Sandy Fans 15 As Yanks Tumble, 5-2

NEW YORK (AP)—Left-hander Sandy Koufax' record-setting 15 strikeouts and a four-run second inning highlighted by John Roseboro's homer carried the Los Angeles Dodgers over the New York Yankees 5-2 today in the opening game of the 1963 World Series. Koufax allowed six hits in beating the favored defending world champions before a packed house of 69,000 at Yankee Stadium, while the Dodgers batted series veteran Whitey Ford liberally in the early going.

Koufax' streakout total was one over the previous series record set by Carl Erskine of the Dodgers against the Yankees exactly 10 years ago—Oct. 2, 1953. The star southpaw, a 23-game winner during the regular season, did not allow a base runner until Elston Howard's single with two out in the fifth and blanked the Yankees until Tom Tresh's two-run homer in the eighth.

Koufax hit the streakout record by fanning the final batter, pinch hitter Harry Bright. The Dodgers whacked Ford for four hits in their big second inning, which was capped by Roseboro's three-run homer. Former Yankee Bill Skowron singled in the first Dodger run, and drove in their final run with a single in the third inning.

The series continues here Thursday with left-handers Al Downing of the Yankees and John P. Foy of the Dodgers scheduled to pitch.

Dodgers first (0). Stan Musial, the great St. Louis Cardinal who recently retired after 22 years of outstanding major league play, threw out the first ball.

Wills fouled off Ford's first pitch to the screen behind home plate. Wills was called out on strikes. Koufax tossed out Gilliam. W. Davis struck out.

No runs, no hits, no errors, none left.

Yankees first (0). Koufax went down swinging. Richardson also struck out swinging. Tresh was called out on strikes.

No runs, no hits, no errors, none left.

Dodgers second (0). T. Davis bounced out. Koufax to Peppone. Howard smashed a 400-foot double to the left center field wall. Skowron bounced a single through the middle, scoring Howard and putting the Dodgers in front. T. Tracawski looped a single to center. Skowron stopping at second. Roseboro hit a home run into the upper deck in right field, scoring Skowron and Tracawski ahead of him. Koufax fled to Maris. Wills was called out on strikes.

Four runs, four hits, no errors, none left.

Yankees second (0). Mantle was called out on strikes. Maris swung and missed a fast ball for a third strike and Koufax tied the record of five strikeouts at the start of a series game set by Mort Cooper of the St. Louis Cardinals against the Yankees on Oct. 11, 1943. The series record for consecutive strikeouts is six, by Hod Eller of Cincinnati against the Chicago White Sox in 1919. Howard fouled to Roseboro.

No runs, no hits, no errors, none left.

Dodgers third (1). Gilliam singled to center. W. Davis forced Gilliam, Richardson to Koufax. T. Davis punched a hit and ran single right and W. Davis, cased to third. F. Howard fouled to E. Howard behind home plate. Skowron lined a single to center. Skowron's straight hit, scoring W. Davis and sending T. Davis to third. Tracawski forced Skowron, Boyer to Richardson.

One run, three hits, no errors, two left.

Yankees third (0). Peppone struck out. Koufax deflected Boyer's sharp grounder to Tracawski, who threw to Skowron for the putout. Ford fouled to Gilliam outside third base.

No runs, no hits, no errors, none left.

Dodgers fourth (0). Roseboro struck out. Boyer

Dean Rusk, A. Gromyko To Talk Trade

By LEWIS GULICK
UNITED NATIONS, N.Y. (AP)—Secretary of State Dean Rusk talks over possible deals with Foreign Minister Andrei A. Gromyko tonight in the only strictly U.S.-Soviet meeting scheduled in current East-West discussions.

The dinner meeting at the headquarters of the Soviet U.N. mission gave Rusk his first opportunity here to raise a host of Washington-Moscow issues including the presence of Soviet troops in Cuba.

Rusk also was expected to inquire into a variety of possible Soviet-American accords, ranging from trade to space cooperation, and the Soviet position on disarmament and political questions posed in the wake of the limited nuclear test-ban treaty.

British Foreign Secretary Lord Home conducted the West's first deep probe into the second group of questions in a two-hour lunch at Gromyko's quarters Tuesday.

British sources said neither side gave any ground, though the atmosphere was cordial and Gromyko seemed to want to continue East-West contacts.

Gromyko was said to have restated Soviet proposals for a non-aggression pact, observer posts to guard against surprise attack, reduction of forces in Germany, a ban on atomic weapons in central Europe and cutbacks in defense budgets.

Lord Home was reported to have presented familiar Western positions on these questions. On Berlin, the two were as far apart as usual.

Rusk and Gromyko are scheduled for a second and final three-hour parley Thursday night before Home leaves the U.N. General Assembly session. Gromyko is slated to visit Washington later.

Western sources said neither side expected any hard-and-fast agreement to emerge from present discussions. They said neither side is prepared to move fast, but the confidence of talks is good in itself and may show where the best prospects for agreement lie.

DeMolay Chapter Sets Open House

The Snyder DeMolay Chapter has scheduled an open house event for Thursday evening in the Masonic Hall.

The event will begin at 7:30 p.m. and will feature a film on DeMolay.

3rd Bomb Suspect Arrested; Dynamite Cache Uncovered

BIRMINGHAM, Ala. (AP)—A third white man has been arrested in connection with the Sunday, Sept. 29, bombings. The Rev. Fred Shuttlesworth, former Birmingham minister and president of the Alabama Christian Movement for Human Rights, charged that the investigation appeared to be "a sham on the part of law agencies, in an effort to soothe the national conscience and placate Negroes."

Shuttlesworth issued a statement criticizing the investigation shortly after a circuit-court jury found 13 sticks of dynamite in a wooden crate and two found him guilty of passing a rifle and a half sticks lying nearby in a wooded area in North Birmingham, just outside the city limits.

He hailed the discovery as significant in the investigation of bombings.

"We are stepping in the right direction. We are making progress," he said.

The Rev. Fred Shuttlesworth, former Birmingham minister and president of the Alabama Christian Movement for Human Rights, charged that the investigation appeared to be "a sham on the part of law agencies, in an effort to soothe the national conscience and placate Negroes."

Shuttlesworth issued a statement criticizing the investigation shortly after a circuit-court jury found 13 sticks of dynamite in a wooden crate and two found him guilty of passing a rifle and a half sticks lying nearby in a wooded area in North Birmingham, just outside the city limits.

Valachi Testimony Solves Slaying Of 30 Years Ago

A TIME FOR CONSULTATION—John McShane, chief U. S. marshal, leans in for a few words with mobster Joseph Valachi at the witness table before the Senate Investigation Subcommittee's star witness began his second day of testimony about the workings of organized crime. Listening in at left is Lavern Duffy, the subcommittee's assistant counsel. (AP Wirephoto)

Discrimination Probe Asked Of Services

WASHINGTON (AP)—The Defense Department has ordered the armed services to take an examination of their policies on racial discrimination in transportation, education, public accommodations, housing and other facets of life near military bases.

The Associated Press learned today that Assistant Secretary of Defense Norman Paul sent the order for an "off-base equal opportunity inventory" on Sept. 24. He set a Nov. 8 deadline for replies.

The basic objective is to obtain necessary information for the formulation of future policy," the Pentagon said.

It declined to make public Paul's memorandum to the services on grounds it is an "official working paper."

However, the department did furnish a copy of a three-page inventory form to be filled out by each base command.

The form listed 17 separate major questions and topics Paul wants covered.

It was not said how base commanders would collect the material. Presumably, military personnel will be sent out to make on-the-spot checks in communities surrounding the bases.

This recent action in a series of Pentagon moves aimed at ending discrimination against Negro servicemen appeared likely to meet strong criticism from Southern members of Congress.

Valachi testified today that a New York underworld boss of more than 30 years ago was slain in a doublecross plotted by some of his own lieutenants.

The death of Giuseppe Masseria, alias Joe the Boss, was set up by "Charles Lucky" Vito Genovese and Ciro Terranova," Valachi told the Senate investigations subcommittee. "They were the important ones."

New York police records show that Masseria was shot in the back and the head while sitting in a restaurant at 2715 West 13 St. in the Coney Island section on the afternoon of April 15, 1931.

Lt. Ralph Salerno of the New York Police Department testified the case is still listed in the police file. He said the police record shows the killers escaped and are unknown.

The early part of Valachi's three-day testimony was largely spent in trying to pin down the identity of Giuseppe Santuccio, alias Bobby Doyle, the man he named Tuesday as the trigger man in three 1930 mob killings. Looking at photographs, Valachi and Lt. John Roach of the Hartford, Conn., police agreed that this individual is a man Roach said now lives in Hartford.

Police File Still Active

WASHINGTON (AP)—Joseph Valachi testified today that a New York underworld boss of more than 30 years ago was slain in a doublecross plotted by some of his own lieutenants.

The death of Giuseppe Masseria, alias Joe the Boss, was set up by "Charles Lucky" Vito Genovese and Ciro Terranova," Valachi told the Senate investigations subcommittee. "They were the important ones."

New York police records show that Masseria was shot in the back and the head while sitting in a restaurant at 2715 West 13 St. in the Coney Island section on the afternoon of April 15, 1931.

Lt. Ralph Salerno of the New York Police Department testified the case is still listed in the police file. He said the police record shows the killers escaped and are unknown.

The early part of Valachi's three-day testimony was largely spent in trying to pin down the identity of Giuseppe Santuccio, alias Bobby Doyle, the man he named Tuesday as the trigger man in three 1930 mob killings. Looking at photographs, Valachi and Lt. John Roach of the Hartford, Conn., police agreed that this individual is a man Roach said now lives in Hartford.

"He hangs around the streets and has no visible means of support," Roach said.

In Hartford, Police Chief John J. Kerrigan said Santuccio had been idle recently but ran a pizza restaurant until about three months ago.

Valachi had testified Tuesday that Santuccio, or Doyle, lived in Stamford, Conn., in 1930 and was in juke box and other businesses.

He told the senators today that was a slip of the tongue — that he meant to say Hartford.

When Valachi got down to telling about Masseria's slaying, he said that at the time he belonged to a rival gang known as the Maranzano group, and it was warring with the Masseria group.

But Valachi said it wasn't his group but Masseria's own underground who gunned Masseria down.

Valachi said "there was peace" between the two mobs after Masseria's murder.

Sen. Abraham Ribicoff, D-Conn., went before the Senate investigations subcommittee at the start of today's session with a protest that "by coincidence" there is a "Robert Doyle in Stamford — and only one man there of that name — who has been deeply embarrassed by the testimony."

Ribicoff said the Stamford Doyle is a respected business man of Irish extraction, some 20 years younger than the hoodlum Valachi had named as an underworld trigger man in three 1930 gangland slayings.

Discussions will continue during an afternoon session, which is scheduled to be concluded at 2:45 p.m.

Curt Reimann, vice president of the Texas Division, is scheduled to be here for the session. Mrs. Lee Smith is president of the local unit, which will be host for the meeting.

All directors of the local unit have been urged to attend, and all members of the unit are invited. Anyone who has contributed time or money to the local unit during the past year is considered a member.

Tips On Starting A New Lawn

Starting a new lawn this fall? If so, one of the first things you should do is prepare the soil in the area you intend to use so that it will support vigorous grass growth. Almost all soils, and particularly those soils around most houses, lack adequate amounts of the plant foods needed to produce healthy, thick, weed-free turf. To get a lawn started well and to keep it growing, it is necessary to add these missing nutrients to the soil by systematic feeding before and after the lawn has been established.

Agronomists recommend that an initial feeding of plant food for lawns and gardens, which is high in phosphate content, such as 5-10-10, be broadcast on the intended lawn area at the rate of two to three pounds for each 100 square feet of space. Next, the soil should be spaded and pulverized to a depth of from eight to ten inches and an additional two pounds of fertilizer for lawns and gardens applied at the same rate and worked into the top two inches of soil.

Work down the entire area and spread for 24 hours, allowing the plant food to blend thoroughly with the soil. When the soil has settled, rake the area and roll with a lightweight roller. Follow with another raking to fill in the low spots.

Broadcast the area with grass seed, following the instructions of a reliable seed dealer regarding the rate of application. Then roll the area lightly and water thoroughly to a depth of several inches. Use a fine spray of water to avoid washing away the seed. Continue to water daily during seed germination. This encourages maximum growth of the young grass shoots and helps the fertilizer develop a deep root system on the grass.

Periodic feedings of fertilizer for turf and trees in the fall and two feedings each spring will keep the grass growing after the lawn has become established. A light feeding during the summer also will be helpful, the agronomists say.

"It is my strong personal feeling," Mrs. Corning told a reporter for the Albany Times-Union, "that all possible steps should be taken to keep any animal from becoming extinct."

A voluntary boycott by American women, she said, would so lower the demand for leopard skin that a sharp decline in the rate of killing would result.

African wildlife authorities have warned that as a result of a black market demand for leopard skin-

Boycott Of Leopard Skin Is Asked

ALBANY, N. Y. — Mrs. Erastus Corning II, the attractive wife of the mayor of Albany and president of the Garden Club of America, has announced her organization is giving "100 per cent support" to the National Audubon Society's campaign to take the fashion-market pressure off the endangered African leopard.

"It is my strong personal feeling," Mrs. Corning told a reporter for the Albany Times-Union, "that all possible steps should be taken to keep any animal from becoming extinct."

A voluntary boycott by American women, she said, would so lower the demand for leopard skin that a sharp decline in the rate of killing would result.

African wildlife authorities have warned that as a result of a black market demand for leopard skin-

Last-minute dish: heap a pound jar of sweet and sour red cabbage in a big skillet with a pound of frankfurters. You'll need to cover the pan and simmer for about 10 minutes. Serve with mashed potatoes made from a package. Pass the mustard!

Town hall democracy still works

Hunger, hardship, danger—the price of self rule came high! No wonder our early settlers prized the right to have a say in their town meetings. Today, rural electric cooperatives give millions a chance to take part in this pure democracy which has contributed so much to the strength of America.

