New Scouting Executive To Be Introduced

The monthly "10-in-1" meeting of scouters has been called for 7:30 o'clock tonight in the high school cafeteria by W. W. Park, chairman of the Lone Buffalo District.

Park urged all scouters and other adults who wish to volunteer to work in scouting to attend the meeting, in which Joe Bohannan, recently-appointed district executive, will be introduced. Bohannan recently moved here from Mclester, Okla., where he held a similar post.

The meeting is called a "10-in-1" affair because it is actually 10 meeting in one. After songs led by Royce Burrows, introduction of Bohanan, and presentation of certificates for leadership training courses by T. D. Wiman, Jr., district leadership training chariman, the session will break into the several smaller meetings. There will be three roundtables, one each for Cub leaders, Boy Scout leaders, and Explorer leaders, and seven operating committee meetings.

In the Boy Scout roundtable, A. J. White will be in charge of pre-opening, while B. J. Bartels will follow that with a demonstration of a troop flag ceremony. The fall roundup will be discussed by P. H. Shields of Colorado City, and O. C. Stanley will give a demonstration on a troop closing ceremony. Clyde L. Byrd will make rountable assignments for next month. The Cub roundtable will be headed by Stanley Noah, district commissioner. In that meeting, workers will discuss the September theme, "Robin Hood," as well as the roundup program for the fall.

Operating committee meeting leaders will be the various chairmen. They are W. A. Vestal of the camping and activities committee; Dan Warren, organiation and extension; Lyle Deffebach, public relations; T. D. Wiman, Jr., leadership training; Dr. Thomas Hartley, health and safety; Lyman Wren, finance; and Roy Lashway, advancement.

Figures Given On Enrollment

More than 85 per cent of the expected enrollment of students in elementary schools in Snyder had registered by yesterday afternoon, according to reports made by elementary principals.

After the two days of scheduled registration, about 1,845 students had been registered, including those first graders who were already in pre - school. More than 2,100 students were expected in the elementary schools.

While most of the schools will complete registration on the first day of school Sept. 1, Silas Devenport, principal of the West Elementary School, said registration will continue there for the next few days. A total of 561 students had registered at that school, and about 50 more are expected. Devenport said he feels that many of the rural children could not register during the two scheduled days, while many others were on late summer vacations with their parents.

Other registration figures include: 225 at Central Elementary, with about 75 more expected when school starts by Joel Griffin, principal; 415 at East Elementary, where Frank Weaver is principal, with about 35 more expected; 357 at North Elementary, with 50 more estimated by Pat Falls, principal; 290 at Central Primary, where Joe Glass expected over 100 more.

WEATHER

NORTH CENTRAL and WEST TEXAS: Partly cloudy and warm this afternoon, tonight and Friday with only a few isolated afternoon and evening thundershowers.

FARM TOURERS AT HERMLEIGH—The five bus-loads of Snyderites and other Scurry Countians who are in the process of making a tour of the farming area surrounding Snyder today are shown above inspecting the results of a successful insect control program being carried out this year on the W. A. Vernon farm in south Hermleigh. A barbecue luncheon was served the group at noon at the pavilion in Towle Park. The Snyder Chamber of Commerce is sponsoring the tour. (Lee Watson photograph).

Morocco Leaders Meet With French Premier

By JOSEPH E. DYNAN

AIX LES BAINS, France (AP) — Morocco's Nationalist Istiqlal Independence party today demanded revision of the French protectorate's treaty and a chance for deposed Sultan Mohammed Ben Youssef to return to the throne.

In the course of a 2½-hour meeting with French Premier Edgar Faure, delegates of the outlawed Nationalist movement stated their party's views on points at issue at the key session in talks aimed at ending the bloodshed in Morocco. A spokesman for the Istiqlal group told reporters the discussions with the French ministers were "Thorough, frank and very cordial."

The spokesman said that the first step to a solution of the crisis in Morocco must be a return to legitimacy and legality as regards the position of the Sultan. He added:

"There is no doubt that the treaty which established the protectorate must be revised. The framework of the present treaty no longer corresponds to reality."

The Istiqlal group said some of its members will go to Geneva to confer with the party's secretary general, Ahmed Balafrej, who has been living in exile since the party was outlawed almost three years ago.

French sources said it was likely that Faure will invite Balafrej to come here before the conference finishes.

In his statement to the press, the Istiqlal spokesman outlined his party's position as follows:

Removal of the present Sultan and recognition of Ben Youssef's continued right to the throne. The Istiqlal considers that Ben Youssef is still the legal Sultan and that the present Sultan, Mohammed Ben Moulay Arafa is a usurper. The French deposed Ben Youssef two years ago and installed Ben Moulay Arafa on the throne.

Ben Youssef should be brought back from exile in Madagascar and allowed to live, at least for the time being, in France.

A new Moroccan government should be formed which will negotiate a new link with France to replace the protectorate. Finally, an opportunity should be given for the Moroccan people to decide whether Ben Youssef should come back to Rabat, the capital.

The meeting with the Istiqlal men was delayed one day so Faure could sit in personally. He spent yesterday in Paris engaged in high-level talks designed to counter criticism of his efforts to reach a compromise with the North African nationalists.

A 15-man group of conservative deputies demanded that Faure recall the National Assembly from vacation to debate the situation, an obvious threat to seek the government's overthrow if it did not knuckle under. The Permier replied that he would not even call his full Cabinet together until he finished talking with the Moroccans this weekend and digested his findings.

Protests against the government also mounted among French residents of North Africa, who charged tougher military measures against the nationalists beforehand could have prevented the violence that took an estimated 2,000 lives in Morocco and Algeria over the weekend. The colonists claimed also that the government had not struck back soon enough after the uprisings.

Angry howls drowned out government representatives in both Morocco and Algeria yesterday when they tried to deliver official tributes to the French victims. Aroused colonials trampled on wreaths the government had sent to the services.

Linked with the wave of anti-government protests were strong rumors last night in Casablanca that Moroccan Resident General Gilbert Grandval had resigned or was about to quit the post he took over only six weeks ago. The reports said he was particularly upset by bitter demonstrations against him yesterday at the funeral of Gen. Raymond Duval, commander of French troops in Morocco who was killed in a plane crash Monday.

Jordan Premier Gets Vote Of Confidence

AMMAN, Jordan (AP) — Premier Said el Mufti's three-month-old government won its first vote of confidence in Parliament last night. The count was 25-5, with 5 abstentions.

The government promised in reply to questions not to join the Turkish-Iraqui defense pact or the rival Egyptian-Saudi Arabian pact without asking Parliament's consent.

50 Persons Are Hurt By Falling Building

CAIRO, Egypt (AP)—A four-story building collapsed today while 300 wedding guests were celebrating on the roof. At least 50 persons were injured, 38 of them seriously.

Mercury Zooms To 102

Snyder had its hottest afternoon in recent days yesterday as the temperature reached 102 degrees. That was two degrees hotter than the previous day.

The overnight minimum reading was 69 degrees, and the temperature was 73 by 7:30 this morning, David Strayhorn, weather observer, said.

Schmidt Goes Back To His Wife Today

PORTLAND, Ore. (AP) —Airman Daniel Schmidt and the wife who said she had married another man, were back together today — apparently reconciled and happy.

The wife, Una, arrived here late yesterday afternoon and their reunion "was something wonderful to see," a neighbor reported.

They promptly went into seclusion and were reported to be at an Oregon beach resort today.

Schmidt was released from a Red Chinese prison last month to learn his wife said she had thought him dead and had married another man. In California, where he spent three weeks trying to untangle his problem, Schmidt filed for divorce and asked custody of their small son.

But, said the neighbor, "He loved her and she loved him and they never had a chance to get together. Since he got back they had only seen each other across a desk with a lawyer present. You can't settle anything that way."

The neighbor — Mrs. Robert Thomas — said she understood arrangements for Una's trip here were completed shortly after Schmidt arrived here Monday to visit his mother, Mrs. Ray Peters.

Yesterday Mrs. Thomas and Mrs. Peters' husband went to the Portland airport to meet Una. They missed her though, when her plane from California was early, and she reached the Peters home, in a modest auto court, by cab.

Mrs. Peters said her son and Una embraced as she got out of the cab, then entered the home arm in arm.

Four hours later they left and Mrs. Peters said she did not know where they had gone nor when they would return.

Una had brought the couple's 2½-year-old son with her, and he remained here in Mrs. Peters' care.

Alford Fine, the man Una said she married when she thought Schmidt dead in the Chinese prison camp, is "out of the picture" the couple was reported to have said. Schmidt said before leaving last night that his attorney, Howard P. Welch at Sacramento, had told him everything had been taken care of.

At Red Bluff, Calif. Schmidt nullified the divorce action he filed here only six days ago when he became reunited with his wife, the Tehama County clerk reported to.

Mrs. Alice E. Davis, county clerk and recorder, said: "The fact they are reunited and living together voids the divorce action."

Schmidt, member of a B29 crew in the Korean War, spent 2½ years in prison after being shot down in the Yalu River area.

Government Gives Financial Aid To Flood-Stricken Area

WASHINGTON (AP)—The government threw money and manpower into the flood-stricken Northeast today in a massive rehabilitation effort which could cost more than 100 million dollars.

With advance approval of congressional leaders, President Eisenhower ordered into effect yesterday an over-all plan for using funds and resources already available to numerous government agencies. They will look to Congress for reimbursement next year.

"This means a special session of Congress will not be necessary," reported James C. Hagerty, White House press secretary, as he outlined the steps already taken or planned.

The Red Cross, meantime, boosted its disaster appeal goal from five million to eight million dollars as it faced growing reports of damage.

It said at least 702 homes were demolished and more than 14,000 heavily damaged by last week's flood. Its latest count showed 10,562 families homeless and dependent on charity for survival.

E. Roland Harriman, national Red Cross chairman, said the "needs continue to grow in the disaster affected areas," and urged chapters throughout the country to consider as "rock bottom" the fund goals assigned them earlier.

The agency reported "virtually a deluge of gifts" to its disaster fund had followed appeals by Eisenhower and other officials, but stressed that the need is growing.

Eisenhower made a new appeal yesterday, saying donors shouldn't wait to be asked by the Red Cross but "should seize the opportunity to force upon them more than they can use."

Five more bodies of flood victims were recovered yesterday in Connecticutt, and large numbers of persons still were unaccounted for in Pennsylvania and Connecticut. That threatened to raise still higher the storm's death toll, which was revised downward slightly yesterday to a new figure of 176.

Not even a good guess was available of the total over-all material damage from the rains and floods which Hurricane Diane brought on last week.

Eisenhower approved the government relief program in a brief Washington stopover en route from Philadelphia, where he addressed the American Bar Assn., to his vacation headquarters in Denver.

The White House put no ceiling on the cost figure, but indicated the Army Engineers alone have up to 100 million dollars that can be diverted to flood relief. The engineers will handle the bulk of the direct work - removing debris, clearing and patching bridges and highways, and repairing other damage to public property.

Over-all supervision will be handled by the Federal Civil Defense Administration. Director Val Peterson said every government agency has been directed to find out what it can do. He said he could not estimate the cost.

Some congressional leaders indicated they thought the cost could be held to about 80 millions, but the White House indicated it might even go over 100 millions.

To aid farmers, the Agriculture Department designated all of New Jersey and Connecticut, and 29 counties in Maryland, New York, Massachusetts and Pennsylvania, as emergency areas eligible for special loans. The Farmers Home Administration has 121 million dollars available for loans at 3 per cent interest.

For businessmen, the Small Business Administration has 15 millions for 3 per cent loans and another 35 millions at higher interest rates of small concerns which can qualify. The Commerce Department also is surveying damage to business in the aea.

Surplus food from the Agriculture Department, technical aid from the Public Health Service and the Food and Drug Administration, emergency water supplies and surplus blankets and clothing also are being made available.

The Housing and Home Finance Agency is studying the need for new homes and is preparing to speed up the handling of loan insurance and mortgage purchases to help.

Director Arthur S. Flemming of the Office of Defense Mobilization channel what contracts they can into the disaster areas, to releive unemployment and help put business back on its feet.

Cutter Vaccine Mix-Up Blamed On Testing Plan

Girl Is Beaten And Left In Maine Woods

SACO, Maine, (AP)—The nude body of an 11-year-old girl, allegedly beaten with a stick by a boy schoolmate after an argument over toy balloons, was found in suburban woods early today.

Medical Examiner William T. Roussin said there was evidence that pretty, dark haired Doris Trudeau had been raped.

Fortunat Michaud, 15, arraigned in Saco Municipal Court on a murder warrant, denied any attempt at rape, County Atty. William P. Donahue said.

Michaud, a seventh grader at the Notre Dame de Lourdes School, where Doris was in the fourth grade last year, was not permitted to plead to the charge, which was continued for 10 days so he could obtain counsel.

Donahue said the youth told him he hit Doris over the head with a pine stock yesterday after she first hit him on the ankle.

Afterwards, police said, the boy went home to supper, then to the movies.

Doris disappeared on her bicycle yesterday noon.

About that time, according to the story from Donahue, City Marshal Raymond Kerry and other officials, she met Michaud and they bought some rubber toy baloons at a store. Then they went to the woods.

While playing with the balloons —blowing them up and bursting them—the two got into an argument.

