Self-Indictment of Nazis Made by Hitler's Own Pen

By ALVIN STEINKOPF

BERCHTESGADEN, May 25.—(AP)—Stenographic notes the Nazis tried unsuccessfully to destroy have revealed a secret, self-indicting account by Adolf Hitler saying he planned the "crushing" of Czechoslovakia and Poland as "essential preliminaries for the war of the future" against the Allies.

Hitler said Germany was "superlatively prepared" for war and that psychologically she "could not afford to waste" Nazi-schooled fanaticism, which he feared might die down.

Hitler's private report, made to division commanders last Dec. 12, was the most spectacular find to date by American officers studying thousands of pages of partly charred notes which are shaping up as a terrific indictment of Nazi war guilt.

German stenographers, who themselves took down many of these statements, the Nazis never dreamed would come to light, were transcribing the notes, brought here from Berlin, when a partial text of Hitler's report was found.

Made just before the German Ardennes offensive of Dec. 16, Hitler's statement to his officers openly belied the Nazis' excuse that they had started the war because of alleged Polish provocations. Hitler outlined his plans made in peacetime for war preparation in this order:

"First, immediate introduction of universal military service.

"Second, re-establishment of German sovereignty through the occupation of the Rhineland and the creation of a fortified system.

"Third, immediate annexation of Austria, crushing of Czechoslovakia and ultimate crushing of Poland in order to bring Germany territorially to a position for effective defense.

"These were the essential preliminaries for the war of the future. There is not only military preparation, there also is territorial preparation for a big war and in this respect we with limited space were very badly off.

"If the course we then proposed to take should lead to a big war, Hitler continued, without specifying what that course was, "obviously war would have to be accepted."

"Finally there were psychological

Joint Occupation Being Considered

By JAMES D. WHITE

WASHINGTON, May 25.—(AP)—A joint four-power arrangement to occupy Germany and Austria may be announced soon by the Allies, it was learned today.

This would include agreement on the joint control commissions provided for Berlin and Vienna at Yalta, it is understood here.

Because most of these arrangements are still primarily in military hands and have security angles classified as restricted, no details could be disclosed now.

However, it was learned that specific zones of occupation for Russia, France, British and American forces will probably be announced at the same time.

Informed quarters said final agreement is not being delayed by recess or negotiate, but by the complicated arrangements which must be worked out in each military command.

These involve security questions concerning the troops themselves, redeployment, moving them back in some cases to their permanent occupation zones, and coming to an understanding with other military commands on the moves to be made.

Oil Discovery Rated Important

TULSA, Okla., May 25.—(AP)—

Regarded in oil circles as one of the big developments of recent years, discovery of a solidly saturated soft second Wilcox sand in the Ramsey pool of Payne county came as the week closed.

The discovery came at Mid-Continent oil corporation, No. 3 Columbia, in NW NE SW of 18-16-2, and more than 65 feet of the saturated sand of great thickness, had been drilled.

The well had only 28 feet of the first Wilcox sand but established a daily potential of 9,000 barrels of oil from that horizon.

British Occupy Port
In Southern Burma

CALCUTTA, May 25.—(AP)—British 14th army troops have occupied the inland port of Bassein in southern Burma without opposition, the southeast Asia command announced today.

Bassein is about 88 miles west of Rangoon and about 65 miles from the mouth of the Bassein river. Forces occupying the port found the main jetty had been destroyed by the Japanese.

In Central Burma, the announcement said, the Japanese were attempting to get their troops across the Irrawaddy river at Ka Ma and withdrew to the eastward.

Nips Shoot Propaganda At Russians

SAN FRANCISCO, May 25.—(AP)—A Tokyo broadcast declared today there was "no reason" for Russia to "engage in war with Japan" and also said that if Japan should desire peace with Britain and the United States, her proposals possibly would be made through the U.S.S.R.

The broadcast, intended for Japanese in American areas and recorded by the federal communications commission, asserted that although "Britain and America are doing all they can to drag Russia in, Russia needs to reconstruct first of all and there is no reason for her to throw away this opportunity" by engaging in war with Japan.

A Domei news agency dispatch quoted the newspaper Mainichi Shimbun as speculating on possibilities of a rift in the United Nations.

The suggestion that peace proposals might be made through Russia was contained in a Tokyo broadcast recorded in London.

The broadcast insisted, however, that "the war is only now starting." It said, "Russia and Japan are neutral with each other, and therefore if Japan should desire peace it would be possible that Japan would make proposals through Russia. We did not deny this fact."

Sentence of Spy Is Nine Years

NEW YORK, May 25.—(AP)—Laurent H. J. Brackx, 51-year-old former U. S. naval reserve officer, who was convicted of wartime espionage and violation of the espionage code, was sentenced today to nine years' imprisonment by Federal Judge Mortimer W. Byers.

Assistant U. S. Attorney Richard J. Burke, who prosecuted Brackx, recommended that the court impose a 40-year sentence—30 years on the espionage count and 10 years on the censorship count.

Brackx, who lives in Brooklyn, was accused of conspiring with Axis agents in Italy. The government contended that he had told Commander Max Ponzio, chief of Italian naval intelligence, that he would try to get information about radar and airplane construction when he returned to this country in 1941.

Brackx was convicted May 15. At the three-week trial of Brackx, the government charged the defendant with giving Carl Dold, ex-convict and steward of the S. S. Exambien, now serving 10 years for espionage, a map of the harbor installations at Tripoli.

Brackx maintained throughout the trial that his correspondence with Ponzio related to attempts to get his fiancée, Luisa Gerardi, out of Italy.

