WHERE TEXANS ARE TEXANS

Volume 12 Member of The Associated Press Lamesa, Dawson County, Texas, Thursday, November 12, 1942 Member of Associated Press and Wide World Features Number 88

## Farmers To Vote Friday For 1943 Committeemen

Every farmer in Dawson County should consider it a patriotic duty to participate in the election of county and community committeemen who will administer the AAA program during 1943, according to Charles E. Tarter administrative officer of the local AAA office.

Farmers of this county will vote on Friday, November 13 at 8 o'clock p. m. at school houses in the county. They will elect community committeemen and delegates to the county convention. Convention delegates will meet Saturday morning, November 14, to elect county committeemen.

"AAA committeemen next year, more than ever before, will play a vital role in American Agriculture," Tarter declared. "More and more important jobs are being handled by committeemen—jobs which are of great importance to the nation's wartime living. Those jobs require that the men doing them be capable of doing them properly."

The state chairman B. F. Vance reminds farmers that the man they elect to serve as chairman of their county AAA committee also will be chairman of their county USDA war board.

"He must be a leader who is capable of getting his job done expeditiously and efficiently, the state chairman said. "In addition, he must be in a position to devote considerable time to AAA and War Board work."

According to Mr. Tarter, community committee elections will be held at the following places:

- Lamesa—District Court Room
- Five Mile—School House
- Shumake—School House
- Key—School House
- Harmony—School House
- Hancock—School House
- O. K.—School House
- Welch—School House
- Bartlett—School House
- Union—School House
- Higginbotham—Church
- Klondike—School House

Odessa and Lufkin virtually clinched district championships in Texas schoolboy football Wednesday to start a busy week of play—the Bronchos smashing Sweetwater 39-0 and Lufkin rolling over Nacogdoches 35-0.

Odessa has one more game to go before closing out the District 3 race but is an overwhelming favorite to remain unbeaten in conference play.

Lufkin has two more games but is expected to come through easily in the District 12 race.

Defeat of Sweetwater tumbled one of eight teams from the unbeaten, untied ranks in the state.

Lufkin remained a member of that select circle.

Jimmie McCracken, who completed 18 of 28 passing attempts, and Otis McKelvey, who cracked the line for three touchdowns, did most damage for the Odessans, aided by Evans, Wilkinson and Lewis.

H. D. Council To Hold Annual Meet Saturday, Nov. 21

The Dawson County Home Demonstration Council will hold their annual meeting on Saturday, November 21, beginning at 11 o'clock a. m. at the Recreation Building in the City Park, reports Miss Mattie Phenix.

Officers for the new year will be elected during the meeting, and reports given by each club. Each woman will bring a basket lunch.

All Home Demonstration club members are invited to attend. The meeting was planned for this time, since Saturday, November 21, is the last day before gas rationing, Miss Phenix said.

Notice To Courier Patrons

If for any reason you fail to get your paper you are urged to call the Courier Office before the noon hour on Tuesday and Friday of each week. A paper will be delivered promptly to your house upon receipt of complaint. The Courier is delivered in town by carrier boy on Monday and Tuesday. Call us for better service.

## President

Sheriff Ira Heard of Refugio County recently was elected president of the Sheriffs' Association of Texas. He succeeded Sheriff Smoot Schmid (cq) of Dallas County.

## Thirty-Six Men Reclassified By Local Draft Board

The Selective Service Board reclassified a number of Dawson County men at their meeting during the week.

On Monday night the following men were reclassified. Those placed in 1-A are: Walter Eddings, Jesus Rodriguez, Petronilo Castillo, and Guisilerno Pena.

Men placed in 2-A are: Jack Womack, Sidney Bruce, Jr., George Jones, Earl Bruce, James Reid, J. Minter Jr., Charles Coon, Fred Utecht, Roy Webb, Elzie Holley, Eugene Truitt, Lester Brown, Clay Howell, Martin Smith, Kilmer Scott, Johell Middleton.

Men already enlisted, Phillip Norris, Richard Skinner, Marvin Calhoun, Bennie Hudgens, Van Stanfield, Johnnie Ragsdale, Dolphus McLendon, Ruben Price, Jr., Lewis Crowell, Johnnie Merritt, Joe Hubbard, Alvin Slatton.

Thomas Flint, Inducted: Roy Powell, 3-B; Allie Brury, 3-B; Carrol Davis, 3-B.

## T. B. Directors To Meet Friday

We have been asked to announce that all directors of Dawson County's Tuberculosis Association will meet Friday afternoon, November 13, at 4 p. m. in the District Court Room.

All directors are urged to be present, and if it is impossible to be there, please send someone to represent your community.

## Midland Passes Beats Lamesa, 13-7

The Midland Bulldogs bombarded Lamesa's Golden Tornadoes with passes here Wednesday, Armistice Day, to gain a 13-7 victory, with the final touchdown coming in the last two minutes of play on a pitch from Bill Richards to Charlie Kelly.

A holiday crowd of about 2,000 fans saw the game, which was played in ideal football weather.

It was the visitors' aerial game that paid off with the victory. Richards, the leader of the Bull—(Continued on Back Page)

## Truck Operators Must Have Certificate Of Necessity Before Applying For Gas

Operators of trucks, buses and taxis must have their certificates of war necessity before applying to the local war price and rationing board for their mileage rations, J. T. Allen, Chairman of the Gasoline Panel of Dawson County War Price and Rationing Board, announced today.

"The certificates of war necessity, issued by the Office of Defense Transportation, form the basis for our issuance of transport rations to those commercial vehicles," Mr. Allen said. "When applicants come to the board they must bring them these certificates, together with properly executed application for a mileage ration."

Each war necessity certificate states the number of miles the vehicle for which the certificate is issued will be allowed to travel during a three-month period. The certificate also states the number of gallons of gasoline needed to cover this mileage.

The rationing board will determine the amount of transport rations to be issued for the vehicle on the basis of the mileage allowed in the certificate. In no case is the board permitted to allow more gasoline than is stipulated in the certificate. The "T" Books will be tailored to the allowable mileage by tearing out coupons.

## Subscribers Are Asked To Check Expiration Dates

Courier readers are asked to watch their expiration dates on their subscriptions in order that they not miss a single issue of their home town newspaper.

In other words, if the numbers following your name on your paper read 12-42 that means that your subscription will expire on December 1, 1942, and that unless you renew your subscription it will be stopped at that time.

The subscription price of the Courier is now \$2.00 per year in Dawson, Martin, Gaines, Borden and Lynn Counties, \$1.25 for six months, or \$3.00 for two years. The subscription price outside this territory is \$3.00 per year.

## Farmers Receive \$22,736.00 In Soil Checks This Week

Fifty-six more 1942 soil conservation checks were received at the AAA office Tuesday, according to Charles E. Tarter. The second bunch of checks amounted to \$10,417.30.

The first checks to be received by Dawson County farmers arrived last Friday and totaled \$12,319.05, they also went to fifty-six farmers. The two bunches of checks totals \$22,736.35.

Approximately 2500 farmers in the county will receive the 1942 checks, and will amount to approximately \$800,000. Last year Dawson County farmers received about 1,000,000, Mr. Tarter said.

According to Mr. Tarter, checks are mailed direct to farmers.

## Farm Machinery 'Froze' Nov. 1

"Freezing" of farm machinery was necessary to allow the government time to establish quotas, B. F. Vance, Chairman, Texas USDA War Board, explained in commenting on the order temporarily "freezing" farm machinery as of November 1.

The "freeze" order applies to most farm machinery, but some particular types, such as peanut pickers, may be sold by retail dealers out of stocks on hand, although the dealers will not be able to restock during the duration of the "freeze."

To avert extreme hardships, the order provides an appeals system in which the appropriate facts can be presented to the county farm machinery rationing committee for transmittal to the state USDA war board. Final action on such appeals will be taken by the national USDA war board.

Vance said quotas would be established in a short time and actual rationing of machinery would get underway as soon as possible.

## COOPERATING IN BOND ADS FOR THIS MONTH

A list containing the names of firms and individuals, who are cooperating in the Treasury Department's War Bond Stamp program, will be published in this space each issue of the Courier.

A special series of advertisements, encouraging the sale of War Bonds and Stamps, has been prepared by the Treasury Department and will be offered for sale by the Courier each week.

The following list includes those who have purchased War Bond and Stamp advertising this month:

- Hurts
- Spencer Machine Shop
- Lamesa Creamery
- First National Bank
- Ideal Food Market
- Clark-McDonald Drug
- Corbett Cafe
- Forest Lumber Co.
- Adams Jewelry
- Osborn's Drive In
- McDonald Gin Co.
- Cleve Smith Lumber Co.
- Lamesa Tin & Radiator Shop
- Arnett's Cafe
- E. R. Yates Hardware
- Fruit's Boot & Shoe Shop
- J. C. Penney Co.
- Globe Dry Cleaners
- Arnett Motor Co.
- Mark's Radio Service
- Palace Beauty Salon
- Brown's Steam Laundry
- Boone Drug

## Car Owners To Register For Gasoline Next Week

### Farmers To Vote Dec. 12 On Cotton Referendum

Cotton farmers all over the South go to the polls Saturday, December 12 to vote on cotton marketing quotas.

Cotton marketing quotas have been in effect for the past five years, the growers voting each year to use quotas as a means of insuring each grower his fair share of the available market for cotton, George Slaughter, chairman, Texas AAA committee, pointed out in announcing the referendum date.

