Football Starts When Rockets Get Shoes

Approximately 75 Wellington Skyrockets will be issued shoes Wednesday, August 9, as preparations begin for the 1978 football season. This will be approximately 10 more than reported at the beginning of the 1977 season, said Head Coach James Williams.

He announced practice dates this week in order that the men and their families

may take late vacations or carry out other plans and be ready for the season's start.

Two-a-day practice will start Monday August 14, and the Rockets will go into pads Friday August 18.

Two scrimmages are slated. The first will be with Valley at Valley Thursday, August 24. Play will start at 7:30 p.m.

Wheeler will come to Powell

Field Friday, September 1, for the second and starting time will also be at 7:30. Coach Williams said.

The Skyrocket's first game, a big one, although a game having no bearing on conference standing, will be with Hollis Tigers.

"That is who we are looking at right now," Coach Williams said earlier as Wellington

football standings began to rise in state Class 2-A standing. Some polls rate the Skyrockets No. 3 in Texas.

Seventy three letters have gone out to varsity and junior varsity players, Coach Williams said, but he pointed out that any other boys who would like to try out are urged to come to the football field Wednesday, August 9, when

the shoes are issued.

Williams is optimistic about 1978 prospects since there is a strong core of returning lettermen

Arena Grounds Readied For Rodeo

Bucking broncs and fast cowboys come back to Wellington for the second annual rodeo Friday and Saturday, August 4 and 5, with two night performances slated.

Dr. Bill Estes, rodeo chairman, said plans for the event are near completion. Performances will start at 8:00 p.m. at the VFW Rodeo Arena

Besides the rodeo itself, there will be a big beef barbecue Saturday at 5:00 p.m. in Ellison Park, sponsored by First United Methodist Church.

Rodeo dances will be held each evening at the National Guard Armory with Mrs. Eddie Orr as chairman.

The Chamber of Commerce is the overall sponsor and Mrs. Margaret Vines, secretary,

announced that rodeo entries will open Tuesday, August 1, and will close at 5:00 p.m. on that day. Registering will be at the Chamber of Commerce office, 914 West Avenue, or entries may be called in, 806-447-5848.

Bill Halliday of Elida, N.M. is furnishing the stock and staging the rodeo.

Events will include bare-back bronc riding, calf roping,

headin' and heelin', bulldogging, saddle bronc riding, the girls barrel race and bull riding.

Dr. Estes said that the 4-H Horse Club will present the colors.

Out of town judges have been secured.

Tommy Thomas will be in charge of the concession. Additional rodeo plans will be announced next week.

C.T. Hubbard Retires from Banking After 24-Year Career in Wellington

C.T. Hubbard, an officer of the Wellington State Bank 24 years and now its president emeritus, will retire from banking at the end of this week.

Almost half of his career has been spent in Wellington, for on Wednesday, August 2, Mr. Hubbard will observe the 50th anniversary of his entering the banking business.

"He has done an outstanding job for The Wellington State Bank, and he has witnessed substantial growth in the bank from the time he came until the present," said Bill Beall, who succeeded Mr. Hubbard as president.

To mark Mr. Hubbard's retirement, the board of directors hosted a picnic in his honor Friday evening, July 21, at the John Holton farm near Dozier. Mr. Holton is a director.

There were games for entertainment, followed by a dinner which ended with home made ice cream. Employees and directors then presented him with an appreciation gift.

Attending were 85 men and women, who are directors,

C.T. HUBBARD

officers, employees and stockholders of the bank.

Although Mr. Hubbard is ending his service to the

community as a banker, he will continue to serve the Wellington area in other ways.

He played a major role in

bringing Southwestern Rail Products, Inc., to Wellington, in December 1976 and in working with it through its opening in November 1977.

He has helped Wellington to grow in other ways, having served two terms as president of the Chamber of Commerce, and a director for much of the time he has lived here. He is a past president of Wellington Kiwanis Club.

Concerned with the religious climate of the town, he is an ordained deacon in First Baptist Church. He has worked with youth of the town through its baseball program. He was chairman of the building and finance committee for the new building.

