

PURE WATER---Mayor Bill Thomas and Water Supt. W. F. Williamson proudly point to a sign showing Olton water is now approved by the State Department of Health.

If you think you note a blue tone in the picture, you're right....The Enterprise added it just for effect.

City Water Is Approved

That "funny" taste in Olton's water lately is there because the bacteria aren't.

And because the bacteria aren't in the water anymore, the City of Olton now has road signs at the city limits reading, "Public Water Supply Approved, State Department of Health."

"We've been told by experts," said Mayor Bill Thomas, "that the taste of the water in the last few weeks is a sure sign that bacteria are being killed by the chlorine in the water."

The reason the water may seem to taste differently, said the mayor, is that it's "pure water."

The effort to get Olton's public water supply approved began about a year ago at the suggestion of Dr. Basil Johns. It has been pushed along since by Mayor Thomas and city water supt. W. F. Williamson.

An automatic chlorinator was installed about two months ago. Olton's water passed state purity tests, and the city water facilities and equipment were approved by state inspection.

County Superintendent Defends School Office

County School Superintendent C. Roy Stevens, his post the target of a movement to abolish the office, Wednesday declared his job "doesn't cost the county anything."

Striking back at the campaign against the county school office, Stevens said: "All of the money to run this office comes from the state."

The county school man said that criticism about the post "costing the county so much just isn't correct."

If the office became part of the county judge's, as ex-officio

post, Stevens said this would cost the county a minimum of \$5,200 annually.

"The county judge would be paid \$2,600 a year, and a secretary would be allowed a like amount," he declared.

"The state wants the office as it is," Stevens said, adding, "you cannot abolish the office, you can only transfer it to another office, as a minor part of that office."

The county superintendent said he ask "only that the voters think about it (whether the office should be abolished)."

"If they still want it abolished, that's their prerogative. I'll have no crow to pick with them."

Stevens remarks came in a telephone interview with the Enterprise.

Asked if he could supply a list of duties and responsibilities of the office, Stevens said he would do so, in writing. Meanwhile, the campaign initiated by the Olton C-CA last week continued.

C-CA Manager Melvin McReynolds spoke on the movement at a meeting of the Olton Lions Club Tuesday.

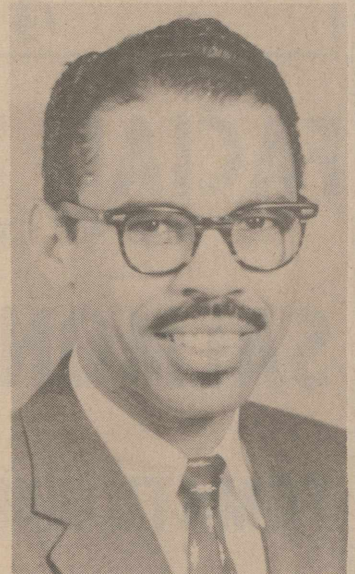

He again bashed the county school post a "waste of money" and urged his listeners to sign a petition calling for an election to determine the future of the office in Lamb County.

McReynolds said the petitions are located at five places in Olton, the Ideal and Spodite Cafes, Southwestern Public Service, the Chamber of Commerce office, and at Olton State Bank.

Texas law relating to the abolishment of the office says the county judge, after being petitioned, shall call an election "to determine by majority vote whether the office of county superintendent shall be abolished."

The petition must be signed by 25 per cent of the qualified voters who cast a vote in the Governor's race at the preceding General Election.

This means that more than 1,000 signatures of qualified voters will be required on the petition before it is presented. Signers must be qualified voters, but are not required to have voted in the last general election.

City Will Buy Baseball Land

Council Boosts Youth Baseball

Olton youth baseball backers were jubilant Wednesday after the city council came to their rescue Tuesday night with an offer to purchase land for a ball park.

City dads, in a unanimous move, voted to spend \$3,500 for purchase of a city block of land on the west side of town.

The land, 14 lots amounting to 350 feet by 300 feet, is to be bought from Steve Boruk. It is located at the west city limits between 5th and 6th streets, just south of Highway 70.

"We were just about at the end of our rope," said one baseball booster. "Now we can go ahead with baseball for boys of Pony League and American Legion ballage. Without this, we just wouldn't have had a place for them."

As a result of a school expansion program, the baseball park used by Pony and Legion players in the past is being done away with, to make room for a move of the football field. Removal of fences at that field began this week.

The council approved the appropriation of money for the field after some discussion.

One member pointed out: "I know the field is probably one of the best things we can spend city money on, but we also have to think about the city budget, which was set up at a deficit of \$1,375 to begin with."

"That's true," said another, "but we do have the money in savings, and I don't know of a better thing it could go for."

And another comment: "I think if the baseball program ever keeps just one youngster from becoming a juvenile delinquent, this expense will have been well worth every cent."

And still another: "The City of Olton isn't spending anything on parks or recreation. I think this is as fine a community project as we could have."

The proposal got unanimous approval. Mayor Bill Thomas noted that the figure of \$3,500 is a maximum the city will spend.

