WEDNESDAY

THE SNYDER DAILY NEWS

VOL. 20, NO. 238 SNYDER, TEXAS (79549) WEDNESDAY, FEBRUARY 4, 1970 8 PAGES—PRICES 10c

The SDN Column

A lot of people are getting into the business of manufacturing garbage containers for cities of the type now used in many areas of Snyder. This was apparent Monday night when it was disclosed that about a dozen manufacturers expressed interest in a Snyder proposal to purchase 100 additional such containers of two cubic yards capacity each. Eight firms atually submitted bids.

This product may be a comment on the times. There is interest and concern among the public and at all levels of government from cities through the federal level in sanitation in general and pollution of environment specifically.

The City of Snyder, fortunately, already was in compliance with new state garbage disposal regulations which went into effect last summer. Many other cities and towns were less fortunate.

Now, there is indication that more regulations in this field may be expected at the state level, and the feds also are interested.

Actually, the pollution problem is not only nation-wide, but world-wide. It has been determined that pollution in one locality eventually affects other areas, because the sum of thousands of cases of local pollution amounts to tainting of the air and water in far distant regions if it continues unabated.

★ ★ ★

Therefore, it seems logical to assume that additional strict regulations governing the disposal of all types of refuse (including exhaust, smoke, conventional garbage, etc.) may be coming soon. In many cases, local regulations may not get the job done, and in others such regulations may be required on a nation-wide basis. One town might have a dandy set of regulations to prevent air pollution, but if its neighboring towns are lax the effort of the one would be futile.

The biggest problem, of course, is people. As advancements are made in the various fields which affect the standard of living, the people demand more and more. And the production and actual use of the products required to meet these demands contributes to pollution. Meanwhile, man is merely beginning to concern himself with the residue from his standard of living.

— WACIL McNAIR.

Today In History

By THE ASSOCIATED PRESS

Today is Wednesday, Feb. 4, the 35th day of 1970. There are 330 days left in the year.

Today's highlight in history:

On this date in 1789, George Washington was elected the first president of the United States.

On this date:

In 1776, during the American Revolution, American troops occupied New York City.

In 1783, hostilities ended between the United States and England.

In 1861, the confederacy was formed in Montgomery, Ala.

In 1887, the Interstate Commerce Commission was established.

In 1901, a campaign to wipe out yellow fever in Cuba was begun by Maj. William C. Gorgas of the U. S. Army.

In 1948, Ceylon became a free, self-governing dominion of the British empire.

Ten years ago — Soviet First Deputy Premier Anastas I. Mikoyan arrived in Cuba to open a Soviet exhibition.

Five years ago — France's President Charles de Gaulle called for a return to the gold standard in the international monetary system. The United States rejected the idea.

One year ago — Communist China's charge d'affaires in The Netherlands, Liao Ho-shu, arrived in the United States and asked for political asylum.

THE WEATHER

SNYDER TEMPERATURES: High reading Tuesday, 55 degrees; low reading, 32 degrees; reading at 7 a.m. today, 35 degrees.

Northwest Texas: Partly cloudy. Warmer central and south turning cooler extreme north. Fair and a little cooler tonight. Thursday fair and cooler. Low tonight in south 36. High Thursday 42 to 56.

North Central Texas: Fair and warmer. Partly cloudy and turning a little cooler tonight. Thursday fair and cooler. Low tonight 24 to 38. High Thursday 45 to 58.

Northeast Texas: Fair and warmer. Partly cloudy tonight turning cooler. Thursday fair and cooler. Low tonight 30 to 38. High Thursday 48 to 62.

South Central Texas: Fair, increasing cloudiness tonight. Cloudy to partly cloudy Thursday. Mild Thursday. Lowest tonight 40 to 55. Highest Thursday 60 to 72.

Southeast Texas: Fair. Increasing cloudiness tonight. Considerable cloudiness and mild Thursday. Lowest tonight 38 to 52.

Southwest Texas East of the Pecos: Partly cloudy through Thursday. Warmer tonight. Cooler north portion Thursday. Highest Thursday 52 to 65.

Southwest Texas West of the Pecos: Partly cloudy through Thursday. Warmer tonight. Cooler northeast portion Thursday. Lowest tonight 28 to 42. Highest Thursday 52 to 68.

Louisiana: Clear to partly cloudy and warmer through Thursday. Widely scattered showers Thursday. Lowest tonight in the 30s.

TO ALL FEDERAL FACILITIES

Pollution Control Ordered

Three Year Plan Set Up

WASHINGTON (AP) — President Nixon, calling the federal government "one of the nation's worst polluters," today ordered all federal facilities to eliminate air and water pollution.

He set up a $359 million program for the next three years to provide government leadership in the pollution control effort and called for all existing federal facilities to comply with his clear air and water order by Dec. 31, 1972.

Nixon said his order will affect buildings and installations, public works, aircraft and vessels and vehicles and property owned by or constructed or manufactured for the federal government.

Nixon has proclaimed improvement of the nation's environment as a prime priority of the 1970s.

And, he said in a statement issued at the White House today:

"Over the past several years, the federal government has become one of the nation's worst polluters. Clearly the federal government cannot be an effective leader in the battle to save the environment so long as this intolerable situation continues."

In a move he said was aimed at getting the federal government "to sweep its own doorstep clean," Nixon issued an executive order requiring that all federal projects or installations "be designed, operated and maintained so as to conform with air and water quality standards—present and future—which are established under federal legislation."

Russell E. Train, Nixon's newly designated chairman of the Council on Environmental Quality, said that the Department of Defense is the largest single agency of government involved in pollution problems.

Train said, for example, the Military Academy at West Point will need about $3.1 million to improve its now inadequate treatment of sewage that is polluting the Hudson River in New York.

In addition to this latest directive, President Nixon plans to send a message to Congress on his plans for an environmental quality program in the next 10 days, presidential press secretary Ronald L. Ziegler said.

Train said $52 million already is included in the President's budget for fiscal 1971, which begins next July 1, for this project. And the President has directed the Department of Defense to make an additional $40 million available for the program in fiscal 1971 for a total of $92 million, Train said.

Train said this was an effort by the government to "exercise leadership and show the way in maintaining air and water quality" and was providing "the financial muscle for getting the job done."

Nixon is asking his new Council on Environmental Quality to maintain a continuing review. The orders call for compliace with air and water quality standards already set by state and federal agencies.

Hall Makes Plea

AUSTIN (AP) — Sen. Ralph Hall of Rockwall, pleaded with the Texas Supreme Court today to let him challenge Gov. Preston Smith in the May 2 Democratic primary.

If the court refuses, Hall, Smith will have no opposition within his party.

Arguments over Hall's questioned application to run for governor of Texas bagan at 9:53 a.m.

Interest Hint Triggers Wall Street Rally

By JACK LEFLER
AP Business Writer

NEW YORK (AP) — The stock market, starved for an encouraging word, feasted Tuesday on remarks by Treasury Secretary David M. Kennedy indicating that lower interest rates may be just around the corner.

"That happy day may be closer to hand than most people realize," he said in a speech that triggered a rally on Wall Street.

Sluggish until Kennedy's statement reached investors, the market broke loose in heavy trading. The Dow Jones industrial average rocketed from a loss of 3.37 points to a gain of more than 18 and closed ahead 11.02 at 757.46. Volume on the New York Stock Exchange soared to 16.05 million shares.

Kennedy, addressing 300 business executives at a savings bond campaign luncheon, said:

"Once the inflationary psychology is broken and the business community and the public in general begin to look forward to greater stability, interest rates will drop to a more reasonable level and other salutary effects will be felt throughout the economy."

In answer to a later news conference question as to when interest rates would decline, Kennedy said "I don't have a date."

Monetary restrictions have been named by brokers as the main cause of the market's sharp decline in recent months.

Investors, at least initially, seemed to ignore Tuesday some words of caution interlaced among Kennedy's optimistic remarks.

In this vein, he said that for "those who doubt the determination of our anti-inflation effort ... I want to say as strongly as I can that they are badly mistaken. We will continue our policies of restraint until we have restored basic health and stability to the economy."

Strong Earthquake Felt In Mexico

MEXICO CITY (AP) — A strong earthquake, believed centered off the southern coast of Mexico east of Acapulco, shook Mexico City tonight. But police said no damage was reported in the capital or in Acapulco.

The Tacubaya Seismological Station said the quake had a force of 6.3 on the Richter scale. Seismologist Lorehzo Dominguez Durguete added in a communique that the center of the quake was 285 miles southeast of Mexico City, probably off the coast of Oaxaca State.

The quake was felt in Mexico City at 11:09 p.m.—12:09 a.m. Wednesday EST.

NEW COLLEGE'S ARCHITECT — Morris B. Parker of Fort Worth, left, is greeted by M. L. Broman, chairman of the board of trustees of the Scurry County Junior College District. Parker, of Parker-Croston and Associates, was here to enter into a contract with the junior college district to serve as architects for the college.

Architects Employed By College District

Trustees of the Scurry County Junior College District last night employed Parker - Croston Associates of Fort Worth as architects for the college.

The Fort Worth firm is one of 16 which had representatives here for exhaustive interviews over a period of several days, concluding with an 11-hour session last Saturday.

Morris B. Parker, A. I. A., who represented Parker-Croston at a session with the junior college board last night, remained here today to make plans for beginning the firm's services for the district.

Parker-Croston is the firm which designed the south campus of the Tarrant County Junior College.

Naming of the architect was one of a series of steps mapped out earlier by the college board of trustees in its program to open a junior college here in the fall of 1971.

The next major step in the series is the selection of a site for the college. The architects are expected to be of assistance in making that decision, since the type of structures and general layout of the college will have some bearing on the type of site needed.

Over a dozen possible sites have been suggested, or offered for sale, to the college district. The first major requirement was that a site include a minimum of 100 acres.

Project Approved For Highway 350

Expenditure of $636,000 for construction work on Texas Highway 350 in Southwestern Scurry County has been approved for 1971-72 by the Texas Highway Commission.

The Scurry project will extend from the Mitchell County line northeast toward Ira and it calls for widening and reconditioning, grading, structures and surfacing.

Labor Rules Set For Contractors

WASHINGTON (AP) — New regulations will require federal contractors outside the construction industry to set up minority group hiring goals and show they are attempting to fill them.

Labor Secretary George P. Shultz issued the regulations Tuesday, saying they are intended to remedy charges that government standards have been vague in specifying what contractors must do to provide equal employment opportunities.

Sen. Sam J. Ervin Jr., D-N.C., disclosed last month the department had drawn up the regulations which extend the controversial Philadelphia Plan from the construction industry to other companies with 50 or more employes and holding U.S. contracts worth $50,000 or more.

But the department at that time denied Ervin's assertion that the government was scraping the requirement of good-faith efforts by employers in favor of a mandatory quota system for minority hiring.

Under the Philadelphia Plan, which applies to large construction contractors, companies must hire certain percentages of minority workers.

The new regulations will require contractors in other industries to:

—Analyze all major job categories at a facility and explain if minority group members are being under-utilized in any phase of work. The contractor would have to consider minority population of the area, minority workers qualified and available, and such things as training programs in determining what his minority quota should be in each job category.

—Where deficiencies exist and where numbers or percentages are relevant in developing corrective action the contractor shall establish and set forth specific goals and timetables."

—Provide data, charts and rosters to show the progress of his program and status of minority members.

—Give special attention to employing minority workers as officials and managers, professionals, technicians, sales workers, office and clerical employes and skilled craftsmen.

The department said in the announcement a "contractor will not be considered in noncompliance with the order if he makes a good-faith effort to meet his equal employment opportunity obligations."

Transit Bill Faces Trouble In House

By JOE HALL
Associated Press Writer

WASHINGTON (AP) — After a relatively smooth ride through the Senate, a $3.1 billion mass transit subsidy bill may face rougher going in the House as supporters begin the push for final action this session.

