128 Die After Ship Sinks In Furious Seas

DONAGHADEE, Northern Ireland, Jan. 31 (AP)—The British sea ferry ship Princess Victoria sank in howling hurricane today, sending 128 men, women and children to death in raging seas within sight of land.

Dazed survivors said the 2,694-ton vessel plying between Scotland and Ireland went under after "five hours of hell."

She was battered by 115-mile-an-hour winds. Huge waves splintered lifeboats before they could be launched.

Terror-struck passengers, all outfitted with lifebelts, plunged into the seething waters as the skipper, Capt James Ferguson, gave the order to abandon ship. It was barely five miles off the mouth of Belfast harbor in the Irish Sea.

Survivors reaching this port said the Princess Victoria capsized and went down within minutes after Ferguson gave the abandon ship order.

The sturdy little ferry was carrying 177 persons—123 passengers and 54 crewmen—when it ran into the worst storm to sweep the Northern Coast of Britain in years.

By 10 p.m. (5 p.m., EST, 35 survivors—all men—were landed here by the Donaghadee lifeboat station.

Officials said the Royal Naval destroyer Contest picked up eight others.

There were reports — unconfirmed—that several small rescue craft had found a few survivors.

The sudden hurricane also flooded coastal towns, sank many small moored vessels and washed cottages out to sea.

As the winds hit, the 282-ton English trawler Michael Griffiths with 15 aboard, vanished without trace off the Southern Hebrides Islands of Scotland.

The Princess Victoria got in trouble soon after she left Stranrar, Scotland, her home port, for her regular 36-mile run to Larne, Northern Ireland. Winds up to 113 miles an hour rocked her to a 35-degree list. Children and adults alike were uneasy. By order, they donned lifebelts as the oil-burning, twin-screw steamer struggled on.

Just before the Princess Victoria gave up, Ferguson radioed this frantic SOS:

"Mountainous seas have swamped engine room. Preparations being made abandon ship. Launching lifeboats impossible because of heavy seas."

Other vessels in the area fought their way to the ferry's position to give a hand, but the Princess Victoria had plunged to the bottom.

MRS. PARSONS LEAVES COURT

Mrs. Mary Jean Parsons, looking very serious and wearing dark glasses, leaves court in Wichita Falls, Tex., with her father, Burtner Fleeger, wealthy Tulsa, Okla., manufacturer, during recess in her murder trial. Mrs. Parsons is charged with murder in the pistol slaying of her army lieutenant bridegroom of less than a month, Richard Q. Parsons, last February 16 in their apartment in El Paso, Texas. Selection of a jury to hear the case is still in progress.

Ike Lets Europe Know He Seeks Action, Quick

No More Quietly Easing Out Criminals At President's Order

WASHINGTON, Jan. 31 (AP)—Atty. Gen. Brownell took an implied crack today at the Truman administration's policy on pardoning convicted persons and announced that President Eisenhower will follow a goldfish bowl policy.

Brownell declared that President Truman granted 26 pardons and two commutations between election day and inauguration, seven of them without any recommendation for clemency from his pardon attorney.

Brownell declared:

"Henceforth all pardons and commutations will be a matter of public record. The names of persons recommending the pardons and commutations will also be a matter of public record. This new policy was approved by President Dwight D. Eisenhower.

"Under the new policy the Department of Justice will maintain a record of all pardons and commutations granted in the future, which will be open to inspection by Congress, the press and others who have a legitimate interest."

This is a reversal of policy followed for a number of years. The government has taken the position that, generally speaking, it would not announce pardons except in response to specific inquiries from reporters.

Brownell issued a statement which he said was prompted by an inquiry from Sen. John J. Williams (R-Del) as to how many pardons Truman had granted between Nov. 4, 1952, and Jan. 20, 1953.

Brownell said the seven cases where Truman issued pardons without a clemency recommendation from the pardon attorney were:

William R. Johnson, Lombard, Ill., sentenced in 1940 to five years for income tax law violation. Began serving term March 13, 1948, was paroled Nov. 30, 1948, and pardoned by Truman last Dec. 24.

Former Rep. Andrew J. May (D-Ky), sentenced to eight months to two years for accepting bribes. Began serving term Dec. 5, 1949, paroled Sept. 18, 1950, and pardoned last Dec. 24.

Former Rep. J. Parnell Thomas (R-NJ), sentenced to six to 18 months for payroll padding and accepting kickbacks. Paroled Sept. 10, 1950. Pardoned last Dec. 24.

Anthony Ballerini, Menlo Park, Calif., sentenced Nov. 24, 1925, to nine years for Narcotic Act violation. Discharged by court order Nov. 25, 1930, and pardoned Jan. 7, 1953.

Jacob Weiss, Indianapolis, sentenced Aug. 23, 1948, to three years for income tax law violation. Paroled Feb. 19, 1951, and pardoned Jan. 16 of this year.

Edward F. Prichard, Paris, Ky., former New Deal adviser, convicted of conspiracy to stuff ballot boxes and sentenced July 14, 1949, to two years. Sentence commuted Dec. 21, 1950. Pardoned Jan. 16, 1953.

Richard W. Leche, former Democratic governor of Louisiana, sentenced June 11, 1940, to 10 years for mail fraud. Began term Dec. 31, 1941, paroled June 27, 1945, and pardoned Jan. 16, 1959.

Dulles Gets Across Desires To Italians

ROME, Jan. 31 (AP) — President Eisenhower has told Italy and indirectly the rest of Western Europe that he is highly interested in speedy formation of the European Defense Community.

Premier Alcide de Gasperi disclosed this tonight after a two-hour meeting with Secretary of State Dulles and Mutual Security Administrator Harold Stassen.

Dulles delivered the message from Eisenhower in the form of a letter from the President to De Gasperi, an old Eisenhower friend.

De Gasperi said Dulles can assure the President "we have the very same desires in this matter."

"We are especially close to the United States in our feelings . . . on the defense community," the Premier added.

Dulles himself had little to say other than "We had good long talks in areas of common interests between the two countries."

The secretary promised a statement before he and Stassen take off tomorrow for Paris on the next leg of their 10-day tour of Italy, France, Britain, West Germany, The Netherlands, Belgium and Luxembourg.

The European Defense Community (EDC) to weld the armies of Western Europe into a joint one uniform defense force was signed eight months ago but has not been ratified by any of the participating countries.

Dulles and Stassen arrived this morning in Eisenhower's personal plane 18 hours after leaving Washington.

"I am not here to preach or talk," Dulles said, "but to listen and learn, so that our government may make its decisions wisely with regard to the direction in which you, yourselves, are going."

Talking to reporters, the secretary said that "the European Defense Community has caught the imagination of the American people.

"The United States government and people have come to look upon this plan as a vital part of the over-all program for co-operation between nations of the Atlantic Pact community.

"We are particularly interested in learning what progress we can anticipate in this European Defense Community plan."

Dulles and Stassen conferred with U. S. Ambassador Ellsworth Bunker and Chauncey G. Parker, head of the Mutual Security Administration for Italy, before calling on President Luigi Einaudi. Later they held conferences with the Italian Cabinet, a closed-door meeting with De Gasperi and joint conferences with Italian government leaders and heads of the American missions in Rome.

In addition to the EDC, De Gasperi was reported to have discussed with Dulles Italy's views on Trieste, the hope that the U. S. will lower tariffs to stimulate world trade, and population problems.

The Premier was reported to have told Dulles that Italy feels she should be given the strategic Adriatic port of Trieste—now part of a free territory half occupied by British and American forces and half by Communist Yugoslavia.

De Gasperi was reported to have said that the only answer to growing Italian population and unemployment is to send Italians to other lands. If the United States won't take more Italians, De Gasperi hopes the American government will lend money to South American countries which they, in turn, can use to finance Italian immigration.

The Premier also was reported to have told Stassen that Italy hopes that as much American economic aid as possible will continue to be given European nations.

Mac Lauds Ike's Strategy In Removing Fleet At Formosa

NEW YORK, Jan. 31 (AP) — Gen. Douglas A. MacArthur tonight lauded the reported intention of President Dwight D. Eisenhower to order the Seventh Fleet out of the Formosa Strait.

The former Far Eastern commander said the action would "correct one of the strangest anomalies known to military history."

The original Seventh Fleet order issued by former President Harry S. Truman, the man who fired MacArthur from his high post, was described by the general as a "fundamental error which has contaminated the entire Far Eastern situation."

MacArthur's comments on President Eisenhower's purported decision to take the Seventh Fleet out of the Formosa Strait and open the way for Chinese Nationalist raids on the Communist-held mainland were made in a statement issued here for him by his aide, Maj. Gen. Courtney Whitney.

Gen. MacArthur said Truman's action placed a "restriction on the activity of the free Chinese forces" and "gave public notice that the Chinese Reds were to enjoy unprecedented sanctuary in the struggle for Asia between the forces of communism and those of the free world."

The General's statement then added:

"It was undoubtedly this decision with its implications which emboldened the Chinese Communist forces to intervene in increasing the strength in Indochina, in Korea in Tibet, and along the entire periphery of their aggressive advance in Asia."

"It has been stated," MacArthur added, "that the purpose of the order (by Truman) to the Seventh Fleet was to prevent the spread of war but the result has been just the opposite."

The former Far Eastern commander then said:

"The modification of the Seventh Fleet's orders should be supported by all loyal Americans irrespective of party. It certainly is time for this change."

In Washington earlier today Fleet Adm. William D. Leahy, World War II chief of staff to President Roosevelt and Truman, said it would be a "bright idea" if anybody wants Generalissimo Chiang Kai-shek's Chinese Nationalist forces to "help us settle the problem on the China coast."

MacArthur said the "protection" afforded by the sealing off of China's forces on Formosa from the Chinese mainland by the Seventh Fleet actually "permitted the transfer of the very Communist armies assigned to the coastal defense of Central China for the attack upon our forces in Korea."

Record Low In Number Voters Eligible Here

The record went the wrong way this year with the total of poll tax receipts and exemptions certificates being the lowest since before the oil boom.

The total figure at 5:15 o'clock yesterday afternoon—the last day of the poll tax paying period—stood at 3,473. The breakdown was 2,829 poll taxes paid and 644 exemptions certificates issued. The period for obtaining these receipts and certificates began Oct. 1.

A year ago, the county set a new record with 6,432 tax receipts and 903 exemption certificates issued, making a total of 7,335. Those receipts and certificates remained valid from Feb. 1, 1952 until today. The new receipts become valid today and may be used until a year from today.

Receipts and certificates issued from Oct. 1, 1950, to Jan. 31, 1951, totaled 3,986, of which 443 were exemptions and 3,543 were paid taxes. The deadline of Jan. 31, 1950, closed with 70 exemption certificates and 3,915 receipts issued for a total of 3,980.

Douglas Not For 'Giveaway' Of Tidelands

WASHINGTON, Jan. 31 (AP)—Sen. Douglas (D-Ill) tonight denounced a proposal to give states clear title to submerged oil lands off their shores as a 40 billion dollar "giveaway."

He discussed the tidelands oil issue in the first of a new series of transcribed radio broadcasts over Illinois stations. He discussed the same subject in a filmed telecast over Chicago television station WGN.

Douglas said the offshore oil lands belong to the people of all 48 states and the income from them should be used to increase teachers' salaries and improve schools throughout the country.

But, he conceeded, it now "seems likely" Congress will pass legislation to give the lands to California, Texas and Louisiana. He went on:

"The thought of Congress giving away over 40 billions of dollars in oil resources, part of which belong to Illinois, has made me think of the plight of the schools and teachers in Illinois and in the whole country.

Collins Says 'Smack' Not Staged Show

WASHINGTON, Jan. 31 (AP)—The Army's chief of staff, back today from Korea, stoutly defended Operation Smack as "perfectly sound and legitimate" and not a shooting show staged for brass hat observers.

Gen. J. Lawton Collins told reporters who met him at the airport he was astonished that anyone would think Gen. James A. Van Fleet, the Eighth Army commander, would expend lives in a demonstration.

"I cannot emphasize too strongly." Collins said, "that Gen. Van Fleet is more concerned over any operation that causes the loss of a single life than anyone except a parent or relative of a man."

Van Fleet's headquarters already has denied that the attack last Sunday on Little Spud Hill in North Korea was any staged show. Of about 220 U. S. 7th Division men in the assault, three were killed and about 60 wounded.

Moisture In Some Sections

By The Associated Press

Thundershowers brought hail, rain and a "black out" to South Central Texas cities Saturday. The rest of the state had milder weather.

Hailstones up to one quarter of an inch in diameter pelted College Station. Thunderstorms also hit Austin, San Antonio and Junction.

A violent wind and hail storm struck Houston, flooding streets and disrupting electrical service. In the Bellaire area, police said a house under construction was reported to have collapsed.

The Weather Bureau estimated winds at from 45 to 50 miles an hour.

Heavy rain and hail fell throughout Llano County with the hail heaviest in the south and northwest sections. Rainfall ranged up to 3 inches with a total of .79 in Llano.

At Austin a light mist and drizzle that fell during the morning gave way to a heavy thundershowers, accompanied by heavy thunder and lightning, at noon.

Skies in Austin grew so dark that street lights, controlled automatically by the degree of darkness, came on for 10 minutes at noon.

Widow Of Slain Man Can't Bring Self To Ask Court For Mercy

EL PASO, Jan. 31 (AP)—The widow of a slain cab driver says she is unwilling right now to ask for mercy for the two youths convicted of his murder.

"I feel sorry for their parents," Mrs. Jesus A. Gonzalez said, but "I just can't feel sorry for the boys."

Pfc. Marvin Lee Austin, 21, Marmaduke, Ark., and Pvt. Raymond Leslie Button, 22, Des Moines, Ia., were found guilty Thursday of shooting Gonzalez and burning his body in his cab Nov. 22.

Mrs. Gonzalez talked to a reporter this morning as she prepared breakfast for her four small children.

Air Force Trying To Ease Any Ill Feeling In Girl's Death

LUBBOCK, Jan. 31 (AP)—Cadet Walter E. Whitaker's former comrades at Reese Air Force Base were taking up a collection today to help pay funeral expenses for the high school girl he is accused of strangling, stripping and burying in a lonely prairie grave.

