Johnson Will Join JFK Trip

WASHINGTON (AP)—Sen. Lyndon Johnson made it official today that he will accompany Sen. John Kennedy when the Democratic presidential nominee visits Texas Sept. 12-13.

His official schedule only calls for campaigning in the state until 1 p.m. Sept. 13, when he will fly to New Mexico. It does not specify that he will be with Kennedy on each of Kennedy's nine stops in Texas.

Johnson, the Democrats' vice-presidential nominee, apparently plans to make his LBJ Ranch near Johnson City, Tex., his headquarters at least during the early part of his campaign. He plans to be at the ranch Sept. 17, 19, 20, and 24-26.

Johnson will start with a trip to Boston Sept. 3 and be in Hartford, Conn., and New York City the next day.

The rest of the September schedule:

Sept. 12 Campaign with Sen. John Kennedy in Texas. Details to be announced.

Sept. 13 Campaign in Texas with Kennedy until noon; 1 p.m. leave Dallas; 2 p.m. arrive Carlsbad, N.M.; for motorcade and speech; 3:30 p.m. leave Carlsbad via auto; 4:15 p.m. arrive Artesia; 5 p.m. leave Artesia; 6 p.m. arrive Roswell; 10 p.m. leave Roswell; 11:15 p.m. arrive Albuquerque, staying overnight.

Sept. 14 11 a.m. parade, followed by luncheon; 2:30 p.m. leave Albuquerque; 4:00 p.m. arrive Phoenix for fundraising dinner and overnight stay.

Sept. 15 10:30 a.m. leave Phoenix; 11 a.m. arrive Tucson; 2:30 p.m. leave Tucson; 4 p.m. arrive Las Vegas, Nev., for dinner and overnight stay.

Sept. 16 8:30 a.m. leave Las Vegas; 10 a.m. arrive Salt Lake City; call on elders; 1 p.m. leave Salt Lake City; 5:30 p.m. arrive Oklahoma City for address to Midwest conference and overnight stay.

Sept. 17 1:30 p.m. leave LBJ Ranch; 2 p.m. arrive Abilene for 3 p.m. parade and overnight stay.

Sept. 18 12:30 p.m. leave Abilene; 2 p.m. arrive Alamogordo; 4 p.m. arrive Mrs. Sawyer's ranch; 6 p.m. leave ranch for Alamogordo.

Sept. 19-20 LBJ Ranch for Ala-Mogordo.

Sept. 21 South Dakota and Minnesota.

Sept. 22 Iowa and Nebraska.

Sept. 23 Kansas and Oklahoma.

Sept. 24-25 LBJ Ranch.

Sept. 27 Southern Illinois.

Sept. 28 Indiana and Ohio.

Sept. 29 Kentucky.

Sept. 30 Tennessee.

NO TRAINS TODAY—New York's vast Penn Station looked like this in the wake of a strike which shut down the Pennsylvania Railroad. Mrs. Maria Merchersky of Manhattan wasn't looking for a train. She came back to pick up some baggage she had checked. (AP Wirephoto)

Big Supporting Cast Due For Khrushchev

UNITED NATIONS, N. Y. (AP)—When Nikita Khrushchev makes his second appearance on the General Assembly stage this month he will have an impressive supporting cast of government chiefs from the Soviet bloc.

Eastern Europe's top Communist brass are going to accompany the Soviet Premier to the Assembly meeting which opens Sept. 20.

Khrushchev had suggested that the heads of as many nations as possible attend the Assembly's disarmament debate. His presence along with Soviet bloc chiefs is sure to bring other top-level

leaders, but diplomats expressed doubt there will be a full-scale summit meeting of the sort Khrushchev proposed.

There were indications British Prime Minister Harold Macmillan might change his mind about attending.

President Eisenhower was almost certain to appear and deliver a reply to Khrushchev's speech before the Assembly.

There were indications British Prime Minister Harold Macmillan might change his mind about attending.

Sources in Paris expressed doubt President Charles de Gaulle would go to New York. De Gaulle has never shown a very high regard for the U.N. and has been

dubious as to the usefulness of a disarmament debate in the General Assembly itself.

Diplomats thought it likely Khrushchev would stay only a short time, make his grandstand move and then go home, turning the leadership of the delegation over to Foreign Andrei A. Gromyko.

At Least 270 Dead In Congo Fighting

By LYNN HEINZLING LEOPOLDVILLE, the Congo (AP)—A flareup of bloody fighting between Congolese soldiers and partisans in Kasai province has claimed at least 270 lives in the town of Bakwanga, the United Nations reported today.

U.N. officials reported scores of corpses strewn on the streets of Bakwanga, capital of the secessionist so-called Mineral State in Kasai. Many were mutilated by blows from knives and machetes.

The U.N. spokesman said one U.N. plane transported two wounded Congolese soldiers from the scene. The U.N. task force commander, Gen. Carl von Horn, gave a categorical order that all such transport be stopped.

The U.N. spokesman said Congolese soldiers and their opponents, supporters of Kasai leader Albert Kalonji, "have access to supplies of arms and ammunition."

A garrison of 125 Tunisian United Nations soldiers barricaded the local club where 110 surviving Belgian residents huddled in panic. According to United Nations reports, almost constant firing went on in Bakwanga.

"There was shooting for hours on end," a United Nations official said. "Both sides were heavily armed. They even had mortars."