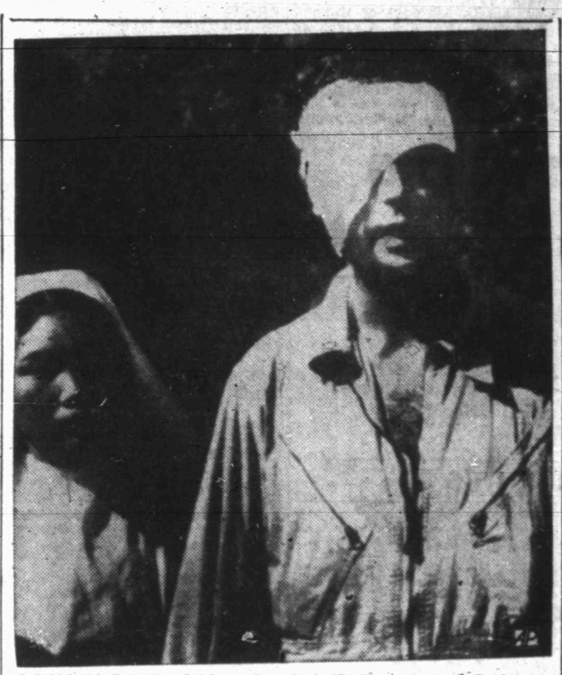

Fortunat said Doris hit him on the ankle with a stick. Angered he picked up the stick and beat her on the head.

Then he dragged her body 250 yards deeper into the woods and hid it.

Investigators said the boy told them he "sort of blacked out" after hiding the body.

Police said part of the girl's clothing was found with the body, some at the the scene of the beating. Apparently the child put up a terrific struggle, police reported.

Doris' parents, Mr. and Mrs. Albet Tudeau, reported her missing about 5:30 p.m. a man who heard a broadcast about the girl's disappearance over Biddeford's radio station WIDE told police he had seen Doris with the Michaud boy.

BACK IN BANDAGES — Lt. Guy H. Bumpass of Jackson, Miss., accompanied by a North Korean nurse as he reached the U.N .side of Kumhwa, Korea, following his release. Bumpass was injured and taken prisoner by the Reds when they downed his plane last week.

Wool Growers Meet Today

WASHINGTON (AP)—Representatives of western wool growers met today with Agriculture Department officials to discuss price support problems of their industry.

Called here for a two-day conference, they first went into a discussion of ways to dispose of 160 million pounds of government-owned wool in a manner that would not depress prices.

Members of a Texas delegation headed by R. W. Hodge of Del Rio, president of the Texas Sheep and Goat Raisers Assn. said talks tomorrow would include planning for an incentive payment program for the 1956 clip.

The law provides that the secretary of agriculture shall fix payments which will encourage an annual domestic production of 350 million pounds of wool. The production now, drastically decreased in recent years, is about 225 million pounds. Payments are to be fixed at levels assuring growers a return of up to 110 per cent of parity.

A grower sells his wool at whatever it will bring. The government makes up the difference between what he receives and the incentive payment level. Parity is a formula dsigned to net farmers a fair return for their products. The incentive payments are to come out of tariffs received on imported wool.

Among others here for the conferences are Pemrose Metcalfe, San Angelo, Tex.; vice president of the National Wool Growers Assn.; Fred Earwood, Sonora, Tex.; C. B. Wardlaw, Del Rio, and J. H. Breckenridge, Twin Falls, Idaho, president of the association.

Services Set For Sam Cress

Sam Cress, about 66, owner of the Village Restaurant, died at 2 o'clock yesterday afternoon in Harris Hospital in Fort Worth where he had undergone surgery the previous day.

Funeral services are to be held at 3:30 tomorrow afternoon in the Stephenville Methodist Church with burial in Stephenville.

Mr. and Mrs. Cress moved to Snyder in 1950 from Sweetwater. Mr. Cress was formerly postmaster in Sweetwater, and was also in business there. Mr. and Mrs. Cress had operated the Village since moving here, making their home in the Diamond M apartments.

Survivors in addition to the wife include a son, Dr. Ronald Cress, of Salmon, Idaho; two daughters, Mrs. Virginia Jenkins of Fort Worth and Mrs. Lana Long of Roscoe; two granddaughters and three grandsons.

Fifth Tropic Storm Stirs Up Atlantic

MIAMI, Fla. (AP)—The year's fifth hurricane, Edith, spun ominously over the open Atlantic today and one of the top storm warning experts predicted its winds would have a force of 125 miles an hour or better by Saturday.

Gordon Dunn, chief storm forecaster in the Weather Bureau's Hurricane center here, said Edith's winds at present were about 80 m.p.h. She was centered at 5 a.m. near latitude 22.7 north, longitude 58.6 west, or 580 miles northeast of Puerto Rico.

That location placed its center about 1,500 miles southeast of Miami and the same distance south-southeast of Cape Hatteras, N.C.

"Edith is a smaller, more concentrated storm than either Connie or Diane," said Dunn. "Her spawning ground was in the same general area as the other two, although Edith moved farther west in wave form than the others before spinning into a hurricane.

"This caused us to believe there is some persistent factor in the area which is causing storms to develop there. It is farther north than the usual breeding ground.

"Conditions are such that Edith probably will move in a westerly direction — either northwest or west-northwest—for the next two days, at least. That's the same old route that Connie and Diane followed. Edith will require a lot of close watching.

"Being more concentrated at the outset, Edith can be expected to show greater intensification. By Saturday I expect her to have winds of 125 to 135 miles an hour near her center."

The storm's forward movement was toward the west-northwest at about 13 m.p.h. Gales extended outward 150 miles to the north and east and 50 miles to the south and west of the center.

Dulles Says Big Four Meeting To Be Test

WASHINGTON (AP)—Secretary of State Dulles said today East-West negotiations at the forthcoming Big Four, foreign ministers meeting will put to the test the "true spirit" of amity developed at the summit conference at Geneva last month.

Dulles told newsmen that this was a point intended to be made in President Eisenhower's foreign policy speech before the American Bar Assn. at Philadelphia yesterday. Dulles said there was no new policy in the speech.

The secretary of state spoke with reporters before flying from Washington to New York where he will address the Council on Foreign Relations tomorrow. Late today he was scheduled to draw pairings of American and Australian tennis players for the Davis Cup challenge round at Forest Hills, Long Island, N.Y.

American Helicopters Used In North Africa

WASHINGTON (AP)— Government officials said today France is using eight borrowed U. S. helicopters in combatting insurgents in North Africa.

Walter Reuther, head of the CIO, protested against the use of the Air Force machines as inconsistent with this nation's outspoken opposition to colonialism. The State Department had no immediate comment on the protest by Reuther, who said in a statement that "direct military aid" to the French in North Africa makes the U. S. appear "as the main support of French colonialism."

France ordered some helicopters earlier this summer from U. S. manufacturers. France also requested and got a loan of eight helicopters pending delivery of those on order.

The French request posed a critical problem to U. S. officials.

The decision was based on grounds it would be impossible to deny such a request from an ally experiencing difficulties within its own territories.

Probers Find Live Virus In Some Of Lots

WASHINGTON (AP)—The government today blamed the Cutter polio vaccine incident on "fundamental weaknesses" in its own now-discarded safety testing procedures.

It said new standards provide "adequate safeguards" against infective amounts of live virus again being injected into healthy children.

The Public Health Service report on a four-month investigation said some lots of Cutter vaccine contained live virus and caused polio but that scientists were unable to determine the exact reasons why the live virus was present.

It in effect cleared the Berkeley, Calif., concern of negligence with these words:

"The equipment, the physical arrangements and the routine handling procedures of the Cutter Laboratories were checked in detail to determine if deficiencies in them might have led to contamination. Nothing was found to indicate that the infective amounts of live virus in Cutter vaccine were attributable to contamination."

Cutter Laboratories called the statement a "Courageous report affirming our faith that no negligence or incompetence would be found."

Arthur Beckley, vice president of Cutter, said in response to a question that his company intends to continue manufacturing Salk vaccine. He said it has not as yet applied for release of any of the vaccine it now has on hand.

Use of the Cutter vaccine was suspended April 27 when a number of children who had been inoculated with its product developed polio.

Use of vaccine made by other manufacturers was held up pending new tests.

With aid of a group of specialists in virus medicine, the health service adopted new production and testing standards before giving a go ahead for resumption of vaccinations.

Giving conclusions reached in a four months investigation, the PHS said the presence of live virus in the vaccine caused some persons to be stricken with polio after inoculation.

As to what might have accounted for the presence of the live virus, the service said available data suggests this combination of factors:

1. Failure to sufficiently inactivate live virus used in the manufacturing process.

2. Failure to detect the presence of live virus in the finished vaccine.

The service added that revised requirements for both production and testing now provide "adequate safeguards."

Use of vaccine produced by the Cutter Laboratories of Berkeley, Calif., was halted on April 27 after development of polio in some children inoculated with it raised questions as to its safety.

Later, the entire national inoculation program was stopped temporarily while new production standards were developed.

The service estimated 401,000 children were vaccinated with the Cutter product before Cutter vaccine was withheld from further use.

It said 79 of these persons developed polio within 90 days. An additional 90 cases of polio resulted within 49 days from household contacts of persons who received Cutter vaccine.

The service said its investigation produced no evidence pointing to contamination during the manufacturing process as a source of the live virus in the Cutter vaccine.

The six-page report said the investigation "did produce data suggesting the combination of inade-

Texas Attorney Hurls Charge In Dispute Over Integration

DALLAS (AP)—A Houston attorney says Gov. Allan Shivers and Atty. Gen. John Ben Shepperd used "devious and despicable action" to block integration in Texas schools.

But a Dallas educator, siding with the governor, urged a "slow approaeh" with the problem.

Robert C. Eckhardt yesterday told an interracial affairs meeting of some 100 Negroes and whites that Atty. Gen. Shepperd is reversing himself.

Eckhardt said Shepperd pleaded in Washington for local autonomy in Texas and then suggested that desegregated Texas schools might not be entitled to state money under the Gilmer-Aikin Law.

"Gov. Shivers and Mr. Shepperd are serving us a delayed time bomb - cataclysm by suggesting something terrible may happen if local schools desegregate," he continued.

Eckhardt said that Shepperd knows the U.S. Supreme Court is the final authority and if the Gilmer-Aikin Law conflicts, then it is unconstitutional.

Dr. Edwin L. Rippy, Dallas school board president, urged a slow approach to integration.

"We feel no haste in this matter. When you make a social change in this manner, it . . . requires great thought," he said.

He continued:

"I challenge anyone to tell me that it (integration) is best for the Negro child, best for the white child or for the community, as for myself, I don't know. We may know in 25 years or 50.

"I've long thought that it is psychologically and socially unsound to make integration by legislative decree." He added he felt that integration should have been allowed to come about naturally.

Dr. Rippy pointed out that the community will have an integrated school system, but the Negro child will still ride to school on segregated conveyances.

"I don't think the school board should do something while the rest of the community lags behind."

Dr. Frederick Routh, Atlanta, Ga., assistant director in the privately endowed Southern Regional Council, said more progress is being made in the South than people "are led to believe by newspapers."

"People are 20 years ahead of the politicians," he said, adding that Southern folk are "getting tired of the governors of Texas, Virginia, North Carolina, and Georgia trying to tell them what they think."

Dr. C. H. Parrish, a negro of Louisville, Ky., also an assistant planty of time for study before the council director, said there was Supreme Court decision of May, "To move slowly is to perpetuate 1954.

Dr. John F. Anderson, pastor of the Dallas First Presbyterian Church, remarked, "I'm a Southerner, but I'm also a Christian. Segregation has always been immoral. It is now illegal."

AREA OIL ROUNDUP

Wildcats Slated In Area Counties

New, deep wildcats have been slated for drilling in Nolan, Coke, and Stonewall Counties, with an offset also set for the one - well Nena Lucia field in Nolan County.

C. L. Norsworthy, Jr., of Dallas will drill the Nolan County wildcat, the No. 1 R. A. McCollum. Location, on a 60-acre lease, is 1,980 feet from south and 6,609 feet from east lines of 81-23-T&P. That is one and five-eighth miles north of Union No. 1 Daniels, a recently completed Mississippian discovery, and about the same distance southwest of the Roscoe - South Strawn field. Contract depth is 7,400 feet.

Forest Oil Corp. of Midland has filed application to drill a 7,500-foot wildcat 15 miles southwest of Robert Lee in Coke County. It will be the No. 1 Williams B. Wilson, 660 feet from north and 790 feet from east lines of 11-16-H&TC. It is three and five-eighth miles due east of J. B. Randle No. 1 Harrington, a wildcat failure abandoned at 7,548 feet, and one and three-quarter miles north of the Tom Green County line.

William D. Aldredge of Midland will drill his No. 1 T. A. Jean as a 6,300-foot wildcat seven miles southwest of Aspermont in Stonewall County. Location is 1,980 feet from north and 660 feet from east lines of 7-U-T&P, two and a half miles west of the Frankirk multi-pay field but separated from the field by a dry hole. That failure was Pan American No. 1 Jean, abandoned at 6,504 feet in .1951. Top of the reef there was at 5,086 feet.

Honolulu Oil Corp. of Midland has set location for a north offset to the Nena Lucia field eight miles west of Maryneal in Nolan County. It is the No. 1 L. R. Spires, 660 feet from south and east lines of 124-1A-H&TC. The discovery of the field was C. L. Norsworthy No. 1-A Helen M. Compton, completed July 27 for a daily flowing potential of 180 barrels of 45-gravity oil through perforations at 6,980-7,005 feet.

FISHER COUNTY

Odom lime production has been assured in southeast Fisher County at Gilchrist Drilling Co. and J. P. Neill No. 1 Dalton Moore.

The wildcat perforated casing from 5,698-710 feet opposite the Odom and acidized with 500 gallons of mud acid. It then kicked off and flowed 15 barrels of new oil per hour. The well had first indicated Odom production on a drillstem test from 5,705-731 feet when it surfaced gas in 10 minutes and recovered 135 feet of oil and 265 feet of heavily oil and gas-cut mud.

The No. 1 Moore is three miles north of Eskota and two miles west of the one-well Eskota field.

Lon H. Cron of Houston and associates No. 1 A. W. Canfill, central Fisher wildcat five miles southeast of Rotan, encountered a show of oil and gas in a drillstem test at 4,960-990 feet.

That zone is a Canyon sand. The test tool was open two hours. Recovery was 1,000 feet of free gas and 90 feet of slightly oil - cut drilling mud. The prospector was last reported making hole below 5,097 feet. It is projected to 6,500 feet to explore the Ellenburger.

