Miss O'Lysia Bowden Becomes Bride of Phillip Conaway

Miss O'Lysia Nell Bowden became the bride of Phillip Conaway of Colorado City Saturday in the First Methodist Church at Hart.

The bride is the daughter of Mr. and Mrs. E. H. Bowden of Hart.

Mrs. T. E. Conaway of 721 Hickory Street is the mother of the bridegroom.

Dr. Luther Kirk performed the double ring ceremony at seven o'clock in the evening before an improvised archway accented with greenery. The church was decorated with baskets of roses and candles.

Given in marriage by her father, the bride wore a formal wedding gown fashioned from Chantilly lace and tulle over slipper satin. The moulded lace bodice featured a tulle yoke, mandarin collar of the lace encrusted with seed pearls, and long fitted sleeves extending to petal points over her hands. The bouffant floor-length shirt, styled with a scalloped lace overskirt, fell over pleated ruffles of the tulle at the hemline, and was accented at the back-sweep of the gown with tiny tiers of the tulle-ruffles.

Her waist-length veil of silk illusion was caught to pearls. She carried a corsage of pink rose buds.

Traditional wedding music, "Claire de Lune," "My Wonderful One" and "The Lord's Prayer," was presented by Miss Neysa Petri, organist, and Miss Evelyn Hughes, soloist.

Carolyn Jones of Sweetwater read "How Do I Love Thee," a sonnet by Elizabeth Browning, while the organist played "Because."

Miss Joyce Bowden, sister of the bride, was maid of honor.

Miss Bowden was attired in a dress of pink embroidered crystalline, designed with a scooped neckline, and bell shaped skirt. Her accessories were rose colored and she carried a long stemmed pink rose bud.

Bridesmaids were Miss Patti Carlson of Eunike, N. M.; Mrs. Jerry Gribble of Abilene, Mrs. Bob Johnson of Lafayette, La.; and Miss Connie Bowden of Hart.

Flower girls were Patti and Jennifer Robertson, cousins of the bride.

Candles were lighted by Bob Bowden of Hart, brother of the bride; and Harvey Harrison of Hereford.

Bob Johnson of Lafayette, La., was best man.

Groomsmen were Charles Currie of Abilene, Jerry Gribble, Joe Dean and Reggie Myrick.

Ushers were Bob Bowden and Harvey Garrison.

Fellowship Hall of the church, decorated with baskets of pink roses, was the setting for a reception honoring the bridal couple immediately following the wedding ceremony.

Members of the houseparty included Mrs. Ed Harris, Miss Betty Criswell; Miss Audrey Worley, Mrs. Bill Alexander, Mrs. C. C. Martin Jr., Mrs. Buster Aven, Mrs. W. A. Hawkins Sr., and Mrs. Earl Jones.

When the couple left for a wedding trip to Ruidoso, N. M., the bride was wearing a fitted suit of sapphire blue silk, styled by the bride's mother. She wore white accessories.

The couple will reside at 2741 South 16th Street in Abilene.

The bride, a graduate of Hart High School, is a member of the 1959, graduating class of McMurry College in Abilene. She is a member of T.I.P. Social Club, serving the club as vice president. She was named college beauty for two years. Athletic Sweetheart, and was runner-up for Reservation Princess in '59.

The bridegroom is a science teacher at Colorado High School. He was graduated from CHS in 1950 and attended McMurry where he was a member of Indians football squad, and also where he be-

IN ELLWOOD HOME

Ann Webb, Perry Ellwood Wed in Double Ring Ceremony

Double ring wedding vows were solemnized Friday morning for Ann Etta Webb, daughter of Mr. and Mrs. Beverly Thomas Webb of Ballinger, and Perry Riach Ellwood, son of Mr. and Mrs. T. L. Ellwood.

The Rev. Douglas Morris, pastor of the First Methodist Church in San Angelo, performed the ceremony at eleven o'clock in the morning in the sitting room of the Ellwood home in the presence of members of the immediate families.

