Important Questions!

If you could effect a saving of 50 per cent. in the cost of your life insurance and have it placed in one of the Strongest of the Regular Life Insurance Cnmpanies, would you not consider the matter?

If you could give your family or estate the protection of $20,000 insurance in a perfect reliable company for the same money you are now paying to secure $10,000, would you not consider the matter?

The Provident Savings Life Insurance Society, of New York,

Supplies what is suggested by the foregoing questions. I furnishes a contract of insurance which, for brevity, conciseness, liberty and cheapness is unexcelled. For further information apply to R. B. PARROTT, General Manager,

HE IS NOT DEPOSED.

LI HUNG CHANG ONLY LOSES HIS YELLOW JACKET.

The Prime Minister Suffered a Similar Indignity Once Before, but Speedily Regained His Lost Influence and Still Greater Power.

LONDON, Aug. 8.—The report that Li Hung Chang has been rebuked by the emperor is confirmed in dispatches received here. The reportor sent out that the viceroy, by losing his yellow riding jacket, loses also his political standing and office, is incorrect. Those who understand the subject thoroughly agree

LI HUNG CHANG.

that it implies merely a rebuke intended to stimulate the prime minister to greater efforts against the enemy.

Li Hung Chang suffered a similar indignity 20 years ago, but speedily regained his lost influence and still greater power. The principal fear entertained here is that the emperor, who is young and inexperienced, being just 23 years old, has assumed to take the reins of

THE EMPEROR OF CHINA.

government in his own hands, overthrowing the influence of the dowager empress, who has been the real head of affairs for many years.

Negotiating For Ships.

LONDON, Aug. 8.—To carry on the war with Japan it will be necessary for China to provide herself with immense quantities of war material, and it is already known that she is willing to pay fabulous prices. It is a fact that the Chinese government is busily intriguing in England, Germany, Belgium and Italy for the purchase of ships and ammunition. It is also known that European officers and soldiers are being engaged to man the ships which it is proposed to purchase.

Thinks Japan Will Win.

TACOMA, Aug. 8.—Captain W. R. Brudgeman, who has commanded the United States cruiser Baltimore for the last two years, returned here on two months' leave of absence, having left the cruiser at Chemulpo, Corea, July 12. He regards the oriental war as an unequal contest, with the odds greatly favoring Japan, which, he says, has a splendid navy, and an army as well equipped as that of any European country. Japan, he thinks, is sure to win, unless China is given time to make war preparations on a gigantic scale. In his opinion the Japanese government has been endeavoring to force the war in order to detract attention from internal political dissensions.

Warship Going to Japan.

GIBRALTAR, Aug. 8.—The Japanese warship Satisuata, from Newcastle, arrived here enroute to Japan. She will probably escort the three fast vessels fitted out as cruisers which were recently purchased in England for the Japanese government. On the high seas these three vessels are to be transferred to the Japanese government and their equipment is to be completed in Japan.

Japanese Leaving Pekin.

TIEN TSIN, China, Aug. 6.—A dispatch has been received here saying that all Japanese residents of Pekin have left that city.

The First Legal Hanging.

ALLENTOWN, Pa., Aug. 8.—Harry F. Johnson was hanged yesterday for the murder of his 3-year-old daughter in July of last year. He confessed the crime, saying he murdered the child because he did not want to take care of her. This is the first legal hanging since the county was incorporated in 1812.

Almost Lynched by Women.

NEW YORK, Aug. 8.—A mob of several hundred women attempted to lynch George Williams yesterday morning at West Forty-second street for attempt to assault a 3-year-old girl. He was rescued by the police.

Georgia Democrats Name State Officers.

ATLANTA, Aug. 4.—The state Democratic convention met here Thursday and nominated candidates for state offices as follows:

Governor—W. Y. Atkinson.
Secretary of State—A. D. Chandler.
Comptroller—A. W. Wright.
Treasurer—R. U. Hardeman.

Democrats Victorious.

NASHVILLE, Aug. 4.—Partial returns from the principal towns in the state show that the Democratic nominees for judges of the supreme court have defeated the Republicans and Populist fusion ticket for the judges by good majorities.

In the counties heard from the Democrats have polled their usual vote for local officers and district judges and chancellors.

RETURNS TO THE MINISTRY.

Ex-Governor Chase of Indiana Will Abandon Politics For a While.

VALPARAISO, Aug. 8.—Ex-Governor Ira J. Chase, who has been a prominent figure in Indiana politics, has wearied of its allurements and honors and will return to the duties of the ministry, a calling which he abandoned to accept a

Republican congressional nomination. His defeat was followed by his nomination and election as lieutenant governor and his retirement in the election of 1892, when he was defeated for governor by Claude Matthews. The death of Governor Hovey made Chase his successor. The Valparaiso Christian church has extended a call to Mr. Chase, who has its acceptance under advisement.

WELLMAN IS SAFE.

HIS VESSEL EMCOUNTERS ICE AND IS BROKEN TO PIECES.

Wellman Leaves the Disabled Steamer With Thirteen Men and Is Pushing His Way Northward—All Are In Good Health and Expects to Return Sept 15.

TROMSOE, Norway, Aug. 4.—News of the Wellman polar expedition has been received. It was brought by the sealer Malygen, Captain Pendersen, which arrived at Tromsoe Thursday with news dispatches from the expedition and also with Captain Bottolfsen and three sailors of the steamer Ragnvald-Jarl, which carried the Wellman party to the Arctic, but which has since been wrecked.

Captain Bottolfsen furnishes the following narrative of the experience of the expedition: After several battles with ice and water the Ragnvald-Jarl arrived on May 12 at Table island, one of the seven islands group. The ice, however, compelled a return to Waldon island, where Mr. Wellman left the ship on May 24 with 13 men and 110 days provision. After the party had established a depot they proceeded eastward a distance of 60 miles, thence northeast, hoping to reach the land that is believed to exist in that direction. Up to the day of the departure of the

WALTER WELLMAN.

sledge party the expedition had had good weather, the worst being 20 degrees below zero.

The members of the party were in good health when they left the ship. They intended to return over the same route by which they advanced, reaching northern Spitzberg on Sept. 15, and headquarters at Dane's island Oct. 1.

The latest news received from Mr. Wellman was of June 17 date, when Mr. Winship, a member of the party, with one man, left the expedition at a spot six miles east of Cape Platen, where the explorers had met with impassable ice and were waiting for open water. All were well upon the return of Winship to Walden island. Captain Bottolfsen and three of the crew of the Ragnvald-Jarl started on a journey southward in aluminum boats, seeking sealers. They met the Malygen and Captain Pendersen consented to carry them to Tromsoe. Her captain, Bottolfsen, will charter a new vessel and will return as soon as possible to Dane's island. In the meantime the Wellman party has gone north over the ice.

Captain Pendersen expects that Wellman will reach Gillei island, Hyerdahl. A runner and sportsman from the University of Christiania and a member of the Wellman party has been sent to Dane's island to join Professor Oyen.

WILSON CONFESSES THE DEED.

He Admits He Was Concerned In the Outrage Perpetrated Upon Tarsney.

DENVER, Aug. 8.—Joseph Wilson, a deputy sheriff of El Paso county, who was captured by Adjutant General Tarsney in Missouri, has made a full confession and given to Chief of Police Armstrong the names of all the men connected with the outrage committed a few weeks ago.

