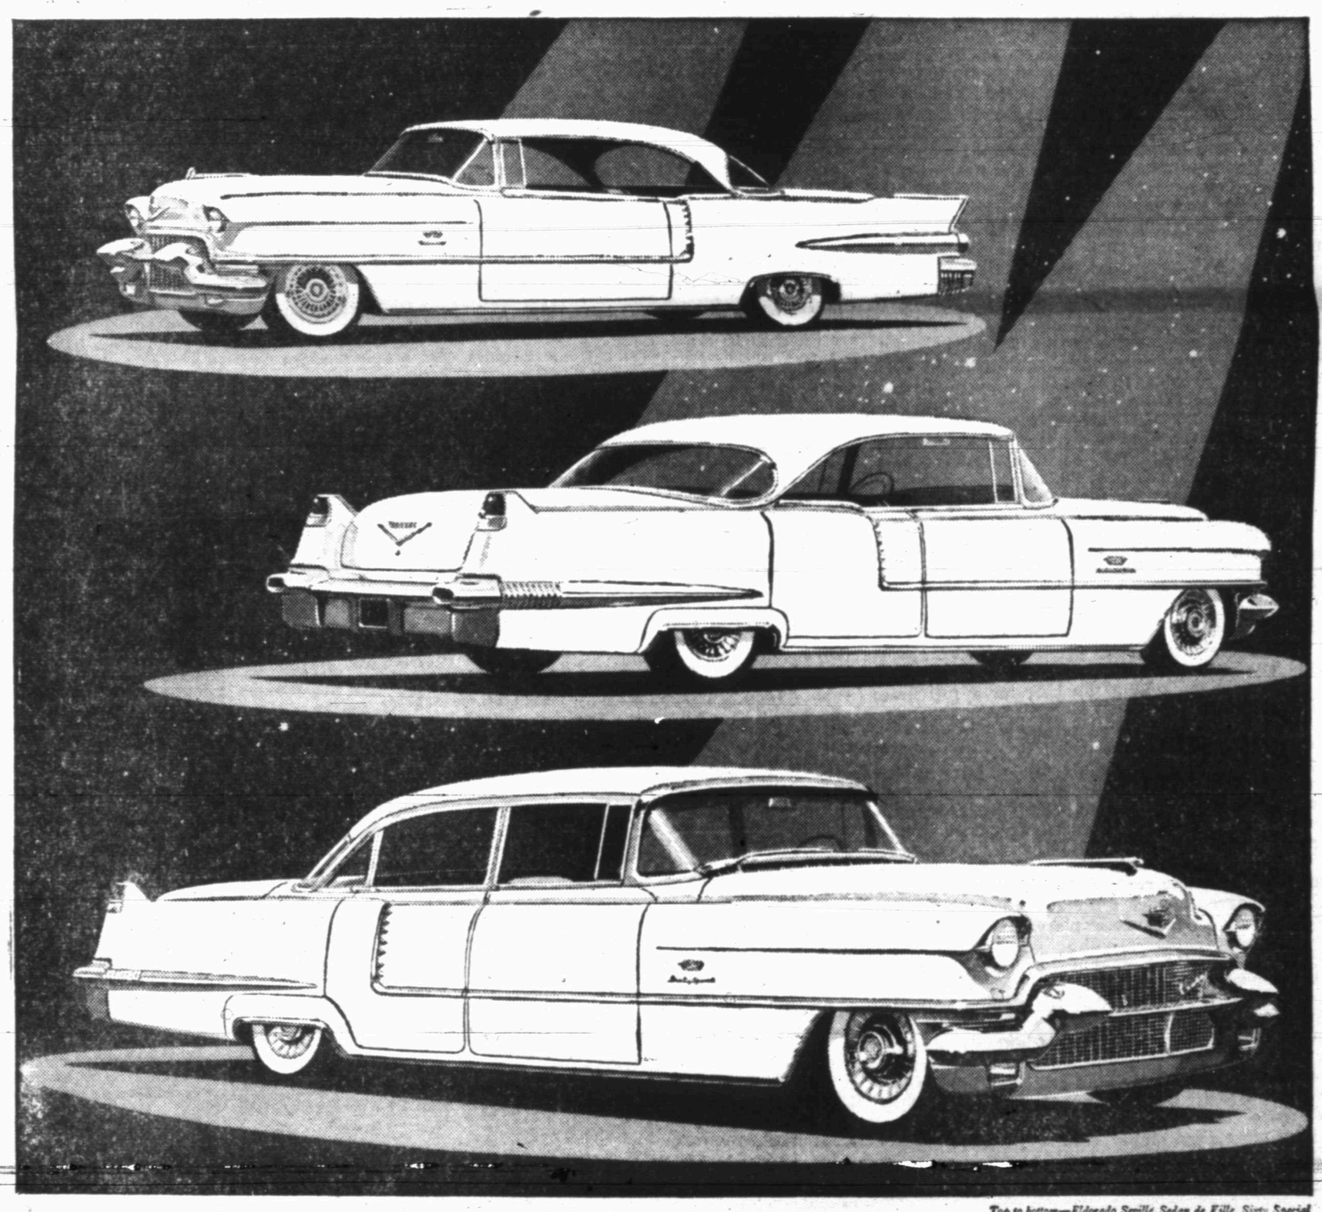
CADILLAC for 1956



Top to bottom—Eldorado Seville, Sedan de Ville, Sixty Special

Presenting the Most Inspiring Motor Cars the World Has Ever Seen!

You are looking at three of the most magnificent and inspiring creations ever to issue from the drawing boards of Cadillac's designers and engineers.

These spectacular new Cadillacs—in company with the other Cadillac models for 1956—introduce a standard of automotive excellence that will find no counterpart on the highways of the world.

Where, for instance, could you find anything to match them for beauty and elegance? Their long, low, sweeping lines . . . their jewel-like grille and rear-fender designs . . . their brilliant new color combinations . . . their sparkling highlights of chrome and gold . . . all combine to create a beauty that is truly unique.

Where could you find anything to equal them in luxury? Inside are fabrics of rare richness and pattern . . . and features of comfort and convenience that will delight even the most experienced Cadillac owner.

And where could you find anything to rival them in performance? There's a completely redesigned Cadillac engine developing 285 and 305 horsepower . . . a new, controlled-coupling Hydra-Matic Drive . . . and advanced Cadillac Power Steering and Power Braking.

This extraordinary new Cadillac beauty . . . and this brilliant new Cadillac luxury . . . and this dynamic new Cadillac performance . . . have been interpreted in four separate series and in nine individual body styles.

We sincerely urge you to stop in for a personal inspection and demonstration at your earliest convenience.

We know you will agree that, in every way, they are *the most inspiring motor cars the world has ever seen!*

Test For United Fund

The Scurry County United Fund is poised for its second campaign, this time to support the operation of nine agencies.

Although one successful campaign has been conducted, the United Fund here is in its infancy, and response to the drive beginning this week can either nourish it along toward maturity or set the stage for it to wither on the vine.

United Funds and Community Chests are not newcomers in the field of fund raising. There are hundreds of them, some fulfilling their objectives to the letter, others plodding along the mediocre path, and still others failing in their best efforts.

It boils down to the fact that a United Fund, like nearly everything else in our community life, is just as good as the people who support it with their time and money want it to be.

The basic purpose of a united campaign for funds, of course, is to conserve time and manpower by providing financial support for various civic and welfare organizations with one simultaneous action. Some organizations are reluctant to join a United Fund, and the failure of some combined campaigns to raise their respective budgets doubtless has been responsible to a degree. On the other hand, there are organizations which are reluctant to see the need for maintenance of a paid staff of their own reduced.

Fact of the matter is, a successful United Fund cuts down the "overhead" or administrative costs of many of the agencies it serves for the simple reason that the agency's professional staff is freed from many details of carrying on a single shot campaign each year.

Nevertheless, there are many worthwhile agencies who have "policies" against joining United Funds, and for that reason it is highly unlikely that the time will come when any city can say that all fund raising activities are included in its United Fund, or Community Chest. The United Fund does not oppose such agencies, although it extends them a standing invitation to join in the mass campaign.

With nine participating agencies this year, a successful United Fund campaign here will mean that one drive will take the place of nine in Scurry County.

You might call that the crux of the appeal. But in Snyder last year, we think the United Fund meant more than that. For a few days, it helped weld the community into a cohesive unit, possibly lighting a spark that could embelazon a challenging potential before our eyes in many fields outside the realm of mere fund raising.

Our community could profit by more of this type of cooperation especially during the 1955 United Fund Campaign.

Sen. George Eases Up

Senator Walter Franklin George (D-Ga.) chairman of the Senate Foreign Relations Committee, now sees almost eye to eye with the State Department on how to handle the Red China situation, and this must be counted as a matter of considerable importance, not only because of the Georgian's position as head of an all-important committee, but because his views are respected on both sides of the aisles.

The Georgian has executed a graceful de marche which brings him closely in line with the views of Secretary Dulles. Last July he had come out in favor of a meeting between Dulles and Red China's Chou En-lai within six months, as the best way of easing dangerous tensions in the Far East. This clashed with Dulles'—and the administration's—view that we should refuse to discuss anything with the Communists until they fulfill at least a few of their promises. It also unwittingly played into the Red's hands, and they have constantly been ding-donging the U.S. for a full dress conference ever since.

Now George has come more nearly into line with the official administration attitude, by calling on Red China publicly to renounce the use of force in the Formosa disputs before Dulles would agree to meet Chou. This is not a 100 percent retreat from his former position, but about as near as a statesman can go in one full swoop.

Challenging Red China to renounce force is a fairly safe diplomatic gesture, for it isn't likely Chou would ever agree to such a proposal. But suppose he did? Could any dependence be placed on such a promise from such a source?

The low-level U.S.-Communist parleys which have been under way at Geneva for some weeks now have been far from convincing that the Communists are ready to talk sensibly about more serious matters at higher levels. Time after time the Chinese representatives at Geneva have interjected into those limited proceedings the demand for a top-level conference. Just as consistently the U.S. has refused, unless China shows more convincing proof that her promises are anything more than empty gestures to gain greater advantages for herself.

I Wouldn't Hit You Adlai

GOP Leaders Likely To Insist That Ike Choose A Candidate If He Doesn't Run

By JOSEPH And STUART ALSOP

WASHINGTON — As soon as President Eisenhower is well enough to talk politics he will be urged by influential Republican party leaders to do two things.

First, he will be urged to take himself out of the 1956 race as soon as possible, if he feels he must do so—and despite the good news from Denver, hardly anybody believes that he will run again. Second, the President will be urged to designate the candidate of his choice when he himself bows out, or shortly thereafter.

As long as there is thought to be the faintest chance of his running the magic Eisenhower name will kill all other candidacies, as surely as the fabled upas tree kills everything in its shade. Until the President unequivocally bows out, the whole candidate - picking machinery will be thrown into confusion, moreover, because every would-be delegate will fervently pledge himself to Eisenhower. For such reasons the Party managers, appalled at the thought of losing Eisenhower as a candidate, have nevertheless decided that, if it were done, 'twere well it were done quickly. They hope the President will withdraw, if withdraw he must, by early January or even December; well before the primaries. They further hope that he will give the nod to his chosen heir, if not as soon as December or January, at least by early spring.

• • •

As Harold E. Stassen has said, "The man President Eisenhower wishes to have nominated will be nominated." Stassen is certainly right. To a far greater extent than generally realized, the Republican party organization is now in the hands of men to whom Eisenhower's slightest word is law. To take one example, in 1952 most of the 48 state chairmen were Taft men. Now 37 of the 48 have been replaced with fervent Eisenhowerites, and the survivors are Eisenhower men too.

Add the President's enormous prestige, and it is almost impossible to imagine a situation in which a Republican convention will vote against his known wishes. He is not expected to announce his choice formally, of course. He need only let it be known whom he favors, as President Theodore Roosevelt let it be known that he favored William Howard Taft. Then all serious opposition in the Party to the President's candidate will almost certainly fade away, or at least go underground.

The political advantages in having the President choose, and choose early, are obvious. Present campaign plans, which it is too late to alter, were of course made on the assumption that the candidate would be Dwight D. Eisenhower. After a brief, late, heavily televised campaign, it was smugly believed, the President would be a shoo-in. But no one believes any other Republican candidate will be a shoo-in.

• • •

On the contrary, the Republican party managers privately admit that they are badly worried, above all by the evidence that many Middle Western farmers are turning against the Party. Any Republican candidate whose name is not Dwight D. Eisenhower is going to need plenty of building up.

Suppose that the President gives the nod to the man of his choice by March or April — say to Vice-President Richard Nixon, whom most of the organization men favor. Then Nixon will be almost certain of the nomination, despite his numerous collection of enemies. The Nixon build-up can then begin right away, carrying on right through to Election Day.

But suppose, instead, that the President makes no choice at all, publicly or privately. The build-up for the eventual candidate is then likely to take the form of the kind of bitter public intra-Party brawl, lasting all next spring and summer, which does a candidate the maximum of harm.

Such are the reasons why the President will be urged to choose his man, and choose him early. How the President will respond to the pressure to choose makes an interesting personal equation. The act of choosing will make him enemies almost automatically, and the President does not like to make enemies unnecessarily. The President also has a sense of what is historically fitting, and to designate the candidate would mean to risk repudiation of his personal choice by the voters — an anticlimactic way of ending a fabulously successful public career.

Those who know the President best are thus inclined to guess that he will remain above the battle, designating no candidate of his choice. In that case, the Party battle the President will remain above may well turn into a battle royal.

1 YEAR AGO

A special election was scheduled for early in December to fill the vacancy in the 24th state senatorial district created by the death of Harley Sadler, well - known for years in West Texas as a showman and legislator.

• • •

5 YEARS AGO

Pro-manager Red Gaines at the Snyder County Club opened the new nine-hole golf course for year-round golfing.

South Korean forces swept withing 50 miles of the Manchurian border as North Koreans fled north, offering no organized resistance for more than 24 hours.

WASHINGTON LETTER

Congresswoman Tells Of Tour Over Africa

By JANE EADS

WASHINGTON — Congresswoman Frances P. Bolton (R-Ohio) is sending back newsletters to her constituents to keep them informed of her Congressional survey tour through 20,000 miles of Africa south of the Sahara.

Mrs. Bolton, a member of the House Foreign Affairs Committee and ranking minority member of the subcommittee on the Near East and Africa, has also sent a map outlining the course of her travels so folks can see just where she's heading.

• • •

Rep. and Mrs. Robert Hale (R-Me) are in Europe but not on a junket. They expect to visit old haunts in Italy. Senator and Mrs. Flanders (R-Vt) are touring the continent, also on their own, though the senator looked in on sessgons attended by six of his senatorial colleagues and nine members of the House at the biennial meeting of the Inter-parliamentary Union at Helsinki, Finland.

• • •

Mrs. Clifford Davis, wife of the congressman from Tennessee, stayed home when her husband, along with five other senior members of the House Public Works Committee, went to Rome for the International Highway conference and later to England, France and Spain to look into the public works programs of those countries.

"I've never been abroad, but when I do go I want to do some sightseeing and have fun," she told me.

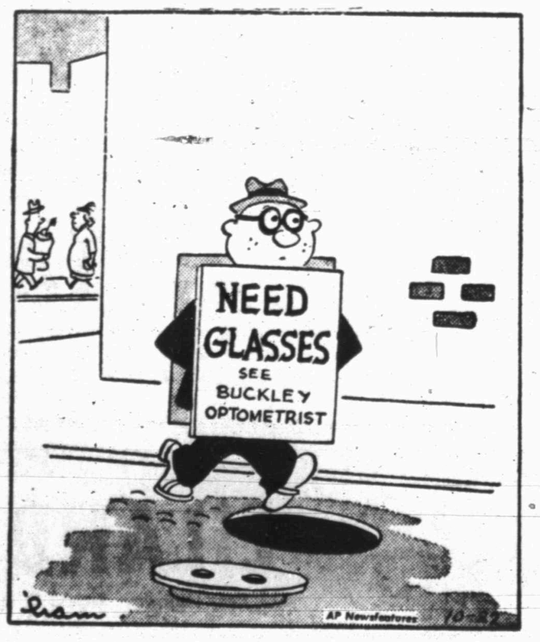
• • •

One congressional junket is composed of two women staff members of the Senate Appropriations Committee. Mrs. Grace F. Johnson, who has worked on Capitol Hill for more than 15 years is directing the study. Assisting her is Mrs. Mary Frances Holloway, a former government lawyer, who recently joined the staff.

They are making a staff study of foreign aid operations in 18 countries.

"This is strictly a working junket." Mrs. Johnson told reporters before taking off from the capital. "There'll be no headlines. Our inquiries will be made as quietly as possible. There'll be no newspaper interviews and very little entertaining."

BUCKLEY



Stalin's Fear Of Of Foreigners In Soviet May Have Delayed Control Of Atom Bomb

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Marshal Stalin's fear, or suspicion, of foreigners poking around inside Russia not only lasted to the end of his life but may have held back control of the atom bomb for years.

The Defense Department report this week — on American efforts to get Russia into the war against Japan — puts Stalin on record as early as Jan. 13, 1943, in opposition to letting the United States get a look into Sovietland.

