Thanks Hart! Thanks to you we are going skiing. We have had lots of projects this year and want to say a big "THANKS" to Jonalyn Jones for the painting we raffled Hart Day; the youth of our community for supporting the disco dances; the fine people who bought candy and our parents who have helped in all our projects. We would have gone skiing anyway but the money would have had to come from our parents. We are proud we reached our goal through hard work and your support. Thanks, Hart!

The second Agri-Plex Farm Implement Show will be held Saturday and Sunday, Feb. 24-25 at the Hale County Agriculture Center in Plainview. The show, which will feature the latest developments in tractors and farming equipment, is sponsored by KKYN Radio.

Plainview area implement dealers and manufacturers as well as related agri-businesses will be displaying their latest products. Admission is free and the farm implement show is open to anyone interested in seeing the newest farming equipment on the market today.

A special feature of the show this year will be the first annual Plainview Micro-Mini Tractor Pull to be held Sunday at 1 p.m. and sponsored by the Texas Micro-Mini Tractor Pullers Association. Another attraction being repeated this year is the display of several restored

operation antique tractors owned by Fred Howard of Plainview.

"This year we've tried to design the show to include something for everyone," according to KKYN Farm Reporter Doyle Patton. Several agri-business seminars are on tap which will address topics of major concern to farmers and ranchers. "We're going to have a soybean seminar on Saturday because of the increased interest in soybeans this season," Patton said.

## Social Security Threat Told

The following article is submitted by a reader who is concerned over the proposed cuts by President Jimmy Carter to Social Security benefits and disability benefits.

"President Jimmy Carter has just sent a budget to Congress which would strip many Americans of their Social Security benefits."

"It's the first time in history that a president has proposed any important cuts to SS benefits, and Midnight/Globe Injustice would like you to help us do something about it. These cuts are designed to hurt those who are the most vulnerable--the disabled, those receiving the minimum retirement benefits and students."

"Carter wants to eliminate the \$121.80 minimum retirement benefit. Critics of this benefit point out that it is payable to people who have contributed as little as \$100 in Social Security withholding payments during their life. However, it is often these people who need SS the most. Many worked most of their lives, but were only covered by SS for the last few years. Some have nothing to live on except this \$121.80 a month--which is hardly an excessive amount."

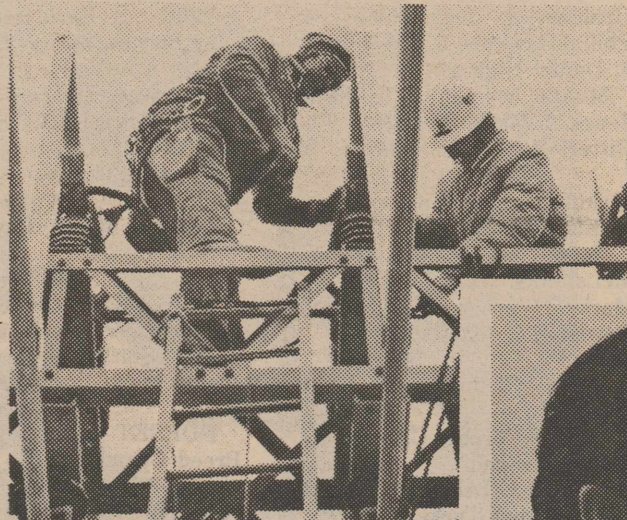

The President's bill would also make it much harder for the disabled to collect benefits.

Even the present Social Security regulations deny benefits to thousands of disabled American workers who are unable to return to their old jobs and who have also been denied Vocational Rehabilitation training for another job.

Students between the ages of 18 and 21 whose parents are disabled, retired or no longer living would also be hard-hit by the new regulations.

Help us fight these cuts. Write your congressman now--before it's too late."

## "They're Just Like Family . . ."

That's what James Stovall, Southwestern Public Service Company High Voltage Substation Electrician, says about the people he works with at SPS and the boys at the Maverick Club.

