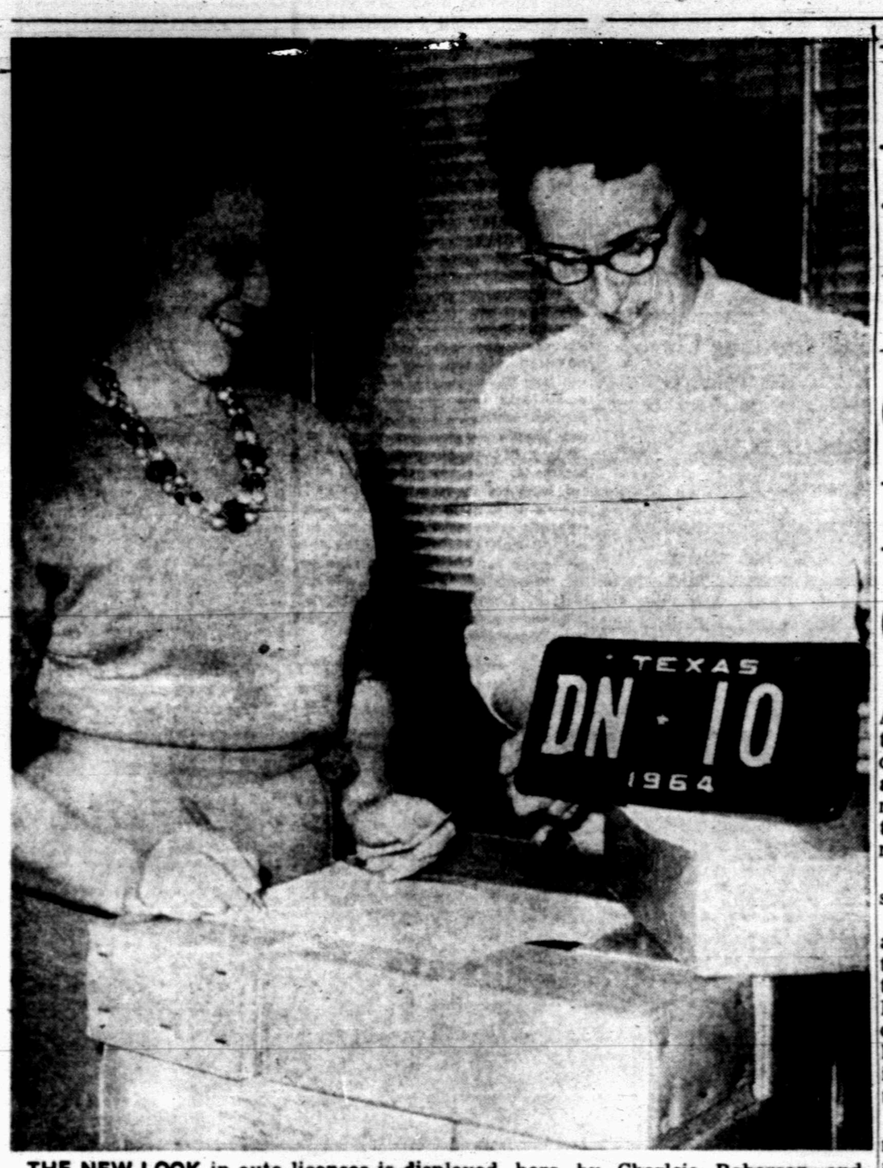
Ft. Worth Area Buried Under Record Snowfall



THE NEW LOOK in auto licenses is displayed here by Charlcie Roberson and Eloise Morgan, deputies in the tax assessor-collector's office. The new tags arrived yesterday, but will not go on sale until Feb. 3. Numbers assigned to Scurry County this year for passenger cars are DM 8875-9999 and DN 10-6999. The office received 8,000 car tags, 2,300 truck tags, 1,000 farm truck, 990 trailer, and small numbers of miscellaneous licenses for machinery, motorcycles, and the like.

Canal Zone Returned To Civilian Rule

WASHINGTON (AP) — The Army turned back control of the Panama Canal Zone to its civilian governor today even as a new eruption of U.S.-Panamanian differences threatened to wreck a one-day old diplomatic truce agreement.

High U.S. officials said the situation was very confused.

They hope for clarification in a meeting to be held by U.S. trouble-shooter Edwin M. Martin and Panamanian President Roberto Chiari in the course of the day. Chiari requested Martin to see him. Martin's instructions are to try to keep the agreement in force.

Despite the shifting developments the Defense Department announcd that the Army had turned back to civilian authorities responsibility for security in the Canal Zone.

Gov. Robert J. Fleming Jr. turned over control to Gen. Andrew J. O'Meara, Army commander in the zone, last Friday, when riotous mobs began attacking U.S. installations and personnel. The violence cost the lives of four American soldiers and 19 Panamanians. Scores were wounded.

Wednesday, U.S. - Panamanian negotiations resulted in an agreement sponsored by the five - nation Inter - American Peace Commission that the two countries would resume normal diplomatic relations and 30 days thereafter would put all their problems on the conference table.

The United States said the agreement was to "discuss" the problems. Panama said it was to "negotiate."

Within 24 hours of the announcement of this peace deal, Chiari told a throng of demonstrating students outside his palace in Panama City that he would not restore normal relations with the United States unless the United States agreed to negotiate a new Panama Canal Zone treaty. Chiari wants to eliminate U.S. absolute control of the zone and get a voice for Panama in the operation of the canal.

On the surface, officials said, the Chiari government seemed to be backing away from the agreement to restore normal relations and get on with the talks on differences over the Canal Zone. For the moment, however, he had not forced the issue diplomatically and it was that element of uncertainty in his real position that gave special importance to his meeting with Martin.

MRS. KENNEDY MANAGES A SMILE—Mrs. John F. Kennedy managed a smile for photographers after her broadcast from Washington thanking the nearly 800,000 people who sent her personal messages since the assassination of her husband. The former First Lady spoke in a low voice which sound men had difficulty picking up for the live television and radio broadcast of thanks, but recovered when she talked with newsmen and photographers afterward. Vast Area Is Covered

By The Associated Press

Record breaking snow snarled traffic, caused deaths and brought damage today in a vast area of Texas.

Virtually all schools closed in the heavy snow area. Colleges held classes for their resident students.

Up to 14 inches fell west of Fort Worth.

Dallas measured 7.2 inches at 9:23 a.m.—the heaviest fall ever officially recorded there.

At least 200 autmobiles were stacked up and unable to move on one highway. Another 100 were blocked on another stretch.

Many workers were late by hours at their offices and stores. Buses scrapped their schedules. Moisture froze in the brakes on many buses making them useless.

Fort Worth police tried to unsnarl traffic. A few Fort Worth power lines snapped under the weight of the unusually waterheavy snow.

At least two persons died in traffic during the snow.

Homer New, 39, was found dead in a doorway in Fort Worth. A justice of the peace said exposure could have been a contributing factor.

The snow line, including some ice and sleet on the western fringes, stretched from around San Angelo and Abilene in the West past the Texas border into Louisiana and on eastward.

On the north-south line, the snow stretched from south of Austin deep in Central Texas northward into Oklahoma.

The Weather Bureau issued hazardous driving warnings for all the snow area, including portions of Oklahoma, southern Arkansas and Louisiana eastward. The State Highway Department added its warning.

At Austin, where snow is rare, the white mantle baffled drivers. Thirteen collisions occurred during the first hour of snowfall.

The snow, heavy with water and having with little wind to blow it, clung tightly.

Awnings, roofs and tree limbs broke and fell under the heavy mantle.

The snow's weight collapsed a roof at the Hunt Planing Mill in Fort Worth's Riverside section.

A portion of a roof at a Fort Worth Coca-Cola bottling plant collapsed over a dock with an estimated $30,000 loss.