At that time this country had the problem of sending planes to Russia, to fight off the Germans, by the round-about way of North Africa. It would have been easier to ship them from Alaska directly into Siberia.

In a mesage to Stalin in the latter part of 1942, President Roosevelt mentioned that to Stalin. He also told him Japan might attack Russia. In such an event, he said, American planes would help fight the enemy.

But the amount to help Russia got, he said, would depend on the ability of Russian air bases to handle American planes. He suggested a few Americans be permitted to look around in Siberia to see what Russia needed in the way of bases.

Russia was having a tough time with the Germans in those days and needed help from the United States. Nevertheless, Stalin said in January 1943 in a message to Roosevelt:

"It would seem obvious that Russian military objects can be inspected only by Russian inspectors, just as American military objects can be inspected only by American inspectors."

After the war the United States proposed a plan to control the atom bomb: it called for teams of foreign inspectors to be stationed in the United States and Russia to be sure neither side cheated or prepared a sneak attack.

But to the end of Stalin's life in 1953 Russia frigidly turned its back on that idea. Perhaps if Stalin had died during or right after the war Russia might have been more receptive.

At any rate his Kremlin successors this spring, two years after his death, accepted the principle of foreign inspection teams in Russia — as a means of controlling atom bomb production — but only if they were stationed at a few key points.

It's not certain they would actually agree to such a plan if arrangements with them reached the point of signing on the dotted line. And by this time the United States has become fairly well disillusioned with the theory that inspection teams can be truly effective after its experience in Korea.

At Geneva, instead of depending on ground-based inspections, President Eisenhower proposed to the Russians that both sides be permitted to fly their own planes over each other's territory and do their inspecting from the air.

Russian Premier Bulganin clung to the ground-inspector plan. Eisenhower told him the United States would go along with that, if Bulganin wanted it. But he urged Bulganin to accept also his aerial inspection suggestion.

Since Stalin's successors have at least now said they'd accept ground inspection, it's possible they might have reached that point much sooner if Stalin had died sooner. If so, the world might have been closer now to atom control.

Think Twice Before Trying For Career As A Columnist

By HAL BOYLE

NEW YORK (AP)—A human skull rolled out on the table, and the duchess cried, "Take your hands off me!"

Lest any mystery arise from the foregoing sentence, let me hasten to explain. I wrote it only to please two of my oldest critics.

A dozen years ago I took up that odd kind of mental carpentering called newspaper columning.

Over all those years a news friend has told me perhaps a thousand times, "the only way to interest readers is to startle them at the start. You should begin every column with the sentence, "a human skull rolled out on the table" — and then go on and write about whatever else you have in mind."

For some reason many readers are interested in the behind-the-scenes trials and tribulations of writing a daily newspaper column. Today I'd like to answer some of the questions most often asked me during my 12 years of buried life.

Q. Do you own a yacht?

A. "No!"

Q. Is it hard getting a new idea every day?

A. No harder than it would be to give blood every day.

Q. My son, who is in the 6th grade and says the cutest things, wants to be a columnist. What should I do?

A. Hold his head under cold water: repeat whenever necessary.

Q. What really is the best training for a columnist?

A. Ditch digging, flagpole sitting and strip teasing.

Q. How does a columnist really get most of his ideas?

A. Crying himself to sleep.

Q. Columnists are always crusading to change the world. Which of your crusades are you proudest of?

A. My lifelong attempt to gain more recognition each year for the second robin of spring.

Q. Does a columnist need a good memory?

A. No. He needs a bad memory. Otherwise he couldn't write the same idea 10 times over and still keep a clear conscience.

Q. Do columnists like each other?

A. Sure, the same way women like each other.

Q. Why are columnists always setting up straw dummies and knocking them over?

A. They have found that if they hit real people, the real people hit back — and that hurts.

Q. Do most columnists write from an inner need? If so, what is it?

A. Hunger.

Q. What is the greatest problem that could face a columnist?

A. Having to write a column on a typewriter with a broken "I" key.

Q. What is the one thing a columnist needs most to become successful?

A. A successful employer with a sense of humor.

25 YEARS AGO

(Taken from the files of the Scurry County Times, Thursday, Oct. 3, 1930)

The drill was fitting the dirt in the new Dibble - Seifert No. 1 Blackburn well. Completion of the derrick and all rigging was consumated last week. Official location of the new well is the southeast corner of the northwest one-quarter section of Blk. 155.

C. A. Seifert of Danbury, Conn., who was here last week in connection with this well, and the Murphy No. 1, is very optimistic over hitting the next great West Texas Oil Pool right in Scurry County.

• • •

"Billie," who is advance man for West Texas' best known and most beloved show man, Harley Sadler, was in Snyder Tuesday and Wednesday distributing advertising regarding the engagement of Harley Sadler and his company which begins in Snyder Monday of next week, closing his three days engagement on Wednesday night, Oct. 29.

• • •

Ripley has not discovered all of the wonders of nature, as was evidenced here Tuesday morning when G. A. Maddox of Como, Texas, called at the Times - Signal office with the largest sweet potato the writer has ever gazed upon. The potato weighed 15 pounds, when dug, and resembled a pumkin more than it did a sweet potato. It was grown near Sulphur Springs, Texas. Scurry County produces some of the finest potatoes and garden truck of any county in Texas and the Times-Signal would like to see the Como man's record beaten.

• • •

Monday morning saw the new Chevrolet school bus get into action for the Ira consolidated school district, which is said to be one of the largest school buses in West Texas. The bus has a capacity of sixty pupils. The bus measures 22 feet in length and has six wheels. Pupils from the Sharon, County Line and Ira districts are handled with the mammoth bus.

• • •

McCamey 12, Snyder 0—That was the score in big boxcar letters of the wreck and carnage at McCamey, Friday, against a bunch of bruisers and ineligible group of high school players that the Tigers faced. Along with it, Austin Erwin received a dislocated shoulder and M. M. Clark a slightly sprained back. The Times-Signal does not know who booked the game, but whoever had it in charge pulled what we would term a "very bum stunt." Packing a football team by automobile around 400 miles in one day and expecting them to put up real football would be something akin to "riding a snow-ball into hell" and expecting to get back again.

• • •

Official confirmation that Snyder will have free mail delivery was received by Postmaster B. F. Womack last week from the U. S. Post Office Department at Washington. According to Mr. Womack, one man will be used full time and another on partial time to facilitate prompt deliveries. As to the new postmaster for Snyder, nothing definite has been received, although Mr. Womack's term of office expired several months ago.

• • •

Snyder is being honored today in the program of the Central Texas Retail Druggists Association when Lee T. Stinson, former president of the West Texas Pharmaceutical Association will give an address on "The District Association."

Sales Records Indicate Good News For Businesses

By SAM DAWSON

NEW YORK (AP)—Good news is flooding in today from the business front. Record sales and record profits are reported in many industries. Optimistic predictions that the upward trend of business will continue come from the heads of leading corporations.

Here is just one day's quota:

Record sales are reported by Radio Corp. of America, Johns-Manville, Eastman Kodak, Union Carbide, Reynolds Metals and Stauffer Chemical.

Crucible Steel reports its net profit after taxes about five times higher than last year. Cleveland Cliffs Iron says its net income in the first nine months of this year was 102 per cent higher than in the like period of 1954.

The Pennsylvania Railroad reports its net income almost three times higher so far this year than in the first nine months of 1954. The Baltimore & Ohio road's net income is eight million dollars greater.

Drug manufacturers join the chorus of cheer for stockholders. Smith, Kline & French Laboratories reports net profit almost double a year ago. Parke, Davis & Co. reports nine months net profit up 35 per cent over last year on sales volume 12 per cent higher.

From the farm belt comes the report of Caterpillar Tractor—a nice gain in profits for the nine months.

Profit gains are also reported on this one day by Acme Steel, American Broadcasting - Paramount Theaters, Continental Steel, General Bronze, Hoffman Electronics, Ideal Cement, James Lees, North American Cement, Rotary Electric Steel, and Pitney-Bowes.

RADIO-TV REPORT

By CHARLES MERCER

NEW YORK (AP)—One day back in Grover Cleveland's second administration when a man saw Vice President Adlai E. Stevenson walking down a Washington street he remarked to a friend, "There goes the vice president of the United States with nothing on his mind except the health of the President."

Today, with that vice president's grandson a national political figure himself, the nation is much more concerned with the health of presidents and the role of the vice presidency than ever in our history. In fact, the low esteem in which vice presidents have been held, despite the fact that 28 per cent of them have become president, is one of the most ironic facts in American political life.

This is the raw material from which Edward R. Murrow and his associate Fred W. Friendly have forged a fascinating television program for the first See It Now show coming on CBS-TV next Wednesday, Oct. 26. Work on "the Vice Presidency—the Great American Lottery" began long before the present illness of President Eisenhower.

Murrow has made filmed interviews with three living ex-vice presidents — Henry A. Wallace, Harry S. Truman and Sen. Alben W. Barkley. The program will include newsreels of a fourth living ex-vice president, John N. Garner; it will recreate past campaigns and study some curious facts that have long eluded many historians — let alone the voters.

Adviser to this "See It Now" program is Prof. Irving G. Williams of St. John's University, probably the nation's leading scholastic authority on the office of the vice presidency. Study of his "The American Vice-Presidency: New Loom" shows why Murrow and Friendly have put together a truly absoring program. Did you know that—

The Constitutional Convention of 1787 was heartily opposed to creation of the office of Vice President . . . Alexander Hamilton was the man who finally got the office established . . . He was killed in a duel by Vice President Aaron Burr . . . For a long time the runner-up in the electoral vote automatically became V.P. . . . Vice President George Clinton's eyesight was so bad he couldn't read and seldom bothered to preside over the Senate . . .

No V. P. ever attended a cabinet meeting until modern times— except John Adams in Washington's administration . . . Seven Presidents have died in office; so have seven V. P.'s . . .

V. P. Thomas R. Marshall refused to take over executive responsibilities when President Wilson suffered a stroke. . . V. P. Calvin Coolidge never had seen the Senate when he arrived to preside over it . . . . P. Charles Dawes refused to attend Coolidge's cabinet meetings . . .

LITERARY GUIDEPOST

OFF THE BOOK BEAT — Our English-speaking authors wrote the following, in books published within a few weeks:

John Gunther, "Inside Africa:" "They wanted a young man, not old, whom they thought would be malleable."

Guthrie McClintic, "Me and Kit:" "Miss George who I was later to hear coldly reprimand an actor . . ."

Gertrude Stein, "Painted Lace and Other Pieces:" "Mrs. Watson Edith whom as you may or may not know has been wounded is an invalid."

Norman Mailer, "The Deer Park:" "The Sun of Desert D'Or became like the stranger who the drunk imagines to be following him."

• • •

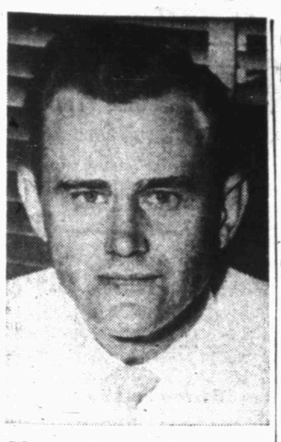
In Mantua, Italy, music prizes have just been awarded. The prospectus for this important international event was a handsome, expensive illustrated pamphlet with an English text written by non-English - speaking authors. Some phrases from it follow:

The Teatro Sociale "was built after the design of Luigi Canonica and executed by Gian Battista Marconi. It was called Sociale (social) as a group of citizens sustained the expense for its edification.

As to the decisions of the judges, "the final judgment shall be unobjectable."

As to the plight of lyric art, the pamphlet tells of a meeting called to investigate "the principal problems that insidiate the vitality of lyric art in Italy and in the world . . .The subject at study will be: 'What is to be done for the survival of lyric art.' "

W. G. Rogers.



PCA CHIEF — Aubrey Headstream, formerly of Sweetwater and formerly assistant secretary-treasurer for the Sweetwater Production Credit Association, has assumed duties here as Snyder office manager for the organization. He succeeds Joel Hodges, who resigned to become vice-president of the Hereford State Bank.

Some Sorghum Crops Barely Break Even

Dryland farmers of this area who are raising grain as a money crop are just "kidding" themselves, according to Henry Burchett, office manager of the Agriculture Stabilization and Conservation committee.

Burchett had figures to show that farmers in this area on land which is not irrigated are making practically nothing on combine milo after expenses, and he recommended different usage of land to get more efficiency from the allotted cotton acreage for added income.

There are, however, several "ifs" connected, and Burchett's statements do not cover every farm in the county.

Here's Burchett's idea: The average yield of combine milo in Scurry County is somewhere in the neighborhood of 500 pounds per acre in years such as this. Farms can, however, in normal years make 800 to 1,000 pounds per acre.

Using the top figure, 1,000 pounds, Burchett said at current CCC loan rates a farmer can get $15.40 for his 1,000 pounds, including storage. Out of that $15.40, he must pay about $3 per acre for combining, $1 per acre at 10 cents per 100 for hauling, about 5 cents per acre for planting seed, and about $3 per acre for tractor work, figuring its costs about 5 cents per acre for one time over and that a tractor goes over the area four to five times. Also, if the farmer is tenant, and Burchett said 60 to 65 per cent are here, there is an additional cost of about one-third of the gross, or about $5.13, for rent. Under all those conditions, it would cost the farmer about $12.38 to produce $15.40 worth of grain. If he paid for hoeing in addition to that, possibly about $1.50 per acre, he has about $1.50 per acre left.

Burchett contends that if a farmer were to use that same land by planting his cotton in a two-and-skip-four method, which counts as one-third cotton in figuring acreage, he could expect production of about one-third bale per acre of cotton instead of the one-fourth bale average he is getting now. With that additional cotton, he would realize about $12 per acre for the land on which he had been planting grain sorghum, instead of the less than $2 per acre. There is an estimated 90,000 acres of combine maize which was planted in Scurry County this year. If farmers could have made that much more per acre on all those acres, they would right now be missing $900,000.

That's not quite as rosy as it sounds, however. It won't work on all soils here, and some soils in the county must have the grain sorghum for stubble mulching programs. Also, if the farmer has a livestock program, it would be cheaper for him to raise grain sorghum for feed than to buy it. About 60,000 acres in the county were planted for market grain, however, Burchett said. Most farmers here know, or at least have a good idea, whether their land has the possibilities for this type program.

Burchett said that grain sorghum will take more of the fertility from the soil than will cotton. The land, however, needs, organic matter added, and grain sorghum is a contributor.

Guy Moore, chief of the Soil Conservation Service here, points out some of the disadvantages in spreading the cotton out over the field and not raising grain sorghum. The main disadvantage is the possibility of running short of needed high-residue crops to keep down blowing. Some soils here need it worse than others.

If a farmer were to follow such a program of planting cotton two-and-skip-four, he must gamble on having enough moisture in the late summer and early fall for planting high residue producing crops, such as Austrian winter peas, or vetch, to prevent blowing, develop residue, and provide a crop for stubble mulch tillage to build up organic matter in the soil.

Burchett pointed out that if a farmer planted cotton two-and-skip-four, he could plant the two middle rows or all four blanks in vetch late in the summer as soon as he gets rain, and he would not have to wait until he finished harvesting the cotton.

Moore also said that if a farmer is raising grain sorghum, he would do well by interplanting new era peas, mixing the seed about half-and-half with grain sorghum, as a soil builder. Good results have been obtained on dryland in the Big Spring area under this type planting, and it increased sorghum production.

There is more wind erosion on cotton land than on sorghum land ordinarily, and not all land can be turned into a program of giving up grain sorghum and spreading the cotton. Such a program would work better on tight land, possibly well on mixed land, but coarse-textured soil requires more high-residue crops.

AGRICULTURE

4-H Elects Heads, Plans Awards Day

Bobby Lemons, Fluvanna 4-H Club member, was elected president of the county-wide organization of boys 4-H Clubs here yesterday in a meeting held in Snyder.

At the meeting, the county-wide organization announced choices of members who will receive awards on an achievement day program at the Towle Memorial Park exhibit barn at 2:30 p.m. Nov. 12. The boys and girls held a joint meeting here yesterday. Those who will preside at the achievement day program will be Lemons and Jacqueline Martin, president of the girls county-wide organization. Those of the girls organization to receive awards had not yet been announced.

Officers of the boys organziation, other than Lemons, are Jeff Martin of Fluvanna, vice-president, and Gerald Wishert of Ira, secretary and treasurer.

During the achievement day program, a gold star pin award will be given through courtesy of Texas A & M College Extension Service to an outstanding 4-H boy and girl. The boy, already chosen, will be Jeff Martin. He has carried on livestock projects for five years. Oscar Fowler, county agricultural agent, and Ruby Butts, county home demonstration agent, will assist the 4-H Clubbers in the achievement day program.

Boys chosen for achievement awards are: for tractor maintenance, awards by Stanolind Oil & Gas Co. to Roy J. Ball, Leslie Burrow, and Rex Pylant, all of Fluvanna; for meat animals, awards by Thomas Wilson of the Wilson Meat Packing Co. of Chicago to Jeff Martin of Fluvanna and Robert Crowder of Ira; for leadership, award by Edward Foss Wilson of Wilson Meat Packing Co. to Bobby Lemons of Fluvanna; for field crops, awards to Lupe Hernadez of Fluvanna, Gerald Wishert of Ira, Marlin Overman and Freddie Overman, both of Snyder, by the nitrogen division of Allied Chemical and Dye Corp.; and achievement awards by Ford Motor Co. to Dwayne Williams and John Greene, both of Hermleigh.

