SHERIFF'S CORNER

BY
Norman Hooten
Sheriff

It was a shock to learn of the death of Darrell Paul Franks, 32, a former Brackettville resident who has been living in Del Rio the past few years. Darrell Paul passed away shortly before 6:00 a.m. on Saturday, October 3, 1987 due to complications from sugar diabetes. He had fought a long, hard battle against the slow killer since he first learned he had the disease at the age of twelve.

I guess all of us respect courage in the face of hardship and often wonder at the courage and fortitude displayed by some of those less fortunate than ourselves who are struck down with crippling diseases. I know I was deeply touched by the courage and determination displayed by Darrell Paul over the years. He was determined to make the best of things in spite of his killer disease that slowly and painfully took its toll of his body. Rarely did I ever hear him complain, even when he lost the sight of one eye, his kidneys, and his mobility. Darrell Paul kept his sense of humor and eagerness to help others all through those long years spent fighting the effects of his disease.

I knew Darrell Paul for over 20 years. We worked cattle and sheep together, sometimes me helping him in his ranching operation along with his dad, and sometimes them helping me in mine when I was still in the ranching business. It was extremely hard for him to accept the restrictions imposed on him by the doctors treating him for the disease. He told me one time that he didn't know how long he had to live, but that he wasn't going to sit around feeling sorry for himself, he was going to live the best quality of life and have the most fun that he could, while he could. He lived up to that quiet statement in all ways to the very end.

Darrell Paul Franks demonstration of courage in the face of extreme physical hardship has left a lifetime impression on me. I only hope that if and when the time comes in my life to face a hardship such as his that I can find just half the courage he had.

On behalf of myself and the

members of the Sheriff's Department and TAC Office I extend our heartfelt sympathy to his surviving family and friends. He will be sorely missed.

In keeping with this feeling I would like to dedicate the following poem to his memory. My mother sent it to me several years ago when I was going through a difficult time in my life and it sometimes helps to remember that death, though painful and heartbreaking to the loved ones left behind, is not the end but a new beginning of peace and glory.

THE LAND OF BEGINNING AGAIN!

by Dillard Thurman

I've heard of "The Land of Beginning Again",
And it's welcome to Failures who come.

It's there well-meaning, but erring men

Make amends for the wrongs they have done

No matter what trials I may have been through,

Nor what things have led me through sin,

There's a blest border that beckons me to

The great "Land of Beginning Again"

After each of the days when I have been wrong

In some task that was left me to do,

I will not lament till the next day is gone,

But I'll try to live right through the new.

I cannot be wailing, "I wish I were dead",

Over something that might not have been;

But I'll look for the country that lies on ahead;

It's "The Land of Beginning Again".

E'er going to sleep at the close of the day

I'll look back on the things that are gone,

Then I pray that I'll live in a better way,

And I'm eager to face life at dawn.

For the things of the past no longer can stand

To drag me through turmoil and sin.

I seek for the shores of a far better land;

It's "The Land of Beginning Again"

So, over the ruined air-castles I've built,

I will not remain idle and mope;

But using my eyes where the tears are unspilt,

I'll search for the hills of Hope.
The pressing on for such Hope I am free

To forget the land where I have been,

While I reach for the garland that's beckoning me

To "The Land of Beginning Again".

This country is also for you, weary friend,

For it's welcome is sent forth to all!

Remember, "The Land of Beginning Again",

Holds a solace for them who may fall.

So, if you have dropped by the side of the way

Being lost in the darkness of Sin,

Why not travel on in the brightness of day,

To "The Land of Beginning Again."

So after death's clutches are loosened from our souls

and the Lord has returned from above,

We'll know it was Him who saved and made whole,

And our sins were wiped out through His love.

Then gathered with Christ at the foot of the throne

The voices redeemed will then blend,

As we sing of the grace that has led all His own

To "The Land of Beginning Again".

Rest in peace, old friend, you've earned it.

HAPPY 30TH ANNIVERSARY

In 1752 a thoroughbred quarter running horse named Janus was imported from England to Virginia.

The horses that descended from Janus had more speed than endurance.

He had power and strength and was compact and these were handed down to his get.

Southwestern ranchers knew a good thing when they saw it and short racing swept through the southwest like wildfire. Cowboys used the quarter horse at roundups and in arena events.

For a quarter of a century before the organization of the American Quarter Horse Association, they were referred to as "Steeldusts", "Billys", "Hondos" or "Copper-Bottoms". When the Association was founded in 1940, the quarter horse had no official name or breed registry. But by 1974, the registration had reached one million.

Many Quarter Horse champions came out of Oklahoma where the Association is very active.

Quarter Horses became most popular in Oklahoma perhaps because they have been bred there longer and also the weather conditions. Some ranchers raise them to buy, trade and sell. Others train them, others provide tack and horse trailers.