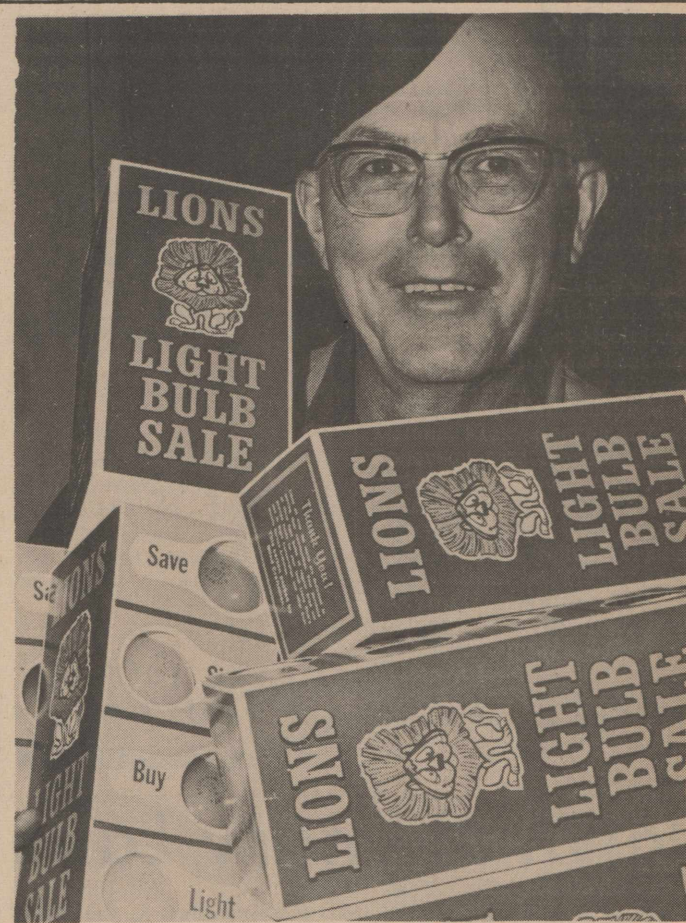

In other activity at a regular council meeting the group:

1. Tabled an ordinance which will set fire limits and the electrical code. A committee of Robert Dennis, Tom Smith and David Mahey was appointed to draw up fire limits and the electrical code, using recommendations from the state. Results of their work will be presented to the council later.

2. Approved an arson ordinance calling for a reward of \$250 for information leading to the arrest and conviction of any person involved in the crime of arson here. This ruling replaced one which had set a reward of \$100.

3. Voted \$600 to send three firemen to Fire Fighting School at College Station July 19-26.

4. Accepted easements for a sewer line and alley behind the new building on the square.

LOADED LIGHT---Olton Lion G. H. Bley was one of several Lions working Tuesday on the club's annual light bulb sale. The club had a good run on the bulbs, but they still have some left, if you're interested in a bargain and helping out in a community project.

Rosters Are Set For Baseballers

The baseball glove became the official status symbol here this week with the younger set as the annual fever overtook local sports fans.

Even mom and sis turned out to take in the practice sessions and cheer Junior on. No definite schedules for games have been worked out yet

and teams may be changed to produce a better balance in the leagues.

Seven teams have been set up with four in little league and three in pee wee league.

Little league teams and players, as they stand this week, are:

Olton State Bank--Jimmy Joe Schenck, Ricky Mills, Mike Gullett, Barry Cowart, Ronnie Packard, Sparks Redinger, Micky Mills, Gary Barron, Robert Cooper, Kelly Robertson and Kenny Spain with coaches, Deryl Machen and Melvin McReynolds.

Thompson Implement-Pedro Riveria, Gail McClain, Joe Dale Chitwood, Mark Chitwood, Loyd Cook, Gilbert Richardson, James Cross, David Turner, Jackie Kemp and Mike Parsons, with coaches Clinton Billingsley and R. V. Allcorn.

Olton Co-Op Gin--Lynn Campbell, Donnie Packard, Pat Trotter, Royce Reggin, David Pendergrass, Mark Lancaster, Carroll Blackwell, Donald Zavleta, Kenny Jones, Lynn Ramsey and Art Tollett with coaches Bub Holt and Charlie Reggin. Farmers Gin-Deryl Huguley, Monty Roberson, Tony Miller, Ronnie Truelock, Gary Kelly, Tommy Reggin, Gary Cooper, Willie Marvin Sanders, Steve Holt, Brad Barron and Lynn Gullett with coaches, Jackie Gary and Jerry Dennis.

Pee-wee teams and players are:

Olton Butane--Bruce Lancaster, Mark Hodges, Steve Bryan, Tim Givens, Holt Price, Mark Stroebel, Monte Chitwood, Jim Bob Edwards, Mark Bryant, Gene Cook, Carl Bley, Monte Malone, Ricky Reagan and Scott Roberson with coaches, Johnny Hodges and Elmo Hasha.

Cashway Food--Chuck Mills, Terry Lively, Allen Allford, Dale Parsons, Keith Workman, Leon Follis, Ken Turner, David McGill, Darrell McGill, Bruce Yandell, Robert Offield, Ricky Doggett, Timmy Eades and Wade Machen with coaches, Denver Offield and Bennie Doggett.

Straw Gin--Mickey Pittalla, Vick Allcorn, Billy Jordan, Carl Sudduth, Gayle Long, Kenneth Limbocker, Devin Mitchell, Jimmy Parker, Dannie Dennis, Allan Carson, Bryan Allcorn, Ricky Smith, Joe David Caudle and Lyndie Joe Edward with coaches, Gerald Allcorn and Wayne Carson.

Two other little league teams, both from Halfway, are also in practice. Coaches and players were unavailable Wednesday.

TEACHER TROPHY TRAVELS

BY AMY TURNER

We play according to Moore.... Or do we?

The "rules of the game" were a little bit muddled this week in an Olton school faculty golf tournament when a "traveling trophy" covered quite a bit of ground.

Elmer Moore, school business manager, initiated the tournament idea, sending out a directive explaining the rules "according to Moore."

The directive was signed by the tournament committee as follows:

Elmer J. Moore, director; Elmer J. Moore, trophy chairman; Elmer J. Moore, handicapper; and Elmer J. Moore, head scorer.

The tourney ends Saturday and the traveling trophy will go to the individual medalist. In his official capacity as trophy chairman, Moore decided early this week to pull a

little publicity stunt by hiding the trophy and saying it was stolen.