Farmers Learn How To Speak To Bracero

LUBBOCK, Oct. 22 (AP)—South Plains cotton farmers are learning to speak the language of the bracero.

Two nights each week, Earle Hamilton, Texas Tech Spanish professor, and about 50 Petersburg farmers and their families settle down to master conversational Spanish at a cotton gin 45 miles northeast of here.

The classroom tools are simple—a first year Spanish textbook a two-language dictionary, and a blackboard.

During cotton picking about 170 Mexicans are billetted at the gin in the Petersburg area.

The Petersburg farmers hope to speed and smooth the picking with good basic knowledge of Spanish.

Services Are Held For County Infant

Graveside services were held at 11 a.m. Saturday for Ector Hernandez, infant son of Mr. and Mrs. Juan Hernandez, Route 2, with Father Edward Chrisman officiating.

The baby died at 6:16 p.m. Friday in Cogdell Memorial Hospital. Burial was in Snyder Cemetery under the direction of Bell Funeral Home.

He is survived by his parents and two brothers, Juan, Jr. and Arthur.

Farmers Protesting ASC Cotton Plans

BIG SPRING—West Texas cotton farmers and those in related businesses, numbering about 150 from 21 counties, Friday afternoon voted unanimously to urge the state Agriculture Stabilization and Conservation committee not to apply a proposed new formula for state reserve acreage distribution until West Texans can state their position.

This was done at a meeting here called by the West Texas Chamber of Commerce. Fred Husbands, WTCC manager, explained that under the proposed formula no consideration would be given the trend of the cotton growing industry in allotting reserve acreage, the new formula, Husbands said, would apparently mean a transfer of 260,000 acres of West Texas and South Texas cotton allotments to East and East Central Texas. He called this new formula one "loaded with gadgets" and said it would result in some East and East Central Texas counties getting more acreage than they actactually planted in uncontrolled years.

"A lot of animosity resulted from distortion and misrepresentation of the word, 'trend'," Husbands said, adding "Actually 200 of the 240 cotton producing counties shared in distribution of acreage under the trend formula." He added, "A lot of people in East and East Central Texas got the notion that most of the increase in cotton acreage allotment went to West Texas under the trend formula."

"We've got to be heard as loudly and clearly as possible. Write—and get your friends and neighbors to write—to the members of the state ASC committee, your Congressman, and anyone else who might have influence in the matter. Just tell what your experience will be and what will happen to you if the proposed formula is adopted."

Husbands pointed out that cotton has been trending westward for the past 30 years, and if West Texas farmers do not do something about this situation, he said, "Our goose is cooked."

In working toward proposals for a future farm program, these proposals to be made before the Senate agriculture committee in Fort Worth Saturday, a West Texas cotton drought committee is designing its recommendations around the idea of relating production to acres on the idea that cotton surpluses are in pounds and bales and not in acres. The West Texans will also propose some method of providing in the cotton allotment setup for disaster areas, such as this one injured during the past few years by drought. This however, is not related directly to action being taken by those in meetings such as the one held at Big Spring Friday.

Nolan von Roeder and Billy Joe Clifton are Borden and Scurry County representatives on the drought committee. Von Roeder, Max Carriker of Roby, and Charlie Thompson of Colorado City are those designated to appear before the Senate panel.

North Texas Goes Heavy On Covers

By SAM Whitlow
Texas Editor
Farmer-Stockman Magazine
Written for The Associated Press

DENTON Oct. 22 (AP)—North Texas is going heavily in the direction of winter cover crops, using small grains, vetch and clovers.

Ted Martin, extension district agent for 19 counties in North Texas, said oats, barley and vetch are getting especially wide use. Martin's district is bounded by Henrietta, Cleburne, Corsicana and Bonham.

"We have also had some very excellent results using button clover in this area," Martin added. ded. This clover has gained wide popularity during recent years in parts of North Texas.

The main objective of the cover crops is to afford a good source of winter grazing. The crops also afford good soil protection.

Oats are used widely, but experience has shown that barley will provide earlier grazing. The oats last longer for grazing.

884 New Polio Cases Reported

WASHINGTON (AP) — The states reported 884 new polio cases last week, the smallest number in six years for the comparable week.

The total was down 15 per cent from the 1,037 cases in the preceding week, the Public Health Service said.

A spokesman said it would not be surprising if the weekly totals from now until the end of the year regularly fall below the lowest in the last five years.

Teeth Worry Hitler

CAMP FRIEDLAND, Germany, Oct. 22 (AP)—Adolf Hitler worried about having his teeth fixed before he committed suicide in the Berlin chancellory bunker, his last dentist says. Helmut Kunz says he discussed the dental treatment with Eva Braun at a tea party the day before the couple took their lives. Kunz has just been freed from a Soviet prison camp.

SUE DILLARD
. . . in queen contest

Queen Contest Entry Named

Sue Dillard of Mitchell County will represent 16 counties in this area at the state finals of the Texas Farm Bureau queen contest Nov. 7 in Fort Worth.

She will be competing against 12 other farm and ranch girls in a contest which will be held in connection with the 22nd annual convention of the Texas Farm Bureau.

Miss Dillard, 19, is a freshman at Baylor University, Waco. She is the daughter of Mr. and Mrs. M. A. Dillard of Colorado City.

The winner of the state queen contest will receive $500 in expenses for herself and her matron escort to attend the American Farm Bureau Federation convention Dec. 12-15 in Chicago.

Farm Group Protests Cotton Acreage Cut

PLAINVIEW (AP)—Some 200 South Plains cotton farmers met in an effort to combat a reported 1 per cent cut in their cotton acreage allotments.

Although the State Agricultural Stabilization Committee has not yet announced the actual allotments or the formula for making them, the West Texas Chamber of Commerce reported the plan was to reduce West Texas acreage and add to East and Central Texas allotments.

The meeting passed a resolution condemning the reported allotment cutback and approved sending a group to College Station to protest.

Cattlemen Seek Aid

MEXICO CITY, Oct. 22 (AP)—Mexican cattlemen are seeking large federal loans to rehabilitate the livestock industry, damaged by storms and floods. Ramon Cosio Gonzalez, president of the livestock confederation, said one of the most pressing needs is rebuilding of barbed wire fences and corrals.

Political Sunday

OTTAWA, Oct. 22 (AP)—Sunday marks a political anniversary in Canada. It will be a full 20 years then that the Liberal Party has held the federal reins. It started when W. L. MacKenzie King and his Liberal ministers assumed office Oct. 23, 1935. One man has been a member of the Cabinet without interruption since that day. He is Trade Minister C. D. Howe.

Ag Panel Asking For Ideas

WASHINGTON, Oct. 22 (AP)—If anyone has a new idea for a federal farm program, the Senate Agriculture Committee would like to hear from him.

The committee would be particularly grateful for a plan that channels a lot more money into farmers' pockets without boosting food prices—or taxes.

Tomorrow the committee will set out on an around-the-country search for ideas on the current economically and politically perplexing problem of sagging farm prices and incomes.

Starting with a public hearing at St. Paul Monday, the committee will wind up its search at Chicago nearly a month later—Nov. 21—after swinging through the Western corn belt, the upper Great Plains, the West Coast, the Southwest, the South, the Middle Atlantic area and New England.

One big reason why the committee wants the farmers' views is because it holds the key to whatever legislative action is taken by Congress when it gets back to work in January.

The House has already passed new farm legislation which would end the Eisenhower administration's new flexible price support system and restore the high, rigid price floors of the Truman era. The Senate committee doesn't know yet whether it wants this kind of legislation or something else.

Congressional committees have regions in search of producer made other tours through farming views. But this tour will be watched carefully because of the political implications. In the first place, it is a Democratic-controlled committee whose majority members will be most anxious to find ways and means of winning farm voters over to their party in next year's elections.

On the other hand, Republican members want to find out how to get farmers to vote to keep them in power.

The committee hearings the second week include: Albuquerque, Nov. 4; and Fort Worth, Nov. 5.

A windup hearing will be held at Chicago Nov. 21 to go into grain storage problems.

The committee will pass up the politically important Eastern corn belt states of Illinois, Indiana, Ohio and Michigan. Committee officials said they believed that sentiment expressed at the hearing at Des Moines would largely reflect the farm thinking in the Eastern corn belt because the type of agriculture in Iowa is about the same as that in the Eastern corn belt states.

Farm Bureau Gets Ready For Meeting

The Scurry County Farm Bureau has begun activities preceding its sending delegates to the state Farm Bureau convention, which will be held Nov. 6 in Fort Worth.

Officers and directors of the bureau were to meet last night at the Manhattan Dining Room to make plans. Included in plans was to be the setting of a date for a meeting of the bureau's 502 members. A resolutions committee made up of president Herman Stahl, secretary-treasurer Mal Andress, O. M. Fowler, and Sterling Williams is to draw up recommended resolutions prior to the county meeting.

The county organization is entitled to send five delegates to the state convention for voting purposes. The delegates will take with them county resolutions to be presented to the state resolutions committee. The state convention headquarters will be at the Texas Hotel in Fort Worth.

It is expected that the county convention will be held about Nov. 1.

Officers and directors of the local organization, other than Stahl and Andress, are Matt Bavousett, vice-president, J. J. Henry, Billy Joe Clifton, Hy Coldewey, C. A. Wade, T. B. Knight, Whitt Farmer, Thomas Echols, C. A. Ramsey, Dee Pylant, and E. H. Williamson, all directors. Sterling Taylor is service officer.

This Is Snyder...

THE BARROW FURNITURE CO. STORY

Snyder's largest and most completely stocked furniture store was built here five years ago when Snyder itself was in the throes of booming activity, and the store has continued its rapid pace of service to its widening range of customers through the drought and boom slow down since then.

The firm is Barrow Furniture Co. located at the interesection of Twenty-fifth Street and Avenue V in west Snyder.

Although the boom time activity of Snyder has now settled to a steady, more orderly pace, Barrow Furniture Co. continues a business pace that compares favorably with the boom times of its early days here, Jack Alford, manager, said.

One of the main reasons for the continued high sales volume of the store is the wide range of items, and the almost unlimited choice of selections within the different types of furniture items.

An example of the wide selection of different types of styles of furniture combinations available in the store for the choice of the customer is the fact that the store always has as many as 75 bedroom suites to choose from, and almost always has as many as a 100 living room combinations.

"Such a wide selection would be difficult to equal in any other single furniture store anywhere in West Texas," Alford said.

"Most of the time we have a selection of more than 500 different floor and table lamps, and never have fewer than 350 lamps," he added.

But the wide selection is only one factor in the continued prosperity of the firm here.

Service to its customers is probably a bigger and in the long run a more important factor, which Alford recognizes for its true value.

A majority of the members of the staff of the store began their employment with Barrows either before the Snyder store was opened, or on its opening day here.

Mr. and Mrs. Jack Alford, the managers, moved from Abilene to Snyder to open the store here, after Alford had worked in a Barrow Furniture Co. store for almost a quarter of a century. Alford began his employment with the A. B. Barrow Furniture Co. in 1926.

Only two of the other employes of the firm have been added to the staff of the firm as it expanded since its opening day here.

Leo Heath, Jeff DeShazo, and Jackie Alford all began working for the store when it opened.

Johnny Robbins was a 1943 addition to the staff, and J. D. Henderson is the newest employe of the firm.

"We are proud of our employes and the fine job they do, and they take a pride in doing a good job for us and for our customers," Alford said.

"Our customers have come to expect the very best in service because they know that we and our employes are here to stay," he added.

The A. B. Barrow Furniture Co. was started almost a half century ago in 1907 in Rotan by A. B. Barrow.

During the 48 years Barrow has owned and operated stores in Rotan, Eastland, Cisco, Graham, Stamford, Hamlin, Ranger, Midland, Big Spring, Merkel, Abilene, and Snyder.

Barrow retired from business several years ago and sold all his stores, but later decided to re-enter the furniture business, and now has the Abilene and Snyder stores.

Just as the Snyder store has a wide selection of items, the items selected for display and sale here are the nation's leading name brands in the different lines.

A complete carpet department which features selections from all the leading carpet manufacturers in the country is one of the most popular departments of the store. Lee's, Bigelow, Alexander-Smith, and many other leading brands are on display there, and any pattern, type, style, or quality of carpet is available on order if not in stock.

The largest stock of nationally advertiser brands of furniture ever shown in Snyder includes such furniture names as Brandt's Ranch Oak, Sprague-Carlton, Kroehler, Pullman, Stratford, and Futorian.

The Alfords, as managers for the store, are charged with all the selection of furniture for the Snyder store, just as they have to sell it or keep it.

"We choose furniture to fit the varied and individual needs of the type homes we have in this community, and to fit the changing tastes of home makers in this locality," Alford said.

The type furniture chosen for Snyder homes might be completely different from the average type chosen by a store in even neighboring towns, because of the nature of the Snyder climate, types of homes, and individual tastes, Alford said.

THE FORREST BUILDERS SUPPLY CO. STORY

A growing local business which has become one of Snyder's leading business citizens in the past eight years, just as its mother firm has become one of West Texas leading business organizations over a much longer period of time is the story of Forrest Builder's Supply Co.

Forrest Builder's Supply Co. here is located on Twenty-fifth Street at Avenue V in west Snyder.

Turner Beard, manger of the firm for the past two years, said that when the present business location was purchased from Dick Randal in 1947, the manager then had a problem of filling the space in the building, but that now the problem is reversed and over crowding it with merchandise is easy to do.

"I guess any business runs into space problems when shows continual growth for several years," Beard said.

There are many ways in which Forrest Builder's Supply Co. has grown through the years here, and just as many reasons for that growth.

A primary way and reason for its growth is in service to the community which it serves. The firm is headquarters for all the many builder's trade tools and necessities not usually available in a town the size of Snyder.

"We attempt to stock all the necessities of the building trade and all the specialized materials which imaginative builders need in their profession," Beard said.

All the necessary hand tools and power tools used in the building profession are stocked by Forrest, including the popular DeWalt power saws, Keen-Kutter and Stanley tools, and many other builders needs.

But Forrest Builder's Supply Co. is essentially a headquarters for the materials used in the building industry for all types of constructions, with emphasis on the home building needs.

Several building contractors and painting contractors here make Forrest Builder's Supply Co. their headquarters, working for the firm on contracted projects, or using the firm as a supply point for their needs on private projects.

Beard, who heads the local firm, has been in the same profession for the past 16 years, with time out during World War II for military duty. He came to Snyder from Morton, where he had been with Forrest Lumber Co. for eight years.

However, the firm is not a one-man operation, and Beard puts much of the responsibility for operation of the firm on the able shoulders of the assistant manager, Newt Morton, who has been associated with the same firm for about 10 years, having worked for the Randal Lumber Yard before it was purchased by the Forrest Lumber Co. Morton has remained with the firm, and now is one of its key members.

Another key employe of the firm is Grady Sellers, who works in the sales and general business department of the firm. He has been with Forrest Builder's Supply Co. for the past two and one-half years.

Another key employe of the firm is Mrs. Lou Marsh, bookkeeper, who recently became a member of the staff after her husband received his discharge from the Air Force, and the couple moved to Snyder.

Of the many services Forrest Builder's Supply has rendered to Snyder is the development of housing projects. The firm has recently completed construction of 14 new homes, and construction on 12 more will soon be underway.

In the past eight years, the firm has also aided in the construction of hundreds of other homes, remodeling or expansions to homes.

One of the many services offered by the firm is complete home building from the "ground up."

"When a family decides on the location and type of new home they want we can help them in doing all the rest," Beard said.

The Forrest Lumber Co. maintains a complete drafting and engineering department in Lubbock, headquarters of the company, where detail plans for any type house or building can be drawn from the rough ideas of the persons who desire the new construction.

"We will even handle all the details of the financing," Beard said. "Of course, we are restricted to the government's regulations on Veteran's Administration or Federal Housing Administration loans, but otherwise the entire building project can be left to us," he said.

The same policy is true with any remodeling, rebuilding, or enlarging to any residence.

A policy of the firm which has made it dependable to its many customers here is also its motto—"wide selection, fair prices, good materials, and courteous service."

Amazing Ags Do It Again As Bears Fall 19-7

Pardee Leads Ags To 2nd SWC Win

By HAROLD V. RATLIFF

COLLEGE STATION, Oct. 22 (AP)—Texas A&M's thin red line pulverized Baylor's hopes 19-7 today to push the spindly men of Aggieland into first-place in the frenzied Southwest Conference football race.

The team that couldn't beat anybody last year felled its second giant in the drive back to glory with massive Jack Pardee leading a crushing ground attack that had Baylor back on its heels all afternoon.

Pardee scored two touchdowns in the most vicious Aggie onslaught of the season—a game that saw penalties pile up on both sides for unnecessary roughness.

The Aggie line manhandled Baylor's big and supposedly vicious forward wall as if it owned it and a dozen A&M backs raced through holes as wide as the coach's bench for 265 yards.