The Senate gave the measure overwhelming 83-4 passage Tuesday, bolstering the hopes of sponsors that the House's traditionally less-friendly attitude to such legislation can be overcome.

The House Banking Committee announced the start of public hearing March 2 on the bill. But the real trouble could come in the powerful House Appropriations Committee.

That committee is expected to oppose the contract authority feature of the bill, feeling it amounts to backdoor financing.

But Senate sponsors said the new federal grants and loans proposed under the measure would save many subway systems now on their last legs, make it possible to start new ones in cities across the nation cut traffic congestion, and reduce air pollution.

Originally, supporters hoped for a bigger program, wanting the aid to come through a trust fund as highway spending is financed.

But President Nixon rejected the trust fund idea. This led to a compromise under which the contract authority provision was substituted.

In addition, the total authorization was held to $3.1 billion instead of the $10 billion originally suggested, and strict limits were put on the amounts that actually could be spent in the early years.

Under the compromise, cities could be allowed to let contracts totalling $3.1 billion at once. But only $80 million could be spent in the first year, and a total of $1.86 billion by the end of the fifth year. The remaining $1.24 billion could be paid out in later years.

The federal aid could be used for land, rolling stock and various types of equipment. It would pay two-thirds of the cost of the projects covered.

ON BIRTHDAY — Four survivors of the five girls born to a peasant Mexican couple at this small village of the State of Morelos, shown with their mother Maria Flores de Ortiz on their third birthday Tuesday. One of the babies died shortly after the multiple birth on Feb. 2, 1967. The names of the girls are: Maria Candelaria, Maria de Jesus, Maria de La Luz and Maria Elena. (AP Wirephoto)

Kids can study with noise!

By Abigail Van Buren

(© 1970 by Chicago Tribune-New York News Synd., Inc.)

DEAR ABBY: This is in response to "Generation Gap"—the mother who couldn't understand how her kids could study with all kinds of racket going on around them!

We have become so accustomed to noise that it doesn't distract us. We can "turn it off" in our own minds. I know that I cannot study unless I am tuning out some kind of noise. By the way, I am 16, and a straight A student.

NEEDS NOISE TO STUDY BY

DEAR ABBY: Re the lady who wrote and asked you if you thought her kids could really study with the noise of a television or radio going on: You said, "Send me their grades, and I'll send you my answer."

Well, it's not necessary to send their grades. I am 17 and I do all my homework while I'm watching television or listening to the radio, and I have a 3.4 grade average.

If I tried to study in a quiet place, I would never get my work done because I'd be spending all my time trying to hear what everyone else was doing.

A radio or TV tunes out all that other noise. It works.

I say, let kids study in whatever atmosphere they want to study in. They are old enough to know how they study best.

LIKES NOISE IN MANHATTAN

DEAR ABBY: You had a letter in your column recently from a mother who asked you if you thought a child could really "study" properly with the television going full blast, and the racket of a stereo and radio going on. Your comment interested me. ["Send me his grades and I'll send you an answer."]

I am a high school teacher, and I asked for a show of hands of ALL the students who made it a practice to try to find a "quiet" place in which to study. NOT one of my honor students raised his hand! So maybe the kids of today are able to tune out distractions.

TELLING IT LIKE IT IS

DEAR ABBY: It makes me so mad! Why can't parents understand us children? I saw the letter in your column signed "GENERATION GAP," and all I can say is there sure is a generation gap when it comes to "noise" and how it affects the younger generation as compared to how it affected their parents.

If I don't have some kind of "noise" around me, I can't concentrate on what I'm reading. This is the truth because I have tried to study in silence and I can't do it. I am a high school freshman and make straight A's.

15 IN AUBURN, KY.

DEAR ABBY: Maybe the kids are right. Years ago I lived near the railroad tracks, and I slept like a log every night even tho I could hear that train whistle at all hours.

We moved, and I had a terrible time sleeping. I actually missed the noise of the train!

So, familiar "noise" can sometimes unconsciously give peace of mind and a feeling of security to a person. I say, if the kids want to study in a boiler factory, let them—if they make their grades.

GRANDPA IN DULUTH

DEAR ABBY: My kid is one of those who studies with the television turned up so high it can break your eardrum. He also claims he can "tune out" the noise so it doesn't bother him. So how come when he's talking on the telephone if somebody in the next room says, "boo" he yells, "SHUT UP—I'M TRYING TO TALK ON THE PHONE!"

A PUZZLEMENT IN PHILADELPHIA

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."

State Courts Should Hear School Cases

HOUSTON (AP) — A federal judge said in an opinion Tuesday that the federal courts should get out of the business of high school discipline.

U.S. Dist. Judge James Noel said, "I am convinced that students with claims against local school officials in Texas are not entitled to haul them into federal court to review their actions."

The jurist made the statement in a 26-page opinion handed down Monday in Galveston and filed with the court here Tuesday. He was ruling in the case of Richard Schwartz, 15, the son of state Sen. A. R. "Babe" Schwartz.

Schwartz had sued the Galveston School District, trying to both stay in school and keep his long hair. Judge Noel had previously ruled against Schwartz in an oral opinion last Jan. 16, then followed it up with the written opinion.

"Such claims should be submitted to the appropriate state officials for review," Judge Noel Wrote, "with judicial review, if at all, only in the state courts."

He said federal review of the state court decisions could be made to the U.S. Supreme Court after all state appeals were exhausted.

Mrs. Young Dies Here

Mrs. Frances Elizabeth Young, 80, died at 9:30 p.m. Tuesday in Cogdell Memorial Hospital. She was born Sept. 5, 1889, in Montague County.

The body will lie in repose from 10 a.m. Thursday until service time at 2:30 p.m. in the Bowie First United Methodist Church in Bowie. Dr. John English, pastor of First United Methodist Church, Snyder, will officiate, assisted by the Rev. Jerry Delleney, pastor of the Bowie First United Methodist Church. Burial will be in the Bowie Cemetery, under direction of Bell - Seale Funeral Home.

She married Will Young in 1908 in Bowie. Mr. Young preceded her in death in 1948. She is survived by a daughter, Mrs. Haskell Beard, of Snyder; two sisters, Mrs. A. D. Sheffy, of Dallas, Mrs. Otta Lambert, of Wichita Falls; a brother, James Young, of Roscoe; three grandchildren and one great - grandchild.

Mrs. Young was active in church and civic affairs in Bowie for many years before moving to Snyder three months ago.

ALL-STARS — These Snyder High School musicians were named to the All-Star Stage Band at the third annual Hardin-Simmons University Stage Band Festival last Saturday. The SHS stage band won first place in Division AAA. From left, are Zurn Jenkins, senior, tenor-trombone; Gordon Gray, junior, drums; Willie Riley, senior, trumpet; James Vandiver, junior, electrical bass; and, Orville Schwartz, senior, bass-trombone.

Snyderite In Recital

HUNTSVILLE — Al Lockhart, senior applied music major at Sam Houston State University, was presented in his Junior Recital by the music department recently.

The selections he played were Prelude et' Allegro, Eugene Bozzo; Concerto in One Movement, Lebedeu; Sonata in Bb for String Bass, Vivaldi; Animus I for tape and trombone, Jacob Druckman; To Be or Not to Be, Henri Tomasi; In Memorium, Arthur Premru. He was accompanied by Mrs. Walter Foster. He was assisted on the Tomasi and the Premru by Walter Smith of West Orange, Walter Leyseth of Port Arthur, and Mike Luker. Tom Hollbrooks of Lufkin was electronic technician.

Lockhart received the second standing ovation that has been given at Sam Houston in the last three years.

Lockhart is the son of Mr. and Mrs. Alvis A. Lockhart, 1211 Twenty-eighth Street and a graduate of Snyder High School. He is a student of David L. Waters, bass trombonist with the Houston Symphony.

4 Escapees Picked Up

SAN ANTONIO (AP) — Seven prisoners broke out of the Bexar County jail early today. Officers picked up four of them quickly.

The arrest of two men revealed the jail break. Officers nabbed them because they were wearing white jail clothing with a large "P" for prisoner stenciled on their jackets.

Officers picked up two other escapees later.

Officers said the fugitives apparently removed window covers on the fifth floor of the jail and slid down ropes made from mattress covers.

Police Chief Is Charged In Burglary

SANTA MONICA, Calif. (AP) —A 35-year old former police chief of San Marcos, Tex., was arraigned Tuesday in Santa Monica, Calif., on a first-degree burglary charge.

Wayman Dial, who resigned his post after his arrest, was charged with burglarizing a plush home in Beverly Hills on Jan. 11. He was later charged with burglarizing a San Marcos drug store.

Superior Court Judge Mario L. L. Clinco directed Dial to enter a plea Feb. 16. At that time a trial date probably will be set.

Marvin L. Part was appointed to represent Dial by the judge. Part also represents Carmen Falzone, 27, who was arrested with Dial.

Falzone was arraigned Tuesday morning and entered a plea of innocent.

Dial is being held in the county jail in lieu of $6,250 bail.

GE Contract Is Accepted By Unions

By THE ASSOCIATED PRESS

Members of the two unions that bargain nationally with the General Electric Co. have approved a new contract, ending for them a strike that began Oct. 26. But nine unions that bargain locally still have not come to terms with GE.

The International Union of Electrical Workers, AFL-CIO, and the independent United Electrical Workers announced Tuesday that their membership had accepted the 40-month contract.

The IUE said it would notify GE at noon today that its strike was over and would meet to set up a timetable for return to work. The UE was expected to follow suit.

But IUE and UE members were expected to honor picket lines at plants which employ members of unions still on strike. It was unclear when the first IUE or UE members would return to work and how many would be affected by the strikes of smaller unions.

The pact, announced last Thursday, provides pay increases over 40 months ranging from 61 to 82 cents an hour, depending on the cost-of-living clause. The average hourly pay for GE's 310,000 domestic employes had been $3.25.

Refrigerated vests are being developed in Japan to help welders and shipbuilders bear the long, hot Japanese summer. The vests have pockets for dry ice, which evaporates to produce a cooling effect.

Modern Education Rounds A Corner

CHICAGO (AP) — The corner of a classroom, once dominated by a stool and dunce cap, may soon be taken over by a modern audio-visual educational system.

The unit, which looks like a small table television, contains lessons and tests on special phonograph records and film slides that are designed to meet the individual needs of each student and, at the same time, make it possible for the teacher to conduct a general class program. The unit fits conveniently into a classroom corner.

Borg-Warner Corp. spent five years researching and developing System 80. Initial application of the system will be in elementary schools. More than 2,000 students have participated in testing of System 80 and its material. Last year scientific tests in three Chicago public schools indicated that students using the system learned at a faster pace than others.

Fraternal Charters Are Forfeited

AUSTIN (AP)—The charters of 40 fraternal corporations are being forfeited because the firms failed to report to Secretary of State Martin Dies Jr.

Dies said Tuesday that the corporations, mostly in the Houston-Galveston area, may have been formed to evade liquor regulation and taxes.

A flood of applications for charters came into his office in mid-1969, Dies said.

Firemen Called

City Firemen answered a call to a grass fire at 4:40 p.m. Tuesday at Twenty-ninth Street and Avenue C.

ONLY THE STRONG ARE HEARD!

Join Farm Bureau and work to promote your investment in agriculture. Farm Bureau has 116,622 members in Texas and 1,865,854 in the U.S. – and still growing!

FARM BUREAU WORKS FOR AGRICULTURE THRU–

- LEGISLATION — effective representation in Austin and Washington.
- MARKETING — developing new markets at home and abroad.
- ECONOMIC SERVICES — complete insurance protection, prepaid medical care, plus savings on tires and batteries.
- YOUTH PROGRAMS — citizenship training, talent find, discussion meet, queen contests and action program for young adults.
- LOCAL AFFAIRS — voice in county government, schools, crop and livestock improvement, safety projects, etc.