The couple repeated vows before the mantle, which was decorated with a cascade arrangement of white gladioli and a pair of brass candelabra holding white tapers.

Flanking each side of the fireplace were baskets filled with white stock and emerald foliage. For her wedding the bride was wearing a street-length sheath dress fashioned from pale pink embroidered satin designed with portrait neckline and brief sleeves accented with an Empire waistline. Enhancing the back of the gown was a draped fold of matching pink chiffon extending to the hemline.

She wore accessories of pink and pearls, which were a gift from the groom. Her corsage was fashioned from orchids and stephanotis.

Honor attendants were Mrs. Lewis R. Shields of San Angelo, matron of honor, and David Bridgford, best man. Mrs. Shields was attired in a sheath dress of toast embroidered cotton satin. Her accessories were ivory colored and she was wearing a gardenia corsage.

Mrs. Grubbs Receives Honor

Mrs. Johnny Grubbs, 1958-59 president, was selected as an honorary member of the Jaycee-ette organization last Thursday during a monthly business session of the group.

They will sell tickets Saturday and Monday. Mrs. Bob Williams was named chairman of Saturday ticket sales, and Mrs. Wayne Worley, chairman for Monday sales.

The organization also voted to donate 10 sandwiches per member, which will be sold at the donkey baseball game by the Jaycees as an extra fund raising part of the campaign.

Out of This World

Other-worldly look of the structures, above, fit the bleak site on which they're located. On Unimak Island, far out in the Aleutian chain, the group of buildings are part of the westernmost link of the transcontinental DEW—Distant Early Warning—network. Churchlike dome, center, houses radar unit. "Dishes," left, and curved reflectors, right, are portions of radar detection and beamcasting communications equipment.

MRS. MILLER, SPEAKER

'Our Hope of Glory' Topic Of Maranatha Club Program

"Our Hope of Glory" was the topic for the final program last Thursday concluding the club season for the Maranatha Study Club in the home of Mrs. Frank Webber.

Mrs. Newt Miller was program leader discussing the Bible Character, Paul, using material from the book of Colossians.

"Paul wrote this letter to the church at Colosse while he was in prison at Rome," Mrs. Miller stated. "He had never seen the church there, which was probably established by Epaphras, but Paul kept in touch with all of the new Christian churches and was especially interested in the Gentile Christians," Mrs. Miller added.

"The mystery that Paul spoke of was the riches of God's glory among the Gentiles. It was Christ in them—the individuals—that was their hope of glory."

"The word hope means to expect with confidence. There is no element of doubt in the word in its true meaning," Mrs. Miller emphasized. "Paul is saying here that if one has Christ in his heart, he can look forward with confidence and desire to be in Heaven with God," Mrs. Miller said.

Members answered the afternoon roll call by speaking of "One of Paul's letters."

Devotion thought for the program was presented by Mrs. Sam Bullock.

Visits in Home

Mrs. Joe Ed Bostwick and daughters, Joanna and Jennifer, have returned to their home in Victoria following a 10-day visit in the home of her parents, Mr. and Mrs. A. G. Ballard of 1141 Chestnut Street.

Mrs. Bostwick and children were accompanied to Dallas by her mother, Mrs. Ballard, where they were met by Mr. Bostwick who was returning from the West Coast following duty with the Navy Reserve.

Piano Recital

Piano Pupils of Mrs. W. R. Martin will present a recital Sunday at 3 p. m. at First Methodist Church in Fellowship Hall.

 It boasts the company's entire generating output above the million kilowatt mark - sending it to 1,040,000.

ALTHOUGH TESCO has announced no plans for additional expansion of the Morgan Creek Plant, the officials have made no secret they have looked toward the possibility of even higher capacity at the plant.

Infact, in 1957 before the State Board of Water Engineers in Austin, TESCO data filed in behalf of the Champion Creek reservoir project mentioned the possibility of a sixth generating unit for operation in 1962 or 1963.

