BOY SHOT IN ATTEMPTED ROBBERY

GAINESVILLE OFFICER OPENS FIRE ON YOUTH FLEEING FROM STORE; ACCOMPLICE ARRESTED

(By The Associated Press) GAINESVILLE, Feb. 8.—A 15-year-old boy was shot through the right shoulder and chin here today as he fled from a saddle shop which officers said he was attempting to rob, and his companion, 16, was arrested a few minutes later as he sat in an automobile near the shop. The youths said they were from Oklahoma City and declared they had stolen the small roadster in which they were riding, in that city.

LATE BULLETINS

(By Associated Press)

Hassell Must Die

AUSTIN, Feb. 8.—Gov. Dan Moody today refused to commute the death sentence assessed George J. Hassell, confessed killer of 13 persons, scheduled to go to the electric chair early Friday.

Report of two physicians, heads of state insane asylums, that Hassell can distinguish right from wrong was basis for the governor's action. They examined Hassell in his penitentiary death cell Tuesday.

Receiver Resigns

WASHINGTON, Feb. 8.—W. R. Compton, resigned today as receiver of the Kansas City Joint Stock Land bank and H. M. Longworth of Kansas City was appointed as his successor.

Hassell Report

AUSTIN, Feb. 8.—A definite report of the opinion as to the mental condition of George J. Hassell, confessed slayer of 13 persons, scheduled for electrocution early Friday, was made to Governor Moody Wednesday by two state insane asylum superintendents.

The governor declined to announce the findings of the physicians—Dr. W. J. Johnson, superintendent of the San Antonio state insane hospital and Dr. C. K. Standefer of the Austin institution. He will make some disposition later of Hassell's appeal for clemency.

State's Suits

AUSTIN, Feb. 8.—The second of two state suits, filed by Governor Dan Moody when he was attorney general, attacking constitutionality of the state highway act, must be tried in Travis county district court, as the result of a ruling of the third court of civil appeals Wednesday.

The court denied the plea of I. G. Yates of Pecos and others for trial in their home counties, affirming the district court ruling that the case must be tried here. No further appeal can be taken.

Methodist Meet

SAN ANTONIO, Feb. 8.—A central conference for Mexican Methodists was formed here today at a meeting of churchmen presided over by W. B. Beauchamp, of Atlanta, Ga., bishop of the Methodist Episcopal Church, South.

About thirty churchmen from Mexico conference, the Texas and the western Mexican missions were present. Publication of more religious literature in Spanish was discussed at the meeting.

Highway Muddle

AUSTIN, Feb. 8.—The Supreme Court will decide the question as to whether the state highway commission has a right to relocate a highway previously designated.

Writ of error from appellate court decision Wednesday was granted J. M. Heathman and others, seeking an injunction to restrain the Walker county commissioners court from changing the designation of highway No. 19.

Fliers Are Lost

WASHINGTON, Feb. 8.—In the absence of reports of the whereabouts of the French aviators, Costes and Lebrun, in their flight from Montgomery to Washington, Bolling field officials decided to send out a coyote of mine army planes this afternoon to cruise in the vicinity of Fort Humphreys, Va., on the chance that the visiting airmen will pass that point.

In the meantime, details of soldiers from Fort Meyer, Va., and Washington barracks stood on parade at the field here in anticipation of the arrival of the airmen while an army band played near by.

A committee will be appointed from the Lubbock Chamber of Commerce to help welcome the visitors on the train and officials of the Technological college, the home demonstration agent, the county agent and others are to do everything possible to cooperate with the officials sponsoring the exhibit.

FIVE ARRESTED IN BOOZE CASE STILL IN JAIL

GRANDJURY WILL TAKE TESTIMONY TODAY, OFFICIALS SAY

With formal charges yet to be filed as officials await the action of the grand jury now in session, five men, all under the age of 30 years, are being held in the county jail today as a result of the activities of the city and county officers here last night. Carefully looked away in a secluded spot in the court house, are 12 pint bottles of corn whiskey and a half gallon jug of the same concoction.

YOUTHS ARRESTED

Three youths, jailed by city officers as they attempted to force an entrance into the office of the Palace theater last night, and a fourth, picked up this morning in connection with the same case, were taken before the grand jury for testimony shortly before noon today. The latter range in age from 12 to 16 years. Officials believe that the boy will be able to give the jury other information, dealing with law violations in the city.

Deputy Sheriffs Vernice Ford and Cap Moore, Motorcycle Patrolman Howard Kiene and Night Police Chief H. H. Bailey arrested the five men last night after cruising the city in two different cars. Three of the five fell into the net as they drove a borrowed coupe along East Broadway near Avenue G, about 8 o'clock. The other two were picked up two hours later by Deputy Ford as they were resting in a local saloon.

Sedition Propaganda

Perez was charged with carrying on seditious propaganda for some time past at Yoshio ranch near Salamanca buying arms and ammunition and urging the peasants to revolt. He finally succeeded in gathering some 300 persons from neighboring ranches about his place. They took the field Saturday, shouting: "Long live Christ, the King." Telephone and telegraph lines were cut by them and the railroad line destroyed. They launched their attack on Salamanca shortly after midnight Sunday.

TRIAL COURT'S CHARGE GIVEN IN ERROR, HELD

C. A. PIERCE APPEAL ON PRO LAW CHARGE IS DISMISSED

(By Associated Press) AUSTIN, Feb. 8.—Finding error in the trial court's charge, the Court of Criminal Appeals Wednesday reversed the case of J. R. Germany, sentenced to five years from Lubbock county for alleged misapplication of public funds.

Part of Germany's appeal rested on the contention that he was not tax collector of the city of Lubbock as charged by the state. This phrase was not disposed of, however.

The court affirmed the cases of: Fred Davis, Haic county, murder, 99 years, for the slaying April 10, 1927, of M. C. Palmer; and Eldredge Perkins, San Jacinto county, murder, 25 years, for the killing of Mike Huerta, November 14, 1926.

The court declined to uphold the contention of Jess Evans, seeking habeas corpus release from a Franklin county fine assessed for violation of tick eradication laws, that the statutes in question are unconstitutional.

Booker Kyle, under a murder charge for the shooting of Rosetta Evans in Tyler county, was denied bonds as he was in trial court.

Convicted Here Last April Term

Germany was indicted on charges of misappropriation of public funds while serving as city secretary here. A jury in the 99th district court in the April term last year gave him a sentence of five years. Several cases were filed against him.

Mrs. Hilburn Dies In Ft. Worth Home

Mrs. Fannie Overall Hilburn, mother of Marvin B. Hilburn, operator of a commercial printing establishment here, died at her home in Fort Worth this morning, friends of the family said today.

Mr. Hilburn, accompanied by his wife, left for Fort Worth last night after being advised of his mother's sudden illness. The deceased resided at 2821 Avenue F, Fort Worth.

MANY SLAIN IN CHINESE RAID

(By Associated Press) HONGKONG, Feb. 8.—The American Presbyterian mission at Hoihow, Hainan island, was informed today that 300 merchants and a Chinese missionary and his family had been murdered by red pirates on the southeast coast of the island.

The slain Chinese Christian minister was a member of the Hoihow mission and was murdered at Mancheung on the coast north of Lingshui.

In the attack on Lingshui, 300 merchants and shop keepers were slain. The town was looted and partly burned. Merchandise was carried off in large quantities.

Several men were kidnapped and it is believed the gang of pirates took them for recruits.

Snow Storms Take Big Toll In Japan

(By Associated Press) TOKYO, Feb. 8.—Violent snow storms in the north of Japan have caused a number of deaths, damage to shipping and a general disruption of communications. The wrecks along the coast today included eight motor boats which were capsized off Hokaido island. The bodies of thirteen fishermen were washed ashore. Many others are believed to have drowned.