A sportsman and lover of many sports, in recent years he has spent his spare time fishing, especially in such major reservoirs as Toledo Bend and he is an avid golfer, having sponsored tournaments in the banks behalf for a number of years.

Born in Jones County, Mr. Hubbard graduated from Ninda High School, South of Hamlin. He then attended

Small Cities Grant Receives Approval

A total of \$51,500 in funds has been reserved for Wellington under the Small Cities Program of the Department of Housing and Urban Development, the office of Congressman Jack Hightower notified The Wellington Leader Thursday, July 20.

This is not actual certification, but it does assure that Wellington will get the funds, said Ivan Sinclair, spokesman from Congressman Hightower's office, said.

Later in the week, City Manager Glen Taylor was notified that Wellington is invited to submit a full application for Community Development Block Grant assistance in amount of \$51,500 to be used for rehabilitation or demolition work in target areas.

"All reapplications received were grouped according to the competition category of funds and rated in accordance with HUD's National rating system published in the Federal Register on March 1, 1978," said Leo Garrett, director, Community Planning and Development Division of HUD.

The deadline for the city to submit its application is August 15.

Applications will be submitted to the appropriate state and areawide clearing houses, which will have 45 days from receipt of the application to review them and give comments to both HUD and the applicant.

HUD will take no final action on the applications until the clearing house reviews are

received or the 45 days expires.

The amount allocated to Wellington is part of an application for a Community Action Block Grant in the amount of \$500,000. Besides rehabilitation and demolition, funding was requested for a park in northeast Wellington, a facility for housing fire equipment, water storage, sewer extension and additional paving.

American Ag Calls Meeting on July 31

An American Agriculture meeting has been called for Monday, July 31, at the directors room of Greenbelt Electric Co-operative, Inc., according to Denzil Lacy. Starting time will be 8:30 p.m.

This will be a general meeting to discuss the future of American Agriculture and pending farm legislation, Lacy said.

There will be a discussion of

activities to take place during August and September, Lacy said.

American Agriculture is not an organization, it is a movement, he stressed, adding that anyone interested in the welfare of the farmer and the health and prosperity of American Agriculture is invited to attend this meeting and join the discussion.

Two Wildcat Tests Will Be Drilled

Texas Petrotech, Inc., has filed with the Texas Railroad Commission intentions to drill two wildcat tests, one 7 miles southeast of Wellington and the other 9 miles south. The locations are about two miles apart.

Closest to Wellington is the No. 1 J.E. Forbis (160 acres) located 1775 feet from the north and 1700 from the west lines of section 27, block 10. The drilling depth will be production or 4,500 feet.

The other test is the No. 1 Jimmy Langford Unit, (160

acres) lying 2000 feet from the north and 450 feet from the west line of section 13, block 10.

This land is bounded on the north by the Collingsworth-Childress county line and is two miles east of US 83.

A deeper well, it will be drilled to 6,500 feet

This is the first drilling activity in Collingsworth county on the big block of leases taken by Amoco, almost 5 years ago. Landowners were paid \$5.00 per acre bonus and \$1.00 per acre per year rental.

Included in this block was all land south of State Highway 203 (the Mangum

Highway) and east of US 83 in Collingsworth County, and an even larger area in Childress county, reported to extend south almost to Red River.

Langford said he talked with a representative of Texas Petrotech, Inc., recently and was told drilling should begin in August.

Class of 1948 Establishes Memorial Fund for Piano

A memorial fund honoring classmates who have died in the 30 years since graduation was set up by the class of 1948 at its reunion Saturday, July 21.

Proceeds from the fund will be used to buy a new piano for the high school.

Three members are presently on the list of those to be honored: Joyce Wood, who

died several years ago, and whose home was in Midland; Kenneth Winter, an Air Force officer who died in a plane crash into San Francisco Bay; and Gene Harrison, who died in a motorcycle crash in Amarillo earlier this summer.