 Fourth, and stole a souvenir 22 caliber rifle.

Neighbors reported the burglary to police almost instantly, for they watched the boys enter and leave the house while Mrs. Cooper was away at about 5:40 p. m.

Police found the youngsters at their home. They had hid the gun in brush near the Col. Tex Service Station, corner of Hickory and E. Second.

The two brothers are in a family that has long juvenile problem for police. And the pair who took the gun have a record - even at their early age - of burglary thefts and other wrongs.

SPEAKER

Continued from page 1

"The TESCO official warned the seniors to be on guard against our nation progressing so fast in power, transportation and science that it might outrun a sound philosophy in government."

"The trend into a governmentally-dominated, socialistic system of industry has been a rapid one," he said.

"This sort of thing is aided every time a young man or a young citizen decides that the government owes him a living, and that he has to make little effort or, in fact, merely sit around to collect it."

"Each time this happens the person concerned has given up a part of his pride, his opportunity, his independence, his judgment and choice of occupation to a greater or lesser degree."

Thomas urged the seniors to early take an interest in local, county, state and national government.

And try to learn the necessities of government, he said, and distinguish them from the embroidery work and demagoguery in which politics often becomes involved.

"In a world that has grown from the one planet that men knew," the speaker stated, "to stars and suns and other solar systems - and a universe stretching into space . . ."

"In a time when the fundamental truths of living and loving and getting along with each other have to be adjusted to a constantly increasing knowledge . . ."

"There is still no reason," Thomas emphasized, "for men to forget an all-wise Creator and a center of knowledge and law and order . . ."

"Nor to forget to learn and follow the tenets of religion and trust and prayer or fail to keep the moral cleanliness and the self respect it brings as one of the great aids that you may carry through life with you."

Then, for a closing gem of advice from the road of experience, the industrialist spoke of the time when failure must come to any person.

"To each man and woman," he said, "comes a stress too great to bear at times - and failure."

"No one can succeed at all he tries."

"Face this when it comes bear it and start again. It is the way of all who try to do things well."

COACH

knowledge . . . if we can't give them more confidence," he spoke of the young athlete, "then we will have not done our job."

"If they leave high school with a defeatist attitude, then it can carryover when they compete for jobs."

The job of replacing a defeatist attitude with self-confidence must be "little by little" on the right foundation with adults pitching in to help, he said.

Referring to conflict between some sports groups within high school, Holladay emphasized that "we can't have respect for ourselves" if one group is razzing another.

"It takes an overall program. And we have got to sell an overall program . . . not just one sport," he said.

The new head mentor said several reasons could be causing boys to drop out of athletics after junior high.

But if it is because of "letting someone else do it when the going gets real tough, then surely we are not doing our job."

Fear of injuries is another reason for quitting sports, especially football, he said.

"Serious injuries in football have gone down, down and down," Holladay stated, "and for every one seriously injured boy in football in the State of Texas, 20 are seriously hurt in automobiles."

"These problems," he said, "the coaching staff and I are not going to be able to solve by ourselves."

"We need your help to give those kids a faith and a faith by which to play."

Matthews, who produced district-winning basketball teams in Gruber before accepting a coaching place here last week, spoke briefly.

"We'll seek to equip them on the basketball floor and field," Matthews said, "and give them something they can use in life."

"After all, a boy is all that God gave us to make a man out of."

The new basketball coach said there are two things he cannot tolerate on his athletic teams: unsportsmanlike conduct and loafing.

CCC Choice 'A' Cotton Can Sell Through Local Agencies

Mitchell County's Agricultural Stabilization & Conservation office Saturday called attention to the new sales policy for Choice A cotton in the 1959 crop price support program.

Wayne Worley, ASC office manager, pointed out that Choice A upland cotton purchased by the Commodity Credit Corporation under its 1959 price operations will be offered for sale by approved local sales agencies as well as by the New Orleans Commodity Stabilization Service Commodity Office.