Scores of officers and men from the base near here where Whitaker, 20, was formerly stationed —including the commanding officer, Col. C. P. West—attended the funeral of Joyce Fern White yesterday.

They were among an estimated 2,000 who packed Lubbock's First Baptist Church.

One unidentified Reese airman told the Lubbock Avalanche-Journal: "I didn't know her but I've read so much about her I feel she was a friend."

Whitaker, handsome son of a Hartford, Conn., trucking family, led officers onto the plains west of here Wednesday and dug up Miss White's nude body from a shallow grave. He also pointed out the spot where the high school senior's clothes were buried, about 100 yards away.

Whitaker is being held without bond. He was bound over to the grand jury which meets Feb. 9.

A justice of peace returned a verdict of death from strangulation in the 18-year-old girl's death. Dist. Atty. Travis Shelton said an autopsy showed Miss White had been "sexually assaulted shortly before or near the time of her death."

Whitaker recently was transferred from Reese AFB to Lackland Air Force Base, San Antonio.

Russians Lose Caviar Supply

TEHRAN, Iran, Jan. 31 (AP) — Russia lost her partnership today in a Russian-Iranian Caspian fisheries company that provides much of the Soviet Union's caviar and other seafood. With the expiration of a 25-year pact for joint operation, Iran is taking full control.

It is understood the Iranians plan to pay the Russians in fish for their half of the physical properties and give them the right to buy all the company's output.

The operation broadens a nationalist program Premier Mohammed Mossadegh launched last year by nationalizing Iranian properties of the British-owned Anglo - Iranian Oil Company.

Although Russia has four - fifths of the shoreline of the Caspian, whose 163,800 square miles make it the world's largest inland sea, a deep southern segment lies off Iran. Nets yield sturgeon (black caviar), herring, carp and salmon.

Unit Operations For Canyon Reef Fields To Begin March 1

Unitization covering the Canyon Reef Pool of the Kelley - Snyder and Diamond M fields of Scurry County is expected to go into effect by March 1. It was approved Friday by the Railroad Commission.

The program, on which many oil operators had been working for months, is to include 47,439 acres. The agreement was allowed under the state's voluntary unitization law, and it was signed by 1,900 persons, including 96.58 per cent of the working interest in the field and 83.84 per cent of the royalty owners, according to Ernest Thompson, commission chairman.

Some oil interests had fought the unitization of the fields here as being destructive of conservation confiscatory, and an attempt to gain approval of an anti-trust violation. The group included W. A. Moncrief of Fort Worth. Gillis Johnson of Fort Worth and counsel for Moncrief had threatened during the hearing to bring suit if the commission approved unitization.

Thompson said that proponents had testified the expected recovery under unitization would be 1,180,000,000 barrels of oil, 720 million more than expected under present individual development. He added that the operating interests carry the entire cost of pressuring, the cost of which was estimated to be $60,000,000.

"The royalty owners pay nothing on this cost. The non-signers are not interfered with so far as the allowable is concerned by the approval of this unitization plan," he said, adding, "The present plan shares the allowable production 50 per cent on acreage and 50 per cent per well."

Thompson said that continues to be the plan of operation except under the unitization plan the signers agree that within the unitized area, after allowables have been set 50-50 by the commission, the signers will then ask permission from the commission to close in high gas-oil ratio wells and transfer their allowable to low gas-oil ratio wells. Water-injection wells needed will be located after notice of hearing before the commission.

"The purpose of the plan is to utilize reservoir energy to the highest degree possible and to maintain pressure by injection of water and natural gas at the best places within the unitized area, regardless of ownership," Thompson explained, adding that the signers of the unitization area will then divide their proceeds on the basis of 25 per cent per well and 75 per cent of acre feet in the reservoir.

The proposed 60-million dollar water flooding and gas injection plan anticipates the taking of 200,000 barrels of water daily from Lake Thomas in Southwest Scurry County to be pumped into the oil reservoir.

Twenty million cubic feet of residue oil field gas also would be injected into the Canyon reef forma" tion.

(*)—NONE (**)—TRACE

Sabre Jets Have Racked Up 11-1 Ratio In MIGs Killed

SEOUL, Sunday, Feb. 1 (AP)—The Air Force said Saturday Sabre jets have attained a combat superiority of 11 to 1 over the Russian-made Communist MIG15s.

This sensational ratio was achieved over two years of fighting the Reds in their own back yard over Northwest Korea. The ratio formerly was 8 to 1 in favor of the Sabres.

The Fifth Air Force said that Sabre pilots destroyed 548 MIGs since they first went into action in December, 1950. During that time, 49 Sabres were downed in combat.

These figures represent only confirmed MIG kills. The Air Force said, "Many badly crippled MIGs which limp across the Yalu River boundary line (of Manchuria) and become total losses to the Reds through crash or explosion are not claimed as destruction."

"Despite the controversy which has raged over the relative performance qualities of the two airplanes," the Air Force said, "the record stands [illegible] conclusively in favor of the Sabre jet fighter."

However, the Air Force has conceded that the MIG has a climb superiority over the Sabre and performs better at high altitudes. This is because the MIG is a lighter plane.

U. S. airmen agree that their electronic gun sight is the best available, and they feel the Sabre is "better glued."

"Sabre jets have returned from combat and landed safely with holes four feet square torn in wing or tail sections," the Air Force said.

But other advantages are all on the Reds' side, according to data compiled by the Air Force. The MIGs never have to worry about fuel shortage and have the protection of the Manchurian boundary at their backs.

[illegible] virtually [illegible] dictated the fighting conditions, preferring to fight over a strip of Northwest Korea known as "MIG Alley." Most engagements are fought in the Sinuiju area within a 25-mile radius of Antung Airbase in Manchuria, where Allied planes are forbidden to fly.

Nevertheless, the MIGs go down steadily. In September of last year, 63 of the Red fighters were destroyed, with a loss of seven Sabres. And this month American pilots made 40 kills while losing only two Sabres in action for a 20 to 1 ratio.

The MIGs still are a deadly threat to the slower F84 and F80 jet fighters used now mainly as [illegible]-bombers. The Reds also have forced four-engine B29 Superforts to drop daylight bombing and are menacing the unescorted bombers on night raids.

Probers Report On Communist Unions

WASHINGTON, Jan. 31 (AP) — A Senate subcommittee today released a case study designed to show Communist leadership dominated a union by physical violence plus "an atmosphere of intimidation and vilification."

The union is the Marine Cooks and Stewards Union of the Pacific, (MCS) with headquarters in San Francisco. It was expelled from the CIO in 1950 on charges of being Communist-dominated.

The Senate group said the union has between 3,000 and 4,000 members working on ships in the Pacific, and added:

"The Marine Cooks and Stewards Union is the last Communist outpost among the unlicensed seafaring unions, and it accounts for the desperate measures that are being used to keep this organization under Communist control.

"It requires no great act of imagination to recognize the importance of control of a seafaring union. Such control eases the problem of infiltration of agents and propaganda for world-wide communism."

The report is the [illegible] sued by a labor-management relations subcommittee headed by Sen. Humphrey (D-Minn). The subcommittee was allowed to expire today by the new Senate Labor Committee.

Humphrey said in an accompanying statement that the report "represent an investigation of how a Communist-dominated union stays in power."

"It stays in power," he said, "by terrorizing the real and imagined dissidents within the union, by deprivation critics of their jobs, by slander, vilification; by intimidating government witnesses to its illegal activities, by perverting the union's judicial machinery into an instrument of reprisal, by intimidating the employers into becoming parties to their totalitarian methods.

Julie Stevens, Alias Helen Trent, Defends Soap Opera

NEW YORK, Jan. 31 (AP)—Being a queen of soap opera might not seem to be so attractive in these days of television and big-night time extravaganzas, but pretty Julie Stevens finds it isn't bad at all.

Miss Stevens, who has played Helen Trent on CBS radio the past eight years, points out that her show is heard in three million homes five days a week.

Since scenes don't have to be acted out as in television, nor lines memorized to the letter, there's less strain in doing five shows a week on radio than one a week on video.

And although millions of radio listeners know her voice, few know what she looks like, so she can enjoy a normal private life free from the attention and autograph-seeking that TV stars encounter.

"Some people," she says, "ask 'Don't you get bored to tears playing Helen Trent five days a week.' But I don't. I enjoy it. It's like visiting people you know."

Although soap opera is a favorite target of critics—particularly male—Miss Stevens is a staunch defender. She points out that it provides diversion for housewives as they go about their chores, under circumstances that they would be unable, no matter how intellectual, to concentrate on subtle or deep drama or scholarly discussion.

But it isn't just housewives who listen to "Romance of Helen Trent."

"Because of automobile radio, the program has a large male audience," she relates.

On one occasion, for instance, she was asked to do the narration for a film because the advertising manager of a large firm had heard her in Helen Trent on his auto radio.

In private life, Miss Stevens is Mrs. Charles Underhill. Her husband is an executive of a competing network, American broadcasting Company. They own a country place near New York City but during the week live in a Manhattan apartment with her daughter Nancy, 14.

Her career has included several roles on the Broadway stage, a number of parts in major night-time radio shows and a whirl at television. She was "Lorell" for nine months on the video program "Big Town".

Mr. and Mrs. T. R. Black, Tarrant County, to C. W. Parlee, lot 8, block 1, Von Roeder Heights addition, and lot 8, block 1, same addition, latter tract subject to restrictive covenants, Dec. 30.

Injuries From Car Accident

Drivers of two vehicles involved in an accident about 9:40 o'clock yesterday morning six miles north of here on the Post highway were hospitalized, E. W. Green, Highway patrolman who investigated, said.

Henry L. Stanton, 55, an oil field worker who lives in the 1900 block of Twenty - first Street, received a slight head injury.

Stanton's 1952 Plymouth coupe and a 1950 Ford truck driven by John M. Dirickson, 39, of 2300 Avenue J, collided.

Green said the truck was attempting to turn around in the highway when the accident occurred.

A passenger in the truck, Russell Talbott, 912 Twenty - third Street, was not injured, Green stated.

The injured were taken to Battenfield Hospital in a Bell amublance.

Attendants at Battenfield Hospital said Stanton was given first aid treatment and released from the hospital.

The condition of Dirickson was said to be serious. Diagnosis of his injuries had not been completed late yeaterday, but he was still unconscious, hospital attendants said.

HOSPITAL NOTES

The following admissions and dismissals at Battenfield Hospital are those whose names were released by the hospital.

Patients admitted: Mr. and Mrs. Joe G. Rhinehart, Hermleigh; Doug, Douglas, and Earl Morris, infant sons of Mr. and Mrs. T. A. Morris, 2800 Avenue G; Mrs. Tom Johnson, 4242 Grape Street, Abilene; Henry L. Stanton, 1900 Twenty-third Street; John M. Dirickson, 2300 Avenue J.

Patients dismissed: Henry L. Stanton 1900 Twenty-third Street; Mrs. Bobby McCormick, Snyder general delivery, David Earnest, transferred to orthopedic hospital in Abilene.

Bullet Stops Car In Chase Friday Night; Speeding Fine Paid

The fourth automobile pursuit of bootleggers by police officers within a week ended Friday night with a bullet hole in the trunk lid of late model Chrysler driven by James E. Riley of Riley's Cafe.

A sheriff's department car driven by Bill Love, chief deputy, pursued the Riley car about two and a half miles at high speed before it stopped when J. D. Frith, deputy with Love, hit it with a pistol shot, according to Homer Whisnand, sheriff.

No liquor was found in the car at the end of the chase, however, Whisnand said, but Riley paid a fine in justice court yesterday morning for speeding. Riley is free on $1,000 bond in bootlegging case filed against him a week ago, alleging he sold whisky at his cafe in the 2400 block of Avenue S. Frith, who said he witnessed the sale, signed the complaint against Riley after arresting him then. Riley has previously been convicted here on bootlegging charges.

Services For Mrs. Morrow Held Saturday

Funeral services were held yesterday afternoon in Bolger Funeral Home chapel for Mrs. Betty Elizabeth Morrow, 89, who had lived in Scurry County for 61 years.

Mrs. Morrow died Friday afternoon in a Big Spring hospital following a long illness. Ted Norton, Church of Christ minister, officiated at the services.

Pallbearers were H. L. Wren, Harvey Schuler, Charlie Harless, Bird Rodman, Bobbie Harless and C. L. Banks.

Survivors include three daughters-in-law, Mrs. Ollie Morrow Snyder; Mrs. Elias Morrow, Clyde; Mrs. Luther Morrow, Dallas; 16 grandchildren, 22 great-grandchildren and one great-great grandchild. Burial under the direction of Bolger funeral home was in Snyder cemetery.

Lake Tanganyika in Africa is said to be the longest lake in the world—450 miles.

Second Bond In County History Forfeited Here

Three persons pleaded guilty in county court yesterday morning to misdemeanor charges, and a bail bond was forfeited on one of them.

The forfeiture was the second ever to have been paid in this county, so far as is remembered by any incumbent or recent officials here. Many have been ordered forfeited, however. Another bond forfeiture was paid last week.

The bond of $250 was ordered forfeited when the defendant, Ralph Ford Bridges, 44, now of Selma, Cal., failed to appear for jury trial Jan. 21. Bridges, brought to the court yesterday by Gordon Goss, one of the sureties, paid the bond forfeiture himself and also paid a fine and court cost in his case. The other surety was James A. Clark.

Bridges was fined $50 plus court cost of $23.50 when he pleaded guilty to drunken driving on a charge filed Dec. 1. The court had called his case several times and last week selected a jury and was to begin testimony when it was learned the defendant was not present. His attorney, J. Ray Martin, contended the court should hear the case without the defendant, but Edgar Taylor, county judge would not consent, ordering forfeiture of bond instead. Bridges lived in Snyder at the time of the offense.

Mrs. D. R. Kirby, 20, who gave her address as 3209 Avenue K, paid a fine of $15 plus cost of $23.50 when she pleaded guilty to a charge of swindling by worthless check, and she redeemed the $29.88 check given to Dunlap's.

James M. Barber, 40, Colorado City, paid a fine of $50 plus court cost of $23.50 on a similar charge and redeemed a check given to Dr. John Blum for $20.

BIRTHS

Mr. and Mrs. J. D. Patterson of Fluvanna are parents of a son born Friday at Lubbock Memorial Hospital. The baby weighed 7 pounds, 1 ounce.