Donations from those attending the reunion Saturday totaled \$135.00. Cost of the piano will be \$3,000 or more.

Anyone wishing to become a part of this project may make a donation, said Mrs. Tommie Watts, treasurer. Additional class members who die while the fund is being collected will be added to the list of those honored, as will any who are already deceased when their names are brought to the attention of the class.

Women's Softball Tournament Slated

Wellington women's softball teams will sponsor a slow-pitch tournament Friday through Sunday, July 28, 29, and 30, with the teams from the Southeast Panhandle, Western Oklahoma, and possibly Amarillo. The action will be at Marian Airpark Ball Park. The tournament will start at 7:30 p.m. Friday, and games will continue until about 10:30 p.m. say the sponsors. Saturday games will start at 1:00 p.m. and again should be over by about 10:00. Two games are scheduled Sunday afternoon. First of these, to determine the consolation and third place winners, will start at 2:00 p.m. and the championship game will get under way immediately after the first one ends. Large trophies will be awarded to the sponsors of the first, second, third and consolation winners. Additionally, individual trophies will go to members of the

championship and runner-up teams.

Wellington has supported two teams this summer, sponsored by City State Bank and Cherokee Inn.

President of the Women's Softball Association is Louise Powell, and anyone wanting additional information on the tournament should call her at 447-2924.

National Bank, Littlefield. He remained a cashier from 1945 to 1947 at Snyder, then moved to City National Bank, Colorado City, as vice president.

He came to Wellington State Bank in August 1954 as executive vice president.

He was elected president January 18, 1964, and president emeritus in January 1977.

C.T. Hubbard began his banking career in what he calls the Boston ledger age—for that was standard equipment in the bookkeeping department of all financial institutions. He leaves the Wellington State with much of its work computerized.

He has weathered three depressions and an equal number of severe drouths. First of these was from 1928 to 1932 at Anson, followed by the dry years of the later 1930s, and again the dry years of the early 1950s.

Mr. Hubbard has been involved in two bank mergers during his career. Anson was a town of two banks when he went there, but these merged in 1930.

The other merger came four years after he came to Wellington, in 1958, when Wellington State Bank purchased the First National Bank of Wellington.

Mr. Hubbard is married to the former Charlene King, and they have two children, Mrs. (Kay) Don Fite and Chris Hubbard, both of Colorado City.

Two Graduates In Texas A&M

Two Wellington boys have enrolled in Texas A&M University and will report August 20 for freshman orientation.

Clay Don Lacy, accompanied by his father, was in College Station late last week to enroll in the school of petroleum engineering for the fall semester.

He will be in the Corps of Cadets also.

John Birkey and his mother, Mrs. John Birkey, Sr., were at A&M earlier in the week for him to enroll. He will major in mathematics and will be in the Navy ROTC.

Both young men will begin classes August 28.

Don Lacy received his degree from Texas A&M in 1956, and he said the total enrollment at that time was 8,000.

A freshman class of 9,000 is expected this fall, with a total enrollment of more than 30,000.

Window Treatments Will Add Interest to Unexciting Room

Turn a dull room into an interesting, exciting one with window treatments, suggests Sue Young, a housing and home furnishing specialist.

Treating one entire wall as a window is a space stretcher--for example, treat a picture window reaching from wall to wall, or a pane of windows, or a group of two or three unmatched windows as one wall, she continues.

Use draperies in a neutral color as an effective background.

Mrs. Young is with the Texas Agricultural Extension Service, The Texas A&M University System.

Regardless of whether the window treatments will accent or camouflage the windows, keep a few guidelines in mind, the specialist says.

--There are only three

lengths that look right--to the sill, even with the bottom of the window apron--which is the entire window frame--or just barely clearing the floor.

--Also, draperies should always clear the entire window glass when being opened, even if it means mounting the rod out on the wall to make room for the stack back.

Esther Group Holds Meeting

The Esther Group of the First United Methodist Women met in the home of Mrs. Bobby McAlister at 10:00 a.m. Friday, July 21.

