

FOUR THOUSAND AT POST PARK

Santa Barbara Quivers On Anniversary Of Big Quake

COOLIDGE AGRICULTURAL BILL IS DEFEATED

G. O. P'S DESERT PRESIDENT'S PET FARM AID PLAN

21 PARTY LEADERS VOTE AGAINST THE BILL. THEY CAN QUIT WAY CLEAR FOR CONGRESS TO ADJOURN NEXT SATURDAY

BY RAYMOND CLAPPER
United News Staff Correspondent
WASHINGTON, June 29.—The Farm loan relief bill advocated by President Coolidge, was defeated in the senate today, ending for this session all prospect of vital agricultural aid.

The vote was 54 to 26. This action clears the way for adjournment of congress for the summer on Saturday.

Twenty-one republicans, many of them staunch party leaders, voted with 32 democrats and one farm-laborer against the Coolidge measure. Senators Reed, republican, Pennsylvania and his colleague, Pepper, republican, Pennsylvania, voted against the measure.

This slaughter of the administration plan was accomplished by a strange three-way assortment of transient political bed-fellows which included the democrats, the radical farm bloc group which has piqued at the rejection of the McNary-Haugen export plan, and several senators from industrial states who believe in aid for industry but not for agriculture.

Defeat of the plan endorsed a few days ago by Coolidge was forecast by the hard words which were fang at it during the afternoon's debate in the senate chamber.

Senator Fess and a few of his assistants sought to defend the plan but their fight was too feeble to stand up under the blows of the foot-loose opposition while surround the little group of defenders on all sides.

The new feature of the Fess plan providing that the \$100,000,000 to be loaned to co-operative association should be paid back through an amortization fee levied on products handled by the borrowing associations was attacked. This provision had been slipped into the bill at the last minute to meet the argument that the \$100,000,000 revolving loan fund would revolve only in one direction—out from the United States treasury never to come back.

Another French Crises Impends

PARIS, June 29.—Three important developments in the French crisis stand out prominently following the first official appearance in parliament of the tenth Briand ministry.

First, ratification of the Berenger-Mellon agreement for the settlement of the French debt to the United States is now definitely postponed. Secondly, it has been revealed that France has been forced to appeal for foreign financial aid in the same manner that she appealed to her friends for military aid during the world war. Finally, as a result of Tuesday's development, another cabinet crisis appears probable.

4 Drown Trying to Escape Heat

CHICAGO, June 28.—A record heat wave has enveloped the Central west but the weather bureau predicts it will be of short duration.

The first break came Tuesday evening when rain fell in widely separated parts of the Chicago forecast area.

Four persons were drowned in Wisconsin while cooling themselves in lakes and there were two fatal heat prostrations in Minnesota.

Sues to Make Story Stand Up

LOS ANGELES, June 29.—"Blackening insinuations" cast upon the story of abduction told by Amee Saults McPherson will be refuted in cash.

From her comfortable bench retreat the pastor announced Tuesday that several libel suits will be filed within a short time. Two suits for \$200,000 each have already been decided upon, she said, after certain unnamed printed matter concerning her case had been tested by attorneys.

Three year old Billie Orr was the only fatality of the quake. He was playing in the yard when the shock occurred. A chimney, believed weakened a year ago, fell from the Orr home, crushing out the life of the lad.

The populace was momentarily thrown into a frenzy of excitement and men and women hastened from business buildings and private homes.

No one was injured, however, and the damage was comparatively minor.

According to a survey made shortly after the quake by city officials the damage was as follows:

Wide cracks opened in the outer walls of the Carrillo hotel, Central building and Granada building.

Large plate glass windows in many stores along State street, the city's main thoroughfare, were shattered.

Windows in the telephone exchange and other taller buildings also were broken.

Chimneys on a few residences collapsed.

TECH STUDENTS TO MAKE TRIP

CARAVAN TO CARLSBAD CAVES. ERN IS PLANNED FOR JULY 4

An excursion to the Carlsbad caves near Carlsbad, New Mexico, is the plan of the officials of the Tech for celebration of the Fourth of July for tech summer students. A caravan of student laden cars will leave here at Saturday noon and drive to Roswell, where they will spend the night.

They will visit the caves Monday and come back to Lubbock Tuesday. This trip is one of the features of the summer school and will offer some very interesting sights for the students. These caves are similar to the Mammoth caves of Kentucky and have wonders from the very start.

Dr. Horn stated that he hoped a large number of the students would make the trip as it would be interesting as well as educational. Lubbock people are invited to go also and anyone wishing to go are asked to get in touch with Dean J. M. Gordon of the school of Liberal Arts.

IF HE MOVES, HE DIES

SEAFORTH, England, June 29.—If Frank Smith remains absolutely motionless, he will live, doctors say. Recently he fell and broke his neck.

LOUISIANA BLACKSNAKE, BILLED TO RID TEXAS OF RATTLESNAKES, MAKES ITS PEACE WITH FOE; FIGHT CALLED OFF

HOUSTON, June 29.—Acclaimed as "Pizen Pete" the terror from Texas, and "Lolly Pallaza" the pride of Missouri, and billed for a "fight unto death"—a giant rattlesnake with more button than Yaddish tailor, and an imported black snake, reputed to be able to entwine its tail around a sapling and stretch any adversary out of its length, Tuesday night gave several thousand spectators at a local athletic carnival a good exhibition of a high speed 1926 model "necking party."

The crowd grew still; the fighters were prodded to arouse their ire. The arena, a huge plate glass cage, which contained plenty of sand for a firm footing and the sapling, was placed in the center of the auditorium under flood lights. Newspapermen grasped pencils for jotting down points scored by the "demon fighters."

But they didn't fight.

Lolly Pallaza, dressed in skin-tight black satin tights, was dumped in and took up a position of vantage in the center of the sand arena.

Lolly was wide awake, and decided that it was no time for Pizen to catch a little "tight eye."

Lolly forthwith sallied forth to the Southeast corner. The spectators took this to mean the beginning of the battle—allowed by city officials to go on in the interest of science (promising to rid Texas of rattlesnakes if the black snake won) over the protests of the local chapter of the Humane Defense League.

But all hopes of spectators for a little mixing went a-glimmering when Pizen and Lolly nestled together, rattles tickling satin, encased ribs, and both went to sleep.

EXACTLY ONE YEAR AFTER DISASTER, CITY SHAKEN AGAIN

INTERRUPTS REJOICING OVER REBUILDING OF TOWN

LAD IS KILLED

ONLY ONE DEATH. BUT BUILDINGS ARE CRACKED

By United Press

SANTA BARBARA, Calif., June 29.—As though reminded of the disastrous \$20,000,000 earthquake a year ago today, Santa Barbara felt a distinct earth tremor at 3:22 p. m. Tuesday.

The tremor, the most severe since those of last year, interrupted the celebration of the anniversary of the shock and rejoicing over the city's reconstruction.

The populace was momentarily thrown into a frenzy of excitement and men and women hastened from business buildings and private homes.

No one was injured, however, and the damage was comparatively minor.

According to a survey made shortly after the quake by city officials the damage was as follows:

Wide cracks opened in the outer walls of the Carrillo hotel, Central building and Granada building.

Large plate glass windows in many stores along State street, the city's main thoroughfare, were shattered.

Windows in the telephone exchange and other taller buildings also were broken.

Chimneys on a few residences collapsed.

No one was injured, however, and the damage was comparatively minor.

Methodist Bishops Say World Is Going to Dogs, and Devise Ways and Means to Save It From Destruction

BY EARL J. JOHNSON
United News Staff Correspondent
CHICAGO, June 29.—The world is in a pretty bad way, according to 28 bishops of the Methodist church meeting here.

In America we have an epidemic of immorality and the rest of the world suffers because we don't set them a better Christian example. This is a composite of the opinions expressed by leaders of the Methodist group who have come from ends of the earth to attend a meeting of the denomination's world service commission.

The principal trouble in this country is that the prohibition laws are not strict enough and are not rigidly enforced, says Doctor Clarence, True Wilson, general secretary of the church's board of temperance, prohibition and public morals.

Bishops from India, China and Africa said that America must become more thoroughly Christian first, as the other countries are looking this way for guidance. "India looks to America for a Christian example," said Bishop Brenton Thoburn Badley of Bombay "but while she reads the beatitudes she hears of Christian nations fighting a world war, lynching negroes under the stars and stripes and of militarism."

This sentiment was echoed by Bishop Eben S. Johnson of Africa, and Bishop Wallace E. Brown of China, who said that Christianity would be almost stopped abroad unless America mended her ways.

Doctor Wilson, of the Temperance board, Bishop Thomas Nicholson, head of the American anti-saloon league, and Bishop William Fraser McDowell of Washington, discussed the liquor evil, blaming it for "an epidemic of immorality."

Dr. Wilson announced a seven point platform to put more teeth in prohibition. He said he based the program and the opinions of Methodist leaders whom he had met at various church and prohibition conferences. His proposal are as follows:

1. Punish the buyers of liquor as well as the sellers.

2. Prison sentences for first offenders.

3. Stricter enforcement of the pedlock portion of the Volstead law.

4. Deportation of all alien convicted of liquor law violations.

5. Civil service appointment of federal dry agents.

6. Make the states run down bootleggers instead of depending on Uncle Sam for enforcement.

7. Defeat all wet candidates for public office.

Wednesday's program of the service commission's meeting will be devoted to planning more extensive missionary work in the foreign field.

Following a long distance telephone conversation with Police Inspector John F. Mitchell of Boston, Charles Ponzi, "Financial wizard" gave indications here that he would fight extradition to Massachusetts.

Ponzi who was brought here from New Orleans where he was taken off an Italian boat bound for Italy by Houston police declared that he told Mitchell that he would return to Boston to stand trial provided Houston police were allowed to return him but if he was sent for he would fight extradition. Mitchell told the fugitive that he would send for him.

OLD CURRYCOMB RANCH BECOMES RANCH FOR BOYS

LUBBOCK SENDS 1000 TO JOIN IN PLAINS CELEBRATION

FITCH SPEAKS

URGES SUBSCRIPTION AS CRIME PREVENTION FUND

Three thousand persons were fed at the C. W. Post memorial park yesterday noon, according to C. L. Miller of Post, and at least four thousand visited the park during the day, for the dedication ceremonies of the 420-acre tract of rugged land given by the C. W. Post estate to the Boy Scouts of the South Plains.

Mrs. Phoebe K. Warner, who gave a large tract of land to the Boy Scouts at Palo Duro, declared in a short address that this was fitting that the old Currycomb ranch should have developed into a ranch for boys. She urged more training for the youth of the farms as well as the youth of the cities.

Bledsoe Talks

E. E. Eldridge of Tahoka, Scout director of the plains area was in charge of the ceremonies during the day. He opened the service early with a eulogy of C. W. Post. Senator Bledsoe followed with remarks along similar lines.

He also traced the history of the park from the time of the Spaniards through the old Currycomb ranch to the present.

J. P. Fitch, scout director for the southwestern region of the United States, spoke of the great good of scouting. Referring to the huge amounts spent annually for the punishment of crime, he suggested that South Plains people might well subscribe the \$5000 needed for the development of Post Park as a fund for the prevention of crime by proper training of boys.

Holiday Favors Give Festive Air to Party

A very delightful party was given Tuesday morning when Mrs. C. S. Middleton and Mrs. J. D. Peters entertained in Mrs. Middleton's home, 1216 14th St., complimenting Mrs. J. H. Carlock, Mrs. Peter's sister.

The rooms were charmingly decorated with garden flowers, daisies predominating, and the game of forty-two, the hostesses presented favors to the honoree and to Mrs. S. C. Arnett, who won high score.

The approaching holiday was recognized in the fire-cracker score cards, and the fire-cracker stick candy which was given as plate favors in the luncheon. At twelve o'clock a very enticing luncheon of chicken salad, wafers, potato chips, olives, lemon-mint tea, individual cakes and ice-cream was served. Uncle Sam stick-ons were in the cakes, creating a holiday effect.

The hostesses were assisted by Miss Mary Louise Middleton, Miss Mayme Wolfarth, Miss Maurine Hughes, and Mrs. James H. Kimmel.