The Brussels sprout plant is a tall-stemmed cabbage.

East Texan Is Found Guilty

LONGVIEW, Jan. 31 (AP)—Don Black was convicted today of murder without malice in the shotgun slaying of his wife near a sawmill in the East Texas piney woods.

The jury gave Black a five-year sentence. The prosecution had asked death.

The 49-year-old Wood County sawmill worker also is charged with murder in the fatal shooting of Jack Gilliam at the sawmill near Winnsboro April 30. Gilliam was shot at the same time Black's wife was slain.

The jury returned its verdict at 9:35 a.m., six days after the trial began in Dist. Judge Fred Erisman's court here on a change of venue. The courtroom was filled at every session.

The state contended the killing was carefully planned and had asked the death penalty. Defense attorneys said emotional disturbances from alleged infidelities by his wife had driven Black temporarily insane.

The jury deliberated three hours and five minutes, two hours and 30 minutes last night before retiring and 35 minutes this morning.

WHY STARVE TO TAKE OFF FAT?
Barcentrate is the original grapefruit juice recipe for taking off ugly fat. It's simple. Just go to your druggist and get four ounces of the new improved Barcentrate. Pour into a pint bottle or jar and add grapefruit juice to fill bottle. Then take just two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves — if reducible pounds and inches of excess fat don't seem to disappear almost like magic from neck, chin, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. No starvation diet the Barcentrate way.
THIS LADY LOST 42 POUNDS
"Before taking Barcentrate I weighed 168 pounds. I now weigh 126, a loss of 42 pounds. Instead of wearing size 20 dresses, I now wear 14 and 16. I am so glad and feel so good. Words cannot express my sincere thanks." Signed, Mrs. P. H. Wunderlich, 1310 Thirteenth St., Galveston, Texas.
AND THIS LADY LOST 21 POUNDS
"Thanks to Barcentrate. What a wonderful way to lose weight," writes Mrs. A. F. Huelster, 211 W. 24th St., San Angelo, Texas. "No dieting and not a single hungry moment. I have lost 21 pounds and am now down to my required weight. Feel good and full of pep."

Drink, Adultery Cause More Divorces Than Incompatibility

ST LOUIS, Jan. 31 (AP) — Watch that word "incompatibility" in the divorce statistics. It doesn't mean much.

At least, that is the feeling of the Rev. John L. Thomas, assistant director of St. Louis University's Institute of Social Order, who has completed a study of 7,000 marriage cases in a Midwest diocese.

"It is so easy," Father Thomas says, "to use incompatibility as a cover-up term. I believe some persons use the term when they actually don't know what was the cause of divorce."

His figures show that incompatibility, or clash of temperaments as he calls it, was responsible for only 12.1 per cent of trouble in the marriages studied.

Accounting for more than half the marital difficulties were drink (29.8 per cent) and adultery (24.8 per cent).

Father Thomas, who believes most married couples can learn to live together, says it is the problems of a "dynamic society that bring on divorce." But he quietly laughs at the idea that two persons can be "compatible by nature."

He explains the problem of adjustment and adaptation found in every marriage has its source not only in the "different cultural conditioning of the sexes but in diverse constitutional components."

As for those who claim drink as the major factor in marriage breakdown, Father Thomas found by occupations that the "blue-shirt" class furnishes more cases than the "white-collar" workers.

Where adultery is given as the major factor in divorce, the study shows the husband at fault in four out of every five cases.

But Father Thomas doesn't agree with the present tendency to look upon adultery as a mere symptom of frustration in marriage. This, he says, "appears somewhat naive."

It is time, he says, that we abandon "this unrealistic analysis of infidelity" and face the fact that "some individuals find monogamy both trying and monotonous."

Among the lesser categories responsible for family trouble, Father Thomas finds irresponsibility was listed by 12.4 per cent, in-laws by 7.2 per cent, sex by 5.4 per cent, mental by 3 per cent, religion by 2.9 per cent and money by 8 percent.

Mother-in-law trouble, he says, either causes a divorce quickly or not at all. "When trouble does arise from this factor, it generally dissolves the marriage very quickly, since more than two-thirds of the cases endured less than five years."

Another much talked about sore spot in marriage—sexual maladjustment — appears as a basic factor in relatively few of the cases studied.

"The prevalent assumption that sexual 'incompatility' lies at the root of most marital difficulties is a classic example of putting the cart before the horse."

But what is to be done about divorce?

Father Thomas believes first there is too much emphasis placed on initial adjustments required in marriage. "Marriage," he says, "is a dynamic union requiring constant adaptation along constantly changing lines."

He believes there is a distinct need for a new legal approach to divorce in the form of a new type of court — one concerned exclusively with domestic relations.

"Remember," he says, "We had to do the same thing with juveniles."

LEGAL NOTICE

THE STATE OF TEXAS
TO: Curtis Orvil Johnson
GREETING:

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 9th day of March, A.D., 1953, at or before 10 o'clock A.M., before the Honorable District Court of Scurry County, at the Court House in Snyder, Texas.

Said plaintiff's petition was filed on the 22 day of January, 1953.

The file number of said suit being No. 6060.

The names of the parties in said suit are: Violet Dorcas Johnson as Plaintiff, and Curtis Orvil Johnson as Defendant.

The nature of said suit being substantially as follows, to wit: Divorce.

Issued this the 23rd day of January, 1953.

Given under my hand and seal of said Court, at office in Snyder, Texas, this the 23rd day of January A.D., 1953.

SEAL.

Eunice Weathersbee, Clerk
District Court Scurry County, Texas.

Scurry County Men Due Calls From Services

Nine Scurry County men were included this week in a list of 30 men called for induction into the Armed Forces Feb. 25 by the three - county selective service board at Sweetwater.

From Snyder are Clarence Lowell Minton, 1902 Avenue R; Melvin Franklin Phelps, 2909 Avenue I; John Gary Weber, 131 Milburn Street; and Aubrey Wayne Smith.

Others are James Arnold Bowers of Dunn, William Marcus Glass, Billy Wayne Voss, Ray Thomas Groves, and Johnny Jefferson Brown, all of Hermleigh.

Eight additional Scurry men were called for pre-induction physical examintion at Abilene Feb. 12. They are Norman Hull Inman, 2703 Avenue W; Ben Franklin Richardson, 1800 Twenty - eighth Street; Walter Joe Leatherwood, Snyder; R. B. Thomason, Billy Ray McDougold, Jacob Douglas Boatenhamer, Olan Harley Culp, Jr., and Donal Wayland Fritz, all of Hermleigh.

Others to report for pre-induction physicals on Feb. 13 are Joe Dwain Brown, 1611 Twenty-eighth Street; Kenton Wayne Gordon, 2410 Twenty - eighth Street; Billy Roy Jones, 1202 Twenty - ninth Street; Ray Gene Knight, Snyder; Thomas Delbert Jordon, Snyder; Kenneth Ray Hazelwood, Snyder; R. V. Thompson, Snyder; and James William Hazle, Snyder.

In 1952, Colombia and Venezuela settled a border dispute about which they had been negotiating for 122 years.

DICK SIMPSON

Big Spring Man Is Named To Lead Area Cancer Drive In Spring

Dick Simpson, cattle rancher of Big Spring and Borden County, is lay director for District 2 of the Texas Division American Cancer Society.

The district covers Scurry, Andrews, Borden, Dawson, Dickens Ector, Fisher, Gaines, Garza Glasscock, Howard, Kent, Kin Lynn, Martin, Midland, Mitche Nolan, Stonewall, Terry, and Yo kum Counties.

Simpson will head the April can cer crusade in this district to solicit funds for aid in cancer research.

He said he will appoint county committee heads soon.

Prices May Remain Stable Three Months

NEW YORK, Jan. 31 (AP)—Steady and sustained good business at least for the next three or four months was forecast today by the National Association of Purchasing Agents.

The organization's survey committee reported new orders are rolling in but added backlogs are being eaten up by increased production.

A majority of the purchasing agents participating said most prices are stable, although they show a tendency to drop a bit as selling intensity is stepped up and competition gets keener.

Snyder Man Goes To Japan From Front Lines

Pfc. Billy D. Jones, son of Mr. and Mrs. Vannie Jones of Snyder, recently spent five days in Japan on recuperation leave from the Second Infantry Division in Korea.

Jones, a forward observer, went to Korea last July after a year in the Army.

New University Head To Take Over Monday

AUSTIN, Jan. 31 (AP)—Dr. Logan Wilson, 45, a native Texan, takes over as president of the main University of Texas Monday with plenty of duties to keep him busy.

The former academic vice president of the Consolidated University of North Carolina will be charged with administering the affairs of 12 colleges and schools, 51 teaching departments and 52 research and service units in Austin.

He also is responsible for administration of the Institute of Marine Science at Port Aransas and the J. W. McDonald Observatory at Fort Davis.

Some stars change the amount of light they give off from day to day, swelling or contracting in regular rhythm.

Total average taxes paid by each man, woman and child in the United States in 1952 was $514.

Because the shell keeps the ribs of turtles in fixed position, breathing is done by means of an apparatus in the mouth and neck, helped by the movements of the legs.

Storm Brewing Over Bills Aimed At Oil Industries

By DAVE CHEAVENS

AUSTIN, Jan. 31 (AP)—A wad of bills aimed at tapping the oil and gas industry's tax-touchy pocketbook are expected to stir up a storm in the Legislature.

It is a running battle between forces who feel the mammoth industry in the nation's largest oil producing state is already paying its fair share of government costs and those who contend natural resource taxes are the best source of new state revenue.

The newly-organized Legislature is faced with a major problem in stretching state funds over a variety of insistent demands for new services. There is a gap of at least 55 million dollars between spending requests and Gov. Shivers' proposed budget of 165 million dollars for general services for the next two fiscal years.

PIPE LINES EYED

That does not include 100 million dollars which highway officials say is needed to bring the state's primary roads up to par. Shivers has recommended a cent a gallon boost on the gasoline sales tax to improve highways.

Shivers also told the Legislature if it found it had to raise money it might look to the long-line gas transmission companies for it.

The natural gas transmission lines challenged last session's new tax on them in court. More than 11 million dollars is tied up because of that lawsuit.

The gas transmission people would be hit by a compressor tax bill introduced by Rep. Dolph Briscoe, Uvalde, whose figures it would bring in 60 million dollars a year. It would not supplant the gathering tax but would be in addition to it.

PRICE FIXING ASKED

The natural gas industry also has a wary eye on at least three price fixing bills. Rep. Jack Bryan, Buffalo, and Sen. Wardlow Lane, Center, each has a bill giving the Railroad Commission power to establish minimum prices at the wellhead. Sen. Grady Hazlewood, Amarillo, introduced a bill to give the commission power to fix prices in the huge Panhandle area.

Natural gas in the Texas Panhandle is selling for about half what it is in Oklahoma, he said. Hazlewood believes his bill—defeated last session—would also help solve the state's money problem.

Some other tax bills:

By Rep. Grady Hogue, Martin's Mill, a processing tax of one cent a gallon on all combustible condensates which includes all forms of gasoline, coupled with a two-cent a gallon cut in the gasoline sales tax. He figures it would raise 54 million a year.

INVOICE TAX SOUGHT

By Charles Hughes, Sherman, an occupation tax of 11-20 of one cent per 1,000 cubic feet of natural gas processed in Texas. He proposed an additional 9-20 of one cent tax if the present gathering tax of 9-20 of one cent is finaly invalidated.

Rep. Gabe Garrett, Corpus Christi, is working on a bill to eliminate percentage taxes now existing on such items as natural gas, sulphur and beer He would substitute a 1½ per cent invoice tax on practically all business.

Rep. Sam Sellers, Waco, has a bill which would put a two-cent processing tax on practically all burnable petroleum products He estimates it would raise 200 million a year.

Terry County Well Complete

Great Western Drilling Co. has completed its No. 1 Brit Clare as an extension of more than one mile to the northeast of the Prentice - Glorieta field of Northwest Terry County.

It is 1,980 feet from north and 660 feet from west lines of section 22-D-14-CIM.

On official potential test it flowed at the rate of 623.76 barrels of oil per day. Gravity aas 29 degrees, and gas-oil ratio was 336-1.

Top of pay was found at 5,898 feet, where seven inch casing was cemented. Total depth was 5,912 feet. The pay section was treated with 5,000 gallons of acid.

Two Locations Set In Coronet 2900

J. B. Hardin and others spotted two locations for two additional production in the Coronet 2900 area of Northeast Howard County.

Their No. 1-9 Chester L. Jones will be drilled one - half mile east of a south extension to the field. Drillsite falls in Northwest Mitchell County. It is 330 feet from south and west lines of section 9, block 26, H&TC survey.

Three eights of a mile south of the main portion of the field, Hardin and others will dig No. 1-10 Chester L. Jones. Site is 330 feet from south and west lines of section 10, block 26, H&TC survey.

Both tests will be drilled to 3,100 feet.

Drillsite Staked For Tom Green Offset

Taylor Oil & Gas Co. has spotted location for a 943-foot northeast offset to its No. 3-A George Foster, Rust, indicated Canyon reef lime discovery in Southeast Tom Green County.

The new project is No. 2-A Rust and is located 330 feet from most northerly south lines and 1,350 feet from most westerly west lines of section 3, Lucinda Byfield survey, A-4923.

Rotary tools will be used to drill to projected depth of 5,000 feet. Operations will begin at once.

Taylor No. 2-A Rust is pumping to test. On the last 24-hour gauge reported it made 105 barrels of oil.

Glasscock Gets New Spraberry Producer

Sohio Petroleum Co. No. 4-B Mary V. Bryans has been completed as a new Spraberry producer in the Driver area of Southwest Glasscock County.

The well is 22 miles southwest of Garden City and 660 feet from north and 1,980 feet from west lines of section 6, block 36, T-5-S, T&P survey.

It flowed 593.50 barrels of 38.7 gravity oil in 24 hours on the completion test. The flow was through a ¾-inch tubing choke. The well made no formation water.

Casing pressure was 480 pounds. Flowing tubing pressure was 290 pounds.

The Spraberry pay had been fractured with 4,500 gallons. Gas-oil ratio was 790-1.