Then there are the racing and other competition events, even jumping.

Cutting horses competition has become so popular the Association formed an Honor Roll and a point system for competition. There is now a National Cutting Horse Association that keeps complete records of the competitions.

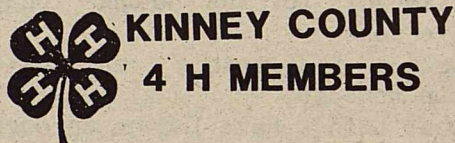

Probably the Quarter Horse was the most important thing in the livestock industry. A good cutting horse in most beautiful to watch in doing his work. He is level headed, quiet and has steady nerves. Especially, he is loved for his racing competition. He can gain speed from a standing start one minute, and running at full speed the next.

Young people have become interested in owning Quarter Horses. The American Junior Quarterhorse Association has been formed, which is open to eighteen

year olds and younger. In 1975, this Association was hosted in Tulsa, Oklahoma. There were 993 entries representing thirty-nine states and British Columbia. It was invitational and the top ten horses from each club were invited.

In a recent survey it was estimated Oklahoma owners spent two-hundred million dollars a year on Quarter Horse operations, on horses, land, equipment, tack, and devoted more than three-hundred twenty-eight thousand acres in Quarter Horse operations.

In a sale in 1976, a Quarter Horse stallion, called "Ladybug's Moon", brought a record price of one-million two-hundred seventy-six thousand dollars, truly no poor mans cup of tea. But us poor folks can see them perform in races and other competitions for the price of admission.

KINNEY COUNTY 4 H MEMBERS

4-H WEEK IS OCTOBER 4-10

Kinney County 4-H members are gearing up for a lot of special programs and activities the week of October 4 through 10, National 4-H Week.

Theme of the year's observance is "4-H for Youth for America."

Some of the planned activities for 4-H Week include continued food and nutrition project meetings, preparation for 4-H Awards Banquet to be held October 26, preparation of livestock for exhibition at the State Fair of Texas, and general 4-H promotion.

Kinney County boasts some 80 4-H members who are among more than 305,000 in Texas and 4.5 million across the country who will participate in the week long celebration.

In celebrating National 4-H Week, we recognize that 4-H is truly a people development program, says Mr. Esser, county 4-H program coordinator with the Texas Agricultural Extension Service, the parent organization of 4-H. 4-H helps young people develop skills that will be useful in the real world. It helps them discover their strengths and weaknesses. It exposes them to activities in a variety of career fields and helps them to build positive self concepts for directing their lives. And, most importantly, 4-H'ers learn and have fun doing it. And families can add to the fun by learning and growing together.

Learning doesn't stop with the 4-

H member and family. Volunteer leaders learn new skills while sharing their expertise with young people, notes Mr. Esser. Through a network of volunteer leaders, state landgrant universities, state and local governments and the U.S. Department of Agriculture, 4-H has been able to stimulate youth to develop life skills.

Some 20 adult volunteer leaders work with 4-H boys and girls in Kinney County through the 4-H club program.

4-H'ers can choose from 70 different project and program areas designed to help them prepare for the future, adds Mr. Esser.

More information about the 4-H program is available at the County Extension Office, says Mr. Esser.

TAX PRACTITIONER WORKSHOPS

The Texas Agricultural Extension Service is cooperating with the Internal Revenue Service in offering many Tax Practitioner Workshops across the state, reports Carl R. Esser. Twenty-seven General Workshops will be held in all major Texas cities. The General Workshop nearest our county is in San Antonio on November 11 and 12. There will also be fifteen Advanced Workshops offered in major cities. The general Tax Workshops will concentrate mostly on personal taxes -- the Advanced Workshops' emphasis will be on business tax problems.

In addition to the General and Advanced Tax Workshops, there will be three Partnership Workshops, four Estate Planning and Tax Form Preparation Workshops, three Income Taxation of Trusts and Estates Workshops, and -- new this year -- two workshops dealing with Serving Farmers in Financial Trouble.

The Tax Practitioner educational program has been highly successful. Last year about 4,900 people participated in this state-wide series. These practitioners reported filing more than 587,000 tax returns. For additional information, please contact the county extension agents office for a brochure explaining more about the program and registration information.

REFLECTIONS

When a dog begins to howl at the moon at 3:00 o'clock in the morning, he may be joined by others who whine, bark, and put in motion their vocal chords. One dog can influence another one.

We have what may be called an "unconscious influence." For example, two disciples ran to the tomb of Jesus one Sunday morning. John outran Peter and arrived at the gravesite first. However, John didn't step inside the place. Simon Peter arrived and rushed right on in. The Bible states, "Then went in also that other disciple." (John 20:8).