At the planing mill, an employe, Archie Singletery, 37, said he arrived early to start fires and heard the roof creaking and cracking. Then a 25x25 foot section at the rear crashed down.

Temperatures in the snow area were only moderately below freezing, but a hard freeze was forecast for most areas by early Friday.

The 14 inches of snow was reported unofficially between Fort Worth and Weatherford.

Other snow measurements included:

Athens 2.5, Llano 2, Waxahachie 6 to 7, Hico 12, Burleson 10, Aquilla 6, Chalk Mountain 11, Pidcoke 7, Lipan 9, Denton 7.5, Frisco 5, Krum 7.5, Argyle 6.5, Tioga 8, McKinney 9, Sanger 7, Decatur 7, Prosper 7, Valley View 7.5, Lake Dallas 6.5, Pilot Point 7, Leiwsville 8.

Also Richland 4, Trinidad 2.5, Boyd 9, Kaufman 7, Little Elm 7, Winkler 3.5, Greenville 6.5, Wolfe City 3, Edgewood 7, Carthage sleet, Marble Falls 2, Taylor 1, Waco 1, Dallas 7.2, Arlington 6, Abilene 2, Wichita Falls 1, Mineral Wells 6, Carrollton 6, Gunter 6, Sherman 7.

Also Richland 4, Crandall 7, Gainesville 7, West 1.5, Frost 6, Tyler 5, west of Brownwood up to 7.5, Stephenville 9, Cleburne 7, Grapevine 6 to 7, Fort Worth better than 6.

In midmorning, the Weather Bureau radar showed a broken bank of snow 80 to 120 miles wide falling from 25 miles southeast of Hamilton to Greenville and a band 10 miles wide from 10 miles southwest of Eastland to 20 miles south-southwest of Wichita Falls.

MINEOLA, Tex. (AP) — Joseph McGlothlin, 89, former Mineola mayor, was found dead from a bullet wound in a bedroom at his home Wednesday.

Nehru Feels Pressure To Quit Office

NEW DELHI (AP) — Prime Minister Nehru, sitting sick in the morning sun, began today to see signs of public pressure for him to relinquish permanently many of his duties.

For the first time Indian newspapers spoke of a growing feeling in Nehru's Congress party that the ailing prime minister should make clear arrangements for the Indian government to be carried on without him.

Reports centered on the possibility of former Home Minister Lal Bahadur Shastri returning to the Cabinet as leader of the Congress party in Parliament. It would be a key job clearly marking Shastri as the most likely successor to Nehru.

Usually reliable sources said earlier that Nehru was being shielded from politics by his daughter, Mrs. Indira Ghandhi, in an effort to protect him from excitement. But he has been reading newspapers.

The statesman in a front-page story said Congress party leaders have sent messages to Nehru urging him to lighten his load.

Missile On Target

CAPE KENNEDY, Fla. (AP) —A Titan 2 missile struck a target 5,800 miles away Wednesday in a successful dual demonstration of its ability to orbit astronauts and deliver a nuclear warhead.

The Air Force said the flight was primarily to test accuracy of the United States' most powerful operational rocket. But the vehicle also carried devices applicable to Titan 2's assignment to boost the two-man Gemini spacecraft.

Texas Oil Increase Set

By ERNEST STROMBERGER

AUSTIN (AP)—The Railroad Commission today ordered Texas oil production increased slightly to 29 per cent of potential during February.

The order sets February allowable production at 2,919,705 barrels daily.

The figure compares to the January estimated allowable of 2,856,818 barrels daily under a 28.5 per cent order. The calendar day allowable was 2,890,882 barrels daily Jan. 11.

The February, 1962 allowable production was 2,574,865 barrels daily under a 29 per cent order.

Three of 13 major oil purchasers asked at the proration hearing for a 29 per cent order, four for 28 per cent, three for 27 per cent, two for 26 per cent and one for 25 per cent.

Spokesmen for the Texas Landowners and Independent Oil and Gas Producers Association recommended an increase in the allowable.

Bruce Street of Graham, President of Texas Independent Producers and Royalty Owners Association recommended in a lengthy report that the commission discontinue monthly proration hearings. He suggested bimonthly hearings.

"Questions regulary posed by the commission to interstate purchasers undoubtedly would result in a more meaningful hearing process," Street said.

Purchasers' nomniations in barrels per day, by percentage, with the total change in the statewide allowable for each, are:

29 per cent (28,823 barrels daily increase) — Sun Oil Co., 105,315; Texaco, 140,000; and Humble, 417,300.

28 per cent (28,823 decrease) —Sinclair, 101,400; Mobil, 232,900; Gulf, 203,500; and Standard of Texas, 35,400.

27 per cent (86,469 decrease) —Indiana, 248,000; Cities Service, 21,000; and Shell, 161,700.

26 per cent (144,115 decrease) —Atlantic, 75,090; and Continental, 26,500.

25 per cent (201,761 decrease) —Phillips, 122,297.

In requesting the 29 per cent factor, Joe Owen of Sun pointed to a drop in total oil stocks and said the commission's permitted rate of production appears to have been absorbed.

Phillips representative said the company ended the year with more inventory than it would like to have.

Yarborough 'Undecided'

AUSTIN (AP) — Don Yarborough, Houston lawyer and "liberal" Democrat, said today he is thinking about running for governor again but is not yet ready to make a decision.

Yarborough, no kin to Sen. Ralph Yarborough, asked his friends across the state to write him and help him make up his mind.

"I am not thinking about running for any other post," he told a news conference "I will make my decision known here in a few days. In fact it is only a few days until the Feb. 3 filing deadline.

13 Arab Nations Plan Joint Effort

By GEORGE MCARTHUR

CAIRO (AP) — The 13-nation Arab summit conference has agreed to set up a joint military command in an effort to head off Israel's diversion of Jordan River waters.

In a remarkable display of unity, the often feuding leaders of 100 million Arabs voted Wednesday night to establish a military committee with "administrative and financial possibilities as well as permanent headquarters, and all that these entail," a spokesman said.

Foreign ministers of the nations were to meet today to put the conference resolution in final form. The Arab league's military and financial committees also meet today to discuss the new command.

A final summit session to approve the resolution was expected tonight.

Though the spokesman said Arab leaders had agreed on a "positive solution" of the problem raised by Israel's irrigation project, it still was generally doubted they anticipate war with Israel soon.

The spokesman would give no details of the new command and declined to say whether all Arab states would participate.

The spokesman said the agreement did not specify the area in which Arab forces might operate and did not limit the command to any specific task. He would not say whether troops of one nation would be stationed in the territory of another. He said no site had been selected for the command's headquarters.

This would be the first joint command of the entire Arab world.

The United States and Britain made inquiries through their Cairo embassies about the Arab military plans.

In Tel Aviv, Premier Levi Eshkol of Israel warned the Arab leaders "we shall frustrate any attempt to interfere with us."

LBJ Wants More Planes, Fewer Ships

WASHINGTON (AP) — President Johnson is asking Congress to cut spending on missiles and ships by more than a billion dollars and to increase spending on planes by $300 million.

This was revealed Wednesday when the Defense Department sent Congress its authorization request for the 1965 fiscal year.

The request included $10.6 billion for procurement of missiles, ships and planes. Last year, Congress appropriated $11.4 billion for procurement.

Rep. Carl Vinson, D-Ga., chairman of the House Armed Services Committee that must consider the request, said "I am not disturbed at all" by the requested cut in procurement spending.

"We will see what the justification is when the hearings begin," he continued.

Vinson said the committee would begin its hearings on Jan. 27. Secretary of Defense Robert S. McNamara is scheduled as the first witness.

The authorization bill actually totaled $17.2 billion — the largest authorization ever sent to Congress by the Defense Department.

But Vinson pointed out that this figure included an authorization of $6.6 billion for research and development. In the past, Congress has not included research and development in the annual military authorization bill.