TO MAKE TESTS

Rex R. Moore, Jr., of Oklahoma City No. 1 C. T. Tatum Estate, northwest Nolan wildcat, is preparing to re-acidize perforations at 6,272-312 feet in the Strawn reef lime and make production tests.

The perforated interval was first treated with 500 gallons of mud acid and swabbed a good show of oil and gas after swabbing out the load and residue. The interval is now to be acidized with 5,000 gallons.

Location is six miles southwest of Sweetwater and in 72-23-H&TC.

HOWARD LOCATION

Humble Oil & Refining Co. of Midland has staked the No. 1 W. D. Anderson as a wildcat in the northeast Luther area of northeast Howard County.

Location is 660 feet from north and 780 feet from east lines of 15-31-T&P, 20 miles northeast of Big Spring. Projected depth is 8,600 feet.

JO MILL PRODUCER

Blanco Oil Co. and others No. 2-38 Charles C. Canon and others is a new producer in the Jo Mill-Spraberry field of southwest Borden County.

On a 24-hour potential, the well flowed 173 barrels of 38.7-gravity oil with no water. Production is natural through perforations at 7,289-317 feet. Gas - oil ratio on the test was 549-1, with tubing pressure 240 pounds and casing pressure 490 pounds.

Location is 550 feet from south and west lines of the lease in 38-33-t5n-T&P.

Soviet Farmers Need Incentive

NEW YORK (AP) — The Soviet farmer must be given more individual incentive before Russian agricultural production can be increased, a group of American farm experts agreed today.

The Americans arrived home by plane after a six-week tour in Russia. They said also that Russian farming is far behind that in this country.

Leader of the touring group was Dean W. V. Lambert of the college of agriculture at the University of Nebraska. He told reporters:

"We had a wonderful trip and had a good opportunity to look at important Russian agricultural areas. I think one of the major impressions we got was the large use of manpower on their farms. They use a great number of people to do what we do through mechanization."

He added that "we think we made some friends and we think we drove some wedges in the barriers that have been between the two countries for the past 15 years. We hope we paved the way for future exchanges such as these."

In the group were four American farm operators. They were Ralph A. Olsen, Ellsworth, Iowa; Herbert W. Pike, Whiting, Iowa; John M. Stedom, Granger, Iowa; and Aza V. Clark, Pullman, Wash.

Others were David G. Johnson, associate professor of agricultural economics at the University of Chicago; Julius M. Kleiner, agricultural products distributor at Nampa, Idaho; and Herbert H. Palmbeck of Des Moines, Iowa, a radio commentator.

VACCINE

Continued from Page 1

quacy of virus inactivation and failure of the safety tests as responsible for live virus remaining undetected in the finished vaccine."

As to any future production by Cutter Laboratories, officials said the Cutter license never has been fully revoked. Its Salk vaccine simply was withheld from use.

Health officials said they would meet with Cutter spokesman next month presumably to discuss any future production.

The report said that of the 79 polio cases among vaccinated persons, 73 occurred within 3 to 31 days after administration of the vaccine. That is the generally recognized period for incubation of polio.

The majority of the cases among vaccinated persons and their contacts were associated with a limited number of lots of Cutter vaccine.

The service said 6 out of 17 distribution lots released by Cutter were associated with 46 of the vaccination cases and 57 of the contact cases.

"These data support the initial presumption that infective amounts of live virus were contained in the six lots," the report said.

The polio attack rate among individuals inoculated with vaccine from these six lots was 47 per 100,000. The combined attack rate for the remaining 11 lots was 6 per 100,000.

The service said a rate of 5 to 10 cases is generally expected to occur naturally, without regard to any vaccine.

The report said the vaccine given nine persons who developed polio could not be identified by lot.

Sales In Department Stores Show Gain

DALLAS (AP)—Department store sales in the Southwest showed an increase of 5 per cent during July over the same month of last year, the Federal Reserve Bank of Dallas has reported.

The first six-month period of 1955 showed an increase of 9 per cent in department store sales in the 11th Federal Reserve District over the corresponding period of 1954.

Waco and El Paso with gains of 9 per cent had the biggest increase in sales for July, the report said. Corpus Christi and Shreveport, La., had 6 per cent gain, Dallas and Fort Worth 5 per cent, Houston 4 per cent, and San Antonio 2 per cent.

Navy Watches Gulf Section For Storm

JACKSONVILLE, Fla. (AP) — A Navy hurricane hunter plane took off here at 6 a.m. today to prove an area of suspicion in the Gulf of Mexico about 150 miles northwest of Cuba.

The Navy said the Neptune was piloted by Lt. Cmdr. R. A. Pittman of Brookhaven, Ga., and expected to return about 2 p.m.

The Navy said the area had "possibilities of developing into a tropical storm."

Services Held Today For County Resident

Funeral services were held at 3 o'clock this afternoon in the Ira Church of God for Mrs. Luna May Holladay, 76, a resident of Scurry County since 1913. Mrs. Holladay died Tuesday night at her home in Ira.

Survivors include three daughters and six sons. Burial was in Ira Cemetery under the direction of Bell Funeral Home.

Changes Made In Argentina

BUENOS AIRES (AP)—President Juan D. Peron today accepted the resignation of Raul Mende, secretary of technical affairs in the cabinet, and authoritative sources said that Jeronimo Remorino, minister of foreign affairs and worship also had resigned.

Mende's resignation is the sixth change in Peron's government since the unsuccessful June 16 navy revolt.

Remorino has been in poor health for several years and now is under treatment in a Buenos Aires hospital.

The same sources said Ildefonso Felix Cavagna Martinez will be named to succeed Remorino.

Cavagna Martinez, holding the rank of ambassador, has been head of a mission trying to create an economic union of Argentina and its neighbors, especially Chile, Ecuador, Bolivia and Paragua.

Another change in President Juan D. Peron's government was predicted today by unofficial sources who said Peron has decided to give control of internal security forces to Gen. Felix Maria Robles.

Polio Cases In Texas Rise To Highest Peeak

AUSTIN (AP) — Polio last week jumped to its highest peak so far this year in Texas with 98 new cases reported to the State Health Department.

The high point is about three weeks later than usual, health officials observed. Customarily polio peaks in Texas are about the last week in July.

Dr. J. E. Peavy, director of communicable diseases, said that although the peak is late, if the trend already established for the year continues, Texas will still have the lowest number of polio cases in five years.

Highest incidence last week was in Harris County with 16 cases. Nueces County reported eight cases; Dallas, seven; and Tarrant, six.

New cases the previous week had totalled 79. Incidence for the year totals 1,115, compared to 1,905 for the comparable period a year ago.

Child In Snyder Dies At Birth This Morning

Funeral services for Jannie Lynn Leatherwood, infant daughter of Mr. and Mrs. Virgil Leatherwood, route 3, will be held at 3 p.m. tomorrow in the Bell Funeral Home chapel. The child died at birth about 7:20 this morning in Battenfield-Jones Hospital-Clinic.

The Rev. Jack Dean, pastor of the North Side Baptist Church, will officiate at the services. Burial will be in Snyder Cemetery.

Survivors in addition to the parents include two sisters, Delta Ann and Betty Jean Leatherwood, and three brothers, Billy Virgil, Jackie Ray and Donnie Lynn Leatherwood, all of Snyder.

Temperature In Texas Expected To Heat Up

By The Associated Press

Texas temperatures which stayed warm to hot through Wednesday night and Thursday morning were expected to reach burning marks again by late afternoon.

Temperature readings at dawn ranged from 59 at Van Horn to Galveston's high of 81. Galveston also recorded the overnight maximum of 92.

Wednesday's high was an unofficial 109 at Seymour. The Weather Bureau reported an official 104 at Fort Worth, Laredo and Electra. Other 100-plus points were Dallas, Mineral Wells and Wichita Falls, with 102.

Forecasts still mentioned isolated or scattered thundershowers but except for traces of rain at Beaumont and Lufkin Wednesday, there had been no moisture in more than 48 hours.

COMPANY CHICKEN SALAD with pimiento-stuffed green olives, toasted almonds and other good things.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5406.

SIMMER A NICE FAT HEN on top of the range one warm-weather morning, is our advice. It gives you such a comfortable feeling to know you have cold chicken on hand in the refrigerator for salad or sandwiches. Season the water in which you cook the bird with an onion, a few celery tops, a carrot, salt, peppercorns, a bay leaf and a couple of whole cloves. Not too much water, mind; you want a good rich stock. Use the stock for a fine cream of chicken soup.

Your chicken sandwiches will taste perfect if they are made with fresh white bread, crisp lettuce and old - fashioned homemade cooked salad dressing. (It used to be called boiled dressing - remember?) Or serve club sandwiches - sliced chicken, crispiy cooked bacon, sliced garden - fresh tomatoes, lettuce and mayonnaise, piled between slices of toast. Green olives are a must with either sandwich; put them in tiny lettuce cups at the sides of the plate.

Green olives - the pimiento-stuffed kind - also give tang to our chicken salad and special cream of chicken soup. With the chicken salad serve tiny hot cheese rolls and iced or hot coffee. (Nice for a few friends who are coming in to lunch and to play a round of bridge.) The hot soup makes a good starter for a company supper whose main course is ham.

COMPANY CHICKEN SALAD

2½ cups diced cooked chicken
1 cup diced celery
½ cup sliced pimiento - stuffed green olives
2 tablespoons French dressing
1-3 cup mayonnaise
½ cup chopped blanched toasted almonds
lemon wedges, tomato wedges, salad greens, additional olives and French dressing (if desired).

Mix chicken, celery, ½ cup sliced olives, 2 tablespoons French dressing and mayonnaise; chill. Just before serving, mix in toasted almonds. Garnish with lemon and tomato wedges, olives and salad greens. Makes 4 servings.

Chicken & Olive Cream Soup

1 quart rich well seasoned chicken stock
¼ cup finely diced celery
3 tablespoons flour
¾ cup light cream or top milk
¼ cup sliced pimiento - stuffed green olives
salt and pepper

Heat chicken stock and celery to boiling. Add cream to flour gradually, stirring until smooth after each addition. Stir into chicken stock. Cook and stir constantly until slightly thickened and boiling. Add olives and salt and pepper to taste. Serve very hot. Makes about 5 cups.

NOTE: A generous dash of pure monosodium glutamate will help give flavor to chicken stock and cream soup. One cup diced cooked white meat of chicken may be added to soup with celery if desired.

Newlyweds Honored At Dinner Party

Mr. and Mrs. Ross Blanchard, 3103 Avenue S, were hosts Wednesday night for a family dinner honoring their grandson, Jerry Griffith, and his bride. The couple was married Sunday in Muskogee, Okla. She is the former Miss Juanita Keaton.

Guests for the dinner were Mr. and Mrs. Jack Blanchard and son, Brent, Mr. and Mrs. Floyd Griffith and children, Sue, Jeanie and Tommy, and Mr. and Mrs. Arthur Blanchard and daughter, Alison. Mr. and Mrs. Floyd Griffith plan to make their home here.

WHAT'S GOING ON

Mr. and Mrs. D. V. Prichard and Tommy, 2434 Sunset Drive, Don McNew, 3713 Noble Drive, Alan Snead, Lemons Lease Camp, and Powell Berry, 2402 Sunset Drive, returned home after spending several days on a fishing trip.

Mrs. Ike Snead and Alan, Lemons Lease Camp, spent Tuesday in Lubbock and Wednesday in Big Spring on business.

Dottie Dugas, 3750 Highland Drive, has returned home from Memphis, Tenn. where she stayed for several days. Miss Dugas toured Memphis and visited with Mr. and Mrs. Bill Roberson of New Albany, Miss.

Mrs. J. P. Crook and Louise, 2808 Thirty-seventh Street, are now vacationing in Corpus Christi and Eldorado, Ark.

Mrs. S. J. Littlepage, Avenue A, had as her guests for a night and day her daughter and her family, Mr. and Mrs. J. F. Collins and Sue of Abilene. They were on their way to the Carlsbad Caverns.

Mr. and Mrs. A. E. Seller, Troy, and Sandra, 3411 Avenue A, are visiting with friends and relatives in Lockney.

Mr. and Mrs. Wendell Shifflett, Linda, and Cynthia, of the Lemons Lease Camp left yesterday for Dallas where they will visit until after the weekend.

Mrs. W. L. Rhodes and Mrs. C. A. Bretz, 2903 Avenue N, visited in Mitchell County with Mrs. Strain and Mrs. Fuller Tuesday.

Weekend guests of Mrs. Ada Henderson, 2801 Avenue M, were Mr. and Mrs. Hugh Cathey of Roswell, Mr and Mrs. Walter Weathers of Hamilton, Mr. and Mrs. James Weathers and son of Hamilton, and Birdwell Burney of Colorado City.

Mr. and Mrs. Earl Carey, Lamesa highway, and Mr. and Mrs. Fred Miller and daughter, Laverne, 1708 Thirty -seventh Street, spent the weekend in Ruidoso, N. M., where they attended the races.

Mrs. Wayne Gladson and daughters, Sherene and Phyllis, 3005 Thirty-eighth Street, are visiting her mother, Mrs. M. O. Berryhill, in Levelland.

Mrs. W. G. Breedlove, 2910 Avenue S, was taken to Hogan-Malone Hospital in Big Srping by Bolger ambulance this morning.

Mr. and Mrs. Glendon Bynum and Harley, 1909 Fifteenth Street, have returned from a 10-day trip to Minnesota and Iowa. They also visited their farm in Supree, S. D. They spent Tuesday in Abilene.

Mr. and Mrs. A. A. Behringer, Sr., 1401 Avenue M, visited Mr. and Mrs. A. B. Chitwood in Lamesa last week.

Mrs. Elbert Jones, 3017 Thirty-eighth Street, has received word that her niece, Donna Diane Welling, a polio patient in Midland Memorial Hospital, is in critical condition. The child is the daughter of Mr. and Mrs. Gene Welling of Midland.