The name has changed, but the rural electric annual meeting has the same rule-by-the-people freedom that characterized the colonial town meeting. Once a year, the member-owners of these local cooperatives get together to find out how their business is doing, and to take an active part in running it.

Free exchange of views, and frank discussion of policy give any interested member a chance to have his say. To become a director, with policy-making authority, a candidate must win the confidence and the votes of a majority of his fellow members. Plans, programs, and progress reports are subject to searching review.

The sanctity of the ballot and the basic freedoms of assembly, speech, and private ownership are American ideals. They find full expression in a business activity in America's rural electric systems.

Knapp News

BY MRS. VERNON TODD

Mrs. Walter Weathers of near Hamilton and Mrs. Doris W. Smith of Cranfill's Gap visited Saturday with Mrs. Frieda Murphy.

Mr. and Mrs. Wright Huddleston and Judy, Mr. and Mrs. Ben Weathers attended the South Plains Fair at Lubbock and Lee Capades, Friday, and visited in the Ellis Wright Huddleston home.

Mr. and Mrs. Hoyle Cary returned from Houston, Friday, where Mr. Cary received a good report from a physical.

Weekend visitors of Mrs. Frieda Murphy were Mr. and Mrs. Loyd Murphy of Grady, New Mexico, and Gladys Murphy and son Robert of Breckenridge.

Ben Weathers visited Sunday afternoon in the Sam Armstrong home near Cuthbert with Mr. and Mrs. Miles Galloway being there also.

Weekend guests of Mr. and Mrs. J. E. Sorrells were Mr. and Mrs. J. M. Sterling and children of near Vincent, Mr. and Mrs. Winfred Tucker and family of near Brownfield, Mr. and Mrs. Claude Thomas of Denver City, and Mr. and Mrs. Claude Miller of Snyder.

"The Man," "The Dramatist," and "The Plays," the third section containing Shaw's complete dramatic works from "Widowers' Houses," performed in 1907, to "Why Should We Not?" written when Shaw was 94.

Part One, "The Man," is a brief, but thorough, biography of the playwright, which opens with his early life in Dublin, his place of birth, Mr. Purdon traces Shaw's subsequent emigration to London, his associations with the numerous Socialist groups of the time, and his transition from art, music and drama critic to professional playwright.

Part Two, "The Dramatist," is an analysis of Shaw's particular characteristics as a playwright, his comic genius; his indebtedness to Shakespeare, Ibsen, Chekhov, and other dramatists; and his choice of themes and characters.

Part Three, "The Plays," presents in chronological order every play that Shaw ever wrote. A brief synopsis of each play is given, as well as a description of the characters, directions for the production of the play, and a historical note on the outstanding performances. Included in the book are indexes to the plays and the characters, as well as a general index for convenient reference.

The book is a perfect introduction to the works of the great dramatist, and the synopsis and background material on the man

Black bean soup is traditionally served with slices of lemon and wedges of hard-cooked egg, but some tradition-breakers insist that fluffs of sour cream dusted with fresh ground mulling really do justice to this good soup.

The Snyder (Texas) Daily News, Wed., Oct. 2, 1963

Book News

Either I shall be remembered as a playwright as long as Aristophanes and rank with Shakespeare and Moliere, or I shall be forgotten before the end of the century. These were the words spoken by George Bernard Shaw, the dramatist whose plays have created excitement and exhilaration among scholars and theatergoers for over fifty years.

A Guide To The Plays of Bernard Shaw was started by C. B. Purdon twenty years ago, during Shaw's lifetime, and was only recently completed. The book gives a descriptive and critical account of Bernard Shaw's work as a playwright and includes pertinent information on his personal life and the background of his plays. The author has divided the book into three main sections: "The Man," "The Dramatist," and "The Plays," the third section containing Shaw's complete dramatic works from "Widowers' Houses," performed in 1907, to "Why Should We Not?" written when Shaw was 94.

Part One, "The Man," is a brief, but thorough, biography of the playwright, which opens with his early life in Dublin, his place of birth, Mr. Purdon traces Shaw's subsequent emigration to London, his associations with the numerous Socialist groups of the time, and his transition from art, music and drama critic to professional playwright.

will provide answers to the questions asked by both the average theatergoer and the student of drama.

WOMEN'S CALENDAR

THURSDAY
Gamma Epsilon Chapter of ESA meets with Ida Stokes, hostess. City Council P-TA meets at 1:30 p.m. at school administration building.

FRIDAY
Duplicate Bridge at Country Club, 9:30 a.m. Open. El Felix Club meets at 2:30 p.m. with Mrs. Warren Sturgeon, 2904 Third-fourth street.

SATURDAY
The American Association of University Women will hold their annual scholarship rummage sale on the lot north of the post office.

IRA NEWS

BY NORINE MURPHY
Much interest is being shown by the Ira FHM boys in their projects for this school term. One of which is raising pigs to show in the spring and another is calves.

The many friends of Mrs. E. E. Carlie will be glad to know that she has returned home from the hospital.

Among those attending the Fifth Sunday Singing at the Morning Side Baptist Church in Snyder were Nettie Webb and Mr. and Mrs. Joe Smith.

The R. C. Howard family has moved into their new home.

Style Brief

AP Newsfeatures
Cire is a new word which has found its way into fashion stores originating both from Paris and New York during the past year.

It is a fabric with a glazed, irregular surface which in its most popular color, black looks like anthracite coal.

Fashion writers struggled to describe it adequately after its introduction by designers—counting Yves St. Laurent, Louis Feraud and Nina Ricci.

What is it? It is basically a double fabric with anel on the surface and other yarns on the back to create a quilted, or puffy texture. This is flattened out, waxed and lacquered to provide its glazed and shiny surface.

Since it is both wrinkle-resistant and water-repellent, it lends itself to glamorous rainwear as well as opulent formalwear.

At the moment the material is only available in Europe, but American fabric converters are working with researchers in order to develop the effect.

No Nagging Backache Means a Good Night's Sleep

Nagging backache, backache or muscle aches and pains may come on with surprising frequency, especially on days of stress and strain. And folks who eat and drink unhealthily sometimes suffer from backache, too, with that restlessness, uneasiness and sleeplessness that nagging backache makes you feel. Dragged-out, miserable, with restless, sleepless nights, don't wait, try Don's Pils, get the same happy relief millions have enjoyed for over 40 years. For only Americans ask for the large size, Get Don's Pils today!

BUT WHO SIGNS THOSE CHECKS, ANYWAY?

YOU'VE GOT TO STOP SPENDING SO MUCH!

Red Cabbage In Green Salad! There Ought To Be A Law

BY INEZ ROBB

There has never been a moment when I wasn't ready, with food-hardness aforesaid, to fight City Hall, the best of two falls out of three and never mind the odds. Combat ready as I am, in the good fight against billboards, lettuce in sandwiches, catsup on French-fried potatoes and other marks of the beast, nonetheless I do feel that my life will be even more rugged in the future since Madison Avenue has thrown down the gauntlet.

The red cabbage combine, a sinister group of farm interests, has just hired an advertising agency to con the American people into believing that red cabbage is an edible vegetable. Edible, that is, by human beings.

It is true that in one or two of its cooked forms, particularly when teamed with apples or other neutralizing agents that kill its primary flavor, red cabbage can be eaten, but just barely. Like the eggplant, another spurious vegetable, it is better when cooked with a lot of expensive ingredients that completely conceal the original taste.

The finest recipe for red cabbage in my experience is in an old 15th Century cook book that says: "Take a red cabbage, walk to the barn and feed it to the nearest cow. If you don't mind how the

milk tastes later."

If there are those in the audience who want to take a red cabbage and go to the trouble of camouflaging it with chestnuts, white wine, seedless raisins and apples, well and good. I must feel for them the same tolerance as for those misguided persons who live under the misapprehension that Brussels sprouts are fit for human consumption.

However, it is my conviction that millions of Americans are awaiting a champion who will join the fight to keep raw red cabbage out of salads. Within the past decade, raw red cabbage has been stylishly steamed into the cabbage bowl.

Pants Just Too Tight

DENVER, Colo. (AP)—A pair of tight-fitting pants failed an attempt to hold up.

Ethel Lambouths told police a bearded man walked into the variety store where she works Tuesday and asked about an article in the window.

As she turned her back, the man said, "Don't turn around."

Mrs. Lambouths whirled in surprise and saw the man fumbling with his pants pocket, apparently trying to draw out a gun. Mrs. Lambouths hustled him out the door.

from coast to coast.

It has come to pass, in many a restaurant, that the mixed green salad is now half red cabbage, a serious situation that flatly contradicts the name of the salad in the first place.

One reason the three-hour-for-luncheon club has grown with such rapidity throughout the nation is not the Business Man's Blue Plate Martini Special but the red cabbage in the salad. It is estimated that the man-hours lost in picking red cabbage out of mixed green salad in the past 10 years would have sent a man to the moon and back, built a more perfect Union and rid the country of crab grass.

Go into any restaurant. Study the diners. And you will discover that this nation is not drinking itself under the table, but working its fingers to the bone trying to separate the red cabbage from the chieft.

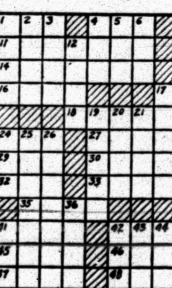

Take red cabbage out of the green salads of America, and this country will regain the tire and strength to get the economy off dead center and start moving again! As a nation, we cannot expect to rise to the heights while our men and women must expend their energies extracting from a green salad the red cabbage that shouldn't be there in the first place.

Time is money, and who knows but this red cabbage infiltration may be a subtle Communist plot to squander our substance in futility?

Americans, arise! Write your Congressmen, demanding legislation prohibiting red cabbage in green salads. You have only your indignation to lose. The 1960 legislature appropriated \$50,000 for the memorial.

How To Tell If You're Middle Aged

By HAL BOYLE

NEW YORK (AP)—How can you tell whether you are middle-aged?

This point is puzzling to many who have heard that the harvest years are the best years, but aren't quite sure whether they themselves have reached this

Actually, however, there is little doubt about it once you really do reach middle age. You're there for sure if—

You feel too old to touch football but too young for croquet.

Your scalp gets sunburned higher up than it used to, and it takes you less time in the morning to comb your hair.

While reading the evening newspaper, you reach down more often to pat your old dog—and hope he won't insist on taking you for a walk.

Every new joke you hear reminds you of an old joke that seems funnier. In fact, anything that happens reminds you of something that happened earlier—and was better.

It comes as a big surprise that Stan Musial is retiring from baseball. Why it seems like only yesterday he was a kid just breaking into the game.

Everybody in the house seems to be engaged in a conspiracy to leave the lights turned on and run up your electricity bills.

The only time you really sleep well is while listening to an after dinner speech.

You no longer have to attend PTA meetings—and kind of miss them.

Most of your old friends either are going to the hospital for an operation, or recuperating from one. You spend more money buying get-well cards than going to night clubs.

You wonder why the younger generation has never been able to produce another poet like good old Edgar Guest.

The girls who ride on the buddy seats of motorcycles are prettier than any you'll go for a spin with in a rented Cadillac.

It bores you to death to see a problem play at the theater. All you want is a front-row seat at a cheerful musical comedy with a song and dance line.

You think your neighbor's high school son is spoiled because he isn't interested in digging crabgrass out of your lawn for four bits an hour. Why, at his age you'd have been glad to do it for half that kind of money.

On election day you get up early so you can be the first to vote against any candidate who wants to reform anything—because you're cynically certain that no politician will ever carry out a promise.

You have no vices left, but your chief remaining delights are the bad habits your doctor tells you it is now time to break.

That's middle age—the harvest time!

Sen. Barkley's Statue Unveiling Set Thurs.

FRANKFORT, Ky. (AP)—A bronze statue of former Vice President and U.S. Senator Albert W. Barkley will be dedicated Thursday in the state Capitol rotunda. Barkley's widow and his son, David, of Paducah, Ky., will attend the unveiling of the 7-foot, 4-inch monument.

Barkley's statue was finished last summer by sculptor Walter Hancock and is the fifth in the Capitol rotunda. The 1960 legislature appropriated \$50,000 for the memorial.

Junior Editors Quiz on LIGHTNING

QUESTION: What does heat lightning come from?

ANSWER: Lightning is a brilliant flash of light caused by the sudden flow of electric current between clouds or from clouds to earth. As lightning moves, it heats the air in front of it and this makes the air suddenly expand. It moves violently outward and crashes against the cool air outside. The collision of hot and cold air causes the thunder clap.

The flash in the sky which Bob and his sister, Jenny, have seen in our picture is something sometimes called heat lightning or sheet lightning. It does not have the sharp exact form of a close-by lightning flash, and usually no thunder is heard. This kind of lightning is simply the usual kind which is discharging a long distance away. Why isn't thunder heard? Because light travels very much faster than sound. It moves violently outward and crashes against the cool air outside. The collision of hot and cold air causes the thunder clap.

FOR YOU TO DO: Because light travels faster than sound, it is possible to estimate roughly how far a thunder storm is from you. Try this. Sometimes, about the seconds between the flash and the roll of thunder. The storm should be about a mile away if you can count five seconds between flash and thunder.

(Linda M. Cooper of Fayetteville, Pa., wins today's grand prize of a 20-volume set of World Book Encyclopedia, for this question. Mail yours on a postcard to Junior Editors in care of this newspaper, and you may win a set too.)

Nat'l Geographic Magazine Celebrates 75th Birthday

By J. W. DAVIS

WASHINGTON (AP)—A great American success story that is celebrated here this week.

It's the 75th anniversary of the National Geographic, a magazine that many Americans have grown up with in their homes. Many others have whiled away apprehensive time reading it in doctors' offices.

The miracle of this success is that a slim, scholarly publication that started weekly in October 1888 has grown today to be a giant in circulation (3,535,000), fat with advertising, and with never a compromise on principles or goals. The magazine goes to members of the National Geographic Society and is not sold on newsstands.