Last December 89.4 per cent of the Texas growers voting favored quotas on the 1942 crop, while 93.9 per cent of the growers voting over the nation favored quotas.

Slaughter indicated that because of wartime conditions, the number of ballot boxes for this year's referendum would be considerably larger than the number in previous years. This move is intended to make it possible for all growers to get to the polls despite the transportation problem and the rush of war-time food production.

Full information on the present situation and the prospective demand for cotton next year will be provided farmers eligible to vote in the referendum, Slaughter said.

### Marine Recruiter To Be At Midland On Nov. 16-17

There will be a United States Marine Corps Recruiting party in Midland, Texas, Monday and Tuesday, 16 and 17 of November, 1942 for the purpose of interviewing and accepting applicants for enlistment in the U. S. Marine Corps.

All men who are accepted will be furnished transportation to San Angelo, Texas. All expenses will be paid by the Marine Corps.

The requirements for enlisting in the Marine Corps are: Be between the ages of 17 and 36 years inclusive, either married or single, 63 to 75 inches in height, weigh not less than 110 pounds, at least a grammar school education and have no police record.

Young men if you want to become one of the finest men in the world call on the Marine Corps Recruiting Sergeant at the postoffice in Midland on the above mentioned dates or at the postoffice in San Angelo any day except Sunday.

### COOPERATING IN BOND ADS FOR THIS MONTH

A list containing the names of firms and individuals, who are cooperating in the Treasury Department's War Bond Stamp program, will be published in this space each issue of the Courier.

A special series of advertisements, encouraging the sale of War Bonds and Stamps, has been prepared by the Treasury Department and will be offered for sale by the Courier each week.

The following list includes those who have purchased War Bond and Stamp advertising this month:

- G. F. Wacker Stores
- The Vogue
- Modern Dry Cleaners
- Dyer Hardware & Auto Sup.
- Bryant-Link Company
- Robert's Barber-Beauty Shop
- Firestone Feed & Poultry
- Hudgens Grocery
- Dewey's Bargain Center
- Earnest & Nix Motor Co.
- Lamesa Steam Laundry
- Fox Food Market
- Whichead's Laundry
- Eiland-Burnett Lumber Co.
- Wright's Conoco Service
- A. G. Waugh Company
- W. G. White Gin
- Lamesa Cooperative Gin
- Sinclair Refining Company
- Gulf Oil Corporation
- Texas Electric Service Co.
- The Lamesa National Bank

### The Texas Comet In Action

Here's Rudolph Mobley, the 155-pound Hardin-Simmons back, in action. "Little Doc" leads the nation in rushing and his 882 yards in five games—an average of 176—threatens to surpass the great Whizzer White's mark of 1,121 yards in eight games.

### Drive To Sell War Bonds And Stamps To Get Underway In County, Monday Nov. 16

An extensive drive to sell war bonds and stamps will get underway in Dawson County on Monday, November 16, according to F. T. McCollum, county War Bond Chairman.

Dawson County citizens have purchased \$367,097 in war bonds and stamps since January 1, but are still short \$90,000 of the year quota.

The drive will be staged to wipe out this deficit by December 7. The citizens of the county are now financially able to meet their quota, and it should be fitting that Pearl Harbor Day be the day Dawson County shows its intentions of demonstrating to the boys on the firing line that they are being backed by the folks at home.

Girl Scouts of Troop 2, under the direction of Mrs. Gordon B. McGuire sold bonds and stamps in special booths on the streets last Saturday, and report a splendid sale of \$1,242.65. One \$1,000 bond was reported sold and a number of smaller ones. These booths will be on the streets each Saturday until the big drive is over.

Mrs. M. C. Lindsey will head a woman's group, composed of various women's organizations that will sell bonds each day of the week at both banks for the duration of the drive. Every citizen in the county is asked to please buy all the bonds they can possibly afford, buy to the extent of your appreciation of your liberty. You will not only be helping win the war but will be buying protection for you and your family for years to come.

Don C. Carter, Jr. of Mr. and Mrs. Don Carter of the Welch Community has volunteered in the Air Corps, and is now stationed at the Lubbock Army Flying School. He has until recently been working in San Francisco, California.

TO MAKE HOME IN VIRGINIA

Mrs. J. D. Willson left Sunday for Fort Belvoir, Virginia, where she will join her husband, Lt. Willson.

Lt. Willson before being inducted into the army worked with the Highway Department here for several years. He received his commission at Fort Belvoir, Wednesday, November 11.

About 50,000,000 meteors fall toward the earth every day.

### Dates Changed To Nov. 19-20-21; Will Register At School

OWNERS MUST BRING APPLICATIONS FILLED OUT AND CAR PAPERS

Dates for registration for gasoline rationing books has been changed from November 12, 13 and 14 to November 19, 20, and 21, at which time Dawson County passenger car owners will register at their respective school buildings. Date in which gas rationing will go into effect has been set for Tuesday, December 1. This change in date was announced Tuesday by State Director Mark McCree, due to ration boards over the state not receiving rationing supplies.

Registration of passenger automobiles for rationing purposes will be carried on at the Primary School building in Lamesa, and at each school house in the county. Members of the school faculties will handle the work, just as was done in registering for sugar rationing.

ROUTINE EXPLAINED

J. T. Allen, chairman of the Gasoline Panel of the Dawson County War Price and Rationing Board, has clarified the procedure to be taken by a car owner in the following explanatory statements:

What each person who registers at the school houses need to carry with them is an application, blank already filled out and their car registration papers.

Registrants at the school houses during November 19, 20 and 21, will issue only basic ration books—"A"—books for passenger car owners and "D" books for motorcycle. Supplemental applications, that are requested for additional gasoline, are not to be presented on the next days for registering vehicles next weeks.

Application forms are now available at the Ration Office in the basement of the post office, and should be picked up at once by any owner of a passenger car or motorcycle who does not already have one, Mr. Allen said.

This form is simple. Most of the information can be obtained from the vehicle registration card. The most important information needed to fill out the application, however, is the list of serial numbers on every tire which you or any relative living in your house own for the vehicle.

The serial numbers, Mr. Allen warned, are the indented numbers on the tire walls. They are not to be confused with any raised numbers appearing on the tires. In case (Continued on Back Page)

### Local Sears Office Wins National Sales Contest

The local order office of the Sears Roebuck and Company have for the second time won the National Sales contest for their October sales, according to Jo Hall, local manager. Miss Dana Derstine, assistant manager.

The local office won over 240 other offices in the United States, Alaska and Canada; they also won the same contest last year.

The local managers were awarded \$35.00 in defense stamps as a prize in the contest.

### Calvin Richmond Promoted To Sgt.

Calvin E. Richmond, now stationed at Williams Field, Arizona, an Air Corps advanced flying and bombardier school, has been promoted to the rank of Sergeant. It was learned here today.

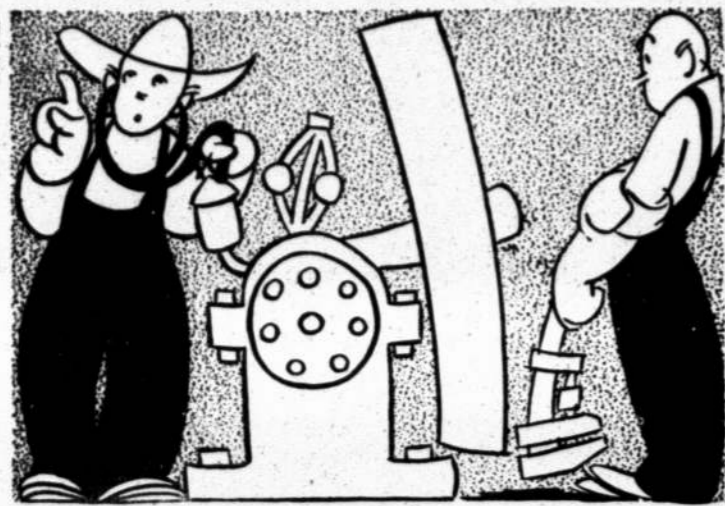

He enlisted for service in the Air Corps in February, 1942, at Fort Bliss, Texas, and served there prior to his transfer to Williams Field.

His promotion is attributed to his exemplary record as a soldier and technician in his duties, field authorities said.

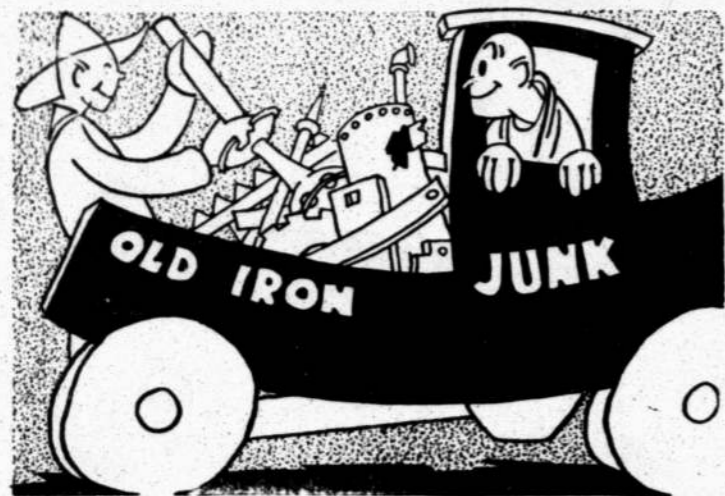

MISS PHENIX TO ATTEND DISTRICT MEETING

Miss Mattie Phenix, Home Demonstration Agent went to Lubbock Thursday where she attended a District meeting for Home Demonstration agents. The meeting was called by Miss Kate Adele Hill, District Agent from A. & M.