A COWARD'S DEATH:

HIMMLER USES POISON VIAL TO TAKE OWN LIFE

By WILLIAM F. BONI

BRITISH SECOND ARMY HQS., May 25.—(AP)—Second army officials still are undecided today whether to hold a funeral for Gestapo Chief Heinrich Himmler in the presence of German military and civilian bigwigs who are in Allied hands.

Thirty-six hours after the suicide death by poison of the SS chief his body still lay on the bare floor of a Lüneburg villa. It will be placed in a coffin today.

It was generally suspected that the former Nazi foreign minister, Joachim von Ribbentrop, the only high Nazi not yet captured or re-

ported dead, was somewhere in the British sector in Northwest Germany.

Himmler took his life Wednesday night by crushing a tiny glass vial of poison between his teeth as a British medical officer was examining him.

He was wearing only a pair of socks. His clothing had been stripped from him in a previous examination.

A small blue vial of poison was found in the clothing that had been taken from him, but the vial with which he ended his life was not found.

DeGaulle Asked To Break With Spain B-29'S STRIKE AGAIN

Movement to Oust Franco Is Started

By REILMAN MORIN

PARIS, May 25.—(AP)—The French foreign affairs committee asked the De Gaulle government today to break relations with Spain, force the extradition of Pierre Laval and propose means to the Allied nations to force Generalissimo Franco from office.

The committee is composed of members of the assembly and it corresponds roughly to the United States senate foreign relations committee.

The recommendation to Gen. de Gaulle's government asserted that the Franco regime was no different from the erstwhile fascist government of Italy before its surrender.

The Spanish regime was termed a menace to world democracy. The committee also demanded that the government lose no further time in forcing Spain to hand over Pierre Laval to the Vichy regime, is under death sentence in France as a traitor and is

Scout Camporee Starts Tomorrow

Nearly 300 scouts will take part in the annual Gray district Boy Scout Camporee to be held at Lake McClellan starting tomorrow afternoon at 2 o'clock and ending Sunday at 2:30.

The program will be in charge of Huelyn Lovock, Adm. Wills Council Scout Commissioner, and Charles Gunn, chairman of the camping and activities committee of the council.

A formal review of all troops at the camporee will be held at 6:30 Saturday afternoon. Members of the Council executive board and other officials will serve as reviewers. Church services are included as a part of the Sunday morning program so that no scout will miss attending.

Each troop must bring its own camping equipment. This includes food for three meals, supper Saturday and breakfast and dinner Sunday—and sufficient food for cooking. For troops who do not have sufficient tents, they may be checked out from the council office by the scoutmasters.

There will be no swimming either in the creek or lake.

French Occupation Object of Protest

TAMPICO, Mexico, May 25.—(AP)—All the numerous Syrian and Lebanese merchants of this city closed their stores yesterday afternoon as a protest against the occupation of their countries by French troops.

Messages were sent to Truman, Stalin and Churchill protesting against the French occupation and urging them to obtain respect for the sovereignty of Syria and Lebanon.

Rodeo Show Will Be Discussed Tonight

A proposed rodeo and horse show will be discussed tonight at a meeting in the chamber of commerce offices at 8 o'clock.

For some time, cattlemen and ranchers here have been in favor of holding a rodeo in the summer or late fall.

At the present time, there are no rodeos held within a 50-mile radius of Pampa. The nearest one is the XIT Reunion at Dalhart.

NEGRO COUNCIL ASKS Withdrawal of Clark

SAN FRANCISCO, May 25.—(AP)—The National Negro council has sent a request to President Truman that he withdraw the nomination of Tom C. Clark of Texas as attorney general.

Their objection, council president Edgar Brown indicated yesterday, is that he termed Clark's failure to carry out a supreme court decision nullifying the Texas state democratic "white primaries."

Stettinius Returns to 'Frisco; Critical Issue Is Still Pending

By JOHN M. HIGHTOWER

SAN FRANCISCO, May 25.—(AP)—The big powers are reported today to have lined up enough votes in the United Nations conference to block any change in their absolute control of world machinery designed to preserve peace.

This issue—the veto power of any of the Big Five over settling international disputes or using force to smash an aggressor—is the most critical remaining for this assembly of 49 nations. The decision hour comes as the conference enters its second month.

Secretary of State Stettinius returns from talks in Washington with President Truman.

In the veto dispute many small nations are demanding that the authority of the big powers in a projected world

Memorial Prayers Set for Sunday

In observance of Memorial Day, Wednesday, May 30, the American Legion and Veterans of Foreign Wars will hold a memorial service Sunday afternoon at the high school and Fairview cemetery.

The program is scheduled to start at 2:30, according to Paul Hill, American Legion chaplain.

Dr. Douglas Nelson, pastor of the First Presbyterian church will be the principal speaker. A short talk will also be made by Captain Long, PAAF chaplain.

A short, but complete, program has been planned by the Legion and the VFW.

Taking part in the parade from in front of the high school to the cemetery will be the Texas State Guard, a squadron of aviation cadets from Pampa army air field, a bugle corps from the high school band and the auxiliaries of both the Legion and VFW.

The Rev. E. B. Bowen, pastor of the First Methodist church, will lead the audience in prayer after Dr. Nelson's talk.

A 21-gun salute to our dead heroes will be fired by a squad of Texas State Guardsmen.

Color guards from the State Guard, the American Legion and Pampa field will also take part in the parade.

