On Saturday, May 16th, the party left Amarillo on a special all steel train, the finest of the Santa Fe equipment.

Th excursion was under the direction of Wilbur Hawk, president of the Tri-State Fair Association, Henry Ansley of the News-Globe, Mason King, secretary of the Amarillo Chamber of Commerce, and Earl Brame, representative of the Santa Fe railway system.

Sheriff's Force Prevent Thieves Stealing Buick

On Tuesday night about 12:30, the sheriff's force, while trailing suspects, noticed a car near the center of the street at Arizona and State streets. The car was dark, and after passing it their suspicions were aroused and they turned back.

Two men ran into the alley by Jack Turner's. The sheriff's car cut into the other end of the alley, but failed to find the men, who evidently cut back across the street escaping through the alley to Liberty street.

On investigation it was found that the Buick car owned by R. G. Bryant had been pushed out of his garage, to the street intersection. The car thieves were unable to start the car, as the gas tank was empty and the batteries down.

In this car were found three casings which had been removed from the Chevrolet car of Paul Morrison.

Timely action on the part of the sheriff's force prevented the car from being stolen.

VALUE OF PUBLIC HEALTH NURSE

Elsewhere in this issue will be found a report of the health condition of the state, as given by the Rockefeller Health Foundation.

This report is of especial interest in face of the move now under way by some to have the county nurse discontinued.

The county nurse serves the entire county and gives valuable aid to those who otherwise would be financially unable to secure this service.

The health of the children of the county is of far more importance than the measly amount of taxes you pay to keep up this work.

No county in the state has a more efficient health nurse than the one now employed by Roosevelt county.

The better that you know her, the better you will like her.

Being reared in Holland, she completed her education in California.

Thinking people will think long before deciding to discontinue this valuable public service.

McKINLEY COUNTY ELECTION FRAUDS

New Mexico is receiving wide publicity from the probe of the election frauds in McKinley county. This publicity will do the state no good unless it corrects the evil.

It is like using the surgeon's knife to bring relief.

New Mexico should clean up and conduct its elections aboveboard, and thereby give the state a much better administration.

Officers elected by fraud are given license to graft upon the public, and they cannot be blamed for availing themselves of the opportunity.

May McKinley county be a lesson to the entire state in the future.

AUTOMOBILE WRECKS

Within the past three weeks there has been four serious automobile wrecks in Eastern New Mexico, in which several lives were lost and abcut 75 people injured.

In the wreck near Roswell complaints have been filed, charging driving while intoxicated and riding with intoxicated drivers.

Booze and gasoline do not mix, and are a serious menace to other drivers.

New Mexico needs a driver's license law, and when said driver is found guilty of driving while intoxicated, his driving license should be cancelled for a period of from six months to a year or more.

Depriving such drivers of the right to drive an automobile, would tend to make the highways much safer for the public.

NEWS FIELD REPRESENTATIVE

Beginning in this issue of the News is a series of articles by Gordon King Greaves, field representative of the News.

Young Greaves is making personal visits to the farms of the county, and is attempting to obtain first hand stories of the farm operations of the county.

When he visits your community, help him to secure these stories. which will go out over a wide territory, and which will be of great advantage to the development of Roosevelt county.

He is new in this work, and his success depends largely upon the way he is received by the farmers of the county.

The News has the welfare of every farmer of the county at heart, and realizes that their success will be the success of the News.

CAUSE OF NATIONAL DEPRESSSION

On Sunday morning at the Methodist church Rev. Davis preached on the national depression and the cause thereof.

Rev. Davis placed the cause as that of the world getting away from God. He stated that there can be no revival of business until the public return to the fold and cease to worship mammon.

Rev. Davis further stated that if the world at large would go back to tithing, that business conditions would improve, and the unemployed situation would be no more.

The churches are stressed for finances at this time, and by tithing, he stated that there wiuld be ample funds to carry forward the religious programs of the churches of the nation.

At least it would be well to consider this angle of the general depression.

THE PRICE OF GASOLINE

Gas is selling in Portales for 17 cents per gallon and in Clovis, only twenty miles distant, it is selling for 12 cents per gallon.

The result is that many cars and trucks go to Clovis for their gas. While there they buy other needed merchandise, working a hardship on every merchant in Portales.

There is no excuse for this discrimination.

The local dealers are not to blame.

They are allowed a certain per cent on each gallon of gas sold.