Save and Sell for Victory

SAVE all good farm machinery. Make repairs. Order needed new parts. Swap equipment and parts with your neighbors. Keep war-time food production rolling.

SELL your old iron and steel. Get it to your junk dealer right away. Steel mills are working 24 hours a day. They need scrap for every batch of steel.

Stabilization Act Hikes Loan Rates

Texas cotton farmers will receive one cent per pound more for loan cotton than they did before the President's Stabilization Act went into effect.

Higher loan rates on rice and peanuts also were announced at the same time.

The one cent increase in cotton, which represents 90 instead of 85 per cent of parity, raised the loan rate on 15-16 inch middling to 17.61 cents in the El Paso Valley to 17.82 cents in East Texas and 17.77 cents in the Central Texas area.

Farmers who already have placed 1942 cotton in the loan at the lower rate automatically will receive one cent per pound increase without making requests, according to Fred Rennels, assistant administrative officer of the AAA in Texas.

The new loan rate on marketing quota peanuts, Rennels explained, will be \$140 per ton for No. 1 Class A Virginia variety; \$141 per ton for

National Hog Production Goals Released

The 1943 Food for Freedom program got underway last week when the nation's hog farmers were asked to increase spring farrowing by at least 10 per cent over this year's record crop.

Although state production goals have not been received by the Texas USDA War Board, B. F. Vance, chairman, said that Texas hog farmers would be asked to fall in line with the national increase.

He explained also that hog farmers were requested to market their hogs 10 pounds heavier than they are this year.

The national increase will result in an estimated 1943 slaughter of pork amounting to 13.4 billion pounds dressed weight, compared with slightly more than 11 billion pounds of slaughter this year.

Ever-increasing demands for meat products to the fighting forces, Lend-Lease purchases and civilian needs were cited as reason for the increased production.

Hog producers were urged to plan their 1943 farrowings so that their marketings would avoid the normal marketing peaks, thereby relieving transportation and processing congestion. Particular emphasis was placed upon their earlier-than-usual farrowings, which might result in heavier marketings during the normal late-summer bare spots.

Answering the nation's call for more pigs early in 1942, Vance pointed out that Texas hog farmers saved 1,620,000 head of pigs from spring farrowing, the largest crop on record.

Other Food for Freedom goals probably will be announced in December, the War Board chairman said.

A SUB IS THE PLACE TO STUDY PHILOSOPHY

MILWAUKEE, Wis. (AP) — "Tropes directed by a sound philosophy ought to be rather effective. The combination of submarines and metaphysics is not as paradoxical as it seems."

That is the word of the Rev. Edward A. McGarth, S. J., head of the department of philosophy at Marquette University, who reports the strangest request he has ever received — from an ensign on submarine duty for books on philosophy.

The ensign is Edward F. Sullivan, Jr. of Sheboygan, Wis., who received his bachelor of science degree from Marquette in 1941.

"My taste of the scholastic system of philosophy at Marquette," wrote Ensign Sullivan, "left me with ambitions of further delving into the subject. The long patrols of a submarine leave me with an opportunity, in fact an exigency, to read."

Father McGarth is assembling a library to send to him.

FIRST AID CLASS HAS ACE IN HOLE

HUGO, Okla. (AP) — At one of these war-time first aid classes, Mike Hughes stuck his hand in the electric fan, lacerating three fingers.

Excitement was high, since no one had a bandage. Somebody suggested an emergency bandage from a petticoat, but there were no petticoats.

Finally, even as you, the first aiders called a doctor.

No. 1 Southeastern Spanish, \$139 for No. 1 Southwestern, and \$127 for No. 1 Runner type. No changes will be made in the price of peanuts raised for oil purposes, he explained since the support prices already are more than 110-per cent of the comparable prices determined for peanuts for oil, and the new law requires only a 90 per cent rate.

Cotton Beach Frock

Handblocked cotton in shades of dull rose is used to make this beach frock worn by Gene Tierney, lovely film star. The skirt ties on, and underneath are matching shorts to form a play suit when the skirt is removed.

COTTON QUIZ

WHAT IS THE OLDEST COTTON CLOTH IN THE NATIONAL MUSEUMS COLLECTION?

ANS. — A HEADBAND — BELIEVED MADE ABOUT THE TIME OF THE CONQUEST OF MEXICO — AND USED BY THE INDIANS TO CARRY HEAVY LOADS BEFORE THE WHITES CAME.

"For these are the lasting, truthful things..."

This is an American soldier.

He goes to war not with any fanatical theories of race superiority, of any special "place in the sun," nor any desire to rule the world by fire and by sword. He fights for something greater. For decency—for his loved ones—for his Country, not as some warlike symbol, but as the one great refuge in this world where the humble, the meek, and the righteous may live and work in peace.

This is why he must win. For these are lasting, truthful things. They are not temporary drugs for the mind, but steadfast things of the heart and the soul. And when the flame of fanaticism finally flickers and goes out, the fires of American decency and honor will still burn.

It is this same sense of decency and honor that has bound us all together. We know we cannot all fight. But there is something we can do—and are doing—to help. We can help provide the guns, the planes, the tanks, and the ships to put *might behind the right.*

By the tens of millions, Americans are saving for Victory in the War Bond Payroll Savings Plan. Every payday we employees, workers and bosses are putting aside 10% of our pay—a dime from every dollar—and every time these savings amount to \$18.75, we get a War Bond. And—because this is the free American way—our money is working double. First it goes in a mighty flow for the instruments of Victory, then—ten years later—it comes back to us, four dollars for every three we've put into War Bonds—\$25 for every \$18.75.

Now look at the picture again. Then imagine that this soldier were your brother, your son, or your sweetheart.

Would ten percent of your pay, in War Bond savings, be too much to help him win—and live?

5 Reasons Why

1. By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.
2. You prove that you are a patriotic American.
3. You aid the morale of our fighting men, by showing them that the entire Nation is behind them.
4. You prove to our enemies that we are a United People.
5. You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's safest investment, by buying a share in the world's most powerful country.

## Glass Jars Get War Dress

One of the war-time changes homemakers can expect soon is a new top-knot for the mason jar, a fixture in the home canning business. WPB recently prohibited the use of zinc in making lids for glass containers and this means that the old mason jar soon will wear a new cap.

The USDA Bureau of Home Economics is working on a new lid. Meanwhile, says Winifred Jones of the A. and M. College Extension Service, homemakers can obtain porcelain closures with steel rims which give a secure seal and which are currently used as substitutes for zinc jar tops. In addition to the order prohibiting the use of zinc, a new WPB regulation is expected limiting the types of jars for home canning.

Miss Jones, who is specialist in food preservation, explains that the government is interested in farm families having an adequate food supply and will do everything possible to assure stocks of proper food containers.

Proper containers are necessary to qualify canned foods. For example, pickles are better in glass, fruits are just as good in glass, while meats and most vegetables should be canned in tin. The specialist says there are three kinds of tin. Plain tin is most common and is used for most meats and many vegetables. Corn, peas, chicken, and fish are better in C enamel. R enamel is used for red foods, such as beets and berries, and for pumpkin and squash.

Vacuum seal jars in which certain brands of coffee are sold are suitable for canned fruits and some kinds of vegetables. Miss Jones does not advise their use for canned meats, however.

## Freshness Appeal

The younger set this summer will choose cotton chenille robes because of their wearability and washability. This pretty lass radiates with "cotton freshness" as she poses for the cameraman.

### EVEN CARTOON AUTO'S STRIPPED OF TIRES

TULSA, Okla. (AP)—The cartoon that always accompanied Roger V. Delvin's column, "The Rambler," in the Tulsa Tribune showed him in a sleek automobile on a country lane.

Came the rubber shortage and Delvin's readers began writing to the editor, wanting to know when Delvin was going to start conserving tires.

So Delvin, who really doesn't use an automobile in collecting the humor for his column, solved the situation.

The cartoon now shows the car on blocks, jacked up in a field, while Delvin is riding down the road on a bicycle.

### CAT WILLOW ANSWERS MR. NIP

STILLWATER, Okla. (AP)—If your next door farmer begins harvesting the mesquite-like plant out in his pasture don't call for the paddy wagon — he may be reaping a crop of insecticide.

Ever since the Japs overran the Dutch East Indies, the insecticide rotenone — good for dipping animals as well as spraying vegetables — has been hard to come by.

Oklahoma Agricultural experiment station insecticide sleuths believe they have the answer in the cat willow or so-called river locust. This plant has rotenone in its bean, and it is about as common on the plains as mesquite.

The total area of the Galapagos Islands is 2,863 square miles.

### SEPTAGENARIAN SPURNS PENSION FOR WAR WORK

LOS ANGELES, (AP)—At the age of 76, Bill Harrison has spurned a pension for Indian war service and gone to work as a welder in a defense plant.

Pierre Esprit Radisson and Medard Couart, French explorers, were said to be the first white men to have set foot within Minnesota.

### CITATION BY PUBLICATION STATE OF TEXAS TO: LINNIE REYNOLDS, GREETINGS:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from date of issuance of this Citation, the same being Monday the 21st day of December, A. D. 1942, at or before 10 o'clock A. M., before the Honorable District Court of Dawson County, at the Court House in Lamesa, Texas.