Choice A cotton is that cotton produced under provisions of the maximum acreage control feature and eligible for the top support of the '59 program.

To be approved as a local sales agency, Worley has been informed by the U. S. Department of Agriculture, an agency must have had recent experience in merchandising cotton and must have entered into a Cotton Sales Agency Agreement with CCC.

66 Contracts Up County's Reserve Land Highway Accidents Injure 4 Persons

Farmers in Mitchell County have signed 66 additional contracts to take land out of crop production and devote it to grass.

These new contracts, signed since last fall, include 4,212 acres of crop land which will be in the program for the first time this year.

The new acreage for the Conservation Reserve program was announced Saturday by W. R. (Bob) McGuire, chairman of the County Agricultural Stabilization & Conservation Committee.

Applications for the new contracts were filed by Mitchell farmers last fall. Before approval of the contracts, however, each application was inspected by representatives of the County ASC Committee to determine:

- (1) That the land was eligible for the program;
- (2) The exact acreage of the land and
- (3) That the land offered was of average quality for the farm.

All work related to approving land for the 1959 contracts has been completed, McGuire said, and the newly signed contracts are now in effect.

The 66 new contracts increase to 37,788 acres the Mitchell County crop acreage now covered by Conservation Reserve contracts for the current crop season. These 37,788 acres include land covered by contracts signed in 1956, 1957, 1958 and 1959.

Parade, Donkey Game Open League Season

By JOHNNY GRUBBS
Record Sports Writer

Colorado City's Little League, Pony League, and Teen-age League baseball teams will get down to serious business this week when actual league play gets underway.

Monday, is proclaimed Little League Day and will be observed by a full program of festivities.

Approximately 350 youngsters, in full baseball uniform, will be featured in a parade downtown, beginning at 3 p. m.

Monday.

At the conclusion of the parade these young ball players will disperse and proceed with a house-to-house campaign selling decals. These decals will be sold for \$1.00 each,

and the profits will go into the Little League baseball fund to be used for expenses during the regular league season.

A dedication ceremony will start the evening's activities at the Little League field at 7:30 p. m. in Ruddick Park.

For the last 12 months the Colorado City Jaycees have been building a new Little League baseball field. This field is now complete and will be presented to the Little League association immediately following the dedication ceremony.

The new field will be named Little League Memorial Park in memory of two former Colorado City Jaycees, the late Robert Kirschbaum and Goodwin Simpson.

Climaxing the evenings entertainment program, a donkey baseball game will be played, sponsored by the Jaycees. Wallace High School boys and Colorado City High School boys will ride the donkeys in the contest, beginning at 8 p. m.

All proceeds from the game and from the concessions will go to the Jaycees to help pay indebtedness on the new field.

Admission will be 75 cents for adults and 25 cents for children.

Actual league play will begin Tuesday, June 2. There will be no other baseball games played in Colorado City Monday except the donkey game.

All Little League games will be played on the Little League Memorial Park field, and all Pony League games will be played at the High School field. The Teen-age League games will be played on the High School field also.

Hilarious Adventure

Audie Murphy and Sandra Dee find themselves in adventure with laughs as they star in "The Wild and the Innocent," opening Sunday at Palace Theatre for a three-day showing.

'WILD AND THE INNOCENT'

Rollicking Story On Palace Screen

A hilarious adventure backgrounded against the Early West, and detailing the tribulations of two young people on their first visit to a "city" forms the provocative premise for Universal International's robust production, "The Wild and the Innocent," which opens Sunday at Palace Theatre.

Miss Susan McDonald of Colorado City and her mother, Mrs. J. D. McDonald of Loraine, visited last Sunday in Midland with Mr. and Mrs. F. H. Hannah.

Accompanying them to Midland from Stanton for the visit were Mr. and Mrs. W. C. Whitten.

Pair Visit Midland, Stanton Relatives

As his romantic companion, youthful Sandra Dee amply demonstrates why she was selected on most major polls as the outstanding newcomer of 1958. With a sparkling vivacity reminiscent of the early Judy Garland, the 16-year-old star immediately captures her audience with her beauty and ability as an actress.