According to Wilson's story, the men engaged in the disgraceful enterprise were Sheriff Bowers, his deputy sheriff, Mullins, Captain Seaton of Troop A, Sergeant William Pencroft of Troop A, Deputy Sheriff J. R. Wilson, Deputy Quackenbos, Sherman Crumley, Walter Crumley, "Shorty" Allen, Smith Shellenberger and perhaps one or two others, including a woman. The police now have three confessions—those of Wilson, Parker and the prisoner in the El Paso county jail, who is being held as a witness to the murder committed at Cripple Creek. These men will be brought before the grand jury now sitting at Colorado Springs.

Tarsney Fined.

COLORADO SPRINGS, Aug. 8.—Adjutant General Tarsney was fined $50 and costs by Judge Campbell for contempt of court in refusing to appear before the grand jury at once and testifying regarding the outrage of which he was the victim.

The Stolen Gold Found.

PARIS, Aug. 4.—The missing cask which contained the $50,000 in gold consigned to Lazard, Freers & Co. by the steamship La Touraine, from New York, was found empty in the car in which all the casks of gold traveled under seal. Later the missing gold was found in some sacks, hidden in a heap of coal near the railroad station at Havre. There is still no trace of the thieves.

Frost In Nebraska.

OMAHA, Aug. 7.—Reports indicate the presence of frost in several Nebraska counties Saturday night. The localities were mainly those in which the drouth was so severe, and little vegetation was left to be damaged. Dodge county suffered chiefly.

CATS IS ELECTED.

He Defeats Kolb For Governor of Alabama by a Safe Majority.

MONTGOMERY, Aug. 8.—Yesterday morning the leaders at Kolb's headquarters refused to be interviewed and are publicly making no claims of victory, which is taken as a confession. The Democrats claim Oates' election by 25,000 majority, and say the Kolbites have

only 30 out of 100 members of the house and 10 out of 33 members of the senate.

The fight the past two weeks has been made by the Populists for the legislature on joint ballot, but Senator Morgan seems certain of re-election.

Full State Nominations Made.

DALLAS, Aug. 7.—The Lilly White or white wing of the Republican party of Texas nominated officers yesterday as follows:

Governor—J. D. Schmitz of Denton.
Commissioner of the Land Office—Thomas Breen of Mineola.
Lieutenant Governor—M. W. Mann of Dallas.
Attorney General—W. H. Atwell of Dallas.
Comptroller—Tom P. Johnson of San Antonio.
Treasurer—H. K. Davis of Hearne.
Superintendent of Public Instruction—S. D. Swinford of Houston.
Chief Justice—Lock McDaniel of Houston.

No Change.

HALLETTSVILLE, Tex. Aug. 8—The Tenth congressional convention is still deadlocked. At adjournment yesterday 1808 ballots had been taken without change. The last was—Gresham, 29; Lane, 24.

Beall For Senator.

HILLSBORO, Tex., Aug. 8.—The Tenth senatorial district Democratic convention nominated Hon. J. A. Beall of Ellis county for state senator by acclamation.

Still Deadlocked.

TEXARKANA, Tex., Aug. 8.—There is no change in the deadlock of the Fourth congressional district. The last vote stood: Cranford, 23; Hodges, 14; Sheppard, 16; being the 4285th ballot.

Adjourned Without Nominating.

CORSICANA, Tex., Aug. 6.—The Sixth Congressional convention failed to make any choice, and after a warm discussion adjourned to meet in Dallas on Aug. 21.

Hutcheson Unanimously Renominated.

HOUSTON, Aug. 3.—Wednesday forenoon the convention of the First congressional district was held in this city. There was not a full attendance, although only four of the counties in the district were not represented. The district is composed of Chambers, Freestone, Grimes, Harris, Leon, Madison, Montgomery, Trinity, Walker and Waller counties. The present incumbent, J. C. Hutcheson, was unanimously renominated.

MONEY HOWLS.

Squeal of the Cohorts of Class and Coin at That New York Powwow.

What a coming together of money bags and monopolists, millionaires and mortgage sharks, was that anti-income tax meeting held in Carnegie hall, New York, Friday night! It was a veritable conference of Dives and Crœsus and Pluto, an emergency council of the frightened leaders of the cohorts of class and coin called to consider some means by which they might escape payment of the just tribute demanded of them by the sovereign people.

And with what unction the plutocratic Republican journals recount the names of the excessively rich men "present and taking part!" The Tribune, that gold worshiping local organ of capital, class and corporation, in its news dispatches lingers lovingly over a list comprising John A. McCall, president of the New York Life Insurance company; John Claflin, president of the H. B. Claflin company; John P. Townsend, president of the Bowery Savings bank; Evan Thomas, president of the Produce Exchange; Edward King, president of the Union Trust company, and Colonel Strong, president of the Central National bank. After heralding these names, all resonant of the chink of golden coin and the crisp rustle of greenbacks and bonds, The Tribune triumphantly remarks that "the speakers who took part represented enormous interests, financial and commercial, embracing banking, life insurance, commerce, commission, groceries, fire underwriting and other business widely scattered through the community and bearing directly upon the business interests of the country at large."

That is just what they are doing, "bearing upon the business interests of the country at large" with the awful, irksome, dead weight of vampires, of old men of the sea—bearing on the country's business interests with the ponderous and relentless force of a hydraulic press, squeezing from it all its life and vitality. A careful scrutiny of the list will fail to show a single producer of any useful commodity, not a farmer, not a miner, not a manufacturer even among the lot, all speculators, usurers, gamblers on the necessities of others, money sucking vampires, who draw the very lifeblood from the body politic; who live in opulence by the exertion of others; who, having usurped natural monopolies, charge their less fortunate fellow men for the privilege of enjoying their inherent rights.

A truly representative gathering of Gotham millionaires was this one—a convention of harpies met together in a hall the very name of which smacks of plutocracy, monopoly and subversion of the rights of man, and these representatives of money bags and class interests had gathered there for the purpose of pooling their powerful forces to defeat the income tax—or the formulation of plans to evade payment of their just share of the expenses of the government which has protected them in the acquisition of their golden hoards and is now protecting them in the enjoyment of their ill gotten gains. An honorable gathering certainly, and for a noble and philanthropic purpose this, a convocation, forsooth, which should inspire the poet to songs of exultation and the admiring populace to cheers.

No wonder the servile organs of money bags' interest wax enthusiastic in describing this meeting. No wonder the sounding phrases of these great men are quoted and commented upon at length. Do they not represent wealth, which can crush or reward—money, which is, after all, the true god whose prophets these journals aim to be? It was an ideal symposium of plutocratic interests and ideas which was held in Carnegie hall Friday night, and its ponderous denunciations of this pernicious legislative measure, which feloniously aims to make the millionaire pay taxes just as if he were a common, contemptible, poor man, might well fall upon the ears of Republican editors who worship at the shrine of money as law, gospel and the prophets all combined. But the income tax bill will become a law notwithstanding the denunciations of these money bags tax dodgers and the echoing blusterings of the wealth worshiping journals which they control.—Chicago Times.

The People's Party Will Save Us.

