

Tried Record Hop

Off on "flight to Mars," Cheston Eshelman, above, 22-year-old airplane mechanic, plopped down in north Atlantic off Boston. Rescued from waters by fishing trawler Villanova, he was arrested at sea, charged with theft of tiny, single-motored plane.

Trial of Burleson For Slaying Negro Scheduled Monday

Trial of James Burleson, negro, charged with murder, is due to be started in district court here tomorrow. Burleson is charged with having murdered another negro, Roscoe Weakley, at a dance in Moody addition on July 31, 1938. He fled the scene of the crime after Weakley had fallen to the floor, fatally stabbed over the heart.

Several months later Burleson was arrested in Idaho and returned here by officers. His case was carried over from last term of court.

Persons summoned for possible jury duty tomorrow include: S. L. Alexander, Frank Aldrich, W. G. Ataway, A. R. Bauman, W. A. Beauchamp, C. L. Bradshaw, Chas. Brown, Gilbert C. Brunson, Wilson Bryant, Henry Butler, L. A. Campbell, Robert L. Clarke, J. M. Conner, John Cornwall, Floyd Countiss, Jr., Claude Cowden, M. D. Cox, Claude O. Crane, J. C. Cunningham, J. R. Custer, Dalas M. Dale, Ben Dansby, Jr., Ed Darnell, Richard L. Denham, A. T. Donnelly, J. DeLo Douglas, H. M. Drake, R. E. Dupuy, Chas. Edwards, Jr., Bush Elkin, E. P. Eubanks, Frances Falcon, J. H. Fine, D. E. Gabbert, E. C. Hitchcock, Fred T. Hogan, Gordon Holcomb, Forest Hunter, W. R. Jarrett, Zay Kimberlin, C. S. Longcope, E. T. Marion, Herd Midkiff, C. A. McClintic, Tom Naunce, C. E. Nolan, J. W. Pace, Hal Peck, C. H. Potter, Roy Stockard.

Modernizing Program Featured by the FHA

Urging citizens to take advantage of the June and July program of repairing and modernization of homes, officials of the Federal Housing Administration wrote C. A. McClintic, local better housing committee chairman, that the campaign is to be the greatest in the history of the organization. Property improvement loans, or FHA Title I loans, are featured in the program. P. S. Luttrell, state production manager, invited Midland home owners to secure full information of the program and take advantage of the loans for those purposes.

Midland Man Named President of IOOF

D. C. Lykins of Midland was elected president of the West Texas I. O. O. and Rebekah Association District Two in the convention of the organizations held in Odessa the past week.

Convict Leaps Fence, Escapes Prison Farm

HUNTSVILLE, June 10 (AP)—Ray Ivey, Dallas convict sentenced to ten years from Wichita county for burglary, jumped the fence at Wynne prison farm yesterday, dodged six bullets and headed for freedom. He was still going today.

It Would Be Worth A Lot to Be There

CHEYENNE, Wyo. June 10 (AP)—Freezing and near-freezing temperatures were reported today as the aftermath of a high pressure area which moved across the state yesterday bringing moisture to southeastern Montana and western South Dakota.

Security Act Amendments Sent Senate

2 Dissenting Votes Recorded as House Passes Measure

WASHINGTON, June 10 (AP)—With two dissenting votes, the house approved and sent to the senate a set of amendments extending and increasing benefits of the social security law while keeping the old age pension tax at the present level for the next three years.

The vote, 316-2, meant the working man, if the senate approves, will continue to contribute to retirement pensions one per cent of his pay until January 1, 1943. Savings to taxpayers reportedly would be \$171,000,000 for three years.

Federal contribution to states for old age assistance was upped from \$15 to \$20 per month.

Sales Tax Measure Will Be Voted on In House This Week

AUSTIN, June 10 (AP)—Whether the bloc which battled successfully against house approval of a sales-tax amendment would crack in another test next week centered interest in the legislature today.

Rotarians, Wives to Attend Convention

Mr. and Mrs. Addison Wadley are leaving this morning for Cleveland, Ohio, where they will attend the convention of Rotary International. En route north they will visit St. Louis and Chicago to market and will probably visit other points before returning home.

Mexicans Seeking Cash, Credit From The United States

MEXICO CITY, June 10 (AP)—The Mexican government was reported today to be seeking cash and credit in the United States for development of efficient rail facilities across the Isthmus of Tehuantepec to provide outlet for oil sales to Japan.

Visiting Minister To Deliver Sermons At 2 Churches Here

Rev. Jeff Davis of Dallas, executive secretary of the United Texas Drys, will deliver addresses at two Midland churches today.

British Officer Is Released by Japs

SHANGHAI, June 10 (AP)—Peiping dispatches reported tonight the release of Lieutenant John Cooper, British officer under arrest at Kalgan, northwest China.

Nazis Voice New Threats Over Murder

PRAGUE, June 10 (AP)—Nazi officials today threatened new "measures" to break Czech resistance to Germany's protectorate over Bohemia-Moravia unless the mysterious killing of a German police sergeant at Kladno was solved by one p. m. (CST).

Neutrality Work Is Speeded Up as FDR Hints of New Trip

WASHINGTON, June 10 (AP)—Reports President Roosevelt plans tentatively to go to the San Francisco World's Fair the last week in July spurred congressional opponents of neutrality to renew activity today.

American and British Rulers at Depot

Against a backdrop of the national capitol, royal parade moves toward White House on Pennsylvania Avenue, lined with thousands of cheering spectators. Guards and secret service men march beside car carrying President and King of England in foreground.

To Preach Here

REV. JEFF DAVIS (See story below)

British Officer Is Released by Japs

SHANGHAI, June 10 (AP)—Peiping dispatches reported tonight the release of Lieutenant John Cooper, British officer under arrest at Kalgan, northwest China.

WASHINGTON, June 10 (AP)—Reports President Roosevelt plans tentatively to go to the San Francisco World's Fair the last week in July spurred congressional opponents of neutrality to renew activity today.

American and British Rulers at Depot

Against a backdrop of the national capitol, royal parade moves toward White House on Pennsylvania Avenue, lined with thousands of cheering spectators. Guards and secret service men march beside car carrying President and King of England in foreground.

NEW YORK WELCOMES KING, QUEEN

Their Majesties on Pennsylvania Avenue

Rulers Spend Night With Roosevelts

HYDE PARK, June 10 (AP)—The ancestral home of President Roosevelt offered a welcome retreat tonight for King George and Queen Elizabeth of Great Britain, weary but happy over a tumultuous day-long ovation given them by New York's millions.

After a swift drive up the Hudson river valley through a light rain, the royal couple turned into the president's quiet estate, there to be greeted once more by the Roosevelts.

The president's mother, 84, was there too, to extend her greetings. In six thunderous hours 3,000,000 New Yorkers earlier gave a moving demonstration of affection for the monarchs as they visited the World's Fair and Columbia University.

Through 51 miles of streets they rode, smiling to a roaring salute from the people.

As the queen received an ovation at the fair, her eyes blinked to hold back tears.

In London the British press exulted at the "wonderful welcome" for the rulers.

NEW YORK, June 10 (AP)—King George and Queen Elizabeth, first reigning British sovereigns to visit North America, flushed with pleasure at the sight of an ovation that delayed progress through the city and arrived at the New York World's Fair today for a quick inspection of British exhibits.

Arriving over a half-hour behind schedule, fair authorities estimated about 600,000 persons would see the royal couple before they left for Columbia University.

Reaching New York from Fort Hancock, N. J., aboard a United States destroyer after an overnight train ride from Washington, the king and queen were greeted by Governor Herbert Lehman and Mayor LaGuardia and others.

The greatest concentration of police ever assembled for such an event pressed the crowd back as the royal party entered automobiles for a ride to the fair.

Demonstration of New Destroyer Is Given in New York

NEW YORK, June 10 (AP)—They called on the new \$5,500,000 destroyer, U. S. S. Hammann, to show her tricks today—and she answered by doing everything but a loop-the-loop.

The new ship, on a trial run, raced through the water at between 43 and 44 miles an hour, stopped dead in 58 seconds, turned like a racing car and speeded in reverse at better than 20 miles an hour.

Three hundred and forty one feet long, weighing 1,500 tons, the ship is as powerful as the old Leviathan, which was 33 times her size. The navy is building a dozen more like the Hammann.

INTEREST CENTERED ON ECTOR WILDCAT AFTER GAS, OIL SHOW

A late report last night from Barnes, Conkling and White No. 1 E. R. Thomas estate staked that it had logged slight showing of oil from 4263-67 and was drilling ahead at 4267 in brown line.

West Texas interest as the week closed centered upon J. T. Barnes of Abilene, Russell C. Conkling and J. M. White, both of Midland, No. 1 E. R. Thomas estate, western Ector wildcat over six miles south and west of the Goldsmith pool, as it logged showing of dry, sweet gas and approached the zone in which oil is expected.

The test encountered an estimated 1,000,000 cubic feet of gas daily in line from 4212-15 which had decreased to an estimated 250,000 feet by the time drilling had reached 4220, or approximately six hours later. Section from 4229-37 was drilled in eight hours, while only two hours was required to drill soft lime from 4227-45, where slight increase in gas also was noted.

All 12 of the York & Harper locations were staked in section 8, block 42, township 2 south, T. & P. survey, on H. C. Foster fee. No. 1-C is 330 feet from the south and west lines of the northeast quarter; No. 2-C 330 from the north and west of the south half of the northeast quarter; No. 3-C 330 from the south and east of the south half of the northeast quarter; No. 1-D 330 from the south and west of the north half of the northeast quarter; No. 2-D 330 from the north and west of the northeast quarter; No. 3-D 330 from the north, 990 from the west of the northeast quarter; No. 4-D 330 from the north, 990 from the east line of section; No. 5-D 330 from the north and east lines of section; No. 6-D 990 from the north, 330 from the east line of section; No. 5-B 330 from the north and west lines of the southwest quarter; No. 6-B 330 from the north 990 from the west of the southwest quarter; and No. 7-B 990 from the south and west lines of section.

M. B. K. staked five more tests on its H. C. Foster "D" lease, on which No. 1-D Foster already is drilling below 2,760 feet in anhydrite. Lease is the northwest quarter of section 8, No. 2-D is 990 from the north, 330 from the west line; No. 3-D 330 from the north and west line; No. 4-D 330 from the north, 990 from the west; No. 5-D 330 from the north, 990 from the east; and No. 6-D 330 from the north and east.

M. B. K. No. 3-A John M. Gist is 1,850 feet from the south, 330 from the west line of section 9, block 42, township 2 south; No. 4-A 990 from the south, 330 from the line of the same section; and No. 5-A 330 from the south and west lines of section.

M. B. K. No. 1-C Gist is 330 from the south and west lines of section 4, block 42, township 2 south and No. 2-C 990 from the south, 330 from the west line. No. the south, 330 from the west of west line of section 9, while No. 6-C H. C. Foster is 990 from the south, 330 from the west line of section 2.

M. B. K. No. 2 Gist, east-side test, is drilling past 945 in red rock. Dawson Test Tops Anhydrite. Magnolia Petroleum Company No. 1 J. B. Fry, new southeastern Dawson wildcat nine miles southeast of Lamesa, yesterday had drilled to 1,706 feet in anhydrite. Driller called top of anhydrite at 1,700 feet, but samples had not yet been examined by geologist. The test is in section 8, block 55, township 4 north, T. & P. survey.

Humble Oil & Refining Company No. 1 W. T. Caswell, southern Gaines wildcat, yesterday appeared a failure as it swabbed sulphur water with circulating oil. It is bottomed at 5,002 feet in line, two feet past contract depth. Last 90 feet is said to have shown porosity. Two-inch tubing is set at 4,962. The first 20 pulls of the swab, taking five hours, lowered fluid 1,800 feet from surface. At last reports, the well was still swabbing, making 50 per cent water and 50 per cent circulating oil. It is located 650 feet out of the southwest corner of section 10, block A-24, public school land.

In southwestern Andrews, Richland This is an add to the Oil News. Mondrill Company and William F. Hanagan No. 1 University is drilling below 2,940 feet in sand. Top of Yates sand is called by some at 2,875, by others at 2,920.

Magnolia No. 1 Leta Jones, a half-mile northwest of the Fuhrman pool in southern Andrews, had drilled to 1,865 feet in anhydrite.

Pecos Oilers Completed. The Payton pool near the Pecos River in northern Pecos yesterday chucked up a brace of completions. Cities Service Oil Company No. 2 Dorr flowed 356.96 barrels in 24 hours after shooting with 160 quarts, bottomed at 2,092 feet. It topped pay at 2,039. Oil is 32-gravity and gas-oil ratio 1.934-1.

British American Oil Producing Company No. 22 B. R. Payton flowed 135.30 barrels of 34.5-gravity crude on 24-hour test, with gas in the ratio of 1.150-1. It was shot with 120 quarts in pay sand from 1,892 to 2,091, the total depth. (See OIL NEWS, page 6)

Called to Waco for Funeral of Brother

Chas. Mueller and H. D. Brown returned Friday night from Waco by the death last Sunday of Mr. Mueller's brother, Adolph Herman Mueller, 39. Funeral services were held Tuesday and the Midland men went to Cleburne where another brother was ill.

Alph Mueller spent more than a year in Midland in 1928 and 1929. He had been in ill health for some time from low blood pressure.

VISIT IN OKLAHOMA

Mrs. J. L. Taylor and son, Bill, left late in the week for Antlers, Okla., where they will visit relatives for two weeks.

HAS APPENDECTOMY.

Ralph Osborn underwent an emergency appendectomy in a Midland hospital Friday night. He was reported doing well Saturday.

ENTERS HOSPITAL.

M. T. Smith was admitted to a Midland hospital Saturday afternoon for medical treatment.

TO DALLAS.

Dr. Robert R. Jones is spending today in Dallas with relatives.

FROM OKLAHOMA

Royce McClure has returned from a vacation trip to Oklahoma.

Local Fire Team Is Winner at Stockton

FORT STOCKTON, June 10 (Special).—The Midland fire department team won first place in the pumper race contest here Saturday at the annual Fort Stockton Water Carnival, making connection to a plug and turning on water in 21.8 seconds.

Members of the Midland team were J. T. Walker, Grady Brown, Doyle Fitzgerald, Hugh Miller, George Ross, Johnny Pliska.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Snead, with victory in his grasp, blew up on the last hole and took an eight on a par five, two-putting from one foot.

PHILADELPHIA, June 10. (P).—

While Sam Snead's game exploded in his face and Ralph Guldahl was toppled from the throne he occupied for the past two years, Byron Nelson, Denny Shute and Craig Wood fired their way into a three-way tie for the national open golf championship.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Snead, with victory in his grasp, blew up on the last hole and took an eight on a par five, two-putting from one foot.

Members of the Midland team were J. T. Walker, Grady Brown, Doyle Fitzgerald, Hugh Miller, George Ross, Johnny Pliska.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Snead, with victory in his grasp, blew up on the last hole and took an eight on a par five, two-putting from one foot.

Members of the Midland team were J. T. Walker, Grady Brown, Doyle Fitzgerald, Hugh Miller, George Ross, Johnny Pliska.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Snead, with victory in his grasp, blew up on the last hole and took an eight on a par five, two-putting from one foot.

Members of the Midland team were J. T. Walker, Grady Brown, Doyle Fitzgerald, Hugh Miller, George Ross, Johnny Pliska.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Snead, with victory in his grasp, blew up on the last hole and took an eight on a par five, two-putting from one foot.

