

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, February 21, 1929

Number 45

KIMBLE CO. MOHAIR PRODUCERS PRAISED BY ANGORA JOURNAL

The current issue of an international magazine, the Angora Journal, which is devoted to the mohair industry, made several references in its editorial columns to Kimble County and the work which is being accomplished here in the field of mohair production. In no less than six places throughout the magazine, Junction was referred to and commended for the progress which is being achieved.

One of the editorials which appeared concerned some very interesting points on the local phase of goat raising. The article as it appeared is presented here:

"Kimble County, Texas, where the annual meeting of the A. A. G. B. A. was held January 15, prides itself on being second in quantity production of mohair in Texas, Edwards county taking the lead. The Junction Eagle gives some very interesting points about the local phase of goat raising, with the conclusion that no other county except Edwards comes within 100,000 pounds of Kimble in annual weight shown. The Eagle says that the ranchmen are taking advantage of conditions which favor mohair growing in that portion of the Edwards Plateau. The newspaper mentioned gives an account of the Kimble county goat breeders' organization founded October 18, 1911. This was just two months after the Angora Journal was established. N. H. Skaggs was president; ten members were listed, and the interest created then has never lagged in Kimble county."

In another part of the magazine, recognition was given to the work which the boys in the Vocational Agriculture department are accomplishing under the supervision of Mr. Bierschwald. This article says:

"Under direction of A. J. Bierschwald, vocational work of Junction high school students who have Angora projects, has been a record of Texas progress."

The lads making report are: Leonard Dunbar, who expects to make 85 per cent flock increase this year; Vernon Kirkpatrick, who has two registered bucks; Gerald Ragland, who is keeping a record of shearing, cost of feed and returns; Wilbur Jeter, who has 25 head of Angoras raised from kids and aiming at a big flock; and Carleton Wright, who will enter his goats at the next Kimble county fair. Vocational work in Texas is bringing out some future leaders in mohair that will be heard from in later years."

Chamber of Commerce In Regular Meeting

Nearly thirty members of the Kimble County Chamber of Commerce braved the inclement weather Tuesday evening to attend the regular monthly meeting of the organization in the district court room. The band was present and rendered several selections before the meeting was called to order by President Conrad T. Holekamp. Secretary H. W. Bierschwald read the minutes of the previous meetings for the past month.

Several important matters were discussed including an air-raid program for Mexican children, an advertising program for Kimble County, and a telegraph office for Junction. These general meetings will be held each month and the entire membership is invited and urged to attend all these meetings.

Mr. Henry Grobe was a business visitor in Junction Monday.

JUNCTION VOLUNTEER FIRE DEPARTMENT WILL TRAIN TWICE A MONTH

The Junction Volunteer Fire Department will have a fire drill practice from 9 until 11 o'clock in the morning every second and fourth Tuesday in the month, according to Mr. John M. Hankins, City Fire Marshal. The drills will be for the purpose of instructing the members of the department in the use of the fire fighting equipment, such as coupling and uncoupling hose and connecting the hose to the mains.

There are now twenty members of the department and seven who will join the company later.

Mr. Hankins stated that when the people heard the siren on these dates that they would know there was no fire, but merely a call for the men to begin their practice period.

During these fire drills the fire department members will study the streets of the city and learn the location of each of the plugs. The present map which is in possession of the City Council is preparing a new map of the city which will be turned over to the department. This new map will embody the changes which have taken place because of the new water system which has been installed.

Another matter of great importance is concerned with motorists driving over the fire hose while they are stretched on the ground. Mr. Hankins stated that men would be stationed to prevent this occurring. He also said that the City Council was to pass a law making this offense a penalty which would call for a fine of \$25 for each offender.

During the practice period next Tuesday morning, the members will again test the pressure in the mains. This test will be made on the public square at nine o'clock in the morning.

Edwards Plateau Goats To Break into Movies

Plans to show the world a glimpse of the sheep and goat industry's magnitude in Texas by filming a drive of some 11,500 goats as they cross the Pecos River going into the Big Bend country for spring and summer grazing are being planned by the San Angelo Board of City Development.

It has been stated that a wealthy rancher from Amarillo will transfer 11,500 head of goats from the Edwards Plateau into the Big Bend country and it will be this event which will be filmed.

There are not many people who know that Texas is the greatest wool and mohair producing section in the world, but with this film being shown, they would come to realize the importance of this industry.

Plans are being made to make a day of celebration out of this affair for the purpose of gathering sheep and goat raisers from all over the southwestern territory. All ranchers are invited to attend this affair. Exact dates and place will be given later.

TEXAN THEATRE

Readers of the Eagle should read the weekly program of the Texan Theatre which appears on the local page of the Eagle each week. Mr. and Mrs. Phillips and Miss Mary are putting forth their best efforts to give the people of Kimble County a good show, and they are showing good pictures.

CHRISTIAN SERVICES

Regular services will be held at the Christian Church Sunday morning at 11:00 o'clock and again at 7:30 o'clock. Rev. J. H. Thompson, the regular minister, will conduct the services. Everyone is invited to attend.

MEMBERS OF W. T. P. A. COMMITTEE WILL HOLD QUARTERLY MEET HERE

Noted Pecan Enthusiasts Gather To Discuss Problems about Marketing Pecans

The Executive Committee of the West Texas Pecan Association will hold its February meeting in Junction Saturday, February 23, in the court house auditorium, according to Mr. A. J. Bierschwald, presiding officer. The meeting will be called to order at 10 o'clock Saturday morning.

The Rev. N. H. Skaggs will deliver the invocation at 10 o'clock. Immediately following the invocation, Judge J. B. Randolph will give the welcome address.

According to the order which the speakers will appear on the program, the following list has been drawn up by Mr. Bierschwald:

1. Co-operative Marketing of Pecans—J. F. Rosborough, Texas A. & M.

2. Marketing Problems—H. G. Lucas.

3. Marketing of Pecans—Albert Rick.

4. Where Pecans are Grown—Carleton Wright.

5. The Possibilities and Value of the Native Pecan Grove—J. T. Stovall.

6. Plan for Local Membership—C. W. Atchison, Regional Vice President.

7. How Bankers Can Help Pecan Growers—W. C. Herpel, San Antonio.

8. Address—J. E. Willman, Dept. of Agriculture, Austin, Texas.

9. Local Pecan Shelleries—General discussion led by Joe Oliver of Junction.

10. Advertising Food Value and Medicinal Value of Pecans—Dr. J. Fred Burt, Junction.

11. Announcement of \$10 prize given by Mr. Ramey on best pecan recipe.

12. Demonstrations of Pruning and Top Work—E. V. Cook, Coleman.

This program will last through the day, and will give the pecan growers of this section a chance to become acquainted with some of the leading pecan enthusiasts of Texas. Junction has long been considered one of the most productive portions of the state as far as the growth of pecans is concerned. In this county there are more than 267,000 native pecan trees, which is accredited as being the largest native pecan orchard in the world. The annual production of pecans in Kimble County averages 600,000 pounds. And this great crop has not come about by any special effort. It's just all natural. When the orchards are budded and developed properly the yield will be greatly increased.

There are several seasons why this section is favored for the production of pecans. One is that there are more than six hundred miles of running streams in the county. Also there are several fertile valleys, and the climate is favorable to the development of the pecan tree. In good seasons around 2,000,000 pounds are grown in one year. This seems a large amount, since hardly three per cent of the trees in the county receive any attention except when the nuts are ready to harvest.

A large crowd is expected to attend the meeting here Saturday, and the pecan growers throughout the county should take advantage of the useful information which will be disseminated at this meeting. The demonstrations of pruning and top working which E. V. Cook of Coleman will give, will be of especial value to the pecan growers of this section.

The prize which Mr. Ramey of Brownwood is offering to the best pecan recipe submitted at the meeting will be awarded by a committee which will be appointed during the meeting. According to information received from Mr. A. J. Bierschwald, every recipe must be accompanied with a sample, in order for the merit to be determined. Everyone is invited to submit her favorite recipe. Remember the prize for the best one is \$10 cash.

P. T. A. Will Hold Its Regular Meet Monday

The Parent-Teachers' Association will hold its regular monthly meeting Monday afternoon, February 25, at 4:00 o'clock in the High School auditorium with Mrs. W. P. Riley presiding.

Child Welfare week which has just closed will be the keynote of the program which will be presented at the next meeting. Mrs. E. R. Borden has charge of the program for the afternoon. Every parent who has a child attending the local school should attend these meetings, and get a closer understanding with the school system and with the teachers and instructors.

VOGUE STYLE SHOW

Mrs. Joe Turner announces that she will give a style show at the Texan Theatre on Monday, March 4. This is the day the new president will be inaugurated and Mrs. Turner says that she will put on as much style in her show here in Junction as the president and his party in Washington will.

The program will be given in next week's issue of the Eagle.

Mr. L. H. Cordray of Clarendon, Texas, has bought a half-interest in the Quick Service Tailor Shop and is now actively connected with this growing shop. He will not move his family here until school is out.

considered one of the most productive portions of the state as far as the growth of pecans is concerned. In this county there are more than 267,000 native pecan trees, which is accredited as being the largest native pecan orchard in the world. The annual production of pecans in Kimble County averages 600,000 pounds. And this great crop has not come about by any special effort. It's just all natural. Everyone is invited to submit her favorite recipe. Remember the prize for the best one is \$10 cash.

Junction is Given Publicity by C. of C.

On the Old Spanish Trail Highway just a few miles this side of San Antonio there is a large billboard which tells to the world the pleasures which can be had by spending a vacation in Junction. The billboard is one of the largest on the highway and at night is well illuminated by several electric lights.

The word "JUNCTION" is painted in huge letters and can be seen for many yards. There are scenic views painted on the board which serve as a background for the script. The phrase, "The Land of the Living Waters," is placed on the bottom of the sign. The hills, streams, fishing, camping and hunting are mentioned on the board.

The method of advertising Junction was secured by the Kimble County Chamber of Commerce, and this organization is financing this project which will be continued for three years.

Everyone going west on the Old Spanish Trail cannot help but see this huge billboard as it is located on a curve in the highway and the tourists are directly confronted with a view of the sign.

Mrs. H. G. Perry and son, Wilbur Wright, spent the week in Rocksprings, the guests of Mrs. Page Carson.

