Senior Play Tonight

Tonight will be a red-letter night in the history of O'Donnell high school. The senior class is presenting this evening at 8:30 in the spacious high school auditorium a 3-act play, "The Mad Hatters," which is a hilarious fun, can't be excelled. A cast of twelve actors will present the play under the direction of Mrs. Amy Winn, class sponsor, and the big audience will not find a single dull moment in the two hours' program. Ticket selling has been extraordinarily brisk for the past few days, indicative of a packed house. The play starts at 8:30. Get your tickets early, and keep up the O'Donnell habit. Make them hang up the S. R. O. sign for the play tonight. It will be a fine way to encourage this year's fine senior class.

Card Of Thanks

Mr. and Mrs. L. J. Barrett wish to thank those who helped with spring plowing during Mr. Barrett's illness of the past three weeks. Those who helped were D. J. Bolch, A. H. Koeniger, Felix Jones, W. M. Smith, the Simpson brothers, Earl Cooley, B. K. Cooley, Joe Hall, Morris Smith, Virgil Bolch, Brad Walton, Laleon Jordan, Howard, Bill and Homer Simpson.

Also to Mrs. Hutchinson, sponsor, and the Y. W. A. girls of Wells for the big surprise of a nice box of gifts which were presented to Mrs. Barrett Sunday afternoon.

R. L. Butchee was in to see us yesterday and asked us to announce a big Red Cross rally at Harmony next Tuesday night. A. H. Furrow is sponsor and plenty of entertainment is being arranged.

Mrs. Guy Bradley received the sad news Friday of the death of her nephew, Lieut. A. E. Brown, who with others lost his life in a plane crash in Virginia last Wednesday. The son of Mr. and Mrs. E. N. Brown, he was reared in Dallas, where funeral services were conducted Sunday.

The Jolly Dozen Sewing Club will meet Tuesday, April 4, with Mrs. J. T. Middleton, Sr.

Mrs. Nannie Warren

Poignant sorrow was occasioned in O'Donnell Sunday when it became known that Mrs. Nannie Nowlin Warren had passed away following an attack of pneumonia. Funeral services were conducted at the First Baptist church Monday afternoon, 2:30 o'clock by Pastor J. M. Hale, and former Pastor E. C. McDonald, with interment following in Tahoka cemetery.

Born Jan. 12, 1874 in Pontotoc county, Miss., deceased was married to A. J. Warren Dec. 24, 1893. To this union were born five children, three of whom survive: Mrs. Winnie Jane Ballew, L. G. Warren, Mrs. Chas. Long, Vernon O. Warren and W. C. Warren. Deceased is also survived by three sisters, one brother, twenty-four grand children and six great grand children. Three grandsons, Douglas and Oswald Ballew, and A. J. Warren are now in service.

Mother Warren had resided in Lynn county since 1902. Her genial and neighborly disposition endeared her to the hearts of all. A member of the Baptist church for over 50 years, she was a consistent Christian, and when the time of her departure came she was ready for her Master's summons, triumphant to the end.

In this hour of sadness the bereaved ones will have the condolence of all.

Mr. and Mrs. L. F. Goad, of Stamford, and Mr. and Mrs. Joe Curry and children, of Haskell, were week-end guests in the home of Mr. and Mrs. Earnest Goad, in this city. Mr. and Mrs. Goad are the parents of Earnest, while Mrs. Curry is a sister.

Mrs. C. H. Cabool left last Sunday for a visit in San Diego, Calif. Mrs. John Stephens and her young son, Steve, returned home Wednesday from a Lubbock hospital, where the latter recovered from a second attack of pneumonia. While there Steve was given a blood transfusion and is recovering rapidly.

The Eastern Star study club dinner has been postponed until April 7. Members are asked to bring a covered dish.

Mrs. W. P. Inman, of Snyder, is the guest of Mr. and Mrs. Sherman Inman this week.

Political Announcements

This newspaper is authorized to announce the candidacy of the following persons, subject to the action of the July Democratic primary:

For Congress: GEORGE MAHON re-election C. L. HARRIS

For District Attorney: KARL CAYTON

For County Judge: TOM GARRARD

For Tax Assessor-Collector: R. P. WEATHERS, re-election

For Sheriff: SAM FLOYD (re-election)

For County Clerk: W. M. (Walter) MATHIS (re-election)

For County Attorney: CALLOWAY HUFFAKER (re-election)

For County Treasurer: MRS. LOIS DANIEL re-election

For County Commissioner, Prec. 2: LEWIS KENLEY

JOHN A. ROBERTS

For County Commissioner, Prec. 3: JNO. A. ANDERSON re-election

Dawson County Candidates

For County Commissioner, Prec. 2: G. C. ATEN, 2nd term.

R. L. (Bob) BUTCHEE (re-election for second term)

For County Judge

The name of Judge T. T. Garrard appears in our announcement column this week as a candidate for the office of County Judge of Lynn County.

Now serving in this capacity by recent appointment, vice Judge Chester Connolly who resigned on account of frail health, Judge Garrard is eminently qualified in every respect for the office. Rated as one of West Texas' most capable attorneys, he has for many years been a resident of this section of the state. For several years he was state's attorney in the Odessa-Midland district; for several years as assistant Attorney General, handling cases before the Court of Criminal Appeals; later engaging in the practice of law at Lubbock, moving to Tahoka where he has enjoyed an extensive legal practice. Judge Garrard also was for many years a member of the State Board of Education and did much for West Texas scholastics and educational institutions. Capable, affable and conservative Judge Garrard will, if elected, make Lynn county a splendid official.

His candidacy is submitted subject to the action of the democratic July primary. He respectfully solicits and will appreciate your vote for this office.

First Baptist Church

Pastor J. M. Hale announces a revival beginning April 2, for one week. All are cordially invited to attend. If you sing in any of the choirs of the community, you are urged to lend your voice in the services.

Beginning next Sunday, Pastor Hale is to bring two series of messages to run concurrently. Sunday at 11, the subject will be, "The Holy Spirit, Who He Is," and at night, "The Second Coming of Christ." The following Sunday at 11, "The Holy Spirit, May I Have It?" At night "What Will Happen When the Lord Comes Again."

Judge Geo. D. Foster was conveyed to a Lamesa hospital this week, following a heart attack. At Wednesday's reports he was improving.

T. Sgt. Chas. Uzzle, now stationed at Carlsbad, N. M., underwent a major operation last week.

Cpl. and Mrs. Weldon McMillan returned to Big Spring last Wednesday after a 15-day furlough spent here with friends and relatives.

Mr. and Mrs. E. D. Hill are the proud parents of a fine girl, weighing eight pounds, eight ounces, born Saturday in a Lubbock hospital.

Mrs. B. G. Flatt was down town Saturday afternoon, much to the delight of her many friends. She is rapidly improving from a siege of illness and her friends hope that she will soon be enjoying good health again.

Mrs. R. O. Lane was shopping in town Tuesday.

TOM GARRARD
Candidate for County Judge

Merchants To Close At 7 P. M.

Beginning next Monday, O'Donnell grocery, dry goods and hardware establishments will inaugurate a closing event at 7 o'clock each evening, except Saturday, until September 1st.

Our merchants are asking for your co-operation in this move, and request that you make purchases before 7 o'clock each day. Their places of business open early each morning, and as the days are getting longer the employers realize the need of giving their clerks more needed rest during the week days. Most of the grocery stores remain open each Saturday night until nearly midnight for the accommodation of the public, and other concerns as well, remain open until late to serve your needs.

This is a progressive step that our merchants have initiated. Let each of us remember and do our shopping each day before 7 o'clock. Doing so evidences your appreciation for the many past favors the merchant has extended you.