The department's authorization request presages even deeper cuts in the military procurement program. Congress usually appropriates less money than it authorizes.

The timing of the authorization bill came as a surprise because it preceded the scheduled date for President Johnson's budget message by almost a week.

Says Barry Out-Of-Step With GOPs

KENNE, N.H. (AP) —Gov. Nelson A. Rockefeller of New York pictured Sen. Barry Goldwater today as out of step with Republican thinking on federal support for higher education.

The governor, contesting with Goldwater in the New Hampshire presidential preference primary, said the Arizona senator had voted in 1958 and 1963 against major programs for helping colleges and universities.

"The Republican party's success in the forthcoming presidential election will importantly depend upon the affirmative leadership its nominee gives for soundly conceived federal education measures," Rockefeller said.

He noted that most Republicans in Congress had voted for both programs — the National Defense Education Act of 1958 and the Higher Education Facilities Act of 1963.

Rockefeller's comments were in a speech prepared for delivery at Keene State College, one of eight stops on a 12-hour campaign swing in pursuit of the Republican nomination for president.

The governor described his Keene speech as "the first of a series of talks analyzing our — Senator Goldwater's and mine —respective positions on vital matters that concern the future opportunities of you in New Hampshire as well as the well-being and security of all Americans."

New Health Plan By GOP Solons

By JOHN CHADWICK

WASHINGTON (AP) — Six Republican senators offered legislation today to provide a public-private health care plan for the aged that they described as the most comprehensive yet presented to Congress.

One part would provide 45 days of hospital care, up to 180 days of skilled nursing home care, or more than 200 days of home health care following treatment in a hospital for all persons 65 or over.

This would be financed by an increase of ½ to 1 per cent in the Social Security pay roll tax to be deposited in a separate health fund.

The other part of the program would create a national, federally chartered association of private insurance and group service companies which would authorize a standard medical-surgical policy for those over 65.

By enabling private insurance firms to pool their risks, a standard policy could be made available at a cost of about $2 a week, sponsors estimated.

Sen. Jacob K. Javits, R-N.Y. chief spokesman for the sponsors of the measure, called it "the program with the best chance of becoming law in 1964." It is based on the recommendations of the National Committee on Health Care of the Aged, which suomitted its findings to the late President John F. Kennedy on Nov. 14.

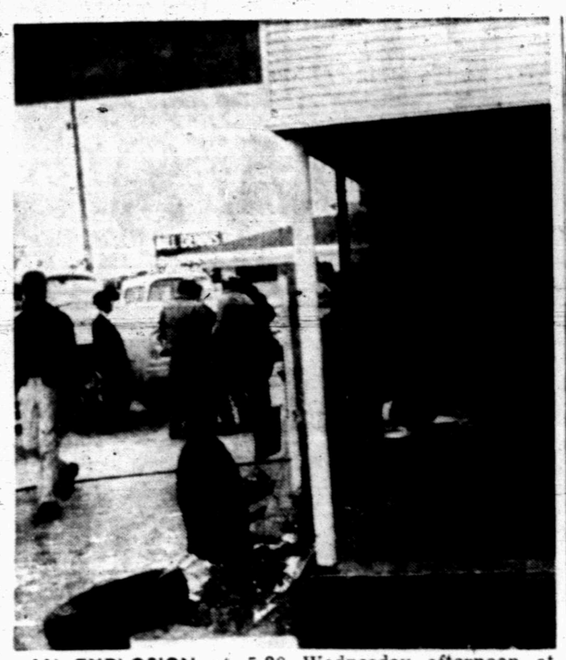
The American Medical Association opposed and Congress stymied Kennedy's program to provide hospital, nursing and out-patient care for the elderly by boosting the Social Security tax on employer and employe ¼ of 1 per cent.

The House Ways and Means Committee is to resume hearings on the administration bill Monday. Wednesday, President Johnson reaffirmed his support for the measure and predicted it "is going to be the law of the land."

"We have just begun to fight," the President told leaders of organizations of senior citizens at a White House meeting. He emphasized that under the plan the insured would be able to choose his own physician and hospital.

Javits said he thinks the bill offered by the Republican senators has the best chance of winning broad bipartisan support.

Joining him in offering the measure were Sens. Clifford P. Case of New Jersey, John Sherman Cooper of Kentucky, Kenneth B. Keating of New York, Thomas H. Kuchel of California and Margaret Chase Smith of Maine.



AN EXPLOSION at 5:30 Wednesday afternoon at the Doss Smyrl Mobil station at 801 Twenty-fifth Street was believed to have been caused when gasoline which was being **used** to wash the floor became ignited. No one was injured, and damage was confined to broken plate glass windows and smoke damage.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I am a 17-year-old boy and I have been wanting to quit school for over a year, but my parents won't let me. I hate school and I want to quit now and get a job. I failed two subjects last term, and know I won't do any better next time. My parents found out I was smoking and they ordred me to quit. I told them if they wouldn't let me quit school I wasn't going to quit smoking. My Dad made a deal with me: he said if I quit smoking and continued with school, he'd buy me a car I wanted. I said okay. He got me the car and I really have been trying harder at school, but he caught me smoking. Well, he took the car away from me and I'm grounded until June. They said if I flunk anything I'll have to go to summer school. How can I get my parents to be more human?

MAD

DEAR MAD: I think your parents are super - human. And far more generous than most parents would have been. You made a deal and welched on it. Work hard in school and quit feeling sorry for yourself.

• • •

DEAR ABBY: Maybe I am overly sensitive because I've had gray hair since my mid-twenties, but I do not like to be called "Grandma" by anyone except my own grandchildren. The moment I became grandmother, everybody started calling me "Grandma." Even people who hardly knew me well enough to call me anything but "Mrs. —" started calling me "Grandma." I resent it. While waiting in my doctor's office, his nurse had the gall to say, "Come on, Grandma, you're next." I am only 59 years old. Would I be out of line to correct these rude people? Or should I just sit there and burn?

"GRANDMA"

DEAR "GRANDMA": Many people are not aware that pet names (and that's what they are) are not always appreciated. So I suggest that you tell whoever incurs your displeasure by calling you "Grandma" exactly how you feel about it. It takes nerve to be outspoken. But it's better than burning.

• • •

DEAR ABBY: I read the letter from "Likes It Peaceful" with much interest. I agree with her husband, who refused to drive the carload of children to school because he thought the walk would do them good. When I was a boy nobody chauffeured us to school and we didn't expect it. We walked two miles there and back every day in all kinds of weather and we didn't live in California, either. Not only that, but when I was six years old and had to have my tonsils out, my mother gave me a nickel and put me on the street car and told the conductor to drop me off at the hospital. She came to get me that night. I lived through it and am none the worse for it. I think our kids today are so pampered it's pitiful.

Sandblom May Be Questioned

By TOM JOHNSON
Associated Press Writer

CORPUS CHRISTI (AP)— Investigators digging into the complicated dealings of Paul Amos Sandblom report more than $20 million —perhaps as much as $50 million— passed through the hands of the bankrupt investments broker in the past years.

Robert Burke, court appointed receiver of Sandblom's holdings, said Wednesday, however, he still has found only $27,000 in assets.

Some of the estimated 3,000 to 4,000 Sandblom creditors may get a chance Friday to question the slender, 39-year-old promoter at a public bankruptcy hearing.

But it's not expected that Sandblom will answer many questions. Oscar Spitz, his lawyer, filed a motion to postpone the hearing Wednesday on grounds such a proceeding would be premature.

Spitz said most of his client's records have been confiscated. He added the hearing might violate Sandblom's right not to incriminate himself.

Sandblom, a former Iowa resident who came to Corpus Christi 11 years ago, has been charged by federal authorities with using mails to transport an unregistered security worth $5,000.