Earlier today, a U.N. spokesman announced United Nations Moroccan troops fired on a group of attacking armed civilians south of Thysville Thursday and killed one person.

This was the first time U.N. soldiers have opened fire, and the first casualty attributed to them.

Few details concerning the attack are available, the spokesman said.

The attack occurred at Moeberk, south of the gorge town of Thysville, where Congolese soldiers mutinied shortly after inde-

pendence was declared here June 30. The spokesman said the Moroc-

cans deployed in that area were trying to disarm the civilians. They fired in the air first but finally were forced to shoot at the attackers' political front, the Congolese government charged that the opposition Puna party had threatened to assassinate President Joseph Kasavubu and Premier Patrice Lumumba.

A government spokesman said Jean Bolikango, 60, leader of the Puna party and one of Lumumba's principal political rivals, was arrested Thursday night near Lualaba in his native Equator province.

Bolikango, who is leader of the Bangala "river people" tribe, was brought by plane to Leopoldville and held.

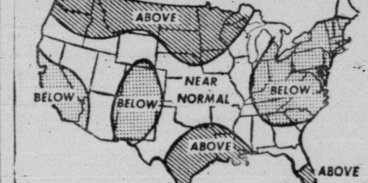

The government spokesman did not say how many members of his party were arrested with him. Lumumba charged two weeks ago that Bolikango was trying to start a secessionist movement in Equator province and personally ordered his arrest.

The spokesman charged that "a group of Bolikango's party has threatened to assassinate Kasavubu and Premier Lumumba and several of them have also been arrested."

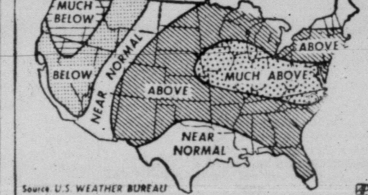

He gave no details of the alleged plot.

He is the son of the late John...

30-DAY PRECIPITATION OUTLOOK

30-DAY TEMPERATURE OUTLOOK

Extortion Attempt In Lubbock Bared

LUBBOCK, Tex. (AP)—A small army of officers broke up last night what they called a \$308,000 train would be blown up and the traffic manager killed.

The letter was addressed to "traffic manager." The Burlington has no traffic manager here.

An FBI agent, acting the part of a railroad employee, last night set out with two suitcases to give

the appearance of carrying the money. Ironically, the suitcases contained FBI circulars.

The agent followed an involved train outlined in the letter, and finally reached his goal—the street behind the Lubbock Avenger-Journal Building. There the agent, whom the FBI refused to name, set the suitcases down in the middle of the street.

A man came out of a nearby alley, picked up the handbags and returned to the alley.

There he apparently became frightened and dropped the suitcases.

The officers were closing in but the man seemingly vanished.

Pair Held In Slaying

LAWTON, Okla. (AP)—Oklahoma officers leave today for Pennsylvania to pick up two youths for questioning about killing a Lawton girl, whose body was found Thursday.

Sheriff Forrest McClung said no charges have yet been filed.

A decomposed body was identified as Jimmy Lee Lannan, 24, pro at the Lawton Municipal Golf course.

Police followed directions given them over the phone by Shelby Doggett, 25, of Sweetwater, Tex., and Ronald Lockwood, 19, of Altos, Pa., to find the body near a county road nine miles south of here.

Both men are held at Altona for Philadelphia officers.

Pennsylvania State Police Capt. Singleton Shaffer, said Doggett made a statement Thursday that he had shot Lannan six times Aug. 19, and then, with Lockwood's help, hid the body and fled.

Police said that following an auto accident Wednesday night near Altona, Doggett fled the scene but Lockwood, the driver, was arrested. Doggett identified himself to police as Lannan and asked for his car Thursday.

Demo Dinner Rescheduled

The County Democratic dinner set for Sept. 8 has been rescheduled for Sept. 15 and will be held at the pavilion at Towle Memorial Park.

Court's Ruling Points To Faster Integration Pace

A three-judge court returned control of the New Orleans schools to the School Board Saturday. But the governor asked the Supreme Court to stay the order.

Davis declined comment on the Supreme Court's refusal to do this. But a statement issued through his press secretary declared: "Nothing has happened which has changed the determination of the public officials of the State of Louisiana to continue our system of public education on a basis of separate but equal facilities for both races."

The Supreme Court denied a plea by attorneys for the National Assn. for the Advancement of Colored People that integration begin in New Orleans at the start of the school year. Sept. 8 instead of Nov. 14.

The court also rejected a plea for speedy review of a July 19 ruling of the 8th Circuit Court of Appeals in Philadelphia that Delaware's grade-a-year plan was unconstitutional. The appellate court Monday ordered a modified plan be

Valley Areas Get Showers

BY THE ASSOCIATED PRESS Thunder showers in the Lower Rio Grande Valley Thursday halted completion of the cotton harvest in that area.

Rains also fell in other sections of Texas.

Early Friday the state had generally clear skies with temperatures ranging from 62 at Delhart to 77 at Dallas. No rain fell.

Showers for the past several days in the Valley have prevented the harvest of the estimated 25,000 bales still in the fields.

Alamo got 1.50 inches Thursday. Donna 1.10, Pharr 1 inch, and McAllen .65. Other rainfall totals include Corpus Christi .57, Tyler .28, Correll .19, Lindley .07, Victoria .05 and Laredo .01. Brownsville had some rain and a thunderstorm was reported around San Antonio late Thursday night.