The Baylors were held to a puny 34 yards on the ground, had their passes intercepted and their fumbles recovered, and were given one of the soundest beatings the Bears ever have encountered in this storid football series.

All the Aggie touchdowns were on ground power with Pardee pounding over from one and two yards out and Donnie Grant, Aggie quarterback, getting the other touchdown on a one-yard smash.

Baylor scored on a 69-yard march in the first period with full-back Reuben Saage cracking the last foot for the touchdown—but Baylor never could threaten again.

	Baylor	A&M
First downs	8	17
Rushing yardage	34	265
Passing yardage	134	22
Passes attempted	17	9
Passes completed	9	1
Passes intercepted by	0	4
Punts	3	5
Punting average	46.7	40.5
Fumbles lost	4	0
Yards penalized	36	116

A crowd of 35,000 saw the Aggies cash in on every break, take every opportunity that presented itself. What Coach Paul Bryant of A&M call's the smallest line in college football swarmed the Baylor ball-carriers and hurried the passers often throwing them for long losses.

Baylor finally gave up trying to puncture the Aggie line and took to the air almost exclusively. The Bear tossers got 134 yards but had four passes intercepted. Even Doyle Traylor, the injured quarterback who never had been able to play a down for Baylor in a season and a half, was rushed into the breach in the final moments. He completed two throws for 30 yards but ended up getting a pass intercepted and A&M almost pushed to another touchdown as a result. Traylor hobbled around on an ankle that had just healed from a break.

The Aggies, who haven't won a conference championship in 15 years and last year won only one game — an intersectional contest with Georgia—took over the league lead by virtue of two victories against no losses while Southern Methodist, the only other team unbeaten in conference play, has been in only one game.

It also made A&M a heavy favorite to win the title to put the Cotton Bowl in a stew. The Aggies couldn't play in that game even if they won the title because they are on probation for recruiting violations.

Most of the rough stuff was on A&M's part. The anxious Aggies were stuck 116 yards in penalties, much of it for piling on and using the elbows. But there never were any blows struck between the two teams—they were just playing rough, hard football in an all out effort for victory. Baylor had two roughing penalties.

A Fumble set up the first Aggie touchdown in less than five minutes of the game. Bobby Keith, one of the hard-running Aggie backs, fell on a ball that Baylor's starting quarterback Bobby Jones dropped on the Baylor 17. It took five plays to get the score with Grant making it with a dive into the massed center region. Loyd Taylor converted.

Angry Baylor struck back with a bruising 69-yard drive that tied the score with passes from Jones doing most of the shoving. A 11-yard throw from Jones to end Henry Gremminger put the ball on the Aggie six and, after fullback Weldon Holley made a yard and a half, the Aggies were penalized to the one for offside. Jones managed two feet and Saage got the other. Tackle Bobby Oliver converted.

A&M then surged 63 yards in 15 plays early in the second period with Pardee bouncing over. Taylor missed the conversion.

A&M sewed it up in the third period with a 64-yard push. The Aggies took the second half kickoff and paraded to the score in 10 plays. Taylor again missed the point.

Baylor	7	0	0	0	7
Texas A&M	7	6	6	0	19

Baylor scoring — Touchdowns: Saage (1 foot, plunge). Conversions: Oliver.

Texas A&M scoring — Touchdowns: Grant (1, plunge), Pardee 2 (1, plunge; 2, plunge). Conversion: Taylor.

Monterey Trips PaloDuro43-13

Monterey's Plainsmen of Lubbock roared to a 43-13 victory over Palo Duro of Amarillo at Lubbock's Jones Stadium last night to wind up another week of District 1-AAA grid activity.

The win evened Monterey's district record at two wins and two losses.

Friday night, Snyder, Big Spring and Sweetwater recorded victories in district action.

Snyder blanked Plainview, 20-0; Big Spring outlasted Lamesa, 28-27; and Sweetwater, with Horald Hobbs scoring 29 points, walloped Vernon, 41-7.

Levelland, the ninth member of the district, had an open date.

Mrs. Elliott Winner Of 'Blind' Tourney

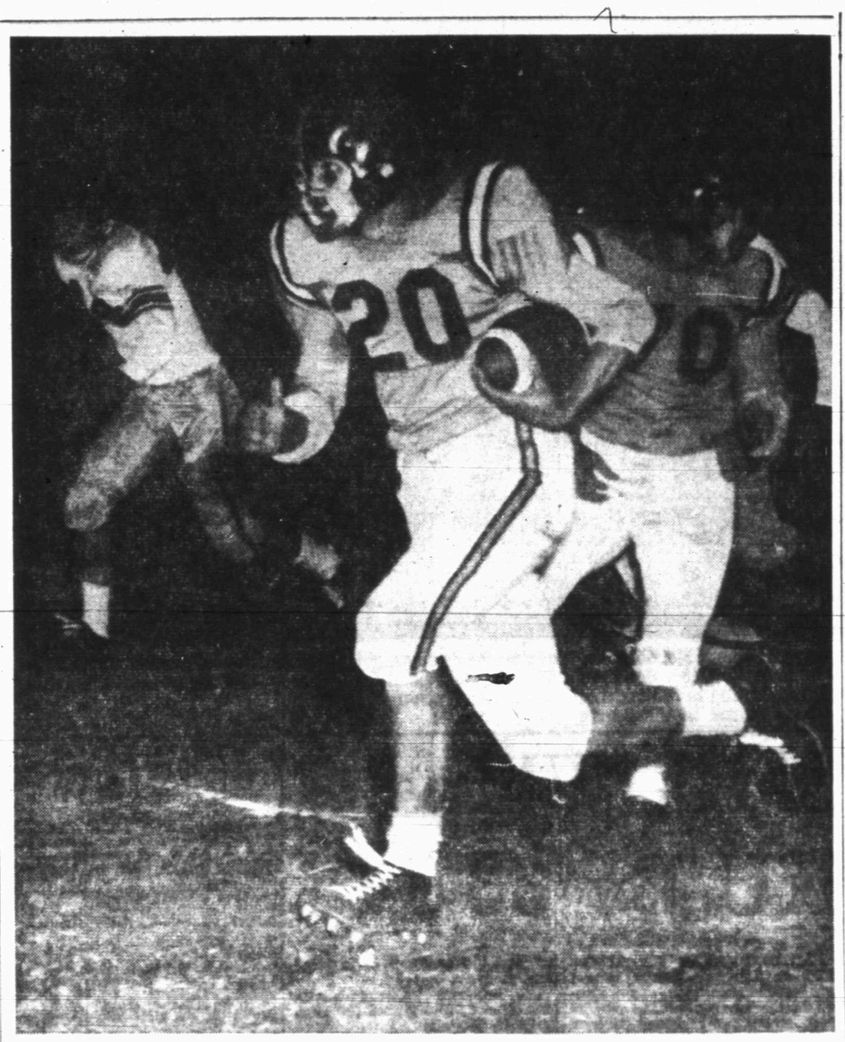
Mrs. Harry Elliott was the winner of a "four hole blind tournament" Friday at the weekly session of the Snyder Women's Golf Association.

Other winners were Mrs. James Rosser who had the low number of putts and Mrs. Joe Pitts who had the high number of putts.

Ten members took part in Friday's weekly tournament.

Willie Mays tied a record by hitting nine home runs in Ebbets Field during the 1955 season. In 1954 Milwaukee's Joe Adcock hit nine in Brooklyn.

Longhorns Come To Life--Clip Owls 32-14



GANGWAY—Jack Spikes, No. 20, Tiger halfback, is shown just seconds after breaking off tackle enroute to a 71-yard touchdown scamper in the early minutes of the Tiger-Plainview game at Plainview Friday night. Note Wiley Denson, No. 70, Tiger tackle, checking the path behind Spikes in case a Bulldog is hot in pursuit of the speeding halfback. Snyder won the game, 20-0. (Lee Watson photograph)

Fondren Sparks UT's 1st SWC Win

AUSTIN, Oct. 22 (AP)—Spurred by the flying feet of sophomore Walter Fondren, the Texas Longhorns upset the fumbling Rice Owls today, 32-14, before 46,000 football fans.

Consigned to the Southwest cellar in many minds after losing four of five games, the Longhorns roared to touchdowns in every quarter to keep alive their title hopes. They now have a 1-1 league record.

The crushing defeat, second in a row in conference play for Rice, virtualy killed championship aspirations of the Owls—one of the preseason favorites.

Fondren did not account for a touchdown until the final period, but it was his consistent bursts through the porous Rice line that kept the Longhorns rolling most of the time. His scoring run of 50 yards was the niftiest of the game.

Texas moved 49 yards for its first tally in 10 plays. Joe Youngblood scored taking a seven-yard pass from quarterback Charley Brewer and crashing over.

A crashing tackle by Bob Tucker caused a Rice fumble of a punt and gave Texas the ball on the Rice 24. Youngblood made a great catch of Brewer's pass for 23 on the 1 as the quarter ended. Brewer sneaked over on his second try.

Texas sallied 84 yards in 11 plays, Womack plunging over from the 1 to run the score to 19-0 in the second quarter.

Rice took the kickoff and sailed 65 yards on two passes from Pinky Nisbet to end James Peters, the first for 48 and the second one good for a touchdown.

Rice just missed a touchdown opportunity when time in the first half ran out as Peters took a 13 yard pass from Nisbet and was tackled on the Texas 2.

Another Rice fumble, one of four on which the Owls lost the ball, set up Texas' fourth touchdown. Nisbet was smeared hard by end Menan Schriewer for a 17-yard loss, dropped the ball, and guard Herb Gray recovered at the Rice 5.

Womack dived over from the 1 on fourth down. Youngblood made good for his second conversion of the game.

He tried for a game-icing field goal from the 7 on the last play of the third quarter, but it was wide.

Quarterback Frank Ryan scored the final Rice touchdown late in the fourth quarter on a 14-yard run, and Jerry Hall kicked his second extra point.

Fondren, whose coaches think he has all around versatility equal to that of SMU's famous Doak Walker of a few years ago, carried 11 times for 145 yards, and punted three times for an average of better than 48 yards a kick. He also recovered a Rice fumble to help halt an Owl drive that had carried to the Texas 23 early in the third period.

Overshadowed by Fondren's brilliant performance was the return of Charley Brewer as Texas No. 1 quarterback. The regular last year, he had been sitting on the bench most of the time as No. 3 man this season until he put together two touchdown series against Arkansas last week.

His adept ball handling and strategy today probably guaranteed him the starting assignment.

The one-sided score proved how deceiving statistics can be. Rice amassed an amazing 468 yards to Texas' 372, but couldn't get those yards when they needed them most.

Texas	7	12	7	6	—32
Rice	0	7	0	7	—14

Texas scoring — Touchdowns: Youngblood (7, pass-run from Brewer); Brewer (1, plunge); Womack 2 (1, plunge; 1, plunge); Fondren (50, run). Conversions: Youngblood 2.

Rice scoring — Touchdowns: Peters (17, pass from Nisbet); Ryan (13, run). Conversions: Hall 2.

	Rice	Texas

Fumbles lost	4	0
Yards penalized	0	46

HSU Rallies For 19-18 Win

CANYON, Oct. 22 (AP)—Hardin-Simmons University scored on a 53-yard pass play with 2 minutes and 29 seconds left in the game to defeat West Texas State 19-18 tonight and spoil the Buffaloes' homecoming.

The winning play was from quarterback Ken Ford to halfback Joel Honeycutt. Honeycutt took Ford's pas on the 20 and outran two West Texas defenders to the goal line.

It was also Honeycutt who kicked the only extra point of the game, that coming after the first H-SU touchdown. West Texas took 12-0 lead in the first quarter on touchdowns by Joe Walden and reserve quarterback Jack York.

Houston Defense Halts Tech; Cougars Win 7-0

By MAX B. SKELTON

HOUSTON, Oct. 22 (AP)—A rapidly improving University of Houston turned a first quarter break into a touchdown and then used a tremendous fourth period defense to preserve a 7-0 football victory over Texas Tech tonight before a crowd of 28,000.

Seeking revenge for a 61-14 licking the West Texans administered last year, Houston in the final period stopped a 97-yard Tech drive on the one-yard line.

In the closing seconds the Cougars stopped a shower of Red Raider passes that had carried 55 yards to Houston's 26.

Fumbles meanwhile had stopped Houston's second-half efforts with Tech launching its two final efforts after making recovery of Cougar bobbles on its 2 and 19 yard lines.

Tech, playing without three starters, had committed errors the first three times it had the ball, and Houston turned these first mistakes into the lone touchdown.

Halfback Don Schmidt, on fourth down from Tech's 45, fumbled the snap from center. He attempted to run but threw a pass that cost the Raiders 15 yards for having an ineligible receiver.

Houston took over with a first down on the Tech 31 and had a touchdown eight plays later.

Quarterback Jimmy Dickey passed to halfback Kenny Stegall from the four for the score. Stegall kicked the extra point.

Texas Tech	0	0	0	0	—0
Houston	7	0	0	0	—7

Houston scoring — Touchdown: Stegall 4, pass from Dickey). Conversion: Stegall.

Gail Rallies For 57-32 Win Over F-Grove

GAIL, Oct. 22—The Gail Coyotes won a wild offensive battle from Flower Grove here Friday night in a District 8-B Six Man football game, 57-32.

It was the fifth win in six starts for the Coyotes this season.

E. L. Franklin led the Gail scoring parade with seven touchdown gallops. Ruben Vaughn and Glenn Kingston scored the other two Gail touchdowns.

Vaughn and Kingston also picked up conversion points, Vaughn on a pass and Kingston who kicked after one of the Gail TD's for two points.

Gail was forced to come from behind to win the game. The visiting Flower Grove team jumped into a 14-0 lead in the first quarter but Gail rallied to go ahead at halftime, 24-20.

The Coyotes extended their lead to 37-26 at the three-quarter mark and then racked up 20 points in the final period to win going away.

Gail combined its rushing and passing game for 780 yards, gaining 559 on the ground and 221 in the air. The Coyotes completed 10 of 20 passes.

Flower Grove, in losing, had a total offensive figure of 547 yards, 349 on the ground and 198 in the air. Flower Grove completed 13 of 17 passes.

Score by quarters:

GAIL	0	24	13	20	—57
FLOWER GROVE	14	6	6	6	—32

The Chicago Cubs, aided by their early season drive when they were in second place, drew 875,800 home fans this year, an increase of 127,617 over their 1954 figure.

Snyder B Outscores Lamesa B, 46 To 27

LAMESA, Oct. 22—The Snyder High School B team spotted the Lamesa B team a 14-0 lead here Saturday night and then battled back to defeat the future Tornadoes in a wild scoring battle, 46-27.

Lamesa led 14-0 after one quarter of play as result of two touchdown passes.

Snyder tied the score at 14-14 at halftime on touchdowns by Duane Merritt and Jimmy Allen. Merritt scored after receiving a pass from Jerry Vice on a double-reverse, the play covering 60 yards and the first Snyder touchdown.

Allen went over on a five-yard run for the second Snyder TD. Allen converted after each of the first two Snyder touchdowns to make it 14-14 at the half.

Lamesa took the lead again in the third quarter on another touchdown pass and made the conversion good for a 21-14 lead. Snyder came right back to score on a 70-yard run from scrimmage by Allen. The conversion try failed and Lamesa still led, 21-20.

Fritz Smith, however, put Snyder ahead with a one-yard buck midway through the third, 26-21, and then Allen made it 33-21 on a 10-yard scoring run. Vice converted after Allen's tally.

Lamesa, for the fourth time in the game, tallied on a pass to pull within one touchdown of Snyder, 27-33. Larry Dodson blocked the conversion try for the future Tigers.

Bobby Staton faked a pass and raced 40 yards for Snyder's sixth touchdown of the night in the fourth quarter. Jerry Martin then went off tackle for 12 yards and the final Snyder touchdown late in the fourth period.

James Vinson of Snyder intercepted two Lamesa passes that stopped potential scoring drives. Vinson also picked up a lot of yardage carrying the ball although he didn't get into the scoring act.

Defensive standouts for Snyder were Dwayne Prince, Larry Page, Larry Dodson, Larry Williams and Harley Merritt.

It was the fourth win in five starts for Coach Pack Dillon's Snyder B team.

Score by quarters:

SNYDER B	0	14	19	13	—46
LAMESA B	14	0	13	0	—27

Tigers Rip Plainview Despite Fumbles, 20-0

Win Keeps Bengals In 1-AAA Lead

By BUCK FRANCIS

PLAINVIEW, Oct. 22 — Devastating broken field running by the Tigers offset a bad case of fumbleitis here Friday night as the Bengals rolled to an easy 20-0 victory over the Plainview Bulldogs in a District 1-AAA contest.

It was the third consecutive district win for the Tigers and set the stage for next Friday's crucial tilt with unbeaten but once tied Sweetwater at Tiger Stadium.

Sweetwater stayed hot on the heels of the Tigers by romping past Vernon, 41-7, at Sweetwater Friday. The Mustangs now have three wins and a tie in 1-AAA play as compared to the Tigers' 3-0 mark.

Although the Tigers had difficulty holding on to the pighide here Friday, they were able to rack up three touchdowns on long scoring jaunts of 71, 66 and 59 yards.