Sub Deb Club

The Sub Deb Club met Friday, March 17, at the home of Ann Ratliff. Business was discussed relative to new members. Mozelle Wilson and Ann Ratliff entertained the group with birthday cake and ice cream.—Reporter.

Eleanor Lois Howard has been promoted to Yeoman 2-c. Daughter of Mr. and Mrs. Perry Howard, Lois is one of our finest girls. She is stationed at Cleveland, Ohio, with the Waves. Last Saturday night Lois and her sister, Mrs. Douglass Ballew, who is with the North American Aviation plant at Dallas met at St. Louis for a brief vacation. While in St. Louis they telephoned their parents in this city.

L. J. Barrett is doing nicely after a few days treatment in a Lubbock hospital.

Quinton McLaurin, old home boy now in service, has been transferred to California.

A Pretty Party

A St. Patrick's Day party was given by Doris and L. E. McMillan, last Friday night, at the McMillan home.

Refreshments were served to the following guests: Iline, Pauline, Callie Fae and Polliie McMillan, Joy Ellis, Elton Ch Idress, Jackie Hale, Christene and Tolbert Houston, Jr., Bryan Gene McLaurin, Olin McKenzie, Bill Henry McKenzie, Arnold Fairley, Mary Ruth and Georgia Beth Sparks, G. W. Jones, Rayford, Earl and Mary Agnes Bates, Norma June Nelms, Patricia Etter, Mary Sue and Harold Gene Franklin, Betty and M. J. Dorman, Freeman Isaacs, Harlan Dolloff, Mr. and Mrs. Durward McMillan, Mr. and Mrs. Pete McMillan, Doris and L. E. McMillan.—Reporter.

Vic Hollar was here from Pantex this week guest of Mr. and Mrs. J. H. Parker.

R. T. Rains, old home boy who is in the navy, was a guest at Tuesday's Rotary luncheon, and gave some graphic accounts of the life of a jolly tar.

Uh Huh, Did It Again

The old O'Donnell habit continues. When Lynn county's Red Cross War Fund quota was placed at \$7200, O'Donnell was asked to raise \$2400, the same amount asked of Tahoka.

Tuesday O'Donnell had raised \$2560 with more still coming in. Total on that date raised in the county was \$8370, and by the first of April Lynn county's contribution will reach \$9,000. Other points have not reported.

County Chairman Walter Anglin and local Chairman B. M. Haymes extend profound thanks to all who assisted and donated.

To District Meet

Ervy Boothe and Jimmie Schooler will go to Denver City to the district meet to participate in the tennis tournament, April 1st.

Mrs. Hattie McLaurin was in Lubbock Saturday for a tonsillectomy.

The Washington MERRY-GO-ROUND

DREW PEARSON

Washington, D. C.
STATE DEPARTMENT
STYMIES ROCKEFELLER
 Aides to Nelson Rockefeller think the administration blundered in failing to defend itself better against the charges of Latin American extravagance made by Republican Senator Hugh Butler of Nebraska. Inside fact is that Rockefeller prepared a rebuttal to Butler's blast against our Good Neighbor spending, but it was killed by the state department.

The rebuttal had been prepared as an article for Reader's Digest, under Rockefeller's by-line. Rockefeller showed it to two advisers, John Dickey and Anna Rosenberg, who both okayed it. Then it was sent to the state department.

There, Hull's public relations adviser, Michael McDermott, advised against letting young Rockefeller step out as defender of the government's foreign policy. He urged that this prerogative should be reserved for Cordell Hull alone.

So the article was killed, and the next issue of the Reader's Digest, instead of carrying a government rebuttal, carried another blast by Butler, with an editor's note saying that Rockefeller had been given a chance to reply, but declined.

So readers all over the country are beginning to think Senator Butler may be right.

LOS ANGELES STRIKE
 The army, which seized the Los Angeles Water and Power system as a result of a strike by electrical workers, hopes to turn it back to the municipal authorities about the time this appears in print.

When the labor department reports on this strike, its figures will show that 2,300 men went out. Real fact, however, is that many times that number were thrown out of work by the stoppage of light and power.

Reason the war department stepped in was that the strike had closed: 84 aircraft plants; 38 navy plants; 14 army service forces plants (ordnance and quartermaster).

Though the general public knows only of such prominent cases as the army seizure of the railroads, actually the army is being forced to take over many properties tied up by strikes. It has become a pattern. Labor unions make use of it to threaten management.

Ten mills were tied up in Fall River, Mass., because of a mere jurisdictional dispute between an independent union and the CIO. The army was obliged to step in, and is still in. The same thing happened at Peabody and Salem, Mass., in a dispute in the leather industry between an independent union and the CIO. Also, the army has been obliged to take over the Western Electric plants in Baltimore because of the notorious "back-house" dispute.

War department officials are getting worried over this trend. They have become the Department of Emergency Labor. They don't like it. They want to fight the war, not fight labor.

ON THE AIR FRONT
 Recently, U. S. fighter planes set up a new record by penetrating a distance of 550 miles into Europe—1,100 miles round trip.

This has been published, but what may not be realized is that fighters are working this run in relays. Three different teams of fighters go out toward the target at different times, using the following pattern:

1. The first team goes out with the bombers, and protects them halfway to the target, meeting and engaging the German fighters.

2. The second team, starting later, catches up with the bombers at the halfway mark and escorts them the rest of the way to the target. Thus, they arrive at the halfway mark without having to combat Germans all the way, and so have fresh supplies of gas and ammunition, while the first team, with exhausted supplies, turns back.

3. The third team starts still later, and meets the bombers at the target. Here they drop their belly tanks, take over the hot fighting above the target. With fresh supplies, they relieve the second team, which turns home.

Generally, the first team consists of Thunderbolts, the second team of the faster Lightnings, and the third team of the still faster Mustangs. Since all fighters are faster than bombers, they can go out and catch up with the bombers at any agreed point.

This technique has greatly extended the range of fighters and greatly increased the protection they afford for the bombers.

MERRY-GO-ROUND
 Ed Stettinius says the Soviet forces have been able to maintain good communications, partly because we have sent them 189,000 field telephones and over 670,000 miles of wire—enough to go around the world 27 times. . . . Equally impressive is the quantity of barbed wire lend-leased to the Soviets—216,000 miles of it. "It is significant," says Stettinius, "that after the fall of 1942, the Soviet army stopped asking for barbed wire in large quantities."

WAR ON ALL FRONTS

A SERIES OF SPECIAL ARTICLES BY THE LEADING WAR CORRESPONDENTS

Jugoslavia's 'Tito'

By Frank Gervasi

(WNU Feature—Through special arrangement with Collier's Weekly)

Fifteen years ago, Josip Broz was a nameless criminal by the police and secret agents of the then most powerful figure in Yugoslavia, Gen. Pera Zivkovic, strong-arm front man for the late pious, dictatorial King Alexander.

Josip Broz did not have a birth certificate, much less a passport. For the entire year 1928, he lived in the political underworld of cellars and garrets in Belgrade, Zagreb and Split, and wherever he could find refuge.

His crime? He had organized the Metal Workers' Union and was one of the leaders of the trade-union movement in Yugoslavia.

He was caught early in 1929 and jailed. He was released four years later with gray in the soft waves of his brown hair, ulcers in his stomach and a dream in his brain.

Leader of 300,000 Fighters.

Today, at the age of 55, he stands at the head of an army of 200,000 and possibly 300,000 oddly uniformed but uniformly determined men and women known as "Partisans," who have proved everlastingly that slave men may win battles but free men win wars.

Today Josip Broz is the military and spiritual leader of a movement which has broken the Nazis' hold on the Balkans, obliterated an Allied offensive in southeastern Europe until the main German armies can be crushed in the East and West, and has given new meaning to the words "A People's War" and "The Four Freedoms."