Members of the Midland team were J. T. Walker, Grady Brown, Doyle Fitzgerald, Hugh Miller, George Ross, Johnny Pliska.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Snead, with victory in his grasp, blew up on the last hole and took an eight on a par five, two-putting from one foot.

Members of the Midland team were J. T. Walker, Grady Brown, Doyle Fitzgerald, Hugh Miller, George Ross, Johnny Pliska.

Each scored a 284 for 72 holes and will play off the tie for his title over 18 holes tomorrow.

Be Your Age and Act Accordingly And Maybe You Will Prevent Accidents

How age slows reflex action has been noted by state police in relation to the automobile driver. Reaction tests given 38,000 persons show that young people are quicker than middle-aged drivers to react to an emergency and that women are slower than men where foot-action is required but are faster with their hands. Women's dexterity, the traffic research men said, probably comes from the fact that so many women's tasks are manual, such as sewing, cooking and typing.

The tests were administered by an electrically-controlled machine before which a red light flashed on one side and a figure representing a child on a bicycle appeared on the other. The driver did not know which would appear, and so had to make an emergency decision in each case.

Male drivers between 15 and 21 years had the best reaction time of any one age group. Ninety per cent of them were able to react to the emergency in one-half second, while only 80 per cent of the girls in this age group could equal that time.

But the next age group, 22 to 35 years, shows only 75 per cent of the men and 60 per cent of the women able to react in one-half second. The percentage shows another decrease in the next age bracket, 36 to 45 years, where only 65 per cent of the men and 40 per cent of the women made the half-second response. In the last group, 46 to 55 years, the figures drop to 45 per cent of the men and 25 per cent of the women.

These percentages must not be taken, however, as an indication that middle-aged drivers are necessarily poor drivers, the research men warned. Although their reactions are slower, older drivers often have an increased safety index because they are more cautious and exercise better judgment than younger drivers do, it was pointed out. Moral: Be your age and act accordingly.

Building Boom at Last?

For several years, economists have been waiting for the building boom that was to lead us up and out of the depression. Each spring came, and it did not materialize. And everybody said, well, each year the need for houses becomes greater, the "boom" more inevitable.

Predicting on this subject, after so many disappointments, would be foolhardy. But nevertheless, residential building during May will record the highest total since October, 1929, according to J. Seth Schnittman, economist. Certain it is that building for the first half of 1939 will record a total perhaps 50 per cent higher than that of the first half of last year.

This may not be the long-expected "boom," but it is certainly an encouraging sign, and welcome in its own right. Best news of all will come when one of these months surpasses 1929, for it is only in the exceeding of 1929 records that there lies hope of cutting deeply into unemployment. The man who builds a house today is a true patriot.

Regulated Weddings

If there is one right that is precious to man, it is the right to make a fool of himself in his own way.

States which get too much concerned with protecting citizens against being foolish ought to remember that it is very hard for Americans, accustomed to guard jealously their prerogative of self-stultification, to understand what goes on in Istanbul, Turkey, today. You have to be dictatorial-minded to appreciate these events at full value.

It seems that in Turkey, weddings were becoming more and more elaborate. People were even mortgaging their possessions and going to money-lenders to get money to put on daughter's bridal display in a style to which they would like to give people the impression she had been accustomed. Police stepped in, ordered a cut-down on marriage festivities, betrothal ceremonies, and wedding gifts.

What kind of a world is it getting to be when a man can't even let his women folks make a fool of him?

SO THEY SAY

Speechless Candidates, Audience

(Christian Science Monitor.)
At Miami Beach, Florida, there was a campaign meeting in which candidates didn't make a speech. In fact, each candidate merely walked up to the platform when his name was called, waved to the audience, and then retired. Naturally, this procedure left the audience quite as speechless as the so-called "speakers." If this silent system is to be used in any future campaigns, it might be well to improve on the technique with a few prearranged signals. For instance, one wave, Democrat; two waves, Republican.

Ten Years Ago in Midland

(From files of The Reporter-Telegram, June 1-10, 1929, inclusive.)

Why local newspaper men never developed into golf players may be learned from the following story of June 1, 1929:

Four apostles of duffer went out to the Country Club Friday for a "few minutes" with the Scotch pastime, and emerged from the jungle rough just before nightfall with an even dozen balls behind them, bear grass cleared before northwoodsmen strikes, and a score which would remind one more of an adding machine contest than of

The foursome was made up of Reporter-Telegram men. High and low scores at the first hole determined the pairing and high low won the match with two up. The lowest score player counted ten strokes on one hole. The next highest made No. 8 with a birdie three. The lowest score player won fewer holes than the player with the highest score. In perturbation, it was finally decided that golf was for Scotchmen—those men who are sparing of words, especially as concern their own blunders.

Mrs. Mabel Walker Willebrandt, assistant United States district attorney, wired the chamber of commerce that she was "glad to see your city from the air today." She was flying from El Paso to Dallas.

Sheriff Jack Allen of Crane was killed when his automobile crashed into the rear of a lumber truck. A sliver passed through his body.

Heavy rain fell between Midland and Stanton June 2, as scattered showers boosted crops and grass.

"Optimism prevailed" as the Phillips No. 1 Stokes, Midland county wildcat, gave off gas odor.

Due to the fact that finances of the baseball club were depleted, funds were being accepted to keep the club in operation to July 1. Playing of the next scheduled game depended on quick action of sports fans.

A postal inspector completed a survey of Midland with reference to possibility of city mail delivery.

The Midland Colts, assured of continuation of the club, defeated Big Spring 20 to 5.

Panhandle Construction Co. of Lubbock, low bidder for the sewer construction project, received the contract for a price of \$167,008.91.

Election of officers by the Lions club included M. C. Ulmer, president; Charles Klapproth, first vice president; R. J. Moore, second vice president; M. M. Seymour, secretary; Allen Tolbert, treasurer; Cliff Maple, Lion tamer and Homer W. Rowe delegate to the international convention.

Order for 10,000 printed invitations to the opening of the 12-story Petroleum Building, scheduled for July 3-4, was placed by the chamber of commerce.

Concrete was being poured for columns under the second floor of the seven-story addition to Hotel Scharbauer.

S. O. Golladay planted a quantity of sun-flowers, planning to use the seeds for chicken feed. If the ration proved satisfactory, he planned to produce the seeds on a commercial scale the following season.

Organization of a new Boy Scout council was perfected with the aid of C. C. Campbell, regional executive. The council was composed of Kenneth Ambrose, chairman; J. O. Garlington, Homer W. Rowe, Paul T. Vickers, W. I. Pratt, George W. Glass, Barney G. Grafa, Judge M. R. Hill and J. O. Nobles.

Rotarians and Rotary Anns of Big Spring were honored at a banquet and program in the Crystal ball room of Hotel Scharbauer by the local Rotarians and Rotary Anns.

Announcement was made of a revival meeting to be opened at the First Baptist church by Dr. Lee R. Scarborough of Fort Worth.

J. M. White and Ira F. Lord organized the West Texas Land Co. to bring new farmers to this area.

J. P. H. McMullan attended a meeting of Acorn Store managers at Colorado. His daughter, Lucille McMullan, entertained the group there with readings.

G. S. Jones, Midland county farmer, demonstrated a system of using bear grass as shade for his chickens, placing the dried plants in wire frames to make open sheds through which the breeze would circulate.

One of the major mercantile store deals of West Texas was consummated when Wadley-Wilson Co. became a part of the Grissom-Robertson group of Sunset Stores. Addition Wadley of Midland was retained as district manager and vice president. C. Y. Barron was made manager of the Midland store.

Lady Mary Heath, British woman flyer, landed at Sloan field and voiced the opinion that it was the "best in the country."

Luther Tidwell, chief, Jerry Phillips, city fire marshal, and Jim Walker, fire truck operator, were to represent the Midland fire department at the annual State Firemen's Convention at Galveston.

Several volunteers left to help extinguish a prairie fire at the O Ranch, 25 miles northwest of Midland.

W. P. Knight, C. L. Jackson and Fred Hogan announced that of the \$7,000 needed to keep the Midland Colts in the West Texas League, only \$1,400 remained to be raised.

Special rates on the Texas & Pacific lines were granted for the July 3-4 celebration in connection with opening of the Petroleum Building.

J. V. Stokes, A. C. Francis and W. F. Scarborough were in Austin to aid Land Commissioner J. T. Robinson who was being tried under impeachment proceedings.

Personals

Martin Neill, assistant manager of C. G. Morrison company variety store, was ill Friday and Saturday.

Mr. and Mrs. Ray Trammell are spending the weekend with her sister and brother-in-law, Mr. and Mrs. Bob Floyd, at Kermit.

Mrs. Annie Connor, mother of J. M. Connor, is ill at the home of her son here.

Mr. and Mrs. J. M. Reising and daughter, Miss Mahdeen Reising, left Saturday afternoon for Oklahoma on a vacation trip.

Miss Earline Miller and Miss Bessie Miller will leave Monday to accompany the family of E. F. Heller of Sweetwater on a trip to the Gulf Coast. The girls will be gone a week. Each year the Hellers and their six children and the latter's families make such a reunion trip as that to the Coast.

Miss Ora Lee Smith will leave Monday for a week's vacation trip to Artesia, N. M.

Mr. and Mrs. Geo. Philippus have returned from a vacation trip to San Antonio.

Mr. and Mrs. W. T. Bostick left Saturday for Denver, Colo. on a two-weeks vacation.

C. A. McClintic went to Sweetwater Saturday to recuperate in a sanitarium there from the effects of an attack of ptomaine poisoning. Mrs. McClintic and her niece, Sarah Jamieson, who also suffered from attacks of the same disease are reported recovering.

Rev. W. C. Hinds went to Snyder Saturday on a business trip and to meet his daughter, Mrs. C. W. Gardner of Fort Worth, who returned with him to visit here.

FEMININE FANCIES

By Kathleen Eiland

Those who like to serve drinks will find the new "cock-eyed" cocktail glasses a source of amusement at their parties. These clear crystal glasses have stems twisted into strange quirks and bowls tipped at angles that are slightly mad in comparison with the usual staid, stiff-and-straight glasses.

We heard a story of a man who served the first round of drinks to his guests in ordinary glasses and the second round in the "cock-eyed" ones. What the guests thought — and said — about the drinks — or the glasses — made the kind of story that is told and retold.

And for those bored ones who get tired of shaking up drinks in the same old way, there's a bell-shaped "town crier" shaker.

Though it reminds us not so much of the town crier as of the school bell with which we rang the pupils in from the pines that first year we taught school.

You all know that Dad is more disposed to grant that new frock or the money for a vacation trip, when he is well-fed. And this applies especially if one must make a request early in the morning.

Our advice is that, before you ask him anything important, you thoughtfully supply his place at the breakfast table with a metal paper rack, complete with cocky rooster ornament.

Such a holder for his favorite daily should certainly put him in mellow mood as concerns requests.

The King and Queen have been duly welcomed — and we're glad to see that it was by the American handshake.

Judging from the newspaper accounts, Queen Elizabeth made a pleasing impression on the crowds. We still hope that Mrs. Roosevelt entertains their majesties with a hot-dog picnic before they depart.

Did you know that the son of Texas' own John Lomax, collector and preserver of cowboy songs, is to sing for the royal visitors some real honest-to-goodness cowboy ballads? We're glad that it is to be Allen Lomax and not some Broadway druggist cowboy who is to the singing.

P. S.: He says "Git Along Little Dogies."

Trout Anglers Enjoy Sport on Main Street

WAUTOMA, Wis. (U.P.)—Tourists stop and look again when they see local residents pulling real fish from a manhole in the concrete pavement of the main street here.

It isn't a gag. The "Old Mill Stream" crosses town beneath the pavement. Miles Colligan, postmaster, landed the season's first catch — a German brown and a rainbow trout weighing nine pounds together.

Alibi Wins in Court; It Really Has Teeth

SPOKANE, Wash. (U.P.) — O. W. Harrison, facing trial in police court here for over-parking, produced an alibi with genuine teeth in it.

It took Harrison explained, longer than the legal hour for parking to find a set of false teeth lost somewhere in a downtown area. A fine was suspended.

Orchestra Leader

Layton Bailey, former drum major of the Mustang band of Southern Methodist University, will bring his orchestra here to play for the Midland University club dance at Hotel Scharbauer Saturday night. His organization has been featured at many leading hotels and night clubs of the Southwest.

Announcements

MONDAY

Belle Bennett circle of the Methodist women's missionary society will meet at the church Monday afternoon at 3:30 o'clock. Mrs. W. Earl Chapman will bring a lesson from "The Radiant Heart" by Coster J. Harrell. Members of other circles are invited to attend.

Dorcas circle of the Presbyterian auxiliary will not meet Monday; Rachel circle will meet with Mrs. A. F. Shiley, 1301 W. Kentucky, Monday morning at 9:30 o'clock; Rebecca circle will meet with Mrs. Jack Wilkinson, 611 N. Loraine, Monday afternoon at 3:30 o'clock; Ruth circle will meet with Mrs. W. G. Whitehouse, 1505 W. College, Monday morning at 9:30 o'clock.

Circles of the Baptist W.M.U. will meet at 4 o'clock as follows: Luckett circle with Mrs. Ben Black, 111 North G Street; Annie Barron and Glenn Walker circles meet jointly at the home of Mrs. Geo. Phillips, 200 South L Street; Martha Holloway circle with Mrs. C. L. Travelstead, 311 W. Florida; Kara Scarborough circle with Mrs. C. G. Murray, 717 W. Louisiana.

Business and Professional Women's club will meet at the home of Mrs. L. A. Denton, 407 N. Loraine, Monday evening at 7:30 o'clock.

TUESDAY

Women's Bible class of the Church of Christ will meet at the church Tuesday afternoon at 3 o'clock.

Chez les Aimes club will meet with Mrs. W. L. Miller, 1004 W. Kentucky, Tuesday at the usual hour.

Midland county museum at the courthouse will be open Tuesday afternoon from 2:30 o'clock until 5 o'clock. The public is invited.

The Town Quack

I wish you were here now, across the table from me just for an hour, so that I could tell you there's no will any more. I understand now, Dad, and God, how I love you and wish I could go back and be your boy again.

I know how I could make you happy every day. I know how you felt. It took a good many years, for this prodigal son — and all sons are in a measure prodigal — to come to himself. I've come. I see it all now. I know what a rich and priceless thing, and one least understood, is that mighty love and tenderness and craving to help which a father feels toward his boy. For I have a boy of my own.

And it is he that makes me want to go back to you, get down on my knees to you and ask you to hear me, Dad, and believe me — From Commercial and Finance.

Going from the sublime to the jovial, you remember a few days ago the clever poem I printed about the bridge game. I was impressed with Rusty R's verse but expressed my ignorance as to whether the budding poet was man or woman. Saturday morning I received in the mail another contribution from Rusty R. who gives a little more light on her identity:

I'm a "She" with brown eyes and freckles. And of the sun spots I don't like to be heckled. I like poetry, fine horses and fried chicken, Aw! Yum! And last but not least, The "Town Quack Column."

Now the battles you have with the Odessa Editor

I like the way you keep your chin up, you can tell Ralph Schuffler! Even though the chin may quiver sometimes

You never make the mistake of getting out of line.

For printing my "Bridge Poem"

I give you thanks.

Maybe you're doing some good for players of rank.

I'll send you another one in the near future

That will reveal I'm a sentimental creature.