JOIN THE SCURRY COUNTY FARM BUREAU

Fluvannan Heads Young Farmers

FLUVANNA — Active in many aspects of farm and community life, James E. Beaver, newly-elected president of the Young Farmers of Texas, will represent the state of Texas at the California Convention in Santa Maria, Calif. Feb. 5-7. Beaver, a resident of Fluvanna, is a charter member of that West Texas group which organized in 1963.

Beaver was installed as state president on Jan. 17 at the annual state convention held in Galveston and will serve for one year. He leads the 16-year-old organization of 4,000 members whose aim is to aid the progress of the agricultural industry in the state.

He first served his local group as secretary and later as president at Fluvanna. He was elected secretary of Area II and last year served the state organization as vice-president.

A lifelong resident of Fluvanna, Beaver graduated from Texas Technological University, is married and has two children. He is active in the Fluvanna Methodist Church, a trustee and secretary of the Fluvanna School Board, and also serves on the Board of Directors of the Scurry County Farm Bureau.

In line with his duties with the Young Farmers, Beaver attended the National Educational Institute of Young Farmers held in December at Lancaster, Pennsylvania.

JAMES BEAVER

Plea Is Entered

William Howard Jones of Midland pleaded guilty in county court this morning to a charge of driving while intoxicated and received a $100 fine plus court costs and a 30-day jail term. The jail term portion of the sentence was probated for one year.

He was arrested Dec. 13 by Sheriff's Authorities and by Highway Patrolmen.

The first railway car from the Pacific Coast reached New York City July 24, 1870.

ANNUAL STATEMENT OF PERPETUAL CARE FUND

For Year Ending December 31, 1969

Of Hillside Memorial Gardens, Inc.

3101 Avenue S, Snyder, Texas 79549

1. Name of Trust Company or Bank with trust powers holding Perpetual Care Fund, or, if no Trust Company or Bank, names of Trustees holding Perpetual Care Fund:
   San Angelo National Bank, San Angelo, Texas
2. Filing Fee (Fee must accompany this report.)
   For cemetery serving city with population of 25,000 or less ..... $ 25.00
3. (a) Detailed sworn statement of Perpetual Care Funds held in Bank or Trust Company or Trustees is attached to and made a part hereof, total of which is: 77,455.75 @ 20c, 8,358.75 @ 50c
   Principal amount $21,113.40
   (b) Total amount of Perpetual Care Fund not yet collected on term sale contracts but allocated for Perpetual Care, now in process of collection and to be paid to Trustee as collected according to trust agreement 607.50 @ 20c, 3,678.75 @ 50c
   $ 2,233.88
   Does trust agreement provide for ——% of sale price or, minimum per square foot grave space, crypt or niche as provided by law?
   Percentage some 10% Minimum, some 20c sq. ft. some 50c sq. ft.
   Does trust agreement provide for:
   Perpetual Care Reserve to be collected from ——— percent of installment collections ——— or last money collected on each contract (x)?
   Has all money collected on term contracts and allocated to Perpetual Care Trust Fund been paid to Trustee? (Yes)
   (c) Total Principal of Perpetual Care Funds (Add "a" and "b") 90,100.75 Sq. Ft. $23,347.28
4. (a) Subsequent to 3-15-34 to 8-23-63 at 20c per sq. ft. 78,063.25 $15,491.15
   Subsequent to 8-23-63 to date of this report of 50c per sq. ft. $12,037.50 $ 4,175.03

(b) Number of crypts disposed of under Perpetual Care	Number	Minimum Requirements for Perpetual Care	Required Total
Subsequent to 3-15-34 to 8-23-63	18	15.00 each	$ 270.00
		TOTAL	$ 270.00

(d) Total requirements for all sales made under Perpetual Care $19,936.18
Amount placed in Perpetual Care Fund is (Excessive) of amount required by Law (Excess $ 3,411.10

6. Have the requirements of Section 16 of the Cemetery Code pertaining to sign, and statement on certificate of ownership and contract been complied with?
   Yes x No

FARAWAY PLACES — In her trips to remote corners of the world for the television program, "Discovery," Virgina Gibson ordinarily travels by plane. But sometimes on location her mode of travel is a bit more primitive, as is this sampan in Hong Kong, where she is shown with a widow and six children who spend their lives on the river.

Heights Frighten Virginia Gibson

By JOY STILLEY
AP Newsfeatures Writer

NEW YORK (AP) — Hanging halfway out of a ski lift in the chill air of the Swiss Alps and smiling for the cameras while trying to remember lines would be difficult for anyone. For television personality Virginia Gibson, it presents special problems—she's afraid of heights.

But it's all in her day's work. As co-host with Bill Owen of "Discovery," an ABC-TV young people's program, she has traveled to out-of-the-way places all over the world.

"When you go as a tourist it's one thing, but it's another thing to climb the pyramids in Mexico all dressed up for filming and carrying makeup cases," Miss Gibson says.

"But the shows in the cold are the worst. You have to stand still in one spot while they are hiding the microphone cables and it's hard to talk when you're shivering."

The strawberry blonde, whose derring-do in the line of duty belies her fragile appearance, especially remembers the cold she endured on her two trips to Moscow. The first time the crew filmed two Russian children, showing how they were being educated. Later they returned to follow the lives of two youngsters in the American Embassy, depicting their relationship with Russian children.

"The kids in Russia were fascinated by skyscrapers," Miss Gibson recalls. "In fact, kids everywhere always want to know if I live in a tall building." She does—on the 17th floor of a Manhattan apartment house.

"Nowadays youngsters are so much alike all over," she adds. "I remember a boy about 16 we showed in a Swedish glass factory. He had long hair and the medallions and looked exactly like an American boy."

Some of the young people she has come in contact with, however, are quite different from the typical American youngster—such as the Amish children spotlighted on a recent program and those in Hong Kong who have spent their entire lives on water, living in a sampan.

In the process of pursuing the unusual, the 5-foot-3, 107-pound Miss Gibson has ridden an elephant in the teak forests of Thailand and picked her way in the middle of the night through produce cases jamming New York's Hunt's Point wholesale market to chronicle the frantic predawn activity there.

She and Owen do 10 shows together as co-commentators and then each does three individually. "Bill is much better at animal shows. I'm not afraid to hold a snake, but those furry little things—I'm afraid I'll drop them," she says, her blue eyes narrowing in distaste.

She still bears a scratch on her hand, battle scar from an encounter with a nonhuman participant in a marine show. "It was a huge elephant seal named Pedro," she explains. "One of his tricks was to shake hands. I think he knew the trick all right, but I didn't. I messed things up by drawing my hand back."

Each week's show is different and variety appears to be the key to Miss Gibson's life. She has been a dancer, actress, singer, movie starlet, performer in summer stock and model for television commercials.

She studied dancing as a child in her native St. Louis. "But," she points out, "I realized there are few solo dancing parts and otherwise I'd have to be in the chorus all the time, so I started studying acting."

She succeeded in getting to New York and on Broadway, where her appearance in George Abbott's musical, "Look Ma, I'm Dancing" won her a contract as a Warner Bros. starlet and a few years in Hollywood.

"I was in several terrible movies that still haunt me on the late show," she laughs. She switched to MGM studios and appeared in a number of other films, including "Seven Brides for Seven Brothers."

The actress returned to New York in 1956 to play Ethel Merman's daughter in "Happy Hunting" and was featured singer on the "Hit Parade" TV show during the 1957-58 season.

She has appeared on the award-winning "Discovery" since it started in 1962. On the go about six months of the year, Miss Gibson has become an instant packer and travels light, even though often she must take clothes for two climate extremes on one trip, as when she went from Thailand's 100-degree heat to frigid Finland.

On the return trips her luggage is made a bit heavier by souvenirs. "I have a closet full of rugs," she admits. "I see these great rugs and buy them. I get them home and they don't match anything so I hide them in the closet. My friends tell me I should hold an auction sale."

Despite her extensive travels, which include the remotest corners of Africa, Miss Gibson says ruefully that she's never been to England and hopes to get there some day.

"But not on vacation," she declares emphatically. "My idea of the perfect vacation is to stay home."

Hermleigh Spanish Club Has Sessions

HERMLEIGH — The Hermleigh Spanish Club has held meetings each month since October, including two in December.

The club's money raising project, selling food at basketball games, was planned at the November meeting, and one of the December meetings was the club's Christmas party.

Spanish Club members who attended these meetings include Anita and Aurora Herrera, David and Amelia Pena, Benita and Rosa Rodriguez, Arnold Del Toro, Mary Hudgins, Susan Peterson, Jane Taylor, George Parkinson, Ninfa Sosa, Jimmy McMillan and the sponsor, Mrs. Soules.

When a recipe directs you to "brown" ground meat in a little fat, cook until the meat loses its red color; don't expect the meat to become a rich dark brown.

Good Dinner

You can broil chicken without adding fat.

Rowena Kley's Bamboo Chicken
Rice Snap Beans
Salad Bowl
Melon Balls Beverage

ROWENA KLEY'S BAMBOO CHICKEN

1 broiler-fryer (2½ to 3 pounds), cut up
1 cup orange juice
2 tablespoons honey
4 tablespoons American-type soy sauce
1 clove garlic, peeled and halved

Remove rack from broiler pan or very shallow roasting pan; line with foil. Arrange chicken in pan, skin side down. Boil on a low rack, 10 to 12 inches from high heat, until browned—20 to 30 minutes. (If it not possible to position chicken far from heat, lower heat so chicken browns in given time.) Turn chicken skin side up; continue to broil until browned and tender—20 to 30 minutes.

Meanwhile into an eight-inch skillet turn the orange juice, honey, soy sauce and garlic. Bring to a boil. Let bubble gently until reduced to a glaze (to about one-third cup)—20 minutes; remove garlic. Using tongs, dip broiled chicken pieces, one at a time, in glaze; turn to coat both sides; glaze will adhere; spoon any small amount of extra glaze over chicken. Serve at once. Makes four servings.

Note: Have butcher cut chicken so there are two wings, two pieces of breast meat, two legs, two second joints and two to four pieces of bony back.

SPRING QUIZ COIFFURE — This Spring Quiz Coiffure is a fun style of bouncing, squiggly curls that descend from a hairpiece at the crown. It is one of the "Question Mark" hair fashions that will be shown throughout the country during National Beauty Salon Week, Feb. 8-14.

Heavy Price Exacted By City Life

LIFE IN A MIDIEVAL CITY. By Joseph and Frances Gies.

The city always has been the seat of civilization, and always it has exacted a heavy price from its citizens — at least the great majority of the non-rich.

That was true of 18th century London and 17th century Paris, and it was equally true of the medieval cities that recreated urban life after that disastrous rural interval, the Dark ages.

Troyes in 1250 was representative of the rising municipalities of northern Europe. It had some 20,000 inhabitants, was the site of two important fairs, and prospered under a relatively enlightened rule.

Behind its walls, it was also overcrowded, subject to recurring epidemics and conflagrations; pollution was widespread, sanitation non - existent. The poor lived in hovels in the "inner city," marked in Troyes by the old Roman wall, and they lived cheek by jowl with wealthy burghers, officials and nobles.

"Welfare" was a matter for the church and individual conscience. Those unable to find work subsisted on alms — from the rich men's tables, the churches, pittances on feast days and at funerals. In good times these sufficed to keep skin and bones ambulatory; in times of famine, they didn't.

But business and commerce were brisk, with guilds supervising craftsmanship of a high order; the craftsman was merchant and manufacturer in one, and still wedded to the product of his labor.

It was a dense and tolerable life, and authors Gies provide a rich, accurate, and readable account. There are excellent illustrations.

Know the difference between dicing, mincing and cubing? Dicing means to cut into small squares that are from ¼ to ½ inch. Mincing means to cut as small as possible. Cubing means to cut into pieces that are ½ inch or larger.