GOES ON TRIAL

Governor Ed Jackson, (top) of Indiana, went on trial in Indianapolis today, charged with offering a bribe of \$10,000 to Warren T. McCray, (below) who was then governor. McCray has since served a prison sentence on a charge of using the mails to defraud.

U. S. WAR TALK WITH ENGLAND IS HELD SILLY

(By Associated Press) LONDON, Feb. 8.—Sir Austen Chamberlain declared in the House of Commons today that war with America was unthinkable and that the prospect of war with America had never been, and never would be the basis of British policy.

The foreign minister was discussing arbitration. British ship building, he said, was not competitive, and Great Britain's programs were framed only with a view to necessary protection of British interests.

Aged Man Held In Slaying Of Rival

(By Associated Press) MARISTIQUE, Mich., Feb. 8.—Joseph Smithers, 63-year-old farmer, is held here on a charge of attempted murder of a rival for the affections of 17-year-old Gertrude Monroe.

Arrested yesterday, Smithers, who said he had been engaged to the girl for two years but that lately she had spurned his attention, denied the charge. He was bound over to the next term of court without bond. He is accused of sending poisoned candy to George McCastle, 23, another admirer of Miss Monroe.

McCastle and three other persons were poisoned but recovered. Smithers operates a farm adjoining one owned by Miss Monroe's parents here and has resided there for more than 45 years. He is a widower, his wife having died 35 years ago.

SOONER JUDGE AVERS CHARGE POLITICAL ACT

DENIES KNOWLEDGE OF CASE AND SAYS HE WAS DUMFOUNDED

(By Associated Press) OKLAHOMA CITY, Feb. 8.—County Judge James C. Mathers, Jr., of Love county, under larceny charge with County Attorney Wes Croy in connection with alleged appropriation of a portion of the loot they recovered after robbery of the Love County National bank, feels that the charge was inspired by politics, he said today in a long distance telephone conversation.

"I was dumfounded when the charge was filed against me," the youthful cowboy-jurist said. "I don't know a thing in the world about it. I just kind of feel that it is a political matter."

Can't Explain Situation Judge Mathers said he could not explain the political connection that he feels exists.

"I have taken no part in Klan or anti-Klan politics for several years," he said.

Asked if he intended to resign, Judge Mathers said: "I don't think I will. I haven't done anything that would justify my resignation. I feel that everything will come out all right."

Admits Finding Money Judge Mathers admitted that he and Croy took Claude Andrews, one of the confessed participants in the bank robbery at Marietta to the spot where at least a portion of the bank loot was buried. Of the \$6,300 taken from the bank, Judge Mathers and Croy returned \$3,175 to the bank.

Like Croy, Judge Mathers asserted that he did not count the money in the bag, but returned it intact to the bank.

Both officers are at liberty on bond of \$5,000 each. Their preliminary hearing has been set for February 20.

Hancock Convicted In Grove Bank Raid

(By Associated Press) GATESVILLE, Feb. 8.—Joe Hancock today was found guilty of robbery in connection with the hold-up of the Grove State bank of Nov. 2, 1927, and was sentenced to 47 years in the state penitentiary.

PROSPECTS IN TEXAS BRIGHT

(By Associated Press) ST. LOUIS, Feb. 8.—The south and southwest, especially Texas, is facing what gives every promise of being its most successful year, L. W. Baldwin, president of the Missouri Pacific lines, said here today.

While the Missouri Pacific lines showed a loss of revenue through greatly diminished loadings, this does not indicate an unsound business condition, for a great portion of this loss was occasioned by the Mississippi valley flood last spring, Mr. Baldwin said. The depression incident to this disaster is only temporary, and soon will be overcome.

Texas Outlook Good "The outlook for Texas is especially good," Mr. Baldwin said. "Thousands of home seekers are pouring into south Texas, buying land that is still in the brush and building new homes and producing tonnage at a rate undreamed of even four years ago. In the lower Rio Grande valley shipments are considerably greater than they were this time last year and the country is by no means fully developed. Upward of a thousand home seekers are visiting that section every week."

ADMITS KILLING

Charles Edwards, 25, is said to have confessed that he killed Sherman Thompson, a friend, at Eufala, Okla., last December, so he could marry Thompson's wife and collect \$20,000 insurance. He was arrested when he appeared with the money to buy a farm.

SHOWER IS HELD

Friends of Mrs. Paul Sparkman, nee Alicia Brown, enjoyed with her an elaborate shower given in her home at Mrs. E. R. Rutledge and Mrs. F. L. Robbins at the latter's home Monday afternoon from four to six o'clock.

The entertainment feature of the afternoon was a miniature wedding staged for the children of the preschool age. Proceeding the ceremony, Billy Mary Stanton sang "I Love You Truly," accompanied by Mrs. Robbins. Cara Mae Robbins, the bride, was attended by Maurine Winfrey, the groom, Jack Rutledge, had Billy Rutherford as his best man, Janice Robertson was train bearer, Patsy Rutherford was flower girl, and Alma Lee Burkholder was ring bearer. Wayland Taylor officiated with the ring ceremony. The entire ceremony was halcyon and amusingly staged by these little people. They were attractively dressed in pastel colors.

Many Gifts Received

Immediately following the reception, the bride and groom returned, bearing a huge basket of gifts at the feet of the honor guest, Mrs. Sparkman was the recipient of many many useful handsome gifts as well as sincere good wishes from this group of friends.

Later the noisiness served a salad course. A red and white color scheme was carried out, decorations and favors suggestive of Valentine. Plated favors were baskets ornamented with cupid and hearts.

These presents: Mesdames J. W. Scarborough, J. Frank Smith, Zada Jones, Bill Pass, A. L. Bowman, Charles C. Williams, E. H. Hendricks, R. L. Blasingame, Marj Smith, and Miss Flora Hendrix all of Crosbyton. Mesdames Brown Robertson, E. B. Cures For Everything

Just let one of them cringe the least sign of indignation—castor oil! Should the trout have a tummy ache—a change of diet for him! Or if a catfish scratches a tank mate and a piscine life hangs in the balance here is the decision as to whether an operation is necessary. And when such is undertaken, the presides over the operating room and with deft skill wields the saving scalpel. Miss Melton, you see is diagnostician, physician, surgeon and nurse—all in one.

"I became a fish doctor by accident," this quiet, serious little woman, said. "So far as I know there's no college that gives one a degree in this particular line of work. I came here when I graduated from the Marine University at Wood's Hole, Mass., as an expert in marine zoology.

From Chore to Profession

The director asked me one day to see if I could do anything for a whole tank of listless fish. Strong salts fixed them up beautifully. But the director seemed to think I deserved the credit. So he assigned to me as just an additional chore the job that has become my career.

"There's nothing sicker than a sick fish," asserted Miss Melton. "And nothing hides it less like humans have their indigestion, tuberculosis, pneumonia, cancer, tumors dropsy, and other ailments. Sometimes the eyesight fails them. However, they respond to treatment or die outright much faster than humans."

Each ailment requires its own doctoring according to Miss Melton. There's nothing like a good old-fashioned castor oil for indigestion. And when they look like it any more than children, it is forcible feeding and nothing else that gets it down via a medicine dropper.

Mud Baths, Too

When the skin one loves to touch gets eruptions on it, the old beauty aid of the mud baths fish use again. Last summer a whole tank of hundred of yellow perch had something the matter with their complexion. They were chipped in periods, and then stuck into mud baths for three months. By fall they were all blooming again. Only 50 out of 500 died.

Once in a while a valuable turtle shark, or other fish needs an operation for tumor, cancer or what ails you. As a rule, Miss Melton does not like to operate just to see how life. If it will cure the fish, however, she takes up her knife. She has operated successfully for diabetes as well as tumor, cancer and the like.