He has been in county jail here since Sunday, when he surrendered to a U.S. marshal. Someone must post $25,000 bond before he goes free.

A former Little League director who also once taught a youth church fellowship group, Sandblom declared voluntary bankruptcy Jan. 7.

Shocked creditors held an impromptu meeting the next day. One of the lawyers they retained was Darrell Hester of Harlingen, Tex.

Ten creditors here claim Sandblom owes them more than $5 million. One of these 10—the Rev. Glen Norman, pastor of the Second Baptist Church—said he gave Sandblom $2,000 four years ago because of a deal promising an investment return of 36 to 50 per cent a year.

Two Texans Injured In Panama Riots

PANAMA (AP)—Two Texans are among the Americans injured in clashes this week with Panamanian r: :ers.

Pfc. William Campbell of Monahans, Tex., a truck driver, was hit in the arm as he delivered a load of sandbags. The soldiers had moved troops to the border community of Tivoli before he was shot.

"They tell me they got him, though," Cambell said.

John Zerr of Hondo, Tex., a civilian employe, was helping a friend get clothes out of Tivoli when he was hit in a knee by a .22 bullet.

Zerr said he served in the infantry in Europe for 18 months during World War II without injury.

Rail Crossing Closed

LA SALLE, Colo. (AP) — A grade crossing where 20 children died in a train-school bus collision in December 1961 will be closed.

The Colorado Public Utilities Commission gave the Union Pacific Railroad permission Wednesday to abandon the crossing several miles northeast of La Salle. A flashing signal will be installed at a new crossing a quarter mile away.

RR Commissioner Seeks Second Term

AUSTIN (AP)—State Railroad Commissioner Jim C. Langdon announced Wednesday he will seek re-election to the remaining four years of the unexpired term he was appointed to fill. Gov. John Connally appointed Langdon shortly after William J. Murray Jr. resigned April 10, 1963, following disclosure of his oil ventures while a commissioner.

Langdon, 48, was serving on the Eighth Court of Civil Appeals in El Paso at the time of the appointment. Earlier, he served eight years as a district judge.

Spring To Spawn The Womanly Look In Style

By JEAN SPRAIN WILSON
AP Fashion Writer

NEW YORK (AP)—You may be knee-deep in boots, choked up in turtlenecks, swathed in fake fur and shivering with goose bumps at the moment, but there is a new feminine you just around a sunny spring corner.

BOLD DOTS — Giant black polka surah jacket, and matching bandana hat is new way of getting the spring fashion message across.

AND DASHES—Black splashes of dashes on white silk two-piece costume with a long, lean overblouse was created for the womanly season.

Soon you're due to peel off your cocoon of sportive tweeds and pack your "mannish look" in camphor. Although designers have divers ideas of how you should accomplish this, they have unanimously endorsed your fashion right this spring to emerge as a woman once again.

The many ways of being womanly, as interpreted by America's trendsetting couturiers, was scheduled to be a subject of study during the week Fashion Press (Jan. 4-10) by visiting reporters.

This year more than 75 designers were to be represented in a marathon of style shows presented simultaneously by both The American Designers Group coordinated by Eleanor Lambert and the New York Couture Group headed by Kitty Campbell.

The Ins and Outs

A preview of these styles indicate that you will have two choices in figuring this spring —either subtly or snugly. If you favor well-defined curves and-or a cinched in waistline, you will seek the designers advocating the fitted look.

If you prefer to suggest your shape rather than shout it, you'll drape yourself in bias-cut crepes and silks and loosely cut suits created by the unfitted camp.

But don't think you can guess by past performances which designer is following true to form. They are all mavericks.

Your hemlines will stay put but your waistlines will dance up and down like a yo-yo, with many of them settling around the hip bone, and sashed or belted for emphasis. Sleeves on the new spring styles are capped, or long, full and gauzy. Or dresses are bare-shouldered, to be covered with capelets or brief jackets when the air conditioning demands it.

You'll be a white collar girl again this spring too, wearing, a frothy meringue to perk up your gray-pin strips, soften your blacks, and sharpen your navies And maybe you'll complete the icing with fake white cuffs, and slick white patent leather belts.

Which is the Front?

You will surely emerge from your winter cocoon a social butterfly, with gossamer things for going places that flutter and blouse and drape weightlessly across your framework. These will be imprinted with zingy splashes of dots and dashes, or delicate smashes of pastel posies, or gaudy giant horticultural fantasies.

Such will be yours in crepes and silks and chiffons that halt at the knees or float to the floor.

Perhaps much more of you will emerge than you modestly might have thought possible last spring. The designers who are going all-out for this womanly woman in fashion era are dropping decolletege to hitherto unknown depths.

But if you are not quite that eager to be a fashion feminist, you can always wear the dresses backwards.

MORE DOTS are on white this silk pleated turtle neck bodice and matching jacket with a jet black skirt. It's all femininity.

Toperettas Have Contest

The Snyder TOPerretas met at 7 p.m. in the barn at Towle Park with approximately 30 members and two guests. Minutes were read and approved and the president, Mrs. Alfred Lieb read the club pledge, and the charter for the club was shown to the members. Mrs. Lieb informed the members that the club would probably meet at Stanfield Elementary Cafeteria in the future but this was not definite.

The individual groups' contest that is presently in progress shows to be a delightful one. Group 4 is currently ahead. Group leaders are reminded to call her members and encourage them to be present for all meetings. The group contest that is presently in progress lasts for three months. Also the individual members in each group are having a contest. This will run for a month and the one who has lost the most in each group is the winner of the contest.

Games were played in which the prizes were "White Elephants."

The meeting was adjourned at 8:30.

Cincinnati Era May Be Nearing An End

By TED MEIER
Associated Press Sports Writer

The end of an era seems at hand for Cincinnati in college basketball.

For six straight years, starting with the advent of Oscar Robertson, "the Big O," the Bearcats have swept all before them in the tough Missouri Valley Conference and last March just missed an unprecedented third straight national championship by losing in overtime to Chicago Loyola.

Robertson graduated after the 1960 season and Coach George Smith moved up to director of athletics. But the triumphant parade continued under new Coach Ed Jucker whose teams won a fantastic 82 of 89 games the last three years. Included were winning streaks of 27 and 37 straight.

Now, however, the Bearcats already have lost four games, the most in five years, and the hardest part of their MVC schedule still is ahead. UC still is dangerous and eighth-ranked nationally with nine wins against major opposition, but the Bearcats can't afford any more slips.

The Bradley Braves administered UC's fourth defeat Wednesday night, 87-77, and in the process ended the 'Cats winning streak of 41 on their home court. In fact it was the first MVC game the Bearcats have lost in the fieldhouse.

Joe Strawder, with 33 points, and Levern Tart, with 24, broke the game wide open for Bradley in the second half. All-America Ron Bonham threw in 25 for Cincinnati, but missed his last seven shots from the field.

The fifth-ranked unbeaten Davidson Wildcats, the only other team in The Associated Press Top Ten to see action Wednesday, came through with their 14th straight triumph, a weird 52-49 decision over Richmond.

The Wildcats, ahead 48-45, didn't shoot from the field for the last 13 minutes of play as they went into a deep freeze. Their last four points came on free throws, the last after the final whistle.

Hardin Simmons registered the upset of the night by downing Oklahoma City 87-74 behind Nate Madkins' 28 points. Bud Koper, Oklahoma City star, tossed in 23 before he suffered a cut over his eye late in the game.

Bill Cunningham's 27 points and good defensive work by Bryan McSweeney on Larry Lakins sparked North Carolina to a 79-71 victory over N.C. State while West Virginia and Xavier of Ohio both exploded in the second half to defeat Penn State 84-63 and Louisville 80-79, respectively.