Poetically "Corney", Rusty R.

Clean Both Sides of Rug

No matter how efficient your vacuum cleaner is, your rug will certainly be cleaner and consequently last longer, if it is turned over periodically and vacuumed on the wrong side, too. Also, vacuum the rug cushion.

New Mexico Visitors Are Honored at Family Gatherings

Visit of Mr. and Mrs. H. D. Carlock and daughters, Harriet Dona and Sally Jo, of Roswell, New Mexico, to relatives here has been the occasion of family gatherings this week.

On Tuesday night, Doris Lynn Pemberton and Frank Wade Arrington entertained honoring their four cousins, Harriet Dona and Sally Jo, Jackie Beavers, who is visiting here, Fred Gordon Middleton who left later in the week on a summer vacation, and a friend Cedric Ferguson, with a swimming party at Pagoda Pool followed by a barbecued steak supper at the home of Doris Lynn's parents, Dr. and Mrs. L. B. Pemberton, 1108 W. Illinois.

Present were the five honorees, Marvin Park, Melba Schlosser, Dorothy Sue Miles, and the host and hostess.

Chicken Barbecue

Friday evening the Carlock family was honored with a chicken barbecue given by Mr. and Mrs. Frank Ingham at the Pemberton home. Games on the lawn and dancing for the young people completed the evening's amusement.

Present were: The honorees; Mrs. Clyde Ingham and daughter, Viola Clyde, and Mrs. Ingham's mother, Mrs. W. F. Boyett of Monticello; Mr. and Mrs. L. J. Medlin and two sons, Homer Lewis and Shirley, and daughter, Mary Lou, of Garden City; John Watson of Abilene; Mrs. Seth Ingham and daughter, Jackie Beavers; Mr. and Mrs. Fred Middleton; Mr. and Mrs. L. A. Arrington and son, Frank Wade, and daughter, Patsy; Rev. John E. Pickering; Dr. and Mrs. Pemberton and family; Miss Josephine Guly; and the host and hostess.

Eucky Thirteen Club Afternoon Party Friday

A profusion of flowers especially nasturtiums, brightened the party rooms when Mrs. W. F. Hejl favored the Eucky Thirteen club with an afternoon party at her home, 704 W. Louisiana, Friday.

Upon their arrival, guests were served a dessert course, after which the afternoon was devoted to 42 games.

In the three tables of 42 played, high score went to Mrs. D. Davis and second high to Mrs. W. N. Cole.

Club guests were: Mmes. Davis, C. M. Clisbee, A. G. Bohannon. Members attending were: Mmes. S. P. Hall, H. S. Collings, Cole, Houston Sikes, O. H. Jones, J. T. Walker, M. H. Crawford, L. F. Joplin, and the hostess.

Mrs. Stinson Entertains for Escandida Club

Escandida club members only were present when Mrs. S. S. Stinson was hostess for a dessert-bridge at her home, 1608 Holloway, Friday afternoon at 1:30 o'clock.

Following the dessert service, the club hours were devoted to two tables of bridge. Prize for high score went to Mrs. O. L. Wood and for cut to Mrs. E. C. Hitchcock.

Present were: Mmes. Harry Adams, Peck Cunningham, D. H. Griffith, A. M. East, Wood, Butler, Hurley, Hitchcock, and the hostess.

"Dressy" Clothes Are to the Queen's Taste

By MARIAN YOUNG
NEA Service Home Page Editor

NEW YORK.—The mere fact that she is there makes every function Queen Elizabeth attends important—and more or less formal. And that she is well aware of this is evidenced by her choice of clothes. She is always—in an American sense—"dressed up."

Her Majesty likes jewels and flowers, dressy hats, pale, soft

colors, light furs, longish coats rather than brief jackets, and accessories which exactly match her dress. She prefers sheer silks which lend themselves to soft draping rather than fabrics with slightly more body. Woolens for her coats usually are sheer and soft looking. She seldom wears tweeds.

Even on trains and sightseeing motor trips, Queen Elizabeth may modify but not abandon her rule about "dressing up." She went on

Queen Elizabeth likes pearls, and she wore them with this casual wool sport suit when she and King George visited Mt. Robson, B. C.

Her Majesty, pictured aboard ship en route to America, wore this fairly dressy beige ensemble. The dress, off-the-face hat, shoes, bag and gloves all match in color.

board the Empress of Australia at Portsmouth in a light beige silk dress under a full-length unfitted coat in a matching shade, an off-the-face hat—the brim faced with beige silk, and beige shoes, bag and gloves. She appeared on deck the second day out in a similar costume in light gray with gray fox collar.

WORE SPORTS SUIT ABOARD SHIP

Later during the sea voyage, however, Great Britain's queen walked around the promenade deck and posed for photographers in a two-piece sports suit, a casual felt hat, colorful scarf, a straight-hanging, short-haired fur coat and low-heeled ghillies. She watched the ice fields, as the boat neared the Canadian shore, in a hooded coat worn with two cross foxes.

For the official drive through Quebec the day she landed in Canada, Queen Elizabeth wore a grayish-brown fox with the dress, scarf, with a wide band of smoky fox about the neckline. She did not change her costume for the state luncheon immediately following the sight-seeing tour, but simply took off her long coat and wore a long scarf of the same grayish-brown fox with the dress.

At the unveiling of the Canadian War Memorial at Ottawa, Her Majesty appeared in an off-white outfit consisting of a loosely cut dress and a full-length, straight coat of white woolen with white fox at elbows and cuffs. On the previous day, at the laying of the cornerstone of the Supreme Court building, she wore a wool ensemble of hyacinth blue and gray, a high-crowned hat, also in hyacinth blue, a smoky blue fox

Watching the icebergs during the chilly transatlantic crossing to Canada, Queen Elizabeth bundled up in this woolen coat (left) with parka hood and two cross foxes. At right, Her Majesty looks every inch a Queen in a diamond tiara, short cape of blue fox, and a white satin gown heavily encrusted with pearls.

COSTUMES ARE CORRECT FOR THEIR PURPOSES

For daytime Her Majesty's skirts usually are nine or ten inches from the floor. She wears ankle-length afternoon clothes, and seems to prefer bouffant evening gowns to all other types. The majority of her evening gowns are white, with rose, pale blue and light pink vining for second place. She seldom is seen without a double strand of pearls and at least two other pieces of jewelry. Her hats are more pretty than smart, her dresses more queenly than downright chic. They suit her perfectly, and they are perfectly suited to her position in life. Because they do suit her and because they are eminently right for the background against which they are worn, Queen Elizabeth may be called rightly a woman with fashion sense.

Miss Mary Maude Sparks Becomes Bride of Ralph Hickman at Blanco

Headlining weekend wedding interest for friends here and attended by a group from Midland was the marriage of Miss Mary Maude Sparks, niece of Mr. and Mrs. I. E. Daniel of Midland, and Ralph Hickman, also of Midland, son of Mr. and Mrs. J. O. Hickman of San Angelo, which was solemnized in the Methodist church at Blanco, Texas, Saturday morning at 10 o'clock. The young couple chose to be married at Blanco as the bride's mother, Mrs. A. J. Wagner, resides there.

The church in which the wedding took place was built by the bride's great-great-grandfather, the Reverend Gill.

Reverend Sam Capers, Episcopal minister of San Antonio, officiated at the single ring service.

Preceding the ceremony, Miss Hazel Jane Dale sang "I Love You Truly."

Miss Sudie Weir of Blanco played Mendelssohn's wedding march for entrance of the bridal party.

Miss Ellen Pearson of Midland was maid of honor and the bride's only attendant.

John A. Porter of Midland attended Mr. Hickman as best man.

The bride's brothers, George Howard and Ernest Sparks of Blanco, were ushers.

Little Jean Dorris of Fort Worth, cousin of the bride, was flower girl. The bride, who was given in marriage by her uncle, Mr. Daniel, wore a costume suit of Alice blue. A yoke of embroidered net with beaded design featured the one-piece dress with short sleeves. The waist-length jacket, tying in front, was richly trimmed with wide bands of gray squirrel fur on the three-quarter length sleeves. Accessories were navy.

She carried a prayer book.

Following the service, the bride's mother entertained out-of-town guests, including relatives and close friends of the couple, with a wedding breakfast.

Mr. and Mrs. Hickman then left by automobile for a honeymoon trip to California, after which they will be at home here.

Mrs. Hickman traveled in a costume of imported tweed with toast accessories.

The bride is well-known in Midland, having made her home here with Mr. and Mrs. Daniel for a number of years. She is a graduate of Denton high school and attended the University of Texas. At the time of her marriage, she was employed in the offices of the Humble company.

The bridegroom attended Junior college at San Angelo and the University of Texas. He has lived in Midland for the past two years and previous to that for approximately one year additional. He is a draftsman in the geological department of the Humble company.

Going from here for the wedding were: Mr. and Mrs. Daniel, Mr. and Mrs. Chas. West, Mr. and Mrs. J. R. Martin and son, Bobby, Miss Pearson and Mr. Porter.

Farewell Gift Is Presented Teacher Of Belmont Class

Approximately 45 members and visitors of the Belmont Bible class, along with a number of children, attended a picnic at Cloverdale Friday afternoon.

Meeting at the First Baptist church, the group motored out to the park about 5:30 o'clock where a supper featuring fried chicken and accompaniments was served.

Afterward games and contests furnished amusement, with Mrs. H. D. Bruce directing, assisted by Mrs. D. E. Holster.

Climax of the evening was a "treasure hunt" in which Mrs. W. L. Fickett was the winner, being presented with a quilt made by the class as a farewell gift. She is moving soon to Arizona, vacating the position of class teacher which she has held.

Out-of-town visitors for the picnic included Mrs. Elton Hinze of Brownwood, daughter of Mrs. C. E. Strawn, and Mrs. Frances McAtee of Lovington, New Mexico, daughter of Mrs. J. V. Hobbs.

GRACE LUTHERAN CHURCH
T. H. Gaalman, Pastor
Services are held every second and fourth Sunday at the Midland Seventh-Day Adventist church, West Pennsylvania and Loraine streets, at 2 p. m.

The public is cordially invited.

Mix Flavors for Variety
Chocolate and orange flavors go well together. Try flavoring cake layers with orange juice or extract, fill and ice with chocolate to which a little grated orange rind has been added. Black walnut and mint are also good with chocolate.

Mrs. Harvey Sloan Hostess to Bridge Party and Luncheon for Club, Guests

In compliment to the 1938 club and guests, Mrs. Harvey Sloan entertained with a morning bridge and luncheon at Hotel Scharbauer Friday.

Guests gathered at mid-morning in the private dining room where tables were laid for the bridge games.

High score in play went to Mrs. Roy Parks for club member and to Mrs. Alden Donnelly for guest. Second high was held by Mrs. John B. Thomas for club and by Mrs. Chas. L. Klapproth for guest.

After the games, luncheon was served in buffet style in the Blue Room. Blue flowers formed the decorative arrangements for the table.

Five Stories Told At the Story Hour Saturday Morning

Mrs. W. Bryant told five stories at the meeting of the Story Hour in the children's library Saturday morning. They were: "Little Duckling Tries His Voice" by Marjorie LaFleur; "When Napoleon Was a Boy" by Helen Hill and Violet Maxwell; "The Twelve Months" by Jeremiah Curtin (Russian Fairy Tale); "The Rubbery - Dubbery Smiles" by Johnny Bruell; "The Wizard of Oz" by L. Frank Baum.

Riddles were told by Gloria Jane Cameron, Bert Scrivner, and Barbara Ann Boering.

Present were: Bebe Slaughter, Bert Scrivner, Opal Scrivner, Mary White, Betty Lou Allbright, Margaret Ann McCarrier, Bobby Stubbs, Bobby Jean Howard, Alton Ashworth, John Clifford Wilcox, Barbara Ann Boering, David Anguish, Gloria Anguish, Jereleen Jowell, Gloria Jane Cameron, Helen Golladay, Betty Ann Gilbert, Bobby Alexander, Clinton Vaughn, Wilma D. Vaughn, Nelda Joyce Vaughn, Freddy Gist, Barbara Ann Mears, Jimmy Kirkham, Marcelline Howard, Jackie Tombs, Betty Jane Tombs, Betty Jean Meriwether, Dorothy Sue Meriwether, Dorothy Mead, Daphne Geraldine Smith, Harris LaDell Smith, Vera Ellen Richmond, John Drummond, Don Drummond, Margaret Joyce Morgan, Diane Buffington, Herman Hankla.

Teachers Endorse Junior Shakespeare Club Project Here

In line with school superintendents throughout the country who have endorsed the National Junior Shakespeare club during the past twenty-one years, Principal A. L. Gilbreth of John M. Cowden Junior high school, and Mrs. Harry Tolbert, teacher in Junior high, have heartily approved formation of a member club here, supervisors have announced Mrs. Bernard K. Buffington, president of North Ward PTA, and Miss Lydia G. Watson, music teacher, have been appointed supervisors for Midland and the or-

Methodist Women To Sponsor Riley Recital Friday

Miss Mayme English-Lillotte will be presented in a James Whitcomb Riley recital in the Crystal ballroom of Hotel Scharbauer Friday evening at 8 o'clock, under auspices of the women's missionary society of the First Methodist church.

Admission will be 25 cents and 15 cents and the public is invited to attend.

Miss Lillotte knew James Whitcomb Riley in his own home and what makes her program especially interesting, has read most of the poems in her recital for the much-loved poet himself. She prefaces her readings with a talk, in which she tells who Little Orphan Annie was, discusses "The Old Swimming Hole," and otherwise gives her audience a better understanding of the man and his works.

A typical program will include such favorite poems as "An Old Sweetheart of Mine," "Cut to Old Aunt Mary's," "Little Orphan Annie," "When the Frost Is on the Pumpkin," and many others.

The reader has had a varied experience in speech work. She served as head of the department of expression, speech and dramatics at the Indianapolis Conservatory of Music and Expression, directed dramatics, appeared on the legitimate stage in such plays as "Leah, the Forsaken," "Camille," "The Virginian" and "The Littlest Rebel," and has traveled extensively presenting reading programs.

Midland Man Weds Childress Girl Saturday Morning

Henry B. Nabers of Midland was married to Miss Mary Beth Caradine of Childress Saturday at nine o'clock in the morning at the First Christian Church in Childress.

University Club to Hear Layton Bailey At June Dance

The June dance of the Midland University club will be held in the Crystal ballroom of Hotel Scharbauer Saturday night, July 17, from 9:30 o'clock until 1:30 o'clock. Layton Bailey and his orchestra will play and Miss Alice Barrett will be featured vocalist.

Reports Made by Members of Summer Project Class

The girls of the summer project class of the high school met at their

Summer Flower Theme Employed at Breakfast-Bridge

Summer flowers inspired the colors and designs for appointments at the breakfast-bridge for which Mrs. S. H. Hudkins was hostess at her home, 1200 W. Indiana, Saturday morning at 9 o'clock.

Mixed bouquets of roses, honeysuckle, asters, and sweetpeas were employed at vantage points in the rooms.

Foursome tables at which breakfast was served bore a rosebud arrangement.

Bridge games occupied the morning hours after breakfast, with the summer flower theme being repeated in tallies and in the colors of the prize-wrappings.

Awards for high score went to Mrs. J. H. Rhoden, for cut to Mrs. C. E. Linehan, and for floating prize to Mrs. S. L. Kendrick.

Present were: Mmes. Linehan, Carl Uffers, Kendrick, J. F. Sirdevan, E. H. Davidson, Rhoden, D. W. Young, and the hostess.