To his army and the guerrilla bands and to millions of Yugoslavs in freed territory and the outside world, Josip Broz is known as Tito. "Ti" means you and "To" means this. Broz has few idiosyncrasies or mannerisms to mark him apart from other men, but one of them is the habit of prefacing an order with "You do this." Hence his name. It is pronounced Tee-toe.

To the Titos of this world and their followers must go an indefinable measure of credit for the victory that will be ours.

To one particular Tito—he who was born on a 30-acre farm near Zagreb of a Croat father and a Slovene mother—must go most of the credit for the rebirth of Yugoslavia and the immobilization of the German armies in the Balkans, and the setting into motion of a revolution in southeastern Europe which might provide a permanent solution to the problems of one-third of the people of that continent.

Mikhailovitch Helped.

What credit isn't Tito's must be given to Draja Mikhailovitch, who unfortunately chose, at one stage of his dramatic career as liberator, to turn from killing Germans to taking part in civil war and only sporadically resumed the bigger job.

Tito is of slightly more than medium height, broad-shouldered, long-armed and sturdy-legged. His head sets low on his shoulders and it is a remarkable head. In profile, it is the head of a poet and philosopher who is also a skilled craftsman—a Cellini perhaps. Full face, it is the tough, determined visage of a triple-threat halfback.

A side view of this prodigious proletarian shows a high forehead, bulgy shaggy brows with a deep crease between them, capable of eloquent frowning. Tito's nose is long, slightly beaked, with thick nostrils. He has a straight, kindly mouth, good chin and a heavy workman's neck. There is what some would call an American Indian cast in his features.

Face to face, he looks remarkably like a clean-shaven Stalin, the effect being accentuated consciously or not by the cut of his unadorned broad-collared tunic.

He speaks matter-of-factly, in a low, well-modulated voice, looks directly at you as he talks and never speaks until you have finished what you have to say. He talks, they say, to each individual in an audience, moving his eyes deliberately from one person to another.

He smokes innumerable cigarettes, chain fashion, from a small holder. Far from being "a man of steel," he is capable of great emotion.

Mourns for Dead.

"When something really bloody happens," a man who spent months with him in Yugoslavia told me, "he's knocked out. No hysterics, no pyrotechnics. He just retires quietly for hours, as he did the night he got word that his friends Mihosevic and Kovasevic had been killed."

Out of their affection for Tito, the people have fashioned a legendary man of extraordinary courage and endurance who rides a white charger and walks uphill to spare its strength, who is always at the head of his guerrilla detachments.

Kathleen Norris Says: Turning a Baby Into a Woman

Bell Syndicate—WNU Features.

If Ann is a real woman she will welcome her husband home to all the love and comfort of which he has been dreaming.

By KATHLEEN NORRIS

THE problem of Ann Elizabeth Carter is one that is going to confront many thousands of women after the war, and for that reason it deserves a serious answer. A wiser, older wife than Ann wouldn't need any answer, but most of today's service wives are neither old nor wise, and perhaps a little heroic advice may be of use to them.

Heroic, yes. Ann's situation demands real heroism, for these are the circumstances. She met her Philip a year ago; a captain in the army. They were married three months later in all the glory of uniforms, decorations, crossed swords. Three months of young wedded bliss followed, then Phil went off to service in Italy. Last week news came that he is being sent home, the same strong vigorous Phil, but with one eye gone, and his left foot amputated.

Poor Ann Elizabeth! She is only 20; she was so proud of her soldier husband! Now to know that through all their lives he will be lame, that there will be no more dancing, tennis, hikes; that he will not enjoy football games, movies, shows—that he may even have trouble getting a job that will adequately take care of them—well, it's too much for Ann, and since the cablegram came she has sunk into tears, sulks, rages. Her mother writes me about it.

No Way Out, Only Through.

"How can any one of us be cruel enough to condemn this joyous child of mine to what will be a life of slavery and poverty?" says her letter. "And on the other hand, how can we meet poor Phil with the announcement that he ought to free Ann Elizabeth for a happier and more normal destiny? It seems to be a dreadful impasse? What's the right way out?"

My answer to Ann's mother is: My dear good woman, it isn't an impasse at all, and there's no way out. The only way is THROUGH. If every wife, sister, daughter, mother of an injured man is going to sneak out of her sacred responsibilities after this war, we'll have a world full of suicides on the one hand, and detached, selfish, shallow—no, not women, on the other hand. I'll not call them women. Vampires, moral irresponsibles, heartless shrews—anything you like, but not women.

Real women, scores of them, have already faced this crisis, in England, yes, and in America, too. They have met the returning soldiers with courage and confidence. They have had plans made; this has been possible, that has been arranged, everything is going to be all right. One of our most popular movie stars has a wooden leg; one of our great singers a wooden arm; engineers, inventors, scientists are often physically handicapped men, world-famous statesmen have been cripples; their bodily disabilities often seem a spur not only to worldly success, but to infinitely more valuable growth in character and soul.

"Is Ann Elizabeth to sacrifice the best years of her life to the care of a man she did not even know a year ago?" demands her agonized mother. The answer is another question. What did Phil sacrifice to protect everything that makes Ann Elizabeth's life safe and good?

If Ann is a real woman she will welcome her husband home to all the love and comfort of which he has been dreaming. She will find out what he CAN do, instead of brooding upon what he can't, and so lay her plans that Phil will marvel at the joy, the completeness of

Marry No Fisherman

By LEALON MARTIN JR.
 McClure Syndicate—WNU Features.

"CLOSER we get, 'fraider I am of how she'll take it," said Hans.

Delphine looked up at his blond tallness. "Me, too," she confessed, and squeezed his hand. For the thought of her mother was still between them. Delphine remembered what she had said and her worry grew. "We'd better be ready for the worst," she told Hans. "You know Mama always said: 'My Delphine, she's never going marry no fisherman.'"

Hans looked uncomfortable. "Yeah, I know," he said. "Look, maybe I'd better not go to the house with you. Maybe you better break it alone."

"No," Delphine was firm. "It's best you come now. I want she should know we're not ashamed of what we've done. And I'm proud of my husband, no matter what he has been!"

"Your brother would help," Hans sighed, "but the army's got him too far away."

Delphine's mind was busy. She remembered just how she and Hans had met, that very first time, nearly three years before. She had been in her father's store, helping during school vacation of her senior high school year. The young man had walked in to ask for information. Blond hair, yellow in the slanting sun as he doffed his cap, and tall and fair, with the widest shoulders, Delphine had thought, she'd ever seen.

"My name's Hans Olsen," he said, "and I've come from Florida in my trawler. Heard the shrimping's good over this way. Can you tell me where I can find a boarding place?"

"But yes," she answered him. "Madame Broussard will be glad to have you." And she directed him, walking to the corner to point the way. He'd been back several times. In fact, he'd made it a point to come—and always they found something to talk about. Delphine was sure almost from the start that he liked her.

And soon the whole town was talking about the young Swede fisherman. One of those East coast shrimpers from Florida, they said, who sure knew how to get the fish 'way out. A hard worker, too, you bet. More than one Timbalier mama would have been glad to have him come calling.

But Hans Olsen went only to the LeBlew store, where there was Delphine. And Delphine had been glad, oh, so glad! She shuddered, remembering her mother's tirade. Any of her friends' parents would have been happy if this sober, industrious young man appeared to have serious intentions toward their daughters, but not her mama. "Ever since you been big enough to go with boys for the dates," she ranted, "I been afraid this happen. You know why I nevair let you go out with boys from the shrimper boats. Always I don't wan' you marry no fisherman. Look what you get! Nothin' but to be sorry!"

"Yes, Mama."

