"YOUR HOME COUNTY PAPER"

SNYDER, TEXAS, THURSDAY AFTERNOON, JUNE 14, 1934.

NUMBER 1

FORTY-SEVENTH YEAR

ALLRED TAKES EARLY LEAD IN STRAW VOTING

Hunter Running Close for Second;
Hughes, Witt, McDonald and
Russell Trail.

Early returns from the Times straw vote for governor indicated that Jimmie Allred, the incumbent, was leading by a comfortable margin. With over 200 votes cast, Allred led his nearest competitor, Hunter, by a comfortable margin. Hughes was a good third, while Witt ranks fourth. Small fifth, McDonald sixth and Russell seventh. Hunter leads the pack in second place ballots, with Allred second. Small, Witt and Hughes closely tumbled in the second division, with McDonald and Russell again trailing.

A straw ballot will be found at the bottom of this page. If you are eligible to vote in primary and general elections, simply cut out the ballot and mail it to The Times at once. Or, call at the office for more ballots or get them from a Times representative on the streets of Snyder.

The Times Is Neutral!

The Times has no purpose in conducting this straw vote except to discover how the political winds are blowing. Each of the three publishers has a different choice for governor, so the paper cannot conceivably have any political axe to grind.

Two years ago The Times' straw vote for president revealed practically the same ratio of Roosevelt-Hoover votes as the general election. If the folks of this trade territory will cooperate again, we shall not only get a representative vote, but we shall have plenty of fun as well.

It is the ambition of the publishers to secure 1,000 straw votes before the July primaries. If you want to help, find out how the wind is blowing before the primary, throw your straw vote into the ballot box so we can talk about something besides the weather.

Back to this week's returns. Do they reflect the average sentiment of Scurry County and adjoining county voters?

The Times believes not. In the first place, the majority of ballots received this week were cast by Snyder business men. Certainly one small group of men in the county does not show how the wind is blowing.

It is undoubtedly true that McDonald has not shown his true strength. Allred and Hughes spoke here recently, and it is possible that their appearance gave them ballots that might be changed at a later date, after the other candidates have spoken. Witt's candidacy is somewhat surprising, while that of Small is a lack of strength that is likewise a blow to the political dog's belief.

Next week's returns are liable to change the entire line-up. Watch The Times every week for returns. Most important of all, turn in your ballot today!

The Commissioners' Court met in regular monthly session Monday, at which time bonds were voted and accounts were allowed.

Accounts to the amount of \$360.05 were also allowed by the court.

Local Golfers Play At Stanton Sunday

SNAKE STRIKES DANIELS CHILD

Herbert Hoover Daniels, six-year-old farmer boy who was struck Wednesday afternoon of last week by a rattlesnake, is gradually improving, according to a report from the attending physician this morning.

The rattler's fangs went into the child's leg just above his ankle. He was rushed to Snyder, where surgery was administered. The small victim was walking in the Shannon pasture, west of town, with his father, J. R. Daniels, and his brother, Tom Daniels, when he was struck.

Dr. H. E. Rosser, county health officer, points out that emergency treatment in cases of snake bites will usually ward off danger until a physician is reached. The injured limb should be tightly bound, preferably in the joint above with a tourniquet. The wound should be slashed with a knife in cross-hatched fashion. Then the poison should be sucked from the wound. Dr. Rosser states that the poison blood will not injure the person who sucks the wound even if it reaches the stomach.

New Home Agent Takes Up Duties In Scurry County

Home demonstration work is being revived in Scurry County with remarkable vigor.

More than 50 women who gathered in the district court room Saturday afternoon to confer with Miss Nellie Ward, new agent, and Miss Mary Murray, district agent, reported that three clubs had already been organized and that others were in process of organization.

Four community meetings are being held by Miss Ward this week. Women in all parts of the county are expressing an eagerness to enlist in the systematic work of home-making.

Union, Canyon and Bison clubs were organized recently. Other communities represented at the Saturday meeting were Hermaligh, Dunn, Fluvanna, Camp Springs, Ira and Bell. Several Snyder women were also present.

Miss Ward is specializing this week on the making and laying of concrete tiles for sub-irrigation of gardens. She is being assisted by County Agent W. R. Luce. The agents state that this work is especially timely because of the scarcity of water this spring and summer.