Finley Due To Get Firm 'No'

By JOE REICHLER
Associated Press Sports Writer

NEW YORK (AP)—American League club owners were expected to deny Charles O. Finley permission to move the Kansas City Athletics to Louisville and, The Associated Press learned, make these other rulings at today's specially called meeting:

1. Recommend a stiff fine be imposed upon Finley for signing a contract with the State of Kentucky to play in Louisville for the 1964 and 1965 seasons without seeking approval of the league.

2. Order Finley to renegotiate with Kansas City civic officials for a new lease.

3. Appoint a committee to serve as an arbitration board. This committee will decide on the fair and equitable provisions of the lease.

Actually two meetings were scheduled. Joe Cronin, president of the American League, met with the five-man board of directors at 10 a.m. EST. The full scale league meeting was slated for 1 p.m. EST.

Barring a complete change of heart, the owners were expected to give Finley an unanimous NO.

At least five clubs — New York, Baltimore, Chicago, Detroit and Boston—have gone on record as saying they will vote against the A's owner. Only four negative votes are required to keep him in Kansas City.

Under the rules, Finley needs six votes other than his own to move the team. The major league constitution says three-fourths vote is necessary, except in the case of a 10-team league when seven affirmative votes are needed.

Finley arrived in town Wednesday but declined to discuss his chances.

Davis Cup Welcomed By President

WASHINGTON (AP) — President Johnson welcomed the Davis Cup back to the United States, gave the tennis players who won it a grand tour of the White House and learned he has a tennis court in the back yard.

With the large, 63-year-old silver trophy gleaming on a table in the Cabinet room, Johnson told the young men Wednesday their victory proved they have "the desire for the pursuit of excellence."

On hand for the ceremony were Chuck McKinley and his wife, Dennis Ralston, Marty Riessen, nonplaying captain Bob Kelleher and his son Jeff, and Edward A. Turville, president of the U.S. Lawn Tennis Association.

Johnson said he was pleased that the players—who captured the Cup from Australia last month—were from all parts of the country, especially the two who are products of Trinity University in San Antonio.

This was a reference to McKinley and Frank Froehling, another team member recovering from an operation and not at the White House, who both attended the Texas school. The fifth member of the team, Gene Scott also was unable to attend.

During the tour, McKinley asked the President: "Do you have a tennis court here?"

"I don't think so," he replied, "although right out yonder is where President Eisenhower practiced some golf shots."

Mrs. Pauline Betz Addie, former U.S. and Wimbledon women's tennis champion who accompanied the Davis Cup team to the White House, told the President there was indeed a cement court out there "somewhere under the snow."

"It could be," the President said, grinning. "I've only been here 50 days and I'm not sure just what's in this place."

5th Draft Choice Signed By Raiders

OAKLAND, Calif. (AP)—The Oakland Raiders announced today signing of Don Green, 6-foot 200-pound back from Susquehanna University and fifth draft choice of the American Football League club.

Green is the sixth rookie among the Raiders top 10 draft choices to sign up. The club has signed seven rookies altogether. The 21-year-old from Harrisburg, Pa., was a quarterback in college. The Raiders said he will be tried as defensive safety or quarterback.

Thaw Threat To Winter Olympics

INNSBRUCK, Austria (AP)—Organizers of the 1964 Winter Olympics battled thaw, rain and lack of snow today in a heroic effort to save the games from disaster.

An emergency force of nearly 3,000 officials, army engineers, infantrymen and civilian volunteers were hunting for snow in far-off mountain regions and lugging it onto the Olympic sites.

Machines sprayed artificial snow on the bob sled and toboggan courses to stop the ice from melting in the balmy air.

Organizers are determined not to change the program, but they admit they may be forced to unless the weather changes for the games Jan. 29-Feb. 9.

Peranoski Booked In Familiar Role

HOUSTON (AP) — Ron Perranoski will appear Jan. 21 at Houston's major league baseball dinner in the role he knows best—relief.

The left-handed bullpen ace of the Los Angeles Dodgers will accept the Dickey Kerr award for teammate Sandy Koufax.

Because of a mixup in dates, Koufax will not be able to accept the award himself. Perranoski, however, consented to sub for him.

Junior High Intra-City Games Set

More basketball activity involving Snyder's two junior high schools will be featured this evening in Tiger Gym.

Two seventh grade teams from each junior high will perform and the eighth grade teams of the two schools will clash in the finale.

The evening's activity will begin at 5 p.m. when the Lamar 7th Gray team challenges the Travis 7th White quintet. At 6 p.m., the Lamar 7th Red team will meet the Travis 7th Blue team.

The Travis 8th and Lamar 8th teams will take the floor at 7 p.m.

The eighth grade game promises to be a close match. Lamar 8th has a record of 10 victories and no losses, while Travis 8th has won 8 and lost 2.

Lamar 8th's last activity resulted in the championship of the Colorado City Junior High Tournament last weekend. In the same tournament, Travis suffered one of its two losses. The Blue Devil defeat at C-City came at the hands of Lamesa 8th, a team Travis 8th had defeated twice in earlier games. Lamar 8th went on to defeat Lamesa 8th for the C-City tournament crown.

Newsome Is Top Scorer

NEW YORK (AP) — Manny Newsome of Western Michigan tossed in 35 points against Central Michigan Tuesday and became college basketball's leading individual scorer.

Newsome moved ahead of (Butch) Komives of Bowling Green, who managed 29 points against Kent State the same night.

The weekly statistics for major colleges, released today by the NCAA Service Bureau, show Newsome on top with an average of 33.5 on 435 points in 13 games. Komives, No. 1 the last two weeks, now is second at 32.7 with 294 in nine games.

Danny Schultz of Tennessee continued the top foul shooter with 42 of 43 for a pct. of .977 and Paul Silas of Creighton retained the rebound leadership with 304 in 13 games for an average of 23.4. Jim King of Oklahoma State took over first in field goal percentage with a .640 on 48 of 75 attempts.

Dixie White Hired By NE Louisiana

MONROE, La. (AP)— Northeast Louisiana State reached into the ranks of Louisiana State University and named Dixie B. White athletic director and head football coach Wednesday.

White, an assistant to Charles McClendon at LSU the past two seasons, succeeds Jack C. Rowan.

White, 46, played his college football at Texas Tech. He was a guard on the undefeated Tech team of 1938.

Before going to LSU, he was assistant coach at the University of Arkansas for seven years. Before that, he served as head coach at Midwestern University in Wichita Falls, Tex., and as assistant coach at the University of Idaho and Stephen F. Austin in Texas.

Stage Is Set For Record Score In Crosby Tourney

By DICK BARNES
Associated Press Sports Writer

PEBBLE BEACH, Calif. (AP) —Bing Crosby's National Pro-amateur Championship—one of golfing's most unpredictable events—opened today with conditions ripe for a tournament record score.

A field of 174 pros teed off in the $60,000 competition. Each was paired with an amateur in the concurrent best-ball pro-am battle.

Predictions of good weather through at least Saturday heightened chances that Billy Casper's tournament record of 277 might fall. A field including most of golf's top names further increased the record possibility.

Al Geiberger, among the hottest professionals in late 1963 and early 1964, predicted it will take under 280 to win if the weather holds good.

The field was split in thirds—one group each at Cypress Point, Pebble Beach and the Monterey Peninsula courses. All are par-72 layouts dotted with many traps, sand dunes and shot-wasting tangles of rough.

Despite good weather last year, Casper's winning score was only 285. He set his record in 1958 and only once since then has the winning total dipped below 282.

Much attention was focussed on the 1964 debut of Jack Nicklaus, 1963 PGA and Masters king who delayed his start to get a rest. Arnold Palmer was trying to erase memories of the 1963 Crosby when he played one stretch of seven holes seven-over-par and finally was disqualified for erroneously playing a provisional ball after rapping a tee shot into a tide pool.

Gary Player is the only member of golf's Big Three not on hand. He stayed in South Africa for the arrival of his fourth child. Art Wall and Paul Harney, winners of 1964's other tournaments and 1963 Open champion Julius Boros also drew attention.