Mrs. Robert Lewis, chairman, presided. The treasurer's report was given by Mrs. John Holton. Mrs. Lewis read a letter from the Wesley Center of Amarillo concerning donations needed for the maintenance of the Center's program for adults, youth and children.

Mrs. Bill Long presented study of the life of the Apostle Andrew.

ST. Andrew was a friendly, unselfish man who was willing to play "second fiddle" in the disciples' order, which was very necessary for its harmony, she brought out. "He is mentioned only three times in the scripture. He brought Simon Peter to Christ; he was a friend of John the

Baptist; and he appeared at the Passover. From Andrew's example, we become aware that Christ wants us to meet people, to know them personally and to desire to witness to them. Living or dying we are the Lord's witnesses," Mrs. Long said.

The next meeting for this circle will be September 1.

Those present were Mrs. Mary Ruth Jones, Mrs. Lewis, Mrs. Long, Mrs. Lowell Wells, Mrs. L.C. Hill, Mrs. Earl Alexander, Mrs. Robert Karnes, Mrs. S.L. Lindsey, Mrs. Holton, Mrs. Bill Beall, Mrs. Cal Hurst, a guest, Mrs. Kenneth Smith, and the hostess, Mrs. McAlister.

Although the original playing cards came from 10th century A.D. China, the earliest to bear the four suits of the modern pack reputedly date from France in 1440 A.D.

Our Progress Calls for Priorities

There are no summer doldrums in Wellington this year. Neither is there time to put off setting priorities for the months and years just ahead.

First of these, we must always remember, is airport improvement. No records are kept of traffic at Marian Airport, but it is increasing. Neither do we have a record of traffic we lose because our airport is so inadequate. That is increasing, too. We remind again that Southwestern Rail Products, Inc. employees must go to Childress or Shamrock several times each week to pick up people flying to and from the Wellington plant.

The Federal Aviation Agency has told the city it will be 1980 before funding is available UNLESS—and this is important—they come up with amounts of \$75,000 to \$100,000 left over from larger projects. City officials assured them we will take that. But this calls for the business community to keep in touch as well.

Southwestern Rail is increasing its use of bus service to bring in parts and supplies. Again employees must go to Memphis to pick them up.

This will take some study. We have been disappointed in past attempts to get bus service, however there is no option but to try again. Perhaps emphasis on freight shipments could make up for lack of passenger use as we knew it formerly. We believe something can be worked out that will not infringe on present motor freight service.

Housing is probably our No. 2 priority. Builders and developers are doing a good job, but they cannot keep up with the demand. It is bound to increase with the opening of the projected steel mill in 1980 with 120 employees.

Other priorities are:
Completion of our street paving project in the north part of town and getting on with the next block grant program, which will keep the city's hands full;

Completion of the project to clear title to many lots, especially in the northwest part of town that will be good for housing;

A street repair program on a sustained basis;
Additional paving in the south part of town;
Looking ahead for adequate library facilities.

These are material improvements, but what we do about them in the immediate future will determine what kind of Wellington we have 5 or 10 years from now.

Other Editors Say . . .

Yesterday's Grasshoppers

Sometimes memories improve with age, and it may be that way with grasshoppers. Right now farmers and ranchers are battling these hungry insects and the infestation reminds people of previous grasshopper plagues back in the 1930's and the 1950's. We remember one such wave of grasshoppers around 1935 when these insects came in a cloud much like the locusts of Biblical times. We can remember very well that our family lived on Amherst street and that the grasshoppers covered all of the trees and shrubs in a matter of hours. In a matter of hours they had eaten all the leaves off the trees, too, leaving them stripped and bare as though it were winter. In those years the government came out with a program of poisoned bait for grasshoppers, mixing up poison with bran in the back of the Donlay building and farmers picked up this bait in gunny sacks to spread over their fields. This was a rather crude and primitive way to kill grasshoppers compared with modern aerial spraying, but the people with growing crops felt they had to do something.

AUSTIN — Legislators moved through their third week of a special session facing a warning from Gov. Dolph Briscoe that he may keep them on the job if they fail to produce "meaningful" tax relief and limitations.