H. E. Taubeneck, chairman of the national committee of the People's Party, who stopped in Cincinnati en route to Washington, recently was asked by a reporter in the former city:

"What is your opinion of the condition of the country?"

"Very serious. Law is partially suspended, and the people are in a state of semi-insurrection in the mountain states in the west. Every prediction made in our preamble at the Omaha convention two years ago has been fulfilled so far. The great fundamental cause is money and not tariff. The same conditions would exist even had Harrison been elected."

"Would they had the Populist presidential candidate been elected?"

"No, not if he and a congress to support him had been selected. We are today fourfold stronger than two years ago, and I believe we will elect a president and congress in 1896. In fact, we must win, as that is the only salvation of our country. The industrial army movement is but a bubble of discontent rising to the surface. The Coxey movement has served as an escape valve to let out the pent up feelings of the industrial masses. If this movement should be crushed out without bringing any relief, the same bubble of discontent will rise in another and more serious form."

Two Decoration Day Orations.

The Washington correspondent of The Noncomformist sent the following to his paper recently: The old veterans of Washington chose Lafe Pence and W. J. Bryan for their orators on Decoration day. Pence spoke at the Congressional cemetery and Bryan at Arlington Heights. Of Pence's speech it is said that it is the only Decoration day address ever delivered that will find general circulation in the south, while it meets with the hearty approval of every old Union veteran.

The president and his cabinet sat upon the platform while Bryan spoke at Arlington, and a very significant thing occurred. Bryan said, "This occasion is honored by the presence of the president and his cabinet." After the word president Bryan halted, but the people sat silent. Not an attempt at a cheer was made, although he was loudly cheered through all the rest of his address. Bryan went just as far in his speech as the occasion would allow him to go.

Among other things he said that if we were to have love of country we must have a country worth loving. He quoted two or three times Lincoln's words, and enforced them with great emphasis, that we must see to it that a government of the people, for the people and by the people must not perish. All the time Cleveland sat there looking sourer than a tub of sour mash. It was a bitter dose, but he had to take it.

State Platform of the Peoples' Party of Texas.

Adopted at Waco June 26, 1894.

1. We hereby indorse the principles enunciated in the Peoples' party platform adopted at Omaha July 4, 1892.

2. We declare the peoples' party to be an anti-monopoly party and reiterate our opposition to monopolization of natural resources and public utilization by individuals or corporations for speculative purposes.

3. We declare the monopolies of land, money and transportation to be the fruitful sources of civil and industrial inequality and wrong, the parent of monopolies, from which all lesser monopolies spring, and to the end that these monopolies and their baneful consequences may be removed we advocate as appropriate measures of relief:

4. The abolition of all private banks of issue of every character, whether state or national.

5. The construction, ownership and operation of railroads by the government to the extent necessary to control and regulate railroads.

6. The governmental ownership and operation of all telephone and telegraph lines.

7. The free and unlimited coinage of gold and silver upon the ratio of 16 to 1.

8. The insurance by the government of full legal tender paper money upon some system or plan which, while securing all flexibility, shall so regulate the value of currency as to limit to the actual needs of business.

9. We denounce emphatically the issue of gold bonds in times of peace to meet current expense of the government.

10. We favor the building of the Nicaragua canal under the proper treaty; provided it is built and operated by our government in proper co-operation with Nicaragua and Costa Rica.

11. We declare that the doctrine of a tariff for revenue is wrong in principle, and we specially condemn the policy of free raw material while manufactured goods are protected.

12. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grant should be forfeited to the state for homestead purposes.

13. No alien ownership of land should be allowed in Texas.

14. Corporations shall not be allowed to own more land than they actually use in the prosec[ution] their business.

15. We favor an effecti[ve] tem of public schools for six[teen] in the year for all children [between] the ages of 6 and 18 years [in] each race shall have its trustees and control its own schools.

16. We demand the adoption of a uniform series of text books for the public schools to be furnished by the state at cost.

17. We demand an amendment to our state Constitution authorizing the loan of our public school funds, not etherwise invested, upon the lands of the people of this state with proper limitations upon the quantity of land and the amount of money.

18. We demand reformation in the punishment of convicts; and that convict labor may be taken out of competition with citizen labor; that convicts may be given intellectual and moral instructions, and that the earnings of the convict above the expense of keeping shall go to his family.

19. We demand a free vote and a fair count.

20. We demand an efficient lien law that will protect the artisan, mechanic, laborer and materialman.

21. We demand that all county officers receive fixed salaries, not to exceed $2000 per annum net, and that all fees shall be turned into the county general fund.

22. We demand the establishment of a state bureau of labor.

23. We favor the creation of a state board of arbitration to adjust all differences between corporations and employes.

24. We demand that commissioners' courts shall not be allowed to contract a debt against a county for more than $5000 unless the same be ordered by a majority vote of the county.

25. We demand a sufficiency of good money to supply the trade and believe that $50 per capita is required.

26. We demand such amendment of the vagrant laws as will prevent the prosecutions as criminals of industrious laboring men while in a condition of enforced idleness.

27. While believing government ownership offers the only complete and satisfactory solution of the railroad question, we nevertheless favor the continuance of the commission, but demand that the commissioners shall be elected by the people and that the law shall be administered in a spirit of fairness to all parties.

28. We demand that the state provide sufficient accomodation for all its insane without discrimination in color.

29. We favor proportional representation.

30. We declare the Peoples' party to be in favor of local self government and the enjoyment by the individual of his natural rights to the greatest extent compatable with good society.

31. We favor such amendment to the constitution and tax laws as will secure the assessment of lands and improvements seperately.

32. We favor a modification of the laws of limitation as to real estate, to the end that the titles may be quieted.

33. We demand the enactment of a law declaring eight hours to be a legal day's work, except in domestic and agricultural affairs.

A YOUNG GIRL'S FORTU[NE]

AN INTERESTING SKETCH

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "My daughter, Blanche, now 15 years of age, has been terribly afflicted with nervousness, and lost the entire use of her right arm. She was in such a condition that we had to take her from school and abandon her music lessons. In fact, we feared St. Vitus dance, as all are positive but for an invaluable remedy she would have had that terrible affliction. We have employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her."

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent for a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

...vy Poisoning

...t Years of Suffering

...t Cure by Hood's Sarsaparilla

...Hood & Co., Lowell, Mass.:
Gentlemen:—We have tried Hood's Sarsaparilla and find it to be all you claim for it. My wife was poisoned by ivy when a young woman, and for eight years was troubled every season with breaking out and terrible itching and burning. I thought hers was as bad a case as ever had. She was in this distressing condition every year until she began to take Hood's Sarsaparilla, which has effected a permanent cure, without leaving any scars, and she has had no Sign of the Poison Since.
We are well and hearty. I have taken Hood's Sarsaparilla after the grip with good results, and have also given it to our four children. We are all in the enjoyment of perfect health and owe it to Hood's Sarsaparilla." J. C. FREEMAN, Vanderbilt, Texas.

A DESOLATE SCENE.

PATH OF THE FOREST FIRES EXTREMELY HEARTRENDING.

The Dead at Hinckley Interred In Trenches—Some of the Rough Boxes Contain as Many as Five Bodies—Few of the Victims Are Recognized by Relatives.