University Club to Hear Layton Bailey At June Dance

The June dance of the Midland University club will be held in the Crystal ballroom of Hotel Scharbauer Saturday night, July 17, from 9:30 o'clock until 1:30 o'clock. Layton Bailey and his orchestra will play and Miss Alice Barrett will be featured vocalist.

Bailey was formerly drum major of the renowned SMU Mustang Band. He offers music of the sweeter and more subdued type, swinging only on those occasions when his patrons demand that particular type of music.

The dance will be informal and, in keeping with the tradition of the club, an invitational affair.

Reports Made by Members of Summer Project Class

The girls of the summer project class of the high school met at their

regular Friday morning session for reports which are to help the girls with their various projects and work during the summer.

Those giving reports were: Rita Whiteaker and Daisy Blizell, "Personal Grooming;" Leslie Houston, "Common Stains and How to Remove Them," "Peggy Jean Gard," "Guides for Shopper in Buying Piece Materials for Clothes;" Lillie Mae Ramey, "Guides for Buying Ready-made Clothes;" Kathryn Forrest, "Guides for Buying Foods;" and Bobby Wood, "How to build a Camp Fire and Cook Camp Food."

The girls completed plans for an overnight trip and chuck wagon feed soon.

Best of Luck
A Friend

Advertisements appearing on this page were furnished by local merchants and business men in order to aid the softball game here. After several lean years the game is making a big comeback here this year, six teams regularly participating in league games.

For the first time in several years, fans here will get to see girl softball teams in action soon. Three girl teams have been organized and the first game will be played under the lights Thursday night.

The three girl teams represent the three office buildings of the city—Petroleum Building, Bank Building, Thomas Building. All have been practicing for the past week and are reported to have some classy players on the clubs.

The girl teams will probably meet out-of-town opposition here and away from home as soon as they have held a few practice tilts among themselves.

Credit for the league this year belongs to the junior chamber of commerce. The organization agreed early in the year to sponsor the league this year, doing all

possible to aid in holding it together and making it a success. Curt Inman, junior chamber of commerce director, was named head of the softball league, assisted by Louie Cure, recreational director here.

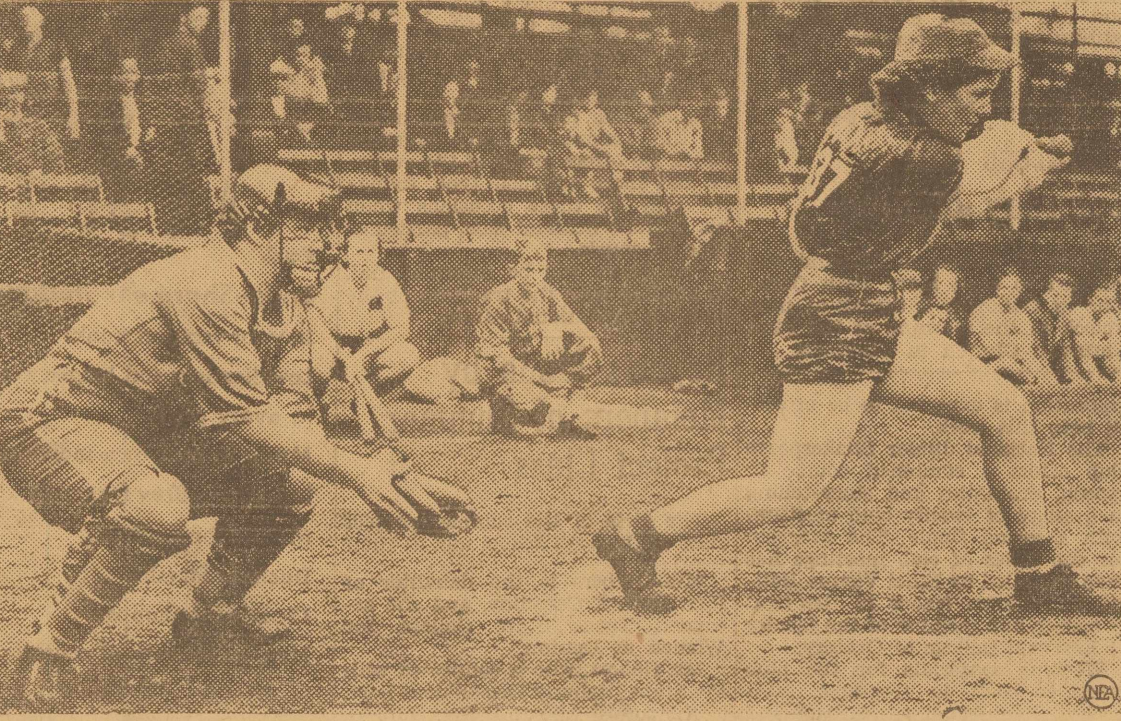

The league has not had any extreme financial difficulties so far but expenses are sure to mount now that night games have been started and officials are anxious to get as much money in the treasury as possible within the very near future.

Patronage of sports loving residents of the city is urged by officials. No charge is made to see the games, but collections are taken up nightly from those assembled.

The six clubs making up the league this season are Gulf-Atlantic, Independents, Mustang Boys' club, Shell, Standard-Phillips, Texas company.

Only one club, the Independents, has managed to keep a clean slate through the first month of the season. The team has won ten consecutive games and apparently has the first half title sewed up. The season will be split soon after the first of July.

HEROES ARE MADE—NOT BORN

COWBOYS DROP THIRD IN ROW TO PAMPA OILERS; SCORE 7-11

PAMPA, June 10. (Special). — The Pampa Oilers made it a row over the Midland Cowboys last night, 7-6, in a comedy of errors and base hits that lasted two hours and 40 minutes.

Shortstop Guynes of the Cowboys and shortstop Cross of the Oilers made three and four errors, respectively.

Gordon Nell, league leading home run hitter, paced the Oiler attack on Abernathy, getting three singles and a homer. His home run came in the first inning with one man on base. Lynn Everson paced the Midland attack with a double and two singles.

The win by Grabek marked the third he has scored over the Cowboys within the past five days.

The two clubs met again this afternoon, then the Cowboys return home for three games with the Clovis Pioneers.

The box score:

	AB	R	H	PO	A	E
Midland	5	0	1	1	3	1
Petzold 2	5	0	1	1	3	1
Wooten 1	5	1	0	9	1	0
Everson m	5	2	3	1	0	0

The PAYOFF

BY JESS RODGERS.

Affable Bob Myer, assistant coach up at the high school, is back in town—to serve as business manager of the baseball club.

Although it will be a new undertaking to Bob, club officials have expressed full confidence in his ability to handle the job. He swung into the job Saturday and has enough work already lined up to keep him busy for quite a while.

The first job undertaken by Bob was the getting out of some score cards. Ads on the cards are cheap enough that he should not have a lot of trouble in disposing of them. Those buying the ads will get more than their money's worth.

They don't come any more affable or genial than Bob and all working with him will find it is a pleasure.

We hated to see Charles Wilson leave—just as we hated to see Jimmy Kerr leave. But club officials have awakened to the fact that something drastic had to be done if Midland was to have a chance to wind up in the top four this year and a house cleaning from top to bottom was indicated as the best method.

A new manager will be secured for the team within a few days. Two men—we have been asked not to divulge their names—are being sounded out now as prospective

skippers. Both have had several years of experience in the "big show" and it is almost a certainty one of them will be selected.

Additional player help is to be received in the near future. The club must have a third baseman, another outfielder, another starting pitcher and probably someone to help Allday behind the bat.

The weakest department on the club at the start of the season—the pitching—has developed into

the strongest. With Piet, Abernathy, Brown and Leonard going the route in regular turn, the team is going to win a bunch of games just as soon as they get some older help on the club to steady the youngsters on the infield down.

There has been a lot of talk over the Malvica for Guynes trade among fans. A poll of the fans would probably show most of them did not favor the trade. Personally, I think Midland got the better of the deal. There is no doubt about Guynes being the better fielder and he is a much better hitter with men on base.

Crowds at the game here have held up wonderfully well considering the fact that the club has been in or near the cellar all season. The club would be making money if it were not for the fact expenses have been so heavy, particularly in paying transportation for boys here who could not help the club. Once a settled lineup is established Johnny Butler can start using back ink in keeping his booting.

One Midland polo player is pulling for the United States four-some to win the international cup against the Britishers, but has a strong personal interest in the Europeans. Jay H. Floyd, playing the past winter season with the Del Monte hotel team at Del Monte, Calif., was teamed up with Buddy Rogers, famed movie actor and orchestra leader; Bob Smith, west coast polo ace, and Captain Eric Tyrell-Martin of England. Captain Tyrell-Martin is now playing the No. 4 position on the British team.

In last Sunday's game, the United States won despite an injury that kept C. Smith from the line-up. The other games will be played today and next Sunday.

Captain Tyrell-Martin carries a handicap of nine goals, next to the maximum. In the west coast tournaments, Bob Smith carried four goals, Jay Floyd three goals and Buddy Rogers, one goal. Rogers, while not a horseman of long experience, is strong with the mallet and has a great future in polo, Floyd believes.

This'n that—You can't trust a lefthander for nuthin'... Bob Wooten got himself kicked out of the game here the other night, Len Johnny Volk missed one on first that Wooten would have easily snared and there went the ball game.

But the darndest thing a lefthander has done to the Midland club came in the same game.

Bob Bailey, the Pampa first baseman who hit the winning home run qualified for something when he hit the ball out of the park because the bunt signal was on.

That was one time he missed a signal and did not get fined. Why not a popularity contest to decide the most valuable member of the team and reward him with some kind of present?

Right now, this department's vote would go to Johnny Volk.

If there is a tougher hitter in the league with men on base we have overlooked him.

Claude Duffey has offered to bet 100 smack-ers that Eddie Guynes will outlast Sam Malvica over the season.

Someone called "Rock" Cunningham up after the Guynes-Malvica trade, growled long and loud over the deal and wound up by calling the club prey and other directors "a bunch of second Monday horse traders."

Jodie Marek over at Big Spring is really sitting up a mark for effectiveness.

He hasn't walked a man in the last 13 innings. A vote of sincere sympathy from this department for Bob Mort.

The young and likeable outfielder has an affliction that will probably remain permanent and it is doubtful if he ever plays another ball game.

A note of good cheer is the placing of Bob Petzold and Lynn Everson in the outfield again.

Both are real prospects to go on up. Wish we could get some dope on choosing the all-star teams that will play July 25.

Also wish the softball bunch would call in the scores once in a while.

Speaking of softball, Director Curt Inman has asked us to voice thanks from the league to Rockwell Bros., Burton Lingo, Mid-west Lumber and the A. & L. for donating lumber to build bleachers at the playing field, also thanks to the merchants who bought ads on the page appearing in today's paper.

Plus thanks to the Equipment Engineering company for helping in placing new lights at the field.

Oil News—

(Continued from page 1)

In the high-gravity area of the Pecos Valley pool, Kone Production Company No. 1 Pecos Valley Oil Company flowed 382.43 barrels of 39.8-gravity oil per day, after shooting with 174 quarts in pay from 1,538, total depth. Gas-oil ratio is 1.423-1.

Big Bend Pipe Line Company No. 3 Iowa Realty Trust, in the low-gravity area of the Pecos Valley pool, pumped 79.65 barrels a day for completion at 1,662 feet. It topped pay at 1,525 and was snoot with 30 quarts. Oil is 26.5-gravity and gas-oil ratio 100-1.

Magnolia No. 2 Abell-Eaton, northern Pecos Ordovician test four miles southwest of Imperial, is drilling below 2,782 feet in lime.

Gulf No. 26 Waddell, in the Waddell pool of northeastern Crane, established large potential of 13,633, 72 barrels a day, based upon flow during the last three hours of six-hour test. Pay time from 3,550-37, the total depth, was acidized with 5,000 gallons. The well's oil tests 33.8-gravity, and gas-oil ratio is 408-1.

Shell Oil Company, Inc. No. 1 A. D. Neal, central Glasscock wildcat, had drilled to 3,161 feet in lime.

East Denver Producer.

Daily potential of 1,373 barrels of 34-gravity oil was rated yesterday by a well in the east portion of the Denver pool, southern Yoakum, Shell No. 4-C George Baumgart. Gas-oil ratio is 1,454-1. The

well is bottomed at 5,168 feet in lime and was acidized with 1,500 gallons of 3.500 gallons. Shell No. 5-C Baumgart is drilling below 1,018 feet in red beds. No. 2-A Baumgart had reached 4,711 in lime. Magnolia No. 2 R. M. Kendrick had passed 3,940 in anhydrite and lime.

In the southwest extension of the Bennett pool, southeastern Yoakum, Devonian Oil Company No. 2 W. S. Hodges flowed at the rate of 1,074.52 barrels a day for completion at 5,225 feet after acidizing with 6,700 gallons. It topped pay at 4,995. Oil is 35-gravity and gas-oil ratio 595-1.

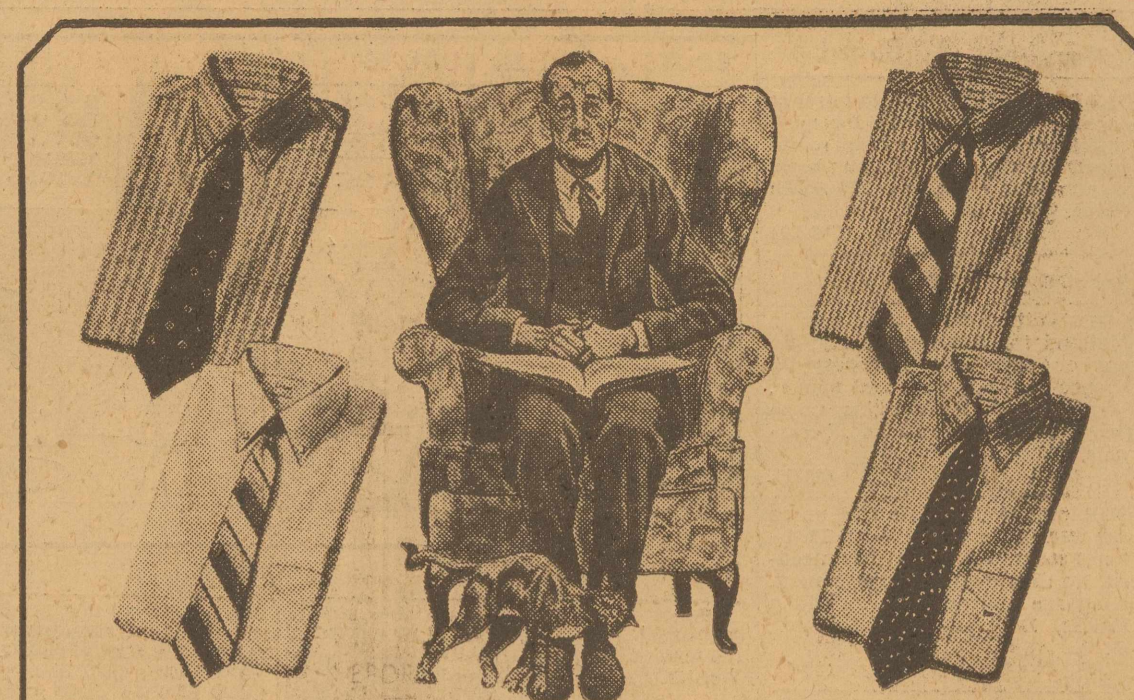

William R. Hudson and Million Oil Company No. 1 J. D. Web' Yoakum wildcat north of the Denver pool and two miles northeast of the one-well Bohago area, had drilled to 5,212 feet in lime.

