Look To The East

By AARON EDGAR

Begin tightening your belts, Good Buddies!

When you cast your free vote on November 4, when we received a new president, you didn't figure the after-effects would also be free, did you?

Within the next two weeks, you're gonna find out differently! The cost of changing presidents and staffs on January 20 is going to be without precedent!

Yes, sir! The cost of moving President Carter out of the White House and Ronald Reagan in is going to cost a cool \$3 million.

This amount Congress is expected to appropriate for the change -- this is for the executive branch -- \$2 million is allowed for Ronald Reagan's transition to the Oval Office.

Then the \$1 million that remains is to be shared by retiring President Carter and Vice-President Walter Mondale in their first six months out of office to bring an end to their official affairs.

The air fare, or travel costs, of moving Carter back to Georgia and Reagan from California to Washington will also be paid out of the \$3 million. Their staffs come in there, too.

The entire bunch cannot get everything for free! Out of their own pockets will come cost of moving their household goods and furniture into and out of the nation's capitol, according to some higher-ups.

Six months after Carter leaves office, he joins the roster of former presidents who are supported by us tax-payers in the amount of \$315,000 or better, a year each.

Walter Mondale, who in our opinion has made a splendid vice president, is kinda left out in the cold. He joins the ranks of former vice-presidents who receive no money from the U. S. Government -- not even a pension!

In the fiscal year that ended last September 30, \$318,213 of our tax dollars were spent in support of former President Nixon. Gerald Ford came in for \$375,181.

The estimated cost of supporting Jimmy Carter when he vacates the White House is \$107,000 for the remainder of this fiscal year and \$336,000 for the fiscal year 1982, which begins on October 1.

All three ex-presidents are eligible for annual pensions of \$69,630. Carter will receive \$150,000 a year for staff salaries for the first 30 months after leaving office; then, it drops down to \$69,000 a year. Ford and Nixon may claim the same amounts.

But the "grave train" does not stop there! All former presidents have a yearly travel allowance of about \$35,000, and the government also "chips in" for their office telephone bills, equipment, rent, postage, utilities, supplies and printing costs.

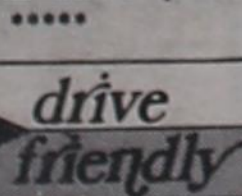

And this ain't hay! Ford's telephone bill was almost \$35,000, Nixon's was about \$15,000. Ford spent \$10,000 on postage. Nixon spent \$7,000. Ford and Nixon each billed the government \$60,000 for office space, about \$25,000 for travel expenses, and about \$5,000 for office supplies.

Ford billed taxpayers just \$249 for transportation of office items. Nixon submitted a tab of \$29,142 for moving his office staff and equipment from California to New York after he sold his estate at San Clemente.

We as taxpayers also help support two presidential widows, Bess Truman and Lady Bird Johnson, who each receive a pension of \$20,000 a year and postage costs that average about \$2,500 each. Jackie Kennedy gave up her claim to this when she remarried.

After all this, Good Buddy, we can begin to cast our thoughts and glances toward "economy in government." But don't get your hopes up too high: April 15, 1981, has to be reckoned with, too!

Looks like we'd better keep 'em in office longer, or wear 'em out quicker!

Junior Livestock Show Set For Friday, Saturday

GAS SAVERS, ALL: These young ladies had saved a "whole heap" of expensive gasoline with their vehicles when they had arrived in Munday around noon Wednesday, December 31. They were enroute from Los Angeles, California to Florida and had "clocked off"

around 1,500 miles when they arrived here. The girls are, from left: Judy Bersfoid and Heather McDonald, both of New Zealand, and Jeanette Moore of Los Angeles.

Young Ladies Come "Biking" Into Munday While Enroute To Florida

Three young ladies, dressed in shorts and sweaters, came "biking" into Munday on the morning of New Year's Eve. Theirs was a "bicycle tour" for pleasure, exercise and adventure.

Their destination was from Los Angeles to Florida, then two of them will travel up the east coast of Florida. Jeanette will part company with the others at Fayetteville, Ark.

The girls met while Jeanette Moore of Los Angeles, Calif., was an exchange student in New Zealand, and they did not reveal just how the idea of their unique trip originated.