ST. PAUL, Sept. 5.—A St. Paul Pioneer-Press special from Pine City divides the fatalities as follows:

At Hinckley and vicinity, 225.
At Sandstone, 67.
At Pokegama, 25.
At Miller, 12.
Estimate of dead not found, 50.
Total, 379.

The Hinckley horror is dawning in its awful magnitude. There are now lying in the cemetery under a shallow covering of sand or in the rude rough boxes which take the place of caskets 216 bodies.

F. G. Webber of Pine City, who has had entire charge of the interment has had his work well in hand and has kept most accurate accounts of the bodies. These figures are his and includes those buried by friends. Four trenches in all have been opened, separated by about four feet. Commencing on the south in the north trench are 45 unboxed corpses. In trench No. 2 are 20 boxes, many containing from two to five bodies. The trench is not yet closed. In the third are 27 boxes like the others. The fourth trench is not yet in use, but there are piled up 19 bodies which will be put in.

Some think that at least 200 settlers in camps in the vicinity of Sandstone and Hinckley are yet to be found.

SAD SIGHT AT HINCKLEY.

Preparations For the Burial of the Dead Being Made.

HINCKLEY, Minn., Sept. 5.—The 30 or 40 caskets and boxes with their gruesome contents still lay along the track, where they were placed on Sunday night, when the relief train arrived yesterday. No attempt had been made to dress or embalm the bodies and they were growing very offensive. Every attempt at identification is exhausted. From these bodies the officials of the Duluth road had removed and carefully preserved every trinket and article of jewelry and even shoes and scraps of clothing, placing these from each body in a receptacle numbered identically with the casket or box, so that possibly when relatives return they may recognize them and know whether their friends have been interred.

Out in the cemetery, a mile east of the town, was a scene which words are absolutely powerless to describe.

In an indiscriminate heap lay more than 90 corpses, men, women and little children. Some burned to a crisp, others only browned by heat, and none with a fragment of clothing larger than a man's hand to conceal the awful nakedness. Some were mere trunks, the extremities having been burned off.

Some were bloated until the abdomen had cracked open and the intestines were protruding. Skulls were burned open and brains escaped and all were twisted and cramped in the exquisite agony of death.

A force of men were quickly at work digging a shallow trench along the south end of the railroad in the sandy soil which was as hard as flint. It had been baked to a crust by weeks of drouth and almost solidified by fire. Work progressed slowly.

Off in a clearing two smaller graves were being dug. One for Mrs. William Grissinger and her two baby girls, Caroline, aged 6, and Mabel, aged 3. Her husband and father recognized them in a heap and went to work preparing them for their final resting place in a part of the trench designated for the unidentified.

The other grave was for the Best family, whose numbers make their destruction notable even in this time of death. John Best, Jr., was digging a pit with the friendly assistance of two neighbors. Laid in a row, decently covered, were the bodies of John Best, Sr., Mrs. Best, Fred Best, aged 23, Bertha, aged 17, Mrs. Annie Wiegel, a married daughter, and her 3-year-old daughter, Mrs. Annie Truetman of Diamond Bluff, a visitor, aged 26, and Victor Best, aged 8. Two other sons, George, aged 25, and Willie, aged 21, are missing and certain dead. Of this whole family of three generations. Only the sorrowing gravedigger and his wife and child, who took refuge in a dugout, were left. They all lived together about two miles southeast of Hinckley.

The only others of 90 odd recognized were Charles Anderson, cashier of the bank; Mrs. William Grinder and daughter, Winifred, aged 6 years. One or two others were imperfectly identified, but it was largely guess work. Enough rude boxes were knocked together from rough boards to contain most of these bodies and they were rapidly laid away under the sand, but not before other bodies began to come.

In the swamp across the Grindstone where those corpses were found Monday, were about 35 others, making the total upwards of 130 dead in this little space of four or five acres.

Down near the river was found the body of Thomas Dunn of Duluth, the operator at Hinckley. Dunn stuck to his key until the depot burned over his head.

Up the St. Paul and Duluth right of way were found three or four more bodies. Among those who perished north of town were E. Ricketson of Minneapolis, who was visiting a son. He with Dave Kane of Rock Creek, also a visitor, perished.

FIVE TOWNS TOTALLY DESTROYED.

Twenty-Five Families Homeless and a Number of Persons Missing.

MORA, Minn., Sept. 5.—Brook Park, Pokegama Station and Newtown, on the St. Paul road, and Hinckley on the branch of the Great Northern, were totally destroyed. Twenty five families in the immediate vicinity are homeless. Thomas Raymond, wife and three children and Charles Anderson, wife and three children are missing; Fred Molander, wife and two children are dead; Charles Olsen is missing; Miss Nora Olsen is dead; Oscar Larson and sister are missing; Charles Whitney, Barnes and J. Bremen are missing. Injured: Dr. Keelsey, Joseph Bengonia, Wright Keelsey. Many children were blinded by fire and smoke. The surviving sufferers were taken to Mora.

SOME HORRIBLE SIGHTS.

Bodies of Victims Buried In Pine Boxes Without Identification.

HINCKLEY, Minn., Sept. 4.—A gentle rain is falling here and quenching the burning embers of the immense forest fires that did so much damage in this city. The blackened ruins of two or three brick buildings remain standing of what was once the prosperous town of Hinckley with 1700 people.

This is a place of mourning and burial of charred and unrecognizable bodies. Scores of bodies thus far recovered have been placed in rough pine boxes for burial and the majority of them have been buried without identification.

Most of the survivors went to Pine City Sunday for food and shelter, and women and children are still there, but many men have returned to their ruined homes to see if by any possible means anything remained.

FEARFUL EXPERIENCE.

Engineer Best Tells How He Escaped the Flames With His Train.

WEST SUPERIOR, Wis., Sept. 5.—Engineer William Best of the original rescuing passenger train on the Eastern Minnesota, last Saturday, said yesterday: "We were face to face with death, that is all there was of it. Soon after leaving Superior I had to light the headlight owing to dense smoke. Heat as we approached Hinckley increased. I expected when we reached that point we would escape the smoke. My surprise was great, therefore, when we found fire upon the town, which was doomed. The wind blew at a great velocity and flames fairly leaped through the air. Almost in an instant the town was swept by billows of flame safety of the train and passengers lay in prompt retreat. To stay and rescue as many as he could was his duty, but the great question was: 'How long dare we wait?' Train No. 23 met us there and had the right of way. We coupled a portion of No. 23 train with the engine ahead on to the rear of our train. The flames pursued and the people piled into the cars. Some aged and many helpless women and children were among the number. We had to shift the position of the train several times to prevent its catching fire. We saw many sights that would have filled us with horror under other circumstances. We saw people fall overcome by heat and smoke. I saw mothers with babes make a last despairing effort to shelter their helpless charges. It was a sight to make men weep, let alone angels; but there is no use in describing it to you. It is positively indescribable. We got about 400 people aboard, and slipped away to take others who had run up the track. At last we realized the critical moment had arrived. We could not rescue any more for none could get to the train. As many as came to us were taken. Away we went through the blazing woods. It was a race with death. Death was behind us and as far as we knew was ahead of us too. Telegraph posts were on fire and a stream of flame passed under the train. We all drew a sigh of relief when we reached Superior and knew the precious freight was safe."

FATAL CLOUDBURST.