The demonstration agent is also discussing with women in the various communities the making of family canning budgets.

Union was visited Tuesday; Canyon, Wednesday; Bison, Thursday, at the home of Mrs. Whit Thompson. Mrs. Edgar Smith will be hostess at a meeting to be held in the Fluvanna meeting Friday afternoon at 3:00 o'clock.

Lee T. Stinson of Snyder to Head 55th Annual Drug Meet

President Lee T. Stinson of the Texas Pharmaceutical Association has expressed the opinion that the fifty-fifth annual session of the state druggists, slated to be held at Mineral Wells June 18-21, will break the attendance record of 2300 set in 1927.

Probably the chief harbinger of a banner convention, says the president, is heavy advance sales of lapel buttons, which are being worn by druggists and drug salesmen from one end of the state to the other. Each button carries a picture of Stinson, with the caption, "Meet Him in Mineral Wells June 18-21."

Retailers will have their day June 19. State of the leading wholesalers and manufacturers of the nation will be officially in command on June 20 with displays that promise to outdo any that have gone before. Traveling druggmen of Texas and the ladies' auxiliary of the association will also hold their sessions in connection with the convention proper.

The executive committee of the state druggists' group is composed of: President, Lee T. Stinson of Snyder; vice president, Shime Phillips of Big Spring; Sam P. Harbison of Richardson; John B. Day of Abilene; B. B. Brown of Dallas; E. B. Oliver of Longview; Henry F. Hein of San Antonio; Walter D. Adams, secretary, of Fortney; L. S. Cooper of Corsicana is in charge of arrangements for the convention.

Picnic Honors Miss Raybon.

Miss Roberta Raybon of Lubbock, a former resident of Snyder, was named honor guest at the picnic given at the pretty government park north of Dermott. Attendees say that the park is indeed a lovely spot.

A picnic supper was served, and the group radioed for a time, and then returned to town to attend the picnic at the Palace Theatre.

The following were present for

the occasion: Misses Roberta Raybon, Jennette Lollar, Johnnie Mathison, Ruby Lee, Margaret Deakins, Charline Ely, Gwen Gray and Mildred Stokes; and M. M. Clark, Oscar Brice, Buck Howell, Albert Carleton, Morris Sturdivant and Austin Erwin.

Dinner Given.

Miss Charline Ely, daughter of Mr. and Mrs. W. J. Ely, who recently returned from McMurry College to spend the summer at home, entertained a group of friends Monday evening with a delightful dinner.

The menu began with tomato juice cocktail, included baked chicken in the main course, and ended with fresh peaches and cream, all served family style.

The following were present: Misses Mildred Stokes, Ruby Lee, Jennette Lollar, Gwen Gray, Johnnie Mathison, Margaret Deakins and the hostess.

Dr. R. C. L. Robertson was in

Small Group Enjoys Swim and Breakfast.

Miss Edith Grantham was hostess to her Sunday school class of the First Presbyterian Church Wednesday morning with a delightful swim and waffle breakfast at Martin's pool in North Snyder.

After the refreshing swim, Miss Grantham served delicious waffles on tables just west of the pool to the following: Irene Wolcott, Irene Taylor, Rosanna Reynolds, Lorene Patterson, Mary Bess Abercrombie, Lucille Greene, Rosann Staveley of Fluvanna and Mrs. Mabel Y. German.

Three Fluvanna People Married.

Announcement is made in Snyder of the marriage of Mr. Beaver of Fluvanna to Miss Opal Mitchell of Nacogdoches, and that of Miss Nellie Mae Jones and Jack Moore, both of Fluvanna.

Mr. Beaver, who has taught in the Fluvanna schools for several years, is a son of Mrs. W. J. Beaver. His marriage to Miss Mitchell took place in Nacogdoches last Tuesday. The couple returned to Fluvanna for a short visit with relatives and friends, and went from

there to Lubbock, where Mr. Beavers will attend Texas Tech this summer.

The marriage of Miss Jones to Jack Moore was solemnized at the home of the bride's parents at Fluvanna Saturday evening. Rev. Frank Storey, Methodist minister, performed the ceremony in the presence of a number of relatives and friends. Mr. and Mrs. Moore will be at home in Fluvanna.