We see the awesome power of unconscious influence every day. For instance, our two children have never used any profanity. Dovie Jean nor I do not remember telling them not to use filthy language nor profanity. They simply never heard us talking that way at any time. The English language (and every other) is so rich and miraculous that it's not necessary to resort to foul and ugly speech to express oneself.

I grew up on a farm in Arkansas. Quite honestly, I've not wanted to go back to the Georgia stock, gooseneck hoe, cotton, corn and 'taters, either! And yet, I'm grateful for all the lessons learned on a rugged, hill farm.

Interestingly, my parents never told any of their six children to go to Church. They attended the small country Church twice every Sunday and once each Wednesday night. Recently I calculated that I've walked inside Church buildings and Navy Chapels several thousand times. The habit became established through an "unconscious influence" -- by parents who never heard such words as these!

Almost 2,000 years ago, Simon Peter influenced John to go inside the empty grave of Jesus -- not with words such as "come on, John!" His influence did it!

Your words may not always influence and change others. Amazingly, your example and "unconscious influence" will make an impact on those near you as well as those you never dream of touching.

BEHAVIOR CONTROL AT SCHOOL EVENTS

Brackett Trustees Ask Fans to Control Their Language at Extra-Curricular Events

The Brackett Independent School District Trustees held a special meeting on Monday, September 28, 1987, to discuss crowd control at extra-curricular events. The Board expressed dismay and disappointment that people would scream insults at individual players, coaches, and referees, and use profanity in the presence of women and children also in the stands.

The Trustees discussed options that included barring offenders, or removing them from the event. Superintendent Bob McCall reported that the University Interscholastic League places the responsibility for crowd control upon the school district.

The Board expressed support for the coaching staff and players, and reemphasized that the purpose of extra-curricular events at school is to encourage good sportsmanship, character, and teamwork.

**GARDENING TIPS**

BY THE MORNING
GLORY GARDEN CLUB
DEL RIO, TEXAS

"Tips For October Gardening"

1. Clean up, by destroying weed seeds and controlling pests and diseases.
2. Prepare flower beds for Spring planting.
3. In planting bulbs and seeds, keep in mind the size of the matured plant. Arrange tall plants at the back, those of medium height next, with low growing plants in the front.
4. Keep in mind color combinations, all one color, or a variety of colors.
5. Do not plant seeds all at one time, also in planting bulbs. Plant about every two weeks apart.
6. Cultivate around the plants, and water thoroughly instead of light sprinkling. Deep watering makes strong roots.
7. Start a compost pile.
8. Plant rose cuttings, cover with glass jars, and leave until Spring.
9. There is nothing mysterious about gardening success...the recipe is simple work and keep on working.

POLICY ON UNATTENDED CHILDREN

In order to prevent undue disruption of normal library activities, and in order to also provide for the general welfare of all persons using the library, and in order to provide for the general safety of children using the Kinney County Public Library, the following rules and regulations shall be and are made a matter of policy at the Kinney County Public Library, effective as of the below-mentioned date.

1. All children age eight (8) years or younger shall, at all times, be attended and adequately supervised by a responsible person, e.g. an adult or a mature

adolescent.

2. Children which exceed two (2) years in age but who are less than nine (9) years in age may be left unattended for up to one-half hour in the library, except during scheduled library programs, at which time, that person responsible for supervision of said child or children may elect to be absent for the duration of the program. If that person who is responsible for the supervision of said child or children intends to leave the building while their child remains at the library, then that person shall leave word at the central desk area as to their expected whereabouts. However, persons responsible for children who have special problems, related to physical or mental ability, disruptive behavior, emotional problems, lack of adequate attention span, incomplete social skills, etc., shall remain with their children at all times, in the above mentioned exception or absence during supervised library programs shall not apply to these children.

3. Children from the age of nine (9) years and older may use the library unattended, subject, of course, however, to other rules and regulations promulgated by the Kinney County Public Library concerning behavior, conduct and demeanor.

The Kinney County Public Library assumes no responsibility for children left unattended on library premises.

KNIGHTS SET CHARITY DRIVE FOR SATURDAY

Brackettville Knights of Columbus will join in the organization's third annual fund raising campaign in support of the deaf charities which are a major project of the K of C in Texas.

Members will be identified by bright yellow aprons. They will hand out Tootsie Roll candy as they accept contributions for the deaf program.

The Texas State Council of the Knights of Columbus started the deaf program with a \$5,000 donation in May of 1970. The program has grown steadily since that time, offering the deaf varied services beyond those provided by public health and educational agencies. The program provides information and referral services, deaf choirs, sign language classes, interpreting services, home visiting, social programs and other activities.