LEASING OF ACREAGE IN KIMBLE COUNTY MARKS OIL ACTIVITY

Oil activities in and around Junction have been brisk during the past month. Several companies have been engaged in securing leases and getting ready to drill test wells.

Mr. Carl L. Bryant, oil operator of Brownwood, is in the county blocking up a number of oil leases preparatory to drilling a test well between Yates and London. Mr. Bryant brought in the wild-cat well in Rannels County and developed a shallow field in Brown County.

Mr. J. B. Collett of Fort Worth is blocking up leases in the Noxville community preparatory to making a deep test in that section. Mr. Collett is one of the directors of the American Petroleum Institute, and only recently refused the nomination for the presidency of that organization. He is one of the largest independent oil operators in Texas, and at present has interests in the Winkler and Crane Counties oil fields. In addition to these activities, the Lindsay Bros., of Tulsa, Oklahoma, have completed the leasing of a block of land for drilling in territory east and north of London. The location of a well has been tentatively decided upon, and it is reported that the necessary machinery for drilling purposes will arrive soon.

With the opening of oil operations in Kimble County, another source of revenue is added to the list now which is helping Kimble County to grow and develop. If any of these test wells prove that oil is in the county, Junction will have a building boom which will be beneficial to everyone.

Residence on Llano Nearing Completion

The summer home of Mr. Ben W. Warren which is under construction is nearing completion. This home is being built on the bank of the South Llano River in the new residential section south of the city. Mr. Warren is a prominent citizen of Houston, and has made regular visits to Junction for the past three years.

Mr. Warren stated that he liked Junction better than any portion of southwest Texas. That is the reason why he picked Junction as the logical place for his summer home. The family will live here a portion of each year. Mr. Warren will be in Junction next week to oversee the final construction work on the new home.

CHURCH FUND AIDED

It has been announced by the Rev. G. W. Crab that over fifty per cent of the money for the completion of the balcony in the new Baptist Church building has been raised and it is probable that work will go forward on this project and finish it now. It was contemplated to postpone this part of the construction, but it has been decided that this should be completed now.

CHURCH OF CHRIST

The Bible Classes of the Church of Christ will meet Sunday morning at 10 o'clock in the church building. Preaching will start at 11 o'clock a. m., according to Elder J. S. Newman, pastor. Evening services will begin at 7:30 o'clock. Every person is invited to attend these services.

BANK CLOSING FRIDAY

The Junction State Bank will be closed all day tomorrow in commemoration of the birthday of George Washington.

Mr. and Mrs. John D. Phillips visited their parents, Mr. and Mrs. T. B. Phillips, this week.

GIRLS' BASKET BALL TEAM CLOSSES SEASON WITH PERFECT RECORD

Last Friday night the Junction High School Girl's basketball team defeated the Tivy High team by the score of 39 to 21, making the second time they defeated Kerrville within one week. With this game, the girls closed the season in this section with a perfect record. They played eight games and won all of them by large scores.

The line-up for the game in Kerrville last Friday was: Forwards—Tempe Boone, Nevada Blackburn; centers—Elsie Bessant, Ruth Sandherr; guards—Lorena Couey and Vivian Livingston. Substitutes—Lola Mae Goben.

The total score for all games are: Junction 285, opponents, 91.

According to Mrs. Grady Kendrick, who is head coach of the girls' team, it is probable that games will be played with Fredericksburg and Comfort.

Mrs. Kendrick has been coach of the Junction team but one year. Before she was coach here she coached for two years at Comstock. Mrs. Kendrick was a member of the basketball teams in San Marcos Normal and Baylor College while she was attending these schools.

The entire team will be back in school next year with the exception of Nevada Blackburn who will be graduated this June. With the experience which they obtained this year, and with all veteran material, the girls should have an invincible team next year.

The scores of all the games played this year are given:

Junction	23	Center Point	8
Junction	27	Center Point	15
Junction	27	Sonora	9
Junction	51	Sonora	15
Junction	36	Menard	6
Junction	24	Menard	3
Junction	42	Kerrville	14
Junction	39	Kerrville	21

Total 285. Total 91

The names of the girls who played on the team this year are: Tempe Boone, Nevada Blackburn, Ruth Sandherr, Elsie Bessant, Merle Warren, Lorena Couey, Marjorie Montgomery, Louise Turner, Norma Hendricks, Vivian Livingston and Lola Mae Goben. Others whose names have not been mentioned trained all season and aided the team in providing strong opposition during the practice season.

Mrs. G. W. Hardesty Dies Sunday Morning

Mrs. G. W. Hardesty, aged 60, wife of Commissioner G. W. Hardesty, died at her home in Kimble County last Sunday morning at 7:30. The funeral services were conducted by the Elder J. S. Newman, of Junction, at 2:00 o'clock Monday afternoon at the Red Creek Cemetery.

Miss Tempia Elizabeth Yates, as she was known before she was married, was born in Bastrop County, Texas, on January 4, 1869. She was married to Mr. G. W. Hardesty on January 28, 1886. To this union eight children were born, five boys and three girls, all of whom are living today. Mrs. Hardesty has been a member of the Christian Church for forty years. The friends and relatives join in the sorrow of Mr. Hardesty caused by the loss of his dear wife.

THE METHODIST CHURCH

Sunday School, 10 a. m. Morning worship, 11 a. m. "Golden Hour" evening service, 7:30 p. m. Midweek service, 7:30 p. m. Wednesday. Special music and other features of inspiration and interest at the Golden Hour service. You are cordially invited to attend all the services of the church.

LAW STUDENT SAYS HE HAD SUFFERED EVER SINCE HE WAS A BOY

"Money couldn't buy the good the Sargon treatment did me. It overcame troubles I have suffered practically half my life. Ever since I was a boy I have been weak and nervous and frail. I was a constant sufferer

MAC K SPRINKLE

from indigestion and constipation and I was greatly underweight. Nervousness made my sleep fitful and broken and in the morning I was always tired and not fit for study.

"I had to live on cereals, milk and soups and even that would disagree with me and my life was miserable with gas bloating and pains. Sometimes I would go days without any appetite and then, at times, I would be ravenous with hunger. Nothing I took did me any good.

"I certainly wish I had been able to get the Sargon treatment long ago because I am just like a new man now. I noticed an improvement the first week. Now, I eat three big meals a day. I've stopped that light diet and eat anything I want but it don't hurt me in the least. Nothing disagrees with me now and I am gaining strength every day. I sleep fine, get up in the morning feeling good and I've already gained six pounds and I have only taken two bottles of Sargon.

"Sargon Soft Mass Pills are wonderful, too. My bowels became regular the first week after I began taking them and their action is so mild and natural that you are not sick or upset in the least."

The above statement was re-

cently made by Mack Sprinkle, 827 East 8th St., Oklahoma City, a law student at the Capital City School of Law. Sargon may be obtained in Junction from J. A. Hyman. (Advertisement)

Every time the clock ticks off a minute in the United States, property valued at more than one thousand dollars goes up in smoke and flames. This nation's fire loss per person is eleven times as great as that of the average for all the nations of Europe.

WASHINGTON COUPLE MARRIED 73 YEARS

Kansas City.—Some months ago Mr. and Mrs. W. D. Aurand of Kansas City set out to dis-

cover the couple in America married the longest.

Sunday they believed they had found them in Mr. and Thomas Kinman, College Place, Wash., who will have been married seventy-three years in a few days.

The Aurands for many years have made it a hobby to send presents to long-wedded ones.

Second on their long list of names are those of Mr. and Mrs. D. G. Fager, Franklin, Neb., and Mr. and Mrs. Al Win-

ters, Glencoe, Ok., "tied" with seventy-one years.

The following couples have been married sixty-nine years, according to the record.

Mr. and Mrs. Richard Brantley, Newton, Mr. and Mrs. W. I. W. Douglas, Grain Valley, Mr. and Mrs. F. M. Perryman, Oconee, Ill.; Mr. and Mrs. J. A. Hedge, Oklahoma City; Mr. and Mrs. John W. Pickett, Winchester, Ind., and Mr. and Mrs. Austin Howe, St. Johnsbury, Vt.

BY OAKLAND

REDUCTION IN ELECTRIC RATES

Lower rates for electricity for domestic and commercial purposes have been made voluntarily by the West Texas Utilities Company. The cost per kilowatt-hour has been reduced and the number of kilowatt-hours in each block before the next lower rate applies has been lessened. Based on the number of rooms in residences the new rate gives the small householder the same advantages of a lowering scale, as consumption increases, that larger users enjoy. The new rate enables consumers to make economical use of the many convenient and labor saving electric appliances.

The New Rate for Residences

14 CENTS net per kilowatt-hour for the first four kilowatt-hours used per room per month.
9 CENTS net per kilowatt-hour for the next four kilowatt-hours used per room per month.
6 CENTS net per kilowatt-hour for all energy used in excess of the above amount.

Minimum monthly bill \$1.50 per meter

Determination of Number of Rooms

The room count is based upon the ordinary real estate rating, and in making the count, alcoves, unfurnished attics, bathrooms, cellars, hallways, laundries, closets, pantries, open porches, garages, barns and outbuildings will not be included. Premises with less than three rooms, real estate rating, will be classed as 3-room premises; those with more than seven rooms will be rated as 7-room premises. THE NUMBER OF OUTLETS AND APPLIANCES USED DO NOT AFFECT THE RATE.

TABLE SHOWING THE NEW NET RATE AND NUMBER OF
KILOWATT-HOURS IN EACH STEP

Size of Residence	First Step 14 cents per kilowatt-hour For First	Second Step 9 cents per kilowatt-hour For Next	Third Step The new SIX CENT rate
3 Rooms or less	12 kilowatt-hours	12 kilowatt-hours	For All kilowatt-hours used each month over total of first and second steps, per kilowatt-hour 6c
4 Rooms	16 kilowatt-hours	16 kilowatt-hours	
5 Rooms	20 kilowatt-hours	20 kilowatt-hours	
6 Rooms	24 kilowatt-hours	24 kilowatt-hours	
7 Rooms or more	28 kilowatt-hours	28 kilowatt-hours	

You will note how few kilowatt-hours per month need be used before you reach the new low SIX CENT price

Commercial Rate

14 CENTS net per kilowatt-hour for the first 30 hours of maximum demand.
10 CENTS net per kilowatt-hour for the next 60 hours use of maximum demand.
5 CENTS net per kilowatt-hour for all energy used in excess of the above amounts.