SIX PERSONS KNOWN TO BE LOST AT UVALDE, TEX.

Many Houses Swept Away and Families In Great Destitution and Distress—It Is Believed Farmers Below the Town Have Lost All.

SAN ANTONIO, Sept. 1.—A dispatch from Uvalde, 90 miles west of here on the Southern Pacific railroad, states that a cloudburst occurred near there Wednesday night, causing the Leona river to suddenly overflow its banks and submerge the east side of town.

Six bodies of persons who were drowned have been recovered. Among them were Mrs. Joe Hutch, Miss Mattie Edwards and one of A. S. Malley's children and two Mexican children.

There was considerable loss of property and many families were made homeless and in great destitution and distress.

When the rush of the water came down upon the town about 50 families sought refuge in trees.

A committee of citizens of Uvalde was appointed by the mayor Thursday morning to render aid to the suffering people.

It is believed that a number of other deaths by drowning occurred below the town in the farming settlements, but no particulars have been received here from the outside country.

One farmer lost 1300 head of hogs, and hundreds of cattle and horses were swept away.

The railroad bridge over the Leona was washed away and three miles of track is gone. The river rose 10 feet in as many minutes.

Country Literally Flooded.

EAGLE PASS, Tex., Sept. 1.—The heaviest rainfall ever experienced in this section fell here Wednesday night, literally flooding the country. The Lagunas, above the town of Piedras Negras, which had been dammed, burst their bounds, and that town was flooded in parts to a depth of two to three feet. Several children are reported to have been drowned. The river is higher than it has been since 1880. No trains have reached here from Durango for a week and there has been no communication between here and Monterey by rail for two or three days. Reports of washouts come in from every direction.

GENERAL BANKS DEAD.

He Passes Away Quietly at His Home at Waltham, Mass.

WALTHAM, Mass., Sept. 3.—General Nathan P. Banks died at his home here at 8 o'clock Saturday morning.

Nathaniel Prentiss Banks was born at Waltham, Mass., Jan. 30, 1816. He learned the trade of a machinist, studying in leisure hours. Edited a newspaper in Waltham and another in Lowell. He was admitted to the bar. In 1849 he was elected to the lower house of the legislature and in 1851 made the speaker. In 1852 he was sent to congress. In 1854 he presided over the convention that revised the constitution of

GENERAL N. P. BANKS.

his state. In 1854 Banks was elected speaker of the national house of representatives after the longest contest ever known (congress met Dec. 3, 1855, and the speaker was not elected until the 133d ballot, Feb. 2, 1856). He was reelected to congress in 1856. Was governor of Massachusetts from 1857 to 1859. Became a major general in the civil war and remained till the close. In 1872 was again sent to congress.

Early in life he married Miss May Palmer of Waltham, Mass., and they had two sons and two daughters. The surviving son, Joseph W. Banks, is a civil engineer in the west. The older daughter is the wife of an episcopal clergyman. The younger inherited the histrionic ability of her father, made her first appearance on the stage at Portsmouth, N. H., in 1886, as Parthenia in "Ingomar," and is already highly spoken of as "Maud Banks, the rising actress." After his retirement from the Fifty-first congress General Banks lived with his aged wife in Waltham in a very quiet way, failing steadily from month to month till the end came.

Twenty-Four Persons Drowned.

LONDON, Sept. 4.—Twenty-four people are reported to have been drowned in a boat accident in Marrow bay, near Lancaster.

The Count Still Sinking.

LONDON, Sept. 4.—It is believed that the end of Count de Paris is near.

EXCEEDS FOUR HUNDRED.

Advices Received at West Superior as to the Total Dead.

WEST SUPERIOR, Wis., Sept. 5.—The number of dead at Hinckley is over 250, and 60 bodies found along the railroad track of the Eastern Minnesota between Hinckley and West Superior. The total estimate of dead exceeds 400.

Governor Peck to the Rescue.

MADISON, Wis., Sept. 5.—Governor Peck has issued an appeal for relief of the burned out people at Barronette, Granite Lake and Somstock, where 100 families are suffering. No fatalities are reported to him. He goes to the scene with a carload of food and clothing.

Rain Is Falling.

MINNEAPOLIS, Sept. 4.—A staff correspondent of The Journal at Pine City says a heavy rain is falling and it bids fair to continue all day. No further particulars as to the list of the dead are obtainable.

Three Leading Scientists

Proclaim the Superior Value of

Dr. Price's Baking Powder.

Scientists are devoting closer attention to food products. Recent examinations of baking powders by Prof. Long, Dr. Haines, and Prof. Prescott, were made to determine which powder was the purest, highest in leavening strength, most efficient in service, and most economical in cost. They decide that Dr. Price's Cream Baking Powder excels in all the essentials of an ideal preparation for household use. They write:—

"Chicago, March 28th, 1894.

We have purchased in the open market cans of Dr. Price's Cream Baking Powder and also of the other leading brands of baking powders, and have submitted them to chemical analysis. We find that Dr. Price's Cream Baking Powder is a pure cream of tartar powder, that is has a considerably greater leavening strength than any of the other baking powders we have ever tested.

Populism Defined.

A CHOICE TICKET.

For Governor—

For Congress, 8th District—
Chas. H. Jenkins, Brownwood.

Refrain, Yes, Yes, Refrain.

The Memphis Appeal Avalanch of a recent date contains the following remarkable article under the caption "Mr. Cleveland and the South." The article is worth perceiving:

Abuse of Mr. Cleveland iu southern newspapers comes with very bad grace from them. They may not like all that Mr. Cleveland has done, but they should refrain from denunciation of the only democratic president the country has had in 34 years. Party discipline can not be maintained in this way. Has he not acted kindly and fairly toward the south? Is not our minister to France Eustis, of Louisiana; our minister to Peru McKenzie, of Kentucky; our minister to Chili Porter, of Tennessee, and minister to Portubal Caruth, of Aransas? Is not the war department presided over by Herbert, of Alabama? Is not Smith, of Georgia, at the head of the interior department? And we could add to the list. When senator Hill refused to permit the senate to confirm Wheeler or Hornblower, of New York, did not the president turn to Louisiana and call White to the supreme bench? Why, then, should southern journals treat Mr. Cleveland with such scant respect? He deserves better of them. * * * *
A president who has shown the south as much consideration as has Mr. Cleveland should find respect, at least, among all southern democrats. He will have plenty of defenders in the south between this date and next November, but those who will defend him should be relieved of the necessity of apologizing for those who, claiming to be of the president's party, have been throwing so much mud at him.

Our frindly contemporary, the Stephenville Journal, has much to say about the base ball business these days. In fact our Stephenville friends seem to be more in the base ball business than in any other business, but incidentally as things rock along, and the Dublin boys can get a few hours off from business, they pick up a scrub nine and scrub up the Stephenville nine.

Opponents to reform are parading the falsehood that General Weaver, our presidential candidate in '92, has flopped to the democrats and accepted a congressional nomination from that party of boodlers. If we mistake not our friend J. Footracer Collin makes use of this mistatement in his speeches too. However, it is untrue, a falsehood without any foundation. The fact is that Gen. Weaver was nominated for congress by the Populists of the ninth Iowa district, and two months later was endorsed by the democrats after they had decided to make no nomination. It is not necessary to take Populists authority for this fact, but the associated press dispatches of August 8th also gives an account of it.