"You know a shrimper, he's nevair make nothin' hardly. When he catch good, he throw away the money, gamblin' or somethin'."

That had been so unfair to Hans that she'd spoken up: "But, Mama, Hans is not like that. He's different."

"Different, eh? Non, all shrimpers, they're alike!"

And that had settled that. She couldn't see Hans at home. Their surreptitious meetings had been few and far between, but for her it would always be this tall, fair young man.

The months became years. He went back to the Atlantic and she thought him lost forever. But he returned, explaining that he'd taken his trawler over because of the extra good fishing.

Then war had come and, after a time, she'd gone to Houma to work in a defense plant. And Hans was on the East coast. She hadn't seen him for nearly six months when he'd walked into her cousin's home in Houma one Sunday. They'd been married the next week and this, after their all too short honeymoon in New Orleans, was her homecoming.

Delphine gripped Hans' fingers tighter as they turned into her yard. "This is it!" she murmured and they smiled at each other.

"Mama, this is my husband, Hans Olsen," she said, and waited for the storm. "We were married last Friday. He's on leave from Camp Shelley."

"Husband . . . husband," her mother said, and her brow clouded. Then she gazed hard at Hans. Delphine saw that he braced his khaki-clad shoulders. "Ah, Delphine," she said. "Me, I'm glad you didn't marry no fisherman . . . but a good soldier of the United States like Raoul. Come, my son and daughter." She held out her arms.

ON THE HOME FRONT

With RUTH WYETH SPEARS

ELABORATE box-like cornice to cover all rods and fixtures used in hanging curtains were the height of fashion in the formal rooms of the mid-Victorian period. They were often made of carved wood or of metal in intricate designs. Again they were padded, bedecked with tassels and fringe. The front of the cornice was called

the face. The ends were called returns. Cornices are still used in simplified forms for our own windows and these terms are also used.

This sketch shows three different treatments of box cornices for modern windows. They all give a professional effect yet any amateur may make them. The first pattern 207 which contains design of returns to hold wooden rods is to be used instead of metal rods for hanging glass curtains and overdraperies. If you already have double curtain rods just leave them in place and fit your cornice over them. If you decide to part the wood instead of covering it, the cornice may match the room woodwork or it may repeat some color in the drapery material as shown at the right.

NOTE: This is the fourth and last of the series on modern adaptations of period curtain styles. If you are interested in making scalloped wooden cornices you will want pattern 207 which contains design of scallops which may be used to hold dozens of different types to fit windows of any size. Pattern No. 207 is 15 cents post paid. Address:

MRS. RUTH WYETH SPEARS

Penicillin Hits Fever Menace

Experiments at May Clinic
Show Good Results in
Relapsing Type.

NEW YORK.—The Mayo clinic reports evidence that penicillin is good for relapsing fever. This fever is one of the serious war diseases, and a menace in some parts of the world, but has appeared in the United States only in mild form. It is caused by spirochetes, which were described as snake-like by the first scientist to see them under the microscope in 1868. He was the German, Otto H. F. Obermeier.

At the Mayo clinic fatal inoculations of these fever organisms were given to mice recently. Of the mice untreated, 75 per cent died. Of those treated with penicillin only one died, and that one did not die with symptoms of relapsing fever, but the cause of its death was not learned.

Better Remedy Sought.

The Mayo report says that as a result of these mice experiments it is hoped that penicillin will be a more effective treatment than the medicines heretofore used. The main remedy has been arsenic, which attacks these fever spirochetes much as it does those of syphilis.

The bad forms of relapsing fever are transmitted by lice and have been sometimes 80 per cent fatal. In the United States the fever is transmitted by ticks and its presence has been reported in 13 western states.

The ticks are carried by rats, mice, chipmunks, squirrels, opossums, rabbits, porcupines, monkeys, foxes, hedgehogs and dogs. The fever in its first attack usually lasts from three to five days, and relapses occur at regular intervals of two to nine days apart.

The Mayo experiments were reported by F. R. Heilman, M. D., and W. E. Herrell, M. D. Constance Carter and Nellie Greenburg assisted in the work.

Cures Infection.

The clinic also reports that penicillin cured cases of infection of the frontal, or forehead bone, after sulfa treatments had failed. This type of infection is often an aftermath of sinus troubles and is usually dangerous.

The report was made by H. L. Williams, M. D., and D. R. Nichols, M. D.

Rabbit, squirrel and mountain fever are local names and, except the mountain variety, are unlikely to be applied to relapsing fever. The latter's other names are recurrent fever, spirillum fever, famine fever and seven-day fever.

Rabbit fever usually means typhoid. Squirrels are not commonly associated with fever. Ground squirrels in the West sometimes carry bubonic plague, which is not primarily a fever.

Jerks Liberator Out of

Spin Like Training Plane

A LIBERATOR BOMBER BASE, ENGLAND.—The big Liberator bomber got cantankerous when it reached 17,000 feet. She flipped her tail into the air and went into a spin like a giddy training plane. Aboard her were Lieut. Homer Boles and his nine man crew and three tons of bombs, all on their way to bomb the French invasion coast.

"The controls shook out of my hand like some giant fighting me for them," Boles said. "I'd never heard of anybody spinning a Liberator, particularly with a full bomb load, so I decided to tell the crew to bail out."

"Our rate of descent meter was as far over as it could go, and that's 6,000 feet a minute. Our air speed indicator showed we were diving at 350 miles an hour."

"I started pulling controls and kicking the rudder, just like I did with a light training plane in flying school, and sure enough the plane came out of the spin."

The plane leveled out at about 11,000 feet and Boles took a roll call, found everybody at his post and set full speed ahead to regain the formation and complete the mission.

Name of the Liberator? Heaven Can Wait.

Spends 50 Years on Stage

And Never Got One Bow

BOSTON.—Fifty years on the American stage without a single bow or curtain speech is a distinction earned by William ("Shakespeare") Gallagher.

A stagehand, whose familiarity with the world of the Bard of Avon earned him his nickname, Gallagher spent most of his half-century backstage in the shadows of the Boston theater. Here he met and hobnobbed with some of the greatest names on the American stage.

Court Rules Wife Can

Glance at Other Men

LOS ANGELES.—Patti Doak, 20-year-old shipyard worker, testified that her husband, Edward C. Doak, 25, objected to her smoking, derided her clothes, ridiculed her friends, disapproved of her generally and insisted she keep her eyes cast down as she walked along the street so she couldn't look at other men. That, ruled Judge Ruben S. Schmidt, constituted cruelty. The divorce was granted.

Build Giant U. S. Base in Marshalls

Fighting Engineers of Navy
Doing Great Job.

NAMUR, KWAJALEIN ATOLL, MARSHALL ISLANDS.—A powerful American naval air base is rising at a brisk pace out of the wreckage of Roi and Namur islands, until a few days ago a pair of Japanese strong points in the Marshalls.

Seabees, fighting engineers of the navy, are using giant bulldozers to raze construction of the bomb and shell-smashed islands. Heaps of dead Japs, airplane wreckage and damaged fuel tanks are being cleared away.

The only hunting left for the marines of the Fourth division who took the islands are a few Japanese hiding in the thick underbrush on the northeast point of Namur, known as coffin corner, where the fighting was hardest. The leathernecks now have time to tidy up their fox holes, while on the beach 15 specially trained dogs are exercised occasionally.

No sea or air opposition has been offered by the Japanese yet. Not a single Japanese plane or surface ship has been sighted in the vicinity. Actual fighting on Roi lasted four hours and on Namur 24—and more than 120 hours have passed since the attack on the Marshalls began.

Seabees coming ashore right behind the marines found one of their greatest rehabilitation jobs waiting for them. After incredible heavy naval aid aerial bombardment there was hardly a spot on the islands where bombs and shells hadn't left devastating marks.