It's dismaying to think how many magazines once sturdy and flourishing, have folded their pages and silently stolen away. In recent years alone, Collier's, with a huge and growing circulation, went out of business. The Saturday Evening Post, a true giant of the decades, has admittedly been losing money heavily. Corset, the Woman's Home Com-

panion, and the American Magazine are no more.

Going back further, the Literary Digest, the Pathfinder, the Review of Reviews, McClure's, Scribner's and the Century are just a few once-popular but now vanished contemporaries of the Geographic.

The man credited with being the most builder of the National Geographic Society and its magazine is Gilbert Hovey Grosvenor who, from 1899 to 1954, edited 600 issues of the magazine with more than 3,000 articles.

In a reminiscent narrative that features the diamond anniversary issue this month—the largest in the magazine's history—Dr. Grosvenor, now chairman of the society's Board of Trustees, tells of the early struggles and the advances through the years.

For example, even in the first short money days, Grosvenor laid down a policy that still holds—there would be no advertising of liquor, beer, wine, tobacco or patent medicines.

An Ibbel Ross wrote in Scribner's 25 years ago:

"Dr. Grosvenor once said that he would take his readers around the world and that he would take them first class."

"He has done it and, most remarkable of all, he has done it without letting his frigate travelers have a drink, a smoke or a bicarbonate of soda."

More positively, he took everything into his field of operations. He recalls: "I thought of geography in terms of the Greek root: geographia—a description of the world. It thus becomes the most catholic of subjects, universal in

appeal and embracing nations, people, plants, animals, birds, fish."

Here may lie the key to the geographic's success:

"Long ago I evolved an editorial policy—

"One principle was absolute accuracy. Others required that each article be of permanent value and avoid partisanship and controversy."

"I also decided that no derogatory material would be printed about any country or people. The Geographic has always dealt in facts, not bias, rumor, or prejudice."

The Geographic's leadership in photography, especially color photography, has been generally conceded.

President Franklin D. Roosevelt followed the course of World War II on National Geographic maps, mounted on rollers in a cabinet behind his White House desk.

Also, the society came to the aid of Gen. Dwight D. Eisenhower, who was having trouble during the war in getting through the British reserve of Gen. Sir Alan F. Brooke, chief of the imperial general staff. He broke the ice by presenting to Sir Alan, an avid bird watcher and photographer, a copy of the Society's book of birds.

What about those pictures of native women, dusky and largely bare that the Geographic has carried so often over the years?

Says Dr. Grosvenor: "National Geographic never dressed tribal women prudishly in Western clothing; we pictured them in their natural state."

Absolute accuracy was the first principle.

Goldwater Denies Reports Of Conservatism Hedging

By JACK BELL

WASHINGTON (AP)—Sen. Barry Goldwater said today those who contend he is hedging his conservatism to angle for the 1964 GOP presidential nomination have not listened to what he is saying.

He said this means that the President can and should expect a governor or state legislature request them, to put down an insurrection or rebellion and to enforce a federal court's edict.

But he said he doesn't agree with the Kennedy administration contention that the federal government has authority to intervene in the absence of these constitutional provisions—to enforce the general civil rights of any individual.

"I don't buy that at all," he said.

Goldwater said he wasn't moving toward the center in subscribing generally to remarks made by Gerald K. Skibbins, Princeton, N.J., research executive, and erroneously attributed to the Arizona senator by the Congressional Record.

Goldwater corrected the record Tuesday to show that Skibbins, rather than he, made an Aug. 24

speech in Montclair, N.J. The senator said he had ordered the speech put in the Record but did not know how the mixup occurred.

Flora To Hit Hispaniola On Thursday

MIAMI, Fla. (AP)—Hurricane winds, expected to sideswipe southern Hispaniola Thursday en route toward Jamaica.

Gale warnings were posted by the U.S. Weather Bureau at San Juan for the peninsula of Barbados, a southern projection of the Caribbean.

Applied to peninsula Presque Isle Du Sudouest in Haiti, The Dominican Republic and Haiti share the island of Hispaniola.

At 8 a.m. (EST) Flora was estimated to be 340 miles southwest of San Juan, Puerto Rico, or near latitude 14.8 North, longitude 69.4 West. The storm moved west-northwest at 14 miles an hour and little change in speed or direction was expected immediately.

The hurricane raked the island of Tobago Monday.

The Weather Bureau said Flora would pass Thursday morning less than 100 miles south of the Haitian peninsula. Tides of five to eight feet above normal are forecast.

'Black Sheep' Clipped

MINNEAPOLIS (AP)—The Black Sheep Club, a members-only bar and cafe, was sheared Tuesday by two bookkeepers who claimed the club owed \$1600 in back wages.

Yvonne Schaeffer, 22, and Patricia Lee, 26, appeared with a court order, an attorney and a moving van—and interrupted the luncheon trade by carting off the bar fixtures, the money in the till and about everything else movable.

The shearing, which the club will be sold to cover the judgment. The club says it'll get new furniture.

Just Wasn't His Night

PROVIDENCE, R. I. (AP)—Lt. Austin Nagle, 42, reached for his boots Tuesday night as he went to slide down the brass pole to answer a fire alarm. He missed the pole and fell 14 feet to the floor of the broad street fire station. His left leg was fractured.

He ordered the manager of another store to remain in the building and do nothing for five minutes. He returned a few minutes later, still smiling, "to see if you're following instructions."

At a third supermarket the telephone rang while the holdup was in process. The gunman answered and told the caller, "okay, okay." He then shouted to a clerk in the store.

"Hey, Elbert, your wife says to bring home a loaf of bread and a can of tuna!"

He missed the pole and fell 14 feet to the floor of the broad street fire station. His left leg was fractured.

Crystal City Councilman Posts Bond

CRYSTAL CITY (AP)—Mario Hernandez, who broke with fellow city council members and has been working with an anti-administration group, has posted \$500 bond on a charge of carrying a pistol illegally.

In addition, two associates in the Citizens Association Serving All Americans said efforts are being made to expel Hernandez from the organization.

Hernandez and other councilmen defeated Crystal City incumbents last spring with support from the Teamsters Union and the Political Association of Spanish-Speaking Organizations.

Subsequently, however, Hernandez denounced those groups and became active with the CASAA, which seeks to unseat the present council. It also is pledged to fight "outside interests" expected to come to bid for control of county government next year.

Hernandez and Police Chief Ray Perez were unavailable for comment on the gun carrying charge. County Atty. Curtis Jackson said he understood Hernandez was accused of taking the pistol into a tavern here Sunday night.

CASAA directors met Tuesday and Hernandez was among those present. Two of the directors reported Hernandez was expelled but one later said the matter remained "up in the air."

Dollar Sign Spurs Podres

By CHARLES MARER
Associated Press Sports Writer
NEW YORK (AP)—Johnny Podres has a history of pitching his best when they flash him the dollar sign.

So, although Podres gave the most atrocious performance of his career only four days ago, Dodger Manager Walter Alton is standing by his earlier decision to start the 31-year-old left-hander Thursday in the second game of the World Series.

In what was billed as a World Series tuneup, Podres was assigned to go five innings Saturday night against the Philadelphia Phillies.

Podres had John been compelled to go the full five, the Phillies might still be battling in the bottom of the fourth.

Before he was mercifully excused with two out in the second, the Phils had scored eight runs on 12 hits, two homers, a triple, a double and eight singles.

"You can throw that game out," Podres said today. "I've already forgotten it. The only game I've got time to think about now is Thursday's."

"Every game I go out there and pitch to win. But if I'm going to pitch a game that really means something, I get keyed up a lot more. I seem to find a little extra, throw a little harder."

Podres beat the Yankees twice in the 1955 World Series, pitching a 2-0 shutout in the seventh game, aided by Sandy Amoros, a great one-handed catcher. He hasn't pitched against them since the spring of 1957.

"They've got some new guys like Pettitte and Tresh, that I've never seen before," John said. "But we've got a pretty good book on the Yankees hitters. At least it looks like a pretty good book. I just hope it works as good as it looks."

Ivy League Area Leads In Figures

NEW YORK (AP)—There's a distinct Ivy League tinge in the first set of team football statistics issued this season by the NCAA Service Bureau.

After just one game each, Pennsylvania is the national major college leader in total offense, rushing offense and scoring. Princeton leads in total defense and rushing defense and Cornell in punting.

Rutgers, a favorite playmate of the Ivies, is tops in forward pass defense and Columbia, Harvard, Dartmouth and Yale are among the leaders in various team statistical departments. The non-Ivy leader in forward passing offense is Southern Methodist.

Leaders among the major teams that have been out twice are Navy in total offense and forward passing, Navy and Air Force tied in scoring, Georgia Tech in total defense and rushing defense and The Citadel in pass defense.

Army's place at the top is in field goal kicking, where there has been some record production so far this fall. The Cadets have kicked three to tie for the lead with Texas Tech, Georgia Tech and Texas Christian. In 118 major college games so far, 41 teams have kicked 50 field goals, four ahead of the record for that number of games.

Another feature match pitted defending champion Raymond Marshall of Lubbock and J. H. Wallace of Wichita Falls. Marshall defeated John Kubit, 3 and 2 and Carson downed C. H. Chavard 2 and 1 in Tuesday's first round.

Figure one on 1 up in 30 holes over Al Jones of Harlingen. Wallace beat Chuck Schaeffer 2 and 1.

Match play continues until the semifinals, but the championship rounds will be determined by an 18-hole medal round Friday.

Other first round results:

Pete Edwards defeated Paul Daugherty by default, 3 and 2. Conway Craig defeated Clarence Giesen, 3 and 2. George Brewer Jr. defeated W. A. Males, 3 and 2. J. H. Wallace of Wichita Falls defeated John Kubit, 3 and 2. B. C. Nelson Sr. defeated Roy Cooper, 1 up. Robert Carr defeated Allen Springer, 3 and 2. C. E. Covington defeated Paul Moore, 1 up. John Bohlender defeated H. F. Templeton, 1 up. Ewell Mills defeated Harland Brittain, 3 and 2. Ota Meredith defeated M. P. Wilson, 3 and 2. James Hibberd defeated J. M. Riley, 3 and 1.

BILLY STEWART

JACKIE STEWART

Know The Tigers

A name heard often over the public address system at Snyder varsity games is "Stewart." One of the reasons is that there are two of them, Jackie and Billy. This pair of twins not identical—see a lot of football Jackie, who weighs 178 pounds, is a starting guard, while 161 pound Billy plays at end. Both boys played on the varsity two years ago while sophomores, but Jackie received a broken leg and had to lay out last year.

They intend to go to college, but are undecided as to where. Jackie hopes to major in history, while Billy wants to study English. They are the sons of Mr. and Mrs. Charles S. Stewart who live on the Colorado City highway.

Hot Senior Match Due

SAN ANTONIO (AP)—Herzie Carson of San Angelo and H. R. Pipkin of Fort Worth were expected to put on one of the hottest matches today in the State Senior Golf Tournament.

Another feature match pitted defending champion Raymond Marshall of Lubbock and J. H. Wallace of Wichita Falls. Marshall defeated John Kubit, 3 and 2 and Carson downed C. H. Chavard 2 and 1 in Tuesday's first round.

Figure one on 1 up in 30 holes over Al Jones of Harlingen. Wallace beat Chuck Schaeffer 2 and 1.

Match play continues until the semifinals, but the championship rounds will be determined by an 18-hole medal round Friday.

Other first round results:

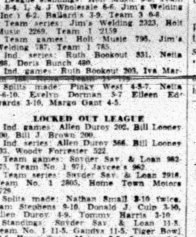

Pete Edwards defeated Paul Daugherty by default, 3 and 2. Conway Craig defeated Clarence Giesen, 3 and 2. George Brewer Jr. defeated W. A. Males, 3 and 2. J. H. Wallace of Wichita Falls defeated John Kubit, 3 and 2. B. C. Nelson Sr. defeated Roy Cooper, 1 up. Robert Carr defeated Allen Springer, 3 and 2. C. E. Covington defeated Paul Moore, 1 up. John Bohlender defeated H. F. Templeton, 1 up. Ewell Mills defeated Harland Brittain, 3 and 2. Ota Meredith defeated M. P. Wilson, 3 and 2. James Hibberd defeated J. M. Riley, 3 and 1.

During a brief business session, the Quarterback Club voted to allocate \$250 toward the purchase of jackets for Snyder athletic teams to wear on road trips. A campaign to acquire the jackets was launched some two weeks ago by individuals, business firms and organizations are participating.

Know The B Team

Steve McMahon is a 16 year old sophomore who attended Travis Junior High last year. He weighs 135 pounds and plays end on the Snyder B Team. He showed his ability to catch passes in the open against Sweetwater as he caught 400 for 40 yards.

Steve is the son of T. McMahon of 419 Twentieth Street. The McMahon's moved to Snyder from Amarillo. He is a member of the Letterman's Club.

What Those Managers Really Mean

By JIM BECKER
Associated Press Sports Writer

NEW YORK (AP)—What did Walter Alton of the Dodgers say to Manager Ralph Houk of the Yankees today, just before the World Series started?

"Good to see you, Ralph," he said, "and the best of luck."

"You wish this what he was really thinking?"

"Hah, good to see him. He's got Mantle healthy, and Mantle healthy, and that damn infield and that outfield. You can't get a ball through the infield, and with that outfield you're lucky to get one base on a single. Then he has Howard catching, and he says Whitey Ford in the first game. We may not get five runs all week."

And what does Houk say to Alton?

"Good to see you, Walter, and best of luck."

And is this what he really means?

"Luck, hah. He's got the greatest pitcher in the world, who needs luck? And that Willie and those Davis boys are liable to run us crazy. I've been reading all week about how they don't hit. With that pitching who has to hit? And they hit .251, anyway, and what did we hit? A .242, that's what. One percentage point, and you read in the papers that we're big monsters picking on the Little Leaguers."