Top of the upper Spraberry pay is at 6,820 feet. Top of the lower Spraberry pay is at 7,697 feet. Total depth is 7,744 feet. The 5½-inch casing is cemented at 7,668.75 feet.

The lower pay is being produced in open hole and the upper pay is being produced through perforations in the casing at 6,840-84 feet.

Oil Well Completions Increase In State

AUSTIN, Jan. 31 (AP)—Oil well completions for this week rose to 218 from last week's 121, the Railroad Commission reported today.

Gas well completions reached 25 against seven last week.

Total oil well completions for the year is 763 as compared to 890 for last year.

Wildcat oil drillings totalled 21, gas drillings 2, and dry holes 67. Wildcatters have drilled 43 oil wells this year, three gas wells, and 281 dry wells.

Swab 143 Barrels In Schleicher County

Sinclair Oil & Gas Co. swabbed 143 barrels of new oil, eight barrels of acid water and three barrels of water in 24 hours from open hole in No. 1-101 University, indicated Ellenburger discovery in West - Central Schleicher County.

Production is coming from the open hole section at 7,910 - 8,045 feet.

Testing continued.

Location is 660 feet from south and east lines of section 22, block 54, University Lands survey.

Rigs In County Are Down Two

Rotary rigs decreased in number in Scurry County during the two weeks ending Jan. 25, according to a survey made by the Red Rollar Bit Co.

On Jan. 10, there were 11 rotaries operating in this county, compared to only nine by Jan. 25.

Borden County 's rigs remained the same at eight, Kent's decreased from four to three, and Howard's decreased from 19 to 13.

A total of 437 rotary rigs were operating throughout the Permian basin.

Kent Well Complete, Produces 55 Barrels

Completed in Kent County by Chapman & McFarlin was the No. 14 B. A. Cogdell in the Cogdell San Andres field for a daily pumping potential of 55.25 barrels of 37-gravity oil.

It made no water on the test. Gas - oil ratio was 346-1.

Top of pay was found at 1,548 feet, five and one-half inch casing was set at 1,549 feet and total depth was 1,569 feet. The pay section was treated with 6,000 gallons of acid.

It is 467 feet from north and 2,333 feet from east lines of section 772-97-H&TC, about 22 miles northeast of Snyder.

Loving Test Bails Oil, Now Fracturing

Jay H. Floyd of Midland No. 1 Johnson, wildcat in Northwest Loving County, is preparing to fracture the Delaware sand in open hole from 3,080 to 3,105 feet and resume tests.

The test bailed naturally and recovered 15 gallons of oil per hour with 1,500 feet of oil in the hole.

Location is 1,650 feet from north and 330 feet from east lines of section 2, block 57, T-1, T&P survey and 15 miles northwest of the town of Orla.

That puts it eight and one-half miles northwest of the Tunstill pool and a northwest offset to a depleted Delaware producer.

Reports From Wells In Area

Drilling & Exploration Co. No. 1-B Connell, Southwest Kent County wildcat took a drillstem test in Pennsylvanian lime at 7,331-375 feet.

Tool was open one hour, and recovery was 150 feet drilling mud with no shows oil, gas, or water. It deepened to 7,385 feet, and it is now taking a drillstem test with packer set at 7,358 feet.

It topped the reef lime at 7,330 feet. Derrick floor elevation is 2,615 feet.

Humble No. 5-B Sorrels in the Diamond M field of Southwest Scurry County, took a drillstem test with straddle packers at 6,811-826 fet in Canyon lime, with tool open one and one-half hours.

Gas surfaced in 20 minutes, and it recovered 120 feet heavily oil and gas cut drilling mud, 90 feet, free oil, and 217 feet salt water.

MITCHELL CORE

In Mitchell County, Sun No. 1 McCabe cut a core at 5,912-927 feet and recovered two feet gray slightly tight porous sand with good oil odors, one foot shale with no shows, three feet gray sand slightly porous with good oil odors, and five feet black shale with no shows.

It is now preparing to drillstem test.

DRILLING BRIEFS

Texaco No. 2 M. A. Fuller, North Scurry wildcat, perforated casing at 7,802-812 and at 7,820-828 feet in Mississippian, and it is preparing to swab and test.

Magnolia No. 2 Martin in the Kelley - Snyder field is preparing to reacidize perforation and test

Also in Scurry, Humble No. 1 Nachlinger is drilling at 5,510 fet in lime and shale and Texaco No. 3 Fuller is at 3,122 feet in lime and shale.

In Howard County, Sun No. 1-A Jones pumped 24 hours and made 26 barrels of oil with no water. It is still testing to try to complete.

Sun No. 1 Dean in Dawson County is at 4,576 feet in Permian lime and dolomite fishing for junk.

Humble No. 1-B Coleman in Mitchell County is drilling at 2,400 feet in lime.

Goldston No. 1 DeLoache & Rodgers is at 6,990 feet in lime and shale.

Nolan County Location Slated For Drilling

Sun Oil Co. has set location for it No. 1 J. W. Pepper in the Rowen 1 Hope area of Northwest Nolan County.

It is 467 feet from south and east lines of section 31-22-T&P, three-fourths of a mile north of the nearest production in the field and about five miles west of Sweetwater near the city's municipal airport.

It will use rotary tools to drill to 6,500 feet to test the Strawn pay of the field, beginning at once.

Field Extender In Schleicher County

Sinclair Oil & Gas Co. No. 2 McClatchey Estate, one location north of No. 1 Dwight McClatchey, one-mile southeast extender to production in the Hulldale (Pennsylvanian) field of North - Central Schleicher County, has been assured a producer.

Operator took a drillstem test from 5,630 to 5,655 feet. Tool was open one hour and 40 minutes. Gas surfaced in two minutes, mud in seven and oil in eight. It was flowed to tanks for one hour and made 44.6 barrels of 41-gravity oil through a 5-8 - inch choke.

Gas - oil ratio was 744-1 and flowing pressure was 2,125-1.

Operator was running logs.

Location is 467 feet from south and west lines of the west half of section 42, block M, GH&SA survey.

New Sharon Drillsite

A. F. Roberts, Jr., of Midland has located his No. 4 A. V. Mills in the Sharon Ridge 1700 field of Southwest Scurry County, 330 feet from north and west lines of tract 7-C. A. O'Keefe subdivision No. 1 of the J. P. Smith survey, about 20 miles south of Snyder.

It will drill to 1,800 feet with cable tools, beginning at once.

Extender Finaled In Schleicher Field

Black & Rodman of Midland No. 1 T. R. Henderson has been completed as a three-quarters mile southeast extension to the Page (Strawn reef lime) field of East-Central Schleicher County.

It was completed for a 24-hour pumping potential of 88 barrels of 41-gravity oil plus one per cent water.

Production was through perforations from 5,495 to 5,515 feet and 5,616 to 5,633 feet, after acidizing with 5,000 gallons.

Location is 1,980 feet from south and 660 feet from west lines of section 25, block L, GH&SF survey and nine miles southeast of Eldorado.

Soil usually contains from 8 to 15 per cent of water by weight.

Farmout Wildcat Set In Crockett County

McElroy Ranch Co. of Fort Worth and others will drill a previously reported 8,700-foot Ellenburger wildcat in West - Central Crockett County as No. 1 H. B. Cox, and others.

Location is 660 feet from south and west lines of block 4, E. Ruiz survey.

It is on a 1,122-acre farmout from Gulf Oil Corp. and is 10 miles northeast of Sheffield and two miles southeast of the Shallow Hoover field.

Outpost To Drill In Upton County

Brown and Throp Drilling Co. of McCamey and John Parker of Midland have staked location for a three-quarters mile north outpost to production on the northeast side of the McCamey field of Southwest Upton County.

It is No. 1 Lyon and is located 2,310 feet from south and west lines of section 8, block 3 ½, CCSD&RGNG survey.

That makes it seven and one-half miles north of McCamey and on a 160-acre lease.

Wildcat Location Is Amended In Motley

Humble Oil & Refining Co. filed supplemental application with the Railroad Commission of Texas amending destination for No. 1-K Matador Land & Cattle Co., wildcat in Central Motley County.

The application called for a new bottom of 10,000 feet. It originally started out to go to 8,500 feet.

Location is 660 feet from south and east lines of section 22, T-G, McNutt survey. It is four miles southwest of Matador.

Navy Slow To Act In Taking Over Oil Property Off Shore

WASHINGTON, Jan. 31 (AP)A potentially explosive question — whether the Navy should get completely out of the oil business — may come up soon before the House Armed Services Committee.

The subject was broached by Rep. Gavin (R), Oil City, Pa.

With some congressional tempers still simmering from Harry Truman's parting presidential act putting offshore oil lands into a naval petroleum reserve, the question immediately set off a discussion.

The Navy seems in no hurry to take over the controversial offshore lands.

"We have taken no action at all on the oil lands except to study the matter created by the order," said Capt. Robert H. Meade, director of the naval petroleum reserve.

Meade said today he had conferred with the Navy's judge advocate general about the submerged oil lands. He said the only conclusion reached was: "The whole question must be determined as a national policy by President Eisenhower and the Congress."

Meade said that, while waiting for a final decision, about all the Navy could do was to "let the lawyers determine the Navy's authority, responsibilities and duty."

The subject likely will be reveiwed within the next three or four weeks, along with questions about the Elk Hills naval reserve in California and the Point Barrow reserve in Alaska.

The naval reserves were established 40 years ago when the petroleum resources of the nation were still virtually unknown. In the interim the nation has gone through two major wars relying entirely on private industry for fuel, not on the naval reserves.

Chairman Short (R-Mo) of the committee said in an interview that it will go into the problems of the naval reserves as soon as possible.

The Elk Hills reserve is to hold oil for future emergency use, yet failure to expand the present limited production is reducing the quantity that ultimately can be recovered.

Tests have shown that a shifting of pressures and an encroachment of salt water is curtailing potential production.

At present, production in the shallow zone of the Elk Hills reserve is 6,100 barrels a day. It has been estimated that new wells drilled to raise production to 31,000 barrels daily, would permit maximum recovery. However, once that rate was achieved, production could not be curtailed and the life of the field would be definitely limited.

If your home needs repairs or replacements, and you require financing help to meet the cost, apply here. When you borrow here, you get a low-cost loan on terms that you can meet easily from income. Neglect can cost a lot of money — a repair loan from us *doesn't*. Act promptly — and safeguard your investment.

Tigers Take Two Wins Here In Friday And Saturday Tilts

The Snyder Tigers took their third district win over two losses last night when they downed the Big Spring Steers 58-40.

It was a game of 56 fouls—36 of them for Big Spring. Four Steers fouled off the court.

After Big Spring took a brief lead in the first quarter, the Tigers captured the lead and held it the rest of the way. They led 18-10 at the end of the first, 30-20 at the half, and 47-26 going into the last period.

Ned Underwood was high pointer for the Tigers with 20 points, followed by Joe Cargile with 16. Frank Long led for the Steers with eight, while Don Reynolds scored seven.

The Big Spring B took the opener over Snyder B 45-42 in a game that was close all the way. Jimmy Bennett led Snyder with 16, and Tommy McAdams led Big Spring with 14.

Showing District 1-AAA that they still mean business, the Snyder Tigers played into a three-minute overtime Friday night and finally edged the favored Vernon Lions 53-52.

The game was rough going all the way, with Snyder leading seven times, the game tied eight times and Vernon ahead three times. The teams exchanged leads throughout the first period, tied up three times then, and finally emerged from that quarter with Vernon ahead 15-11. By halftime, the Tigers were leading 23-21, and they led 37-35 at the end of the third period. The teams were tied up 47-47 at the end of regular playing time.

While the Tigers were winning over Vernon, Plainview edged Sweetwater 64-60 and Lamesa took Big Spring 67-37. That put Lamesa and Plainview in a tie for first place, Snyder, Vernon, and Sweetwater in second place (before the Tigers met Big Spring last night), and Big Spring in undisputed last place.

Going into the overtime, Tiger Center Ned Underwood sacked a field goal to put Snyder ahead, but Lion Gordie Harvey quickly tied it up with a goal. Joe Cargile tallied on a set shot, followed by two free tosses by Bill Boyd, putting the Tigers four points ahead. Lion Dale Dillingham put in one more field goal to move the Lions to only a two-point trail, then Lion Ramon Towry was awarded two free throws that could have tied the game up again in the final seconds of the overtime period. Towry made only one toss, and time ran out before any scoring could be done, with the Tigers in final control of the ball.

Joe Galyean, guard who led the Tigers in scoring with 15 points, established himself as a set shot artist, making five of seven goals from far out in the court. Underwood, the team scoring leader who does his best pointmaking from under the basket, was kept away from his favorite scoring territory by the outstanding Vernon defense. He ran second for the team in the game with 11 points.

Lester Dye kept up his scoring lead for Vernon with 14 points in the game, followed by Harvey with 11.

The B game was just as close, with Snyder finally winning 45-44. That game was tied eight times, Snyder leading 10 times, and Vernon ahead seven times. Snyder trailed by one point until 10 seconds remained on the clock and Jimmy Bennett basketed a field goal.

Bennett led scoring for Snyder with 14 points, and Robert Pigg led for Vernon with 16.

After playing a rescheduled game with Big Spring here last night, the Tigers are preparing to journey to Big Spring for the first game of the second round in district play Tuesday night. Thursday night, they will play host to Plainview, the team that defeated them 57-55 in Plainview two weeks ago.

Snyder Relays Set In March

Fourteen teams have already accepted invitations to participate in the Snyder Relays, which will be held here March 14.

The relays will include all track and field events offered in interscholastic league competition and will be the first annual meets in Snyder. Prior to this year, before the Snyder schools advanced to higher competition in the interscholastic league, the schools here played host in the district meet each year.

Head Coach Speedy Moffett and Track Coach Jack Dillon said they have sent out invitations to 25 schools. Entry blanks for each event will be sent out later, they said.

Moffett said most officials in the meet will be local men. Events will begin at about 8 o'clock in the morning and last until about 5 o'clock that afternoon.

Teams already accepting the invitation are Amarillo, Pampa, Lubbock, Brownfield, Phillips, Lamesa Seminole, Brownwood, Abilene, Big Spring, Breckenridge, Sweetwater, Plainview, and Wink. Abilene and Sweetwater are members of the track district with Snyder, Brownwood, and San Angelo.