The new rate makes liberal use of electricity for all purposes in commercial establishments inexpensive. Minimum monthly bill \$1.50 per meter.

Further explanation of the rates will be given gladly upon request.

These rates effective in Junction on the 15th day of December, 1928.

County News

LONDON LOCALS

Mr. and Mrs. Fenton Stewart of Bonham and Mrs. Claude Harrell of Cross Plains were visiting at the home of Mrs. Stewart and Mrs. Harrell's mother, Mrs. I. W. Ellis, a few days last week.

W. C. Jones and wife were in from the ranch Wednesday. Mrs. S. H. McCaleb spent a few days with her father and mother last week, helping with the work while Victoria and her mother were crippled up.

Carl Bryan of Brownwood was in to see us last week. Mr. Bryan is an oil man and is now developing some property in Brown county. He has two producing wells and has everything ready to begin his third on a 75-acre tract.

Mr. A. S. Adams is now moving his old house to the back of his lot and is putting material on the ground for the purpose of erecting a new concrete building on the site of the old one. This is another move forward. Let the good work continue. Every substantial building erected adds to the future of London. Who will be next?

Again death has visited our community, this time claiming on Sunday morning Mrs. G. W. Hardesty, the wife of our Commissioner and the mother of several children. The sorrowing relatives have our deep sympathy.

On Monday morning at four o'clock Uncle Ben Drago passed from time to eternity. Uncle Ben was very old. A typical frontiersman, an Indian fighter and an ex-Texas ranger. Thus another one of Texas' builders has fallen. Uncle Ben was present when Cynthia Ann Parker was recaptured.

Our ball team defeated the team from Saline Saturday. Geo. R. Jones from Yates was in town on business Monday.

Mrs. D. G. Adams and children, accompanied by Miss Eunice Green, spent the week-end visiting relatives and friends at Johnson City and Austin. All report a good time.

A collision of two cars on the London-Mason road down near Johnson store resulted in the wounding of Miss Hight and the wrecking of one of the cars. Haven't heard how the other car and its occupants come out.

The writer is among those who believe that our highway laws should provide that each driver on the highway shall drive on the right hand side of the road regardless of whether the road is clear or not. This revision should read "shall," followed by a penalty of not less than \$100 nor more than \$500 to be assessed against anyone who is caught driving other than on the right hand side except when passing another car. And no one should be allowed to attempt to pass another car unless the highway is clear for at least 1/4 mile, and not then without giving timely warning of his intention to pass so that the car in front

may have time to give all the road possible. I would also favor making it a heavy fine for anyone driving a car after being warned of another's intention to pass him should he fail or refuse to give all the space possible. I believe such amendments to our highway laws would serve to make the highway more pleasant and more safe for the average citizen who is willing to live and let live. But I would want the penalty strong enough to make the road-hog and the half-drunken maniac realize that others have a right that they must respect.

Mrs. Ellis Brown will give a n entertainment Thursday at the Weaver Hall for the purpose of raising funds to pay on the recently purchased piano. Don't fail to patronize this move because it is worthy of your support. If you can't attend the play just hand in your dollar to pay on the instrument. I will; will you?

The first truck loads of the Shell Pipe Line material has just passed through. The line runs about two miles south of London.

This is a cold, rough day and I must go to dinner.

SEGOVIA SIGHTINGS

An occasional warm day and the appearance of the bluebirds reminds us that spring isn't far away. The bad colds and complaints of the cold days are disappearing and the general health of our community is good.

The Valentine party given at Segovia school house Friday night was enjoyed by a large crowd. Party games and 42 were played by the guests. Delicious refreshments of hot chocolate and cake were served late in the evening.

Misses Louise King and Louise Keithley attended the show in Junction Saturday.

Mrs. G. D. Lennon is visiting her parents, Mr. and Mrs. J. M. Keithley.

Mr. and Mrs. Will Lennon spent Saturday and Sunday with their daughter, Mrs. Lewis McDonald.

Misses Louise and Teeny King were guests of Mr. and Mrs. Dee Hall on the Live Oak Ranch Sunday.

Mr. and Mrs. Hatch and son, Arlton, visited on their ranch near Hunt, Texas, Sunday.

Mrs. W. B. Dixon spent Monday with Mrs. R. R. King.

Mrs. Joe Taylor visited her parents, Mr. and Mrs. Wm. Fairchild, Sunday.

Miss Gussie Burris visited Miss Knowles for a few minutes Sunday afternoon.

Miss Naomi Knowles and Edward Keithley visited friends in Harper Sunday.

Mr. and Mrs. Bill Bishop and son, Mutt, visited relatives near Austin Sunday.

Mr. and Mrs. L. B. Kirkpatrick were Sunday afternoon guests of Mr. and Mrs. I. O. Weldon.

Mr. and Mrs. J. E. Maxie were pleasant callers in the L. B. Kirkpatrick home Sunday night.

Mr. and Mrs. Walter Merritt and Mrs. Georgia Snodgrass visited with Mr. and Mrs. W. N. Hatch Sunday night.

Mr. W. N. Hatch and Walter Merritt made a trip to the Live Oak Ranch Monday.

SHORT BALLOT PROPOSED IN AMENDMENT MEASURE

Austin.—A short ballot providing for election of only the Governor, Lieutenant Governor and Attorney General is sought in a proposed constitutional amendment introduced by Representative Coke R. Stevenson of Junction.

Stevenson's joint resolution provides that the proposed amendment shall be submitted to voters at an election in November, 1930.

The three officials would be ballotted on at the same election as that for selecting members of the Legislature.

An airplane in the Anarctic has communicated with the radio station of the New York Times at a distance of 10,000 miles.

WHY THE SMILE

Young's Stomach Powder quickly relieves your stomach, drops gas, bloating, heartburn, sick headaches and nervousness. Can't fail to benefit you. Don't forget to return money if it fails.

Awbrey-Bell Drug Co.

POSTED

The Baker Dairy and Wilson place, known as the Dr. Stone place, is posted according to law and anyone hauling wood or gravel from these places will be prosecuted. All trespassing is forbidden.

Junction Steam Laundry

Liquid oxygen will be distributed in special tank motor trucks by a German company.

BABY CHICKS FOR SALE

I am starting two incubators Monday, Feb. 4, and will have baby chicks for sale at \$18.00 a hundred until May 1st. The hens in this pen are of the famous Hoffman strain and are headed by registered cocks; also will have setting eggs at \$2.00 a setting. Any orders will be appreciated and given my careful attention. These hens were bought from Mrs. Carl Hoffman and were blood-tested for Bacillary White Diarrhea. Phone No. 118, collect.

adjoining counties, \$1.50
Elsewhere in Texas, \$2.00
Outside the State, \$2.50

All cards of thanks, resolutions of respect,
obituary notices, where there is a
memory contribution, will be run only as
paid matter at regular rates.

Any erroneous reflection upon
the character of any person
or firm appearing in these col-
umns will be gladly and
promptly corrected upon call-
ing the attention of the man-
agement to the article in ques-
tion.

Burn the rubbish!

Realism is not half so nice
as it seems.

Patriotism is all right as long
as the enthusiasm is for the
right thing.

If you wish to live and do
well, discover your faults your-
self before someone points them
out to you.

Some folks get more real
pleasure of dreaming in the day
time than they do at night.
That's because the dreams seem
more real when they are exposed
to the light.

The new Texas Almanac is
now off the press just brim-
full of interesting and timely in-
formation about the greatest
state in the United States.

The cost of living in the
United States increased a frac-
tion of one cent during the
past year. That is to be ex-
pected when prosperity is evi-
dent.

Last week's clean-up drive
was not as successful as some
had anticipated. But before the
summer is well begun, Junction
will be cleaned up and beauti-
fied for the benefit of home
folks as well as the thousands
of tourists.

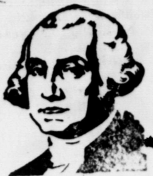

The Legislature is working
hard these days. They are
having some stormy sessions
down there now and some great
oratorical demonstrations have
been manifested. But they are
getting through some much
needed legislation.

There will be over 267,000
pecan trees alone which will be
putting on green leaves in a
few weeks. With the other
trees budding out and with the
numerous evergreens, these val-
leys in Kimble County will look
better than the Elysian Fields.

If the weather is good any-
where in Texas, it will be good
in Kimble County. We have
a climate and scenery that can't
be duplicated in Texas. And
the gratifying thing about it is
that people all over Texas are
finding out about it now and are
flocking in from all over the
countryside to enjoy these pleas-
ures. While outsiders are thank-
ful to get to enjoy these gifts
about one week out of the year,
we have them the year 'round.

Dr. H. E. Luehrs has just
been appointed health officer for
Kimble County, which is a task
within itself. This office holds
with it much responsibility and
the co-operation of the people
of the community is essential
if sickness and disease are to be
reduced to a minimum. All
contagious and infectious dis-
eases should be reported to him
for the sake of the general
public.

From all indications the South
Llano river is going to be a
real summer colony in a few
years. Mr. and Mrs. V. B.
Hardeman are having plans
drafted for a beautiful home
which is to be built on their
South Llano property. A con-
tract was also let for Mrs.

WASHINGTON

George Washington, D. C. there
is an imposing marble monu-
ment into the air and is the tallest
monument in the world except-
ing the Eiffel Tower at Paris.
This monument was erected in
the honor of a man whose birth-
day will be celebrated tomor-
row. It was erected at the cost
of over a million dollars in
order to perpetuate the life and
works of George Washington,
the man who earned the title
of the Hero of American Inde-
pendence.

In Westmoreland County, Vir-
ginia, Washington was born on
February 22, 1732, of well-to-
do parents. He was a strong
athletic youth and enjoyed rid-
ing and out-door life. But he
was not studious, nor did he
ever gain more than an ele-
mentary education, except in
mathematics and surveying
which he obtained through self-
study. He had a fervent desire
to enter the English navy, but
his widowed mother caused him
to abandon the idea.