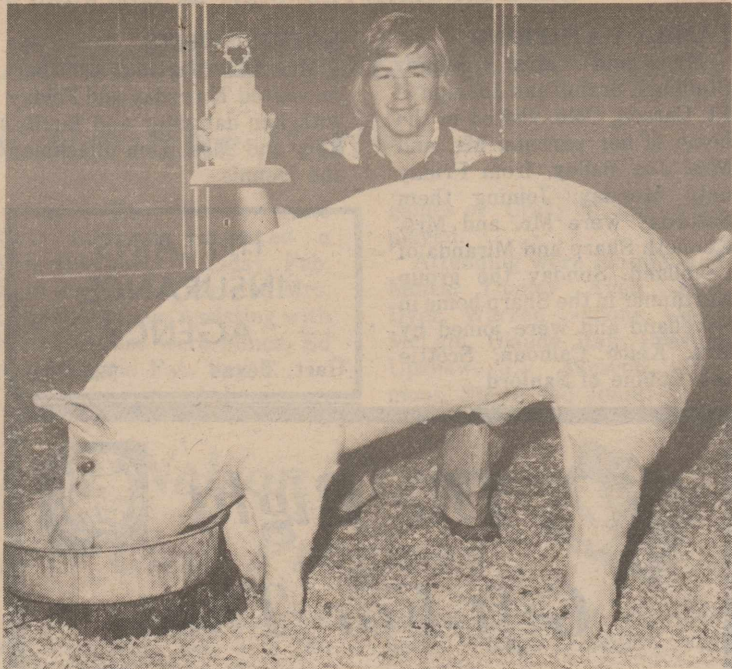

JAMES STOVALL

"My boy Mark was in about the third grade when he came home and told his mom and me, 'I'm gonna be a wrestler.' Sure enough he goes out for the Maverick Club's wrestling team. He got more and more involved in it...brought a note home askin' could I come up and help start a booster club. Well, I got involved...and now I'm really into it...my other two boys are wrestling and I do everything I can to help. I raise money, drive the bus...put 11,000 miles on a new van in 'bout 6 months driving Maverick boys to tournaments. I'm even a substitute daddy when their folks can't be at a tournament...I'll hug 'em and cheer 'em on. And the big boys watch out for the little ones, too. Those Maverick Club boys, they're just something special to me...just like family. And you know, I feel the same 'bout Southwestern Public Service Company. They're like family too, everybody pitches in to get the job done. And they take good care of you. Take the Company Training program. Eleven years ago, I didn't have a trade, no job security. Now, thanks to SPS, I'm a journeyman electrician...that's a trade for life. My family...my trade...that special feeling I get working with the Maverick Club boys...those are things nobody can take away from me."

# HOW TO SAVE MONEY ON U.S.D.A. CHOICE GRAIN FED BEEF!

# BOXED BEEF YOUR BEST BUY

**HERE IS THE REASON WHY:** A new trend is sweeping the country in buying beef for home freezers. Swinging carcass beef is being replaced by vacuum packed beef portions in a box simply called Boxed Beef. With Boxed Beef you buy only the portion or portions of the beef you want to serve your family. All the excess bone and waste plus seldom used cuts such as soup bones and boiling meat are trimmed away by skilled meat cutters in ultra-modern beef processing plants. After the beef portions are vacuum sealed with a patented process, the portion is boxed and shipped on refrigerated trucks direct to our meat locker.

Next time you're thinking of a large beef purchase for your home freezer or a special occasion, such as large cook-outs and parties, ask us about the quality, value and just plain good sense in our Boxed Beef program.

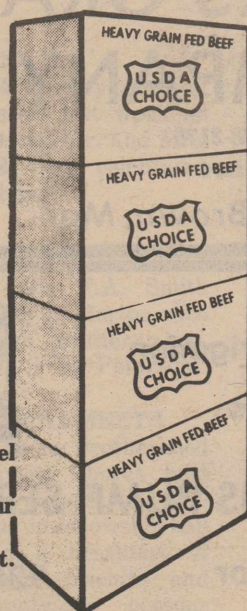

## THE OLD WAY TO BUY BEEF:

We've all seen or heard of the hanging beef carcass that used to be transported by truck and transferred to meat coolers for cutting. Only skilled butchers could cut these carcasses properly, but even then there was 28 to 32 percent waste in unuseable bone and fat. There are still some supermarkets that utilize hanging carcass beef, but the trend to Boxed Beef and its economies is sweeping the country.