Nor are the local distributing agencies of the oil companies to blame. The price is fixed by the oil companies and these distributors receive one cent on each gallon wholesaled.

If the oil companies can supply gas to the Clovis dealers at a price that enables them to sell it for 12 cents per gallon, they can supply the Portales dealers at the same price.

This matter should be adjusted in fairness to the Portales merchants.

COMMON SENSE

Warren Graham suggests that livestock men of New Mexico, who are conducting campaigns for greater consumption of their products, get behind the effort to secure better wages for highway contract employees.

"A man can't buy much mutton or beef on from $1.50 to $2.50 per day," the treasurer observes.

The remark has all the elements of humanity and common sense.—New Mexico State Tribune.

CHOOSE WELL YOUR ASSOCIATES

When the Creator had made all the good things, there was still some dirty work to do, so He made the beasts and reptiles and poisonous insects. When he had finished, He had some scraps that were too bad to put into the rattlesnake, the hyena, the scorpion and the skunk, so He put all these together, covered it with Suspicion, wrapped it with Jealousy, marked it with a Yellow Streak, and called it a KNOCKER.

This product was so fearful to contemplate that He had to make something to counteract it, so He took a Sunbeam and put it into the hands of a child, the brain of a man, wrapped these in Civic Pride, covered it with Brotherly Love, gave it a mask of Velvet and a grasp of Steel, and called it a BOOSTER; made him a lover of fields and flowers and manly sports, a believer in equality and justice.

Ever since these two were made, mortal man has had the privilege of choosing his associates.—Ex.

W. W. King says that it is on Spring River, and was in his back yard in Roswell.

Ew J. Neer says that it is on a creek just a few miles out of Weatherford, Texas.

Ike Hughes gives its location just a few miles from Mexia, Texas.

J. B. Priddy says that every one ought to know just where it is, and that the location is in Montague county, Texas.

Arthur F. Jones says that he has visited it many times and that it is in Georgia.

The editor has spent many hours there, one and one-half miles out of Collinsville, Texas, on Spring Creek, and it was known as Round Hole.

This old fishing and swimming hole is described by all as a big rock jutting out from the bank just below the waterfall, shaded by a big liveoak tree.

BOMB SHELL THROWN INTO BEAUTY CONTEST

The beauty contest has taken a turn that will be serious for Dodge, McMath, Robinson, myself and other gentlemen entering. The latest candidate is Ethel C. Boettcher of the Aztec Independent.

Now, ye editor had nothing to fear from the display of socalled beauty of the male tribe, but when they ring in a lady on us, it is too much.

There will have to be two prizes offered, one each for male and female, or the contest will go on the rocks.

This latest candidate will incidentally be a serious jolt to Dodge of Tucum.

'Taint far, folks; 'taint fair.

WHEN EDITORS TELL THE TRUTH

Only a short time ago the editor of a paper in Indiana grew tired of being called a liar and announced that he would tell the truth in the future, and his next issue contained the following items:

"John Benen, the laziest merchant in town, made a trip to Beeville on Monday.

"John Coyle, our groceryman, is doing poor business. His store is dirty and musty. How can he expect to do much?

"Dave Conkey died at his home here Tuesday. The doctor gave it out as heart failure. Whiskey killed him.

"Married—Miss Sylvia Rhoades and James Collins, last Saturday at the Baptist parsonage, by the Rev. Gordon. The bride is a very ordinary girl who doesn't know any more about cooking than a jackrabbit and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks at home all his life and is not worth shucks. It will be a hard life."

Why We Should Retain Our County Extension Service

Lying before me on my desk is a petition of a number of citizens of our county, and presume heavy taxpayers, requesting our honorable county commissioners "to use every honorable way and means to reduce our taxes by relieving us of the burden of county agents, etc.

These petitioners are not alone in their complaint that taxes are out of line compared with our ability to pay, and it goes without question that much of our tax burden is unnecessary and is not used as economically as it should be.

If in the course of 20 years a farmer had with all his lack of business, allowed his estate to become involved as is our municipal state and national governments, true discernment would say, "sorry business management."

But we entrusted our public business to public men and did not see after our own affairs until now we have the world's great "slump." Our business is out of parity with industry. Thinking men have been trying to evolve laws which will rectify this trouble and place agriculture, the basic industry of our nation, on its feet again.