When the revolutionary war
broke out Washington was one
of the wealthiest men in Amer-
ica. He had come into popular
favor, having served in the
Virginia Assembly for several
years, and was held in high
esteem by all his neighbors.
In 1774 he was elected to the
Continental Congress, and short-
ly after the outbreak of the
war, he was appointed Com-
mander in Chief of the Ameri-
can Forces. Only reluctantly
did he accept this position and
then with no pay for his ser-
vices. After peace was signed
he returned to his estate, but
was chosen first president of the
United States under the Con-
stitution and took the oath of
office April 30, 1789, at New
York. After the second term
as president, Washington refus-
ed a third term.

One of the last acts of this
great American was to free
from slavery one hundred and
twenty-five slaves which were
his property.

Autry of Houston for a sum-
mer home which will be built
on the Llano River twelve miles
south of Junction. There is no
better place in Texas to build
a home than on this river close
to Junction and there are few
places in Texas that are nearly
so good. It's cool in summer
and beautiful the whole year
round.

Junction is soon to become
the city of beautiful churches.
The Baptist Church is nearing
completion. The Memorial Chris-
tian Church is already finished.
Tentative plans are being con-
sidered by the Church of Christ
now. The Methodist congrega-
tion is working to the end of
erecting a beautiful new build-
ing on the present location. The
Catholic Church building is a
comparatively new structure.
Nothing speaks better for a
community or city than a group
of beautiful churches which are
well attended and supported,
and Junction is coming into its
own.

A notice of election which is
to be held on the 19th of March
for the purpose of securing a
sewer system and more paving
for Junction is receiving much
attention by the citizens of the
community. It is what many
have hoped and wished for dur-
ing the past several years. It
will be just another stepping
stone towards the goal of a
real city in the Hill Country.

An adequate sewer system for
Junction would mean that we
would have a more sanitary and
healthful city. And health can-
not be measured in terms of
money. It is something more
intangible and more valuable
than money could ever be. It
would be a clean-up campaign
in itself.

Marvelous is the hand of God
that guards and guides us daily.

Every thought, word and deed
ought to make us better for the
next time.

A prayer is merely a wish
turned Godward.—Brooks.

Opening the door and letting
God in is Faith.—Abbott.

One good mother is worth a
hundred school-teachers.—Her-
bert.

There is frequently more love
in a frown than there could be
in a smile.—Charnock.

Anger is the most impotent
passion that accompanies the
mind of man.—Brooke.

A man has no more right to
say an unkind thing to another
man than to knock him down.
—Johnson.

If there is any person to
whom you feel a dislike, that
is the person of whom you
ought to speak.—Richard Cecil.

Stay not until you are told
of opportunities to do good; in-
quire after them.—Lyman Ab-
bott.

Energy will do anything that
can be done in this world; and
no talents, no circumstances, no
opportunities will make a man
without it.—Gothe.

Manhood begins when we
have made true with necessity,
but begins joyfully and hope-
fully only when we have recon-
ciled ourselves to necessity.—
Carlyle.

HOW TO KILL TREES

The use of arsenic for kill-
ing trees is quicker and surer
than girdling them, and for the
benefit of the citizens of the
Southwest the following direc-
tions for its use have been
adopted from the Australian
Forestry Journal:

Formula.—Arsenic, 1 pound;
washing soda, 1 pound; whit-
ing, 1 pound; water, 4 gallons.

Dissolve the soda in a small
amount of water. Mix the
arsenic with a little water to
form a paste, and add to the
soda, stirring continuously. Boil
the mixture for at least half
an hour, avoiding inhaling the
fumes, which, being poisonous,
sometimes cause sickness. Mix
the whitening with the rest of the
water and add after removing
from the fire.

The best results are obtained
by applying the arsenic in the
winter, although trees may be
killed at any season of the year.
Application.—Make a series
of overlapping arc cuts com-
pletely around the tree, through
the bark and well into the tree.
Leave the chips on to form
a "frill." Pour from 1/2 pint to
1 quart or more of the arsenic
mixture into the cuts, saturat-
ing thoroughly. An old tea-
pot is convenient to use in
applying the poison. Small
trees may be cut off low down
and the cut swabbed with poi-
son. This effectively prevents
suckering.—Texas Forest Ser-
vice.

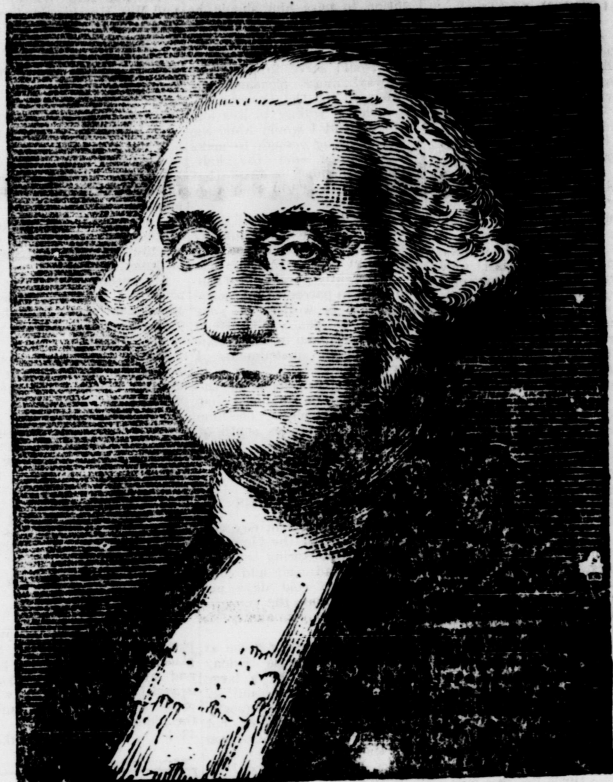

Governor Dan Moody was not
dismayed by the defeat of the
civil service bill in the House
and in an authorized statement
served notice that as long as he
is Governor he will submit that
subject to every Legislature un-
til it is passed. That means it
will be brought into the coming
special session. The Governor
said so. He attributes the de-
feat of the measure to the ac-
tivity of State employees afraid
of their jobs and to State De-
partment heads who want to
operate political machines.

Nothing is good that had
badness for its motive.

God often drills a well of
gladness with a drill of sorrow.

of Mason.

MESDAMES SPILLER
ENTERTAIN FRIENDS

Mesdames Hugh and Roy
Spiller were joint hostesses
Wednesday afternoon to a num-
ber of friends at the Hugh
Spiller ranch. Patriotic tallies,
napkins and table covers were
suggestions of George Wash-
ington's birthday.

Mrs. Watt Turner won the
high prize, a pretty corsage;
the second prize, a bottle of bath
salts, went to Mrs. Joe Watson,
while Mrs. Arthur Thompson
received the cut prize, a dainty
handkerchief.

Chicken a la king in patty
shells, asparagus tips, pineapple
salad, hot rolls, coffee and indi-
vidual pecan pies topped with
whipped cream, brought the
afternoon to a pleasant close.

FRIENDS BIBLE CLASS

The Friends Bible Class of
the Methodist Church enjoyed
an evening of entertainment at
the home of Mr. and Mrs. H. G.
Hubert last Thursday evening.
Several interesting games and
novel stunts were enjoyed dur-
ing the evening. Refreshments
consisting of sandwiches, cake
and tea were served the fol-
lowing:

Misses Natalie Lowry, Au-
drey Blackburn, Willie Mae Snid-
der, Mary Hubert, Laura Lee
Hodges, Josephine Urban, Mary
Ellis Blackburn, Julia Weath-
ered, Lela McDonald, and Mes-
srs. Dock Scott, Dr. H. E.
Wright, Royce Buster, Ramsey
Randolph, Astor Wallace, Lanan
Bissett, Dennis Wallace, Lee
Craven, Alton Mason, Mr. and
Mrs. L. D. Borden, Mr. and Mrs.
Grady Kindrick, Mrs. Emory,
Mrs. E. R. Borden and Mrs.
Hubert.

CARD OF THANKS

We wish to thank the kind
friends who so generously help-
ed us during the illness and
death of our beloved mother.
Words cannot express our deep
feeling of gratitude, dear
friends.

G. W. Hardesty and family.

Henry Bruns and William
Bruns, believed America's old-
est living twins, recently cele-
brated their ninety-fifth birth-
days at their home in Wood-
ville, Ohio. They came to Amer-
ica from Germany, but have
lived in Woodville for more
than sixty years.

Plant a pecan tree today.

First Skyscraper in
America Was Twelve
Stories and of Brick

It is not generally known that
Cyrus W. Field, justly famous
for laying the first ocean cable,
also built America's first sky-
scraper at what is now No. 1
Broadway, New York City. In
1882, he bought the historic
site, then occupied by the old
Washington Hotel, and rebuilt
it into our first skyscraper.

This was before the days of
structural steel and the Wash-
ington Building's twelve stories
were as high as it was safe to
make a building of only stone
and brick construction.
The Washington Building was
then mostly of red brick and
was topped with an old-fash-
ioned slanting copper roof that
made it a familiar landmark
for all the vessels coming
through the harbor. In order
to give necessary support to
the upper floors, the first floor
of the skyscraper was almost
a solid foundation and there
wasn't much room in it for
offices. The supporting columns
were five by five feet and placed
very closely together.

AMONG OUR SUBSCRIBERS

Our subscribers continue to
send in their renewals to the
Eagle and many new names
are being added from week to
week. The management appreci-
ates interest shown in the
home paper and will continue
to make efforts to improve the
paper from month to month.

All our readers are requested
to examine the label on their

Stapp.

Remorseful after stealing an
automobile, Edgar Chastin of
Evansville, Ill., drove back to
return it and was arrested.

If you do not use your love,
faith and knowledge you die.

The original extent of the vir-
gin pine forests in Texas was
about 14,000,000 acres. The
present area is about 1,000,000
acres.

FIGHT PARASITES

Are we losing the war on livestock parasites? "We are," says Dr. M. C. Hall, authority on animal parasites, U. S. Department of Agriculture, but adds, "For the most part it is not realized that we are at war. It is time to recruit and train our forces and to take the field in sufficient strength to check and drive back the enemies which take from mankind the meat we should eat, the wool which should clothe us, and the leather with which we should be shod." Although there are more than 50,000 different animal parasites with capacity for multiplying enormously, they can be largely controlled by sanitation and good farm practices. Clean up yards, corrals, stables, and all small enclosures every spring and fall. Don't overstock pastures; this concentrates infection. Change the stock from one pasture to another, and change the kind of stock on the same pasture. Young animals are particularly susceptible; keep them on clean areas away from older stock. Quarantine new stock brought on the farm until sure they are free from disease or parasites. Drain or fill in wet areas; such places breed parasites. Don't keep manure around to breed flies; spread and plow it in frequently. Bury animal carcasses. Finally, if disease actually appears, call in a competent veterinarian. It is better to sacrifice one animal or bird to find out the trouble than to lose a whole herd or flock.