Mrs. Dorward Has Tuesday Bridge.

Mrs. J. C. Dorward was hostess to the Tuesday Bridge Club this week at her home in West Snyder. At the close of bridge games Mrs. E. M. Deakins' score was high. The following enjoyed the bridge games and the delicious ice cream and cake served at the close of them: Meses. W. R. Johnson, G. A. Hagan, Sidney Johnson, T. L. Lollar, W. J. Ely, Joe Strayhorn, H. J. Brice and E. M. Deakins.

Snyder Girls Attend Party in Colorado.

Misses Ruby Lee and Margaret Deakins attended a bridge party in Colorado Saturday afternoon at the home of Miss Irene Powell, who was Miss Lee's roommate at Texas Tech during the school terms. Miss Powell had six tables of bridge honoring Mrs. Cary Prude, a recent bride. A lovely bridal motif was carried out in decorations and a color note of pink and white was used. Three prizes were given—high, low and honor.

Mrs. Mabel Y. Gorman, superintendent of the division, and Mrs. S. T. Egan, class teacher, and 24 class members were present.

Fluvanna News

Mrs. L. A. Haynes, Correspondent
The crops are holding up fairly well in spite of the dry weather. We are hoping the rain will come along in time to save at least a part of the crops.
The various Sunday schools were well attended last Sunday morning. Bro. E. C. Lambert of Snyder filled the pulpit at the 11:00 o'clock hour at the Presbyterian church. He gave a very interesting report of the general assembly he attended at Cleveland, Ohio.

Bro. Earl Pendergrass, a holiness preacher, has been holding services on the streets the past three Sundays at 2:30 o'clock. He stated last Sunday afternoon that he would hold a meeting here in the near future.

Mrs. Dyess is sick at this writing. The Mitchell-Scurry Baptist association meets here today (Tuesday).

The ladies will meet at Mrs. H. C. Flournoy's Wednesday afternoon at 3:00 o'clock with the new demonstration agent for the purpose of organizing our club.

Mr. and Mrs. Joe Gavin and children went to Cleburne last week to visit his mother, who is ill.

Wedding bells are still ringing. Leo Beavers returned from Nacogdoches Tuesday of last week, where he had very important business. While there he was wedded to Miss Opal Mitchell. After returning home on Tuesday the young couple left for Texas Tech, Lubbock, where he will attend school. Mrs. W. J. Beaver accompanied her son to Nacogdoches.

Just as the sun went down Saturday evening Miss Nellie Mae Jones was wedded to Jack Moore. The wedding took place at the bride's home just south of town. Bro. E. C. Lambert performed the ceremony after which a wedding supper was enjoyed by more than 30 friends and relatives. We extend our congratulations and good wishes to these young folks.

Mr. and Mrs. Ralph Woodard and children of Hubbs, New Mexico, spent Wednesday night of last week with their parents, Mr. and Mrs. W. A. Temple.

Rose Marie Clawson and Jesse Lemons, who have been attending Hord and Simmons University at Abilene, returned home last week. Geta and Emmeleta Landrum left last week for Lubbock, where they will attend Texas Tech.

Mrs. Vera Hale of Lubbock came Friday of last week for her little son, Carl, who has been visiting his grandparents.

Mr. and Mrs. J. P. Dowdy went to Olney last week to visit their daughter, Mrs. Florence Benson.

Mrs. Hugh Cook and little son, Bobby, are visiting his parents in Archer City.

Mrs. Eunice Nesbitt has moved to Snyder and put in a small restaurant.

Mrs. Arch O'Connell accompanied Mr. and Mrs. J. P. Dowdy to Olney, where she will visit relatives.

Snyder, Texas, Thursday, June 14, 1934

THE WEEKLY DOZEN

If Length Makes Votes.
If Alford's votes can be measured by the length
of his introductions, prepare to meet Governor Jimmy
at the state White House next year.

But Gasoline Costs Money.
If all Scurry County folks were to visit their
East and Central Texas kinpeople at one time, what
a great saving on the grocery bill that would be.

A Motion Before the House.
Fessenden Pate makes a motion before the society
of Times readers that every last one of them be urged
to cast a ballot in the home town paper's straw vote
for governor. The eyes have it!