SOMETHING NEW CAN BE ADDED!

IN PROPOSED BUDGET

Defense Funds Diverted To Human Resource Programs

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — President Nixon's proposed budget represents the serious beginnings of an effort to rechannel American energies into improving the domestic environment, rather than simply defending it with arms.

Such a shift in thinking was bound to develop. It had become too obvious to Americans that while they were spending more and more millions to defend their way of life, that life was deteriorating badly.

The Nixon budget says, in effect, that while crime, pollution and the defects in welfare are brought about by deep ailments in society, the start toward correcting them can begin with the diversion of funds from defense.

It will be the first time in 20 years, the President said, that the federal government will spend more on human resource programs than on defense. If it works out, that spending will be 41 cents of each tax dollar for human resources and 36 cents for defense.

The curtailing of defense spending is viewed also as part of the battle against inflation. By restraining such spending, it is assumed that pressures on prices will be made throughout a large area of the economy.

There appears to be a weakness in the battle plan, however, for the President is attempting to shift the course of the nation, to begin new efforts, while unfinished business remains.

The main unfinished business, of course, is Vietnam. The President declined to estimate the cost of the war during the fiscal year and thus suggests that his budget surplus is precariously balanced and uncertain.

An escalation of the war could eliminate the anticipated $1.3 billion surplus. But perhaps a further slowdown of military activities could provide him with a larger surplus.

Another bit of unfinished business is inflation.

If the dollar's value continues to erode, the President, like other Americans, is going to find his budgeted funds won't stretch as far as he had hoped.

The current seige of inflation apparently has made the President feel that good housing, a requirement of any program to improve the quality of life, must be postponed.

The reasoning for such an attitude is based on the assumption that the recession in the housing industry is the result mainly of high money costs and that the industry cannot recover until these costs come down.

In the Nixon view, however, money prices aren't going to fall until inroads are made against inflation: by balancing the federal budget and reducing the federal government's need for competing in the money markets.

In fact, the need to control inflation is denying the administration the energy it needs for any vigorous reordering of priorities. It is a shift of thinking but is only the beginning of the reordering.

Junior Editors Quiz on RADIOMETER

QUESTION: *How does one use a radiometer?*

* * *

ANSWER: First, what is a radiometer? In our picture, Professor Daniel Flynn, physics expert, is showing such an instrument to two young friends whose knowledge of physics is more enthusiastic than expert. "A radiometer," says our professor, "is used to measure intensity of radiant energy. You all know such energy comes from the sun, so I've set the radiometer on this table out in the garden. All but a very little of the air has been taken out of that glass bulb. The little vanes inside are painted black on one side, silver on the other. The black sides of the vanes become heated because black absorbs heat. Phyllis said the vanes turn because the molecules are "having fun" — well, in fact, the few air molecules in the globe take energy from the heated black vanes, then recoil, pushing against the black vanes and turning the vanes around. The speed of movement shows the intensity of energy, thus giving radiometers great value in measuring heat coming from a distance — say, the planets of our solar system.

2-4

(Jeff Mullowney of Tyler, Texas, wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Some Things Never Change

By HAL BOYLE

NEW YORK (AP) — Our lives are swept by winds of change.

As soon as we get accustomed to a new thing, it is replaced by something newer. We can't go home again, because if we do we find the old home has been torn down, so that some stranger can erect an apartment building or a glorified hamburger stand on its site.

All this incessant change baffles us, confuses us, makes us nervous. We seek the security of an anchor to cling to, something changeless and true, something impervious to time.

"Isn't there anything we can count on to stay the same?" we ask ourselves desperately. Why, of course, there is. There are lots of things you can depend on.

Such as:

A shoestring will never break except when you are in a hurry.

The strawberries in the bottom of a box you buy at a fruitstand will be greener than those on the top.

No matter how mean a letter you write to your congressman, you'll always get a soothing letter back.

Any clock in a hotel lobby will be from three to five minutes late.

No matter how many closets they build in an apartment, they'll still be one fewer than a woman needs.

A dog will always wag his tail when you feed him, even though what you put before him is the kind of stuff he doesn't think is fit even for a human being.

April showers will bring May flowers.

It'll rain within 48 hours after you give your car a polishing.

The teen-agers in your life will worry more about getting pimples than getting into a good college.

Somewhere along the way some kind of disaster will happen to some of your possessions that isn't covered by insurance.

During middle age you can be sure you'll have at least one illness for which you'll have to go to the hospital.

There'll always be some kind of war in some part of the world.

Despite the fad for new names for babies, Johns and Marys will still outnumber Christophers and Kims.

The cost of living will never be what it was in the good old days.

Feminine skirts and the stock market will go up and down, down and up.

Yes, despite the chaos in our changing lives, some things never change. But that isn't altogether consoling either, is it? Many we wish would.

Competition Is Stiff

MEXICO CITY (AP) — An official of the organizing committee of the second Latin Song Festival said he expects a tough battle among 10 or 12 countries for top places festival.

Twenty-five Latin American and European countries will be represented by 100 songs and 50 singers in the convention here March 10-14.

Three panels will select the best son from each of the 20 Americans and five European countries after four nights of competition. The 25 will compete in the final round on the fifth night.

Prizes will be awarded to the seven artists who interpret the songs receiving the most votes in the final round. The best male and female vocalist, lyricist, composer and musical arrangement will also receive awards.

Also to be named are a "guest of honor" and the most popular artist, as determined by sales of records including at least one song from last year's festival.

The festival will be broadcast by live color television in Mexico and videotapes will be made for distribution in other countries.

Florida's Suwannee River is 250 miles long.

Little Anti-Litterer

STREATOR, Ill. (AP) — Tina Marie Saxton, 8, a shy, blond second-grader, was picked from among some 60,000 students as winner of the first national "anti-litter-letter" contest, a competition judged by "Laugh-In" comedian Henry Gibson and sponsored by the U.S. Glass Container Manufacturers.

Tina's winning entry, firmly penciled across blue-ruled paper in large block letters, said: "I think everybody should clean up America just like my mother cleans house. We don't throw litter on our floors at home," she pointed out, "so we shouldn't throw it on the ground, as that is America's floor."

A trip to California for Tina and her mother, Mrs. Linda Saxton, was first prize in the contest.

Bengals Bomb Old S'water Town 84-48; Kittens Win

SWEETWATER — Snyder's Tigers, moving a step nearer a district basketball tournament berth, waxed Sweetwater's Mustangs 84-48 here Tuesday night after the junior varsity Kittens whipped the Ponies 84-51.

Neither tilt was much of a contest. Snyder started off slowly in a varsity clash, holding only a 16-13 lead after one quarter, but a 22-13 edge in the second period put the Bengals definitely in command and a 20-6 margin in the third quarter put the Mustangs on the ropes. A closing edge of 26-16 turned the contest into a rout.

Snyder held the edge in every way one could think of, outshooting the hosts 48 per cent to 30 per cent from the field and outrebounding them, 55 to 25. The Tigers also committed fewer mistakes and took four of five jump balls.

Every Bengal on the roster got into the game, and all of the boys scored. However, only three hit in double figures — Wesley Bishop with 16 points, Bruce Almond with 15 and Jim Patrick with 14. Lee McNair, weakened by the flu, saw limited action, but he almost hit the twin figure column, getting nine points. Other Snyder scorers: Jeff Stewart 8, Bid Cooper 7, Ronald Ward 6, Dennis Breedlove and Glen Rambin 4 each, and Ronal Gladson 1. For Sweetwater, Rick Rhodes and Ralph Henderson were high point men with 18 and 11 points respectively.

Jim Patrick was outstanding under the boards for Snyder. The tough senior grabbed 15 rebounds. Bishop collected eight, and Stewart latched onto seven.

Surprisingly enough, the JV tilt was relatively close for two periods with the Kittens holding only a 31-23 lead at halftime. However, Ronnie Morse, Sammy Baker, Dub Preston and David Thompson began to zero in on the basket in the third quarter and collected 31 points while holding the Ponies to 11. The issue was never in doubt after that.

All four of the previously mentioned lads hit in twin figures with Preston netting 28 to capture scoring laurels. Morse netted 16, Thompson dunked in 14 and Baker collected 12. Jackie Murray, who hit a fantastic 10 points in the last quarter, also finished the night with 12 total. Spalding canned 23 points for the Ponies while Scott and Long each roped 10.

The Tigers have an open date Friday, then host Colorado City the following Tuesday.

Elsewhere in the league last night, Lamesa pasted Colorado City 78-66 in the South Zone while Lake View dropped an 86-74 decision to Big Spring in a non-district clash and Dunbar beat Brownfield 63-56, Estacado bested Littlefield 64-47, and Levelland smashed Slaton 71-59 in the North Zone.

SNYDER (84)	FG	FT	PF	TP
Almond	4	7	3	15
Bishop	7	2	1	16
Breedlove	1	0	1	4
Cooper	2	3	1	7
Gladson	0	1	1	1

Bears Slip Past Methodists 83-81

By THE ASSOCIATED PRESS

Baylor head basketball coach Bill Menefee took this one lying down and he's just as happy that he did.

With Menefee in bed with the flu, it was left to assistant coach Carroll Dawson to direct the Bears to a cliff-hanging 83-81 overtime victory over scary Southern Methodist in the highlight of Southwest Conference basketball action Tuesday night.

"It was thrilling but it certainly was a funny feeling," said Dawson, who guided the Bears from a 10-point deficit in the second half to a 74-74 tie at the end of the game.

"When we got down by 10, I really started looking around (for Menefee)," Dawson said. "But then we started pressing and caught up with them."

In other games on Tuesday's full slate, the shocking TCU Frogs slammed Texas 80-55; Texas Tech bombed defending SWC champion Texas A&M 84-66 and Rice downed Arkansas 76-69.

Larry Gatewood, who led Baylor with 29 points, sank a pair of free throws with five seconds left in the overtime to seal Baylor's victory.

The Bears and TCU now are tied for the lead with 5-1 records, followed by Rice with 4-2.

The Bears won it at the free throw circle hitting 23 of 26 attempts to 19 of 25 for SMU. It was a real shootout from the field with Baylor hitting 52.6 per cent and SMU connecting 50 per cent of the time.

Texas Tech evened its SWC record at 3-3 in a sometimes tense battle against the Aggies in a game where three technical fouls were called.

Tech, hitting at a 58 per cent clip from the floor, downed the Aggies with a balanced scoring attack led by Greg Lowrey with 23 points. Three other Raiders hit in double figures.

TCU capitalized on frigid shooting by the Texas Longhorns to win their fifth league game in six outings after getting off to a slow start this season. The Frogs still are only 7-9 for the season.

The Longhorns, now 3-3 in the SWC race and 8-7 for the year, hit only 26.4 per cent from the field. Jeff Harp led TCU in scoring with 19 points and Eric Groscurth had 10 points to lead Texas.

Gary Reist scored 31 points to lead Rice to victory and keep the Owls in third place in the SWC standings with a 4-2 record. Rice hit 61 per cent of its shots from the field in the first half for a 43-37 bulge.

But Arkansas, now 2-14 for the year and 0-6 in the SWC, fought back and led twice during the second half before Rice sewed it up.

Debbie In Limelight

SACRAMENTO, Calif. (AP) — Debbie Meyer, the world's reigning swim queen, was honored Tuesday night with a silver trophy representing her selection as Female Athlete of the Year, as chosen in the Associated Press' 39th annual poll.

Miss Meyer, 17, a senior at a suburban Sacramento high school, won three gold medals at the 1968 Olympic Games in Mexico City and continued to win swim honors last year.

"I want to thank everyone who's helped me achieve this award," the blonde teen-ager told a dinner audience of 400.

Debbie, 17, received the trophy from George Zaharias, the former champion wrestler, who presents it yearly in memory of his late wife, Babe Didrickson Zaharias.

