Jeff Spikes New President Of West Texas Old Settlers

Square Dances and Speeches Provide Fun for Pioneers

West Texas Old Settlers Re-
union Thursday and Fri-
day At Mt. Blanco

Joys and sorrows of yesteryear
were lived again in the hearts of the
old timers when they gathered for the
fourteenth annual reunion of
West Texas Old Settlers associa-
tion Thursday and Friday. Clear
skies and a hot sun were alleviated
by a cool breeze that swept from the
southwest. Shade from the

Townsend Plan Explained
Tippin W. Reed, of Fort Worth,
17 year old orator and representa-
tive of the Townsend plan, ex-
plained that the present plan
was not a "jump sum" proposi-
tion but that it favored a 2 per
cent tax that would be ample for
"every old person in the nation."
Reed is making a tour of all
the western states in behalf of
the plan, he said. He was in-
duced by Lee Noble.

brush-covered arbor and boys' ar-
ches furnished an ideal setting for
the reunion held at the Hank Smith
Memorial park at Mt. Blanco, 10
miles north of Crosbyton.

N. Y. Bicknell was in charge of
an old-time square dance aided by
Charlie Bird, and C. C. Halle
opened the dancing program that
lasted, informal fashion, until the
oldest and most timid had had their
filling.

Spikes Elected President
Jeff J. Spikes of Cone was elected
president to succeed J. P. Kerlin
of Ralls. Other officers elected in the
business meeting held Friday after-
noon were R. L. Travis, vice presi-
dent and Mrs. Evelyn Smith Lowrie,
granddaughter of Hank Smith,
re-elected secretary-treasurer.

Little Marjorie Virginia Jones, 5
year old won first place in an amate-
ur contest supervised by M. G.
Hargrave of Ralls, Thursday after-
noon. The number was a tap dance.

Visiting Speakers
Judge R. C. Crane, president of
West Texas Historical association,
who is from Sweetwater, gave an
interesting story of the organization
in 1886 of Crosby county. Gertrude
Bradford Arnold gave a tribute to
the oldsettlers in an original poem.

C. L. McMurray, Lee Allen Again in Cafe Business in Floydada

To partner with C. L. McMurray
in the cafe business, Lee Allen who
has been in the cafe business at
Altus for 2 years, returned to Floyd-
ada this week, accompanied by his
family.

Allen and McMurray have bought
the Lambert Cafe, formerly the Mc-
Murray Cafe. This week they are
painting, re-modeling and rearrang-
ing the shop with the expectation
of being open Saturday. They will
serve free coffee all that day, Al-
len said yesterday.

Both are experienced cafe opera-
tors.

Junior Rifle Guns Received; Problem Now Is Rifle Range

Weeks and months have elapsed
since the first application for a
junior rifle club was made for Floyd-
ada youths and at last the guns are
here and announcement that the
ammunition is on the way has been
received by J. C. Gilliam, who will
be supervisor of the club of more
than 70 youngsters who want to
learn to shoot.

But problem number one still re-
mains. Where is the land owner
who will give the kids a range a
short distance of Floydada? They
need an area of 50 yards by 200
yards, which will be used at stated
intervals. "We have interested citi-
zens who say they would like to
furnish us the plot for the training
of these boys in rifle shooting, but
we haven't been able to place the
spot as yet," J. C. Gilliam said.

The Junior Rifle club is a Mc-
Dermott Post sponsored organization
and first announcements were re-
ceived with enthusiasm by boys of
the community.

**J. R. Strain, son of Mr. and
Mrs. John R. Strain, has com-
pleted his training at San
Diego and has been assigned
to regular duty with the First
Battalion, Sixth Marines. Strain
attended high school in
Floydada, graduating in 1937.**

Rotary Intra-Club Meeting to Be Held Wednesday Night

District Governor, Hiram Ar-
rant of Abilene Will be
Present

Floydada Rotary club will be hosts
Wednesday night to the clubs of
Spur, Ralls, Lockney, and Plainview,
numbering probably 100 or more
Rotarians and their wives.

The Rotarians and their Anns
will be entertained at Western Field
during the evening with comic skits,
music, and other entertainment
furnished by Floydada Rotarians
and the visitors.

A chuck wagon feed will be given
with the regulation menu of Mexi-
can beans, stewed apricots, corn
bread, coffee, doughnuts, and pos-
sibly barbecue during the evening.

The main speaker for the night
will be District Governor of Rotary
Hiram Arrant of Abilene and prob-
ably Ed McLaughlin of Ralls, direc-
tor of Rotary International, will say
a few words.

The actual content of the program
is being arranged this week by
special entertainment committees
and the program chairman.

The regular Wednesday luncheon
will be held as usual, Walker Travis,
president of the club, said. Cliff-
ord Tubbs will be program chair-
man.

J. R. Strain Completes Basic Marine Training

J. R. Strain, son of Mr. and Mrs.
John R. Strain of Lockney who
recently enlisted in the United States
Marine corps has completed his
training at the Marine corps
base, San Diego, California.

He has been assigned to regular
duty with the First Battalion, Sixth
Marines at San Diego, Captain J.
D. O'Leary, officer in charge of the
marine corps office, announced last
week.

Strain attended Floydada high
school, graduating in 1937.

Relative Killed In Accident Sunday A. M.

A. R. Burns, 25, of Lamesa was
killed instantly early Sunday morn-
ing while returning from Big Springs
where he had carried a friend ear-
lier in the night. The accident oc-
curred on the Big Springs-Lamesa
highway.

Mr. Burns is a nephew by mar-
riage of Mrs. J. D. McBrien and A.
T. Hull of Floydada. They attended
the funeral Monday in Lamesa at
the First Baptist church. They re-
turned home that afternoon.

Mr. Burns is survived by his wife
and a 4 year old daughter.

Phillips - Bradley Live Stock Sales Success First Day

76 Head of Cattle Sell at
Figure Above \$1800,
Records Show

A better and a faster sale is the
plan of Phillips & Bradley, of the
Live Stock Sales Company, south-
east Floydada, for Monday of next
week.

Their first sale held Monday was
a big success, apparently, but the
managers were not satisfied and this
week were making several
changes in detail that will insure
a better session next Monday after-
noon.

"We're making changes in arrange-
ment and are going to have the
sales so systematic that everybody
will be pleased," said L. R. Phillips
of the firm.

Monday 76 head of stock went
through the sale ring and brought
a total of \$1,881.43.

While Mr. Phillips and Mr. Brad-
ley were not so pleased it appeared
that everybody else who attended
the sale was. Praise for their ef-
ficient arrangement of the sale ring
and the sales pens was heard on
every side.

"We are ironing out the spots
that slowed down the sale Monday
and will have a better and faster
sale next week," said Mr. Phillips.
"When we hold our sale Monday we
are likely to find other faults and
if we do we will correct them promp-
tly and in a few weeks will have a
Monday sale that will look like an
old-time ring session," Phillips said.

Col W. H. Seale and Col W. H.
McDonald conducted Monday's sale
and will be on the job again next
Monday.

Several thousand dollars have
been expended by the firm of Phil-
lips & Bradley since they began
preparations to open here 30 days
ago. At that time they said this
appeared to be a logical place for
a live stock auction sale every Mon-
day. Rail and highway facilities are
ideal and there is a wide territory
to serve, they said at that time.

Meeting To Close At Christian Church

Tonight's service at the First
Christian church will close the two-
day revival meeting that is being
held by Duke C. Jones, Georgia
evangelist. Rev. Jones is assisted
in the service by the pastor, Rev.
Riley Herman Pittman.

Good crowds have marked the at-
tendance each service and much
interest has been manifest by the
junior service that is held each
evening at 7:30.

Rev. Jones will use his subject
tonight, "Let's Join The Army".
A cordial invitation is extended
the general public to be in the clos-
ing service tonight.

COUNTY BUDGET ADOPTED

The 1940 budget for Floyd county
was adopted yesterday afternoon by
the Commissioners court following
a session of several hours. With
very few visitors at the "hearing"
the court gave other business mat-
ters of the county their attention
while they held the session open for
and taxpayers to appear and make
suggestions relative to the budget.