WEATHER

SNYDER TEMPERATURES: High Thursday, 81 degrees; low, 64 degrees; reading 67 1/2 at 5 p.m. Forecast: Partly cloudy through Saturday with light scattered thunder showers; most numerous near coast. Solons End Futile Meet

By JOE HALL
WASHINGTON, AP—The 86th Congress has adjourned after a post-convention session that cracked with politics and protracted disappointments for both the Democrats and President Eisenhower.

The House quit Thursday night at 6:52 p.m. The Senate at 11:51 p.m. after spending more than three hours trying to round up a quorum of 51 members to complete its business.

The final flurry of Senate debate whirled around a proposal to provide more money for a wretched subcommittee to check on whether radio and TV stations give fair treatment in political broadcasts. The proposal died with adjournment.

Also left in the legislative limbo was a measure that would have given Eisenhower a free hand in cutting or eliminating a special sugar quota assigned to the Dominican Republic, with which the United States has broken diplomatic relations.

It was a Senate-House dispute over the sugar bill which blocked adjournment a day earlier. Each side held firm and the bill died.

Facing each other in the Senate chamber through much of the four-week session were the Democratic presidential nominee, Sen. John F. Kennedy, and the Republican standard-bearer, Vice President Richard M. Nixon. The Senate's presiding officer.

Leaders in both political camps were less than enthusiastic when the windup came.

Kennedy said the Republican aim in the short session was to embarrass the Democrats and conceal the "empty negative record" of the GOP. He accused the Republican leadership of trying to block action on several issues he favored.

House Republican Leader Charles A. Halleck of Indiana described the August session as an exercise in futility. He said, "If it was designed to put the Democratic presidential campaign ticket in orbit, it flunked out on the launching platform."

Although both sides suffered disappointments, the Democratic-controlled session took care of several legislative chores. Major bills passed included foreign aid

Pension Promoter Townsend Is Dead

By HOWARD C. HEYNE
LOS ANGELES (AP)—Dr. Francis E. Townsend, pioneer pension promoter for senior citizens, is dead at 93.

Timeless leader of old-age clubs which once claimed 30 million members, he died Thursday night in St. Vincent's Hospital. Doctors said death was due to pneumonia and complications of old age.

Only last month the sprightly physician left his organization's Washington, D.C., headquarters for another tour of Townsend Clubs, still campaigning for a federal program which he said would provide dignified and adequate security for the elderly.

This was the battle he waged increasingly for nearly three decades. And to the end he believed that, sooner or later, Congress would heed his plea.

Over the years his plan took various forms, but basically its principles remained unchanged. Most recently he advocated a 1 to 2 percent tax on gross personal incomes.

Of his program in general, he said last night, "It's the same one we've had in Congress for the past 20 years without being able to get it out of the Ways and Means Committee."

When the pension group was organized in 1933, Dr. Townsend advocated a 2 percent tax on all business transactions to finance \$200 monthly pensions for each person who retired at 60. At various times he changed the total amount sought and the means of producing it.

His political encounters frequently were stormy. In 1937 he was sentenced to 30 days in jail for contempt because he refused to answer questions asked by a congressional investigating committee. President Franklin D. Roosevelt granted him what Townsend afterward called "an unsolicited pardon."

The old crusader's monumental disdain for the present Social Security system was typified by his comment: "It's an inadequate and unfair patchwork which pays the most to those who need it the least."

The wiry little doctor lived for many years in Long Beach, Calif., and Los Angeles, but he was seldom home. When he wasn't dealing with Congress he was touring Townsend Clubs, in later years directing his principal effort toward organizing the feminine vote.

When he was home he loved to garden. A meticulous dresser, he insisted upon cufflinks and starched collars even in summer weather.

Townsend, born in a log cabin near Fairbury, Ill., began practicing medicine in 1897 in the Black Hills town of Belle Fourche, S. D. He moved his practice to Long Beach, Calif., in 1920 and retired to devote full time to pensioning before his organization had grown to 10,000 clubs in 1956.

The doctor's wife, Minnie Bogue, Townsend died in 1951. A son, Robert C. Townsend, is the movement's corporate treasurer in Washington.

Herter Says Rule Of Law Nearer Today

WASHINGTON (AP)—Secretary of State Christian A. Herter says that the Communists are trying to gain control of the Congo, but that the world today is nearer a rule of law than it has ever been.

The Soviet Union is trying to complicate rather than assist U.S. efforts to restore order in the African republic, Herter told the American Bar Assn. Thursday night. He said the Soviet aim is to bring about a collapse of order in the Congo.

American and British lawyers attending the association's annual dinner also heard addresses by Adlai E. Stevenson and Sen. J. William Fulbright (D-Ark.).

About 1,500 lawyers have been attending the convention which ends today.

Herter reviewed East-West tensions and accused Soviet leaders of clinging to a Marxist-Leninist dream of communizing the world.

The three basic elements of American foreign policy, Herter said, are to ward off the threat of immediate war, to press ahead in the meantime by safeguarding international agreements such as disarmament, and to strive for an ultimate goal of a world of law rather than force.

Stevenson, the Democratic presidential candidate in 1952 and 1956, said free world nations should combine their resources more than they have and should push the appeal of their philosophy globally.

An appeal for coordinating free world resources to resist Communist pressures was made by Fulbright, chairman of the Senate Foreign Relations Committee.