Zaharias urged Debbie to go to the 1972 Olympic Games in Germany, and then "come back and let me give this trophy to you again."

Debbie replied she definitely plans to aim for more gold medals in the 1972 Olympics at Munich, Germany.

Telegrams of congratulation came from President Nixon, Health, Education and Welfare Secretary Robert H. Finch and Gov. Reagan and Peggy Fleming, the 1968 award winner in a close ballot count over Debbie.

Wisconsin Blasts Illini Out Of Lead

By HERSCHEL NISSENSON
Associated Press Sports Writer

Illinois had a lid on its basket Tuesday night. Rhode Island could have used one on its roof.

The Illini managed only four points over a 9½-minute stretch of the second half, blew a 10-point lead, lost to Wisconsin 66-65 on Al Henry's basket with two seconds left and dropped out of the Big Ten lead when Iowa trimmed Minnesota 90-77.

At Kingston, R.I., meanwhile, the URI-St. John's game was halted with 13:16 remaining and the visitors from New York leading 55-40 when the top of a roof vent blew off and heavy rain soaked the floor. The game was to be resumed at 1 p.m., EST, today.

Besides 14th-ranked Illinois and 20th-ranked Iowa, three other Top Twenty teams in The Associated Press poll saw action.

Fourth-ranked St. Bonaventure set a school scoring record by crushing Belmont Abbey 131-64; North Carolina, No. 7, minus two injured regulars, got by Atlantic Coast Conference rival Virginia 87-72 and No. 15 Davidson blew most of an 18-point lead before downing William & Mary 93-87 in Southern Conference play.

Illinois, which had won its previous five Big Ten games, led Wicsonsin all the way and had a 65-61 advantage with less than two minutes to go before Clarence Sherrod, the game's high schorer with 21 points, made three free throws—one a technical foul—to close the gap.

With eight seconds left, Rick Howat, Illinois' top foul shooter, missed the first of a one-and-one free throw. Wisconsin grabbed the rebound, called time out and set up Henry's winning basket.

Iowa, meanwhile, found itself trailing Minnesota 59-57 in the second half. The Hawkeyes then put on a surge that carried them to an 18-point bulge and insured them of a 5-0 league record. John Johnson took scoring honors with 33 points while Eric Hill had 29 for Minnesota.

Elsewhere in the Big Ten, Rick Mount connected on 16 of 25 floor shots, scored 41 points and gunned Purdue past Michigan State 105-86 and Indiana edged Northwestern 80-78.

St. Bonaventure cleared its bench in the first half against Belmont Abbey in rolling to a 64-30 lead. Bob Lanier scored 28 points and Matt Gantt 23 as the Bonnies upped their record to 14-1.

Charlie Scott popped in 30 points and Dennis Wuycik added Virginia. The Tar Heels played without center Lee Dedmon and forward Bill Chamberlain. Virginia, sparked by Chip Case'r 28 points and Bill Gerry's 18, kept things close until the final minutes.

Baylor and Texas Christian remained tied for the Southwest Conference lead. The Bears nipped Southern Methodist 83-81 in overtime and the Horned Frogs ran away from Texas 80-55. Texas Tech trounced Texas A&M 84-66 and Rice beat Arkansas 76-69 in other SWC games.

Army, the nation's No. 1 defensive team, turned back Rutgers 61-52.

Little All-American John Rinka, a 5-foot-9 sharpshooter, racked up 42 points in Kenyon's 112-100 loss to Muskingum and became the eighth collegian to pass the 3,000-point mark. He has 3,012.

Louisiana State's Pete Maravich reached 3,036 a night earlier, the first major college player to reach 3,000.

Clause Suit Is Delayed

NEW YORK (AP) — Federal Judge Irving Cooper, likening himself to an umpire, has given attorneys of both sides 20 days to file additional papers in the suit against baseball by Curt Flood.

Judge Cooper heard arguments Tuesday in U.S. District Court concerning Flood's request that baseball be enjoined from preventing him to act as a free agent.

Flood, a $90,000-a-year outfielder, contesting his trade by the St. Louis Cardinals to the Philadelphia Phillies, contends baseball's reserve clause violates anti-trust laws. The reserve clause binds a player to one team until he is traded or sold.

Judge Cooper compared himself to an umpire who "calls them as he sees them."

"That I shall do," he said. "You've thrown the ball to me—I hope I don't muff it."

Arthur J. Goldberg, a former Supreme Court associate justice and former ambassador to the United Nations, who is representing Flood, told the court:

"Flood decided he cannot play under an illegal system—and I agree. He is not willing to be sold into servitude.

"Football operates under anti-trust laws and seems to be doing pretty well."

Atty. Mark F. Hughes, representing the major leagues, and Paul Porter, counsel for the baseball commissioner, denied there was any violation of anti-trust laws.

The U.S. Supreme Court, in two previous decisions, upheld baseball on the grounds it was a sport and not inter-state commerce.

Buffs Take Two From Westbrook

FLUVANNA — Despite the individual heroics of Westbrook's Bo Jackson, the host Buffaloes roared to a 98-86 victory in a District 10-B clash here last night after winning the girls contest 45-29.

Joe Turner, Alex Ynguanzo and Larry Patterson paced the Fluvanna attack. Joe scored 28 points, Alex netted 23, and Larry tallied 21. Gill also was in double figures for the Buffs, getting 10 points.

For Westbrook, Ritchey added 11 to go with Bo's 44.

Fluvanna took a 51-29 lead in the first half and withstood a Wildcat rally in the second half.

The girl's game was all Fluvanna as Gwen Stansell meshed 16 points to lead the attack. Roxann Moore posted 12 for Westbrook.

WESTBROOK (86) — Jackson 20-4-44; Ritchey 4-3-11; Matlock 3-2-8; Denson 0-5-3; Rich 3-0-6; Reyes 2-0-4; Anderson 4-2-10; totals 36-14-86.

FLUVANNA (98) — Turner 13-2-28; Patterson 8-5-21; Gill 7-4-18; Bilano 2-3-7; Ynguanzo 10-2-23; Landrum 0-1-1; totals 40-18-98.

Panthers Bitten Twice By Hornets

HIGHLAND — The Hornets stung Hobbs' Panthers twice here Tuesday night in District 10-B basketball with the girls winning 73-53 and the boys taking a 75-66 decision.

The Hornets built a steady lead throughout the first two periods and led 43-32 at halftime. Hobbs was able to gain but little ground in the second half.

Joe Brazil and David Allen pitched in 23 and 20 points respectively to lead Highland while Ricky Williams and Lorin Pearce paced Hobbs with 22 and 18 points respectively.

Highland received a 31 point performance from Cathy Wright in the girls contest while Jan Dooley netted 28 for the Panthers.

HOBBS (66) — Williams 8-6-22; Hale 6-2-14; Pearce 9-0-18; Dooley 0-1-1; Hull 4-1-9; Aguilar 1-0-2; totals 28-10-66.

HIGHLAND (75) — Brazil 7-9-23; Womble 4-4-12; Allen 9-2-20; Alexander 4-2-10; Campbell 0-1-1; G. Krejci 3-0-6; L. Krejci 1-1-3; totals 28-19-75.

FCA MEETING SET TUESDAY

The Snyder Chapter, Fellowship of Christian Athletes, will meet at 7 a.m. Thursday at the Steak House to review plans for the Weekend of Champions to be held here Feb. 13-15, according to an announcement by Les Francis, president.

All members were urged to attend.

Jon Shuns Yank Scouts

SAN ANTONIO (AP)—A former local high school baseball player has chosen school at Ranger, Tex., Junior College instead of spring training with the New York Yankees.

Jon Mercado, 18, said he still plans to sign with New York—but not before the Ranger season is over.

The Yankees picked him in the second round of the professional baseball draft. They have six months to sign him.

Ranger head coach Jack Allen said Mercado will be able to play with Ranger this spring and it was felt this would give him more experience than spring training with the Yankees.

Mercado, a switch hitter who plays both first and third base, is a former Jefferson High School player here.

Tostao Will Play Again

HOUSTON, Tex. (AP) — "The doctors have done their part. Now I must do what I know how to do, and that is to score," a happy Tostao said after learning he will be able to play soccer again.

Eduardo Goncalves Andrade, 23, better known to fans the world over as Tostao, was told Tuesday after a 2½-hour examination that an operation to correct a torn retina in his left eye was a success.

Dr. Alberto Moura, an internationally known eye surgeon from Brazil now practicing in Houston, performed the operation here last October.

Tostao, holding up a hand in the "V" for victory sign, told reporters he'll play in the world cup matches in Mexico City next June with his Brazilian teammates.

An examination Tuesday ended months of uncertainty, months when the world star thought he might never play again.

Ira Girls Sack Up District 10-B Title

Ira's Bulldogs have found a second home. They met Hermleigh's Cardinals in the Scurry County Coliseum last night and the result was the same as the first time — an Ira victory.

The Ira girls socked the Cards 54-49 to win the District 10-B championship and the boys bested Hermleigh 69-56 to stay in the running for the crown.

The Bulldog boys jumped into an early lead, taking as much as a 20 point margin by halftime, but the Cardinals began to close the gap in the third period. However, the Ira lead was simply too much to overcome as the Bulldogs cashed in on the shooting of Ricky Hester and Joe Williams. Hester netted 24 points and Williams found the range on 21. Ricky Cox added 11.

Randy Roemisch sparked Hermleigh with 16 points while Ward and Peterson contributed 13 and 11 points respectively.

That girls game was close from start to finish, and it was fitting that such a spirited contest should result in the crowning of a champion. Ira trailed 8-10 after one period but took over, 24-23, at halftime. The Bulldogs managed to boost the count to 37-30 in the third period and Hermleigh couldn't overcome the deficit in the last quarter, although the Cardinal girls tried gamely.

Janie Roddy posted 21 points to lead Ira. Carolyn Rogers added 15, Jan Kruse 12 and Neva Payne six points. For Hermleigh, Sharon Pieper had an outstanding game, netting 23 points. Susan Peterson added 19, but 15 of her total resulted from free throws. Jane Wall scored five, and Wilma Stirl meshed two points.

Ira's guards — Pam Jones, Peggy Solomon and Debbie Sterling — did an outstanding job. Gail White also made valuable contributions in a reserve guard role. Hermleigh's guards — Mary Hudgins, Ramona Adams and Dolores Schwartz — also put forth a top effort.

Next Friday, the Bulldogs host Highland. Ira's girls now are 12-1 in district play.

IRA GIRLS (54) — Rogers 5-5-15; Roddy 6-9-21; Kruse 2-8-12; Payne 3-0-6; totals 16-22-54.

HERMLEIGH GIRLS (49) — Pieper 10-3-23; Wall 1-3-5; Peterson 2-15-19; Stirl 1-0-2; totals 14-21-49.

Ira Girls	8	16	13	17—54
Herm. Girls	10	13	7	19—49

IRA BOYS (69) — Hester 11-2-24; Williams 9-3-21; Cox 5-1-11; Crawford 1-3-5; Payne 3-0-6; Sellars 1-0-2; totals 30-9-69.

HERMLEIGH BOYS (56) — Roemisch 7-2-16; Ward 5-3-13; Peterson 5-1-11; Hess 2-4-8; Vineyard 1-3-5; Rutherford 1-1-3; totals 21-14-56.

SPORTS

IN TIGER GYM

Travis, Lamar Clash Thursday

There's gonna be a real interesting basketball program at the Tiger gym Thursday. It pits Lamar against Travis with the 7th grade All-Stars to vie at 5 p.m., followed by the 8th grade contest at 6:30 p.m. and the 9th grade tussle at 8 p.m.

Admission will be 25 cents for adults and 15 cents for students.

