Former Hart Resident Buried In Lockney

Felicia Louise Applewhite, 45, former Hart resident and well-known area artist, died Sunday at 7 a.m. in Lockney General Hospital after a long illness.

Miss Applewhite lived at Hart and attended school here during the 1940's when her father was minister of the First Baptist Church.

Funeral services were held Tuesday at 10:30 a.m. in First Baptist Church of Lockney with the Rev. John Jenkins, minister, officiating. He was assisted by the Rev. William Prater, minister of Lone Star Baptist Church.

Burial was in Lockney Cemetery under direction of Moore-Rose Funeral Home.

Born in Lubbock, Miss Applewhite was stricken with polio in 1945 and by orders from President Franklin D. Roosevelt, she was flown to Warm

Springs, Ga., in a U.S. bomber. The story of her trip was aired nationwide on NBC.

A graduate of Lockney High School and Baylor University, Miss Applewhite was awarded the Dunlap-Hemphill Wells purchase prize for her painting, "Jody," and was named an Outstanding Young Woman of America in 1967. She was a member of Plains Art Association in Plainview. Miss Applewhite had lived in Lockney most of her life and was a member of First Baptist Church.

Surviving are her parents, Mr. and Mrs. G.C. Applewhite of Lockney; one brother, C.W. Applewhite of Houston and one sister, Myra Applewhite of Austin, who was assistant professor of Spanish at Wayland Baptist College for many years until recently moving to Austin.

THE YEAR 'ROUND TRAILER.

The RHOMAN YEAR 'ROUND TRAILER is a farm investment that works all twelve months of the year. During spring planting the RHOMAN NURSE UNIT can be utilized for all liquids, fertilizers and water. The RHOMAN HOPPER UNIT handles all grain crops throughout the harvest season, and as a flatbed, the RHOMAN TRAILER is excellent for transporting equipment and supplies.

The center section of the Rhoman Flatbed is easily removed.

The RHOMAN GOOSENECK FLAT-BED gives the farmer a year 'round trailer. Its quick change ability allows the farmer to have a Hopper Unit as well as a Nurse Unit with minimum effort. The trailer has brakes on all 8 wheels with an axle capacity of 30,000 lbs. G.V.W. hydraulic and 24,000 lbs. G.V.W. electric. All trailers come equipped with a 3" (automatic latch) ball hitch on the gooseneck and a heavy duty rear hitch for tandem use is optional. Adjustable axles are an exclusive feature with all Rhoman trailers.

Extra large Rhoman Hopper doors are equipped with a heavy duty rack and pinion operating mechanism.

The RHOMAN TRAILER HOPPER UNIT provides commercial duty truck capacity that can be handled with a farm pickup. This unit eliminates costly truck maintenance and the need for a grain cart. The Hopper has a

360 bushel capacity and, with extensions, can be increased to 540 bushels. Extra large Hopper doors and 45° sloping sides make it possible to unload high moisture and bulky grain crops with ease.

This sturdy rear hitch is available for tandem use.

ATTENTION: COMMERCIAL FERTILIZER DEALERS & "BIG A" OWNERS—The Rhoman Nurse Unit will reduce needless trips to town and keep expensive application equipment in the field and on the job.

The RHOMAN LIQUID NURSE UNIT is available in 1,000 to 2,500 gallon capacity. Its 500 gallon tanks give a baffled effect for safer hauling. Because several liquids can be hauled at one time, the Rhoman Nurse Unit becomes the most versatile trailer on the market today. Rapid liquid transfer is accomplished with a 5 hp heavy duty 2" pump.

Now! What you pay to lease a Zimmatic® depends on the price of corn.

Here's another first from Lindsay... the Zimmatic Corn Crop Lease. Instead of a fixed lease payment, you pay for your Zimmatic based on the price of corn. If corn prices plunge, so does your lease payment.

By offering this new lease, Lindsay is sharing some of the same risks that you face every year. Corn prices fluctuate, which affects your profit picture. That's why Lindsay developed the exclusive Zimmatic Corn Crop Lease... a revolutionary program that tailors your lease payments to the changing price of corn, from one year to the next.

The Zimmatic Corn Crop Lease is designed so you can lease a Zimmatic without using your normal operating credit sources... your Zimmatic pays its own way by turning on your production.

The number of Zimmatics available under this program and the time period of this offer are

limited so come in soon and get all the details on the Corn Crop Lease and other exclusive leasing programs available only through Lindsay Credit Corp.

Take advantage of a program that has never been offered in the industry before... it's the lease we can do for you.

be your own Meter Maid

You can add up your groceries while you're buying . . .

You can add up your gasoline while you're buying . . .

But

can you add up your electricity while you're buying?

Yes you can... Here's How!

Learn to read your electric meter. It will let you determine how many kilowatt hours you use in a given period of time . . . an hour, a day, a month or a year. That's how electricity is measured — by kilowatt hours used.

Your residential electric meter will have either 5 or 4 dials

Electric meters are easily read from right to left as you look at the meter. If the pointer on a dial is between two numbers, write down the smaller number. When the pointer is directly on a number such as one (1) (see center dial above) then read it as 1 if the pointer on the next dial immediately to the right has passed zero (0). However, read it as zero (0) if the pointer on that dial to the right has not reached zero.

The dials above read (from left to right): 9-3-1-1-5. If, however, the pointer on the second dial from the right above was between 9 and zero then the center dial would read as a zero.

Now let's read the same meter 24 hours later

This later reading is 9-3-1-3-8. Subtracting the first reading, 93115, from the new reading of 93138 — the answer is 23. Thus you would have used 23 kilowatt hours in the 24 hour period.

Now you can become a METER MAID and watch your meter like a miser if you choose. WE HAVE A BOOKLET CALLED "MANAGING YOUR ELECTRIC BILL" plus other WISE USE TIPS booklets that help keep you from wasting electricity and so help lower your cost. Any of these booklets are free for the asking at your Public Service office . . . come by and see us.