The "tariff bill" as accepted by the house is a farce and a humbug from beginning to end. It's passage was a complete victory for the trusts. The common people gain nothing by it. It was no more like the original Wilson bill, bad enough in itself, than cheese is like cheese. There were over six hundred amendments proposed in the senate and the house swallowed them all, together with all the demands made on them by the sugar and other trusts. This crazy quilt affair, the main provisions of which was dictated by the most gigantic trust in the whole world, together with the repeal bill will go down in history as two of the most atrocious pieces of legislation ever foisted upon this country by any party.

More Than A Stand-off. Republicanism Preferable.

The Kansas City Times prints, and the Democrat of this city approvingly quotes the following:

In 1889 when Benjamin Harrison was inaugurated as president of the United states, the gold in the treasury was $182,218,163. In 1893, four years later, and when he vacated the office, the gold reserve was $96,519,833. In other words, during the four years of Harrison's term the gold holdings of the Treasury were reduced $85,-698,330, or an average of $21,424,-582.50 a year.

This was during a period of prosperous times, when the customs receipts were fairly up.

Both papers, however, forgot to mention that during the years spoken of President Harrisen reduced the public debt $259,000,000 or an average of about $65,000,000 a year, while Cleveland has actually increased it $50,000,000, and threatens another increase of $50,000,000 in a few days. Why not tell the truth when discussing finance.—Carrolton Record.

Undoubtedly of the two evils the republican administration has been the lesser.

Nugents Speech.

It is simply justice to Hon. Thomas L. Nugent, Populist nominee for governor, to say that his formal opening speech of the campaign, at Grandview, on the 24th inst., was a strong effart from the Populist standpoint and is besides worthy the most careful consideration of the democratic opponents. It will be distributed far and wide and read—for whatever may be said of the Populist rank and file they do read—and read with avidity. According to Judge Nugent the two perplexing problems of the day, the tramp and the millionaire, are the logical outgrowth of monopoly in transportation, money and land—a trinity of evils, and with plausible, often eloquent words, he depicts in government ownership of railways, free and unlimited coinage of silver at 16 to 1 and the Populist platform policy as to land, the remedial agencier. —Waco Day-Globe, democrat.

Judge Nugent opened his campaign with the direful predictions made by Gov. Hogg in New Orleans and repeated to the young soldiers of the state, but it is fair to the Populist leader to say that his language was decent and that he did not call out a long string of horrible giblets in order to make his picture ghastly.—News-

Cut Rates On Ginning.

In view of the existing financial conditions and being fully aware that the extremely low prices of cotton makes the farmer unable to well meet the cost of ginning as well as all other necessary expense in placing the cotton on the market we have concluded to take it upon ourselves to reduce the price of ginning from 1-14 to 1-20 and therefore ask the hearty support of the farmers in this undertaking.

The movement is one to save the farmer of all the cost possible and we believe that each and every cotton raiser shonld throw their liberal support to this laudable undertaking.

We will likewise pay all mill prices for seed and save time and trouble in removing seed from the gin.

Go to Higginbotham Bros. gin. Bill will gin your cotton for the twentieth.

Bad Blood

I have for some time been a sufferer from a severe blood trouble, for which I took many remedies that did me no good. I have now taken four bottles of S.S.S. with the most wonderful results Am enjoying the best health I ever knew, have gained twenty pounds and my friends say they never saw me as well. I am feeling quite like a new man. JOHN S. EDELIN, Government Printing Office, Washington, D. C.

THE OLD-FASHIONED STYLE

of pill gives you a feeling of horror when you see it and when you feel it. Like the "blunderbuss" of a former decade it is big and clumsy, but not effective. In this century of enlightenment you have Dr. Pierce's Pleasant Pellets, which cure all liver troubles in the most effective way. They're not easily seen for they're small as grains of mustard seed, but the effect is lasting and the cure complete. For Indigestion, Constipation, Bilious Attacks, Sick and Bilious Headache, nothing has been found to equal these pills of Dr. Pierce's invention. They give such complete relief that their makers promise that they'll give satisfaction or your money will be returned.

A plain statement of fact made by the proprietors of Dr. Sage's Catarrh Remedy is this: "If we can't cure your Catarrh, no matter how bad your case, we'll pay you $500 in cash."

Wanted In The Territory.

Deputy United Stated marshal, W. B. Goode, of Purcell, I. T., came in on Tuesday evenings Rio Grande train after one S. S. Green, a brother-in-law of A. L. Bryant, who lives a few miles below Dublin. Green is wanted in the Territory on a charge of an assault with intent to murder, and was under a bond for appearance, but left them some three weeks ago.

The authorities at Purcell found that he was with his brother-in-law here and the deputy marshal came after him Tuesday and left Wednesday morning early together with W. J. Davies after his game.

Later–He has returned, but after diligent search and inquiry failed to find either Green or his brother-in-law Bryant, though there were advertised letters at colton for both of them.

The marshal left yesterday morning for home.

Up to late yesterday evening there had been marketed in Dublin ninety-two bales of this year's cotton.

The enrollment of the Dublin school this year amounts to 805 in the scholastic age. The school opened Monday for a session of nine months with and attendance of over four hundred pupils. We learn that the schools at Stephenville opened with a few over two hundred.

Didn't Know It Was Loaded.

A young man by the name of R. W. Polvadore about 21 years old, who lives near Wilson post-office, accidentally shot himself in the leg a few days since, but with no serious results. He didn't know the gun was loaded.

Miss Parks, of Denton, the superintendent of the music department of the Alliance High School at Lingleville and Mr. S. L. Brown of the same place, principal of the commercial department, came in on the Mondays Rio Grande train and went out to Lingleville to enter upon their duties.

The iron shed adjoining the post-office on the east is being arranged for temporasy use as a fire hall.

Don't Tobacco Spit or Smoke Your Life Away is the truthful, startling title of a little book that tells all about No-to-bac, the wonderful, harmless, guaranteed tobacco habit cure. State Platform of the Peoples' Party of Texas.

Adopted at Waco June 20, '94.

1. We hereby indorse the principles enunciated in the Peoples' party platform adopted at Omaha July 4, 1892.

2. We declare the peoples' party to be an anti-monopoly party and reiterate our opposition to monopolization of natural resources and public utilization by individuals or corporations for speculative purposes.

3. We declare the monopolies of land, money and transportation to be the fruitful sources of civil and industrial inequality and wrong, the parent of monopolies, from which all lesser monopolies spring, and to the end that these monopolies and their baneful consequences may be removed we advocate as appropriate measures of relief:

4. The abolition of all private banks of issue of every character, whether state or national.

5. The construction, ownership and operation of railroads by the government to the extent necessary to control and regulate railroads.

6. The govermental ownership and operation of all telephone and telegraph lines.

7. The free and unlimited coinage of gold and silver upon the ratio of 16 to 1.

8. The insurance by the government of full legal tender paper money upon some system or plan which, while securing all flexibility, shall so regulate the value of curency as to limit to the actual needs of business.

9. We denounce emphatically the issue of gold bonds in times of peace to meet current expense of the government.

10. We favor the building of the Nicaragua canal under the proper treaty; provided it is built and operated by our government in proper co-operation with Nicaragua and Costa Rica.