In many ways fish resemble humans, she says. They have their own ways of life. They have their own personalities. Some are gay and active, others morose; some make agreeable pets; others are just fish in a tank.

Reciprocates Cold Blood

But Miss Melton is a professional in her attitude towards them. She denies a fish can have personality, but says:

"Work with fish is fascinating from the point of view of science. But it is a mistake to grow fond of fish. I always advise people through my books, lectures and private conversation to take their pet fish with some perspective. It is foolish to lavish affection on them and the silliest thing in the world is a woman weeping over dead goldfish."

"For fish, of all dead, seem the only ones that do not return their owners' affection."

When Women Went Back to the Kitchen

The kitchen, for many years, was the battleground of feminism. The Mid Victorian woman's famous trinity of "church, children and kitchen" gradually gave way before the "attletry" of "Come Out of the Kitchen" and women did come out in ever increasing numbers until the World War and the scarcity of maids sent most of them scurrying back in again.

After all, women concluded, the kitchen was the workshop of the home, but if they could not change conditions, at least they could change the kitchen, which was responsible for the modern slogan, "Color in your kitchen."

Today it is surprising to note the charming decorative effects that can be achieved by adapting the old fashioned gingham aprons of our childhood, into crisp, ruffled aprons or breakfast doilies. If your kitchen seems drab and cheerless, take a stroll thru our Cotton Goods Department. At a trifling cost you can transform it into one of the most charming rooms in your house.

SAN ANTONIO BEARS STRENGTHENED; WICHITA IS PREPARING

HITTERS BRING HIGH HOPES IN BRUIN VILLAGE

HARRY ABLES REACHES OUT AND GETS NEW PLAYING TALENT

(By Associated Press) SAN ANTONIO, Feb. 8.—Harry Ables, president of the San Antonio Texas league baseball club, declared vehemently at the close of the 1927 season that he would rebuild his seventh place team completely. He had kept his promise.

Only a half dozen of last year's regulars are conceded even a chance to stick with the new combination. Having dropped out manager, Honus Mitze, in mid season, the Bears have demoted his successor, Bob Couchman, to the role of coach, and are now preparing to announce a new leader.

Couchman, after 21 years of active service on the hill, has decided to retire as a pitcher.

Hitters Are Plentiful
The weak hitting aggregation of last summer is no more. Ables has retained only those few men he considered worthy of the name "batters" and has either cut them or used in trades all the rest.

Now, with the exception of one or two positions, he has a 300 hitter at every post. In the outfield, according to prospects now, will be Frank (Pug) Griffin, a slinger purchased from Wichita Falls, Lyman (Chief) Nason, another slinger who swings a murderous mace, secured in trade from Les Phipps from Shreveport, and either Leo Najo, the Mexican fly snatcher from the 1927 team, or Chet Giles, a Texas-Kansas rookie who stacked up well in the last weeks of last year's race. Ables may buy one more outfielder.

Grimes to Play First
Oscar Ray Grimes, veteran of fourteen campaigns, secured for Little Rock of the Southern association where he batted 358 for third place in the league, is scheduled to hold down first base. Roy Leslie, who played that position, went to Omaha in a five-for-one trade that brought the Bears Omaha's ace catcher, Frank Meyers.

Frank Philbin probably will play second base again. He was one of the three Bears able to hit over 300 last season.

Ray Flashkamper, one of the best returned by the Chicago White Sox and is a cinch for his position.

Meyers to Catch
This base will be the prize in a three cornered fight between Al Maderal, bought from Shreveport, Jim Battle from Little Rock, and Lynton (Dusty) Boggs from Waco. One of the unsuccessful pair will be retained for utility.

Menidze to Catch
Meyers will do the heavy work behind the bat. Failure of efforts to land Frank Gibson for first string catcher and also team manager left the Bears without an expected backstop, and the club was forced to give Leslie, Jimmy Long, Sep Good, Clarence Hetherly and Albert Moss in exchange for Meyers to the Omaha Western leaguers. Pete Aratti, a promising youngster who saw service last season, probably will understand the newcomer.

Jack Robertson, from Beaumont, Hinkle and Trader from the Eastern league, and an expected ex-major leaguer whose signing has not yet been announced are the chief pitching additions. Andy Messinger, Jim Lindsey and Dan Fillingim of the 1927 staff will be back to form a staff nucleus. Ables also hopes to get a pitcher and an outfielder possibly from Detroit's Tigers, who train here in the spring.

The Bears will inaugurate out-of-town training. For the first time the squad will be kept from the sight of the home fans, except during a couple of exhibition games possibly, until the league season starts. The camp will be located at Fredericksburg, almost 90 miles distant.

Mandell To Fight Fields February 23

CHICAGO, Feb. 7.—In one of a series of bouts to prepare himself for the defense of his title next summer Sammy Mandell, lightweight champion, will meet Jackie Fields, western aspirant for the title, at the Coliseum, February 23. The match was assured yesterday when the Illinois state athletic commission granted promoter Joe Coffey a permit for the show.

Both boxers will weigh in over the lightweight limit, so that Mandell's title will not be at stake.

Rosenberg, Graham Called In By Board

NEW YORK, Feb. 8.—Charley (Phil) Rosenberg, former bantamweight champion of the world, and Paddy Graham of Ulster, also known as Mickey Garcia, have been ordered to appear before the state boxing commission before the suspensions now charged against him will be formally lifted. Both fell into the ill graces of the commission a year ago after it was alleged they negotiated two separate contracts for a bout.

Rosenberg intends to resume his ring activities as a featherweight.

THE BOYS GET NEW BOSSES—FOR LIFE

In releasing Rogers Hornsby recently from the New York Giants, Charles A. Stoneham, president of the club, intimated that his players had too many managers. With the departure of Hornsby to the Boston Braves, the situation may not have been relieved entirely, however, as two of Stoneham's prize boys will have new managers with them next season.

Travis Jackson, regarded as the best shortstop in baseball, recently married Miss Mary Blackman, of Memphis, and you will see from the upper photograph that he is also a champion picker.

Freddy Lindstrom, star third baseman of the club, is to be married Feb. 14 in Chicago to Miss Irene Kiedaisch, a Chicago girl. Lindstrom and his fiancée are in the lower panel.

On a scoring spree, amassing the highest total ever recorded in a cage game in the city, the Super-Main service quintet smothered the Bankers 75 to 3 in a city league basketball game at the high school gym last night.

The outfield, weakened by the loss of Adam Comorsky, who returned to the Pittsburgh Pirates, is to be strengthened by Doc Payne, league-leading hitter in 1925 who, was suspended last year for playing outlaw ball. Bill Allington, speedy right fielder is to be moved to center to take Comorsky's place. Red Bliss, who hit 340 last year and made a good fielding record, is back for left or right position, and Frey, a youngster from the South Atlantic, is another contender for the outfield.

In the infield Clanton, from Terre Haute, will be at first. McNally at second, Handley at short and Doran or Strober at third. Strober, from the Mississippi Valley league is the only one of these new to the Western League. Exhibition games for the Larks

KANSANS WILL TAKE TRAINING ON THE COAST

WESTERN LEAGUERS TO ROUND INTO FORM IN SUNNY CALIFORNIA

(By Associated Press) WICHITA, Kan., Feb. 8.—With about half the line-up changed from last season, Art Griggs, president, will depart with the Wichita Larks of the Western League, about March 1 for Visalia, Calif. to take up spring training. It is the first time in history that the Larks have trained away from home.