GLAD LYN NORMAN IMPROVING

Glad Lyn Norman, son of Mr.
and Mrs. Lewis Norman, was car-
ried to a Lubbock hospital Tuesday.
He was suffering from an intestinal
disorder.

He was able to be brought home
Wednesday and is improving rapidly.
His grandfather Glad Snodgrass said
this morning.

Petitioners Seek Three New Roads

Two Routes From Petersburg
to Floydada Proposed
to Commissioners

Petitions of property owners, two
of which petitioners would open new
routes of travel from the vicinity
of Petersburg to the vicinity of
Floydada, have been filed recently
with Clerk A. B. Clark of the Com-
missioners court.

The third petition would open a
road slightly more than a mile long
east and west north of Floydada
to intersect a public road leading
into the Silverton Floydada high-
way. It would serve families north
of Center. It was filed August 11
and asks for a 60-foot road from
the northeast corner of Section 85,
Block 13 (the southwest corner of
Section 55, same block) to intersect
with public road.

The two routes from near Peters-
burg to near Floydada, both would
intersect Highway No. 207. Both are
approximately of the same length,
12 to 13 miles. One of these peti-
tions signed by R. B. Gary, V. W.
Hennessee, J. S. Hale, L. A. Wil-
liams, M. D. Ramsey, W. H. Simp-
son, D. J. Parkey, J. D. Christian,
asks that a 100-foot road be opened
from a point beginning at the north
line of the T. M. Lucas 320-acre
tract, the south one-half of sec-
tion 13 in Block K—at the intersec-
tion of the north line of the Lucas
tract and the Hale county line,
approximately where the Fort Worth
& Denver railway line crosses out
of Floyd into Hale county. Thence
east about 12 miles on as nearly
a straight line as practical to the
southeast corner of Section 4, Block
P, to intersect Texas State Highway
No. 207. (A point approximately 3
miles south of Floydada at the
corner of the J. H. Shurbet land.)
The petition was filed on Saturday,
August 19. Part of this proposed
route is already open as a 40 to
60-foot road.

Route East from Petersburg
A route due east from Peters-
burg with a 100-foot right of way
that would intersect the state high-
way immediately south of Blanco
canyon, has also been petitioned.
Land owners who asked for this
route a petition filed on August 8,
are C. L. Allmon, Mrs. J. W. Jack-
son, James J. Smith, Jr., S. W.
Ewing, E. E. Foster, J. M. Williams,
H. A. Krause and W. A. Curb.

This route would begin at the
intersection of the west boundary
line of Floyd county and the north
boundary line of the A. S. J. Mar-
tin 160 acre homestead survey.
Thence it would run in an easterly
direction about 13 miles to the point
of intersection of the north bound-
ary line of E. W. Cornell 160-acre
homestead survey and the west right-
of-way line of Texas State High-
way 207.

Another route which is seriously
proposed out of Plainview but which
has not come before the Commis-
sioners court officially would open
a highway from Plainview to Sil-
verton through the northwest corner
of Floyd county. It was indicated
this week at the court house un-
officially that residents of the
northwest portion of the county do
not oppose the opening of the high-
way but are anxious that it shall
not cut the landowners' farm
up. It is said the proposal in that
section would cut diagonally across
several highly improved pieces of
property.

Hatchery Building Will Be Finished Within Few Days

Completion of the Carmack
Hatchery building on East Missouri
street opposite Barker Bros. garage
is expected by Saturday or Monday
and removal of the equipment and
stock from the present location at
the southeast corner of the square
will start sometime next week.

The new building—35 feet by 140
feet—will afford ample room to
house a display room, a hatchery,
a feed storage and sales room and
a poultry house. Carmack will add
poultry buying and selling to the
business, he said, and will continue
handling scientifically balanced
feeds, with added room for storage
and more complete stocks.

CHOICE L. BRYANT HOME

Choice L. Bryant, pastor of the
City Park Church of Christ was
brought home Saturday from a
Jacksonboro hospital where he under-
went an emergency operation for
appendicitis two weeks ago.

He is able to be up and is improv-
ing nicely, he says.

Texas Hospitals Have Plan For Mass Hospitalization; Low Cost Basis Is Visioned

More Than 300 Launch Group
Hospital Service Under
New Law

DALLAS August 21—More than
300 Texas hospitals have joined
with the Texas Hospital Association
in launching Group Hospital Ser-
vice, Inc., a non-profit organiza-
tion, formed to give hospitalization
to the masses upon a new low-cost
basis. Bryce L. Twitty, for ten years
superintendent of Baylor Hospital,

Floydada Hospital & Clinic will be
affiliated with the Texas
Hospital association which is
sponsoring the new group hospi-
tal service, Dr. A. E. Guthrie
of the staff said this week.

Dallas, has been loaned to the new
organization during its formative
period as administrator. Twitty,
with Dr. J. H. Groseclose, Methodist
Hospital, Dallas, as president; Dr.
L. N. Markham, Longview, vice pre-
sident; and Mrs. Josie Roberts,
Houston, secretary-treasurer, com-
pose the official staff.

With the officers, the following
hospital managers make up the
board of directors: Miss Ara Davis,
Scott and White Hospital, Temple;
Mrs. Margaret Hales Rose, Wichita
General Hospital, Wichita Falls;
Mrs. Martha Roberson, Medical and
Surgical Hospital, San Antonio; and
Mrs. C. E. Hunt, Lubbock Sanita-
rium, Lubbock.

The new service comes in answer
to legislature. Offices will be open-
ed in most towns and cities of the
state.

Meetings By County Committee Scheduled

Six scheduled meetings remain
on the calendar for the Floyd county
committee. Tonight the com-
mittee, headed by Henry W. Schach-
t, will meet at Pleasant Hill school
at 8 o'clock and explain the 1940
wheat program, wheat crop in-
surance program, and wheat loan
program.

Meetings yet on the list are South
Plains, August 24, Cedar Hill, Aug-
ust 25, McCoy, August 26, and Fair-
view, August 29. Floydada will have
a meeting on Saturday, September
2 opening at 2 p. m. in the district
court room.

It is planned that a meeting will
be held following the above series
of meetings to which the business
and professional men and women of
Floydada and Lockney will be in-
vited. Representatives of the Farm
credit administration and the
Farm credit administration are in-
vited to be present. The date will
be announced later.

NYA Project Starts In Parks and Streets

Approval of a National Youth
Administration project was given
last week and this week Mayor
Snodgrass said numerous activities
for the improvement of parks and
streets in Floydada are being un-
dertaken. The city furnishes the
foreman and materials on the jobs
and the NYA furnishes the youthful
laborers.

"There are 25 to 40 boys available
under this program," said the mayor.
"They work in shifts daily and work
will proceed just as we get to it
and our money holds out to pur-
chase materials, etc."

Street signs and markers, parks,
culverts, streets and other work of
this nature will be given special
attention during an indefinite period.
Jno. A. Fawver is foreman on the
work.

Orphan Children To Appear Here Sunday

Boles' Orphans Home singers of
Quinland are to appear at the City
Park Church of Christ Sunday
morning from 10 until 11 o'clock.

Elder McCaleb who is in charge
of the orphanage will speak at 11
o'clock.

The public is cordially invited to
be present for morning worship.

School Bells Ring Soon

COLLEGE STATION, August 14—
In another month, school bells will
be summoning children back to
school, so August is a deadline
for renovating and replenishing the
school wardrobe, says Mrs. Dora R.
Barnes, specialist in clothing for the
A. and M. College Extension Ser-
vice. Outfitting the family for fall
is a big job and deserves a full
month of planning and execution,
she says.

Administrator for a new hospi-
talization organization being
formed in Texas by hospital
managers, Bryce L. Twitty, by Bay-
lor hospital, Dallas. Floydada
Hospital & Clinic will be a
member of the group.

Baseball Tourney To Begin Sunday At Lockney Park

Lockney Favored to Win Own
Baseball Tourney; Negro
Team Second

At the city park in Lockney will
be held one of the biggest baseball
tournaments staged on the South Plains
in several years, according to in-
formation from Frank Dodson,
manager of the Lockney Yankees.