11. We declare that the doctrine of a tariff for revenue is wrong in principle, and we specially condemn the policy of free raw material while manufactured goods are protected.

12. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grant should be forfeited to the state for homestead purposes.

13. No alien ownership of land should be allowed in Texas.

14. Corporations shall not be allowed to own more land than they actually use in the prosecution of their business.

15. We favor an effective system of public schools for six months in the year for all children between the ages of 6 and 18 years and that each race shall have its trustees and control its own schools.

16. We demand the adoption of a uniform series of text books for the public schools to be furnished by the state at cost.

17. We demand an amendment to our state Constitution authorizing the loan of our public school funds, not etherwise invested, upon the lands of the people of this state with proper limitations upon the quantity of land and the amount of money.

18. We demand reformation in the punishment of convicts; and that convict labor may be taken out of competition with citizen labor; that convicts may be given intellectual and moral instructions, and that the earnings of the convict above the expense of keeping shall go to his family.

19. We demand a free vote and a fair count.

20. We demand an efficient lien law that will protect the artisan, mechanic, laborer and materialman.

21. We demand that all county officers receive fixed salaries, not to exceed $2000 per annum net, and that all fees shall be turned into the county general fund.

22. We demand the establishment of a state bureau of labor.

23. We favor the creation of a state board of arbitration to adjust all differences between corporations and employes.

24. We demand that commissioners' courts shall not be allowed to contract a debt against a county for more than $5000 unless the same be ordered by a majority vote of the county.

25. We demand a sufficiency of good money to supply the trade, and believe that $50 per capita is required.

26. We demand such amendment of the vagrant laws as will prevent the prosecutions as criminals of industrious laboring men while in a condition of enforced idleness.

27 While believing government ownership offers the only complete and satisfactory solution of the railroad question, we nevertheless favor the continuance of the coms mission, but demand that the commissioners shall be elected by the people and that the law shall be administered in a spirit of fairness to all parties.

28. We demand that the state provide sufficient accomodation for all its insane without discrimination in color.

29. We favor proportional representation.

30. We declare the Peoples' party to be in favor of local self government and the enjoyment by the individual of his natural rights to the greatest extent compatable with good society.

31. We favor such amendment to the constitution and tax laws as will secure the assessment of lands and improvements seperately.

32. We favor a modification of the laws of limitation as to real estate, to the end that the titles may be quieted.

33. We demand the enactment of a law declaring eight hours to be a legal day's work, except in domestic and agricultural affairs.

From the Troy (Kansas) Chief.

Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symtoms that usually preceed that ailment, such as sickness at the stomach, diarrhœa, etc., we become scary. We have found Chamberlain's Colic, Cholera and diarrhœa Remedy, the very thing to straighten one out in such cases, and always keep it about. We are not writing this for a paid testimonial, but to let our readers know what is a good thing to keep handy in the house. For sale by S. S. Davis, Dublin.

In building a new city fire hall, the main idea that should be observed in its construction should be to have as little combustible material about it as possible. A substantial, but cheap single story stone building, with a cement or gravel floor, situated conveniently to the business part of the city, yet not adjoining any other building, would be much preferable. If the city council think that the city cannot afford this the same situation for a single story iron building with a gravel floor and the least possible timber about it would do. The fire last Sunday morning cost the city enough to have built a fire house that would cost more than either of these, and that fire should be a convincing argument for building a hall that would give satisfaction to our fire fighting apparatus.

City Hall at Dublin Burns. Loss $2400.

At 1 o'clock Sunday morning the Dublin city hall and fire was discovered to be on fire. The flames had gained such headway before it was discovered that all means of turning in an alarm had been cut off, and the entire fire apparatus of the city, consisting of a hook and ladder trucks and two hose wagons with 1900 feet of hose seemed to be doomed to be burned. The heroic efforts of the firemen soon got out one of the hose carts with about 200 feet of hose and with this they made a way to get out the hook and ladder trucks, the other hose reel and all the hose excepting 700 feet. The building was a two story iron one, the lower floor being used exclusively for a fire hall and the upper part as a city hall. The fire is supposed to have been incendiary, and some hint that it was an attempt to get rid of the fire apparatus in order to do more damage. There is no clue as to the party or parties who did the firing, but a liberal reward has been offered by the city council and by citizens for the arrest of the guilty parties.

Loss on building and fixtures about $1,000; loss of part of fire apparatus $1,400. No insurance.

Maj. D. M. Rumph was in the city Tuesday and Wednesday.

PROCLAMATION.

To the Members of the Farmers' State Alliance of Texas, Greeting:

DEAR BROTHERS AND SISTERS:—Through your delegates to the last annual meeting of the Farmers' State Alliance of Texas, you have again honored us with the leadership of our noble order; you have again rolled upon our shoulders dread responsiblity of guiding our organization amidst the breakers as they roll up around us. From the depths of our heart we assure you that we appreciate the honors conferred, and the confidence expressed. It is with great reluctance that we assume the responsibilities in entering upon the duties of our office, knowing as we do the general condition of the order throughout the state, but believing as we do that the only hope of continued liberty, the education of the agricultural classes in the science of economical government and the suppression of personal, local, sectional and national prejudices depends largely, if not altogether, upon the continued existence of our order, we enter upon our official duties with full confidence that we will have your profound sympathies and unceasing co-op-

HON. EVAN JONES, PRESIDENT FARMERS' ALLIANCE OF TEXAS.

eration in our efforts to place the order upon that high and aggressive plane where it properly belongs. In order that we may maintain and build up the organization, we have outlined the following for the ensuing year:

First, we want, and must have, a corps of efficient lecturers throughout the state who will do general work; brethren who will devote their time and energy to discussing and instructing the people upon the principles and demands of the Alliance as set forth in our declaration of purposes and demands of the organization, lecturers who can, and will, fully demonstrate the fact that the order is just entering upon the most important work in its history, and if properly managed, its power and influence for good will be felt and enjoyed by all lovers of liberty in ages to come.

Second, we want to establish a system of local lecturers in every county in the state, whose duties shall be to do local work; these should be properly distributed in each county and as many as necessary toguard closelyand build upthe organization in every community. These lecturers may do general work when neccessary, each local lecturer should be reccommended by his Alliance in order to get a commission and it is the duty of each local Alliance to see that a sufficient number of lecturers are appointed.

Third, we would impress upon all delinquent members and all dormant Alliances, both local and county, the importance of immediately reviving your Alliances. This may be done as follows:

Delinquent members and dormant Alliances may re-instate themselves by paying dues for the quarter in which they are re-instated. Members of dormant Alliances may come together and reorganize themselves without the assistance of an organizer or any extra cost or fee. Brothers and sisters, in submitting the above I appeal to your patriotism, in the name of liberty, in the name of our free institutions and in the name of our almost enslaved wives and daughters to avail yourselves of the above propositions and see that your organization is revived immediately and placed in line The times demand it as never before.

In conclusion will say, we will give the order our closest attention and best efforts during the year—will devote our whole time, as far as possible to the cause. In promising this we do it knowing that it means a year of sacrifice, toil, hardships and privations to ourself and family, but brothers and sisters, with your close co-operation we feel no hesitancy in assuring you that we will place the order on a higher (if possible) and more aggresive plane than ever before occupied and enjoyed in the history of our organization.