Only one woman was found on the islands. She was a native crouching in a tunnel. Indications are that there were as many as 500 working on the islands before the invaders struck. They fled to outer islets, crossing on reefs, without getting a scratch.

One of the few Japanese prisoners taken apparently was a firm believer in homeland propaganda. He bragged to a marine:

"Well, you took this island, but you'll never take Pearl Harbor."

Sons of Five Generals

Fighting in Marshalls

WASHINGTON.—The American forces invading the Marshalls included the sons of five marine corps generals.

One of them, Capt. James L. Denig, son of Brig. Gen. Robert L. Denig, director of public relations, died in the action.

The others in the battle were: Lieut. Col. Alexander A. Vandegrift Jr., son of Lieut. Gen. Vandegrift, commandant of the marine corps.

Maj. Richard K. Schmidt, son of Maj. Gen. Harry Schmidt, commander of the fourth division, the marine unit invading the Marshalls.

First Lieut. Joseph C. Fegan Jr., son of Major General Fegan, commanding officer of Camp Joseph H. Pendleton, Calif.

Second Lieut. David A. Brewster, son of Brig. Gen. David L. S. Brewster, now with the first marine amphibious corps in the Pacific.

Canada Will Use 5,000

Germans in Lumber Camps

WINNIPEG, MAN.—More than 5,000 German prisoners of war from the large internment camp near Lethbridge, Alta., have been assigned to work in lumbering camps of northern Alberta, Ontario, and Quebec, it was learned from reliable sources.

More than 1,000 German prisoners are now working in lumbering camps of northern Alberta, half of them near White Court and the others in the Lesser Slave lake area. They comprised the first working parties to be sent out.

About 400 more went to lumbering camps in the Thunder bay regions north of Lake Superior. The next movement will place 500 German captives in the forests, generally northeast of Quebec City. The prisoners are paid 50 cents for an eight-hour day.

Gets Vengeance for Two

Brothers Slain by Japs

BOUGAINVILLE.—Staff Sgt. William Baker, Oakland, Calif., has exacted vengeance from the Japanese for the deaths of his two brothers. Philip Baker was killed by bombs at Pearl Harbor, and Robert went down with the carrier Wasp.

Sergeant Baker was a member of a 13-day patrol through the jungles led by Capt. John McCurdy, Des Moines, Iowa. He was in charge of a platoon which killed a Japanese patrol of eight men. "They had their day; now I've had mine," Baker said.

He has spent 13 years in the army and is now with the Thirty-seventh army division on this island.

Won't Pray for Peace;

Brother's Fixing That

SEATTLE, WASH.—Lieut. Wally McKay of the marines, home on leave, was puzzled by the almost idolatrous admiration of the schoolmates of his six-year-old brother Larry. The teacher explained that last week first graders were asked to pray for peace. Larry refused. "That's taken care of," he explained. "My brother's in the marines."

Gay Wool and Chic Satin Coats Are Styled in Versatile Types

By CHERIE NICHOLAS

WHEN it comes to versatile and individualized styling of the new coats current collections show an unusual variety of types this spring. It does not matter whether you are tall or short, young or not so young. Whether you are looking for a practical utilitarian coat or a fastidiously fashioned type for dressy wear, the coat that is "made just for you" is sure to show up somewhere in this season's vast showings.

While there is an unusually wide selection of coat styles on the spring program, there are certain basic types which underwrite style-rightness in definite terms. At a recent exhibit held in the Merchandise Mart in Chicago, the three models pictured herewith were cited as representative of what's new in practical coat classics for spring.

A favorite for general wear, the model of straight boxy lines as shown to the left is recommended as just the sort of coat the woman of conservative taste will want to wear over her suit or to slip on over the little casual daytime frock. It carries a spring, 1944, message convincingly, in that it subscribes to the prevailing color craze, being fashioned as it is of a vivid green wool. You'll appreciate the comfort of its smart raglan sleeves.

The dashing spring topper styled like a pilot's coat shown to the right is proving one of those outstanding successes that simply is taking the world of fashion by storm. You see varied versions of it in every style showing. The college girls and teenagers are going all out for this type. It is smart in black, brown and navy and also reaches the ultimate in chic when carried out in the very smart gray. It is to be had in a grand assortment of other delectable shades as well. It is styled with pockets placed in the side seam, but when the coat is

properly pulled forward, they are positioned just right.

For the last several seasons the casual coat with its boxy lines has been holding the spotlight in fashion's domain. However, this season marks the return of the nicely styled fitted coat as shown centered in the group. The outlook for the fitted types is increasingly promising, and it makes it the more exciting that these gracious ladylike styles make delectable color their theme. The coat here illustrated is made of a rose-colored wool which emphasizes its style prestige.

Fashion is making a big color change in the coat realm, it is true, but come what may, or go what may, black and navy will always hold their own in the foremost ranks of the mode. This spring, as usual, many of the smartest coats are black or navy.

It's news that the direttore coat is scheduled to make a dramatic return. Another type that is making conversation is the military looking officer's coat. There is also hint of a revival of the fitted coat that is topped with a jaunty little shoulder cape after the manner of the coachman's coat.

The most sensational entry of coats made of satin into the style picture bids fair for a future of stunning models, either in full length or the new fingertip length. Faille, surah and taffeta are also mentioned as fashionable coat media.

Buttons play an important role in styling the new coats, especially the casual types. Braid trimming is also used in smart ways.

Released by Western Newspaper Union.

Red Cordurella

For blazing a fashion trail, the young lady above chooses a red cordurella suit with an animated piping of red with white braid. For practical many-purpose wear there is no fabric that surpasses sturdy, ever smart and good-looking cordurella. Especially refined in appearance is the pin-wale type known as cordurella. Here is another evidence of the popularity of bright-colored suits. The beauty of this suit too, is its year-round smartness.

Brief Sleeves Call for Arm-Length Gloves

Sleevelessness is everywhere in the spring and summer fashion picture. Either sleeves are conspicuous by their absence or they are exceedingly brief on many daytime dresses and blouses. Cap sleeves, strap tops, berthas, scalloped caplets and extended shoulder lines abound in the new order of things.

This might sound impossible for conservative dressers were it not for the clever cover-up tops that pay accompaniment to the majority of sleeveless-type fashions. These include bolero jackets, smart little shoulder capes, long scarf effects and a multitude of resourceful ideas. However, with the cover-up top removed, long gloves have come into utmost fashion prominence to wear with the sleeveless or near sleeveless type of dresses, blouses and sweaters. These are to be had in most enchanting colors and of washable suede fabric in 20-inch length or more.

Spring Sweaters Come

In Intriguing Patterns

The spring group of sweaters fascinate with their wonderful coloring and clever new knitted patternings. You'll love the new confetti sweaters so effective in pastels that are too pretty for words. These look perfectly charming highlighted with the new flower colored plastic jewelry. The new Argyle and floral patternings are so flattering. Then there are the sports sweaters with interknit patternings of Indian figurines and frolicking little scotch terriers and cowboy hats and just any design to be sporty. Important colors for sweaters are oxford gray, lilac, white and peach and the new apple green which is so definitely spring-like in its fresh coloring. Sleeveless sweaters are much in demand

CRACKED PLASTER

Question: What is best to do with cracked plaster? We have had some of the cracks refilled with plaster, but after a year or two these cracks are worse than before, as the new plaster has fallen out. What do you think of covering the walls and ceilings of bathroom and kitchen, which at present are painted, with wallcloth—the kind that can be painted over? A friend has just said that putting a wallcloth on the walls and ceilings would tend to pull the plaster off the walls. Would this be possible?