The guests included Mesdames C. M. Ballenger, W. S. Posey, C. E. Maedgen, Fred Snyder, W. G. Murray, Add Clark, H. W. Stanton, Lloyd Davis, J. B. Maxey, James H. Kimmel, S. C. Arnett, Eastin Wolfarth, J. T. Hutchinson, F. R. Friend, W. R. Schenck, R. D. Benson, G. M. Cosby, Paul Barrier, J. F. Peterson, and Mrs. Beard, of Dallas, who is visiting her sister, Mrs. Clyde E. Elkins. Mrs. Frank Winn was a tea guest.

FIRST BAPTIST MISSIONARY PROGRAM AND SOCIAL

Monday afternoon Circle No. 1 entertained the other circles of the church with a monthly Missionary program and social. A large number of ladies and visitors were present. Mrs. J. H. Hankins had charge of the program.

The meeting opened by singing "America." Mrs. D. J. Wilhelm read the devotion following which special prayers were offered.

The subject for the afternoon being the North American Indians, Mrs. E. Studeman very ably discussed their church and religion. Miss Verna Wilson gave a very interesting reading, "A Worker in Stone."

Mrs. Pringle discussed the future influences on red men and women. Miss Mary Scott in her charming manner, read for us "The Tapestry"

Weaver. From the hand of the Sky Blue Water was sung by Mrs. Frank Barclay, and those who miss one of her songs miss a rare treat. This was indeed a beautiful number.

In conclusion Mrs. Hankins conducted a quiz in which a great many ladies took part, many being familiar with their manners, customs and religion.

A number of college girls were with us and each brought expressions of love and greetings from the school which attended the past winter.

Quite artistic was the display of Navajo blankets articles of Indian pattery.

The ladies were invited to the dining room where dainty refreshments of brick cream and angel food cake was served.

This was indeed a delightful interesting and instructive program and those who fail to attend these Missionary programs are missing a great blessing.—Reporter.

Home Economics Girls Go To Post With Instructors

Miss Margaret Weeks and Miss Johnnie McCrery will go to Post today with sixteen girls in their summer classes of domestic science at the college. The class will inspect the Post Tex Cotton Mills at Post and will enjoy a picnic lunch at Two-Draw lake and a swim in the lake before returning home.

Miss Irene McCrery who has been visiting her sister for more than two weeks will accompany them to Post and will go from there to her home in Dallas.

MRS. PAGE'S BIBLE CLASS MEETS TODAY

"The Wilderness Journey" of the children of Israel, its types and lessons for today, will be the subject for discussion by Mrs. A. L. Page before the Wednesday afternoon Bible class, to meet at 4 o'clock, in the home of Mrs. G. P. Kuykendall, at 1513 17th street. The meeting is open to all women and keen interest is manifested by those attending.

POOLE-McMILLAN WEDDING TO TAKE PLACE TONIGHT

Mrs. Frances Graham Poole and Mr. William Garrett McMillan will be married at 8:45 o'clock this evening at Mrs. Poole's home with Mrs. F. M. Bowen, Sr., 2124 16th Street.

The Legion Auxiliary Plans Picnic For July 4th

The American Legion Auxiliary met Monday evening in the Red Cross Rooms in the Court House, the regular meeting place, Mrs. Chas. Holt presiding. Many business items were discussed, two vice-presidents were elected, Mrs. Tom Carter first vice-president, Mrs. H. W. Broughton second vice-president, Mrs. H. D. Woods was appointed chairman of the executive committee and Mrs. N. L. Peters chairman of the rehabilitation committee. The Barber Shop Quartet arrived after several of the members had gone and so postponed their singing until next meeting.

The most interesting part of the evening was spent in discussing plans for a 4th of July picnic when the Auxiliary will entertain the Legion Post at Johnston's Ranch on July 5. There will be lots of regular picnic food for all and plenty of ice cream and soda pop furnished by the Auxiliary. Games and races will feature the entertainment, also there is the Ole Swimmin Hole so all who care to indulge in swimming will remember to bring their bathing suits.

Plenty of cars for everybody will be at the County Court House at 3:00 p. m. Monday afternoon and all those who have no way to get to the picnic will please call 261. K. L. Riggs office and leave names and addresses. All ex-service men with their families throughout the county are invited to take advantage of this big time with other buddies and their families.

OTYOKWA FIRE GROUP HAS SWIMMING PARTY

The Otyokwa group of Camp Fire girls enjoyed a swimming party Monday afternoon at the Tumble in pool. Misses Mary Lois Gamble and Virginia Bacon, passed the "Pollywog Test," the first test in swimming. After the plunge they went to the county park and enjoyed a picnic supper. Those present were: Mrs. Rylander, Mrs. Bivins, Mrs. Peterman; Misses Mary Lois Gamble, Alice Barr, Lucille Barr, Feta Bivins, Noreen Lewis, Virginia Bacon, Ruth Mildred Rylander, Edna Parks, Nancy Collier and Leona Gelin.

CLAUDINE SMALLEY HOSTESS AT PARTY THIS AFTERNOON

Miss Claudine Smalley will be hostess to her friends with a bridge party this afternoon at three-thirty at her home 2302 15th St.

19TH STREET MISSIONARY SOCIETY

The ladies of the Missionary Society met in the home of Rev. D. C. Ross, Monday, June 28 in their study.

Mrs. Dixon the Superintendent of Study presided.

Devotional was held and the discussion on the lesson. All enjoyed the lesson very much.

Bro. Doak, our Presiding Elder gave us an interesting talk on the work. We appreciated the presence

of Bro. Doak and wife.

After the study period refreshments were served to the following persons: Mesdames Silas Dixon, W. F. Bonds, A. L. Brooks, Lomie Shropshire, Suffer, Roy Kent, Webb and baby, R. L. Fletcher, Paul Williams, Trice, Fort, D. B. Doak and children, Ross, Diffendaffer and Rev. D. C. Ross and D. B. Doak.—Reporter.

POSEY DEMONSTRATION CLUB GIVES PARTY

The women's home demonstration club of Posey will give a party Saturday night at the Posey school house in order to raise funds to send the Posey girls to the short course in August at A. and M. College. The girls will draw lots Saturday night for the privilege of going to A. and M.

Faculty Members Are Entertained at Club

The unmarried members of the summer faculty of the Tech were very charmingly entertained by Mr. and Mrs. F. R. Friend yesterday afternoon. They were taken to the Lubbock country club where a delightful evening was spent in various entertaining features. A picnic supper was served to twelve members of the faculty including Mr. and Mrs. Friend.

PRAYER SERVICE AT CHRISTIAN CHURCH

"The Book of Titus" will be the subject for exposition by A. L. Page at the midweek meeting of the First Christian church, on Wednesday night, 8:15 o'clock. This is one of a series of systematic studies of the New Testament books and everybody is invited.

LOCAL BRIEFS

J. A. Carr, of the Adams Grader Co., was in Lubbock yesterday.

Jim Smith, a pioneer Terry county citizen, was a Lubbock visitor yesterday.

Martin D. Lewis, of Snyder, visited friends at the Tech, Sunday and Monday.

Mrs. Olive Fluke, deputy-district clerk, attended the Post Memorial Services at the Boys Camp yesterday.

A marriage license was yesterday issued to Bert Berthelsen and Miss Lola Rogers.

Mrs. E. E. Jordan returned to her home in Amarillo yesterday. She has been visiting friends here for a few days.

Should Lubbock get an airline from Dallas, and a contract for a mail line with Lubbock's mail service from that section of the state would be moved up practically 24

hours according to Postmaster John L. Vaughan. This would give the people of Lubbock every advantage offered by the present mail system.

Sled Allen, who was hit by a pitched ball in Saturday's game, was able to return to his place of business yesterday, but is not yet able to play baseball.

G. P. Kuykendall returned yesterday from Oklahoma City, where he has been attending to business of the local Chevrolet agency.

George Field, division highway engineer, is on a tour of inspection in Cottle and Motley counties.

Desk Sergeant Wiley Metcalf, of the Lubbock police force, is spending a fifteen day vacation in Brownwood and Dallas.

J. C. Whigham of Wingate, Texas, has been visiting W. H. McFarland and family at 1619 18th street here.

Wilton Winn, farm editor of the Weekly Avalanche, returned yesterday from a business trip to Muleshoe.

Neal Douglass, city editor of the Avalanche, returned to his office yesterday after being in the hospital a few days for a tonsils operation.

W. P. Florence, of Slaton was a business visitor to Lubbock yesterday, and reports everything coming along nicely in his part of the county.

Jim Mabry, pioneer citizen of the Slide community, was in Lubbock yesterday. Mr. Mabry has been a subscriber to the Avalanche for thirty years.

Hubert L. Allen, manager of the Texas Utilities Company, was among those attending the memorial ceremonies at Post Camp yesterday.

In the district clerk's office the suit records show a total of 37 suits since the closing of this term's court. Of this number 11 are suits for divorce.

After several days active work in the county in the interest of his candidacy for re-election, district clerk Louis F. Moore, spent all of yesterday in his office in the court house.

Miss Irene McCrery, of Dallas, has returned to her home after spending several weeks with her sister, Miss Johnnie McCrery.

B. D. Phillips, manager of the Southwestern Bell Telephone Company here, spent yesterday attending to business matters in Snyder and Slaton.

Mrs. F. H. Bickly of Loop, Gaines county, left yesterday after staying overnight with Lubbock friends en route home from attending the funeral of her mother, Mrs. John Welsh, of Rogers.

John Clem and Mr. Morrow of Morton spent the week end with Mr. and Mrs. Olive Clem of Lubbock. Mrs. Clem and her daughter, Miss Johlena Clem, will go to Morton to spend a few days.

Miss Beniah Dunn, will leave today for Chicago, where she will study for the summer in the Chicago Musical College. She was a teacher in the Len Morris College at Jacksonville, the past year and has been visiting her sisters, Misses Ruth and Mary Dunn, for several days.

Paris Statue of Bernhardt Unveiled

This statue of Sarah Bernhardt was unveiled recently at Place Malesherbes in Paris, France, in the presence of a number of French stage folk.

Child Labor Survey Renewed by Bureau

WASHINGTON, June 29.—Inquiry into the personal circumstances and industrial history of 3,331 boys and 2,701 girls registered for employment at labor exchanges in employment bureaus of England and Scotland has recently been completed and reports given to the Ministry of Labor Gazette (London) for May, 1926 according to a report issued by the Bureau of Labor Statistics of the Department of Labor June 26.

The group was chosen carefully so as to furnish a fair sample of working-class boys and girls, the report stated. About 28 per cent were under 15, the rest being 16 but under 18. Two per cent were still at school, 14.7 per cent had not been employed since leaving school, and the remainder had held one or more positions. Nearly 70 per cent were described as of good physique, and over 84 per cent were in good health. The older boys were said to be superior to a marked degree in health and physique than the younger.

Nearly four-fifths of the children (77.9 per cent), the report continued, had both parents. Of the remainder, both parents of 23.3 per cent of the girls were employed. In one of every five families represented, unemployment benefit was being drawn by some person other than the boys and girls concerned, and poor relief was drawn in 6 per cent of the families. The principal industries for which the unemployed boys were registered were engineering, colliery work, shipbuilding, transport, and the building trades. Of the girls who had no employment, 16.3 per cent were registered for domestic service and 15.3 per cent for the textile industries; 14 per cent had been shop assistants, and 9.4 per cent had been

in the dress trades.

In general, the report concludes, there had been no long interval between leaving school and obtaining work. A little over one-half of those who had had any employment had secured it within one month of leaving school, and about three-quarters within six months. There seemed to be a tendency to hold on to positions when they had once been obtained. Less than a third (29.5 per cent) of the situations were left for reasons within the control of the boys and girls themselves, and 70.5 per cent for reasons outside their control, of which trade depression accounted for 35.7 per cent.

Five New Homes Are Being Built

Prof. W. A. Jackson is starting a modern \$7,000 home in Ellwood Place, on a 66 foot lot just east of the new Fredhard home on Pass Road.

Dr. W. T. Head, another member of the Tech faculty, will begin the construction of a home in Ellwood Place, on a 66 foot lot just east of the new Fredhard home on Pass Road.

Edgar Inman of the Royalty Motor Co., has let contract for a modern brick home in Ellwood Place, on a 66 foot lot just east of the new Fredhard home on Pass Road.