At Haskell on December 30, the trio spent the night with Mr. and Mrs. Don Comedy, but they are prepared to spend the nights in roadside parks and other city parks. Their equipment consisted of a tent, stove, and one pot. They said they eat a lot of macaroni and cheese, Rice-A-Roni, and have scrambled eggs for a treat.

"We eat a lot," they said, "but we are at least exercising the pounds off again!"

The girls are: Heather McDonald, 22 years of age, of New Zealand; Jeanette Moore, 23, of Los Angeles, Calif., and Judy Bersfoid, 20, also of New Zealand. Heather and Jeanette have earned college degrees, while Judy is a college sophomore in New Zealand.

They left Los Angeles on December 1, 1980, and are "biking off" from 50 to 60 miles per day. They expect to arrive in Florida early in February.

Heather had done a lot of touring by bike in New Zealand, but this is a new experience for Jeanette and Judy. Their experiences are rewarding, and all three agree that they would do it all over again, if necessary. They recommend this mode of travel to anyone with little money, a lot of time, and a bit of determination.

"The people are really friendly," they said, "and Texas is a beautiful state to travel." They route their journey along

state highways and farm roads, steering clear of the crowded freeways.

In their 1,500 miles of travel, they have met five other bikers -- two from Great Britain, and one who was going from Miami, Fla., to Los Angeles, Calif.

Although their faces were tanned, they said the weather had not bothered them. The coldest they experienced was at El Paso.

Following their stay in Haskell, the trio stopped briefly in Weinert, where they met and talked with Douglas Myers, superintendent of the local schools. They shopped M-System in Munday for a supply of groceries and were soon on their way.

After they departed, M. L. Waggoner, publisher of The Munday Courier, decided he needed a story of their travels. He came upon them about mid-way between Munday and Goree, where they had parked their bikes and "spread the table" for a late lunch. As Waggoner arrived, they invited him to

"get out and pull up a chair" for a brief visit.

The girls gave their home addresses, just in case someone wanted to send them some fan mail. Here they are:

Jeanette Moore, 5409 Autry Ave., Lakewood, Calif., 90712;

Heather McDonald, Nelson, New Zealand, which is on South Island;

Judy Bersfoid, Auckland, New Zealand, which is the largest city in New Zealand.

Prior to arriving in Munday, the girls had 22 flats on their vehicles, most of them while crossing the desert of Arizona. They go equipped with all the necessary things to fix their own flats.

After discussion Hobert moved the following ordinance be passed. Hardin seconded. Voting for: Hardin, Hobert, Booe, and Smith. Noes, None. Carried. Full text of ordinance is as follows:

AN ORDINANCE APPROVING RATE SCHEDULES TO BE CHARGED BY WEST TEXAS UTILITIES COMPANY IN THE CITY OF MUNDAY, TEXAS, PROVIDING FOR AN EFFECTIVE DATE FOR SUCH RATE SCHEDULES, AND PROVIDING CONDITIONS UNDER WHICH SUCH RATE SCHEDULES MAY BE CHANGED, MODIFIED, AMENDED OR WITHDRAWN.

WHEREAS, on September 30, 1980, West Texas Utilities Company filed with the City of Munday a request for an increase of approximately 8.27% in rates to be charged within the City (approximately \$12,729,691 per annum on a systemwide basis); and

WHEREAS, the City having suspended the effective date of such proposed rate increase from November 4, 1980, and having considered the same at a public hearing, is of the opinion and finds that an increase in rates should be approved.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MUNDAY, TEXAS:

SECTION 1: That an increase in the rates, tariffs and charges of West Texas Utilities Company for electric power and energy sold within the City be approved in an amount such that the adjusted total systemwide operating revenues for the Company be increased \$9,547,197 per annum, based on the adjusted test year ending June 30, 1980, which constitutes an increase of approximately 6.34%. Such Schedules of Rates, as are approved in accordance herewith, are those under which said Company shall be authorized to render electric service and to collect charges from its customers for the sale of electric power and energy within the corporate limits of the City until such time as said Rate Schedules may be changed, modified, amended or withdrawn, with the approval of the City Council.