Hence, we have our department of Agriculture at Washington, our state agricultural colleges, our weather bureau and other bureaus too numerous to mention, etc. But greatest of all because of its close touch with our farmers, is our county agent, doing everything he can to place our business on a parity with other business, thereby enabling us to pay our taxes, although in many instances unwisely and unjustly assessed.

I am familiar with many men on this petition. They are in the main home loving, honest, law-abiding farmers, interested in the upbuild of home and the great agricultural interests of our county, a most excellent thing for humanity at large.

Our county agent is a home builder, and as such can and will cooperate with every farmer, consulting only the better interests of every home in our county.

"Home," that place where every great force that readjusts the world originates.

About 27 years ago farm extension work was begun in Texas. Now nearly every county in the U. S. has its extension agents, sealing and binding our basic industry more closely to our great cooperative government from which we shall reap in time greater economic benefits than other industries because of its greater importance.

Extension service doesn't consist so much in what the agent does himself, but in what he gets others to do. This, however, is real constructive work and has resulted in many instances in doubling the yield and halving the cost of farm production. But that is not now so important as organizing our farmers into great associations where the farmer shall have some control of the marketing end of his business.

come now to the direct benefit of extension work in our county.

Our agent, Mr. Will, has with wonderful ability and in a most simple and efficient way organized four great farmers' associations which have sold cooperatively products valued at more than $1,799,000, besides aided in purchasing several thousands of dollars worth of supplies for the farm, a total membership of 1085 farmers attest to these facts.

To the skeptical I ask, please go down to our Farmers' Produce warehouse, built and paid for by our broomcorn association, talk with our manager, Mr. Jones, who is also manager of our Farmers' Grain and Elevator, see our gasoline storage tanks and other buildings. Ask our manager whether it is a success or failure. Talk with our most successful dairymen as to the success or failure of our Roosevelt County Dairy Association, our Sweet Potato Association, our Irrigation farmers who are successful. Ask what part our agent has had in all these economic associations. Then there's the Cotton Association, and other cooperatives too numerous to mention. All have benefitted farmers, improved markets, warehouse conveniences, improved quality of products, made Roosevelt county markets much better than the state average.

These associations bind farmers to our home markets and have attracted others from adjoining counties.

Turkey pools made us much money directly and resulted in helping Curry and DeBaca counties, a fact which their business men concede. Most producers outside of our organizations received much of the benefit, but not so much as those within.

As secretary-treasurer of Roosevelt County Dairy Association since its incipiency, I am intimately acquainted with what and who are responsibe for its success. I also know its troubles and whose guiding hand delivered from going on the rocks.

Ralph Will and the cooperative minded sons of toil to back him have made it a remarkable success and that without risk financially to anyone.

That the competitive millionaire creameries fight us is indicative of the worth of cooperative marketing. Starting with two cream stations, we now have 10 located in different parts of the county. We lost one at Ines by fire. These stations are operated by honest business men who have no incentive only to give simply just and honest tests because our contracts call for a system of checks and balances so that the operator is loser either way if he diverts the facts.

We handled last year more than 255,000 pounds of better fat and have an ever increasing membership. The association has netted not less than $75,000 to the farmers of our county.

It is too lengthy to go further into detail, but will state some of the general benefit resultant from our association, to-wit: Cultivation of the cooperative spirit among our farmers, greater interest in dairying, increased interest in better dairy cattle, better care in every way, study of the cost of production, and diversification of farm interests, which in the finality is the key that unlocks the door to the farmers' success.

As proof of such benefits, my banker will not loan me money for living while producing a crop, but he will loan me money to buy dairy cows.

The cows will feed my pigs and poultry and sustain my family. The crops are not under mortgage and I am practically a free man, and all these other things I have not time to enumerate.

Through the instrumentality of our county agent, six Jersey bull circles were formed with 19 members, who bought 17 highly bred bulls; helped other farmers to get good bulls; cooperated with business men in tour to Plainview, Texas, dairy show, thereby encouraging more than 100 citizens in increased interest in improved dairy methods; cooperated as a leading factor in our dairy and livestock show at Portales; organized the county for a complete test of dairy animals for T. B. when more than 800 head were tested, and at no cost to our county, the expenses being borne by the Federal Farm Board of Animal Industry and Cattle Sanitary Board.

Mr. Editor, I shall continue this article in a future issue of your good paper, telling of the benefits of extension work with poultry, rodent extermination, contouring, irrigation, commercial, etc., and of the cost to our county and state and nation.

Reader, please look for this.