Said plaintiff's petition was filed on the 3rd day of November, 1942. The file number of said suit being No. 2618.

The names of the parties in said

suit are: Lavana Reynolds as Plaintiff, and Linnie Reynolds as Defendant.

The nature of said suit being substantially as follows, to wit: Plaintiff alleges that she is a resident of Dawson County, Texas, and she and defendant were married in August 1938, and separated in 1939. That as grounds for divorce she alleges cruel treatment; that defendant was cruel, unkind, and often in a bad humor. No children were born as the result of said marriage, and there are no property rights existing between plaintiff and defendant.

Issued this the 3rd day of November, 1942.

Given under my hand and seal of said Court, at office in Lamesa, Texas, this the 3rd day of November, A. D. 1942.

ALLIE MAE SALSER, Clerk District Court, Dawson County, Texas. 41c 86-88-90-92

### TIRE TROUBLE

LIVINGSTON, Mont. (AP)—When members of the Park county rationing board met to allocate some tires they found that Chairman R. A. Thornton was absent. He phoned. The reason for his absence—tire trouble, and he had no spare.

### FORMER ARMY CAPTAIN RECRUITS MEN FOR NAVY

PHOENIX, Ariz. (AP)—Charles C. Head, who served in many parts of the world with the Army before retiring as a captain, has closed his little neighborhood grocery and is carrying on a one-man volunteer recruiting service — for the Navy.

Enlistment posters have replaced the stock in his place of business. He uses his own automobile to visit young men and their families in spreading the gospel of navy service.

He began by signing up his son, Charles, Jr., when he returned from a year of Army duty. Two grandsons also are in the nation's sea service.

### FIRE TRUCK FINDS SELF COMING FROM A FIRE

WILLIAMSVILLE, N. Y. (AP)—The Williamsville fire truck was about to answer an alarm today when it backfired and caught fire. Damage was slight.

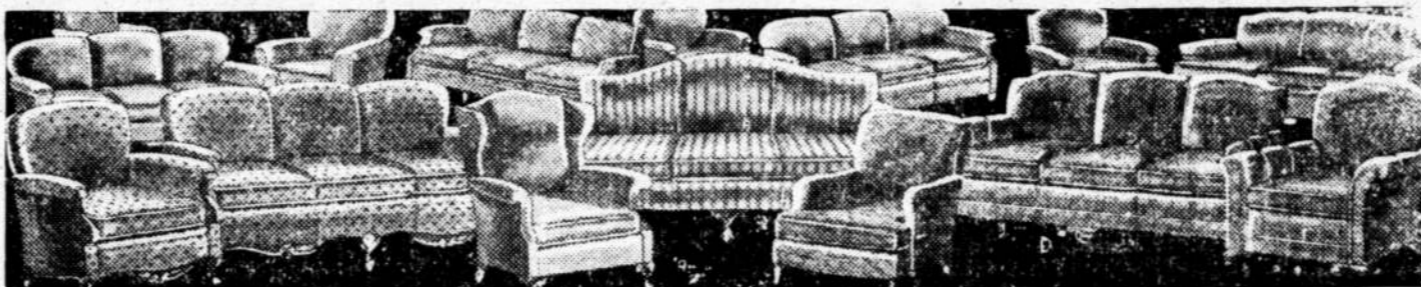

The famous giant lizards of the islands of Komodo are deaf.

Miss Mary Louise Tinkler Takes Vows With Lt. Robert Schmid Saturday

Miss Mary Louise Tinkler, daughter of Mrs. Ola Tinkler of Lubbock, became the bride of Lt. Robert Schmid, of Merced, California, Saturday afternoon at 2 o'clock, at the Methodist Parsonage, with the pastor of the Methodist Church officiating.

The bride wore a beige crepe dress trimmed in brown velvet and carried brown accessories. Mrs. Schmid is a graduate of the Brownfield High School and also a graduate of Texas Tech, Lubbock.

Lt. Schmid is a graduate of the Bisbee High School, and attended the University of Arizona, and Texas Tech, Lubbock. Lt. Schmid is now in training at Merced, California, where the couple will make their home for the present.

The marriage of Miss Pauline Davis, daughter of Mr. and Mrs. Roy Davis to Jasper White, son of Mr. and Mrs. J. F. White took place Saturday, October 31, at the home of Rev. Earnest Phillips, pastor of the First Baptist Church, Klondike.

The church of the Nazarene and friends of Rev. Leo Lawrence and family gathered Friday evening, October 6, at the parsonage for a farewell party.

The group gathered about 8 o'clock and marched in singing "Blest Be The Tie That Binds." Many beautiful songs were sung after which Rev. Lawrence read a psalm and spoke Brother Sager, Lutheran pastor, lead in prayer.

Many beautiful gifts were brought for each member of the family and others sent gifts, who were unable to attend.

Refreshments were served to about 47 guests, after which Rev. Lawrence dismissed the group with a prayer.

Pvt. E. C. Riebold of the Big Spring Army Bombardier School spent the week end here with his family.

Mr. and Mrs. Jewell Weaver of Fort Worth are visiting here this week with relatives and friends.

Mr. and Mrs. W. W. Griffith and Mike Hall are visiting this week in Houston, Waco and Port Arthur with friends.

We wish to take this opportunity to thank our friends and neighbors for their every kindness and help during the illness and death of our husband and father. We are indeed grateful for every expression of love and sympathy.

MARATHA SUE CRAWLEY HONORED ON 6TH BIRTHDAY

Mrs. Victor Crawley, assisted by Ann Crawley, Dorothy Jean Boren and Johnnie Smith entertained with a birthday party for Maratha Sue Crawley on her sixth birthday, Saturday afternoon from 4 until 6 o'clock.

MISS LATRICE LOE COMPLIMENTED WITH SHOWER SATURDAY

As a courtesy to Miss Latrice Loe, who became the bride of Staff Sgt. Don Fritz Sunday, Mrs. Roy Speck entertained with a miscellaneous shower Saturday evening from 8 until 10 o'clock at her home.

Bouquets of chrysanthemums and marigolds decorated the entertaining rooms. As the guests arrived they were greeted by Miss Genece Loe, who presided at the brides book.

ATTENDS WEDDING IN PLAINVIEW SUNDAY

Miss Mattie Phenix went to Plainview Sunday where she attended the wedding of Miss Mavis Churchwell and Wayne McClain of Fort Worth.

Mr. and Mrs. H. E. Easterwood

of Temple spent several days here this week visiting with relatives and friends.

Mr. and Mrs. Albert Heath

and children spent the week end at Cattula visiting in the home of Mr. and Mrs. Paddy Lann.

Mr. and Mrs. J. L. Carroll

spent Tuesday in Lubbock visiting with friends.

Mr. and Mrs. B. P. Middleton

and son spent the week end in Abilene visiting with relatives.

Mrs. W. K. Crawley left Sunday

for Annapolis, Maryland, to visit with her son, Midshipman, Bob Crawley.

Holds Newspaper Record

G. R. Dealey of the Dallas Morning News is shown at his desk as he starts his 69th year with his publishing company, a record in the newspaper world for continuous association with one institution.

Marriage Of Miss Juanita Bennett And Pvt. Robert Moore Held Sunday

The marriage of Miss Juanita Bennett, daughter of Mr. and Mrs. R. I. Bennett, to Pvt. Robert M. Moore, son of Mr. and Mrs. G. A. Moore, took place Sunday morning at 9:30, before Mass at the St. Margaret Mary's Catholic Church.

The church was beautifully decorated with large baskets of chrysanthemums and was lighted with tall white tapers.

The bride was attractive in a light blue wool dress with black accessories. He only jewelry was a single strand of pearls.

Pvt. Moore is a graduate of the Lamesa High School and is now receiving his training at the Lubbock Flying School.

Witnesses at the wedding were Miss Margie Allen and Lt. L. J. Wannamacher, Jr.

After the wedding the couple left on a short wedding trip in New Mexico.

# what will your new car be like?

**GREAT CHANGES** in automobiles are certain after the war. What will they be? Will your post-war car be teardrop in shape? ... Will it have sealed plastic windows to preserve air-conditioned interior temperature? ... Have "shiftless" transmissions? ... Longer-lasting synthetic rubber tires? ... A smaller engine using higher octane gasoline to deliver greatly increased horsepower per pound of weight?

The answer to the first of these questions is still uncertain. But to the two final queries, synthetic tires and engine power, Phillips Petroleum Company can suggest affirmative replies.

Phillips is prepared for the coming great improvements in personal transportation, because long before Pearl Harbor, Phillips scientists were engaged in never-ending study, research, experiment, exploring the limitless possibilities of petroleum chemistry.

Slowly but surely, there emerged new processes, new products, new benefits. Even before the war, much of this purposeful knowledge was channeled into the national defense effort. Now, all of it has been "enlisted" for the duration.

Phillips vast resources of raw materials and Phillips knowledge have made the company one of the largest suppliers of 100 octane aviation gasoline to the Army Air Corps, the Navy, and the United Nations' air forces; have made the company an important participant in the U. S. synthetic rubber program.

As a user of Phillips 66 Poly Gas and Phillips 66 Motor Oil, you surely share with us the pride that comes of knowing that Phillips is doing its part in the Nation's victory effort.