He then decided to "plant" it in the home of Bob Allford, one of the two team captains.

Upon returning to his "hiding place" to retrieve the award, Moore's traveling trophy had traveled.

A quick, and somewhat frantic, search by Moore failed to produce the now famous trophy until Wednesday afternoon when it was uncovered in the home of Leslie Ross, the other team captain.

Naturally Ross was somewhat surprised when he returned home to find the "stolen" trophy sitting in plain sight in his home.

According to Director Moore, the tournament will proceed and the losing team will host the winners and families to an ice cream supper between May 16 and 21.... Or have a good alibi.

THE WINNAH---Jokes were played all around as Olton teachers engaged in their own golf tournament this week. A "lost" or "stolen" team trophy traveled around as a result of the antics of Bob Allford, Elmer Moore and Leslie Ross.

BOHNER GRADUATES—Left to right are Loreca Mack, Betty Jean Moore, Joseph Springer, Mary Jean Thomas and E. L. Carter, 1964 Bohner High School graduates.

Graduation exercises are set May 20 at 8 p.m. in the Olton High School auditorium.

Soybean Crop Said 'Comer' On Plains

Soybeans look like real "comers" on the Plains. Not only are they usually a profitable crop in their own right, but they also have an advantage in their late planting date. According to area extension agronomist Billy Gunter, soybeans are fast gaining acceptance as a "catch crop" for hailed-out cotton when it's too late to replant.

Gunter points out that soybeans are recommended for planting on the Plains between June 1 and June 20. However, they can be planted as late as July 1 in the southern portion of the Plains if required, says county agent W.R. Kimbrough. Another advantage of the late planting date is in weed control on weedy fields. Mechanical tillage can be practiced up until the time beans are planted.

In the last few years, soybean acreage on the Texas High Plains has mushroomed. From 18,000 acres in 1956 to a record approximate 90,000 acres in 1963, this crop has boomed in planted acreage, Gunter says

over 90 percent of the total Texas soybean acreage is on the High Plains. While 40-45 bushels are not uncommon, average yield last year for the Plains was approximately 32 bushels an acre. Support price for soybeans on the Plains this year will be around \$2.17 a bushel. In recent years, market price has been higher than the support price.

The bulk of soybeans on the High Plains are grown within a 35 mile radius of Plainview.

\$10,000 Suit In Plane Incident

A \$10,000 civil damage suit against Frank Daugherty has been filed in district court by J. M. Machen.

The suit is a result of an incident last summer when an aerial spray plane, spraying Machen's cucumber field, was fired on and hit in the wing by a bullet.

Machen contends in his suit that the shooting caused the spray pilot, Harold Harbour of Amarillo, to stop spraying the cucumbers and that failure to get them sprayed at that time caused a \$5,000 loss in the profit from his crop.

He seeks this \$5,000 and another \$5,000 in exemplary damages.

Daugherty was indicted by a Lamb County Grand Jury last November on a charge of assault with intent to murder in connection with the incident.

He later pleaded guilty to a lesser charge and paid a total of \$784 in fine and court costs.

The Machen cucumber field adjoins the Daugherty place.

Pleadings of the district court suit allege that the shooting "caused the pilot to refuse to spray the cucumber patch anymore" and that Machen was unable to get it sprayed at the proper time for protection from insects.

CHILDREN VISITS

Mrs. Andy Andrew has submitted two recipes for this week. She and her husband, Andy, have 2 boys, Alan, 8; Steve, 12; and they have lived in Olton for 16 years.

Mrs. Andrew has many hobbies and is known for her painting. Besides being librarian for the First Baptist Church, she enjoys golf, swimming and sewing. She also teaches art. She is employed by Faye Stone's Photographic Studio as a colorist.

SWEET CRISP PICKLES

Slice 7 pounds of medium sized pickles 1/4 inch thick. Then cover the slices with a solution of two cups lime in 2 gallons of water. Soak 24 hours. Get the sliced lime from lumber dealer.

Next rinse pickles well and cover with fresh water and

soak 3 hours longer. Drain and cover with this mixture:
2 quarts vinegar
4 1/2 lbs. white sugar
1 tbsp. salt
1 tbsp. celery seed
1 tbsp. whole cloves
1 tsp. mixed pickling spices
Soak pickles in this syrup over night. Then boil 40 minutes or longer until clear.
Pack in sterilized jars and seal.

TEXAS MILLIONAIRES

3 cups sugar
3 cups white Karo
1 cup milk
1 cup whipping cream
1 stick butter
Cook to 236 degrees on candy thermometer. Add 2 cups chopped nuts.
Let stand 24 hours then cut in squares and dip in dipping chocolate.

Bykota Meet Held Tuesday

The Bykota Study Club met at the PCA community room Tuesday, May 12 with Mrs. Charles Tussey as hostess.

Mrs. Tussey was also in charge of the program which was about mothers day. Each member brought a photo of their mother and a photo quiz was held.

Mrs. Dan Quigley and Mrs. Billy Guy Thomas were presented gifts for being the outstanding mothers in the club. Sandwiches, cake and coffee were served by Mrs. Tussey to Mmes. Billy Guy Thomas, Andy Stroebel, Landon Smith, Billy Smith Jr., Dan Quigley, Don Nafzger, J.P. Olton Study Club Installation Held

The Olton Study Club met in the new home of Mrs. Guy Willis in Littlefield with Mrs. Ruth Straw as hostess Monday night.

Quotation from the year book for this meeting was:

"The year is closed and the record made,

The last deed done, the last word said,

So now with purpose full and clear,

We have to meet another year."

Invocation was given by Mrs. C. S. Silcott and then the salad luncheon was served.

A business meeting was held and roll call was answered by suggestions for study for the next year.

Mrs. Paul Burrus gave a summary of all the previous meetings.