In hope of boosting the Larks from last year's finishing mark of second place to the top this season, Griggs has worked over his line-up with meticulous care. A pair of pitchers and a shortstop still are needed. The New York Yankees, who took Archie Campbell, star pitcher, last summer, have promised to return a good right hander this spring. A southpaw also is needed, with possibility that he may be obtained from one of the coast teams. A shortstop likewise may be picked up on the coast.

Doc Crandall will manage the Larks.

Jimmy Long To Catch
Jimmy Long, veteran Western and Texas League catcher who was purchased from the Omaha club, will replace Pat Haley, new manager of Terre Haute's Three-Eye team. With O'Malley and Berry younger players signed as other members of the catching staff, this part of the battery should not cause Crandall undue worry.

Stuepland, righthander, and Jolly and Montgomery, southpaws, have been retained from last season's pitching staff. Red Roberts, comes from Omaha in a trade for "Pen Ridge" Day. Jimmy McNamara, sold to Washington three years ago will try a comeback after a long rest, and a number of young recruits will be given a chance.

Fayne Comes Back
The outfield, weakened by the loss of Adam Comorsky, who returned to the Pittsburgh Pirates, is to be strengthened by Doc Payne, league-leading hitter in 1925 who, was suspended last year for playing outlaw ball. Bill Allington, speedy right fielder is to be moved to center to take Comorsky's place. WESTERN LEAGUERS TO ROUND INTO FORM IN SUNNY CALIFORNIA

LOS ANGELES, Feb. 8.—Joe Anderson, Kentucky middleweight today was a step nearer a bout with Micky Walker, world's champion in his class, while Dave Shade, long a veritable shadow of the Doughty Mickey, was a notch back on the pugilistic trail.

In the battle replete with action and featured especially by Shade's stirring last minute rally, Anderson evened his fistic score with Shade by reversing here last night a decision which the latter had given over him in New York last year.

Trial Of Youth In Murder Continued

FORT WORTH, Feb. 8.—Trial of Robert McKinley, 18, charged with the murder of his stepfather, William Lewis Holloway, was passed until February 20 when the case was called here today. The delay was granted in order that the court might appoint a new attorney to defend the accused, as the one appointed was unable to serve.

Holloway, farmer, was killed near Mansfield last August.

White Rhinoceros Killed By Eastman

KAMPALA, Uganda Africa, Feb. 8.—Messages from the hunting fields of the interior today stated that George Eastman, Rochester, N. Y., camera manufacturer, has accomplished one of the big objects of his present expedition—the bagging of a white rhinoceros.

The party arrived at Aura in northwestern Uganda, February 1, and a day later Eastman himself shot a white bull rhinoceros. It was stated to be a good specimen of the rare animal.

Good Rains Fall In Wheat Section

TOPEKA, Kan., Feb. 8.—Wheat crop prospects in Kansas were brightened today by a soaking rain which the weather bureau said might turn to snow tonight.

Early heavy rains were reported in eastern and southwestern Kansas, but the early reports indicated that none had fallen in the northwestern portion of the state.

Other games may be played with the second squads of the Chicago Cubs or Pittsburgh Pirates while the team is in California. The management has announced.

BARRY IS GIVEN SUSPENSION BY ILLINOIS BOARD

(By Associated Press) CHICAGO, Feb. 8.—Dave Barry, who counted nine over Gene Tunney last September and won a name for himself, has been suspended indefinitely by the state boxing commission. Barry's license was revoked on the ground that he refereed an unlicensed boxing match a week ago.

The absence of Barry from the ring will deprive fans of the opportunity of seeing him for the first time in the Dempsey-Tunney fight. At all boxing shows in which Barry has refereed since last September, it has been the practice of fans to start a "going" count between rounds, going from 1 to 14. It was Dempsey's contention that Tunney was on the canvas 14 seconds.

Paul Phren, chairman of the boxing commission, expressed regret at the necessity of suspending Barry.

H. Kling Accepts Amarillo Position

H. Kling, well known plains hotel man and assistant manager of the Lubbock hotel, has accepted a position as assistant manager of the Herring hotel in Amarillo. He was in hotels in Crosbyton, Carlsbad, N. M., and Farwell before coming to Lubbock.

No successor to Mr. Kling has been named. Manager W. E. Lafon, who has been in Dallas for several days will likely announce the new man on his return.

The mother of Hume, the historian, considered him weak-minded as a youth.

Express Co. Suit Of Bonner Dismissed

WACO, Feb. 8.—Dismissal of Frank H. Bonner's \$100,000 damage suit against the American Express company which followed his indictment for the murder of J. A. Barnes and Barnes' young son at Corpus Christi, killed by the explosion of a bomb sent him by express, was contained in a court order received here from El Paso. The case against Bonner was dismissed and filing of the suit followed.

Identification of the express messenger who delivered the bomb was the principal bone of contention between state and defense while Bonner was under indictment.

In the suit, Bonner charged that the express company tried to fasten the crime upon him.

RAILS WINS IN TOUGH BATTLE IN DEDICATION

NEW AUDITORIUM GETS FORMAL OPENING IN GLORIOUS VICTORY

(Special to the Journal) RAILS, Feb. 8.—Staging a typical Froggie-Lovorn and Ralls comeback, the Ralls high school Jackrabbits dedicated the city's new \$15,000 auditorium, just recently completed, last night with a glorious victory over the Crosbyton chiefs to place themselves again in the competition of the Crosbyton County basketball championship race. The final score was 21 to 14. Approximately 900 people witnessed the contest.

Following their defeat at the hands of the Chiefs recently, lost mostly through the illness of Dunn and Burke, the locals appeared last night as a well coached and performing combination. The players displayed colorful action last night and featured in the victory. They scored 11 of their team's 21 points.

The game was a nip and tuck affair throughout and was featured by a great display of spirit and battle from both clubs. Ralls started the scoring with a free throw, gained from Callahan's foul. Then the fireworks started and at no time was the victor decided until the final whistle. At the end of the initial quarter, Crosbyton lead 10 to 6, their greatest margin. At the half the score was Ralls 13, Crosbyton 12. The third session was in favor of the locals 17 to 14.

Callahan and A. Johnson, of the Chiefs, displayed unusual ability on the floor and both tossed three field goals each. Callahan was high man of the night with 8 points. The game placed the locals in the championship race which is to be decided during the next two weeks.

STANDARD OIL HEAD-REBUKES INDIANA AIDE

STEWART IS TAKEN TO TASK FOR ACTIONS IN SENATE PROBE

(By The Associated Press)
WASHINGTON, Feb. 8.—Robert W. Stewart, chairman of the board of the Standard Oil company of Indiana, appeared before the Senate Teapot Dome committee by direction of John D. Rockefeller Jr. It was disclosed today in correspondence made public by the committee.

Regrets that Stewart did not answer all questions put to him by the committee was expressed by Rockefeller in a letter to Senator Walsh of Montana, prosecutor of the inquiry, under date of February 2, the day the senate ordered the arrest of Stewart who subsequently obtained his liberty on a writ of habeas corpus issued by Justice Patley in the District of Columbia Supreme Court.

Full Statement Asked
Before the Standard of Indiana official returned here from Havana, Rockefeller wrote him that the situation with respect to the Continental Trading company's liberty bonds had reached such a stage that nothing short of the fullest and most complete statement of all the facts relating to the company was clear the skirts of those who, like yourself, had had no improper connections with the transactions in question and remove the cloud of suspicion which hangs over the entire oil industry.

O'Neil's Story Of Securities Given

WASHINGTON, Feb. 8 (AP)—Re-suming its quest for the elusive Liberty bonds held by the Continental Trading company, Ltd., of Canada, the senate committee today turned to the story of how James E. O'Neil gave \$800,000 of the securities to the Prairie Oil & Gas company after the Teapot Dome scandal broke.