HAS HIS WORK CUT OUT FOR HIM—Tony Florio, 16-year-old batboy for the New York Yankees, loaded down with bats and protective batting helmets, has a full size job as he climbs dugout steps at Yankee Stadium in New York. Yankees were holding final workout prior to World Series opener with the Los Angeles Dodgers. (AP Wirephoto)

Mantle Almost Certain To Have Surgery After Series

By MIKE RATHET
Associated Press Sports Writer

NEW YORK (AP)—It's "fairly definite" that Mickey Mantle, the New York Yankees' \$100,000-a-year outfielder who has undergone operations ranging from his toes to his tonsils, will be forced into still another right after the World Series.

Official confirmation of the need for an operation on Mantle—removal of loose cartilage in his left leg—came from Dr. Sidney Gaynor, only hours before the 31-year-old slugger was scheduled to lead the Yankees onto the field for the Series' opener against the Los Angeles Dodgers.

"I think the need for an operation is fairly definite," said Gaynor, the Yankees team physician. "The way the leg has acted this year, an operation is called for."

Asked if that meant an operation was an absolute necessity, Gaynor elaborated.

"It's a free country and nobody has to have an operation," he said. "But I think the leg, both before and after the Series, he should have it operated on. He shouldn't take any chances. He might not be able to play a full year on it, the way it is now."

Mantle's latest bout with the scalpel dates from a June 5 game in Baltimore when he crashed into the center field fence chasing a fly ball by Brooks Robinson, caught his spine in the wire fence and twisted his left foot as he fell.

A preliminary diagnosis revealed only a fractured foot, but later examinations showed that more serious torn cartilage. That has been largely responsible for Mantle's appearance in only 65 games this season.

Asked if that meant an operation was an absolute necessity, Gaynor elaborated.

"It's a free country and nobody has to have an operation," he said. "But I think the leg, both before and after the Series, he should have it operated on. He shouldn't take any chances. He might not be able to play a full year on it, the way it is now."

Trojan Guard Is Picked As Top Lineman

By TED MEIER
Associated Press Sports Writer

NEW YORK (AP)—It was hotter than blazes in Memorial Coliseum at Los Angeles last Saturday where Oklahoma regained national prominence in college football by upsetting Southern California 17-12.

But the 105-degree temperature didn't fade Damon Bane, Southern Cal's All-America guard. The Trojan's first defeat in 13 games couldn't be traced to him. His outstanding performance earned him the nod today as the Lineman of the Week by The Associated Press.

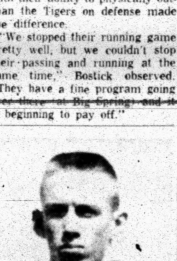

Bane turned in a superb game, one of the best defensive games in USC records. He made five unassisted tackles, nine aided tackles and got assists on 12 others. Coach John Mackay could have used some more Banes.

Jimmy Jones of Wisconsin and the Sanpion of New Mexico State both ended, with high up in the voting by sports writers and broadcasters in the weekly AP poll.

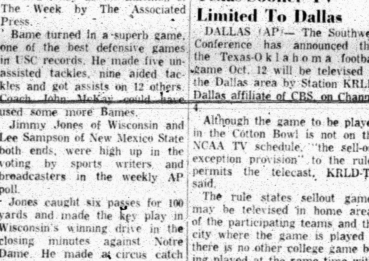

Jones caught six passes for 100 yards and made the key play in Wisconsin's winning drive in the closing minutes against Notre Dame. He made as circus catch with one hand good for 16 yards and a first down, on the ND 15. The Badgers went on to win 14-9. Sanpion was an offensive and defensive terror against Arizona State. He romped 80 yards for a touchdown on the old end-around play and gained 15 yards on the same play on another occasion.

During a brief business session, the Quarterback Club voted to allocate \$250 toward the purchase of jackets for Snyder athletic teams to wear on road trips. A campaign to acquire the jackets was launched some two weeks ago by individuals, business firms and organizations are participating.

North Texas, Wichita Backs Rep Honors

KANSAS CITY (AP)—Bobby Smith of North Texas State, an outstanding runner, and Henry Schulte of Wichita, an all-around threat, were named backs of the week by Missouri Valley Conference sports writers today.

Smith, a 190-pound senior, has carried the 112 yards in nine efforts as North Texas mauled Louisville 26-6. That pushed his two-game rushing total to 217 yards in 21 carries.

Schulte completed 10 of 16 passes for 173 yards and a touchdown in Wichita's 20-16 loss to Boston College, scored himself on a one-yard keeper play, kicked the extra point and booted a 23-yard field goal.

Porkers, Penn State Ga. Tech Are Picked

By HAROLD CLAASSEN
Associated Press Sports Writer

NEW YORK (AP)—The trouble in making the weekly college football selections is that not enough of the teams believe what they read. There were 14 such non-conformists last week but 30 others saw the light, for a 24-1 average.

This week's picks:

Alabama over Vanderbilt: Joe Namath Mike Fracchia & Co. should win this one while concentrating on the outcome of the World Series game.

Texas over Oklahoma State: The Longhorns want this one. Northwestern over Illinois: Illinois is on the upgrade but so is Tom Myers, the Northwestern quarterback who already is regarded by many as the best in the land.

Georgia Tech over Louisiana State: This could easily go the other way, especially because it is being played in the Tigers' lair. Southern California over Stanford: The Trojans will move the Big Teners just as easily.

Pittsburgh over Atlanta: Fred Taylor is the answer to Coach Nick Litchfield's suggestion to Coach Michelosen that the Panthers should play a more daring and entertaining type of football. Mississippi over Houston: With-

out too much trouble.

Duke over Maryland: The game highlights the Tobacco Festival and the nation's television screens.

Penn State over Rice: Penn State has almost as much power and a lot more finesse than a year ago when it was the East's best.

Nebraska over Iowa State: The Cornhuskers veteran lineup includes Dennis Clarke, a quarterback who can do everything even to playing defense.

Ohio State over Indiana: The Buckeye line is too potent.

Arkansas over Texas Christian: The point is that Arkansas lost by a point last weekend and will be out for revenge.

Missouri over Idaho: Almost a walk.

Shipping over the others in a hurry:

Friday night

Boston College over Detroit, the Citadel over George Washington, Miami over Tulane.

Saturday

EAST: Colgate over Boston University, Princeton over Columbia, Cornell over Lehigh, Delaware over Gettysburg, Harvard over Rutgers, Dartmouth over Pennsylvania, Syracuse over Holy Cross, Villanova over Buffalo and Wake Forest over Brown.

MIDWEST: Xavier (Ohio) over Cincinnati, Colorado over Kansas State, Minnesota over Army, Purdue over Notre Dame, Memphis State over Tulsa, Miami (Ohio) over Western Michigan.

SOUTH: Auburn over Kentucky, Clemson over North Carolina State, Virginia Military over Davidson, Florida over Richmond, Furman over William & Mary, Georgia over South Carolina, Tennessee over Mississippi State, Virginia Tech over Virginia, North Carolina over Wake Forest, Oregon over West Virginia.

SOUTHWEST: Air Force over Southern Methodist, Texas A&M over Texas Tech, New Mexico State over Tulsa, New Mexico over Texas State over North Texas State.

FAR WEST: Brigham Young over Montana, Arizona State over Colorado State, New Mexico over Utah, Baylor over Oregon State, UCLA over Stanford, Utah State over San Jose State, Washington over Iowa, Kansas over Wyoming.

Hotshots Nip Bears By 6-0

The Hotshots pushed over a touchdown in the fourth quarter Tuesday to gain a 6-0 decision over the Bears in Boys' Club Pee Wee Football League play.

Rocky Land carried over the score from two yards out. Land and Tommy Favor were leading ground gainers for the Hotshots. Top blockers for the winners were Bobby Thompson, Mike Fisher, Steve Boydston, David Wood and Dorman Wukken, while Land, Favor and Randy Gay paced the Hotshot defense.

For the Bears, Stewart Sims and Don Light were the top ball carriers. The Bears' best blockers were Gary Smith, Bobby Gardner, William Brien, Dravin Fagan and Dennis Williamson, while the leading tacklers were Jimmy Blay, Bobby Roe, Don Light, Darrell Ross, Mike Blythe and Jerry Martin.

Next Pee Wee action will match the Colts and the Frogs at 4:30 p.m. Thursday on the Central Elementary gridiron.

Lamar Teams Play Here On Thursday

There will be only "half a card" this week in junior high football competition, but all of it will be under the home gridiron.

And the stage is set for a red hot battle as Lamar 8th grade teams on Goliah of Big Spring in the Thursday evening final in 7:30. The Goliah 8th grade team will meet Lamar 8th at 6 p.m., while the Colorado City 7th graders will open the three-game card when they meet Lamar 7th graders at 5 p.m.

Travis teams are taking the week off from competition.

All of the local junior high teams are unbeaten this season, but there is a tie on the record and it was a scoreless affair between Goliah 9th and Lamar 9th in the season opener last Sept. 12. So, that means that nothing was settled in the first game, and now the two teams are matched again.

It will be the second week in a row for Goliah 9th to appear here. The Mavericks dropped a 24-16 decision to Travis 9th in a lively contest here last Thursday in which the issue was in doubt right down to the wire.

LOOK AT THIRTY DAYS OF WEATHER — These based upon those issued by the U. S. Weather Bureau, show the anticipated precipitation and temperature for the next thirty days. (AP Wirephoto)

Signing Bill 'Big Pleasure'

WASHINGTON (AP) — President Kennedy signed today, with "great pleasure" a bill granting an average 14.4 per cent pay increase to most of the 2.7 million men and women in the armed forces.

In a cabinet room ceremony, Kennedy used more than a dozen fountain pens to sign the measure, which will cost the government \$1.2 billion a year. It is the biggest military pay boost in history.

Kennedy said that, while he is impressed with new and powerful weapons, he is mindful of the fact that it is men who "manage them, control them, and have the will to direct them."

He said Americans in uniform serve with sacrifice and dedication, and that, on them, "the peace of this world of ours and its security depend in good measure."

Members of Congress from both parties and a sprinkling of high military officers were among the two dozen official witnesses at the ceremony.

After signing the law, Kennedy distributed the fountain pens to the Congress members present.

Congress completed its work Tuesday when the House passed the bill setting up the new military pay scales by a 332-5 vote. The bill set Tuesday for the start of the raise.

Group Pondering Dredging Facts

By TOM JOHNSON
AUSTIN (AP) — The State Parks and Wildlife Commission began the study today of testimony from a two-day hearing on whether to permit more shell dredging in Galveston and Trinity bays.

The commission now must decide whether to alter the stand it took Sept. 16, when it refused requests by four dredging firms for immediate extended access to shell deposits.

Witnesses opposing the extension said Tuesday that plentiful shell deposits exist south of Galveston and Trinity bays. They specifically cited Matagorda and San Antonio bays.

Major opposition to increased dredging has come from civic leaders, oyster fishermen and conservationists.

Mrs. F. E. Dunn of San Leon said the Galveston Bay area and its live oyster reefs should remain available "for the greatest number of people" and not be turned over to commercial interests.

Joe Lagow, Chambers County commissioner, testified that only a seven-year supply of shell remains in Galveston and Trinity bays, including reefs. He said some solution would have to be found by then.

"If it can be done then, it can be done now, and the reefs could be saved," Lagow said. He added that if the commission approves extended dredging, "the reefs will be destroyed not for public necessity but for private gain."

Larry Hornbeck of Port Bolivar, representing the Texas Oyster Growers Association, told the commission that dredging of the live reefs would doom oyster fishing in the area.

"I don't want to see the dredging companies go out of business. But I have to make a living too," Hornbeck said.

Parks and Wildlife Department rules now prohibit the dredging of live oyster reefs.

Opponents contend that once a reef is dredged, it is destroyed forever.

Proponents of the move say existing shell in dead reefs in Galveston and Trinity bays is nearly exhausted.

Cecil Haden, president of the Houston dredging firm of W. D. Haden Co., testified that the industry is being pushed toward the end of supply.

"As for our company, we're just flat out of business," Haden said.

"Our equipment is tied up for lack of shell."

Haden asserted that favorable action on the dredgers' request is "not only reasonable but imperative."

Dredging spokesmen maintained at the hearing that such industries as cement and paper producers on the upper Texas coast are in financial jeopardy due to the decreasing supply of shell.

Looking Back

10 Years Ago
From The Snyder Daily News
Oct. 2, 1953

The county's preliminary work toward pavement of a road from U. S. Highway 180, just west of the city limits, southward to the West Elementary School, then west to the airport, has been completed. It was not known when the state would begin paving.

5 Years Ago
From The Snyder Daily News
Oct. 2, 1958

Work is to begin next week here on the new junior high school in West Snyder, which is to cost \$397,800.

WACO — The 10th Court of Civil Appeals reversed today a lower court decision granting two Bryan women permission to attend all-male Texas A&M College.

(Attorney General Will Wilson contended that A & M does not offer courses appealing to women.)

BIRTHS

Mr. and Mrs. Mike Morris are parents of a daughter, Tonja Michelle, born Sept. 22, in St. Luke's Hospital in Houston.

Mr. and Mrs. Evaristo Perez, General Delivery, are the parents of a 6 lb. 3 oz. baby boy born at 8:42 a.m. Oct. 1 at Cogdell Hospital.

Mr. and Mrs. Albert Rainwater, Andrews, are the parents of a 6 lb. 5 oz. baby boy born at 6:06 p.m. Oct. 1 at Cogdell Hospital.

Mr. and Mrs. Bill Brannon of 1906 East First Place, Lubbock, are parents of a baby daughter born Sept. 19. Mrs. Brannon will be remembered as Margaret Nell Steel of Dermott.

The Brannons have one other child, a boy, who will be three in Nov.

Grandparents are Mr. and Mrs. W. T. Steel of Dermott and Mr. and Mrs. Roy Brannon of Post.

Mr. and Mrs. Leon Deere are parents of an 8 lb. 15 oz. son born early today in Arlington Memorial Hospital in Arlington. Mrs. Mattie Morris of Snyder is the maternal grandmother, and the paternal grandparents are Mr. and Mrs. Herman Deere of Snyder.