The Yanks have met defeat only
three times this year, the last time
was at the hands of John (Screw-
ball) Henry, Negro flinger for the
Lubbock Black Hubbers, and have
several times swamped formidable
opposition.

The Negro team from the Hub
City literally made the big bats
with Henry serving them up. It is
claimed that more than one Yank
player was given treatment for
sprained back after taking a cut
at Henry's serves.

However to get back to fact, Sun-
day, Ropesville will play Lubbock in
the first setto of a double-header.
Sudan will tangle with the Black
Hubbers in the second game of the
day.

Monday Lockney will meet Slaton
in a single game. Tuesday, Peters-
burg will meet a team yet to be
named, playing the first game. In
the second game of the double bill
Tuesday the losers of the Sunday
games will meet.

Wednesday the winners of the
Sunday game will play. It will be
necessary for a team to suffer two
defeats to be removed from the
tournament. The tourney will end Sep-
tember 3.

The Yanks boast one of the most
potent pitching staffs in the country
with backing from some of the
roughest sluggers. Other than John
Henry no other pitcher seems cap-
able of handling the Yanks and it
is doubtful if the big Negro can do
it twice in a row.

The admission will be 35 cents
for the double headers and 25 cents
for the single games. Games will
begin at 2:30 on double days and at
3 o'clock on single game days.

Construction Started On Minor's New Home

Construction of a new home for
Mr. and Mrs. Carl Minor on lots at
the corner of California and South
First streets was started last week
by S. F. Conner, contractor.

Mrs. L. D. Britton returned home
the latter part of last week from
Fort Worth, where she spent sev-
eral days on a vacation visit with
her brother.

COMMISSIONERS AND JUDGE TO GO TO AUSTIN SOON

County Judge Clifford Tubbs and
the Floyd County commissioners will
leave Wednesday morning for Aus-
tin where they will meet with the
state highway commission in an
effort to complete the paving of
Highway 207 to the Briscoe county
line.

While in the southern part of the
state the judge and commissioners
may go to San Antonio to inquire
further into the possibility of Floyd-
ada getting WPA assistance in con-
structing a municipal auditorium
and agriculture building.

School Time Draws Near For Pupils

Six Rural Schools Opened
Sessions on Monday
Morning

Six Floyd county rural schools
opened their doors Monday morn-
ing and began the 1939-40 school
year. They were Erick, Pleasant
Hill, Starkey, Sand Hill, McCoy and
Edgin.

At least six rural schools will be-
gin their work this coming Monday
morning. Those to begin are Fair-
view, Cedar, Baker, Allmon, Center
and Liberty. The remainder of the
rural schools will open on Septem-
ber 4 it is believed.

This week the county school board
has been busy setting bus routes
and making last minute appoint-
ments to begin the school year.
Miss Zaida Battey has been selected
to fill a vacancy in the South Plains
school system.

The board met in special session
Tuesday and appointed Tom Forten-
berry to fill the resigned vacancy
of T. P. Love as trustee of Cedar
Hill.

The following bus routes were ap-
proved. No. 1, Sand Hill Harmony,
Blanco, and Floydada. No. 2, Star-
key, McCoy, and Floydada. No. 3,
Lakeview to Floydada. Wednesday
the county board and County Su-
perintendent Clarence Guffee were
inspecting the routes in the north-
ern part of the county.

Floydada and Lockney public
schools will begin work on Septem-
ber 4, however juniors and seniors in
the Floydada high school must re-
gister and get all set on Friday,
September 1.

The coaches work this year is
considerably delayed due to a new
ruling by the Texas Interscholastic
League that no football equipment
may be issued or any official train-
ing begin for football before Septem-
ber 1. Both Lockney and Floyd-
ada schools will be materially af-
fected by the ruling.

Faculties for Andrews Ward and
Floydada High school are complete
although a number of resignations
and changes have been made. Sev-
eral of the faculty members have
arrived and are ready to begin
their school work. Coach and Mrs.
Odell Winter arrived Monday after-
noon from an extended visit in lower
Texas where Coach Winter attended
a coaching school.

Lois Fouts Resigns From Floydada High School on Thursday

Miss Lois Fouts, for the past sev-
eral years teacher in the Home Eco-
nomics department at Floydada
high school, resigned her position
last Thursday to accept the job of
home demonstration agent in Coch-
ran county.

Miss Fouts is expected to take over
her new job on September 1 and
will make her home in Morton.

Miss Fouts made many friends in
Floydada, and spent a great deal
of her time working with the girls
in the school.

Superintendent Walter Travis said
Wednesday night that no one had
yet been selected to fill the vacancy
and that the job was "wide open".

AT MINERAL WELLS

County Attorney John Stapleton
left early this week for Mineral
Wells where he will take a vaca-
tion for the next two weeks. Win-
fred Newsome is acting county at-
torney during his absence.

Floydada Future Farmers Enroute To Encampment

Thirty-five Floydada Future Far-
mers answered the roll call when
president Eddie Brown called the
chapter to order, Tuesday evening at
8 o'clock in the Agriculture class
room at the high school.

The chapter made definite plans
to attend the Crosbyton District
encampment beginning today at
Twin Draw Lakes near Post and
continuing through Friday. Man-
agers were appointed to see that
teams were entered in playground
baseball, horse-h

Editorial

THE BLESSINGS OF CUSSSEDNESS

How is the maize crop? Will there be plenty of forage feeds to run the county this year? We sincerely believe so and possibly a little to spare. A rain this week would cinch it. The cotton is coming along in many areas and there'll be some cotton to gin.

That is something to worry about as contrasted with the German farmer, merchant, banker, prince, who wonders if he will get a "card" sufficient for a scant meat supply or if his bread will be just black or will have straw mixed in it. Notwithstanding he lives in one of the most fertile areas in the known world.

The farmer in Floyd County who kills a bull calf and can sit in broad open daylight and think it is his own business would be "bootlegging" in Germany and sent to prison if caught up with. Watch to preserve your right to go ahead and attend to your own business. You belong to yourself now, you think, and possibly you do, sons of the Alamo and all that. But the sons of Goths who sacked Rome for the pure cussedness of it are now eating what a Charlie Chaplin mustached Austrian tells them to eat, and when.

FEDERAL OIL CONTROL

Floyd and most of the neighboring counties have no oil wells (yet) but they do have more than a passing or academic interest in the oil situation, including the shut down in several southwestern states and the insistence of Mr. Ickes that federal supervision of the oil industry should be undertaken.

Floyd County people should interest themselves to lend any support possible to opposition to federal control of the oil industry as such. An example of federal control of business is given by the situation of the railways which now do not operate their businesses but, instead, ask somebody in Washington what they can do. You are paying and paying dearly for your own or your father's folly thirty years ago when it was insisted that the wicked railroad be "controlled." They are being and you are paying—at least double.

NOT SO BAD, AFTER ALL

In many portions of Floyd county crops are so so. In other portions good almost to perfection. If you live in a dry streak, believe it or not, you have neighbors who are in clover, so to speak.

It's the same over West Texas. The Hesperian had something about this away back in March. However, the situation is much better this year than it was 30 years ago, we are told. There will be plenty and plenty of good feed, good bundles. Never saw West Texas area suffer much when there was feed in it to run the country. If you do not have plenty of feed there is a lot ripening now on many farms in easy driving distance. Don't overlook this fact in planning for cattle and poultry this winter and spring.

WHY THEY LIKE IT

McLean News—Politicians like the radio because their talk cannot be analyzed or cross-examined, and at the moment listeners seem to like to hear one-sided discussions, but usually they have to look at the next day's newspaper to tell what it was all about.

MARKET IS SORTER BAD

The market for hogs and eggs is sorter bad now, not to mention poultry, which is selling too cheap.

Right now eggs are begging. A fellow could fix up to store a few hundred cases, as his ability would permit, and make money selling them later on when the price condition is better. Any time anything is too cheap is a good time to own it. When it is higher than it ought to be is a good time to sell. We know all about how to make money!