No less impressive in another dramatic about-face is Joanne Dru. Usually seen in films as the lovely heroine, Miss Dru turns in a dramatic, emotionally-charged performance as a shady lady intent on capturing Murphy as an additional "trophy" for her collection.

And that never-aging romantic hero, Gilbert Roland, gives another of his vibrant, sardonic portrayals as a crooked sheriff dedicated to evil ways

LORAIN FETES JIMERSON

Lions Governor Sings For Ice Cream Supper

By MRS. C. C. HAMILTON Record Correspondent

LORAIN Fettes Jimerson, Lions of Loraine were host Tuesday night to District 2-T2 governor Duke Jimerson of Midland.

The district governor was principal speaker for a ladies night program that included an ice cream supper.

Master of ceremonies for the program was Wiley Walker, president of Loraine Lions. Walker introduced Jimerson and introduced two guests, Mrs. Vanda Martin and Mrs. Leona Smith, whose late husbands were Lions.

Jimerson emphasized the need for "vision, faith and courage" in the walks of life during his talk to the group.

The Lionettes — Glenda Richard, Teena White, Dora Griffin, Judy Hudgins and Golda Cary, accompanist — presented two selections.

And Jimerson contributed a vocal solo of his own, "Lucky Ole Sun," while accompanied by Miss Cary.

Homemade ice cream and cake were served to the Lions

and their wives and guests. In the group of guests were Duke Jimerson Jr., son of the Lions governor, and Ross Pratt of Arlington, visiting here with his grandparents, Mr. and Mrs. Woodrow Pratt.

Rev. and Mrs. Merriel Abbott and children were in Winters Monday to visit their parents before Rev. Abbott, minister of Loraine's First Methodist Church, went to Abilene for the annual Methodist Northwest Conference.

The minister was in Abilene for the conference through Friday.

Mrs. T. J. Coffee was at home here this week after several weeks in the Snyder home of her son-in-law and daughter, Mr. and Mrs. Robert Bruce.

Mrs. Coffee was injured in a fall while on a visit with the Bruces and she remained there during the recuperation period. She is now on crutches as her condition continues to improve.

Mrs. J. G. Bruce visited last Sunday in Snyder with Mr. and Mrs. Robert Bruce. She attended a recital in which the Bruce daughters, Betty Ann and Becky, were presented.

Credits Still Important in S. S. Benefits

"You must have social security credits for a certain length of time in order to qualify for benefits," local residents are reminded by R. R. Tuley Jr., of the Abilene Social Security Office.

"Because at one time only six quarters of coverage were required, many persons erroneously believe that only six quarters of coverage are required to insure anyone now and in the future," Tuley said.

Usually, a person will be fully insured at the time of retirement age, total disability, or death if at that time he has a quarter of coverage (earned at any time after 1936) for each two full calendar quarters after 1950.

Tuley invited anyone who has questions concerning the amount of work he needs to qualify to visit the social security office at 203 Fannin at North 2nd Street in Abilene or see the representative who will be in Colorado City at the Chamber of Commerce, June 10 and 24 at 10:00 a. m.

OUTDOORS IN TEXAS

By VERN SANFORD

Catching catfish on a trotline is one thing, but taking them on a pole and line, or on a rod and reel, is something else.

We've talked about trotting and have touched on other ways of catching fish, but here is some additional speculation about these fish that you can add to your store of information.

All this is going on the assumption that the more you know about fishing, the more you're going to catch. So you go out, loaded to the hilt with piscatorial lore. Then, traditionally, the barefoot boy with cheeks of tan, and a worm can fill up his stringer while you get skunked.

Or your wife outfishes you, or some guy who came along for the ride is the one who furnishes meat for the frying pan.

Yep, it happens sometimes. But over the long haul, a guy who knows his fish and fishing, is the one who gets the prizes.