SECTION 2: That West Texas Utilities Company shall, within 10 days from the final passage of this Ordinance, file with the City a revised Schedule of Rates and Tariffs setting forth those rates, tariffs and charges based upon an increase in total operating revenues as prescribed herein. Such Schedules of Rates and Tariffs may be modified or amended by the City Council of the City of Munday within 20 days from the final passage of the ordinance, otherwise, the same shall be considered approved as

filed. Such Schedule of Rates and Tariffs, as the same may be modified or amended, shall apply to all power and energy used by each customer on and after December 15, 1980.

SECTION 3: The kilowatt hours used in designing the rates resulting herefrom shall not be adjusted for price elasticity.

SECTION 4: Fees charged for the use of the streets, alleys and public places within the City, up to 2% of the assessable revenues collected by WTU within the corporate limits of the City, shall be included within the Company's base rates. Any such use fee charged by the City in excess of 2% of the assessable revenues collected by WTU within the corporate limits of that city shall be allocated directly and surcharged to the customers within the corporate limits of the city.

SECTION 5: That the action of the City Council of the City of Munday enacting this Ordinance constitutes, on the date of its final passage, a final determination of rates for West Texas Utilities Company within the City of Munday in accordance with Section 43(e) of the Public Utility Regulatory Act.

SECTION 6: Nothing in this Ordinance contained shall be construed now or hereafter as limiting or modifying, in any manner, the right and power of the City under the law to regulate the rates and charges of West Texas Utilities Company.

SECTION 7: It is deemed imperative and of public necessity that this Ordinance be passed upon its first reading and it is hereby declared an emergency Ordinance and the rule requiring the Ordinance to be read on several occasions be, and the same is hereby suspended and this Ordinance shall take effect from and after its passage and it is so ordained.

The foregoing ordinance was passed after a negotiated settlement was made by Don Butler and others representing Munday and other cities and West Texas Utility attorneys and upon Mr. Butler's recommendation.

Next discussed by the Council was CenTex Cablevision service to Fir Street and adjacent areas. A new line is to be run to this area in January 1981 and persons living in this area are to be contacted personally by CenTex. Some people, living too far from the main cable would have to pay cost on a line building charge for excessive distance.

Street lighting was discussed. Some lights may need to be moved. Since street lighting has increased approximately 220% in cost under the new agreement, any additional lights will require careful consideration.

Smith moved for adjournment. Booe seconded. All for.

Munday boys and girls varsity basketball teams traveled to Aspermont on Friday, January 2, for a game while they were "off" for the holidays. With only a weekend of "freedom" left before school would again convene, they battled Aspermont with the Munday girls losing by one point. The boys lost to Aspermont 51-33, which was somewhat of a let down after being the winner of the Knox City tournament the weekend before the holidays.

Junior High girls and boys will play in a tournament at O'Brien Thursday (today.)

GIRLS BASKETBALL
By Coach Bill Dennis
In our 37-36 game with Aspermont, Munday lost in the last three seconds. We played a very good game with a seven point lead at half. We came back after halftime and experienced a cold third quarter which enabled our opponents to tie the game and go ahead of us by one.

We came back with a little cushion. With three seconds left in the ballgame, Aspermont girls had the ball on their end line and were one point behind. One long pass and a desperation shot from 25 feet did it for them, and the game was over.

It was a heartbreaker because I feel we outplayed them the entire game. The

Mogulettes played one of the best games defensively they have played all season. They finally began to get the concept of weak side defense which we have lacked and have been working on.

I also felt our offense was more aggressive than it had been, which made a good game offensively. Lisa Zeissel had 16 and Darla Myers had 10 for top scorers.

We will have played Stamford there on Tuesday night and will report it next week. On Friday, January 9, we play Goree here. We hope these games will get us in tune to open the district play with Crowell next week.

BOYS BASKETBALL
By Coach Rogers Lankford
Our boys experienced a typical "end of holiday game" and lost to Aspermont 51-33. We had too many turnovers and other mistakes. We also had poor shooting. Victor Shields was top scorer with eight points.

The boys will also face Stamford and Goree before opening district play.

Weinert Native Receives Merit Award From Dallas PD

Evelyn L. Mayfield, formerly of Weinert, recently received a Certificate of Merit award from the Dallas Police Department where she is an investigator, assigned to Vice Control Division, Drug Abuse Section.