GOOD AUGUST RESOLUTION

Now that you are home from your vacation you'll be rested up and ready to make a hand within a few days. Have you brought home with you any good ideas for the betterment of your farm, factory, or store or counting house?

In all parts of the county there are "jillions" of things to see that many, having eyes to see, do not see. It is these things that are not on display at the leading hotel or the down-town swagger store, that actually make the wheels go round. Out where the work is done is where they are.

If you didn't see any of these wonders that workers and working minds have under way, while on your vacation in 1939, resolve that 1940 will not be the same kind. Make your resolutions early.

THE PLACE OF YOUR BIRTH

Walter Winchell, in his broadcast Sunday night called attention to the fact that in America the youth of the land has a serious matter to worry about, namely whether there shall be one or two turkey dinners observing Thanksgiving. In Texas Governor O'Daniel has proclaimed November 30 Thanksgiving while President Roosevelt has proclaimed November 23 as a nation-wide date to be observed.

Mr. O'Daniel has in mind the football schedules to keep them straight, Mr. Roosevelt the retail business establishment to get more shopping days in between Thanksgiving and Christmas.

This temptress in a teapot contrasts with the worry of European youth who wonder whether they will be marching to Danzig before September ends or whether they will spend only 60 days in concentration camps.

3,000 miles difference in the place of your birth can make a lot of difference, Mr. Winchell opines.

GOAT HEADS GETTING BAD

Where it was the Russian thistle and the blue weed now its the "goat head" that is the threat to Floyd county cultivated lands. Even in the edges of pastures they are giving the farmers trouble.

Numerous reports that lambs have been hardly able to get about on their tender hooves have come along in the course finding out what folks are thinking and doing.

Other than intense cultivation, catching the burrs before they begin to mature, no solution has been offered that we have learned about. The problem is a serious one in several aspects—real to the actual man out there trying to control them.

Russian thistles and blue weeds still bother but they at least don't stick in anything but your pocket book.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

I no longer find amusing, the tale of the Arkansawyer who, when asked what he did said, "Well, I set on the gallery and sometimes I think, but most usually I just sit." So I sit in the shade of the tall oak tree and sometime I think.

But it is much easier just to look and hear and feel than it is to be bothered with thinking. My son's home is on a slope of a little tree-covered hill with a creek curving round the foot. The buildings of the sanitarium and the homes of the doctors are on either side of us. A big highway down into Mississippi bears its burdens of numberless cars.

The Frisco railroad is only a few feet away and giant engines snort and blow long, black streams of smoke, and puff out breath of steam, while their shrill whistle blows and bells ring for the crossing near. Like a mad beast, they seem to me, jerking their long stream of cars filled with travelers and baggage past me and rocking the ground where I sit and filling my ears with their thunder and my eyes with their soot.

Another big highway is near but I have to lie back in my chair and look up through the opening in the tree tops where a patch of blue sky in the background for swift planes of the air, making their dashing melody.

A little by-road leads to the school for the colored and school is now in session. Laughing children, singing boys and girls interest me as they go by. A colored man comes with the shelled peas and beans in pieces of old cotton sacks, uniformed maids go to white women's home for the days work.

The warm, moisture-laden air flows over me like a bath of warm water. A mist rises from the valley below and veils green trees in another wood.

We drove into Memphis the other night, to see the Vagabond King, played in an out-door stage. We sat at the foot of a grassy slope and seats gradually rising to the top. This was my first opera. The voices of the star, a Memphis girl, rang on the still night air as clear and pure as a bell, as a little stream tinkling down the wooded

FLOYD COUNTY 14 YEARS AGO

How times have flown from the Floyd County Hesperian published in Floydada fourteen years ago.

(Issue of August 27, 1925)

National interest is being taken in the winning of first place in one division of the state kitchen contest by Mrs. W. E. Miller of Sand Hill, according to Miss Mable Faulkner, county home demonstration agent. Numerous agricultural leaders, publications, and newspapers have carried re-prints of the story of Mrs. Miller's kitchen that appeared recently in the Hesperian.

Bids for the erection of a one-story brick and tile school building for the Antelope school district No. 20 will be received this week and next in the office of the County Superintendent Price Scott. The bids will be accepted until 2 o'clock, Saturday, September 4, Mr. Scott said.

Show cases and shelving for the new Baker-Hanna store being opened here this week were received this mid week and are being installed. The exact date for the opening has not been announced.

September 7—first Monday will be Trade's Day in Floydada, the people over the county should mark the date and spend the day in Floydada. The usual array of bargain events, as well as the distribution of the Trade's Day prize, will greet those who attend First Monday here.

Order for 157 shade trees for the new high school building were placed recently by the school board. The young trees will be about 8 feet high and will arrive sometime in September, according to Jeff D. Ayres, president of the school board. The trees selected are ash and sycamore said to do well in this section and to provide excellent shade.

Floydada public school will open Monday, September 14 although the school term officially opens on September 7. During the first week of school the teachers will be attending the Teacher's Institute at Canyon, as will all teachers of the county.

G. L. Fawver was displaying a stalk of cotton on the streets Monday that came from his farm ten miles southeast of this city in the Baker community. The specimen was three feet high and carried eighty-one squares that would produce. It had 15 grown bolls. Mr. Fawver stated that he had 150 acres cotton like the sample he was carrying and that he has 250 acres on his place. His crops are looking good, he said.

Mrs. N. A. Armstrong, who already has a big investment in rent houses in Floydada has under construction another house this week.

The new residence which will be occupied by Mr. and Mrs. Edd Johnson when completed, is located on West Kentucky street.

hill. All too soon it was over and the king and his court in his costume of beautiful, glowing colors and the melody of the song were ended.

While you read this, do not be surprised if an acorn, dropped from a fat sassy squirrel, plumps down on your head, from where he is sitting 60 or 70 feet above you.

Perhaps a flash of flame from the red bird will add a bit of color to the letter of black on the white page. Your ears may be filled with the drumming of a wood pecker drilling for a worm. Or you may see the dimpled hand of a dear little boy or hear the tinkling laugh of a dear little girl as they play in the yard near grandmother.

I have just returned from a walk. It is early in the morning. I awoke early dressed and slipped out the back door, barefooted with my shoes in my hand. As I was writing, the call of the creek came so urgently that I put down pencil and paper and sallied forth. I saw a sweet-scented tree, hard little 'possum grapes swinging from green branches, a thicket of ripe elderberries, like a huge brooch of jet beads. (A passing maid told me they made the best wine and she would ask her sister-in-law if she had any for me to taste "You'll be a 'walkin' early," she said.)

I smelled—honeysuckle and sweet, wild roses; I heard—a jay-bird scold; a squirrel chatter—the cheery bob white, and the song of the cardinal. I felt—happiness to be with my loved ones, a delight in the beauty of the trees and grass covered slopes and vine-covered creeks.

Yesterday my son and I had dinner with Mrs. Holeman. A lady whose friendship I have made on my visits here. "I like dinner in the middle of the day instead of lunch," she said. And so did we.

Gracious and hospitable our hostess sat at the head of the beautifully laden table. Southern fried chicken and gravy, corn pudding, tender lady-peas, candied potatoes, as only southern cooks can make. Crisp vegetable salad, tomatoes, (are you getting too hungry?) corn bread, hot rolls with fresh butter, and cold buttermilk. Then the dessert—ice cream and jellied cinnamon-flavored apples with dark fruit cake. The ice cream dish with lion's head on handles—the kind you read about in magazines and never expect to see.

I remarked that I was glad that my son was a doctor, so that in event I had eaten too much he could wait on me. My son remarked that he didn't think he would be able.

The home of my friend has been built over one hundred years. Large oak trees and pine in the yard. One stately oak has a diameter of 12 feet. We ask the maid, Pearl, how to make the delicious apples. "Jes' put 'em in a pan, po' a little water on 'em and bake 'till they is a jelly, that's what they ah."

Long will this delightful meal be remembered, my first one, not counting my son's.

I am getting almost too lazy to move, even when the sun finds a hole in the trees and shines in my face. I can hardly get up and run after two pairs of study, brown legs disappearing round the blue spruce trees, or running down the walk toward the unfenced railroad tracks.