Ration Coupons Supply Headache

DAYTON, O., May 25.—(AP)—Failure of a shredding machine to destroy all the ration coupons in a bale of waste paper received by the Oxford-Miami paper company plant caused a temporary headache to the company and the office of price administration.

Louis R. Mahrt, chairman of the Montgomery county rationing board, said today that employees picked out an "undetermined amount—perhaps a few hundred" of the coupons Saturday.

The situation was uncovered after an unidentified woman presented 15 sugar stamps at a grocery store.

Mahrt asserted that officials of the company, located at nearby West Carrollton upon learning of the incident, immediately had the bale destroyed.

He said that most of the coupons, received in a 1,000-pound bale from See RATION COUPONS, Page 8.

Tempo of Aerial Warfare Quickens

By LEONARD MILLMAN

Associated Press War Editor

American Superforts struck Tokyo in large force today, perhaps duplicating the 550-plane fire bomb attack on the city only two days ago.

The 20th air force at Washington announced today's Tokyo attack, and from Guam, base of the B-29's, came reports that the Nipponese capital was still burning from the 4,500 tons of incendiaries dropped in the previous assault.

Tokyo radio reported the city had been attacked again, but said only a few of the big planes came over escorted by 60 Mustang fighters from Iwo Jima. The broadcast also said the B-29's laid mines in Toyama Bay, near Tokyo, and in the Kanmon Strait entrance to the inland sea.

An unconfirmed Japanese communique said airborne Nipponese troops landed on two American airfields on Okinawa, 325 miles south of Japan, where they blew up aircraft, ammunition dumps and installations. It claimed the suicidal raid was coordinated with air strikes on nearby U. S. shipping.

Adm. Chester W. Nimitz previously announced one more light U. S. ship was damaged in air raids Wednesday and Thursday nights. He admitted the raids were continuing.

American ground troops, deprived of tank support by deepening mud, slogged ahead all along the Okinawa front. The 7th infantry seized new hill positions more than a mile south of Yonabaru on the east coast against stiff opposition, while Japanese troop movements to the south indicated the enemy was preparing to set up a new defensive line.

On the west coast, Sixth division marines poured in strength into Uahia, the island capital, on bridges built under continuous artillery fire. In the center of the line the 77th division captured two small villages near Shuri fortress and the 96th repulsed two counter-attacks.

The 27th was pulled out of this sector to begin the biggest mop-up job of the Pacific. The full division started out shoulder to shoulder in a steady downpour to search over 500 square miles for an estimated 1,000 Japanese soldiers and to round up perhaps 150,000 Okinawan civilians.

Gen. Douglas MacArthur announced the "mopping up stage" was also reached on Mindanao Island in the Southern Philippines after Yanks completed two junctions. On the central plateau the 31st joined the 40th and American divisions at Impalutao, former headquarters of the Japanese 25th division. In the Davao sector, the 24th advanced eight miles to join guerrilla forces.

Yanks also began cleaning up disorganized but bitterly resisting Japanese in the Ipo dam area of the Manila watershed on Luzon island. The three-pronged Chinese offensive

BUMPER WHEAT CROP: SURVEY SHOWS OUTLOOK NOT HURT BY WEATHER

(By The Associated Press)
Cold, wet weather has delayed soil preparation and spring plowing throughout the middle west but present prospects indicate a record crop of winter wheat and bumper yields of most other grains, an Associated Press survey disclosed today.

Clearing skies and sharply higher temperatures this week relieved the monotony of rain and cold, and farmers quickly resumed operations in their drying fields.

Reports from the principal winter wheat states in the southwest indicated some damage to the crop, both from flood and drought, but

private forecasters predicted a heavy yield. The government's most recent report estimated an 835,185,000 bushel harvest, 9,700,000 bushels greater than the 1931 record.

The department of agriculture in its weekly bulletin said winter wheat was in "generally good condition" and that in some sections of Kansas and Nebraska the plant was in excellent shape.

Early sown spring wheat, private crop reports said, was up to good stands but growth had been retarded by cold weather. The late season has resulted in acreage lower than originally intended.

'World's Saturday' Is Sermon Subject Of Rev. R. O. Harvey

Rev. Rudolph Q. Harvey, pastor of the Central Baptist church, will preach Sunday morning at the 11 o'clock hour using as his subject "God's Elect." "Is Your All on the Altar," a special duty, will be sung by Mrs. L. L. Stovall and C. H. Ediger, preceding the message.

Evening services will begin with Training Union at 7:30, and church services at 8:30. The pastor has prepared a special sermon for this hour, "The World's Saturday Night." Special music will include a song by the Women's Trio, composed of Mary Lou Enloe, Mrs. R. L. Freeman, and Mrs. Paul Skidmore.

Church members are urged to cooperate with the Seventh War Loan drive by donating a bond to the church, in honor of a mother, son or daughter in service. The gift of a \$1,000 bond to the church has been announced.

Vacation Bible school is scheduled to begin June 11 and it will present a study of religious pictures, character studies, memory drills, Bible study, directed play, handicraft, and music. Sessions will be held each morning, Monday through Friday, for two weeks from 9 a. m. to 12 noon.

There will be a department in the school for boys and girls of all ages, to correspond with the departments in Sunday school.
Special features will be motion pictures in color which will be made of the school, religious motion pictures, and a picnic which will be given out of town. Commencement exercises will be held at the close of the school.

Christian Science Sunday Study Topic

"Soul and Body" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 27.