Farms Looking Good In Arch Community

(By Gordon King Greaves, Field Representative)

Most of the farmers out in the Arch community are either planting or have just finished. There has been sufficient moisture to insure a good crop this year, and there are good prospects for a prosperous year. The farms around Arch look exceptionally neat. Nearly every place has trees and flowers in the yard and most of the housewives have a garden for family use.

Where the farms have irrigation there is a patch of alfalfa with several head of hogs feeding on it. The grass in the pastures is growing fast and the dairy cows are fat and sleek.

W. O. Davis has a very attractive farm. From a distance the place looks like a mass of trees. Mr. Davis has 120 acres under cultivation. He has 30 acres in wheat, and also has a hog pasture of alfalfa and sweet clover. To the right of the house there is an apple orchard. These trees were not hurt by the late freezes this year and Mr. Davis expects a good apple crop this season. He also has some potatoes set out, but the bulk of his crop will be grain.

Another profitable part of Mr. Davis' farm is his chickens. He has about 400 white Wyandottes.

Mr. Davis came to Roosevelt county in 1902 from Plainview, Texas, and homesteaded on the same place where he now lives. Since that time he has put out all the trees and built a substantial house on his place.

Mr. I. T. Bell is busy planting his corn crop this week. He is farming 160 acres this year and his cotton crop is already coming up. He has just installed an irrigation pump. He has some beans and tomatoes already up.

Mr. and Mrs. Bell moved to Arch four years ago, and up to this time have rented a farm, but recently they have bought a place.

S. B. Thornton and son, E. I. Thornton, are visiting their farm near Arch this spring. Mr. Thornton traded for his farm in 1916 and lived on it six years. At the present time W. B. Walker is renting the place. Mr. Walker has 130 acres under cultivation and is raising a big cotton crop this year. He also has several acres in tomatoes.

Mr. and Mrs. D. F. Smith returned this spring to their farm at Arch, after having been absent for two years. They had been traveling, and while gone visited in Colorado, Arizona, and spent last summer in California. They have been on their farm 15 years and are now back to raise a crop on the 75 acres which have been under cultivation. Mr. Smith is planting mostly grain crops this year.

J. C. Alexander is a newcomer in the Arch community. He and his wife came from Lubbock last April and bought the old J. M. Reddy place. They are now improving the place by planting trees and flowers. They plan to build a new home next fall when the crops laid by.

Mr. Alexander is farming 160 acres and is raising truck and grain crops. They have installed an irrigation pump.

W. D. Pate has one of the larger farms in the Arch community. He is farming 310 acres, 200 of which are feed crops and about 100 acres of cotton. Mr. Pate uses irrigrtion and has a large plot of alfalfa on which he pastures his sixteen head of hogs. He also has 15 head of dairy cattle and 75 hens.

Mr. Pate has been in Roosevelt county for eight years, coming from Lamesa, Texas. At the present time Mr. Pate is one of the county commissioners.

W. H. Davenport has an attractive farm home near Arch. He built the house three years ago, and, with the flowers and trees Mrs. Davenport has set out, makes a pleasing appearance. Mr. Davenport is farming 120 acres and is planting only grain crops. He has eight head of hogs, 75 chickens and is milking two dairy cows.

Mr. and Mrs. Davenport have been on their farm for ten years. They came from Cooper, Texas.

W. R. Murrill is planting this week. He is cultivating 100 acres this year, 20 of which are corn, 30 cotton and 50 sorghum and grain crops. Mr. Murrill has 13 head of dairy cattle and is milking 7 cows. He also has about 50 chickens.

Mr. Murrill has been in the Arch community for ten years.

J. F. McCasland lives about a mile west of Arch. He has 80 acres under cultivation and is planting cotton and grain crops. He is also planting beans for his own family use. Mr. McCasland has 8 dairy cows and about 25 chickens.

Mr. and Mrs. McCasland came to New Mexico eight years ago from Knox county, Texas, and have lived on their present place four years.

H. W. Zimmerman is another new comer in this country. He and his wife came from Plainview the first of January and are living on the place across the road from the McCaslands. They own 160 acres, 110 of which is cultivated. Their main crop this year is cotton.

J. S. Riley has a very neat looking farm just down the road from the Arch store. He has 180 acres under cultivation, 80 of cotton and the rest in feed crops. He has 12 head of Jersey cattle and, counting this year's chickens, has 250 White Leghorns. Mr. Riley has been in the county eight years. He came from Lamesa. Mr. Riley said that he took the Portales Valley News, while in Lamesa, and said that he thought it the best weekly paper that he had ever read. He has planted a patch of watermelons and invited the News representative back this summer to help eat them.