Both houses passed rival versions of legislation to repeal the sales tax on home utility bills and to increase to \$200,000 the inheritance tax exemption, then moved the issue to conference committee.

The Senate quickly completed action on a proposed constitutional amendment to permit tax valuation of all ranch, farm and timber land on the basis of productivity rather than market value.

Main issue raised was whether the tax break should be enjoyed by corporate agriculture and timber growers. Senators rejected 14-15 an amendment to restrict the advantage to small family farmers and ranchers.

Briscoe, two weeks deep in the session, opened the agenda to consideration of the property tax code reform bill by Rep. Wayne Peveto of Orange and Sen. Grant Jones of Abilene. Committee hearings advanced the bill in the House and Senate, but controversies remained.

Proclaimed Briscoe, as the legislative pace lagged:

"It is essential that we have some sort of tax limitation. The people deserve this. If it is not done in 30 days, we will have to take a look at what can be done. I will not rule out any potential on how long it will take. It has to be done—the sooner the better."

oil available for purchase, Texas Railroad Commission set the statewide production allowable for August at 100 percent.

Speakers for Exxon and Amoco explained their lower requests for purchase reflected an effort to bring nominations in line with actual purchases.

Chairman Mack Wallace said crude and petroleum imports were 7,862,000 barrels a day for the four-week average of July 7, a decrease of 697,000 from 1977.

Total nominations for next month came to 3,517,436, a decrease of 4,171 from July.

Flaws Reported
Secretary of State Steve

Oaks reported results of his investigation into alleged absentee voting irregularities in five counties to local district attorneys.

The probe centered on Bexar, Brooks, Duval, Gregg and Van Zandt counties.

Oaks said local prosecutors can complete the investigation and file any appropriate

charges.

He added he will draft bills for the legislature, setting greater penalties for tampering with election processes.

Irregularities, Oaks said, centered on such things as forgery of voters names on absentee voting applications or ballots, persons other than

voters applying for absentee ballots, delivery of absentee ballots when the law requires mailing, and assistance to absentee voters by persons other than designated deputy registrars.

Oaks said there were other allegations of payments for transporting voters to the polls on election day.

Farmers, Ranchers: Follow Safety Rules

AUSTIN—Farmers and ranchers, like many industrial organizations, can implement profit-saving cost-effective accident prevention programs, says the managing head of the Texas Safety Association.

George R. Gustafson, General Manager, pointed out that many commercial firms have implemented outstanding accident prevention programs that have paid off in fewer injuries and property damage accidents. These programs have brought about a savings far exceeding the investment.

Farmers and ranchers should also consider implementing specific accident prevention activities on the farm, suggested Gustafson. "This means a program designed to minimize equipment and environmental hazards as well as human errors in his operation. In this day of big investment, but often low-margin farm profits, he simply cannot afford to take unnecessary risks."

"Today's farmer wears many hats, including protective safety hats where needed," Gustafson observed.

"But unless he is a good manager, he may be less than successful in many of these roles, particularly those related to running a profitable agricultural enterprise."

He pointed out that successful management of thousands of dollars worth of land, machinery, buildings and animals requires broad

knowledge, skill resources and hard work. Even then the farmer often must cope with bad weather, lack of competent help, disease and a cost-rise squeeze.

"Perhaps the farmer can't do much about the weather, but he certainly can do a lot to prevent accidents," he said.

Accident prevention, he continued, must be a farm management goal, preferably expressed in a plan tailor-made to the operation. "Farmers and ranchers must keep informed about safety and know the applicable safe practices as well as the requirements of laws and concerning safety and health of all employees," he said.

"They should routinely inspect all equipment and facilities for hazards and faults, then make needed corrections without delay. They should also make sure that all employees are trained to perform their assigned tasks competently and safely."

"They should see that everyone working on the place takes needed precautions before starting their work. For example, they should make sure that equipment is in good working order, that safety shields are in place and that

needed personal protective equipment is worn.