The Golden Text is: "Bless the Lord, O my soul, O Lord my God, thou art very great; thou art clothed with honour and majesty" (Psalms 164:1).
Among the citations which comprise the lesson-sermon is the following from the Bible: "What? know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own? (1 Corinthians 6:19).
The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Soul and Spirit being one, God and Soul are one, and this one never limited in a limited mind or a limited body" (page 335).

Programs Will Include Instructions In Bible Study, Handicraft, Music

Daily vacation Bible schools are being planned by Pampa churches of all denominations with the first beginning next week, and others at a later date continuing through the month of June.
Interesting programs are planned to keep boys and girls occupied during the sessions for the two weeks set aside at each school. Bible study, arts, crafts and outdoor activities will be offered under the direction of efficient teachers, for children of all ages, corresponding to the departments in the church schools.

Christianity Will Be Sermon Subject St. Matthews Sunday

Christianity, form or power, will be the subject of the sermon to be preached by the Rev. Edgar W. Henshaw at St. Matthew's Episcopal church, 707 West Browning street, at 11 o'clock this coming Sunday. This service will follow the order of a Communion service. There will be no services in the church on Sunday, June 3.

Tuesday of this coming week the Annual Youth Conference of the Episcopal church will meet for ten days at Ceta Canyon. As both Mr. and Mrs. Henshaw are members of the faculty with Mr. Henshaw as chaplain and Mrs. Henshaw as secretary of the music, there will be no services in the church on Sunday, June 3.

Registrations for confirmation instruction are being received at the present time, and dates for classes will be announced in time to have all candidates prepared prior to September, when Bishop Fenner, of Kansas, who is Provisional Bishop of North Texas, will be present to receive the class. Persons who are interested should contact Mr. Henshaw, Mr. Surratt, or Mr. Klingner, as early as possible.

East and West Meet At Base in China

By MARY FOWLER
East and West have met in spirit and in fact at an American army base in China where Mrs. F. R. Milligan, Presbyterian missionary, and three Chinese women teachers, graduates of Ginting and Yenching colleges, have been serving as hospital center hostesses and trying to have the American soldiers "know the Chinese as real folks" and visit some of their homes. These women, few for the men, counsel with them, organize games, shopping trips, visits to village homes, etc. But the closest understanding came when a group of Yanks visited a cemetery where lie American military dead, and the Chinese women of the nearby village came to the graves and buried them. For them we carry this place in our hearts.

A life story of George Washington Carver, famed American Negro scientist, is being written at the request of the interdenominational and international committee on literature for Africa, for translation from English into a number of African languages and for distribution to Africans through Christian church bodies.

what makes a GOOD CITIZEN

There are many qualities which go to make a "Good Citizen" but the most important ones are these—

A "Good Citizen" should:

- accept all of his civic responsibilities in an enthusiastic manner;
- be of good character—truthful and sincere with his fellow townsmen;
- shoulder his share of the tax load willingly;
- take an active part in civic affairs in the interest of better citizenship and leadership.

The Southwestern Public Service Company has always

tried to be a "Good Citizen Wherever We Serve"—

Fresh-Looking Skin Is Lubricated

ELLA RAINES: Finds blotting is best way to dry face.

The art of being a soap-scrubbed girl, without having a taut skin rebuke you for your zeal, is to skip the scrubbing.
Instead, make masks of heavy leather and put on in two coatings, letting the first dry before you apply the second. That's the trick of Ella Raines, star of "The Suspect," who removes the masks with a wash cloth wrung out first in warm water for cleansing, then in cold water for rinsing.
When you dry, Ella warns not to rub but to blot up moisture with a towel. You can speed up drying, if need be, with gentle patting. The face cream which you may like to use afterward as a softener should be patted on, says this fresh-skinned movie star, who is a stickler for gentle treatment.

HOUSE JOINT RESOLUTION
proposing an amendment to the Constitution of the State of Texas, amending Sections 51a, 51b, 51c and 51d of Article III so that the same shall consist of one section to be known as Section 51a, providing that the Legislature shall have the power to provide assistance to and provide for the payment of same to actual bona fide citizens of Texas who are needy aged persons over the age of sixty-five (65) years, needy blind persons over the age of twenty-one (21) years, and needy children under the age of sixteen (16) years; providing for the acceptance of financial aid from the Government of the United States for such assistance; providing that the payments of such assistance from State funds shall never exceed either the payments from Federal funds or a total of more than Thirty-five Million Dollars (\$35,000,000) per year; providing for the necessary election, form of ballot, proclamation, and publication, and making an appropriation to defray the necessary expenses of proclamation, publication, and holding the election.

RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Sections 51a, 51b, 51c and 51d of Article III of the Constitution of the State of Texas be amended and the same are hereby amended so that the same shall hereafter consist of one section to be numbered 51a, which shall read as follows:

"Sec. 51a. The Legislature shall have the power, by general laws to provide, subject to limitations and restrictions herein contained, and such other limitations, restrictions and regulations as may be by the Legislature be deemed expedient for assistance to, and for the payment of, assistance to:

"(1) Needy aged persons who are actual bona fide citizens of Texas and who are over the age of sixty-five (65) years; provided that no such assistance shall be paid to any inmate of any State supported institution, while such inmate, or to any person who shall not have actually resided in Texas for at least five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one (1) year immediately preceding such application; provided that the maximum payment per month from State funds shall not be more than Twenty Dollars (\$20) per month.

"(2) Needy blind persons who are actual bona fide citizens of Texas and are over the age of twenty-one (21) years; provided that no such assistance shall be paid to any inmate of any State supported institution, while such inmate, or to any person who shall not have actually resided in Texas for at least five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one (1) year immediately preceding such application.