Coaches of the various teams are Boxie Weems for Travis All-Stars and Larry McNair for Lamar All-Stars, Bill Boles for Travis 8th, Wayne Preston for Lamar 8th, John Gary for Lamar 9th and Geral Greene for Travis 9th.

The All-Star rosters include Robert Alderete, Clay Bishop, Danny Brumley, Welton Cobb, Greg Gafford, Joey Hardin, Larry Johns, Billy Murray, Alvin Neeley, Robert Ramirez, Jurelle Riggins and Orlando Vargas for Travis. And Bernie Weems, Mark McCormick, Ronnie Halford, Ricky Howell, Dennis Young, Mark Hinton, Greg Gary, Roy Lee Carter, Win Bunch, Ronnie Payne, Ricky Ator, Barry Blalock and David Watlington for Lamar.

Possible starterd for the 9th grade contest are Waters, Linder, Dyess, Holder and Hartsfield for Lamar and Washington, J. Brooks, G. Brooks, Boles and Sullivan for Travis.

Eighth grade starters probably will be Emerson, Braziel, Gonzales, Ramirez and Miller for Travis and Gorman, Richardson, Byrum, Jones and Underwood or Talbott for Lamar.

Infielder Sandy Alomar of the California Angels has one major league home run. It came on speed last June 23 in Anaheim Stadium when the hit traveled 406 feet inside the park.

TV Tear-Jerkers Popular With Mexico's Housewives

EDITORS NOTE — Will Senorita Juanita ever forget Senor Juan and find true happiness? Tune in tomorrow.... on Mexican television. The television soap operas, it seems, are as popular with Mexican housewives as they are with American daytime TV viewers.

By KELVIN KELLEGAN
Associated Press Writer

MEXICO CITY (AP) — So popular are television's soap operas that Mexico City housewives sob through 50 hours of them in prime time every week.

Produced at about $20,000 per series, they boast the country's best talent and are frequently produced on location at historic sites all over Mexico.

Different from its American counterpart, the Mexican soaper called "Telenovela" is strictly censored so as not to offend "the sensibilities of a 15-year-old."

And, whereas American soap stories seemingly grindoneendstories seemingly grind on endlessly, the Mexican version usually winds up after 50 chapters, at which point the heroine either dies or goes back to her provincial home disillusioned.

Polls conducted to determine their popularity regularly reveal soap operas capture the largest viewing audience.

And if a housewife missed a day's episode, she can see a rerun of the week of one of the series on Saturday night, competing with the Saturday night fights.

Complaints of advertising suffocation are frequent. One housewife, who timed her favorite story, found 15 minutes were devoted to ads during the 27-minute episode.

Types of soap operas are divided into two classes, according to Mexico's dean of directors, Ernesto Alonso.

"One type is for the domestic help," he said. "The other is aimed at the housewife, a higher class of viewer. My soap operas are designed for the housewife."

Mexican soap operas, recorded on videotape, are sold to a number of Latin American countries, where they enjoy c...nparable popularity.

The director of sales for Latin America for the Gian Telesistema Mexicano, producer of the programs, recalled an incident which demonstrates the drawing power of the series.

A society lady in one Latin country regularly left every afternoon to play canasta with her friends. On one occasion, however, having forgotten her gloves, she returned to the house.

She found her servant had locked up the children she was supposed to be watching so they wouldn't interrupt her tears during her favorite soaper.

The programs are so popular in the Mexican provinces, where they are an estimated seven million television viewers, that the Ministry of Interior issued what's been termed "The Eight Commandments of Soap Operas."

The "guidelines" amount to effective censorship, since the Ministry views each chapter before it is aired.

Court Turns Down Plea Of Sinatra

WASHINGTON (AP) — By a 4-3 vote, the Supreme Court has declined to bar the arrest of singer Frank Sinatra for refusing to answer a subpoena from the New Jersey State Investigation Commission.

The court Tuesday turned down the plea of Sinatra's lawyer, Bruce W. Kaufmann, who said the subpoena was illegal and the commission unconstitutionally created.

Kaufmann said the singer would be faced with false and malicious statements connecting him with organized crime and racketeering if he were to answer the subpoena, issued more than six months ago.

Andrew Phelan, executive director of the State Investigation Commission, said the court's action meant the agency is free to decide if Sinatra's case should be referred to a county prosecutor's office in New Jersey.

Effort Made To Break Impasse

WASHINGTON (AP) — A new effort was made today to break a Senate committee's impasse over voting on the Supreme Court nomination of Judge G. Harrold Carswell.

Sen. James O. Eastland, D-Miss., called a meeting of the Senate Judiciary Committee and said he expects it to agree on a time for the vote. Another source said the hope is to reach a vote Friday.

After the committee closed its hearings Tuesday on the selection of the 50-year-old judge, the nomination became entwined in a dispute over priorities—the nomination vs. electoral reform—but Eastland forecast a quick solution.

Rayon, or artificial silk, is made from wood and cotton.

Public Notice

THE STATE OF TEXAS
TO: JESSIE CARROLL JAMES, Cross-Defendant, Defendant, Greeting:

YOU (AND EACH OF YOU) ARE HEREBY COMMANDED to appear before the 132nd District Court of Scurry County at the Courthouse thereof, in Snyder, Texas, by filing a written answer at or before 10 o'clock A.M. on the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 16th day of March A.D. 1970, to Cross-Plaintiff's Petition filed in said court, on the 5th day of November A.D. 1970, in this cause, numbered 9926 on the docket of said court and styled EVA ZAY JAMES, Cross-Plaintiff, Plaintiff, vs. JESSIE CARROLL JAMES, Cross-Defendant, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Cross-action by Eva Zay James seeking divorce from Jessie Carroll James, custody of minor children of the parties, child support, attorneys' fees title to real estate, or in the alternative, the appointment of a receiver to sell such real estate, and title to automobile owned by Cross-Plaintiff and Cross-Defendant as is more fully shown by Cross-Plaintiff's First Amended Petition in Cross-Action on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Witness, ZADA D. CHAPMAN, Clerk of the District Court(s) of Scurry County, Texas.

Issued and given under my hand and the seal of said court at Snyder, Texas, this the 26th day of January A.D. 1970.

Zada D. Chapman, Clerk,
132nd District Court
Scurry County
By, Deputy

(Seal)

Career Corner

by Joyce Lain

what job would you like to see explored in this column?

"I would enjoy reading an article on airline reservationists."

What reservation sales agents say they like best about their jobs, according to the several I checked with, is the practically nonstop service in fringe benefits. Heading the goodie list is free air travel.

"I'm crazy about visiting new places," one reservationist explained, "and working for an airline gives me an 'open ticket' to the world that I never had before."

As a rule, airline employees and their immediate families receive a limited amount of free or reduced-fare transportation on their companies' flights, depending on length of service. And they may fly at much lower rates with other airlines.

Additional benefits usually include paid sick leave, retirement, insurance and hospital benefits. Foreign-flag airlines sometimes offer special bonus trips to reservationists as an inducement to recommend their flights. One girl, for instance, recently completed 10 days of unlimited foreign travel for $100.

PLANE FACTS. Reservation sales agents give flight scedule and fare information over the telephone, and make flight reservations for passengers. Reservation control agents record reservations and report to a central computer so the same space isn't sold twice. Rising passenger traffic will increase the need for reservation sales agents, but automation is reducing the demand for reservation control agents. (Many control workers are being shifted to the sales side.)

Reservation agents are mainly employed by scheduled airlines, although some work for supplemental and foreign-flag airlines. The work week is five-days, 40-hours; however, it often includes nights and weekends.

POINT OF ORIGIN. A high school diploma is generally required, and some college is desirable. You can enter this job by applying directly to personnel offices of airlines. Since airlines provide on-the-job training, always check with the airline of your choice before enrolling in a private reservationists' school.

Other qualifications include good grooming, a pleasing personality, a good speaking voice, the desire to assist people, patience, an even disposition to deal with the public, and the ability to work under pressure at rush times.

ULTIMATE DESTINATION. Typical advancement can be to supervisor, chief reservations agent or ticket agent (also called customer service agent and station agent). Some reservationists become ground hostesses in airports. Others become receptionists at airport club-member lounges maintained by some airlines to serve regular passengers. (However, it is not necessary to start as a reservationist to become a ground hostess or club receptionist.) Still other reservationists decide to work for travel agencies, or traffic departments of big corporations.

HOW YOU'LL FARE FINANCIALLY. Currently one major airline starts reservation sales agents at a $535 per month base pay, and progresses to $725 at the senior but nonsupervisory level; other airlines vary. The same airline pays ground hostesses between $510 and $685 a month, and club receptionists between $590 to $790 a month.

CHOW TIME — Zoo keeper Lucy Neilson feeds two four-year-old Costa Rican deer that were born at the Crandon Park Zoo at Key Biscayne, Fla. Lucy takes the twin fawns home every evening to care for them. When full grown the deer will be about three-feet tall and weigh about one-hundred pounds. (AP Wirephoto)

Draft Lottery Changes Are Requested By Subcommittee

By WILLIAM J. WAUGH
Associated Press Writer

WASHINGTON (AP) — A Senate subcommittee has called for sweeping executive and legislative changes in the Selective Service system to make the draft fairer and more uniform.

The subcommittee, headed by Sen. Edward M. Kennedy, D-Mass., called on the Nixon administration Tuesday to end occupational deferments immediately, student deferments in time of conflict, abolish state and local quotas, establish a uniform national policy and kick the military out of the Selective Service system.

"Of necessity," the subcommittee report said, "the military traditionally operates with less regard for individual rights and procedural niceties than we expect and require in civilian life."

The report suggested Congress consider the need for a selective conscientious objector status.

One committee witness proposed a draftee seeking such status should be "required to undergo noncombatant service of comparable risk to that undergone by draftee" and if this were not possible "to serve for a longer time."

The report said the lottery of last Dec. 1 which used birthdates to determine order of callup did not actually achieve random selection.

"Instead," the report said, "birthdays from the end of the year were disproportionately near the top of the induction order."

The subcommittee concluded that "such disparity is extremely significant and must stem from the failure properly to mix the capsules containing the birthdates."

As a result, the report recommended that future random selection be achieved by use of computers.

The report said only hardship and high school deferments should be continued in time of conflict.

The report suggested the administration could restructure the system into a consolidated selective service system.

This would include a national headquarters to establish policy, eight regional offices to monitor uniform application and 300 to 500 area offices to "register and classify young men."

The subcommittee said the director and the staff of the system should be civilian, and the director should be limited to two terms of five years.

Included in the subcommittee's recommendations was the suggestion of a detailed appeal procedures that would permit a registrant to have counsel and call witnesses.

Work Is Underway Here For Ranch Headquarters

The Ranch Headquarters organization of the Snyder Area is continuing its process of organizing. Memberships have been coming in steadily since last Sept. 20.

There will be several units of the Ranch Headquarters, Snyder Area, with units for research, today's ranches and others among those which already have started some work.

The Research Unit met Saturday and Jerry Rogers of the Texas Tech Ranch Headquarters came to meet with the local group and tell them of the immediate needs of the project of restoring ranch headquarters at the museum at Tech. The Snyder Area unit had located several windmill towers for Rogers to inspect. The unit found these towers following publication of an article in the Snyder Daily News about the museum needing such articles.

This group also will work with the local Historical Survey Committee in every way possible. The unit will work on the history of the land and the people who settled here in trying to establish an authentic picture of their way of life as to buildings, water facilities, conveyances, provisions for households, equipment for the everyday work, medical needs of the family and all the different items required for early-day ranch life.

Each unit has brought books, art, photos, etc. The unit for art will begin work soon and among the materials will be furnishings of households, literature, music, art, equipment for outside work.

The Today's Ranch unit will be made up of people interested in making this Ranchers Area a good one today. The 1970 heritage is being made made now, it was pointed out and the area wants to leave a job well done. The records of progress of this year will tell the people of the next generation about the period. A meeting has been called for 7 p.m. Feb. 9 at the Snyder National Bank Community Room to discuss current and future needs of ranchers and farmers of the area.