She and investigator Ron Hale were cited for the recognition for their supervision of a three months narcotic operation in the Bryan Adams High School in Dallas, the city's largest high school. The school was chosen for the operation because the police department's intelligence indicated the school was a "problem school for dope". It was also selected because most of the 2800 students are from middle-class families. Enrollment includes 2400 white students, 194 black students and 223 hispanic students.

Investigators Mayfield and Hale were the only contacts for two rookie police officers who posed as students and infiltrated drug trafficking operations at the high school. The two police officers made 38 drug purchases from 30 people, 17 of them students.

The two rookie officers stated that they were first approached about buying drugs before they finished registering for classes. Their last buy on the last day of the 57 day operation, was in White Rock Lake Park when they were approached by three men, one 17-year-old student, one 19-year-old student and one 20-year-old, and asked if they wanted to buy 100 LSD tablets that they had to sell "right away". The officers bought the tablets for \$3 each and the men were arrested immediately.

Police said the officers bought bags of marijuana priced from \$45 to \$100. One juvenile was arrested who was trying to sell \$1600 worth of speed. The officers spent \$1,256.00 on seven types of drugs.

Grand jury indictments were returned against 22 persons, and eight juvenile warrants were issued by juvenile judges for the unlawful deliver of a controlled substance. Defendants' ages ranged from 14 to 39. Among those taken into custody was a 35-year-old woman and her 14-year-old son and 15-year-old daughter, both students at the high school.

Before the undercover officers entered the school, the success of the operation was being paved by the extensive indoctrination and training given them by their contact officers Hale and Mayfield.

EVELYN MAYFIELD, left, investigator for Dallas Police Department, is shown as she receives a Certificate of Merit for supervising a narcotic operation in Dallas' largest high school.

Contact officers Hale and Mayfield, who were instrumental in the selection of the undercover officer, fully briefed them on the aspects of working undercover, the Controlled Substance laws, buying drugs, and made them aware of the potential for controversy when it comes to undercover officers buying drugs from students.

Mayfield and Hale spent a great deal of time with the undercover officers during their off-duty hours, planning strategy and future targets.

Sgt. Thomas G. Sherman, of the Vice Control Division, stated in his nomination of the certificate of merit to Chief of Police Glen D. King, that the undercover operation was a success due to the combined efforts of the contact officers going to the extremes to ensure that the undercover officers were fully prepared to cope with any situation that might arise and react in a correct and positive manner.

He also stated, "The undercover officers provided with the knowledge from Mayfield and Hale, infiltrated their new environment with enthusiasm and confidence. They accomplished their assignment without any stigma of foul play or dishonesty. Since the operation has ended, both undercover officers, the operation itself and the Dallas Police Department has been praised by the major newspapers of the metroplex, concerned parents, Dallas Independent School District authorities and other police agencies."

Miss Mayfield is a 1966 graduate of Weinert High School and graduated from Hardin-Simmons University

Herman Laux, O.S.B., Former Pastor At Rhineland, Dies

Father Herman Laux, O.S.B., 69, monk of New Subiaco Abbey in Subiaco, Arkansas, for 49 years, died Saturday, December 20, at the Abbey, where he had been in retirement for the past several years. Father Herman was a former pastor of St. Joseph's Parish in Rhineland between 1941-45, and again from 1963-67.

A rosary service was conducted for Father Herman Sunday evening at Subiaco. The Concelebrated Mass of Christian Burial was held Monday, December 22, in St. Benedict's Abbey Church at Subiaco, with Abbot Raphael DeSalvo, O.S.B., as the main celebrant. Bishop Andrew J. McDonald of Little Rock and the monks of Subiaco Abbey were the concelebrants. Burial was in the

FR. HERMAN LAUX

Abbey Cemetery.

Father Herman was born on November 25, 1911, in Cottonwood, Idaho. His family moved to Lindsay, Texas, where he began and completed his elementary education. In 1927, he came to Subiaco to enter Subiaco Academy. Upon his graduation from high school in 1931, he joined the novitiate at Subiaco and made his first profession of vows as a monk in 1932.

Father Herman continued his monastic training at Subiaco College and Seminary and was ordained to the priesthood on May 26, 1938 by the late Most Reverend John B. Morris, Bishop of Little Rock.