## DISADVANTAGES:

1. Excess bone and waste must be trimmed before cutting.
2. Thirty percent higher transportation costs - a waste of fuel energy.
3. Paying for 28 to 32 percent waste that never reaches your freezer.
4. Price per pound is less but take home meat is higher in cost.
5. Weight loss is due to open air exposure.

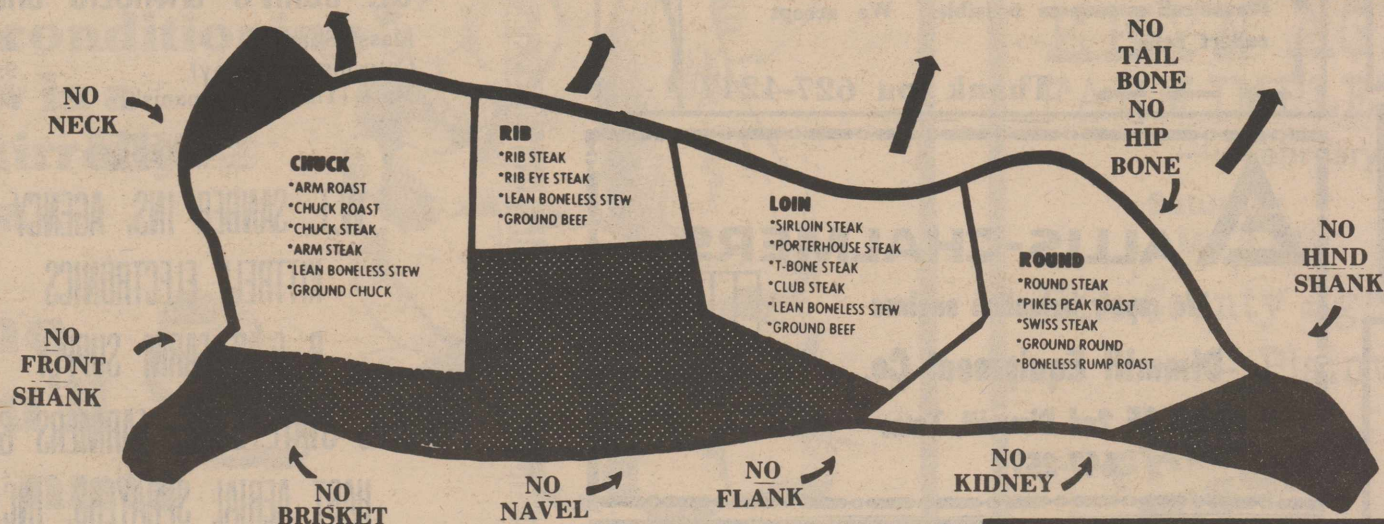

## THE NEW WAY TO BUY BEEF:

Boxed Beef is only the useable portions of the carcass skillfully trimmed and packaged through ultra-modern processing, then vacuum sealed and boxed for ease of handling. Cutting these portions to desired roasts and steaks does not require a trained butcher. In fact, many housewives across the country prepare the boneless cuts to their own requirements right in their kitchens. What a fine way to get just exactly the cuts you need and save dollars on quality beef at the same time. However, on any Boxed Beef purchase you make with us we gladly cut and wrap it to your own specifications.

## ADVANTAGES:

1. Boxed Beef is naturally aged, thanks to its patented vacuum wrapping.
2. More sanitary - less bacteria.
3. You buy meat without the surplus waste fat and bone.
4. You save money in buying meat instead of bone, fat and trimmings.
5. Quality controlled beef. Only the best beef is selected to go in the Boxed Beef program.
6. You can buy only the part of the beef that you want.