Other than the Snyder meet, the Tiger track team already has six meets scheduled. They will begin at the Fort Worth Relays March 6-7, go to the West Texas Relays at Odessa March 21, to the Bluebonnet Relays at Brownwood March 28, to the Big Spring Relays April 4, to the district track meet Williams Jewelry and Goss end with the Abilene Relays April 25.

Veeck Making Demands About Bans On Night Games In Parks

NEW YORK, Jan. 31 (AP)—Bill Veeck, president of the St. Louis Browns, protested to Baseball Commissioner Ford Frick today against three clubs in the American League which have barred him from night games in their parks.

Fred Saigh, beleaguered owner of the St. Louis Cardinals, shared the headlines with Veeck when he named eight prominent St. Louis executives he was considering for a committee to run the Redbirds.

Saigh, sentenced this week to 15 months in prison for income tax evasion, did not attend the major league meetings of the club owners that ended today. Veeck was very much in prominence. After being rebuffed on all sides the Browns' boss was closeted with Frick for 90 minutes pleading his case.

Neither Veeck nor Frick would comment on their discussion. Veeck appealed to Frick to intercede in his television squabble with the New York Yankees, Cleveland Indians and Boston Red Sox. Veeck asked for a uniform baseball rule that would guarantee all clubs an equality in night dates. This, he claimed was the original American League rule in 1939, the year night ball was started.

In a retaliatory move because of Veeck's refusal to permit televising of the Browns' games at their ball parks, the Yankees, Indians and Red Sox, have refused to grant any night games to the St. Louis club.

"If these clubs can throw me out of their night schedule, which will cost our club $30,000," Veeck complained, "There there will be no limit to what they can do with their money weapon of night base ball. What is to prevent any of them from threatening a poor club with a player to sell, so that the club will be removed from the night schedule unless the player is delivered at a certain price? That is the point of equity I present."

Saigh said he intended to see these men to form a three-man committee to run his Cardinals.

Davis Calhoun, Jack Hickok and Arthur Blumeyer, bankers; Edwin Clark, president of the Southwestern Bell Telephone Company; Arthur Atkinson, president of Wabash Railroad; Edgar Rand, president of International Shoe Company; Wesley McAfee, president of Union Electric Company; and Charles Thomas, president of Monsanto Chemical Company.

Dallas Spring Drill At Port Arthur Camp

DALLAS, Jan 31 (AP)—The Dallas Eagles of the Texas League will do all their baseball training this spring at Port Arthur, owner Dick Burnett said today.

Originally, the pitchers and catchers were to report to a camp at Brownsville for two weeks of work and then assembly at Port Arthur with the rest of squad.

Burnett decided there was not enough difference in climate to justify the trip to Brownsville.

Pitchers and catchers will start working at Port Arthur Feb. 22, with the rest of the personnel checking in March 9.

Goss Lot Still Leads Bowlers

Holding onto its lead in the men's bowling league, Goss Car Lot defeated Permilan Mud Service 2,663 to 2,503 last week.

Also contending for the title, Newman's Grill downed Sun Oil No. 2 2,583 to 2,502. Williams Jewelry tied up with Chuck Wagon for third place by defeating that team 2-589 to 2,522.

In other games during the week, Snyder Wholesale took Sun Pipeline No. 1 2,548 to 2,393, Sun Oil No. 1 edged Lewis - Burney Service 2,458 to 2,432, and Jackson Motor Sales beat Sun Pipeline No. 2 by a score of 2,613 to 2,369.

Bob Bunselmeyer of the Snyder Wholesale team rolled high three lines with 565, followed by M. F. Jackson of Jackson Motor Sales with 562 and Terry Holt of Goss Car Lot with 553.

Tuesday, Snyder Wholesale will meet Williams Jewelry and Goss Car Lot will play Sun Oil No. 2 to begin the week's play. Other games will be Lewis - Burney vs. Jackson Motor Sales and Sun Oil No. 1 vs. Newman's Wednesday and Sun Pipeline No. 1 vs. Sun Pipeline To. 2 and Permian Mud vs. Chuck Wagon Thursday.

To Ask Cut In Admission Tax

SHREVEPORT, Jan. 31 (AP)—Texas League club owners decided today to ask a 50 percent cut in the federal tax on baseball admissions.

They said the 20 percent excise tax was reducing their receipts because they could not pass it on to the fans and had to absorb it themselves.

The club owners considered the possibility of making a contract with a bus line to furnish all transportation through chartered buses They decided against this when League President J. Alvin Gardner declared that he didn't like the idea of the league becoming known as a "bus league." He said many ball players were perjudiced against buses.

Galveston Club Manager Out

GALVESTON, Jan. 31 (AP)—Harry Gumbert is "out" as general manager of the Galveston White Caps because of a salary disagreement.

Stockholders of the Gulf Coast League Baseball Club decided here yesterday not to rehire Gumbert.

"We found it impossible to pay him a salary like the one he received last year," said James Bradner, new secretary-treasurer.

Gumbert said he received $7,500 last season.

"I understand they had an offer of $4,000 and $5,000 to make to me this year. But the offer was never made. All I wanted was the same I made last season," he said.

Bradner revealed the job of field manager had been offered Barney White, hard hitting White Cap right fielder. White managed Temple in the Big State League in 1949.

White told a reporter, "I haven't made up my mind about the job yet. I've got to think about it a little. The offer certainly came as a surprise."

Stockholders elected Frank E. Simmen, who has a major interest in the White Caps, new president.

Brdner said, "At the present time we don't have a general manager and we are looking for one that we can afford."

City All-Stars To Play Negro Professionals

The city basketball league's all-star team will hold its first workout at 7 o'clock tomorrow night in the high school gym, Glenn Snyder, Quarterback Club league chairman, said.

Snyder announced that one game with a professional team has already been scheduled for the all-stars. On Feb. 19, they will meet the Harlem Roadkings here.

Snyder said advance tickets, priced at $1 for adults and 50 cents for children will probably go on sale by next week end.

The chairman added that the regular city league will probably begin Feb. 9 with one game.

Members of the all-star squad, Snyder said, are Gene Gibson, James Bowers, Bobby Shipley, and Miller Price, all of the C & S Sporting Goods team; Jack Dillon, Joe Burney, Bob Blake, and Jack Medford, all of Chuck Wabon; Bill Voss and Robert Minton of National Guard, and Bill Hanks of Wade Pipkin Motors.

Giants Player Is Assaulted

NEW YORK, Jan. 31 (AP)—A taxi driver beat Henry (Hank) Thompson, 27, New York Giants baseball player, about the head and face with a sawed-off baseball bat in an argument after a predawn automobile collision today, police reported.

Thompson, a Negro, was taken to Mother Cabrini Hospital, where 14 stitches were required. He is an outfielder and a third baseman.

Police identified the taxi driver as William Winfrey, 30, also a Negro, and arrested him on a charge of felonious assault. He pleaded innocent when arraigned in Felony Court and was paroled pending a hearing Feb. 3.

Police said a cab operated by Winfrey and an auto driven by Thompson collided at an intersection in Harlem.

They said the cab driver, 6 feet 3 and weighing 190 pounds, and the ballplayer got out of the cars and began arguing.

Winfrey pulled the sawed-off bat out of the cab and struck Thompson, they said. Winfrey contended at his arraignment that Thompson assaulted him.

Coaches Changed At U. Of Washington

SEATTLE, Jan. 31 (AP)—University of Washington regents hired John Cherberg today to succeed displaced Howard Odell as head football coach for a one-year term.

Odell said the discharge was for "personal reasons." He stands to receive $15,000 for the remaining year of his contract.

Cherberg's salary was not disclosed, but it was believed to be considerably below the Odell wage-wage.

Cherberg has been freshman coach at his alma mater for five seasons, remaining on the staff when Odell switched from Yale to Washington. Before that he was assistant coach for two years.

Sunbeam Holding Lead In Women's Bowling

Sunbeam Cash Food pushed its lead farther ahead last week by defeating the 66 Cafe 2,614 to 2,381 in the women's bowling league.

The 66 team is running second in the league.

Harris Pharmacy, the third place team, downed Gordon's 2,530 to 2,445.

Paula Clark rolled high three lines with a score of 447, and Gladys Dowell had high line with 181. Both are members of the Sunbeam team.

Next Thursday, Sunbeam will meet Gordon's and 66 Cafe will play Harris Pharmacy.

LEAGUE STANDINGS

Sunbeam Cash Food	35
66 Cafe	26
Harris Pharmacy	16
Gordon's	10

Notre Dame Won't Let Sticka Play Football

SOUTH BEND, Ind., Jan. 31 (AP)—Charlie Sticka, brilliant freshman fullback at Trinity College, was advised by Notre Dame today he would be unable to play football for the Fighting Irish in his furore-provoking transfer to Notre Dame.

Shortly after Trinity athletic officials hurled charges of "robbery" at Notre Dame in the wake of Sticka's transfer, the Rev. Edmund Joyce, Notre Dame vice-president, said:

"We have a rule saying any transfer from a school playing football cannot play football at Notre Dame. It is intended to prevent just such a situation as this. Sticka will not play football at Notre Dame."

The Tartars of Russia are remnants of the Mongol invasion of the 13th Century.

Young Snyderite Amasses Big Record Collection In 2 years

Miss Pearley Nolan, Snyder telephone operator who said she can't read a note of music, has over 400 records she has collected in the past two years.

Most of the records are 78 rpm although she has about 70 of the long playing variety. Her selections range from popular to classical, but she said about three - fourths of the collection are of the more serious type music. Two of Miss Nolan's favorite operas, "Madame Butterfly" and "Pagliacci," are also found in the collection. "And I have some junk like Tommy Dorsey, and Artie Shaw. I even have some of the Sons of the Pioneer," she laughed. Miss Nolan rarely buys novelty tunes.

Miss Nolan graduated from Snyder High School in 1950, went for a short period to Abilene Christian College, and then began work for the Bell Telephone Co.

She said she first began her collection "since there isn't much good music on the radio." The Saturday afternoon Metropolitan Opera program is one exception, however, she stated.

She said she had about 20 or 30 records she played more than the others, and one recording she has played constantly for as much as an hour straight. It is "High Noon," a David Rose arrangement, she said. "Slow music relaxes you," Miss Nolan explained. Her collection also contains a number of musicals of which she said Gershwin's "Porgy and Bess" is one of her favorites.

Miss Nolan is firmly against any attempt to popularize opera by 'playing down' the music. "It makes me furious to hear something like 'Bumble Bogie.' They're good just like they are," she said emphatically. She added that she believed opera would become more popular eventually although she felt some persons were so prejudiced against it and would never like the music.

Recently Miss Nolan prefers the long playing records. She said they were not as easily cleaned but also were more concise, and she felt the cutting was better. When selecting new records Miss Nolan said she doesn't dare take more than $20 into the shop. "I feel lucky if I come out with any change," she laughed.

President Eisenhower's Taste Reflected In Record Choices

The new president and Snyder record fans have something in common—they both like "Don't Let the Stars Get in Your Eyes."

Eisenhower didn't say whose version he preferred but the localities like Slim Willet's and Perry Como's. "Roll Out the Barrel" is an old favorite of Ike's and "John, John, John" is his newest selection. Mamie likes "Let Me Call you Sweetheart," and "Sweetheart of Sigma Chi." They both are partial to "Down Among the Sheltering Palms," the song they hummed in their courting days.

The new Decca release "John, John, John" tells of the difficulties of naming the new baby. It is probably remeniscent of the difficulties the Eisenhowers had before they settled on the name of John for their son. The Guy Lombardo recording features Kenny Gardner on the vocal backed up by the Lombardo Trio. The entire title of the song, "Every Tom, Dick and Harry's Called John," has a slight tinge of politics.

The opposite side of the record, "I'm Skipping Rope With a Rainbow," is as light and fanciful as the title indicates. Kenny Gardner sings the entire song except for a short break during which Lombardo breaks into modified Dixieland.

Mercury has been plugging their new novelty "The Doggie in the Window" by Patti Page, but the opposite side may be the one that sells the record. "My Jealous Eyes" is an Americanized latin number with the usual high standard of Page singing. Jack Rael orchestra keeps the south of the border swing although the peculiarly Latin - American instruments are limited.

"The Doggie in the Window" features a trio and a not very authenic sounding doggie.

Another new Columbia record out is one by Jimmy Boyd, the "I Saw Mommy Kissing Santa Claus" boy. This time the red - haired freckle - faced youngster sings "Early Bird" and "I'll Stay in the House." The latter is a cowboy arrangement complete with steel guitar. Jimmy Carrol's orchestra does a popular interpretation of "Early Bird" using a flute and chorus.

Last week Snyder record fans bought mostly:

"Til I waltz Again with You,' Teresa Brewer.

"Don't Let the Stars Get In Your Eyes," Slim Willet.

"Why Don't You Believe Me," Joni James.

"Keep It a Secret," Slim Whitman.

"Lady of Spain," Les Paul and Mary Ford.

"My Baby's Coming Home," Les Paul and Mary Ford.

"Wishing Ring," Joni James.

"The Glow Worm," Mills Brothers.

Although most trees show annual rings of growth when their trunks are sawed through, this is not true of some tropical evergreens.

Usefulness And Fun In Store For The Aged

(THE BEST YEARS OF YOUR LIFE, Marie Beynon Ray, Little, Brown and Co., Boston, $3.95)

The odds are you'll think seriously about not retiring, or will plan a second career after reading Marie Beynon Ray's "The Best Years of Your Life."

Mrs. Ray emphasizes that those who die early die of boredom. Her 300-page book is, instead, crammed with success stories — of artists with arthritis who strapped brushes to their hands and of doctors who, after retiring, wrote best selling mystery stories.

Mrs. Ray mixes psychology in her book. She says a person can't afford emotional outbursts. "Fear generates all the symptoms of a slow poison, ..terror causes fainting and nausea...boredom induces fatigue and indigestion ...grief brings on breathlessness as surely as does heart disease."

She also throws in a little mystery when she recounts a tale of a man who wound up in prison because of his search for an oriental rug. The man was a merchant in his middle forties. Most of the persons she refers to are much older. In one especially apt criticism one of the elderly women she knew said it is good that the young are nice looking since they have so little else to recommend them.