After completing his theological studies at Subiaco in 1940, he was appointed pastor of the local parish in Subiaco. The following year Father Herman was assigned as an assistant pastor in Tyler, Texas, and acted as chaplain of the hospital there. During the next nine years he remained in pastoral work in Texas, first at Rhineland and then at Muenster.

In 1949 he returned to Arkansas where he served as pastor in parishes in Altus, Clarksville, and Shoal Creek. He also spent six years as an assistant pastor at St. Edward's Church in Little Rock, Ark.

An assignment in 1963 sent Father Herman back to Texas where he again was appointed pastor at Rhineland, a position which he held until 1967. At that time he returned to Subiaco Abbey and his primary work until his retirement was as a missionary to the parishes in the surrounding area.

Survivors include two sisters, Pauline Block and Helen Hoelker, both of Lindsay, Tex., and three brothers, Anton Laux, also of Lindsay, William Laux of San Antonio, and Albert Laux of Fort Worth.

MRS. WADE HASKIN
the former Pam Vest

Wedding Vows Unite Wade Haskin And Pam Vest

Pamela Ann Vest and Vinson Wade Haskin were united in marriage at seven o'clock on Saturday evening, January 3, 1981, in the sanctuary of First Baptist Church of Wichita Falls. Rev. Roger Deerinwater officiated the double ring ceremony.

Parents of the bride are Judy Vest of Denton and Kelvin Vest of Wichita Falls. Mr. and Mrs. Calbert Haskin of Goree, are parents of the groom.

Given in marriage by her mother and father, the bride wore a formal gown of white organza with silk appliques of Venice lace. The full length skirt was designed with a chapel length train. The bodice was comprised of matching appliques and pearls. The Queen Anne neckline was trimmed with white pearls. She chose a bandeau headpiece of lace and pearls, with the veil edged in imported silk lace

with a flower and leaf pattern. Tiny flowers graced the waltz length veil. Her bridal bouquet was large burgandy roses with baby's breath and carnations. Baby roses were scattered throughout the bouquet. Pink, white and burgandy silk ribbons trimmed in small pearls accented the flowers.

Seven brass fan candelabras and two spiral ones, trimmed in greenery and white silk flower arrangements with burgandy silk roses and baby's breath, were used in the church decorations. Pew markers were silk ribbons and candles with silk flowers and greenery. The unity candle was held by a brass candelabra and the kneeling altar was satin.

Organist was Tommy Brinkley with soloists Rick Blair and Lynn and Jan McDaniel.

Debbie Vest of Denton, served as her sister's maid of honor. She was dressed in a formal gown of luster glo in daphne rose. The bodice featured spaghetti straps accented with an empire waistline. A sheer cape topped the dress, with a self tie at the shoulder.

Bridesmaids were Sharon Watson of Dallas, Kim Dunn of Wichita Falls, Connie Bagley and Tammie Vest, both of Denton. They were dressed identical to the maid of honor.

Mark Haskin of Goree, brother of the groom, served as best man. Groomsmen were Jerry Skelton, Mark Coffman, Robbie King and Harry Sadeghi, all of Wichita Falls. They were attired in burgandy tuxedos.

Ushers were Joe Harnsberger of Wichita Falls and the groomsmen. Jason Harris of Goree, was ring bearer and Cathy Barker of Wichita Falls, served as flower girl.

A reception was held, following the wedding ceremony, in the parlor of the church building. A shell satin tablecloth trimmed in burgandy ribbons, covered the serving table. The centerpiece was a large silver candelabra with a burgandy and dusty rose silk flower arrangement.

Reception assistants were Ethel Jay, Bonnie Barker, Peggy Walker, Mary Keasler, Cathy Keasler, Sara Stone, Maureen Bell and Judy Murray.

The groom's parents hosted the rehearsal dinner at Old Town Steak House on January 2, 1981. Burgandy and pink silk flower arrangements were used in the decor.

The bride is a graduate of Denton High School and also a graduate of Wichita Falls School of Vocational Nursing. She has attended Midwestern State University two years as a Nursing major.

The groom graduated

from Goree High School and is a senior at Midwestern State University. He is also employed by the Student Center office at MSU.