Reunion Is Planned

The family of Mrs. W. P. Inman are planning their annual all-day reunion at the Lubbock park Sunday. Basket lunch will be served at noon. Friends of the Inman family are invited.

Care Of Wardrobe Important

If you find you "run out" of clothes, not because you haven't got any, but because they all need a little something done to them, here are a few rules to follow which will prove of great help:

1. Make a weekly inspection. The first time you do it, lay everything out on the bed and chairs in your bedroom. If you can't make necessary repairs immediately, pin a note on the garment: "Remove spot on cuff;" "fix underarm seam;" etc. Such tags are stern reminders of your duty.

2. Keep a "fresh-up" drawer for white collars and cuffs, clean gloves, handkerchiefs and bright ribbons to pin to a lapel or pocket. Leave room for a few gay flowers and steam them when they look tired. One good accessory, a belt, or a handbag, perhaps, in top condition, is worth a drawerful in need of repairs.

3. Have a regular time for clothes care. Remember that part of your wardrobe must be ready each day, whether you're headed for the supermarket or a party. Clothes care should be a regular as bedmaking or cooking.

4. Check your clothes after dry cleaning for uneven hems and loose buttons. Put dress shields into garments; change them often to keep them fresh.

5. Discard critically when you put things away for summer or winter. A never - worn dress represents waste and crowds your wearables, too. You'll always have something to wear if you keep every garment in your closet in good condition.

Ladies' Day, Country Club, golf tee off, 8:30 a.m.; duplicate bridge, 9:30 a.m.

SATURDAY

Promenaders Square Dance Club, 8 p.m., 1924 Twenty-fifth Street.

Cafeteria Workers Are Guests At Tea

Workers in Snyder school cafeterias were guests at a tea Wednesday afternoon.

Cecil Yarbrough, superintendent of schools, spoke briefly to the group concerning the importance of the school lunch program in the overall school program. Mrs. Lila Dodson, director of cafeteria services, discussed some attributes of a good worker. These included being willing to take a job no one else wants and doing it cheerfully, realizing that what you give is more important in the long run than what you get, and realizing that it is more important to listen than to talk all the time.

Here's a good spread for crackers to pass along with tomato juice. Grind or finely chop cooked cleaned shrimp and mix with mayonnaise, lemon juice, chili sauce and curry powder. You can add a dash of Worcestershire sauce, too, if you like.

NEWS FROM DUNN

BY ELWANDA STEWART

Women of the Dunn Methodist Church will have a bake sale Saturday at the Dunn Community House. Money from the sale will go into the church fund.

E. J. Parker of Southland visited here Tuesday.

Mr. and Mrs. Melvin Newton, Jr., and Kathy of Roswell, N.M., visited her parents, Mr. and Mrs. Bea Harless, last week. Mr. and Mrs. Harless visited another daughter, Mrs. Roy Baze, and family in Midland Saturday.

Mr. and Mrs. John Brown and Bobby and Mrs. L. E. Russell returned home Monday after a week's vacation in Ruidoso.

Mr. and Mrs. Graham Smith and children have returned home after several days vacation in Ruidoso.

Rita Johnston of Snyder spent last weekend with her parents, Mr. and Mrs. Marcus Johnston.

Mr. and Mrs. N. J. Richburg attended a family reunion in Lorraine Sunday. The reunion honored Mr. Richburg's father, J. W. Richburg, who celebrated his birthday Sunday. Only two of his 16 children were unable to attend.

Weekend guests of Mr. and Mrs. Blake Durham were Mr. and Mrs. Adolph Rogers of Lubbock and Billy Mac Smyrl, the son of Mr. and Mrs. W. M. Smyrl of Lubbock.

Mr. and Mrs. R. D. Sherrod visited Mr. and Mrs. George Bowers Sunday.

Mr. and Mrs. James Stewart and children spent last weekend in Weatherford where they visited her parents, Mr. and Mrs. J. O. Spear.

Cover a slice of browned tender ham with a can of cream-style corn and bake in a moderate oven for about three-quarters of an hour. A little grated onion or green pepper, or both may be added to the corn if desired.

FOR ATHLETE'S FOOT GET AMAZING RESULTS! IN ONE HOUR.

If not pleased with powerful, keratolytic fungicide, T-4-L, your 40c back at any drug store. T-4-L sloughs off tainted outer skin. Kills imbedded germs ON CONTACT. Greaseless, instant-drying. Today at Irwin Drug.

City Girl To Receive Degree From Abilene

Mrs. John Clovis, daughter of Mr. and Mrs. Ted Norton, 2701 Avenue F, is one of 68 Abilene Christian College students receiving degrees this summer.

Mrs. Clovis, now of West Virginia, will receive a bachelor degree in music education. While at ACC she participated in Orphesian Society, honorary music organization; Alpha Chi, honorary scholastic fraternity; W. Club, women's honorary leadership group; and the Symphony Orchestra.

Pitted, halved fresh sweet cherries may be added to grapefruit sections (fresh or canned) to make a delightful fruit compote. The sweetness of the cherries contrasts well with the refreshing tart quality of the grapefruit. Serve the compote in crystal-clear sherbet glasses and top with sprigs of mint.

McDONALD'S
Introducing Our New Complete Line Of.....
Enjoy the fabulous comfort of
Ribbon WIRE in Cinderella by Exquisite Form BRASSIERES
$3.50 also available in strapless style

The Ribbonwire in CINDERELLA is flat, flexible as a ribbon . . . never cuts or digs . . . gives you wonderful wired-bra control with soft-bra comfort.

Each undercup is individually Ribbonwired to give perfect separation, and has an exclusive firma-curve lining for fit that's firm . . . just right.

And CINDERELLA's off-the-shoulder elastic straps can't slip, won't show . . . they're set wide to wear with the deep plunge, scoop, or wide square neckline.

Try on CINDERELLA and feel the difference of Ribbonwire comfort!

White embroidered cotton, A cup 32-36, B cup 32-38 also available in strapless style ($3.50)

Bible Thought

The discretion of a man deferreth his anger; and it is his glory to pass over a transgression. (Proverbs 19:11).

EDITORIALS

The Flood Bill

We ding - dong our kids about the dangers of street traffic, communicable diseases, wrong eating habits, the importance of oral sanitation and countless other subjects. We spell out, dissect, hold discussions over and otherwise impress upon the youngsters the importance of avoiding the ill and embracing the good. Moreover, we take particular pains to acquaint them with the characteristics of good and bad habits, and how to identify them.

How then can we prepare them in youth to beware the pitfalls and soul-killing effects of communism, unless we tell them what communism is?

At last year's session of the American Bar Association there was a boiling argument over teaching the theories of communism in the nation's schools. It waxed so hot that action was postponed for one year.

So this week in Philadelphia the ABA adopted by voice vote without a single nay a resolution urging Congress to adopt the bill sponsored in the recent session by Rep. Daniel Flood (D-Pa), calling for the teaching of the theories of communism.

The Flood bill proposes to set up an 11-member commission that would make available information and prepare suggested curricula of studies in the nation's schools, to quote an AP report, "as to the basic differences between the theories and practices of the American way of life and theories and practices of atheistic communism."

One of the shocking things about the 23 American GIs who went over to the Chinese Communists was that their monumental ignorance of the true meaning of communism was equalled only by their ignorance of Americanism. If we understand the import of the Flood bill, it would provide our young people with the knowledge that would enable them to identify communism in all its evil aspects and at the same time give meaning and purpose to the blessings of American democracy. How else can these things be taught without comparing the two systems?

Even so, there'll be a lot of hot argument over the Flood bill just the same.

Continental Defense

The de-emphasis of Secretary Dulles' "massive retaliation" theory of "hitting 'em where they are" as the best protection of our own territory was reflected in the news, via the New York Times, that a major expansion and reorganization of the nation's air defenses is in progress. The Times says the program involves an increase of air divisions from the present 12 to 16 in the Air Defense Command. Each division is assigned a specific area to defend against enemy aerial incursion.

The "massive retaliation" theory never had any validity in the first place, and if you feel like interpreting its brief vogue as one way of making the over-all military cutdown more palatable to the people, you're welcome to do so. In time people began to ask, What happens to us if the enemy concentrates on the 'massive retaliation' technique, too, and starts smashing our cities and industrial centers?

That's where the Air Defense Command comes in. Its job is to provide a theoretical umbrella of safety over continental U.S.—theoretical because even the most optimistic military assessment of the probabilities envisions a rather high percentage of enemy bombers penetrating the defense.

Perhaps now that "massive retaliation" has lost its vogue, the powers that be face up to other realities in addition to putting more muscles on the ADC. For one thing, civilian defense will have to cease being a political football and a stepchild of indecision, and be made into the real, tangible thing. The reluctant citizens will have to wake up and start volunteering in ten times the present numbers to man the plane-spotting stations throughout the country. The U.S. community large and small that hopes to survive possible atomic warfare aimed directly at it will have to quit horsing around and organize clear up to the hilt.

Every cutback and weakening of our over-all worldwide defenses calls for all-out development of our continental defenses. It calls for it, but will it be answered?

Fishermen Turn Bird Watchers

WINDY HILL BEACH, S. C. (AP)—Bird watching proved more interesting than fishing when a strange martin tried an affair with a female nesting on a fishing pier.

When papa martin returned, feathers flew for a while until he drove the stranger off.

The fishermen watching the battle paid no attention when one of their number was bitten on the finger by a small shark he had caught, or when a fish pulled one woman's tackle into the sea.

You Can See The World In A Grain Of Sand By Diligent Toil In A Small Town

By HAL BOYLE

MARTHA'S VINEYARD, Mass. (AP)—If success lies in the art of seeing the world in a grain of sand, Henry Beetle Hough and his wife Betty are two of the most successful people in America.

Their "grain of sand" is this island resort, the birthplace of the U.S. whaling industry and now the summer home of many artists, intellectual and business notables.

In 1920, fresh out of Columbia University, Henry and Betty had to decide whether to seek fame and fortune in the big city or look for them in that hardest of all places to earn a living—a small town.

They chose the small town. In a shoestring venture they bought the Vineyard Gazette, a small, decrepit, 5-column weekly newspaper with a circulation of less than 600.

Thirty five years later they still have the shoestring, and perhaps not too much more in the way of ready cash. But they have built the Gazette up to a circulation of 6,500—the island has only about 6,000 year-round residents—that is now world-wide. Its mailing list ranges from Tokyo to Trinidad.

Hough, a tall, balding, sensitive version of William Allen White with a New England accent, takes a quiet pride in his far-flung readership.

"Not long ago a professor wrote us that while traveling in India he found a copy of the Gazette on a train seat," said Hough, "and a British aviator also came across a copy in the ruins of Tripoli."

The Gazette, affectionately nicknamed "The Thunderer," is issued from a weathered, gray-shingled house built in 1760.

Despite its nickname, the Gazette rarely lifts its voice. It takes a firm but reasonable stand on local crusades, leaves the latest news about the hydrogen bomb to other journals. Its grist is the small news in small towns everywhere—births, deaths, comings and goings, the changing seasons, fishermen's talk. Somehow readers far away find this endlessly fascinating.

There is little crime news. Hough has covered only two murder cases in 35 years.

"Before those," he remarked mildly, "There hadn't been a murder on the island in 100 years."

The biggest story of the year is the annual town meeting.

"We'll carry 7 to 10 columns on it,' 'said Hough. "Every word said at a town meeting is important to our readers. A town meeting is the purest form of democracy and we try to record them exactly as they happen."

Both Henry and Betty dislike printing court cases in which bitterness often arises.

"After all, we are not writing about strangers but friends we meet every day," said Hough.

But whether a court case embarrasses a poor Portuguese fisherman or a wealthy advertiser, the Gazette carries it as a matter of policy.

"Once a man threatened to shoot the editor and another time a fellow said he was coming down with a razor," said Betty. "But actually few people seem to want to kill the editor, although"—she smiled over at her husband—"I suspect many would like to kick him."

Both Henry and Betty have given up any dreams of wealth they had.

"You just don't make money running a country newspaper," said Henry. "You have to settle for the 85-cent plate of spaghetti instead of the $2.50 steak."

But neither would trade their life of hard work for an easier living elsewhere. Their success is one of contentment.

"We never get lonely on the island," said Hough, who has written 11 books over the years. "A small town has the busiest social and fraternal life in the world. How could you be bored?"

Marshal Tito Is Europe's Latest Tightrope Walker

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—In the old vaudeville days, shows opened with a juggling act, a few fox terriers, or acrobats on a tightrope. Nowadays Marshal Tito is the neatest tightrope walker in Europe.

The boss of Communist Yugoslavia skips along nimbly, and so far successfully, on a thin line between the West and Russia, doing business with both sides. This is sometimes called playing both ends against the middle.

Tito himself in a speech last month called it "cooperation and normalization of relations."

Yugoslavia fitted neatly into the East European Communist bloc until 1948, when Stalin made the mistake of ordering Tito around too much. He broke with the old dictator.

His Red neighbors cast him into a Communist limbo and for at least five years filled the airwaves over Eastern Europe with a campaign of vilification, including the use of the word "hangman."

All this was delightful news to the West. This was the first time a satellite had cut loose from Russia. No one could tell, if Yugoslavia was handled right, whether more satellites might follow.

Since Tito's break with Stalin, the United States has given Yugoslavia about 500 million dollars in military aid and perhaps the same amount in economic help, in grants not loans.

After Stalin's death in 1953 the new rulers of Russia, seeing the damage their old boss had done to the onetime solid Communist front in Europe, began to make goo-goo eyes at Tito to woo him back. He wasn't wooed easily.

He had it pretty good in his relations with the West and the help he got from that direction. This year the Russians — Premier Bulganin and Communist party chief Khrushchev — made an humble pilgrimage to Yugoslavia.

This worried the West no end, particularly when Tito and the Russians seemed to have patched up their old quarrel. It was at this point Tito climbed up on the tightrope.

If he could deal with both the West and Russia and the satellites he would have it twice as good as in the past, when he had been able to deal with only one side at a time. There was a future in playing hard to get.