The Knights will be stationed at strategic locations around town on Saturday morning, October 10. The statewide drive has a goal of \$500,000.

LAW ENFORCEMENT AGENCIES RESPOND OVERWHELMINGLY TO GOVERNOR'S NARCOTICS CONTROL PROGRAM

AUSTIN--Governor Bill Clements announced Monday that his Criminal Justice Division has received 90 grant applications from across the state for a total of \$26.1 million for drug law enforcement under the governor's Texas Narcotics Control Program.

The applications from state and local law enforcement agencies are in response to \$9.5 million the division received from the federal government to fund widespread anti-drug projects, including stepping up apprehension and prosecution efforts.

"The overwhelming response to the Texas Narcotics Control Program," Clements said, "is indicative of the great need for enhanced enforcement of drug laws in our state and the lack of funding available to meet that need."

The applications represent every region of the state and would fund a wide variety of projects, the majority of which would involve multi-agency, multi-jurisdictional task force efforts. Of the state's 254 counties, 194 would be impacted by the requested funding.

Said Clements: "I am encouraged by the comprehensive, coordinated manner in which these law

enforcement agencies are approaching the illegal drug problem. And I believe that the Narcotics Control Program will be an effective approach to combat this threat to our society."

The Governor's Task Force on Drug Abuse this summer sought recommendations from criminal justice experts and other interested citizens to develop a statewide drug control strategy. The applications submitted for participation in the Texas Narcotics Control Program will be evaluated by the Criminal Justice Division based on the priorities set out in that strategy.

Grant awards will be announced by the governor by Nov. 1.

DIABETES - DIET

The Diabetic Exchange System

The diabetic diet is designed in such a way that it can be individualized to meet any persons needs, regardless of cultural background. A person's health, food preferences, caloric needs and allergies need to be considered. The diet, followed carefully, will not cost more, and is likely to cost less, than meals that are not planned. The American Diabetes Association has developed food exchange lists so that diabetics can eat the variety of foods they like, in the quantities they are allowed.

Foods are placed in one of six groups: fruits, breads, vegetables, milk, meats and fats. Each group has listed a variety of foods and the serving size allowed to represent one exchange. Each serving of a food in a group has listed a variety of foods and the serving size allowed to represent one exchange. Each serving of a food in a group has the same amount

of calories and grams of carbohydrate as a serving of another food in the same group. For example: 1 cup watermelon, or 10 cherries, or 2 tablespoons of raisins all contain 40 calories and 10 grams of carbohydrate. Notice that all of the amounts of these foods are measured.

The meal plan prescribed for the individual will state how many servings from each food list are permissible to meet the caloric requirements.

With practice, diabetics find that they quickly learn what foods they should eat or avoid, and the quantities they need to maintain good health. Most foods are permissible as long as they are eaten in the proportions stated in the meal plan.

The diet plan, in combination with a structured exercise plan and an adequate dose of medication will, in most cases maintain a person's blood sugar within normal limits.

Meals planned using the diabetic diet plan contain enough calories to meet a person's metabolic needs, and they are well balanced to provide for a person's nutritional needs. There are not too many calories in the diet so that a person does not gain weight. Most people who follow the plan find that over time, excess pounds are lost without sacrifice.

4-H OFFICERS HOLD MEETING

Monday, September 28, a 4-H officers meeting was held at the Fort Clark Restaurant. This meeting was held to inform officers of their duties for this year. We also discussed "Adopt A Highway", which is a program in which the 4-H club or any organization cleans up two miles of public highway. They then get a sign with their name on it.

There will be many opportunities for both officers and 4-H members to travel to many different 4-H events. Mr. Carl Esser and Sylvia Baker have helped us, the 4-H officers, get a good start by helping plan meetings, plan 4-H trips, help other 4-H members, and many other things. We are planning a great year and to start it out we are holding our 1987 Banquet October, 12 at the Civic Center.

FFA CHAPTER HOLDS FIRST MEETING

Twenty-nine members of the Brackett FFA chapter were present at the First meeting of the year. It was held Wednesday, September 16, in the Vocational Agriculture building.

Due to conflicts in schedules, some newly elected officers last year were unable to serve their positions this year. During this meeting, a new vice-president and sentinel were elected. Manuel Pena was elected as the new vice-president, and Beto Villareal was elected as the new sentinel. The new officers took their office and began their duties immediately.

Many items were covered at the meeting. Membership dues were set at \$6.50 this year. Money raising projects were discussed for the upcoming Halloween carnival. Manuel Pena gave a short speech on the benefits of being a member of the FFA, and what it means to be a Future Farmer.

For being the first meeting of the year, the officers feel it was a successful one. Along with Mr. Chap Traylor, FFA advisor, they are working hard together to make this the best year possible.