Rasutoland's principal exports are fine merino wool and mohair.

Crop Failure, Chinese Reds Catastrophes For Nikita

AP News Analysis
PRESTON GROVER
SCOW (AP) — Premier Khrushchev is facing a crisis today probably the peak of his power and at the same time the end of his major catastrophes in one of the most important areas of his executive in many another.

He has seen his cherished Communist camp break in two, with the largest population on the other side.

He is faced with perhaps the crop year in his Soviet Union since World War II, despite the promises that things were better and the outlook was brighter.

And readers knew today how much he was in a speech published five days after it was made.

For the first time, he told his people he had to buy 6.8 million tons of wheat from Canada and 1.8 million tons from Australia. He didn't say how much more scarce than wheat was money. But abroad it was estimated at more than \$500 million and probably nearer \$700 million.

He told what remedies had been decided upon—a massive increase in fertilizer production and more money spent on irrigation. To Soviet citizens long waiting for more money to be spent on a better life, the revelation of a cruel crop shortage comes as a painful shock.

In addition to the grain that has to be bought, the premier said another three or four billion rubles must be spent building fertilizer plants during the next several years.

A report is going about that an increase in the price of bread may come next. In the Soviet Union bread is half of each meal. A price boost won't go down well.

Out of destalinization grew the Chinese crisis that clearly has shaken the confidence of many a Soviet citizen who had been led to believe that Soviet Communist party leadership was always right. The Chinese have said it isn't all right, and these accusations have been published in the Soviet press because they could hardly be hidden any longer.

Then came the wheat crisis. Just how bad it is may not be known for some time. In his speech Khrushchev went to great pains to explain that it was dry weather that did it—a bad winter, followed by a late spring and a dry summer.

He told what remedies had been decided upon—a massive increase in fertilizer production and more money spent on irrigation. To Soviet citizens long waiting for more money to be spent on a better life, the revelation of a cruel crop shortage comes as a painful shock.

In addition to the grain that has to be bought, the premier said another three or four billion rubles must be spent building fertilizer plants during the next several years.

Grated Canadian Cat Graves Cooling Crock

CAPE TOWN, South Africa (AP) — A tough little gray cat from Canada astonished veterinarians here by surviving a two-months journey from Montreal sealed in a crate.

A docker in a warehouse noticed movement behind a knothole in the crate.

The crate was opened and the cat emerged, thin but little the worse except for a raging thirst.

She is thriving at a Society for the Prevention of Cruelty to Animals home.

Call Special Meeting

MOSCOW (AP) — Premier Khrushchev announced Tuesday there will be a special plenary meeting of the Central Committee of the Communist party late in November. It will discuss the role of the chemical industry in manufacturing fertilizers to increase agricultural yield and also raising synthetic fiber production.

'64 Jet-smooth Luxury CHEVROLET

Besides looks, ride and power - what's so special about it?
(It's so reasonably priced)

Kind of leaves the high-priced cars some explaining to do, wouldn't you say? Long and luxurious—with a fresh-christened look that almost makes you feel somebody should be breaking a champagne bottle on its prow. Richer roomy interiors with subtle new blending of colors and fabrics. Like the ultra-soft vinyl upholstery in the new Impala Super Sport Series. And the foam-cushioned front and rear seats and door-to-door carpeting, now standard in all models, including the modest-priced Biscaynes.

A choice of seven engines, no less, with output all the way up (say when) to 425 hp.*

And a choice of four smooth transmissions—from automatic to 4-speed Synchro-Mesh*—to go with them. And underlying it all, the opulent feel of Chevrolet's Jet-smooth ride—something some of the expensive makes would dearly love to claim for themselves.

Matter of fact, the most important and noticeable difference between this beautiful new 1964 Chevrolet and the high-priced cars is the price itself. Let your Chevrolet dealer show you how much luxury that reasonable Chevrolet price now buys. *Optional at extra cost.

See five entirely different lines of cars at your Chevrolet Showroom—CHEVROLET, CHEVELLE, CHEVY II, CORVAIR & CORVETTE

HERE ARE THE RULES OF THE CONTEST
In each advertisement on this page you will find the contestants in a prominent football game being played in the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only ... opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS, Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie score must be specified as a tie or else it will be considered a miss.
If there is a tie for first place the winners will divide the cash money of \$12.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for the place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's prize. Tie for perfect score will split \$25.00. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all of the person's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blank and list your address and phone number — and watch for the story on next Wednesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employees of The Snyder Daily News and their families are not eligible to enter.

NEW FOR 1964 is the Rambler Classic two-door hardtop, a newly added body style also available in the Rambler Ambassador series. All Ramblers continue to have long-life features such as the ceramic-armored muffler and tailpipe system, 33,000-mile chassis lubrication and 4,000-mile engine oil change interval, galvanized body panels, the new wax coating to protect the car's paint while in transit, and the Deep-Dip rust-preventing paint primer process.

Harlingen Asks For Airport's Site

BROWNSVILLE (AP) — Harlingen officials asked Tuesday that a regional airport for the Lower Rio Grande Valley be located in their city.

Mayor Mike Hodes of Harlingen was a witness as a Civil Aeronautics board hearing entered its second week. Thomas Wrenn of Washington, D. C., is the hearing examiner.

Hodes and Harlingen Chamber of Commerce manager Pledger Cate said the city would raise "whatever it takes to provide" facilities for a regional airport.

Hodes acknowledged that Harlingen has a bonding capacity of up to \$2 million and the city had been economically depressed since deactivation of Harlingen Air Force Base.

"The whole valley was hurt by that deactivation," he said.

The Harlingen mayor also said that if neighboring Brownsville builds jet landing strips as it has proposed, the entire valley would benefit. He stressed, however, the

central location of Harlingen in the area.

A Trans-Texas Airways official, M. S. King, testified that his airline provided efficient service for the Valley through McAllen and Harlingen airports. Trans-Texas opposes the regional airport idea.

The cities of McAllen and Brownsville also oppose the regional concept and want the status quo maintained.

A petition from the McAllen Chamber of Commerce asking that McAllen be allowed to keep its present airport and air service was expected to be presented at the hearing today. It was reported to bear 13,000 signatures.

Stopped That Noise

PUEBLO, Colo. (AP) — When Donald R. Prince, 29, kept yelling through a barred window at prisoners of the county jail, Deputy Sheriff John Torniech helped him out—or, rather, in.

He jailed Prince for the night.

Lawyer Owns Estes Abode

EL PASO (AP) — Jack Bryant, Abilene lawyer, says he owns the \$50,000 home in which Billie Sol Estes and his family now live.

Bryant testified in bankruptcy court Tuesday that Estes, free under bond while he appeals convictions on fraud and swindling charges, leases the dwelling in Abilene from him.

The lawyer said an unidentified Negro handed him a \$5,000 cash fee at about the same time Bryant was making a \$5,000 down payment on the Abilene house. Estes and his family moved there from Pecos in August.

Bryant and Estes were summoned here for questioning about how Estes, since he has been adjudged bankrupt, was able to take over a \$50,000 home. Estes did not testify.

Bryant said he purchased the place from Horace Wooten, Abilene real estate man, at Estes' suggestion after Wooten would not accept a note from Estes. He said Estes is expected to pay \$870 a month to the former owner and \$350 a month rent for five years.

American Motors '64 Sales Starts

American Motors will put its new automobiles for 1964 on sale tomorrow. The new models will be on display in Snyder at Dupree Motors, 1607 Twenty-fifth Street.

The 1964 Rambler American is wholly transformed in appearance, with its first complete body change since the series was introduced in 1950. Its overall length has been increased from 177 1/2 to 177 3/4 inches.

With all of the added inches, going into greater passenger comfort and more usable space and none into overhanging sheet metal," according to Thomas A. Coupe, vice president of automotive sales.

"For example, hiproom in the rear seat has been increased 12 inches and cargo space in station wagons increased nearly 20 percent," Coupe said. "The superior balance in the new design has also resulted in greatly improved riding qualities."

"While interior room has been greatly increased through important body changes, the American's common-sense balance in economy and performance continues to be emphasized in the new design," Coupe said.

"The total American concept is a car specifically designed to meet the growing demand for personal transportation with more convenience and luxury features."

"New American features include a new body of advanced single-unit construction; curved glass side windows; a seven-fold increase in galvanized metal for greater rust resistance; new front suspension; 35,000 mile or three

year lubrication intervals; new Four-Guard "24" battery with intercell construction for quicker starting and longer life, and many other features to improve operating convenience, durability and comfort.

Styling refinements, new hardtop models and new convenience options are prominent among the changes in 1964 American Motors.

Top-selling Classic line and the Ambassador-luxury line.

"The 1964 Ambassador 990 - H hardtop, is the most luxurious car ever offered by American Motors and will take a top position among the fine cars of America, with luxury second to none," Coupe stated.

"Its smart, sports-type styling will appeal to all age groups, and its performance is comparable to the best."

The 990-H includes as standard equipment a 270-horsepower V-8 engine, front and simulated rear bucket seats with folding center arm rests, a floor console between the front seats, chrome ceiling bows, and many luxury appointments associated with the prestige car field.

The company's top-selling Classic line boasts a new luxury two-door hardtop in the popular 770 series, available as a Six or V-8. The new hardtop features a "fastback" roof which flows at an angle into the body. Hardtops are 12 inches lower than sedan models.

All Ambassadors include a full wrap-around instrument panel crash pad which continues back into the upper portions of the doors. Other Ambassador fea-

tures include distinctive wood-grain inserts on the instrument panel and door panels, lower door scuff pads made of the same material as the floor carpeting, and custom seats.

A new optional feature on the Ambassador 990 is a bucket seat combination with a special between-seat cushion which permits a third person in the front. This combination also has a folding armrest for added comfort of the driver and passenger. A console replaces the center cushion if desired.

Classic interiors have been newly styled for greater luxury and both wide and slim-bucket seats with floor consoles are offered.

Both the Classic and Ambassador feature new grilles which impart a more massive appearance. The grille design is of spaced bars on a horizontal plane. On Classics, the word "Rambler" is in block letters on the upper grille frame. Ambassador models carry the name in block letters in the center of the grille.

Tax Cut Bill May Get Public Airing

WASHINGTON (AP) — Chairman Harry F. Byrd of the Senate Finance Committee says he may open public hearings next week on President Kennedy's tax-cut bill.

Indications are, however, that lengthy committee deliberations and a decision to seek Senate action first on controversial civil rights legislation will delay final congressional action until early next year.

Senate Democratic leaders made plain Tuesday they planned to bring the civil rights bill up for a Senate vote before the tax-cut measure which was passed last week in the House.

The civil rights bill is expected to touch off a battle that almost certainly will include a lengthy Southern filibuster against the bill. Thus even if the Senate Finance Committee moves quickly on the tax bill, the Senate would be unable to consider it until it disposes of civil rights.

Byrd, a Virginia Democrat, said Secretary of the Treasury Douglas Dillon would be leadoff witness at the tax bill hearings. His announcement came Tuesday after his committee voted 10 to 4 against a move by Sen. Paul Douglas, D-Ill., to speed up hearings.

"It's a very unfortunate decision," Douglas said. "In effect, this means the House will have no tax bill this year."

Sen. Everett M. Dirksen of Illinois, the Senate Republican leader and a Finance Committee member, said the committee's vote meant the bill would not be ready for floor action until Christmas.

One factor in drawing out the committee's work, Dirksen noted, is that 75 amendments—most of them rejected in the House—are expected to be offered to the tax measure.

Dirksen called the Finance Committee vote "a crushing defeat for the administration" and added "in my opinion, this means the death of the President's tax program."

The decision to put civil rights ahead of a tax cut was revealed by Sen. Hubert H. Humphrey of Minnesota, the assistant Senate Democratic leader, after Democratic congressional leaders met with the President.

Humphrey told a news conference that political considerations dictated action on civil rights first.

"Nothing could be more injurious to the Democratic party than to have a long filibuster on civil rights next year," he said. "Anybody who looks ahead to 1964 surely wouldn't want to invite a battle over civil rights which would split the party a few months before the presidential convention."

Humphrey said he expected the House to pass a civil rights bill this month.

1964 Rambler American 440-H hardtop, 440 convertible, 330 station wagon

FRESH NEW SPIRIT OF '64!

ANNOUNCING RAMBLER '64...all-new style, all-new luxury!

Totally new Rambler Americans with all-new styling, new ride, full 6-passenger room. New exciting Rambler Classics and Ambassadors, new hardtops, new luxury V-8's, new features.

Today, see how the Rambler Idea—the idea of listening to car owners' wants—pays off for you. **NEW! Rambler Americans**—the compact economy king with all-new beauty, all-new 6-passenger room. **NEW! Every inch new.** Smart curved-glass side windows, too. **NEW! Brilliant new hardtops, sedans, and convertible.** Smart new big-space station wagons. **NEW! All-new ride,** with new suspension, longer wheelbase, wider tread.

NEW! Rambler Classic hardtop, with choice of Six or new 198-hp V-8. Smart sedans and wagons, too. **NEW! Exciting new options:** 7-position Adjust-O-Tilt steering wheel; Shift-Command Flash-O-Matic floor stick for V-8s—you shift it, or it shifts itself. **NEW! Rambler Ambassador V-8** offers wagon, sedan—two new hardtops; one with 270-hp V-8, bucket seats, console, front and rear center armrests—all standard.

PLUS! All Ramblers now have 33,000-mile or 3-year chassis lubrication; rattle-free Advanced Unit Construction, with rust-fighting galvanized steel panels. See how well Rambler listens to your wants... how beautifully Rambler '64 fills your needs.