Slight Stature Is Aid to Texas Hero

FARMERSVILLE, May 25.—(P)—Lt. Audie L. Murphy of Hunt county, Tex., congressional medal of honor winner, is just a little fellow but he never would let anybody run over him, his sister said here today.

Of Murphy, credited with killing or wounding 50 Germans during a lone stand atop a blazing tank destroyer, his sister, Mrs. Corinne Burns, remarked:

"Why he's only five feet three inches tall and he doesn't weight more than 135 pounds but maybe it's because he's so little that he gets around so well."

"I'm tickled to death to hear he has won the medal of honor but I'm not surprised—he always was active at getting things done. He already holds the Distinguished Service Cross, the Silver Star and the Bronze Star for things he has done and I figured some day he might get the top decoration."

It was near Holtzweil, France, that the brown-haired, blue-eyed Murphy manned a machine gun on a burning tank destroyer and stopped a tank-led assault by 250 Germans. When his ammunition was gone, he ignored his own wounds, reorganized his company and routed the Germans. The news of his exploit was made public in Washington today.

Murphy will be 20 (CQ) June 20. He was born on a farm in Hunt county and attended schools in Celeste, Tex., and Greenville. He worked as a farmer's helper and held jobs at Greenville in a grocery and radio shop.

He was enlisted in the army at Greenville in 1942, was trained at Camp Wolters, Mineral Wells, Tex., and Fort Meade, Md. He went overseas about 30 months ago and saw action in the African, Sicilian, Italian and French campaigns. He was wounded three times.

From where I sit... by Joe Marsh

Dan Culpin Gets His Second Wind

Dan Culpin got his plowing done in record time this year. He was sitting on his porch, enjoying a well-deserved glass of beer, while Bob Wirts, his neighbor, still had over an acre to go.

It burned Bob up, seeing Dan relaxed while he worked. So he'd stop and have a glass of beer—and make out that he was in no hurry anyway.

"And that was the trouble," Dan explained to me. "I kept on going till I got my second wind; and saved my rest until the job

was done. He stopped to rest—and he never got his second wind."

From where I sit, there's a moral there for all of us. We've been working hard to win this war. A little rest may look awfully tempting. But by keeping going, by never letting up, we can count on getting our second wind that will overcome weariness and see us through to Victory.

telephone factories must still work for war

THERE'S still a vast war to win in the Pacific, and it will be a long time before we can serve the last person on the waiting list for telephones.

Telephone factories must continue hard at work for war

Huge quantities of new telephone and electronic equipment are needed in the Pacific. For instance—in the first five days on two Jima, the marines built a telephone system big enough for a city of 65,000. The bigger the armies in the Pacific war, and the longer they must fight, the more they need telephone equipment, radar, automatic gun directors—all the things that telephone factories are making. That's why, even though the war in Europe is over, the amount of such equipment required in the Pacific theater is greater than anything sent there so far.

Cuts in war demands for telephone equipment will help, but...

...the war load on telephone factories will continue to be heavy. If all war demands ended tomorrow, it would be many months before everyone who wants a telephone could get it without delay.

Telephone factories must switch to making "civilian" equipment again—dial central office equipment, switchboards, cable, wire, telephones—all

quite different in many ways from war equipment. And of course, the factories can make the switch only as fast as the war load permits.

It takes time to put new equipment to work

Putting equipment to work can take more time than making it. More than 1,000,000 connections go into dial central office equipment to serve only 10,000 telephones. And 225,000 people are waiting for telephone service right now in the Southwest.

Just to install that many telephones alone would take a long time, despite every effort to speed up the job. Before the first "all-war" year of 1942, our biggest increase in telephones was only 117,000. That was in 1941, when there was still plenty of equipment of all kinds.

These things are sure

Of course, the end of the German war brings us one step closer to the time when we can again serve everyone who wants a telephone without delay. But as long as the Pacific war lasts, the armed forces' needs come first. That's the way we know you want it.

We can promise you this. We'll continue to do our level best to provide telephones as fast as we can, to as many people as possible.

Al Benton Receives Broken Leg; Yankees Drub Chisox

Loss of Star Leaves Detroit Tigers Back Where They Began—2 Pitchers

By JACK HAND

(Associated Press Sports Writer)

Detroit is back to a two-man pitching staff today with Al Benton, the No. 3 man, lost for at least a month with a broken leg.

The ex-sailor who had allowed only four runs and 31 hits in 57 1-3 innings and had won five games compared to one defeat, a 1-0 loss to Washington last Sunday, was laid low in the fourth inning yesterday by a drive off the bat of Philadelphia's Roberto Estalella. The Athletics went on to score all their runs off Benton's successors and defeat the Tigers 7-2.

Benton's loss puts Hal Newhouser and Dizzy Trout back on the swing shift schedule of last year when the pitching pair took part in 96 games and won 56.

Russ Christopher handcuffed the Athletics with eight hits to register his sixth triumph. A batting order mixup in which George Kell and Ervin Hall batted out of turn resulted in a decision that caused both managers to protest the game.

The New York Yankees dubbed the league leading Chicago White Sox, 6-3, moving past Detroit into second place and only a half-game off the pace. Allyn Donald was hit for 13 blows but four pale hose errors and 11 Yankee safeties saved him from trouble.

Best pitched game of the day was a night tilt in Washington won by Cleveland's Steve Gromek over Roger Wolff, 1-0, on a five-hit effort. Doubles by Pat Seery and Jim McDonnell broke it up in the tenth.