O'Neil is a missing witness in the oil case, but he formerly was president of the Prairie, Clark H. Kountz, vice-president of the Prairie Pipe Line company, testified that O'Neil summoned him to Montreal in May, 1925, at which time the missing witness made restitution to the Prairie Oil and Gas company of the \$800,000 in profits he had made out of the Continental transactions in buying oil from the late A. E. Humphreys of Denver and selling it to the Prairie Oil company and the Sinclair Crude Oil Purchasing company.

Grain Market

CHICAGO TRADING
CHICAGO, Feb. 8 (AP)—Lowering of ocean freight rates from Argentina, together with expectation of large shipments from that country, led to an early downturn in wheat values today. In the corn market, unfavorable weather and prospective export business were strengthening factors.

LIGHT BREEZE AIDS PLANS IN LINDY ARRIVAL

PERFECT WEATHER IS TO GREAT FLIER ON PANAMA FIELD

(The Associated Press)
COLUMBIA FIELD, Havana, Feb. 8.—A light southerly breeze blew over the Columbia landing field this afternoon as last minute preparations were made for the coming of America's good will ambassador, Colonel Charles A. Lindbergh.

Path Leads Over Buccaneers' Trail

PORT-AU-PRINCE, Haiti, Feb. 8 (AP)—Across the windward passage where the black ships of buccaniers flying the skull and cross bones once preyed on commerce the route of a great silver craft, the Spirit of St. Louis, lay today.

North to Naval Base
Leaving here at 4:30 a. m. on a flight of about 750 miles to Havana, Colonel Charles A. Lindbergh intended to fly for 20 miles along the Haitian coast before crossing the 90-mile stretch of water to Cuba.

Arrival Not Doubted
There was no doubt here that Lindbergh would arrive at Havana on scheduled time, 4 p. m.
President Borno, General Russell, American high commissioner, and other officials were present at Bowen field and said farewell to the Lone Eagle.

Rain was reported over Pope field, Fayetteville, N. C., and Langley field, Va., two places over which the Frenchmen were to fly.

Bolling Field was water soaked and mud appeared in liberal quantities.

Nine army and three navy planes were grouped to take the air and escort the Frenchmen here from a point about 15 miles down the Potomac.

Welcoming Party
An official welcoming party including Secretary of War Davis, Secretary Wilbur, the acting secretary of state, Ambassador Claudel and his staff, and scores of army officers and attaches of embassies and legations, ignored the elements in planning for the reception at the field. A military escort was ordered to accompany the fliers to the city, where the first honors will be bestowed at a dinner given by the National Aeronautic association.

The assistant secretaries of aviation will entertain Costes and LeBrix at a luncheon tomorrow after they are formally presented to President Coolidge in the morning by Ambassador Claudel. The fliers will be signally honored at a luncheon at the White House Friday.

Three Children Die As Home Destroyed

FLINT, Mich., Feb. 8 (AP)—Three children were buried to death in a fire which destroyed the home of Reuben Stork, a farmer residing eleven miles southwest of Flint, late yesterday.

The dead
Emma Stork, 12 years old, and Betty Stork, 5, whose charred bodies were found in the ruins of the dwelling and Irving Stork, 9, who died early today from burns he received.

The fire, believed to have been caused by an explosion of kerosene used in kindling a fire in a stove, occurred while Mr. and Mrs. Stork were in Flint looking for work. They did not learn of the tragedy until they returned and found their home in ashes.

Flashes Of Life (By The Associated Press)

Bambino Ready

NEW YORK—Let the rainy day come! Babe Ruth has \$120,000 in the bank, and this is his 34th birthday. A \$50,000 annuity will mature in a few years and in addition he is putting money aside toward a trust fund of \$250,000.

Clock And Radio

LAKEWOOD, N. J.—Pending investigation of trouble neighbors have with the radio, a clock in a tower by the lake on John D. Rockefeller's estate has been stopped. The face has been lighted nightly, the lights being synchronized with the electric mechanism. A neighbor wrote the federal radio commission about it.

Plenty Of Lights

NEW YORK—For Broadway and neighbors to get all lit up it takes 1,200,000 lamps. That's the number in the city's 20,880 electric signs.

American Belles

NEW ORLEANS—M. LeRex, the French aviator, must have been joshed by the crowd. "They have too much levity," he said in regard to American girls. Nevertheless he wishes to marry one.

Worth The Price

JERSEY CITY—William Koutnik, sign painter, says if he is unfriendly with John Barleycorn for two years and also gets married he will inherit \$20,000 from an uncle. And he has gone to Havana to clerk in a hotel.

Down To Fine Point

LENNINGRAD—Soviet telephone booths are to reject ear-ist coins automatically, also anything else but what is supposed to be dropped in. Inventors have devised something or other.

Means But Little

NEW YORK—A curious person asked Mrs. Charles A. Levine what she thought of the idea of Mabel Bull as a passenger in her husband's plane. Saying that she had been embarrassed by "bunk" about herself and husband she displayed what he had given her on Christmas and other occasions, to wit: Chinichilla wrap, ermine wrap, minkskin coat, caravel coat, leopard skin coat, mink wrap.

Game Soldier

PAULSBORO, N. J.—Warren R. Roadwater has been a first class private, U. S. A., at the age of 15. Relatives obtained his release from the army in Honolulu by showing he enlisted at 14. A big fellow for his age, he said he was 18. He wants to enlist again when possible and become a flier.

Never Rides Train

DIJON, France—Madame Helene Fance, farmer's widow, who is in her 104th year, has never had a ride in a train, let alone an automobile or a plane.

Quite Different

CHICAGO—News has come of the death in Arizona at 82 years of Miss Celeste J. Miller, ex-Chicago, who circled the world 22 times alone, at times riding on camels and elephants.

The Bob Again

DE MOINES—A husband moved to wrath by a wife's bob may not bob her. The state supreme court so held in confirming a divorce granted to Mrs. Nona Harden O'Brien, farmer's wife.

Mayor Acceptable

NEW YORK—Uncle Sam is willing to pay Jimmy Walker one dollar a day and found. The army recruiting service has given the mayor a certificate attesting his fitness for enlistment.

How About Living

QUEBEC—A minimum wage for men as well as women is favored by William Tremblay, member of the legislature. In debate another speaker suggested he was preaching bolshevism.

Costly Violin

NEW YORK—A \$50,000 nightingale! Mme. Lea Luboschuta, Russian violinist, has purchased for \$50,000 a Stradivarius known as "Le Rossignol." It is insured for its cost. Insurance circles know of another Stradivarius insured for \$48,000 and a third for \$30,000.

He's Little Fish

NEW YORK—Jaime Del Rio, wealthy ranch owner, who loves his wife, Dolores Del Rio, of the movies and Hollywood, says he is glad to be in New York because in Hollywood it was his curse to be simply the husband of a star. He's sold a play here and is writing a book on the underworld.

Due For A Raise

WASHINGTON—A man whom Uncle Sam pays \$175.50 a month is to save the country \$1,000,000 in ten years. Master Sergeant Paul E. Nelson of the coast artillery corps, stationed at Fort Totten, N. Y., has invented a method of reducing strands from 19 to one in cables controlling the operation of mines.

CHRIST'S STATUE IS DYNAMITED IN CATHOLICISM WAR

(By Associated Press)
MEXICO CITY, Feb. 8 — Dispatches from Silao, state of Guanajuato, report that a statue of Christ, located in what is supposed to be the geographic center of Mexico, has been destroyed by dynamite.

The statue, dispatches say, was blown up several days ago, presumably by elements opposed to Catholicism. The figure was on a hill near Silao and was a monument dear to Catholics in Mexico. It was paid for by popular nationwide subscription. In the latter part of the administration of General Obregon, immediate predecessor of President Calles, the statue was dedicated by Monsignor Filippi, papal nuncio to Mexico.