Oakville, where my son lives, is a suburb of Memphis. Here is where the sanitarium is located. Shiny, little children dressed in shorts, run and play in the sun, shade and in the shadows. Men and women rest to regain lost health.

A freight train passes—the engine laboring to pull the 50 heavily laden cars. Cars marked . . . automobile . . . Pacific fruit . . . ones laden with black coal . . . from the mines . . . others with straight long poles from the forest. Big black tanks of oil. No! America cannot do without her railroads!

The forest choir is dying down. The squirrel has quit dropping acorns. He must be asleep. The little boy is asleep also. I have quit thinking. I'm just sitting.

Mr. and Mrs. Raymond Terry and twins Charles Ray and Joy Paye, and Waymond Terry and small daughter Charlotte were guests of Mrs. C. F. Lincoln, Betty and Barbara Terry and Mrs. W. D. Newell and family from Saturday until Tuesday.

Frank Collinson Gives Bits Early So. Plains History

Indian Fights, First Dance, And Cattle Drives Are Recalled

(Ed. Note.—Here is some history you could put away in your scrap book. Frank Collinson knows more and remembers more than any old timer who ever made his home in this section about things that happened 50 to 60 years ago in the plains. He wrote to R. B. Smith, did in his story, "It Happened in 1877," that came out in Ranch Romance about 2 years ago. Also "The Fight at Laguna Plata Silver Lake," Captain Lee with part of the 10th Company Cavalry and twenty Tonkawa Indian scouts were in both scraps. Had 3 privates and 1 sergeant killed, 7 buck Indians and 1 squaw killed, several soldiers wounded. That was June, 1877. They were all buried near the southwest end of the lake. At that time there was a fairly good spring and a few hackberry trees there. I read in the papers a few years ago some settlers had dug out some of the bones. Said they were horse thieves hung there. The draw had washed out. That was how the bones were exposed. Could not be much left after 62 years.

I can't see how I can be in Blanco Canyon the 17th and 18th of August. I am leaving here for San Francisco to spend all this month. I do not see how I could tell more than I see in my story. "It Happened in 1877," that came out in Ranch Romance about 2 years ago. Also "The Fight at Laguna Plata Silver Lake," Captain Lee with part of the 10th Company Cavalry and twenty Tonkawa Indian scouts were in both scraps. Had 3 privates and 1 sergeant killed, 7 buck Indians and 1 squaw killed, several soldiers wounded. That was June, 1877. They were all buried near the southwest end of the lake. At that time there was a fairly good spring and a few hackberry trees there. I read in the papers a few years ago some settlers had dug out some of the bones. Said they were horse thieves hung there. The draw had washed out. That was how the bones were exposed. Could not be much left after 62 years.

Bull Whackers Death
Our boss bullwhacker, Foster by name, was the first man I knew to be buried near where the rock house now stands. He was just back from Ft. Griffin. Had a case of measles. He drank a tin cup of cool oil, died next day. Two of Taker's men were next. They were killed when the canyon was blown up to pieces, July 4, 1877. I was camped on the plains between there and the head of Tongue river. If you write me again please tell me if Jake Rains is still alive. He went to work for the Spur outfit about the same time Van and Frank Leonard did. Captain Arrington and his rangers moved on the east side of Catfish 1880 from old Phantom Hill. That summer the first dance came off at the old rock house. The girls there were Mrs. Creed De Grattenreid, Del and (Dine?) Browning, and a cousin of theirs, McCarty. They are all dead except Del Browning, who now lives at Alamo Gordo, New Mexico.

I saw your uncle, (R. B. Smith's uncle) Andy Boyle, during the Lincoln County war. I believe he died at White Oaks, New Mexico.

Our main camp was at Camp Swan, General Meckenzies supply camp up to the summer of 1874. Foster was hauling hides from the canyon to that camp—three 6-yoke teams, trailed wagons, three whackers. The first time I went up the canyon on the old Mexican Buffalo Hunters' trail just at the head of the canyon there was still standing several Indian hide teepees. One was painted or dyed blue. The Indians had left in a hurry. That trail went up Running Water draw by Spring Lake, Alamo Mocho Portales Spring on to to Summer.

The Parish Cox Quaker colony located at Estacado the fall of 1879. Charlie Connelly, land locator and surveyor from Eastland, located them. He also located the Parson Graves colony at Hale Center, 1877. A party of Indians came near taking them in on the East Fork of the Yellow House draw at Eagle Spring—"It's the Blackwater draw."

Indians Jumped Them
This past spring I had a letter from the Rev. John Calvin Goddard, of Salisbury, Conn., asking me to put him right on the location of Hale Center. He was coming to Texas to lecture on "Four Years in Texas." He was with old Parson Graves when the Indians jumped them. He got so badly scared he did not stop until he reached home and Connecticut. I gave him all the necessary information and he lectured from Houston to Dallas. He is now 88 or 89. I am enclosing you one of his writings (pioneering in Texas). Seems like he's a decent old Bible puncher. But that small band of Comanches sure put the fear of God in him, turned parson.

Well, I hope you have a nice time at the old camp. August, 1894, I crossed the canyon with 4,000 stock cattle. When the lead cattle struck Catfish at the old ranger's camp the tails were still on the Caprock west of the old house. I was driving to Salt Fork of Red River. **Knew Charlie Hawse**
I knew old Charlie Hawse. He cooked in several buffalo camps. The last time I saw him he came to see me in Clarendon. I gave him a good Colt's pistol. No doubt some of you folks wonder how old I am. I was born November 13, 1855. I can ride like I could years ago, and can still kill my buck 400 yards and neither use rest sticks nor glasses. I believe old Charlie Hawse came from California with your father (Hank Smith). Your grandfather Boyle raised several fine Collie sheep dogs at Griffin and Jacksboro.

Mrs. Fred Battey and daughter, Zella, Mrs. R. C. Watson, Mrs. J. R. Evers and daughter, Marinell and Mrs. O. R. Custer returned home last mid-week from an extended visit in Tennessee, Alabama and Mississippi.

4-H Club Boys Go To Silver Falls Camp

District 2 4-H Club camp was held at Silver Falls, on August 21, 22, and 23.

Floyd County 4-H boys attending this camp were Jackie Myers and Leonard Harper of the South Plains community and Kenneth Cates and Frank Jeter from the Sand Hill community.

The boys accompanied by County Agent, D. F. Bredthauer, left Floydada at 9 o'clock Monday morning.

Among the speakers at this three day encampment were Congressman Geo. Mahon, K. J. Edwards, district agent, L. L. Johnson, state boys' club leader, Clifford B. Jones, president Texas Tech, A. B. Davis, Lubbock Chamber of Commerce, R. R. Reppert, entomologist extension service, and G. G. Gibson, assistant dairyman extension service.

SUNNY SIDE HOME D. CLUB MET WITH MRS. HILL FRIDAY

"Purpose of the dresser scarf" was the topic of discussion by Mrs. Dean Hill at the meeting of the Sunny Side Home Demonstration Club Friday, when they met with Mrs. Hill as hostess.

"The purpose of scarfs is to protect the surface used; deep ecru or cream colors bend in with darker woods better than white and presents a decided contrast. In many rooms natural colored linen is desirable," the speaker said.

Mrs. W. M. Spears and Mrs. Herbert Sims were added to the roll as new members. Others present were Mrs. W. A. Lovell, Mrs. J. B. Bishop, Mrs. R. B. Calhoun, Mrs. W. C. Sims, Mrs. S. J. Latta, Mrs. C. B. Sims, Mrs. J. A. Hartsell, Mrs. Galen Holland, Mrs. T. B. Wilkinson, Mrs. Will Walker and Miss Modena Hartsell.

Visitors were Mrs. Morris Mara, Mrs. Frank Youkum, Mrs. W. B. Jordan, Lyndel Spears and Alice Latta.

The club will meet September 1 with Mrs. Latta as hostess.

DOUGHERTY H. D. CLUB

"In cutting your dresser scarfs have them equal distance from all edges," Mrs. C. E. Bartlett told members of the Dougherty Home Demonstration Club in the meeting August 15 at the home of Mrs. Lewis Blum.