George P. Dougherty has 28 head of Jerseys, all of which are either registered or are subject to register. Mr. Dougherty says that he keeps nothing but pure blood cattle.

He is farming 110 acres this year. He raises only grain crops to feed his cattle. He also has 150 chickens.

Mr. and Mrs. Dougherty came to New Mexico in 1922 from San Angelo, Texas.

SOCIETY and Club

PATTON-HARTRICK

The marriage of Miss Louise Patton, daughter of Mr. and Mrs. B. R. Patton of Ranchvale, and Mr. Wade Hartrick of Butler, Missouri, took place Wednesday at 12 o'clock in the home of the bride's parents with the Rev. J. F. Nix, pastor of the First Baptist church of Clovis, officiating. Relatives and close friends of the couple witnessed the ceremony.

Mrs. Hartrick has taught in the schools of Floyd, N. M., this past year, and Mr. Hartrick is principal of the Ranchvale schools. They will both be employed in the Ranchvale schools the coming year.—Clovis News-Journal.

The wedding announced above will be of interest to many friends in Roosevelt county, as both young people were Roosevelt county teachers. Mr. Hartrick was principal of the school at Richland during the school term of 1929-30.

BRESHEARS-ALLISON

Rev. Howard Rogers read the marriage ceremony at the parsonage of the Christian church in Clovis last week which united Miss Gladys Breshears of Rogers and Carl Allison from Gower, Mr.

The bride is the daughter of Mr. and Mrs. W. C. Breshears, who are aromng the prosperous and progressive farmers of the Rogers community. She has been a very successful teacher of the county for the past few years.

Mr. Allison is head of the science department of the Clovis high school and is also director of the choir at the Christian church in that city, and it was through this channel that the young people first geban their romance, as the the bride is a very pleasing soloist.

The wedding was solemnized at high noon and immediately after, Rev. and Mrs. Rogers were host and hostess at a very pretty wedding dinner. Only close friends and near relatives were present at the ceremonies.

Mr. and Mrs. Allison have planned a honeymoon trip which will carry them to points of interest in Arizona, California and Oregon, returning to Clovis in ample time for Mr. Allison to prepare for the opening of school in September.

MRS. HENSLEY ENTERTAINS

Mrs. E. T. Hensley entertained at her home on Colorado street with a very unique party last Thursday evening.

She had prepared a quilt which will be a gift to her son Turner and his bride when they arrive in Portales during next month. Each of the young people were asked to write their names upon the large blocks forming the quilt, and the young ladies were then requested to embroidery these names, thus making a lasting friendship remembrance.

After the sewing work was completed the tables were arranged and the remainder of the evening was devoted to auction bridge and forty-two.

Dainty refreshments were served as the closing feature of the evening.

The guests included Misses Elizabeth Greaves, May Watts, Iris Ribble, Sybil Lyons, Lucile Wurster, Naomi McCarty, Vada Mae Jackson; Messrs. Marion Stinnett, Paul Wurster, Ray Bonner, Otto Kaptina, Ernest Wheeler, Bill Thompson and Harold Sweetland.

FORTY-TWO BREAKFAST

Mrs. A. D. Ribble and her daughter Miss Iris were hostesses Thursday morning at a forty-two breakfast, when twenty friends gathered to enjoy the hospitality of the Ribble home.

The delicious meal, consisting of three courses, was served by Miss Iris and Miss Vada Mae Jackson.

Six tables were arranged with a color scheme of red and gold, accented in the desoration as well as the arrangement of the menu. A bowl of garden pinks and roses centered each of the quartett tables. After the breakfast, which was announced for nine o'clock, the tables were arranged and the remainder of the morning devoted to auction forty-two. In this contest Mrs. H. C. Waltom held the high score and Mrs. J. J. Spires second high.

VANISHING CHAIN PARTY

The ladies of the Baptist church have decided on a vanishing chain program in their ladies' society, along the same lines as the one held in the Methodist church, therefore Friday the first of these meetings was held with Mrs. Sidney Stone at her home on Commercial street.

Mrs. J. M. Bradley was present and explained to the ladies the methods of the plan as carried out by the ladies of her church. The afternoon was devoted entirely to the formulation of plans and a social hour together. Mrs. Stone served a bountiful lunch during the closing hours of the afternoon.