Suspect In Kidnap Death Is Arrested

BENTON, Ill. (AP)—An ex-convict, once imprisoned for murder, was arrested today by FBI agents in connection with the kidnap-slaying of a waitress and ordered held in jail on \$50,000 bond.

Joseph Harry Milani, 33, of near Herrin, Ill., was charged with a federal complaint with assault with attempt to murder John Bryant, 20, fiance of the slain girl, Mary Lily Ellen Roberts, 17.

After his arraignment before U.S. Commissioner Everett Lewis at 2:30 a.m., Milani was ordered confined to the Jackson County jail at nearby Murphysboro.

Milani, a husky construction worker, has served eight years in prison on a murder conviction and five years for auto theft. He was released from prison last April 3 on the auto theft conviction.

Miss Roberts' body was found last Sunday in a well at an abandoned farm house near Herrin. She had been shot through the head. Authorities had questioned and released Milani, however.

A blood-gumman kidnaped Miss Roberts from a lover's lane near Carbondale, Ill., on the night of Aug. 25 after seriously wounding Bryant.

The FBI said Bryant, a Carbondale barber, had identified Milani as his assailant.

Wet Forces In Session

The Snyder "wet" forces met Wednesday night with about 40 present at the "Snyder for Progress" gathering.

The group unanimously adopted a resolution stating that "in our country a person should be punished for his crimes not for his beliefs."

A spokesman for the group said they expect to have their petitions in to the county clerk by the middle of next week, adding that they would have gone to Washington to call an election for the sale of alcoholic beverages for off-premise consumption only in Snyder.

Mistrial Ordered By Lubbock Judge

LUBBOCK (AP)—Dist. Judge Victor Lindzey ordered a mistrial Thursday in the case of Roosevelt Wiley, 28, Odessa Negro charged with slaying a San Angelo milk truck driver.

The judge cited the difficulty of obtaining a jury. Only five jurors had been qualified from an original list of 300 veniremen.

Lindzey said he would transfer the case to another county later.

Gov. Rockefeller Sets 120 Speeches

WASHINGTON (AP)—New York Gov. Nelson A. Rockefeller plans about 120 campaign speeches throughout the country for the Republican ticket.

Rockefeller announced his campaign plans Thursday after visiting Vice-President Richard M. Nixon, the GOP presidential nominee, at Walter Reed Army Hospital. The vice president is being treated for a knee infection.

Nixon himself will leave Sept. 12 on a six-day, 9,000-mile tour of 14 states, his office announced.

Rockefeller, who was anything but a Nixon booster during the early stages of the pre-convention political maneuvering, predicted the Republicans will carry New York and the nation in November. Although he will stump coast to coast, Rockefeller will concentrate on industrial states. He said he probably will average two speeches a day.

The governor will accompany Henry Cabot Lodge on a tour of New York area points this week-end. Lodge, Republican vice-presidential nominee, will be free to campaign after his resignation as U.N. ambassador becomes effective Saturday.

Nixon, who is responding well to treatment for his infected knee, plans to leave the hospital Sept. 11 and take off the following day on an intensive campaign trip.

The tour will take him to Indianapolis, Ind.; Dallas, Texas; San Francisco, Portland, Ore.; Vancouver, Wash.; Boise, Idaho.

Griffis Rites In Saint Jo

Funeral services for Mrs. W. P. Griffis, 72, of Saint Jo were held Wednesday at 10 a.m. in the First Baptist Church there. Mrs. Griffis died Sunday morning at her home.

Mrs. Griffis was the mother of Mrs. W. W. Carey of Snyder.

Also surviving are her husband, Mayor W. P. Griffis of Saint Jo; six sons, Wendell Griffis of Saint Jo, Weldon Griffis of Odessa, Hainto Griffis of Garden Grove, Calif., Tilford Griffis of St. Louis, Mo., and Bob Griffis of Wichita Falls; four daughters, Mrs. Jack McDonald of Sherman, Mrs. John Vergler of Garden Grove, Calif., Mrs. Margaret Hoivis of Lawton, Okla., and Mrs. Carey.

Nineteen grandchildren and nine great-grandchildren also survive.

Athens Men Buy Marlin Newspapers

MARLIN (AP)—The daily and semi-weekly Marlin Democrat newspapers have been sold to Athens men.

The purchase, a corporation composed of R. S. Dick Dwell and Hyman L. Fortinberry Jr., both of Athens.

George S. Buchanan sold Thursday the newspaper he has operated for 16 years.

Intervention By Krush Denounced

BOSTON (AP)—Sen. John F. Kennedy said today that Soviet Premier Nikita Khrushchev, who has announced he will personally lead a delegation to the United Nations, should realize that an election is going on and we're quite capable of deciding ourselves who shall be president.

"We do not desire any outside intervention," Kennedy said in a brief news conference.

Kennedy said that if Khrushchev decided to use the forum of the U.N. to carry on his propaganda strategy against the United States under the provisions of the U.N. charter he has a perfect right to come to the United States.

The Democratic presidential nominee, opening a New England campaign swing through Massachusetts, New Hampshire and Maine, had breakfast with 200 business men in a "rain check" continuation of a fund raising program. The promoters of the affair said about 130 of the guests contributed \$500 or \$1,000 each toward the campaign expenses.

Guests said Kennedy promised at the breakfast, which was closed to the press, that if he is victorious in November he would bring them a breakfast.

"We're not to win in states like Massachusetts," guests quipped Kennedy as saying, "But it's going to cost a great deal because it is a big campaign. I might be back to see you once more before November."