Judge J. H. Goodman is building a \$7,000 home in the Ellwood Addition, on 19th St. corner of El Molino. It will be brick and tile and modern in every way.

Some half dozen other homes in this addition are nearing completion making in all some fifty homes that have been built in Ellwood Place during the past twelve months.

(Copyright 1925 by Pat-Art Service, Inc.)

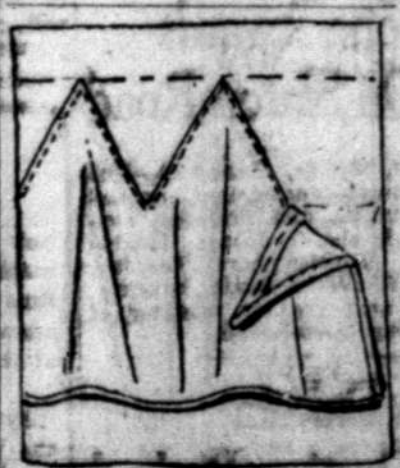

Trimming Gives Fresh Distinction

Sharing favor with embroidered flounces is the one that is painted in bright water colors. The model pictured by a straightline, a surprise-clothing dress trimmed with a circular flounce that is painted at the top. Below the painting the flounce is finished with a French fold of self-material.

One may get the same effect of the painted flounce by using one of the new bordered fabrics. The model calls for 3 1/2 yards of flat crepe 36 inches wide. The trimming appears on the long close-fitting sleeves. A vest of sheer fabric or lace may be set into the V-shaped neck and a scarf added in lieu of a collar.

The diagram shows how the flounce is applied to the skirt. First a straight line is formed so that the points will be even at the top. This

Applying Flared Flounce to Dress

line may be put in with basting threads. The edge of the flounce is each one carefully turned and tested. Then the flounce is tacked to the dress. When carefully hung that it is perfectly even the lower edge falls in soft folds, the final stitching may be done.

This design is ideal for bordered fabrics.

LIGHT AIRY FABRICS FOR COOL SUMMER GARMENTS

Hot July days just ahead—after that August with even more real summer weather—these are times when the light sheer fabrics make life more pleasant not alone because of their comfort but also because they are beautiful, a thing always to be considered. There are yards and yards of just such materials here now for your selection.

HOLD MAN FOR
GIRL'S MURDER

WALTER GAINES ARRESTED FOR
DEATH OF PRETTY
CO-ED

By United News.
SEATTLE, June 29.—Wallace C. (Bob) Gaines was arrested Tuesday charged with the murder of Sylvia Gaines, pretty 22 year old Smith College graduate.

Since the girl's body was found on the shores of Green Lake on the morning of June 17 (Gaines has steadfastly maintained his innocence).

The Gaines family originally came from Massachusetts. William Gaines brother of the accused man, is a King county commissioner. Sylvia was the daughter of Gaines' first wife, who is now married to Henry

E. Maryland, of Lynnfield, Mass.

Sheriff Matt Starwick is carefully concealing his important evidence in the case, but it is understood the decision to arrest Gaines was reached after Luke S. May, scientific criminologist reported upon his examination of Gaines' clothes and his automobile and as ashes taken from fires in the Gaines home. Meanwhile Charles Tennant, chief of detectives still declares he believed the girl was slain by a "beast man" who found her alone and killed her to satisfy his insane craving. Prosecutor Ewing D. Colvin declared that Gaines would probably be arraigned Friday.

PRESIDENT SIGNS MEASURE
FOR REPAIR OF SUBMARINE

WASHINGTON, June 29.—Repairs and alterations on the submarine S-3 were authorized when President Coolidge signed, June 24, Act S. 4482, which also authorized an increased limit to the cost of repairing Submarine Tender Number 3.

WOLFFARTH COMMUNITY PICNIC
NEXT SATURDAY TO FURNISH
FORUM FOR ALL OFFICE SEEKERS

The Wolffarth Community Club will be host to hundreds of South Plains voters and candidates for county and district offices of Lubbock and adjoining counties at a big picnic to be held Saturday, according to letters received by candidates here from W. A. Fincher, secretary-treasurer of the club, which was just recently organized.

The candidates will be permitted to "air out" any and all issues involved in their races, Mr. Fincher stated, and it is believed that with the big free barbecue and a well rounded out amusement program as attractions, a large crowd will attend.

Ball games, rodeo, amusements of all kinds in fact will be provided by the businessmen of Wolffarth working through the community club, and a good time for all who attend is assured.

MADE ONE-SPOTS
INTO TENNERS

OLD MAN COULDN'T RESIST THE
TEMPTATION, EVEN
IN JAIL

KANSAS CITY, Mo., June 29.—The fascination which Jimmy Nolan, who is 76, found in making ten dollar bills out of ones, explains why seven times he has faced judges who pointed to the penitentiary with mingled sternness and regret.

And yet Jimmy keeps coming back.

While serving sentence number 6 for the old offense, he was visited in the federal penitentiary at Fort Leavenworth Tuesday by Samuel M. Carmean, an assistant district attorney, who brought along two more indictments.

The indictments accused Jimmy of "sneaking into the lured greenbacks while in a Missouri county poor farm in 1921 and of stuffing the pockets of crippled down-and-outers with "phony" ten dollar bills.

"Now," said Carmean, "if you come down and plead guilty, maybe the judge will be lenient, considering your age and gray hair." Jimmy nodded affirmatively and in a few hours he hobbled between two guards down the corridors of the federal building and into the court room of Judge Albert L. Reeves. "What's another sentence to an old bird like me?" Jimmy inquired humorously of his guards.

Once in the court room, however, Jimmy underwent a change of heart. After the indictments had been read, Jimmy edged over and peered at the rustling papers. When the attorney asked, "Guilty or not guilty, Mr. Nolan," Jimmy replied calmly and without hesitation, "not guilty."

They took him out of the court room. Outside he hesitated. They brought him back and again read the indictments.

"Guilty or not guilty, Mr. Nolan?" asked the attorney.

"Not guilty," replied Mr. Nolan. Jimmy then bowed his head and it verily appeared that he was about to weep. The judge cleared his throat and Jimmy cocked his ears. What would the judge say?

"A year and a day," began the judge, Jimmy's eyes filled with tears and his stooped 5-1-2 feet bent nearly double.

"To run concurrently with the present sentence," finished the judge. "God bless you, judge," exclaimed Jimmy. "You'll see the day when you are rewarded for this."

The judge smiled and so did the attorney and the guards.

"More power to you, Judge," continued Jimmy as they took him back to Leavenworth to serve a year and a day more.

Movie Magnate
Suddenly Ill

SOUTHAMPTON, England, June 29.—Carl Laemmle, president of the Universal Pictures corporation, is ill with appendicitis and has been rushed to London for an operation.

Laemmle arrived from New York Tuesday on the Cunard liner Berengaria. His illness developed while he was aboard the ship. Laemmle also directed that message be wirelessly to his own surgeon in the United States asking him to board the first ship for Europe. The surgeon is expected to arrive on the Withe Star liner Majestic Friday. Laemmle hopes that he can defer the operation until then.

CIVIL WAR PENSION BILL
PASSED BY THE SENATE

WASHINGTON, June 29.—The Senate, on June 23, passed the Civil War pension bill (Senate No. 4029) providing a minimum pension of \$5 a month for all survivors of the Civil and Mexican Wars and their widows, and widows of soldiers of the War of 1812.

The Senate also passed House Resolution 10314, known as the omnibus pension bill, carrying \$223,580 for 1,064 beneficiaries, including survivors of the Civil War and Widows, divorced wives and helpless children of Federal veterans of the Civil War.

The omnibus bill is a substitute for 876 House bills with the addition of 106 Senate bills.

Reporting the Senate bill for the Pension Committee, Senator Norbeck (Rep.) South Dakota, estimated it would cost the Government an aggregate of \$33,304,032. He estimated 26,000 widows now on the pension roll were the wives of soldiers and that there are 957 Civil War widows with minor children.

The Senate bill provides that every person who served in the Civil War, Mexican or Indian Wars, and who now receives a pension of \$75 a month shall be paid \$90 a month.

all kinds in fact will be provided by the businessmen of Wolffarth working through the community club, and a good time for all who attend is assured.

Politics occupy such a prominent place in the public mind at this particular season that a gathering such as has been arranged by the Wolffarth community club will be appreciated by the voters and candidates alike, and already Lubbock candidates have started, some preparations for outbursts of oratory that will lend amusement, at least, to the program, and some of them hope to use the occasion as one for gaining additional votes.

Hereford School
Affiliation Increased

Special to The Avalanche

HEREFORD, June 29.—Hereford High School now has affiliation with the State University and other institutions of higher learning of Texas in all the twenty-six subjects that are being offered, according to announcements made recently by Supt. C. H. Dillehay. This is the first time in history that the school has had affiliation in every subject that is being taught.

Hereford High School now has a total of 26 units of affiliation. Nine and one-half units have been secured in the past three years and four or five have been given up because of changes in the course of study. Next year students will have a wide range to select from and will get full recognition in any they might choose.

The local High School during the past year secured three and one-half units of affiliation in the following subjects: English, one; Vocational Agriculture, one and one-half units; Commercial Law, one-half; and Commercial Geography, one-half. Plans are being made to add typewriting and Short Hand to the commercial department, which will give the High School a well balanced program.

PIERCE PETROLEUM CO.
ENTERS SEAGRAVES

SEAGRAVES, June 29.—E. C. Roberts, local agent of the Pierce Petroleum Corporation, is opening up a new filling station near the Santa Fe depot, formerly known as the New Filling Station. Two pumps will be installed for the handling of Pierce products.

American radio outfits are to be introduced into Rumania.

Spanish Grain Crop
Expected to Fall
Below 1925 Level

By United News

WASHINGTON D. C., June 29.—Spain, Tunis and Algeria will have smaller grain crops this year than last, according to estimates reported by the United States Department of Agriculture. But while wheat production will be less than in 1925 in Spain it will be more than 1924 and ample for domestic uses.

The full text of the department statement follows:
Spanish wheat production is placed at 157,335,000 bushels from an area of 10,687,000 acres, according to a cable just received by the United States Department of Agriculture. This is a decrease of 5,257,000 bushels from the final estimate of 162,592,000 bushels from an area of 10,687,000 acres last year, but an increase of 35,557,000 bushels over the 121,778,000 bushels from 10,379,000 acres the year before.

Production this year should give an ample supply for domestic uses which for the period 1921 to 1924 averaged about 140,000,000 bushels.

Decline in Rye Production
Rye production is estimated at 27,080,000 bushels from 1,858,000 acres compared with 29,880,000 from 1,846,000 acres in 1925, and 26,281,000 and 1,820,000 acres in 1924. Barley is forecast at 95,027,000 bushels from an area of 4,366,000 acres compared with 98,925,000 bushels from 4,414,000 acres last year and 83,700,000 bushels from 4,344,000 acres the year before. Oats is given as 43,679,000 bushels from an area of 1,804,000 acres compared with 43,443,000 bushels from 1,798,000 acres in 1925 and 30,170,000 bushels from 1,635,000 acres in 1924.

Wheat production in Tunis is placed at 11,023,000 bushels in comparison with 11,758,000 in 1925 and 5,181,000 the year before; barley, 5,271,000 bushels, compared with 6,880,000 last year and 2,526,000 in 1924; oats, 2,342,000 bushels compared with 2,756,000 in 1925 and 1,585,000 in 1924.

London, Ontario, Canada, is to have a million dollar hotel.

JOHN BARLEYCORN
CHEATS CUPID

MARRIAGES WOULD HAVE
GAINED, BUT TWO "GROOMS"
WERE DRUNK

Although June of this year developed one more bride than June of last year in Lubbock County, Cupid lost in the total for the month. Because while eleven divorce suits were filed last month in the district court, in June, 1925 only nine divorces were applied for. Thirty two marriage licenses were issued in June 1926, thirty one in June 1925.

The license total might have been swelled by two if it hadn't been for Deputy Sheriff Vernice Ford. Last Saturday, according to a deputy county clerk, two couples came in and applied for marriage licenses. But before the clerk could issue them, Deputy Ford arrived and put the two young men in the housego on a charge of being drunk.