What a price!—the lowest possible on this feature-packed, top-quality Gold Star Award gas-range. Caloric's new Compact is a full 36 inches wide and offers more cooking conveniences for the money than other comparably priced ranges... including new automatic Cook 'n' Keep Oven. Cooks perfectly, then turns itself down to serving temperature and holds foods hot for hours without overcooking or drying out. Burner-with-a-Brain makes all your pans automatic. Removable oven and broiler doors simplify cleaning. Spacious storage compartment, handsome clock and control center and easy-to-clean porcelain finish are pluses. Available in pink, yellow, turquoise, copper-tone or black at slight additional cost.

LONE STAR GAS COMPANY

Valachi Slated For Questioning In Canadian Crime Operations

World exporters draw a 50-cent bushel subsidy, representing the difference between the world and higher domestic price? He asked.

An unlocked cash register, which was empty, was also broken into in the newspaper office.

THE 1964 COMET, pioneer of the luxury compacts, undergoes its first complete change since 1960. This Caliente hardtop is one of three models in a plush new top-of-the-line series. The completely redesigned Comet has all new sheet metal, improved ride and handling characteristics, and greater passenger room. New standards of performance are attained with a new three-speed automatic transmission and a broad range of four engines, including a new 289 cubic-inch V-8 and a new 200 cubic-inch six. The 1964 Comet offers ten models in three new series designations — Comet 202, Comet 404, and Comet Caliente.

Comet For '64 On Display Tomorrow

The 1964 Comet, pioneer of the luxury compacts, undergoes its first complete change since introduction four years ago. Ben D. Mills, Ford Motor Company vice president and general manager of Lincoln Mercury Division, announced today.

The Comet for 1964 will go on display tomorrow at Wilson Motors on the East Highway.

"The completely redesigned Comet, including a plush new Caliente series, has all new exterior sheet metal, improved ride and handling characteristics, and greater passenger room," Mills said. "It attains new standards in performance with a new three-speed automatic transmission and a broad range of four engines, including a new 289 cubic-inch V-8 and a new 200 cubic-inch six."

The new Comet is roomier, even though wheelbase is continued at 114 inches and overall length and height are virtually unchanged. Overall width is increased one inch and the rear tread is increased 1 1/2 inches, providing new sturdiness on the road.

Completely new styling, with a family resemblance to the luxury Lincoln Continental, makes the 1964 Comet appear larger. The Comet's sculptured hood set between raised fenders emphasizes its wide appearance. A double concave sculpture follows the fender line, widening toward the rear, making the car seem longer and, with the front fenders extended beyond the grille, giving the car an appearance of forward thrust.

Improvements in driving room, leg room, and head room in the front compartment are provided by increasing seat travel one inch, shortening the length of the steering column, and introducing a new steering wheel with a one-inch smaller diameter.

Rear seat leg room and knee room are improved substantially

by moving the rear seat backward 1 1/2 inches.

The interiors of all models are more luxurious, while the new top-of-the-line Caliente series features interior treatment rivaling that of the most expensive cars. The Caliente's thick foam rubber seat padding replaces conventional slab cotton found in most compacts, and door panels, instrument panels, and steering wheel are trimmed with simulated wood grain. The new instrument panel on all Comets includes gauges instead of lights for oil pressure and generator.

Power brakes and an AM-FM radio are offered as extra cost options on the Comet for the first time, and power steering also is available.

The new Comet 289-cubic-inch V-8 engine offers performance previously available only on higher priced cars. It develops 120 horsepower and because of its light weight cast-iron construction has a high power-to-weight ratio. The engine is of the same basic design as the V-8 engine that powered Lotus race cars to second and seventh place in the Indianapolis 500.

Comet's new 200-cubic-inch six-cylinder engine develops 118 horsepower and is teamed with the Merco-Matic two-speed automatic transmissions.

The wide range of engines for 1964 also includes an improved 101 horsepower, 170-cubic-inch six, available only with the three-speed manual transmission, and the improved 164 horsepower 200-cubic-inch V-8 which was introduced as an option midway in the 1963 model year. All four Comet engines are designed to operate on regular grade fuel. A 43 per cent larger fuel tank, with a 20-gallon capacity, increases cruising range for today's expressway driving.

The wide range of engines for 1964 also includes an improved 101 horsepower, 170-cubic-inch six, available only with the three-speed manual transmission, and the improved 164 horsepower 200-cubic-inch V-8 which was introduced as an option midway in the 1963 model year. Showdown Near For King, Brother

By WEBB MCKINLEY
BEIRUT, Lebanon (AP) — A showdown that could be final is approaching in Saudi Arabia between ailing King Saud and his brother, Crown Prince Faisal, premier and virtual ruler of the country.

It will come sometime next month when the king's younger brother presents a new budget slashing allowances of the royal family by 10 per cent.

Saudi, close to the government, say the winner almost certainly will be Faisal, an economy-minded prince who once before cut royal spending to ease a financial crisis. They expect it will be the last round of a long, quiet battle for power.

The 61-year-old king, returned to Riyadh, his capital, last month from a luxurious medical stay in Europe. Suffering from a stomach ulcer, high blood pressure, and general debility, he relinquished the government reins last year when the Yemeni revolution was threatening to spread to Saudi Arabia.

The country was suffering from extreme jitteriness, and the king was among the most extreme sufferers. To many, revolution seemed around the corner.

As he had done before, Faisal took over. Moving with caution, he restored confidence in the king's power. Despite the monarch's vigorous protests, he moved the royal guards from the palace to the country's southwest borders to guard against Yemeni or Egyptian raids.

"Never fear for your life or your throne," he is reported to have told the king. "We will protect you. Let your guards protect your country."

It is known that Faisal never has wanted the throne for himself, that he has on more than one occasion saved it for his brother. But the suspicious king, surrounded by his sons and sycophants, has never quite believed that Faisal did not covet it.

The only hope of ending Faisal's to write desert tribes believed loyal to the premier. The cut in royal allowances would lessen the chances of that.

Saudi's here say the crown prince is pulling in the purse strings because of huge bank debts the princes have piled up over the years. They are believed to total about \$45 million. Faisal's government has undertaken to repay the hard-pressed banks and will recover the money by cutting the allowances, now estimated at \$60 million a year for the approximately 1,000 members of the royal family.

King Saud may return again to Europe for another cure although Faisal is understood to want him to be treated at home.

"The king himself is a good man and he could have been one of the greatest of Saudi kings," said a Saudi close to the crown prince. "His sons are his source of weakness. Prince Faisal does not like to see them playing around Europe when the king is being treated, causing bad publicity for our country."

Michigan holds a 35-16 edge in its football clashes with Michigan State. Four games were tied.

Extra Guards For Tito In Old Mexico

MERIDA, Mexico (AP) — The Mexican government invoked extraordinary security measures for the arrival today of Yugoslav President Tito to begin a 14-day official visit to Mexico.

Five companies of soldiers stood ready to surround the hotel at nearby Uxmal, where Tito will spend his first day.

All hotel guests were asked to

Arrangements were made to put security agents from both Mexico and Yugoslavia on constant guard in hallways.

Orders went out to allow no unauthorized persons to approach the hotel. It is the Hacienda Uxmal, in a tropical setting 45 miles north of here.

Tito and his wife will occupy adjoining suites.

Their chartered DC-8 jet was scheduled to reach the Merida airport at 4:45 p. m. from Bolivia. He will be received by Education Minister Jaime Torres Bodet, representing President Adolfo Lopez Mateos, and Yucatan Gov. Agustín Franco Aguilar. Lopez Mateos will receive Tito in Mexico City Friday.

Tito will remain at Uxmal until Friday when he will fly to Mexico City.

Astronaut Cooper Reports Fairyland Of Sights, Colors

By HOWARD BENEDICT
AP Aerospace Writer

HOUSTON, Tex. (AP) — The wondrous, almost spellbinding sights and colors of space were described vividly today by astronaut Leroy Gordon Cooper Jr. in the final report on his 22-orbit mission.

The report, presented at a conference summarizing the results of the Mercury man-in-space program, was the longest made by Cooper's flight of last May 15-16. But his personal observations of the space environment were a brilliantly etched record of phenomena witnessed by only six Americans and six Russians.

"I never tired of looking at the sunsets," said the 36-year-old Air Force major, who saw 22 of them during America's longest manned space flight.

"As the sun begins to get down toward the horizon, it is very well defined. It is a very bright white. Almost the bluish white color of an arc lamp. As it begins to impinge on the horizon, it undergoes a spreading, or flattening effect."

"The sky begins to get quite dark. This light spreading out from the sun is a bright orange color which moves out under a narrow band of bright blue that is

always visible throughout the day-light period.

"As the sun sets farther, it is replaced by a bright gold-orange band which extends out for some distance on either side, defining the horizon even more clearly. The sun goes below the horizon rapidly, and the orange band still persists but gets considerably fainter as the black sky bounded by dark blue bands follows it

Cooper said that at night he could see lightning flashing within groups of clouds.

"Sometimes five or six different cumulus buildups were visible at once," he said. "I could not see the lightning directly, but the whole cumulus mass of clouds would light up."

He said that earth lights appeared to twinkle because he viewed them through the earth's atmosphere. But stars, seen from above the atmosphere, did not twinkle as they appear to from the ground.

The moon, he reported, was quite bright at night. But in daytime it was a lightish blue color.

"When there is no moon," he said, "the earth is darker than the sky; there is a difference in the two blacks. In general, there is more light from the sky; the

sky is a shining black as compared with a dull-black appearance of the earth."

Cooper reported seeing stars passing through the air flow layer surrounding the earth before falling below the horizon and of spotting what he believed was the polar light, the nebulous glow seen on the horizon at sunset and sunrise.

"During the day," he said, "the earth was a predominantly blue-gray. I found that green showed up very little. Water looked very blue, and heavy forest areas looked blue-green."

"The only really distinctive green showed up in the high Tibetan area. Some of the high lakes were a bright emerald green. The browns of the Arabian Desert showed up quite distinctly, but the Sahara was not quite so brown."

He reiterated a point that created scientific controversy when he reported it earlier—that he saw a truck, a train, a boat and houses clearly from his vantage point more than 100 miles in space.

In a separate scientific report presented today, Manned Spacecraft Center officials said that Cooper did see the small objects, in a sense. They said he probably

saw them in context in that his mind deduced them. Thus, a trail of dust moving along a road clearly became a truck.

THE 1964 MERCURY extends its coverage of the medium-price market with two new series and a choice of two distinctive roof designs. A sporty four-door hardtop Marauder with fastback roofline (front) will be offered in addition to the unique breezeway models (rear). A two-door hardtop Marauder, which was introduced last Spring, also will be offered. Mercury's two new series are the luxurious top-of-the-line Park Lane and the Montclair. Luxury and performance are emphasized with significant improvement in passenger comfort and spaciousness. The 1964 Mercury's six V-8 engines — two more than last year — range from 250 to 425 horsepower.

Mercury Offers Two New Series

The new Mercury automobiles for 1964 will go on display tomorrow at Wilson Motors on the East Highway.

The 1964 Mercury extends its coverage of the medium-price market by offering two new series and a choice of distinctive roof designs. Ben D. Mills, Ford Motor Company vice president and Lincoln-Mercury Division general manager, announced today.

"Emphasis in the new Mercury is on luxury and performance," Mr. Mills said. "We have made significant improvements in passenger comfort and spaciousness while continuing to offer the functional breezeway roof plus a sleek new fastback roof design."

Mercury's two new series are the luxurious top-of-the-line Park Lane and the Montclair, which is placed between the basic Monterey

and the Park Lane. A new four-door fastback hardtop Marauder model is offered in all three series, and a Commuter, four-door station wagon is added as a running mate to the highly-styled Colony Park.

In addition to the new four-door Marauder, Mercury will offer in all three series the unique Breezeway roof with retracting rear window and the sporty two-door fastback hardtop Marauder first introduced last Spring. The two-door Marauder has represented the Mercury in stock car auto races and set a new record in winning the Pike's Peak Auto-Hill Climb on July 4.

The exclusive Breezeway design, introduced last year, offers several functional advantages in addition to distinctive appearance. In winter, the overhang keeps the rear window free of ice, snow, and

rain. In summer, it shades rear seat passengers. The retractable window provides quieter, controlled ventilation for every season.

Re-styling of the Mercury grille, front fenders, bumpers, side trim and rear makes the 1964 models appear larger and racier. The car is 13 inches higher and has larger tires, 8.00 x 14-inch.

Interiors are roomier with a deeper body which provides more seating comfort, more usable luggage space, and easier entrance and exit. Passenger comfort is improved further by a substantial reduction in the size of the transmission tunnel.

Luxurious interior trim and new instrument panel ornamentation typify Mercury's big-car appointments. On cars equipped with the optional air conditioning unit, outlets are an integral part of the instrument panel for maximum passenger comfort. New "shell" design bucket seats with full center console are optional in the Park Lane series.

The 1964 Mercury's six V-8 engines — two more than last year — range from 250 to 425 horse-

power. There are four 330 cubic-inch power plants of 250, 260, 300 and 330 horsepower and two 427 cubic-inch high performance engines with 410 and 425 horsepower. The 250- and 260-horsepower engines require regular fuel only.

This wide selection of powerful Mercury engines provides peak performance in the medium-price field.

Improved carburetion on all 330 cubic-inch engines gives better cold starts, more fuel economy, and smoother operation.

Fully synchronized three-speed manual, three-speed dual range automatic, and four-speed manual transmissions are offered.

Structural changes make the Mercury more rigid, reducing improved control of body shake, road harshness and vibration.

Re-tuning of the body chassis, using softer rubber in all body mounts improves the ride. The larger tires and Mercury's proven Cushion-Link suspension contribute to the car's superior ride and handling.

Several directional signal indicators are located on top of the front fenders so they are visible to the driver. The new indicators, which are standard on Montclair and Park Lane models and on Colony Park station wagons, are in addition to instrument panel indicators standard on all Mercurys.

A new glass backlite for convertible models allows the convertible top to be lowered without unzipping the back window.

Among the options available on Mercury for 1964 are insulated power brakes and air conditioning, plus a swing-away steering column, power steering, six-way power seat, power windows and rear seat radio speakers.