Yours Fraternally.
EVAN JONES.
President Farmers' State Alliance of Texas.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the grand discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

ELECTION IN ARKANSAS.

The State Goes Democratic by Fifteen or Twenty Thousand.

LITTLE ROCK, Sept. 5.—The election held in this state Monday was one of the quietest and most orderly held in the history of Arkansas politics. It was the first state election held under the constitutional amendment adopted at the last state election requiring the presentation of a poll tax receipt at the polls.

Reports received so far show that the vote has been very light and will probably show a falling off of 15 per cent. from that of two years ago. The Democrats and Populists had full state tickets in the field, but the Republicans put forth only a gubernatorial nominee. In some of the close counties the Populists and Republicans fused, but in this (Pulaski) county the Republicans generally voted with the Democrats. The colored vote throughout the entire state has been unually light, very few of them going to the polls.

The Democratic state ticket, headed by Hon. James P. Clark has been elected by about 15,000 to 20,000 majority. The Democrats claim to have carried several counties that have heretofore gone Republican, but returns are coming in slowly and no figures are given to substantiate these claims.

A hot fight was made on the license question in several counties. Returns from Texarkana indicate that Miller county has gone against license and it is probable that Ouachita county has gone the same way.

The contest was particularly warm at Fort Smith, and both sides are claiming the victory with the indications slightly in favor of the anti-license people.

DAVY CROCKETT'S FRIEND.

Death of Judge A. H. Douglas, at Memphis, Tenn.

MEMPHIS, Sept. 5.—Judge A. H. Douglass, one of the most prominent lawyers in Tennessee, died here Monday night after a short illness. He was 84 years old and one of the pioneers of the state. He was an old Indian fighter and soldier with Davy Crockett in the early part of the century.

Eloped With a Negro.

EMPORIA, Kan., Aug. 31.—About three weeks ago Jesse Reed, a negro near Hartford disappeared, as did also, at the same time, Miss Lizzie Belthurem, the 16-year-old daughter of a well-to-do white farmer of the same vicinity. It now transpires that the two eloped, and a note left by the young lady has been made public, in which she declares that she prefers to be the wife of a negro to being made a "nigger" at home. Tuesday it was learned that the parties were married and had returned to the home of Reed. A deputy sheriff went out to investigate.

Poisoned Custard at a Wedding.

JACKSON, Miss., Sept. 5.—W. W. Moore died at Madison, Miss., from eating boiled custard served at a wedding near Fannin, Rankin county, last Wednesday. Numerous people ate of the custard and several are reported to have died. Three children have died in Rankin county and the brother of Moore is reported ill, with little prospect of recovery. All who ate the custard were taken violently ill.

Waite Discharged.

DENVER, Sept 3.—United States Commissioner Hinsdale Friday rendered his decision in the case of Governor Waite and others charged with opening a letter addressed to the police matron of Denver. Governor Waite was discharged but the others arrested were held to the United States grand jury in the sum of $500 each.

Constable Killed.

LA GRANGE, Tex., Sept. 3.—The sheriff and county attorney were telephoned from Schulenburg to come immediately to arrest one Ryan Stewart, colored, who shot the constable, Joseph Pivoler, in the bowels while resisting arrest on Thursday night. The constable has died since and the negro has been arrested.

Henry Lay, a farm laborer, killed himself because he had been discharged.

Desperate tramps have robbed and beaten a number of people on the Lake Shore road.

William C. Owens, opponent of Breckinridge for congress, was hanged in effigy at Richmond, Ky.

Maurice Barrymore, the actor, was hurt by a missile being thrown in a car windowat Chicago.

Thomas M. Martin of Louisville, Ky., has been declared insane. He imagines that he is Breckinridge.

The Georgia Republicans are in state convention, but do not seem to be able to agree on anything.

Four panel workers, who robbed Thos. Sears of $3,000 at Chicago three months ago have been arrested at New York.

Because Anna Carlock of Virginia, Ills., refused to marry him, Ed Oliver shot her and killed himself. She will recover.

Hugh Annandale, a Canadian, arrested at Baltimore by mistake for an American, has entered suit against Uncle Sam for $10,000.

The increase for the past week over the week previous in the output of northwestern flouring mills was nearly 13,000 barrels.

The Dutch are sending a large force to crush out the rebels in Java.

In a fight with Kabyle rebels the troops of Sultan Abdul Aziz were victorious.

THE RING OF SILVER.

Platform of the Colorado Democratic Party Pleads For White Metal.

DENVER, Sept. 5.—Late Monday night when the united Democrats finished their work F. P. Arbuckle, chairman of the silverites, was made chairman of the new state committee. A. B. McKinley, leader of the "White Wings," was selected as chairman of the executive committee.

The platform demands the immediate restoration of the law of Jan. 18, 1837, providing for the free and unlimited coinage of gold and silver at the ratio of 16 to 1 without discrimination against either metal, without waiting for or inviting the cooperation of any other nation or nation, and denounces as "cowardly, unpatriotic, fanatical and dangerous to the peace of the country the American Protective association, which seeks to proscribe and outlaw citizens because of nativity and religious belief."

Abbott Renominated.

HILLSBORO, Tex., Aug. 30.—Hon. Jo Abbott was again nominated for congress from the Sixth congressional district. One by one the candidates withdrew, leaving the contest between R. E. Burke and Jo Abbott. Abbott was nominated on the 3389th ballot.

Cooper Wins.

PALESTINE, Tex., Sept. 4.—Congressman Cooper was renominated for congress from the Second district Saturday after the 1234th ballot. Mr. Perkins' friends stuck to him until the last and the convention would have been locked yet had not Mr. Perkins withdrew. Mr. Cooper was nominated by acclamation.

Bailey Renominated.

SHERMAN, Tex., Sept. 5.—The Fifth Congressional district met here yesterday and renominated J. W. Bailey for congress. The convention was in session only three hours.

Vermont Gone Republican.

BRATTLEBORO, Sept. 5.—Returns received up to 11:30 o'clock last night indicate that the Republicans have carried the state by 25,000.

No Change.

HENRIETTA, Tex., Sept. 5.—From present prospects the Thirteenth congressional district will remain locked for some time to come. Neither Cockrell nor Dean's friends will give in.

BANK BURGLARS.

They Partially Turn a Trick at Lodi, O., and Then Steal Horses.

WOOSTER, O., Sept. 4.—Burglars made an attempt to rob the Lodi National bank Sunday night. They were discovered before getting into the strong box, but from the vault secured $400 and a lot of jewelry. Two horses and buggies were stolen in which the men made their escape. Officers tracked the gang to this city.

Destructive Storm.

PERRY, O. T., Sept. 5.—News was received here that a severe wind and rainstorm visited the country 20 miles east of here Monday night and many houses were blown down and washed away. Two children are reported killed. Great holes were washed on the farms.

Hanged by a Mob.

WATERTOWN, S. D., Sept. 5.—The man Burke who assaulted Mrs. Bone near here was caught Monday, but taken from the officers by a mob and hanged to an electric light pole.

Fire at Union City.

UNION CITY, Ind., Sept. 5.—Fire started in Hook Bros'. butter tub factory at 1 o'clock this morning, spreading to business blocks and dwellings until the loss reached $200,000.