# FREE

Reported by  
**WRIGHT A. PATTERSON**  
Grover Patterson, editor of the Toledo (Ohio) Blade, made a Newspaper Week address before the Los Angeles Advertising club and the Newspaper Publishers' association of that city, in which he expressed the meaning of the freedom of the press to American business. His statement should be read, not only by publishers and editors, but by every business man and by every American who believes in our American ways of life.

Mr. Patterson said in part: Most of you here are especially concerned with the rights of business. I say in dead earnest that if the day comes when there is removed, in serious degree, the national advertising from the American newspaper, the American newspaper will start down the short, dark road to failure. And if there is anything to the axiom that newspaper advertising is the lifeblood of retail trade, newspapers will not be alone upon the dark road.

Just as democracy is inconceivable without a free press, so business, free enterprise is inconceivable without a free press. The newspaper is so far free from government regulation. Business deserves to be immeasurably more free from bureaucratic regulation than it is. No medium in such strong position, so well equipped, as the newspaper to express your needs and the defense of your rights.

As an editor I make no apology for pointing out something more than the surface value of advertising. When we have no advertising, you will have no business. When you have no business, there will be no free enterprise, for democracy will have perished as it has perished in Europe.

I ask your co-operation, not primarily for your profit or the profit of the newspaper but mainly and fundamentally for the contribution which advertising has always made and must continue to make toward the maintenance of the most important and satisfying medium of free expression that has ever been devised. There cannot be an intellectually and a morally free press until it is economically free.

Taken from Publisher Auxiliary.

## Bagged Peanuts Bring Extra Two Dollars Per Ton

An extra two dollars per ton is in store for growers of oil peanuts who deliver their peanuts in sacks instead of in bulk.

No extra payment will be made for bagged quota peanuts, according to B. F. Vance, chairman, Texas USDA war board.

He explained that peanuts which are grown under marketing quotas and channeled into edible trade are grown largely on acreages normally devoted to peanuts and where sales methods, handling and storage practices already are established.

The extra two dollars should pay for the cost of sacks and will make the peanuts more easily handled when delivered to cooperating agencies participating in the program, Vance said.

Under the 1942 purchase program, producers who deliver oil peanuts to cooperative agencies will receive the market value for crushing for oil on the day of delivery, less handling costs, or the support price, announced earlier in the year, whichever is higher.

Pruitt of Sparenberg are accompanying the Borden to California, also to live.

## Seminole Schools Dismiss First Time In History To Help Harvest Cotton Crop

For the first time in the history of the Seminole Schools students have been dismissed in the middle of the term to pick cotton. Only once before in the memory of some of the city's oldest residents has it ever been dismissed. That was during World War No. 1, in 1918, when the schools were closed on account of the Nation-wide influenza epidemic.

A rough estimate made by Superintendent Dewey Davis listed 75 per cent of the students actually picking cotton and 85 to 100 per cent working a very few have taken the "vacation" lightly and are using it as such. Teachers, students, board members and business men go to the fields each day to do their part toward helping in the national labor shortage crisis and help the local farmers save their crop.

Popular demand of farmers and ranchers harassed by the man-power shortage brought about the decision of the local school board who recommended a two weeks dismissal, with the understanding that every student and other available person connected with the school, help with the harvesting of the crops.

The newly organized Girls Defense Club have voted to give their members three merits a day for picking cotton and football boys deem farm labor one of the most muscle building activities as well as realizing that their part will to some extent help meet the needs for conservation of labor and food.

Superintendent Davis expressed his admiration for the all-out effort that is being made to meet the labor problem, and shows his willingness to assist by donning a cotton sack and going to the fields along with his students and some business men. He believes that all the youngsters are avid patriots and are using the fortnight away from their education to show their defiance of the Axis and crush the possibility of future famine.—Seminole Sentinel.

## TAHITI REBUFFS DRAFT EVADERS

PAPEETE, Tahiti (AP)—Three small cutters bearing Americans which have arrived here since the United States went to war are viewed with suspicion but authorities as possibly containing draft evaders. Regarders of this French officials warn that advance official permission is necessary to land on Tahiti, and the arrivals were allowed only a limited time in port. The first vessel departed for South America.

Mr. and Mrs. O. H. Morris and daughter Evelyn will visit L. Lewis R. Morris at Camp Polk, La., over the week end.

Albinos appear at the rate of one in 10,000 persons.

## SWEAT OF HIS BROW KEEPS MAN ALIVE

KNOXVILLE, Tenn. (AP)—For twelve years a Knoxville man has been working early and late that he might perspire.

Suffering a peculiar ailment arising from adhesions C. A. Starr must labor long hours daily so that perspiration may relieve his suffering and enable him to live. During the summer he works in his flower garden. When winter comes he goes to his basement and shovels coal from the full bin to an empty one, repeating the process until Spring.

In the late 1840s the American windmill first numbered 680 sailing vessels.

The true science is not in dwarf fish but the young of the pickard—a species of bearing.

## Tips on How to— Improve Your Lighting

Long before a lamp bulb burns out it often begins to turn dark and gives out less light than new, bright bulbs. You'll get better light if you replace blackened bulbs in reading lamps with new bulbs, and use the darkened bulbs on back porches, in closets or other places where the amount of light isn't important.

**It's Easy to Replace Burned-out Fuses**  
You can save time and trouble by having a few spare fuses on hand if one should burn out. Just disconnect the appliance that caused the fuse to burn out, pull out the main light switch to cut off the current and then change the blown fuse for a new one.

## November To Be Banner Month For Navy Enlistments

Spiking all rumors to the effect that voluntary enlistments in the Navy soon will be halted, Lieut. L. H. Rideout, Jr., officer in charge of the North Texas Naval recruiting district, today announced that November is expected to be another banner month for enlistments, and called on every citizen in this area to co-operate in recruiting additional men and boys for our vast two-ocean Navy.

The Dallas district enjoyed its third biggest month in history, with enlistments totaling 2,763 during October, Lieut. Rideout said. "The Navy still needs man, and needs them urgently," Lieut. Rideout pointed out. "We can still take men as volunteers up to the time of their actual induction into any other branch of the service. Applicants for the Navy can still join if they are 17 or 18."

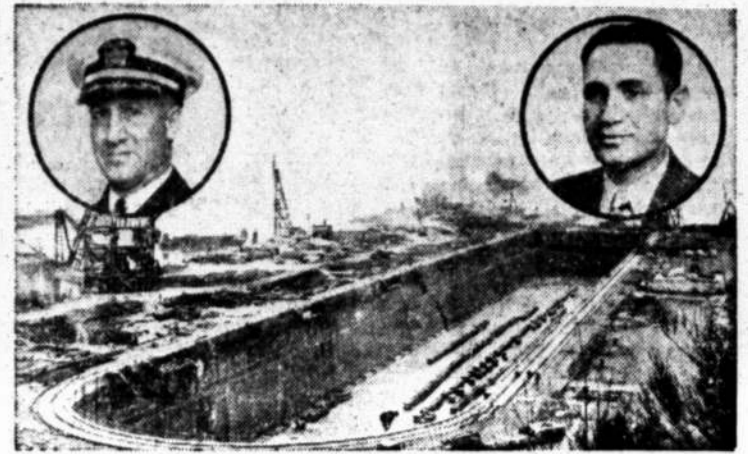

The Navy's overseas construction battalions, known as the Seabees, have been thrown wide open for enlistments, and ratings now are available to almost every man between

**START CONFUSING. END SIMPLE**  
BALTIMORE (AP) — It was "very confusing," the man told Police Magistrate W. Harry Noeth, how a hill up which he was driving turned out to be a street car trestle off which he and his car plunged 20 feet to the pavement. But Magistrate Noeth wasn't confused. He fined the man \$100 and costs for drunken driving and \$10 and costs for reckless driving.

The human eye is said to be 300,000 times more sensitive to dim light than is the thermopile, the most sensitive physical instrument devised.

For the month of October, the total Navy enlistment figure in Big Spring recruiting district was 86 as compared with its quota of 31.

## Navy Men Get \$13,700 Welding Award

CLEVELAND, Ohio, Oct. 6 — Capt. C. A. Tressel, (upper left), and A. Amirkian, (upper right), of the Bureau of Yards and Docks, U. S. Navy Department, Washington, today were named recipients of the \$13,700 Grand Award from The James F. Lincoln Arc Welding Foundation, Cleveland, Ohio, in its nationwide 2,000,000 industrial study on arc welding.

They are shown with a modern drydock having an all arc welded caisson, the welded construction of which costs 25 per cent less than other methods.

This means a saving on caissons built under contract and soon to be contracted for, of \$5,192,000. Enough steel is saved to bomb-proof the caissons.

The 2-1/2-year welding study, in which 408 awards were made, indicated a possible annual cost savings by arc welding of \$1,250,000,000, including 7,000,000 tons of steel valued at \$271,000,000 and 153,000,000 man hours of labor.

An award of \$11,200, (Second Grand Award), went to John L. Miller, chief metallurgist, Gun-Mount Division, The Firestone Tire and Rubber Company, Akron, Ohio.

The subject was the redesign for welding of the 40mm Bofors anti-aircraft gun made of high-strength low-alloy steels. The total saving with 35,000 units is estimated at \$6,000,000.

## In 50 Volumes His Personal History

SEATTLE — Do any of you old timers remember what time you got up on the morning of April 1, 1893, what you did that day and what time you turned out the light and dropped off into slumber? L. S. Keeton of Edmonds, can give you, after a few second research, information on any event in his life, from January 1, 1893, until the present time.