Morning Glories Win.
Talkative Tillie took her eye off the fashion
parade long enough last week to observe, with Walt
Whitman, that "A morning glory under my window
satisfies me more than the metaphysics of books."

The Great American Tragedy.
The great American Tragedy—suffering in the
hells of plenty—is being re-enacted this month with
wheat fields as one stage of action. But there is
retribution. Drouths may come and bumper crops
may go, but the straw vote goes on forever.

The Sentiment Lingers.
This poem is classic, and its sentiment lingers on
in this country that has known no substantial rain
in several weeks:

I tell you the future is a bucket of smoke.
I tell you to-morrow is a wind that is not.
I tell you there is nothing else in the world,
Only the froth of today
On the front of a massive and enormous past.

Two Seasons—Two Attitudes.
The season approacheth when all men shall talk
of the governorship. But, verily, after the votes are
counted, and the power of politics shall wane until
the next primary is near at hand, the people shall
become placid again, leaving the governor to the
mercy of lobbyists and the Legislature.

The Fourth Estate.
Meeting of the Texas Press Association in Dallas
this week will be occasion for many a bright wag
to remark that the fourth estate has sold out to the
capitalistic gullywashers. Most publishers just grin,
for they know from bitter experience that they are
lucky to keep ahead of the bill collector.

No Sick, No Law-Breaking.
It is said that city and county jails and the local
hospital were as empty one day last week as most
church pews. Perhaps it is true in spite of our oc-
casional misgivings that Scurry County is one of the
healthiest spots in the nation. At any rate, it is
good to live in a community where a murder has
not been known for several years.

Simplicities of Living.
When a Scurry County boy was bitten on the leg
by a rattler last week, he lingered not far from death's
door because his companions did not know what to
do in the emergency. If mankind could learn even
a small percentage of the simple little remedies and
precautions that are available in this scientific age,
death would not travel nearly so rapidly.

How Many Bales?
If a man with gambling intentions were to seek
to place a five-dollar bill on the amount of cotton
that Scurry County will gin this season, he could
probably find plenty of takers. The chances are that
the person who bet on a reasonable yield against a
lank yield would win, hands up. It's safest to bet
on fairly good crops in this county, although there
are enough poor ones to arouse the gambling instinct.

Dependent America.
The man who thinks that America is a self-con-
tained piece of government should study the day-
by-day reactions of stock markets, agricultural prices,
and money valuations. He would discover that his
"isolated" America is traveling largely in a road built
by her war debts, tariff and peace conference atti-
tudes. He would discover, too, that the rest of the
world is increasing its cotton planting while the
United States continues to slash. Truly, the price
of ducking pants in Snyder is but a reflection of a
multitude of universal attitudes.

Fifty Years From Now.
A contemporary newspaper wonders what earth's
inhabitants 50 years hence will think of America's
1934 conception of news value. Heroism goes for
naught, or, at most, a hidden-away headline. Dil-
liger new covers column after column, disclosing
tiniest details of the infamous outlaw's life. Many
a sage is saying that crime glorified and true human
worth practically mummified is becoming a black
curse across the pages of modern journalism.

**The Demonstration
Agent Returns.**

In 1932, when the county home demonstration
agent was dismissed in the name of economy, the
general drift toward insane saving was so decided
that only a small percentage of the county's popu-
lation was interested enough to raise a voice of
protest.

Now that the agent's work has been reinstated,
joy is as great as the apathy accompanying the dis-
missal in 1932.

The return of the agent spells increasing happi-
ness for scores of Scurry County women. For hap-
piness comes with the knowledge of tasks well done;
with the saving of dimes and dollars for the family
budget; with the creation of little nuggets of leisure
time here and there; with the companionship that
goes with community meetings of neighborly women.

Since it is the woman who usually lays the foun-
dation of happiness or hopelessness in the home,
the children and the men naturally catch the new
spirit of conquest. As a consequence, drouth and
the other evils that beset farm life lose some of their
menace.

Some of the actions taken by the county in re-
cent years, and charged up to economy, would have
been laughable had they not been so tragic. Penny-
wise and pound-foolish county government, coupled
now and then with elements of graft, wiped out
county agent and home demonstration agent work
from a number of counties just when the agents were
needed most.