The Bapaist ladies present at the first of these chain meetings were Mrs. W. B. Oldham, Mrs. O. S. Strickland, Mrs. M. B. Jones, Mrs. N. F. Wollard, Mrs. Ike Maxwell and Mrs. Tom Jernigan.

PICNIC PARTY

The members of the class of the Methodist Sunday school of which Mrs. W. H. McDonald is teacher, entertained their husbands at a nicnic party at the H-Ranch on Friday evening when more than forty adults were present.

The crowd gathered at the picnic ground at seven o'clock and immediately a bonfire was made and around this the evening party was enjoyed.

A very bountiful supper was arranged and after the meal the hours until ten o'clock were spent enjoying the open fire and a few active but less strenuous games. At about ten all returned again to Portales.

FAMILY REUNION

The home of Mr. and Mrs. Wat Stewart was filled wth relatives last Saturday when a reunion was held of the Stewart brothers and sisters. The occasion was prompted by the arrival of Mr. and Mrs. Will Mays from Maysville, Oklahoma, and Mr. and Mrs. Wallace Anders and three children of Pauls Valley, Oklahoma.

Mrs. Mays is a sister of Mrs. Ed Stewart, Wat and Hebe Stewart of Portales. It is the first time in ten years that these two sisters and two brothers have been together, and the first trip that the Mays and Anders families have made to Portales.

Mrs. Anders is a daughter of Mr. and Mrs. Ed Stewart. The relatives participating in the family reunion were Mr. and Mrs. Watt Stewart, Mr. and Mrs. Hebe Stewart, Mr. and Mrs. Ed Stewart, Mr. and Mrs. Will Mays, Mr. and Mrs. Wallace Anders and children, Mr. and Mrs. Malcolm Hall and two sons, Heber Stewart o f Clovis, Mr. and Mrs. Cleo Pike and son Bruce.

Mrs. L. R Johnson was the only guest other than the relatives and she has been a very close friend of the family for many years.

BRIDGE LUNCHEON

Mrs. Cleo Pike entertained at the home of her parents, Mr. and Mrs. Wat Stewart, with a bridge luncheon which was quite unique and entirely different from the usual social functions.

The guests were all seated at one long table which was arranged to represent a Dutch scene. A large Dutch windmill centered the table. The place cards were wooden shoes and the tallies were small windmills. The luncheon was of a Dutch menu.

After the meal the friends were invited to the living room and there two tables were arranged for the bridge games which occupied the remainder of the afternoon hours. Mrs. J. J. Brown held the highest score for the total of the several progressions and was awarded the afternoon gift.

The players included Mesdames J. J. Brown, L. S. Kirby, J. D. Marlow, Buford Fisher, Ray Snelson, Elbert Mumsey, Miss Pauline Terry and the hostess.

BRIDGE BREAKFAST

Mrs. Ray Snelson invited the members of the Ace Hi Bridge Club and some additional friends to her pretty new home at the corner of Pine and Iowa streets last Friday evening.

Bowls of pink roses and asters were used in the decoration of the tables as well as adding attractive features to the rooms of the home. These flowers accented the color scheme of pink and green.

The lovely breakfast was served in four courses and immediately after the meal the tables were arranged with bridge accessories and the remainder of the morning was devoted to the card contest. Mrs. L. S. Kirby received the high score for club members and Mrs. Cleo Pike for the guests.

The ladies enjoying the morning with the hostess were Mesdames Elbert Munsey, M. K. Hall, Buford Fisher, J. D. Marlow, L. S. Kirby, Cleo Pike and J. J. Brown.

The TOP of every FRIGIDAIRE is a porcelain-topped table

Food on its way into a Frigidaire and food on its way out need not be juggled, or tip-tilted, or inconveniently parked on the distant kitchen table . . . the flat expanse of showy porcelain atop the Frigidaire makes such a perfect serving shelf!

It is an ideal place to put piping-hot things that should be cooled off before they are exposed to low temperatures . . . a splendid *permanent* place to keep the few foods that need not be refrigerated.

And nothing—hot or cold, smooth or scratchy—can in any way scar or mar the lifelong lustre of its diamond-hard Porcelain-on-steel finish.

A conveniently flat, unencumbered serving table top is one of the very real advantages of Frigidaire Advanced Refrigeration. There are many others. We invite you to come in and learn all about them.