Clothing Classes
to Visit Mills

The students of the clothing classes of the school of home economics of the Tech will go to Post today where they will spend the day. They will inspect the Post-Tex Cotton Mills and enjoy a picnic this afternoon. Sixteen girls are planning to make the trip, leaving the college at 8:00 o'clock this morning. They will return late this afternoon.

WILLIAM J. BARRY NAMED
MEMBER OF HELIUM BOARD

By United News.
WASHINGTON, June 29.—The Secretary of War has informed the Navy Department that William J. Barry, now on duty in the office of the Chief of Air Service, has been designated as working member of the Helium Board, vice George E. Erlandson, who has resigned.

Harry Sullbach, 11, rescued from drowning Joe Machatta, who weighs over 200 pounds, at Fort Jervis, N. Y.

Building Activities
In Hereford Now
Showing Good

HEREFORD, June 29.—Building activities in Hereford are on the upward trend. Last week M. M. Beavers and sons, Lamar and Hall, made a contract for the J. D. Burkett property, which is 150x300 feet and lies just east of the Brumley-Chvrolet Garage. Plans are being made for the erection of a modern garage on the property in the near future to house the Beavers Bros. Garage, and edge Agency. The property is on East Third street, which will be paved this summer, and is just south east of the Deaf Smith county court house.

Work is being rushed on the foundation of the new International Harvester Company's brick building opposite the court house on the west. The Buckner-Lambert, two-story brick building next to the Star Theatre is rapidly nearing completion. J. E. Beyer, Santa Fe agent, has just completed a modern home in east Hereford. Ray Conway of Black has let a contract for a new residence on East Third. A crew of men are at work laying the curbing and gutter, and foundations for the concrete from Main to 26-Mile avenue. Forty block will be paved in Hereford's business and residence sections immediately.

Dr. Clark Made
Lieut. Colonel

Dr. V. V. Clark, who was the youngest major in the medical corps in Texas when he was appointed chief surgeon of the 358th Infantry four years ago, has just passed his examinations for appointment as a lieutenant colonel in the 315th medical regiment and will be among the youngest lieutenant colonels in the medical reserve corps. Colonel Clark will go to Fort Sam Houston July 1 to act as instructor in the medical officers training camp there. He will also take post-graduate work at the base hospital at Fort Sam Houston.

THE TAX SITUATION

The Federal government reports a curious condition: the more taxes are reduced the higher the tax rate returns soar and the faster the surplus mounts. Despite the recent slash, income tax collections for the June 15 installment amount to more than \$2,000,000 above last June, with indications that the total will be well over the collection of \$377,000,000 received at this quarterly payment a year ago. It would certainly be unwise, however, to immediately advocate a further reduction and President Coolidge is indeed wise in warning the public of that fact. Further reduction at this time would be killing the goose that lays the golden egg. Let the present rate stand long enough for there to be a re-adjustment of economic conditions. In order to assist in this process and thus pave the way for further tax reductions it will be necessary to follow the President's warning further as he urges still more economy in public expenditures and the elimination of waste. The reduced expenses effected so far have not been at the expense of public welfare and there is no doubt a margin that may still be whittled down without cramping things too much. This warning should be posted on every municipal bulletin board for all over the country town, city and state governments are going far beyond reasonable limits in municipal expenditure, simply because the reduction in the national tax apparently keeps the total tax from mounting. Let the local governments beware, however. Many cities are up to and beyond their bonding limits. Some day there will be a reckoning with the taxpayers and when that day comes there will be a closer checkup than most of the municipal fathers today realize. The voting and taxpaying public is becoming educated—wise to these tactics. They will not sit supinely by and allow waste and extravagance to go much longer unchecked.

WHO WERE THE BIG MEN?

Consciously or unconsciously every man is in conflict with oblivion. We all want to be remembered after we have passed from the stage of human affairs. One of the supreme questions of life is what to do to be sure we will not be forgotten. Is there any short cut to immortality? Who was the richest man in the world on the day that Martin Luther nailed his nine-fifteen theses to the cathedral door? No one knows! Yet there were thousands of men who were struggling desperately to accumulate money with which to build monuments on which to carve their names in letters that would not fade. But they are all forgotten. We do not even know their names. But the little Wittenberg monk still lives. Who was the greatest politician in the world when William Herschel was peering through his little homemade telescope and discovering new worlds? No one knows. At least his name is forgotten, but the musician who made astronomy his hobby has survived the ages and will be remembered as long as men undertake to chart the heavens. Who lived in the biggest house in Amsterdam when Spinoza, the poor lens grinder was working at his bench and teaching a few fascinated pupils? No one knows. Yet some man in Spinoza's day walked the streets of the city and the people called him great because he lived in a big house. But the big man and the big house are both forgotten while the name of the little lens grinder will live as long as men ask the great question of life and philosophy. The only reason Herod is remembered is because he threw John, the Baptist, in prison. Pilate was rescued from oblivion because he delivered Jesus of Nazareth over to the mob to be crucified. Galileo was a poor and humble investigator without money or friends at court. But he had an idea. Copernicus, Newton, Columbus, Watts, Fulton, Arkwright—all these were poor men who became great before they became rich. Evidently immortality is not to be gained by bribes. It is won by brains, or secured by service.

"KEEP THAT SCHOOLGIRL COMPLEXION"

As if youth only is beautiful. There are beauties in old age that youth can never hope to have. The charm of youth is in youthfulness and the strength of old age is in maturity and judgment. Let neither be envious of the other. Youth in its vivacity and enthusiasm is no more beautiful than old age in its peace and serenity. A perfect complexion is no more winsome than a face that is wrinkled with the records of many smiles. Youth's eye of fire and fun is no more joyful than the merry twinkle of understanding and good humor that comes with the accumulation of the years. The face that comes up out of the sunrise is no more fascinating than the features that are lighted up by the golden rays of the dying sun as it sinks into its bed of gold and crimson. Youth that tries to ape old age is pathetic. Grandfolk who try to imitate children are ridiculous. Old age speaks with the voice of experience. Youth sings with the voice of hope and hope, carried into experience, is the

mother of progress. Hope without experience, or experience without hope, would be deadly. An honorable retrospect is as thrilling as a glorious prospect. Old age has lost the bloom but it has borne fruit. God never intended that the cherry trees should remain always in bloom, else there would be no fruit. And who can say that the pink blossom is more beautiful than the luscious red-ripe fruit? Let maturity and old age, therefore, rejoice in the beauty that is theirs and seek not to emulate and imitate their juniors. Let the years with their refining sorrows, work out for us "the more excellent glory."

RADICALISM AND TAGS

Glenn Frank says "America is developing a sort of secular religion. Its God is organization and its creed is conformity. To be right is to be regular—in politics, in religion, in all the major adventures of the crowd. We give our confidence and our vote to the man who has been roped and branded and assigned to one of the well-known ranches, one of the regular parties, denominations or classes." The man who thinks for himself must not express that thought under penalty of being labeled "radical." Humanity is even readier than it was 1900 years ago to crucify, at least by ostracism and neglect, any leadership that appears with no authority save sheer authority of its own sincerity and vision. Such a man is usually designated as a "radical." "Tolerably early in life," said the great Huxley, "I discovered that one of the unpardonable sins, in the eyes of most people, is for a man to presume to go about unlabeled. The world regards such a person as the police do an unmuzzled dog, not under proper control." A people cannot be great until it breaks this tyranny of tags. Yet there is a value in tags; life moves on more smoothly when the majority of men are labeled; it is not tags, but the tyranny of tags, that needs to be removed.

WHITHER ARE WE DRIFTING?

Writing on the subject of marriage, Samuel Hopkins Adams, author of "The Clarion" and several other books, asserts that

"The nineteenth century was an easy, logical, jargon-free progress. Toward the end of the pace accelerated and got pretty lively in the opening years of the twentieth. Now we are in a race in which we are sloughing off a lot of burdensome impedimenta in order to go the faster. Systems go into the discard where before only methods were supplanted. Whether marriage will be among the lot is one of the vital questions."

"Changes have ceased to be convulsions or even heresy. Only a short time ago as history goes it was treason to change nationality, hell fire to change religion and bad form to change wives. Now we manage these things perhaps not better, but more smoothly."

"If we—that is to say, if women—determined to alter the whole scheme and basis of matrimony between now and the twenty-first century, they will, at least, be able to try it without fear of jail or damnation or of ostracism."

"Whether we like it or not, the two sexes are rapidly reaching a common basis of existence, with common standards, though the change is all on one side. Our young men are not becoming more like young women, but our girls are certainly becoming more like young men in adventurousness, in impatience of sex restrictions, in demands for rights and privileges."

"All this has come to pass during the last 25 years. What the next 25 years may develop is not difficult to forecast—But 50 years hence is a problem we hesitate to consider because it reaches beyond our present power of comprehension."

NEW COLORS HANG ON CLOTHES LINES

Along with everything else which has kept abreast of the march of progress, the old clothes line in the back yard has kept pace with modern thought. The clothes line of today presents quite a different picture from what it did thirty or forty years ago. This fact can be testified to in undisputable terms by those who lived back in those days.

Back yonder in the good old days, the clothes line was a piece of wire, or rope, oftentimes picked up here and there or possibly purchased from the local hardware store. It occupied a prominent portion of the back yard, being stretched from the fence to a tree or from the corner of the woodhouse to some other convenient anchorage. Now-a-days you will find a new fangled arrangement which does the work of the ancient contrivance. However, there are still a few of the old style lines in use. While their owners cling to the old method, the adornments have changed notwithstanding vigorous protests from time to time.

Back yonder when grandma and grandpa were kids the clothes line carried each week a wonderful array of garments. While there were other colors, of course, red seemed to be the dominant color, especially during the winter months. These red garments were both for the men and women members of the household, and they were invariably of flannel. It was considered next to suicide to go a winter through without a plentiful supply of these garments, and for the men and boys they were of generous length, oftentimes extending down below the shoe tops and being carefully stuffed into the hose. Grandpop can tell the youngsters about the curious looking knots and bumps which stood out along his leg from the knee down.

Then there came a change. Winter garments began to be made of lighter material, and gradually they have been abbreviated, until now none of these undergarments extend below the knee. And too there has been a wonderful change wrought in the matter of color. There is no more of the red to be seen. But to the contrary the picture the present clothes line is one which presents a lovely combination of the most pleasing pastel shades. These are the garments which present day style dictates, but had they been offered to your grandmother forty or fifty years ago, she would have considered herself disgraced for life had she dared to don them.

Our Pet Peere

This and That

Angry Policeman—"I'm going to give you a ticket for speeding. What is your name?"
 Guilty One—"Jones."
 "How do you spell it?"

A new pest has attacked the potato vines. It is called Eucelopsis Hyperthema Cullinack. But not very often.

Precautions
 Business man calling employment agency—"I want a stenographer with red hair. Must have red hair."
 "We are sorry but we have every other color."
 "It must be red—just like my wife's."

Reflections by Fanne
 A little lamp beside me
 Casts a light around its space
 A little star in blackest night
 Looks down from its high place
 And who am I that I should think
 My fame should travel far;
 Am I more useful than the lamp;
 Am I greater than a star?

Divorces are growing daily in Los Angeles. Why not put in slot machines outside the court house for those who can't get away from work often.

That's Different
 Boss—"My boy I never promote anyone who lies. I warn you now you'll never be president here unless you are truthful!"
 "I don't want to be president—I want to be a salesman!"

So Think We

We think when newspapers sell out their editorial policy, it is one of the most cheapening things to their publication that could happen, and we know of plenty of them who have sold out in Texas this year.

We think if this thing of evolution goes much further skirts may become mere belts. They seem to continue to go in that direction.

We think it must be a very tiresome task for some of the flappers to put a new face on every day. We know it certainly gets old to us to have to shave every morning.

It is reported that there are more idle people in Los Angeles than possibly any other city in the world. We imagine one reason is that there are more people there who do not want to work.

We think from what we can see, hear and read that there must be some campaign lies going around over Texas.

We think that some people are citizens of Lubbock while others just live here.

We think that a fellow that is too lazy to keep his home yard cleaned up is too sorry to be a real good citizen.

We think it takes a lot of real interest to make a real home.