Keeton hasn't missed a daily entry in his diary since that New Year's day. The first entry, recorded on January 1, 1893, when he was operating a meat market, noted that it was a cloudy day, that he attended the Methodist Episcopal church, that he ate dinner at home after posting his books and that he spent the evening with a feminine friend to whom he alluded discreetly only as "B—". He didn't keep her up late; the diary shows he retired at 10 p. m.

While Keeton has not attempted to list all important events, his diaries have been of aid to some Washington state historians. State Sen. Robert T. McDonald found Keeton's diary a help in his historical studies. He had been unable to find anything about a wreck on the old Seattle, Lake Shore and Eastern Railroad in the last decade of the 19th century — until he heard of Keeton's diary. Keeton had no trouble turning to the page on which he had recorded the event.

COOKIE SOFTENER  
To soften up sugar or spice cookies in a jar, add a well washed lemon. In several hours the cookies will soften. Remove the lemon after several days or it might become too soft.

## PERSONALS

Mrs. Lynn Parkinson spent Sunday in San Angelo visiting with Mr. and Mrs. Laurie Davis.

Sgt. and Mrs. George D. Keathley spent the past week visiting with relatives in Oklahoma, and Albany, Texas.

J. H. Pierce is visiting with relatives in Wichita Falls this week.

Mrs. E. R. Yates returned from a visit with relatives in Dallas this week.

Mrs. Katherine W. Rose left Saturday for Beverly Hills, California, where she will make her home this winter.

ELK PLAYS POSSUM  
PUEBLO, Colo. (AP) — Deputy Game Warden Floyd Johnson had a report from two big game hunters who shot an elk.

They saw him fall and leisurely walked up to the carcass. Then they pulled off their coats and prepared to dress the animal.

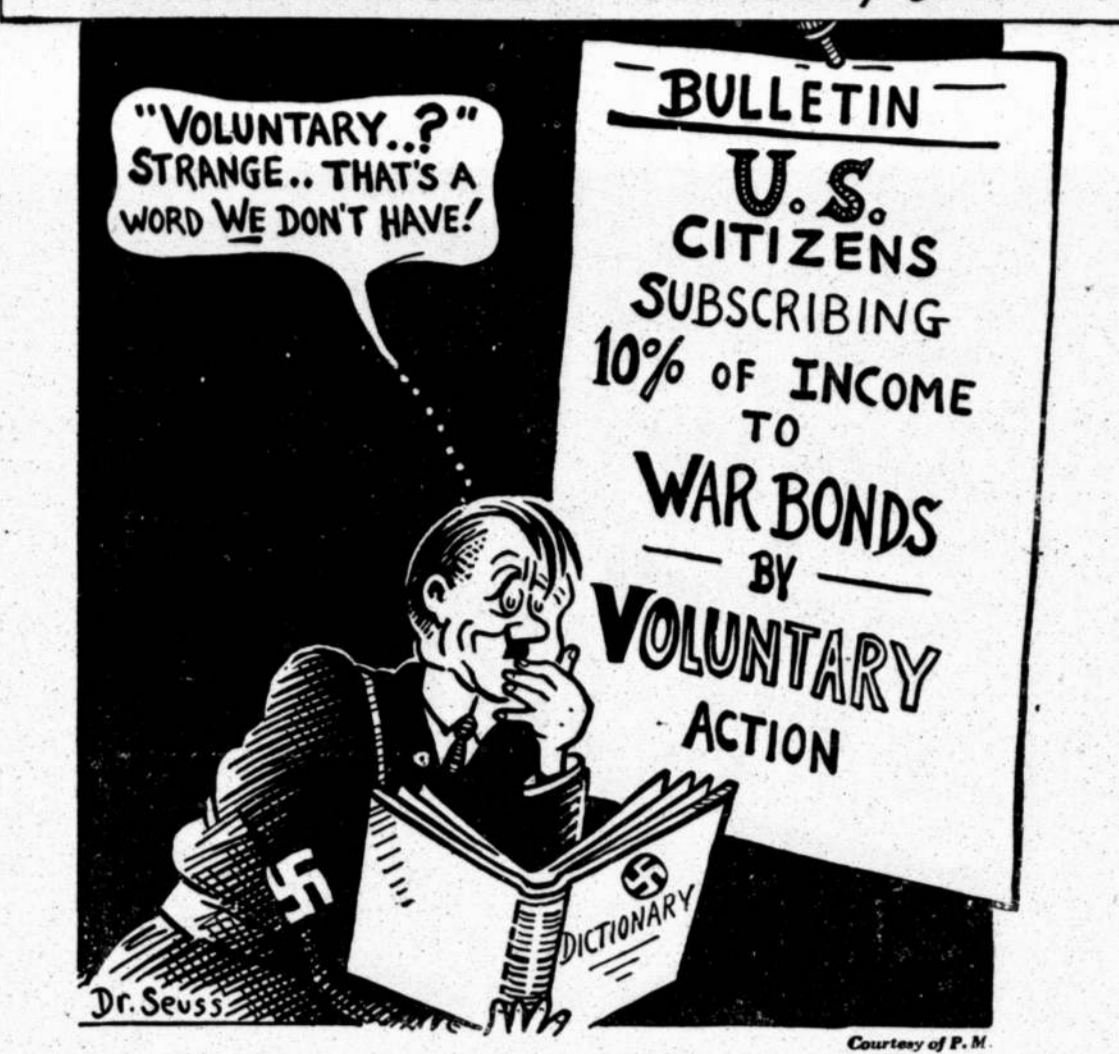

Just then the elk jumped up and ran away and the hunters never caught sight of it again.

FENCE WITHOUT NAILS  
SACRAMENTO, Calif. (AP) — A fence which holds together without nails or other metal is F. Elwood Dosh's gift to a priority-conscious nation. Wooden pickets fit into slots in wooden rails, and these in turn lock into slots in wooden posts.

PICKING PRICKLY FEARS FUN  
IF YOU KNOW HOW  
LAKESIDE, Calif. (AP) — Protected by heavy gloves and aprons, pickers are harvesting the prickly pear crop on the Manisaleco farm here. The fruit grows on giant cacti, and Sam Manisaleco insists that once you learn to peel it without pricking yourself you'll enjoy it.

STRAY WATERMELON  
TURN UP IN YARD  
BLUFFTON, O. (AP) — Oliver Stelner has picked the last watermelon from a crop that grew right in his front yard here. Some of them weighed about 30 pounds. Oliver says that the melons were from some stray vine, that he planted no seed.

## "IT'S AN AMERICAN WORD" ★ Cartoon by Dr. Seuss

and meeting its quota is an American habit!

To help win this War, to help provide the fighting equipment and the fighting men America needs, every American has a job to do.

That job includes saving at least 10% of his income in War Bonds. Your quota, too, is 10%—10¢ out of every dollar you make, 10¢ out of every dollar's worth of produce you grow and sell.

Start saving in War Bonds today. Get them regularly, not the least you can but the most you can, remembering that they're the finest, safest investment in the world, guaranteed both as to principal and interest by the United States Government.

NOTE—Now You Can Buy War Bonds Through Your Rural Postman!

## Getting Parts For Home Appliances Getting Tighter

By HERMAN ALLEN  
You probably saw in the papers about how some 3,000 factories in 74 metal-working industries had virtually stopped manufacturing goods for civilian use.

More than nine tenths of the unfilled orders held by these plants were for war goods.

"That's fine," you thought. "Industry is really getting into the swing of war production."

"But what do we do when the washing machine finally gives out?" I inquired about that at the War Production Board, and it looks fairly good as for getting repair parts for household goods. Production of many new items such as washing machines, electrical appliances and refrigerators have been cut off completely in many cases, of course, but most industries are continuing with at least a trickle of replacement parts.

One large sewing machine concern is doing the biggest repair part business of its history. With clothing — and almost everything else — up in price, there is a vast increase in home sewing.

"Based on the materials allotment for repair parts for agricultural machinery," a WPB spokesman told me. "I would say that civilians can count on adequate repair parts for essential home equipment."

WPB has granted farm equipment manufacturers 130 per cent of their 1940 consumption of material used for repair and replacement parts.

WPB Chairman Nelson backs this up. "The things for civilians in a wartime economy are to be programmed and scheduled just like the army and navy," he told a recent press conference.

That probably would mean that for every 100,000 airplanes, WPB expects to grant materials for 100,000 gear wheels for washing machines, for example — or for every 50,000 tanks, 50,000 essential dinghies.

## Human Blood Like Snake's; So Says The Scientists

By H. W. BLAKESLEE  
Wide World Science Editor  
LAWRENCE, Kas. — Dr. Glenn C. Bond, assistant professor of bacteriology, Kansas University, has used snakes' blood to determine the blood groupings of 100 human beings.

His work suggests that snake and human blood contain virtually identical substances. He used snake serum, the fluid remaining after red corpuscles are removed, and this fluid readily typed the human blood.

The serpents were rattlers, bull, black and water snakes. Alligators, turtles and lizards also had some typing substances in their blood similar to human.

Biologists believe blood groupings or types the products of evolution. Unable to trace directly the origin of man's blood typing chemicals, they are looking among the lower animals for enlightenment.

One of the antibodies which the blood grouping or typing substances form in living tissues. Antibodies are one of nature's methods of combating infections, and antibody control of disease is one of the new fields of medicine.

The antibody products are clues to the nature of the factors which produce them. Such products are well known in higher animals like livestock and monkeys. They have been found also in bacteria. Dr. Bond is the first to bring in the snakes.