The field will rotate around the three courses for the first three rounds. The 50 low pro-am teams and pros in money competition play Sunday's final round at Pebble Beach before a national television audience.

Coach Shelby Metcalf, whose Texas Aggies went into the mid-term exam break at the top of the heap in Southwest Conference Basketball, sees rough days ahead for his Aggies. However, Metcalf doesn't believe the A&M quintet has reached its peak yet. The Aggie coach credits tournament play during the Christmas holidays with starting the Aggies on the upgrade. They began to make their move at the All-College Tournament in Oklahoma City when they finished third behind Powerful Wichita and Oklahoma City University.

"We went up there with a group of boys and returned with a squad of men," Metcalf said.

As for the situation from now on, Metcalf said: "We're on top and naturally we're the team to beat now."

Bill Glass, former Baylor lineman now a star with the NFL Cleveland Browns, is credited with this story:

Back when Y. A. Tittle was playing with the San Francisco 49ers, Tittle was getting "kid glove" treatment by the New York Giants in an exhibition game. This puzzled old YAT, because the Giants are known for ferocious defense and have never been known to show mercy for opponents' quarterbacks. Finally, he asked one of the Giants what it was all about.

The Giant replied: "We know something you don't, Y. A. You're being traded to us tomorrow."

And he was.

The Texas Interscholastic League may be called upon to rule on another complaint from another district within the near future. Lampasas High School officials have claimed that their players and fans were mistreated during a game at an Austin school. The TIL enforces all of its rules rather rigidly, but this type of offense usually is regarded as more serious than others. The deportment of fans, players and coaches during games always is of particular interest, and when things get out of hand, penalties usually are extremely severe. And, the responsibility for maintaining good behavior is pinned on the host school.

Mistreatment Is Claimed

GATESVILLE (AP) — Superintendents of schools in Interscholastic League District 13 AAA will meet next week to discuss charges that Lampasas High School basketball players and fans were mistreated at Friday's game with Lanier High School in Austin.

L. C. McKamie, chairman of the district superintendents, told the Austin American Wednesday the superintendents will meet Monday or Tuesday and make recommendations to the Texas Interscholastic League on the matter.

Norman Hall, Lampasas superintendent, told McKamie that Lampasas players and fans were subjected to threats and abusive language from the stands and a window was broken in the team bus.

McKamie asked the Lanier principal, Fred H. Matthys, for a report. Matthys said his investigation showed the Lampasas charges were unsupported.

Lampasas won the game 80-59.

Thomas In Best Start

NEW YORK (AP) — John Thomas of the Boston Athletic Association, off to his best start since he first jumped seven feet in 1959, will face three other seven-foot high jumpers Jan. 30 in the 57th Millrose Games at Madison Square Garden.

Gene Johnson, the national outdoor champion from the University of California, Paul Stuber of the University of Oregon and Stig Pettersson, Swedish veteran, are the others who have hit the seven-foot mark or better.

Others in the field are Finland's Henrik Hellen, Guatemala's Teodoro Palacios and Terry Lelewellyn of the University of Oregon.

THE LOBBYIST

US Senate Still Clings To Own Double Standards

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — The U.S. Senate, called the world's most exclusive club, is still very choosy, as the Bobby Baker case and other events show.

It has two sets of rules on conduct: One for other people; a different one for members of the Senate.

For the past 14 years or so, but particularly this year, liberal senators have called on the House and Senate to do unto themselves what they do to others.

Sen. Kenneth B. Keating, New York Republican, put it this way:

"Congress is constantly laying down regulations for the conduct of those in the executive branch, telling them what they should and shouldn't do.

"It is not right for us to exempt the legislative branch from the rules and regulations we have imposed on the executive branch."

He called it a double-standard and said "it has undermined confidence in our good faith."

This is what he was talking about:

Congress has taken various steps to prevent conflict of interest among employes of the executive branch of government. Conflict of interest can be described as mixing a government job with personal gain.

Congress has not only passed a law against conflict of interest among executive branch employes but subsequently tightened and broadened it.

Congressional committees require men appointed by the President to his Cabinet to get rid of stock they hold in companies dealing with the government.

None of this applies to members of Congress or employes of Congress.

Various liberal senators have proposed legislation — which Congress has consistently ignored — for Congress to establish a code of ethics for itself and its employes on conflict of interest.

There were more such demands, also ignored, when the Robert G. Baker case broke, although not through disclosure in Congress.

Baker, who had been secretary of the Democratic majority in the Senate for years, quit his job Oct. 7 when, as it became clear, he had wide-ranging financial interests and deals while working for the Senate.

The Senate finally authorized its Rules Committee to investigate to see whether Baker's outside activities had conflicted with his official duties.

It went further:

It authorized the investigation into the financial or business interests or activities of any officer or employe of the Senate, if the Baker investigation made that necessary.

The Senate stopped there. It didn't authorize the committee to investigate any senator who might have been involved with Baker.

Yet, the Senate's Democratic majority leader, Mike Mansfield of Montana, revealed Senate employes who owe their jobs to the Democrats are being required to list their assets and sources of income.

A number of liberal senators had previously demanded that members of the Senate itself be required to list publicly their assets and income. This was neatly ignored.

Nevertheless, Sen. B. Everett Jordan, North Carolina Democrat and chairman of the Rules Committee's investigation of Baker, said two months ago that any leads uncovered would be followed up regardless of who was involved. He said he had no indication any senator was involved.

This week a witness said Sen. George Smathers, Florida Democrat, was in with Baker in a land deal in Florida.

Later Smathers said in a statement:

He had sold Baker and another man one-eighth interest each in his share of the land venture because they were young men raising families.

Would Smathers now be called to testify before Jordan's committee? Jordan said: "We don't need him—we're not investigating senators."

And he added this: If the committee needs any additional information from Smathers "we will get it but we will not bring him in."

Ex-Smokers Are Among Top Pests

By HAL BOYLE

NEW YORK (AP)—The cigarette addicts who used to get smoke in our eyes now simply get in our hair.

Since they swore off the filthy weed as a result of the present health scare, they have become matchless bores.

Mark Twain pointed out long ago there was no problem in quitting smoking. "I've done it a thousand times," he said.

But the current crop of swearer-offers is making a big production out of it. If you look around your own social circle, you may find the following types of ex-smokers familiar—perhaps only too familiar:

The Crusader — Not content with giving up smoking himself, he wants everyone else to quit, too. "If I had my way," he mutters darkly, "I'd put a torch to every tobacco field in the country."

Secret Backslider — He denounces nicotine in public, but several times a day sneaks out to the office washroom and smokes three cigarettes like crazy. Then he chews a couple of mints so no one can smell tobacco on his breath.

Rationed Abstainer — This cheapskate hasn't quit smoking cigarettes. He has just quit buying them. By the end of the day he has put away three packs—all borrowed. He borrows the matches, too.

Confessor — Like a reformed drunk, this fellow is compelled to brag to one and all about how awful he used to be before he saw the light and changed his ways. "I was a four pack a day man," he says, holding on to your lapel. "But I finally shook it. Haven't had one since 5:33 p.m. yesterday."

Switch Artist—He gave up cigarettes, and took up pipe smoking. "I don't seem to have the hang of it," he moans. "In the last week I've burned holes in two of my best suits."

Substituter — After cigarettes went out of his life, sweets came in. He went from one candy bar a day to six, then went on to malted milks. In a month he gained 15 pounds. He no longer worries about his lungs. "I'm so fat now I can hardly breathe," he complains. "Unless I get this weight off I'll probably get a heart attack. What's a good diet?"

Liar—at the office he thumps his chest and brags, "Don't miss 'em a bit. Never felt better in my life. Should have done it years ago." But at home he snaps at his wife and children, kicks his dog, and if you look closely at his fingernails you will see they are gnawed down to the first knuckle.