Rookie Ben Steiner contributed four hits, including a two-run homer, to the Boston cause as the Red Sox made it two straight over St. Louis, 8-6. Pinky Woods received credit for his first starting game triumph.

Danny Gardella, a New York Giant substitute outfielder, gave the National league packmakers a 7-6 victory over Cincinnati with an eighth-inning pinch homer with Buddy Kerr on base. Ace Adams, second of three relief men, got the credit over 44-year-old Hod Lisenbee, Charles (Red) Barrett, acquired by St. Louis from Boston in the Mort Cooper deal, made his first appearance for the Red Birds and registered a 7-5 success over Brooklyn, helping his cause with a double that chased Hal Gregg in a four-run fourth frame.

Pittsburgh was forced into extra innings for the second straight day but again downed Boston, 10-9 on Jack Barrett's circuit clout in the tenth. It gave Bob Logan his first defeat and rookie Kenny Gables his first victory.

The Phillies turned back Chicago, 6-3, on a brilliant five-hit effort by Kewpie Dick Barrett who decimated Paul Derringer.

Texas Today . . .

By JACK RUTLEDGE

(Associated Press Staff)

Service men returning from war not quite whole may find the success story of an east Texas blind boy an inspiration.

Fred Lowery was blind, thin and ailing. He attended the state school for blind at Austin. He was in his teens when he left to make a career for himself.

He chose a tough profession—the theater. This profession, says John Rosenfield in the Dallas News, makes no allowance for either spunk or good intentions. Persons survive in it only by good performance.

Lowery whistles. Rosenfield calls him the world's greatest. He began in a small way, finally found himself whistling over a Dallas radio station.

He might have been content with local fame, but instead he went to New York. He didn't have an easy time as he rummaged around Times Square for his big break.

But he clicked. He has been a featured soloist for both Vincent Lopez and Florence Heidt. Today he is on tour, appearing in the nation's largest theaters.

Rosenfield says Lowery "represents the most complete triumph over physical affliction that we know. Victory is not only over concrete obstacles but over the spirit. He is neither sensitive or self-conscious about his eyesight."

He has had nine seasons of unbroken success and has been able to improve his health and even obtain some vision in one eye. He is now able to get around without suggesting his blindness.

Is there a secret to such a success? "Fred Lowery never felt sorry for Fred, nor did he let anyone else," says Rosenfield.

"Never did he yield to self-pity, that most tempting and devastating of self defenses."

Instead of complaining—he whistled.

Sports Roundup

By HUGH FULLERTON, JR.

NEW YORK, May 25—(AP)—It seems to be a 50-50 proposition whether organized baseball's effort to encourage high school baseball has made enough headway to offset the reverses it has inflicted on the program by signing star players.

Scattered reports to the high school committee indicate, however, that there's a lot of interest in some spots . . . Illinois, for instance, had 21 more schools in its state tourney than ever before.

Missouri is planning a statewide series; Indiana plans to "put forth considerable effort" to increase baseball interest next year; the high school associations of 18 states are using instructional films provided by the committee and at least ten states will stage "clinics" for coaches and players with organized ball supplying the instructors.

Winn was eliminated in the second round of the second flight. A man must be 56 years or over to participate and they're all the way from 50 to 82 in this year's meet. Elmer Winn of Plainview again is the oldest player.

"These youngsters," he said, "have too much stuff for me."

Pacific Wounded Tell Experiences

TEMPLE, May 25—(AP)—Men from almost every division now in action in the Pacific were among the 71 battle casualties who arrived at McCloskey general hospital yesterday with tales of hard fighting in the islands.

One Texan who came home today was back with 153 points toward a discharge.

He was Tech. Sgt. Gaston Pugh of Tyler, 25th division infantryman hit by sniper fire on Luzon Feb. 24. He has been overseas 67 months, was at Pearl Harbor at the time of the Jap sneak attack, was wounded on New Guinea, at Guadalcanal and Luzon and is back in the United States for the first time since he left 67 months ago.

Pfc. Philip Baskin of Ft. Worth, with the 112th cavalry combat team when he was wounded in the hills near Ipo, Luzon, April 9, told how tanks were used to run Japs off of their caves.

"You can't starve them out," he added, "because the Japs just started," said Tech. Sgt. Hershel I. Anderson, 40th division, Houston, hit by 35 caliber high explosive shell on Panay island, March 25.

"It was a little too rough; that's the reason I left," said Private Aurelian Coleman, engineers, from Plain-

view, Texas, hit in the head by mortar fire on Mindanao March 12. Pfc. William B. Moseley of Marshall, Texas, one of several casualties from the American division, was wounded March 28 on Cebu island.

T. S. Robert Baker of Buffalo, Texas, with a combat engineer outfit of the First cavalry, told of the release of prisoners from the Santo Tomas camp near Manila.

"The Japs had poured gas all around the prison and set fire to it in an effort to keep us away," he said.

Some of the other casualties were: Sgt. J. B. Blanton of Stamford, 32nd division, wounded by sniper fire near Baguio, Luzon; Pfc. Lee R. Frost of Marked Tree, Ark., wounded in the hand on Okinawa; Pfc. Howard E. Fisher, Tynonza, Ark.; hit by shrapnel on Okinawa; Pfc. Herman H. Rogers, 32nd division, Chillicothe, Texas, wounded near Baguio April 18.

Red Gober Meets Plainview Man For Title Today

AMARILLO, May 25—(AP)—E. B. (Red) Gober, Austin's power man of the links, sought his second straight tri-state senior golf championship today as he met Frank Day, Plainview lawyer, in the 18 hole finals.