Installation of officers for the coming year was made by Mrs. Lester LeGrange of Amherst.

The officers installed were Mrs. Paul Burrus, president; Mrs. C. S. Silcott, vice-president; Mrs. Truitt Sides, recording secretary; Mrs. Brent Burrow, corresponding secretary; Mrs. Basil Sherman, treasurer; Mrs. Carl Hooper, parliamentarian; Mrs. Jack Straw, reporter; Mrs. Herschel Carson, federation counselor.

RICHARD REDINGER

Olton Youth Concert Set At Amarillo

Richard Redinger, pianist, who will present a concert Sunday, May 24 at 3 p.m. at the Women's Federated Club Recital Hall, 2001 Wolfen Circle, Amarillo, was a recent winner of the Paderewski Medal in the Piano Guild Auditions held May 1-5 in Amarillo.

Storm Bull, the judge from the University of Colorado, gave great praise to this young artist and predicts a bright future for Redinger as a concert pianist. Richard has played in the Guild Auditions for the past ten years at International level, performing 15 compositions each year from memory.

Richard has played programs in Olton and Plainview many times while studying with Mrs.

J. D. Blackburn. He is a sophomore in Olton High School and is the son of Mr. and Mrs. Dick Redinger.

This past year, Richard has been under the guidance of Virgean Estes Latson of Amarillo. Mrs. Latson, concert pianist and teacher appeared on the Community Concert Series in Plainview last year and is well known in Music Circles of Texas.

Richard Redinger's concert Sunday, to which the public is invited, will be:

Chromatic Fantasy and Fugue in D minor, Bach;
Sonata in F minor, Opus 57, Beethoven;
Prelude in G minor, Opus 28, Chopin;
Scherzo in C Sharp minor, Opus 39, Chopin;
Nocturne, Opus 9, No. 2, Chopin;
Rhapsodie in E Flat Major, Brahms;
Prelude and Dance, No. 2, Creston;
Engulfed Cathedral, Debussy;
Minstrels, Debussy;
And Etude in D Sharp minor, Opus 8, No. 12, Scriabin.

MONDAY VISITORS

Mr. and Mrs. Will Terrell of Darrouzett, Texas, members of their church 38 years ago spent Monday in the home of Rev. and Mrs. R.H. Campbell. Also there were their son, Mr. and Mrs. Gene Campbell, Kamie and Kay of Amherst.

Rebecca Hall Is Candidate For BS Degree

DENTON.--Rebecca Ann Hall of Olton is one of 750 seniors who have applied for bachelor's degrees at North Texas State University this semester. Spring commencement exercises are scheduled for 8 p.m. May 29 at Fouts Field.

Miss Hall, the daughter of Mr. and Mrs. W. T. Hall Jr., Route 1, Olton, is a candidate for the bachelor of science degree in home economics.

Fall Openings In Colleges Are Reported

Many accredited four-year colleges still have room for qualified students for the fall, 1964 term, according to Changing Times, the Kiplinger Magazine.

The editors of the magazine report in the current edition that a quick check of a sampling of colleges turned up 79 that have not filled their freshmen classes, indicating that many other schools still have room, too. The sampling was made from the 600 schools that reported openings in Changing Times' annual survey of colleges, made last fall.

The complete 1963-64 survey of schools that may be good bets for this autumn is available for 75 cents from the Changing Times Reprint Service, 1729 H St., N.W., Washington, D.C. The list includes colleges that were not full this year as well as those planning to enlarge their freshmen classes.

In addition, the magazine makes the following suggestions for students who haven't yet found a college for this fall:

Check state colleges and universities. A good many former teachers colleges have become liberal arts colleges and are now taking a broader range of students. State universities are opening branch campuses and have room.

Remember the two-year college, public and private. Many offer excellent programs and are still taking students. For a directory, send \$1 to the American Association of Junior Colleges, 1777 Massachusetts Ave., N.W., Washington, D.C.

Colleges and universities in large towns can generally accommodate large numbers of day students.

The following three centers do a good job of placing students. Write to them at once.

College Admissions Center, 610 Church St., Evanston, Ill.
College Admissions Center, 41 E. 65th St., New York, N.Y.
Catholic College Admissions and Information Center, 3805 McKinley St., Washington, D.C.

GREAT NEW
ENCO EXTRA!**

PUT A TIGER IN YOUR TANK!

New Power-formula Enco Extra gasoline boosts power three ways...preserves the power of new engines...restores lost power to many older engines:

1. Cleaning Power! Dirt can clog even a new carburetor in a few months of normal operation—causing hard starting and rough idling. Your very first tankful of New Enco Extra will start to clear away these deposits to improve power and mileage.

2. Firing Power! Spark plug and cylinder de-

posits can cause misfiring, pre-ignition and hot spots. New Enco Extra neutralizes these harmful deposits to help your engine fire smoothly and efficiently.

3. Octane Power! Octane requirements for new cars are up again this year. New Enco Extra has the high octane that most cars now need for full performance, smooth acceleration and passing power without knocking.

You'll get something extra for your money with New Power-formula Enco Extra—it's like putting a tiger in your tank! *Happy Motoring!*

IT'S TRADE 'N' TRAVEL TIME AT YOUR CHEVROLET DEALER'S

THE GREAT HIGHWAY PERFORMERS—Models shown top to bottom: Corvette Sting Ray, Corvair Monza Spyder, Chevy II Nova Super Sport Coupe, Chevelle Malibu Super Sport, Chevrolet Impala Super Sport.

Five different lines of cars—forty-five different models to choose from. Come early and trade great!

Now that spring's in full swing, you'll find new Chevrolets perfect for picking.

Luxury—First, there's the big Jet-smooth Chevrolet. Sumptuous and soft riding. Over 700 sound stoppers throughout the car to blot out noise. Interiors luxuriously done up in the newest and softest vinyls.