Lovington Pool.

In the Lovington pool of Lea county, New Mexico, Amerada Petroleum Corporation No. 2-LA State yesterday was drilling at 1,955 feet in red beds, while Magnolia No. 2-R State had reached 2,620 in anhydrite and salt.

An extension test east of the pool Magnolia No. 1 J. L. Selby, is drilling unchanged at 4,940 feet in lime.

Magnolia No. 1-S State, three miles northwest of Lea's Vacuum pool, is drilling at 4,832 feet in hard, dark lime.

Have you a neglected father in your house?

All year around do you take Father for granted? Well, here's your chance to redeem yourself.

For as little as \$2, you can give him a Father's Day gift that will make him happy as a lark: an Arrow Shirt, the best-looking shirt there is. He'll like its Mitoga cut that curves with his waist, slopes with his shoulders. He'll get a kick out of

the well-fitting Arrow collar. And after it's laundered, he'll love the shirt even more: for it'll never shrink out of fit! Sanforized (fabric shrinkage less than 1%)

He'll like Arrow's patterns — and the whites too. Come in for 'em today!

Dad will also like Arrow Ties— \$1, \$1.50

Friday's Game

PAMPA, June 10. (Special). — The Pampa Oilers won the initial game of the series from the Midland Cowboys here Friday night, 7-4.

Pitcher Piet tried to beat the Oilers by himself but his triple, double and single weren't enough even coupled with Wooten's three singles.

Piet allowed 10 hits, one a home run by Gordon Nell with none on in the fourth. After a double play had killed two in the fifth, Guynes made two errors in a row and successive singles by Reeves, Seltz and Nell scored four runs.

Piet's triple gave the Cowboys one in the sixth, his double, a double by Everson and singles by Guynes and Wooten added three in the eighth.

The box score:

WTNM Averages

Johnny Stone of Lamesa moved in on Sam Malvica to take the West Texas-New Mexico League batting lead last week.

The Midland shortstop, headed to Lamesa for Ed Guynes during the week, had set the pace since the opening week of the season. Stone boosted his average to .402, while Malvica dropped off a point to .399.

Emmitt Fullenwider, Lobo gardner, took some of the edge off Gordon Nell's monopoly in the slugging division by piling four homers to run his string to 13, one behind the Pampa husky. Nell led in two-baggers with 27 and runs batted in with 64. Malvica had 16 doubles for second place and Stone followed in run manufacture with 47.

Tex Walton of Big Spring led in triples with seven. Boyd Watkins had 20 base thefts to lead Manager Grover Seltz of the Oilers by three.

Lee Harris, Lubbock right-hander, won his fourth decision, and with Red Hay suffering a setback, took the top twirling role. Phil Margavio of Amarillo has won three contests without a loss.

Averages include all games through Tuesday, June 6:

REAL ESTATE HOME OWNERS and BUILDERS PAGE

DAY NURSERY AND GIRLS' RECREATIONAL BUILDINGS ARE PLANNED

With \$9,000 Raised, Campaign to Complete Funds Opens Wednesday

First public announcement is made today of two civic projects, inaugurated by women's federated clubs of Midland, which are designed to provide recreational, entertainment and nursery facilities for girls, women and small children. Two buildings, on separate sites, are proposed for the projects which include: (1) a W. P. A. nursery school, day nursery and community building, designed to be located on South Main street, and (2) a girls' recreational building and athletic field, designed to be located on West Missouri street.

Buildings and equipment for the two civic projects will cost approximately \$25,000, it has been announced, of which \$9,000 already has been donated in cash contributions by a small group of Midland citizens. These donations have been of fairly large denomination and it has been pointed out by federated club leaders that the remainder of the money must come from the public in general, with both large and small contributions necessary to complete the fund.

Details of construction and plan, with explanation of the needs to be filled by these buildings, are outlined in the accompanying architect's drawings.

The Fine Arts Club first inaugurated steps toward providing such buildings when the local Girl Scouts organization was practically forced out of existence because of inability to secure quarters. Boy Scouts and Mustang organizations for boys have been taken care of in the old north ward school building, but no similar facilities are provided for girls.

Other federated clubs and civic organizations quickly joined the Fine Arts Club in seeking ways and means for providing recreational facilities for girls. At the same time, it was felt that an acute need existed for a day nursery and a W. P. A. nursery school. It was found that this, to be provided with W. P. A. personnel for operation, must be a separate unit. Hence it was decided that the two projects should have separate buildings and separate maintenance.

Endorsement of the projects has been voted by practically all civic organizations here. Besides the federated club members, many women not affiliated with any organizations have endorsed the measures and are actively engaged in promoting their consummation.

Contributions to the fund are deductible from income tax payments, it has been pointed out, being of charitable nature. Checks should be made payable to "MIDLAND DAY NURSERY AND GIRLS' RECREATIONAL CENTER." Further information may be obtained from Mrs. Fred Fuhrman, president of the Fine Arts Club, or members of any civic organization.

Campaign to secure the remainder of the \$25,000 fund will be officially inaugurated Wednesday and it is hoped to complete the canvass before the end of the week.

Similar day nursery schools are located in these nearby cities: Big Spring, with an average daily attendance of 54; Sweetwater, 45; San Angelo, 63; Brady, 40; Coleman, 52; Brownwood, 40.

In most instances, empty buildings were available and by public contributions, and city and county aid, these were put into order and used. In Midland no such buildings are available in the proper locations.

Does Midland Need These Buildings?

(Statement by Sponsoring Organizations.)

There are in this town 50 boys and 62 girls from five years of age down to infants who are eligible for the day nursery and the nursery school.

From six years to 17 years are 135 boys and 134 girls to use the playgrounds proposed.

In the years 1930-39 there are 15 cases of actual juvenile delinquency, to say nothing of the number investigated by the sheriff's office and disposed of without court decision.

In this town 120 people are living in tents and one-room shacks. They have no yards to play in and no incentive to education.

If YOU could know of the hungry, the sick, and the uncared for children in this town, you would gladly give all that you could to this project.

Valuable Pre-School Training Offered

(Statement by J. L. Greene, President of School Board.)

The nursery provides a valuable pre-school training for a group of children who usually enter school handicapped by the lack of training in health-habits, sanitation, courtesy, and citizenship.

School superintendents in towns benefited by such nursery schools report a marked decline in delinquency and a healthier, happier student body.

Endorsements Given by Citizens Where Nurseries Are Operated

BIG SPRING.

(Average daily attendance 34.)

"I believe that the Nursery School project is one of the most valuable projects that has been sponsored by WPA. I believe its cost of administration and operation is reasonable and that its value to the community is far greater than the cost." W. C. Blankenship, superintendent Big Spring public schools.

"I feel that the Nursery School project has proved itself to be of great value to Big Spring and to the people whom it serves. To prove this fact one need only visit the nursery at intervals and see the wonderful improvement in the children entrusted to their care." Mrs. J. M. Fisher, Federation of Church Women.

"The Big Spring Child Study club has asked me to write you about the Nursery School which we sponsor. To the community, we think it is of the greatest value. Our club is small but we are willing to do anything that we can to help con-

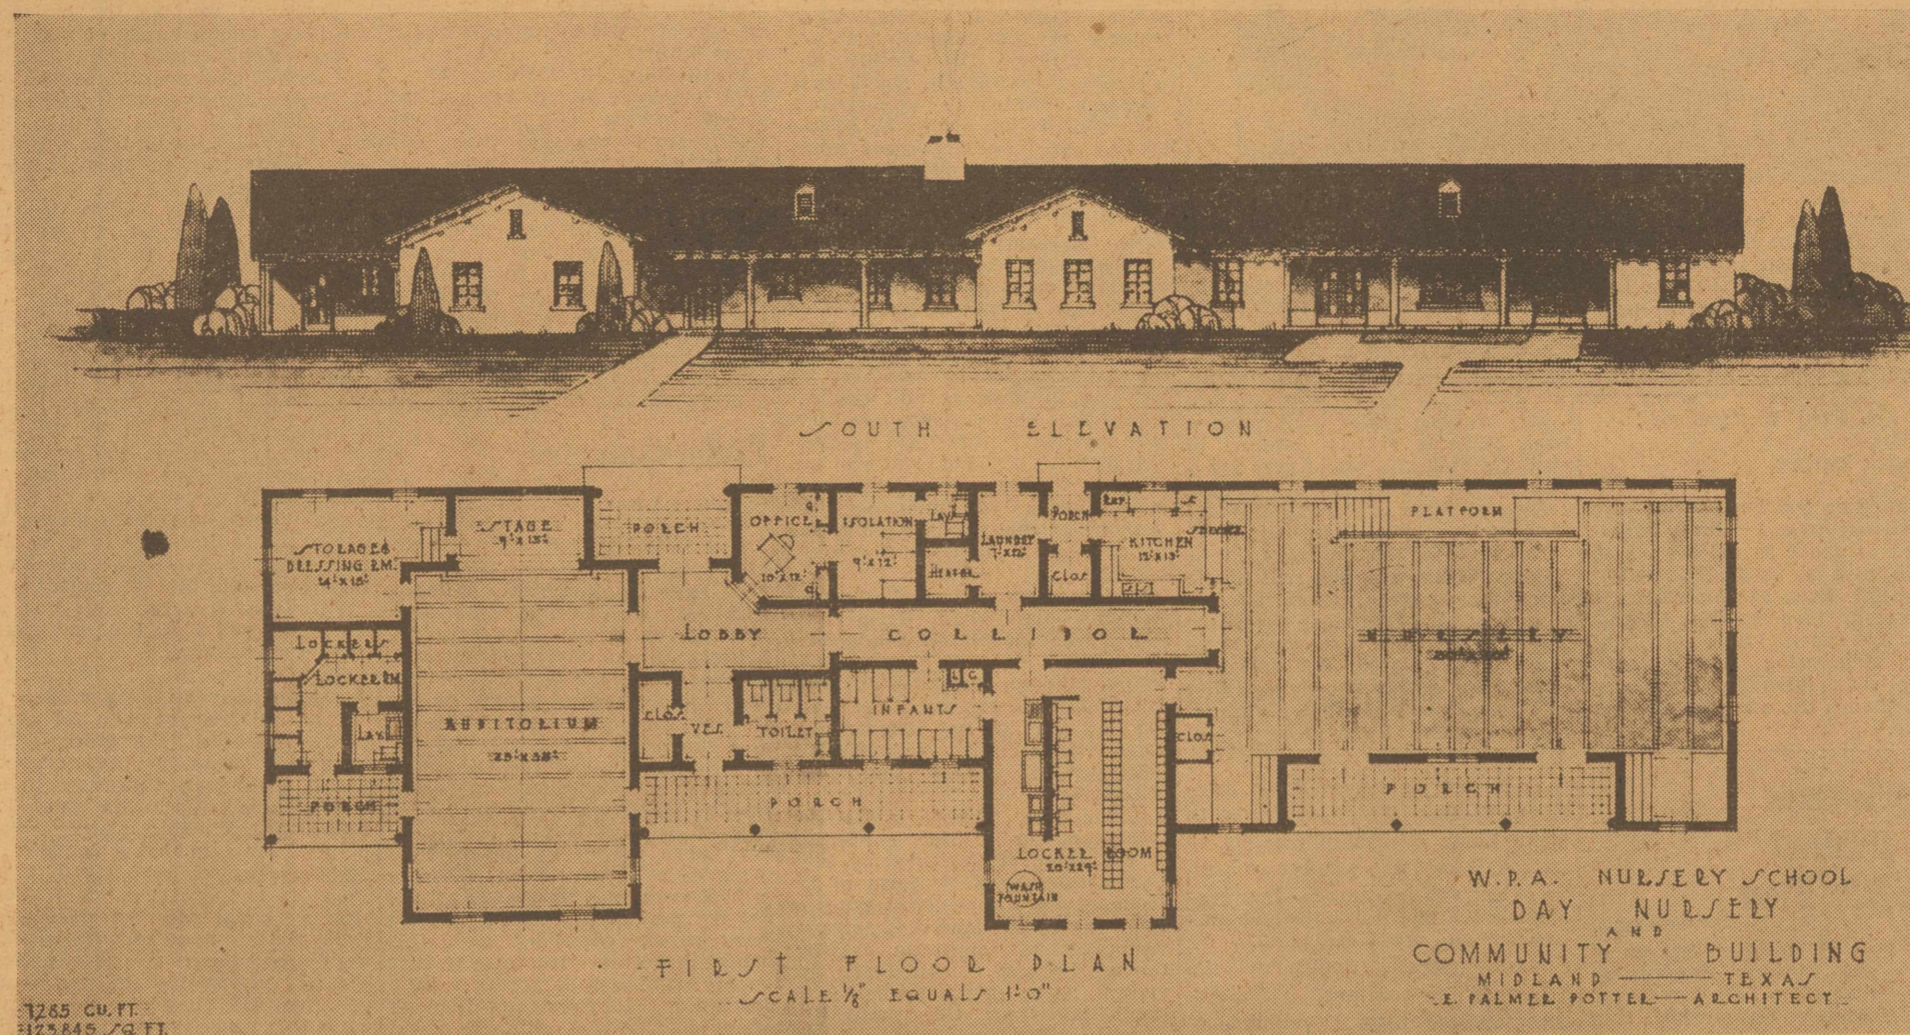

tinue the Nursery School." Mrs. H. E. Clay, secretary of the Big Spring Child Study club.

"Since the Nursery School was established here I have had direct contact with the work and will say without any hesitation at all that I think that of all of the work that the WPA is doing that, this is by far the most constructive. My work as Red Cross chairman makes it possible for me to say this." Shine Phillips, chairman Red Cross, Howard county.

"It is my honest opinion that the Nursery School project sponsored in this county is very much needed and should be continued. I very cheerfully and heartily recommend that the Nursery School project be continued in the future." Charlie Sullivan, county judge, Howard county.

"Permit me to say that I heartily endorse the Nursery School program. The value of such work to any community cannot be estimated from an aesthetic or financial standpoint

Proposed Day Nursery, W. P. A. Nursery School and Community Building

The building pictured above is to house a day nursery to care for the children of women who have to support their families and have no one to care for their children while they work. There are in Midland many children below school age who must be left alone all day while their mothers work for barely enough to support them. These children should have food, a warm place to stay, and some competent woman to look after them. Psychologists agree that the first five years of a child's life are the ones in which his character is formed, and anyone knows the importance of proper diet and medical care.