Answer: Wide cracks should be cut out so that they are wider at the lath than on the surface; in hardening, the patch will lock itself into place. You can get patching plaster at a hardware store.

Before putting in the patch, the old plaster should be dampened to prevent water from being drawn from the patching compound. Fill the crack only three-quarters full. When this part of the patch has hardened, the rest can be filled and the surface smoothed. This will prevent possible shrinkage.

A fine hairline crack can be filled by brushing with a mixture of three parts boiled linseed oil and one part turpentine to the consistency of a fairly thin paste; this is rubbed on with a cloth to force the paste into the cracks, and the excess is wiped from the surface. Light sandpapering may be necessary when the paste has dried.

Wallcloth would make a very good covering for your walls and ceilings. You can get it in plain colors as well as in wallpaper designs. I see no reason why it should pull the plaster from the walls or ceilings. The walls should be sized before applying the wallcloth.

ACID STAIN ON FLOOR

Question: How can I take out an acid stain from a floor? Scrubbing and sandpapering have not succeeded.

Answer: If the stain has penetrated the wood, try bleaching with a

hot saturated solution of oxalic acid (poison) or Javelle water. Brush this on the floor and allow to remain all night. Then rinse thoroughly. When dry, sandpaper the area. Refinish in the same way as the rest of the floor.

Cleaning a Rug

Question: I have obtained a bottle of carbon tetrachloride and want to use it to clean my rug, which is a light gold shade. However, while I have read that carbon tetrachloride is good for spots in rugs, I do not have any idea how it should be used. Can you tell me? Also, is it to be diluted?

Answer: If there are grease spots on the rug, you can use the carbon tetrachloride for them. To do this, place the spot over a shallow pan or bowl and pour the carbon tetrachloride over the area repeatedly until the spot has disappeared. But, in order to clean the entire rug you will find it more economical to have it done by a professional rug cleaner. Or, you can do the job with one of the well-known rug shampoos. I would not use the carbon tetrachloride for cleaning the entire rug; it is too expensive for the purpose and the fumes given off by the chemical, if inhaled in large quantities, might be harmful.

Windows Stick

Question: How can I ease the opening and closing of windows in my home?

Answer: Windows will work more easily if the grooves are rubbed well with paraffin. Some hardware and dime stores sell a special preparation for the purpose.

Sticking Waffles

Question: How can I prevent waffles from sticking to the waffle iron, and how should I clean the iron?

Answer: The iron can be cleaned with a clean wire brush. To prevent sticking, put more melted butter in the batter. You will need to experiment.

CLASSIFIED DEPARTMENT

BOILERS

BOILERS—High pressure. State inspected, 40-60, 75-85 h. p. Also sectional heating boilers & hot water feed pumps, priced right. R. E. BARKER, Ranger, Texas.

Use Black and White Ointment only as directed. 10c, 25c, 50c sizes. 25 years' success. Money-back guarantee. Vital in cleansing is good soap. Enjoy famous Black and White Skin Soap daily.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION

for Coughs, Chest Colds, Bronchitis

WNU—L 12-44

When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

Perhaps It Was the Way That Mr. Smith Said It

Smith was discussing his wife's peculiarities with a few friends, who had gathered at his home. "The other day," he said, "my wife put on a new dress which was atrocious beyond words. I daren't say a word about it, and dared hardly look at it, but as she went out I went to the window to have another look and—"

"At this juncture his wife entered the room suddenly."

"And," continued Smith, "they found the cat eleven days later on top of the Eiffel Tower!"

And Mrs. Smith still does not understand what there was in that ridiculous statement to make them all laugh so uproariously.

A few drops AT FIRST SNIFGLE, SNEEZE

Put a few drops of Va-tro-nol up each nostril at the very first sniffle or sneeze. Its quick action helps prevent many colds developing. Follow VICKS directions in folder. **VA-TRO-NOL**

Self-Deception
The easiest thing of all is to deceive one's self; for what a man wishes he generally believes to be true.—Demosthenes.

"ALL-BRAN WORKED WONDERS FOR ME!"

Says Constipation Sufferer

There's real hope for common constipation sufferers in this unsolicited letter!

"Thanks for what KELLOGG'S ALL-BRAN has done for me. I'm 75 years old. I've been taking pills and salts almost every night, 6 weeks ago. I started eating KELLOGG'S ALL-BRAN every morning. I had regular movements without any trouble. I can't praise ALL-BRAN enough. It sure works wonders for me." E. C. Zook, Box 114, Fairbury, Ill.

How can such amazing results for thousands be explained? Scientists say it's because KELLOGG'S ALL-BRAN is one of Nature's most effective sources of certain "cellulosic" elements, lack of which in the diet is a common cause of constipation. They help the friendly colonic flora fluff up and prepare the colonic wastes for easy, natural elimination. KELLOGG'S ALL-BRAN is not a purgative. Doesn't "sweep you out!" It's simply a gentle-acting, "regulating" food.

If you have constipation of this type, eat KELLOGG'S ALL-BRAN regularly with milk and fruit, or mixed with other cereals. Drink plenty of water. See if you, too, don't get real help! Insist on genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

Prisoners of War
At the present time there are about 140,000 prisoners of war in 1100 prison camps in the U. S. Only 77 of these are Japs.

RHEUMATIC PAIN
Don't put off getting C-2223 to relieve pain of muscular rheumatism and other rheumatic pains. Caution: Use only as directed. First bottle purchase price back if not satisfied. 50¢ and \$1.00. Today, buy C-2223.

QUEENS DIE PROUDLY
by W.L. White W.N.U. FEATURES

THE STORY THUS FAR: Lieut. Col. Frank Kurtz, pilot of the Flying Fortress known as "The Swoose," which escaped from Clark Field, tells of that fatal day when the Japs struck in the Philippines. Old 99, another Fortress, is struck down before it can get off the ground. The ground is littered with the skeletons of U. S. planes. No longer safe to sleep in the barracks, because Japs are photographing Clark Field, cots were moved into the middle of a cornfield. Later, they evacuate to Mindanao, and as they arrive Japs are already putting troops ashore on the island. Squadron Commander Major Gibbs goes out on a secret mission and fails to return. Harry Schreiber, the navigator, takes up the story.

CHAPTER VI

"About an hour out of Del Monte, Shorty Wheelers drops out of formation—we guess it's engine trouble and he can't keep up this rate of climb—and half an hour later Pease. As we come to the rendezvous point where we're due to make our turn and go straight in on our target, only thirty-five miles away, Lee Coats drops out—his motors were all see are weak, he can't make the altitude."

"That leaves just my pilot, Jack Adams, and Vandevanter to go on alone. When we thought there would be six planes, we had planned to divide into two flights of three planes each. The flights were to come in on the target at three-minute intervals and at different angles."

"There are just two planes now, so Jack decides he'll pretend he is one flight and Vandevanter will play like he was the other. The two of us against this big gang of Jap ships we are closing in on."

"So, as agreed on, we come in first—flying north to south. But the overcast is so thick we have to get down to about 18,000 before we can see the target, and there it is—we're glimpsing it and then losing it and glimpsing it again through breaks in the clouds—a row of transports and naval craft escorting them."

"When we come in on the target, I'm down there in the lower jaw. But now my job as navigator is temporarily over, so I can leave it and go back to the bomb bay, where the bombs are hanging in racks on either side of a little aisle."

"Now the bomb-bay doors are opened, and light comes up around the bombs. And now the bombs are away. I lean over to look down through the open bomb-bay doors, feeling a little woozy because my oxygen mask is back by my seat in the navigator's compartment, and just before Jack Adams from his pilot's seat slammed those bomb-bay doors closed, looking down below the belly of the ship I think I see something, but then the doors slam shut and there is only blackness. So I run back to the navigator's compartment, and, boy! there they are—a whole gang of

Sliding Doors on safe cars tomorrow

BUT...