In July he made a speech. "We are Communists," he said, "but we do not wish to be affiliated with any bloc. We wish to be an independent country."

At the same time, he said, "I reiterate we shall not take a single step away from our friendly relations with the West."

Tito is a businessman. He got the Russians to cancel an old 90 million debt, dating back to before 1948. And he may be able, through an economic mission he sent to Moscow, to get a 120-million-dollar loan from them.

LITERARY GUIDEPOST

THE WALKER and Other Stories. By Patrick O'Brian. Harcourt, Brace.

The fisherman, the hunter, the vacationer, the sailor, the painter, the husband, the craftsman, the soldier with the conquering Germans in France and the Frenchman at their mercy—these are some of the men in these 25 stories—and there are more men than women.

The cliff, the sea, the beach, the trout pool, the mountain, the wood, the path and road, the asylum, the doctor's office — these are some of the places where O'Brian's people have their curious, unusual and sometimes mystifying experiences.

The wife's deliberate push fails to topple her husband to his death; terriers burrow for badgers; the hunter cannot bear to shoot the pigeon; the fish gets the fisherman and not the other way around; the doctor races to tell the widow of the death but the dead man gets there first—these are some of the stories.

O'Brian sets his tales beautifully. After you follow the fisherman to the pool where at last the trout will bite, you could find your way again without guidance. You know his Frenchmen and their village streets, cafes, rooms, wharves and the beach where they lie in the sun. Sometimes he winds up his precise descriptions with a fine, free leap into the unknown, as in "The Passeur." Once in a while, though, it seems to me he spoils his effect as in the silly end to "Lying in the Sun," which begins with such savage hilarity.

These are fine stories, but even more, perhaps they are a man and his point of view, they are the expression of impassioned convictions such as the hatred of taking life, and the love of the mystery behind life.

"HOLD THE ONIONS ON THIS ONE!"

Mounting Popular Pressure Indicates That NATO Foundation Needs Strength

By WALTER LIPPMANN

There are already plenty of signs that the future of NATO cannot be taken for granted, and that if its strategic and political foundations are not strengthened, it will fade and languish. To be sure, the preliminary reports of the members do not as yet contain proposals to reduce their military contributions. As Europe is enjoying great prosperity, there can be no serious arguments about their being able to afford to live up to their commitments.

Nevertheless, there is sure to be mounting popular pressure, which will be felt in the parliaments, to reduce the length of military service and the size of the military expenditures. What is more, although the governments themselves are not now giving in to the popular pressure, they are already acting as they would never think of acting if they were absolutely serious about the military conception of NATO. They have accepted without protest or much worrying about it the withdrawal of the larger part of the French army to North Africa. As there is no German army, this easy-going acceptance of a military vacuum can mean only that the Atlantic powers do not think their security depends in any critical degree upon the continental ground forces.

* * *

It is easy enough to say that as the tension with the Soviet Union has become relaxed, the effort within NATO is becoming relaxed too. But this cannot be the whole explanation. For if, as Mr. Dulles and everyone else is saying, the Soviets are more friendly because NATO has been armed and united, why should there be any doubt that the NATO powers will carry on so successful a policy? Is it because the people cannot be made to understand a policy which to Mr. Dulles and other high officials seems so obvious?

I do not think so. It is true that democracies tend to become too pacifist when there is peace, just as in war they tend to become bellicose and to demand unconditional surrender and total victory. But the turnaround in opinion opinion would not be likely to happen so quickly if there were not something hollow and unconvincing in the official NATO doctrine.

* * *

That something is the fact that it is a long time since anyone has really believed, if anyone ever believed it, that the security of Europe and of the Atlantic community depends upon being able to win a defensive battle on the German ground between the Rhine and the Elbe rivers. This is the reason why the present strategical structure of NATO lacks genuine popular support in Western Europe, including Western Germany. This is why the support of NATO is so easily undermined. The people, with their governments close behind them, are quick to lay down a heavy burden which they do not think of as necessary to their security and their survival.

I am speaking as one who has been for the Atlantic alliance since the first World War, who regards it as a vital and enduring necessity of U.S. foreign policy. We have the principal responsibility for the fact that NATO is threatened because its strategical foundations are not really believed in. For some years we have been proclaiming from the housetops our belief that if war comes, it will be fought with nuclear weapons. We have also been crying from the house - tops that in a modern war, not even the United States which is four thousand miles from the Soviet Union, can be defended securely. How in the name of common sense can we then expect the Europeans, who have no defense whatsoever against nuclear weapons, to think that their security depends upon one dozen or two dozen infantry divisions?

* * *

We shall have to rethink and restate the strategical foundations of NATO if in the days to come the essential alliance is not to wither away for lack of popular understanding and support. Perhaps the place to begin our review is to go back to the beginning. Originally, NATO was based on the American monopoly of atomic weapons and upon the Strategic Air Force. Western Europe, which was virtually disarmed, was given an American guarantee that there would be massive retaliation if the Red Army advanced.

Then the European nations, especially France, began to argue that they were afraid they would be over-run while Congress was debating whether to declare war. So, to make American participation automatic, we agreed to station American troops in the line of any Soviet advance.

The next stage came with the realization that the real danger of a Soviet advance lay in the fact that one of the Western governments, lacking an adequate army, might be overthrown by a Communist uprising, and that a Communist government might then invite the Red Army to come in to protect it. This was the real threat This was the real reason why it became important to build up ground forces in France, Italy, Belgium, the Netherlands, and Western Germany.

Then came the Korean war, and in its darkest hours the panic notion was hatched in the Pentagon that Europe was like South Korea, and that it could not be defended except with an enormous ground army. We are still living in the aftermath and with the political debris of that panic.

* * *

Yet it is true now, as it was in the beginning, that, apart from internal order, the external security of Western Europe depends upon the over-all balance of power between East and West. When NATO was founded, the United States still had an atomic monopoly. Now there is an atomic stalemate. But that is proving itself to be a decisive deterrent against overt aggression, and it is this historic development which was reflected and registered at Geneva.

We shall now have to modernize the strategic conception of and the strategic arguments for NATO. For, as of now, there is too great a disparity between what NATO is supposed to be doing and what the U.S.A. and the U.S.S.R. are in fact doing.

15-Game Lead Can Cause Trouble For 'Dem Bums'

By INEZ ROBB

Now if ever come perfect days for the Dodger fan, may his tribe increase. The voice of the teevee announcer is heard in the land, proclaiming that the Bums are 15 games ahead (or were when last I listened), and hope is at flood tide.

The alarm clock always rings later, but at the moment Dodger fans are dreaming of a white Christmas and a pennant floating triumphantly over Ebbets Field.

"This is the year!" exults the Dodger fan to whom I am bound by ties of matrimony.

My impulse is to say "Wanna bet?" But my better self gets the upper hand and I leave him undisturbed while visions of sugar plums dance through his head.

Let him be happy while he can, I reason. Why strip the scales from his eyes? By and large, the life of a Dodger fan is not a happy one. He lives on hope deferred and he is one with the Bourbons (the dynasty, not the drink), who never could forget or learn.

However, experience has been my teacher and I know that nothing is more dangerous for the Bums or their boosters than a 15 game lead as the season wanes. Nothing succeeds like success with everybody but the Dodgers. For the Bums, a 15 game lead merely constitutes enough rope, and they'll hang themselves every time.

"It's in the bag!" exults the head of clan Robb, and I again haven't got the heart to say "Wanna bet?", crazy though I am about an easy dollar.

"They can't stop us this time," he chorties.

"You really think they're going to win the pennant this time?" I ask, trying to show interest in my husband's folly, as all the husband-and-spouse columns recommend.

"We are already there, Lafayette," he says. "We are now in the World Series, and our chances are good. That is," he amends, "if Cleveland or Chicago or Boston win the American League pennant."

"But suppose the Y-A-N-K-E-E-S win?" I ask, choosing to spell rather than say the dirty word in our home.

"Oh, we could beat them all right, man for man and talent for talent in any fair contest," insists the head of the clan, like a man whistling in a graveyard.

"The trouble is," he continues, "the Yankees are our nemesis—"

"Watch that language in Brooklyn!" I caution.

"And for the Dodgers," he goes on with dignity, "the Yankees constitute a psychological hazard or mental block—"

"Don't flatter those Bums," I began, forgetting myself for the nonce.

"Stop!" cries the head of clan Robb. "You have gone too far. You are speaking of the team I love, especially at this time of year. There may be a revised estimate six weeks from not. But in the meantime, let me dream. It is probably later than I think."

WASHINGTON LETTER

New Bill Provides Help For Handicapped Children

BY JANE EADS

WASHINGTON—The little Michigan girl with blonde curls and a missing arm, and the shy boy with untreated epilepsy in West Virginia probably know nothing about the wheels that turn on Capitol Hill to get legislation to help them overcome their handicaps.

But they will appreciate the benefits that come to them through passage of a bill appropriating money for the Health, Education and Welfare Department.

It was the result of a quiet but dramatic campaign of many people who decided to lobby for the crippled children who could not lobby for themselves.

The effort was led by a small organization called the American Parents Committee, headed by publisher George J. Hecht. Last summer, Hecht assigned his assistant, Mrs. Ada Barnett Stough, to find out about what is being done for crippled children. She found that children are handicapped by many conditions ranging from cerebral palsy to deafness.

The results of her study were published in a pamphlet, "The U. S. Program for Crippled Children." The pamphlet carried true stories of handicapped children who were made normal through clinics in their communities. Contrasted with these stories are the statistics about the many children who are not receiving treatment because their parents cannot afford private treatment and the Crippled Children's Program in their states lack funds and personnel to offer it to them in public clinics.

Last May Hecht, Mrs. Stough and others told a Senate Committee that the amazing advances in medicine are not reaching thousands of children who need them.

The new heart surgery is not available to children in many sections, the new electronic devices for testing and electronic hearing aids are available in only a few states; practically no artificial limbs are being made for children, and the wonderful new drugs for treating epilepsy are not reaching enough children.

The senators listened. They acted. The President signed the bill. The little girl in Michigan should get an artificial arm, the boy in West Virginia new drugs to control his epileptic seizures. And services to all children with handicaps should move ahead faster.

Hollywood Today

By JAMES BACON

HOLLYWOOD (AP)—Lou Costello, who has had more than his share of serious illness, now has a horse for a doctor and never felt better in his life.

The world knows Lou as one half of the famed comedy team of Abbott and Costello. Another world—the turf world—now refers to Lou as the owner and breeder of Bold Bazooka, one of the fastest 2-year-old colts running today.

A radical change takes place [illegible] Lou [illegible] the theatrical world for Del Mar, where he is vacationing now.

Lou's chestnut colt tied the world's record for five and one-half furlongs when he won his first race last month. The time was 1:03 1-5.

A few days later, Lou posted a supplemental entry fee of $2,500 and entered Bold Bazooka in Hollywood Park's Starlet Stakes, the West's richest event for 2-year-olds.

The Costello entry ran the six furlongs in a blistering 1:09 4-5, a track record for 2-year-olds. Lou's $2,500 entry fee returned him a net winner's purse of $49,650. And that's a lot of hay.

But to Lou, already a millionaire, the money was unimportant.

"I wish I could tell the people just how much this horse has done for me physically and mentally. I feel 15 years younger and my health is so good that I don't think I'll ever need to take another pill," Lou reveals.

Three years ago, Lou bought a 22-acre ranch in the San Fernando Valley—mostly as a weekend retreat and a place for his children to get away from the smog. First he started raising chickens but he figured the eggs were costing him about $35 a dozen.

Then one day at a San Francisco track, he claimed the mare Bold Rebel for $2,500. She was to be the nucleus of a horse farm.

Lou bred the mare with Bazooka and the result was Bold Bazooka.

One horse owner asked Lou for the secret of feeding Bold Bazooka.

"I just give the horse $20 and tell him to buy whatever he wants" was Lou's answer.

Nature Deals Out Misery, Prosperity At Same Time

By SAM DAWSON

NEW YORK (AP)—Fickle nature has been aiming blows at the economy in parts of the nation while dealing out prosperity to others.

To the human misery and great property damage in Diane's wake will be added disruption of much industry and a strain on the building materials companies already plagued by shortages.

In parts of the Middlewest hot and humid weather favored the corn crop for awhile. But now seering and dry weather is reported blasting the hopes of many farmers who had looked for a bumper crop.

In the Eastern states hurricanes and floods ruined part of the tobacco and corn crops.

The heavy rains, however, revived many seered pastures, bringing cheer to dairymen. West of the Mississippi some areas have another story. There drought is killing pastures and some livestock men are reported saying they may have to rush cattle to market.

Butter production, partly because of the fickle weather, has been running seven per cent lower this August than last.

Durum wheat farmers, on the other hand, have had a good year, nature having dealt lightly with them in the matter of disease. This wheat is highly favored by the makers of macaroni.

Diane's furious torrents dealt heavy blows to some Eastern railroads, which won't be able to move much revenue freight for some time. Not only are their roadbeds gone, but also the output of many of their customers.

The storm's destruction of factories, highways, utilities, stores, homes and schools will bring a heavy call for building material. The great building boom already was straining the capacity of some of the building material producers.

Copper and brass fabricators in Connecticut are badly hit by the floods. They had been suffering from metal shortages. Now many of their mills are out of operation, probably for some time to come.

New England's textile industry, previously combatting the move of the mills to the South, now is hard hit by flood and fire damage. The garment industry elsewhere may be disrupted for a time by delayed deliveries.

Tiger Football Team Opens Training Sessions Tomorrow

Football officially comes into the picture tomorrow when the local head coach John Conley and his staff and about 70 prospective players meet for the sweating, running and strategy planning which must proceed every football season.

And if things go as planned and hoped, football will not only be in the picture, but it will hog it and dominate most of the coffee-conversations in just a few short days.

The coaching staff and the prospective members of the 1955 version of the Snyder High School Tiger football team are ready to go and are only waiting for the day when they can start.