Jack Spikes started the Tiger scoring parade with a 71 - yard dash after only 4:05 minutes of play.

Joe Baxter then broke loose for a 66-yard TD scamper in the second quarter and reached paydirt again in the fourth period on a 59-yard sprint.

Numerous other Tiger scoring opportunities were thwarted by fumbles. The Bengals fumbled seven times with the alert Bulldogs pouncing on six of them.

The Tigers, nevertheless, rolled up 408 yards on the ground and added 22 yards in the air on one pass completion in two attempts.

Plainview made only one serious scoring gesture. The Bulldogs drove to the Tiger 15 in the third quarter, thanks to a 26-yard run by Donald Stone (longest run of the game for Plainview) that advanced the ball to the Tiger 22.

The Tiger line, however, which has played so brilliantly since district play began, allowed the Bulldogs only seven yards on the ensuing four plays and took over on downs on their own 15.

It was the first time since 1-AAA play began that the Tiger 26-yard line has been penetrated.

The Tiger line held the Bulldogs to 56 net yards on the ground. Plainview gained 109 yards but lost 53 to pull its net down to 56.

Snyder had 408 yards on the ground but lost 20 for a net of 388.

Baxter was the game's leading ground gainer with 209 yards gained on six carries. Spikes picked up 130 yards on eight trips. Bud Morgan, who started in place of the injured Alan Snead, gained 39 net yards on seven carries.

Stone was the leading Plainview carrier with 59 net yards on 15 carries. J. L. Caylor was the second leading Bulldog carrier with 27 yards on 10 times carried. Bulldog fullback Penny Culp wound up with 12 net yards on 12 carries.

Plainview staged a mild threat to score in the early seconds when the Tigers, after receiving the opening kickoff, fumbled their first offensive try and Clyde Welker recovered for the Bulldogs on the Tiger 39.

Stone and Culp picked up a yard apiece and then Bond hit Culp with a 10-yard screen pass for a first down on the Tiger 27. But the Bulldogs could get no further and turned the ball over to the Tigers on the 29 four plays later.

It was at this point that Spikes broke off tackle and into the clear for a 71-yard scoring jaunt to open the night's scoring. Joe Reaves converted for a 7-0 Tiger margin.

There was no further scoring in the first quarter but the Tigers were driving goalward late in the period when a fumble stopped the march on the Plainview 43.

The Tigers missed another scoring threat early in the second period via a fumble when Baxter shook loose for a 51 yard run to the Plainview 15. The Tigers were penalized back to the 30 for clipping on the play but Spikes got nine and Morgan six to get back to the 15 and a first down.

Then Powell Berry fumbled and Plainview recovered on the Bulldog 20.

Tigers Score Again

The next time Snyder gained possession they racked up touchdown No. 2. The Tigers took over on their own 39 after a Plainview punt. Berry tossed to Morgan for a 20-yard gain but the play was rubbed out for an illegal formation penalty against the Benagls, pushing the Tigers back to the 34.

Baxter then broke straight through the middle of the Plainview line and picked up a wave of blockers downfield and streaked 66 yards to paydirt. Reaves' kick was good again and it was Snyder 14, Plainview 0, eight minutes deep in the second period.

Snyder threatened again before the half when Reaves pounced on a Plainview fumble on the Bulldog 33. Spikes got 18 yards on an off tackle run to the 15 for a first down. But the Bulldog line held and took over on the 18 when Taylor lost his footing while fading to pass on fourth down.

The third quarter was scoreless with neither team making a serious scoring threat. The Tigers had the ball four times in the third and fumbled it away twice.

On the first play of the fourth quarter, Baxter tallied the final Tiger TD on a 59-yard gallop.

Reserves See Action

The Tiger reserves played virtually all of the final two quarters. The subs got a drive of their own started midway through the fourth but it too was stopped by a fumble. Starting from their own 39, Pollard got seven, Pritchard 13 and two yards and Ronnie Smith passed to Pritchard for 22 yards for a first down on Plainview's 22. But Israel Hinojos fumbed and Plainview recovered to stop the drive.

On the final play of the game, Morgan dashed 28 yards to Plainview's 25.

All but two Tigers suited out for the game saw action. Regular halfback Alan Snead and reserve tackle John Partain were the only Bengals who didn't get into the game. Both Snead and Partain were injured although both suited out.

Score by quarters:

SNYDER	7	7	0	6	—20
PLAINVIEW	0	0	0	0	— 0

Scoring: Snyder: Touchdowns—Jack Spikes, 71 yard run in first quarter; Joe Baxter 66 yard run in second quarter and 59 yard run in fourth quarter. PAT—Joe Reaves (2) placement.

ALMOST BUT NOT QUITE—Shorty Grimmett, No. 65, Tiger guard, deflects a pass thrown by Plainview's Victor Bond but it wasn't enough to keep the ball from falling in the arms of Ken Culp at left. The above action occured in the fourth quarter of Friday night's Tiger-Plainview game at Plainview. The play was good for 23 yards. The Tigers won the game, 20-0. (Lee Watson photograph)

ND Whips Purdue By 22-7

By DALE BURGESS

LAFAYETTE, Ind., Oct. 22 (AP)—Alert Notre Dame, raging after a defeat by Michigan State, turned Purdue's passing attack into a suicide weapon and avenged its only 1954 defeat today, 22-7, before a Ross-Ade Stadium record crowd of 55,500.

Out-weighted 25 pounds per man up front, Notre Dame came up with its first unbalanced line in modern times and pushed the hulking Boilermakers all over the ground.

Notre Dame turned a Purdue fumble and an intercepted pass into third-quarter touchdowns that broke a 7-7 tie. Irish quarterback Paul Hornung also started the first drive by recovering a fumble. He pulled down another Purdue pass on his 20 to stop a promising Purdue drive in the same period.

Fullback Don Schaefer and halfbacks Dean Studer and Aubrey Lewis scored Notre Dame's touchdowns on short runs. Schaefer kicked two extra points.

Quarterback Len Dawson passed 13 yards to end Leonard Zyzda for Purdue's single touchdown in the second quarter after Schaefer plunged over for the Irish in the first.

Dawson also converted the extra point.

Notre Dame's ferocious rushing of Dawson set up a safety late in the period. Dawson was smeared repeatedly and the Boilermakers found themselves with a fourth down 50 yards to go on their 11. The pass from center sailed over Dawson's head into the end zone.

Notre Dame	7	0	13	2	—22
Purdue	7	0	0	0	— 7

Notre Dame scoring — Touchdowns: Schaefer (2, plunge); Studer (2, plunge); Lewis (9, end run). Safety (bad center pass into end zone). Conversions: Schaefer 2.

Purdue scoring — Touchdown: Zyzda 13, (pass from Dawson) Conversion: Dawson.

Ga. Tech Raps Florida State

ATLANTA, Oct. 22 (AP)—Georgia Tech unwrapped its passing game for the first time this season today and mixed it with a strong ground attack to trounce ambitious but outmanned Florida State 34-0 in a football mismatch.

Tech Coach Bobby Dodd used his first two units to build a 20-0 lead, then emptied the bench to complete the rout before a shirt-sleeved crowd of about 30,000.

It was Tech's fifth victory against one defeat and its third triumph of the season over a Florida team.

Toppy Vann, Tech's No. 2 quarterback, scored twice on short thrusts after long drives. First string quarterback Wade Mitchell returned a punt 39 yards for the first score. The fourth touchdown came on a pass from Stan Cochran, third string halfback, to end Ted Smith. Tech's last touchdown came in the final minute on a 40-yard pass from No. 3 quarterback Burton Grant to end Paul Vickers.

The losers never threatened, but four times checked Tech inside the Florida State 15. The Seminoles halted the first Tech drive a few inches from their goal line. A fumble, an incomplete pass and an offside penalty helped frustrate three other scoring bids by the engineers.

Vols Crush Dayton, 53-7

KNOXVILLE, Tenn., Oct. 22 (AP)—An alert Tennessee football team turned Dayton errors into touchdowns today to route the Ohioans 53-7.

The Vols scored all but two of their TDs in the first half, recovering three Dayton fumbles and intercepting a pass.

Dayton tallied its touchdown in the second quarter when quarterback Ken Bockenstette hit end Ron Finotti in the end zone with a 6-yard pass from Bockenstette to Finotti, who speared the ball on the Tennessee 11.

Tailback John Majors engineered Tennessee to three touchdowns before retiring from the game. Majors picked up 64 yards rushing and 22 on two passes to boost his offensive total for the season to 573 yards.

The Vols scored twice in the first period, fullback Tommy Bronson plunging 4 yards for the first. Majors dived over from the 1 for the second.

The game was turned into a rout in the second quarter when Tennessee scored four times. The touchdowns were scored on a 1-yard plunge by Bronson, 17 and 6-yard runs by third-string tailback Bobby Gordon and Gordon's 31-yard pass to end Ed Young.

North Carolina has a standout ground gainer bak this season. He is halfback Ed Sutton of Cullowhee, N.C., who averaged 11.2 yards per carry in 1954.

SMU Whips KU By 33-14

LAWRENCE, Kan., Oct. 22 (AP)—Halfback Don McIlhenny scored four touchdowns today as Southern Methodist, capitalizing on virtually every major break, scored a 33-14 football victory over Kansas today.

The prolific McIlhenny scored three times on plunges on a yard each and skirted left end for 12 yards for the other tally. Fullback Hal O'Brien dived a yard for the fifth Mustang score.

Kansas' sophomore battery of quarterback Wally Strauch and Jim Letcavits accounted for the Kansas touchdowns.

One scoring play covered 14 yards, the other 11.

SMU rammed over two of its tallies after fourth down punting bobbles by Kansas and got another after recovering a fumble deep in Jayhawk territory.

Kansas had to gain all its yardage in the air as the dogged SMU defenses held the Jayhawkers to a minus 30-yards rushing.

Kansas picked up 182 yards passing on eight completions in 17 attempts.

The powerful Mustangs rushed for 236 yards and picked up another 89 in the air.

	SMU	Kansas
First downs	19	7
Rushing yardage	236	—30
Passing yardage	89	182
Passes attempted	16	16
Passes completed	6	8
Passes intercepted	2	1
Punts	3	4
Punting average	35	46
Fumbles lost	2	1
Yards penalized	55	0

SMU	0	7	12	14	—33
Kansas	0	7	7	0	—14

Despite its miscues, Kansas relying primarily on the air lanes, pushed 64 yards just before the half to tie SMU 7-all. Then the game Jayhawkers gained a 14-13 edge in the third quarter before the visitors went ahead for good with a 64-yard drive with 3:40 left in the period.

The game's leading rusher was SMU halfback Lon Slaughter with 71 yards. Strauch topped the passers with six completions in 10 attempts for 109 yards and both KU touchdowns.

Strauch left the game in the second half with a knee injury but it was not certain if it is serious.

SMU scoring—Touchdowns: McIlhenny 4 (1, 1 and 1 on plunges, 12, sweep); O'Brien 1, plunge). Conversions: Beal, Masters 2.

Kansas scoring —Touchdowns: Letcavits 2 11 and 14, passes from Strauch). Conversions: Handley 2.

Navy Whacks Penn 33-0

PHILADELPHIA, Oct. 22 (AP) — Unbeaten Navy, with star quarterback George Welsh on the bench, its bag of tricks in the locker room and a junior varsity quarterback directing the attack, sailed to its fifth straight victory today, smashing downtrodden Penn 33-0 before 34,543 fans at Franklin Field.

Coach Eddie Erdelatz, confident his deep squad could handle anything the peaceful Quakers could muster, used second and third-string players most of the way and apparently ordered his quarterback to use nothing but simple run and pass plays. Navy, the nation's fourth-ranking team, has a date with Notre Dame next week and seemed determined to keep Irish scouts in the dark.

The inept Penn team did little to upset the Navy's plans, dropping its 14th game in a row and extending the longest major college record without victory to 18 games. Penn hasn't won since it beat Navy 9-6 in Oct. 1953.

Thomas Patrick Forrestal, no relation to the former Secretary of the Navy, a junior varsity quarterback until last Tuesday when he was promoted to the varsity, directed a 13-play drive climaxed by Chet Burchett's 1-yard touchdown plunge. Before the half was over the 18-year-old Forrestal, of Cleveland, plunged 2 yards for a score and passed 10 to All-America Ron Beagle for another.

Navy	7	19	0	7	—33
Penn	0	0	0	0	— 0

Tulane Upsets Georgia, 14-0

ATHENS, Ga., Oct. 22 (AP)—Baby-faced Gene Newton, a slick split-T operator and a fancy-Dan runner, sprinted 49 yards for an early touchdown and guided Tulane to a 14-0 upset victory over Georgia in a Southeastern Conference football game today.

Tulane stopped Georgia's touted air attack when it counted and the Bulldogs' ground attack couldn't take up the slack.

Newton, a 20-year-old sophomore from Shreveport, La., also scored Tulane's clinching touchdown in the fourth quarter, racing 8 yards around his left end. The TD was set up when tackle Dalton Truax recovered a fumble by Georgia's Charlie Harris at the 8.

Bobby Layne of the Detroit Lions has thrown 103 touchdowns passes in seven seasons in the National Football League.

Maroons Rip Alabama, 26-7

TUSCALOOSA, Ala., Oct. 22 (AP)—William Earl Morgan, 150-pound sophomore halfback, led Mississippi State to a 26-7 victory over Alabama today that set up the Maroons as hot contenders for the Southeastern Conference football title.

Morgan, subbing for State's injured Art Davis, scored on runs of 10 and 14 yards and then grabbed a 27-yard pass from quarterback Bill Stanton for another marker.

The victory, before 28,000 chagrined 'Bama Homecoming fans, gives State a 4-1 SEC mark and a clear shot at the title since the Maroons play loop leading Auburn (2-0-1) in their next conference game. A sweep of its remaining games would give State a clear title.

West Virginia Ekes Past Penn State

MORGANTOWN, W. Va., Oct. 22 (AP)—Unbeaten West Virginia passed its stiffest football test of the season today, coming from behind to beat inspired Penn State 21-7.

It was the only time in the history of a series dating back to 1904 that the eighth-ranked Mountaineers have defeated the Nittany Lions three years in a row.

Pitt Upsets Duke, 26-7

DURHAM, N.C., Oct. 22 (AP)—Twice-beaten Pitt smashed previously undefeated Duke, the nation's fifth ranked football power, 26-7 today while holding the Blue Devil's highly touted rushing attack to a dismal 92 yards.

Pitt rocked the fumble-plagued Dukes with a 249-yard rushing attack and added enough of an aerial threat by quarterbacks Pete Neft and Corny Salvaterra to blanket Homecoming festivities for a crowd of 31,000.

Duke nursed a 7-6 halftime lead after a scoreless first period but thereafter the Panthers were pretty much in control. They moved ahead in the third quarter when halfback Lou Cimarolli plunged over from a yard out, then boosted their lead to two touchdowns in the fourth quarter when halfback Corky Cost also plunged over from the 1.

Adding insult to injury, Pitt scored again 20 seconds before the finish with third-string quarterback Darrell Lewis throwing a 15-yard pass into the end zone to end Joe Walton. It was Walton who scored Pitt's first touchdown, taking a 36-yard pass from Salvaterra.

Duke, winner of four games this season, struck swiftly after the first Pitt score. Quarterback Sonny Jurgensen threw a 35-yard pass to halfback Bunny Blaney, who scampered 40 yards for an easy touchdown.

Four times Duke lost the ball on fumbles and several other times its progress was impeded by bobbles which the Blue Devils managed to recover.

Pittsburgh	0	6	7	13	—26
Duke	0	7	0	0	— 7

Pittsburgh scoring — Touchdowns: Walton 2 (36, pass-run from Salvaterra; 15, pass from Lewis); Cimarolli (1, plunge); Cost 1, plunge). Conversions: (Bagamery 2.

Duke scoring — Touchdowns: Blaney 75, pass-run from Jurgensen). Conversion: Nelson.

Wake Forrest Rips Tar Heels By 25-0

WAKE FOREST, N. C., Oct. 22 (AP) — Reserve quarterback Charlie Carpenter threw two touchdown strikes and scored once himself as Wake Forest's demon Deacons scored four times in the last half and overwhelmed frustrated North Carolina 25-0 in an Atlantic Coast Conference football game today.

Numerous penalties and fumbles marred the game between the old neighborhood rivals before a crowd of 13,000.

Coalgate Wallops Yale Hard, 7 To 0

NEW HAVEN, Conn., Oct 22 (AP)—Colgate's fast-charging line shook Frank Nardulli loose on a 15-yard run early in the final period today and he scored the touchdown that gave the Red Raiders a 7-0 triumph over Yale. It also inflicted the first defeat of the season on the losers.

Until 2:09 of the last quarter, it had been a terrific battle of lines with Colgate's forward wall dominating and, in the end deserving the victory, the first over Yale since 1915. They had played scoreless ties in the two meetings since then prior to today's encounter.