Those who give up cigarette smoking aren't the heroes. The real heroes are the rest of us—who have to listen to them.

Junior Editors Quiz on THE EARTH

QUESTION: How far is it around the earth and what is inside?

• • •

ANSWER: If you could slip a huge tape measure around earth's equator, as the young folks in our picture are doing, you would find that it measures 24,902 miles. This distance around earth's outside is its circumference; but it has another measurement, the diameter, which is straight through the widest part. Earth's diameter is about 7,927 miles from one spot on the equator to another on the opposite side. But if you measured from one pole through the center to the other it would only be about 7,900 miles, which shows that Earth is very slightly flattened at the poles. The earth is mostly composed of rock which would be found to be hotter as one burrowed down. At the center (1) an "inner core" is thought to lie—about 1,630 miles across. Above this (2) rests the "outer core," of heavy heated rock which is probably in a "plastic" or flowing state. The "mantle" (3), of heavy rock which may move under pressure, rests upon this and finally (4) comes the "outer core," about 20 miles thick, which contains the seas and continents. Below the sea the rock is mostly basalt, but the continents are largely granite, with soil created by the action of water and air.

• • •

FOR YOU TO DO: It is interesting to compare the sizes of the various planets in our solar system. We show one smaller than the earth and another which is larger. Find out about one which is so close to earth's size that it is almost a twin.

Signs Of Prosperity May Foster Higher Interest

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Now that businessmen have convinced themselves that 1964 is going to be bigger and better they're going to be seeking more credit. And that's likely to mean higher interest costs.

Anyway that's how many New York bankers see it. And they reason that the government won't object too much unless credit gets too tight for faster economic growth.

For one thing, basic interest rates have been rising in a number of European countries, always a temptation for idle American funds to go overseas. This Washington doesn't want because it adds to the U.S. deficit in its balance of payments, which last year apparently was somewhere near the 1962 level of $3.5 billion despite all efforts to lower the surplus of outflowing dollars over returning ones.

If interest rates go up here, bankers contend, this will hold the funds at home and maybe even attract more from Europe. Bankers argue that an interest rate rise would do this much more effectively than the proposed tax on American purchases from foreigners of foreign securities.

Federal Reserve banks last summer raised their charge for loans to member banks to 3½ per cent from 3 per cent. But short-term loan rates have often been above that of late, making it possible for a bank to borrow from the Fed and lend to others at a profit. The banks' prime rate which they charge large borrowers with top credit ratings has stayed at 4½ per cent since the middle of 1960.

Financial circles are talking again of a possible rise in the Fed's discount rate from the present 3½ per cent, and perhaps soon thereafter a rise in both the short-term rates and the prime rate.

This depends, of course, on Washington's assessment of its foreign and domestic monetary policies, and on the expected rise in demand by American business for more credit.

Bankers seem surer of the latter than of the change in official policies, where even more cross-currents are involved. The trend in other leading financial nations may play a big part in the decision. At the moment the trend is toward higher interest charges, chiefly to curb the threat of further inflation in several European nations.

If 1964 turns out as good as it is billed now, bankers figure that rising personal incomes and consumer demands will team up with business expansion to revive the demand for business credit which has been on the light side for many months.

Rising demand can lead to higher interest charges, and this can spread all along the line to the large and small borrower alike.

Calif. Valley Has Own 'Boont Ling'

CHICO, Calif. (AP) — "Let's pike to Boont."

This may not mean much to anyone outside Boonville, Calif., but several California researchers into American dialects and colloquialisms think it may be a good idea.

The discovery of a pioneer lingo known as "Boont ling" in the narrow, winding Anderson Valley in Northern California's Mendocino County has stirred interest among several language experts, since the dialect still is spoken as a secondary language among Boonville oldtimers and on outlying ranches.

Boont Ling is a contraction of Boonville lingo, with an offbeat vocabulary, but with syntax and grammar the same as that of normal English.

Charles Adams, assistant professor of English at Chico State College, Butte County, Calif., first heard of the lingo from Caroline Close, librarian at Chico State.

She had written a paper when she was a student in folklore at Sonoma State College relating, among other things, how a soldier in World War II wrote home from overseas in Boont Ling to avoid censorship.

A study of the Anderson Valley area, which was settled in 1853, shows it was isolated for many decades. The original settlers, many from the Midwest, lived to themselves, intermarried and gradually developed a secondary language of their own.

How the words developed is not precisely known. But everyone who was anybody received a nickname, usually related to personal habits, physical characteristics and appearance. These crept into Boont Ling as nouns, verbs and adjectives, together with slang expressions, archaic English, bits of Indian dialect and odd contractions.

For instance: charley ball means to embarrass, frati is wine, a hairk means a haircut, hairy mouth is a dog.

Nouns often become verbs: chipmunk means to hard, pike is a word for travel.

Who started Boont ling?

Adams believes it may have been the result of teen-age efforts to develop a special language which would preserve secrets from their pioneer parents. As these youngsters grew into parenthood, their own children took some of the expressions and added to them; and so down the generations.

VFW Got Start From 3 Agencies

(This is one of a series of articles on the Veterans of Foreign Wars.)

The Veterans of Foreign Wars of the United States was created out of the merger of three national societies of overseas veterans that had been organized almost simultaneously, each without the knowledge of the other, but with nearly the same purposes in mind. Founded shortly following the close of the Spanish-American War in 1899 the three groups, located in Columbus, Ohio; Denver, Colorado; and Altoona, Pennsylvania, were each brought together in a common purpose of offering help to their disabled, needy, and less fortunate comrades of the recent wars. It was not until 1914, at a convention in Pittsburgh, Pennsylvania, that the same three organizations merged their identities to become one single nationwide association, known as the Veterans of Foreign Wars of the United States.

From the beginning, the newly formed organization took its place on the American scene as a national society, championing the veterans' cause, and operating on a non-partisan, non-sectarian, non-profit basis. The close of World War I witnessed a great increase in membership and the V.F.W. continued to grow in prominence in national affairs.

Cold Brings Vegetable Prices Up

By The Associated Press

Prices strengthened on many vegetables in Texas early this week, as freezes drove deep into most winter garden areas. The full damage is still unknown.

Wholesale prices were higher on cabbage, cucumbers, lettuce, white onions, peppers, potatoes and tomatoes at many Texas markets, the Agricultural Marketing Service said.

Best buys among vegetables, considering price and quality, are cabbage, carrots, celery, greens and onions, potatoes, sweet potatoes and turnips.

Apples are attractively priced in most markets. Avocados, grapefruit and oranges are in good supply at modest cost, although most citrus is some higher than a year ago.

Dry beans, peanuts, pecans and other nuts are abundant at reasonable prices.

Eggs are unchanged at modest winter cost. Beef and pork are plentiful. Many markets are featuring fresh cuts. Chicken, turkey and other poultry are priced for nearly all budgets.

Commission Meets To Set Production

AUSTIN (AP) — The State Railroad Commission meets today to determine February oil production in Texas.

Purchasers of Texas crude oil have told the commission they expect to buy 2,534,917 barrels daily during February, an increase of 15,049 barrels daily over January.

February demand was estimated at 2,690,000 barrels daily by the U.S. Bureau of Mines, a decrease of 10,000 barrels daily.

Gonzales Reveals 'Veiled Threat'

HOUSTON, Tex. (AP) — The Houston Post quotes U.S. Rep. Henry Gonzalez, D-Tex., as saying a "thinly veiled threat" has been made against him and 19 other Democratic congressmen in a publication.

The Post said Wednesday in a copyright story from its Washington bureau that Gonzalez asked Atty. Gen. Robert F. Kennedy to investigate a group he identified as the Minutemen. He said a copy of the group's publication "On Target" contains the threat against him and the other 19 congressmen.