We think like nearly everything else the more a citizen puts into his home town the more he gets out of it.

We think there is no business that does not make an effort to please their customers ever succeeds much.

We think about all that some men get out of life is to want a lot of things they cannot get and get a lot of things they do not want and disagree with their wife.

We think a lot of people would be disappointed even though we really measured up to what we considered ideal.

We think some of the people are not up on national affairs just as well as they might be. A Lubbock lady recently phoned to this office and wanted to know if the tax payers of this county had to pay all the bills that congress passed. If they do, she continued, there is no wonder that we have high taxes.

We think the fellow who said that the laborer was worthy of his hire, might have been right, but sometimes the labor is not.

We think there is great need for several tons of weeds to be cut and burned in Lubbock, if we are to lay any claims by being a neat clean city.

We think there will be more people come to Lubbock this fall to take advantage of the public schools and the Tech col-

lege, than there possibly ever have been before. There will be no vacant house by the time school opens, and we doubt very much if there will be enough to supply the demand.

We think that the city of Lubbock should build that additional fire station, if it means as much to the property tax payers as it is claimed that it does. We understand just from the fact that we have only the one station and it is so far from many of the risks in the city, the rate is much higher and costs many thousands of dollars every year in additional premiums.

It Is Reported

It is reported that one of Lubbock's good citizens received a basket of peaches and one of plums a few days ago on the afternoon train, put him in his automobile and started home with them. He parked his car on one of the prominent streets of the city and was gone about five minutes, but when he returned the half bushel basket of plums were gone. Some good lady of Lubbock no doubt received a real treat from her husband or some sweetheart re-plums a day or so ago, and some neighbors evidently enjoyed a treat from the hand of a generous neighbor. The owner of the fruit would like to know if it was a good variety as he wants to tell the people that were kind enough to send it that it was everything that one could expect of plums of the high grade these were supposed to be.

It is reported that a large number of the boy scouts attended the barbecue at the Post Memorial park yesterday, and enjoyed their new home immensely. We imagine that if Mr. Post could only realize the great joy that this park will bring to the hearts of thousands of boys in the years to come that he would rejoice in the gift that his heirs saw fit to bestow upon the rising generation.

It is reported now that one of the leading pessimists of this city has put forth the information that it might possibly not rain anymore this summer.

It is reported that Sunday-schools of Lubbock are afflicted with "summerslumps," but it is thought that it will not prove fatal, and that all of them will pull through with attendance enough to make a good start into the fall months. Go to church and Sunday-school. It may be a blessing to you and yours.

It is reported that some people from the southern part of the state came through Lubbock Sunday, and were so delighted with the nice cool nights in this part of the state that they decided they did not need to go on to Colorado, and will spend several weeks in this section. The county park is very favorably impressing many visitors.

WORLD TOPICS

THE SHOE ARRIVES

The time when a shoe was just a shoe, but it has become more recently a distinct work of art. An Italian bootmaker, by the name of Perugia, is credited with being the first to teach the glorification of footwear, descending upon Paris a few years ago to teach Parisians how important an adjunct to dress the shoe could be made. But even Perugia never aspired to the glorified shoe of today, which is the product of the genius of a very American girl, Mary Bandelari, of Joplin, Missouri.

Few can fail to appreciate the additional charm that artistic shoes have lent to costuming. Also their influence upon the shoe industry has had the effect of enhancing the value of a very important product. Above all, however, we should be grateful to the clever American girl for her contribution to beauty and additional no of color, grace and charm.

LARGEST MADE LAKE

Covering an area of 40,000 acres, with a shore line more than 700 miles long, the largest artificial lake in the world is now being filled with water, of which 530 billion gallons will be impounded.

This great reservoir is located at Cherokee Bluffs on the Tallapoosa river in Alabama, where a great dam, 150 feet high and containing 300,000 cubic yards of concrete, has been built in connection with one of the projects of the Alabama Power Company.

The power plant will be placed in commission soon, with an initial capacity of 135,000 horsepower, to be ultimately increased to 180,000 horsepower.

Although the power to be derived from this huge dam is the primary object of its construction, other benefits will accrue to the public also. It is said by agricultural experts that the creation of this vast body of water will tend to make a large section of the adjacent country frostproof, and consequently favorable for fruit raising. By regulating the flow of the river it will be a great aid to navigation; the lake will afford locations for many pleasure resorts, and when stocked with fish will add to the food supply, as well as affording an attraction for sportsmen.

Such mighty works as this are of the highest type of conservation enterprises, harnessing hitherto wasted power for the use of man and developing from former unused resources many agencies for

his comfort and well being.

OLDEST LIVING THING

There stands in Sequoia National Park in California the oldest living thing in the world, the General Sherman tree, more than 5,000 years old. It is the largest of those redwood trees for which California is famous, and is surrounded by many others of almost equal size and age.

The General Sherman tree is 280 feet high and 36 1/2 feet in diameter at its base. The William McKinley tree is taller, being 320 feet in height, but only 28 feet in diameter. The Abraham Lincoln tree is 270 feet high and 31 feet in diameter.

Some of these trees were already forest giants, ten centuries old, before Abraham fared forth from his native Ur of the Chaldees to found the Hebrew nation. They had withstood the storms of thirty centuries before the birth of Christ. Yet they still stand in sublime majesty, living growing things, and will live and grow for many centuries to come.

Survivors from the dawn of civilization, awe-inspiring in their stately grandeur, they seem to hold within their massive trunks the mysterious secrets of antiquity.

If one would gain a better realization of how brief is the span of human life, let him consider the General Sherman tree, and contemplate that two hundred generations of men have appeared and passed from earth's stage since the soil was broken by its first tiny shoot.

Civic classes for boys and for girls in Parker High School, Dayton, Ohio, are organized at city, state, and national is miniature. No textbook is used, but by personal visits pupils become acquainted with the governmental activities of their own city; and histories, current events magazines, the Congressional Record; and other publications are kept on file for constant use of pupils.

Vacation colonies for special care of undernourished children or those needing out-of-door life are maintained each year from December to March in the parks of Buenos Aires, Argentina. In these colonies games and exercises, and breakfast and lunch out of doors, under supervision of teachers, are provided for a period of a month for three different groups of children. On the opening day about 1,000 children presented themselves for enrollment.

Why is it that when the sun runs fastest and the sun shines brightest, young A. B. is hidden to turn his face to a desk, a chair and a filing cabinet?

JUST FOLKS

By EDGAR A. GUEST

ATTEMPTED MURDER

It seems to me I must police my place
 To save my grounds from bloodshed
 and disgrace;
 I never dreamed that such a scene
 could start.
 That even birds have murder in their heart,
 And last evening came the sounds of strife—
 I hurried out in time to save a life.

'Twas gathering dusk. The cries I plainly heard!
 Thought I, some cat has pounced upon a bird.
 And out I went to rescue if I could.
 The martins on their porches frightened stood—
 And screamed for help. The wrens were twittering near.
 The very air was charged with bitter fear.

And then nearby a cruel sight I saw,
 A vicious, bold defiance of all law,
 A murder taking place upon my grounds!
 My lovely peace disturbed by angry

sounds.
 A fledgling martin, still too weak to fly,
 Assaulted by a sparrow passing by!
 Never such hatred have I seen in man.
 The sparrow pecked, as only sparrows can.
 The baby martin struggled, but in vain,
 His bitter foeman struck and struck again.
 I threw my hat and stopped the cruel strife
 Just in the nick of time to save a life.

I picked the martin up and sadly
 His little head pecked open, red and raw.
 And then thought I, oh woe are cultured words!
 Despite all preaching birds will still be birds.
 Though wide the world, the sparrow would not give
 A baby martin room enough to live.

HUBBERS DEFEAT POST DELEGATION 6 TO 1

**POST HIT RATLIFF FOR TEN BINGLES
SCATTERED WELL THROUGH NINE
FRAMES; QUATT GETS A HOMER**

Special to The Avalanche

POST, June 29.—Before 1000 fans of the great American game, who attended the dedicatory services of the C. W. Post Memorial for the Boy Scouts of America, the Lubbock Hubbers defeated the Post nine here this afternoon with a score of 6 to 1. It was one of the fastest games played this year on the local diamond. The funds that were taken in at the gate were donated to the Boy Scout fund by the Post and Lubbock base ball clubs.

Although the locals gathered ten hits from the lanky moundman of the Hubber nine, they were exceedingly well scattered with the exception of one inning, which was the seventh. The locals were only able to hit "Skeet" for one hit an inning, but in the seventh they got to him for two hits which scored the Post's lone score for the afternoon.

For the first time since Lubbock and Post have been meeting one another in the great American sport the presence of Sipper Allen was missed. The Hubber line-up was considerably changed up with the illness of Sheppard and without Sled Allen's presence. Jackson was hit to the infield in Sheppard's position. Connolly shifted to left field, Hamilton catching, and Hudspeith playing right field.

This afternoon Don Anderson, Hubber outfielder, chalked up his first error for the season when he over ran Sloan's fly ball to center field.

Gaither rapped out three for five this afternoon, two of which were for doubles.

In the first inning Quattlebaum drove a high fly to right field which hit the ground and bounced over the fence for a homer. Anderson was on the base at the time the blow came.

Play by play:
First Inning
Lubbock—Jackson grounded out; Floyd to Gibson; Gaither doubled to centerfield scoring Gaither; Connolly grounded out; Floyd to Gibson; Anderson took third base; Quattlebaum high a high long fly to right field which bounded over for a homer and scored both men; Hudspeith was called out on strikes. Three runs, three hits, no errors.

Post—Foster flew out to Connolly; Cherry singled to left field; Gibson grounded to Lassiter who fumbled the catch and Cherry took second; Stevens struck out; Floyd flew out to Connolly. No runs, one hit, one error.

Second Inning
Lubbock—Lassiter drew a walk; Hamilton advanced Lassiter to second base on a sacrifice bunt and was out to Gibson; Ratliff struck out; Jackson popped out to Hudspeith. No runs, no hits, no errors.

Post—Robinson struck out; Sloan singled to right field; Hudspeith hit into a double play, Lassiter to Jackson to Quattlebaum. No runs, no hits, no errors.

Third Inning
Lubbock—Gaither flew out to Foster; Anderson laid one down to Sloan, who threw the ball wide to Gibson; Connolly struck out; Anderson took second on a passed ball; Quattlebaum drew a walk; Hudspeith popped out to Sloan. No runs, no hits, no errors.

Post—Vick struck out; Foster singled, hitting a hot liner to Jackson; Foster stole second; Cherry struck out; Stevens flew out to Quattlebaum. No runs, one hit, no errors.

Fourth Inning
Lubbock—Lassiter grounded out; Sloan to Gibson; Hamilton singled to left field; Hamilton stole second; Ratliff struck out; Jackson grounded out; Floyd to Gibson. No runs, one hit, no errors.

Post—Gibson was called out on strikes; Floyd doubled to left field; Robinson grounded out; Lassiter to Quattlebaum. No runs, one hit, no error.

Fifth Inning
Lubbock—Gaither singled to center field; Anderson was safe on fielder's choice and Gaither went out; Floyd to Stevens; Connolly singled to right field; Anderson grounded out; Quattlebaum singled to right field advancing Connolly to third; Quattlebaum was caught out at third; Hudspeith and Sloan; Hudspeith flew out to Foster. Two runs, three hits, error.

Post—Hudspeith singled to center field; Vick struck out; Foster flew out to Anderson; Cherry was called out on strikes. No runs, one hit, no errors.

Sixth Inning
Lubbock—Jackson struck out; Gaither grounded out; Stevens to Gibson; Anderson popped out to Gibson. No runs, no hits, no errors.

Post—Sloan hit one to center field and Anderson over ran the fly ball taking second base; Sloan took third base on a passed ball; Hudspeith flew out to Gaither; Vick singled to left field and scored Sloan. Foster singled to second base; Cherry flew out to center field; Stevens flew out to center field. One run, two hits, one error.

Seventh Inning
Lubbock—Connolly flew out to Stevens; Quattlebaum grounded out; Floyd to Gibson; Hudspeith singled to left field; Lassiter grounded to Sloan who threw Hudspeith to Quattlebaum; Robinson struck out. No runs, one hit, no error.