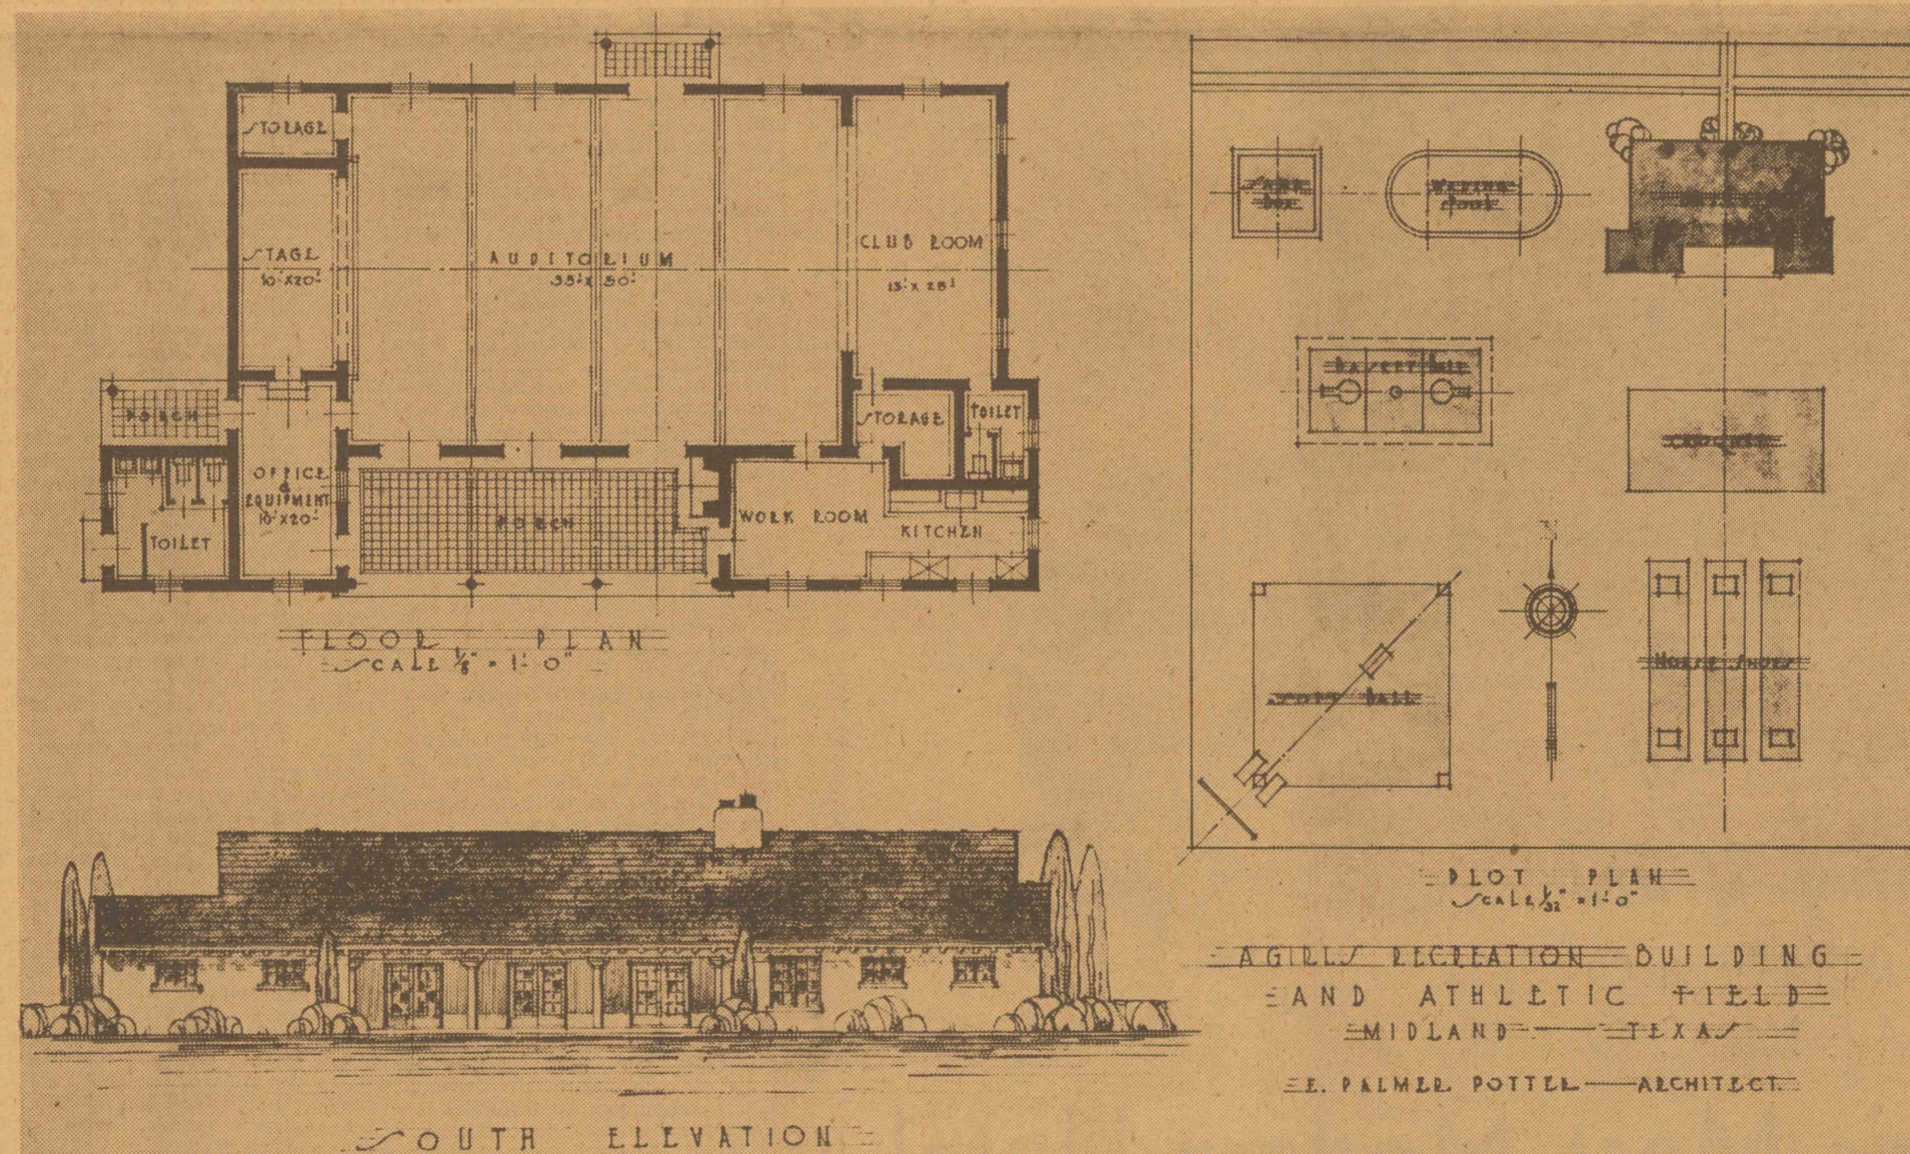

This same building is also to be used for a WPA Nursery School. Any underprivileged child from two to school age is to be admitted for nursery school training. The WPA provides the personnel for such training and the community provides and maintains the building to be used.

There are in Midland 112 boys and girls of 5 years and under who would be eligible for the care given by such a project. This would mean to these children a better chance in life. It will mean to the public schools a healthier group entering the first grade, thus eliminating much of the danger to other children. Towns in which such schools have been maintained have found a better standard of health and a much lower rate of delinquency.

The day nursery building will be located on South Main on the same block with the softball diamond. It will serve as a play center for the community, provisions having been made for the playground equipment and a room to be used in bad weather.

The WPA will provide a playground supervisor who will be in charge of the children who come to this center to play.

Girls' Recreation Building, Athletic Field Designed for West End Plot

The girls' recreational building, shown above, is to be located on the 1100 block on West Missouri. This entire block is to be used for a playground for girls and the building provides indoor play space to be used in bad weather and a meeting place for any girls' organization.

This playground is to do for the girls what the old north ward school building

and grounds have done for the boys. It will be under supervision. The building can also be used for civic meetings. There is a place provided where the federated women's clubs may meet.

The importance of keeping growing girls off the streets is self-evident. If these girls have a desirable place to meet and play, the delinquency will be negligible.

BRADY.

(Average daily attendance 40.)

"If there is anything I can do by writing our representatives or officials in Washington in regard to continuing the Nursery School, kindly let me know. Frankly, I am of the opinion that our Nursery School here in Brady has done and is rendering one of the greatest services to our people of anything I know about." B. A. Hallum, mayor, City of Brady.

"We think that there is no organization in McCulloch county that can or does do as much for our underprivileged children as our Nursery School as it is now being operated. If any part of the services now being rendered by this school should be curtailed we would be materially hurt. We trust that the WPA officials will do all in their power to keep the school operating as it now is, and we sincerely trust that the government will not see fit to curtail any of the services now being rendered by the school." Howell E. Cobb, county judge, McCulloch county.

W. E. Whitten, superintendent, Brady public schools.

"This is to certify that in my opinion the Nursery School, under the supervision of Miss Baldrige and the direct operation of Mrs. Willie Dikes, has filled a definite place of inestimable value to the underprivileged children of Brady. It would seem to me a definite step backward to discontinue this and continue any other government project. In other words, the training of children in the habits of cleanliness and other things is, in my opinion, the most important thing that can be done for future citizens." G. H. Ricks, M. D., city health officer, Brady, Texas.

"The Nursery School is taking care of a number of little children whose mothers by necessity, are required to work and add their little earnings to the living expense of the family. These mothers would probably have to remain at home to take care of the little child—too small and too young to take care of itself—and thus the family would lose the benefit of the moth-

er's earnings, were it not possible for the child to be brought to this humane institution and be cared for while the mother is at work.

The family, in many cases, if deprived of her earnings would become a charge on the community or the county; and this would add to the burdens of local tax payers, and become a lowering influence on the self respect of such family to the extent that growing children could hardly overcome. Its disastrous effects on their lives can hardly be estimated. For this reason, alone, the value in humanity and its self respect cannot be estimated, and I am sure that no more important factor could be devised for the improvement of American citizenship. I want to give the school my hearty endorsement, and would like to see its existence continued as an American institution." A. B. Reagan, postmaster, Brady.

"The Nursery School children are learning to be better citizens, by learning to be methodical, clean and healthful, both in mind and in body. (See ENDORSEMENTS, page 8)

Fifteen Warranty Deeds Recorded During the Week

Fifteen warranty deeds affecting Midland county property were recorded in the office of Suste G. Noble, county clerk, during the past week, a report Saturday showed. All were for city property except one, that being the sale of a section of land known as the "Pence Place" by R. W. Aycock to E. H. Barron. The tract is located seven miles northwest of Midland. The list of deeds follows: Higginbotham Bartlett Company to J. O. Shannon, lots 5 and 6 blk. 40, Original Town.

W. A. Chaney to L. Pearl Williams, West half of lot 2 and all of lot 3 blk. 6, High School.

G. L. Brown to Mrs. G. L. Brown, lot 3 blk. 30 partly in Original town and partly in Homestead.

L. G. Mackey to C. C. Newton, lots 11 and 12 blk. 91, West End.

Horace Eldridge to Motor Finance Co., lot 4 blk. 23, Moodys Addn.

E. H. Barron to R. W. Aycock, a portion of the Northeast one fourth of blk. 47, Homestead Addn.

R. W. Aycock et ux to E. H. Barron, sec. 24 blk. 40 tsp 1 south.

Agnes W. Ellis to David M. Ellis, lot 10 blk. 24, Original Town.

Paul A. Green et ux to W. T. Bostwick, lot 4 and east one half of lot 5, blk. 113, West End.

C. J. McNeal et ux to Fred F. Carmichael, lot 4 and the south one half of lot 5 blk. 11, High School.

David M. Ellis to Agnes W. Ellis, lot 4 and the east half of lot 5 blk. 11, West End.

E. L. Ford to Elmer B. Walker, lot 9 blk. 20, Belmont Addn.

Henry W. Batie, to A. C. Sanders, blk. 12 Moodys Addn., except the east 140 feet.

E. H. Barron and wife to E. H. Barron, County Judge of Midland County Texas, all the fractional blk. of 195 Southern Addn.

Mrs. Florence H. Kistler to E. H. Barron, all that fractional part of blk. 195 Southern Addn.

Building Permits For Year in City Total \$335,904.00

Midland building continued in a slump during the past week, permits for only \$1,550 worth of construction being granted.

The week's permits brought the total for the year to \$335,904.00, considerably less than the amount at the same time last year.

Permits issued during the past week included:

Ray Simpson, garage addition, 902 W. Kentucky, \$50.

Elma B. Walker, frame house, 1507 S. Marienfeld, \$300.

Martin Duval, garage, 808 West Louisiana, \$200.

Don Oliver, servant's quarters, 2104 W. Brunson, \$1,000.

Extra Width Is Requirement of Corner Lots

Every residential lot within a neighborhood should provide free area on all sides of the space to be covered by a dwelling. Federal Housing Administration officials declare; because of this, particular attention should be given corner lots.

Land-planning officials of the FHA recommend that corner lots be given extra width at least to the extent of the additional side-yard required by the side-street setback. With a normal side-yard requirement of five feet and a side-street building-line setback of 15 feet, corner lots should be at least 10 feet wider than interior lots.

The purpose of streets is to afford means of access, fire protection, space for underground utilities, light, and air. Local residential streets 40 to 60 feet in width are not wide enough to provide adequately for light and air, and the need for additional open space is recognized by most zoning ordinances and platting regulations.

Regulations establishing minimum building-line setbacks on the front, sides, and rear of dwellings must be considered by the developer or subdivider at the time lot lines are established.

Screen Doors Need Seasonal Care

Screen doors and window screens require attention at least twice a year. They should be removed and put up in the Spring and removed and prepared for storage in the Fall.

If a good grade of screen wire has been used and the screen doors have been well cared for, the work involved will not be great. The Federal Housing Administration, through its Property Improvement Credit Plan, insures loans made by qualified lending institutions for purchase and installation of screen doors.

Motoring Safety Is Daily Feature at Treasure Island

In a spectacular Goodyear LifeGuard free safety show, now taking place three times daily at the San Francisco Exposition on Treasure Island, a car traveling at 65 miles an hour is dynamited to thrill the crowds. Inset: Paul Faulkner, driver of the test car at

On the longest and narrowest space at the San Francisco World's Fair on Treasure Island crowds are thrilled daily by the free Goodyear LifeGuard test run being acclaimed one of the most spectacular shows on the island, according to Ever Ready Auto Service, local Goodyear dealer.

This space constitutes the specially built 1500 foot runway on which three times a day, the LifeGuard test car roars along at better than 60 miles an hour to prove that Goodyear LifeGuards are as necessary to complete motoring safety as four-wheel brakes, all-steel bodies and safety glass.

"One of the most spectacular features of the show is to witness the car reach a speed exceeding 60 miles an hour in a distance of less than 800 feet. At about the 800 foot mark, the outer casing of the LifeGuards is literally torn to shreds, by eight-inch railroad spikes projecting from the road, but the twoply LifeGuard reserve tire turns the blowout into a slow leak and enables Goodyear Driver Paul Faulkner to bring the car to a straight, safe, normal controlled

left, shows how he ripped LifeGuard's outer tube by hurling the car over eight-inch railroad spikes in another phase of the show. Left to right, Irwin Willis, Goodyear master of ceremonies for show, Victor Holt, Goodyear LifeGuard Division manager and F. M. Sandusky, Exposition exhibits chief, inspect one of the LifeGuard twoply reserve tires that turned a blowout into a slow leak, allowing car and occupants to come to a straight, safe stop. Other picture, view of the test run track were up to May 15, 43, 409 people had witnessed the event.

stop," Mr. Fred Wemple said.

Illustrates Danger

On another test run, a tire with conventional tube is blown out at a speed of about 30 miles an hour because that is as fast as safety will permit. Even at this relatively slow speed, the sudden blowout causes the car to lurch and sway, clearly illustrating the potential danger that lurks in every tire equipped with the conventional type of tube.