Are there adequate facilities for stock shows, rodeos, horse shows, cutting horse events, roping, etc? These are a part of the ranchers' and farmers' interests.

DAs To Meet In Houston

HOUSTON (AP) — Between 500 and 900 district attorneys from across the nation are expected to gather in Houston in mid-March for the national District Attorney's Association mid-winter conference.

The conference will open March 17 and closes March 21.

Services Set For Judge A. A. Semaan

SAN ANTONIO (AP) — Funeral services will be held Thursday for 175th Dist. Judge A. A. Semaan, 62, who died of a coronary attack Tuesday.

Semaan was one of the authors of the revised Texas Criminal Code of Procedures and served in 1965 and 1966 as chairman of the State Bar of Texas section on criminal law.

Before his appointment to 175th Dist. Court in 1967, he presided as a justice of the peace in the big downtown Precinct 1 here.

He was so cooperative with the press and television cameramen while a justice of the peace that this Precinct 1 courtroom earned the reputation of "Studio 1."

Semaan changed all that when the U. S. Supreme Court granted Billie Sol Estes a new trial because of television coverage. He banned the cameras and said his courtroom would be off limits to them until further court decisions were made on the issue.

Former Gov. John Connally appointed Semaan to fill the unexpired term of Judge John Onion in January of 1967 after Onion was elected to the Texas Court of Criminal Appeals. The San Antonio native was elected without opposition to a full term in 1968.

In Austin, Gov. Preston Smith said he would let the voters decide on Semaan's successor. The filing deadline for candidates was extended to April 7.

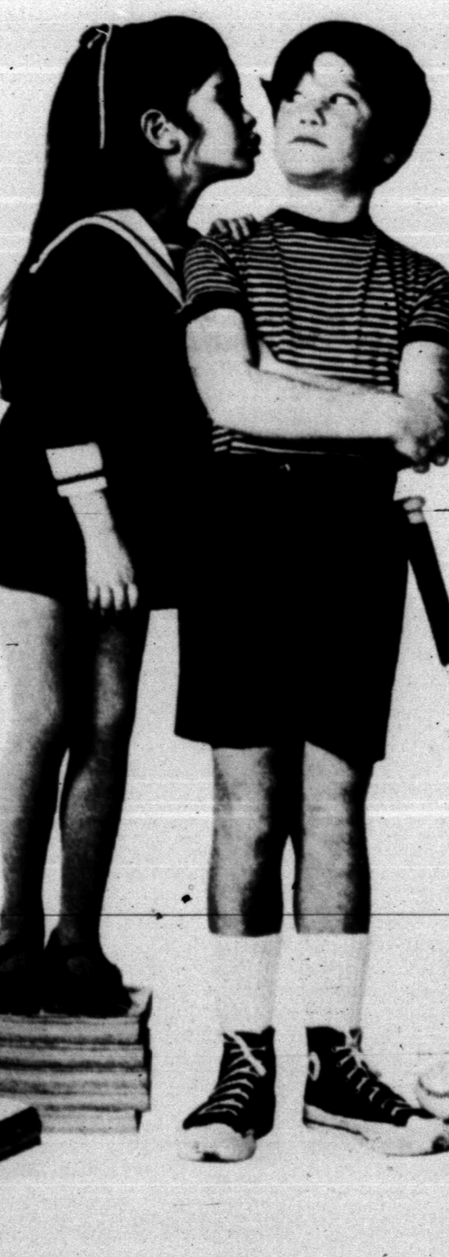

All local district, county and justice courts will be closed Thursday in Semaan's memory.

The son of a Syrian immigrant, Semaan was named Anees Armeen but he preferred his initial only. His brother, Fred Semaan of San Antonio, is a prominent criminal attorney, and they once practiced law together.

Other survivors include his widow, a stepson, three sisters and two grandchildren.

Top Dressing Time For Small Grains

Top dressing time for small grains is at hand and is a job that should be done on time, reminds County Agent Billy Roach. Adequate soil moisture, at the time of application, usually insures a good response from the plant food.

If early planted small grains have been grazed, it is reasonable to expect that all or most of the originally applied nitrogen has been used by the crop. If forage yields have been checked, or a protein analysis obtained, it is fairly easy to determine how much nitrogen has been used by the crop so far.

As a general rule, points out the county agent, for every ton of 12.5 percent protein forage produced, 40 pounds of nitrogen are required.

Top dressing should be done within the next month with 30 to 50 pounds of nitrogen per acre depending upon the condition of the crop and earlier fertilization. Application should be made as soon as field conditions permit, advised the county agent.

Nitrogen rates of 60 pounds or less per acre do not increase the chances of nitrate poisoning in livestock. Cloudy weather, on the other hand, is the chief contributing factor to excessive nitrates in plants.

T-Trace

Snyder Students Are On Dean's List

ABILENE — The Dean's List of first semester honor students at McMurry College was announced by Dr. Porter Crow, dean of faculty.

Sandra Fritz and Joseph Landrum from Snyder were among those named to this select group which represents top 10 per cent of the student body. In order to be named to the Dean's List, a student must have at least a 3.5 grade point average.

COMPLETES COURSE — Army Capt. Gary E. Furnace, son of Mr. and Mrs. William W. Furnace, 2405 Fortieth Street, completed an Ordnance Officers Advanced Course at the U. S. Army Ordnance Center and School, Aberdeen Proving Ground, Md. During the nine-week course, he received instruction in all areas of Army Ordnance and was trained in supply and maintenance operations.

SHS Senior Gets Post At College

LEVELLAND — Danny Ellington, senior at Snyder High School, has been named South Plains College Student Director of Sports News and Information. He will assume his duties with the beginning of the Fall semester in August.

Ellington is vice president of Snyder High School Student Council and is sports editor of the high school newspaper, the "Tiger's Tale."

During the time he has served as sports editor of the paper he has been rated as one of the top four writers in the state in sports columns, according to Texas High School Press Association. In the straight sports story contest he was judged one of the top four in the state, also.

The "Tiger's Tale" was judged state champion by THSPA in December with a score of 197 out of a possible 200. The sports section was given a perfect score. Last year's "Tiger's Tale" was state co-champion with THSPA. The paper has also won other state and national awards.

Ellington is a two-year member of the National Honor Society, with a grade point average of approximately 92. He is a member of the Quill and Scroll Club and a member of the yearbook staff and is a school photographer.

Ellington will cover all sports events of South Plains College, making trips with the teams and sending in news releases to all news media. He will also channel news to the SPS Public Relations Office and serve as sports editor on the college newspaper, "The Plainsman Press."

GARZA AWARD WINNER — John Ward of the Polar community has been named Garza County's Outstanding Young Farmer of the year 1969 by Post Jaycees. He will compete in the state OYF contest in Lubbock this weekend. His progress in agriculture and in soil and natural resource conservation, along with civic and social contributions were cited. Ward is married to the former Nonnie Rodgers. Both are graduates of Snyder High School and they have a 13-month-old daughter, Leslie.

BIRTHS

Mr. and Mrs. Roger Williams, Gail, are the parents of a 6 lb. 13 oz. baby girl, born at 6:15 a.m. Feb. 3.

Snyder High Grad To Receive Degree

SAN ANGELO — A Snyder man, Kenneth D. Burns, has completed all requirements for the Bachelor of Science degeee at Angelo State University. The degree will be conferred during ASU's 1970 commencement exercises May 23.

Burns majored in elementary education at ASU. He graduated from Snyder High School in 1953. His parents are Mr. and Mrs. Phil Burns.

SNYDER DAILY NEWS **Readers: This INTRODUCTORY OFFER brings you**

$400.00-A-MONTH EXTRA CASH WHENEVER YOU GO TO THE HOSPITAL

Your entire family protected for a full month FREE!

No obligation on your part—continue after first month, *only if you wish*, at low rates shown below.

- ★ **Pays you extra cash at the rate of $400.00 a month for each hospital stay**
- ★ **Guaranteed Renewable for Life. At last—a hospital plan that guarantees never to cancel your protection no matter how old you get or how many claims you make**
- ★ **Pays all cash direct to you (not to doctor or hospital)**
- ★ **Pays in addition to any other companies' coverage you have—including Medicare**
- ★ **No age limit. No medical examination required**
- ★ **No salesman will call**

SEND NO MONEY—BUT MAIL YOUR ENROLLMENT FORM BY MIDNIGHT, THURS., FEB. 5, 1970, OR IT CANNOT BE ACCEPTED

ONE out of two families will have someone in the hospital this year! It could be you—or some beloved member of your family — tomorrow . . . next week . . . next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years. They are expected to *double again* in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, phone, food, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in the famous Extra Cash Plan that . . .

Pays you $400.00-a-month tax-free cash whenever you are hospitalized.

What a blessing it is when you know you have an extra $400.00 cash coming in every month—beginning the very first day you enter the hospital.

Now, this low-cost Plan, from National Home, enables you to enjoy this protection at once, *FREE*. Yes, we will provide the first month's coverage for your entire family without cost . . . to prove the value of this wonderful extra-cash protection for you and your loved ones. Then, *if you wish*, you may continue at the low rates shown below.

The added protection you NEED!

All benefits of this $400.00-A-MONTH National Health Plan are paid directly to you, in tax-free cash, *in addition* to whatever you may receive from your insurance with any other company! Spend the money as you see fit—for hospital or doctor bills, mortgage payments, to replace savings—or any necessary but costly extras *not* covered fully by *usual* hospital policies.

Everything costs more these days (need we tell you?) and hospital care is certainly no exception! While 7 out of 8 Americans have *some* hospital insurance, most have found it does not cover *all* bills that pile up when sickness or accident strikes. That's why National Home developed low-cost Extra-Cash Protection that helps you pay hospital costs or other expenses.

You get your $400.00 per month TAX FREE from your first day in the hospital, and as long as you are confined there, even for life, if necessary. *And*, when you and your insured spouse are hospitalized *at the same time for an accidental injury*, this National Health Plan pays you an EXTRAORDINARY DOUBLE-CASH BENEFIT. *You* receive not $400.00 but $800.00 a month. *Your spouse* receives not $400.00 but $800.00 a month. That's *$1,600.00 in all, in cash payments to you (when under age 65) every month starting the day you go to the hospital for as long as you both remain there.*

PAYS $400.00-A-MONTH CASH for each accident or illness — beginning the very first day in the hospital *and continuing for life, if necessary!*

PAYS $200.00-A-MONTH CASH for the first three months, if you're over 65. And, a full $400.00-A-MONTH CASH thereafter—*even for life!*

PAYS $1,600.00-A-MONTH CASH when both husband and wife are hospitalized at the same time (when under age 65) for accidental injury for as long as both remain in the hospital —*even for life!*

PAYS up to $2,000.00 CASH for complete accidental loss of limbs or eyesight.

PAYS $400-A-MONTH CASH for each pregnancy requiring a hospital stay, when both husband and wife are insured and have Coverage for Children and Maternity Benefits. Coverage begins the very first day in the hospital.

PAYS $400.00-A-MONTH CASH for a Registered Nurse if your doctor has you hire one within five days following a covered hospital confinement of five days or more.

65 OR OVER? YOU COLLECT IN ADDITION TO MEDICARE BENEFITS.

We have designed this Plan as the important addition to whatever is paid by Medicare—or health insurance you may have with any other companies. Remember, all checks will be sent directly to you (not to the doctor or hospital) to give you that "extra" help just when you need it most. Use the tax-free cash any way you see fit. And you will be glad to know the checks will be big ones! In addition to any benefits you may receive from Medicare, National Home pays you $200.00 a month for the first 3 months, and a full $400.00 monthly while hospitalized thereafter . . . *even for life, if necessary!*

We can never cancel your Policy!