"Dresser scarfs can be made neat and attractive by using Italian hem-stitching of fagoting and miter the corners, they are best made of linens that will laundry well."

A short business meeting was held with Mrs. C. A. Caffee in charge. "Seeing beauty in line and color" was also given by Mrs. Caffee.

The club will meet Monday, September 4, instead of Wednesday. The meeting to be at 3 o'clock with Miss Edith Wilson present to give a demonstration on an attractive way to serve tomatoes in any meal. The meeting will be held at the home of Mrs. Bill Norman.

Refreshments were served to Mesdames J. E. Newton, C. A. Caffee, Sam Lide, R. T. Jones, Bill Norman, C. E. Bartlett, M. S. Hudson and Claude Ring. Mrs. W. A. Stewart was a visitor.

WHY Humble Oil & Refining Co. Reduced the Price of Crude

This statement is published as a paid advertisement by Humble Oil & Refining Company for the benefit of those who are interested and not acquainted with the facts.

On August 11 the Humble Company posted reductions in the prices at which it purchased crude oil in Texas and New Mexico by amounts ranging from 5c to 32c per barrel, and averaging 18.5c per barrel. In view of the fact that this action on our part has been severely criticized before the public, we outline below the facts and reasons on which it was based:

1. On August 1 the quantities of crude oil listed below, aggregating 218,920 barrels daily in Texas, Louisiana and Arkansas, were moving to market at prices substantially below the Humble's postings for similar crudes:

AREA	BBLS. DAY
Texas—	
West Central	37,000
Gulf Coast	22,600
Southwest	16,900
East Central	12,800
East Texas Field	6,850
Panhandle	1,500
Total Texas	97,650
South Louisiana	81,920
North Louisiana and Arkansas	39,350
Total	218,920

2. The amount of crude moving below Humble's postings was greatly increased when on August 10 the Sinclair-Prairie Company posted a reduction of 20c per barrel affecting the oil produced and purchased by it in Texas, New Mexico, Oklahoma and Kansas, which action was followed immediately by reductions in the price made by a number of smaller purchasers. These reductions applied to more than 150,000 barrels of oil. This, added to that mentioned in the preceding paragraph, equals 368,000 barrels. In the three States in which Humble operates, Texas, New Mexico, and Louisiana, the aggregate volume of oil moving below Humble's prices approximated 17 1/2% of the total current production in those States.

3. The movement of constantly increasing quantities over the past year or more of crude produced in the new Illinois fields, reaching a total of 300,000 barrels daily on August 1, on a price basis substantially lower than Humble's postings in its territory, exerted a progressively depressing effect on the crude oil market. The effect was felt in Texas; and actually since April 1 Humble has lost 10,000 barrels per day of business absorbed by Illinois crude. This loss of business was in addition to that lost by Humble as a result of the movement of crude at low prices in the territory where we operate.

4. On August 11, therefore, the total volume of oil moving at prices below those of the Humble was approximately 668,000 barrels.

5. The crude oil market has been under pressure for more than a year. The price adjustments made last October did not remove fully the disparity between Humble's prices and those of some oil moving in its markets. Since that time the volumes of crude moving below our prices have increased steadily, with the result that when the reductions of Sinclair-Prairie and others came on August 10, affecting approximately 150,000 barrels of crude per day, conditions were so bad that we were compelled to reduce our prices to meet this competition. In no case are our new postings lower than the Sinclair-Prairie postings for similar crudes.

6. The Humble Company is primarily a producer of oil. Its crude oil properties constitute its principal asset. Its net production averages 133,000 barrels a day. We are also crude oil merchants and purchase, at our posted prices, 251,000 barrels of crude oil daily in Texas and New Mexico. These prices also govern the price at which we sell the oil which we produce. Because of our large production we are vitally interested in the maintenance of fair prices.

Our refineries consume something near the amount of oil which we produce. As a consequence, with respect to our purchases we are in the same position as a merchant dealing in any commodity. To continue in business, we can not over a long period of time pay higher prices than our competitors. We are compelled to meet competition. The price of oil, like that of other commodities, is subject to change with market conditions. These are simple and fundamental business principles. We were reluctant to cut the price of crude, not alone because of its adverse effect on our own earnings, but also because of its effect on our customers and upon the industry and the state at large. Under these circumstances, we could not continue to pay the prices we had been paying.

7. As a matter of policy the Humble Company maintains stocks of crude oil very slightly in excess of the amount required as working stocks to carry on operations. We do not believe in storage of oil above ground but in production of oil currently as required for market. We do not speculate in oil. We have no desire to buy oil at any price to accumulate for storage.

8. We think the price for oil brought about by the competitive conditions above mentioned is lower than should be realized. In our opinion the flood of oil from Illinois and Louisiana, most of which is being produced wastefully, in violation of conservation principles, is primarily responsible for the market conditions which necessitated our price reductions. It is our hope that these conditions will be corrected and that the market will improve.

Mrs. Brown Honored With Party-Shower

A group of hostesses entertained with an informal social and miscellaneous shower Monday evening at the home of Mrs. Homer Steen as a courtesy to Mrs. Jessie Brown, who lost her personal and household goods in a fire recently.

Hostesses for the enjoyable social were Mesdames Steen, W. Luther Fry, E. P. Nelson, Jack Henry, Maud Burrus, Walton Hale and Miss Louise Hyatt.

The house was attractively decorated with cut flowers.

Mrs. Steen greeted the guests assisted by Mrs. Henry, Mrs. Nelson presided at the register, a pretty hand made book with a flower sketch on the cover.

Mrs. Fry and Mrs. Hale served punch and cookies from the dining table laid with a linen and lace cloth. The crystal punch bowl formed the center with a wreath of zinnia golds and fern, in the honor-ee's favorite colors of orange and deep yellow, arranged around the bowl. Small corsages of the same flowers tied with white ribbon were used as plate favors. Yellow punch with deep yellow and green ice cubes was an added attraction to the table.

When the shower was presented a number of comic gifts added to the useful gifts created amusement.

Antelope H. D. Club News

Thoughts, ideas and recipes gleaned by our own agent, Miss Wilson, and other Floyd county representatives at A. & M. Short Course this summer were discussed and this summer were discussed and practiced when the Antelope H. D. club met in the home of Mrs. G. R. May on Wednesday afternoon.

Miss Wilson displayed an attractive and convenient dressing table made for only a few cents plus a little time and effort. She used various types of scarfs demonstrating color harmony and more modern trends in stitching finishes. "Scarfs may be neat and attractive without long hours of tedious labor" advised Miss Wilson; "Good quality linen, which is made of smooth round threads is the best material for dresser scarfs, and is the most economical in the long run, however many other materials may be used most effectively."

Favored edgings were discussed and Miss Wilson gave demonstrations on Italian hemstitching and Bermuda fagoting. Club members were especially enthusiastic about the latter since it is not only neat and appropriate for many articles, but can be made with ease and rapidity.

Piano selections given by Mrs. G. R. May were much enjoyed by members and guests. Guest prize presented by the president Mrs. W. S. Poole was drawn by Mrs. Tom Boyd. The hostess served lovely and re-

Mr. and Mrs. Winter Home; Football Fans Await Practice Call

Mr. and Mrs. Odell Winter and son returned Monday afternoon from Houston, Brownwood, and Abilene where they have been spending the past few weeks attending a coaching school and visiting.

Coach Winter attended the coaching school held at Rice Institute, Houston, seeing the football game between the North and South high school all-star teams. He said Thayne (Red) Amnett, former Plomont back was undoubtedly the outstanding back on the field in spite of the fact that star backs from any number of Class AA schools were present.

"We coaches learned that it is absolutely against interscholastic league rules to begin football training, issue football equipment, shoes, or even a ball before September 1," Winter said. "The coaches are pretty much against the new rule because it gives such a short training season before the first game."

"Winter indicated that football equipment, complete, would be issued early Friday, September 1, and that two workouts daily would probably be held until school opens. Meanwhile, "it's up to the boys to get into shape," the coach said.

freshening plates, the drink was Grape gingerale, one of the favored recipes of Miss Nora Ellen Elliot, State Extension Specialist in food preparation.