## NEW SCHOOL TEACHES HOW TO SAVE TIRES

PASADENA, Calif. (AP) — You can go to school here to learn auto conservation. The local defense council has opened the Pasadena Tire and Gas Saving school.

## ONE REASON SOUTH SEAS ARE KNOWN AS PARADISE

PAPETE, Tahiti (AP) — Tales of the laziest men in the world come from the island of Rapa Iti. Not only do the men folk make women do all the work but also feed them. A traveler reports seeing the males squatting in a circle with open mouths, while the women tossed balls of taro paste and morsels of fish to them.

for electric refrigerators. But don't expect to find too many new heating elements for electric hair dryers, or extra ice trays for refrigerators.

Essential repair parts for autos, motorcycles and bicycles are sure to continue to get the green light. Transportation is too necessary to overlook.

Don't look too hopefully for new kitchen stoves made of heat-proof plastics. Plastics were one of the first things to turn up unexpectedly by short soon after we got into the war. Things that go into many of them also are used to make smokeless powder and other munitions.

Radios? No new ones, of course, after present stocks are exhausted, but the Office of War Information wants a working radio in every home. The outlook is that strenuous measures will be taken to work this out.

ERECTOR SET 93c  
Keep his young mind and fingers busy. Watch him magically turn this generous assortment of parts into battleships, jib-cranes, wagons, trucks and dozens of other interesting models. "How to Make 'Em" Book tells how.

★ ON CHRISTMAS DAY IT'S GOOD TO KNOW "IT'S PAID FOR" ★

**DESCENDANT OF COMMODORE PERRY**—Here is one descendant of Commodore Oliver Hazard Perry, hero of the Battle of Lake Erie in the War of 1812, who believes ships of the air will be the deciding factor in America's victory in this war. He is Private Leslie Burton Perry, of Barton, N. Y., recently graduated as an airplane mechanic at Keesler Field Army Air Forces School, Biloxi, Miss. "I am 29 years old," said Private Perry, "the same age as the Commodore when he won the Battle of Lake Erie September 10, 1813, but I like the planes and can contribute most as an air mechanic. Uncle Sam needs trained men for this service right now and I should like to see more fellows enlist."

### BEHIND THE WAR NEWS

By KIRKE L. SIMPSON  
Wide World War Analyst

#### FRIDAY, NOVEMBER 6

Above even the distant clamor of guns and bombs in North Africa, where hopes of an Allied victory of major scope over both Axis foes are hourly brightening, rises the hubbub of postelection analysis at home of returns showing wide Republican resurgence against the still dominant Democratic party.

That the Roosevelt administration and its management of the war has received a sharp rebuke at the hands of the American electorate goes without saying. Its party majorities in both houses of the new Congress will be heavily reduced. Many Democratic Governors, state legislators and lesser officials have been replaced by Republicans from coast to coast and border to border, always excepting the traditionally Democratic solid South. A wealth of new ammunition for the Axis propaganda drumfire attack has been provided.

Yet the fact remains that this war time exercise by free men and women on the voting privilege which is the symbol of that liberty for which the nation is again shedding its blood, on battlefields around the globe, has no direct bearing on the war effort except to demand its intensification. No American peace or appeasement advocate has been elevated to office. There is no anti-war party. The election only reaffirms at the source the national will for victory.

**No Comfort For Enemies**  
That was promptly testified to by high authority. The only living former President of the United States, Herbert Hoover, elder statesman of the Republican party, put it in a nut shell in his election comment from New York. "Our enemies can get no comfort from this election," he said. "The platform of every single candidate

### To Army

**Paul C. Boethel of Hallettsville** steps from a bus at Fort Sam Houston for army service. As chairman of the Lavaca County draft board, Boethel signed his own induction order.

### Farmers Asked To Save New Lumber

Use of substitutes and local materials where practical will help ease the tight lumber supply situation, B. F. Vance, chairman, Texas USDA War Board, has announced. Although county USDA war boards are approving only essential construction, the total amount of lumber requested for agricultural construction and farm dwellings runs into an alarming figure, he pointed out.

Greater utilization of salvaged lumber and other building materials will conserve new lumber for war requirements and relieve transportation which is clogged almost to capacity at the present time. Further savings can be achieved by substituting types of construction which require little, if any, lumber.

Examples of construction requiring no lumber and which are practical in some parts of the state include rammed earth or adobe construction, pole or log construction, and temporary constructions, such as straw sheds.

Alternative materials such as structural insulation boards and wall boards of fiber, gypsum or cement asbestos, often can be substituted for lumber, while composition shingles and roofing materials often may be substituted for lumber siding, Vance said.

Other substitutes for lumber include tile, brick, rubble, concrete or masonry construction, especially for ground floors, walls and partitions in certain types of farm buildings. "Such construction will be more expensive and require skilled labor, but they usually are more durable," Vance said in pointing out the necessity of saving new lumber.

### WORKING WOMEN SURE FILL THE EYES; THEY DO ALL RIGHT WITH PANTS, TOO

By Spoon River Sam  
Wide World Features

Well, the women are wearing the pants now. They sure fill 'em out too. Since they've gone into defense work there's been two casualties—bridge parties and gossip. I noticed how quick the radio announcers caught on to the new trend of things. Nowadays they ask: "Ladies, do you have blowtorch hands?" Looking at these women workers, you wonder how they ever acted so blamed coy and helpless back in courting days.

The way they put in their time now, I bet a lot of husbands are kicking themselves for not getting more work out of 'em before. When their wives start housekeeping again I hope their biscuits ain't rivited. But joshing aside, I'm real proud of these women folks. They're just as nice to look at in work clothes as in their party dresses. I never knew a woman could look so good in one of them welder's helmets. It's a big improvement over what they've been wearing for hats.

Foot-hold Developing  
At Algiers the advance position on the 1,000-mile French colonial rail line already has been secured. Another Algerian foothold is developing at American invested Oran. At Rabat and Casablanca, on the Atlantic coast of Morocco, entry ports to feed that railroad have been or are being achieved only 3,000 or so sea miles from New York and even closer to Britain.

Given complete Allied possession of that French railroad, the task of transporting and supplying armies of any necessary size for second-front action in Africa would be relatively simple. The rail route from Casablanca to Tunis would permit great speeding up of deliveries, even faster than would a reopened all-sea route through the Western Mediterranean.

With the whole south shore of the Mediterranean in Allied possession 10,000 miles or more could be lopped off the distance Allied warcraft and supply or troop convoys now have to travel from Atlantic waters to the Indian Ocean via the cape route. That would be a tremendous advantage in logistics for the United Nations.

### Cordin' to Law

By SARAH GANN

I planted my cotton, plowed it good, twice—  
Squares was a formin'—putting on nice  
When in comes a feller that God only knows—  
Sayin'; "Hi, there, Mister, you're got too many rows!"  
So I pulled ole Bessie's line and said to her, "Haw"  
Some to be canned—some to eat raw—  
Feedin' the family 'cordin' to law!"

Now I plant potatoes, pop-corn and gumbo,  
Spinach and cabbages, row after row;  
Pintos, onions, carrots and beets,  
Tomatoes and muskmelons juicy and sweet.  
Fedin' the family 'cordin' to law!

I rotate, strip-crop, and contour around,  
Hop over clodded, high terraced ground;  
I find myself comin' when I thought I was goin'—  
Rows so blamed crooked, can't make a showin'.  
But corn is comin' purtier'n I ever saw  
Since runnin' them rows 'cordin' to law!

I keep sign' up ever'thing new,  
I'll git nothin' if I don't, not much is I do;  
I'm a-hopin' that God or good Uncle Sam  
Will settle a farm bill that I'll understand;  
And if I git to heaven in the sweet by and by  
I'll meet Mr. Roosevelt, tryin' to comply!

### Entertains Grid Fans

Bob Rogers, student at the University of Texas, demonstrates one of his rope acts he puts on between halves of Texas Longhorn football games. He is assisted by a score of other students whom he taught to handle the lariat.

must participate in a car-sharing club and agree to carry at least three other persons to and from work, or prove that he cannot do so. Rationing officials have suggested that car owners get together with their neighbors on some car sharing plan, or with fellow employees at the place where they are employed. If two or more cars are to be used in such a club, members using it may divide up the use of the cars to suit their convenience. Supplemental rations may then be issued each vehicle for mileage to meet obligations.

The club must be formed before the application for a supplemental ration is submitted to the board. In fact, signatures of all members must appear on the application, and applicants must certify that they will carry through their part in the car club agreement.

Vehicle operators who feel they will need more mileage than the basic books provide may ask the registrar for a supplemental application. This is to be filled out later and sent to the rationing board.

**SUPPLEMENTAL RATINGS**  
The basic books will provide mileage for 240 miles a month. If the person to whom the ration is issued intends to use his car for driving to work, or in connection with his work, he will be expected to consider 150 miles a month of his ration available for such driving. The remaining 90 miles a month may be reserved for such essential family travel as driving children to school, or sick persons to the doctor.

Applicants for supplemental rations will first need to prove that they need more than the 150 miles of occupational driving provided in the "A" book. Secondly, they will need to show that they have formed a car club. If they do not form such a club, they must prove they cannot do so and that alternative means of transportation are inadequate.