The worth of the Extension Service, through which
the agents are employed, is becoming apparent to
many who doubted two or three years ago. Sys-
tematic farming, housekeeping, gardening—yes, and
systematic living—have been the difference during
the past four or five years between competence and
poverty, the difference between happiness and hope-
lessness.

Return of the agents, plus a memory of the cry-
ing need for their work while they were gone, should
set voters to thinking, too, about the fact that a good
road foreman is not necessarily a good commissioner.
Building of good lateral roads, after all, is but a
sideline for any successful commissioner. His main
job is to look far enough ahead to keep the county
and the county's people on a sound footing. How
miserably many commissioners' courts of other years
have failed in this respect can be determined by
consulting courthouse records that reveal myriads
of gross financial errors and dozens of crimes of
short-sightedness committed in the name of economy.

EDITORIAL OF THE WEEK

CREAM BUYER'S TROUBLES.

Cream buyers of the territory will have to stand
the brunt of introducing the new cream-buying pro-
gram among the customers from whom they buy.
An intensive campaign has been waged to inform
the dealers of the state by the State Department of Agri-
culture in the belief that the whole program will
be of big benefit to the producer of good, wholesome
butterfat. Butterfat, as is well known, has become
one of the staple commodities that moves weekly
from farms of this section. Butterfat has "saved"
our part of the country the past three years.

To improve the quality of cream offered to the
creameries; to take out of the markets the low grade,
unfit product; thereby to make a market that is
more responsive to actual demand, with no low grades
in storage about over the country to act as a menace
to the market, seems to be about the program's aims
from the point of view of the producer and the
butter maker.

From the point of view of the consuming public,
which is necessarily the one taken by the govern-
mental agencies in the final analysis, the program
is one of protecting against unfit foods going into
the channels of commerce.

All hands may rightly join in the program whole-
heartedly. But it may as well be taken for granted
that some of the customs we have been following
will have to be discarded. When this is attempted
there always is friction. In the interest of the whole
people, it is to be hoped that this is kept to the min-
imum. At least, the producer of cream should have
patience with the man to whom he sells it. The
latter is going to try to carry out honestly a plan
which he has been told will rebound to his benefit,
to the benefit of the producer and to the benefit of
the consumer.—Floyd County Hesperian.

CURRENT COMMENTS

BY LEON GUINN.

At intervals dairy production in the U. S. becomes
a president's worry, because 12,000,000 ruralites de-
pend on the lactic fluid for little calcium and pro-
teins, and 25,000,000 employees depend on the daily
quart of sweet milk to make meals fit fodder for
eating. . . . Just now it is suggested that \$100,000,000
be spent buying pitifully poor cows for culling and
handing out to the unfortunate. . . . Dairymen must
and will ("eventually, why not now?") cull unworthy
cows from production lists in a few years whether
they are canned, or made into glue, skin drying cheap
soaps, or sacked soil enricher. . . . It seems to me
farmers have already done this, and the "cull pur-
chase" is aimed at commercial dairymen. . . . I know
the recent purchase of hogs and distribution was well
planned, and helped a lot.

The AAA has sent out a government pamphlet an-
alyzing the anatomy of the so-called Bankhead Bill,
explaining in 84 questions and answers (12 pages)
the effect of the bill on all cotton farmers. . . . The
act thus defined makes rather dry fodder, fails to
have a by line or tell just when the AAA will defi-
nitely know the trend of Department of Agriculture
rules. . . . The Bureau of Internal Revenue will col-
lect the per bale tax. . . . Synopsis: In 1934 10,000,000
bales will be sold tax free, a spanking 50 per cent
tax on all bales above this figure. . . . Cost to date
of different acreages control: \$795,000,000. . . . Final
cost: To be known June 1, 1935. . . . Effect: Keeping
the cotton, wheat and tobacco farmer on a livable
basis and adding two billion dollars to income of
rural people. . . . And that is a real stack of dollars.

Incomplete would be life were it not for the daily
mail, adding its influence to life everywhere. . . .
The American Postal Service has changed indeed
from 1891 when one Thomas Neale established the
first post office in America. . . . In the fifties and
sixties of 1800 the pony express and stage coach
suffered in the change of development worthy of note.
Take an ordinary letter today, swiftly carried across a
continent to your front door. . . . Each second of
the 24 hours 400 letters are flicked in letter boxes,
totaling 29,431 per minute, or 1,765,904 per hour of
stamp canceled writing, ranging from recipes and
business to letters of loved ones. . . . One must con-
cede that a three-cent stamp is a magic square of
engraving, since a letter must be canceled, put in a
mail sack and delivered probably hundreds of miles
away.