The next meeting of the club will be Sept. 1, with Mrs. J. A. Dunn, the lesson will be on "Attractive ways to serve tomatoes in any meal."

Loan Assn. Meet Sept. 2 Planned

Joe Breed, Asst. Secretary
Federal Land Bank, will
Address Assembly

The Floydada National Farm Loan Association will hold its annual stockholder's meeting Saturday, September 2, at 9 o'clock a. m. in the district court room. Meetings have heretofore been held in January of each year, but due to weather conditions at that time, the date has been changed to September 2 each year.

A special effort has been made by the Secretary-Treasurer and Directors to insure a large attendance at the meeting. All land bank and land bank commissioner borrowers and their wives have been invited to attend. In addition to the various reports, which will be made by the Secretary-Treasurer and the Directors, other interesting features for the meeting have been planned. Joe Breed, former Secretary-Treasurer of the Association, and now assistant Secretary of the Federal Land bank, will be present to address the stockholders on bank

CITATION.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Floyd County, Texas, GREETINGS: YOU ARE HEREBY COMMANDED TO SUMMON - J. K. Gwynn, Mrs. M. H. Harkey and her husband, T. G. Harkey; Bertia Conner and her husband J. B. Conner; Viola Simpson and her husband W. P. Simpson; Jessie Crego, and her husband W. G. Crego; Sam Harkey; Myrtle Waldrup and her husband W. W. Waldrup; Myrtle McMullin and her husband W. W. Waldrup; Myrtle McMullin, (whose given name and initials are unknown); J. K. Gwynn; Caroline V. Price; James B. Price; and P. H. Ashmead, to be and appear before the Honorable District Court of Floyd County, Texas, at the next regular term thereof, to be held at the Court House at Floydada, Texas, on the 2nd Monday in October, A. D. 1939, same being the 9th day of October, A. D. 1939, then and there to answer the Plaintiff's Original Petition filed in a suit in said court on the 15 day of August, A. D. 1939, wherein Mrs. Lora R. Farris, a feme sole, is Plaintiff and the following named persons are defendants: Mrs. M. H. Harkey and her husband T. G. Harkey; Bertia Conner and her husband J. B. Conner; Viola Simpson and her husband W. P. Simpson; Jessie Crego, and her husband W. G. Crego; Sam Harkey; Myrtle Waldrup and her husband W. W. Waldrup; Myrtle McMullin and her husband W. W. IMAGINE doing your cooking in mirrors

Sounds funny, doesn't it? But electric cookery is so clean that it will not smudge even a mirror! Kitchen walls and curtains stay cleaner and fresher—which means money saved on kitchen decorations. A Westinghouse range will brighten up the whole kitchen... and for the rest of the story—look in your own mirror after cooking a meal!

Autos Took 32,000 Lives In 1938 Say Records In Dept.

Figures Compiled by Department, Public Safety Shows Accident Rates

The department of public safety released a few statistics showing the accident rates over the United States during the year 1938 in relation to vehicle, speed and etc.

In 1938 motor vehicle accidents took 32,000 lives, while 1,145,000 were injured. Of this number 8,410 met death on account of exceeding the speed limit while 198,050 were injured from the same cause. The percentage of those killed on account of speeding increased to 39.6 per cent from 36.8 per cent in 1937, and from 32.6 per cent in 1936.

Of the 37,250 vehicles involved in accidents, 34,430, or 92.4 per cent were in good shape, the only weakness was the driver. Eighty-four per cent of fatal and 82 per cent of non fatal accidents occur when the weather is clear.

Seventy-seven per cent of fatal and 75 per cent of non-fatal accidents occur on dry roads. Of the largest, fatal accidents are on the open roads. Thirty-six per cent of all motor car accidents occur on open highways. Cars going straight ahead and on open roads killed 27,140 in 1938, while injuring 873,790.

The department calls to mind the mathematical formula which shows that a car going 25 miles per hour will likely turn over only once, in case of a sharp turn, at 35 miles twice, at 43 miles three times, at 50 miles four times. At 80 miles per hour the average car will turn over 10 times it is estimated.

The department figures show that more experienced drivers have accidents than inexperienced. It is indicated that the experienced driver becomes careless due to his belief in his ability to handle any situation which may arise and will therefore take chances that the novice will not attempt.

Sunday School Lesson

International Sunday School Lesson For Aug. 27, 1939.

Uzziah: A King Who Forgot God Lesson Text: 11 Chronicles 26:3-5, 16-21.

Golden Text: "Everyone that exalteth himself shall be humbled, but he that humbleth himself shall be exalted" (Luke 14:14).

3 Sixteen years old was Uz-ziah when he began to reign, and he reigned fifty and two years in Jerusalem. His mother's name also was Jec-o-liah of Jerusa-lem.

4 And he did that which was right in the sight of the Lord, according to all that his father Am-a-ziah did.

5 And he sought God in the days of Zeh-a-ri'ah, who had understanding in the visions of God; and as long as he sought the Lord, God made him to prosper.

16 ¶ But when he was strong, his heart was lifted up to his destruction: for he transgressed against the Lord his God, and went into the temple of the Lord to burn incense upon the altar of incense.

17 And Az-a-ri'ah the priest went in after him, and with him fourscore priests of the Lord, that were valiant men.

18 And they withstood Uz-ziah the king, and said unto him, It appertaineth not unto thee, Uz-ziah, to burn incense unto the Lord, but to the priests the sons of Aaron, that are consecrated to burn incense: go out of the sanctuary; for thou hast trespassed; neither shalt it be for thine honour from the Lord God.

19 Then Uz-ziah was wroth, and had a censer in his hand to burn incense; and while he was wroth with the priests, the leprosy even rose up in his forehead before the priests in the house of the Lord, from beside the incense altar.

20 And Az-a-ri'ah the chief priest, and all the priests, looked upon him, and, behold, he was leprous in his forehead, and they thrust him out from thence; yea, himself hastened also to go out, because the Lord had smitten him.

21 And Uz-ziah the king was a leper unto the day of his death, and dwelt in a several house, being a leper; for he was cut off from the house of the Lord; and Jo-tham his son was over the king's house, judging the people of the land.

Introduction The subject of this lesson suggests the same line of thought that has been presented throughout the quarterly, the most prominent of which is that as the king is, so are the people. Another is that while the king honored God, Israel prospered; but when he forsook God he was captured or killed, and the people carried away captive. Also a weakness has been shown on the part of kings to go after false gods, or idols. Thus we are enabled to see the danger and temptation that comes to those in high stations, and how politics may lead people astray. We say that this lesson presents the same general truth, but puts it in a little different light, or shows it to us from a different angle. Though this difference, the results of such tactics are just as disastrous.

Mrs. R. S. Patton and daughter Hazel, returned last week from a vacation trip to Clovis, Artesia and Carlsbad New Mexico. While at Carlsbad they spent the day at sitting Bull Falls, a historic, and beautiful place 50 miles Southwest of that city.

As I See It

Thanksgiving Day

All the hullabaloo about President Roosevelt moving the Thanksgiving date one week up seems unnecessary and a lot of hokum. The way some of the daily papers took on, a person would have thought war would be declared on the date or something. Seems to me the date on which Thanksgiving falls matters little, but the attitude of thanks and appreciation the people of the nation take does matter. It is the spirit with which we observe the holiday which counts and not on the date on which that day comes.

Personally, it seems that moving it up a week will be a lot better for a lot of people and so far as we can see no one will be seriously damaged... we shouldn't complain if the turkey don't.

Thompson Tells'em

"Red" Thompson, head knocker on the railroad commission, sort of called the straight flush that the oil companies thought they held.... "Red" seems to have only a pair of "Jacks" (Sadler and Davis) in his hand but after all he packs the razor... and that is what counts in this game.

We sort of think Thompson showed W. Lee O'Daniel how to pay the pensions without resorting to the sales tax. It seems that the oil companies could afford to pay 5 cents per barrel tax on their crude oil if they can afford to toss 20 cents in the discard because of a price war.