Kennedy also was quoted as saying that the polls show the race now is even, and that "anybody can win, hard work will do it."

Those at the breakfast originally had planned to have a lunch with Kennedy last Monday. The lunch was held but Kennedy had to skip it to go to Washington for an early afternoon Senate vote. They got a rain check—two meals for the price of one.

Before leaving Boston Kennedy released the text of his speech he plans to make later today at Manchester, N. H.

Pupil Uses Wheel Chair

NORTH PEKIN, Ill. (AP)—Janie Hewey, 12, started her school career Thursday in a wheel chair.

Her physician says Janie might someday be able to walk with the aid of braces. But she probably never will.

She had 20 broken bones at birth and in her six years 37 bones she is a victim of a rare condition called osteogenesis imperfecta. Her bones are brittle and subject to fracture.

Janie's mother, Mrs. Clint Jones, called her daughter "courageous," and said "she doesn't realize how much pain she is suffering."

Most of the fractures have required casts from the waist down.

HOMES FOR AMERICANS

UTILITY AND FACILITY. This is the house for a family that likes a lot of room. It has 1,496 square feet of living space. The three bedrooms are large with plenty of closet space. The kitchen and dining areas are large, too, and the dining area can easily be converted into a family room. Other features: A utility room adjoining the kitchen in case a full cellar is not desired; a laundry off the utility room easily accessible to youngsters coming in from play. The architect is Elmer Oyleck, P. O. Box 77, 338 East Chicago St., Elgin, Ill., and the plot is HA156G.

WOMEN

The Snyder (Texas) Daily News, Fri., Sept. 2, 1960

Busy Wives Welcome Appliances

Most of the 13 million working wives in the U. S. today do their housekeeping on the run. Women who both work and keep house learn the tricks of cooking good meals fast, organizing the housework and entertaining informally. They depend on modern electric appliances to speed up housekeeping and lighten their work load.

Among the electric appliances that give working wives extra hours they need is the automatic dishwasher. It saves the hours of dishwashing by hand, takes a minute to get the dishes cleaner and more germ-free to boot. An electric dishwasher helps keep the kitchen neat, too. The working wife who has an automatic dishwasher never has to spend precious extra minutes in the morning washing up the breakfast dishes or face the alternative—a sink full of dirty dishes to greet her at the end of a work day. Breakfast dishes go right from the table into the dishwasher, out of sight, out of mind. They are thoroughly washed, rinsed, and dried along with the dinner dishes, pots, and utensils, after the evening meal.

How Long Frozen Food Can Be Kept

Now that freezing compartments of refrigerators have grown from tiny ice-cube containers to spacious zero-degree storage areas that keep food fresh for months, women are asking for more specific information on correct freezing and storing methods.

"One of the questions most frequently asked is: 'How long can food be kept frozen without losing its quality?'" The answer varies according to the type of food, its quality when frozen, the packaging, and freezing and storing temperatures. Of major importance is the temperature of the freezing compartment. It should be at or below zero to preserve foods properly for any length of time, as changes in freezing quality and nutritive value increase rapidly as the temperature rises. Modern electric refrigerator-freezers can keep many pounds of frozen foods at zero for months. Separate doors on each section prevent loss of cold from the freezer if put in or taken out of the refrigerator section. Swing-out and roll-out shelves and removable storage baskets in the freezing sections of new electric refrigerator-freezers make frozen foods easily accessible. Many of the new units are completely free of frost. Frozen food packages never stick together or become difficult to identify because of coats of frost.

WHAT'S GOING ON

Mr. and Mrs. Glendon Bynum and Harley, 12605 Tenth Street, and Mrs. A. A. Behringer Sr., 1401 Avenue M, have returned from a 12-day trip to Los Angeles, Calif., where they visited relatives. While there they attended two major league baseball games and visited Disneyland. Mrs. Behringer is Mrs. Bynum's mother.

Refrigerator Keeps Serving

When you buy a new electric refrigerator-freezer for your kitchen, don't call a junkman to haul away the old unit. Instead, move it to the playroom or family room. The children will be delighted if you keep it stocked with milk, juice, "soda pop," and fruit for play-time snacks. Although many foods can be kept up to a year at zero degrees without loss of quality, food experts recommend several complete turnovers of frozen foods each year for the most economical use of the freezer section.

The U. S. customs duty on a foreign-made car is 8 1/2 per cent of the vehicle's appraised value.

Teen-Age Scientists Blaze Trail For Attack On Cancer

By FRANK CAREY
 Associated Press Science Writer
 WASHINGTON (AP)—A couple of New York teen-age scientists today were credited with suggesting a previously unexplored avenue in the quest for new types of chemicals with which to attack cancer.

They also were credited with perhaps throwing new and surprising light on the nature of cancer, and on how better to give nourishment to patients wasting away from malignancy. The two—both '17 and still in high school—are Arnold Lentnik and Patricia E. Bath. They were listed as the "senior" or principal authors of a report prepared for the fifth International Congress on Nutrition.

Their adult co-author was Dr. Robert D. Bernard, consultant to the Cancer Research Division of the New York City Health Department, who told of their researches. It was this way, he said, that the teen-agers, who didn't know one another at first, worked on separate research projects at Harlem Hospital, during a 1959 summer-science training program conducted by Yeshiva University under a grant from the National Science Foundation.