Trade what you're driving for one of these, and you won't want to trade seats with anybody else on the road.

Spirit—Next, Chevelle. The beautifully in-between size car that combines small car handling oomph with big car comfort. Eleven different models that you can equip with just about any extra-cost option you can imagine. No place to go this summer? Get a new Chevelle—you'll think of something.

Economy—Chevy II—the car that takes to inexpensive vacations naturally. It just goes and goes, and where it stops nobody knows. Eight models to pick from, including wagons with enough room to swallow up an eight-foot Christmas tree. (Plan ahead, we always say.)

Fun—Then there's Corvair. The fun one with the engine in the rear for unbelievable traction. Spring mud, summer sand, winter snow—nothing stops it.

Corvette. The enthusiast's car. Sting Ray Sport Coupe and Convertible. Still America's only true sports cars. They do for your driving what holidays do for kids.

Performance—And with any new Chevrolet you choose, you can pick from a wide range of standard or extra-cost high performance engines.

Either way, whether you've got some place special to go this summer or not, when you trade for one of Chevrolet's five great highway performers—you'll travel!

Olton, seconded by Vic Diersing of Pep. It censured "special interests" who would prohibit Texas electric cooperatives from generating their own power and asking for legislation action "to permit freedom of operation for electric cooperatives in Texas."

All five resolutions were approved together by the voice vote.

The convention heard Democratic party "fight" talks from Billy Hall and Jerome Kirby, Littlefield attorney. Hall reviewed Democratic accomplishments "right here in Lamb County when Franklin D. Roosevelt, the savior of our country, made it possible for us to keep our farms and to own our homes during the depression."

"You can look at the record in Lamb county and tell when FDR took office," Hall declared to strong applause.

He asked the convention to support Gov. John Connally in the state meeting and to strongly back Batson for a new term as a member of the Texas Democratic Executive committee representing the 30th Texas Senatorial district.

Kirby sharply criticized persons who seek office on the Democratic ticket in primary elections and "do not have the good conscience to support the party nominee if they do not gain the nomination."

The convention voted to vote under the unit rule at the state conventions.

Batson, who last Saturday won his first elective term as county Demo chairman in primary voting, voiced his gratitude and lauded his single opponent, Guy Walden of Sudan, "as a good Democrat who made a good and fair race."

Harmony Is Keynote At County Demo Convention

Lamb County Demo party turned in a show of strength and harmony in Littlefield Saturday afternoon with Glenn Batson, county chairman in charge.

Batson, who last Saturday lost an early party round in his home voting precinct--Precinct 12 in Littlefield--was firmly in control of the record Saturday meeting, attended by about 125 persons and with all the county's 17 voting precincts represented.

The convention completed its order of business, electing eight delegates and eight alternate delegates to the Texas Democratic convention, passing five resolutions--one of them presented from the floor--and naming convention officers in a fast-moving schedule that took only 42 minutes from the time the session opened at 2 p.m. Batson opened the convention

as county chairman, named Billy Hall as acting secretary, J. D. Smith as sergeant of arms with Dickie Hopping and Winston Cummings as assistants.

He then opened the floor to nominations for permanent convention chairman, the key vote in the convention.

Glen Exter, Olton, nominated Batson with a laudatory speech that drew applause from the packed district courtroom, where the Demo session was held.

The nomination was seconded by Jerry Kirby who termed Batson "one of Lamb County's finest Democrats."

A motion to close nominations drew a prompt second and approval in a strong voice vote with no dissenting voices.

Notably missing was opposition from the Precinct 12 group, headed by Charlie Duval of Littlefield, who last week unseated Batson in his home

precinct. The lack of opposition turned into a show of harmony as convention business proceeded swiftly.

Exter, Leroy Mansfield and Johnny Tolbert were named a committee to nominate state convention delegates and alternates and Paul Chisholm, Olan Crump and Ernest Black were appointed to a resolutions committee.

The delegate list was approved by voice vote.

The eight delegates named are: Glen Batson, Billy Hall, John D. Smith, Glen Exter, Russell Harberer, W. G. Finney, M. E. Kelley, Orville Clevinger.

The eight alternates are: Gerald Giles, Don Bell, Vic Diersing, Jackie Brown, W. P. Sampler, Paul Nafzger, Delvin Batson, Paul I. Jones.

Four resolutions were returned by the committee and one was presented the floor. All

received voice approval without dissent.

The four committee resolutions were:

1. A memorial tribute to the late Pat Boone, Sr., longtime chairman of the Lamb County Democratic party until his death this past January.

2. A memorial for the late President John F. Kennedy.

3. A declaration of support for President Lyndon B. Johnson and Gov. John F. Connally in the upcoming state and national party activities and elections.

4. A statement condemning participation in Democratic primaries by persons "who do not even profess to be Democrats" and pledging to seek Texas legislation to clearly identify Democrats in Texas party primary elections.

5. The floor resolution was presented by Wilton Bodkin of

FOR FARMERS ONLY!

ARE YOU A FLFWTMMM?

* Farmer looking for ways to make more money.

2100% return on investment sounds phenomenal, but that is the sort of return cotton farmers in this area can receive this season.

The investment is one boll of cotton every 7 feet down the row. The kind of results to be expected is an extra boll of cotton on every stalk.

These statements come from 9 of the nations leading soil scientists who have devoted most of their lives to soil fertility in the southwest and especially in the plains.

Such authorities as Dr. Alex Pope, Dr. Bill Trogdon, and Dr. Gaylord Hanes have been instrumental in the manufacturing of a completely new product at the new Plains Division Plant located at Plainview. This new product for plains soils has been named "Am-Sul-Phos".