"Quality products with built-in safety and reliability should be purchased," Gustafson said, "and it should be made sure that all who use this equipment are properly trained in its safe operation."

Recent visitors in the James Richardson home have been Col. and Mrs. Bill C. Powell, Marc and John, of Ft. Devens, Massachusetts; Mr. and Mrs. Gerald Ray, Chris and Richard of Claude; Mr. and Mrs. Bill Terry of Plainview, Amy and Kerri Moorhouse of Guthrie, and Mrs. Gene Sweat and Michelle of Amarillo.

FARM

CONOCO

Your farm — it's your life's work, pride and happiness, and it's your private piece of the world. That makes it worth worrying about . . . worth caring for. Take the extra time to check safety features, to assure yourself that all equipment, building and electrical components are in A-1 shape. Keep eyes on lookout for fire hazards. Make sure lofts, ladders, silos are secure to avoid injury. Store tools away carefully for added safety.

Keep a constant look-out. When precautions are followed diligently, there is less room for error. Farm safety-checks, most importantly, guarantee your family a financially sound future.

1968 Class Hears Reading of Wills, Prophecies at Reunion

The Wellington senior class of 1968 held its 10-year reunion Friday evening, July 21, at the VFW building.

A hamburger supper with all the trimmings was served. Afterwards, Cherry Lewis Sims received a gift for traveling the greatest distance to attend, 386 miles from Albuquerque, N.M.

The class wills and prophecies from both the eighth grade and senior high banquets were read.

Class members and families attending were: Bill and Nancy Shumate McKinney, Childress; David and Deborah Peters Kendall, Skiatook, Okla.; Cherry Lewis Sims,

Albuquerque, N.M.; Alfred Alfred, Dallas; Keny and Cheryl Needham Brown, Daryon and Derek, Childress; Freida Minatrea Hartman, Tim & Leandra; Patricia Thomas Rudy and David; Jimmy & Vicki Wade Black;

Bill & Nancy Thomas Lindsey, & DeJon; Kent & Judy Clark, Vikki Saunders; Ray & Polly Browning & Greg;

George & Vickie Mayhugh Porter; Andy & Deltah Henard & Nandy; and Glenda Kiker Scott, all of Wellington. Class sponsors attending were Louis Graham, Joline Groves Wilson and James Stavenhagen of

Shamrock. Other guest present were Mrs. James Stavenhagen of Shamrock, Bill Wilson and Henry Wells.

In charge of the reunion plans were Freida Hartman, Vicki Black, Nancy Lindsey, Pat Rudy, Cheryl Brown and Vikki Saunders.

Steve Davis, Andy Henard and Kent Clark prepared the hamburgers.

Childress Junior Rodeo Aug. 4-5

The 15th Annual Childress County 4-H Junior Rodeo will be held on Friday and Saturday, August 4 and 5, at the Old Settlers Arena in Childress at 8:00 p.m. each night.

Saddles will be presented to the All Around Cowboy and Cowgirl, those earning the most total points. To be eligible for the saddle, a contestant must enter at least three or more events.

Competition will be divided into two age groups. Events for the 15 through 18 year olds will be bull riding, tie down calf roping, barrel race and pole bending. The 9 through 14 year olds will compete in steer riding, calf dobbing, barrel race and pole bending. The open events for both age groups include bareback bronc, team roping, ribbon roping and rescue race.

The entry deadline is July 31st and entry blanks are to be mailed to the Lazy F Western Wear at Childress.

Hospital Census Continues High

Hospital Board members heard Monday night, that the hospital census so far in July continues to hold up, just as it did in June. This is in contrast to the summer months of most years, Charles Floyd, administrator, pointed out.

Dr. Carter Holcomb, chief of staff, announced to the board that Dr. Reynaldo Perez is not leaving Wellington. Articles in out of town newspapers which listed Dr. Perez on the staff of the Childress hospital had given rise to a report that he was leaving.

It was pointed out that he is giving anesthesia at the Childress hospital on a part-time basis, and is therefore added to the staff.