Monsignor Filippi was deported in 1923 for conducting religious ceremonies in connection with the dedication outside of a church building. In continuance of the police campaign for enforcement of the religious laws, two more private residences have been raided. Two priests were arrested on charges of conducting masses. About 35 men and women were detained for attending services. It is believed that they will be released upon paying fines as has been done in the case of others arrested lately for conducting religious services in homes in violation of the law.

TECH DEBATERS IN BAYLOR MEET ARE NAMED HERE

J. W. Jackson, of Lubbock and William Sewell, of Slaton, have been selected as the two Tech debaters who will meet the Baylor university team here next Thursday, February 16. Miss Anna Jo Pennington, head of the department of public speaking announced yesterday. The debate will be the first contest between the two schools.

On Saturday, February 18, a three man team will journey to Canyon where they will meet the West Texas State Teachers college team in an argument. Later, in the following week, the Tech will meet a team from Simmons University here. McMurry will enter their first debate of a seven weeks' tour through the nation here on March 1.

One feature of the debating season this year will be a contest between a girls team of the Tech and a girls team of Simmons university. The debate will be held here sometime in March. Girls trying out for the team now are: Zelma Terry, Fay Rutledge, Martha Pfaff, Zelma Ringwald and Lois Gable.

THE JAZZ SINGER

Novelized by Arline De Haas
Taken from the scenario 'The Jazz Singer'...

SYNOPSIS

The New York Ghetto sees the celebration of Yom Kippur, a most important Jewish holiday...

CHAPTER II—Continued

'Well, he says all the Rabinowitzs has been cantors, see, and he's teaching me to be one.'

The waiter returned now with the beer and lemonade, and the two musicians lifted their glasses.

'Everybody loves a ba-baby, that's why I'm in love with you-u-u-u.' 'Pretty ba-baby! Pretty ba-baby!'

'And I'd like to be your father, mother, brother, sister, too-o-o-o!' 'Forgotten was the synagogue; forgotten were the teachings of his fathers...

At that moment the swinging doors opened to admit a tall, spare Hebrew, of gangling gait and pleasant, though gauntly eager countenance.

'Glas helles.' Moisha Yudelson requested gravely of one of the bartenders, reaching into his pocket and pulling forth a five cent piece...

'We'd cuddle all the ti-hime.' He could hear the pleading voice of the young singer.

Yudelson listened, curious at first, and then attentively. That voice was certainly familiar. He frowned. Then he started towards the entrance to the 'garden'...

Back in the 'garden' the tables pounded out their applause. The burst of noise, the clink of coins, once more brought Jackie back to the remains of reality.

'Kid, you're O. K.' George shook hands with his small partner. 'Will we give 'em an encore?'

'Sure.' Jackie responded, counting his coins again. 'What'll it be?'

'Well, how about 'Darktown Strutters' Ball?'

George engulfed himself in a deep draught of beer and began to tinkle the ivories.

and the silver on the heavy side-board deepened to purple in the refracted light that clung for a moment to the synagogue windows...

'Nu, papa, you shouldn't yourself worry so.' Sara Rabinowitz bustled in from the dining room...

'Just wait! I show him.' the Cantor shook his fist. 'An actor, so? I teach him to listen to his papa!'

'What! Not a cantor. You should say that! A nice meshing of dirt.' The Cantor brought his fist down on the sideboard with a bang...

'He has it all in the head, yes, she spoke slowly, 'but it is not in the heart, papa. He is of America.'

War?

WHEN Rear Admiral Charles P. Plunkett told the National Republican Club that war with Great Britain or some other great power was inevitable, he expressed a sentiment which is hair-raisingly common with naval and military men.

And there will be many others to fear that Plunkett was dead right. For Plunkett lifted the soft pedal a moment, tied up our huge program of naval expansion with the new trade structure which we are now facing and declared that the only answer was to go to war.

We may think it hard to believe that Plunkett is a punk prophet, but no one can dispute that he knows his history. In fighting the rest of the world for cheap raw materials and foreign markets at his large and time backing up this bid for uncontrolled commercial supremacy with plans for a navy enormous enough to protect it, we are traveling the road which in the past always has led to war.

The naval armaments race is on, despite all denials. We are out to equal Great Britain's fleet and probably to surpass it. Whether Britain is to blame, by reason of her attitude at the Geneva conference is beside the point.

The old struggle for markets has come again. The world market leaders believe it can be averted by a series of treaties under the big powers to behave governments seem quite unbothered.

Last year our exports were \$5,000,000,000, an increase of nearly 20 per cent over 1926. We invaded the foreign credit market with \$1,600,000,000 in new loans—foreign nations now owe us about \$25,000,000,000. Outside the United States our interests are worth at least \$50,000,000,000.

The belief of this government and the industrial leaders of the nation is that a naval expenditure of \$3,000,000,000, as now planned, is not too much to protect them.

We are embarked on a course of economic imperialism. We are not going to divide markets with anyone. We are going to get all we can, for we are the greatest producing nation on earth.

To meet all that Europe recovers from the war, is organizing to compete with us not only in South America and Asia, but in European markets as well. International trade combinations are forming with British generally in the lead to head off American domination of the whole world. Oil rubber and tin are some of the raw materials involved; chemicals, steel, railroads, and electric bulbs are only a few of the manufactured products.

Dr. Julius Klein, the government's leading expert on international trade, predicts that such combinations will give us the stiffest competition in history during 1928.

Now comes Plunkett to say that we are nearer war today than ever before. Whether he is right or wrong, it is instructive to recall that, since Columbus came here in an attempt to find a trade route to the Indies, every one of our wars has had its roots in factors connected with international economic life.

Britain, France, Holland and Spain fought for the riches of the new world. Then the Revolution was brought on by mercantile competition. Britain interfered with our merchant marine and we had the War of 1812.

For purposes of expansion we drove out and bought out Spain from Florida, Mexico from Texas, Arizona, and California in a war since denounced by Lincoln. Grant sold many other lands to Indians from wherever they happened to be.

Two opposing economic systems, the planting slave-holding south and the industrial, free-labor north, clashed in the Civil War. In 1898 we threw Spain from the Caribbean and the Pacific in a war growing out of what historians call our imperialistic policy.

THE PLAINSMAN

Says:
That Girl on Broadway says it's a poor home nowadays that doesn't have all the conveniences of a modern jail.

The Plainsman learned something, new the other day—learned it in the newspapers, too, by gosh. He discovered after a careful and painful perusal of the Hickman trial that if a man has an "H" drawn on his bare skin with a thumb nail, and the imprint remains more than three minutes then he's crazy and has a right to kidnap and murder a helpless child.

This is a remarkable age in which a live Science is teaching us new things that our forefathers, poor thoughted creatures, never even thought of. The chances are that 100 murderers, poor dears, have been put to death in the dark ages of the past, when they were really suffering from dementia praecox and when inscriptions drawn on their hides with a thumb nail would have proved them crazy and worthy of a sheltered nook in a nice quiet asylum.

The Plainsman is in favor of drawing inscriptions on the bare backs of brutal butchers of helpless babies all right, but he doesn't think those inscriptions should be drawn with a thumb nail. He believes a hatchet would do a better job.

TODAY'S FOMIE
On I'm a devil, a dirty little devil. I put poison in my grandma's cream of wheat.

There's something wrong up in my head.
For I like to beat babies until they're dead.
With apoplexy to dementia praecox.

Volume 1, number 1 of the San Angelo Morning Times has reached The Plainsman and from early appearances the San Angelo Standard a crackerjack afternoon publication, is going to have a strong running mate.