**Agents in Demand
Says Miss Murray**

The value of home demon-
stration work is being emphasized
more now than ever before, Miss
Myrtle Murray, district agent of
the A. & M. Extension Service,
said while she was in Snyder
Saturday.

"We have more agents than
ever before," she said. "County
after county that dropped the
work in recent years is return-
ing to it because they have
learned that it is practical, help-
ful, money-saving work."

Miss Murray was highly pleas-
ed to see Scurry County resum-
ing work after a lapse of sev-
eral months.

**Local Methodists in
Meeting at McMurtry**

Rev. S. H. Young, Mrs. Ruby
Littlepage, Misses Ruth Yoder and
Genevieve Jarrett and Clarence
Walton returned Saturday morning
from Abilene, where they attended
the summer assembly of Methodist
young people held at McMurtry Col-
lege last week.

The general theme for the meet-
ing was "Dare We Be Christian."
Rev. Marvin B. Norwood of Albany,
who is quite well-known to Snyder
people, was dean of the assembly.
Doyle Morton of Rotan was select-
ed district director for the Sweet-
water district, to succeed Miss Nel-
da Garrett of Colorado. As a part-
ing gift the Sweetwater district
presented Miss Garrett with a foun-
tain pen and pencil set in appre-
ciation for her untiring efforts dur-
ing the past three years to lead the
district.

McMurtry College was selected
again as the next summer assem-
bly host—the meeting to be the
nineteenth annual session.

**Charley Ross Brings
First Cotton Blooms**

The first cotton blooms of the
year to be brought to town were
being shown on streets of Snyder
Wednesday by Charley Ross. The
patch from which the blooms came
is at his home in East Snyder.
The seed was planted about the
first of April, which makes the time
for bloom producing about two
months and ten days. The blooms
are of the famous Mars-Ross cot-
ton seed, the sale of which Mr. Ross
has been sponsoring in and around
Snyder for some time.

The blooms on display were dou-
ble, and the average stalk of this
cotton bears from two to four bolls
in each cluster.

Evidence that farmers are in bet-
ter financial condition than a year
ago is found in the reduced number
of government seed loans. In Mad-
ison County, for instance, 75 men
applied for loans this year com-
pared to 339 in 1933.

**HERE'S ONE REASON
why long distance calls
are fast**

company, like each of the 24 Bell System associated
companies, operates its own long distance system.
But A. T. & T. trunk lines (shown on map) link
these 24 separate systems into a nation-wide
unit, over which skilled operators can send your
voice almost with the speed of a local call to
the remote reaches of the country.

Such nation-wide service would be virtually
impossible without equipment built to the same
designs and used in the same way. . . . without
operators trained in the same methods. . . . with-
out, in short, a nation-wide organization behind it.

How effectively A. T. & T. meets this need
is shown by the fact that today 9 out of 10 long
distance calls go through while you hold the
line; by the constant pushing back of the front-
iers of the voice until 92 per cent of the world's
telephones are now within your reach; by four
reductions in long distance rates, made volun-
tarily in recent years.

Here you may see the workings of a funda-
mental Bell System policy, adopted because we
believe it to be a policy that works. In an or-
ganization planned like the telephone service for
the long pull, we feel that what is best for the
telephone user becomes in the end the course
that will bring us the sounder, more certain
success.

**SEVERAL CARS
OF WHEAT OUT**

Six cars of 1934 wheat had
moved out of Snyder on R. S. &
P. and Santa Fe lines late yester-
day.

Although semi-drouth has short-
ened the crop to a great extent, the
shortage is partially overcome by
a price level of around 72 cents per
bushel at the car.

Practically all of the incoming
grain is being graded high. Some
of it is being shipped on call, with
hope of a raising market within
the next few weeks.

The county ordinarily ships 25
or 30 cars, but last year there were
55 full cars that moved out to
market. The cars average about
1,200 bushels each.

The bulk of the crop has moved
within the past few days.