Mercury continues its extended life service features, including the first 36 months or 36,000-mile major lubrication and six-month or 6,000-mile engine oil and oil filter change cycle, whichever comes first. Body lubrication cycle is life of the car or as required.

Back To Classes After Four Year Vacation

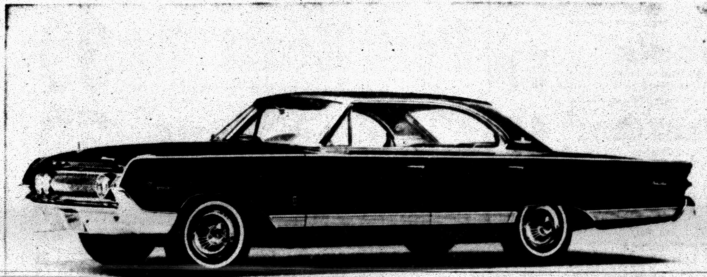

LIBBY, Mont. (AP)—It was a long time between classes for 13-year-old Billie Jo French, a sophomore at Libby High School.

For four years she lived on a ranch too far from town and too far from school bus routes.

Her parents moved from Blair, Neb., to a ranch 40 miles west of Libby after Billie Jo finished the fifth grade. She kept up with her school work by taking correspondence courses from the University of Nebraska.

The family bought a new ranch a mile from Libby recently and Billie Jo returned to school.

**For '64:
the price is medium...
the action maximum...
the car is
Mercury**

PARK LANE WITH RADY MARAUDER STYLING

The "action" is provided by the type of V-8 engines that have made Mercury the new performance champion of the medium-price field—demonstrated in open competition including the most recent Pike's Peak Climb. A 390 cu. in. V-8 is standard, a 427 V-8 optional. And only Mercury offers you two entirely different styling choices in one great car.

Mercury delivers more than the usual in all these ways: more performance, with the most responsive engines in its field. More leg room, head room, and entry room. More room space—33 square feet (17.1 cu. ft.)—and a versatile styling choice: fast Marauder styling (shown) or unique Breezeway design (right), with the mild rear window that opens for ventilation, stays closed in rain or snow.

Pamer To Play Despite Shoulder

PHILADELPHIA (AP)—Arnold Palmer's right shoulder still hurts, but he's going to play in the \$125,000 Whitemarsh Open Golf Tournament starting today in hopes of maintaining his position as the year's leading money winner.

The Latrobe, Pa., better hasn't won any major titles this year. As they say on the tourney trail, Arnie hasn't won anything but money. Now his lofty status as top cash man is in jeopardy. Should Masters and PGA champion Jack Nicklaus take home the \$25,000 first money at the Whitemarsh Valley Country Club at the top of the cash list.

After playing most holes of the course Wednesday, Palmer said his shoulder still bothered him. He experimented with various shots, playing even put golf. Palmer has earned \$101,555 in 18 tournaments this year, while Nicklaus has pocketed \$84,300 in 22.

In addition to Palmer and Nicklaus, who arrived here late Wednesday from Japan, most of the top pros are seeking the first prize jackpot. U.S. Open champion Julius Boros, British Open champ Bob Charles, Tony Lema and Gary Player, fourth and fifth leading money winners, respectively, Dow Finsterwald, Bruce Crampton, Bobby Nichols and Bill Casper either are here or expected before Friday's 8 a.m. tee-off.

The tournament serves as a tune-up for the Ryder Cup matches next week in Atlanta. The promoters, who are sharing receipts with a local charity, appear to be planning a hole-in-one contest with the local charity.

Whitemarsh should provide a real test for the pros with its premium on accuracy. The course is no advantage to the long hitter. The fairways are narrow and 120 traps wait for errant shots. Sam Snead, the champion, said he "had a tremendous headache from all the questions and I just decided to come back home. I didn't bother to ask anybody—I just told the people traveling with me, 'My daughter's sick. We're going home.'"

At the time Lister gave that reason to London reporters, it was confirmed in Denver that his daughter, Eleanor, 13, was not ill but was attending school.

Questioned about his statement at the Denver Airport upon his return two weeks ago that he was "ashamed to say I'm in America," Lister said he did not mean that. He intended to say, Lister said, "I'm ashamed of the way America's acting" in the racial bombings. Lister said he was tired upon his Denver return and "quite frankly I blew up. If I hurt anybody's feelings, I'm sorry."

But they said a new drug, or a combination of remedies, saved the finger and Sandy's career—and no doubt made the Dodgers part of the show instead of part of the audience at the 1963 World Series.

Koufax, who beat the Yankees in the series opener Wednesday, was disabled in the middle of the 1962 season by a circulatory disorder in his left forearm. The flow of blood was reduced to a fraction of normal by constriction of an artery leading to the finger from the palm. At first the finger was so sensitive Koufax couldn't touch anything with it. Then it went dead.

The Dodgers physicians, Drs. Robert Kerlan and Robert Woods, called in Dr. Travis Winzor of Los Angeles, a specialist in circulatory disorders.

Dr. Kerlan said an arteriogram "showed a rare condition—A clot in the deep ulnar arch, in the arteries in the palm of the hand."

But, Dr. Kerlan said, the clot dissolved after several injections of a new drug.

"If it hadn't dissolved, he might have lost the finger. There just wasn't enough circulation to supply it, and a finger can't live without blood."

Dr. Woods said it would have been necessary "to begin thinking seriously about an amputation if the blood supply hadn't started to increase within 24 to 48 hours of the injections."

Mantle Must Have Felt Bad Day Coming NEW YORK (AP)—Mickey Mantle must have had a premonition about Wednesday's Yankee loss in the World Series opener. After taking his first swing in the batting cage during the pregame workout, Mantle tossed his bat aside and said:

"Mantle, it's going to be a bad day."

Mantle struck out twice, walked once and lifted a soft popout for his day's work against Sandy Koufax.

Mexicans Interested In World Series Game MEXICO CITY (AP)—Baseball-mad Mexico is showing intense interest in the World Series between New York and Los Angeles.

Newspapers carried headlines about the opening game and sports pages were packed with stories and pictures.

MUSIAL TOSSES OUT FIRST BALL—Stan Musial, the St. Louis Cardinals star who just rounded out an active playing career spanning more than 20 years, tosses out the first ball before the start of the 1963 World Series between the New York Yankees and the Los Angeles Dodgers at Yankee Stadium. With Musial is Joe Di Maggio, the one-time Yankee centerfielder. (AP Wirephoto)

New Stadium Use Delayed Until 1965

HOUSTON (AP)—Harris County's domed stadium is due for completion late in 1964 but Houston's professional baseball and football teams won't play in it until 1965.

Contractors reported Wednesday the \$19.4 million air-conditioned stadium will be ready in October or November of next year but Roy Radebein, president of the Houston Colts, said:

"There's no chance the Colts or the Oilers will use the domed stadium before 1965."

The Colts are Houston's entry in National League baseball. The Oilers are members of the American Football League.

"We don't want to open the stadium until everything is as perfect as we can make it," Hofbein said.

He said it would take two months to adjust the sound system after the 202-foot high stadium is completed.

Last Year's Finalists Out

STATE SENIOR GOLF Tournament went into the semifinals today at Oak Hills Country Club with both of last year's finalists eliminated.

Gen. J. H. Wallace of Wichita Falls met the 1961 champion, Pete Edwards of Lubbock, in one of the featured matches.

Wallace took a 3 and 1 victory Wednesday over Raymond Marshall of Lubbock, the defending champion. Marshall also won the title in 1959.

H. R. Pipkin ousted Hezlie Carson of San Angelo. Today he took on Conway Craig, publisher of the San Antonio Express-News. Craig signed George Brewer Jr. of Dallas 1 up.

The lower half of the bracket is made up of co-medalist John Townsend Jr. of Houston, a 2 up winner over B. C. Nelson Sr. of San Antonio; C. E. Covington of San Antonio, who beat Robert Carr of San Antonio 4 and 2; Gen. John J. H. Wallace of San Antonio, who defeated Ewell Mills of Houston, 2 and 1, and Jim Hibbert of the host club, who downed Otis

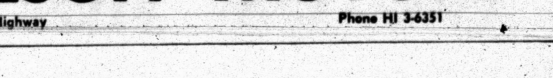

Meredith of Kerrville 3 and 1. Today's four survivors will vie in 18 holes of medal play Friday for the championship.

For 1964... Comet announces a car that's every bit as hot as it looks...

Comet Caliente

This is the beginning of a new kind of Comet. Hot, husky, handsome—top series in Comet's '64 lineup. Engines range up to a 4-barrel Cyclone 289 cu. in. V-8 in all Comets.

"Caliente" means hot... In Spanish. And this new Comet speaks the language. It looks hot. And it's got the choice of four engines provides the punch. The topper is a big Cyclone 289 V-8—most responsive in Comet's field. More choice.

New Comet offers 3 series...
-the top-of-the-line Caliente, and the economical 202 and 404 series. Ten models... all bold and racy. A wide transmission choice, too, including a smooth, silent, new Multi-Drive Merc-O-Matic—unmatched at the price.

Elegance at a compact price
Prime example of Comet's new elegance is the Caliente, with the warm look of walnut on the interior trim... plus lavish biscuit-pattern upholstery.

Power steering... power brakes...
AM-FM radio... air conditioning... every luxury option is available in the new Comet. You can even get... but not Ask your Mercury dealer about it. Soon.

COMET... A Mercury Product. LINCOLN-MERCURY DIVISION MOTOR COMPANY

'Good Guy' Sain
Laid Up For Series

NEW YORK (AP)—Trying to be a good guy, Sain has landed New York Yankee pitching coach Johnny Sain in a hospital for the duration of the World Series.

Sain, suffered a broken jaw Tuesday night, on the eve of the opener, when he was tried to break up a fight between a friend and another man.

Wives Could Take Action To Hasten Senate Tax Cut Vote

BY INEZ ROBB

The Head of Clan Robb stuck his head in the bedroom door and recoiled sharply at the sight of the dress, suit, shoe and hat boxes, an ocean of tissue paper and new clothes tastefully arranged over bed and chairs.

"What in—," he began in the grief-stricken tones of a husband betrayed.

"Honey, you remember when the President said we should ask just what the country could do for us, but what we could do for the country?" I interrupted quickly, on the belief that the initiative is everything in a domestic crisis.

"Well, I have just discovered what I can do for my country," I hurried on. "I've been out spending our tax cut to get the economy off dead center."

The head of the house closed his eyes and his lips moved silently, in prayer, I guess. He opened his eyes and took another look at the room.

"It's my guess that with the push you've given it, the economy will be moving with the speed of Mach 3 by this time tomorrow," he said. "I just hope the rest of the country can hang on. But why didn't you let somebody else have a share in the project?"

"And," he continued, "have you

never heard of the wisdom of counting your chickens before the eggs are hatched? There's no certainty that there's going to be a tax cut."

"Why, the House lopped eleven billion dollars off the tax take just last week," I said.

"Sure, the House passed the tax cut," said my husband. "But that's no guarantee that the Senate is going to pass it, too."

"Oh, phoo! The Senate will pass it, don't you worry."

"Well, I do worry," Add said. "And I hope you're prepared to carry all this stuff right back where you got it until you know what the Senate's going to do. You know as well as I do that Senator Byrd is mortally opposed to a tax cut. And with Senator Byrd in the saddle, the tax cut may never even be allowed to come to a vote in this session of Congress."

"That is a contingency I dealt with when I wrote all the Senate wives," I replied.

"What in the world have you written to Senate wives?" Add asked.

"First of all, I urged them to do something concrete for their country like going out at once and spending their share of the eleven-billion-dollar tax cut. I pointed out that as wives of such important

New York Is More Of Fall Fiesta

By HAL BOYLE

NEW YORK (AP)—No one is quite sober in Manhattan in October.

Everyone drinks the wine of new possibility.

Anything can happen; everything does.

New York City advertises herself as a summer festival, but she is even more of a fall fiesta.

Her fugitive children troop back from their summer hideaways, mosquito-scarred and full of tales of country adventure. But they really don't start living again until they cross the Bronx line, or enter the Lincoln tunnel and leave New Jersey behind. Any time spent anywhere but here doesn't count — it's a period in a cocoon.

Now in October the cocoon time is over, and Manhattan again becomes a siren city, the American enchantress.

The word is "big." Everybody has big plans, big dreams, big hopes — the big angle. Every bus, every train, every plane unloads hard-eyed or starry-eyed schemers who come here to seek the big chance, to beat the big city down to their size.

The hammering sound of new buildings going up and old buildings coming down echoes all day. Crews of workmen seem to be ripping up every pavement as they lay new utility lines or repair deep potholes.

Out in Flushing Meadows Bob Moses and his merry elves are clothing the skeleton of the giant world's fair in a mad race against time to get the biggest show in history ready by next April.

Flying footballs replace the thump of baseballs in gloves on city playgrounds. The pigeons outside the Central Park Zoo get fewer handouts, and the polar bears gambol gaily in their chilling pool. Old ladies wait for sunny afternoons to lean plump arms on pillows in tenement windows and stare down with timeless curiosity on the antics of mankind.

A fresh glitter comes to tawdry Broadway. Old shows close. New shows open — and some close. But in Tin Pan Alley the pianos go on tinkling forever.

On Fifth Avenue, the fabulous store windows drip with furs and jewels. Along the Bowery, the bum shiver and wonder where they'll get an overcoat. In expensive restaurants the gin and tonic gives way to the vodka martini.

Life itself is just one big cocktail party in the big town now. Everyone from Park Avenue cinderellas to Greenwich Village beatniks shares a feeling of exultant intoxication, for no one is quite sober in Manhattan in October. Who'd want to be?

Junior Editors Quiz on SPRING WATER

QUESTION: What makes spring water rise to the earth's surface?

ANSWER: There is much water under the earth's dry surface. Melting snow, rain, brooks and lakes provide moisture which seeps through the ground. This ground water goes down until stopped by a layer of rock which it can not penetrate. The upper limit of this ground water is called the "water table." Wells, sunk below the water table, bring water to the surface for us to use.