Am-Sul-Phos contains almost three times as much nitrogen as phosphorus. The nitrogen is in a form highly resistant to leaching and losses to the air. The phosphorus is highly water soluble. The remainder of the pellet is soluble sulfate ion which reacts with excess calcium in the soil, thus giving maximum uptake by the crop of phosphorus and nitrogen as well as minor elements such as iron, zinc, boron, and manganese.

The product was used in experiments last year. Yields were increased as much as one bale of cotton per acre over standard fertilizer practices in many field scale experiments.

A 100% increase in grain sorghum yield, with high protein grain and 400% or more profit on your fertilizer investment?

Sound far fetched? ? Not at all!

Best's staff of experienced Agronomists has developed an entirely new product which contains the correct ratio and sources of nitrogen and phosphorus which combined with the sulfate ion (SO₄) will result in greater efficiency of nitrogen and phosphorus uptake and in a more balanced nutrition for grain sorghum.

What is this product? - "Am-Sul-Phos".

If you have not fertilized your sorghum this year, "Am-Sul-Phos", applied as a sidedress before the sorghum is 10 inches high can double your yield and increase the protein content of your grain.

If you have applied part of your fertilizer at or before planting, apply the rest as a "Am-Sul-Phos" sidedress.

J. H. WERNER

J. H. Werner Is Employed At HPRF

John H. (Jack) Werner has joined the staff of the High Plains Research Foundation as associate agronomist. Werner will be in charge of seed production at the Foundation.

Jack received his Bachelor of Science Degree at the University of Nebraska. He worked in co-operation with the University of Nebraska on their experimental irrigated farm while he was with the Potato Certification Association of Nebraska for four years. Since 1956, Jack was a member of the scientific staff at the Texas Research Foundation at Renner, Texas, in charge of the Foundation Seed Production, and he managed three research field stations for Renner. In this capacity, he has become familiar with West Texas agriculture through frequent observation trips when the High Plains Research Foundation was a part of the Texas Research Foundation.

Dr. Earl Collister, director of the High Plains Research Foundation, stated that Mr. Werner's extensive experience in the field of agricultural research under private enterprise will be of value in furthering the Foundation's research and educational work.

Werner started his work April 1 and will move his family, wife and four children, to the area from Richardson, at the conclusion of the school term in June.

OHS Golfers 4th At State

Olton High School's golfers got their first taste of state competition last weekend at Austin and, although defeated, looked forward to another try next year.

Two of Olton's fine foursome—Roger Thompson and Darrell Glover—will be back next year and, with help from younger golfers, could make the Austin trip again.

Thompson, Glover, Rusty Sherman and Bill Cox carded a 36-hole total of 685 at the state meet, finishing fourth behind AA Champion Brady, 637; Gilmer, 667; and Edna, 681.

Olton's Region 1 champions, who shot 316 over 18 holes to win that title, found the woods tough to handle at Austin's Municipal Course.

The Austin course has as its trademark narrow fairways lined with dense wooded area and plenty of water hazards.

Glover and Sherman paced the Olton foursome with scores of 163 each, while Thompson had 172 and Cox a 187. Par over 36 holes is 142.

Sherman and Cox are seniors and completed their golfing eligibility, while Glover is a junior and Thompson a sophomore.

Here were the cards turned in by the Olton foursome for the 36-hole route:

Starting Salaries For College Grads Are Told

Starting salaries for prospective college graduates are of concern to many young people this spring.

Here's information about beginning average salaries being offered to male college students who will receive a bachelor's degree this year. It should be of interest to many Texans, says Mrs. Wanda Meyer, extension home management specialist at Texas A&M University.

With a few exceptions, the industry making the most job offers also was providing the highest salaries. For instance, electrical engineering students were offered 647 jobs from the aircraft and space industry with an average monthly salary offer of \$633. The high was \$692, the low, \$574.

If the same students were interested in working for the electrical machinery and equipment industry, the number of jobs available would be 226 and the salary average would be \$619. The aircraft and space industry ranked highest in the number of job opportunities for the number of the technical curricula.

Average beginning monthly salary offers quota include: Humanities and social sciences, \$452; marketing and distribution, \$459; business, \$453; accounting, \$538; Metallurgical engineering, \$600; civil engineering, \$607; industrial engineering, \$610; mechanical engineering, \$612; physics, chemistry, math, \$617; aeronautical engineering, \$628; electrical engineering, \$633.

In humanities and social sciences, job offers were more evenly divided among all the categories of employers. The highest number—32 offers—came from banking, finance and insurance, with an average salary of \$452.

NEW BUTCHER—Kenneth Buck has been employed as new butcher at Olton Super Save, owner Frank Eades announced. Buck, with 10 years experience as a butcher, has been in Muleshoe the past year and a half. He and his wife, Jackie, have four children, Pamela 13, Cheryl, 11, Gregory, 8, and Kimberly, 5. The family will move here when school is out.

Advise Check On Wheat Now

Wheat is heading out in most areas and is varying from the boot to bloom stage. Now is a good time to look at your wheat to see what kind of job you did fertilizing last fall and whether you put on enough nitrogen and phosphorus. This can then be a guide for next year's needs.

I have seen several wheat fields which show tell-tale symptoms of poor application jobs. One field near Hereford showed streakedness in the wheat in the same direction as the ammonia was applied. It was evident that the ammonia chisels were stopped up. In this particular case, it was due to the use of an ammonia-phosphoric acid combination in a highly calcareous soil. Rapid reaction of phosphoric acid with calcium carbonate in the soil can apparently cause a deposition of a calcium phosphate-carbonate complex on the ammonia chisel.

Urine spots, or "cow mosaic" as it is often called, are usually telltale symptoms of nitrogen deficiencies. We were in one field in the Friona area last week where urine spots were quite apparent. Adequate nitrogen had been applied and tissue tests revealed plenty of nitrogen in the plant but phosphorus was very low. Here

was a case of plenty of nitrogen but phosphorus was so deficient that the nitrogen was not able to function properly in the plant.