All applicants for a supplemental ration will use the same form. Mr. Allen pointed out, "The board will decide whether the ration granted

### Another Chisholm

Aviation Cadet Dannie W. Chisholm of Tarzan, Texas, a direct descendant of Jesse Chisholm who blazed the famous "Chisholm Trail," demonstrates he knows how to stride a saddle too. He was a bit sheepish the other day, however, when he admitted he got lost flying over the same territory his famed forebear pioneer, Young Chisholm is stationed at the Enid, Okla., Army Flying School.

### Over 6000 Workers In This District Have Secured Jobs Through U. S. Agency

From January to September 30, 1942, a total of 6,820 new workers entered employment in the Big Spring area of the Social Security Board. The area includes the counties of Andrews, Borden, Crane, Dawson, Ector, Gaines, Glasscock, Howard, Martin, Midland, Mitchell, Reeves, Ward and Winkler. These figures are based on the number of new social security account numbers issued by the Big Spring office of the Board, according to a statement by Elliott W. Adams, manager.

The great majority of the new account numbers were issued to workers in defense plants near Big Spring, Midland, Odessa, and Pecos. However, it was explained, this number does not represent the total of new employees in defense plants since many workers employed already had account numbers.

In addition to the issuance of almost 7,000 account numbers to new employees within the nine-month period, Adams' office issued a total of 2,327 duplicate account number cards to workers who, through carelessness or by accident, had lost their original cards.

It costs the Social Security Board more to issue duplicate account number cards than to issue original cards since the application for a duplicate number must be carefully checked against the original records. This action is necessary to insure

that all wages received by the individual be posted to the same account. Workers should realize the importance of their account number cards and avoid misplacing them because it costs the Government time and money to replace them. In addition, it causes many workers to lose time that is greatly needed in the war effort.

Adams, asked each worker to show his social security number to each employer for whom he works, regardless of the length of time during which he is employed. He also emphasized the fact that the more a wage earner receives in wages the more his insurance checks will be when he retires.

### Navy Recruiting Men From 17-50

Branding as false the rumors that voluntary enlistments in the U. S. Navy would soon be discontinued, the Navy has instructed its recruiting personnel to accept applications of all physically fit men, 17 to 50, who volunteer.

"The Navy needs more and more men, in all branches of its service, just as quickly as it can enlist them," the notice said, "and they must be volunteers, since the Navy does not draft its men." Navy officials pointed out that more openings for petty officer ratings, and more opportunities for special training, were now available than ever before, and urged all eligible men to investigate at the Navy Recruiting Station, in the Lubbock Post Office, or contact the traveling recruiter when he visits regularly each week in nearly every Plains town.

Navy training schools are running under capacity, and are anxious for young men, 17, 18, 19 and 20 years old, to volunteer for special training in a trade of their choice. Especially does the Navy want to train young men as Radio Technicians, airplane mechanics, gunners and as hospital corpsmen, etc.

Many new openings have been made available in the Seabees, or Navy Construction regiments, for men with much or limited experience as cooks, bakers, barbers, mechanics, engine operators, clerks, storekeepers, carpenters, truck drivers, accountants, electricians, oil field workers, etc. Men applying for ratings in the Seabees should make arrangements to be interviewed in Dallas with expenses paid, November 17, 18 or 19.

### HE FINDS WASPS BURN—AND SO DO HOUSES

LEAVENWORTH, Kas. (AP)—Harry Coblets squeezed into the attic to destroy some wasp nests by using blazing rags, on the end of a stick.

The nests ignited. Coblets started for a bucket of water but he wedged in the attic opening. By the time firemen arrived they found the wasps destroyed—along with part of the roof.

### BUT MADAM—DON'T YOU LIKE ANYBODY?

ST. JOSEPH, Mo. (AP)—A lady with a glint in her eye and an out-trust jaw went into an Eighth Ward polling place and demanded a ballot. With vigor she scratched out every name on it. "I wanted the satisfaction of voting against every one of them," she said as she straightened her hat and slammed the door after her.

Researches of the Department of Agriculture show the peel of an apple has more vitamin C than the flesh, and that the "rosy" side has more vitamin C than the "shady" side.

The chall was a flute or reed-pipe used by the ancient Hebrews.

### No Change In Tax Rate On Federal Social Security

DALLAS, Nov. 12 (Spl.)—Employers were put on notice today in a statement issued by W. A. Thomas, Collector of Internal Revenue, Second District of Texas, that there will be no change in the tax rate on Federal Old-Age and Survivors Insurance on January 1, 1940, as had been anticipated.

Under the provisions of the Revenue Act of 1942 passed by Congress and signed by the President on October 21, the tax rate remains at 1 per cent on payrolls of employers and 1 per cent on wages paid to employees which must be deducted by the employer and reported to the collector of internal revenue, according to Thomas.

"Offices of the Social Security Board located in different cities in my district have received numerous inquiries regarding the proposed increase which was originally scheduled to double the tax in 1943," said Thomas. "Official notice will be mailed out to all employers in due time announcing the 'freezing' of the old-age and survivors insurance tax for the year of 1943. In the meantime, employers have no cause to worry about an increase. Reports will continue to be made as usual and in the same manner, making certain that each employer reports the account number of each employee of wages paid each employee."

It was emphasized by the collector of internal revenue that collection of taxes under the Social Security Act is the responsibility of the Bureau of Internal Revenue and not the Social Security Board. All reports should be mailed to the office of the collector in Dallas.

### OPA In Need Of Stenographers And Typists

"The Office of Price Administration is in need of additional stenographers and typists for employment in Washington, D. C.," Owen C. Taylor, Local Secretary, Board of U. S. Civil Service Examiners, announced today, "and representatives of OPA and the United States Civil Service Commission will conduct an examination in Lamesa, Texas, Tuesday, November 17, 1942, at 7 p. m. The examination will be given at the High School. Those applicants who successfully pass the Civil Service test will be hired 'on the spot' at salaries of \$1440 per annum."

Those applicants accepted for employment will be sent to Dallas for preliminary training of 30 to 60 days in the regional office of the OPA. Upon completion of the training program, applicants will proceed to Washington, D. C. They will be met at the station in Washington by OPA representatives who will have a place for them to stay. Every effort will be made to make the newcomer to Washington feel at home.

Mr. Taylor pointed out that the standards of the Civil Service test have been lowered and that the minimum age limit for stenographers and typists is now seventeen and one-half years. There is no minimum age limit. "Here is a chance for stenographers and typists to secure jobs in Washington under the most favorable conditions and to do their part in helping to win the war," said Mr. Taylor. Additional information may be secured from Mr. Taylor or from the representatives of OPA and the Civil Service Commission who will be at the United States Employment Service office, Nov. 17th, 1942, from 3:00 p. m. to 5:30 p. m.

### CAR IS KIDNAPED, BUT BABY DOESN'T MIND

NORTH PLAINFIELD, N. J. (AP)—Mr. and Mrs. Corrado Corrado parked their automobile outside a restaurant here, their six-year-old daughter sleeping in the back seat. When they returned, the car was gone. Police found the car parked a mile from the restaurant. The baby was still sleeping soundly.

### 3 CARS OF DYNAMITE BLAST CEMENT LOOSE

TRIDENT, Mont. (AP)—One of Montana's greatest quarry blasts was set off here recently when the Three Forks Portland Cement company exploded three freight carloads of dynamite. J. R. Latimer, plant superintendent, said 300,000 tons of rock were broken down by the explosion, sufficient to make 975,000 barrels of cement.

### ARMY PRIVATE SHOWS 52 OPERATIONS IN YEAR

DENVER (AP)—Army doctors told Pvt. Notre Riddick, 22, he "must be kidding" when he said he had been operated upon 52 times in one year. Riddick whipped off his shirt and showed the scars, some of them two inches long. All the operations were performed when he was between three and four years old, to cure a blood disease.

### Paris Junior College Beauty

This is pretty Elayne Avery, drum major at Paris Junior College, who displays the proper technique for a twirl and for a fetching smile.

### INVENTOR HAS PLAN TO SALVAGE SHIPS INTACT

LOS ANGELES (AP)—Ships that go to the bottom through enemy torpedo action would be salvaged intact if the invention of Lieut. Harry E. Rieseberg works. A former bureau of navigation officer, he has applied for a patent on an immense pair of tongs which would be lowered from a floating dry dock

and engage sunken vessels. Rieseberg, who has had experience in salvage work, believes the hulks could be hoisted to the surface at the rate of 2,500 feet in twelve hours.

Kansas is the greatest wheat state in the United States, producing nearly twice as much as its runner-up, North Dakota.

### THEATRE PROGRAM...

### PALACE

ADMISSION 11c and 30c

Friday LAST DAY TO SEE—ABBOTT—COSTELLO

"Pardon My Sarong"

Saturday Only NOVEMBER 14th

It's Sensational—It's Great

"This Gun For Hire"

ROBERT PRESTON and VERONICA LAKE Also Serial and Comedy

Sunday - Monday NOVEMBER 15 and 16

Also Serial and Comedy

Sunday - Monday NOVEMBER 15 and 16

Another big picture in Technicolor...

"Weekend In Havana"

ALICE FAY and JOHN PAYNE Also News and Comedy

### Car Owners—

(Continued from Front Page) The serial numbers have been obliterated, only the branch name of the tire need be listed.

Mr. Allen states that every motorist who expects to apply for supplemental rations to enable him to drive to and from work should begin now making plans to share rides with others who will need transportation to and from their jobs.

"Car sharing has been made an integral part of the mileage rationing program because it is the most effective means of providing essential transportation on a minimum amount of rubber. To get more than the basic "A" ration a car owner