In one chapter entitled "Educating the Half-Educated" she tells of the Wali of Swat who could not read or write at the age of 67. Before he died he had read the Koran in the original Arabic. "An ignorant little Wali in the Kingdom of Swat! And we quit learning at 30! At 50 we are too old to try new things. At 60 we turn our minds out to pasture...."

Having pointed out that man has gained 20 more years on his life, Mrs. Ray makes concrete but subtle suggestions concerning what to do with them. She lists eight hobbies or occupations that could be adopted.

Unlike the spinsters who write about marriage, Mrs. Ray has actually followed her theories of living. She served first as the editor of Vogue then Harper's Bazaar a designer for I. Miller shoes, and consultant for Hattie Carnegie. She has now launched a second career of writing which will probably be just as successful.

Dolores Ketchersid

Retail Business To Go Up In February

NEW YORK, Jan. 31 (AP)—Retail business next month is expected to show a 4 per cent improvement over last February's volume, Sales Management magazine predicted today. Total sales of 12 billion 200 million dollars are ancitipated.

Ancient Sumerians, Babylonians and Assyrians worshipped a god called Tammuz who died and was resurrected annually with the vegetation.

Ferrante and Teicher

Piano Team In Friday Concert

Ferrante and Teicher, third artists to appear in the Civic Music Association series, will present a duo-piano concert Friday night in the high school auditorium at 8 o'clock.

Ferrante and Teicher believe that popular tunes are very important and should be heard on the concert stage as an important contribution to American culture. The team blend traditional renditions of the clasics with their own arrangements of popular music.

They have appeared with such orchestras as the New York Philharmonic, the Rochester Symphony, The Detroit Symphony and the Chicago Woman's Symphony. Radio network appearances include Piano Playhouse, Eddie Dowling Show and the Carnation Hour.

Ferrante and Teicher were child prodigies at the Juilliard School of Music where they later taught. Their reportoire extends from pre-Bach to contemporary works.

LETTERS TO EDITOR

(Letters from the readers of the Daily News are always welcome, provided they are signed by the writer and give his correct address. They will be printed subject to the publisher's discretion, based on whether the material contained is libelous or the language offensive. Letters should not exceed 300 words.)

To the Scurry County Times:

I desire to call your attention to an article published in your issue of January 23, the headline of which reads "Sentell misses first big vote in House."

I do not know who is responsible for the wording of this item, but the effect of this article could only be detrimental to my standing with my constitutency, and I think that it is unfair, especially due to the fact that it does not give a true picture of all that happened—a part truth is worse than no truth at all.

In the first place, the statement "first big vote in House" is questionable, and in the second place I was absent and excused on account of a death in the family. I would appreciate it if you would correct this erroneous article in that it did not tell why I was excused.

I hope and trust that such misstatements will not reoccur, as it is my desire to maintain amicable relationship with the press, especially that the people of my district may get the true and correct picture of the proceedings, and I know of no reason why such a relationship should not exist.

The reason I was absent is shown on page 49 of the House Journal of Monday, January 19, 1953. I have requested copies of the Journal to be mailed each day to the Scurry County Times and to the County Clerk, with the view that the people are entitled to have the opportunity to see the Journal at any time they desire, especially at the County Clerk's office. Of course, the Journal is mailed to you so that you may use it to publish any matters in which the people may be interested.

If you will do so, it occurs to me that it will be proper for you to carry an item notifying the public that copies of the Journal may be found in the County Clerk's office.

Assuring you that a correction of this mistake made through the press will be appreciated, I am

C. F. Sentell,
House of Representatives,
Austin, Texas.

Editor's Note: The story in question as it appeared in the Snyder Daily News states that Sentell was absent, excused by the speaker.

PACKARD
OFFERS GREAT OPPORTUNITY
FOR NEW DEALER HERE

Packard Motor Car Company's great new expansion program makes available a Packard sales and service franchise in this area. The man who qualifies—a businessman of proved ability (though not necessarily in automobiles)—gets a virtually untapped market for two of Americas most promising lines of 1953 cars—the long-famous Packards and the brilliant new, big-value Clippers by Packard. To help him appeal to all buyers of medium, upper-medium and upper-price cars in this market, he receives the backing of the largest advertising promotion in Packard's 54-year history. THE SNYDER DAILY NEWS

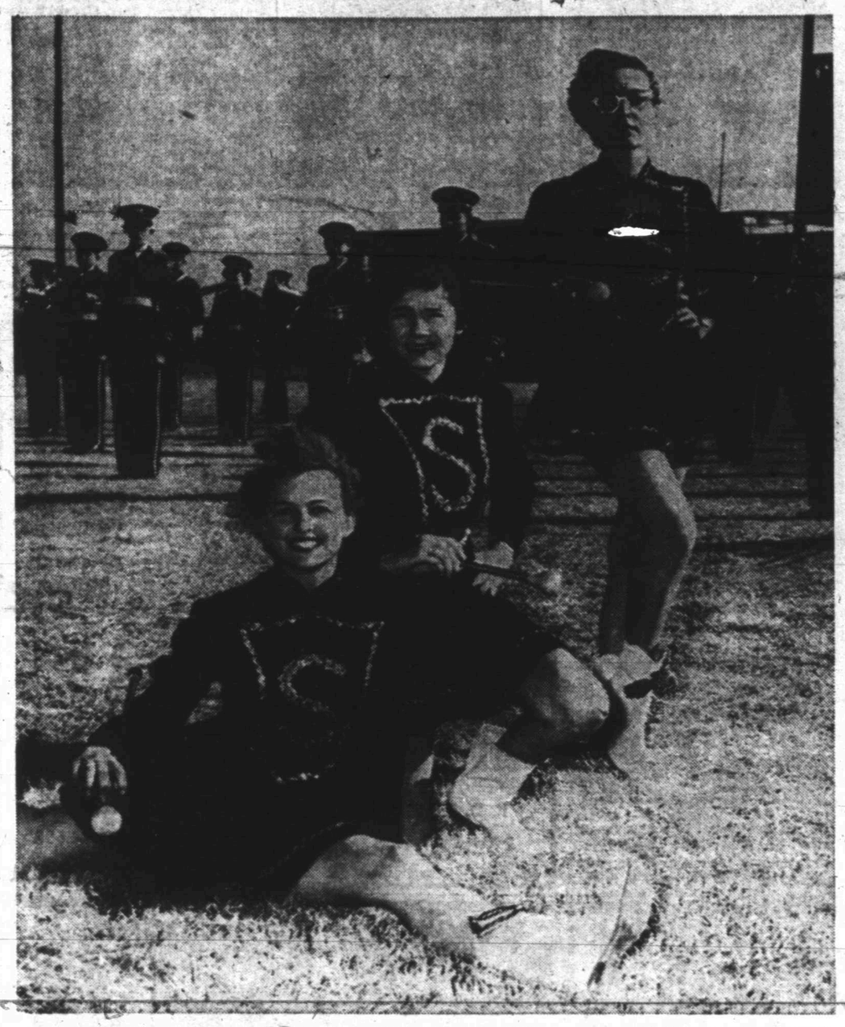
VOL. 3, No. 237 SNYDER, TEXAS, SUNDAY, FEBRUARY 1, 1953 SECTION TWO



Much of the eye appeal of the Snyder High School band this year is added by the three twirlers above. Nancy Jordan, doing the split; Charlotte Colley, kneeling, and Jane Houston. The three girls, with their fancy prancing were key figures in all the intricate formations performed by the band during foootball game half-times last Fall.

Snyder High School Band

When the Snyder High School band strikes up a tune, it is evident that its members have spent even more energy in polishing up their performance in the past few months than they have in keeping their instruments shining. Shown in the top picture from left to right are: flute and oboe players: Jane Houston, Clinta Blackard, Nancy Jordan, Nelda Allen, and Jerry Mullican.

In the second picture, alto clarinet players are Pat Higgins and Patsy Fowler. Bass clarinet players are Doris Agee, Judy Noah, and Willia Higgins. Barbara Wilson is playing the bassoon; and French horn players are Jimmy Don Boyd, Davey Floyd, and Chiva Boss.

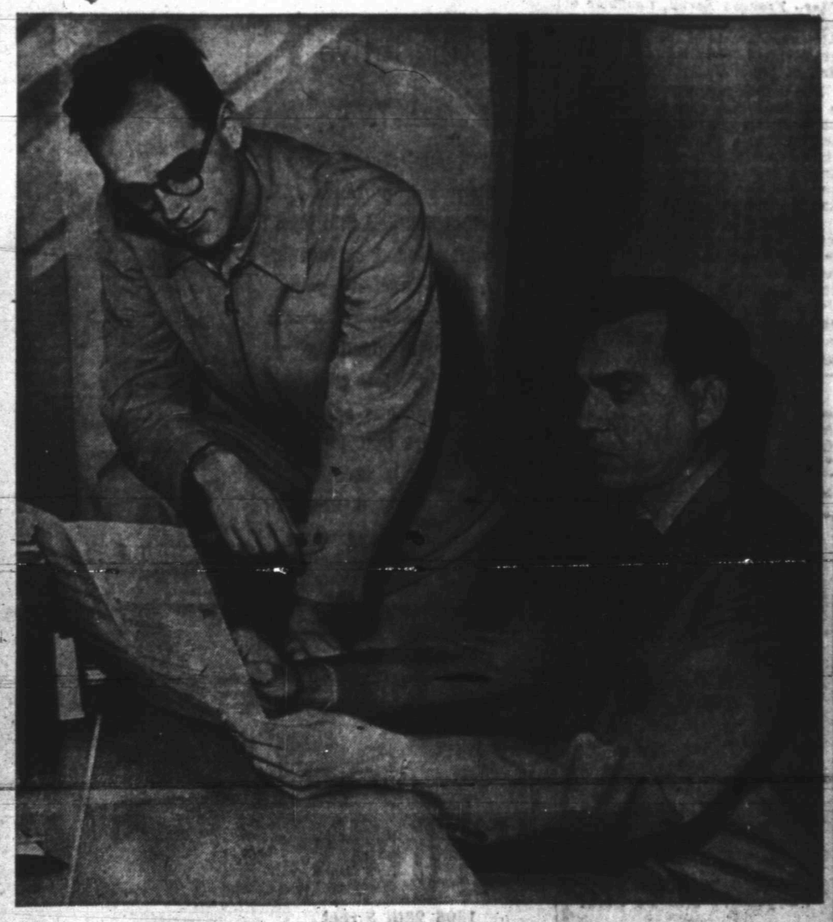
The bass horn players in the third picture are Joe Anderson, Billy Earl Creswell, and Nardie Bayouth. Baritone players are: Earl Elrod, Ronald Neighbors, Richard Dickerson, and Tommy Smith.

Trombone players for the band shown in the first picture on the right are: P. W. Cloud, Jr., John Jarrell, Lynn Tankersly, Gene Newton, Ray Gordon, Dan McGregor, and Wiley Denson.

Cornet players in the second picture on the right are: Karleen Roberts, Bert Rand, Roland Barton, Dave Hamblen, Jerry Stewart, Johnnie Butterfield, Thomas Rigsby, and Wallace Langley.

Saxaphone players in the band are Margaret McPherson, Mary Ann Doak, Sittie Harrell, Janice Star, Troy Williamson, Charlotte Colley, Kay Watson, Johnny Randolph, and Cecil Agee.

In the bottom picture are shown the 10 clarinet players in the band. They are: Bruce Evans, Kenneth Lawrence, Shirley Atwood, Barbara Boydstun, Robert Dabbs, Pat Bruton, Andreiene Head, Jane Patterson, Gwen Watson, and Lynn Sellers.



M. B. Montgomery, seated above, is the high school band director. He is assisted by Tim Dennis, standing, director of band work in the junior high schools. Their teaching program is paving the way for an ever improving high school band as the years go by. (Lee Wetton photographs).

Style No. 1130 has a sleek bodice, slit open at the neckline, with short dolman sleeves; the double row of stitching is trim. The skirt is full. It is equally suitable for office or party wear. Any fabric may be used. Size 12 will fit bust 35, waist 26, hip 36½; size 14, bust 36, waist 26, hip 37½; size 16, bust 37, waist 28, hip 39; size 18, bust 38½, waist 30½, hip 40½; size 20, bust 40, waist 32, hip 42. Claire McCardell has also designed a strapless and snug-fitting dress with princess lines released in a full back pleat in the skirt. It also has a little bolero, rounded collar and bracelet length sleeves. Its good in flannel, tweed, faille, silk or linen. The pattern No. 1082 is available in standard pattern sizes 10, 12, 14, 16 and 18. Size 12 requires four and seven-eighths yards of 39-inch fabric. To order either pattern send $1 for each to Spadea Syndicate, Inc., Dept 163, Box 535, General Post Office, New York 1, N. Y. For airmail enclose 25 cents. To order pattern pamphlet No. VIII send 15 cents.

GIRL SCOUT NEWS

Girl Scout Troop 16 was shown though Dr. Robert J. Kidd's veterinarian hospital last week. They hiked there with their leader, Mrs. John Boren. Care of pets at home was discussed.

• • •

There will be a program at the new Girl Scout house this afternoon from 3 until 5 o'clock.

• • •

Girl Scout Troop 23 will receive their badge in good grooming Wednesday. One of the things done to pass the requirements was to visit a beauty parlor and see one of the members get her hair shampooed and set. They also witnessed shampooing in the home and helped roll the curls of a troop member's hair. Mrs. William Nidiffer manicured the girls' nails and talked on how they can care for their own hands.

They will also celebrate the troop's third birthday Wednesday. Their mothers will be guests. Members of the troop are Dian Parks, Patsy Martin, Camilla Roberts, Leona Partain, Carla Partin, Patsy Norris, Nancy Nidiffer, Marilyn Lewis, Retha Ledbetter, Betty Ford, Rita Kay Camp, Loretta Evans, Glenda Bennett, Margaret Altman and Ann Adcock. Mrs. W. W. Adcock is a co-leader.

Mary F. Savell, George Wright Wed In Abilene

Mr. and Mrs. George B. Wright, Jr., are at home in Abilene following their marriage there Jan. 24 at the home of the Rev. A. A. Watson.