SOMEBODY CARES

Sombody cares for you
Cares so much
That the heart grows glad
At your slightest touch.
And the sound of your voice
And the sight of your smile
Make all life's burdens
And cares worth while.
Sombody cares for you
By and by,
When the years roll on,
You will know it's I.
Then looking back over
The road we've fared,
You will see how much for you
Sombody cared.
—David V. Shultz.

WELL-KNOWN JURIST SUCCUMBS AT AUSTIN

Austin, Feb. 14.—Judge Jas. W. Swayne, chairman of the State Industrial Accident Board, died here Monday after a long illness. Judge Swayne's term would have expired Sept. 1, 1931.

Judge Swayne was a law partner of the late Gov. James Stephen Hogg, and he also served in the Texas Senate. At the time of his appointment as chairman of the Industrial Accident Board he was a resident of Fort Worth, where he had lived a number of years.

A REBUKE FOR MAMA

Peggy had been to the circus and being somewhat naughty when she came back she was asked by her mother:

"Don't you think that if dogs and popies and monkeys can obey so well, a little girl who knows so much more than animals should obey even more readily?"

Peggy thought a moment and then replied:
"Yes, of course, if she had been as well trained."

RHEUMALAX RELIEVES RHEUMATISM

If you have rheumatism you would give most any price to be rid of it. Here's your answer—RHEUMALAX—an internal treatment reaches the cause and removes it by elimination, then you forget that you had rheumatism. RHEUMALAX sold and guaranteed by HEYMAN DRUG CO.

Schreiner-Hodges Co.

GENERAL MERCHANDISE
Junction, Texas

We carry a complete General Line of First Quality Merchandise, and invite your inspection.

We buy Mohair, Wool, Cotton and Pecans, paying highest Market Prices.

COME SEE US!

Schreiner-Hodges Co.

TO OUR CUSTOMERS

It is our desire to obtain the highest price for all Wool and Mohair that is placed in storage with us, and having learned how very important it is to do this, we are sending you this letter with a few suggestions as to the preparation of this commodity for the market.

We of course realize the fact that most of you who have been in the sheep and goat business for a long time are fully familiar with all this, but a little reminder won't do any harm, and will only mean dollars and cents to all of us in the long run.

Shear your Sheep and Goats on a board floor or a platform high enough off the ground to avoid dirt or any other trash getting into the wool or mohair. It is also a good plan to have an extended board of from 4 to 6 inches all around the platform, leaving an opening at one side to sweep off the dirt and such accumulation that should not get into the sacks with the wool. Keep this platform swept clean at all times; allow no small sticks or manure to get into the wool.

Wool and Mohair must be kept absolutely clean and in good condition in every way to obtain the highest price; in fact we can obtain a premium for our accumulations in Junction if all will follow the rules as herein suggested.

Never sack wool or mohair when wet or damp, and do not let it rain on sacks after they have been filled. Even if only slightly and the wool does not get wet, it however stains the sacks, and that immediately arouses suspicion, that there might be some damp or wet wool in some of the bags.

Sacks should also be kept clean and new looking, free from mud, grease and dirt to which our attention has been called by the buyers.

Do not dip goats in Pine Tar or lubricating oil under any circumstances; it will depreciate the value, and will be discounted.

Yearling Hair should be sacked separate from the grown hair. Never mix grown mohair with yearling hair or Kid hair; if you do it is subject to discount and invariably sold at the grown mohair price. Never mix black fleeces with your other wool and mohair.

Tie all 12-months wool by all means, but short wool, such as 6 and 8 months or fall and winter lamb wool should not be tied.

As soon as a 12 months fleece is shorn it should be placed on a clean platform or table with the flesh side down, spread out, taking care not to separate it.

Tags and other dirty parts must be removed from the fleece and put in a separate bag marked "Tags." Dung locks should be thrown away. Under no circumstances should there be any tags left in the fleeces, or packed in the same bag with good wool. Sack them separate and so mark them.

After the 12 months fleece has been carefully tagged, it should be rolled and tied with the flesh side out. Roll the fleece so that the shoulders or the best part of the wool will be on the outside. Then tie the fleece by crossing the string twice. Be sure and use paper fleece twine of which we can supply you in proper cut lengths ready for use from our Warehouse, as well as wool sacks.

Do not use what is commonly called Binder twine in tying wool or sewing sacks, and by no means use baling wire to sew up your sacks. Better leave them open than to do that. Cockleburs and grassburs are no worse than Binder twine on your wool. We are endeavoring to place the Junction accumulations in the top class and to do this, these things must be avoided.

Pack separately all inferior wools, such as Buck, Black and wool off of dead sheep and trashy wool, and mark your sacks accordingly. Also wool from early fall or winter lambs must be packed separately, and sacks marked.

A full sack of wool should not weigh over 225 lbs. and mohair not over 350 lbs., and keep your sacks clean. They should not be rolled on the ground, or stained in any manner, and should not be loaded on dirty trucks.

If you will carefully study and comply with these requirements, we know that the Junction accumulations of wool and mohair will be keenly sought after by the buyers, and that will mean higher prices. We further believe and know that it can be sold at a premium if all our customers will take pains to put up their wool right.

JUNCTION CATTLE LOAN COMPANY

EAGLE ROPING MAY BECOME NEW SPORT IN COLEMAN COUNTY

Eagle roping on windy days may become a new sport in Coleman County. It has started, and Henry Jameson of Talpa holds the championship up to date, if Frank Lewis, deputy county clerk, was not "kidding the reporter."

According to Mr. Lewis the Talpa man was driving sheep home when he passed over a hill in a long run on his horse with his rope ready for action when he saw an eagle in the distance enjoying a rabbit supper. Mr. Jameson spurred his mount and dashed in the direction of the big bird. The wind was blowing hard and before the eagle could ascend out of reach the Talpa man had made the fatal swing of the lariat and Mr. Eagle was in its loop. To verify his experience and the tale he told the bird was carried to Talpa and placed on display to be viewed by the curious and doubting Thomases. Mr. Lewis says if he remembers correctly the big bird measured 47 1/2 inches from tip to tip.

More eagles have been reported in the sheep section of west Texas this year than ever before and more are being killed and caught. They have taken their toll in lambs and seldom one has escaped if the sheepman had his rifle. With the rope as a new weapon the war on them will increase in fury. — Democrat-Voice.

MORE FISH NEEDED

Reports from Florida indicate that Mr. Hoover has been adding to his equipment of fish hooks. With one fisherman following another fisherman as President of the United States there ought to be considerable acceleration of the fishing game. Practical results will follow if people living alongside of streams and inland lakes thru-out the United States will only do their part in stocking these waters with fish. The process is a simple one and all it requires is a little effort for the general good. The public hatcheries will furnish the fry when there is a guarantee that the shipment will be cared for by the local people.

It goes without saying that the streams and lakes must be constantly restocked if they are to be kept in shape for fishing.

SHEEP, GOAT MEN ASK TARIFF RAISE

Uvalde.—The Sheep and Goat Raisers' Association of Texas at a quarterly meeting of the executive committee here went on record as favoring an increase in the tariff on wool and mohair from 30 cents to 36 cents as favored by the National Wool Growers Association, were made by F. O. Landrum of La Grana and C. C. Belcher of Del Rio, who recently appeared before the House Ways and Means Committee at Washington in the interest of the sheep and goat men.

Resolutions were passed thanking Congressmen Garner and Hudspeth for their work in behalf of the tariff. Eldorado was selected as the meeting place for the next quarterly meeting to be held the second Thursday in May. Dates for the annual show and sale to be held at Del Rio were set for July 31 and Aug. 1 and 2. T. L. Drisdale of Del Rio was named as general chairman for the annual meeting and he will select various committees.

LULING MAN WATCHES WOMAN STEAL HIS CAR

Luling.—Standing on the street in full view of his car, which he had just parked on Main Street, a Luling man saw a well dressed woman get into his car and start the motor. He thought the joke was on her and that she would discover that she was in the wrong car and be terribly embarrassed. However, when she drove off and has not yet been heard from, he decided the joke was on him. When he realized that the car was not going to be brought back, he jumped into another car and followed in the direction of Houston, but was not able to overtake the driver of his car, which has not been heard from since.

SEVEN MISTAKES

There are seven mistakes of life that many of us make:

1. The delusion that individual advancement is made by crushing others down.
2. The tendency to worry about things that cannot be changed or corrected.
3. Insisting that a thing is impossible because we ourselves cannot accomplish it.
4. Refusing to set aside trivial preferences in order that important things may be accomplished.
5. Neglecting development and refinement of the mind by not acquiring the habit of reading.
6. Attempting to compel other persons to believe and live as we do.
7. The failure to establish the habit of saving money.

—Rotary Razz.

Another case of a woman who fooled the doctors is reported from New Orleans. Fifty years ago, when yellow fever scourged that city Marie Felecie, a little French maid, took the disease and was told she had but three days to live. She was married to E. B. Peyronin on her supposed death-bed. They recently celebrated their golden wedding.

Large dams named for our presidents have been rather the fashion during the past few years. The Roosevelt Dam is in Arizona; the Wilson Dam in Alabama; now we learn that the Coolidge Dam is practically finished across the Gila River near Rice, Arizona. It will hold water to irrigate 80,000 acres of land, and will generate a large amount of electricity. This dam is 250 feet high and 950 feet from end to end.

"The reason RYE"

Rye Bread is best from the standpoint of health. And City Bakery Rye is unsurpassed in quality and in excellence of taste.

City Bakery

Rubber is made from the quayule plant which grows in the Trans-Pecos section of Texas, particularly in Brewster and Presidio counties. A rubber manufacturing plant is located at Marathon.

LOCAL HAPPENINGS

Mr. H. G. Perry returned Wednesday from a trip to Carizo Springs.

Mr. and Mrs. Lester Phillips of Rocksprings are visiting relatives in Junction this week.

These beautiful days make us think about planting gardens and putting out flowers.