The Interscholastic League has set Friday, Aug. 26, as the first day that the coaches of 3-A schools may work with the boys in organized sessions.

But the local personel have been crowding the barrier in order to break out in full power as soon as it is legal for them to start.

The coaches and team managers spent yesterday afternoon getting the equipment in shape for its distribution this afternoon. It was to be issued this afternoon to both the A and B team candidates.

Many of the boys have been working out on their own every afternoon on the practice field. Their training was limited primarily to running in an effort to knock some of the rough edges off of the gruelling workouts Conley has planned for the next few days. Some of the backfield and end hopefuls have been working on their passing, receiving and punting so that they may be ready for the organized training which is to begin tomorrow.

The coaches expect about 70 boys to make up the total squads for the A and B teams. Sixty - three have already taken and passed the required physical examinations, but more are expected to come out, Conley said.

One of the main reasons for the anxiety among the local footballers is the constant knowledge that Breckenridge, Snyder's first gridiron opponent, is already working out, having been allowed to start Monday because of their membership in a class 2-A district.

The local team will be playing as big men, since almost all indications show that most of the predictions have named the Tigers as the team to take this district, and some have even named Snyder as a State champion possibility.

Coach Conley has dismissed all this speculation with, "We do feel that we'll be stronger, but sure don't know about being that strong."

The staff has made plans for two hard workouts each day until school opens Thursday, Sept. 1, Conley said. Friday and Saturday of this week the team will hit the field at 9 a.m. and 3 p.m. each day. Next week the schedule will remain flexible to enable the coaches to take part in the teacher training programs prior to the first days of classes, but the two sessions per day schedule will continue.

After school starts Thursday, the number of workouts will be leveled off to one a day.

The plans call for the A and B-team units to work out together, Conley said. The freshman or C team will start its practice after their uniforms are issued next Wednesday, Aug. 31, he said.

Conley will be going into his second year as head coach for the Tigers, having come to Snyder from Ellinwood, Kan., and will be assisted by Hal Battle at the line, Horrace Bostick in the backfield, and Jack Dillon with the B team, J. P. Ward with the Freshmen, and Verlon Shearborn with both the B and Freshman teams.

They will be aided by two senior boys who are experienced managers. Jerry Hale and Carl Burns take charge of all the teams equipment and serve as invaluable errand boys for the coaches. Conley expressed disappointment in the fact that both boys are graduating this year. Losing a good manager is like losing your No. 1 tackle," he said.

Looking at the team prospects from the angle of returning lettermen and squadmen, one can see that each position has at least one experienced man ready to take over. However, only one letterman each has returned to move into the openings at guard and tackle. The coaches job will be filling these with men of relatively little experience.

The top A-team candidates as indicated by Coach Conley, thinking in terms of the performances shown during spring training, and their weight are:

Ends: Two lettermen, Don McNew, 182, and Milton Ham, 160, two letters each; and three squadmen, Don Savage, 150; Robert Dabbs, 175 and Harold Hooks, 177.

Tackles: One letterman, Wiley Denson, 192, two letters; and four experienced squadmen, George Herring, 186; Jack Partain, 178; George Jennings, 185, and David Forbes, 195.

Guards: One letterman, Norman Grimmitt, 175, three letters; and four contenders, Pat Fowler, 151; Hal Holliday, 184; Gary Hill, 175, and Morse Williamson, 170.

Centers: One letterman, Joe Reaves, 150, one letter; and two squadmen, Robert James, 177, and Eddie Joyce, 260.

Quarterbacks: One letterman, Powell Berry, 155; and two hopefuls, Jerry Taylor, 140 and Ronnie Smith, 135.

Halfbacks: Two lettermen, Alan Snead, 175, and Joe Baxter, 172, three letters each; and four other candidates, Bob Pollard, 135, and Tom Prichard, 155, and the only two sophomores on the entire squad, Bud Morgan, 150, and Israel Hiniojos, 145.

Fullback: One letterman, Jack Spikes, 185, three letters; and two squadmen, Bill Fowler, 160, and Lanny Wadleigh, 195.

The only new equipment which it was necessary to buy this year, Conley said, was a complete set of new game jerseys, both the gold for out-of-town games and the white for home matches.

NAMED PLAYER OF YEAR—Ray Murray, lanky catcher who not only was a gifted receiver, but gave the Dallas Eagles punch with his slugging, was selected as player of the year in the Texas League. Murray received 20 of the 29 votes of the Texas League Baseball Writers Association. The former major leaguer was batting .329 and had 25 home runs when he went out of action with a hand injury several weeks ago. He formerly played with Oklahoma City in the Texas League.

White Sox Stumble, Yanks Regain Lead

By JOHN CHANDLER
The Associated Press

One thing was crystal clear today in the foggy American League pennant chase. If the Chicago White Sox could manhandle the pesky Baltimore Orioles like the other three flag contenders, they might be leading the loop by four or five games.

As it is, Chicago was knocked out of first place yesterday when they split a double-header with the Orioles for the second day in a row.

Back into the No. 1 spot went the New York Yankees after Yogi Berra and Mickey Mantle socked back-to-back homers in the ninth inning to defeat the Detroit Tigers 3-2.

Chicago bats rang for 20 hits in the opener as Baltimore was submerged 14-1, but the Orioles snapped back to grab the nightcap 2-1. The Cleveland Indians evened their two-game series with the Boston Red Sox, winning 2-0, while Kansas City swept its two-game set with Washington by winning 5-0.

In the National League, Brooklyn widened its first-place gap over the Milwaukee Braves to 12½ games in a home run display that sank the Chicago Cubs for the second straight day 9-5.

The New York Giants evened their two-game series by downing the St. Louis Cardinals 4-1, and the Pittsburgh Pirates made it two straight over the Cincinnati Redlegs 4-2.

Milwaukee and Philadelphia were idle.

True, the four-game split with Baltimore left Chicago only half a game out of first place, but those are contests gone into the record book. Had the White Sox swept the series, as Manager Marty Marion had hoped, Chicago would be ruling the roost today by 1½ games.

In 20 meetings with Baltimore, the Yankees have won 18 games from the cellar-dwelling Birds.

On the other hand, Chicago has won only 10 of 18 games with Baltimore. Cleveland, in third place a game behind the Yankees, has done almost as well, winning 15 of 18 from the Orioles. The fourth-place Boston Red Sox, 4½ games behind New York, are 11-5 with Baltimore.

Baker Gains Split Decision Over Layne

WEST JORDAN, Utah (AP)—Bob Baker, No. 2 heavyweight contender from Pittsburgh, rallied in the late rounds last night to gain a split decision over Utah's Rex Layne in a fight that probably didn't help the fistic careers of either.

Baker, who had everything to lose and nothing to gain against a boxer who has been up and down the fight ladder in recent years, probably lost some prestige in gaining only a split decision and his desire for a crack at Rocky Marciano's crown undoubtedly received a setback.

Layne, who lost twice previously to Baker, needed a win to project himself back into the heavyweight limelight.

Layne, 202½, moved out fast in the early rounds and built up points on the surprised Baker, who weighed 210½. But Baker swarmed all over Layne after being staggered in the fifth round and gained the nod.

Layne's best round was the fifth when he connected with a series of hard overhand rights that had Baker reeling. Layne tried desperately for a knockout in this round but time ran out on him.

Baker then rallied in the sith against a tiring Layne and in the seventh rocked him with murderous lefts and rights to the head.

Top Teams In WT-NM Lose Last Night

By The Associated Press

Amarillo and Albuquerque, tied for the top of the West Texas-New Mexico League, took their second drubbings in two nights Wednesday night.

Abilene beat Amarillo 4-2, and Plainview trounced Albuquerque 13-8. In the other games, Pampa, in third place, beat El Paso 7-1, and Lubbock downed Clovis 6-5.

Canada's Biggest Golf Tourney Opens

MONTREAL (AP) — The biggest money tournament in Canadian golf, the $26,800 Open, gets under way today with a starting field of 132.

The presence of the last two winners in the "World" tournament at Chicago, with its $50,000 top and guarantees for $105,000 in exhibitions, has added spice to this tournament.

Julius Boros of Mid-Pines, N.C., "World" winner Aug. 14, has rejoined the pro circuit, and playing along with him in practice rounds yesterday was the 1954 "World" champ at Tam O'Shanter, Bob Toski of Livingston, N.J. Both were absentees from the Canadian Open in Weston, Ont., last week.

There is a strong feeling among the galleryites that Arnold Palmer, the winner at Weston, is still the man to beat.

It was the first pro-circuit victory for Palmer, from Latrobe, Pa., and last year's U.S. Amateur titleholder. The convincing way he took the Canadian Open and has been playing in practice rounds at Summerlea, stamp him as a top choice candidate.

Palmer is hoping a couple of new putters arrive in time for the start. When he opened his bag at Summerle, his putter was missing.

"I guess somebody just walked off with it," said Palmer yesterday. "I borrowed a putter from Freddy Haas for practicing and ordered two more sent to me by my sponsoring company. They're the same kind I used at Weston, but I hated to lose that one. It's the putter that brought me my first big win."

San Antonio Still Breathing On Dallas

By The Associated Press

Major interest in the Texas League race rests on that gripping battle for first place, with Dallas holding a half-game lead over San Antonio. But if it's individuals you want to discuss consider Don Ferrarese, the pitcher.

If Ferrarese had arrived a little earlier San Antonio probably would be leading the circuit right now. Ferrarese has been with San Antonio one month, has won six games and lost none and posted an average of 12.9 strike-outs per contest. He also has allowed the opposition 4½ hits per game.

Ferrarese was working for the Missions Wednesday night and he shut out Houston with four hits while fanning nine. His mates rapped 14 hits to lash the Buffs 13-0.

It kept San Antonio within breathing distance of Dallas, which broke out of a 4-game losing streak on the trusty right arm of John (Red) Murff, one of the winningest pitchers in baseball. Murff chalked up his 27th victory in turning back Oklahoma City 7-1.

Dallas was pretty desperate and Manager John (Red) Davis ran the team through a long batting drill Wednesday morning. It paid off—the Eagles clouted 10 hits, headed by Bill White's 2-run homer.

San Antonio had two 4-run innings in backing Ferrarese's great pitching job against Houston. Kal Segrist and Joe Kirrene each smashed four singles.

Houston's loss dropped it into a tie with Shreveport for third place. Shreveport whipped Beaumont 10-5 with 16 hits as Arnie Atkins posted his 19th pitching victory with a 7-hitter. Beaumont had a couple of homers in its collection, however. Jack Caro parked the ball with two mates on base, and Dick Kokos homered with none aboard.

Carroll Beringer cooled off the Tulsa Oilers with a 5-hitter as Fort Worth whipped the fifth-place club 3-1. The Oilers, who had won four straight, were pushed a game and a hals out of the first division by the set-back.

166 Men Open Odessa Golf Tournament

ODESSA, Tex. (AP)—Eighty-eight teams, headed by combinations with Dutch Harrison and Billy Maxwell as the pro members, move out today in the opening round of the $7,500 Odessa Pro-Amateur Golf Tournament.

Harrison is paired with Doug Sanders of Cedartown, Ga., who was top amateur in the recent worlds championship. Maxwell, an Odessa product, has Bill Roden of Odessa as his partner.

Other top professionals to play include Doug Higgins, Jackson Bradley, Ernie Vossler, Harry Todd and Loddie Kempa.

The field will be cut to the low 40 teams and ties after the second round tomorrow.

A special pro-amateur was played yesterday with each tournament team adding two club members with their handicaps. Pro Carl Gustafson of Austin and amateurs Dudley Krueger of Austin and Early Kyzer and Spec Gammon of Odessa made up the winning team with a 13-under-par 59.

Second were Joe Walser, Oklahoma City professional, and amateurs Ab Justice of oklahoma City and Dick Pepin and Tom Hanson of Odessa. They had a 60 low ball.

San Angelo Pastes Roswell 15-3

By The Associated Press

The San Angelo Colts, Longhorn League leaders, pasted 17 offerings by the Roswell Rockets last night to win a 15-3 victory.

In the other games, Artesia, in second place, divided a twin bill with Odessa, Odessa taking the first 9-6 and Artesia the second 6-5. Hobbs beat Midland 9-8, and Big Spring edged Carlsbad 1-0.

San Angelo got off to a fast start with five runs in the opening frame, two of them homers by Herman Charles and Ben Lott. The Colts racked up six more in the ninth, topped by Elias Osorio's second homer with two on.

Shawnee Holds Lead By Edging Ponca City

By The Associated Press

League-leading Shawnee edged Ponca City 3-2 in 14 innings last night after losing a 6-5 Sooner State opener.

Ardmore thumped Shawnee 16-3, Muskogee snapped Paris' winning streak at 8 with a 13-4 decision and Seminole trimmed McAlester 2-0 in the first game of a double-header but dropped the finale 2-1.

SPORTS

Waco Takes Lead In Tight Big State Race

By The Associated Press

Waco was ahead in the hide-and-seek game for first place in the Big State League Thursday, the second time for the lead to change in two nights.

The Pirates dislodged Corpus Christi with an astonishing 15-0 victory in which Waco pounded 20 hits. Meanwhile Jim Mehan was giving up only four.

It was another disappointment for Rene Vega, the Corpus Christi pitcher who has won 27 games to share with Red Murff of Dallas in the Texas League the title of "winningest pitcher in baseball." Vega failed in his fourth attempt to win the 28th.

Texas City held its lead in third place over fourth-place Harlingen at 4½ games by slamming Port Arthur 17-3. The Texans clouted 17 hits while Neal Roberts was posting his 17th victory of the season by spacing 11 Port Arthur hits properly.

Continued Increase Noted In West Texas Drilling Activity

A slight increase again was noted for the 32nd week of 1955. A total of 116 applications, including 18 wildcats, were filed in Railroad Commission Districts 7-C and 8.

The number compares to 11 applications, including 14 wildcats, staked the preceding week.