OIL-PLATING YOUR ENGINE
is like outdoing the future — today

"A bird in the hand" is worth a whole flock of 1950 cars with wings—or even more moderate 1945 models that aren't here yet either. Better grasp the big advancement that's ready now... Better have your engine OIL-PLATED!

Conoco Nth motor oil, for your needed Spring change, at once brings your engine internal OIL-PLATING—the foe of cursed engine acids. These unavoidable "leftovers" of combustion were a menace even when partly driven off by the steady heat of long trips. But rationing brought short jumps, with overcool operation that magnified acid attacks. It's high time now—in any car, under any conditions—to check rampant acids. And you'll succeed with Conoco Nth oil, containing an advanced synthetic. This acts "magnet-like"... makes metals attract and hold their acid-resistant shield of OIL-PLATING.

Though your engine's cool or hot—running or not—the OIL-PLATING doesn't all promptly drain down to the crankcase. And where there's OIL-PLATING, the acids that want to destroy are told to "Keep Off!" That's how Conoco Nth oil can advance your car's chance to keep going. Change for Spring today at Your Mileage Merchant's Conoco station. Continental Oil Company

O'Donnell Index-Press

Published Fridays

Entered as second class matter at the post office in O'Donnell, Texas, under Act of March 3, 1879.

Bill Sauls told me Saturday he knew that we had prosperity. Said that in 1930 he saw six jackrabbits mosey down main street with nine men and a negro woman giving chase with hopes to replenish the dinnerpot. He told us that Friday he saw an old fat hen wandering around all over the streets with nary a mortal to give chase.

Wm. Lee Harris, old O'Donnell boy, son of Mr. and Mrs. D. L. Harris, writes his parents from Italy that it is a military secret just how many forays he has participated in against the Axis enemies. William Lee is in the air corps and has flown on several missions—the censor doesn't permit him to say how many. He writes that he is getting his Index-Press and enjoys it fully. He never knew how much the home paper meant until now. Even his flying buddies closely read our columns.

Don't miss seeing "The Mad Hatters," the senior class play at the high school auditorium tonight at 8:30. Without gainsay this promises to be one of the most hilarious entertainments ever presented in O'Donnell. Take your folks or a friend with you. Mrs. Amy Winn, class sponsor, and the seniors have made ample preparations for a fine entertainment for you and you will not be disappointed.

James Bowlin, manager of the Bowlin Gin, was in Dallas last week, buying more new equipment for the local gin. Already several thousand dollars have been expended for new equipment, which is to be installed this summer, getting ready for a heavy fall ginning season.

Doing their part in the Red Cross drive, Pat Burns, Lemoine Line, Cythia Bazar and Peggy Cummings raised over \$75. The girls maintained a stand one Saturday afternoon in front of Blocker's Grocery and for a while did a 'land office' business

Old Boots as Mail Boxes In Early Days of America

Old boots were the first individual post office mail "boxes" in America, owing to the scarcity of mail and the high cost of wood. Soles of the boots were fastened to the wall and the mail was deposited in the roomy boot legs by the postmaster.

Envelopes weren't used in the United States until 1842. They came from France and for a long time were frowned upon as an affectation. People of "good taste" folded the letter sheet and either fastened the edges with sealing wax, or sewed them together around the outside.

MEDICATED POWDER FOR FAMILY USE Soothe itch of simple rashes by sprinkling on Mexsana, the soothing, medicated powder. Relieves diaper rash.

Admirals may be admirable, but that isn't where the word comes from. It comes from an old Arabic word "amir-al" meaning "commander of." That's what the Admiral is, the top-ranking officer in the Navy. Top-ranking cigarette with our Navy men is Camel—the favorite, too with men in the Army, Marines, and Coast Guard, according to actual sales records from their service stores. Camels are a top-ranking gift, too. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S. and men in the Navy, Marines, and Coast Guard wherever they are. —Adv.

LIGHTER COMPLEXION

Dr. Fred Palmer's Skin Whiter lightens tanned skin and keeps it soft and clear. Use 1-2 days before vacation. Free sample. Send 10¢ postage. General Dept., V. B. Co., Atlanta, Georgia.

Acid Indigestion

Relieved in 5 minutes or double money back. When excess stomach acid causes painful, uncomfortable acid stomach and heartburn, doctors usually prescribe the fastest-acting medicine known for immediate relief—medicines like those in Bell and How's laxative. Bell and How's comes in a 15¢ or 30¢ bottle. Double your money back on return of bottle if you do not get relief.

TOPS FOR YOUR HAIR MOROLINE HAIR TONIC

Partial to Curves The Chinese believe curved lines ward off evil spirits.

SNAPPY FACTS ABOUT RUBBER

Authorities expect that Latin-American countries will contribute 35 to 40 thousand tons of crude rubber during 1944. In 1941 the U. S. and Canada used 800,000 tons of rubber, and current requirements are larger.

The Quartermaster Corps has developed a rubber and canvas Army boot for tropical wear. The sole contains both crude and reclaimed rubber, and is not affected by jungle moisture and soil chemicals.

Over seven billion passengers were transported by motor bus in 1942, compared with about four and a half billion in 1940, reflecting the curtailment of passenger car use by rubber conservation.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for March 26

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

THE SACREDNESS OF LIFE (TEMPERANCE LESSON)

LESSON TEXT: Gen. 1:27, 28; Matt. 12:11, 12; Rom. 14:19-21; I Cor. 6:19, 20.
GOLDEN TEXT: Know ye not that your body is the temple of the Holy Spirit?—I Corinthians 6:19.

A high and ennobling concept of the value of human life is an important element in Christian thought. The Word of God always regards human life as sacred—a gift of God to be used for His glory, never to be exploited for gain or destroyed at will.

This important truth needs constant reiteration in a social order which is so shortsighted and sinful that it will permit the destruction of man through the sale and use of alcoholic beverages. The lesson has a real application to the liquor problem.

I. God Honored Man (Gen. 1:27, 28).

It should be of primary interest and concern to discover what the Maker and Lord thinks of His creation, man. He knows what is in man and if we learn of Him we may come to evaluate man aright.

1. He Made Him in His Own Image (v. 27).

The teaching of Scripture makes it clear that this image was not anything material or physical, but rather a likeness of personality. As God is a personal, moral, intelligent Being, so is man.

How tragic then that man will not only reject that grace, but will subject his God-given personality to the narcotic and destructive influence of alcohol.

2. He Gave Him Power and Authority (v. 28).

This is the very thing man is seeking, and here we learn that the only One who had a right to give it—God Himself—bestowed it upon man.

Having dominion over the entire earth, man is in a place of responsibility, not only for his own moral choices, but for the welfare of others. Think that over as it relates to the ever-growing liquor problem.

II. Man Should Honor Man (Matt. 12:11, 12; Rom. 14:19-21).

Since God has such a high regard for man, it is clear that we ought to have real respect for our fellow man. "Man's inhumanity to man" is often declared to be the world's greatest difficulty. It would not be so if God's Word were obeyed. Man would learn that—

1. He Should Recognize His Fellow Man's Value (Matt. 12:11, 12).

Property values are so well to the front in the thinking of all, that it requires no argument to convince anyone that a sheep that has fallen into a pit should be rescued. But the sad thing is that the man who would run for help to rescue a sheep in that predicament will hardly cast an interested glance at the drunk in the gutter, or lose a few minutes sleep over the girls who are going to hell by way of our countless taverns.

The plain fact is that we do not regard a man as of more value than a sheep. Many a neighborhood has been stirred to angry reprisal over the poisoning of a pet dog, but will let the liquor dealer poison men and women—all for a small license fee.