PASSES gained Hermleigh a net of 95 yards in their Friday night 38-21 loss to Robert Lee in a districct contest, while the Cards made almost 200 yards on the ground. Good gains, however, didn't pay off well enough as the Robert Lee team, hungry for victory, took its first win of the season. Here, Billy Mac Davidson receives one of the several passes heaved by quarterback Robby Robinson. Davidson did all the Hermleigh scoring in the game. (Staff photograph)

Robert Lee Surprises Cards In District Contest, 38-21

By DALE WALTON

HERMLEIGH Oct. 22 — Every year several of those freaks of football occur, when a team which has not won a game turns up and "clobbers" one which has a fair season record.

It happened here Friday night. Robert Lee, ahead of an opponent for the first time this season, was determined that it would win a game, and the Hermleigh Cardinals came out on the short end 38-21.

Hermleigh had knocked what was termed the strongest team in the district, Bronte, out of its path the week before, and Bronte had already downed Robert Lee. Now, with a loss to Robert Lee, Hermleigh's chances for a clear district title look slim. There is a strong possibility of a tie for the title, however, and the Cardinals might get into the playoffs by that route. That is probable unless one of those teams suffers another district loss.

Robert Lee, which was "up" for this game, seemingly couldn't do anything wrong and was doing a good job of breaking through the Hermleigh forward wall. The alertness of the Steer defense paid off for Robert Lee, especially on such occasions as the two times Roland McArthur intercepted Cardinal passes and ran them back for touchdowns.

Coach Ray Isaacs' Cardinals were hurting from injuries suffered earlier, and, while most of the squad played in the game, several

GAME IN FIGURES

	Rob't. Lee	Hermleigh
First downs	13	12
Rushing net	267	194
Pas attempts	9	16
Passes complete	1-10	6-95
Intercepted by	2	4
Fumbles lost	0	2
Punts, avg.	3-23 3	0
Penalties	8-60	1-5

boys saw only limited action. Robby Robinson, regular quarterback was one of those slightly injured before the game. He and Clyde Wilcox split time at quarterback Friday night, with Robinson at times playing at other posts in the backfield. He led rushing for the Cards with 148 yards in 22 carries. It was also Robinson who did most of the passing. The team completed six of 16 for 95 yards. Receiving three of those passes was Billy Mac Davidson, who gained 88 yards on pass receptions and a net of 38 in 10 carries rushing. Davidson did all the team's scoring.

Davidson was the defensive standout of the game, along with Powell Tarter, T. J. Hillis, Tom Etheredge, Leonard Groves, Donald Joe May, and Jackie Roemisch who was in the game only part of the time because of an injury.

Robert Lee had itself a touchdown almost immediately after the game started. Hermleigh received the kickoff, fumbled the ball on the first play from scrimmage, and Robert Lee recovered and took over on the Hermleigh 37. The first play was a fumble play and lost the Steers two yards, but on the next one Robbie Godwin broke through the middle for 39 yards and a touchdown. A conversion try failed, and Robert Lee led 6-0.

It looked better for the Cards soon afterward, however, when they started a drive following the kickoff from their own 28, moved all the way down the field to the Robert Lee two, and got a score when Davidson circled left end for a TD. Davidson also kicked the point to put the Cards ahead 7-6.

Before the first quarter was over, Robert Lee had scored again. That was also on a sustained drive following the kickoff from the Steer 38 to the Hermleigh three, where Freddie Ainsworth split the middle for a score. McArthur ran the conversion to make it 13-7. Another score came midway in the second period, this time with Robert Lee moving from its own 39 to the Hermleigh two and quarterback Tom Sawyer bucking the line for the final yardage and the score. Sawyer passed to end Jerrell Harmon for the conversion. Robert Lee had gained the ball again and had worked down to the Hermleigh 12 when time ran out at the half. The score was 20-7.

Hermleigh began to try to even the score in the third period. The Cards started a drive from their own 27, worked to the Robert Lee 41, and Robinson let go with another pass to Davidson for that yardage. Davidson again kicked the extra point to make the score 20-14.

The Steers put a damper on Hermleigh's spirit, however, by taking the kickoff and starting its drive from its own 45, gaining five yards on the first play, and springing Sammy Duncan loose for the remaining 50 yards and a touchdown. A conversion attempt failed, leaving the score at 26-14.

That was just before the end of the third quarter. Early in the fourth, McArthur made his first pass interception and ran it back 55 yards for another score. The Steer kick was bad, and the score was 32-14. It wasn't long before the score was 38-14, when McArthur got the other interception and ran it back 20 yards to score. Conversion attempts failed again.

Except for the breaks against them, or the two pass interceptions, the Cardinals were showing up well during the second half of the game. As time ran out, Hermleigh made another score, starting the drive from its own 35. The touchdown play was a 22-yard pass from Robinson to Davidson. Davidson also kicked the extra point, making the score 38-21. There was time for only the kickoff and one play before the game ended.

Following Robinson and Davidson on Hermleigh rushing was Wilcox. Pass receivers, other than Davidson, were Morris Light and Gus Tolleson. Robert Lee's leading rushers were Sawyer with 96 yards, Duncan with 85, and McArthur with 46. Robert Lee completed only one pass in the game.

Cadets Gallop Over Columbia, 45 To 0

WEST POINT, N. Y., Oct. 22 (AP) —A churning 72-yard run by substitute Peter Lash highlighted a cascade of Army touchdowns which smothered fangless Columbia, 45-0, today to break a two-game losing streak for the men of West Point.

After his fleet infantry troops had rolled to four touchdowns in the opening half, Coach Earl Blaik obviously called off the dogs and sought to show the Lions some mercy.

Army's varsity, stung by successive losses to Michigan and Syracuse, played less than half the game. But reserves such as Lash, Frank Burd and Bob Munger proved even more damaging.

Lash's high-stepping sprint came with 15 seconds left in the opening half on the first play from scrimmage after Army had taken a punt. He reversed his field twice, sneaked out of at least two traps and galloped across the goal.

Maryland 34, Syracuse 13

SYRACUSE, N. Y., Oct. 22 (AP)—Powerful Maryland, ranked No. 2 in the nation, bolstered its chances of a post-season bowl invitation today by manhandling Syracuse 34-13 behind a solid line that opened the holes for Ed Vereb, Phil Perlo and Jack Healey.

Smashing over two touchdowns in the first period with Perlo blasting 6 yards for the first and Vereb throwing 17 yards to Russ Dennis for the second, Maryland was threatened seriously only once.

The Syracuse team that upset Army last week clicked for an eye-popping 30-yard touchdown pass from Mark Hoffman to Don Althouse early in the second period but that strong Maryland line quickly closed the gap and helped Vereb score from the 3 for a first-half lead of 20-7.

It was all Maryland in the second half to the dismay of a sellout crowd of 32,500 at Archbold Stadium, with Healey romping home twice from the 3 and 7 in the third period as Coach Jim Tatum sprinkled his lineup with reserves.

Jimmy Brown, Syracuse's workhorse, scored a 2-yard center dive at 11:12 of the final period.

Maryland, gunning for an Orange or Sugar Bowl bid if it goes all the way in its 10-game schedule, now has won six straight this season and 11 in a row over a two-year span.

Maryland	14	6	14	0—34
Syracuse	0	7	0	6—13

Mississippi Roars Past Porkers, 17-7

By SAM JOHNSON

UNIVERSITY, Miss., Oct. 22 (AP) —Fullback Paige Cothren ripped the University of Arkansas line to shreds and used his skillful toe to lead the University of Mississippi to a 17-7 football victory today.

Cothren scored 11 points on a touchdown, a field goal and two conversions to boost his season's scoring total to 44. He was the leading scorer in the Southeastern Conference when the game began.

Mississippi outclassed the Razorbacks on the ground and in the air. The Rebels grabbed the breaks, converting a recovered fumble into their first touchdown.

Quarterback Eagle Day, sometimes a first string player and sometimes not, passed and ran like an all star to alternate in the scoring punch with Cothren.

Day passed to end Bob Drewry for the Rebels' second touchdown and recovered the fumble which set up the first score.

Mississippi stunned Arkansas with two touchdowns in the first seven minutes of play. Cothren added two conversions for a quick 14-0 lead.

Arkansas then tightened its spongy line and held the Rebels scoreless until late in the fourth period when Cothren kicked a 12-yard field goal.

Arkansas quarterback George Walker opened the only Razorback scoring drive when he intercepted a Mississippi pass on his own 45 yard line and dashed to the Mississippi 27.

Walker stepped back on the first play and fired a pass to end Jerry Souter, who took the ball away from a Mississippi defender and stumbled across for a score. Walker added the extra point.

	Ark.	Miss.
First downs	14	22
Rushing yardage	176	263
Passing yardage	67	112
Passes attempted	11	15
Passes completed	6	7
Passes intercepted	1	2
Punts	8	4
Punting average	32.4	32.8
Fumbles lost	1	3
Yards penalized	55	130

Arkansas	0	0	7	0— 7
Mississippi	14	0	0	3—17

Arkansas scoring—Touchdowns: Souter (27 pass from Walker). Conversions: Walker.

Mississippi scoring — Touchdowns: Cothren (11 run), Drewry (6 pass from Day). Conversions: Cothren 2. Field goal: Cothren.

Pete Jokanovich, reserve end on the Navy football team, was co-captain of Al Jolson's Sonny Boys team when he was 11 and 12. The team played at halftime between pro games in the Los Angeles Coliseum.

University of North Dakota football teams have won eight North Central Conference titles.

THE SNYDER DAILY NEWS

New Yalta Facts Given

TOKYO (AP)—Russia went to the Yalta conference in February 1945 with knowledge Japan wanted to make peace in the Pacific war, says the U. S. investigator who questioned onetime Foreign Minister Shigenori Togo in the postwar war crimes trials.

Official Japanese documents released since the war said the supreme war council decided Sept. 12, 1944, to ask Russia to mediate peace terms.

The interrogator, Roy L. Morgan of Greensboro, N. C., said that Togo told him Japan received no answer to its request.

However, Togo said Russia did accept a later request to relay conditional peace terms to the United States after U. S. bombers were smashing at Japan, Morgan related.

At Yalta, Russia was granted concessions in return for a pledge to enter the war against Japan three months after the defeat of Germany.

The Soviet Union entered the war six days before Japan surrendered in August 1945.

Morgan, in Tokyo on private law practice, was associate counsel and chief investigator at the Japanese war criminals' trials. Togo died in prison during a 20-year war crimes sentence.

"Togo brought out the fact that Japan wanted to make peace with the United States after the destructive March 10-11 air raids," Morgan said. "Japan was pretty well devastated and in no position to carry on successful war."

Morgan said Togo told him:

Shortly after the raids, Japan—which had a neutrality pact with Russia with two years to run — asked Russia to act as a go-between between Japan and the United States. Russia accepted.

Further M-KT Cut In Service Okayed

AUSTIN, Oct. 22 (AP)—Further limitation of Missouri-Kansas-Texas passenger train service in Texas was authorized by the Railroad Commission yesterday.

The commission approved consolidation of the Bluebonnet and Texas Special both ways between Dallas and San Antonio, leaving one thain between those cities.

The order also allows the Katy to consolidate its southbound passenger Trains 11 and 27 between Denison and Fort Worth and to ontinue Train 26 between those cities.

Realistic Painted Clock Is Confusing

KANSAS CITY (AP)—A Kansas City bank had a clock painted on a billboard advertising the bank.

The painter did such a good job depicting the clock that dozens of persons have been calling the bank to complain about its time being wrong.

Arthur B. Eisenhower, a bank vice president and brother of President Eisenhower, said:

"We're going to have to put a real clock there."

Promoter Of Milton Eisenhower Confident

WASHINGTON (AP) — Dr. Harold M. Dudley, organizer of a club to promote Dr. Milton Eisenhower for the presidency, said he hasn't heard from the President's brother about his move—and takes encouragement from that fact.

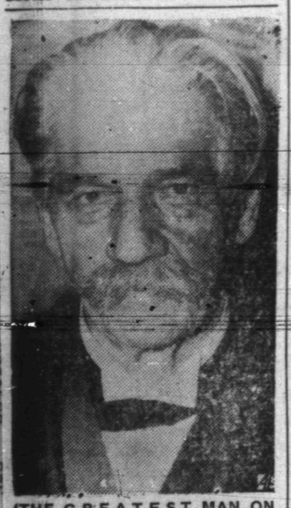
"He's had plenty of time to wire or telephone me 'Don't,'" Dudley said.

Dudley said his aim is the formation of at least 100,000 Milton Eisenhower Clubs to back the President's youngest brother for the Republican nomination "to see that the Eisenhower program goes on."

Milton Eisenhower is president of Pennsylvania State University.

Safety Record Ruined

CHELSEA, Mass. (AP)—Less than 24 hours after this city received two safety awards for having had no automobile or pedestrian fatalities since 1953, Mrs. Agatha Baris, 65, was killed by an automobile. The city had been cited Tuesday by the American Automobile Assn. and the Massachusetts Registry of Motor Vehicles.



'THE GREATEST MAN ON EARTH'—Dr. Albert Schweitzer, 80-year-old missionary, musician, philosopher and Nobel Prize winner who has been called the "greatest man on earth," faces the camera in London where he was invested by Queen Elizabeth II with the prized insignia of an honorary member of the Order of Merit. The modest doctor, who for 41 years has been physician to obscure lepers in Africa's Congo, and President Eisenhower are the only living non-Britons holding the order, the most restricted and the most cherished order the queen can bestow.

DENNIS THE MENACE

...'N I CAN'T FIND MY BOOTS, 'N DAD SPILLED HIS OL' PIPE IN THE OATMEAL, 'N THE COOKIE JAR'S EMPTY....

Issue Of Stock Is Registered

WASHINGTON (AP) —A Brooklyn firm has registered a $750,000 stock issue with the aim of reviving the "Brooklyn Eagle."

The stock issue, filed with the Securities and Exchange Commission Oct. 19 was offered by Eagle Newspaper Enterprises Inc. of Brooklyn. The registration statement said proceeds would be used to take up an option for purchase of the Brooklyn Eagle, Inc., including the right to use the name "Brooklyn Eagle."

The newspaper shut up shop last March after a strike by the American Newspaper Guild which had stopped publication since Jan. 28. The newspaper contended in negotiations that it could not afford to meet a Guild demand for a $5.80 weekly wage - welfare package.

The option, the statement said, is good until Dec. 4, 1955, and was acquired from Robert W. Farrell, described in the statement as president of the Brooklyn Eagle.

Court-Martial Set For Former POWs

SAN FRANCISCO (AP)—Two more former Korean War prisoners, who returned home after denouncing the United States and casting their lot with Red China, must face court-martial, the Army says.

William A. Cowart, 23, of Dalton, Ga., and Lewie W. Griggs, 23, of Jacksonville, Tex., were notified they must stand military trial on charges of aiding and collaborating with the enemy while prisoners of the Reds. No date was set.

The Army earlier ordered a court-martial on similar charges for a third turncoat, Otho G. Bell of Hillsboro, Miss.

THIS PROVINCIAL TWO-LEVEL END TABLE is Bill Baker's newest do-it-yourself design. Clair Weekes, lovely Hollywood actress and model, is shown with the smart and useful item.

TWO-LEVEL END TABLE IN STRICTLY MODERN CLASS

BY BILL BAKER

If your home is furnished in Early American, traditional or provincial you'll be especially pleased with the two-level end table I'm going to tell you about today.

And even if your home falls into the "strictly modern" class, you'll find interest here too because the provincial table I've just designed can be the ideal accent item in an otherwise classic-modern decor.

The two-level design of the table will become one of your favorite features. With a lamp placed on the upper level, you still have a free and wide area for the placement of magazines, ash trays, art objects or papers. A table at each end of your sofa, of course, doubles this useful feature.

The table is large, yet not too large for even the average room. Here are the dimensions:

Lower level is three feet long and 22 inches wide. The upper section also measures 22 inches wide and is 16 inches long.

Another interesting and useful part of the two-level end table is the special book case that is part of the design. Under the upper level you'll find space for the placement of more than a dozen thick volumes.

You'll obtain all of the details on how you can own this easy-to-build end table when you order my pattern package number 143. With it you'll find how inexpensively a fine piece of furniture can be constructed in your own home.

An easy-to-read instruction sheet and a complete material list are included with the pattern. There is also a list of suggested woods you can use.

Best and most important feature of the package is the exact-size pattern. Here you'll find each section of the table duplicated in heavy-weight paper. By tacking these sections to the wood and then tracing them, you'll be assured a perfect fit when you are putting putting the table together.

Another advantage you'll find when using the pattern to turn raw material into a finished table is that only basic shop tools will be needed. Don't say "I can't build it" just because you don't own expensive equipment.

Here's how you can obtain your copy of the Two-Level Provincial End Table pattern: send your name and address (clearly printed), together with only one dollar ($1) in check, cash or money order, to Bill Baker, Snyder Daily News, P. O. Box 1111, Los Angeles 53, California. Be sure to ask for pattern number 143.