A. E. Nauhaus returned as a business visitor in Junction Tuesday.

When in doubt as to what to buy, decide on a Goodyear. More people ride on Goodyear than on any other kind.

Mr. Joe Turner of Rocksprings spent the week-end visiting in Junction.

Mrs. J. F. Horton of Eden is spending the week here with her parents, Mr. and Mrs. Edgar McLendon.

Magnolia Anti-Knock Gasoline. We are ready to serve you. Increased mileage. No carbon. Test it yourself.

Mrs. John M. Hankins and son returned Thursday from San Angelo where they visited Mr. and Mrs. Brown King.

Mr. and Mrs. W. T. Bishop of Segovia visited Mr. and Mrs. Alton Fleming at Dripping Springs the past week-end.

Messrs. Ollie Fleming and C. G. McDonald attended a district meeting of Chevrolet dealers in Houston this week.

We have an attractive line of Red room Suites ranging in price from \$55.00 to \$150.00. Come in and see them.

Everyone interested in pecans are invited to attend the meeting of the West Texas Pecan growers in Junction Saturday.

Goodyear Tires. More people ride on Goodyear than on any other kind. We have YOUR size. Let us serve you.

Mr. and Mrs. Brown King left Friday for their home in San Angelo after a visit with their parents, Mr. and Mrs. John M. Hankins.

Mrs. W. W. Taylor and son, Carlos, are the guests of Mrs. Taylor's mother, Mrs. W. B. Davis, in Del Rio.

More miles per gallon. More power. No carbon. Try it. Magnolia Anti-Knock Gasoline.

Valuable information about pecans will be disseminated at the pecan meeting at the court house Saturday, February 23.

FOR SALE—Five column Burrough adding machine; good condition.

Mr. W. B. Arnold suffered three broken ribs last Saturday when a spindle bolt broke while he was driving his truck. He is resting well and will soon be out again.

You have read about Magnolia Anti-Knock Gasoline. No carbon, more miles per gallon. Try it.

Mr. and Mrs. W. P. Riley returned Tuesday from Larado where they attended the district meeting of the Texas States Bankers' Association. They report a splendid time on the trip which included an excursion into the interior of Mexico.

Mr. A. A. Edmondson was called to Cisco last Thursday on account of the death of Mrs. Edmondson's mother. She was buried Friday in the Old Runnell's cemetery North of Ballinger Friday. She had been confined to her bed several months.

We will present our loveliest advanced spring dresses at our style show March 4th at the Texan Theatre, showing sport clothing, dinner dresses and evening gowns. Next week Junction Eagle will give our program of the evening.

Mitchell McLendon returned Monday from a visit to Waco.

Mrs. Joe Fritz and Arthur Thompson were Abilene visitors Monday.

Mrs. M. E. Holland of Sonora spent the week-end at the Hodges Hotel in Junction.

Mr. and Mrs. Clifford Hamer returned Saturday from Brownwood with a new Dodge car.

A Goodyear for your car and to suit your pocketbook, we have it. Let us show you.

Beautiful line of hand-made baby dresses and boys' wash suits from 1 to 7 years of age.

Mr. and Mrs. W. F. Kidd of Mason spent Monday with their daughter, Mrs. E. O. Lowgren, and family.

Mr. and Mrs. E. O. Lowgren and daughter, Edwina, were guests of relatives in Mason Sunday.

Wanted—Truckster to cultivate irrigated farm. Good house and pleasant environment.

Just another good dance at Dismukes Hall, Rocksprings, Friday, March 1. Good music and a good time for all.

Mr. and Mrs. J. A. Browning returned last Saturday from a visit with relatives at Medina.

Miss Laura Lea Hodges spent Sunday in Fredericksburg visiting with relatives and friends.

Messrs. Lester Hodges and J. L. Freeman attended the funeral of Baby Billie Don Moore, son of Mr. and Mrs. Mike Moore, of Sonora, Wednesday.

If you need furniture and don't have the money, remember that we have an easy payment plan.

Judge J. B. Randolph and Commissioners A. B. Hodges and H. W. Bierschwale were business visitors in Austin Monday and Tuesday.

See Junction's pretty young women modeling the new Spring Styles at Texan Theatre Feb. 25, 7:30 p. m., compliments of The Model Shop.

Dedicated to the fair women of Junction and Kimble County The Model Shop Style Show, Feb. 25, 7:30 p. m.

E. A. Loeffler and sister, Miss Selma Loeffler, of Brownwood, returned Wednesday from Alpine where they were guests of Mrs. E. A. Loeffler and sons, Louis and Reuben.

We have just received a shipment of Dining Tables, Dining Chairs, Rocking Chairs, Davenport Tables, Radio Tables, Spinners, Desks, Dressers, Chiffoniers, Footstools and Rugs. Come in and look over our stock.

Mr. and Mrs. G. B. Baker of Sonora were Junction visitors Tuesday. They have been reading the Eagle a long time and called and renewed while in our city. The manager of the Eagle was glad to form the acquaintance of these good people.

We have a complete stock of Bed Springs, Mattresses, Feather Pillows, Cotton Pillows, Blankets and Comforts. Our prices are right.

LOST—Ladies tan felt hat Friday of last week between Junction and Schreiner. Reserve on the Rocksprings road. Return to Telegraph store or Eagle office.

Mrs. Laura Burleson Negley of San Antonio, one of two women members of the House, expressed satisfaction when Governor Moody approved and filed House Bill 59 fixing the rights of married women as to income from their separate property. Mrs. Negley, who is joint author of the bill, which became effective immediately after approval by the Governor, is a daughter of A. S. Burleson of Austin, Postmaster General in President Woodrow Wilson's Cabinet.

God helps you when you are willing to take him into your life.

Messdames B. B. Ragland, Geo. Cavaness, Clarence Jetton and little son and Mildred Cavaness left Thursday for a visit with relatives in Nixon.

Mr. J. C. Baker of Camp Allison was in Junction Thursday and added his name to our growing subscription list. Mr. Baker spent three days with his brother-in-law, W. B. Arnold, while he was confined to his bed from injuries sustained in a wreck while driving his truck.

Mr. W. T. Bishop of Segovia is suffering from an ugly wound on his hand received when he was bitten by a hog while trying to load it yesterday. A blood vessel was severed from which he lost considerable blood before reaching town where the wound was dressed.

Mr. W. P. Riley, president of the Junction State Bank, and Mrs. Riley returned Tuesday from the district bankers' convention which met in San Antonio last Thursday. After the convention had closed the flying squadron made a trip into Old Mexico. A special train carried the bankers to Monterey where they had a great time. Of course the bankers were studying banking problems.

Dr. Jones, the eye man, in Dr. Luehrs' office Friday, February 22. See him about your eyes and glasses.

Buy your candy and cakes from the Baptist ladies at the Awbrey-Bell Drug Co. every Saturday.

For candy and cakes visit the Awbrey-Bell Drug Co. every Saturday.

You want your land abstracted; then you had better see E. Holekamp; he has complete index of all County lands. (adv)

Highway Commission Refuses Road Aid

County Judge J. B. Randolph and commissioners A. B. Hodges and H. W. Bierschwale returned Tuesday from Austin where they appeared before the highway commission hoping to interest the commission in assisting with the road from Noxville to Segovia, for which the people of that district voted bonds several months ago. Members of the court did not receive much encouragement.

At a meeting of the directors of the Kimble County Chamber of Commerce Wednesday afternoon at which members of the City Council and members of the Commissioners' Court were present, it seemed to be the consensus of opinion of all present that the court should advertise for bids as soon as some surveys can be made. This is a road that is needed and it is hoped that that road can be built at an early date. If the present highway commission does not see its way open to assist in building this road, it is believed that a subsequent commission will render assistance. This road will connect a gap between Fredericksburg and Junction in a very important road from Houston to El Paso.

NEGRO HOUSE BURNS

A house said to belong to W. G. Andrews and occupied by Joe Vontell, colored, burned at noon today. Vontell's wife had dinner nearly prepared when the flames broke out in the ceiling or roof.

The fire department made a quick run, but the fire had gained considerable headway before the alarm was turned in. The negroes lost all their household goods.

Don't try to hide the good that's in you—it can't be done.

C. B. Hudspeth Aids Cat and Wolf Club

Mr. H. W. Bierschwale, secretary of the Kimble County Chamber of Commerce and also the Wolf and Cat Club has received the following letter from Congressman C. B. Hudspeth, Junction, Texas.

My dear Mr. Bierschwale: I notice, in the Junction Eagle, the splendid work that your wolf club has done in eradicating predatory animals. Wish to state that I have now gotten the Secretary of Agriculture to recommend the ten-year program with an increased appropriation from \$600,000 a year to \$1,000,000 a year, for the Federal Government's part in destroying predatory animals.

"I believe by adopting this program, which I am sure Congress will do at its next session, we can eradicate predatory animals and other pests that prey upon the live stock and destroy crops. Wish to assure you that I shall be glad to co-operate in any way possible.

Very sincerely yours,
C. B. Hudspeth."

MISSIONARY SOCIETY

Tuesday afternoon the members of the Methodist Women's Missionary Society met at the church when an educational meeting was held. Mrs. Sanford Row was the program leader. The subject was, "Making Home the Center." The following discussions were made: "Value and Purpose of Home"—Mrs. Milton F. Hill. "The Home Distinctive"—Mrs. Joe Bissett. "Home Council"—Mrs. Willie Ragland. "Today's Review of Character"—Mrs. E. R. Borden. "Voice Exercises"—Mrs. W. M. Taylor and Mrs. G. M. House.

Others taking part in the program were Messdames Geo. Cavaness and Ada Dockery. A business meeting was held after the program. The next meeting will be held on Tuesday afternoon, March 5.

ATTENTION

School Notes

Friday afternoon the girls' and boys' basketball teams of Schreiner High School went to Kerrville and played the girls' and boys' teams of Tivy High. The Tivy girls started the game as if they were determined to win, but the Junction girls soon broke that determination and won the game 39-21. The Tivy girls had improved wonderfully since the game on Junction's court. In spite of their improvement and their playing in the Tivy gymnasium, the Junction girls showed their usual ability in winning. The girls as yet have a perfect record. Games with Comfort and Fredericksburg have been matched and will be played at Kerrville soon.