Foreclosures Not Desired In FHA Plan

The Insured Mortgage System of the Federal Housing Administration is designed to help families by homes under terms which they can meet, declared Administrator Stewart McDonald.

Mr. McDonald was the most active in FHA's history, Mr. McDonald said in a letter transmitting the report, and gross business transacted by the Administration exceeded one and one-quarter billion dollars, an increase of approximately 90 per cent over 1937. Total business included \$1,010,000,000 in small-home mortgage - insurance applications, commitments to insure \$74,000,000 of mortgages on large-scale housing projects, and property-improvement loans amounting to \$173,000,000 insured.

Mr. Wemple added that anyone from Midland who is planning to visit the Fair and would care for a ride in the car during one of the Lifeguard tests can make the arrangements by visiting his store.

In charge of the exposition event is Irwin Willis, who was sent to the coast from Akron, Ohio, by the Goodyear Tire & Rubber Company. The demonstration takes place three times daily at 1:00, 3:00 and 5:00 p. m. Mondays through Fridays and at 12:00, 2:00 and 4:00 p. m. on Saturdays and Sundays.

that it may be necessary to foreclose, because its objective is to make home ownership possible to an ever increasing number of persons and to encourage improvement in housing standards and conditions," McDonald explained.

"This purpose would not be achieved," he continued, "if mortgages were insured indiscriminately without due consideration of the ability of the borrower to repay the loan and eventually own the home debt free."

1938 Volume of Home Building Exceeds Year's Population Rise

For the first time in nearly a decade the volume of residential building in 1938 was more than sufficient to house a year's increase in nonfarm population and to replace houses destroyed or torn down, according to the annual report of the Federal Housing Administration for the year ended December 31, submitted to Congress by Administrator Stewart McDonald.

The year was the most active in FHA's history, Mr. McDonald said in a letter transmitting the report, and gross business transacted by the Administration exceeded one and one-quarter billion dollars, an increase of approximately 90 per cent over 1937. Total business included \$1,010,000,000 in small-home mortgage - insurance applications, commitments to insure \$74,000,000 of mortgages on large-scale housing projects, and property-improvement loans amounting to \$173,000,000 insured.

Strong Recovery Factor. "The sharp rise in these credit-insurance activities was largely instrumental in the vigorous revival in the residential-construction industry, which was one of the earliest and strongest forces acting for recovery in business and employment from the recession in late 1937 and early 1938," Mr. McDonald said. Total nonfarm residential construction was estimated at more than 346,000 units for the year, with single-family structures accounting for 262,000 of the year's volume.

Commenting on the fact that the Administration had insured a grand total of 912,000 small-home mortgages, amounting to \$1,300,000,000 through December 31, 1938, Mr. McDonald expressed the opinion that the Mutual Mortgage Insurance System has "established a new epoch in home financing in this country."

"Long-term, fully authorized mortgages" for a high percentage of the value of the property have been made a suitable form of investment for the principal types of financing institutions that serve as custodians of long-term savings funds," he said. "In turn, this makes such credit available to small borrowers throughout the country at the lowest rate of interest ever generally available."

FHA Influences Market. Because of the large increase in

the number of new homes financed with insured mortgages, the Federal Housing Administration's property standards, minimum construction requirements, and neighborhood planning standards have exercised a growing influence on the stability of the home-mortgage market.

Experienced home buyers have come to realize that the FHA provides, for the first time in our history, an agency which can give an unbiased opinion on the quality of the home securing the mortgage, the ability of the borrower to meet mortgage payments, and other matters of great importance to the home buyer.

Financially, the Mutual Mortgage Insurance System has reached a point where current receipts, chiefly from appraisal fees and mortgage-insurance premiums, are well in excess of operating expenses, Mr. McDonald said. In spite of the additional duties imposed on the Administration by the 1938 amendments to the National Housing Act and the consequent increase in insurance activities, operating and administrative expenses of the Administration were less than \$11,400,000 in 1938.

Endorsements. (Continued from page 7) I had rather see any project close before this one. It has been said, "The early training is the training that stays with a child throughout life." Brady is doing this for the Nursery School for their children, because they feel that in this way they will reap many benefits in the kind of citizens the school will mold.

"I can be of any help in keeping the Nursery School functioning in Brady, I will gladly lend my assistance," Mr. P. McClure, McCulloch county social worker. "I have known of the type of work done by the Brady Nursery School ever since its beginning, but for the past several months I have been closely connected with this school and I am glad to state that in my opinion it is a very worthy institution. It is getting hold of those children who ordinarily would never enter the public schools, giving them some training that is very essential to their future well being."

"These children are receiving training in health habits, sanitation, courteousness and a respect for the rights of those with whom they associate. It is my belief that the work of the Brady Nursery School will cause many children to enter the public schools when they reach the school age who would have never done so were it not for the interest and encouragement they and their parents are receiving from the Nursery School. Another important thing is that these children are receiving properly prepared, much needed food that will mean much to their physical development. J. E. Herring, county superintendent, McCulloch county.

"I want to take this opportunity to express my appreciation for the Nursery School here in Brady. I do not think that the city, county, or federal government could spend money on or sponsor any project that would be of greater service to so many children that haven't had a chance to be properly cared for at home. I have visited our local WPA school many times and noticed that the children are being taught most of the things that children are taught in model homes. As one of the sponsors of our local school, I wish to say that I would like to see it continue, and I am sure I am speaking the sentiments of most of our people." Joe C. Myrick, chief of police, Brady, Texas.

"My reasons for wanting the Nursery School to continue in Brady are listed as follows: It furnishes employment for people that I personally know and who have the responsibility of providing for their families. Being an ex-teacher and active in Parent-Teacher work, I realize the importance of the training the children are getting and as result they are better fitted for public school and better future citizens. The parents of these children can be reached and trained in parent education which will be of great help in making the home a better place for the child as well as making the child better for the home." Mrs. John C. Moffatt, president North Ward Parent-Teachers Association.

BROWNWOOD. (Average daily attendance 40.) "We feel that the work accomplished by our Nursery School has been of such nature that without it our community would be severely handicapped. For the continuance of the same we pledge our full support and cooperation." T. B. Reece, pastor, A. M. E. church.

"This is to certify that I have been familiar with the work of the Brownwood Nursery School since it first began operation in Brownwood. I have observed the work of the school and feel that it is one of the most worthwhile projects of the Brownwood area. There is no way to measure the good that has been accomplished by this school and the effects for good, both physical and spiritual upon the children who have come under its influence." Mrs. J. W. Trapp, member of Daniel Baker college staff.

"Our old folk as well as our young people's welfare are certain-

ly most important, but to neglect a child through failure to see after his physical, mental and spiritual needs, is, to my way of thinking, too important to pass up lightly. Therefore, as a local pastor, and also as county chairman of the Red Cross I urge that the Nursery School be continued." A. W. Anderson, pastor of First Christian church.

"From personal observation I am in a position to give testimony to effect that the Nursery School in Brownwood, Texas has been rendering a most helpful service; both to the children and to the mothers. Many of the children have gained weight, when before entering the Nursery they had been sickly. Many have taken their first Cod-liver oil; I was present when it was being given one morning, and they took it like little soldiers. While these mothers are working the children are being taught habits of play together, right eating habits, right rest habits and helpful lessons in obedience. Habits in cleanliness are also taught. It would seem to me that every city should have a Nursery School." Karl H. Moore, Minister, First Baptist Church.

"I have been a teacher in the Brownwood Ward Schools for the past several years, in the primary department, and feel I am in a position to determine the value of Nursery School training. I feel that it has rendered a most helpful and lasting good not only to the city of Brownwood, but especially to the future of the children. I am a member of the A. A. U. W., one of the local sponsors, and we have observed the good of this school and we all heartily endorse this work. We are more than willing to aid in the future as we have in the past. Brownwood is able and willing to assist in this work after seeing the good that has been done in the past." Mrs. Elsie Buhler, Teacher in Coggin Ward.

COLEMAN. (Average daily attendance 52).

"I am writing you with reference to the Nursery School which is being conducted in our city, and it is with a great deal of pleasure that I endorse this project with every degree of sincerity that is at my command. I am sure that it is the outstanding project that the city of Coleman is sponsoring, for I know that we could not deal with anything that is more important than the little children of our city, and it is not responsible for the living condition that they have to contend with. The whole project is managed perfectly, and I know that we are not spending one dime there that we are not getting one hundred cents on the dollar plus." E. P. Scarborough, Mayor of City of Coleman.

"Recently it was the business of the Coleman Kiwanis Club to place wisely a little money that we had raised through a show given in Coleman. We felt that we ought to put it in the place where it would do the most good and where it was most needed. After a thorough investigation of a committee responsible to the club for the funds, we decided that the most worthwhile place would be to invest it monthly in the upkeep of the Nursery School. I am mighty happy to say that these business men who made the investigation were sold on the way this school was being run and the benefits it was giving to the underprivileged children of Coleman." Robert F. Jones, President Coleman Kiwanis Club.

"In regard to our Nursery School of Coleman I am glad to say that I think that it has done wonderful work in caring for the underprivileged children. I can see a great improvement in the children, in their health, nourishment and cleanliness." J. M. Nichol, M. D.

"I am glad to state that I think the Nursery School a most worthy project and one that will effect the future generation. The majority of the children at this Nursery School, as you no doubt have noted on your visits here as well as at other places, are undernourished and children who are not properly cared for in their homes. In my line of work, I come in contact with these children frequently and one cannot help but notice their improvement in a very short time. I can see how well they are being taught to take care of themselves, and they appear to be greatly improved in health." W. C. McHorse, Supt. City of Coleman.

"My opinion is that the Nursery School is one of the best projects the government has ever put on and I certainly feel that the \$5.00 per month I am donating to this work is money well spent, and I hope that it will continue its good work." W. P. Stobaugh.

"The Commissioners Court has visited the Nursery School several times and consider that it is doing a wonderful work. We certainly appreciate the interest that is being taken by the teachers and supervisors, the children are being taught sanitary habits, and the parents are being shown proper feeding and care of their infants, as well as the best methods of purchasing the same." John O. Harris, County Judge.

SAN ANGELO. (Average daily attendance 63.) "Recently a good bit of discussion has been going on about the value of the Nursery School to a community, etc. As a representative of a Tuberculosis Association let me say that we feel the need of this school and believe it is doing untold value to build strong disease

resisting little bodies so that later in life they can resist and not become tubercular. Another reason for the value of this school is that little children with tubercular parents can be admitted into this school and at least part of the day have adequate care, food, thereby building stronger bodies, and minds." Mrs. L. Cayer, Executive Secretary Tom Green Co. T. B. Ass'n.

"I have been interested in the Nursery School project since coming to San Angelo last September and I have had occasion to learn something about it. I think that no person who has any knowledge of this work questions its value to the community. The work has been done efficiently here in San Angelo and the people who have directed it, have certainly rendered a fine service to the community and all of the civic organizations, as well as a number of individuals, have displayed a willingness to share in the cost of the project. There is no question but that the community is able to do its part. A great many services have been performed since I came to San Angelo and I know of no one that is more deserving of praise and continuation than the Nursery School Project." Wilson H. Ekins, President San Angelo College.

"Since its inception I have been familiar with the work of the Nursery School. I am thoroughly for it in every sense. Not only is it doing a notable work for underprivileged children while giving employment to some very capable people, but it is also doing these things, it is gradually educating the community to the desirability of extending such facilities to other than underprivileged children and to the hope of putting such work on a permanent basis. I have heard numbers of people rank this project as the most worthwhile of all WPA activities in this area. Thus, it has not only sold itself but has done missionary work in helping sell other related work to the community." C. C. Minatra, Dean of San Angelo College.

"It is our opinion that the Nursery School Project is one of vital importance. The discontinuance of this school would deprive a large number of children a good start in life. The money spent in the operation of the Nursery School is a splendid investment in future citizens. The people of San Angelo believe in and are willing to support the Nursery School because they recognize the value of a good start in life which the School offers so many youngsters." Frank M. Jackson, County School Superintendent and Mrs. Bonnie Batts, County Health Nurse.

"The Nursery School as now equipped cares for a limited number of children which are in the required age. A few weeks training in this school makes a noticeable difference in the appearance and habits of each child. Its health usually is improved; neatness in appearance and habits of each child are acquired. Observing these children at work and at play suggests that all underprivileged children of this age should have the opportunity which is furnished in this school, so we are anxious to retain all that we now have and extend the service to cover a larger group if possible. We find the public appreciates this training opportunity for children, and it is responding with sufficient funds to carry this work forward, notwithstanding every citizen already is burdened with many charities and social obligations. A feature of this work, that is worthy of mention, is the refining, cleansing, atmosphere and orderly habits which these tots carry back to many homes. This is a most wholesome and desirable uplifting influence needed in every community." W. D. Twichell.

"In regard to the Nursery School Project, we wish to say that in the City of Coleman's opinion it is a worthy project, and we consider it of value to the community and would not care to see it discontinued." J. B. Hart, City Manager.

"Words are inadequate to express

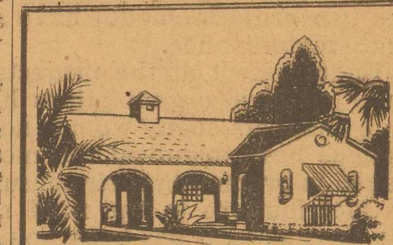

our appreciation for the Nursery School under the supervision of Miss C. E. Baldrige and our local instructor, Mrs. Lela Bland. The good that has been derived from our Nursery School, has been quite profound." A. Q. Shirley, M.D. SWEETWATER

(Average daily attendance 45.) "The Nursery School Project, which has been in operation over a year in Sweetwater, has, from my point of view, which is that of health, been definitely worthwhile. All of the children who have attended even for a short while have improved in general health and physical well-being. They have received laboratory tests and immunizations which their parents would not have otherwise given them, have improved in nutrition on the average at least one hundred per cent; and have learned how to take care of themselves in a better way about the household. It is difficult to evaluate all of these things in terms of money. My belief is that should any reasonable value be placed upon them, the total value to the community would greatly outweigh the expenditure which has been made." George A. Gray, M.D., Director Sweetwater-Nolan County Health Unit.

"I have taken a considerable amount of interest in the Nursery School and have observed it very carefully, and know that a great amount of very valuable work has been done in this school. I approve of the project most heartily and hope that it may be continued. The service that this project is rendering to the underprivileged children of this community would certainly be a great loss should it be discontinued." R. S. Covey, Superintendent Sweetwater Public Schools.

"As the fiscal year of Works Progress Administration is nearing its close, I realize that includes the Nursery which I feel is almost indispensable as I have watched the children from the day they entered. I feel that the value to these tots both mentally and physically cannot be measured in dollars and cents. I am sure the community is conscious of this fact and will be eager to do their part another year should we be so fortunate in getting the project continued." Mrs. S. O. Herring, Supt. Nolan County Welfare.

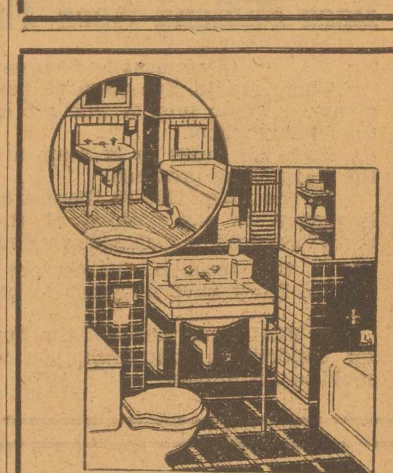

A new automatic air clutch control for automotive vehicles has been placed on the market. Its main purpose is to increase all-round driver-passenger comfort.