Some years back, catfishing was a game strictly for trotliners and for the pole and line fishermen. But now, the sport is gaining favor as game fishing.

If you want to snag a big fish on a rod and reel in fresh water, the catfish is as good a bet as any.

You can go for carp, but there are many who (wrongly) consider carp inedible.

You can try for gars, and they come in king sizes, but they really are no good for eating.

There's many an ardent angler who doesn't eat fish. He fishes for the sport. But it's likely that for most fishermen, the pleasure of eating what they catch adds to the enjoyment of the trip. I belong to the latter school myself. I want to take something home for dinner, if possible.

So, all considered, the catfish is the best bet for the fresh water sportsman who wants to bring in a big, edible fish. Best of all, there's no limit as to how many the fisherman can catch and keep.

Construction of power dams in Texas has given catfishing a boost. When power is being generated, the turbines stun

or kill thousands of bait fish, amounting to a giant churning operation. Below the dams, catfish never had it so good.

If you want catfish, the waters below such a dam are good hunting territory. However, if there is no such dam near you, don't despair. There are catfish in nearly every river, creek, pond, and lake in Texas.

You should know about the three main kinds of catfish in Texas. They all look and taste pretty much alike, but there is a little difference in the way you fish for them.

Much has been said about "stink" bait. And especially about the smelly things that a catfish will eat.

It's all true, except that the yellow cat would prefer his food fresh and alive. If it's a small, live bream, not more than two and one-half inches long, or a big minnow, would be your best choice.

It's the blue and the channel catfish that want their food ripe and odorless, with exceptions. They will go for fresh chicken entrails, or a fresh shad that has been mashed in two, and sometimes fairly often, that is—blues and the channels will go for live bait.

So you see, there's no rigid rule in these matters. In fact, the right procedure when you go catfishing is to carry along a variety of bait. If they don't take one, maybe they'll go for another.

Rig up your fishing equipment with a 1/0 long shank hook at the bottom, and a sinker about twelve inches above it. The weight of the sinker depends on the kind of tackle you are using. Above the sinker add a slip bobber. This, so you can regulate the depth where you think the cats are lurking. Put on your first choice of bait, and go to work.

As to depth, try the bottom first. That's where catfish are most of the time. If you don't get any business down deep, move on up into the shallower parts of the water.

Give your bait a long cast. Let it sink to the bottom and rest there for a minute or two. Then start a slow retrieve. When I say slow, I mean S-L-O-W. Turn the crank half a turn and wait awhile. Hum two bars of "Dixie" and give her another half turn. And so on like that.

It will take some time to retrieve, if you're doing it right.

Fishing on the bottom like this, you're going to hang up once in awhile and lose your rig. But that's the way it goes. You can help the situation by the way you bait up. Covering the hook with bait, so that the point is not exposed protects you somewhat against hooking a rock or a submerged log.

It protects you somewhat, and that's all. Of course, you can save hooks, line and sinker, by fishing shallow all the

29A

time—with a bobber that lets keep your hand on that rod your bait go down only about three feet. And you might catch some fish that way. But if the catfish are on the bottom, all you get is a suntan.

Another way to save hang in up is to let the bait alone once you have cast it out there. You can catch fish that way, too. But you'll catch more if the bait moves a little bit once in awhile.

I know this from my own experience. I have been fishing with a buddy who always keeps his bait moving, no matter how slowly. While he is doing this, I let my bait rest on the bottom, lean back, and enjoy life.

He lands three fish to my one.

So, if it's fish you want

time with a bobber that lets keep your hand on that rod your bait go down only about three feet. And you might catch some fish that way. But if the catfish are on the bottom, all you get is a suntan.

But to have patience. You need it for all kinds of fishing. But you need it especially for catfishing. Console yourself if nothing happens in the first hour or two. You are going to catch catfish after awhile. If not this trip, then the next, providing, of course, that you have selected a place where catfish are.

And as we said before, catfish are almost everywhere.