Often there are mountains or slopes which strike down through the level ground. Water coming from rain or snow will work its way down through such slopes. As the water comes down, it may find a crack or fault which leads up toward the surface. The water will then bubble out of the crack, forming a spring. If the water has traveled down quite an incline, the force of gravity will give it pressure. This will make it come out through the spring to form a small brook. Many rivers have running springs at their source.

Water coming directly from the earth is usually free from impurities, is cool and delightful to drink. Deep down in the earth, the rocks are hotter. Water which gets far down is often heated and may come out in the form of hot springs.

FOR YOU TO DO: The girl in our picture is drinking from a mountain spring which she knows to be pure. But there is much polluted water—don't drink from every stream and puddle you see!

Steve Whiteside of Vienna, Va., wins today's grand prize of a 20-volume set of the World Book Encyclopedia for this question. Appear yours on a postcard to Junior Editors in care of this newspaper, and you may win a set too!

Alabama Bombings Continue Despite Arrival Of President's Fact-Finders

BIRMINGHAM, Ala. (AP)—Less than 24 hours after two presidential racial factfinders landed in Birmingham Sept. 24 a bomb exploded in a Negro neighborhood. Since then, there has been a flurry of court activity and the arrest of three white men in the over-all bombing investigation.

The factfinders, former Army secretary Kenneth Royall and former Army football coach Earl Blaik, have been meeting with every segment of Birmingham life.

President Kennedy sent the two men here to try to get at the core of the racial trouble in this big city.

On their arrival, Royall and Blaik described themselves as "friendly guests." They were greeted cordially by Mayor Albert Boutwell.

Mostly they have sat and listened to anyone who would talk to them. Details of the conversations have been kept secret. They will make them known in a report to the President.

Royall and Blaik are expected to present a secret summation of their findings to the mayor and city council Friday. But it will not be a recommendation for action. This apparently will come in the report to Kennedy.

Although content of the conferences with local leaders has not been released, enough has seeped through to give an impression that the fact-finding team and the townspeople were impressed.

The only blot on the visit has been the blunt refusal of former police commissioner Eugene Connor to meet with Royall and Blaik.

One utilities official who talked with Royall and Blaik said that they expressed surprise at the extent of integration-forced and voluntary—which the city has undergone.

The only blot on the visit has been the blunt refusal of former police commissioner Eugene Connor to meet with Royall and Blaik.

representative of the President. Negro Attorney Arthur D. Shores expressed optimism over the talks. "Out of these discussions, some solution to our common problems can be found," he said. Kennedy sent Blaik and Royall to Birmingham "to be of whatever assistance they can in restoring good communications between the white and Negro communities in that city and in easing the racial tensions which now exist."

Indications are that they have gathered all of the facts they need and will soon end their visit. More riding horses are stabled in suburban surroundings in the United States than are found on the western ranges of the country. A hog must drink one gallon of water for every pound of pork produced. In the 17th Century, Skopje, Yugoslavia's population was per-

CHUCK ROAST WITH MUSHROOM GRAVY
4- to 4 1/2-lb. chuck roast 1/2 teaspoon salt
2 cups (8-oz. size) mushrooms or 1/2 lb. fresh
2 tablespoons flour 2 cups water

Put meat in a roasting pan and bake 2 1/2 hours or until tender. Transfer roast to serving platter and keep warm.
To make MUSHROOM GRAVY: Leave 2 tablespoons of fat in roasting pan and discard any excess. Stir flour into fat smoothly and cook over a low heat for a minute or two. Add water (if you use canned mushrooms drain off liquid and add enough water to make 2 cups) and salt. Continue cooking, stirring constantly, until gravy is smooth and bubbly. Now toss in sliced fresh mushrooms or the canned variety, reduce heat and cook several minutes longer. Serve the Mushroom Gravy over roast to 6 or 8.

New Buicks For 1964 Due Friday

Buicks for 1964 will go on public display here tomorrow at Pat Buick-Pontiac, located on the east highway.

"We are maintaining the same price structure as last year despite the fact that in many of our cars we are adjusting the customer's

new engines, transmission, and numerous other engineering advances," said Edward D. Rollett, general manager of Buick and vice president of General Motors. "Our Special series is entirely new, with larger, roomier bodies and new and bigger engines, yet the prices remain the same when adjusted for equipment."

List prices at the factory on the new Specials start at \$2,126 for the two-door coupe, compared to \$2,105 for the same model last year. Rollett said the change of \$21 in the list price resulted from the inclusion as standard equipment of several items which were optional last year.

The list prices of four LeSabre models, which are powered by the new 300 cubic inch V-8 engine, run \$30 off last year. These models range in price from \$2,702 to \$2,913, compared to \$2,722 to \$2,943 last year. The list prices of the two LeSabre estate wagon models are the same as comparably equipped 1963 models.

Rollett pointed out that the biggest change in list prices was made in the Wildcat series models which run \$477 to \$545 below last year.

This resulted from making the automatic transmission, custom interiors and certain other items optional instead of standard," Rollett said.

List prices of Wildcat models range from \$2,260 for the four-door sedan, a new model this year, to \$3,181 for the convertible. The Wildcat list prices last year ranged from \$3,504 for the two-door

sport coupe to \$3,608 for the convertible. Prices of the Electra 225, on which the new Super Turbine 400 transmission is standard equipment, remain the same.

The list price of the Riviera sport coupe, which also includes the Super Turbine 400 as standard equipment, has been changed from \$3,855 to \$3,995. The \$40 adjustment results from making the 425 cubic inch high performance engine standard equipment.

The list prices for the 1964 Buicks range from \$2,126 for the Special two-door coupe with the V-6 engine to \$3,995 for the Riviera. List prices do not include federal, state and local taxes, or destination and delivery and handling charges.

New Order Due On Air Mail Rates

HOUSTON (AP) — Trans-Texas Airways President R.E. McKaughan says his company will accept a mail rate order to the Civil Aeronautics Board in the Southwestern area local service case.

Presumably the way is clear for a final order on or before Oct. 11, he said, since Trans-Texas has no exceptions to Wednesday's order. Trans-Texas expects permission to extend service to Abilene, Amarillo, Big Spring, College Station, Bryan, Lubbock and Temple, Tex., and Carlsbad, Clovis, Hobbs, Santa Fe, Albuquerque and Roswell, N.M.

The air line currently operates in Texas, Louisiana, Arkansas, Mississippi and Tennessee. Trans-Texas had forecast need for a \$1,570,000 subsidy. The CAB cut this to \$1,121,000, holding the airline's estimates of average loads on the new route were too low.

"As a result of this order and the pending final order we have established Oct. 15 for the commencement of services, over the route awarded by this monumental case," McKaughan said. The order stated Trans-Texas will be unable to begin operations over all the new route simultaneously because of the volume of service. It said the final order will provide for a 60-day compliance period.

Trans-Texas will have the new service in operation on or before the end of the 60-day period if the final order is issued without changes, McKaughan said.

Church Votes To Integrate

FORT WORTH (AP) — Race barriers are being lowered by the University Baptist Church, Fort Worth's largest of that denomination.

The congregation voted 300 to 3 at its annual business meeting Wednesday night to accept all persons seeking membership regardless of race or color. This course was recommended by the board of deacons.

No one spoke against the motion. The church is near the Texas Christian University campus and has about 2,000 members. Dr. James Harris, pastor, told those present they had a choice to "face it head-on and set a policy or wait until a person presents himself for membership and face it another Wednesday night." He added:

"If we wait, we will not feel any different then we do tonight."

BIGGER BUICK SPECIAL—Three inches have been added to the wheelbase and almost a foot to the length of the all-new Buick Special for 1964, which for the first time is built on a solid steel frame. It will be on display tomorrow at Pat Buick-Pontiac on the East Highway.

Mrs. JFK To Tea With King, Queen

By FRANCES LEWINE

Associated Press Staff Writer

ATHENS, Greece (AP) — Jacqueline Kennedy stayed in seclusion in her vacation villa today, but informed sources said she would pay a tea-time call on the Greek royal family.

It was learned that Mrs. Kennedy, accompanied by her brother-in-law and sister, Prince Stanislas and Princess Lee Radziwill, would have afternoon tea with King Paul and Queen Frederika at the palace.

Prince Radziwill, a Polish nobleman turned Wednesday night. The U.S. embassy termed unfounded an item in one Athens newspaper that President Kennedy might join his wife for the window of her 15-day vacation.

Arriving from the United States Wednesday, Mrs. Kennedy settled into the seaside villa of shipping magnate Markos Nomikos. Tight security surrounded the villa. Guards carefully inspected the tool kit of an electrician coming to check installations.

Her arrival was greeted with front-page newspaper stories, mostly expressing delight at her choice of Greece, a second time for a vacation.

The 300-foot yacht Christina, put at her disposal by shipowner Aristotele Onassis, was at anchor in Glyfada Bay, waiting for Mrs. Kennedy to cruise the Greek islands.

Nation's Skies Mostly Clear

CHICAGO (AP) — Early October's spell of mild weather continued across most of the nation today, with clear skies and fairly mild temperatures.

The pleasant weather pattern changed in a few areas during the night, mainly in Michigan. Violent thunderstorms lashed parts of Michigan's lower peninsula with heavy rain and strong winds. Wind gusts up to 70 m.p.h. were reported in some areas. A small tornado struck near Reed City. No injuries were reported but there was extensive property damage.

The same cold front that set off the storms in Michigan produced thundershowers in the Eastern Great Lakes region. Light rain was reported in the Pacific Northwest and there were showers and thundershowers in scattered sections of Southern Florida.

Temperatures ranged from the 50s in the northern half of the nation to the 60s and higher throughout the Southland.

The standard present-day kings, queens, bishops, knights, rooks and pawns of chess came from an 1849 design by Howard Stanton. By 1960, Stanton pieces were in widespread use.

No one spoke against the motion. The church is near the Texas Christian University campus and has about 2,000 members. Dr. James Harris, pastor, told those present they had a choice to "face it head-on and set a policy or wait until a person presents himself for membership and face it another Wednesday night." Wisdom Of Ex-Presidents Now Sought By Senators

By J. W. DAVIS

WASHINGTON (AP) — Ex-President Herbert Hoover is supposed to have told ex-President Harry S. Truman one time:

"The only thing for an old President to do is to take pills and dedicate libraries."

Hoover was joking, of course; both he and Truman — and also Dwight D. Eisenhower — the other living ex-President — have managed to keep busy at useful occupations.

But they could have a bigger voice than they do in the nation's affairs. The Senate this week took a step toward giving them just that.

The Senate passed a resolution giving all ex-Presidents the privilege of addressing it whenever they wished. All they would have to do would be to give advance notice.

Similar legislation has been proposed in Congress many times, but the idea always has foundered on the rocks of indifference.

William Howard Taft put an effective quetus on a comparable proposal in 1912 when he said he could see no point in ex-Presidents being made non-voting members of the Senate. Chilton, Taft said, could provide a more merciful oblivion.

But, circumstances and viewpoints change. At this time, thanks to the persistence of Sen. Claiborne Pell, D-R.I., it got through, although it didn't go as far as he had hoped. Pell originally wanted to give all ex-Presidents the status of senators-at-large.

There is no expense involved in the proposal the Senate approved. Former Presidents already are entitled to pensions of \$25,000 a year plus up to \$50,000 a year for staff expenses.

Truman and President Kennedy already have the right to the Senate floor, being former members of the body.

But, still, what if Hoover and Eisenhower were to come in, too, "the luster of our body would be even further enhanced."

"I know how much I would appreciate the advice and reactions of former Presidents when it comes to some of these rather difficult problems on which we have to vote, particularly those problems where our own Senate committee recommendations run counter to those of our chief executive."

Pell didn't have to add that most men—especially old men—like to give advice. That's a truism daily demonstrated in the Senate.

When he had read all the books for his age bracket in the school library, he talked his father, an Air Force captain, into donating more volumes.

Last week, Kenneth, 8, "who couldn't get to school fast enough," died of a cerebral hemorrhage.

The Chicopee school board voted Wednesday night to rename the room with the books that Kenneth loved so well: "The Kenneth Garrett Memorial Library."

His father is Kenneth Garrett Sr., of Shawnee, Kan., and Westover Air Force Base.

The Russian space woman arrived at Havana Tuesday for a five-day visit at the invitation of the Cuban Women's Federation.

The broadcast heard in Miami said Miss Tereshkova will tour Varadero Beach, a summer resort community on the north coast of Matanzas Province.

Pell gave this argument to the Senate:

"We could benefit by the unique wisdom of our retired chief executives."

"This, I believe, is a much needed step today, when the legislative and executive branches of our government too often think of themselves as antagonists rather than as allies."

"I know how much I would appreciate the advice and reactions of former Presidents when it comes to some of these rather difficult problems on which we have to vote, particularly those problems where our own Senate committee recommendations run counter to those of our chief executive."

Everybody out of the rut ...the '64 Buicks are here!

New Wildcat Wildcat sportstuck. Three help engine choices (up to 360 hp). Hot new Formula V wheels (optional extra cost).

Black Special: New longer wheelbase, safety box frame, roomier body. Still low priced.

Buick Skylark: A very personal car with Buick for action. Now in 3 models.

Buick LeSabre: Stunning new looks, new gas-saving engine. Probably 1964's best full-size value.

Electra 225: Most luxurious Buick, splendidly contemporary in taste and performance.

Our happiest problem for '64 was: how to beat a winner? According to thousands of owners, the 1963 models just about had it made in all departments. But—when your name is Buick—you just don't rest on your laurels. You keep pushing to make a great car greater.

So... the '64 Buicks are new—but new. New

engines, V-6 or V-8 (you'll like their new gas economy); new, smoother, extra-cost option, Super Turbine Transmissions (and who, but Buick, would build in an altitude compensator?). Youngest looking Fisher Bodies in town! Visit a showroom, sit in any one of the new Buicks, and practice this short easy line: "My Buick." Sounds good, doesn't it?