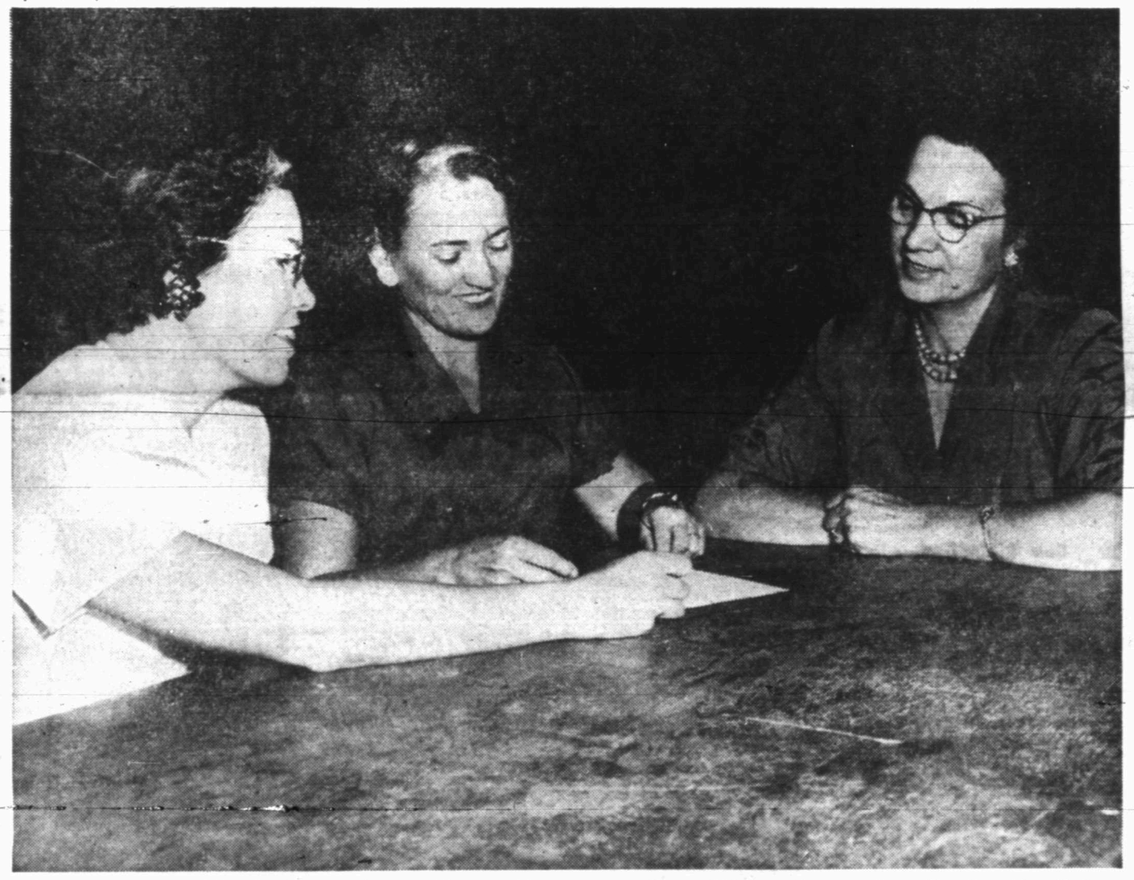
THE SNYDER DAILY NEWS

VOL. 6, No. 151 SNYDER, TEXAS, SUNDAY, OCTOBER 23, 1955 SECTION B

The four members of the industrial division of the 1955 United Fund campaign are shown above in a conference. Bob Wilson, chairman of the industrial division, is not pictured, but will direct efforts of the group. Shown from left are: Ed LeMarquand, Bill Smallwood, C. G. McCaleb, and Ray Fleeman. Next week will be devoted by the fund leaders to completing their working organizations.

Leaders of the United Fund organization for 1955 are shown above. Harrie Winston, left, heads the advanced gifts division, which has its formal campaign kickoff Tuesday morning. Stanley Noah, second from left, is general campaign chairman for the 1955 drive, Ralph Geisenhoner, second from right is treasurer, and Lyle Deffebach, right, is the president of the United Fund. Two other important officers not shown are H. H. Allen, first vice president, and H. H. Eiland, second vice president.

UNITED FUND PREPARES DRIVE



Bringing the United Fund campaign to a conclusion with calls to each residence will be the duty of the residential division committee, headed by the three women above. They are from left, Mrs. C. W. Youngblood, Mrs. Ben Dennis, and Mrs. E. N. Baker, chairman. The residential committee will begin its campaign after the other divisions have their drives under way. "Everybody will be given an opportunity to become a part of the great work of the Snyder United Fund, by working in the campaign or contributing to it," Mrs. Baker said.

The general business employe division of the United Fund's 1955 campaign will be headed by Steve Birdwell, right, shown giving committee members their assignments above. The committee leaders from left are: Charlie Hooser, Bob McAlister, Kenneth Williamson, and Bobby Roemisch. Solicitation for funds for the United Fund from each business employe in Snyder will be the responsibility of the above group but workers in each business will be made part of the committee to handle the details at the business level.

Part of the general business committee of the 1955 United Fund campaign are shown above. The 13-man group was divided for sake of the picture only and all the men are to work under the direction of Bob Taylor, chairman of the general business committee. Pictured above from left are: Dillard Pope, E. H. Williamson, J. W. Phillips, Clyde Hall, Ford Kenner, and Olan Griffin. The pictures on this page were made at meetings of the fund leaders in the United Fund headquarters on the northwest corner of the square, during times when campaign details were being planned.

The general business committee of the United Fund's 1955 organization is shown in part above, with the rest of the committee pictured elsewhere on this page. Chairman of the committee is Bob Taylor, shown third from left. With Taylor above, from left are: Jim Mixon, Renal Rosson, Taylor, J. H. Sullivan, Bill Davis, Bill Balhorn, and Gene Richardson. Responsibility for canvassing the business houses of Scurry County will be the job of this committee. (Lee Watson photographs)

ENGAGEMENT ANNOUNCED—Mr. and Mrs. W. S. Gillum, Route 1, Hermleigh, are announcing the engagement and approaching marriage of their daughter, Shirley Elaine, to Don M. Drum, son of Mr. and Mrs. L. C. Drum of Fluvanna. The wedding will be solemnized in December.

FHA Members From Eight Counties Meet In Snyder

On Saturday the 68 local members of the Future Homemakers of America were hostesses for approximately 500 guests, coming from eight adjoining counties.

Miss Vera Periman and Mrs. Joel Hodges, advisers to the Snyder High FHA chapter announced that members were present from Gail, Post, McCaulley, Roby, Rotan, Big Springs, Coahoma, Forsan, Knott, Girard, Jayton; Colorado City, Loraine, Westbrook, Blackwell, Nolan, Roscoe, Sweetwater, Hermleigh, Ira, Aspermont, Old Glory, and Peacock.

The program conducted at the High School, included 15 minutes of organ music by Robert Clinton; greetings by T. D. Wiman; introduction of platform speakers by Cecile Hayes, FHA District IV president; four songs with gestures under the direction of Mr. Clinton, two numbers from the opera "Seventeen," also "Make Yourself Content", and "You Can't Be True" by a group of nine girls: Sandra Boyd, Judy Broman, Molly Carroll, Paula Dupree, Dolly Gibbons, Joy Richardson, Dana Scarbrough, Robertman Selman, and Beth Wiman, and Dr. Dwayne Collins, a talk on "Is My Personality Showing?" The Snyder Speech Department, under the direction of Mrs. Jane Casebier, presented "Overtones". This is a one act comedy showing the polished outer selves, and the not so smooth inner selves of two women. The parts were played by Sandra DeFore, Deborah Smith, Lynn Dean Sellars, and Sue Clark.

For the afternoon's program, there was group singing, a film titled, "God of Creation", a skit by the Gail chapter and "Dates for the Prom" by the Hermleigh Chapter, followed by the installation of officers and closing ceremony.

The over - all theme was "Are You Proud of Your Reflection?"

TWO-PIECE MAGIC!

Since separates still steal the limelight, make this pattern to wear as a two-piece dress; then, pair its skirt and blouse with other separates, too.

No. 2733 is cut in sizes 10, 12, 14, 16, 18, 20. Size 16: 4 yds. 39-in.

Send 30c for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

Ira P-TA Gives Okay To Three Resolutions

Three resolutions were approved in a meeting of the Ira P-TA, following an executive session. Fourteen members were present.

Members passed resolutions that the P-TA purchase a portable public address system and a water fountain for the lunchroom; that they should buy a mirror each for the girls and boys restrooms; and that a $2 award be made to the room with the most representatives at each P-TA meeting.

The program was opened with a song, "The Eyes of Texas". Mrs. J. L. Byars gave the devotion. A candle lighting ceremony, in honor of the state P-TA, was given by Mrs. Lewis Dunn, Mrs. Fred Gullett, Mrs. O. W. Holliday and Mrs. J. W. Alexander.

The past presidents of Ira P-TA were honored. They are Mrs. Lewis Dunn, Mrs. Perry Echols, Mrs. O. W. Holliday, and Mrs. Fred Gullett. Mrs. Gullett was given her past president pin.

The doors will be opened at 6 p.m. Oct. 31 for the Halloween Carnival, which the P-TA is sponsoring.

Refreshments of birthday cake and punch were served to 52 members present, by the second grade mothers in the lunchroom.

The first grade won the room count.

SNYDER GARDEN CLUB ASSEMBLES FOR TOUR

Snyder Garden Club Members See Variety Of Flowers And Shrubs During Fall Tour

On Thursday, 23 members of the Snyder Garden Club and three guests, including Mr. Herbert Andrews, and Mrs. Zane Gilbert, daughter of Mrs. J. T. Hughes, President of the Snyder Garden Club, assembled at 9:00 a.m. in the new colonial style home of Mrs. Wayne Boren 2701 Thirty - second for hot coffee and banana bread which Mrs. Boren had baked from special recipe.

After seeing the handsome interior, and before going outside, Mrs. Boren asked her guests "to be lenient in judging my garden, and remember that six months ago it was primeval prairie." She said that in landscaping the back garden she wanted to grow a picture for the picture window in the living room. "I wanted a tall background filled in with evergreens and blooming shrubs. I wanted something that would make an attractive picture all year round."

The Borens' backyard is cut in two lenghthwise by a serpentine row of tall poplars, shrubs and flowers which extends the length of the lot. When asked the reason for a serpentine rather than a straight row, Mrs. Boren explained, "I wanted it to conform to the bow in the living room window." The affect is both arresting and pleasing.

As to the front yard, she said, "I'll going to do it over - I guess women are always either moving furniture or shrubs, but I really think I've made a mistake here, the effect it too cluttered. I want to move the roses back to the side of the house, and plant grass in the two front beds." In the western bed is a young Mimosa tree, and in the eastern bed is a good sized Mesquite "No, I didn't grow that in six months —it was snatched just in time and saved from a bulldozer." If you peer up into this mesquite there you will see a porcelain cat! "I put that cat up in the tree, because I wanted to have at least a semblance of a cat around the house, I'm allergic to them, which is a pity for me because I dearly love them."

When asked what she considered the "highlights" of her flower garden; she answered, "Roses and iris. I have lots of them." Then, she added with a chuckle, they're foolproof."

The next stop was at Mrs. Worth Sayner's, 2907 Avenue T. The Sayners built their ranch style home in 1948, and a little over a year ago they added a spacious den, done in pine panelling with one wall in natural stone.

"We worked on the front yard the first year, and the next year we tackled the back." In the front there is a young Mimosa, and several floribunda roses, as well as several Nandina shrubs. "They are so easy to grow, and the red berries and leaves stay on the bush all winter long. At Christmas time the red berries make pretty arrangements for the house. I hate to pick them, though, because then they are gone from the shrub."

In the back, Mrs. Sayner pointed out a bed of Thrift which she thought would interest club members. "We keep the bed wet all the time. This Thrift is an excellent low border plant. In the spring it is covered in purple blossoms." There are also 50 or 60 rose bushes in the back as well as a background of Lignstrum Japonica. "We used Austin stone left over from building the house to make our circular flower beds."

The group next visited the garden of Mrs. J. E. LeMond, 2908 Thirty-seventh Street, where Mrs. LeMond answered questions about the flowers, shrubs and trees in her garden. "Yes, I do about all of the gardening." When asked if this kept her busy, she said "It just about means working in my garden every day, but I love it." When asked about the landscaping, she said, "I can't claim credit for that because my son-in-law who lives in Santa Fe, New Mexico, did that when we built the house."

"His idea was to have flowering shrubs that would bear berries in the fall so that the place would be attractive the year around."

Beside the gate leading into the garden in back of the house is a clump of Sweet Alyssum. The leaves of this small dull silver plant have a delightful smell and Mrs. LeMond's plant has thrived all year long.

"My son-in-law is also responsible for our six Blue Spruce. He brought them from Santa Fe, and they've done well. Here's a funny thing. It seems it is better to move these tress from the west to the east, than from the east to the west. I don't know the reason for this, except that it's drier further west, and a tree can get used to more moisture quicker than it can get used to less."

Other trees around the LeMond place are a flowering almond, plum and crab apple, plus three pecans, all doing well.

"Did you notice that the grass is in the shape of a question mark in the back-yard? I don't think it has any significance, my son-in-law just thought it would be attractive." and so it is. Surrounding the question mark of lawn is a large flower bed outlined by walks. And at the end of the lawn area is a shaded picnic table which the LeMonds use a great deal in warm weather.

"I suppose my specialty is mums. It was Mrs. H. L. Wren who got me interested. I have several of the large species which I got from a place in California that specializes in mums. I have Watanabe, a beautiful yellow, the Pocket Maroons, Silver Sheen, and then the Lavendar Pinks. In order to get the large flowers you must 'debud' for only one flower should be left to a stem—that is if you want large flowers."

The last home and garden visited was that of Mrs. A. B. Casstevens on West Ridge Drive. When asked what the style of her home was, she said, "I suppose you would call it ranch style—I don't know, I just drew up what I wanted and we had it built. I decided above all that I wanted lots of space—big rooms, lots of closets. Any woman who has ever made beds which are close up against the wall knows what a pleasure it is to have a large bedroom."

On the south side of the house there's a bed of handsome dahlias. "My mums would have been good this year, too, their heads were as crips as lettuce, but that sand storm we had a few weeks ago baked them. I knew the next day that none of them would do well after that blasting."

As well as flowers, Mrs. Casstevens has a flourishing vegetable garden. Off of a patch the size of a large one car garage, she has gotten dishpans full of squash, and 300 pounds of green beans. Recently she spaded under what was left of the beans, and planted turnips and radishes. "Last year we had turnips all winter long from our garden."

We also saw watermelons ripening, and some of the fruit trees were surrounded by mounds of green sweet potato vines. When complimented on the attractive plants, Mrs. Casstevens laughed and said, "It's funny about them. One day last year I bought some sweet potatoes for dinner. When I was putting groceries away I decided I'd put one sweet potato to which was half the size of your first in a glass of water to see if it would make a vine for the kitchen. It did nicely for a long time, and then it died down. Well, my husband said, 'Throw it out, it isn't any good anymore', but I thought it wouldn't do any harm to just put it in the ground, and we'd see. So, I cut it into 8 parts, planted them—and all those vines are the result. I wouldn't be surprised if we get a bushel of sweet potatoes from that one little start."

An appropriate ending to the garden tour was given by Mr. R. E. Patterson as the group was leaving the Casstevens' home, "I don't know about the rest of you, but I'm going home to garden!"

UN Flag Will Fly In Snyder Monday

A United Nations' flag will be flown in Snyder Monday, one of three UN holidays during the year.

This being done here as a result of a recent study made by the Berean Circle of the First Methodist Church. The flag flying will be done under supervision of the American Legion and Veterans of Foreign Wars here, who will use color guards to raise the flag. The flag will be flown on the pole on the courthouse square from 8 a.m. to 5 p.m. Monday.

Monday is UN Day. The other UN holidays are Human Rights Day on Dec. 10 and UN Charter Day on June 26.

County Club Wins Award

Throughout 1955, the Texas Farm Electrification Committee has sponsored a contest among the 4-H clubs of Texas, based on the use of electrical appliances in the home.

Scurry County's records of the number of girls participating (181) throughout the year, the number of demonstrations (18) and the type of demonstrations given, won this county the district award in competition with 20 other counties.

Ruby Butts, Home Demonstration Agen said, "We tentatively plan to use the money to send nine girls (one from each 4-H club) to district camp next summer, and to send two delegates plus any district contest winners to the 4-H State Roundup at College Station.

Dinner Is Held For Commissioners

Home Demonstration Clubs of Scurry County gave a dinner at the County Agent's office for the County Commissioners.

Present were Mr. and Mrs. Pat Moore, from Ira Mrs. and Mrs. Doyle Parmer, from Hermleigh; Cullen Toombs, from Fluvanna, and County Judge and Mrs. J. Edgar Taylor. About 23 were present for a dinner of baked chicken and dressing, brought by the Pleasant Hill, Plainview and Fluvanna Clubs, mashed potatoes, fixed by Mrs. Howard Hoge, Home Demonstration Council Chairman, and Mrs. Walton M. McMillian; green black-eyed peas, lime gelatine salad brought by the Union Club, and angel food cake from the Pyron Club.

This semi-annual dinner is given to show the Home Demonstration Clubs' appreciation for the "nicest county agent's kitchen in the state" and for the home demonstration club equipment supplied by the county.

Church Women's Group Approves 1956 Budget

The Presbyterian Women's Organization met at the church for a covered dish luncheon and business meeting.