The bride is the former Miss Mary Frances Savell, daughter of Mr. and Mrs. Tom A. Savell of Abilene. Parents of the bridegroom are Mr. and Mrs. George B. Wright, Sr., of Snyder.

For the ceremony the bride wore a white faille street length two piece dress. She wore a pink silk scarf under a strand of pearls and rhinestones, a gift from the bridegroom. Her accessories were navy and pink and she wore a pink carnation corsage.

A tiered wedding cake topped with a miniature bridal couple centered the lace-covered table at the reception held in the home of the bride's parents.

Mr. Wright served in the Army two years, 18 months of which were in Germany. Both are graduates of Ira High School.

Mr. and Mrs. A. A. Johnson and son, 122 Milburn, have returned from a two-week vacation with friends in Longview and Brookhaven, Miss. Guests this week end in the Johnson home are Mr. and Mrs. Eugene Griffith of Longview.

THE WOMAN'S FORUM

Local Women Favor Time Change For Polio Drive

By SUE HOLMES

Women members of the National Foundation for Infantile Paralysis in some cities have asked why the annual drive for funds is not held during the summer months when the disease is prevalent instead of in January.

Local women, questioned on their opinion of the timeliness of the drive, just completed here, gave a majority of affirmative answers toward changing the season of the drive. Mothers showed a particular interest in the project.

Mrs. Ralph Mitchell, 2805 Avenue H, said she knew from experience that people would be prompted to give more money when polio cases are at their peak. She lived in Houston during one of the major outbreaks, she said, and remembered the urgency with which people bought polio insurance. She said she thought people would show more interest in a fund drive in the project.

Mrs. Bryan Jordan, Jr., 3749 Dalton Drive, was also of the opinion that persons would "shell out" more money when the disease was prevalent. She has three sons.

Mrs. Wesley Collins, 324 Thirty-first Street, who said summer would be the most suitable time for the drive, had a different reason for her opinion. She said Boy Scouts in search of a summer project could solicit funds. She has an 11-year-old son who is a Scout.

Mrs. Bruce Denny, who lives northwest of town, suggested that a spring month would be better than summer or the present time of the drive. She said with Christmas just past, January was a hard time to collect funds, and she said summer vacations seemed to interfere with that season. She has a daughter.

Another Snyderite, Mrs. James Stewart, 2804 Avenue H, also said she thought the drive would be more effective in summer when more cases of polio are publicized. She has six children.

Some women questioned believed January was good time for the drive.

Collecting the money in the winter so that it is available during the summer polio outbreaks is the logical method, Mrs. R. D. Sellars, 305 Thirty - third Street, said. She has two sons and a daughter.

Mrs. L. Z. Bridgman, 710 Thirtieth Street, also said she thought the drive was held at the right time. She said the head nurse at a large polio hospital told her technicians needed the winter months to conduct polio research, which made funds necessary in winter as well as in summer when more cases are reported.

One of the local workers in the drive, Mrs. Shelby Surratt, said conditions for collecting money would be better in summer when the weather was not so uncertain. She, to, believed the month after Christmas was a bad time for a fund drive.

Girl Scout Lodge Opens In Ceremony

Dedication ceremonies and open house will be held this afternoon at the new Girl Scout meeting lodge in Southwest Snyder.

The new building, constructed under the sponsorship of the Alpha Study Club, is to be open for public inspection until 5 o'clock this afternoon following ceremonies which begin at 3 o'clock. Location is on thirty-fifth Street just off Avenue V.

The building was built after a successful $3,000 funds drive carried on by the study club was completed last April. Much of the construction cost and materials were donated. Land was also donated. Donations not previously recognized publicity included landscaping by Bells Flower Shop and draperies donated by the Cosmorama Club.

This afternoon's program will include a presentation speech by Mrs. Maurice Brownfield of the Alpha Study Club and responses by Mrs. C. C. Miller, Girl Scout council chairman, and Mrs. Margaret McAdams, West Texas area executive director of Abilene.

Mrs. J. E. Sentell will sing a patriotic song and the Rev. W. W. Adcock will give the invocation. Mrs. Lila Dodson will act as master of ceremonies. Girl Scout troop No. 1 will raise the flag to end the program. A social hour will follow.

Mrs. Mary Fesmire Marks 81st Birthday

Mrs. Mary E. Fesmire, 2204 Twenty - sixth Street, is marking her eighty-first birthday today with a reunion of her four sons.

Guests include Eugene L. Roberts of Glenwood, Ark., Ray Fesmire of Houston, Leroy Fesmire of San Angelo and C. A. Fesmire of Odessa.

Mrs. Fesmire moved to Snyder in 1916.

PERSONALS

Mr. and Mrs. D. M. Cogdell, Jr., Clairemont Road, are attending the fat stock show in Fort Worth.

Guests Friday in the home of Mr. and Mrs. E. T. Decker, 512 Twenty - eighth Street, were the Rev. E. B. Fenton, Lee Thomas, J. B. Sherwin and J. L. Hill, all of Colorado City.

Mrs. W. W. Gross, 1704 Twenty-eighth Street, has as a guest Mrs. Hattie Faught Nesbitt of Fort Worth.

Jo Michael Bass, son of Mr. and Mrs. Prentis Bass, 3789 Highland Drive, has returned home from Big Spring Hospital - Clinic where he was taken following a respiratory obstruction.

Fashion Superlative

. . . "Ocean Breeze" takes on new importance . . . Dupont's thick and thin yarn provides added surface interest. Of course, it's your favorite coatdress, newly fashioned with gleaming white braid trim, novelty elliptical buttons and bouffant skirt that billows from self belt in wave-on-wave of unpressed pleats. In steel grey, luggage or navy. Sizes 10 to 18.

Jack Mann ORIGINAL

Mildred's
1906 26th Street

Martha Washington . . . This is Sally Victors' idea of an inaugural bonnet for the first First Lady, brought up to date.

Mary Todd Lincoln . . . The wife of the Great Emancipator, might have worn this calash in pleated beige gauze, a 1953 style.

Dolly Madison . . . the feminine bonnet beloved by the playful Dolly is still popular today. This is blue straw with a satin bow.

Helen Taft . . . The small sailor of 1909 probably was the favorite hat of Mrs. William Howard Taft. Now it's done in gingham.

Lucy Hayes . . . The gay young wife of Rutherford B. Hayes, would have looked well in this neat bonnet, with a posy topside.

March Of Dimes Funds Gain $402 At Charity Ball

Seventy - five couples contributed $402 to the March of Dimes Friday night at the charity ball at the Country Club sponsored by the Altrurian Daughters Club.

Steve Birdwell and his orchestra furnished music for dancing. Additional music was provided by Wiley Brice, organist, and R. E. Patterson, drummer.

Bill Atwood was master of ceremonies during the presentation of a deep fat fryer given away by the sponsoring club. A ham donated by Pick and Pay Grocery was also given away during the evening. Pop corn was furnished by V. F. Nichols.

General chirman of the dance was Mrs. R. F. Wasson. Mrs. Patterson headed the music committee, with Mrs. B. L. McKinley in charge of invitations. Mrs. Marcel Josephson was in charge of food and Mrs. Bill Schiebel, decorations. Mrs. J. D. Scott was on the arrangement committee.

Mr. and Mrs. W. W. Holder and daughter of Odessa have been guests in the home of Mr. and Mrs. L. I. Bates, 3002 Thirty-ninth Street.

Mrs. Wayne Forrest Bethel

Wayne Bethel, Bride To Make Home In Abilene

Mr. and Mrs. Wayne Forrest Bethel will be at home in Abilene following a wedding trip to Monterrey, Mexico.

Mrs. Bethel is the former Miss Betty Jo Balthrop, daughter of Mr. and Mrs. Clifford W. Balthrop of Denton, Tex. Parents of the bridegroom are Mr. and Mrs. A. L. Bethel, Old Post Highway.

The Rev. John Marvin read the ceremony yesterday afternoon at the First Presbyterian Church, U. S.A., in Denton. Miss Jerry Horning of Glasgow, Tenn., sang "Through the Years," and "The Lord's Prayer" and was accompanied by Fred Stroop of Waxahachie, Tex., organist. Miss Judith Ann Bethel of Odessa and Miss Mary Lucille Neely of Denton lighted candles.

Given in marriage by her father, the bride wore a tulle and lace wedding gown, designed with an off-the-shoulder neckline and a figurine bodice. Long lace sleeves tapered to deep petal points over her hands, and the bouffant demi-length skirt of layers of tulle was accented with lace panels. Her fingertip - length veil of imported French illusion was caught to a half bonnet of lace trimmed with satin and scattered with seed pearls. She carried a white Bible topped with a white orchid, sprays of valley lilies and satin streamers.

MRS LANKFORD MATRON

Mrs. B. C. Lankford of Denton was matron of honor, and Miss Kay Cross of Denton was bridesmaid. Mrs. Lankford wore a crimson taffeta gown with pleats, off-the-shoulder bodice and wrapped high waist. She carried a nosegay of white roses and sweet peas with puffs of crimson taffeta and streamers. Miss Cross's gown was of emerald green taffeta, fashioned like that of the matron of honor. Her bouquet also matched Mrs. Lankford's, with puffs of green taffeta.

Phillip Rochford of Nashville, Tenn., was best man and Bobby Lankford of Houston was groomsman. Ushers were Dan L. Boren and John Neely, both of Denton, and Dennis Bass of Lake Monroe, Fla.

RECEPTION AT CHURCH

A reception in Fellowship Hall of the church followed the ceremony. Mrs. James Kohler, Miss Peggy Coggshall and Mrs. Joe Bass, all of Denton, were members of the house party.

When the couple left for Monterrey, the bride wore a cerulean blue knit suit with matching and navy accessories. She is a senior student at Texas State College for Women and a member of Delta Phi Delta.

The bridegroom attended the University of Oklahoma and is a junior student at Hardin - Simmons University.

BRIDGE NOTES

Mrs. Ray Keenan entertained the Monday Duplicate club when Mrs. Bill Ellis and Mrs. Charles N. Snyder won high score. Second winners were Mrs. J. Paul Jones and Mrs. H. E. Gillespie, and third winners were Mrs. N. R. Clements and Mrs. B. L. McKinley.

• • •

Mr. and Mrs. H. E. Goodwin and Mr. and Mrs. Ben Wilkerson, all of Colorado City, were first and second prize winners respectively, at the duplicate session Tuesday night at the Country Club. Tying for third place were Mrs. Mabel Brock and Mrs. Snyder and Mrs. Keenan and Mrs. J. D. Scott.

• • •

About 15 Snyderites were in Colorado City Wednesday night for duplicate play at the country club. No local players won prizes.

• • •

FRIDAY

Women's Golf Association, 9:45 a.m., Country Club.

Book Review Club, 2 p.m., Country Club.

25 YEARS AGO

(Taken from files of the Scurry County Times - Signal, Feb. 2, 1928.)

Thrills galore were brought to an enthusiastic crowd of about three hundred Friday night when CO. G. put on their second group of amateur bouts. Gloves were flying in all directions and every one got his full money's worth.

After three colored scraps, and they were ludicrous, the real battling of the evening started.

"Kid" Zeigler of Fluvanna had a decided edge over "Ham" Ware of Rotan, according to the judges, although no decisions were given. Both these boys are hard nuts to crack, learning fast, with plenty of pep and energy.

Corporal Townsend easily mastered Big Boy Henderson of Camp Springs. The former keeps in condition faithfully, while Henderson's wind was a bit short.

• • •

Snyder is one of the cities in the race for Gunter College, which for the past twenty years has been located at Gunter, Texas.

Mr. and Mrs. D. M. Cogdell, Sr., Colorado City Highway, are at their ranch in Briscoe County. Their granddaughter, Lesa Bowden accompanied them.

Sanitation Is Best Combatant Of Polio

AUSTIN, Jan. 31 (AP)—"An ounce of prevention" will still beat that "pound of cure."

Although a vaccine for preventing polio is in sight, Dr. George W. Cox, state health officer, said today that sanitation is still the best answer against the crippler.

Since the vaccine and also the use of gamma globulin for lessening the effects of the disease are in the experimental stage, cleanliness is polio's best opponent, Dr. Cox said.

An uncontaminated water supply, efficient sewage system, proper garbage disposal and personal cleanliness will never be replaced by any vaccine, no matter what the disease, he said.

Mrs. Porter King admires her husband's electric clock he made but tells him she also wants another salad bowl to replace the one he used. (Dolores Ketchersid Photograph).

'Itching Hands' Put To Good Use In Porter King Residence

Porter King of 3008 Avenue U has made articles ranging from a salad bowl clock to a stone fireplace because about once a year his hands "get to itching," he says.

One example of his handiwork is an iron skillet he made into an electric clock. The skillet has been in the King family for about 100 years. Using a drill press King bored holes for upholstery tacks to mark the number positions on the back of the skillet. The hands and works were scrapped from an old discarded clock, King said.

The salad bowl was inverted and the number positions marked with small black buttons. The hands and works, again, were obtained from a discarded clock. He estimated the clock cost him about $15 compared to the $35 retail merchants ask for simular ones.

King's talents also run toward making lamps. He has numerous ones including one made of a cactus he found in California. Leaving the wood its natural color he shellaced it and used a varnished meat block as the base. A reading lamp was mounted on top for which he chose a corresponding rustic shade of light gray trimmed in leather. Another lamp is made of a brown glass bottle about two feet high.

In one room of the King house stands a unique floor lamp which was constructed of a trace chain which had links welded together. The legs of the lamp are made of shorter lengths of chain. King said he likes working with metal better than other materials. He began welding when the first oil field was opened in Snyder.

King's favorite piece of handiwork is a vase he made from a French 75mm shell when he was stationed with the Motor Transport Corps in France during World War I. With no instruction and only a chisel, metal punch and hammer at his disposal he worked Sunday afternoons for about two months on the object.

Another favorite of his is a smoking stand with an antique iron for the base, a shovel scoop for the tray and a poker to connect them. The articles were more King family heirloms.

King, a member of the First Methodist Church, was active in boy scout work for 27 years during which he served as assistant scout master and scout master. He helped organize the Buffalo Trail Council which took in four counties then. He is a member of the Masonic Lodge and is a Shriner. King is also helping organize a hobby club in Snyder.