**Lions Club to Vote
On Official Family**

The local Lions Club will ballot
Tuesday in Snyder on the officers
that will guide its destinies for the
fiscal year beginning July 1. Nomi-
nations were made early this
month.

A joint program and entertain-
ment committee is making elaborate
plans for a program for installation
of officers and entertainment of
wives and sweethearts, scheduled
for Tuesday night, June 26. J. W.
Scott, Frank Farmer, Wayne Boren,
Bill DeBald and W. E. Holcomb
compose the committee.

**Playground Teams
Being Talked Here**

Efforts are being made by a num-
ber of local fans to organize two
or three playground ball or soft-
ball teams in Snyder.

The game that has become as
popular in a number of towns and
cities, among men, boys and girls,
is said by the chief pushers to be
one of the best community recrea-
tions available.

It is rumored that a team with
Shirley McGowan at the helm is
seeking to meet a Lions Club team
in mortal combat at a place and
date set by the club.

**Takes Six Inches
Off Hips and Bust**

The SAFE Way To Reduce

"For three months I've used Krus-
chen Salts—I've lost 45 pounds—
taken six inches off bust—three bot-
tles gave me splendid results."—
Mrs. Carl Wilson.

A half teaspoonful of Kruschen
in a glass of hot water every morn-
ing is the secret how overweight
folks can reduce safely and at the
same time gain physical attractiv-
ness. One bottle lasts four weeks.
You can get Kruschen Salts at any
drug store in the world. No. 4

**County Agent
Notes . . .**

Fighting the Sugar Ant.
Sugar ants, those little creatures
that cause housewives so much
trouble, can be quickly put out of
commission by sprinkling sodium
fluoride or any good roach powder
in their runways, the county agent
says.

Plant More Feed.
With early feed, in most cases,
going entirely to pieces, the agent
says that farmers should con-
sider planting a new feed crop on
the black areas. That is the only
way many farmers will be able to
get enough feed to carry them
through this year. If it rains
abundantly in a few days, feed
planted now is almost certain to
make.

Poison Feed Warning.
Farmers are being cautioned in
feeding their stock too freely with
stunted feed and about turning
stock in on stunted feed in the field.
There is a real danger from prus-
sian acid poisoning, which is often
deadly to stock.

**Relief Costs to Be
Reduced for Texas**

Relief administration costs were
again earmarked for reduction
throughout the state, it was learned
Saturday from Director Marie
Dresden of the Texas Relief Com-
mission, Austin.

An immediate saving of \$3,500,000
monthly in state relief expenses is
to be accomplished through a new
"classification" system going into
effect immediately.

**Fire Chief Attends
Mineral Wells Meet**

N. W. Autry, chief of the Snyder
volunteer fire department, left on
Wednesday morning for Mineral
Wells, where he is attending the
annual convention of the state fire-
men's and fire marshals' conven-
tion.

Several other members of the
local department were planning to
make the trip, but they found it
impossible to do so at the last
minute.

Chief Autry will probably return
early Friday. He said Tuesday that
an outstanding program had been
arranged for the two-day meeting.

Civil Service Exams.

Civil service examinations have
been announced for book-binders,
printers, proof readers and pres-
men. Full information as to these
examinations under the U. S. Civil
Service Commission may be obtain-
ed from the local post office.

Employees of the relief commis-
sion will receive wage reductions
under the new system excepting
those now receiving minimum wag-
es under the law.

Bilious Attacks

For bilious attacks due to consti-
pation, thousands of men and women
take "Edd's Black-Draught"
because it is purely vegetable and
brings prompt, refreshing relief.
"I have used Black-Draught," writes
Mr. T. L. Austin, of McAdenville,
N. C. "There is a package of it on
my mantel now. I take it for bil-
iousness. If I did not take it, the
dullness and headache would put me
out of business. It is the quickest medi-
cine to relieve me that I know."