Dishwasher No Luxury

A house isn't thoroughly modernized unless the kitchen is up to date, and a kitchen isn't up to date unless it's equipped with an electric dishwasher. An automatic dishwasher is no longer considered a luxury. It is a practical appliance that cuts time and labor in the kitchen, giving the housewife extra hours for her home and family and guarding the family's health by getting dishes cleaner and more germ-free than the most careful handwashing does.

Families who plan to modernize a small kitchen may find that a portable dishwasher suits their needs best. New portable models do everything built-in models can, yet may be pushed into an out-of-the-way corner when not in use. Like built-ins, portable models hold from 8 to 12 place settings, and wash everything from pots and pans to delicate china and glassware.

When a kitchen to be remodeled has adequate space, a built-in dishwasher usually is the best choice. Installed next to the sink, it becomes a permanent part of the cleanup area.

Dr. Moses D. Tendler, director of Yeshiva's NSF program, remembered that this same Streptomyces residue had been in local hospital use for 10 years as a "nutrative" for patients with advanced cancer. There also had been reports that the substance had occasionally "slowed the growth or temporarily reduced the size of tumors."

But young Lentnik's findings posed a seeming paradox: that is, on the one hand the material stimulated growth in animals while on the other hand it apparently could inhibit growth in a tumor. Miss Bath had been doing research into the possibility that human cancer is a growth "failure," rather than a growth speeding, as it has ordinarily been considered. She came up with evidence indicating that while a cancer may appear to represent accelerated growth of cells, actually there is a failure of some type in certain mechanisms going on in the nuclei of affected cells. Thus, supervising scientists concluded, it appears consistent to consider young Lentnik's material as a growth promoter—whether applied to the wiggle, paramyxium or to attacking a cancer.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made

astounding statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in proprietary or over-the-counter form under the name *Preparation H*. At your druggist. Money back guaranteed. —The U.S. Pat. Off.

Practical Coeds Look At College

By VIVIAN BROWN
 Girls who go to college for their "Mrs." degree are just taking up space in overcrowded schools, says 18-year-old Marsha Sterling of Wilton, Conn. "Many girls are outspoken about their intentions. They are going off to college to meet men, and their suitcases show it. They are loaded with last word in fashion," says the pretty freshman at Emory and Henry College in Emory, Virginia. However, Marsha plans to study. Except for new shoes her wardrobe will be old hat, she says. "I'm on a limited budget but I have batches of sweaters and skirts and a few date dresses. Clothes always have been my weakness. But now I'll need money for other things," she explains.

Windows Give Homes More Beauty Today

"Home buyers like bright interiors, pleasant outdoor views and attractive, accessible patios. Windows are the key to daylight and beauty in the home," says Practical Builder, a magazine for professional builders. Since windows are a strategic part of the house, often forming a complete wall, they should be chosen with care. Practical Builder cites the following check points for good window planning: Will the windows be easy to operate? Easy to operate? Are they weatheright when closed and will they keep rain out when open? How about insulating qualities—do they need single or double panes? Should they be positioned high or low on the wall? A helpful guide in choosing good windows is the seal of the American Wood Window Institute, which is accepted as proof that FHA standards are met. No window bearing the seal has ever been reported as failing in use. The seal can be found on stock windows of ponderosa pine at local building supply centers. Windows of ponderosa pine are factory treated to be water-resistant and vermin, rot, and termite-proof. They keep construction costs down because they're ready to be installed when delivered. Stock wood windows are available in many styles and sizes ranging from small units that can form ribbon strips set high for privacy, to complete walls of windows that make an attractive view part of indoor living.

Washability Adds Value To Slippers

Some of the new indoor-outdoor slippers made of vinyl plastic are ideal for the busy housewife—who is constantly in and out of the house in her capacity as family chauffeur, gardener, shopper, and nursemaid. Crepe or ridged rubber soles make these soft flippers suitable for double-duty. For fashion appeal, they come in straw-like or leather-like textures. And for convenience—like anything made of versatile vinyl—they are washable in soap or detergent suds.

Combination May Offer Best Economy

"Why buy a combination washer-dryer?" asks the homemaker who is shopping for new laundry equipment. "Economy," answers the American Home Laundry Manufacturers' Association. The combination is economical in the space it requires. This compact appliance can be slid under counters, fitted into pantries, hidden in closets or under stairs, or can be lined up along the kitchen wall to provide extra cabinet top work space. All combination models are front loaders, thus leaving the top clear. The combination is economical with the homemaker's time. She is spared the additional few minutes of effort of unloading the laundry load from the washer and placing it in the dryer or hanging it on the line.

In most cases the combination costs about \$50 less than a pair with comparable features. Also combos require from two to five per cent less service than a comparable pair. And a special economy note to those who live in areas where water is scarce and expensive, the washer-dryer combination uses from four to ten gallons less water per load than most of the regular washer models.

China Grove News

By MRS. N. F. HALL
 The Jim Merket family held their annual reunion Sunday at the Stanley Merket cabin at Lake Colorado City. Attending were Mr. and Mrs. Roy Lee Merket and Jim Roy of Midland, Mr. and Mrs. Jack Merket, Cynthia and Betsy Ann of Stamford, Mr. and Mrs. Stanley Merket and Gloria, Mr. and Mrs. Jackie Pylant and Jerald Doe of Colorado City, and Mr. and Mrs. Jim Merket of China Grove. They spent the day boating, skiing and swimming, and a steak dinner was served in the evening. Cynthia Merket suffered a broken hand and painful bruises while skiing, but her injuries were not believed serious.