Post—Hamilton grounded out; Sloan to Quattlebaum; Ratliff doubled to left field; Jackson grounded out; Floyd to Gibson; Gaither rapped to right field scoring Ratliff; Anderson drew a walk; Connolly flew out to Stevens. One run, two hits, no errors.

Post—Sloan struck out; Hudspeith

grounded out; Lassiter to Quattlebaum, who made a wonderful catch; Vick singled to center field; Foster grounded out to Quattlebaum. No runs, one hit, no errors.

Molla Mallory Has Come Back

WIMBLEDON, June 29.—American spectators at Wimbledon are getting a thrill from the rush of Molla Mallory to the top flight of the women's singles.

Many now believe that the former American women's tennis champion will win through and win the all-England title. Mrs. Mallory has won her way into the semi-finals, defeating the hard hitting Katarina Bonman of Holland on Tuesday 3-6, 7-5, 6-3.

With Suzanne Lenglen out, Mrs. Mallory has to dispose of Senorita D'Alvarez of Spain and either Miss "Dill" Vlasto of France or Mrs. L. A. Godfree of England to capture the women's singles championship. If the former Kitty McKane should turn the tables upon the diminutive French woman and Mrs. Mallory should defeat her Spanish opponent in the semi-final round, there would be an Anglo-Saxon final where the best that had been hoped for was a French victory.

Elizabeth Ryan and Mary K. Browne also advanced Tuesday in the women's doubles, defeating Mrs. Vincent Chambers and Miss E. H. Harvey, 6-6, 6-2, 7-5.

Vincent Richards and Howard Kinsey reached the semi-final round in the men's doubles as did Jackone Bragdon and Henri Cochet, the French pair.

Molla Mallory, paired with D. M. Craig, was eliminated from the mixed doubles by Mrs. Lambert Chambers and J. D. P. Wheatley.

Wholesalers Beat Tonsorial Team

The Wholesalers, boosted their percentage yesterday by beating the Barbers 12 to 9. The fruitmen got a heavy lead in the opening frame running in 5 tallies which the Barbers were unable to overcome. In the second inning the Barbers started a rally with two men out, and scored four runs off five straight hits. Bond for the Wholesalers made a pretty running catch in the fourth of Miller's long hit to center.

New Coach For Thorp Springs

THORP SPRINGS, June 29.—Bobbie Yantis, Granberry, Texas, closed a contract today with the Thorp Springs college, as athletic director and band director for the coming season. Mr. Yantis comes to the college with a varied experience in all forms of athletics and has had years of experience in band work. Mr. Yantis served during the world war in both these departments. The Thorp Springs Christian college is planning for the largest enrollment in the history of the school. Mr. Yantis will assume his duties at once.

TILDEN TO DEFEND CLAY COURT TITLE

DETROIT, June 29.—Plans for the national clay court tennis tournament, which opens here Sunday were virtually complete Tuesday with announcement that William T. Tilden, present champion, would be here to defend his title.

Little Florence Bright of Chicago recently visited Des Moines, where she has four great-grandmothers living.

WACO-FORT WORTH GAMES BURNED OUT

WACO, Texas, June 29.—President C. R. Turner of the Waco baseball club announced Tuesday that the game between the Waco Cubs and the Fort Worth Panthers, scheduled for Tuesday afternoon had been postponed due to failure to get repairs completed on the Katy park grandstand. The grandstand was partially destroyed by fire Monday night. The game with Wichita Falls Wednesday will be played, Turner announced.

LATZO'S KO'S HARMON

By United News.
DREAMLAND PARK, NEW-ARK, N. Y., June 29.—It was "Dreamland" for Will C. Harmon Tuesday night, when the New York Italian tried to wrest Pete Latzo's newly acquired title from the welter weight king.

A right hand smash to the jaw in the fifth round, after a terrific body bombardment, knocked out Harmon for the first time in that ambitious veteran's career.

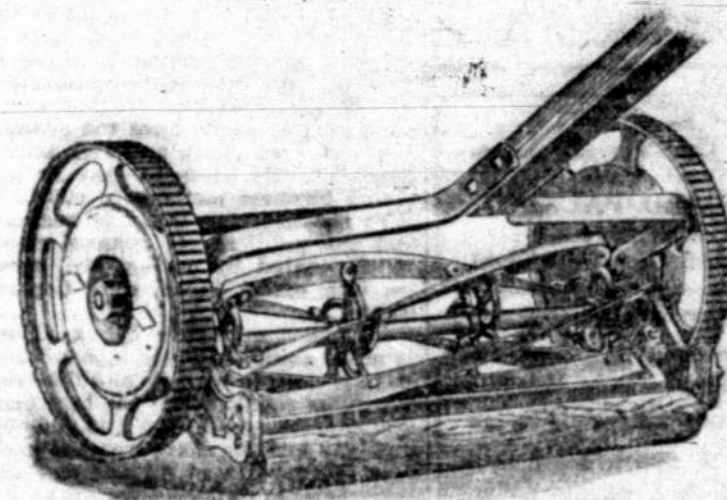

WANT DEMPSEY TO MEET WINNER OF BOUT

NEW YORK, June 29.—Suggestion that Jack Dempsey meet the winner of the Jack Delaney-Paul Berlenbach fight, which will be held at Elmhurst field July 15, was made before the state athletic commission by Humbert Fugazy, promoter, Tuesday.

Kowloon, China, is to have a seven-story apartment house with an elevator, the apartments to be in three room suites.

Sad Rites For Baggage Smashers

The Rix-Baker nine defeated the Railroad-Express 16 to 8 in a very loose contest at Fair park yesterday afternoon. The Rix-Baker rounded the apple to every corner and played fair ball when in the field. Home runs featured, Riter, Miller, Morgan and Shelton hitting them. Several three base blows came also.

"BOSSSES" NERVOUS SAYS DAVIDSON

"OIL TINGED NEWSPAPERS GET BARRAGE ORDER," HE DECLARES

BROWNWOOD, Texas, June 29.—Lynch Davidson agreeably surprised his audience of several hundred Brown county citizens here this afternoon by devoting the better part of an hour to a discussion of administrative needs and an explanation of his plans to give Texas efficient government.

Davidson touched only once on what he termed "the fight being made upon me by the Standard Oil crowd and the whiskey politicians." He declared, "The bosses are getting nervous and have ordered oil tinged newspapers to redouble their barrage of abuse against me. They have cause to be apprehensive. Everyone sees sentiment is crystallizing in my favor. These vicious newspaper attacks are doing more to bring about my election than anything I could do

or say.
"The voters are taking plenty of time to size up the candidates. Most of them are bent on getting rid of Fergusonism and they have concluded Dan Moody isn't big enough for the job."

Davidson said that Texas needs a governor capable of restoring the good name and credit of this state in the eyes of the rest of the world. Capital is looking toward Texas as a favorable field for investment he said, and we must encourage legitimate business enterprises.

"Every man of vision in this state is looking forward to an era of unprecedented industrial and commercial development," Davidson said. "We must broadcast the news that Texas is ready to safeguard capital and invites honest exploitation of our vast resources. Capital in any quantity is welcome here but monopoly will not be tolerated. Now is the time to spread the fame of our state for good business and good government."

Davidson advocated a central prison plant that would be self-supporting. He declared able-bodied prisoners could be put to work on the roads and we would soon have a highway system second to none in America. He favored reorganization of the school system so that every boy and girl would have the advantage of a free grade and high school education. He declared that by applying business methods to state affairs the tax rate could be reduced and the political pie counter could be eliminated by putting civil service into effect in all state departments.

Davidson said that it takes just as much ability to spend money wisely as it does to earn it, and that the taxpayers should select the best man available to handle the \$60,000,000 they pay into the State treasury each year. He advocated an auditing department that would have authority to audit the receipts and expenditures of every department of the state.

AMERICANS LOSE 10 AT GENEVA MEET

DELEGATES DEFEATED AT EVERY TURN ON DISARMING PROGRAM

By United News.

GENEVA, June 29.—The American delegation on the league of Nations sub-commissions considering various phases of disarmament stand defeated at every turn on their proposals looking to reduction of the chances of war.

The military sub-commission, following the lead of the naval sub-commission in its opposition to American proposals, has vetoed the motion made by the Americans Tuesday, and calling for inclusion of trained reserves in the basis of comparison of military armaments. Upon the failure of the latest American suggestion General Nolan of the American group gave a lengthy statement to the commission in which he pointed out reasons for the American proposal as to trained reserves.

To date, four important American suggestions have been rejected by the league's sub-commissions, the line up of nations usually showing Great Britain and Japan with the Americans, and France and Italy heading the list of opponents.

The two first defeats for the American delegation came in the naval sub-commission. First, the commission refused to consider naval disarmament apart from other forms of disarmament and after they rejected an American motion to base all future reductions on classes of naval craft. The military sub-commission not only refused the American delegation's move to include reserves in training in peace times in the list of effective items of war strength, but followed this action by refusing to classify stocks of war materials in the list of items making up potential war power of a country.

General Nolan of the American commission made the following to the military sub-commission after the proposal regarding trained reserves was defeated:

"In a country like the United States, where trained reserves do not exist and where the regular army of 118,000 men is quickly reabsorbed into civilian life once its members return to their homes, our nation is at a great disadvantage against nations where a system of trained reserves permits the placing of a trained army of 1,000,000 men into the field on short notice. "The United States insists that peace time armaments shall include not only trained reserves, but also stocks of war material which may be accumulated in peace time. Any decision of this body against such a stand will be unacceptable to the United States."

Tempelhof Field, Germany's largest aviation port, saw the arrival and departure of 20,400 air passengers in the past year.

Hard Times For Hardware Men

Po-Tailors won from the hard fighting Hardware men 7 to 1. The Po-Tailors maintained their lead in the Major league. Three errors in the last inning by the Po-Tailors saved the Hardware men from a shut out.

The pitching of Dillard was the feature of the game, allowing but two hits.

REDS TAKE FIFTH GAME FROM PIRATES

By United News.

Cincinnati made a clean sweep of the five game series with the world's champion Pirates Tuesday by taking the final encounter, 6 to 3. Three Red legs, Pipp, Walker and Emmer, clouted triples which helped down Pittsburgh. During the series, the Reds scored 46 runs to Pittsburgh's 13 and clinched their hold on first place in the National league.

With Babe Ruth knocking out his 26th homer of the season, the Yanks climbed another notch higher in the American league runaway as the Yugmen defeated the Athletics 7 to 5. Herb Pennock held the Mackmen handily while his slugging team mates pounded the offerings of three moundmen. Jumping Joe Dugan contributed four hits.

The Giants suffered two staggering defeats at the hands of the Braves, losing 5 to 0 and 7 to 3. The double defeat sent the floundering New Yorkers to sixth place, being supplanted by the Cubs.

The Red Sox made it two straight over Washington, winning 2 to 1. Slim Harris hurled splendid ball, a shade better than Coveleski.

The Indians jumped into third place in the junior circuit by their victory over Chicago 4 to 2. Shantz allowed the Chicago batters only seven scattered hits. The Tigers dropped a peg by losing to St. Louis 11 to 3.

The Browns scored in every inning but the fourth.
Brooklyn turned on the Phillies to win 4 to 3 in eleven innings. As a result, Brooklyn is pressing the Pirates for third place.

St. Louis and the Cubs were idle because of rain.

Turkish housewives refuse to change their methods of making the famous Turkish coffee, and recent efforts to interest them in electric percolators failed.

Fine Bucky Harris and Jack Quinn

CHICAGO, June 29.—Bucky Harris, manager of the Washington American league club, and Jack Quinn, Philadelphia pitcher, Tuesday were assessed fines of \$200 each by President Ban Johnson of the American league for stalling during a game.

The offense for which the men were fined, occurred in the second game of a double header at Philadelphia last week.

CHAMP GOES INTO 4TH COLLEGE NET ROUND

PHILADELPHIA, June 29.—Ed Chandler of California, defending champion, had little trouble winning his way into the fourth round of the national inter-collegiate tennis championships Tuesday, defeating Charles Watson of Yale 6-4, 8-0 in their third round match on the Marion cricket club court here.