Nitrogen deficiency symptoms can be noted on the lower leaves of the plant by a yellowing of the leaf down the midrib. Firing or yellowing of the tip of the older leaves and on the outer edges of the leaf is often indicative of potassium deficiency. This symptom is fairly common in wheat fields this year but I doubt if it is actually due to a potassium deficiency. It is more apt to be due to a combination of factors, mostly insects, diseases, windburn, and so on. Phosphorus deficiency can usually be noted by a general unthriftness of the plant and lack of stooling.

4-H Team Places Second In District

The annual District two 4-H Club elimination contests were held in Lubbock Saturday, May 9 at Texas Tech.

Olton entomology team placed second in the meet. This team will represent this district at Texas 4-H roundup, June 1-4 at Texas A&M.

Members of the team were Vernon Britton, leader, Aaron Robertson, David Britton, Kenneth Taylor and DeWayne Campbell.

Republicans George Bush and Jack Cox, both of Houston, will vie for the right to face Sen. Ralph Yarborough in November for the U.S. Senate seat Yarborough now holds.

SCOUT NEWS

Girl Scout Troop 271 met Thursday after school at the Scout House with their three leaders and 16 members present. One member Kathy Turner, was in the Littlefield Hospital so the girls all signed a get-well card to send to her. The girls made some ear clip holders to give to their mothers as gifts for Mother's Day. They also made one for Kathy Turner to give to her mother as she was ill. They also practiced folding the flag correctly.

Refreshments of punch and cookies were served to the group by Mrs. Bula Dennis and her granddaughter, Laneta Langford. The girls will have a weiner roast at their next meeting if the weather permits.

A day camp workshop for Girl Scout leaders of this area was held at Plainview in the Girl Scout Little House Tuesday.

Attending from Olton were Mrs. Basil Johns, Mrs. Norma Kennedy, Mrs. Charles Shipley, leaders, and Mrs. Paul Burrus and Mrs. Buster Nicholas as trainers.

There will be a Day Camp Workshop in Olton at the Girl Scout House Tuesday, May 19 at 9:30 a.m.

Girl Scout Troop 50 met for their regular meeting at the Girl Scout house Monday, May 11.

Plans were made for a supervised troop camp for three days May 26, 27, and 28 to Camp Rio Blanca at Crosbyton.

Refreshments were served by Cathy May to troop leaders, Mrs. Buster Nicholas, Mrs. F. E. Coleman, and girl scouts, Sandy Coleman, Susan Nicholas, Susan Gordon, D'Lyle Wilks, Rita Graham, Margaret Galloway, Lana Myers, Cathy Peterson, Marsha Parker, Carol Scribner, Debbie Hardaway, Judy Meadows, Beverly Roberts, and Jackye Meinecke.

Grain Sorghum Rates Reduced To West Coast

Grain sorghum rail freight rates from the High Plains to the West Coast for export are to be lowered from the current level of 80 1/2 cents per hundred down to 55 cents per hundred. The California domestic rate remains unchanged at 60 1/2 cents per hundred. Provisions for the new rate were authorized by the executive committee of the Trans-Continental Freight Bureau meeting in Chicago this week. An effective date for implementing the reduction in the rate will be announced as soon as the railroads have an opportunity to publish new rate schedules.

Bill Nelson, executive vice-president of the Grain Sorghum Producers Association, commended the individual railroads for this action through their Bureau. Nelson said the old 80 1/2 cent per hundred rate had been prohibitive to West Coast movements of grain sorghum for export even though users in Japan--the World's largest cash buyer for U. S. sorghum, had been interested in West Coast purchases. West Coast ports are 20 days closer to Japan than Gulf ports and ocean freight savings average \$4 per ton. He said that the combination of savings in ocean freight and reduced rail rates will now make it possible for Japan and other Far East grain buyers to have a choice as to point of delivery of area grain sorghum. He also added that in times of stress such as the recent Panama incident, the new rate may make a difference as to whether the foreign buyers have access to grain at all or not.

According to Nelson, the Grain Sorghum Producers Association had requested a 54 1/2 cent rate on a permanent basis in 110,000 pound cars. The announcement is for a 55 cent rate on a one-year trial basis with 130,000 pound cars minimum.

Former Resident Leads Senate In Prayer

A former Olton resident is reported to be the youngest man ever to lead the prayer in the United States Senate.

This honor recently went to the Rev. Logan Cummings 28, pastor of the First Baptist Church in Columbus, Texas.

Cummings was born in Olton and attended school here. He is the son of Mr. and Mrs. Frank Cummings of Littlefield. The family moved to Littlefield in 1947.

He led the prayer in the Senate the day former President Harry S. Truman celebrated his 80th birthday and was honored by the Senate.

Cummings also has two brothers and a sister who are well known here. They are Jack Ed Cummings of Amarillo, an engineer and nuclear analyst; Joe Frank Cummings of Canyon, graduate student at WTSU; and Miss Sharon Lee Cummings, junior student at Hardin-Simmons University, Abilene.

Mr. Truman, a Baptist himself, told Baptist Cummings that "the Senate is doing things right in inviting him to come here today and lead them in prayer."

A graduate of Texas Technological College, which he attended on an athletic scholarship and was a member of the varsity basketball team, Rev. Cummings was pastor of the Williams Road Baptist Church in Fort Worth during the time he was a student at Southwestern Theological Seminary.

Cummings came to Washington, D.C. at the invitation of Senator Ralph W. Yarborough.