Totals for the year now are 565 wildcats and 2,713 field tests, a grand total of 3,278 tests for oil and a weekly average of 100.2.

Eight counties in District 7-C shared 25 applications, including eight wildcats. Twenty-two counties in District 8 shared 91 applications, including 10 wildcats.

District 7-C wildcats were: Crockett, three; Coke, Schleicher, Sutton, Tom Green and Upton, one each.

District 7-C field tests were: Crockett, six; Reagan and Upton, three each; Schleicher, two; Coke, Runnels and Tom Green, one each.

District 8 wildcats were: Mitchell, three; Andrews, Gaines, Kent, Pecos, Reeves, Scurry and Sterling, one each.

District 8 field tests were: Andrews and Ector, 12 each; Mitchell, 11; Crane, 8 Pecos, 6; Garza, 5; Howard and Scurry, 4 each; Winkler and Yoakum, 3 each; Gaines and Terry, 2 each; Borden, Dawson, Glasscock, Kent, Loving, Lynn, Midland, Reeves and Ward, 1 each.

OFFICIAL WORD—Eugene Landy, 21, Bradley Beach, N.J., an honor graduate of the U.S. Merchant Marine Academy who was refused a Naval Reserve Commission after graduation because of his mother's past Communist party membership, displays a letter he received in Marcus Hook, Pa., from the Navy Department telling him his case would be reviewed. Landy received the letter when he came ashore after an 11-day cruise to Texas as an ablebodied seaman aboard a merchant oil tanker.

Officials Urge Work Speedup On H-Bomb

By JOE HALL

WASHINGTON (AP) — Two members of the Senate-House Atomic Energy Committee are urging the Atomic Energy Commission to speed work on harnessing the H bomb for peaceful purposes.

Sen. Anderson (D-NM), committee chairman, and Rep. Price (D-Ill), head of its Research and Development subcommittee, said yesterday they believe the Geneva atoms-for-peace conference should give impetus to this project.

They were part of a committee delegation which returned yester day from the conference.

Anderson said, "We know we are in a race for this type of development," and added there were clear indications at Geneva that Russia, Great Britain and India also were working at the problem.

He said "only a handful' of American scientists are assigned to this research. He suggested the number be increased.

Price said the announcement of hitherto secret programs looking toward a controlled thermonuclear (hydrogen) reaction was "the most important event at the Geneva meeting.

"The mere fact that this (American) program has been declassified should speed up research on it, he said, adding it had been so deeply secret many AEC scientists did not even know of it.

However, Rep. Hinshaw (R-Calif), another committee member who was at Geneva, said he felt U.S. progress on this work had been "as fast as could be expect ed considering the extreme difficulties.

AEC Chairman Lewis L. Strauss disclosed at Geneva that this country had been engaged in a "moderate program of research in harnessing the H-bomb and had made some progress.

Anderson, Price and Hinshaw agreed that the Geneva parley had shown Russia is not ahead of the United States in peacetime develop ment of the atom.

Rep. Holifield (D-Calif), another committee member who attended the Geneva meeting, said the first impression is that American scientists learned nothing new from a multitude of papers presented at the meeting but that Russian experts probably acquired fresh technical data.

He said the United States gave away more hitherto secret nuclear information than any other nation at the meeting. He added it is too early to determine whether this country gave away too much.

Russians Hope To Buy Santa Gertrudis Herd

COLLEGE STATION (AP)—A Russian who hopes to buy at least 40 head of Santa Gertrudis cattle for shipment back to the Soviet Union is due in Texas today.

Youri Goulabash and two other Russians are flying from Washington at 9:15 a.m. They will leave Dallas on Braniff flight 35 at 2:20 p.m. and arrive at San Antonio at 3:36 p.m.

Goulabash, a livestock expert, is one of a group of Soviet farm delegates that toured the United States.

He will be accompanied by Dimitri Kostuchin, commercial counselor of the Soviet Embassy, and George Bolshakov, Tass correspondent, who will act as interpreter.

They will be met at San Antonio by Nob Briggs, vice president of the Santa Gertrudis Breeders International, and B. P. Marshall, Kingsville, executive secretary of the group.

Visits to Briggs' ranch in Dimmitt County, ranches in the Luling-Lockhart area, and Texas A&M College are planned.

Family Farms Group Will Conduct Hearing

SCHULENBURG (AP)—Rep. Clark W. Thompson D—Tex) announced yesterday that the U.S. House family farms subcommittee would hold a one-day hearing around Oct. 5 at a Texas city yet to be decided.

The House Agriculture subcommittee will go by chartered bus into East Texas, Louisiana, Mississippi, Alabama, Georgia, Tennessee and North Carolina.

Thompson said the route is "a broad strip of farm country extending from the Ninth District in Texas diagonally northeastward to the Atlantic Coast in which lie most of the small farms which are in trouble."

"There is a widespread realization that this is no local problem," Thompson said, "and if the small farmer is forced to leave the soil, the long range results will be disastrous to the whole country."

Tall, Cool Drinks Chill The Body, Defrost Enertia

Way back in 1913 West Texas had a big heat wave that probably made recent days seem like fall had already arrived. That must have been sad, for air conditioning wasn't what you'd call popular.

One favorite solution to the heat waves used to be a pitcher of iced lemonade convenient to the porch swing. The hammock on the patio would suffice, and the frozen lemonade wouldn't be difficult to stir up into a big pitcher.

STRAWBERRY-PINEAPPLE SODA
. . . made with milk

LEMONADE-APRICOT FREEZE

Slice fresh apricots and float in lemonade. Frozen concentrate can be used for the lemonade with either plain or sparkling water added.

HONEY LEMONADE

1 package lemon soft drink powder
½ cup honey
½ cup sugar
2 quarts hot water
1 stick cinnamon
6 cloves

Dissolve soft drink powder, honey, and sugar in hot water. Add spices. Cover and let stand 5 minutes. Remove spices and serve at once. Or chill and serve with crushed ice. Makes about 2 quarts, or 18 servings.

CRANBERRY-CHERRY LEMONADE

1 cup water
1 cup sugar
3 tablespoons grated lemon ring
1 cup lemon juice
½ cup maraschino cherry juice
½ cup cranberry juice cocktail
4 cups water
6-8 maraschino cherries

Combine 1 cup water and sugar; cook over low heat, stirring occasionally, until sugar is dissolved. Heat to boiling point and boil 7 minutes; cool. Add lemon rind, juice and 4 cups water; mix well. Pour over ice. Garnish with cherries. Makes 6-8 servings.

STRAWBERRY-PINK LEMONADE

½ cup water
½ cup sugar
3 tablespoons grated lemon rind
1 cup lemon juice
½ cup maraschino cherry juice
4 cups water
1 cup strawberries, crushed
6-8 marashino cherries

Combine ½ cup water and sugar; cook over low heat, stirring occasionally, until sugar is dissolved. Heat to boiling point and boil 7 minutes; cool. Add lemon rind, lemon juice, cherry juice, 4 cups water and strawberries; mix well. Pour over ice. Garnish with cherries. Makes 6-8 servings.

Lemonade isn't the only cooling summer drink, nor the only quick to fix variety. For the coffee and tea lovers, instant powders afford quick iced drinks.

MINTED ICED POSTUM

4 teaspoons Postum syrup
3 cups hot water
4 teaspoons sugar
12 sprigs mint, crushed
Finely crushed ice

Dissolve Postum syrup in water. Cool. Mash sugar and mint leaves together with a spoon. Then remove mint leaves by forcing sugar mixture through sieve. Add minted sugar to Postum mixture and pour over crushed ice. Makes 4 servings.

POSTUM SYRUP

1 cup Postum
½ cup sugar
1½ cups boiling water

Add instant cereal beverage and sugar to boiling water in small saucepan. Simmer about 20 minutes, stirring constantly. Strain through double thickness of cheesecloth or other suitable cloth. Makes 1 cup syrup.

For the younger members of the family, milk can be disguised and chilled and turned into all manner of interesting drinks.

CHOCOLATE MILK

2½ cups milk
¼ cup chocolate syrup
½ cup chocolate ice cream

Mix in blender or whip to froth until smooth and fluffy and well blended with rotary beater.

PINEAPPLE AMBROSIA

½ cup crushed pineapple
2 cups milk
½ cup strawberry ice cream

Mix ingredients and place in blender. Blend until throughly mixed.

QUICK CHOCOLATE SODA

3 heaping teaspoons quick cocoa powder
Small amount of milk
1 scoop vanilla ice cream
Chilled sparkling water

Combine quick cocoa powder and milk in a tall glass. Add vanilla ice cream. Fill slowly with sparkling water or other carbonated beverage for 1 soda.

The quickest of milk drinks can be made by stirring canned ice cream sundae sauces into cold milk. A new product, date butter, can be used in the same manner.

Equally easily prepared fruit coolers are made with fresh or canned fruits and juices and carbonated beverages.

LEMON PEACH COOLER

2 cups sieved fresh peaches
¼ cups light brown sugar
Lemon soda
Fresh mint

Combine peaches and sugar. Divide among four tall glasses. Fill glasses with chilled carbonated lemon soda. Stir gently to mix and top each glass with a sprig of mint.

APRICOT BLOSSOM

½ cup marsmallow whip
1 cup apricot nectar
Ginger ale

Combine marshmallow whip and chilled apricot nectar. Divide among four tall glasses. Fill each glass with ice cold ginger ale. Stir gently to mix.

MAPLE FIZZ

2 tablespoons maple syrup
1 or 2 scoops lemon, orange, lime or pineapple sherbet
½ cups carbonated water

Pour syrup into tall glasses. Add sherbet and stir well. Then add carbonated water. Garnish with slice of fruit or grated rind. Serve at once. Makes 1 serving.

PEACH BLOSSOM

1 pint vanilla ice cream
½ cup peach nectar
Ginger ale

Divide ice cream among 4 tall glasses. Add 2 tablespoons peach nectar to each glass. Fill glasses with ice cold ginger ale. Stir gently to mix.

LA CONGA

1 tablespoon instant cocoa
½ cup sieved fresh peaches
Ginger ale

Dissolve instant cocoa in a small amount of ginger ale in the bottom of a tall glass; add peaches. Fill glass with ice cold ginger ale. Stir gently to mix.

GRAPE FROST

9 small bottles grape soda
1 egg white
1½ tablespoons sugar
¾ teaspoon lemon juice
1-3 teaspoon grated orange rind

Empty 3 bottles of the grape soda into freezing tray of refrigerator; freeze. Chill remaining 6 bottles of grape soda. Before serving whip egg white; beat in sugar, lemon juice, and orange rind. Now shave or crack forzen grape carbonated beverage and place in tall glasses. Put 1 tablespoon of the whipped egg white into each glass, then slowly fill with the chilled grape soda. Makes 6 servings.

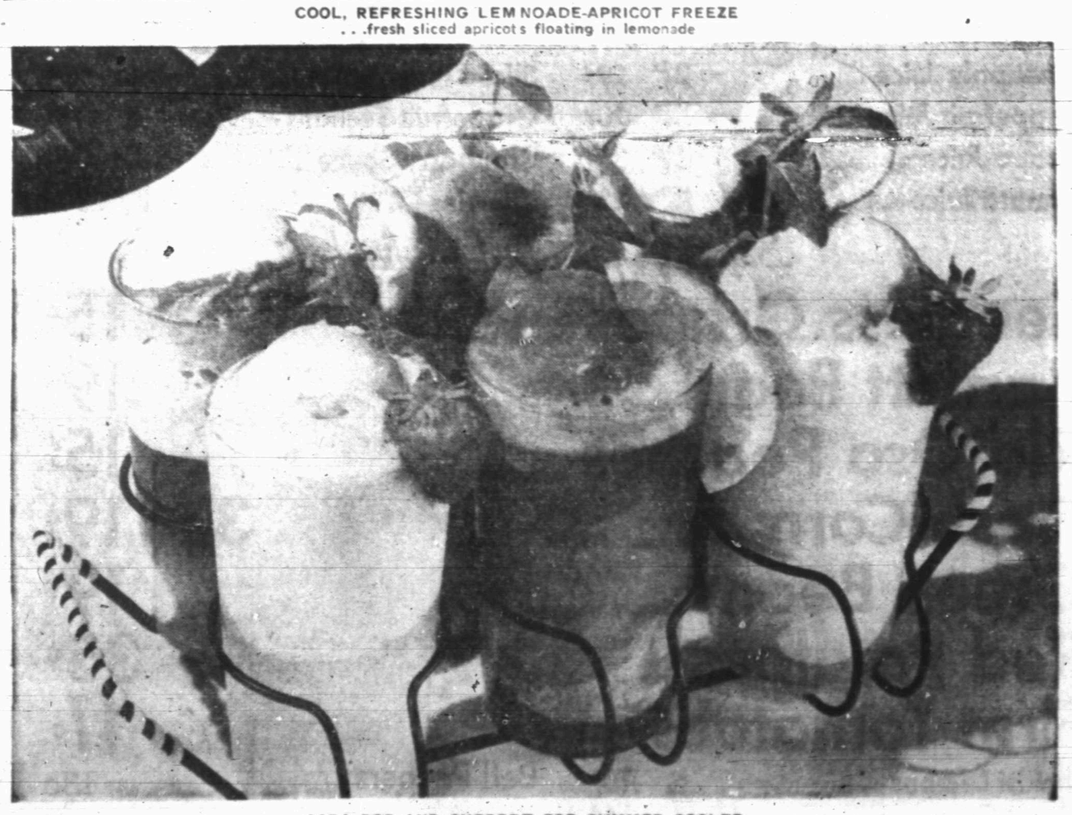

BLUEBERRY ICE CREAM FIZZ

1½ cups thawed frozen blueberries
1½ cups milk
2 12-ounce bottles club soda

Put blueberries through food mill. Combine blueberry pulp, milk, sugar and club soda. Stir. Divide ice cream into 4 portions in tall glasses. Pour blueberry mixture over ice cream.