Gover, whose booming drives outdistance the professionals, was making his fourth appearance in the title-playoff of this tournament for golfdom's granddaddies.

The 57-year old redhead who once was a star third baseman in professional ball, went up against one of the strongest competitors of the tournament, a 31-year-old former county pudge.

In yesterday's semi-finals Gober defeated Roy Allen of Oklahoma City, five and four, while Day downed H. W. Myers of Electra, three and two.

The tournament this year has drawn 152 entries for its all-time high. There are nine flights.

Men's Softball League Entries Will Meet Tonight at 8 o'clock

At least eight—and possibly nine—entries have been received for the men's softball league which may get underway this summer. A meeting has been called for tonight at 8 o'clock in the Texas Gas and Power corporation office.

There are three teams of soldiers from Pampa army air field ready to play and there may be six entries from town.

Teams from town that have announced their intention to play or are already playing are the Los Lunas, 8-Ball, Odd Fellows, the Knights of Pythias, the Cargary gasoline plant and a team being organized by Claude and Orville Heiskell.

Squadron K Squadron I and the Medics have organized teams at Pampa army air field.

All team managers and sponsors—and any other interested persons—are asked to attend the meeting tonight.

The Knights of Pythias won from the PAFAF medics last night in a non-league game, 10 to 5.

In the line-up for the Knights were Emil Stueben, Dick Wilson, G. R. Fugate, Chris Walsh, Henry Stephen, Lance Stueben, B. B. Altman, Ralph Stansell, Red Payne, T. Smith, Vic Burnett, Larry McCathern and Hugh Payne.

For the Medics, Parks, Koke, Clay Kwart, Irvin, Danny, Flores, Holmes, Smith and Magdecki played.

Paul Waner Back In Sandlot Ball

PITTSBURGH, May 25—(AP)—Paul Waner, the little man with the powerful bat that held him in the fanfare of the major leagues for nearly two decades returned last night to the sandlots from which he sprang—and declared "I get a big kick out of it."

Playing as an outfielder with first-place Dormont of the greater Pittsburgh league, the 42-year-old Oklahoman proved he could still hit by knocking out two singles, one of which drove in two of the runs by which Dormont wallowed Oakland 10-1.

His fielding was unspectacular, an easy fly popping right out of his glove, but the crowd—especially the kids—didn't care, for he was Paul Waner, the 3,152-hit man and three-time National league batting champ, who was playing with his team.

At one point 50 joyful youngsters mobbed him with such enthusiasm that he ripped the seat of his pants.

Minors Take 'Wait And See' Attitude

NEW YORK, May 25—(AP)—Threats of a revolt by the minor leagues against major league domination has simmered down today to a "wait and see" attitude by a six-man committee of the National association that finishes work on a new major-minor agreement.

After the new pact is submitted by mail to the member clubs of the minor circuits next week, the big leagues will be asked to send their representatives to a joint meeting.

Approximately 20 changes have been approved by the committee including higher draft prices, territorial guarantees and changes in the option system.

If a new pact is not accepted by both groups before Jan. 12 1946, the minors automatically pass from under the control of commissioner A. B. (Happy) Chandler.

Wheat Prospects (Continued from page one)

particularly in the Durum area of Northeastern North Dakota.

Crop conditions as indicated by a survey of principal grain producing states:

Indiana—Winter wheat in better condition than last several years and normal crop expected.

South Dakota—Winter wheat apparently not affected by weather and prospects for better than normal yield because May 1 acreage abundant only 15 percent compared with 41 percent average.

Montana—Growth winter wheat slowed by cool weather, some wind damage in northern sections. Estimated harvest 28,917,000 bushels compared 10-year average 17,379,000 bushels.

Ohio—Good winter wheat crop indicated with yield estimated at 24 bushels per acre compared with 23 in 1944.

Oklahoma—Indicated winter wheat yield 57,000,000 bushels compared with 86,000,000 in 1944 and 10-year average of 46,600,000; yield reduced by severe rust. Planting spring wheat, corn, oats delayed about 25 days; 1 to 30 percent acreage reduction.

Kansas—Wheat showing improvement; northwestern counties, some in western areas needs moisture, low ground in eastern sections flooded; frost damage not estimated. Estimated yield 239,000,000 bushels.

Texas—Wind, dry weather have reduced estimated winter wheat yields Texas Panhandle. With most surface moisture gone and subsoil moisture rapidly diminishing in high plains, prospective wheat yields declining.

Nebraska—Winter wheat making good progress but moisture needed western part of state.

Minnesota—Winter wheat growing well, estimated yield well above normal.

Germany's End Is Now Complete

By WES GALLAGHER

PARIS, May 24.—Germany entered an era of atonement today as the dissolution of the last vestiges of her government marked the end of the phase of disarmament through which she has been passing.

Germany has ceased to exist as a nation. She has no boundaries except as defined by the Allies. She is not united, because of the zones cut through the heart of the Reich marking off the various occupying armies. She has no political life, no economic life except as dictated by the Allies, and no social life.

Expressed fears that the Allies might install a puppet government from the remnants of Admiral Karl Doenitz' regime faded as the entire government and high command headed for prison camps. American and British military authorities had used the German high command to accomplish the Allied end of disarming the German army—and then wiped out that high command with a single stroke.

Almost simultaneously came Gen. Eisenhower's order that German prisoners be screened and those over age and not war criminals be returned to Germany to work farms and perform other duties necessary under the Allied occupation.

This screening will sift out the war criminals and those Nazis who will be headed for labor in war-ravaged countries—reparations in the form of work.