In his letter to Kennedy, the San Antonio, Tex., congressman said "in the light of recent developments I have become decidedly more sensitive about some of the hate material that is so widely distributed."

The newspaper said Gonzales referred to the death of President John F. Kennedy and the slaying of the man accused of assassinating him.

Gonzalez was quoted as saying the threat was directed at him and the others who voted against increasing funds to operate the House Committee on un-American Activities last year.

He said the second page of the publication "On Target" dated March 15, 1963, contains the names of the 20 congressmen, bordered in black and headed with the words "In memoriam."

Gonzalez said the other congressmen are James Roosevelt, George Brown Jr., W. D. Edwards and Edward Roybal, all of California; William Fitts Ryan, Abraham Multer, Leonard Farbstein and Benjamin Rosenthal, all of New York; Mrs. Edith Green and Robert Duncan of Oregon; Robert W. Kastenmeir of Wisconsin; Barratt O'Hare of Illinois; Thomas L. Ashley of Ohio, Charles Diggs, John Dingell, Lucian Nedzi and Neil Staebler, all of Michigan; Thomas Gill of Hawaii; and Donald Frazier of Minnesota.

Gonzalez said one portion of the publication contains these words: "Traitors beware. Even now the cross-hairs are on the back of your necks. These Patriots are not going to let you take their freedom away from them."

J. Teagarden Found Dead In Motel

NEW ORLEANS (AP) — The jazz trombone of Jack Teagarden—sometimes lazy and lyrical sometimes brash and brassy—has been silenced.

Teagarden was found dead Wednesday in his motel room, not far from the night clubs of the historic French Quarter where his Dixieland beat set feet tapping so many times. He was 58.

An autopsy was planned today to determine the cause of death.

Teagarden was found face down on the floor. He wore a dress shirt and undershorts.

His last engagement was at the Dream Room, a Bourbon Street nightclub within earshot of his motel room.

The engagement was scheduled to end today, said Walter Noto, co-owner of the Dream Room, "but he took sick on Thursday the 9th."

"About one o'clock in the morning, he said he couldn't play anymore," said Noto. "I didn't know he was still in town. I thought he was going to his home at Pompano Beach, Fla., the next day."

Almost entirely self - taught, Teagarden played his trombone with its pulsating rhythms throughout the nation's jazz haunts for the past four decades. He had a style all his own, jazz experts said.

Teagarden, a heavy - set, moon-faced man, was also a band leader and jazz singer of note. His husky singing voice sounded not unlike the bellows of his lazy trombone.

THE JOHNSONS ARE HEARTY PEOPLE — The temperature was 19 degrees when Italian President and Mrs. Antonio Segni arrived at the White House for a state dinner, but President and Mrs. Johnson wearing only their dinner clothes, ignored the cold to greet their guests on the north portico of the Executive Mansion. The visiting head of the Italian Republic is in Washington for talks with President Johnson and other government officials. (AP Wirephoto)

Poor Rejected Gorilla Gets Royal Care In New Home

By FRANK CAREY

WASHINGTON (AP) — Leonard, a somewhat historic baby gorilla, has been farmed out to a foster home to be weaned on a baby's bottle because his mother is emotionally unable to nurse him.

The stand-in mother for one-week-old Leonard, the fifth gorilla born in captivity, is Mrs. Bernard Gallagher, wife of the senior keeper at the National Zoo.

Since June 1958, her home in nearby Maryland has been a temporary foster home for baby anthropoids from the National Zoo whose own mothers can't nurse them.

The vital statistics and routine for Leonard?

Lend an ear to Mrs. Gallagher:

"He weighs five pounds, 6½ ounces, which makes him the largest of the five gorillas born in captivity. He has very black hair—with some gray on his head—and he sleeps in a regular human baby's incubator.

"I feed him a regular baby's formula, the same one I gave all the others, and I also give him extra vitamin drops. In about a week, I'll begin giving him pablum.

"He eats about every 3½ hours during the day, and so far he's been very good to me at night. He only wakes me up once each night, whereas all the others had me up at least two or three times.

"He has to be burped after every feeding, and I hold him over my shoulder, just like a human baby. He wears regular baby clothes — and undershirt and a polo shirt—and when he gets a little older, I'll put overalls on him.

"Of course, he always wears a diaper, and whenever he's restless, I change him. Sometimes it's every few minutes, but most times an hour or so goes by between changes.

"He's a very alert baby for only one week old, and I feel that he's already beginning to notice me. And he's very strong. When he gets a hold on you, you know it!

"I talk to him and play with him and tickle him under the chin—and I think, I'd feel slighted if the folks out at the zoo hadn't sent him to me."

So far, pictures of Leonard have not been permitted.

Trial Set For Nazi In Mass Murders

LIMBURG, Germany (AP) — A mastermind of the Nazi "mercy killing" program goes on trial here Feb. 18, accused of murdering 100,000 mental patients and Jews.

Prof. Werner Heyde, 61, former SS Elite Guard colonel, is charged with multiple counts of murder. Codefendants are two former aides, Dr. Hans Hefelmann and Friedrich Tillmann.

JFK's White House Team Remains Almost Intact

By FRANK CORMIER

WASHINGTON (AP) — The top-level White House team put together by John F. Kennedy is expected to remain on the job, relatively intact, at least through the November election.

But there has been a break, the resignation Wednesday, effective Feb. 29, of special counsel Theodore C. Sorensen. And a second break could come in a few weeks if Arthur M. Schlesinger Jr., the historian turned presidential assistant, decides to return to private life.

An intimate of the late president said that with the possible exception of Schlesinger he felt certain the Kennedy staff would continue to serve President Johnson.

Sorensen wrote Johnson that he was quitting "to devote the next several months to writing a book about the late president and my 11 years of service with him."

There was no indication that Sorensen, one of Kennedy's chief aides, had experienced any disenchantment with Johnson. And, he told a news conference Wednesday, he hoped his move "would not encourage others to follow suit."

Sorensen said "I feel that I have a book to write." And he added that if it wasn't written now, it might never be written. He said he would try to portray Kennedy both as an individual and as president.

In a sense, it seemed that Sorensen felt an obligation to write the Kennedy story as a stand-in for the slain chief executive. He said he never had planned to write a Kennedy book but that he and the late president had talked several times about the book Kennedy would have written after leaving office.

Schlesinger, historian of the Franklin D. Roosevelt administration, is expected to follow Sorensen through the White House door—although Johnson repeatedly has urged him and other Kennedy aides to remain.

The former Harvard professor has emphasized his belief that every president should be surrounded with assistants of his own choosing. And he obviously does not think that Johnson, left to his own designs, would have chosen him for the White House staff.

Board To Hear Plans Of Project

AUSTIN (AP) — The Texas Water Commission will hear Feb. 14 a Sabine River Authority request to determine the feasibility of the proposed $55 million toledo bend dam project.

The commission also will hear the authority's request for approval of the Texas Water Development Board's acquisition of $15 million in storage facilities in the reservoir.

Sponsors of the project are Sabine River Authorities of Texas and Louisiana.

The 1.5-mile long dam will create one of the largest man-made lakes in the world. It will have a storage capacity of 4.5 million acre-feet, of which 1.5 million acre-feet will be available for hydroelectric power generation and water supply.

Power from the project would be sold to electric utilities in the two states.

The commission approved construction of the dam several years ago and the project received federal approval late last year.

Phantom Car Thief Is At It Again!

SPOKANE, Wash. (AP) — Spokane's phantom car thief has struck again.

For the fourth time in three weeks he has taken the same 1959-model car from the same Spokane used car lot and abandoned it in the same spot.

Owners of the car lot have tried sabotaging the car. But the persistent thief makes repairs. They've tried watching it. He drives it away when they're not looking.

The car is located after a few minutes parked in its usual spot downtown, and as usual, the doors are carefully locked.