ANNOUNCES

Dennis Waller of Trinity County has taken up the race for state treasurer that was dropped by his brother, Rex Waller, who was shot to death recently. The new candidate makes the following statement: "I enter the race under sad circumstances. My ambition is to complete the work the untimely death of my brother cut short, to vindicate the Waller name before the people of Texas, and to clear my brother's name of stigma. Spettisesser has stated he shot Rex because of attention Rex was paying to his daughter. This was not true. He shot Rex over the possession of an extension letter he sent Rex through the U. S. mails in March, in which he demanded, 'You place \$5,000 in some bank in Texas to my credit and send me the deposit slip or I will kill you.' We now have in our possession this letter and also a statement signed by Spettisesser, his wife, and his daughter, exonerating Rex of the charge and admitting it was an extortion scheme."

W. J. (Bill) Green Of Hermleigh Gets In Weigher's Race

After the solicitation of a number of my friends I have decided to enter my name as a candidate for public weigher of Precinct No. 4, Hermleigh, Scurry County, Texas. I have lived in Hermleigh for the last four years. I feel that I am fully qualified to fill the duties of this office in case you see fit to elect me. I have had two years experience as public weigher at Ira, Texas.

The time being short before the July primary, it may be impossible for me to see each and every one of the voters, and I will greatly appreciate it if you will investigate my past records, and consider my efforts.

Yours truly,
W. J. (Bill) Green.

HOME DEMONSTRATION NOTES

With Miss Nellie Ward's arrival here, county demonstration work has been progressing in leaps and bounds. Several clubs have already organized and others are expected to report their organization the latter part of this week.

Canyon Club Organized.
Women of the Canyon community met at the home of Mrs. Annie Sterling a few weeks ago to organize a home demonstration club. Work in the club, members say, has progressed steadily for several weeks.

Officers elected for the club are as follows: Mrs. Ora Bratton, president; Mrs. Annie Sterling, vice-president; Mrs. Vera Martin, secretary-treasurer; and Mrs. Sue Martin, reporter. Next meeting of the club is announced for Wednesday afternoon at 2:30 o'clock. The subject for study will be "drying."

Several members of this newly organized club were present at the meeting held in the county court room Saturday under the direction of Miss Nellie Ward, Scurry County home demonstration agent.

Sweet Potatoes Pay.
The proceeds from one and one-half acres of sweet potatoes paid the farming expenses of J. H. Gonzales in Jim Hogg County last year, the county agent says. He harvested 465 bushels which sold for 50 cents per bushel, and had several hundred pounds of culls left for pig feed.

Union Women Study Tiles.
"Use one part cement to four parts clean coarse sand in making the mixture for concrete tiles," said Miss Nellie Ward, county home demonstration agent, at a demonstration for making tiles for sub-irrigation at the home of Mrs. R. L. Jones, where the Union Home Demonstration Club met Tuesday afternoon.

"Too much moisture tends to prevent the mixture from being porous," she went on to say, and at the conclusion of her demonstration each member planned a canning budget.

Lady Says CARDUI
Eased Pain In Side

Cardui helped an Oklahoma lady, as described below, and many others have been benefited in a similar way. "I had a hurting in my side every few weeks," writes Mrs. Bill Stewart, of Dewar, Okla. "I had heard of Cardui and started taking it. It stopped my hurting and built up my strength. I took 11 bottles and I sure felt better."

Try Cardui for pains, cramps, nervousness due to a run-down condition. Thousands of women testify Cardui benefited them. If it does not benefit you, consult a physician.

"Satisfied Customers."
"I put in over 600 feet of concrete sub-irrigation tile and I wouldn't take \$50 for it," declares S. P. Crawford of New Port community in Archer County. He is only one of many "satisfied customers" in that county, the home demonstration agent reporting that 5550 feet of this tile have been laid this season, three times as much as in all of 1933.

No one needs to tell her?

• Possessing a keen sense of values, she's too smart and intelligent to be disturbed by all she hears and reads. No one needs to tell her which is the best refrigerator. She has the ability to find out for herself. She knows how to shop and what to look for just as she knows how to play and bask in the sun. She's ready for her new automatic, but before she buys she's going to look at Electrolux and find out why her many friends have bought gas refrigeration.

• The constant, steady cold below 50 degrees which Electrolux maintains without machinery or motors, its permanent silence, its freedom from costly repairs and its remarkably low (about 25c a week) operating cost are things which appeal to her. She wants to test them; to prove to herself that such simplicity in safe refrigeration is possible. And when she does, she's intelligent enough to recognize more years of care-free, dependable refrigeration at the least cost in the gas refrigerator.