BABE BIFFS ANOTHER

PHILADELPHIA, June 29.—Babe Ruth hit his 36th home run of the season Tuesday in the 2nd inning of the Yankee-Philadelphia game. Sammy Gray was the pitcher.

The blow kept Ruth two homers behind his 1921 pace, the slugger having hit his 28th home run on June 29 of his record year.

SALT ON OPEN WOUND OF BOXING BOARD

NEW YORK, June 29.—Perhaps unwittingly the newly formed Illinois boxing commission Tuesday poured salt in an open wound by inviting the members of the New York commission to attend the Rocky Kansas-Sammy Mandell fight in Chicago next Saturday, the first bout to be held under the new regime in Illinois.

New York's boxing salons have ordered Kansas to defend his light weight championship against Sid Terris, recognized challenger, and are considering some retaliatory measures against the champion for meeting Mandell.

Why Girls Go Back Home

CATHARINE BRODY

Copyright 1926 by Warner Bros. Pictures Inc.

"Why Girls Go Back Home" with Patsy Ruth Miller in a Warner production from this novel.

SYNOPSIS

Clifford Dudley, New York's latest pet stage shak, and by a chance girl, Patsy Ruth Miller, goes on a forced tour "of the sticks" and is bored silly until, in the small town of Winesville, he spots a remarkably pretty girl, Marie, Downey, in the audience with John, her rural sweetheart. Clifford brushes aside her love as Marie crosses the footlights. Between acts, John forces Marie to leave the theatre and quarrels with her. Next morning, Marie thinks dreamily of the handsome actor.

CHAPTER II—(Continued)

And of how people could possibly go to sleep at all if that street was brightly lit all night as the papers said, "the street of a million electric lights." She knew she couldn't.

Rat-tat-tat! Ah, that was her father, who, much as the gossip said he spoiled his only child, never let her lie in bed later than nine in the morning.

"Oh, yes, pop," called Marie, aggrieved. "It can't be nine o'clock yet."

"It ain't," replied the voice of Mr. Downey, just as aggrieved. "But then New York actors, they gotta catch the nine thirty train out, and they're hollerin' for their breakfast. And the cook's raising a racket, that Jane's gotta stay in the kitchen and help her. You see up now, there's a good girl, and wait on 'em."

Jane was the chambermaid and general functionary of the hotel, and very seldom troubled with waiting on table on as many as five people at one time. Marie had counted the company. There would be ten this morning. A crowd! A riot! She jumped out of bed. Mr. Downey, hearing the plop of her bare feet, ambled back to his desk, his duty done.

Ten minutes later, Marie, a marvel of speedy dressing, in her slip on aingham house dress, was assaulted by a medley of various furnished domestics on the threshold of the dining room. "Ham'n eggs," "Two three minute eggs, there's a good girl," "Achoy, there, buttered toast an' a cup of tea." And the character man was thundering in resigned but sepulchral tones: "Three dead men and a couple of eels."

A hand, however, reached out and pressed her hand, as she stood nonplussed amid the clam-

oring tables. Well-remembered tones chimed softly: "Ham and eggs and a cup of black coffee."

Marie, charmed anew, gazed into the eyes of Clifford Dudley. So he did remember!

She flew into the kitchen, grabbed the plate of ham and eggs sacred to the morning repast of Mr. Downey, poured the cup of coffee, and, grabbing a napkin and all the cutlery in sight, rushed back to the table.

The idol, drumming hungrily on the table cloth, gave her a sweet smile, and disposed himself to fall to.

Another hand tightened on Marie's arm.

"Please, little missie," besought the character actor in his best beggar notes, "would it please you to favor a poor, lone old man with the light of your eyes, an' may it please you, two soft-boiled eggs."

"Two soft-boiled eggs," repeated Marie absently. But her eyes were fixed with anxiety on the idol! He was not falling to! He fumbled on the table cloth, and he sniffed, yes, verily, he sniffed, and cast a furtive glance in her direction. She flew back across the aisle.

"Aren't the eggs any good?" she stammered.

Clifford, leaning a hand on his chin, looked at her with a sigh of exhausted patience.

"My dear child, how can I tell when I have no fork with which to eat them?"

An anguished, "Oh," came from her soul. What a fool she was!

She looked about madly, dashed to the character man's table, under his blinking eyes abstracted his fork, and laid it reverently by the side of Clifford's plate. He fell to this time without word or smile.

The character man slapped his thigh, and gave vent to a prolonged roar of laughter. Marie retreated on its wave.

Her cheeks hot and her eyes stinging with tears, she sat down on the one kitchen chair and delivered a passionate ultimatum.

"I won't wait on people who laugh at me."

"I'd slap his face good and hard, or let a cup o' coffee go. That'd teach him," advised Jane, who had had her experiences with traveling men.

"Then you go, Jane. I'll help cook."

So Jane went.

At this moment a low groan was rising in the dining room. The manager, Williams, had come in. On his usually good-humored face was a scowl, and in his hands was a telegram. Seated trowsers, their natural pessimism augmented by hunger, moaned inwardly and outwardly and settled back with resignation in their chairs.

"Now what's up?"

"Only this," grumbled the manager and read the wire.

OWING TO EPIDEMIC BOOKINGS FOR NEXT TWO STANDS ARE CANCELLED HOLD COMPANY IN WINESVILLE FOR FURTHER INSTRUCTIONS.

"For the love of two cents' worth of bananas!" cried Sally, the model, viciously flinging down her napkin.

"Anyhow, dearie, we can get some sleep," yawned the character woman.

There was a general epidemic of curses, frowns, flinging down of napkins. Struggling through the plop of her bare feet, ambled back to his desk, his duty done.

There was a general epidemic of curses, frowns, flinging down of napkins. Struggling through the plop of her bare feet, ambled back to his desk, his duty done.

Ten minutes later, Marie, a marvel of speedy dressing, in her slip on aingham house dress, was assaulted by a medley of various furnished domestics on the threshold of the dining room. "Ham'n eggs," "Two three minute eggs, there's a good girl," "Achoy, there, buttered toast an' a cup of tea." And the character man was thundering in resigned but sepulchral tones: "Three dead men and a couple of eels."

A hand, however, reached out and pressed her hand, as she stood nonplussed amid the clam-

oring tables. Well-remembered tones chimed softly: "Ham and eggs and a cup of black coffee."

Marie, charmed anew, gazed into the eyes of Clifford Dudley. So he did remember!

She flew into the kitchen, grabbed the plate of ham and eggs sacred to the morning repast of Mr. Downey, poured the cup of coffee, and, grabbing a napkin and all the cutlery in sight, rushed back to the table.

The idol, drumming hungrily on the table cloth, gave her a sweet smile, and disposed himself to fall to.

Another hand tightened on Marie's arm.

"Please, little missie," besought the character actor in his best beggar notes, "would it please you to favor a poor, lone old man with the light of your eyes, an' may it please you, two soft-boiled eggs."

"Two soft-boiled eggs," repeated Marie absently. But her eyes were fixed with anxiety on the idol! He was not falling to! He fumbled on the table cloth, and he sniffed, yes, verily, he sniffed, and cast a furtive glance in her direction. She flew back across the aisle.

YOU CAN MAKE MONEY IN THE VARIETY STORE BUSINESS

The Variety Store business is growing each year. Many successful independent variety store merchants are making money. If you wish to forge ahead and become a successful store owner why not consider this fascinating and profit-paying business?

We know of many locations in Texas and Southern Oklahoma that represent splendid openings for independent Variety Stores.

We were the originators of the Variety Store business and have been the recognized leaders in the Variety field ever since.

We can tell you every detail of Variety store opening and operation. We can instruct you in each succeeding step. Finding the town, the location in the town, remodeling the store building, installing standard fixtures, selection of stock, opening the store, stock control and store management and so on until the entire subject is covered.

If you have the initiative, a will to work, and have from \$1500.00 to \$5,000.00 to invest, you can own and operate a business that offers the maximum safety for your investment and one that ought to insure you a satisfactory return.

Investigate our plan—no obligation whatever. Come to see us or write fully and frankly about yourself, the amount you can invest and the location you prefer. All communications held in strictest confidence.

DAILY MARKETS

New York Finance

By E. WALTER MOCKLER
Written for United News.

NEW YORK, June 29.—Under the leadership of steel common which pushed steadily into new high ground, the entire market rallied Tuesday. Trading almost doubled Monday's total and at the close very substantial gains were shown by most of the usual leaders.

After steel common had crossed 139 3-4, each gain established a new all time high record. The high was 141 3-8 and the close at 140 3-4 was up 2 1-2 points for the day. Slush Sheffield jumped more than six points while Bethlehem was fractionally lower. Prominent on the advance was General Motors up 3 1-8, accompanied by Du Pont, up 4 3-4 and Fisher Body up 2 1-2. Pan American "B" rose 1 point, General Electric, American Smelting 2 3-4, Texas Gulf Sulphur 1 3-4. Substantial gains were common throughout the rank and file of the list.

Basic factors are encouraging, especially the pig iron demand. Cleveland indications point to sales of one million tons or more. As pig iron sales are still accepted as the most reliable index of coming business possibilities, this strong demand has had its desired effect.

There was no dearth of special movements throughout the list and buying went forward with a confidence sadly lacking in Monday's market. Apparently buyers including shorts have given up hope of a net material set back and are entering the market in larger numbers. Shorts have little voice in the matter, being forced to buy in when the market reaches their limit, but the strong demand from the investment element, even granting the possibility that this is only surplus demand

SHERIFF'S SALE

(Continued from Page 9)

The original town of Lubbock County, Texas. Sheriff H. Johnston, County Clerk, Texas. By virtue of the written request of said defendants or her attorney, a sufficient portion thereof to satisfy said judgment, interest, penalties and costs; subject, however, to the rights of the plaintiff for any other or further taxes on or against said property that may not be included herein, and the right of redemption, the defendant, or any person having an interest therein, to redeem the said property, or their interest therein, at any time within two years from the date of sale by paying double the amount paid for said property, and subject to any other and further rights the defendants or anyone interested therein, may be entitled to, under the provisions of law. Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

H. L. JOHNSTON, Sheriff of Lubbock County, Texas. By VERNICE FORD, Deputy. Dated at Lubbock, Texas, this 12th, day of June, 1926.

SHERIFF'S SALE

County of Lubbock, Texas. By Virtue of an Order of Sale issued by order of a judgment decreed of the 72nd District Court of Lubbock County, Texas, by the Clerk of said Court, on the 14th, day of April A. D. 1926, in a certain suit No. 1504, wherein the State of Texas is plaintiff, and Mrs. Martin Sieves defendant, in favor of the said plaintiff, for the sum of Thirty-Seven & 59-100 (\$37.59) Dollars for State and County taxes, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, hat being the amount of said judgment rendered in favor of said plaintiff by the said 72nd, District Court of Lubbock County, on the 15th, day of April A. D. 1926, and 6 me directed and delivered as Sheriff of said Lubbock County, I have seized, levied upon, and will, on the first Tuesday in July A. D. 1926, the same being the 6th, day of said month at the Court House door of said Lubbock County, in the City of Lubbock between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, proceed to sell for cash to the highest bidder all the right, title, and interest of said defendants in and to the following described real estate, levied upon as the property of said defendants, the same lying and being situated in the County of Lubbock, and State of Texas, to-wit:

Being Lot No. 8 in Block No. 77 of the Original town of Lubbock, Lubbock County, Texas, or, upon the written request of said defendants or her attorney, a sufficient portion thereof to satisfy said judgment, interest, penalties and costs; subject, however, to the rights of the plaintiff for any other or further taxes on or against said property that may not be included herein, and the right of redemption, the defendant, or any person having an interest therein, to redeem the said property, or their interest therein, at any time within two years from the date of sale by paying double the amount paid for said property, and subject to any other and further rights the defendants or anyone interested therein, may be entitled to, under the provisions of law. Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

H. L. JOHNSTON, Sheriff Lubbock County, Texas. By VERNICE FORD, Deputy. Dated at Lubbock, Texas, this 12th, day of June, 1926.

overflowing from the bond markets, proves an inherent confidence in the business future worthy of respect.

KANSAS CITY LIVESTOCK

By United News.