 Peach Cobbler Beverage
STUFFED BAKED FLANK STEAK
 Ingredients: 1 flank steak (2 pounds), 5 tablespoons butter or margarine, 1 1/2 cup finely diced onion, 3/4 cup finely diced celery (3 ribs with leaves), 1 1/4 cups soft bread crumbs, 1 slice with cruste 1/2 teaspoon poultry seasoning, salt pepper. Cut steak in half cross-wise. Melt 4 tablespoons butter in heavy skillet (about 10 inches) over low heat—add onion and celery, cook until lightly browned. Mix in bread crumbs, poultry seasoning, salt and pepper to taste. Spread dressing almost to edges of 2 pieces of steak roll lengthwise. Skewer open ends. Brown meat rolls in remaining 1/2 cup butter in skillet in which dressing was prepared. Place rolls on rack in shallow roasting pan cover tightly. Bake in moderate (350 degrees) oven until tender—about 1 1/2 hours. Sprinkle meat with salt and pepper. Slice cross-wise just thick enough to keep dressing intact. Juices in roasting pan may be used for sauce or gravy. Makes 6 servings.

Advice To Mothers: Adopt Baby's Routine

Don't be such a superior mother that you can't take advice from baby. Study her diet; it's sensible, nourishing, non-fattening. Take a nap when she does; it may be the only quiet time of day to catch up on your rest. Then climb right into the suds with your bambino when it's bath-time. For once, you won't need to worry about getting splashed—and you can always use the extra relaxation you'll get from a soap and water cocktail served in a tub-sized container.

Between You And Me

By Jerry Jackson

Quite a splash this fellow Jack Spikes is making on the exhibition circuit for Dallas of the shiny new American Football League. Spikes is the personable young footballer, is "teasing up the opposition" for the Texans, and has been especially instrumental in leading the team to an untied 5-0 record as the season switches from "for fun" to "for real."

Quite a contrast from that of another all-American performer who is currently riding the Houston Oilers bench. He's Billy Cannon, Heisman Trophy winner and eeny-meeny-money-mow pawn of not only the Oilers but also the Los Angeles Rams of the rival National Football League.

The Rams finally gave up in their quest to retain the ex-LSU bonus child this past week, however. Elroy Hirsch of the Crazy-Clean—who is general manager of the Rams, sent up the white flag early in the week with the comment that, "We see no benefits to be derived from pursuing the case any further." And with that the banter was ended. The continual hounding, law suits and threats of law suits had ceased to be worth it all. All deposit, no return.

Somebody Else Is
MEANWHILE, Billy sat astraddle the bench, rich in name but poor in professional performance, a bum leg not helping matters to any great degree. And a comparative unknown by the name of Tompar was ghosting for him in the starting Oiler lineup. Chances are that Cannon will completely snap out of it eventually and begin to earn his keep as expected. He's too valuable a commodity to stay on the shelf for very long.

But back to Spikes. His value can probably best be estimated by taking a look at the Texas scoring record to date. Spikes has done no more than score six touchdowns, kick 13 of 14 extra points, attempt and boot four of seven field goals. That adds up to 61 points of productivity, with his nearest competitor in the team scoring race being Johnny Robinson, another ex-LSU'er, with 32.

As a team, the Texans have tallied 157 points. This, plus 61 more from Spikes, makes a total of 218 points in 11 carries in the Denver game of this past weekend in which Dallas routed the Broncos to the merry tune of 48-0.

It's still a little early to tell whether or not the new league will thrive or flop in its bold venture to rise up to a par with the "old timers" of the established league. The road would be a lot less rocky with more performers the caliber of Spikes, however.

ONE, TWO, THREE—Bill Nieder, center, U. S. Army lieutenant from Kansas admires his gold medal after winning the Olympic shotput championship in Rome with a toss of 64 feet, 6 3/4 inches to smash the Olympic record. Winner of the silver medal is Parry O'Brien, right, Los Angeles banker, who tossed 62 feet, 8 3/4 inches. Mack U. S. Daniels Long, left, of Phoenix, Arizona, won third place bronze medal with a toss of 62 feet, 8 inches. (AP Wirephoto via radio from Rome)

THE PICNIC IS OVER

US Humiliated In Olympics

By Will Grimmsley
Associated Press Sports Writer
ROME (AP) — Overconfidence, poor management and lack of dedication were blamed today for the sudden and shocking collapse of America's brightest gold medal hopes in the Olympic Games.

"It is a real tragedy," said Harold Connolly, world hammer throw champion, "and so un-called-for. I am not the least surprised. Maybe this will wake us up at last."

"We treat the Olympics as if it's a big Sunday picnic. To most of the countries, particularly Russia, this is war—and they fight it like a war."

Thursday was the most humiliating single day ever suffered by the Americans in the history of the modern games.

John Thomas, who has held jumps 7 feet 5 1/2 inches and who holds the world record at 7'3 1/2", finished third behind two Russians, who did 7'1. American ace sprinters were run into the ground

HERO WORSHIP—The annual watermelon feast, sponsored by the Snyder Quarterback Club, was attended by young and "old" gridders alike. The above group of budding junior high footballers was paying homage to Tiger quarterback Steve Free in this shot, with Free's concentration being mainly on the melon of the time. The worshipful circle includes Bobby Joe Birdwell, Bill Blum, David Holt, Eddie Byers and Ray Taylor. (Photo by Jackson)

Midland Next For Tiger '11'

Snyder's Tigers, just seven short days away from their first game of the season against Bogue, have rolled through a spirited workout session here yesterday afternoon. In addition to the standard drills they went through a team scrimmage which was capped off by wind sprints and sleigh-pushing maneuvers.