His prayer in the Senate was as follows:

"Our Father in Heaven--we are grateful that in Jesus Christ our daily needs are fulfilled. That he is our strength, our purity, our wisdom--we are grateful. We pray thy strength, Thy purity of motive, Thy wisdom and Thy leadership to rest upon this Senate this day as they have the awesome responsibility of leading this great nation and people. We thank Thee for this nation and humbly ask that she might ever be the land of the free. Grant us Father in our desire to love the one we say not despised nor neglect the other--in our desire to help the one, we may not harm the other. Help us to be fair and just to all--as Thou are merciful and kind to all. In Jesus name, -- Amen."

COTTON INDUSTRY

NATIONAL COTTON WEEK MAY 11-16

WE SALUTE THE COTTON GROWERS!

THE STORY OF COTTON AND ITS EFFECT ON OUR AREA ECONOMY IS SO VITAL SO BIG SO DRAMATIC THAT WE ARE HAPPY TO JOIN IN OFFERING OUR CONGRATULATIONS TO THE COTTON INDUSTRY OF THE SOUTH PLAINS.

Cotton
.....the fiber
you can
trust

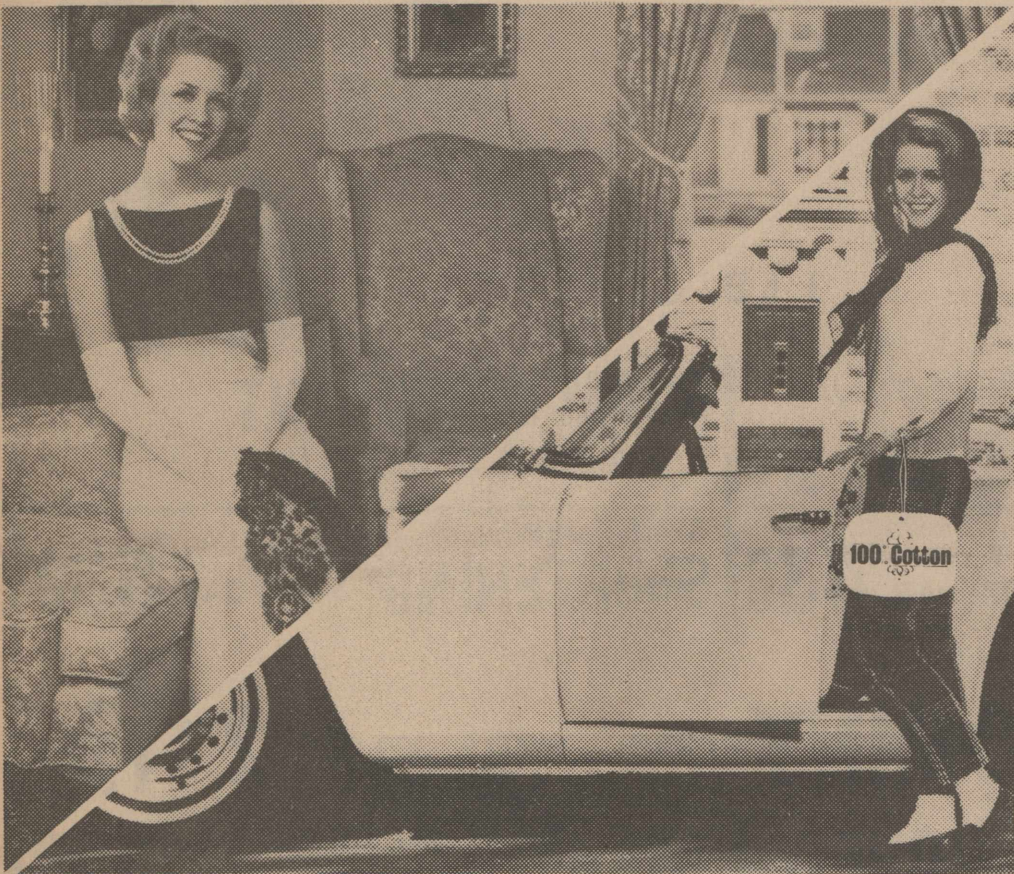

COTTON... the Number One product in the nation's most progressive farming region

COTTON... the foundation of our South Plains economy

COTTON... the essential in thousands of manufactured items that make our American way of life better

COTTON! helps support us all ... let's all help support it!

WEAR, USE, SELL- - -COTTON!

100% versatile

Cotton is 100% right for any hour of the day or night. Cotton plays when you play—is formal when you're formal. Cotton always feels good next to your skin, helps you stay calm and confident, never becomes clammy or sticky. Laundering is so easy with cotton. Wash it in the hottest water and dry it any way you please. Iron it without worry, because cotton won't melt, discolor, or pull at the seams. Even after repeated launderings cotton bounces back bright and fresh—without dinginess or odor buildup. For 100% versatility—beauty, comfort, and washability—ask for 100% cotton.

100% durable

When the going gets tough, cotton has a ruggedness no other fiber can match. Cotton work clothes stay right on the job with you—all the time. Cotton never becomes clammy or sticky because it "breathes"; absorbs and evaporates moisture. Wash it in the hottest water, cotton comes out truly clean. Dry it any way you please and iron it without worry. Even after repeated launderings cotton bounces back looking fresh and new without dinginess or odor buildup. When you buy work clothes, buy 100% comfort and durability. Insist on 100% cotton.

100% livable

Cotton does more to make a house a home than any other fiber. Beautiful, long lasting, versatile cotton gives you true livability. Drapes, slipcovers, and carpets stay lovely because cotton keeps its color. Cotton things won't shock you because there's no static buildup. And cotton is so easy to care for. Wash it in the hottest water—cotton comes out truly clean. Dry it any way you please—cotton isn't fussy. Iron it without worry—cotton won't melt or discolor. Even after repeated launderings cotton bounces back looking fresh as new. For 100% livability, buy 100% cotton.