The couple will be at home in Wichita Falls, after a wedding trip to Las Vegas, Nevada.

April's Advice

By APRIL WERLEY

VERSATILE VELOUR KNITS

Versatile velour knits can range from elegant to sporty, depending on the selection of pattern style.

Velours make excellent jogging suits yet become the perfect evening dress for a special occasion.

Although velour knits are sometimes a bit "tricky" to sew, a few basic principles of working with knits will reduce frustration when sewing.

When selecting velour, check the label for fiber content and recommended care. Ask for a care label to sew into the finished garment.

When selecting a pattern, notice the suggested fabrics on the envelope and in the pattern book.

Select styles that are "fuss free," with few pieces, no top stitching or fussy details. Avoid buttonholes and zippers, if possible.

Since velour knits vary in degrees of stretch, compare the stretch of the fabric to

the stretch gauge on the pattern envelope. The fabric stretch should fit with the stretch built into the pattern.

BEFORE SEWING

Before sewing, preshrink the fabric by washing it as you would the final garment or have it dry cleaned. This helps "relax" the fabric and remove chemical residue which can cause skipped stitches when sewing.

Also, gather all the necessary equipment for making a velour knit garment. These include:

—long staple polyester thread or cotton covered polyester thread

—ball point or all-purpose needle, size 11 (or 70-75)

—a roller or even-feed presser foot to assist in making pucker-free seams

—sharp shears

—pattern weight or long, thin, ball point pins.

LAYOUT

Use the "with nap" directions on the instruction sheet for layout. All pattern pieces should go the same direction, either with the nap or against it.

When cut with the nap, the fabric will look smooth and shiny. The surface will look darker and rougher when cut against the nap.

Decide which appearance you like best, and cut all pieces going that direction.

Consider using pattern weights instead of pins to hold the pattern in place. Pins often get lost in the pile.

Use sharp shears to cut out pattern pieces. Transfer markings with chalk or use tailor's tacks.

MACHINE SETTING

Set the machine correctly for velour fabrics. Experiment with a double thickness swatch of fabric

before tackling the "real thing."

In general, set the machine for 10-12 stitches per inch (or per 2.5 cm). This corresponds to a number three on most machines.

Slightly reduce thread tension and decrease presser foot pressure.

If fabric slips when stitching after the above adjustments, use an even feed presser foot or stitch with a layer of tissue paper between feed dog and fabric.

Also, be sure to pin the fabric carefully on the seam line to control the fabric at the seam when sewn.

SEWING

Stitch with a straight stitch or narrow zig zag in direction of nap.

To finish seams, press to one side and make a second row of straight or zig zag stitches. Trim excess allowance to prevent rolling.

If using fusible interfacing, test the results on a fabric scrap. The fusing process may crush the pile, so a sew-in interfacing may work better.

Nylon or polyester zippers which are lightweight, strong, and flexible are recommended for stretch velours. Before hemming a garment, let it hang for 24 hours in case stretching occurs. Then level and hem the garment with stretch lace, tape or sew one-fourth inch from edge and catch stitch.

Velour is hard to topstitch on, but if carefully done, hems can be double topstitched.

To press velours, use a scrap of velour, a terry cloth towel or a needle board.

Press lightly on the wrong side. Light steam held over the fabric right side will restore the nap.

Use strips of paper under seam allowances to avoid press marks.

Knox Co. Farm & Ranch Report

By JIM MAZURKIEWICZ

While most taxpayers have until April 15 to file their 1980 income tax returns, farmers and ranchers face a much earlier filing date.

Agricultural producers who do not file an estimate of their income by Jan. 16 and do not pay estimated taxes must file their tax returns and pay due taxes by March 2. However, if farmers file until the April 15 deadline to file final returns,

Filing requirements for 1980 are the same as in 1979. For example, an individual must file a return if his gross income is \$3,300 or more, and a married couple under 65 years of age must file if their joint gross income is more than \$5,400. If both are 65 or older, they may make \$7,400 before a return is required.

In contrast to the 1979 optional standard mileage rate of 18 1/2 cents, rate per mile

for 1980 is 20 cents for the first 15,000 miles of business travel in your automobile. The rate has increased to 11 cents from 10 cents for business travel of more than 15,000 miles or when one's automobile is fully depreciated.