2. He Should Sacrifice for His Fellow Man's Good (Rom. 14:19-21).

Paul here states a high principle of Christian consideration. He makes clear that man is his brother's keeper and must do nothing which will tempt his brother to do that which will harm him.

III. Man Should Honor Himself (I Cor. 6:19, 20).

Man is told not to think more highly of himself than he ought to think (Rom. 12:3), and that is good counsel. But at the same time he ought to think as highly of his own being as God does. He should recognize that—

1. His Body Is the Temple of the Holy Spirit (v. 19).

The Bible teaches that the moment a man believes in Christ his body becomes the dwelling place of the Holy Spirit. That means that he must never take that body in any place (such as a tavern) to do anything or partake of anything (like intoxicants) which would dishonor the Holy Spirit of God.

2. He Belongs to God (v. 20).

Men have been given a free will by God. He has given them the right of self-determination. That does not abrogate God's right to man's devotion and love.

The fact that we are free to choose should make us the more determined that the right choice should be made—that we shall glorify God in our bodies, which are His.

Does it take even a moment's thought to tell us that the violation of that body (and every bit of scientific evidence proves it to be a violation) by the use of alcohol is not only disobedient, but sinful rebellion against God.

HOUSEHOLD MEMOS... by Lynn Chambers

For Your Dinner—Broiled Chuck Steak (See Recipes Below)

Thrifty Meats

Food budgets require the hands of experts these days so they don't run away with themselves.

Scan the columns of your newspapers and the prices at your butchers and you'll notice many economical cuts of meat that are just packed full of flavor if you cook them properly. It's not at all strange to find favorite foods in your family that are very inexpensive to prepare.

But all of them illustrate one important fact: the cook who prepares the food knows what she's working with and what to do with it to have it at its best.

Make sure that all of your platters look attractive before you set them on the table. We still eat with our eyes first—and what's good to look at will disappear fast!

Save Used Fats!

Did you ever think of spreading chuck steak with grapefruit butter? No? You'll find it tenderizes the meat and gives it delightful flavor:

*Broiled Chuck Steak.

Preheat broiling oven 5 to 10 minutes. Grease broiler rack. Wipe meat with cloth, sprinkle both sides with salt and pepper and spread with grapefruit butter, made by blending grapefruit juice and butter in equal proportions. Place on rack and broil 2 to 3 inches below heat. Sear steak on both sides with high heat, reduce and continue cooking, turning occasionally. For a rare steak 1½ inches thick, allow 12 to 15 minutes per pound. Increase time for medium and well-done steaks.

Save Used Fats!

Pork is low in price and fairly low in point value. It's a go-together with dressing made with apples:

*Pork Chops With Apple Stuffing.

(Serves 6)
6 thick pork chops
1 slice salt pork, diced
½ cup bread crumbs
2 teaspoons finely chopped parsley
3 tart apples, diced
¼ cup chopped celery
¼ cup chopped onion
¼ cup sugar
Salt and pepper

Have pork chops cut 1 to 2 inches thick with a pocket cut from the inside. Fry diced salt pork until crisp, add celery and onion and cook until tender. Add the diced apples and sprinkle with sugar, cover and cook slowly until they are tender and glazed in appearance. Add bread crumbs and season. Stuff pork chops with stuff-

Save Used Fats!

Cut liver into squares and roll in flour, salt and paprika; brown in drippings. Add vegetables and liquids and allow to simmer until vegetables are tender. Transfer cooked meat and vegetables to a baking dish and season with salt and paprika. Make gravy using liquid from cooked meat. Pour gravy over meat. Place crust of biscuit dough on top of mixture and bake in a hot oven until biscuits are done.

If you don't like heart, it's probably because you have never tasted it well seasoned and thoroughly cooked. Try this:

Baked Stuffed Heart.

(Serves 6)
3 to 4-pound beef heart
2 slices bacon
1 cup fine bread crumbs
½ teaspoon poultry seasoning
1 small onion
Salt and pepper
Flour for dredging
Fat for browning

Wash heart and remove enough of center portion to permit stuffing. Dice bacon and fry until crisp. Combine with bread crumbs, diced onion and salt and pepper. Fill cavity of heart with stuffing and fasten with skewers. Roll in flour and brown quickly in hot fat in skillet or heavy kettle. Add beef stock, chicken stock or water. Cover and cook slowly 2 to 2½ hours in a moderate oven until tender. Thicken liquid for gravy, if desired.

Spaghetti and Ham Ring.

(Serves 6)

1 cup spaghetti, uncooked
3 eggs
¼ teaspoon salt
¼ teaspoon pepper
2 teaspoons onion, grated
2 cups ground cooked ham
2 tablespoons shortening
1 teaspoon Worcestershire sauce
½ cup milk

Break spaghetti into small pieces and cook in boiling, salted water until tender. Melt shortening in frying pan and then add ground ham and sear until lightly browned. Beat eggs slightly, add salt and pepper, Worcestershire sauce, grated onion, milk and browned ham and bake in a moderate oven (325 degrees) in a ring mold, for 35 minutes. Turn onto platter, garnish with parsley and fill center with a green vegetable.

Save Used Fats!

Liver With Vegetables.

(Serves 6)

1 pound beef or calves' liver
2 tablespoons drippings
2 tablespoons flour
¼ teaspoon paprika
½ teaspoon salt
2 large potatoes, diced
1 stalk celery, diced
4 carrots, diced
1 onion, chopped
1½ cups tomato juice
½ cup water

Cut liver into squares and roll in flour, salt and paprika; brown in drippings. Add vegetables and liquids and allow to simmer until vegetables are tender. Transfer cooked meat and vegetables to a baking dish and season with salt and paprika. Make gravy using liquid from cooked meat. Pour gravy over meat. Place crust of biscuit dough on top of mixture and bake in a hot oven until biscuits are done.

If you don't like heart, it's probably because you have never tasted it well seasoned and thoroughly cooked. Try this:

Field Seed again, still good, bad and worse, most of them worse. Sauls Feed and Seed Store.

Harvey Line last Saturday ordered The Index-Press sent to Robert and Ivan Line, old home boys who are in service. Robert is stationed at Meade, Md., while Ivan is at Tampa, Fla.

G. W. Burdett was in from Berry Flat Monday. He told us that Spring did not arrive here Tuesday, no matter what the calendar said. George figures out the weather by using a goosebone. For the past week it has been spotted as a guinea egg, which means that spring will be here about the middle of May. Maybe so, maybe so, but I'd rather have a raincrow to use in making my weather calculations.

Well And Windmill Repair

I have established myself in the well and windmill repair business. I solicit and will appreciate a share of your work. Leave word at Phillips Cafe.

H. J. CASTLEBERRY

Earnest Goad has bought from S. R. Schooler a 5-room residence, near Cicero Smith Lumber Co.

Mr. and Mrs. C. B. Morrison and daughter, Lucy, visited in Elida and Portales, N. M., last week-end. At Portales, Saturday evening Mr. Morrison stated that a 3-inch snowfall was encountered.

Douglas Ballew, old home boy with U. S. forces in the South Pacific, has been promoted to Major 1c. Go after 'em kid--the folk back home are backing our O'Donnell boys. Field Seed again, still good, bad and worse, most of them worse. Sauls Feed and Seed Store.

L. L. Busby returned Sunday from a business trip to San Antonio. He left San Antonio in the rain, which continued until he reached Big Spring.

Dr. and Mrs. J. F. Campbell leave this week for Rockport for a several weeks' vacation.

Pvt. J. R. Foster writes his mother from Fort McClellan, Ala., that he is enjoying each copy of the Index-Press. The old home boy is in Uncle Sam's army, and is undergoing intensive training.

Mrs. Aurval Eubanks is visiting friends in Houston.