Probably at no time in history has a nation been so completely and so efficiently destroyed.

In a belated effort to halt the Chinese counteroffensive in the Fochow area, Japanese landed reinforcements from warships north of that recently freed east China port.

British troops found the river port of Bassein, 88 miles west of Rangoon in a by-passed sector of Burma deserted by the Japanese after they had destroyed the main jeties.

Australians exterminating Nipponese in the Wewak sector of Northern New Guinea killed 1,991 more enemy soldiers and found boxes containing the ashes of 7,000 others which had been prepared for shipment to Japan.

Japanese broadcasters foresaw a possible Allied landing on Amami Island, 200 miles south of Japan, and admitted Nipponese suicide tactics could not halt the American advance.

Another broadcast discussing Soviet Russia's position in the Pacific said "If Japan should desire that it might be possible that Japan would make proposals through Russia."

Organization be restricted sharply so that an 11-nation security council could try by peaceful means to settle troubles between nations even over big-power objections.

Last night a committee of United States, Russian, British and Chinese officials drafted a "statement in reply to small nation questions about this formula. This statement promises that any nation, great or small, may bring a dispute before the security council and that the council may discuss it without taking a vote. Thus the veto could not be used to prevent the airing of charges and counter-charges.

Beyond that point—when the council was deciding whether to investigate the dispute or what other action to take—a vote would be required and any one of the big powers—Russia, Britain, the United States, France or China—could prevent council action by voting "no."

Ration Coupons (Continued from page one)

The American stock company, of Dallas, Texas, were shredded, "but some of them, for some reason, were not."

The OPA in Dallas reported the situation involving the faulty shredding machine had been corrected.

J. C. Flanagan, chief special agent for the currency protection branch of OPA region five in Dallas said that the regional OPA distribution center there to which used ration coupons, first shreds them, then the coupons are then baled and sold as waste paper.

He said that the turning up of

loose stamps at West Carrollton "was the result of faulty destruction machinery which has since been corrected."

The Dallas regional OPA said that two 50-pound bales of processed ration coupons were delivered to the American stock company and that a spokesman for the company had informed OPA that the coupons were pressed into part of waste paper shipments to the Oxford-Miami Co.

Newspapers Given Negative Report

WASHINGTON, May 25.—(AP)—Newspapers heard today that the outlook for increased supplies of newspaper print in the July-September quarter is "not too favorable" at present.

The war production board's printing and publishing division announced yesterday that Canada had agreed to ship 215,000 tons of newspaper print a month to U. S. papers during the quarter, an increase of 50,000 tons monthly.

Director J. Hale Steinman, division director, reported however that this increase is cancelled out by a backlog of 50,000 tons of deferred newspaper orders on the books of paper mills. This backlog has accumulated since the start of the year because newspaper and other agencies have been ordering in excess of available supplies.

A task group of newspaper publishers who met here on the problem, Steinman said, has recommended that the situation be rectified by requiring publishers to reduce their inventory supplies as of June 30. The group suggested that the inventory ceilings be cut from 40 to 30 days' supplies for publishers in the northern, eastern and central states, and from 65 to 50 days for publishers in western and southern states.

By dipping into inventory, it was held, publishers would be permitted to use their full consumption quotas but would be required to refrain from ordering more paper during the rest of the quarter.

Steinman gave no indication whether WPB would adopt the recommendation.

SUNDAY SCHOOL LESSON

By WILLIAM E. GILROY, D. D.

Readers of this column have probably themselves corrected an uncorrected slip in the comment on the lesson for April Twenty-second in which it was stated that the apostle Paul the great address by Stephen in Acts 7. Paul, of course, was not a Christian at the time, and his recorded addresses do not appear until late in the Book of Acts. The slip did not affect the use I made of the reference.

The period between the Old and New Testaments is one to which comparatively little attention is paid by Bible readers, but it was of great importance in the development of Judaism and in the preparation for Christianity. Over 400 years elapsed between the last writing of the Old Testament and the first writing of the New. The period was not without religious writing, as readers of the Apocryphal Books of the Old Testament well know, but the 14 books, varying in value, were not a part of the Hebrew Canon, which closed with the Book of Malachi.

The Apocryphal Books were included by Imlies Coverdale in his English version of the Bible in 1535, and they were retained in the Authorized Version of King James in 1611, though now they seldom, if ever, are retained in published copies of the Authorized Version. They are commonly found in pulp Bible, and in the older type of "Family Bibles."

Readers who wish some understanding and knowledge of the history of the period should turn to the Apocryphal Books, and particularly to the Two Books of Maccabees.

This period of over 400 years saw the rise and fall of the Persian Empire, its overthrow in the world conquest of Alexander the Great and the ascendancy of Greece, and the domination of the world by Rome, completed shortly before the Christian era which was to continue throughout four centuries of Christian development.

The confusion and contrasts, the struggles for power, the persecutions and the bitter sufferings and destruction of masses of people that have marked recent years in our own time, are prevalent in that history along with the evidences of deep faith and religious feeling. The records of cruelty and of the triumph of the faith that out of our own dark times a new era of truth and love and righteousness will dawn for mankind—for it was out of these four centuries that there came the life, the teaching, and the saving power of the Man of Galilee. In deed and in truth we can say that God is not dead, and that Christ has overcome the world.

The greater relative contribution to farm financing needs made by the life insurance companies today, as compared with 25 years ago, is reflected in the fact that the life companies now write nearly 20 percent of total farm mortgages, compared with 8 to 14 percent in the years 1914 to 1918.