The standard mileage rate of 9 cents per mile is permitted as a deduction for charitable, medical or moving expense purposes.

A taxpayer should determine his actual transportation expenses (according to IRS guidelines) before deciding whether to use the standard mileage rate or to use his actual transportation expenses.

New installment sales rules recently passed by Congress significantly changes the rules for reporting gain from sales of real property and personal property. The changes which become effective for 1980 include:

—Repeal of the requirement that no more than 30 percent of the selling price be received in the tax year of sale to qualify for installment reporting.

—Two or more payments are no longer required.

—Installment sales tax treatment is automatic unless elected by the taxpayer.

—The selling price for sales of personal property no longer have to exceed \$1,000.

—The rules are tightened on installment sales between certain related parties -- whether through kinship or through business organizational structure.

One report has stated that the new Installment Sales Revision Act of 1980 would "simplify the installment sales tax rules."

Other changes concern business energy investment credit and alcohol fuel credit as well as numerous Revenue Rulings, Tax cases and minor law changes.

For information on these

and other changes and for assistance in filing your income tax return, there are several IRS publications (Revised 1980 editions) -- "Your Federal Income Tax" and the "Farmer's Tax Guide."

Believer's Chapel

Something New

We are attracted to new things. The children like nothing better than a new toy, while we adults are equally excited about new autos, houses, or appliances. New often represents hope, change, and happiness. It is said of the Athenians in Acts 17:21 that they spent their time in nothing else but to tell or hear some new thing. Most of us indulge in making resolutions about our own behavior at the beginning of a new year.

Most of our expectations about new things lead to disappointment. The auto industry does an adequate job of convincing us that their new model will really fix us up. So we trade the old junker in, hoping for greater gas mileage, less maintenance, and fewer rattles. For the first few months we are so pleased at having a new car that we take little notice that the oil spots in our drive left by the old car are being fed by the new one. So, the new soon becomes old and the fresh smell is gone. January's resolutions are forgotten in February.

Solomon felt a despair in searching after new things and came to this conclusion, "The thing that hath been, it is that which shall be; and that which is done is that which shall be done; and there is no new thing under the sun."

But Solomon wrote before he could see the event that was in the future, the coming of the Son of Man to work in a new work. There is something new that remains new through the ages. The twelve thousand dollar automobile we are so proud of will eventually find its way to our dumpground. But here is something that is eternally new. Paul said it this way in II Corinthians 5:17, "If any man be in Christ, he is a new creature: old things are passed away; behold all things are become new."

Here is a newness that will not fade. This newness is seen all over the world in the lives of people who have trusted Jesus to save them and make them new. Translated out of the kingdom of darkness into the kingdom of light, the same lips that once spoke hatred and vulgarity now speak love and praise to the God of the universe. Feet that once walked the dark path of evil now tread the way of light. This newness is no pie in the sky, no puny promise but is a real possibility for all of us.

The greatest resolution any of us can make is to resolve that we want to become a new man in Christ. Our own

self efforts will not do the job. They will only lead to disappointment and despair. There is not one of us that can make ourselves what we ought to be. If any man would be new, let him come to Jesus for that newness.

Local Man's Sister Buried In Rochester

Funeral services were held on Saturday, December 27, in the Rochester Church of Christ. Weldon Gann of Graham, and O. B. Proctor of Abilene, officiated. Burial was in Rochester Cemetery under the direction of Smith Funeral Home.

Survivors include a son, Tommy Herring of Graham; two sisters, Mrs. Agnes Wilson of Eastland and Mrs. Lyddie Smith of Abilene; two brothers, W. B. Greenwood of Munday and T. F. "Buck" Greenwood of Cross Plains; three grandchildren and three great-grandchildren.

The West Texas Rehabilitation Center, with campuses in Abilene, San Angelo, and Snyder is a private, non-profit treatment facility for handicapped children and adults. In 1980, more than 8,000 people were treated at these three centers without charge.

The Rehab '81 telethon marks the beginning of the West Texas Rehabilitation Center's year-long funding program. The budget of more than \$3 million will come mainly from donations. Pledges called in during the telethon broadcast will influence the services that can be offered by WTRC to the handicapped of the Southwest in the coming year.