Far be it from us to say so, but perhaps O'Daniel dabbles in other things than flour and hesitated to step on the toes of the powerful oil companies... knowing of course that they didn't listen to his Sunday morning radio session.

Anyway "Red" Thompson gave O'Daniel, the oil companies, and the State of Texas something to chew on.

More to College

If all the boys and girls that plan to go to college this fall make the ripple, Floyd county should have a record number of students off to school. It may be that the folks of the county are more prosperous and can afford to send the "youngsters" off to get some "learnin'".

It may be that a lot of them are willing to go and work their own way toward a sheepskin. No matter, it is a worthy thing to tackle... it may be that out of this year's group going away to school will come a great engineer, home economist, agriculturist, scientist, or athlete... one success is worth the time and the money spent... power to 'em.

Nothing to It

Gordon (High-Pockets) Patterson denies emphatically that he has anything resembling a "weak heart", so described in last week's rumor column. Gordon says the story got started during a "kidding" session on a street corner and that there is nothing to it... that he'll be in the trying for a starting berth on the Whirlwind club.

Naturally, everyone is plumb glad that Gordon is okay and that he will be in uniform this season again... and no one will be surprised to see him playing regular ball in the backfield.

Yard by Yard

While talking to Hill, Lockney's great back, we hooked on to the idea the he is going to major in textile engineering at Texas Tech. If he makes as many yards of textiles as he did on the gridiron last fall the cotton surplus will soon be whittled down.

It is also said that Brotherton and Williams will try their fortunes at Tech this year... just who else from last year's team will land there is not known.

Jimmie Willson will try his arts at SMU, tis said. Mal Jarboe hasn't made his plans but is considering Tech, but may skip this year and go next.

It is said that some folks down at Roaring Springs ruined George

30,000 Bale Export Experiment By USDA

Department Selects Victoria as Area from Which Export Cotton Will Be Shipped Over Sea

COLLEGE STATION, August 14—The U. S. Department of Agriculture has selected the Victoria area as the source of the Texas cotton in the Department's 30,000 bale export program, now in its second year of operation.

The 30,000 bales of uniform, carefully picked and properly ginned cotton will be selected by the Bureau of Agricultural Economics, E. A. Miller, agronomist of the Texas A. and M. College Extension Service, has been advised.

The bales will be covered with cotton bagging and samples will be taken at the gin press box, Miller said. Information as to the variety, grade, staple, and point of production will be made available to foreign buyers. The best of care will be used in compressing and shipping.

Representatives of the USDA will trace the bales through to the foreign mills in order to get comments from the spinners. Reports from a similar program in 1938, handled by the AAA, have been gratifying. Typical is one from an Italian spinner, who commented, "I will pay a premium on this cotton and all like it."

"In recent years, foreign spinners have complained that American cotton has been carelessly packaged and handled and that grade and staple in some bales was not uniform," Miller said. "There have been lots of complaints, of course, over the general deterioration of grade and staple. We must blame our lack of quality for at least part of our loss in cotton exports. This experiment is an attempt to show that America is making an effort to produce and handle correctly a quality cotton."

A by-product of the experiment will be information gathered by governmental experts on the cost of handling cotton correctly and the profit that may be expected through extra efforts.

The 14 one-variety cotton blocks in the Victoria area involve 27,501 acres of land and 689 farmers, Miller said.

Fry's, et al, appetite for watermelons one night last week. The boys are down at the swimming pool training on their own hook for the opening of football training on Sept. 1.

ler reported. The cotton for the export experiment, however, will come from the 11 blocks planted to Acala so that all the cotton will be of the same variety.

Selection of the Victoria area as the source of the Texas contribution to the experiment hinged on the concentration of cotton for sale there. The cotton in the quality area is pooled and sold through a central sales office so that buyers have an opportunity to look over large amounts of even running lots of bales.

C. B. Barre, associate marketing specialist of the USDA, stationed at Victoria, said the government hoped to get some 5,000 bales there for federal experiment. In order to get even running lots of cotton, selection of bales for federal exports will be restricted to four grades. The central sales office is expected to handle between 12,000 and 15,000 bales of cotton from the 14 blocks.

The cotton in the program will be handled by cooperating exporters. The Texas Cotton Co-op has been designated as the Texas shipper.

Mrs. B. M. Wilkinson and daughter Clea of Fort Worth and Mrs. Clarence Johnston of Plainview are here on a two weeks visit with relatives having arrived Tuesday of last week. They are guests of Miss Myrtle Wilkinson, T. B. Wilkinson and family and Mrs. Alta Johnson.

Motley-Dickens Old Settlers Reunion To Begin Today, Friday

Ten thousand persons are expected to be on hand for the Motley-Dickens county old settlers reunion that will be held today and tomorrow at Roaring Springs, President C. C. Haile said.

A pioneer parade will lead off the activities at 10 o'clock this morning with appropriate prizes to the various winners in the parade. Memorial service for pioneers who have died during the past year will be conducted immediately following the parade near the pavilion.

During the afternoon a string band will provide musical entertainment while various groups compete in "Virginia reel" and other dances at the platform.

Friday morning will open the social gathering when the old timers get their chance to sit around and talk of old times and enumerate their experiences. Dances and baseball games will make up the Friday afternoon program.

Each afternoon a rodeo program will be presented. Dudley's shows will be on hand also to provide entertainment and fun.

Miss Hamner Praises Book By Mrs. Spikes

Miss Laura V. Hamner, of Amarillo, whose interviews with interesting personage of the southwest have gained quite a vogue in the past few years, thinks the letters written by Mrs. J. J. Spikes is the best western book she has ever read.

Said Miss Hamner: "Stories of the Southwest have a special lure for me. I read all I can get my hands on. be they fact or fiction. Not long ago I found a little book written by Nellie Witt Spikes and I have never lost an opportunity since then to say that to me it is the best western book I have ever read. I wish that she would have it published in quantities so that it could be more widely read. Mrs. Spikes writes well and her story has the stamp of authenticity. I have read it several times, busy though I am."

Miss Hamner is the author of several books and her feature stories have appeared in numerous southwestern publications.

James Robert Conner's Foot Amputated After Fall From One-way Plow

James Robert Conner, 13 year old son of Mr. and Mrs. Jim Conner, was reported resting better Wednesday after the amputation of one foot in a Plainview hospital Monday.

James Robert was riding a one way plow which was being pulled by a tractor driven by his father. He fell under the plow and his foot caught under one of the discs. Mr. Conner carried his son a half mile to the house and rushed him to Plainview where the foot was amputated several inches above the ankle at a hospital.

The injured foot was almost completely severed from the leg, members of the family said. The heavy wheel of the plow passed over his back leaving scratches and severe bruises. His condition is considered favorable.

Hudson Holmes, son of Mr. and Mrs. S. L. Holmes, underwent a tonsillectomy Tuesday and spent one day at the hospital.

Little Sammie Lou, daughter of Mr. and Mrs. Vernon Norman was dismissed Wednesday from the hospital following a tonsillectomy.

Jean Wester, daughter of Mr. and Mrs. J. C. Wester is in the Floydada hospital for treatment. She has been quite ill for the past week but is thought to be some what improved this morning, according to hospital attendants.

H. A. Self is ill at his home this week and is being treated by local doctors.

Althea Hutcherson of Memphis is a guest this week of Maude Moore and other relatives.

A well-driven golf ball leaves the head of the club at 135 miles per hour. "It said this is only slightly faster than a golfer leaves his office."

Back to School September 4

In the past 30 years I have served the young men of the Floydada High School with high class merchandise, and have appreciated patronage and courtesies extended me by the young men who have gone out into the world of business and professions to make a place for themselves and to those boys I extend my congratulations.

And now to the young men who enter the 1939 and 1940 term I extend to you a special invitation to make my store your headquarters you will find here just the type of merchandise which will appeal to the younger men, and to the students of any school.

Clothing will not make any man but they will be of great help to you. A man's appearance is about 90 percent of the battle in securing a position therefore it is important that you secure the quality for the least money possible. In my store you will find the best advertised lines of merchandise that can be secured. Come to see us, we will try to please you.

Very Respt.