The Plainsman offers congratulations to Mr. Harte and his associates and wishes them continued success.

Col. Robert W. Stewart defies the Senate investigators, who are seeking to learn if the transactions surrounding the Teapot Dome case were tainted. They're gentlemen rather than rogues.

The average person will wonder how a mere citizen could make bold enough to defy a Senatorial committee but in the case of the Colonel it is not at all surprising. Why? Colonel Stewart is chairman of the board of the Standard Oil company of Indiana—a position which carries with it almost as many rights and powers as that of constable in a Massachusetts hamlet.

Rich oil men seem to be able to do almost anything they want to do and make us all—Senators included—like it whether we care to or not. The Plainsman does not blame the oil men for taking advantage of their seeming immunity from the law, for most of us would do the same thing if we could. The blame should be laid at the door of the people as a whole whose opinion makes such things possible and whose vote selected the men who made the laws as they are.

The Plainsman has, as far as he knows, and hopes, no special tendencies. In the case of Colonel Stewart he merely draws the parallel of the Colpeh's actions as composed to similar ones were they displayed by Mr. Asseverage, Citizen.

He can't imagine one of the common herd "getting by with" delving a Senatorial investigator and in lamenting the situation The Plainsman is only sticking with those hard and fast and Democratic principles of "taxes by none and fairness toward all." As somebody, sometime, said "If this be treason, let me be more of it."

A struggle for world empire preceded the World War for world supremacy and the interest after Germany attacked our shipping. Today, marines are protecting our interest in China and the Caribbean.

Tomorrow we may be further along the road that has heretofore led to war. Some sentiment, not dominant now, for an Anglo-American Alliance to divide markets and spheres of influence. Here and there an extreme idealist demands a United States of the World in the hope that it will some day head off a gigantic war between the white race and the other races.

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes."—Byron

Well Now! Who Ever Thought That Our Prohibition Boys Were So Dumb As Records Show, R. Dutcher Demands

IN NEW YORK SEE-SAWING ON BROADWAY

NEW YORK, Jan. 8.—None of the famous theatrical clubs of New York allow actors to bring their wives and sweethearts of women friends.

They are all sanctuaries for the tired actor when he is not entertaining the tired business man or upholding the tiresome esthetic. Here, about their dinner tables, pool tables and billiard tables, gather the famous names of the footlights world to tell stories out of school, many of which are not intended for feminine ears. Here they may gather without any wifely intrusion and with none of the jazz influence that is so likely to follow in the wake of actors' gathering places.

The Players' Club one of the oldest and most dignified, opens its doors to the ladies but one night a year. The Lambs, Priests and the others make their various appeals to the bachelor instincts.

A year ago the expression "big butter and egg man" swept the country. When introduced as a title to a play, it referred to a prosperous, well-to-do business man whose money was used to back the theatrical productions. It came to refer to any of the fat purring creatures who go about Broadway making expensive spending gestures. They were pictured as the chumps who were easy marks for the "gay girls" of Broadway.

Just now the "butter and egg" man has vanished from the map. Most of this season's productions on Broadway have been financed either out of Wall Street or by the private capital of some over-night millionaire of the stock market. As usual the greatest successes are put on by the old time producers.

As for the easy spenders, Broadway is wondering where they are. The sucker night clubs have the taste of dust in their mouths and the successful ones have the paragonage of the people of importance who do not come under the heading of "soft purring creatures" for this reason the midnight sports of the "the street" are not doing so well. The "butter and egg man," if he has not completely disappeared has at least changed complexion so that it is difficult to recognize him.

And speaking of putting on shows the process of creating a star changes little from season to season. There are certain persons and celebrities who are for impersonal reasons do not need their faces and bodies in the limelight. And getting an unknown name into the electric bulbs for a short sprint of stardom is only a matter of money.

The process is simple. Just place along Broadway until you find a play that can be picked up for some trifling sum. Perhaps you can get a "royalty" for a few thousand dollars. For a few thousand more you can put it on. Then get on the phone and tell the "girl friends" you have a play for cast her in the lead, but her name is the bright lights—and there you are. If, by accident she really can act, you may have a gold mine in your hands. If as most often happens she can't act, you are no worse off than a hundred others that have tried it.

And you'd be surprised to know how often this actually happens.

GILBERT SWAN.

By RODNEY DUTCHER, NEA Service Writer

WASHINGTON, Feb. 8.—The government has found itself in a bad mess over prohibition enforcement and doesn't know yet how it's going to wade out.

It's a gooey mess, for it involves such components as graft, corruption, the hidden hand of politics and the stupidity of some prohibition agents which is often synonymous with incompetence, viciousness and brutality.

These factors combine to make a solution vitally important. In the present row between the Prohibition Bureau and the Civil Service Commission over whether present enforcement personnel shall be retained it is important to remember that the service was put on a competitive merit basis only after Congress, the bureau, the Anti-Saloon League and nearly everyone else had agreed that prohibition enforcement was a national scandal which must be cleaned up.

So, today, the great issue is whether there is to be more and better enforcement; or worse and less. The former may take years to achieve; the latter can be had at once and may even be necessary before enforcement can become honestly effective.

PROHIBITION COMMISSIONER DORAN, finding nearly 75 per cent of his 2000 prohibition agents were being working in the field, has ordered 10 or 15 per cent more almost sure to follow, has shouted for help and predicted a collapse of enforcement unless he can keep his men. The Anti-Saloon League has been working for a long time to get the plain truth is that no one had ever suspected that prohibition agents were so dumb.

The Civil Service Commission calmly replies that it has only followed its usual procedure and that it will continue to do so. Oral examination of the 4500 survivors, including only 500 prohibition jobholders, who are candidates for 2000 agents' jobs, are proceeding.

A rigid character examination will follow. Then, if in some particular districts there aren't enough eligibles sifted from the rest, re-examination will be held in those districts.

But meanwhile the Civil Service Commission has been subjected to powerful political pressure, and otherwise, and it poms and lets down the bars for the existing personnel as is demanded, there will be no assurance of an intelligent competent enforcement service. The politicians who regard prohibition enforcement as the most lucrative station in the national patronage orchard have shared Doran's dismay; for most of the present agents are connected with some political machine.

In eight years, some 1300 prohibition agents and others were fired and between 600 and 700 prosecuted in the courts. Of the current crop of 2000, the Civil Service Commission claims to have weeded out the dumb and the illiterate and now to be engaged in disqualifying the crooked and otherwise unfit.

Some of the smarter grafters in the service who may have passed the first two tests may have trouble when their records are scrutinized. A man who has been in the enforcement machinery for several years recently told this writer:

"I estimate that all but about 2 per cent of the agents are chisel-neck grafting. The prohibition agent who can't make \$50,000 a year if he desires is a dub. Who thinks that most of these fellows

go to work at \$1,850 a year just for the salary?

Doran, demanding re-examinations, said many of his disqualified agents would turn to graft in disgust. If so, they must have done that by now in the realization that they must be made rapidly while the sun still shines.

Doran had the privilege of replacing such crooks with temporary appointees who had passed the first examination, but apparently didn't care to use it. It should be noted that administrators whom he quoted as attacking the commission's tests were part of the old regime—the only two administrators then under civil service being those at Boston and Buffalo.

A GREAT ISSUE LOOMING

A metropolitan journal advises the Senate to abandon or at least to delay the proposed investigation of the power corporations of the country, and as a more practical alternative, to put through the necessary legislation for the Muscle Shoals and Boulder Dam projects. Its argument is that the potential natural resources there located should be secured to the people of the United States, to whom they belong, not only for their own use, but as an experiment in an advanced type of public control.