Two new casualties were recorded on the squad, although neither injury sustained was thought to be serious. Halfback Jim McFarland worked out in shorts, nursing a charley horse in the upper right thigh received during Wednesday's practice. He was joined by guard

Broyles Rates Arkansas As 'No Contender'

By the Associated Press
The Southwest Conference football practice campaign rumbled into session without major calamity Thursday, although University of Arkansas Coach Frank Broyles is already craning his Razorbacks from contention.

Spotless Exhibition Slate Near At Hand

Dallas and Houston clash at Dallas tonight in the top pro football game of the week for Texas teams.

The two American Football League clubs will be ending the exhibition schedule. By winning the Dallas Texans would have won all six games of their pre-season card.

Yank-Oriole Clashes To Separate Men From Boys

By JOE REICHLER
Associated Press Sports Writer
Youth against experience, pitcher against power, the Yankees and Orioles clash in a pennant-bearing three-game set starting tonight.

The Orioles, of course, have the best pitching in the American League while the Yankees, with 100 home runs to their credit, have the most power.

This is the big opportunity for the Orioles to take over first place. They trail the Yankees by one game but they are three down in the losing side. That means they must sweep the series. Two out of three would still leave them percentage points behind the Yankees.

This series marks the first authentic test of pennant pressure for both teams. The edge lies with the Yankees, who have been through many September stretch drives. Among the Orioles, Gene Woodling and Hoyt Wilhelm have been on previous pennant-battling teams.

The pitching setups for each team follows the battle pattern—Yankees against Orioles. Lefty Whitely Ford, the Yankees ace, faces 21-year-old Milt Pappas tonight. Saturday it will be Art Ditmar, winner of his last seven starts for New York, against 21-year-old Jack Fisher. Sunday's finale will pit Bob Turley against 22-year-old Chuck Estrada.

A final four-game set will be played in Yankee Stadium Sept. 16, 17 and 18. The Yankees hold a 9-4 edge.

The only American League teams to see action Thursday were Cleveland and Kansas City and the Indians won, 7-3. Catcher

Football Arrives In Snyder Area

The 1960 area grid wars will be uncapable tonight, as the season gets underway over the state with a liberal sprinkling of early battles lined up.

The Hermleigh Cardinals open at home with Coahoma as their first round foe. A new season and also a new coach will be viewed there, as Ted Averitt will be chief strategist at the Card helm tonight, having replaced Bill McGuire, who resigned the post early in the year.

The hard-nosed Gail Coyotes will hit the road for their initial encounter tonight. Sterling City being the host team in that eight-man opener. The Coyotes, under veteran mentor Eddie James, will be going out in quest of their 36th consecutive game without defeat.

The Ira Bulldog sextet, under the tutelage of coach R. C. Taylor, opens with St. Joseph's Academy of Abilene furnishing the cannon fodder for the 'Dogs, who were 7-3 in the won-lost column last season and are expected to field another strong team. The Hobbs Panthers were slated to open against Ira but were forced into dropping football for the season, thus bringing on the substitution.

One District 3-AAA eleven will test its spurs tonight—Colorado City. The Wolves will be opening at home against Brownfield of 2-AAA and will be attempting to get off on the right foot following a drab 1-9 season over last year's span.

Winless Lake View—blanked in the win column last year—have nowhere to look but up tomorrow night as that team entertains Winters (7-AAA) in the opener of the year for both teams.

The remainder of the 3-AAA delegations will hold off until next week when Sweetwater meets Breckenridge, Snyder's Tigers host Borger, and Lamesa and Midland get together. The Tigers will journey to Midland tomorrow night, however, engaging the eleven in a practice scrimmage beginning at 7:30.

U. S. Seeking To Break Net Drouth

FOREST HILLS, N.Y. (AP) — The National Tennis Championship opened today and from an American standpoint almost anything would be an improvement over the last four years.

Starting in 1956, no native-born United States player has made the finals.

Except for Alex Olmedo, a Peruvian who attended Southern California and lost in the final to Neale Fraser last year, Australians have held a stranglehold on the final.

It could happen again this year. Fraser is seeded No. 1 followed by Rod Laver, who has swept all four U.S. major grass court tournaments. The main hope of the Americans is that Fraser has not regained his form of last year when he not only won the championship but led Australia to victory over the United States in the Davis Cup challenge round.

LIBERTY

In all the world no monument is more famous than Bartholdi's Statue of Liberty. Standing on an isle in New York harbor, it is the symbol of a nation that enjoys the ultimate in political and religious freedom. *It is our Americanism landmark.*

Since 1886, the towering statue has been the first welcoming beacon for countless thousands coming to these shores to find a better life... *The life of Liberty, of Freedom, the American way.* The inscription on its base carries a potent message of promise as significant as the monument itself:

"Give me your tired, your poor,
Your huddled masses yearning to breathe free.
The wretched refuse of your teeming shore.
Send these, the homeless, the tempest-tost, to me:
I lift my lamp beside the golden door."
Then, if we have in the past, may we never again take
Liberty for granted... it wears a price tag.