You can count on this wonderful protection no matter how old you get or how many times you collect from us. Your Policy guarantees that we cannot cancel your protection after you've made a lot of claims or become old—or for any other reason whatsoever. It is GUARANTEED RENEWABLE FOR LIFE!

And that's not all. Suppose you have a growing family, this Plan (NH-10-669)...

Pays you $400.00-a-month cash Maternity Benefits!

Ordinary hospital insurance may take care of part of your expenses when you go to the hospital to have a baby. But what policy can you think of that gives you cash to help buy all the things you need for the new baby? When both parents along with their dependent children are covered by this Plan, a Maternity Benefit can be added to your basic Policy. Now, if both husband and wife are insured, you get extra cash to use any way you wish. If a pregnancy, childbirth or even miscarriage puts you in the hospital for one day, five days, 10 days—as long as necessary—you are paid for *every day of your confinement* at the rate of $400.00 a month.

All these added cash benefits.

Added cash benefit: Up to $2,000.00 cash for accidental loss of limbs or eyesight, when the loss occurs any time within 90 days of the accident. The loss of a limb or eyesight is terrible. Nothing can replace the loss, but a $1,000.00 or $2,000.00 check helps bring peace of mind during the period of adjustment.

Added cash benefit: Choose Coverage for Children (with or without Maternity Benefits) and *all* your dependent, unmarried children from age one month through 18 years will be covered, too! National Home pays at the rate of $240.00 a month, when your youngster is hospitalized . . . for removal of tonsils, appendix or any other illness or injury. Yes, you will receive $240.00-a-month cash, month after month, while the child is in the hospital.

Added cash benefit: If your doctor says you need a Registered Nurse full-time within five days after you come home and such a nurse is actually employed, we'll pay you benefits of $400.00 a month. These extra benefits continue for the same number of days that you were in the hospital—even up to 12 full months and total payments of $4,800.00!

We pay your premiums when you are not able.

Should you—the person to whom the basic Policy is issued—be hospitalized for 8 weeks or more, National Home will pay all premiums that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. Then, if you leave the hospital and must return for the same condition before you have resumed full normal activities for 90 days, we will again PAY ANY PREMIUMS WHILE YOU ARE IN THE HOSPITAL for the total confinement! This means you pay no premiums, yet your full protection remains in force.

These are the ONLY exclusions!

Your National Health Plan Policy covers every kind of sickness or accident except conditions caused by: act of war; any mental disease or disorder; pregnancy, *except* as provided under the Maternity Benefit provision; and expenses resulting from any sickness or injury you had before the Effective Date of your Policy . . . during the first 2 years only.

This last item is a real help if you already have a health problem. If you are sick before you take out this Policy, you will even be covered for that condition after the Policy has been in effect for 2 years. Meanwhile, of course, every new condition is covered immediately.

Nationally known and respected.

This is the kind of outstanding protection you have read about in *Reader's Digest, Parents', National Geographic* and other leading publications. The special plans offered by the National Liberty Corporation group of companies are today helping policyowners in all 50 states—and many foreign countries—paying benefits at the rate of more than one million dollars a month.

Grateful Policyowners write . . .

"Received your check for $880.00. I appreciate having the money sent directly to me so I could decide how to use it." NICHOLAS CRISTL, Green Bay, Wisc.

"It was wonderful to receive your check for $555.00. I'm very pleased. It paid real well." MRS. BESSIE GEISINGER, Kansas City, Mo.

"Everyone should have your coverage. I know I wouldn't be without it." WALTER TUCKER, Fayetteville, N.C.

Make your decision carefully.

Think how costly a hospital confinement will be. Imagine paying for those indispensable doctor, surgical and nursing services that are not covered by your present insurance.

Would you be able to afford the quiet and privacy of a private room and a private nurse, should you so desire? Or a telephone to keep in touch with loved ones? Or the rental of a TV set to help pass the lonely hours? Who would pay your bills that keep on coming in at home? Many folks have lost their life savings, their cars, even their homes trying to meet runaway hospital and medical costs. And no one knows whose turn it will be next.

Why you must act before the date shown on your Enrollment Form—just a few days from today.

Why do we give you so little time to enroll in this Plan—only a few days? Because this is a limited Enrollment Period—and we must receive your Enrollment Form *at the same time as all the others* in order to pass on to you the savings that come from processing many policies at one time. This highly efficient "mass enrollment" method enables us to give you the broadest coverage at the lowest cost.

We mail you the Policy as soon as we receive your Enrollment Form. When the Policy arrives, examine it in the privacy of your own home. Take all the time you need. It's a very short document, and you'll be pleasantly surprised to discover there is NO FINE PRINT. Then—show it, if you wish, to someone you trust. Perhaps your lawyer, accountant or doctor. Better still—show it to your own insurance man . . . even though he may be working for another company! If he is a personal friend, he has your best interests in mind. So you can believe him when he tells you there is no better bargain available anywhere—at any price!

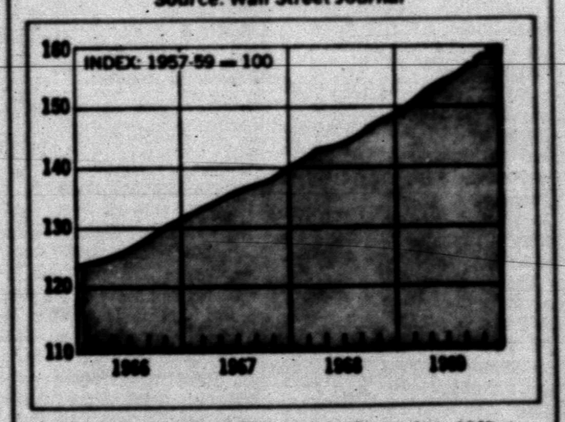

THESE IMPORTANT QUESTIONS AND ANSWERS

tell how this National Home's EXTRA CASH HOSPITAL PLAN gives you the protection you need—at amazingly low cost!

1. **How much will my Policy pay me when I go to the hospital?**
   $400.00 per month. If you're over 65, you collect on top of any *Medicare* benefits. $200.00 a month for the first 3 months, and $400.00 monthly while you remain continuously hospitalized afterwards. You collect cash not just for yourself, but for all Covered Members of your family when they are hospitalized!
2. **If I'm hospitalized less than a month—do you still pay cash benefits?**
   Yes! We pay you for every day you're in the hospital. And there's no "waiting period" before you start collecting.
3. **When do I collect $2,000.00 extra cash for accidents?**
   We pay you $1,000.00 extra cash for complete accidental loss of one hand or one foot or sight of one eye, and $2,000.00 extra cash for loss of both hands or both feet or sight of both eyes—even if the loss occurs as long as 3 months after the accident.
4. **Suppose I am paid benefits for any sickness or accident. What happens if I am again hospitalized for the same condition?**
   Don't worry! You still collect the regular cash benefits provided by your Policy for as long as your confinement lasts.
5. **Will you pay $400.00 a month—even for maternity care?**
   Yes! Many health plans don't cover pregnancy. But we do, when both parents are enrolled and have added Coverage for Children and Maternity Benefits to the basic Plan. You collect cash benefits at the rate of $400.00 a month for any pregnancy, childbirth or miscarriage that results in a hospital stay.
6. **Do you pay me cash when my children go to the hospital? Will any children we have in the future be protected, too?**
   You collect $240.00-a-month cash any time your child goes to the hospital, when Coverage for Children is added to the basic Plan . . . each time any dependent, unmarried child (age 1 month through 18 years) is in the hospital for sickness or injury. And if you have a growing family—as soon as your newborn child is one month old, he, too, is covered—automatically . . . at no additional cost to you.
7. **May I enroll if I am 65 or over?**
   Yes, you may. Folks any age are welcome to enroll—there is no age limit! Members 65 or over—even over 100—are paid $200.00 a month for the first three months, and a full $400.00 a month thereafter. Naturally, it's in addition to Medicare.
8. **Am I ever allowed to stop paying premiums during a long stay in the hospital—yet still remain fully covered?**
   Yes, you are. Should you—the person to whom the basic Policy is issued—be hospitalized for 8 weeks or more, this National Health Plan will pay all premiums that come due for you and all Covered Members of your family while you are confined to the hospital beyond the initial 8-week period. You aren't expected to pay us back, either.
9. **How do I go about submitting a claim?**
   We invite you to contact Cash Benefits Headquarters direct. Whether you want to submit a claim or just ask us a question, don't hesitate to contact us. As a National Health Plan member, you are entitled to prompt, courteous and direct attention at all times . . . and you will get it.
10. **Does this Plan pay in any hospital?**
    You will be covered in the hospital of your choice except a U.S. Government hospital or a nursing or convalescent facility.
11. **Now tell me what's the "catch"—what doesn't my Policy cover?**
    Get ready for a welcome surprise. Your Policy covers everything except conditions caused by: act of war; any mental disease or disorder; pregnancy, except as provided under the Maternity Benefit provision; and any sickness or injury you had before the Effective Date of your Policy—but even this last "exclusion" is done away with after you've been a policyowner for only two years. Everything else is definitely covered.
12. **What are the requirements to enroll in this Extra Cash Hospital Plan?**
    You must not have been refused or had cancelled any health, hospital or life insurance due to reasons of health; and, to qualify during this Enrollment Period—you must enroll before midnight of the date shown on the Enrollment Form.
13. **Besides saving money—are there any other advantages of joining National Health Plan during this Enrollment Period?**
    Yes. A very important one is that you don't need to complete a lengthy, detailed application—just the brief Enrollment Form in the corner of this page. Also, during this Enrollment Period there are no extra requirements for eligibility, and no "waivers" or restrictive endorsements can be put on your Policy!
14. **How do I enroll?**
    Send no money. The first month's protection for your entire family is FREE! Simply complete and mail the brief Enrollment Form to: National Health Plan, Valley Forge, Pa. 19481

Medical Costs Skyrocketing!

Source: Wall Street Journal

MEDICAL CARE COSTS rose in September, 1969, to 157.6% of the 1957-59 average from 156.8% a month earlier. These costs are components of the Government consumer price index.

HERE ARE YOUR LOW RATES.

The following rate chart shows how little it costs, after the first month, to protect yourself, your spouse or any other adult dependent. Each adult, 16 or over, pays the rate shown for his or her age. Naturally, at these low rates, we can issue you only one policy of this type.

Age at Enrollment	Monthly Premium per Adult
16-44	only $3.45
45-49	only $3.95
50-54	only $4.45
55-74	only $4.95
75-79	only $5.95
80 and over	only $6.95

Only $1.90 more per month covers all your dependents . . .

from the age of one month through 18 years. And then if you wish, just add 95¢ monthly to that, and you're covered for Maternity Benefits, too! Newborn children are covered *automatically* at the age of one month—at no additional cost!

NOTE: The regular monthly premium shown here (for age at time of enrollment) is the same low premium you will continue to pay; it will not automatically increase as you pass from one age bracket to the next! Once you have enrolled in the National Health Plan, your rate can never be changed because of how much or how often you collect from us—or because of advanced age—but only if there is a general rate adjustment, up or down, on all policies of this type in your entire state!

Act NOW—"Later" May Be Too Late!

Your family is protected for entire first month —FREE!

TIME IS PRECIOUS! Act quickly. (No salesman will call.) Get your Enrollment Form into the mail *today*—because once you suffer an accident or sickness, it's TOO LATE to buy protection at *any* cost. That's why we urge you to act today —*before* anything unexpected happens.

NO-RISK OFFER

We will send your National Home Policy by mail. Examine it carefully in the privacy of your own home. Show it, if you wish, to your own insurance agent, doctor, lawyer or other trusted adviser. If you decide, for any reason, that you don't want to continue as a member of this Plan, return the Policy within 15 days after receiving it, and you will be under no obligation of any kind. Meanwhile, you will be fully protected while making your decision.