A proposed budget for 1956 was presented by Mrs. Dick Roberts, chairman of Finance Committee, and adopted by the organization. Mrs. James Walker reported that the Executive Committee recommended a rummage sale be held to raise funds to meet the balance of 1955 budget. The recommendation was accepted and Mrs. Roberts was appointed chairman of the sale.

Elected as new officers were Mrs. Frank Butler, secretary; Mrs. Dick Roberts, finance; Mrs. Charles Meyer, Christian education; Mrs. Julian Hendren, spiritual life; Mrs. W. W. Grief, social education and action; Mrs. James Kincaid, membership; Mrs. R. B. Fulcher, nominating committee; Mrs. Bob Weeter, morning circle chairman; Mrs. Herbert Feather, afternoon circle chairman and Mrs. Elmo Weyel, night circle chairman.

Mrs. Hendren sang "O Christ the Way" and Mrs. Bob King told of Praise Service to be the third Tuesday in November. Mrs. James Babcock was elected delegate to Presbyterial and Mrs. Meyer as alternate delegate. Mrs. Hendren is in charge of plans to attend Presbyterial Oct. 25, in Brownfield and all interested women are asked to contact her.

NEWS FROM UNION

By MRS. J. B. ADAMS

Rev. and Mrs. Roy Womble went to Houston Saturday, where they will attend the Baptist Convention that is being held in Houston.

Mr. and Mrs. E. V. Woolever of San Angelo, spent Saturday night with his brother, Earl Woolever and family. After attending church Sunday, the Woolevers, accompanied by Mr. and Mrs. Owen Miller, went to their cabin on Lake Thomas for a picnic lunch. They were joined at the lake by other relatives and friends.

Mr. and Mrs. Dee Myers visited Monday with Mr. and Mrs. T. W. Griffin in Abilene.

Mr. and Mrs. Ernest Sorrells spent last weekend in Abilene, where they visited their son, who is attending college there.

L. A. Scott of Colorado City visited his mother, Mrs. Ora Allen, Wednesday.

Mrs. Ira Woodie of Snyder visited her daughter, Mrs. Owen Nail, Wednesday.

Luncheon Is Held By Snyder Couple

Mr. and Mrs. G. Edward Bolger entertained Dr. Chess Lovern, of the First Methodist Church in Lubbock and The Rev. and Mrs. Lennol Hester, of the First Methodist Church in Snyder at a luncheon.

Mrs. Bolger served ham, turkey and dressing, mashed potatoes, ans Spanich rice, aspic salad with fresh vegetables (see Helps for Homemakers) and banana cake with whipped cream and fruit on top for dessert.

School In Congo

LEOPOLEDVILLE, Belgian Congo, Oct. 22 (AP)—The University of Lovanium, the first university of the Belgian Congo, has more than doubled its enrollment over last year. Seventy-five students have signed up to take courses in pedagogy, natural sciences and administrative sciences. Last year there were 34. The university is still in the course of construction.

Storm Tracking

UNITED NATIONS, N. Y., Oct. 22 (AP)—The U. N. is going into the storm tracking business. David A. Davies, secretary general of the world meteorological organization, is arranging a meeting of weather experts next Feb. 16-25 in Cuidad Trujillo, Dominican Republic.

Rally Day Plans Made In Meeting

Plans for a Rally Day were discussed and the divisions were decided upon in a meeting of the County Council of 4-H clubs. Jacqueline Martin presided.

They decided to have electric and recreation, craft and 4-H History divisions. Darla Bryant, Margaret Clinkinbeard and Barbara Martin are on the electric and recreation committee. Betty Pylant Darlene Lemons, Lorita Sterling and Tennie Eades are on the 4-H History committee.

They also elected committees for the Christmas party, which will be held in the County Home Demonstration Club Office. Tennie Eades, Virginia High and the elementary clubs will be on the recreation committee. All members of the clubs will do the decorating. The Fluvanna Club is in charge of the refreshments. Lois Sellers and members of the Plainview Club will be on the clean-up committee.

The club decided to subscribe for 20 coppies of "National 4-H News" and to distribute these to the junior and adult leaders.

Snyder Boy Scouts Aid United Fund

Several Boy Scouts in Snyder are already giving their time in aid of the United Fund, according to Joe Bohannan, district scout executive.

Bohannan said four scouts of Troop 123, sponsored by the VFW, are making the rounds to place United Fund posters in store windows in Snyder. The boys are Ron Dupree, Don Dupree, Jack McDonald, and Bob Bennett. Their scoutmaster is Levi Garrett.

Visiting Royalty

NEW DELHI, India, Oct. 22 (AP)—From now until late in November, the Indian government will be busy hosts to visiting royalty and statesmen. Canadian Foreign Secretary Lester B. Pearson arrives next Monday. He will be followed by King Mahendra of Nepal, Indonesian Vice President Mohammed Hatta, King Saud of Saudi Arabia, and Soviet Premier Nikolai Bulganin and Soviet Communist party boss Nikita Khrushchev.

Meeting In Abilene Attended By Bolger

G. Edward Bolger spent Friday and part of Saturday in Abilene attending a meeting of the West Texas Funeral Directors Association of which he is president. The West Texas association takes in an area extending to El Paso, Spur, Lubbock, Cisco, and Kerrville.

Friday morning, there was a lecture on "Cosmetology" by L. G. Frederick, partner of the Morticians Supply in Dallas, and owner and operator of the Dallas School of Embalming.

In the afternoon the group of approximately 120 directors heard a talk on "Scientific Lighting in the Display Room".

Post Office Takes On Patriotic Air

The Post Office Department has become more patriotic lately by adopting the colors of red, white, and blue.

The local post office is beginning to make its color changes. Last week the department started painting tops of mailboxes red. When that is finished, the bottoms will be painted blue, and lettering on the boxes will be in white, accoring to postmaster Dawson Moreland.

Eventually the office's two trucks will be painted in the same manner, Moreland said.

WHAT'S GOING ON

Mr. and Mrs. Howard Calvert, Shelbyville, Ill. are visiting their daughter and her family, Mr. and Mrs. G. L. Wells, 402 Thirty-first Street.

Mr. and Mrs. G. Edward Bolger had as guests Tuesday, Mr. and Mrs. R. M. Walker from Fort Worth, and Mr. Raymond Dugosh from San Antonio, Texas.

Don't Take Chances with Colds—
RELIEVE SUFFERING ONE SURE WAY THAT
Does More Than Work on Chest

George Gobel's Future Popularity Faces Test

By BOB THOMAS

HOLLYWOOD (AP) — Will Lonesome George Gobel break the "sophomore jinx" and keep his popularity during his second year in the big time? Or will he fade, like Red Buttons and other unfortunates? Tune in next Saturday and try to find out.

My guess is that George will make it. This is based on his own great and diverse talents, not on his showing thus far this season. The shows have been far from the high standard he set in his freshman year.

Aside from the lack of bright sketches, there's another disturbing factor about the new Gobel show. It's Mom.

Now I have nothing against motherhood, in its place. Some of my best friends are mothers. But the device of having Mrs. Gobel interrupt the program is irritating and unfunny. I am more alarmed about what it does to the character of George Gobel. It makes him a pantywaist.

I have a theory that TV comedians: They must be manly.

Some comedy historians will dispute this. They point out that the father of modern comedy was Charlie Chaplin, the little fellow who always got kicked around. So were other greats of the silent screen—Harold Lloyd, Buster Keaton, Harry Langdon, etc.

But even though they were wistful, they could also fling a brick now and then.

TV comedians are different from the movie kind. They are seen every week, not occasionally at a movie. To remain popular, TV comics must be really liked and admired by the viewers, who see the funnymen as often as they do most of their friends.

Americans like their male friends to be forceful and effective, not fellows who are afraid to speak up.

I feel that this dwelling on the "little fellow" concept is what has eclipsed the TV careers of Red Buttons, Alan Young, Wally Cox and Dennis Day. Even Jack Carson, though big in size, allowed himself to play the patsy.

All of these are good performers. Perhaps they would still have regular shows if they had been allowed to kick the boss or talk back to their wives and girl friends now and then.

So watch it, George. Don't let Mom push you around. The real Mrs. Gobel is a fine woman who would never think of interfering with her son's show.

The Gobel charm was based on his sly gibes at convention and his ability to close the curtains and walk blithely away from rough situations. Let's keep him that way.

British Play Is Rare Hit

NEW YORK, Oct. 22 (AP)—When a star wants his audience to take a bow—that's news.

And that's how it is with Michael Redgrave, star of the big new Broadway dramatic hit "Tiger at the Gates."

Recently arrived from London, the play is a rare kind of hit. Not only has the production beaten the jinx that generally overwhelms plays moving from Britain to Broadway, it is proving a bigger box office success and conversation-provoker than in England.

The credit, Redgrave feels, mostly belongs to the audience.

FIRST ROLE—Luana Lee was a messenger girl at the M-G-M Studio when she took a film test and got her first role in that studio's picture, "It's Always Fair Weather," which will appear in Snyder soon. The picture stars Gene Kelly, Dan Dailey, Cyd Charisse, Dolores Gray, and Michael Kidd.

Gregory And Strong Gets Good Reception

(Editor's Note —By special request, a brief report on audience reaction to the Thursday night performance of Gregory & Strong, concertina virtuoso and dancer, has been prepared by Hilton Lambert, a Snyder stage fan.)

A very receptive audience comprised of about 500 members of the Snyder Civic Music Association was privileged to witness as entertaining and versatile program as we have had the pleasure of enjoying in Snyder in many a day.

The program had everything that we as West Texans enjoy, from classical to "bop."

No artist in our estimation could have wished for a more receptive audience, as the group listened with true appreciation to Boris Gregory as he produced unbelievably beautiful music from his concertina. Mr. Gregory's personality and presentation of his numbers was most pleasing. The accompanist was a real artist in his own right. Our only regret is that he did not do a piano solo.

Seldom do we see the combination of dancing that Rod Strong presented. It is rare indeed when we find one so talented in both classic ballet and modern tap who can combine the two in such pleasing style as Mr. Strong. We have cheated a bit in our criticism and have checked with Dance Magazine to see what they say of Mr. Strong; we quote. "Seldom has a young dancer shown such versatility, such timing and unique combination of classical arm and body movements with the clear staccato rythm of tap. His Spanish falsetto and redoubles are outstanding, we predict audiences will see more of this type of dancing in the near future. The young man himself reminds us very much of the dancing style of the old favorite, Ted Shawn."

In closing, we wish to say that anyone who missed Thursday night's program missed a rare evening of entertainment. Congratulations to the Snyder Civic Music Association on bringing to Snyder such fine and outstanding programs.

Extensive Plans Made By Growing Vocal Department

Two years ago, when Bob Clinton got his work started in the Snyder school system, there were 65 students participating in high school choral work and about 55 in junior high choral.

In the short time since then, Clinton and his aides have built the program into one which involves about 154 high school students and 200 in junior high, as well as countless elementary school children.

Best-known in Clinton's program is his high school music groups which can provide vocal programs for various special occasions, such as banquets or meetings, as well as gatherings of civic or other type clubs. And not only can these groups do so, but they are getting numerous calls for performances.

Plans of vocal groups for this school year include entry in Region II tryouts for all-state choir Dec. 10 in Abilene; participation in Chamber of Commerce programs; participation in the West Texas Music Festival here March 3; contests in Abilene March 24, and at Cisco two weeks later; and a second annual a cappella choir tour.

Clinton announced that choral judge in the second annual music festival will be well-known Olaf Christiansen of Northfield, Minn., director of the St. Olaf Choir College, making his first appearance in Texas. Also coming here to work with choral groups will be Raymond Rhea of Corpus Christi, supervisor of public school music there, who has had over 200 choral compositions published.

The choral trip this year, Clinton said, will be sometime in April. Last year the choir traveled west of here in West Texas and New Mexico. This time the group may go north, taking into its tour some of the schools in Snyder's football district.

Best-known of the smaller vocal groups is the high school boys quartet, which has already performed for one district civic club convention. Last year's quartet was very popular and performed for dozens of events. Those in this year's boys quartet are Doug Smith, the only 1954-55 member, tenor; Tommy Gary, lead; Davie Floyd, baritone, and Charles Roe, bass. There is also a freshman boys quartet, under direction of Mrs. Landis Lee, which has already performed for a district librarians meeting here.

A new group this year which Clinton expects to be popular with residents is an ensemble of nine girls known as the "Teenagers." They, too, have already performed once here. An unusual group, the girls wear flashy costumes and have a different technique than has been used here before. The group includes Beth Wiman, Jay Richardson, Judy Broman, Paula Dupree, Dana Scarborough, Dolly Gibbons, Mollie Carroll, Sandra Boyd, and Roberta Selman.

There is also a group known as the Madrigal Singers, popular here last year. Members of that group are Janell Randolph, Linda Stephens, Ann Porterfield, Joyce Blakely, Sue Crook, Harilyn Ward, Wanda Powledge, Charles Roe, Kenneth Smith, Roe Lashaway, Roger Kerbow, Doug Smith, and Jimmy Pior.

Also under direction of Clinton is the high school a cappella choir of 44 students, which will make its first appearance at the annual Christmas program on Dec. 19; and a girls high school choir of 70, made up mostly of sophomores and juniors, who will also perform in the Christmas program.

The public will also see for the first time in the Christmas program Mrs. Lee's freshman choir of 42 and her junior high choir of 65. She has 110 other junior high students in two other groups. Four sixth grade choirs will also appear then, each with about 35 students. Their directors are Mrs. Tim Dennis at East Elementary, Mrs. Margaret Dell Pilcher at North Elementary, Miss Lamoyne Harrell at West Elementary, and Mrs. Mary Beames at Central Elementary. These choirs come from the sixth grade only, but these teachers head public school music programs for all elementary grades.

BUSY COUPLE—Stewart Granger returned to Hollywood from Pakistan, where he had been filming "Bhowani Junction" with Ava Gardner, for a reunion with his wife, Jean Simmons, busy singing and dancing with Marlon Brando in "Guys And Dolls." Next thing, the couple said goodbye again as Granger was off to South Dakota to co-star with Robert Taylor and a herd of buffalo in M-G-M's "The Last Hunt."

Here's the recipe for the banana cake served by Mrs. Wayne Boren for the Snyder Garden Club tour on Thursday.

BANANA NUT CAKE

2 cups brown sugar
½ cup chopped pecans
1½ teaspoon soda
4 bananas mashed
¾ cup shortening
6 tablespoons sour milk
2½ cups flour
3 eggs

Cream shortening, add sugar and eggs, beat well. Add small amount of flour, measure milk and add soda, add sugar mixture, mashed bananas and add to above remainder flour, stir in nuts and bake at 325 degrees until done. (This recipe is in the Aloha Club cook book).

Another recipe we thought you might like to have is the French dressing Mrs. G. Edward Bolger used for her luncheon on Thursday for Doctor Chess Lovern, Rev. and Mrs. Lennol Hester.

Mrs. Bolger served this dressing over tomato aspic cubed, and mixed with chunks of cauliflower, brussel spouts which she bearly cooked, canned long green beans and carrot sticks, "These I cook a little longer than the cauliflower and sprouts — but they must not be cooked until too soft."

Mrs. Bolger's French Dressing

¼ cup sugar
1 package prepared pectin
1 teaspoon paprika
1 teaspoon dry mustard
2 teaspoons salt
2-3 cup wine vinegar
1½ cups salad oil
2 tablespoons Worchestershire
2 tablespoons minced onion

To this basic recipe Mrs. Bolger adds:

1 can tomato soup
4 minced cloves of garlic

Mix all these together, or shake them in a jar. Then keep in refrigerator. "It's the only dressing I make that never separates, I think it's because of the pectin."

Mrs. Bolger went on to say that for weight watchers, cut out the sugar and substitute mineral oil for salad oil. "I don't know why people dislike the idea of using mineral oil — it is not fattening. Of course, one wouldn't want to drink it straight, but who wants to drink salad oil straight?"

While on the subject of "thinning fattening things" Mrs. Bolger gave us the following Mayonnaise recipe which she always makes with mineral oil, "to save calories". "There's just one thing to watch, when using mineral oil instead of salad oil, be sure you beat enough, that's very important:

A Less Fattening Mayonnaise

1 egg
1 teaspoon salt
few grains of cayenne pepper
1 teaspoon mustard
6 teaspoons vinegar
6 teaspoons fresh lemon juice
1½ cups mineral oil (of course, you can use salad oil)
paprika and pepper

Break whole egg in bowl, and add all dry ingredients, plus 1 teaspoon vinegar. Beat thoroughly. Then add oil 1 tablespoons at a time—beat thoroughly after each addition until half a cup has been added. Then add oil in larger quantities (be especially careful with mineral oil not to add too much at a time) beating all the time. Finally add the rest of the vinegar and the lemon juice. Here is Mrs. Bolger's extra touch —now add to this mayonnaise ¼ cup of catsup ("enough to make a pretty color") 3 medium sized cloves of garlic minced very fine (or if you have a garlic press, squeeze the garlic and add juice only.) 2 tablespoons onion juice ("I cut an onion in two and then scrape it with a spoon")

This mayonnaise is excellent on salads or sandwiches.

Chicken that is going to be split-roasted on an electric rotisserie, does not need to be rubbed with fat beforehand.