In reference to this general subject of natural-power exploitation, it seems safe to predict that it will rank high among contentions political issues in the national sphere, and in many of the States, during the next year. Hydro-electric power utilities, though they have already accomplished wonders, are still in their infancy, relatively speaking. Side by side with their future development vexed questions are bound to arise concerning the generation, distribution, regulation and control of the magical power.

Expert and other enlightened opinion on this vital subject seems to follow three divergent lines. The leaders of one school frankly advocate development and distribution by private corporations, whose financial operations and methods would be roughly modeled on our railroad system. They concede the necessity of government rate regulation, but here they are confronted by the objection that the difficulty of obtaining just valuations as a basis for rate-determination would be much greater than in the case of railroad regulation. They see the school, represented by Owe D. Young, favors government power-control at the natural source, but contends that the function of distribution should be left to private enterprise.

Another school, represented by the school, represented by Owe D. Young, favors government power-control at the natural source, but contends that the function of distribution should be left to private enterprise.

Up to date there have been few clues to the drift of public sentiment in the various controversial channels here outlined. But a campaign of education is fore-ordained by the peculiar distinctions and necessities of the general situation, and in due time the popular response is certain to become manifest, in view of the gravity of the issues involved.—Syracuse Herald.

There is a great deal of time lost in congress, by its members, some of whom are trying to sell themselves and not caring anything specially about the interests of the people. Hours and hours are spent waiting for two members to thrash out some little difference between themselves.

If the members of congress would put in all of their time as they should do looking after practical things that concern the welfare of the nation in general and their constituents in particular we are sure there would be more and better legislation.

PARLIAMENT IN BRITAIN OPENS IN ROYAL POMP

ANCIENT PAGEANTRY IN SPECTACLE LACKS QUEEN'S PRESENCE

(By Associated Press)
LONDON, Feb. 8.—England's finest spectacle of royal pomp and ancient pageantry, the royal opening of Parliament, was enacted at Westminster today. It lacked just a little of its usual brilliance, however, because for the first time in his reign King George was not accompanied by Queen Mary.

The Queen was ill with a cold at Buckingham Palace and the King rode alone in state in the coach of glass and gold to Westminster. At Westminster he read his speech from the throne in which he said the British government was sympathetically studying the new draft of the treaty of arbitration with the United States to replace the treaty of 1908. The King touched on the improved situation in China.

Little Legislation

The royal forecast of new legislation contained little beyond proposals for amending parliamentary and local government franchises and consideration of measures to relieve the burden of local taxation.

The state procession from Buckingham Palace to Westminster and back again, together with the vivid theatrical scenes within the vaulted chamber of the House of Lords, where the King read his speech from the throne, continued to be London's show.

It was a great day for English country folk and American tourists. They were up betimes lining the paths near Buckingham Palace where from an early hour all was bustle and bustle with marching and counter-marching of gaily garbed troops.

At 11 o'clock there was a stir in the great archway of the palace. Through the opening rumbled a golden coach, with golden postilions and golden footmen, and six white horses to pull it along. Inside this fairy story creation of shining glass and gold was his majesty, King George in uniform resplendent in ermine and jewels.

Surrounded by Guards, just outside the great iron gates of the palace courtyard the coach rolled into its place in the royal procession and was surrounded by the king's personal bodyguard of "bee-eaters" from the tower of London, and by detachments of household cavalry with shining breastplates and helmets carrying tossing red plumes. The bands played, the cavalry pranced; a few dignified cheers came from the crowds and a fluttering of hand-

McKAY ADDED TO DEPARTMENT OF HISTORY IN TECH

Taking the place of Miss Lalah R. Boone, who is to spend a year working on her doctor's degree, Dr. S. S. McKay, at present head of the department of history in Furman university, Greenville, South Carolina, will be a member of the Tech faculty during the 1928-29 long session. Dr. J. C. Granbery, head of the department of history announced yesterday.

Dr. McKay will come to Lubbock in September. He is a Texan and is personally acquainted with a number of the Tech faculty members. He received his A. B. and A. M. from the University of Texas and his Ph. D. from the University of Pennsylvania. He has been teaching several years.

Dr. McKay, according to Dr. Granbery, is a distinguished historian having published works on the Texas Constitution of 1876. His name is listed in the Who's Who of America as a noted historian. He will be a permanent member of the faculty after the next long session, Dr. Granbery says.

Power Of U. S. In Latins Is Rapped

ROME, Feb. 8.—Commenting on the Pan-American congress at Havana, Il Tevere editorially says today that the world's equilibrium and well being require curbing of the extraordinary power of the United States.

The editorial headed "The Big Stick" declares that Europe should follow with sympathy the revival of Latin resistance in America and should contest the morality of northern intervention in the south. The editorial also mentions the processions and the procession was off to Westminster. Every foot of the way was lined by troops, with the crowds pressing from behind. The street itself was as clean as a parlor carpet yellow like the gold of the royal coach, but the yellowness was only freshly spread sand.

AVIATION PACT PREPARED FOR PAN-AM UNION

PLAN DIFFERENT WITH DISPUTED CLAUSES LEFT IN DISCARD

(By Associated Press)
HAVANA, Feb. 8.—A revamped commercial aviation pact differing in several vital respects from the projected convention formulated by the governing board of the Pan-American union today was ready for presentation to the communications committee on the Pan-American conference for approval. The revised draft was completed by a sub-committee headed by Henry P. Fletcher, United States ambassador to Italy.

The treaty was shorn of clauses which had previously been attacked by Colombia, Mexico and other nations. Questions pertinent to the interests of the United States in Panama and Guantanamo Bay, Cuba, are believed to have been settled satisfactorily and it is expected that the first commercial aviation convention between the American nations will be concluded successfully.

Open to All States

The committee decided to discard any phrase limiting adherence to the treaty members of the Pan-American union, leaving it open for the signature of all states. The previously stipulated necessity of filing notifications of adherence with the Pan-American union has been changed by substituting the Cuban government as the clearing house for ratifications.

The objections of Colombia to the original draft, which would have authorized the conclusion of agreements between two or more states regulating international commercial air navigation, have been surmounted by adding a limiting clause. This clause provides: "That two or more states, for reasons or reciprocal con-

Japan Is Relicent Over Kellogg Plan

submarine while planning the largest naval program in history.

TOKYO, Feb. 8.—Japanese naval authorities and the foreign office generally are reticent regarding Secretary of State Kellogg's ideas on abolishment of the submarine, declaring that the matter will be considered when Japan is presented with a formal proposition.

At the navy ministry it was unofficially said that while abolition of submarines was most desirable, it appeared virtually impossible because under present circumstances submarines formed the only effective weapon of the powers having small navies.

The vernacular newspapers decline to take the Kellogg idea seriously, declaring that the United States is proposing abolition of the

Special Venires In 2 Cases Summoned

Special venires of seventy-five jurors each will be called for the trials of P. T. Calloway, charged with criminal assault, and Mrs. Nina Stevens, charged with the murder of Mrs. Thelma Collins, divorced wife of Mrs. Stevens' son, in the 72nd district court this term. Court officials announced yesterday that Calloway's trial is set for February 15 while Mrs. Stevens is due to face the court on February 27.

Individual Effort And Initiative Is The Price Of Progress

That price has been paid in generous measure by people of the United States. More progress has been made in the past 150 years than in a thousand years before.

It is no incident that the speed of progress has been quickened by the introduction of electricity in industry and homes.

It is the most marvelous of nature's many wonders. It will freeze ice for you, cook your meals, light your home, drive your washing machine, sweep your floors and without it not many automobiles would run.

Its future usefulness depends upon the initiative and efforts of those who produce it, its cost and its efficiency. The greatest incentive to effort known is that of success, financially, and the knowledge that success brought with it comfort and aid to the great masses.