KANSAS CITY, June 29.—Cattle supplies were fairly liberal. A good percentage of total arrivals was fat killers and included some choice yearlings and steers. Trade on the kinds best suited was fairly active, with prices steady to strong. All others were dull and slow. Most sales on steers ranged around \$7.50 to \$10.50 with yearlings up to \$10.40.

Stockers and feeders were in limited supply and generally unchanged. The bulk on both stockers and feeders ranged from \$5.50 to \$7.50. Receipts of hogs here and at most Western markets were in excess of the demand. Trade everywhere was slow and dull with prices lower. The market was from 10 to 15 cents under the close yesterday. Stock pigs were slow and steady to weak. Top fat hogs brought \$14.50. Heavies sold from \$13.65 to \$14; mediums \$14.30 and lights \$14.30 to \$14.50. Cattle 10,000, calves 1,000; under-tone on steers steady to weak; light mixed yearlings opening strong; choice lot quality 10.10, others 9.50 to 9.50; she stock and bulls scarce; steady; veal strong to 50 cents higher; top 10.50; stockers and feeders scarce, unchanged.

Hogs 9,500; lower, 5 to 10 cents lower, big packers inactive; desirable 190 to 225 pound averages 14.10 to 14.25; light lights up to 14.40; packing cows 11.75 to 12.25; stock pigs steady to weak 15.00 to 15.75. Sheep 5,000 lambs 25 to 50 cents lower; top natives 14.50; better grades 14.00 to 14.25; choice Idahos held around 16.

The Texas Primary Election Law Is A Bar to Progress

By R. T. ELLIS, Fort Worth

For many years we have pondered the question of the failure of the Texas primary election law. Its chief characteristic is that it brings forth in a great majority of the cases only mediocre aspirants for office. Ignorance and weakness can not lead our great state along the path of progress. Court reform, improvement of schools, development of four natural resources and their conservation, penitentiary reforms, the elimination of crime and disease, the improvement of our transportation facilities, tax reforms, the economical and honest expenditure of the state's funds, the proper protection of life and property, etc., depend more than upon all else on the character and ability of the people we elect to office, and this applies with special significance to the legislature.

The Convention Plan of Farmer Days
Under the convention plan of 30 years ago, the members of the party in each precinct met at the call of the precinct chairman and elected delegates to the county convention. This county convention nominated candidates for the county offices and named delegates to the district and state conventions, which conventions, respectively, nominated candidates for the district offices and state offices. This was a fine plan and it worked exceptionally well for a long time in that it brought into the places of leadership those who by nature were most capable and best fitted to lead.

Under changing conditions the convention plan of nominating candidates developed several serious faults which seemingly could not be tolerated. Certain groups, the saloon crowd for example, undertook to control the selection of delegates to conventions in order to nominate candidates desired by the special groups. Apparently some conventions were literally bought and paid for. This meant of course that a majority of the people were in opposition to the action of the convention. But they could do nothing in most cases because there was no opposing party of sufficient strength to give our convention candidates any trouble.

The Terrell Election Law
The Terrell Election Law, written by Judge A. W. Terrell of Austin, and enacted in 1905, came as the answer to the inequities developed under the old convention plan of nominating party candidates. This law was passed in a different form from that advocated by Judge Terrell and it has been so much amended that the primary election law of Texas should not be called the Terrell Election Law. Judge Terrell should not be given all of the blame for the present undemocratic method prescribed by the present law. The trouble with the old plan was that the people were not given an opportunity to approve or disapprove the candidates named.

Our Present Plan Grossly Undemocratic

In Texas today the Democratic party can not under the law, set the party machinery in motion to select a candidate for any office until after the primary election and then only in certain rare instances. All the party can do is to supervise an elimination contest to be held for the benefit of those aspirants, both worthy and unworthy, who claim the office. The rule of the game is to use any means to get votes. Rock-throwing and mud-slinging, lying and libel, are characteristics commonly observed. Incidentally, campaign expenses have mounted to dizzy heights. The present law ties the party hand and foot, so that it can not look the field over and call to its standard those best fitted both by nature and training to lead a progressive people. The present law is a flaming announcement to the world that we are too ignorant, too stupid, too asinine, too devoid of ideas to solve our problems of state government.

As you have already perceived, perhaps one of the principal troubles incident to present conditions is that quite often on really worthy or capable candidate will offer for a given place. This possibility was not thought of by the framers of the law. Some believe that we have no such thinkers as formerly. The truth is that we have men and women just as great, just as capable as ever before, but we have made it impossible to put many of these in places of political leadership. They refuse to be mangled by the party primary.

Another trouble, apparent to all who think, is the fact that a great majority of the people have neither the opportunity nor the information necessary to judge the qualifications of so many candidates for the duties of the numerous offices to be filled. Most of the voters depend upon the recommendations of friends or simply, when marking their ballots, guess as to the best

YOU HATE TO LOOK AT A PIMPLY FACE

There is perhaps nothing more distressing to people who are bothered with them, and surely nothing more common, as pimples, blotches, bumps, rash, scurfiness, etc., "breaking out" and similar skin disfigurements. But now that Black and White Ointment and Skin Soap, are proving to be so dependable in quickly getting rid of these diseases of the skin, it seems foolish for people to neglect using them and making themselves attractive to others instead of being slighted all the time. All dealers have Black and White Ointment, and Skin Soap, in the convenience, low-priced, liberal packages. The 50c size Ointment contains three times as much as the 25c size.

candidate for a given office.

The Solution

Our judgment is that the convention plan and the primary election plan of party nominations can be combined in a way that will give a workable plan having the advantages of both the old methods without the major defects of either.

(a) On a suitable date the precinct conventions should be held and the best available men and women in the respective precincts be chosen as delegates to the county convention.

(b) This county convention should nominate a full county ticket and elect delegates to the district and state conventions respectively and adopt resolutions and platform demands and make such arrangements as may be necessary preparatory to holding the primary election.

(c) The district conventions should nominate candidates for the district offices only—floterial, senatorial, etc.

(d) The state convention should nominate a full state ticket and adopt a party platform.

(e) The primary elections should be held just as now but the ticket should show the convention nominees—precinct, county, district, and state—along with the names of any other candidates in the same party who might want to assert that the conventions did not properly represent the will of the party and to spend their money and time to prove their contention.

The Plan Has Several Advantages
Many advantages are evident in the suggested plan, of which the following should be named:

(a) The party machinery can be used to select suitable candidates.

(b) Even if possible to do so, it would be very hazardous for any special interests to control the conventions because such perfidy would be exposed before the primary elections.

(c) The party can write its platform before the primary elections and know that the convention nominees stand committed to its demands.

(d) If the conventions function well and wisely their nominees will be approved by the people, and ordinarily, the enormous campaign expenditures will be avoided much to the advantage of the state as a whole.

I have omitted the discussion of some details but I believe that there is no insurmountable obstacle in the way. We know one strong organization in Texas using this method in the election of its board of directors. It works.

June Building Totals \$41,075

Building permits for last month totalled \$41,075. Eleven permits were issued. City officials point out, however, that due to lax enforcement of the building ordinances many buildings have been erected without any permit being issued.

In June of last year 37 permits were issued to a total of \$257,050.

Bananas were sold for as low as sixty-four cents a bunch in Jamaica this year.

WANT TO LOOK FOR POTASH HERE

EXCHANGE CLUB WOULD GET U. S. TO SPEND MONEY IN THIS FIELD

The Exchange Club, meeting yesterday at the Tech Cafe, laid plans to bring to the Lubbock territory some of the approximately two million dollars which the United States government will expend in investigating potash deposits.

According to President Tom Garrard of the local chapter of Exchange, the only considerable potash deposits in the United States are in Utah and Texas. He says that drilling of oil wells between Brownfield and the Pecos has disclosed considerable deposits of potash, whether in paying quantities he does not know. However, if potash is found near Brownfield, it will be found near Lubbock, he said, and the expenditure of some of the investigating funds in this vicinity might bring about a profitable business for the section.

The funds voted by congress will, according to Mr. Garrard, be used over a period of five years.

Mr. Garrard was asked by the club to take the matter up with the Rotary and Kiwanis clubs here to get concerted action on the movement.

In addition to this discussion, the club heard an address by Dr. Lemmon, who at one time had charge of a hospital in Manila, on habits and customs of the Philippine natives, and incidents of Dr. Lemmon's stay in those islands.

He told in particular of an alleged incipient rebellion among the Philippine constabulary which was discovered and circumvented by United States secret service operations.

Tech's First Year Book Gets Boost

The Tech received more state-wide publicity yesterday in a column of one of the state papers. The Fort Worth Star-Telegram ran an editorial yesterday complimenting La Ventana, the Tech first year book. Below is a clipping of part of the article:

Students of the Texas Technological College have "done themselves proud" in the matter of the first number of the college annual. Every college has its annual publication, of more or less ambitious nature, which is designed to reflect the student life of the year, and many of them are distinguished affairs in appearance and content. The staff of "La Ventana," the student yearbook of Texas Tech, have so marshalled the literary and artistic abilities of the student body that in the first year of the college it has jumped in to the "big league" class of attractive annuals.

War Waged on One-Eyed Autos

"One-eyed autos" or those with only one head light, are being tagged by the Lubbock police at the rate of five to seven per night. Fines of \$1 each are being assessed against the drivers of the cars in city court.

Whicker Land Co. Means Business In Cochise

BLEDSON, June 29.—W. L. Whicker, representative of the Whicker Co. here and brother of Homer Wade, assistant manager of the Texas Chamber of Commerce, announced the latter part of last week that the contract has been let for the drilling of the Whicker test three and one half miles south of Bledson. Materials are due to be delivered within the next thirty or forty days. If possible, Cornelius Bros. Taggart, well known drillers out of the oil fields of Texas, have been awarded the contract for drilling the well, and the fact that a putable concern holds this contract is an assurance that the well will be completed in the shortest possible time, and that the promoters of the tract calls for a 3,500 foot well until oil or gas in paying quantities is secured, and for machinery to be on the ground within thirty days.

The company that was formed to drill the well is composed of J. Whicker, J. E. Whicker, and R. Thomas, of Littlefield; Senator H. Bledson and C. E. Maedgen, of Lubbock; and R. J. Murray, of Santa Fe acreage and townsite positions for both the North and South Plains.

This group of men will be recognized as among the foremost citizens of the South Plains country and they are well able to handle such a project and see it completed. A reliable group of citizens such as these who are interested in the country are certain to hasten the development of the oil fields. Many geologists have declared under the plains country.

Dr. Leroy Patton, of the geological department of the Technological College at Lubbock, made preliminary investigations and reports that there are not only favorable prospects for oil but also good prospects for other minerals. He declined to name these minerals, however. It is expected that the well will reveal large potash deposits such as are found under all of the southwestern country. These potash beds are considered one of the valuable assets that the nation has and plans are being made for development of them.

The Whicker well according to several reliable oil authorities stands

TECH LIBRARY GETS MORE BOOKS

1000 FROM AUSTIN AND A HISTORY OF FIRST COLLEGE TO BE GIVEN SCHOOL

The Tech Library is expecting a large shipment of books the last of this week from the University of Texas. They are being given to the college as a duplicate gift from the University and the list contains over 1000 volumes besides the numerous public documents included.

This is one of the most valuable gifts made to the library and will aid greatly in completing some of the units of the references. Carpenters will start to work soon making more shelves for the library as it is already crowded and will have to have more room next year.

Another gift to the library this week is copies of the Houston Post Dispatch magazine section containing a story of Texas' first college. The article, written by Allie B. Jenkins, who presented the copies to the library. She was a former student of Prof. Gus L. Ford. This gift is above the ordinary because it comes from the hands of the author.

One of the first building projects placed before the board will be that of a separate library building. Miss West, librarian, stated yesterday that this would be one of the greatest needs of the college in the next two years.

An excellent chance to be the connecting link between the oil fields of Panhandle and the Reagan and Upton county fields. Its close proximity to the Maljamar and Lovington fields also makes it of unusual interest and we predict that the well will be watched closely by the oil interests of the nation.

The Whickers have been faithful workers for the development of the plains country for several years, and have the reputation of being a group that accomplishes things when they start out, but we feel that they are starting one of the biggest propositions that West Texas has seen in several years. They deserve the support and interest of the citizens who are pioneering with them in this new country and we are sure that they will have it.