COOL, REFRESHING LEMONADE-APRICOT FREEZE
. . .fresh sliced apricots floating in lemonade

SODA POP AND SHERBET FOR SUMMER COOLER
. . . fruit-flavored sodas, cola, ginger ale for fizz

Farmer Says Soviets Lag

NEW YORK (AP) — An Arizona farmer returned today from a tour of Russian agricultural areas and said that Russian farm production "is not up to ours either in quantity or quality."

John M. Jacobs of Phoenix, said however, the Russians are doing a "pretty good job of cotton raising and about 35 per cent of it is mechanically picked."

Jacobs, one of a group of American farmers who spent six weeks in the Soviet Union, returned from Germany on a Pan American World Airways Clipper. He left immediately for Washington to join Mrs. Jacobs for a few days rest, "during which time I hope to become a little more coherent before returning to Phoenix."

Jacobs estimated that 50 to 60 per cent of Russian farm workers are women.

THE PRESIDENT IS SHOCKED—Pointing his finger and wearing a surprised expression, President Eisenhower views the northeast's flood wreckage from the air. After the aerial inspection of the area, the President met with governors and congressmen of six states hit by the rampaging floods in an impromptu hour-long conference held in a hangar at Bradley Field, near Windsor Locks, Conn. The President pledged that everything possible will be done to ease distress caused by the worst floods in history of the northeast.

Mystery Surrounds Socialite's Death

PHILADELPHIA (AP)—A 22-year-old Philadelphia socialite who last June 24 eloped without her family's consent with a Miami, Fla., motorcycle policeman, was found dead last night under circumstances described as unusual by police.

Mrs. Doris Silver Ostreicher, daughter of Herman Silver, vice president of Food Fair, Inc., a large grocery chain on the Eastern seaboard, died in the apartment of long-time friends while on a social visit. The attractive red-haired girl received nationwide publicity a few months ago when she ran off unexpectedly with Earl Michael Ostreicher, 29-year-old Miami policeman.

Police said a copy of their report was transmitted to the homicide squad because of the unusual circumstances surrounding the death. Dr. Samuel Manstein, a physician who lived near the apartment the Ostreicher girl was visiting, pronounced her dead and said he was unable to determine the cause of death.

Occupants of the apartment where Mrs. Ostreicher died told police she had been separated from her husband. Her family lives in exclusive Melrose Park, a fashionable suburb of Philadelphia. She was the niece of Samuel Friedlander, chairman of the board and founder of the foodchain.

Police took the body to the city morgue where her name was listed as Shirley Silver. At the Silver residence this morning, a man who said he was a close friend of the family, but refused to give his name, confirmed that the daughter had died last night. He refused to give any further information.

Ostreicher was notified of his wife's death in Miami Beach last night and was given emergency leave by the police department. He left Miami via plane.

The Silver girl and Ostreicher eloped to Folkston, Ga., while she was visiting relatives in Miami Beach last June. The marriage took her family by surprise. She had known Ostreicher, a handsome young man, only a few weeks relatives said at the time.

An official police report listed the dead girl's name as Doris Ostreicher, 22, also known as Shirley Silver. It gave the Melrose Park address of the parents, the Herman Silvers, as did the morgue listing.

The official police report gave this account of an investigation by Detective Nathan Smith:

The girl arrived in company with her mother, Mrs. Gertrude Silver, at 9:30 p.m. last night to visit their long-time friends, Mr. and Mrs. Milton Schwartz, at their apartment.

At about 10:05 p.m., Mrs. Ostreicher went into the bedroom and a few minutes later was heard to cry out, "I feel sick."

Her mother and the Schwartz' ran to her assistance and found her unconscious. After vainly trying to revive her, Schwart ran up the street and got Dr. Samuel Manstein. After an examination, Dr. Manstein summoned police and the fire rescue squad. They administered oxygen for about 15 minutes when Dr. Manstein pronounced the young woman dead.

Later, Dr. Samuel H. Katz came to the apartment and said he had been Mrs. Ostreicher's physician for four or five years. Dr. Katz said she had been in good health except for minor ailments. He said she also was being treated by a Dr. Louis Tuft for an allergy.

Mr. and Mrs. Schwartz said that the young woman was in apparent good spirits during her visit. They also said that she was separated from her husband, Earl, who was in Florida.

Dr. Manstein said that when he arrived at the apartment he found her dead on a bed where the people with her had been rubbing her with ice cubes. He said he was unable to determine the cause of death.

Mexican Flood Damage

MEXICO CITY (AP) — Rain and flood damage to three major highways between Mexico City and Ciudad Juarez, Tiajuana, Mexicali and Mexico-Guadalajara-Nogales were reported by the government yesterday.

Desegregation Is Considered

BEAUMONT (AP)—The Beaumont School Board last night declared that before it undertakes desegregation, its "study and understanding of the problems involved shall be complete and its plans worked out in detail so such a change shall be effected with all possible efficiency and with a minimum of confusion."

The statement was made in reply to a NAACP petition seeking immediate steps to reorganize the schools on a "non-discriminatory" basis.

The board directed the school administration to make a detailed study of the problems "Inherent to desegregation" in six fields:

1. Scholastic problems; 2. appointment and assignment of principals; 3. selection and assignment of white and Negro teachers; 4. social, PTA and athletic programs; 5. the need for additional school facilities and financing them, and 6. the status of state school funds in desegregation.

The board, its statement said, "asks the patience of all concerned; and it will be impatient with any undue pressure designed to provoke a premature alteration of the present policy."

More than 30 per cent of the Beaumont district's school population is Negro.

Farm Loan Association Elects New Directors

Audrey Head and Glenn Tate were elected to serve three-year terms as directors of the Snyder National Farm Loan Association last night in the association's annual meeting.

Head was re-elected, while Tate succeeded E. H. (Ab) Williamson. Other directors whose terms have not yet expired are Martin Murphy, M. S. Jones, and Clarence Wade.

About 100 persons attended the barbecue meeting and heard Sterling C. Evans, president of the Federal Land Bank of Houston, make a talk on the credit system.

Evans was also speaker at noon today for the barbecue during the second annual general farm tour of the Chamber of Commerce.

Rites For Hermleigh Resident Conducted

Funeral services for Bobby Edward Paul, 23, of Hermleigh, were held at 3 o'clock this afternoon in the Hermleigh Methodist Church with the Rev. S. A. Sifford, pastor, officiating. Burial was in Hermleigh Cemetery under the direction of Bolger Funeral Home.

Mr. Paul, the son of Mr. and Mrs. John E. Paul of Hermleigh, died about 3 o'clock yesterday at the family home. He was born July 7, 1932, in Channing, Tex.

Survivors in addition to the parents include a sister, Dorothy Paul, of Hermleigh; two brothers, Harvey Paul of Big Spring and Donald Paul of Hermleigh, and the maternal grandparents, Mr. and Mrs. Jack Claxton of Colorado City.

Pallbearers were Walter Prescott, Lee Prescott, David Johnson, Lawrence Graham, Claude Claxton and Audavee Claxton.

Sen. Johnson Leaves Today By Airplane For Texas Home

WASHINGTON (AP)—Sen. Lyndon Johnson, the Senate Democratic leader, left by air for his home in Texas today.

Johnson, his wife Ladybird, other members of his family and staff and his Beagle dog flew in a twin-engined DC3 owned by a Texas friend. His precise destination was kept a secret to avoid the extra strain of greeting a crowd on arrival.

He has made a rapid recovery from the heart attack he suffered July 2. He planned to spend most of the autumn at his Johnson City, Tex., home and return to his Senate duties next January.

The Senior Texas Senator, his weight trimmed from 200 to 181 pounds was all pep as he met reporters at his home yesterday, but still hardly his old self.

He has split his office staff, headed by Walter Jenkins of Wichita Falls, between Austin and Washington and hopes to handle business as usual, he said, between the state capital and the nation's seat of government, He asked that no constituent hesitate to come to him with a problem or suggestion.

Before leaving Washington, the Senator predicted that Texas would be back in the Democratic column in 1956's presidential race and told reporters:

"I'm not going to confine myself just to Texas.

"I think we'll take everything from the courthouse to the White House, all over the country. And there are two good reasons for my thinking that:

"First, the Democratic Party and what it stands for and second, the fact that the President is a man without a party."

Elaborating on the "man without a party" statement, Johnson continued;

"Up to this very moment, he has not had a one of his four top leaders in the congress commend him on his actions at the Geneva Conference. In fact, those who have commented off-the-record have done so in rather uncomplimentary terms." He did not refer to any Republicans by name.

Johnson said he expected before Christmas to have word from his doctors whether he could resume his job in January as Democratic leader in the Senate.

"If they say I can do it, I will. If not, I won't. If I do, I won't spend as much time on the floor as I did this year. I will appoint some deputy leaders to share those responsibilities," the Senator, who will be 47 years old Saturday, said.

Dr. Willis Hurst, Navy lieutenant commander, who has been Johnson's personal physician while the senator was under treatment at Bethesda Naval Hospital, was to accompany him home Thursday.

City Resident Given Scroll

Hugh Boren, Jr., of the Hugh Boren & Son Insurance Agency of Snyder, who represents the Niagara Fire Insurance Company, a member company of the America Fire Insurance Group, has been presented with the company's engrossed scroll in token of 34 years representation.

Presentation was made by John W. Pruett of Abilene, fieldman for the company, and was accompanied by a letter from President Frank A. Christensen which said:

"It is not often that I have the privilege of extending congratulations to an America Fire agent on the attainment of 34 years of representation of our organiation.

"Such an anniversary is comparatively rare and it is with distinct pleasure that I extend my best wishes to you on this additional membership in our Old Guard over the regulation twenty-five years.

"Without the loyalty and support of your agency throughout the years and the thousands of other members of the Old Guard, our America Fire Group would not have attained the outstanding position it holds in the insurance world today."

SEATO Meeting

BANGKOK, Thailand (AP)—SEATO council representatives opened a four - day session today at Thailand's Foreign Ministry. They will study the economic and military situations and Communist subversive activities in Southeast Asia Treaty Organization countries.

ON WAY HOME—Mrs. Romola Abidin who was declared innocent of murdering her husband, Warrant Officer Robert J. Abidin, by an Army court martial in Japan, is shown as she arrived in San Francisco with her family. Accompanied by her father, Louis M. Viviano, right, and her three sons, Randolph, 4; Ronald, 6, and Robert, 7. Mrs. Abidin will return to her family's home in Bayside, N.Y.

Longshoremen End Walkout

NEW YORK (AP)—Longshoremen returned to their jobs today, ending a three-day wildcat strike on a number of Hudson River piers.

However, the president of the International Longshoremen's Assn (Ind) indicated a portwide strike of dock workers may be called in two weeks.

The unauthorized work stoppage was touched off Monday when the New York-New Jersey waterfront Commission canceled a work permit held by a longshoreman with a long criminal record.

The ILA consistently has opposed the bistate commission - with its subpoena powers, tight application of hiring rules and its check on dockers with past criminal records.

An original group of several hundred strikers mushroomed Tuesday to between 4,000 and 6,000 dockers. Fourteen vessels were affected.

Pressed by union leaders yesterday, the men started back towork The Queen Mary put to sea on schedule, but the liner Independence steamed out of port three hours late.

In urging the men to return to their jobs, ILA President William V. Bradley told them the union shared their resentment against what he termed the commission's "indiscriminate" handling of its powers.

If the matter is not straightened out in the next two weeks, Bradley said, "we will be down to the piers to lead you."

Regulations On Labor For County Announced

Two employment regulations received from the Texas Employment Commission were announced here today by Robert H. Poteet, manager of the Farmers Co-operative Labor Association of Scurry County.

The TEC and U. S. Department of Labor regional office at Dallas have both stated, Poteet said, that all farmers who expect or possibly will have to use Mexican national labor in case of shortage of native citizen workers must comply with these rules: any farmers who desire to secure workers through an association must have necessary papers signed at the association office before Sept. 15. The farmers will not be obligated to take workers unless they are needed. User members can belong to one association only to secure workers. The need for workers must be shown by the signed from CSS 593 or CSS-594 from the Agriculture Stabiliation and Conservation office in the county in which the cotton agreage allotment is granted.

City Man Taking Part In State Rifle Match

Sgt. Robert Greene, member of Co. D, 122th Armored Cavalry Regiment, the local National Guard unit, is at Camp Bullis near San Antonio participating in a state match.

Greene, who won a local rifle elimination contest, is one of 26 National Guardsmen chosen to participate in the Texas National Guard match. Ten of the 26 will be flown from Camp Bullis to Camp Perry, Ind., to compete in matches of the National Rifle Association.

An employe of the State Highway Department, Greene was a memeber of a rifle team representing the 112th's Second Battalion which won the Weston Trophy at the National Guard summer encampment at North Fort Hood in June.

Plans Set To Put U. S. On War Footing

WASHINGTON (AP)—Plans are being developed for putting the government and the nation's economy on an immediate war footing, if the need should arise.

The Office of Defense Mobilization yesterday sketched these preparations in a report to the Senate-House Defense Production Committee.

ODM chief Arthur S. Flemming said standby orders have been drafted for a general freeze on prices, wages and rents and plans made for an agency to handle such economic controls as these and food rationing. Plans also have been prepared to invoke production and materials curbs and to take over control of radio, telephone and telegraph system.

BECOMES ADMINISTRATOR—Newell Brown poses after being sworn in at Washington as federal wage-hour administrator. He formerly headed New Hampshire's employment security division.

Orange Citizens Group Will Fight Integration

ORANGE (AP)—A citizens council to fight school integration has been formed here at a meeting attended by some 53 persons.

Van Hare, 22, said he had agreed to serve as temporary president for "about two months."

The meeting Tuesday night followed a mass meeting two weeks ago. The Orange Leader said Dr. B. E. Masters of Kilgore at that time urged economic pressure and social boycott, if necessary, to maintain segregation in public schools.

The Orange School Board has ordered a study aimed at integrating, possibly next year.