The Junction boys were defeated by the Tivy boys 37-12. At the end of the first quarter our boys were outplaying the Tivy boys, but during the second and remaining quarters a large number of fouls were called on the Junction boys, consequently Tivy's score gradually increased. Our boys played a wonderful game considering circumstances. The boys were to play London Tuesday night, but the game was postponed on account of the cold weather.

The high school pupils were exceedingly pleased Tuesday morning with Mr. Cowles' announcement of a holiday Friday commemorating Washington's birthday.

We were very glad to see Mrs. Dutton back at school Friday after an absence of three days on account of illness.

The students of the high school have been having spelling lessons, in order to prepare themselves for entering the spelling contest at the Inter-scholastic League Meet in April. Mrs. Kendrick, who has charge of the Declamation this year, says there are fourteen Juniors and five Seniors entering. Mrs. Feips, who has charge of essay writing, states that only one person has entered, so far, but she is hoping for some more contestants.

Dr. J. Holt was secured by the Parent-Teachers' Association to examine the teeth of the pupils of Junction Public School. He conducted the examinations the latter part of last week and the first part of this week. Mrs. Walter Tinsley and Mrs. Dewitt Cowsett assisted Dr. Smith.

When a Fellow Needs a Friend:
When there's a "pop test."
When the Inspector comes.
When the teacher is grouchy.
When we forget our excuses.
When we have to write an essay in Baconian style.
When we have to give a book report.

When selection from Chaucer must be memorized.

When school "keeps" on April Fool.

When we get caught with a note.

There are some girls in this school so modest that they won't do improper fractions.

Information wanted: Which kind of paint do the girls of this school prefer—Sherwin-Williams or Lincoln's Climatic?

Mrs. Dutton (in Social Science Class): "Who can name one important thing we have now that we didn't have one hundred years ago?"

Russell, "Me."

Mary, "Say, who wrote the most—Dickens, Warren or Bul-

wer Lytton?"
Louie: "I couldn't tell you; who did?"
Mary: "Why, Dickens, of course."
Louie: "How do you know that?"

Mary: "Why, Warren wrote 'Now and Then'; Bulwer Lytton wrote 'Night and Morning'; but Dickens wrote 'All the year around.' He was a bad penman, though, because he wrote all of a twist (Oliver Twist)."

BAPTIST NEWS

Sunday School at 10 a. m.
Preaching at 11 a. m. and 7:30 p. m.

Ladies will meet Tuesday at 3:30 at the pastor's home.

The attention of Baptists in particular and the public in general is called to the formal opening of the new Baptist Church, March 17. We are hoping that our friends from other denominations will make arrangements to attend and rejoice with us.

A cordial invitation is extended to all to be present.

More than 2,000 acres of date palms have been planted in California and Arizona since 1900.

EL PASO GIRL KILLED WHILE TAKING BATH

El Paso.—Gladys Carbine, 12-year-old daughter of Mr. and Mrs. E. W. Carbine, was electrocuted and instantly killed late Saturday when one of her small brothers threw a connected electric light socket into a bath tub full of water in which she was bathing.

Texas as a Republic and as a state has had eight capitals—Washington (on the Brazos), Harrisburg, Galveston, Velasco, Quintana, Columbia, Houston, and Austin. Galveston, Velasco and Quintana were the capitals for brief periods during the approach of Santa Anna's army.

Rummaging among a pile of old books, a New York man stumbled upon something unusual. It was not Lon Chaney, but a rare copy of Edgar Allan Poe's "The Murders in the Rue Morgue." It was sold for \$25,000. The original owner bought it 80 years ago for 12 cents.

Charles Blagg of Nottingham England, was fined because his son put water in a pail from which a cow had kicked part of the milk.

Fuel system of the new Ford has been designed for reliability and long service

THE practical value of Ford simplicity of design is especially apparent in the fuel system.

The gasoline tank is built integral with the cowl and is unusually sturdy because it is made of heavy sheet steel,terne plated to prevent rust or corrosion. An additional factor of strength is the fact that it is composed of only two pieces, instead of three or four, and is electrically welded—not soldered.

Because of the location of the tank, the entire flow of gasoline is an even, natural flow—following the natural law of gravity. This is the simplest and most direct way of supplying gasoline to the carburetor without variations in pressure. The gasoline feed pipe of the new Ford is only 18 inches long and is easily accessible all the way.

The gasoline passes from the tank to the carburetor through a filter or sediment bulb mounted on the steel dash which separates the gasoline tank from the engine.

The carburetor is specially designed and has been built to deliver many thousands of miles of good service.

Since all adjustments are fixed except the needle valve and idler, there is practically nothing to get out of order.

The choke rod on the dash acts as a primer and also as a regulator of your gasoline mixture. The new hot spot manifold insures complete vaporization of the gasoline before it enters the combustion chamber of the engine.

As a matter of fact, the fuel system of the new Ford is so simple in design and so carefully made that it requires very little service attention.

The filter or sediment bulb should be cleaned at regular intervals and the carburetor screen removed and washed in gasoline. Occasionally the drain plug at the bottom of the carburetor should be removed and the carburetor drained for a few seconds.

Have your Ford dealer look after these important little details for you when you have the car oiled and greased. A thorough, periodic checking-up costs little, but it has a great deal to do with long life and continuously good performance.

PHILIP JOSEPH

BEN C. DRAGOO DIES

Drawing back the veil of darkness and forgetfulness which time spreads over romantic and glorious history, the daring life of the pioneer rangers of Texas is revealed. With the death of Benjamin Crawford Dragoo last Monday, one of the most spectacular and daring pioneers of the early Texas passes on. Mr. Dragoo died at the home of his daughter, Mrs. Dan Gebhart, at London, Texas, last Monday. He was 94 years old when death came.

History

Benjamin Crawford Dragoo was born in Washington County, Illinois, December 9, 1835. He came with his parents to Texas when he was three years old. His father first settled in Blossom Prairie in Red River County, and a year later moved to what is now Titus County, four miles from where Mount Pleasant now stands. Shortly after locating at this place, the Indians became so troublesome that the father moved his family to Fort Sherman where the people had erected a block house and palisades for protection.

Mr. Dragoo said that when a small boy, he often played with Cynthia Ann Parker and lived only eight miles away when they attacked the Fort. He ordered the Parker family and carrying Cynthia Ann into captivity.

Personal Experiences

Relating some of the experiences which he underwent as a Ranger Mr. Dragoo said:

"In 1855 I joined John R. Baylor's company of rangers. While stationed at Cottonwood Creek, our scouts brought in word that they had discovered a large body of Indians passing up the country with a herd of horses. About 40 of us under Captains Baylor, Dalrymple and Ross, were soon in the saddle and we were not long finding the Indians' trail. The Indians must have known that the rangers were in the country for they traveled for dear life. We followed them day and night until we overtook them in some very brushy country and when we charged every red skin scoundrel took to the brush and got away. We captured about all the horses, some 60 head, which we took back to Belknap and delivered to their lawful owners."

"After my enlistment period expired, I returned to my home, which was six miles east of Waco village, as it was called in those days. In a short time Captain Sul Ross came to see me. He was organizing a company to chastise the Comanches who had been committing murders and depredations along the frontier, and he told me that he needed me and that I must join his company. I told him that I was ready to start any day and that my younger brother, Jim Dragoo, would also join his company. The company went from Waco to a point where Fort Griffin was afterwards built. F. M. Cassidy, who now lives at Llano, was in our company. While in camp at the point mentioned, word was brought that the Indians had made a raid in Parker County and were on their way

out. They were driving out about 75 head of horses and had killed several people. They had taken captive two girls and a boy. The girls were about grown, and the boy was 8 or 9 years old. After being kept all night and being fiendishly outraged by these inhuman monsters, one of the girls was murdered; the other girl was subjected to the same brutality, only she was not killed. As if the savages wanted the settlers to know of the atrocities they were capable of inflicting, they stripped every vestige of clothing from this girl and turned her loose. She made her way back to the settlements, reaching a frontier cabin almost famished. She concealed herself in bushes near the spring and saw a man pass near once or twice, but her modesty overcame her extreme suffering and forbade her calling to him. At length a woman came to the spring for water and the girl called to her. This lady removed part of her underwear and clad in this, the girl was led to the house. Of the boy, whom the Indians had captured, we never heard more.

"When the news of this raid reached our camp, most of us were out on duty. I and seven others, under Lieutenant Callahan, the gallant ranger for whom Callahan County was named, had been out on a nine days chase and for seven days of this period we had been without practically any food. Orders soon came for us to take the trail and without taking time to change horses or to get a bite of grub, we lit out after those savages, with a man by the name of Gray and I in the lead as trailers. We soon struck the trail at the hay camp and pushed on until evening, when one of the boys killed a deer which we cut up into chunks and each man rode forward with one or more of these chunks tied on behind his saddle. When night came, we continued the pursuit until a late hour, when we halted in order to give our horses a brief rest and a chance to graze. We were not allowed to build a fire as the Indians would see the light. We had to eat our meat raw. After a few hours rest we hastened forward and kept up the chase for six days. The second evening out we halted on the banks of a creek where there were five or six large cottonwood trees. Here the Indians had camped and the signs showed that there was a large body of Indians. They had killed and barbecued a horse and the fires were yet smoldering. The grass in that vicinity had been eaten off by the buffalo and we had to cut branches from the Cottonwood trees for our worn out horses. The place had evidently been a battle ground. We found a number of skulls and other human bones which bore the appearance of having lain on the ground a long time. Old fragments of leather from saddles were picked up and I found the bit of what had once been a part of a fine Mexican bridle. The skulls were those of Indians

or Mexicans, at least that was our conclusion.

Six days and nights, I might say, we followed this trail. The third day we killed a buffalo and this we ate raw. On the sixth day, far up in the Pease River country, we saw a mot of small trees far ahead of us. This mot was on a high elevation, and I saw a bunch of men ride into the mot. We halted until the command came up and we reported our observations to Callahan.