Nebraskan Nips Taxes in Bud by His Exposure of Expenses to the Public

By ROSCOE FLEMING
NEA Service Special Correspondent

DENVER.—When you find an entire steel bridge missing and county commissioners trying to treat it as a minor special error—when you find missing a whole carload of gasoline that the public has paid for—when you find \$1.25 crested fence-posts called piles and bought for \$12.50 each—when you find ledger-books costing \$32.50 in one county and \$2.50 in the next—then you've really got something on which to go to town with a taxpayer's economy crusade.

That's the hard-boiled approach to economy in government of Frank G. Arnold, president of the Nebraska Association of County Taxpayers' Leagues. Arnold is

rapidly making himself the foremost American foe of taxes and useless public spending.

NEW LEVIES CONSPICUOUSLY ABSENT

So effective has Arnold's work been in Colorado and Nebraska that neither state enacted a single new tax this year. Arnold reports, "In Nebraska the only tax bill to reach the floor of the unicameral legislature was for a graduated income tax, and it got only seven or eight votes out of 43. In Colorado, despite the pressure exerted by advocates of the old age pension and by other spending blocs, no new taxes were enacted."

"I find a growing interest in our Nebraska method of exposing all local public expenditures to the light of public scrutiny. When people know to the last cent what their money is being spent for, public officials hesitate to spend it extravagantly."

In Nebraska, Arnold's associations are organized virtually throughout the state. In Colorado, the Governmental Research Association, financed by contributions of wealthy and high-tax-paying Coloradans, has already subjected 23 of the 63 counties to the Nebraska method of a searching audit and a recapitulation of expenditures for selected years. It is working in seven more counties, and in one of them, Las Animas, a group of county officials have been sent to state prison for stealing everything not bolted down with brass screws.

"That didn't help the county's taxpayers much," notes Arnold. "They have the costs of prosecution to pay as well as the cost of the stealing."

"How much better it would have been to have had a militant citizens' organization on the job to scrutinize carefully every public expenditure and every official act!

EXAMINES EVERY LITTLE ITEM
"The way we do it is tedious and unspectacular. Out of some 18 billions of public spending in the United States, six billions are spent locally. Citizens can do something about this latter drain if they will. We look at every little item, every year, in every county that we have organized. The people who support our work are willing to continue the steady, non-sensa-

Frank G. Arnold

tional, even boresome scrutiny which alone can force public officials to account for every wasted penny.

"It's the many thousands of small items that mount up. In one county where we audited more than \$6,000,000 of expenditures, there were only \$200,000 worth of items that could by any stretch of the imagination be called large. The rest went for more than 250,000 small items."

"From my experience, I believe American citizens are becoming more and more capable of just that sort of interest in their local government. Temporary crusades don't get the job done."

Arnold believes that American state legislatures in general appear to have hesitated in "the mad rush to spend," and that it is high time.

Public expenditures are generally reckoned at about 20 per cent of public income," Arnold says. "But I find that income from government is usually reckoned as part of the gross public income. So I suspect that 40 per cent would be nearer the real proportion that the citizen pays for government."

CHRISTIAN SCIENCE SERVICES.
"God the Preserver of Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 11.

The Golden Text is: "Thy righteousness is like the great mountains; thy judgments are a great deep; O Lord, thou preservest man and beast" (Psalms 36:6).

Among the citations which comprise the Lesson-Sermon is the following from the Bible:
"Hear, O Israel: The Lord our God is one Lord: And thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might" (Deuteronomy 6:4, 5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Having no other gods, turning to no other but the one perfect Mind to guide him, man is the likeness of God, pure and eternal, having that Mind which was also in Christ" (page 467).

FIRST METHODIST CHURCH

Amended National Housing Act Signed By the President

DALLAS.—The amended National Housing Act, signed by the President on June 3, is designed to continue, with modifications, the liberalized home financing program begun in February last year under the National Housing Act amendments of 1938, stated Wm. H. Clark, Jr., State Director, today.

He said, "Its enactment should give renewed assurance to the residential construction industry, to home financing institutions, and to individual home buyers and builders who may have been holding up plans because of uncertainty regarding the future of the FHA. In other words, they may go forward with confidence that virtually all the financing facilities available to them in the past year will still be at their disposal."

As the Senate Banking and Currency Committee pointed out in its report recommending passage of the amended Act: "Such continuance directly concerns the orderly progress of recovery and employment and the opportunity of American families to obtain better living standards."

Principal features of the amended Act are:

1. Authorization for the President to increase to \$4,000,000,000 the amount of outstanding mortgage insurance obligations the FHA may have at one time. The present limitation is \$3,000,000,000, and the outstanding principal obligation at this time is approximately \$1,400,000,000, not including approximately \$400,000,000 in outstanding commitments to insure.
2. Continuation of the FHA's authority to insure mortgages on existing construction until July 1, 1941. Homes financed with FHA-insured mortgages will continue to be eligible for FHA financing indefinitely.
3. Requirement that in the refinancing of mortgages the applicant for insurance must file a certificate that the mortgage holder has refused to grant him equally favorable terms.
4. Extension indefinitely of the authority of the FHA to insure mortgages on small homes involving mortgages of not more than \$5,400 for terms up to 25 years. Under the old bill the maximum maturity of 25 years reverted to 20 years, as of July 1st.

Who Wants to be Lazy with THIS one Around?

The model illustrated is the Buick SPECIAL model 41 four-door touring sedan \$996 delivered at Flint, Mich.

\$894 AND UP
delivered at Flint, Mich. *State and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

SUMMER'S COMING! Warm sun—deep shade—buzzing bees—long, lazy days inviting you to take it easy!

Gonna fall for that? Well, maybe—if that car in your driveway is just a run-of-mine job. But suppose it's a Buick—then what?

Then, good sir, you're in for an active summer. A summer of going places, seeing sights—and having some honest-to-goodness fun!

You'll boss around a brilliant Dynaflex straight-eight engine as thrilling to handle as a flyrod—you'll be as comfortable as in your favorite hammock, in seats that are fashioned to fit your frame.

You'll go exploring over the little-traveled back trails—and soft springs of coiled steel will cradle every jolt and jar. You'll look out to the far horizons through windows wider, and bigger—there's as much as 412 square inches more space to make your outlook easier.

Yes, you'll pilot a carriage that's staunch and snug and firm beneath you—yet every nudge of your treadle foot gives instant-quick action that'll bring a grin of deep delight.

You'll find a lot of things to be happy about. But principally that you'll want to travel, want to do things, want to get out and about instead of just loafing.

So you'll find this a summer to remember,

"Better buy Buick!"

How the Blind Helped the Blind Learn to Write

By NEA Service.

VALLEJO, Calif. — The blind long have been able to read by the Braille system, but it remained for Lieut.-Com. Joseph B. Earnest of the U. S. navy chaplain corps to give the blind a chance to write.

It wasn't necessary for a surgeon to tell the aging Earnest that he had gone blind one morning last December. Darkness had closed in on him—and he knew it.

But he determined to rise above the tragedy. And, because he likes to write, he supplemented modern aids to the blind with an invention of his own.

He calls this implement the "writing aid." It consists of a 9 by 17-inch drawing board, a spring clasp, rubber bands, two strips of wood, two thumb tacks, a paper clip. The working model cost less than a dollar.

The board provides a writing surface; the clasp, at the top of the board, holds the paper in place. The 17-inch length permits the hand to be at the same writing level on the bottom line as at the top.

Two narrow strips of wood, notched at even intervals, are attached to the sides of the board, with the base of the notches one-sixteenth of an inch above the

board. Two thumb tacks near the point of spring contact, define the upper limit of the writing paper.

Stretched across the board at each notch are four pairs of rubber bands, forming raised parallel lines. When lower parts of such letters as "j" and "y" are written, the bands' elasticity brings the pencil back to the line automatically.

The clip can be hung on a rubber band to mark the place, in case the writer is interrupted.

Chaplain Earnest has no desire to patent his discovery, but he hopes that every blind person will find out how to build a "writing aid"—giving them an opportunity to express their thoughts other than orally.

"When I became blind," he says, "I began to wonder what to do with my life. I wanted to keep in close personal touch with friends and relatives elsewhere. I thought there must be some way I could write to them, without the aid of others. I have found the way."

Earnest is a Ph. D. graduate of the University of Virginia. He and his wife have purchased a home in Vallejo, across from Mare Island navy yard, where he can continue his contacts with the service.

400 Texans Provided With Official Status of Nobility by New Proof

AUSTIN—A University of Texas librarian's rummaging fingers today provided some four hundred Texans with official status as members of the Spanish nobility.

The document discovered here—a certified copy of a royal decree dated 1730 and signed by the Spanish viceroy in Mexico City in the name of King Philip V of Spain—designated the 15 original families of San Antonio and their descendants "forever to be landed noblemen of the kingdom of Castile."

Also included in the document were writs by the Spanish king officially designating San Antonio—then the Villa de San Fernando—as the capital of the Spanish province of Texas. Provisions were likewise made for setting up a civil government in the military outpost that was San Antonio more than two centuries ago.

The copy in possession of university librarians was made in San Antonio in 1896, and as far as researchers have been able to ascertain, the only such record available. No trace of the original has appeared.

Some believe the original was stolen, librarians say. Others say it was taken back to Mexico City about the time of the Texas Revolution. An annotation on the university copy says it was kept "on file in the archives of the city council" in San Antonio.

A flurry of excitement has already appeared among the descendants of the "landed nobility" in San Antonio, organized in 1931 as "Los

Islenos," the (Canary) Islanders. They meet regularly at the governor's palace in San Antonio and celebrate with an open house on March 9, the day of the arrival of the first settlers.

The "discovered" manuscript is part of the Spanish archives, a rich collection of government papers transferred to the University of Texas library by Bexar county commissioners in 1899. More than two hundred thousand pages of manuscripts and printed matter are now stored in a fire-proof vault under the library's twenty-seven story tower. They represent an almost unbroken string of first-hand Texas history, when translated by librarians, available for use by students and historians.

Workers some time ago had put aside in the incomplete files several pages of a manuscript that had its first page torn off. Months later, Mr. Haggard, in checking the files, discovered the missing first page, compared the handwriting and composition. The significant royal decree was revealed in its entirety.

The Canary Islanders of San Antonio were notified of the discovery through their society president, Miss Esther Perez Carajal of San Antonio, whose forefathers were among the original settlers.

She estimated the number of direct descendants of the original fifteen families in the neighborhood of four hundred. Of the original group, however, the name of Perez is the only one that remains intact among the living descendants. Others have

Don't Make Catty Remarks If Your Own Appearance Isn't Up to Scratch

By ALICIA HART
NEA Service Staff Writer

The personality experts sound theory that you never build yourself up by tearing someone else down can very well be applied to beauty. In other words, the surest way to draw attention to the flaws in your appearance is to go around making catty remarks about how other women look.

If you say, "Agatha's getting pretty hippy, isn't she?" somebody is likely to think, if not actually say, "Well, you aren't so slim." Or else, "You'd be better off if you gained a few pounds yourself."

The minute you remark that so-and-so's coiffure is terrible, you focus attention on your own hair. All well and good, though hardly kind, if your own hair always looks really lovely, but pretty silly if it doesn't.

The two remarks which women

hate and resent most of all are of course, "Such and such makes you look old" and "That makes you look younger."

Take Along an Extra Pair of Glasses This Vacation

This trip was easier with these new Ray Ban goggles from Dr. Inman.

It's a pleasure to spend a vacation behind these "c-o-o-l" lenses from Dr. Inman.

Cooling System of Yucca Is Improved

Additions to the cooling system of the Yucca theatre were completed Friday, increasing the air capacity to 88,000 cubic feet, or approximately one third more than was in use formerly. A new type washed air system was installed, with complete new ducts, a new blower and accompanying equipment. Temperature is easily reduced with the new system, it was found after putting it in use Friday evening.

Really Rainy Spot Found

DARWIN, North Australia (U.P.)—It really rains in Northern Australia. Birdum Creek reported 5.15 inches in one day, and expects to do better than that before the rainy season ends. Darwin had 13 inches in November.

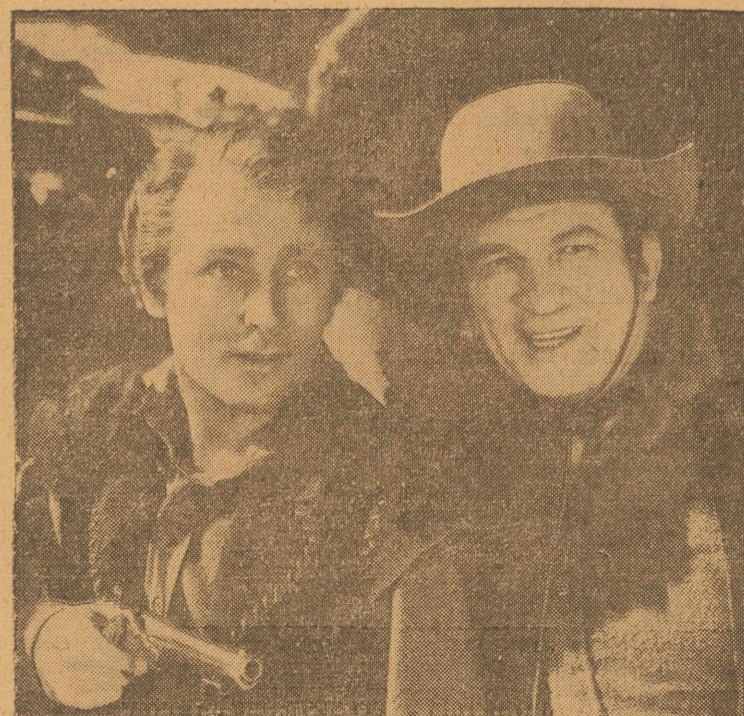

been shoved into genealogical history, Mr. Haggard said.

In Austin today to examine the royal decree establishing their "nobility" were two former university students, Miss Barbara Browne of San Antonio, a university beauty last year, and Miss Josephine Schreiner of Kerrville, this year the university's student "princess" at the annual Sugar Bowl carnival in New Orleans.

Ray Ban Goggles are the newest sun glasses made by Bausch & Lomb. They are scientifically correct in color—ground and inspected even as a fine gem. They are optically correct and cut out infra-red and ultra-violet light. Ray Bans may be had in your prescription, too.

SEIBERLING

CONTINUES ITS UNDAUNTED LEADERSHIP

FIRST IN SERVICE---

FIRST IN SAFETY---

FIRST IN SALES---

FIRST IN VALUE---

The new improved methods of tire construction used in the manufacture of Seiberling Tires has made it the strongest tire money can buy. The vapor cure process and unstinted use of the best materials makes Seiberling First in SERVICE.

The new tread now used in Seiberling Tires makes it grip the ground and hold, the blowout proof protection through the heat vent expelling of hot air makes it doubly safe from blow-out. This makes Seiberling First in Safety.

The extra service and extra safety of Seiberling Tires has met with genuine appreciation and tremendous public acceptance to all West Texans and has taken the place of leadership as the fastest selling tire on the South Plains.

It has long been a policy of the Shook Tire Co. stores and dealers to offer the largest possible trade-in for your old tires and at the same time through quantity purchases we are able to sell these Famous Seiberling Tires at no greater cost.

UNCONDITIONALLY GUARANTEED