Former Snyder Man Succumbs In Arizona

Robert F. Lewis, 62, former Snyder resident was buried in a Wickenburg, Ariz., cemetery yesterday.

Mr. Lewis died Tuesday night of a heart attack at Wickenburg.

He is survived by a son, Cecil Lewis of Roswell, N. M.; two daughters, Mrs. Leola Cliner of Albuquerque, N.M., and Mrs. Opal Hanson of Grham, Mo.; six sisters, including Mrs. Jim Ikard of Snyder; and seven brothers, including Richard Lewis of Snyder.

Shooting Victim Steadily Improving

The condition of Raysell Vaughan, hunting accident victim, is steadily improving, according to his father, J. T. Vaughan of 1213 Thirteenth Street.

Vaughan, 17, will be placed in a cast as soon as his fever subsides his father said. The boy suffered pelvic injuries last Sunday when a 12-guage shotgun accidentally discharged as he and three other boys were crossing a fence south of Snyder.

Shortly afterwards Vaughan was taken to Hendrick Memorial Hospital in Abilene.

Dental Health Day Tomorrow

National Children's Dental Health Day will be observed tomorrow throughout the nation to focus public attention on the need for more dental health education and care for children.

In connection with the observance, Mrs. John Hamblen, wife of a Snyder dentist and an officer in the auxiliary of the seventeenth district dental society, said that parents should assume the responsibility of seeing that children begin dental training at an early age, adding that a large part of the problem of tooth decay would be solved if that were done.

Tooth decay, according to dental societies, is America's most widespread disease, and it is a disease because it destroys body tissue.

The dental societies say that the destruction of tissue in tooth decay can lead to intense pain, a toothless mouth, and facial disfiguration. They add that more than 90 per cent of Americans have advanced tooth decay by the time they are 16 years old, that at least 50 per cent of all two-year-olds have one or more decayed teeth.

Dental authorities urge parents to help their children learn to care for their teeth to cut down on the number of cavaties.

The diameter of the sun is about 864,000 miles.

Couple Recalls Horse And Buggy Wedding 64 Years Ago

SEALY, Jan. 31 (AP)—Memories of Mr. and Mrs. Frank Sachnik flashed back this week to a happy day 64 years ago when they borrowed a two-horse sleigh and whizzed to a community church in their native Upper Silesia to be wed.

The date was Jan. 27, 1889. They stepped from the sleigh and through the falling snow, entered the church, filled with relatives and friends. It was a big wedding, eight bridesmaids and other attendants.

A little more than a month from now both will be 87, Sachnik on March 7 and Mrs. Sachnik four days later. They now live on their farm in the nearby Frydek community, where they celebrated their 64th wedding anniversary Jan. 27.

Of Polish descent, they recall life even in those days wasn't too easy in Upper Silesia, a former Polish province then under German rule and now behind the Russian Iron Curtain.

LAND AT GALVESTON

While Mrs. Sachnik helped with the farm work, Sachnik augmented the family budget by working as a carpenter, taking home what amounted to 25 cents a day. Furthermore, Sachnik said he had to furnish his own tools. His hours were seven to seven, with an hour off for lunch.

Three years of this and they decided to seek their fortune in America. On April 26, 1892, they walked down the gangplank at Galveston, carrying their babies, Hattie and Frank Jr. Sachnik had $40 deep down in his pocket. Their meager possessions included a "fine goose feather mattress," and its "still good," said the Sachniks.

They lost no time in settling in the Frydek community. They got farm jobs at 50 cents a day. But they managed to save.

By 1905, they were able to buy an 80-acre farm. In 1912, an additional 100 acres were purchased and a few years later they added 46 acres of wooded land.

STILL ACTIVE

Sachnik recalled an incident in purchasing a 5-cent stamp to send a letter to his father. He had a dozen eggs to sell. Eggs were 4 cents a dozen so he talked a San Felipe merchant into paying him 5 cents for the eggs so he could get the letter off then.

Until two years ago, both worked in the field and Sachnik helped in the kitchen. Mrs. Sachnik still does most of her housework and is often in the yard and garden. She still reads with "weak" glasses and has most of her teeth. Four years ago, she could pick 200 pounds of cotton a day.

The Sachniks have two sons, August of Sealy and Frank Jr., of Houston, and three daughters, Mrs. Hattie Ceslewicz, Sealy; Mrs. Julie Cieslewicz, Houston, and Mrs. Conrad Kolodziejczyk, Sealy. They also have 16 grand children and many great-grand children.

Man Makes 1,100 Mile Trip In Iron Lung

DENVER, Jan. 31 (AP)—Charles H. Wilson Jr., 26, son of a Palacios, Tex., farmer arrived here today after an 1,100-mile trip from Houston in an iron lung in a special railroad Pullman.

His family hopes that Wilson, who was stricken with infantile paralysis last June, will be benefitted by the change of climate and different treatment here. He can spend only a few minutes outside the lung.

When he arrived after what he described as the "best trip I ever had," the end of the railroad car had to be removed so Wilson could be placed on a stretcher and carried to an ambulance. He was taken to a local chiropractic sanitarium.

The specially-equipped railroad car was loaned by Fred Snite, wealthy Chicagoan who became a polio victim 17 years ago and who made frequent trips in the "hospital" Pullman.

He was accompanied by two nurses, relatives and railroad officials.

Vienna Woods Off Limits To US Soldiers

VIENNA (AP)—The famous Vienna Woods, which inspired waltz-king Johann Strauss, are forbidden territory for Americans stationed here.

All but a fringe of the beech and chestnut-covered hills which comprise the Wienerwald, as the woods are called here, are in the Russian occupation zone of Austria. Under the rules of the four-power occupation of Austria, the greatest part of the woods are off-limits not only for troops of the Western nations, but for all American, British and French tourists visiting Vienna.

Only by risking Russian arrest and detention for two or three days can Westerners ski on the highest peaks of the woods in winter or hike in summer to the pretty wine-growing villages hidden deep among the green hills.

But even under Russian control the Vienna Woods have not lost their attraction to the Viennese. They still are the city's biggest playground in summer and winter They are, in fact, even more popular today than before the war, because shortage of money prevents most Viennese from spending week ends or vacations in the Alps.

Under the 1,000-year rule of the Hapsburgs, the 30-mile-long belt of woods and meadows on Vienna's west and north were kept sacrosanct as a imperial hunting preserve. Today, construction of any sort still is forbidden for most of the area.

The mass of the sun is about 332,000 times that of the earth.

Teachers Meeting In Auditorium Tomorrow

Two local teachers' organizations will elect delegates to the Oil Belt District Meeting when they come together tomorrow evening at 7:30 o'clock in the high school auditorium.

The Scurry County unit of the Texas State Teachers Association and the Classroom Teachers' Association will choose the representatives to the meeting which will be held March 13 - 14 in Vernon. They will also hear reports from delegates who attended the TSTA meeting Thanksgiving in El Paso.

The main speaker for the evening will be Dr. Cecil Yarbrough. A social hour will follow the joint meeting.

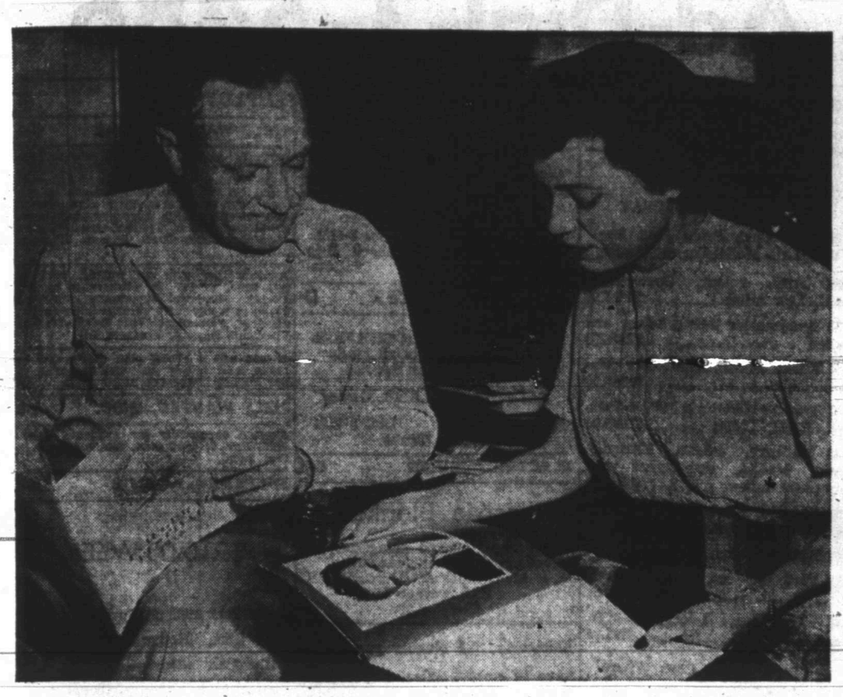
ALABASTER
treats your hands like your face

As you smooth on this fabulous hand lotion, Alabaster, your hands become incredibly soft and smooth . . . staying that way as you use it faithfully. You use it by drops so that each bottle lasts and lasts. And because there's no "sticky" feeling, you'll love it as a body lotion, too. $2 the bottle (plus tax)

STINSON DRUG
NORTH SIDE OF SQUARE



Mr. and Mrs. E. E. Spears of 3111 Avenue T, look over two of the souveniers they brought back from Washington with them last week. (Dolores Ketchersid Photograph).

Snyderites Find Washington Exciting During Inauguration

"You have heard 'it's not what you know, but who you know,' well, our trip to the inauguration certainly proved that," said Mrs. E. E. Spears.

"There were plenty of people right there in Washington who didn't get to go to any of the parties," added Spears. The couple "knew" Gilbert Sandefer, director of the Navy band, who was a classmate of Spears' in Hardin-Simmons about 28 years ago. They also met another former classmate, George Mahon, ninetoenth district representative.

The Spears said they had good seats for the inaugural parade. Theirs, priced at $10 each, were located at the corner of Pennsylvania Avenue and Fifteenth Street. Of the five Texas floats Spears said the Cowboy Band and the Hockley County Sheriff's Posse were outstanding.

"Everyone seemed very well pleased with the new president. He was dignified and personable at all the functions," Spears said. The couple stated persons in Washington told them this inauguration was the biggest of them all, and the new party coming into office wasn't the only reason. "Everybody likes Eisenhower, even the Democrats although they wanted in," Spears said. He had attended the Hoover inauguration, but this was the first one for Mrs. Spears.

One of the biggest thrills the couple said they experienced was the ride on the underground railway to the Senate office building from the capitol. "That's one thing I never expected to do," he laughed.

They attended the committee session in which Charles E. Wilson, former president of General Motors, was nominated for secretary of defense. "Wilson made a terrible sacrifice when he gave up $2,500,000 for the position. He must be a great patriot and a great friend of Ike's," Spears said.

The couple had luncheon and sat in the Senate gallery with Mahon. An unidentified woman told the Spears she arranged her business to listen to every session of congress. "I just wonder what kind of business she is in?" Spears asked. The couple agrees that while Washington is busting and interesting they have no ambition to live there.

Mahon showed them the committee room where he previously sat as chairman of military appropriations. Spears said the table was about 25 feet in length and lined with stuffed leather armchairs. The head chair, an old cane-bottom one, had been pulled to the side. "I want you to tell those people where you come from that I sit in that chair and tend to business," Mahon instructed Spears.

Spears replied, "George, when you're dealing with that kind of money, I wouldn't want you ever to relax." Mrs. Spears added that while the cane-bottom chair was plainer, she, personally, thought it was more comfortable.

The couple attended the inaugural ball which was held in two separate buildings, the largest party of which was in the National Guard Armory, Mrs. Spears said. For the affair she wore a rose ballerina length evening dress of nylon net and satin. The presidential party who had been in the reviewing stands until late afternoon remained in their box during the ball, Mrs. Spears said.

The couple attended Texas night held in the caucus room of the Senate where they met Omar Burleson, representative from the Abilene district. They estimated two or three thousand persons showed up for the affair. "There are an awful lot of Texans in Washington!" Spears exclaimed.

They also attended the New Mexico night reception with Sandefer.

While there the Spears saw the Inaugural Festival with a cast that read like who's who in American entertainment. Walter Winchell as one of the master of ceremonies especially pleased Mrs. Spears since "I had heard him all my life." The Kilgore Rangerettes put on an exceptional performance, the couple said.

They visited the Pentagon building upon the invitation of Allen Moses, son-in-law of R. C. Grantham of Snyder, who has an office there. The couple also saw the George Washington Masonic National Memorial in Alexandria, Va.

Among the very important persons the Spears met were Joe Martin, speaker of the House, and Martin Dies, Texas congressman-at-large. Priviledges of the National Press Club house were extended for ten days to the couple.

Some Poisonous Products Are Not Properly Labeled

NEWARK, N. J., Jan. 31 (AP) — A battle against unsuspected poisons that kill little children is being waged here by Dr. Morton J. Rodman of Rutgers University College of Pharmacy.

The unsuspected poisons are seemingly harmless things which a child may swallow out of curiosity. Often, there's no label telling what chemicals they contain—no clue to an antidote.

So Dr. Rodman, pharmacology professor, is compiling a checklist of products that have poisoned youngsters—and the antidotes—in an effort to cut down the annual toll of 600 youngsters dying from poisoning.

It covers things like cosmetics, perfectly safe when used externally but potentially fatal to a child exploring his mother's boudoir, and things like metal polish, paint removers, insect repellents.

There's no foretelling what a child may take a fancy to drink, Dr. Rodman explains. If the contents aren't fully known, doctors lose precious time trying to learn what poison the child has taken and how to counteract it.

A child might sometimes be better off if he had drunk from a bottle with a skull and crossbones, a label telling what poison it contained. The physician then at least would know what he might do.

The idea for a list of contents of various commercial products, with antidotes if wrongly used, grew from calls from physicians to the pharmacy college asking for quick chemical analyses of products. Sometimes the college was able to give the answer in time.

Many poisoning fatalities could be avoided if all chemical products listed their ingredients, whether or not they were meant for internal use, Dr. Rodman said. That at least would supply a start toward treatment to counteract the poison.

Another phase of his campaign is speaking to women's groups, telling them of the hazards in some commonplace and seemingly safe products.

Turtles have no teeth.