Collingsworth General Hospital carries on its staff several out of town doctors who serve as consultants if and when they are needed.

The board took under study Dr. Perez request for clarification of several items

relating to the time he came to Wellington, which the present administrator and board were not aware of.

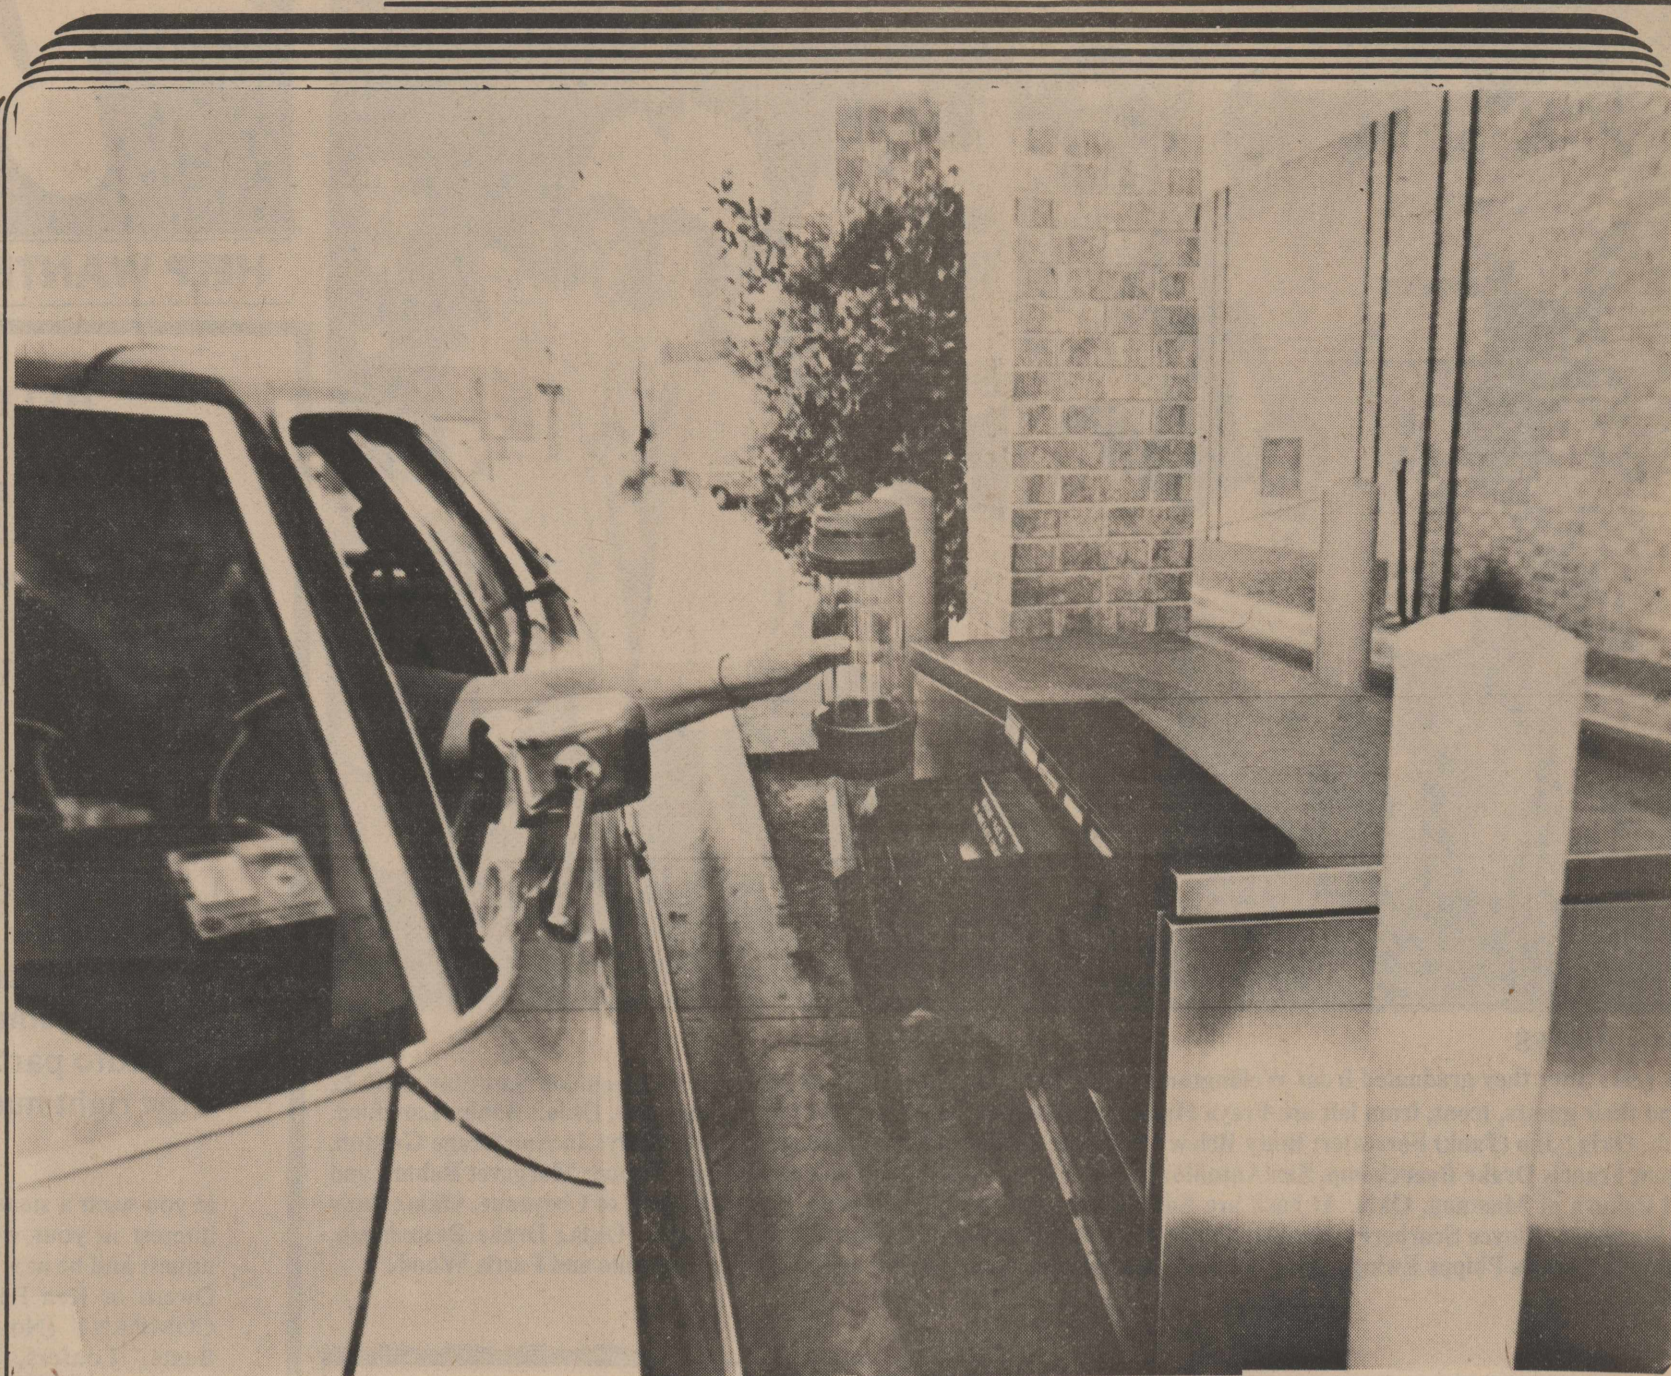

In answer to a question relating to taxes, Floyd said that 1977 tax collections would total approximately \$114,000, up from \$101,000 in 1976. After bonds and interest are paid, the hospital district would have around \$78,000 expendable income from the 1977 tax collections.