"With the utmost caution we continued our advance, bearing off to the left where Grey and I ascended an eminence from the summit of which we looked over into a valley and beheld a large body of Indians, well mounted and apparently lying in wait for us. All at once the Indians began pouring over the ridge west of us. There were at least 200 Indians. They gave some fiendish yells as they dashed toward us on freshly mounted horses, while only nine of us had horses that were not exhausted. Our chase was now at an end and instead of us being the pursuers, we were pursued for six days. In fact, it was the next thing to a running fight all the way back to Belknap. Lieutenant Callahan, one of the bravest of the brave, told us to keep close together and to never fire without orders. The Indians would charge us more or less each day, but would never come to close quarters. They would seek to ambush us and to block our way where the country was favorable, but would always scatter or give back when we crowded them. At night we had very little rest and no food and the last two days of our journey, our suffering from hunger and thirst became almost unbearable.

Our horses were weak and our progress was very slow. The Indians knew all of this and if they had made a bold attack could have killed every one of us but they were too cowardly. In this condition we reached Fort Belknap, the place from whence we had started twelve days before, making in all twenty-one days in the saddle, and had, during this time, nothing to eat but raw venison and buffalo meat."

A Kimble County Pioneer
Uncle Ben Dragoo lived a large portion of his life in Kimble County, living for many years in the Little Saline country, near London. He is truly one of Kimble's most noted pioneers. His wife died September 10, 1925. Her age was 78 years. She was buried at Christoval, Texas. He has five sons and two daughters living in various parts of Texas.

All these old pioneers will soon have passed from this stage of action to a place where Indian wars and other struggles are unknown, but after they have passed away, a permanent monument in memory of them shall be stamped indelibly on Texas people and also upon the minds of the posterity of Texas so long as Texas shall continue to stand.

Abstracts for your lands can be secured on short notice from E. Holekamp; 25 years in business; we know how. (adv)

OLD DOC BIRD SAYS

'TIS SAUSAGE TIME

We are willing to wager a bet that there isn't a man in town who wouldn't appreciate our good home-made sausage for breakfast tomorrow morning.

We would be taking in too much territory if we said our sausage was the best made, but we do know that it is as good as the best and better than most.

CITY MARKET

FORREST J. WELDON, Proprietor

Market Your Wool and Mohair with the Junction Cattle Loan Company

Our experience enables us to obtain the highest market price for wool and mohair, and when sold prompt shipments are made, insuring the grower his sales without delay.

The public generally is invited to visit our new Ware House and thoroughly acquaint itself with our facilities in the handling of Wool and Mohair.

Junction Trade Notes

Mrs. Marietta Cooner, representing San Antonio Coffee Co., will demonstrate "All Gold" coffee at Gann Grocery Company on Saturday this week. At the same time the Brown Cracker Co. will serve products of its factory. The public is invited to have coffee and cake, without cost or obligation.

Mrs. Dee Gibbs and Mrs. Leonard Gibbs were in town Monday buying a few items of merchandise for ranch comfort, including seed potatoes. The senior Mrs. Gibbs has been laying and ranch life is finding out many attractions.

Geo. G. Murray, vice-president Standard Trust Co. of San Antonio, visited Junction Saturday, accompanied by Mrs. Murray. Mr. Murray is attracted to Junction nearly every month of the year, and especially during the fishing season.

"Yellow Dent" seed corn received this week; seed potatoes and Crystal Wax onion plants in stock. Gann Grocery Company.

Edgar McLendon has sown his spring oats and is ready for a rain. His field is at the rear of the Eagle office.

The public should take notice that the bank and postoffice will observe Washington's birthday this Friday, Feb. 22, and adjust its affairs accordingly.

In stock: Tinkle's real country sorghum syrup, manufactured on the Tinkle farm in Runnels county. Gann Grocery Company.

Mexicans over the Rio Grande can deliver shelled pecans into Texas at a price which Texas growers and shellers cannot compete with. It was recently noted that 44,000 lbs. shelled pecans were imported through Eagle Pass, and the incident calls to mind what the general importation of pecans from Mexico might mean to Texas growers, unless the import duty is employed to meet it. The present import duty on shelled pecans is only 6c lb.

W. J. Millican, proprietor of River Band Farm in San Saba county, states that now is the time to cut and store pecan buds for this year's budding material and for setting young trees. Kimble county citizens and Junction home-owners in particular should be encouraged to set pecan trees in their fields and gardens and home lawns. There is no more beautiful shade tree known to the world than a well developed pecan tree, and with ample water it becomes just as quick growth for shade purposes as other less valued trees.

Baby chick starting food: chick scratch, egg mash, everything for the poultry yard. Gann Grocery Company.

A cattle branding law that has been on the Texas statutes since 1848 will be repealed if the governor signs a bill passed at this session. The bill in the Senate by Senator Walter Woodward of Coleman and in the House by Representative Coke Stevenson of Junction would repeal the law requiring that livestock brands be recorded in order that they may be recognized as evidence of ownership in court.

"Everybody's Store"

WEATHER REPORT

Following a norther last Friday the thermometer soared until Sunday and Monday were real spring days. Another norther blew up early Tuesday morning and Tuesday and up until noon Wednesday was cold. Light showers fell Tuesday night and until two o'clock Wednesday afternoon when the sun came out and the sun is shining again. The rain was not enough to put the needed moisture in the ground.

Fine shears and scissors are made almost entirely by hand. A great deal of labor is required in grinding and polishing, and in fitting one blade to the other.

A fruit-tree is known by its bent-down limbs of fruit.

NOTICE OF ELECTION

THE STATE OF TEXAS,
CITY OF JUNCTION,
COUNTY OF KIMBLE:

Whereas, the City Council of the City of Junction, Texas, deems it advisable to issue the bonds of the said City for the purpose hereinafter mentioned:

Therefore, be it ordered by the City Council of the City of Junction, Texas, that an election be held on the 19th day of March, 1929, at which election the following propositions shall be submitted:

"Shall the City Council of the City of Junction, Texas, be authorized to issue the bonds of the City of Junction, Texas, in the sum of \$45,000.00, and \$15,000.00, respectively, (Forty-five Thousand Dollars for the purpose of construction of sewers, and Fifteen Thousand Dollars for the purpose of Street paving), payable serially within any given number of years not to exceed forty years from the date thereof, bearing interest at the rate of not to exceed Six Per Cent (6%) per annum, payable semi-annually, and to levy taxes sufficient to pay the bonds at maturity, said \$45,000.00 bonds being issued for the purpose of construction of Sewers, and \$15,000.00 bonds being issued for the purpose of Street paving, within and for said City, as authorized by the Constitution and General Laws of the State of Texas, particularly Chapters 1 and 7, Title 22, Revised Statutes, 1925."

The said election shall be held at the Court House in the City of Junction, Texas, and the following named persons are hereby appointed managers of said election, to-wit:

Chris Schraub, Alton Miller, D. P. Taylor, W. B. Buster, and Clifford Hamer; and the said Chris Schraub shall be presiding judge, and the said Alton Miller and W. B. Buster shall be judges, and the said D. P. Taylor and Clifford Hamer shall be clerks at said election.

The said election shall be held under the provisions of the Constitution and Laws of the State of Texas, and only qualified

Herman Kenner of Chicago landed in jail for stealing a wedding ring for his intended bride.

voters who are property taxpayers of said City shall be allowed to vote.

All voters desiring to support the proposition for the issuance of Sewer bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF SEWER BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF SEWER BONDS."

And all voters desiring to support the proposition for the issuance of Street paving bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF STREET PAVING BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF STREET PAVING BONDS."

The manner of holding said election shall be governed by the laws of the State governing General Elections.

A copy of this order, signed by the Mayor of the City of Junction, and attested by the City Secretary of said City, shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause said notice of election to be posted at the Court House (the place designated for holding said election) and at two other public places in the City of Junction, all of said notices to be posted for at least thirty (30) full days prior to the date of election.

The Mayor is further authorized and directed to have said notice of election published in the Junction Eagle, a newspaper of general circulation, published in said City, and which notice shall be published once each week for five weeks, the date of the first publication to be not less than thirty (30) full days prior to the date of election.

Passed and approved on this the 12th day of February, 1929.

E. HOLEKAMP,

Mayor, City of Junction, Texas.

Attest:

JOHN S. MUNN,

City Secretary.

The three principal Texas crops in 1928, in the order of their value, were cotton, cotton seed and corn.

County News

SYCAMORE SAYINGS

The last cold snap was detrimental to stock. We had quite a heavy freeze and sleet, and some snow.

Mrs. Edwin Joy and brother, Mr. Wes Freeman and wife of San Antonio were guests of their mother, Mrs. Freeman, last week.

Messrs. Melvin and Taylor Hull and families were shopping in Junction Saturday.

Mr. Noah Thorp returned home Saturday from A. Woods, after finishing work on his new house.

Mr. and Mrs. A. Miller were visitors to Junction Monday. On returning were callers at the F. M. Hodges home.

Mr. Allen Hull and family were visitors to relatives Sunday on Sycamore.

Lane Hodges is working in Junction the past week for his uncle, J. N. Hodges, in the garage.

Mr. Avery Stewart and family were guests at the Noah Thorp home Sunday afternoon.

Jim R. Hodges and wife were shopping in Junction Tuesday. Jim was consulting the doctor in regard to a lame limb he had been suffering with for several days.

Mr. Johnnie Freeman is sporting a brand new Chevrolet. Congratulations, Johnnie.

Our school is progressing nicely.

Mrs. Orville Keyes and little daughter were pleasant callers at the F. M. Hodges ranch home recently.

Mr. O. Keyes with Anson Baldwin made a trip to Kerrville recently for a load of net wire and supplies.

The health of our community is fine at present we are glad to report.

The stockmen are making preparations for the shearing season.

NEW SKATING RINK WILL OPEN HERE

A new skating rink about two miles east of town on the O. S. T. Highway will be opened soon according to reports received from the Taylor Bros. who are putting up the new rink. The rink will have a maple wood floor. A dining hall which will specialize in Mexican dishes will be opened in conjunction with the rink. Construction is going forward rapidly on the large building.

\$750.00 REWARD

will be paid for any information leading to conviction of party or parties found guilty of the theft of our sheep or goats. Goats and sheep are fire branded F6 on left side of

body. Brand plainly visible when animal is shorn. Ear marks are over half crop the right and underslope the left. Other sheep mark is swallow-fork one ear and underbit the other. Wool brand F. G. W. Farmer & Sons.

SPRING Is Coming

It is a pleasure to work in the yard and garden when you have good tools.

You can buy any tool for the yard or garden at our store. A full line of hardware is carried at all times.

Let us service your car in our well equipped garage.
